

VOTE TO REPEAL RECIPROcity ACT

Senate Passes Bill To Cancel The Offer PRINT PAPER TARIFF

Amendment to Excise Tax Bill Adopted in Upper Chamber Would Charge Rate of Two Dollars per Ton.

Washington, D.C., July 26.—The senate by a vote of 27 to 18 passed the house excise tax bill which would extend the corporation tax law to individuals and co-partnerships on incomes in excess of \$5,000.

The excise measure would levy upon all persons, firms or co-partnerships an annual tax equal to one per cent of net income in excess of \$5,000.

The chief fight, aside from the centering about Senator Borah's income tax measure, came upon the Canadian reciprocity amendment offered by Senator Gronna, of North Dakota.

The amendment adopted by the senate 37 to 26, provides for the complete repeal of the reciprocity law, and for an establishment of a rate of \$2 per ton on print paper imported from Canada, in place of the present duty of \$2.50.

The text of the provision fixing a new tariff on paper is as follows: "That from and after the passage of this act the duty on chemicals, wood pulp shall be one-eighth of one per cent per pound, dry weight, if unbleached, and one-eighth of one per cent per pound if bleached; and the duty on printing paper, as described in paragraph 4 of the act approved August 5, 1909 (the Payne-Adrich Tariff Law), shall be one-tenth of one per cent per pound, and not above 3 cents and not above 5 cents per pound, and 7 1/2 per cent ad valorem if valued above 5 cents per pound."

The portion of the reciprocity law now in effect, which admits paper from Canadian provinces, which do not discriminate against the United States, was defended by Senators Williams, Bacon, Smith, of Georgia, and other democrats. They declared the free paper provision of the reciprocity law should be allowed to remain in effect, and said under such an arrangement they would be glad to support a repeal of the balance of the law. Senator Bacon finally offered an amendment to repeal all of the reciprocity law except free paper section, which was defeated 17 to 27—Bristow, Clapp, Poindexter and Works being the only progressives who voted for it.

The Gronna amendment was then adopted.

CONDUCTOR TAKEN IN CUSTODY ON CHARGE OF MANSLAUGHTER

J. W. Boutlier Ejected Drunk from Car and Afterwards Ran Over Him at Same Point on Line.

Special to The Standard. Sydney, N. S., July 26.—J. W. Boutlier, a conductor employed by the C. E. Electric Co., was arrested at Sydney today on a charge of manslaughter. Boutlier put a man under the influence of liquor off his car between Sydney and Glace Bay last week. The man was run over and killed about the same place by the same car returning to Sydney.

Crown prosecutor D. A. Hearn began an investigation with the result that Boutlier was arrested. The crown officers are also proceeding against Frank Tobin of New Waterford, a shot firer in one of the pits. He allowed his assistant, one Caulford, to connect a shot which went off before the latter could get away and killed him. The coroner's jury brought in a verdict charging negligence against Tobin. He was sought by constables today but could not be found.

DIAZ NOT ILL.

Paris, July 26.—Reports circulated in Mexico City today that ex-President Porfirio Diaz is seriously ill are untrue. On the contrary General Diaz is in good health.

CHANGE KID AND BOY WITH JEWEL THEFT

Scotland Yard Officials Say He Robbed Russian Princess.

Held in London Without Bail—Friends of Prisoner Claim He Left Prior to Date of the Crime.

London, July 26.—"Kid" McCoy, the American boxer, was arrested today on provisional extradition warrant and brought up at Bow Street police court on a charge of larceny alleged to have been committed at Ostend, Mastratrat. De Rutzen remanded him without bail.

McCoy informed the magistrate that he was entirely ignorant of the charge against him, but Mr. De Rutzen refused to grant bail till he had heard the particulars of the charge which have not yet arrived here.

According to the Scotland Yard authorities McCoy is suspected of being implicated in a jewel robbery at the Grand Palace Hotel, Ostend. They admit, however, that the only evidence they have against him thus far is that McCoy had been seen in the company of suspects. McCoy's friends declare that he left Ostend before the robbery was committed.

The Scotland Yard officials say that the person robbed at Ostend was a Russian princess, who was staying at the Grand Palace Hotel. Their story is that the princess, who was followed from Russia by a gang of thieves who engaged an adjoining room and sent her a message during her absence. They secured a case containing jewels valued at \$50,000, but in their hurry overlooked a larger case.

The officials at Scotland Yard say that a man known as "Squeezer" Kamek and a woman companion already have been arrested at Ostend for alleged connection with the crime. McCoy, it was declared, recently was a guest at the Grand Palace Hotel with a party of friends.

The only large robbery reported from Ostend recently was that of the property of the Princess of Thurn and Taxis, who, it is said has jewels valued at \$60,000 stolen from her in a hotel there.

The Princess was Miss Nichols of Canton, Penna. She was divorced in Pittsburgh in 1906 from General Gerald Fitzgerald, of Ireland, and last November at the home of her mother in Ulinton, married Prince Victor of Thurn and Taxis, a member of the Hungarian branch of his family.

METS CLOSING AROUND GANG

"Bridgie" Webber on Hand at Rosenthal's Murder, Held for Coroner's Inquest—Evidence at Yesterday's Trial.

No York, July 26.—Testimony that "Bridgie" Webber, in whose gambling house the murder gang which killed Herman Rosenthal is said to have congregated for the assassination, and Jack Sullivan, alleged go-between for certain of the police and gamblers were in front of the hotel Metropole at the time Rosenthal was slain, was given in the coroner's court today. This member of the gang who was held as a material witness, was re-arrested on a charge of homicide and Webber was held without bail for the coroner's hearing that he saw the assassin. Two men sat in the "murder car" while four others who stood nearby shot Rosenthal. Crese identified Webber as one he had recognized on the scene and pointed out Sullivan as having been given immediately after the shooting.

John Reiser, known in the Tenderloin as "John the Barber," testified that he had seen Webber near the Metropole after the shooting and that "Bridgie" was running.

WANTS BRITISH MINISTERS TO REPEAL THE LAW OF CANALIANS

London Times Makes An Interesting Suggestion

WOULD KNIT IMPERIAL TIES CLOSER

British Journal Plans Trip to Dominion for Mr. Asquith and Mr. Churchill--Points to Necessity of Delay in Announcement of Policy.

London, July 26.—An interesting suggestion was made by the Times in an editorial today.

"It would be unbecoming," it says, "for Mr. Borden to announce his policy on so large and momentous a matter as Canada's contribution to the navy anywhere but in the Canadian parliament. There are few things we can suppose which would more surely deepen the effect of his statement when it comes and do more to knit yet more closely the ties which link us here and his conferences with ministers in honor of the Canadians by the Franco-American committee on Tuesday.

The Standard's Paris correspondent notes the arrival of Mr. Pelletier here, and announces that Premier Poincaré will preside at a luncheon given in honor of the Canadians by the Franco-American committee on Tuesday. The correspondent also sends the news published in L'Estimoteur.

Francio-Canadian Relations. "England," it says, "cannot do otherwise than foster the Franco-Canadian sympathies which is an excellent sympathy for her. The more love Canada bears toward France, the more France will love Canada, and British ships will help to defend France, whilst some days the united forces will join in battle against common foes."

"When that day comes and British Dreadnoughts are sent to the Canadian coast, it will not only be for the honor and interest of Old England, but for the glory and safety of our country. In building battleships for the United Kingdom, Canadians will prove faithful sons of both their native land and of their mother France."

The Pall Mall Gazette tonight says: "There probably exists in the mind of many people the idea that to welcome the desire of the Dominions to join in the work of naval defence, requires us from the need to make supreme efforts, which political strategists do not obviously demand. In this matter, Canadian opinion is of the highest importance, a fact hinted at yesterday by Mr. Hazen in a most delicate way."

"We warmly appreciate the repeated manifestation of solidarity which naval anxieties of the past few years have called forth, but it is not for us to discuss what the Dominions will or will not do, or take their good intentions into account in estimating our duty. There is too much babble and gush over the action of Canadian ministers, to be helpful to them or agreeable to Canadian people."

MANUFACTURERS TO SEND LARGE SUM TO REGINA FUND

Twenty-five Thousand Contributed by Association and Private Members—Will Confer With Mayor.

Toronto, July 26.—Twenty-five thousand dollars will be sent by the Canadian Manufacturers' Association to the Regina relief fund. Of this \$18,000 is officially given and the remainder through private subscribers. During his western visit to the board of railway commissioners, Jas. E. Walsh, of the transportation department, will confer with the mayor of Regina on the expenditure.

RAILWAYS CAN'T AFFORD TO CUT PROFITS FINER

Cannot Advance Wages of Engineers Without Securing Compensation in Form of Increased Rates—Shareholders Demand Interest on Investments and Cost of Operation is Constantly Soaring.

New York, July 26.—James McCrea, president of the Pennsylvania Railroad, was today called as a final witness by the Board of Arbitration at Manhattan Beach by counsel for the Erie, the New York, Susquehanna and Western east of Chicago which are opposing the first demands of the locomotive engineers for an increase of 17 per cent in wages.

Mr. McCrea made a strong plea for a carefully prepared opinion by the members of the board setting forth their reasons for whatever award they decide to make.

He said: "As well as those directly interested, the entire country is expecting the commission to treat very fully the situation as a whole. The railroads are in this position: their rates are controlled by government regulation. The rates are at a standstill, in fact are being constantly reduced, while fixed expenditures, in the way of taxes, special provisions made by special legislation, whether calling for the safety and comfort of the public or what they deem right, are constantly increasing and are burdens over which they have no control. I do not complain of many of them, but at the same time with your sources of income controlled, and many of your fixed expenditures likewise being controlled, the question of additional cost of labor is a most serious one.

Profits Diminishing. "Figures have been presented, I think, with sufficient clearness, to make it evident to you that the margin is constantly decreasing between the income and the outgo. The railroads have to consider how they are going to provide the additional capital that is required to make the improvements that the public demand, and which the strikers refuse to stop the highways of this country to exercise it.

"There is no law to cover the action or determine the responsibility of leaders who possess this great power, and who have repeatedly stated their intention to exercise it. If the common carriers are responsible to the public as operating agents why should not employees organized or otherwise be held responsible to some extent to perform their duties to the public as part of the complete transportation system."

Mr. Stuart said the effect of the new wage schedule, if allowed, and if collateral advances to other employees followed, would result in a 10 per cent increase in the cost of the Western and the New Jersey and New York railroads being unable to pay their fixed charges. This, he said, would result in bankruptcy.

Mr. Stuart said: "Organized labor has been growing more powerful and is now controlled by able and aggressive leaders. The power vested in the labor leaders with the consequent responsibility is alarming. In the past five years the company I represent has received five strikes voted. The leader in charge claimed he had the power to stop the highways of this country and expressed his intention to exercise it.

"There is no law to cover the action or determine the responsibility of leaders who possess this great power, and who have repeatedly stated their intention to exercise it. If the common carriers are responsible to the public as operating agents why should not employees organized or otherwise be held responsible to some extent to perform their duties to the public as part of the complete transportation system."

Wife-beater Swallows Carbolic Acid and Dies On Way to Hospital—Ambulance Stopped at Morgue.

Hamilton, July 26.—Standing before Magistrate Jells at the King William street police court this morning, Harry Gilmore, 30 West Burlington street, swallowed carbolic acid and died before he reached the city hospital.

Gilmore had been summoned to appear on a charge of assaulting his wife. Just as he had been found guilty he lifted the vial to his lips. Officers hurried him to the auto ambulance. With a couple of doctors working over him he was rushed to the hospital. The ambulance stopped at the hospital morgue, however, as Gilmore passed away.

SAMUEL WILLINKSI, MURDERER, BREATHE HIS LAST ON GALLOWES

Shot Husband of Woman who Caught His Fancy and Pays Extreme Penalty of the Law.

MacLeod, Alb., July 26.—Samuel Willinski was executed at the Royal North West Mounted Police barracks here at 7:30 o'clock this morning for the murder of George Lankatoos, a fellow miner, at Frank, Alberta, on Feb. 6th last. Willinski was introduced with Lankatoos's wife and put her husband out of the way by shooting him in the wash house of the coal mine in which they both worked. Willinski went on the scaffold without a quiver and made no statement. The wife was only present as the sheriff, two priests and the guards and Supt. Princess of the Mounted Police.

BOGUS PASSES ON THE I. C. R.

MURDERER OF YOUNG GIRLS YET AT LARGE

All Day Search for Slayer of Naomi Mitchell Proves Fruitless.

Police Blame Half-witted Farm Hand for Crime—Autopsy on Body Disproves Assault Theory.

Carmel, Me., July 26.—The murderer of Naomi Mitchell, the 14 year old girl whose body was found with the throat cut in a corn field near her home yesterday morning, was still at large despite an all day search of the roads and woods in the vicinity.

The pursuit is still concentrated on a degenerate farm hand who has been missing since he was seen on the North Carmel road following the Mitchell girl Wednesday night. The search led the posse today to the South Newburg road in Carmel, where a man answering the description of the suspect was seen to come out of the woods, and upon finding he was observed, disappeared again quickly. The woods are surrounded by an armed posse who will keep guard until daylight. Then the search will be taken up afresh and bloodhounds from the state prison will be put upon the scent.

Dr. E. P. Nealey, of Bangor, medical examiner for Penobscot county, performed an autopsy on the body of the murdered girl yesterday, and made the statement today that after making a careful examination he could state positively that the girl was not the victim of a criminal assault before death.

ALDERMEN WERE ALL GRAFTERS

Eight Members of Detroit Council Caught by Smart Bribery Stunt of Detectives—Lengthy Investigation.

Detroit, Mich., July 26.—Eight aldermen and the secretary of the common council committee, were placed under arrest this afternoon on charges of accepting bribes and conspiracy to accept a bribe for their votes and influence in the passing of a measure affecting city property recently transferred to the Wabash Railroad. At least six other arrests of aldermen are expected at any moment and it is alleged that \$3700 changed hands in sums of from \$100 to \$1000. The bribes were consummated and the arrests accomplished under the personal supervision of Detective William J. Burns.

The officials already arrested are: Thomas Clinean, president of the council, who is alleged to have received \$100; E. F. Schreier, Jr., secretary of council committees, and also secretary of the American League of Municipalities, who is charged with conspiracy to bribe and agreeing to accept \$500; Ald. Joseph L. Thelton, said to have accepted \$500; Ald. Martin J. Ostrowski, alleged to have received \$200; Ald. Patrick O'Brien, conspiracy; Ald. Louis T. Osey, said to have received \$200; Ald. Frank J. Mason, Ald. Louis Brozo, and Ald. Deimel, the last three being charged with accepting \$100 each.

"Honest Tom" Caught. Alderman Glinnan has long been known in city politics as "Honest Tom," when arrested this afternoon it is said, he turned over \$1,000 and made a complete confession. Schreier, who it is claimed by the authorities engineered the affair, was arrested in his office. He had not received any money but the officers claim that he went to the office with the detectives acting under the guise of Wabash Railroad officials to get his money and discovered the officers who had just arrested Glinnan. It is said he also made a statement to the officers.

The detectives claim that they have caught their men not only with the marked money but by telephone testimony and phonographic records. The investigation which culminated in the arrests today has been going on since February, when rumors of graft in the council body began to assume serious proportions. Mayor William B. Thompson sought the services of detectives, and Andrew J. Green, a prominent manufacturer, agreed to finance the probe. Soon after the investigation was begun the Wabash Railroad applied for the close-

Prominent Liberals May be Implicated in Trouble EXTENSIVE TRAFFIC

Three Men Charged With Dealing in Transportation on Government Line with Connivance of Grit Politicians.

Special to The Standard. Moncton, July 26.—For some years rumors have been current of the use on the Intercolonial of passes illegal-ly issued. Over a year ago Special Agent Tingley of the railway police made an enquiry as to the number of such passes, but his report has never been made. Recently G. Hazen Adair, barrister, of Sussex, was appointed a commissioner to enquire into the pass business.

At Sussex the other day, Raymond Vye, formerly a clerk in the I. C. R. offices, and Jasper W. Steeves, of the C. P. R. telegraph office, here were examined. From the evidence so far, it appears that Vye, Steeves and Elmer Ferguson, a newspaper reporter, now in Montreal, were parties to the issuing of passes. That many passes were sold at a fraction of ten per cent of regular fare tickets and that others were used or distributed by one or more prominent Liberal politicians. The exact extent of the traffic has not yet been determined.

A. W. Steeves resided here today, said he had filled out passes for Dr. C. A. Murray. He received the passes for ladies and one from Moncton to Montreal. The case in which the other passes he had filled in, it was stated, were on I. C. R. wire forcing accounts. The names of Dr. Burpee and others were signed to one of the passes issued on forcing account. Burpee is the I. C. R. engine destination of the passes but asked no questions. He simply filled them in as asked for and would not swear that he did not fill in more than four, but he did not fill in as many as ten.

John A. Lea, a member of a construction company, said he had issued passes on the I. C. R. about three years ago. He got passes from Elmer Ferguson, at that time a reporter for the Moncton Transcript. Ferguson said they were good passes and obtained them from a party authorized to issue them. He got about a half-dozen counterfeited T. Evans, who he thought, was Mr. Pottinger's chief clerk. The first pass he filled in, he said, was for John H. Haxby, the others were not filled in. He gave three passes away and got two back.

He did not sold the passes and requested their return when he heard they were wrongly issued. He gave three of the passes to Detective Steffington. He was held for two of the returned passes in his possession and would produce them on condition that the names should not be made public. He gave Ferguson \$20 for the passes, which Ferguson said was only a bit of grease and he would furnish passes as long as he wanted them.

James H. Dunlap testified that he went to Campbellton with a curling team. Dr. Murray was his skip and furnished the transportation but he could not say that passes were used. He saw neither tickets nor passes. He was not asked for a ticket. They also went to Chatham.

Traveller Bought Three. J. H. Meservey, a commercial traveller, said he had known Elmer Ferguson for about six years. He bought three passes from Ferguson about three years ago. Ferguson asked him where he was going, and he said to Pictou, Ferguson said he could give him a pass about half price, and he paid him \$2. This pass was made out aboard to allow any person whose name was introduced to have counsel. However, at the next session he would consider any application for counsel. The inquiry was then adjourned till next Tuesday.

ing of a Detroit street on the grounds that it wanted to erect a warehouse and otherwise increase its shipping facilities. The application was held up in the council for a time. Then suddenly the council granted the application by a vote of several members who had previously opposed the measure.

BIG APPLE CROP ALL OVER CANADA LIKELY THIS YEAR

British Columbia and Nova Scotia Will Have Record Yield—Ontario Not Far Behind.

Ottawa, July 26.—Chief government fruit inspector, McNeil, reports that from returns sent in to the department from all parts of Canada, there are indications of a great apple yield this year, especially so in British Columbia. Nova Scotia's crop is expected to be a record one, while that in Ontario gives promise of being fair.

## ANOTHER OPPORTUNITY FOR FARMERS OF NEW BRUNSWICK

### Great Chances in Profit for Poultry Raising and Sheep Industry Pointed Out by Experts from Ottawa, in City Last Night.

That the farmer of Canada is missing golden opportunities for profit which are available, and which would make his lot a more lucrative one by many dollars, is the announcement made by two experts from the Department of Agriculture at Ottawa, who in the city the Canadian Farmers of the Maritime Provinces. These gentlemen are W. Brown, chief poultry inspector of the Dominion, and C. McEwan, who has in charge of the sheep industry of the Dominion. They are touring the provinces studying the possibilities for the sheep raising industry.

Speaking of the sheep raising industry Mr. McEwan said that although it may be a surprise to many people of this country, Canada stands almost at the foot of the list of sheep raising countries of the world. With such a vast area of suitable land as the Dominion has available for the purpose Canada had to import about a hundred and eighty thousand live sheep last year in addition to thousands of pounds of dead animals. The number of sheep now in the country is not a specially good one, and is not even sufficient to supply our own demands. Compared with other countries which go in for sheep raising the Dominion is in a very backward state of affairs. The Orange Colony was practically destitute of sheep, but today about eight million sheep are raised. This has been accomplished by organized work among the breeders, and by following scientific principles in the work.

As regards the poultry industry, Mr. Brown said that the sheep raising industry here could become one of the most lucrative lines for the farmer. In New Brunswick especially there is to be found everything needed for making the industry a success. The farm lands throughout the province are in every way suitable, as is the climate, and the farmer who makes this a specialty could get good markets, not only in foreign countries but at home.

There is a peculiar quality about the land raised here which makes it popular. All that is required is that the farmer get the right breed of animal, and make the enterprise a commercial one, instead of working merely to supply immediate demands. Apart from the profit to be made from the meat, there is also a big chance for making money out of the wool of the animals. Today dealers are paying from seven-

## STEAMER SINKS AT DOCK, ONE MAN LIKELY DROWNED

### Haggart Goes to Bottom in Fifteen Feet of Water—Feared Intoxicated Man Aboard at Time.

St. Marie, Ont., July 26.—The steamer John Haggart, owned by T. K. Simms, of Little Current, sank at her moorings at New Ontario dock, in 15 feet of water at 3.30 this morning. The Haggart came up last night from Manitoulin and was leaking badly, pumps being worked throughout the trip. At 3 o'clock this morning she started to settle and went down. She had a cargo of hay and lumber. It is believed that one man was drowned, as he was last seen at the dock in an intoxicated condition shortly before the boat sank.

## JUST APPLY A LITTLE POSLAM

When the complexion is inflamed or sunburned, the nose red, or pimples, hives, mosquito bites or itching feet annoy, use POSLAM, for it affords the quickest and most certain means of driving away such afflictions. Results are seen even after an overnight application and soon the skin is normal and presentable in appearance.

Poslam is invaluable in hot weather. Its readiness in quickly disposing of the many minor skin troubles demonstrates the marvelous healing power by which it effects complete cures of all eczemas, acne, salt rheum, barbers' itch, tetter, piles, etc., even of years' standing. Itching spots at once disappear.

POSIAM SOAP keeps the skin secure against infection and disease, improves its color and texture, soothes tender skin, makes complexion clear, hands soft. The best shampoo for dandruff.

Chas. H. Wasson, Clinton Brown, F. W. Moore and all druggists sell the same (price 50 cents) and Posiam Soap (price 25 cents). For free samples, write to the Emergency Laboratories, 32 West 25th Street, New York City.

## BODIES OF THOSE DROWNED IN MINE BEYOND REACH YET

### At Least Month Must Elope Before Shaft is Pumped Dry—Traffic Will Be Resumed Shortly.

Pittsburg, Pa., July 26.—Western Pennsylvania is recovering slowly from the effects of Wednesday's flood which struck its hardest blow in the coke regions. It will be more than a month before any effective effort can be made to reach the bodies of the fifteen men drowned in Superbia mine No. 5, at Evans Station near Union Town, for it will take that time to pump the mine dry, according to the estimate of Foreman Butermore this morning.

The washouts on railroads in that section are being rapidly repaired and all traffic will likely be resumed early next week. A relief committee that has been organized at Union Town, Pa., is caring for the families made destitute by the flood.

## GOAL OUTPUT IN ILLINOIS FIELD

Washington, July 26.—Coal mined in Illinois in 1911 amounted to 53,679,118 short tons with a value of \$59,603,278, according to a statement by Edward W. Parker, issued by the United States geological survey. These figures compared with those of the year previous show an increase in tonnage of 7,778,872 tons and in value of \$7,097,251. Much of this gain is to be explained by the abnormally low production of 1910 due to the strike.

The coals of Illinois are noncoking and are not used to any extent in the iron and steel industry. Consequently coal mining in the state was not influenced by the iron trade which so seriously reduced coal production in the eastern states. Illinois is, however, one of the most important manufacturing states, ranking third in this particular and leading all the states of the Union in the manufacture of agricultural implements and in the salting and packing of meats. It is second in the manufacture of men's clothing and, although without iron mines, is third in the value of manufactured iron and steel products. Its manufacturing industries have been developed and are maintained by means of the great coal resources of the state. They furnish the coal markets for coal and enable the producers to get higher prices than those obtained for the superior grades of coal from West Virginia. In 1911 the average price at the mines of West Virginia coal, large quantities of which are shipped to Chicago and other points near the Illinois coal fields, was 90 cents; that for Illinois coal was \$1.11.

Fifty-one counties or exactly half of the 102 counties in the state, more coal-producing counties than in any other state in the Union, produced coal in 1911. Two counties, Williamson and Sangamon, produced over 3,000,000 tons each; one, Macoupin, produced more than 4,000,000 tons; and each of five other counties produced more than 3,000,000 tons.

The 76,000 miners employed worked an average of 183 days; the average production for each man was 701 tons.

## CONNOLLY WILL PLAY WITH SOCIALS

Larry Connolly, who was released by the Marathons a few weeks ago, has accepted a position with the Halifax Socials and will leave in a couple of days to join that team. His numerous friends wish him all kinds of luck. Connolly was the star catcher for the Marathons last year, and was brought here from Providence, R. I. this season and signed on by the Greeks' management. With McGovern on the ceiling end, however, there was little or no chance to use Connolly there, and he played in the field. As the team had more players than was needed, Connolly was let out with a number of others. Larry knows baseball in every shape and form, has had good experience on the diamond and should prove a good man for the Halifax team.

## EXPLORER TO TRACE SECRET OF ISLAND OF GREAT STATUES

W. Scoresby Routledge Will Leave England in August in 250 Ton Motor Auxiliary Yacht for Easter Island, the Farthest Outpost of the Polynesian Race.

London, July 23.—One of the most interesting quests which have ever engaged the attention of explorers will shortly be undertaken by W. Scoresby Routledge, the traveler.

Early in August Mr. Routledge is going to Easter Island, the present inhabitants of the Bahar-el-Ghazel province. There are about 40,000 of these people live in small villages of huts surrounded by fences of dura stalks.

The most striking feature is the veneration paid to the king, and the marked line of demarcation between the aristocracy and the commoners. The former is constituted entirely of the royal family—children, grandchildren and great-grandchildren of the king. Royal descent, however, is not recognized beyond the fourth generation. Polygamy is practised, and the king has a great number of wives. In fact, the greater number of the royal family reside in the residence of the king's consorts. The sons likewise, take many wives, but the daughters must remain unmarried, for the reason that it is unfitting for a king's daughter to marry a commoner, while at the same time she cannot marry a son.

The difference between the aristocracy and the commoners is exemplified in a still more striking manner. All the commoners of both sexes have their lower central incisors knocked out, and even the grandchildren may conform to the practice if they please.

Though the people honor the king in his prime, when he attains senescence they promptly prepare for his successor. The sovereign is killed with due ceremony at the first signs of ill health, because the king is his father, and if successfully to reign in his stead. The dead is carried out at night, because the king is alone in his enclosure with his wives, and without the bodyguard which attends his movements during the day.

## MEETING OF BALTIC IS NOT EXPECTED TO MEAN REGROUPING

St. Petersburg, July 24.—The only thing that is possible to say with absolute certainty with respect to the meeting of the emperors in the Baltic coast is that the present grouping of the really knows what happened. When secret agreements are made to the effect that the emperors of the Baltic are naturally not made public, and it is possible that some agreement may have been made between the cabinets of St. Petersburg and Berlin, which will bear its fruit in the future.

At the same time it must be admitted that this is not very likely. It appears to be no slackening in the dual alliance, and it is given out, with some show of authority, that the European governments have made up their minds that the present grouping of the powers is most calculated to promote peace.

At a matter of fact, both in the north and in the south, the policy of Russia is opposed to that of Germany, whilst in the east it is very far from being on all fours with it. The Russian position of Finland is being regarded in Berlin with considerable misgivings, and the German press finds it difficult to believe that what is going on in that country is not the prelude to making the duchy the base of an attack upon the Scandinavian kingdoms. So strongly is this held that an increasing party in Germany is proposing an alliance of that country with Norway, Sweden and Denmark, based on the existing treaty between another group of powers for the maintenance of the status quo in Holland and Belgium.

Again, the German interests in Constantinople and the Balkans do not in any way coincide with the Russian programme. The Russian programme is the gradual absorption of the Balkan states, and the establishment of Russian authority in Constantinople. The German view is once more the preservation of the status quo in the Balkans, and the consolidation of German influence in the Balkan states, rather with a view to the extension of her commercial interests than anything else. This was the policy so brilliantly engineered by Baron Marshall von Bieberstein, and no doubt bequeathed to his successor.

Finally, whether in the middle east, on the Asian gulf or in the far east, the Chinese empire, Germany has no wish to see the paralyzing effect of Russian bureaucracy extended. Her commercial interests and her commercial possibilities in both those regions are far too important to be bartered away for a mere political estimate.

In these circumstances it is probable that the estimates of the value of the

## WHEN OLD AGE COMES

Those who avoid sickly, greasy, shiny, streaked complexion should religiously avoid creams, powders and rouges these heated days. There's no need for them, anyway, since the virtues of mercolized have become known. No amount of perspiration will produce any evidence that you've been using the wax. As it is applied at bedtime and washed off in the morning, the complexion never looks like a make-up. Mercolized was gradually takes off a bad complexion. Instead of adding anything to make it worse. It has none of the disadvantages of cosmetics and accomplishes much more in keeping the complexion beautifully white, satiny and youthful. Just get an ounce of it at your druggist's and see what a few days' treatment will do. Use like cream.

Another effective summer treatment—heat-tending to cause wrinkles and flabbiness—is a skin-lightener made by dissolving 1 lb. of covered vasoline in 2 pt. witch hazel. Its use (as a face bath) leaves no trace.

## TERRIBLE TURK WAS MURDERED

Fargo, N. D., July 26.—Hassan Abdullah, a Turkish wrestler known as "The Terrible Turk" who was loudly hailed as the man who would defeat Frank Gotch, his advent into this country several years ago, was murdered at Oberon, N. D., Saturday. A Turk, who gives his name as Sevillan, is held for the crime. The murder came as a result of continued quarrels between Abdullah and Sevillan. Since his arrival in the United States Abdullah has been hailed as the probable conqueror of Frank Gotch, wrestling champion. He wrestled in practically every large city in the United States.

On the island, which is about 60 square miles in extent, are immense platforms of coral, some of which are large stones fitted together, with cement. Some of these weigh five tons, and in places the sea walls are nearly 30 feet high and over 200 feet long. On the land side of the platform there are broad terraces on which once stood colossal figures carved out of lava. There are also craters eight miles away.

On some of the platforms there are upwards of a dozen images now thrown from their pedestals and lying in all directions. The largest are 37 feet high, but the majority vary from 14 feet to 16 feet. They are carved in the shape of human beings. Two of the statues were brought to the British Museum.

## TO AVOID PASTY, SHINY, STREAKED COMPLEXIONS

Those who avoid sickly, greasy, shiny, streaked complexion should religiously avoid creams, powders and rouges these heated days. There's no need for them, anyway, since the virtues of mercolized have become known. No amount of perspiration will produce any evidence that you've been using the wax. As it is applied at bedtime and washed off in the morning, the complexion never looks like a make-up. Mercolized was gradually takes off a bad complexion. Instead of adding anything to make it worse. It has none of the disadvantages of cosmetics and accomplishes much more in keeping the complexion beautifully white, satiny and youthful. Just get an ounce of it at your druggist's and see what a few days' treatment will do. Use like cream.

Another effective summer treatment—heat-tending to cause wrinkles and flabbiness—is a skin-lightener made by dissolving 1 lb. of covered vasoline in 2 pt. witch hazel. Its use (as a face bath) leaves no trace.

## EGYPT GROWS FINER GRADES OF COTTON IN PLACE OF AFIFI

Cairo, Egypt, July 24.—In his recent report, Lord Kitchener refers to the fact that a much larger proportion of the finer varieties of cotton was grown in 1911 than in previous years. This is an interesting point and deserves further notice.

Recent inquiries have established the fact that the staple variety of Egyptian cotton, the Afifi, has deteriorated, but that the finer kind have kept up the quality and price. Other countries, especially the United States, are now growing long-staple cotton which competes with Afifi, and is lower in price. For these reasons, the influence of the agricultural society and the new agricultural department in Egypt has been used to promote the growing of the finer grades, and with considerable success, as will be seen from the following figures: Percentages of total area sown with cotton in Egypt, Afifi, in 1909, 66; 1910, 61%; 1911, 49%; varieties commanding a higher price than Afifi, in 1909, 28%; 1910, 20; 1911, 30%.

## KING'S SONS KILL WHEN OLD AGE COMES

An African tribe with some most extraordinary customs has just been discovered by Dr. C. G. Seligmann of the Wellcome Tropical Research Laboratories, one of the branches of the Gordon Memorial College at Khartoum. This tribe, known as the Shilluk, they live in a narrow strip of land along the banks of the Nile on the northern edge of the Bahar-el-Ghazel province. There are about 40,000 of these people live in small villages of huts surrounded by fences of dura stalks.

The most striking feature is the veneration paid to the king, and the marked line of demarcation between the aristocracy and the commoners. The former is constituted entirely of the royal family—children, grandchildren and great-grandchildren of the king. Royal descent, however, is not recognized beyond the fourth generation. Polygamy is practised, and the king has a great number of wives. In fact, the greater number of the royal family reside in the residence of the king's consorts. The sons likewise, take many wives, but the daughters must remain unmarried, for the reason that it is unfitting for a king's daughter to marry a commoner, while at the same time she cannot marry a son.

The difference between the aristocracy and the commoners is exemplified in a still more striking manner. All the commoners of both sexes have their lower central incisors knocked out, and even the grandchildren may conform to the practice if they please.

Though the people honor the king in his prime, when he attains senescence they promptly prepare for his successor. The sovereign is killed with due ceremony at the first signs of ill health, because the king is his father, and if successfully to reign in his stead. The dead is carried out at night, because the king is alone in his enclosure with his wives, and without the bodyguard which attends his movements during the day.

## DIED.

GOLDING.—At Woodman's Point on the river, on the 26th inst., suddenly Margaret A., wife of John N. Golding, str. in the 68th year of her age, leaving a husband, one daughter and two sons to mourn their loss. Notice of funeral in evening papers.

SMITH.—At Ketepec, on July 24th, Rev. Joseph Smith, in the 79th year of his age. Notice of funeral hereafter.

### CASTRO PREPARING FOR DESCENT UPON VENEZUELA

#### Erstwhile President Reported in Canary Islands Awaiting Moment to Strike—Gomez Angers People — General Pimentel Said to be on His Way to Join Junta in New York.

New York, July 26.—Information received in New York yesterday by adherents of Cipriano Castro, deposed President of Venezuela, not only indicates that he is in the Canary Islands, but that he is completing arrangements for another descent upon Venezuela. That this project may prove successful this time, because of the open hostility to President Gomez, now dangerously approaching revolution, is considered to be almost certain by Venezuelans who have made this city their headquarters for several months.

It was not generally known that Castro had left Germany, where, five weeks ago he submitted to an operation. He spent several days in Berlin while recuperating and then disappeared. Despite the efforts of agents of President Gomez to locate the irascible agitator, his whereabouts were not discovered until a few days ago, when his supporters in this city all of whom have been killed by President Gomez, received letters from the erstwhile president revealing his purpose to return to South America incognito at the earliest opportunity.

#### More a Dictator Than Castro.

According to Antonio Jose Sanchez, for many years secretary of Castro, and who lives at No. 443 West Twenty-third street, General A. Pimentel, who was minister of finance under President Gomez, is en route to New York to join the Venezuelan Junta now operating in this city not so much in the interest of Castro, but to overthrow President Gomez, who, it is now declared, has developed into a far more dangerous dictator than Castro was accused of being.

"There is no doubt that a revolution is now under way in Venezuela," said Mr. Sanchez, his reporter recently. "The cause of the revolution was greatly assisted on April 20, when President Gomez forced his cabinet to resign. The facts were not permitted to leak out because of the methods employed by President Gomez to keep his official secret. The cable despatches merely announced the resignation of the cabinet, but we have since learned that the ministers were deposed arbitrarily by President Gomez because he believed them to be conspiring against him."

#### Says All Promises Were Broken.

"Are you, with other Venezuelans seeking to overthrow President Gomez in order to place Castro in power?" Mr. Sanchez was asked. "I have nothing to do with Cipriano Castro's design to resume control of the presidency of Venezuela," replied Mr. Sanchez. "I am merely assisting in the work of ridding Venezuela of a man who has violated every promise he made to the people when he became Castro's successor. He has enriched himself at the expense of the Venezuelans. He has invested millions of dollars in English railroad bonds, not to speak of other millions which he has secretly deposited in Paris and Berlin banks. It is true I am a friend of Castro's, but I am not in sympathy with his project to regain the presidency of Venezuela. He is most powerful however, and if he makes the attempt he doubtless will succeed this time, unless the United States government takes immediate steps to prevent his entrance into South America."

#### Health Completely Restored.

"Castro's health is almost completely restored, and that he is again a factor to be reckoned with in Venezuelan affairs is quite apparent."

Mr. Sanchez further said that he had designed to go to Venezuela some weeks ago, but he received information that he would be arrested the moment he reached La Guayra, and that it was quite likely more severe treatment might be expected. Information received by him from the best sources in Venezuela, however, he added, was that within a few weeks' time he, as well as other of President Gomez's enemies, would be welcomed into the republic.

"President Gomez," he said, "has alienated every man of political influence by his arbitrary acts, greed and love of power. One of his warmest supporters was General Francisco Alcantara, but who is now, according to my best information, openly conspiring against him. The recent assassination of General Ramirez has stirred the country to its foundations and anything may be looked for now."

General Alcantara, who is a graduate of West Point, is one of the most powerful men in Venezuela, and a minister of the interior; he made a record for honesty. It is declared, which prompted his friends to talk of him as the future president of Venezuela. It is said that General Alcantara alarmed President Gomez so that on April 29 last he intimated to his cabinet that their resignations would be accepted. A ministerial meeting followed and the cabinet resigned in a body on the same day.

#### Mator's Intentions Unknown.

Among the more prominent ministers thus forced out of office and whose influence in the republic is great, was General Manuel A. Mator, minister of foreign affairs, who, in 1902, headed an unsuccessful revolution against Castro.

Whether he will lead the revolution against President Gomez none of the Venezuelans here is prepared to assert, but they intimate strongly that his removal by President Gomez will not tend to attach him more earnestly to that executive.

Another general man in Venezuela is General C. Zavala, who was minister of war, and who also was forced to resign by President Gomez. He is a close friend of "El Mocha" Hernandez, he of the mutilated hand, who for fifteen years has been in the revolutionary business. Castro and Hernandez aroused the fears of President Gomez to the extent that the executive hinted that any other climate than that of Venezuela might be healthful for him. That is why "El Mocha" lived for some time in Curacao and later in the West Indies, where he now lives.

#### Say Gomez Has Made Millions.

It is charged by the Venezuelans in New York that President Gomez has made millions out of his beef monopoly in the last three years, and that by reason of this price he advanced to extraordinary figures.

This has embittered the people of the Republic, who, it is said, do not wish their distaste of the president and preference for Castro, who, at least, they say did not deprive them of the necessities of life to enrich himself. It is charged also that the troops in the carrels are disaffected and that the revolutionary spirit is being kindled.

While it is generally known in the Venezuelan colony here that Castro is making a descent upon Caracas, the impression prevails that he may meet with opposition among the Venezuelans themselves who do not wish his return to power after ten years of dictatorial rule by him. The Venezuelans themselves who do not wish his return are closely and in daily communication with Mr. Knox, the Secretary of State, relative thereto.

#### Health Completely Restored.

"Castro's health is almost completely restored, and that he is again a factor to be reckoned with in Venezuelan affairs is quite apparent."

Mr. Sanchez further said that he had designed to go to Venezuela some weeks ago, but he received information that he would be arrested the moment he reached La Guayra, and that it was quite likely more severe treatment might be expected.

Information received by him from the best sources in Venezuela, however, he added, was that within a few weeks' time he, as well as other of President Gomez's enemies, would be welcomed into the republic.

### Wherever you can wash your face you can shave with the GILLETTE Safety Razor

It matters little where you are, if you want a shave and have a GILLETTE. With it, shaving is not a ticklish task, to be performed circumspectly on solid footing. Wherever there's water, soap and a towel you can enjoy a safe, clean, quick GILLETTE shave. That's why the GILLETTE Safety Razor is the standard equipment of the men who frequent Pullmans.

Standard Sets \$5.00. Pocket Editions \$5.00 to \$6.00. Combination Sets \$6.50 up.

#### GIRL SWINDLER ACTIVE IN HARLEM

New York, July 26.—Dumbwaiter thieves and petty swindlers have been reaping a harvest in Harlem and the Washington Heights parts of the city within the last few days. The greater number of victims of the dumbwaiter thief have been in Lenox St., Nicholas and Seventh avenues, between 118th and 119th street, while residents of Morningside Heights have been the prey of a girl who has collected for herself several hundred dollars.

#### CHINA MAY BE SPLIT INTO TWO REPUBLICS

Shanghai, July 26.—A native newspaper, after reviewing the present situation in China today dwells on the possibility of civil war and the division of China into two republics, northern and southern.

#### North Backing Yuan, Opposed to South, Led by Dr. Sun—National Council Meets—President on Stump.

The two dominant figures in the situation are the present incumbent of the Presidential office, Yuan Shih Kai, and Dr. Sun Yat Sen, the former Provisional President and chief figure of the recent revolution which resulted in the downfall of the monarchy.

#### Health Completely Restored.

"Castro's health is almost completely restored, and that he is again a factor to be reckoned with in Venezuelan affairs is quite apparent."

Mr. Sanchez further said that he had designed to go to Venezuela some weeks ago, but he received information that he would be arrested the moment he reached La Guayra, and that it was quite likely more severe treatment might be expected.

Information received by him from the best sources in Venezuela, however, he added, was that within a few weeks' time he, as well as other of President Gomez's enemies, would be welcomed into the republic.

#### SACRIFICES NAME OF WIFE TO SAVE HUSBAND FROM JAIL

Mrs. Rose Griffiths Consents to Annulment of Marriage to Man Accused of Bigamy that He May Be Free to Return to First Wife.

New York, July 22.—To save her husband from a term in prison for bigamy, Mrs. Rose Belle Gordon Griffiths, twenty-three years old, wife of John M. Griffiths, a Long Island Rail road engine driver and a man of high repute in his former home, Richmond Hill, consented yesterday before Judge Humphrey in the Queens County Court, Long Island City, to an annulment of her marriage. That Griffiths might return to his first wife and mother of his five children.

This remarkable sacrifice, consented to tearfully but bravely, stirred the sympathies of the Court. But it still is a question whether it will save Griffiths, as it is considered probable that the first Mrs. Griffiths will refuse to consent to the arrangement.

Griffiths was convicted two months ago by a jury that took the first Mrs. Griffiths' testimony as conclusive. She testified that when she was Miss Sarah L. Decton, employed as a governess in Griffiths' home, in Brooklyn, in 1898, she was forced to leave because of the young man's attentions, and that he married her a little later in the parsonage of a Methodist minister at Elmont, L. I. She is now the mother of three boys and two girls.

Griffiths asserted at his trial that no ceremony was ever performed, but the jury took Mrs. Griffiths' word for it and pronounced her the legal wife. Griffiths then moved for a new trial on the ground that he never was married to the mother of his children. Judge Humphrey ordered an investigation, and the Methodist clergyman who was supposed to have performed the ceremony was found in Maine and denied having any record of the marriage.

Judge Humphrey suggested yesterday to Attorney Isadore Canner that he might get his clients, Griffiths and

# Happenings of the Week

## Pretty House Frock Described in Paris Letter

By MAYBELLE MORTIMER.

The disagreeable weather of this week has rather dampened the ardor of the pleasure giving people of St. John. Many picnics and outdoor pleasures had to be postponed. Society is on the qui vive, knowing for certainty that their Royal Highnesses the Duke and Duchess of Cornwall and Princess Patricia are really coming to St. John August 17th. Many are looking forward to having a look at the face of the son of our late beloved Queen Victoria and as Monday, August 19th is to be proclaimed a public holiday everyone can have the same opportunity of entering in and giving the royal party a welcome to our city. The band concerts in the Square of late have given much real pleasure to the citizens and strangers, every one being held in their prime.

It will be interesting to read that the government steamer Earl Grey which has been placed at the disposal of their Royal Highnesses the Duke and Duchess of Cornwall, Princess Patricia and suite, by the Minister of Marine and Fisheries, has been beautifully fitted up. The Duke and Duchess have separate apartments as signed them aft in the cabin apartments of the promenade deck. The Duchess' apartments consist of a luxuriously arranged boudoir with sleeping chambers and bath room adjoining. The Duke has a spacious bedroom, dressing room and personal parlor. Princess Patricia has a private suite comprising bed room, dressing room and bath room. The members of the household also have special apartments. The Earl Grey which sailed on Wednesday had on board 144 persons. This includes the three warrant officers and 65 Canadian blue jackets from the Canadian cruiser Niobe, besides six engineers and complement of officers from the same vessel, 13 waiters and chief steward and all of the permanent crew of the Earl Grey—all in all 110 of a crew. When in 1914 they will be met by the 2nd Regiment Canadian Artillery who will hold a church parade under command of Lt. Col. Baxter. On Monday morning the royal party will land at Reed's Point where His Honor the Lieut. Governor and His Worship the Mayor will welcome them and a guard of honor will be posted at the landing place, orders having been issued to that effect from military headquarters. From Reed's Point the visitors will proceed in carriages to the Court House where the civic address of welcome will be presented. There will be a luncheon at the Union Club at one o'clock at which the Governor General and staff will attend as guests of His Worship the Mayor and Commissioners. The Duchess of Cornwall and Princess Patricia at the same hour will be entertained at luncheon by the Misses Hazen at their home Hazen Castle.

In the afternoon the new playgrounds at Rockwood Park will be opened when the Governor General will officiate after this the royal party will be driven to Courtney Bay, where they will inspect the work being done by the Boy Scouts company. A review of the Boy Scouts under command of Malcolm McAvity will also be made during the afternoon. At 9 o'clock Monday evening a public reception will be held in St. Andrew's rink. Tuesday morning the royal party are to be the guests of Lieutenant Governor Wood and will be entertained to a sail on the river by the steamer Lady Laurier.

Mr. Douglas McLeod, who has been visiting in the city returned to Yorkmouth on Monday.

Mr. and Mrs. deB. Carritte and Mr. and Mrs. James U. Thomas spent the week-end at the Capital having gone by automobile.

Miss Mary MacLaren was the week-end visitor at Woodman's Point, the guest of her sister, Mrs. Ronald McAvity.

The series of concerts given by the Misses Knight and Miss Biederman in Nova Scotia were very successful. They gave a concert at Digby, Annapolis, Middleton, Bridgewater and Liverpool, and at every town had good audiences. Miss Biederman returned home last Saturday. The Misses Knight remained over Sunday at Liverpool, the guests of His Honor and Mrs. Forbes, and arrived in this city this week.

Mr. and Mrs. George Millar and little daughter, who have been the guests of Mrs. Millar's parents, Mr. and Mrs. Fred Elzard, at Woodman's Point, will leave for their home, Montreal, on Sunday night.

Mrs. A. I. Freeman, the Misses Trueman and Mrs. George Wood, left on Tuesday for Chatham.

Mrs. A. I. Freeman, the Misses Trueman and Mrs. George Wood, left on Tuesday for Chatham.

Mrs. A. I. Freeman, the Misses Trueman and Mrs. George Wood, left on Tuesday for Chatham.

Paris, July 15—As is usually the case the panier is much modified from the Watteau fluffy affairs that were introduced at the races this spring. As is very apt to be the case, a mode is introduced which is very extreme only to make the women "sit up and take notice." Then it is modified into something which is both artistic and pretty. Many quaint old-fashioned effects are being shown.

The one I am sending you is a pretty little house frock made of pale green and soft white striped tulle, a dainty white cotton being draped into a broad grille of plain, pale green silk. The skirt at the left side is draped from the waistline and the drapes are caught under at the foot and gathered slightly to an invisible lining. The bodice has the effect of a deep decollete, but an almost invisible job of fresh-pink chiffon comes up to the base of the throat.

**Old Dutch Cleanser**

will clean Pots & Pans Perfectly

Do away with the old-fashioned, arm-tiring method of scraping. Old Dutch Cleanser gives you both labor and time. The fine particles will immediately loosen and remove the grease and the hardest "burnt-in" crusts which soap powder and scouring brick only imperfectly wear off after long, hard scraping. An "all-round" cleanser for every part of the household.

**Avoid Corrosives and Acids**

Rev. R. A. Armstrong, rector of Trinity church, arrived on the Cassandra from the old country is back in St. John and is receiving a royal welcome from his many friends. Mrs. Armstrong, who returned with her husband, is visiting friends in Orillia, Ont.

Mr. Mortimer Robertson, who has been visiting his mother, Mrs. C. A. Robertson, returned to New York on Tuesday.

Lt. Colonel and Mrs. T. G. Loggie, returned to Fredericton from their trip abroad the first of the week.

Professor M. H. Emery, who has been to England and France, returned to St. John on Tuesday. While in France Mr. Emery gave a series of lectures which were most successful.

Mrs. Christina Robertson was hostess at a very enjoyable bridge and musicale at her residence, King Square, on Monday evening in honor of her guests, Mr. and Mrs. Ahearn, of New York, and her son, Mr. Mortimer Robertson. Mrs. Robertson was given in a most becoming frill of white and more silk with touches of duchess lace and marabout. Mrs. Ahearn wore a very handsome gown of green crepe de chene with tulle of shadow lace with white marabout trimming. The fortunate prize winners were Miss May Travers and Mr. Travers. During the evening solos were sung by Mrs. Pierce Crockett, Miss Gerow and Miss Frances Travers, which were thoroughly enjoyed. The supper table which was presided over by Mrs. H. S. Bridges had for its centre piece a huge bowl of pink roses. Among the guests were: Dr. and Mrs. Pierce Crockett, Dr. and Mrs. H. S. Bridges, Mrs. James Fink, Mr. and Mrs. William Foster, Mr. and Mrs. Fred Anderson, Mr. and Mrs. Gerow, Miss Travers, Miss Frances Travers, Miss Beatrice Fink, Mr. and Mrs. Anderson, Dr. Harry Travers, Mr. Fraser Dick, Mr. Sadler.

Mrs. Thomas Walker entertained informally at luncheon on Monday, the guest of honor being Mrs. Norman Geoghegan.

The Rev. Osborne Troop accompanied by his daughter, Mrs. Harold S. Johnston, left on Tuesday night for Montreal for Bath.

The many friends of Mr. David Lang, Toronto, are glad to welcome him back to the city. Lang has been spending his vacation in Nova Scotia and will remain a little while at Duck Cove.

Mr. D. C. Clinch left on a business trip to Halifax this week.

Miss Edith Croelman was able to leave the Montreal hospital on Monday and return to her home.

Miss Thompson, sister of Mrs. A. G. Blair, who is summing at Duck Cove, when alighting from a street car on Tuesday morning was struck by an automobile and knocked down. Fortunately she was not seriously hurt but badly bruised and was able to return to the Cove.

Miss Ida Reid Kenville, is the guest of Miss Marjorie Barnaby, Princess street.

A large number of friends were at the station on Monday evening to say adieu to Miss Cornelia Green who has been the guest of Miss Frances Hazen. Miss Green has gone to Orillia, Ontario, for the remainder of the summer before returning to her home in Buffalo. Miss Green made many friends while in our city who regret her visit here was not longer.

Mr. and Mrs. A. Cloyes of Malden, Mass., were the weekend visitors of Mr. and Mrs. Escott Ryder at their summer home Acamae.

Mr. and Mrs. Wm. Vassie and little son are spending a few days with Mrs. Vassie's parents, Mr. and Mrs. Henry C. Rankine at Acamae.

Miss Louise Richey of Haverrill, Mass., who was the guest of Mrs. J. Fenwick Fraser, left for Fredericton on Monday when she will visit her aunt Mrs. Maxwell.

Captain and Mrs. Norman Geoghegan left on Wednesday for England. They will remain until October before leaving for India. Both Capt. and Mrs. Geoghegan are general favorites in St. John and much regret is expressed at their departure.

Mr. Walter Allison, Miss Helen Allison, Miss Helen Wilson, Mr. and Mrs. Guy Robinson of Toronto, and Miss Barbour and Captain Norman Geoghegan left on Monday for the South Branch, Oromocto, on a fishing trip. Capt. Geoghegan returned to the city on Tuesday night.

Mr. and Mrs. Hazen Barnaby and Miss Barnaby, party, Mrs. Norman Geoghegan, Miss Scammell, Miss Ida Reid and Mrs. Ryder motored to Loch Lomond for dinner on Tuesday.

Mr. and Mrs. Atkinson Morrison, Miss Maggie Morrison and Miss Bessie Morrison are spending a few weeks at "The Cedars."

Mrs. Grace T. Dibbles of Fredericton arrived in the city last Saturday and is spending a few weeks at Duck Cove.

Mrs. Thompson, Miss Carrie Thomson and her niece of Denver, arrived in the city on Monday. Mrs. Thompson is the guest of Mrs. Barbour, Hazen St. The Misses Thompson are at Mrs. J. A. Steeves, Duck Cove. Mrs. Thompson was at one time a resident of Fredericton.

Mr. and Mrs. W. H. Harrison and Mr. and Mrs. J. Royden Thompson have gone to Chatham Lake for several days' fishing.

Mrs. Edmund Bristol, of Toronto, was hostess at an afternoon tea on Tuesday to a few of her friends to exhibit a portrait of herself which was recently painted by Mrs. Harry McAvity, who is well known here in our city. It is said about the picture that the artist had achieved a most attractive likeness of her sitter, and the portrait has the careful detail and pretty tones of the earlier English portrait painters. A soft drapery of cowslip tinted satin brings out the fine brunette tones of beauty and raven hair of the subject. Among the guests were Mrs. Coulson, Mrs. Dryman, Mrs. Haas, Mrs. Alan Sullivan,

**NA-DRU-CO SUMMER SPECIALTIES**

Summer pleasures, in sun and breeze and surf, are most enjoyable when you protect yourself against summer discomforts by using Na-Dru-Co Hot Weather Specialties.

**National Drug and Chemical Co. of Canada, Limited.**

Mrs. Johnstone, Mrs. Victor Cawthra, Mrs. Stewart Heath, Mrs. R. J. Christie, Mrs. Andrew Smith, Mrs. Len McMurray, Mrs. Thomas Clark and others. Mrs. McAvity's many friends in St. John will be pleased to hear of her success.

Mrs. W. H. Barnaby was hostess at a delightful luncheon on Thursday in honor of Mrs. and Misses Thompson of Denver. Covers were laid for twelve.

A marriage of much interest to many St. John friends was that of Miss Miriam Lander Chandler to Mr. Stephen Langton Cutler, which was solemnized in Calvary church, New York on Tuesday. Miss Chandler is the daughter of the late Charles Upham Chandler, of Dorchester, N. B., and Mr. Cutler is the son of the late Robert Barry Cutler. The bride wore a tailor-made of pearl whiplcord and white felt hat, and was given away by her mother, Mrs. Chandler. Mr. Ebbert Dycart, of Boston, was best man. Both Mr. and Mrs. Cutler had many friends in this city who offer their congratulations.

It was a pretty sight Saturday to see the yacht of the R. K. Y. C. sailing off for their annual cruise. A stiff breeze was blowing at the time of start. The fleet made up of the following yachts: Winogene, Robin Hood, Vagabond, Canada, Theistic, Canada Irex, Mough, Guleiska Private, Bohemia and the Arno.

Mrs. Coleman and little son, and Miss Helen Parlong, of Boston, arrived in the city on Tuesday and are the guests of their sister Miss Elizabeth Furlong, Union street.

The governors of the Wiggins Orphans' Institution enjoyed a trip up river on Mr. W. H. Thorne's yacht, the Dream, on Tuesday.

Miss Mignon Kerr, of New York, is expected next week to visit her aunt, Mrs. Lucius Allison.

Mrs. Jack McLaren and Mrs. Shortt were guests of Mrs. W. O. Raymond at her cottage in Rothesay Park, on Saturday last.

Little Miss Zoe Patterson entertained about eighteen of her small friends on Saturday on the occasion of her fourth birthday. The party was held at Mrs. R. D. Patterson's summer home in Rothesay and the children spent a most delightful afternoon.

Much sympathy is extended to Mr. John N. Golding on the death of his wife, and the family on the loss of a loving mother, which occurred so suddenly at Woodman's Point, on Friday morning. Mrs. Golding's kind heart and generous nature endeared her to all with whom she came in contact. The poor of our city will miss her more than words can express, as she was a familiar figure among those districts, being so many years an active worker in the Associated Charities.

Mrs. (Dr.) McVey gave a very enjoyable party to the young folk of the Park, Rothesay, on Wednesday.

Mrs. E. F. Simonds spent the week-end in Rothesay, the guest of Mrs. Hotace Longley.

Mr. Edward Paulda, of Toronto, is a guest at the Royal. Mr. Paulda has been away about two months on the business trip.

The New Brunswick tennis tournament will be held at Rothesay for a week in August commencing on the 19th and closing on the 24th. The tournament promises to be a big affair and players are expected from many cities of the province.

Mrs. deB. Carritte has issued invitations for a bridge at her residence for next Tuesday evening.

Mrs. West who has been visiting in

the city, returned to Fredericton on Tuesday.

Mrs. William Peters, Miss Hilda Peters and Mrs. Baker, spent Thursday at Westfield, the guests of Mrs. Macgregor.

The tennis tea at Rothesay last week was in charge of Mrs. Sherwood Skinner, Mrs. Walter Foster, Mrs. Simeon Jones and Mrs. F. Caverhill Jones. Among those present were Mrs. Jack MacLaren, Mrs. Shortt, Barrie, Ont., Mrs. W. O. Raymond, Mrs. Malcolm Mackay, the Misses Robertson, Miss Alice Fairweather, Miss Winnifred Raymond, the Misses Sydney-Smith, Mrs. James Straton, Mrs. J. M. Robinson, Mrs. Busby, Mrs. Manning Doherty, Misses Dorothy Purdy, Mrs. Allen Daniel, Mrs. L. P. D. Tilley, Miss Frances Kerr, Mrs. William Pugsley, Mrs. Walter Gilbert, Mrs. Walter Harrison, Mr. John Purdy, Mr. Hugh Mackay, Mr. Colin Mackay, Mr. L. P. D. Tilley, Mr. Withers, Mr. Walter Harrison, Mr. W. E. Foster, Mr. Leavitt and others.

Mrs. Coleman and little son, and Miss Helen Parlong, of Boston, arrived in the city on Tuesday and are the guests of their sister Miss Elizabeth Furlong, Union street.

The governors of the Wiggins Orphans' Institution enjoyed a trip up river on Mr. W. H. Thorne's yacht, the Dream, on Tuesday.

DOMINICANS SEEK \$1,000,000 LOAN Application Assorted to Mean that Revolution is Taxing Government's Resources — Wanted by Victorias.

New York, July 24.—The announcement that President Victoria and his nephew, General Victoria, of Santo Domingo, had purchased a yacht in this port ostensibly to be used for commercial purposes, but actually to provide for the escape of the Victorias from Santo Domingo should the revolutionists win the fight they are waging, caused a commotion in the Dominican colony in this city yesterday.

SANTO DOMINGO REBELS REJECT OFFER OF PEACE Government Forces Defeated in Battle, Attack on Capital is Next Move—3,000 Men Ready.

New York, N. Y., July 25.—Details which had been suppressed in Santo Domingo of the progress of the revolution there, which is nearing a critical stage, reached New York by way of Hayti yesterday. According to these reports, the government forces were defeated in a battle on June 25, and the revolutionary forces, under the leadership of General Victoria, had sent a commission to the revolutionary generals at Banica, province of Barahona, to negotiate peace.

Battle Near Monte Cristi. A battle was fought near Monte Cristi on July 11 by the revolutionary force under General Desiderio Arias and the government troops commanded by General Tono Jorge. The government troops were routed with a loss of one hundred and sixty men, killed and wounded, while the revolutionists' losses did not exceed fifty men.

AFRAID OF RATS SHE KEEPS GOPHER SNAKE Mrs. Georgia Gardner Pets it as Other Women Do Their Dogs, but Neighbors Aren't Hospitable.

New York, N. Y., July 24.—Because she has great fear of mice and rats, Mrs. Georgia Gardner, 23 years old, of No. 222 Riverside Drive, keeps a gopher snake 8 feet long in her apartment. She is extremely fond of the snake and pets it after the fashion that many other women do to dogs and cats. The snake enjoys the freedom of the household and roams—rather crawls—around at will.

REBELS REJECT OFFER OF PEACE. According to the correspondent of the Matin, President Victoria sent a commission from Barahona to General Arista under a flag of truce to negotiate peace.

REBELS REJECT OFFER OF PEACE. The government forces were routed with a loss of one hundred and sixty men, killed and wounded, while the revolutionists' losses did not exceed fifty men.

Dunlop to sell that splendid residence No. 95 Coburg street by public auction at Chubb's corner on Saturday morning, July 27th, at 10:30 o'clock.

THE CITY OF ST. JOHN. PUBLIC NOTICE is hereby given that at a Common Council held in the City of St. John, on Monday, the Fifteenth day of July, instant, Alderman Agar, Commissioner of Public Works, gave notice that he would, at the next meeting of the said Common Council, hold after the lapse of Thirty days from the first publication of this notice, as required by law, move the following resolution:

WHEREAS it is desirable to discontinue this portion of the northern end of Nelson Street, on the West side of the Harbor, in the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. D. 1855, the said plan being on file in the office of the Common Council of the City of St. John, the western side of which is to be a line described as follows: beginning on the Eastern side line of Nelson Street at the intersection thereof with the line of division between lot "B" and lot Sixteen (16); the said point of intersection being at distance of two hundred and seventy-eight (278) feet, more or less, measured along the said line of said Street from the intersection hereof, with the northern line of Cross Street, as shown on the plan of Fort Neck prepared by Thomas O'Keefe, and bearing date September 18th A. Childrens Chest Troubles

Nurse Carrington Says Her Long Experience Proves the Safest Remedy is to

RUB ON NERVILINE!

Every mother knows how difficult it is to get a young child to take a mixture. Seldom will one help unless given in large doses, and the result is to completely upset the stomach and make the child sick.

Speaking of the promptest cure for chest troubles and children's colds, Nurse Carrington says: "In all my experience in nursing I haven't met any preparation so dependable as Nerviline. It is the ideal treatment. Every drop you rub on is absorbed quickly, sinks through the pores to the congested muscles, eases, relieves and cures quickly. Especially for chest colds, pain in the side, stiff neck, earache, toothache, I have found Nerviline has no equal. I think Nerviline should be in every home."

A million bottles of Nerviline used every year—this is itself a burden of proof that it is the ideal liniment for the home. Refuse anything your dealer may offer instead of Nerviline. Large bottles 25c. Five for \$1.00. Sold everywhere, and by The Catararesque Co., Kingston, Ont.

HAY

We have on hand a large quantity of Second Quality, also a quantity of Choice Number One Hay, which we will sell at very reasonable prices. Before placing your order we would thank you to call up Telephone W. 7-11 or W. 51 and get our prices.

INTERESTING AND VALUABLE BOOKLET

Orchard Opportunities in New Brunswick, Published by Provincial Agricultural Department.

"Orchard opportunities in New Brunswick" is the title of an interesting booklet recently published by the provincial department of agriculture. Printed on fine paper, and illustrated with a number of striking photos of orchard scenes, the booklet should prove of considerable advertising value to the province. The subject matter deals with various phases of the fruit growing industry of the province, giving an interesting description of the conditions regarding soil and climate presenting statistics showing the financial possibilities of the business, and instituting comparisons between the opportunities here and in the west.

In compiling the booklet, it has been borne in mind that an accurate and truthful representation of what the province really offers, will in the end bring us more desirable and better satisfied settlers, than would be procured by the alluring but questionable methods adopted in the advertising of so many fruit lands, and the statements in the book are free from exaggeration. The following quotation will be of interest: "To men of moderate capital with a preference for fruit growing or either of its kindred businesses, market gardening and poultry raising, New Brunswick offers special advantages. Such men feel that the price of land in the sections of Canada where fruit growing is done is not, as the case with other fruit growing sections of the Dominion, being exploited as a commercial orcharding country, but is just on the eve of such an exploitation, she is able to offer many excellent farm properties, considerable proportions of which are well adapted to fruit growing, at prices ranging from \$20 to \$40 per acre, according to the location, the state of cultivation, the percentage of land cleared, and the presence thereon of buildings, etc. Five, ten and fifteen acre lots of choice fruit land cleared and ready for planting, and especially selected with reference to transportation facilities, etc., will cost from \$50 to \$100.

Attention is called to the decline of apple production all over the North American continent and special reference is made to the commanding position of New Brunswick for supplying the European market. "Some of the other apple sections of the North American continent," says the writer, "producing apples far in excess of the amount needed for home consumption, the prospects for commercial orcharding in New Brunswick cleared and ready for planting, and especially selected with reference to transportation facilities, etc., will cost from \$50 to \$100.

Even where the other apple sections of the North American continent," says the writer, "producing apples far in excess of the amount needed for home consumption, the prospects for commercial orcharding in New Brunswick cleared and ready for planting, and especially selected with reference to transportation facilities, etc., will cost from \$50 to \$100.

PAUL GILMORE IN VERY STRONG PLAY

Will Produce "The Havoc" in the Opera House, Last Three Days of Next Week.

The executive of the Exhibition Association held a meeting yesterday afternoon and discussed a number of matters of considerable importance, among them being arrangements for the accommodation of the "Made in Moncton" exhibit, which it is said will be one of the features of the show.

Whereas in 1910 the association hired their lights for ten days, this year it is intended to purchase a stock of Tungsten lights and tenders will be asked from local dealers for a supply of lamps of 60 and 100 watts.

The matter of free amusements was also considered. The manager reported that he had received a number of propositions in regard to the provision of additional attractions and though it was felt that this year's amusement features as already arranged for are well in advance of previous years, a committee was appointed to look into the matter of securing more attractions.

The Association is determined to make the exhibition this year as attractive and interesting as possible. An aeroplane has been arranged for the road next week. They would have been sent out before but the local men who have the contract for printing the posters and other advertising matter have been rather slow making deliveries.

The advertising matter will be put on the road next week. They would have been sent out before but the local men who have the contract for printing the posters and other advertising matter have been rather slow making deliveries.

CHILDREN GIVEN ENJOYABLE TREAT

Inmates of Protestant Orphan's Home Entertained at Seaside Park, by King's Daughters.

A party of about thirty children of the Protestant Orphan's Home were given an outing to Seaside Park yesterday afternoon by the Fresh Air Committee of the King's Daughters' Guild and friends.

Accompanied by members of the committee and Miss Frost, the matron of the home, and her assistant, the children left Market square about 2 o'clock in a special car put on for the occasion by the generosity of the management of the Street Railway.

Arriving at the park the children were furnished with a bag of peanuts, and a programme of games was then organized for the entertainment of the children. It was carried out in fine style, the children taking part in the games with enthusiasm. All the successful competitors were presented with special prizes, and there were consolation prizes for those who were unsuccessful, so that all the children were able to carry away some souvenir of the occasion.

After a happy afternoon the party was entertained at supper, and after singing God Save the King they returned to the Home with pleasant memories of the day.

The following ladies assisted in entertaining the children:—Mrs. Edith Lane, Miss DeVos, Mrs. J. Foster, Mrs. H. E. Ellis, Mrs. Hedley McKinnon, Miss Jennie Delnatat, Miss Estey, Misses Robinson, Miss Pratt, Mrs. A. Henderson.

MASONIC PARADE ON SUNDAY AFTERNOON

The Craftsmen will Attend Divine Service in Trinity Church in Celebration of St. John's Day.

On Sunday afternoon the Masonic Lodges will hold an obsequial in honor of St. John's Day, which was postponed from June 21st on account of the absence of the grand lodge in Europe. The observance will take the form of a church parade, the service being in Trinity church. It is expected that the service will be largely attended as besides the city lodges a large number of lodges will be present. To facilitate the incoming of the visitors along the line of the C. P. R. the incoming train on Sunday will stop at McAdam Junction, Harvey, Fredericton Junction, Wolford, Westboro, Beauséjour and Grand Bar, and the outgoing train which leaves here at 6:55 p. m. will stop at the same points to let them off.

On Sunday afternoon the grand lodge of New Brunswick will gather at Masonic Hall, on Germain street, where the master, Dr. H. S. Birt will open the session. After this ceremony the grand lodge attended by the commandery of Knights Templars will lead the procession which besides the visitors, will be made up of the following lodges: Albion No. 1, St. John's No. 2, Hibernian No. 3, Union Lodge of Portland No. 10, Carleton Union Lodge and New Brunswick Lodge No. 22. Accompanied by the grand lodge the Artillery Band and the City Cornet Band the procession will march down Germain street to Union street, down Union to Sydney along Sydney to Princess and up Charlotte street to Trinity church where the grand chaplain, Rev. R. A. Armstrong will open the service. This service will be marked by several special features, among which will be the singing of the Masonic anthem by a quartette composed of A. E. Masie, D. A. Fox, D. B. Pidgeon and H. M. Stanbury. The 62nd regimental band will also play several selections during the service.

CHURCH SERVICES

Centenary Methodist Church, Sunday Services—Minister, Rev. J. L. Dawson, B. A. Morning and evening. Sunday school class morning service. Centenary Marsh Bridge Sunday school 2:30 p. m. Evening service at Marsh Bridge at 7 o'clock. Mid-week service Wednesday at 8 p. m.

Exmouth Street Methodist Church, Exmouth Street Methodist Church united service with Brussels Street Baptist Church, 9:45 a. m.—society classes, 11 a. m.—Divine service at Exmouth street Methodist church, Rev. M. F. McCutcheon, preacher, 2:30 p. m.—Sunday school and Bible classes, also Glad Tidings Hall Sunday school, 7 p. m.—Divine service at Brussels street Baptist church, Rev. M. F. McCutcheon preacher.

FUNERALS

Elton Belyea. The funeral of Elton Belyea took place at the Narrows, on Thursday at 3 p. m. interment being in the family lot in the Belyea burial ground. The service at the church was conducted by Rev. C. G. Fincombe, of Jemseg, before a crowded congregation, practically the whole community being out in sympathy and respect for the bereaved family. The preacher took for his subject, "The comfort of God." Cor. 1:34. The aged mother was an ardent of sympathetic interest, her intense grief being distressing to witness as she stood at the grave side supported by her son Talmage.

SUFFERED AGONY FROM DYSPEPSIA

"Fruit-a-tives" Makes Wonderful Cure.

Gloucester, Ont., Aug. 15th, 1911. "So much has been said and written about 'Fruit-a-tives' that it might seem unnecessary for me to add my experience.

"But 'Fruit-a-tives' were so beneficial to me when I suffered with distressing Dyspepsia, that I feel called upon to inform you of the remarkable and satisfactory results I have had from using them.

Dyspepsia and indigestion as everyone knows, can give you more uncomfortable hours and days than most common complaints.

"If an ailment is able to say to you that although in the past I suffered excruciating agony with Dyspepsia, I am now in perfect health, 'Fruit-a-tives' accomplished the desired result and I have to thank them for my very favorable and satisfactory state of health."

MISSIONARY TAKES ALL DURING TOUR

Plaster Rock, July 26—Miss Barbara Mould, of Madras Presidency, who is at present in Canada on furlough, had the misfortune to take ill on the way from here to Riley Brook. Miss Mould is a Baptist missionary from Paikotte, India, and is a native of Winnipeg. She is touring the churches of her denomination in the interest of foreign missions and is one of the speakers for the missionary conference to be held in Sackville in August. Riley Brook is 25 miles from Plaster Rock up on the Tobique River. There is no doctor nearer than this place.

The observance will take the form of a church parade, the service being in Trinity church. It is expected that the service will be largely attended as besides the city lodges a large number of lodges will be present. To facilitate the incoming of the visitors along the line of the C. P. R. the incoming train on Sunday will stop at McAdam Junction, Harvey, Fredericton Junction, Wolford, Westboro, Beauséjour and Grand Bar, and the outgoing train which leaves here at 6:55 p. m. will stop at the same points to let them off.

On Sunday afternoon the grand lodge of New Brunswick will gather at Masonic Hall, on Germain street, where the master, Dr. H. S. Birt will open the session. After this ceremony the grand lodge attended by the commandery of Knights Templars will lead the procession which besides the visitors, will be made up of the following lodges: Albion No. 1, St. John's No. 2, Hibernian No. 3, Union Lodge of Portland No. 10, Carleton Union Lodge and New Brunswick Lodge No. 22. Accompanied by the grand lodge the Artillery Band and the City Cornet Band the procession will march down Germain street to Union street, down Union to Sydney along Sydney to Princess and up Charlotte street to Trinity church where the grand chaplain, Rev. R. A. Armstrong will open the service. This service will be marked by several special features, among which will be the singing of the Masonic anthem by a quartette composed of A. E. Masie, D. A. Fox, D. B. Pidgeon and H. M. Stanbury. The 62nd regimental band will also play several selections during the service.

CHURCH SERVICES

Centenary Methodist Church, Sunday Services—Minister, Rev. J. L. Dawson, B. A. Morning and evening. Sunday school class morning service. Centenary Marsh Bridge Sunday school 2:30 p. m. Evening service at Marsh Bridge at 7 o'clock. Mid-week service Wednesday at 8 p. m.

M. F. McCutcheon, preacher, 2:30 p. m.—Sunday school and Bible classes, also Glad Tidings Hall Sunday school, 7 p. m.—Divine service at Brussels street Baptist church, Rev. M. F. McCutcheon preacher.</

Headaches Over the Eyes Mean Frontal Catarrh

APP TO GET INTO EARS, CAUSING DEAFNESS, OR TO REACH THE LUNGS AND END IN CONSUMPTION.

You Can Cure Catarrh in Any Stage by Breathing the Healing Balsamic Fumes of Catarrhose, and Here is Proof.

Mr. Eric Berault, a young gentleman who has lived for years in Swetisbury, Que., inherited catarrh from his mother. The disease spread through his system till he was a physical wreck.

"As a child," said Mr. Berault, "I was prone to an ulceration of the mucous lining of the throat and nasal passages."

"I grew pale and emaciated, lost all desire for food and got into such a dreadful condition that my friends said that Catarrh was fairly eating me up."

"Every organ of my body seemed affected, and the doctor said it was the first stage of consumption. He advised Catarrhose and I inhaled it ten minutes at a time every few hours, and was rewarded in a few days by a wonderful improvement."

"Catarrhose pleased me and the doctor so well that I used it continually, and took Farraxone Tablets after each meal to build up my strength. In about three weeks I was quite recovered and the doctor says no remedy but Catarrhose could work such a miracle."

"Everyone in town knows I was just about dead with catarrh, and my cure is an evidence of what Catarrhose can do. It is a pleasure to recommend Catarrhose."

Two months' treatment, large size, price \$1, and guaranteed. Small size, 50c. All reliable dealers or the Catarrhose Co., Buffalo, N. Y., and Kingston, Ont. Beware of dangerous substitutes and imitations for "Catarrhose."

DOCTORS GAVE HER UP

Mrs. Stuart Finally Saved By Lydia E. Pinkham's Vegetable Compound—Her Story Interesting.

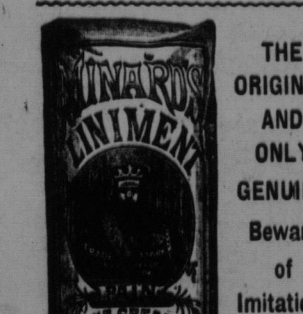

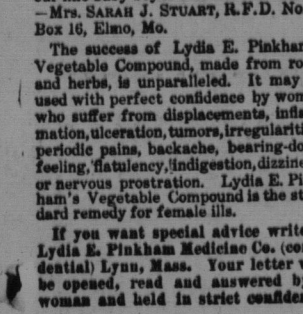

Elmo, Mo.—"I think your Vegetable Compound is wonderful for it has helped me. I had four doctors and they said I had female troubles and a tumor and nothing but an operation would help me. I could not sit still long enough to eat, and could sleep hardly any I was in so much misery with pains in my side and back."

"A year ago last spring my doctor gave me up, and he was surprised to see me this spring and to see my condition. I give Lydia E. Pinkham's Vegetable Compound the praise wherever I go for I know I would not be here today or have my fine baby boy if I had not taken it."

Mrs. SAMUEL J. STUART, R.F.D. No. 2, Box 19, Elmo, Mo.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down, feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

THE ORIGINAL AND ONLY GENUINE Beware of Imitations Sold on the Merits of Minard's Liniment. Every Woman is interested and should have MARVEL Whirling Spray. It is the only remedy for all kinds of female troubles. It is a wonderful discovery. It is a wonderful discovery. It is a wonderful discovery.

HARRIS HEAVY Best Babbit Metal PRESSURE for all general machinery bearings. THE CANADA METAL CO., LTD. Fraser Ave., Toronto

TO RESTORE PROMENADE OLD HOME

Historic Relics of Eternal City to be Reconstructed by Government—Imposing Structures Mecca of Tourists.

Rome, July 26.—It has always been in the minds of the powers that be that something more should be made of the series of ancient remains which have the Baths of Caracalla as their center, and at last this dream is in process of realization. Americana returning to Rome in the autumn will scarcely recognize that part of ancient Rome which extends from the Colosseum and the Circus Maximus to the famous Thermæ, or Baths.

The Thermæ were the wonders of the world when built and are still so, and while not so large as those of Diocletian, were more luxurious, accommodating 15,000 bathers contemporaneously.

The government, carrying out a scheme originally due to the vestal mind of the late historian and statesman, Ruggiero Bonghi, and the ex-Cabinet Minister, Giulio Baccelli, entrusted Senator Professor Rodolfo Lanciani, the celebrated archaeologist, so well known to American readers, to bring to life what is known as the "Archæological Promenade," which already covers 150 acres of land.

Part of this land required draining and was a fruitful source of malaria, so that, incidentally, Professor Lanciani has improved the health of that portion of the environs of the city. The whole forms a magnificent park, surrounding and setting forth the unique ruins from Roman times, the greatest care being taken to recreate what it must have been when the remains were glorious realities.

That besides the natural plants of the soil, there are only seven kinds of trees, the classic trees of Rome, i.e., olive, laurel, pine, cypress, fig, oak, and poplar, of which 10,000 have already been planted, nearly all doing well.

In the center, and overshadowing all stand the Baths. One does not need to be a profound student of Roman times to understand what it means to discover under one building (the Thermæ) one mile of underground passages, evidently for the use of slaves, as they led to the different bath-halls above, and were the vehicle through which the soiled linens passed.

It is just being ascertained that one of the wonders of this pile was the largest flat roof in the world, supported by copper beams, no longer in existence, but the site of the walls, and their formation shows that the roof was flat without support from below.

Another of the sensational plans of the city, the strictest check on the locker clubs and retaining the "near-ness" sections.

"These locker clubs have been one of our greatest evils," said Mr. Tipplins, "and it is estimated that the net amount of the regular revenue would be at least \$500,000."

"This amount would forever wipe out the annual disburse of making school teachers wait an unconscionable time for their salaries."

"The prohibition for which the people of Georgia declared five years ago has proved a failure. My bill seeks to give to Georgia what her people demand."

The following is the section of the Tipplins bill relating to "near beer": "From and after the year 1912 it shall be unlawful for any person, firm or corporation to manufacture, sell or barter, or keep on hand for sale or at an place of business, or give in weight or volume, the word liquor shall be held to include any liquid used or sold as a beverage and any proprietary medicine, by whatever name called, that is capable of being so used."

The most drastic action relates to the locker clubs. This part of the measure puts enforcement of the law squarely up to the governor. It requires that all locker clubs must stand ready at all times to make oath that they are not violating any of the state's prohibition laws when called upon by the government to make such oath, and the governor is required to demand an oath of this character of any locker club which he has reason to believe is violating the prohibition laws.

Any Man Could Invoke the Law. "Any man in the state of Georgia, said Mr. Tipplins, commenting on his bill, "could shut out of every locker club that is violating the law and could cause to be punished those responsible for such clubs without publishing his own identity or causing himself to be an object of any undesirable notoriety."

Opponents against this law are liable to punishment by long terms of imprisonment and the violations are cumulative. "The measure has been fought bitterly in the legislature and Gov. Brown has been quoted as saying he would veto it."

Acrimonious debate has greatly stirred State pride, for it has brought out that Georgia must be one of two things—either a free state or a state by means of some form of liquor license or increase the tax rate by constitutional amendment.

It is declared that the Ashley move to increase the tax rate from five to six mills is a daring one. It has many strong opponents in the legislature and among the politicians generally, but conservative business men of Atlanta approve it, for in it they see the only practical way out of a situation that hurts their State at home and abroad.

Call it Honorable Solution. Mr. Ashley's idea is new. It has not gone home to the people through the State yet, and he admitted today that he would be glad to see the State and the Georgia House of Representatives take the task off partly upon me to find the money with which the State may meet its yearly obligations." Mr. Ashley continued.

"As chairman of the Ways and Means Committee of the Georgia House of Representatives the task fell partly upon me to find the money with which the State may meet its yearly obligations." Mr. Ashley continued.

"This amount would forever wipe out the annual disburse of making school teachers wait an unconscionable time for their salaries."

"The prohibition for which the people of Georgia declared five years ago has proved a failure. My bill seeks to give to Georgia what her people demand."

GEORGIA, RENT BY LIQUOR WAR, NEAR BANKRUPTCY

Legislature Urged to Pass Bill for Raising of Tax Rate to Save the Honor and Credit of the State—It Would add \$1,000,000 to the Revenues.

Atlanta, Ga., July 26.—There was spread upon the records of the House of Representatives of Georgia today a measure that it is declared will reach the state for the last six months.

It is a bill offered by Representative Ashley, of Lowndes county, chairman of the committee on Ways and Means the purpose of which is to bring about an amendment to the constitution of Georgia so as to permit the raising of the tax rate throughout the State from five to six mills. This, it is asserted, would add \$1,000,000 to the net increase of \$1,000,000 to make up her treasury deficits.

Just as a gubernatorial campaign is opening, the people of Georgia are stirred into bitterly opposing factions over the Tipplins bill, which, if it should become a law, would virtually shut all traffic in spirits and liquors in this State and cut off \$300,000 from the already totally inadequate revenues of the State.

State at Verge of Bankruptcy. "The state has been running its affairs with a deficit at the end of each fiscal year, and, it is asserted, has been on the verge of bankruptcy. More than three-fifths of the public school teachers of the state, poorly paid at best, it is argued, have not received their salaries for from eight to twelve months, and the entire Georgia public school system has been threatened with collapse. Lack of funds has been the cause of crippling or materially handicapping almost all of the other departments of the commonwealth."

And yet Georgia boasts that she is the richest state in the south, except possibly Texas.

The crusade waged by the temperance advocates and the prohibitionists who have taken up their cause has been based on the ground that prohibition of the brand inaugurated in Georgia in 1897 has failed, and that crime and its concomitant have continued almost unabated, has been their plea, and they have preached and investigated from one end of the state to the other.

Say Law Has Been Defied. No issue in many years has taken such a hold upon the passions of the people. It has been charged by temperance and prohibitionists that it has been set at naught and utterly defied by hundreds of locker clubs and blind tigers. So grave has been the situation that the legislature has been openly criticized in the Legislature for failing to perform their duty, and Governor Brown has been severely censured on the hustings and in the press.

Such a storm of opposition was raised to the original measure that the representative has offered a substitute, altering some of the objectionable features of the bill, but prescribing what is declared, is the strictest check on the locker clubs and retaining the "near-ness" sections.

"These locker clubs have been one of our greatest evils," said Mr. Tipplins, "and it is estimated that the net amount of the regular revenue would be at least \$500,000."

"This amount would forever wipe out the annual disburse of making school teachers wait an unconscionable time for their salaries."

"The prohibition for which the people of Georgia declared five years ago has proved a failure. My bill seeks to give to Georgia what her people demand."

The following is the section of the Tipplins bill relating to "near beer": "From and after the year 1912 it shall be unlawful for any person, firm or corporation to manufacture, sell or barter, or keep on hand for sale or at an place of business, or give in weight or volume, the word liquor shall be held to include any liquid used or sold as a beverage and any proprietary medicine, by whatever name called, that is capable of being so used."

The most drastic action relates to the locker clubs. This part of the measure puts enforcement of the law squarely up to the governor. GAS IS PUT AT LOWEST RATE AT END OF FIRST 100 YEARS

Governor of Company Tells His Men that He Does Not Believe Their Interests Are Mutually Antagonistic and Says They Seek Mutual Helpfulness.

London, July 26.—The centenary of the Gas, Light and Coke Company was celebrated by the entertainment at the Crystal Palace of over 7500 of the company's employees of over three years' service together with their wives and families. It has also been celebrated, as far as the public is concerned, by a reduction in the price of gas to the lowest figure on record, namely, 2s. 6d. per thousand cubic feet.

About a thousand elected representatives of the men assembled in the theatre at the palace and were addressed by the governor of the company, Mr. Woodall. In the course of his speech he recalled the fact that the earliest strikers of the company who were the best paid men of their class at that time received 26s. a week, and that of seven days of a laborer at that time were from 7s. to 8s. and the price a quarter less, and upwards liberty was then in chains and among all the improvements effected in the last century the lives of the working classes had been the greatest.

Mr. Woodall went on to point out that a sense of duty permeated employers and workers in so far as it was possible to separate the two in a co-partnership business like theirs, there would be a sense of mutual obligation which meant on one side fair work freely rendered, and on the other sufficient and indeed generous pay freely given.

There was a disposition in England, said the speaker, to regard the interests as mutually antagonistic, but they, at any rate, did not believe that at all and were seeking to establish a better belief, namely, that the two were mutually helpful. He himself believed that they had in their system of co-partnership an arrangement that would be universally applicable. He had never thought that it was a perfect system, but it was the perfect they knew of and so long as they did not know a better they would stick to it.

oil, has proved its utility and advantages over the steam engine to such an extent as to convince naval engineers of its great future in England. A destroyer now under construction is being fitted with oil engines for use at a cruising turbine in conjunction with a steam turbine for use in high speeds. The trials of this vessel, Hardy, will be carried out during the present year and cannot fail to be productive of valuable information.

Germany has also decided to experiment with a combination of oil engines rather than in destroyers. If success be achieved with the small installations under the special conditions which have to be met in the destroyers, it will only be a matter of time before the principle will be extended to the largest battleships and battle cruisers.

In recognition of this fact the Royal commission headed by Lord Fisher has been appointed so that the British warships which may be built in the future will be benefited by the adoption of the internal combustion engine.

The new Royal commission is intended to have a practical result, in manifest also by the report that the present controller of the navy, two of his predecessors, with the chief of the constructive and engineering departments of the Admiralty and representatives of large private firms, such as Messrs. Armstrong and Vickers, are to be among the members.

GOVERNMENT MUSEUM FOR AMERICANS

Goods Made in the United States to be Exhibited in Paris to Encourage Manufacture.

Paris, July 26.—The suggestion to found an American commercial museum in Paris as a means of opening the foreign market to a larger class of American manufacturers has come from the American chamber of commerce here. George R. Ostheimer, a member of the board of directors, has sketched a plan for such an organization.

It is believed that such a museum would be especially beneficial to the small manufacturers, whose goods could thus be made known to the outside world to the best possible advantage and at the least possible expense.

A museum in Paris is believed to be especially valuable because Paris is the great central assembling point for visitors to Europe, and the products of American manufacturers would be under the eyes of not only the business men of France but all of Europe as well.

Attached to the French ministry of finance are officials who are little known in this country at large. They are the tobacco testers of the government and their business is to pass judgment on every kind of tobacco of the different types of tobacco placed before them.

The officials do not hesitate to admit that the pleasant part of the day's work comes when it falls to their lot to test the high-priced Havana cigars sold by the state through the thousands of tobacco stores that exist throughout France. The employees who undertake this responsible duty are former inspectors of tobacco factories, who have passed a certain number of years in the state service and have demonstrated their capability for this peculiar kind of work.

The injurious influence of the tobacco they endeavor to combat by drinking great quantities of black coffee, which acts, it is said, as an antidote to the effects of the nicotine.

The question of morality, as it attaches itself to the public elementary school, is again arousing attention, together with the perennial subject of increasing criminality, serious prohibitionists have forbidden the exhibition of "bandit" films in their communities. Moving pictures, they say, encourage and propagate crime.

In some quarters this view is challenged with the declaration that one must go behind the picture palace to find the real cause of crime. The elementary school for the most part, it is there that morals are inculcated, and it is there that the character of the young receives its first impress.

Others, again, attribute the growth of predatory crime to the growing materialism, to the ambition that permeates the social classes, which that "new spirit of extravagance which appears to be undermining the old prudice and thrift of the French."

In connection with the subject of elementary education a writer in the "Revue des Deux Mondes" makes a plea for the reorganization of the curricula of public schools in the country, and asks that the instruction given to future farmers and agricultural laborers shall accord more with their special requirements. Inculcate in them, he says, a love of the land; let them realize the sanctity and utility of a country life, of a life given to the raising of cattle and the cultivation of crops. Combat as much as possible the tendency to leave the land for the cities—a tendency which explains in France as elsewhere, the export of soil.

Why should not the schoolmaster instill into his pupils the idea that to plough a straight furrow is more useful to the community than is the ability to add up a row of figures or to manipulate red-tape in a government office?

oil, has proved its utility and advantages over the steam engine to such an extent as to convince naval engineers of its great future in England. A destroyer now under construction is being fitted with oil engines for use at a cruising turbine in conjunction with a steam turbine for use in high speeds. The trials of this vessel, Hardy, will be carried out during the present year and cannot fail to be productive of valuable information.

Germany has also decided to experiment with a combination of oil engines rather than in destroyers. If success be achieved with the small installations under the special conditions which have to be met in the destroyers, it will only be a matter of time before the principle will be extended to the largest battleships and battle cruisers.

In recognition of this fact the Royal commission headed by Lord Fisher has been appointed so that the British warships which may be built in the future will be benefited by the adoption of the internal combustion engine.

The new Royal commission is intended to have a practical result, in manifest also by the report that the present controller of the navy, two of his predecessors, with the chief of the constructive and engineering departments of the Admiralty and representatives of large private firms, such as Messrs. Armstrong and Vickers, are to be among the members.

Back to Nature's Food

With the advent of Summer comes a desire for closer contact with Nature and for a simpler, more rational diet. When you get back to Nature you will want to get back to Nature's food. Cut out meat and potatoes for a while and eat

SHREDDED WHEAT AND BERRIES

with fresh green vegetables. It will mean health, strength and Summer joy.

Because of its porous shreds and its Biscuit form Shredded Wheat combines most naturally with all kinds of fresh fruits, presenting them to the palate in all the richness of their natural flavor.

Heat the Biscuit in oven to restore crispness and then cover it with berries or other fresh fruits and eat with milk or cream.

Shredded Wheat Biscuit is the Real "Staff of Life"

Made by The Canadian Shredded Wheat Company, Limited Niagara Falls, Ont.

Toronto Office: 49 Wellington Street East

Renewed Health and New Life for the Weak

A prominent feature of Wingarnis is its extraordinary power in fighting lowered vitality. Nervousness, indigestion, weakness, etc. You can actually see vitality and new life in the "Wingarnis" being your good friend from Weakness, Anemia. Will you try just one bottle?

The Wine of Life that is recommended by over 10,000 Doctors

WINGARNIS

TRADE NOTE—Wingarnis is a trademark of the leading Wholesale Distributing Houses in the Dominion

DANDY ROLLER SKATES for GIRLS AND BOYS

Say, girls and boys, here's your chance to become the happy possessor of ROLLER SKATES while the fine weather's on! Also, a sheet of high-class music, a wonderful miniature edition of the Bible that is said to bring good luck to its possessor; and Zippo.

ALL GIVEN FREE TO EVERY GIRL AND BOY who will call for us only 20 packages of Marvel Bluing at 10c. a package.

We want you to be our little Agent, and the Bluing is so good and well-known that you will surely sell 20 packages—and just think for all the rest of your holiday. You will have these four lovely presents!

Besides, it will be so much easier to sell the Bluing quickly, when you tell people that you have a beautiful little jewelry novelty for every purchaser. These we send you with the package.

You will be so proud of your handsome strong skates; they are really dandy—they will serve you for quite a long time. The "new" Bible is a wonderful little book—easy, girls and boys, the whole Bible no bigger than a postage stamp—just won't your friends want to see it! The sheet music is selected from Victor-Breuer Company's publication of standard songs and sells at 40c. a copy. But there is still another present—Zippo, the hopping imp, who can jump 15 feet high and is called "a hopper" and has a regular Spring-Loaded, Judo-Box! He has no end of fun with him.

Now boys and girls you do your part and sell the twenty packages of Bluing and we will promptly deliver by sending you these four handsome gifts just as represented.

Send us your name and address for the Bluing and when you have sold it, send the \$2.00, and along will come your skates with the other presents.

MARVEL BLUING CO., S-112 TORONTO, ONT.

HIGH-CLASS PRINTING

Job work of all kinds promptly and carefully attended to.

Prices as low as can be obtained elsewhere.

Give Us a Share of Your Business

Long Service and satisfaction are assured if you purchase knives, forks, spoons and serving pieces bearing the trade mark.

B&T ROGERS BROS.

This brand is known as "Silver Plated Ware" and is made in the highest grade of plate. Famous for its durability and beauty. Sold by Leading Dealers.

THE WEATHER

Toronto, July 26.—The depression from seaward is moving rapidly across Newfoundland tonight accompanied by rain and gales. Cool weather prevails from the lake region to the Atlantic while in the west it is moderately warm.

Minimum and maximum temperatures—Edmonton, 45, 72; Battleford, 54, 74; Prince Albert, 54, 72; Calgary, 46, 72; Moosejavy, 55, 82; Regina, 58, 85; Winnipeg, 54, 80; Pelly, 54, 78; London, 55, 76; Toronto, 62, 79; Kingston, 59, 80; Ottawa, 56, 72; Montreal, 60, 78; Quebec, 56, 72; St. John, 54, 68; Halifax, 60, 72. Lower Lawrence and Gulf—Continued cloudy and cool.

MARITIME—Moderate southwesterly winds; mostly fair and a little warmer, but a few scattered showers.

AROUND THE CITY

A young man employed in Simms' factory on Union street had one of his legs badly cut yesterday afternoon about three o'clock. The ambulance was summoned and he was conveyed to the Hospital to have his wound dressed. He would not stay in the institution and was taken to his home.

Not Seriously Injured. A few days ago William Crosby, of 273 Main street, received a telegram stating that his son, William, was seriously hurt in an automobile accident near Bangor. Thinking that his son was fatally hurt Mr. Crosby hurried to Bangor, where he found that his son, beyond a severe shaking up, was not seriously injured. Mrs. Crosby received a telegram to this effect last evening.

The Free Vaccination. The medical health officer is in attendance at the board of health rooms, Princess street, on Monday and Tuesday for the purpose of vaccinating children. Every year the board makes a special effort to have children vaccinated during the holidays to provide against the possibility of contagion when school opens again, and also to minimize the chances of the children having the excuse of a sore arm to stay away from the seats of learning.

Water Service Extension. At the meeting of the city commissioners held yesterday some old questions were up for consideration. Com. Wigmore gave an account of the work being done in connection with the extension of a sewer on Douglas avenue and outlet for a sewer on Douglas avenue and Adelaide street. Progress was reported in connection with these matters which have been discussed for some years. It was thought that a definite report in regard to the Douglas avenue sewerage problem and the water extension on Adelaide street would be ready for submission to the public meeting of the council on Monday.

C. P. R. Work in West End. In connection with the extension of the C. P. R. terminal facilities on the west side the work of cutting down Beatty's Rocks will be started next week and it is expected the job will take about 3 months, as there is a pretty extensive area of rock to be removed. The work will be in charge of Mr. Puffer, superintendent of construction work for the Norton Griffiths Company. The material excavated will be used in filling up the forty acre lot and what is known as the dummy system will be used in removing rock. This is an arrangement by which the cars are attached to a cable and the weight of the loaded cars used to pull back the empties to the scene of the excavation. Cars specially designed for the work are being built at the Flemming foundry.

The Courtenay Bay Work. Although the wet weather of the past week has interfered to some extent with the work at Courtenay Bay, good progress has been made and those in charge of the excavation work are well satisfied. The big locomotive which was derailed and went into the water was successfully hoisted onto the track yesterday and was in place last night. The work will be carried on more rapidly henceforth with the addition of more equipment which will soon be on the scene. A locomotive train which has arrived will be here in a few days. With this increase of machinery at the scene Supt. Puffer expects to have the work considerably advanced within the next few weeks. About one hundred and ninety men are at present employed at the work.

Reductions on Summer Goods. The Big Reductions on Summer Goods in the Ready-to-Wear Department of F. A. Dykeman & Co. is a sale that is worth patronizing for many reasons. The prices in many cases are cut in two and this sale being put on just in the middle of the season when so much wear can be got out of the garments before the season is over, makes this sale a great money saving opportunity. All those handsome White Dresses which have been admired so much are being cleared out at nearly a third of their regular price. They were considered extra good value before and now that this big discount has been taken off it is a chance one cannot afford to miss.

Farm Laborers. Thousands upon thousands of farm laborers will be wanted in Western Canada this year. In fact, more help than ever before. The crops are larger, and consequently the demand for labor will be greater. The annual farm laborers' excursion will leave here in a few days—the exact date to be given out later. Watch for it and in the meantime get ready, the notice will be short.

Farm Laborers. The Canadian Pacific Railway announces farm laborers' excursions will be run this year from the Maritime Provinces as in previous years. The exact dates have not been decided, but will be announced in a day or two, when full particulars will be advertised.

Keeping Men's Clothing New. Our dry cleaning process keeps men's clothing looking new until worn out. Do not discard your suit because of soil or stain. Try Ungar's, 25 Waterloo street.

THE YACHTSMEN

REACH OAK POINT; AT BELVEAUX, TODAY

R.K.Y.C. Men Having Enjoyable Time on Their "Happy Days" Cruise—Reach Belveaux's Point Today.

So far this year the R. K. Y. C. annual cruise has been extremely successful. On Thursday the fleet left Gagetown at noon and after a pleasant sail, reached Erb's Cove about sundown, where after supper all repaired to the beach and enjoyed to the full the huge bonfire and singing, which was kept up until a late hour. Professor D. Arnold Fox proved the leading spirit on this occasion, entertaining the crowd with a succession of songs and funny speeches.

On Friday a series of water sports were held and were the source of much amusement, the fun race calling forth roars of laughter. The events and the winners were as follows: Dinghy race, Jack de Forest, of the yacht Smoker; one car dinghy race, George Roberts, of the Canada; navigating a boat with "Mrs." Captain Walter Logan of the Ives; boys' rowing race, Howard Bustin; swimming race, Howard Bustin; graceful handling of boat, Dr. Wetmore and son.

The prevailing difference of opinion between the motor boat and sail yacht men regarding baseball prowess resulted in a challenge from the gasolene to the muslin. This challenge was speedily accepted, but a favorable breeze springing up prevented any blood being shed or records made.

After the sports the yacht club left Erb's Cove for Oak Point, a distance of ten miles. This leg of the cruise took the form of a race which was won by the Mowgli with the Armoel second and the Ives third. Before the majority of the boats reached Oak Point the wind died and the motor boats were called to the assistance of the yachts. Others of the sailing craft were caught using power with the result that they were ruled out of the race.

The evening at Oak Point also proved to be very enjoyable, a large bonfire being lighted on the beach and a pow-wow held. This morning the fleet will leave Oak Point for Belveaux's Point where the annual service will be held on Sunday morning.

At Erb's Cove a number of boats joined the fleet among which was the Wanderer. This yacht carried away her rudder the first day out and was forced to put back for repairs. Loud cheers greeted her when she rejoined the fleet. Other yachts to join were the Ben Hur and the Glady.

I. C. R. OFFICIALS ON TRIP OF INSPECTION

Divisional Superintendent Hallisey and Car Service Superintendent Spent Few Hours in City Yesterday.

J. T. Hallisey, superintendent of the I. C. R. and W. N. Ripsey, superintendent of the car service, arrived in the city yesterday afternoon on the Pacific express, and in company with Station Agent L. R. Ross, made a tour of inspection.

Mr. Hallisey to The Standard said that everything was in a most satisfactory condition. When asked if the report that the lower part of the north wall would have to be raised and then rebuilt was true, he said that so far as he knew the present plans would be carried out. The upper part of this wall has now been finished, and the remainder of the work will be carried out along the same lines.

Mr. Hallisey said that arrangements were being made for the visit of the Duke of Connaught to Moncton. His Royal Highness will land from the steamer Earl Grey at Point du Chene and will then proceed to Moncton by special train. It is expected that the train will be composed of the best cars in the service. After spending a few hours in the railway city, he will return to Point du Chene and cross to the island where he will visit several of the most important places.

After visiting the island the Earl Grey will convey His Royal Highness to Pictou Landing where he is expected to arrive on Thursday of next week. At Pictou Landing another special train will be waiting to take the governor general to Truro. After leaving Truro the Duke of Connaught will spend the next few days visiting the different towns along the Nova Scotia coast before coming to St. John.

MARR'S THE MECCA OF MANY SHOPPERS

Large Crowds Take Advantage of Great Annual Clearance Sale—Only Four Days Remain Now.

Crowds of eager shoppers thronged the big store of the Marr Millinery Company all day yesterday. This was the third day of the firm's great annual clearance sale of mid-summer millinery for ladies, misses and children. In every department bargains reigned supreme, many buyers securing from two to three hats at the price of one. The sale is now drawing rapidly to a close, only four days remaining in which to take advantage of this exceptional saving opportunity.

Had His Leg Cut. Commissioner Agar II. Commissioner Agar was unable to be at City Hall yesterday on account of illness.

NEW STEAMSHIP SERVICE TO CUBA

FOR N. B. POTATOES

William Thomson Company to Provide Fortnightly Sailings During Winter Season—Potato Crop Expected Large

The William Thomson Company is making arrangements to operate a steamship service from St. John to Cuba as soon as the season's potato crop begins to seek a market, and it is intended to have a sailing from St. John every two weeks if the size of the crop and the condition of the market in Cuba warrants such a service.

This company has run a line of boats to Havana for some winters past, and though it has to compete with the heavily subsidized Elder Dempster company which operates a monthly service from St. John to Cuba and Mexico, it has managed to secure large cargoes of potatoes and other kinds of agricultural produce for shipment to the Cuban markets. The New Brunswick farmers have a large acreage in potatoes this season and if the crop should turn out well there should be considerable quantities of potatoes for export to Cuba this fall and winter. Although potatoes grown in the United States enter Cuba under a preferential tariff arrangement, the New Brunswick potato growers have certain advantages which enable them to compete successfully with the American product and when these advantages are better realized a considerable increase of the production of potatoes in the lower part of St. John River Valley is confidently anticipated.

Last summer Percy W. Thomson, J. H. Doody and other St. John business men hired a farm on the river near St. John, spent about \$600 to provide machinery to operate it, and raised a crop of potatoes. They were told they would lose money on the venture, but though they subsequently sold their machinery for \$200 they made about \$2,500, or a net profit of about \$40 an acre. They were able to hire a scow to bring the potatoes to St. John at a rate of four cents a barrel, or a net profit of about \$40 an acre. They were able to hire a scow to bring the potatoes to St. John at a rate of four cents a barrel, or a net profit of about \$40 an acre.

The Carleton County farmers have to pay about 17 cents a barrel to transport their potatoes to St. John, and they have to pay also top wharfage charges, and sometimes storage and cartage charges. The Aroostook farmers have to pay about 32 cents to get their potatoes to St. John, and also pay top wharfage and other charges.

The potato growers of the lower St. John Valley have an advantage of about 17 cents over the farmers of Carleton County and of twenty cents or more over the Aroostook farmers, even allowing for the preferential customs duty.

The net return secured by Mr. Thomson and his friends is not exceptional. According to a recent report of the Provincial Agricultural Department good potato ground in the province will secure a yield of 100 pecks per acre from potato crops, while the total expenses will not exceed \$50 or \$55 per acre, leaving a net profit of \$45 or \$50. Out west the grain growers can not begin to get any such return per acre from their land and when the possibilities of this province are better known it may be confidently expected that it will attract many people as settlers.

The fog horn at Partridge Island besides being a great help to fog bound ships has the hitch horn, the big game guide beaten all to pieces, as a valuable adjunct to moose hunting. This remarkable fact was conclusively proved early Thursday morning when, attracted by the Partridge Island horn, a large bull moose with a splendid set of antlers came out of the woods back of Fort Howe and strolled down Harris street to Paradise Row.

Not liking the appearance of that part of the city the huge animal started at a run along Paradise Row and up Main street, greatly to the surprise of the policeman on that beat, who, thinking that a horse had escaped, ran out into the middle of the street to head him off. The sight of this guardian of the peace seemed to fill the brute with rage for lowering his head the moose valiantly advanced to the attack. Needless to say the policeman hastily beat a retreat to the sidewalk, and the moose seeing the road was clear kept on up the street.

The wanderer arrived abreast of the North End police station at the time when the guard is being changed thus providing the officers with a little excitement, for it is not every morning that a large moose comes to disturb the peace.

Greatly to the surprise of the watchers, the animal on trotting up street stopped for a few minutes beside a telephone pole and calmly proceeded to scratch his back. Just then the horn at Partridge Island blew, with the result that the moose started again on his journey. When he arrived at Douglas avenue he paused as if to find the shortest way to the source of the sound, but on hearing the horn blow again he evidently remembered seeing several of his brothers going to answer similar sounds, for he at once ran on down Main street and out Adelaide Road, undoubtedly being glad to arrive once more in his native wilds.

Mr. Luppe was "At Home." There was a rather lively time in Fred Luppe's house in Union Alley last night. Fred was under the influence of liquor and was creating considerable trouble. Policeman Crawford placed him under arrest.

FREE of pain is the way we extract teeth by the famous Hale Method, which is used exclusively at our offices. We Charge only a Nominal Fee 25c. If you wear a set of artificial teeth try our improved suction plate. Each dollar spent includes a chance for a Free Return Trip to Lemora, or choice of \$100.00 in Gold, and each 25c spent with us gives a chance for a Free Return Trip to New York.
