

RECOVERY OF MORE GROUND IN VICINITY OF YPRES IS REPORTED BY THE ALLIES

RUSSIANS ENGAGED BY ENEMY ALONG GREATER PART OF FRONT IN EAST

Reports From War Zones Indicate Enemy Putting Forth Supreme Effort in Both Theatres—Both Berlin and Vienna Claim Successes, but Official Reports From War Offices of Allies Say Differently.

London, May 6, 10.25 p. m.—The Germans with their Austrian allies are putting forth an effort, the extent of which has never been approached in the history of war. Throughout virtually the whole length of the eastern front they are engaged with the Russians, while in the west, in addition to their attacks around Ypres, they are on the offensive at many points. At other points they are being attacked by the French, British and Belgians.

Far up in the Russian Baltic provinces, heretofore untouched by the war, the Germans are attempting to advance toward Libau and Riga; on the East Prussian frontier they are engaged in a series of battles, and with a big gun are bombarding at long range, as they did Dunkirk, the Russian fortress of Grodno; in Central Poland they have had to defend themselves against a Russian attack; in Western Galicia they are attempting, with all their strength, to smash the Russian flank and compel the Russians to abandon the Carpathian passes which they gained at such cost during the winter.

In this Western Galician battle the Germans claim to have made a still greater advance and to have crossed the Wisloka river, which is well to the east of the Dunaec river, which, until a few days ago, formed part of the Russian front, and to have put their hands firmly on Dukla Pass.

In conjunction with this attack from the west the Austrians are attempting to drive the Russians from Lupkow Pass, further to the east, and with success, according to the German account. In all, the Germans claim to have taken forty thousand Russian prisoners since the offensive was undertaken last Saturday night. The Austrians put the number at over fifty thousand, and express the belief that the whole Russian Third Army will be destroyed.

Exaggerated, Russians Say of Berlin Reports.

These reports show that the Austro-German blow is meeting with the greatest success on the north slopes of the western Carpathians; towards the Upper Vistula the Russians appear to be in their old positions.

Despite the claims of the Austrians and Germans, the Russian representatives in the European capitals reiterate that the victory has been greatly exaggerated, and the public is waiting to hear what Grand Duke Nicholas, commander-in-chief of the Russian forces, has to say about it.

The Germans also claim a series of successes in the west. They report that they are continuing to make progress southeast of Ypres, which, however, is hardly borne out by Field Marshal French, who says that the British have re-captured more of the trenches which they had lost on Hill No. 60 and that fighting is still progressing in that neighborhood, while elsewhere the Germans have shown no disposition to attack.

There are reports that the Germans

are about to make another determined effort to take Ypres, which is considered the key to the French coast ports. The Pall Mall Gazette says this evening: "It is folly to say that Ypres has more of political than military importance," and adds: "The Germans would be more encouraged by success at Ypres than by anything since the fall of Antwerp. If such an event occurs, we must instantly recognize it and admit it to be a defeat, and a grave one. In place of a party cabinet, a national ministry ought then to be formed and a new military levy made. Happily, there is yet no need to anticipate a retreat from Ypres, much less a German march to Dunkirk and Calais."

Other German claims relate to successes in the West, where, the Germans say, in an attack along the northern side of the St. Mihiel wedge, they took upwards of 2,000 prisoners, and that they repulsed French attacks on the southern section of the wedge near Flirey. This, as usual during the last few weeks, entirely disagrees with the French account of the action.

Of the operations in the Dardanelles up to Sunday, Premier Asquith gave the House of Commons some news this afternoon, although the number of troops landed was withheld. As 29,000 were landed the first day and the disembarkation continued for a week, while the French have also joined the British and Australians on the Gallipoli peninsula, it is apparent that the force is a formidable one.

The Premier, while issuing a warning that the casualties were heavy, paid a glowing tribute to the troops, through whose exertions considerable progress towards the Narrows has been made.

An Athens despatch says that the Turks have again been defeated.

Petrograd despatches report that further defeats have been inflicted on the Turks on the Turco-Persian frontier, near Dilman, and near Olti, on the Caucasian border.

London, May 6 (9.15 p.m.)—Reuter's version of the last Berlin official communication contains additional details of the fighting in the eastern zone:

"We bombarded the fortress of Grodno (about 150 miles northeast of Warsaw) last night."

"In Western Galicia rear guards of the retreating enemy offered a desperate resistance to the allied troops under General August von Mackensen, which broke down on the heights on the left bank of the Wisloka river, above and below the mouth of the Ropa river."

"We not only forced a crossing of the Wisloka at several points, but firmly put our hands on the Dukla Pass."

Havre, May 6.—An official communication issued by Belgian headquarters says: "The enemy's artillery has bombarded intermittently Ramscapelle, Oude Stuyvekenskerke and territory beyond the Year, to the north and south of Dixmude, and also the outskirts of Oostkerke and Reningshe."

STRATHCONA AND KING EDWARD HORSE AND ROYAL CANADIAN DRAGOONS LEAVE FOR FRANCE

Special to The Standard.

Ottawa, May 6.—Word was received here that the Strathcona Horse, the Royal Canadian Dragoons and the King Edward Horse have crossed over to France under the command of Brigadier General Seely and will form a fourth brigade for the Canadian infantry. The men in these cavalry units were most eager to join the infantry in the trenches and their action is everywhere most highly commended. General Seely's command includes about 1,800 men, 600 in each unit. The Strathcona Horse are commanded by Col. A. C. MacDonnell and came from the West.

Major D. S. MacKis is second in command. The Royal Canadian Dragoons are from Toronto and St. John's and are under Col. Nelles, with Major James Emsley second in command. Both these corps belonged to the permanent force. The King Edward Horse is composed of British and Colonial now resident in England.

The 1800 men will probably be added to so as to make up a full complement of four battalions. General Seely was formerly Minister of War in the Asquith cabinet.

CANADIANS A TERROR TO THE GERMANS

Splendid Testimony to Courage of Men from Canada Given by Member of Crack British Cavalry Corps.

London, May 6.—(Gazette Cable)

Splendid testimony to the courage and ability of the Canadian troops who were engaged in the desperate fighting near Ypres is given by a member of the crack British cavalry corps, a corporal in the Household Cavalry. Writing to his sister in Kensington, the corporal tells of going out with an ambulance to look for his brother in the Fourteenth Battalion (Royal Monmouths), who had been reported wounded. The corporal says:

"I have been in one of the most terrific engagements of the war, and when I reached this point yesterday I heard that he had been hit and had not yet been brought in. As soon as I pegged down last night I went down the road a few miles and found a sergeant who knew him and thought he was neither wounded or dead, so it seems he has been spared and has gained an undying name, as did his battalion and the whole Canadian division which was engaged. The Canadians proved themselves real fighters and they made the advance very dear for the Germans. They were a terror to the enemy, and the sole topic of conversation along the British line after their stand against greatly superior numbers last week."

Lieut. Ransom Wilkes, son of Lieut. Col. Wilkes, of Brantford, who is in the hospital at Worthing, suffering from serious injuries sustained in a motorcycle accident, has been visited again by Sir William Oeler and is reported to be doing well now.

John Bull, the weekly paper which has frequently attacked almost every thing Canadian, this week pays a tribute to the soldiers from the Dominion. On the front page the usual illustration is printed showing John Bull with his bull dog standing on the Union Jack, and the text is: "How do you like the Canadians?"

GEN. BOTHA'S TROOPS HAVE TAKEN KARIBIB

Occupy Railway Junction in German S. W. Africa After Long March Over Waterless Waste.

Cape Town, via London, May 7, 12.35 a. m.—The following official statement was issued today:

"General Botha has occupied the important railway junction of Karibib and other stations (German Southwest Africa). He expects to occupy Wind-huk very soon. Large quantities of rolling stock, including seven locomotives, were taken at Karibib. "The town was occupied after a forced march of 35 miles over a waterless waste, under conditions of heat, thirst and hunger which called for the greatest resolution and grit."

LEADER OF ARMIES IN DARDANELLES AND POINTS WHERE TROOPS LANDED

According to an official despatch from Constantinople, the Allies have landed troops at four points in the Gallipoli Peninsula:—1. At the mouth of the Sigtinder. 2. On the coast of the Gulf of Saros, in the district of Aviburnu. 3. To the west of Gabatepe, and 4. on the coast at Teke Burnu. A force was also landed on the Asiatic side at Kum Kale. The despatch states that these different expeditions were forced to return to their ships. A Paris despatch says that the French war ships landed troops at Kum Kale and that they occupy the town. Sir Ian Hamilton, who is shown in the illustration, is leading the allied armies in the Dardanelles.

Enemy Has Suffered Complete Checks and Heavy Losses During Past 15 Days, French War Office Says

Paris, May 6, 11.15 p. m.—An official note issued tonight says:

"The German general staff persists in giving false details concerning their offensive engagements. During the last fifteen days the enemy has suffered complete checks and severe losses."

"The German attack on April 22, by two army corps, using asphyxiating gas bombs, had as its object the piercing of the Ypres front. The greater portion of the prisoners captured from us were overcome by fumes. We suffered no check. The rapidity of our counter-attacks prevented the enemy from attaining the left bank of the Yser Canal and from establishing a strong position on the right bank."

"In these combats we inflicted heavy losses on the enemy. Our actual front was established only two kilometres (about a mile and a quarter) behind the original front. Our men are now provided with means to protect them against similar attacks with asphyxiating bombs."

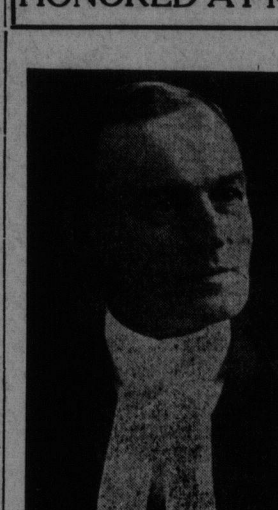

"Being unable to pierce our lines and compel us to give up possession of Ypres, the Germans used a marine gun, firing a distance of 38 kilometres (about 23 1/2 miles) on Dunkirk. This gun, which ceased firing after two days, did damage of no military importance."

"On April 23 the Germans endeavored to re-take Les Eparges with three divisions. Heavy fighting occurred in the neighborhood of St. Remy and Calonne and on Les Eparges heights, but the Germans were repulsed by counter-attacks. The number of losses was shown by great heaps of bodies. It may be said that the three divisions were completely decimated."

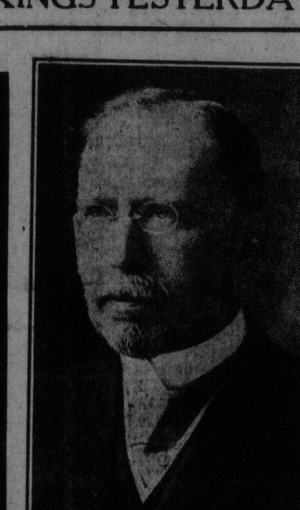

"Important progress has been made by the Allies in the Bois Le Pretre, the Bois D'Ally and the Bois De Montmare. On April 26 the Germans attacked and captured the summit of Hartmann-Wellerkopf, but their success was brief. We re-took the summit the following day, forcing the enemy a distance of 200 metres beyond the crest. We also made progress in the region of Schœgen-Rieskopf, where guns of the enemy were captured."

"To sum up: During the last fifteen days the enemy has attempted a heavy offensive which we speedily broke down. The total of the German losses in the heights of the Meuse, in the Wevre and the Vosges has been more than 35,000. As no part have they broken through our lines. They have taken no important position from us. They have allowed half a dozen of their finest regiments to be decimated."

U.S. POSITION ON CHINA-JAPANESE SITUATION DEFINED

Washington Issues Statement Reiterating its Adherence to Open Door Policy in China—Sole Interest is to Have Affair Settled in Manner Satisfactory to Both Disputants.

Washington, May 6.—The silence which has been consistently maintained by the United States with reference to the Japanese-Chinese negotiations was broken tonight by the issuance of a statement, Secretary Bryan explaining the position of the American government. The statement was prepared early in the day, after consultation with President Wilson, though nothing official has been received from the far east.

The American government, in its pronouncement, in effect, reiterates its adherence to the open door policy, and the maintenance of the territorial integrity of China, and points out that there has been "no abatement of its interest in the welfare and progress of China."

FOUR MORE VICTIMS OF SUBMARINES

Schooner, Two Trawlers and a Steamer Composed Yesterday's List—Danish Steamer Was Submarine Victim.

London, May 6.—Though it is evident that several German submarines are still operating around the British coast, a great diminution in the number of their victims is reported today as compared with destruction wrought by them earlier in the week.

The list today comprises one schooner, two trawlers and a steamer, for Lloyd's report definitely states that it was a submarine which sunk the Danish steamer Cathay, although earlier accounts indicated that it might have been a mine.

The trawler Merrie Illington was torpedoed by a submarine near Whitby, off the Yorkshire coast. A minesweeper which picked up the crew after they had taken to the boats was subsequently chased by the same submarine.

The skipper of the trawler Stratton was taken aboard the submarine after his boat had been sunk in the North Sea. The German commander said to him:

"We don't want to hurt your crew, but you were taking food to England. We must stop that."

The British steamer Cayo Romano, which left Newport News on April 19, was attacked by a submarine, a torpedo missing her by only a few feet. She escaped, aided by the fog, under a full head of steam.

Notwithstanding the severe losses they have suffered by German submarine raids, the trawlers still continue fishing as usual.

BOAT FOUND, BELIEVED THREE LOST LIVES

Hullfax, May 6.—Three Halifax young men are missing, and are believed to have been drowned. They are Messrs. Blakeney, Currie and Roche. Late today a capized boat, was found on the shore of Susie Lake, five miles from Rockingham. It was the boat that they had engaged for a fishing trip, and in which was found a bag of fresh provisions. The men had left the city late in the afternoon. Only meagre details reached the city tonight.

understanding of the position of the United States in reference to the negotiations pending between Japan and China the following announcement is made:

"At the beginning of negotiations the Japanese government confidentially informed this government of the matters which were under discussion, and accompanied the information by the assurance that Japan had no intention of interfering with either the political independence or territorial integrity of China, and that nothing she proposed would discriminate against other powers having treaties with China, or interfere with the 'open door' policy to which all the leading nations are committed."

"This government has not only had no thought of surrendering any of its treaty reports with China, but it has never been asked by either Japan or China to make any surrender of these reports. There is no abatement of its interest in the welfare and progress of China, and its sole interest in the present negotiations is that they may be concluded in a manner satisfactory to both nations, and that the terms of the agreement will not only contribute to the prosperity of both of these great oriental empires, but maintain that cordial relationship so essential to the future of both, and to the peace of the world."

No remarks accompanied the statement nor was there any further explanation of the purpose of its issuance at this time.

ONLY A FEW FROM MARITIME PROVINCES MENTIONED IN LATEST LIST OF CASUALTIES

PRIVATE THOMAS MURRAY OF ST. JOHN IS WOUNDED

Ottawa, May 7.—That the heaviest and saddest part of Canada's toll in the great battles around Ypres is yet to be told in the casualty lists being issued from the Military Department is officially stated. Since the names of the Canadians who suffered in the engagements have been coming through from the Record Office in London, the main casualties announced, aside, of course, from those of the officers, have been wounded, although a few names of the men killed in action and missing have been issued.

It is expected here that the Record Office will complete the lists of wounded shortly, and that the killed in action and missing will begin to come through in greater numbers. Great care is being taken in compiling the lists of killed in action and missing, and no names will be sent out until absolute certainty exists of the accuracy of the information received from France.

In fighting such as is going on in France it is some times difficult to speedily obtain the names of the killed, owing to the trenches of the belligerents being so close together and the danger of attempting sorties to bring in bodies.

The list comprises close on to two hundred names.

Japan's Terms Must Be Accepted Before Sunday Night at 6 P.M.

Tokio Despatch Says Ultimatum Has Been Sent to China—Further Concessions Which Latter is Willing to Make Not Acceptable to Japan.

Tokio, May 6, 4.30 p. m.—Official announcement was made here this afternoon that Japan had sent an ultimatum to China. It is understood that the Japanese ultimatum demands acceptance by China of the Japanese demands within a time limit, which expires at 6 p. m. on Sunday, May 9.

The Kokumin Shimbun states that in its ultimatum Japan stipulates that China must accept unconditionally the Japanese demands. The newspaper says, in an extra edition, that this was decided upon by the Imperial Council.

MIKADI SANCTIONS IT.

London, May 6.—A despatch to Reuter's Telegram Company from Tokio says Emperor Yoshihito gave his sanction to the ultimatum to China. Reuters Peking correspondent says the Japanese legation has received instructions regarding the ultimatum. The correspondent adds that it is believed the Chinese cabinet, in the event of the presentation of the ultimatum, will yield to main force.

Peking, May 7, 12.55 a. m.—The Japanese legation has informed the Chinese foreign office that Japan would be unable to accept the further concessions offered Thursday by China, and would present an ultimatum before three o'clock this (Friday) afternoon, unless the twenty-four demands were accepted by China without qualification.

Tokio, May 6.—It is understood here that China, in one of the recent answers to the Japanese diplomats who are conducting the negotiations over the demands of Tokio, in addition to asking Japan to put in writing the promise to restore the Kia-Chow concession to China, wanted Japan to agree to secure from the allies the right for Chinese delegates to participate in the peace conference following the great war, to which gathering the question of the disposal of Kia-Chow should be submitted.

Japan likewise was requested to reimburse China for the expenses connected with, and the damages arising from the campaign against Germany, for the possession of Kia-Chow.

Private advices have reached Tokio from Peking to the effect that Yuan Shi-Kai, president of China, is anxious to avoid a rupture. These despatches are declared to be reliable.

BRITISH RECOVER MORE LOST TRENCHES ON HILL 60 SOUTHEAST OF YPRES

London, May 6.—The British War Office tonight issued the following communication:

"There is nothing to report on the British front, except the recapture by us yesterday evening of more of our lost trenches on Hill No. 60, southeast of Ypres, and that fighting still continues in that locality.

"Elsewhere the enemy has shown no disposition to attack."

AUSTRIANS CLAIM THEY ARE DRIVING RUSSIANS BACK IN CARPATHIANS

Vienna, May 6, via London.—The victorious Austrian advance continues on the entire West Galicia front, according to an official announcement made by the War Office today. Russian prisoners to the number of fifty thousand have been taken.

The fighting is taking place in the difficult country of mountain spurs and foothills of the Northern Carpathians and the Teuton armies are gaining ground in spite of the stubborn resistance of the Russians. The Austro-German forces now are approaching the Wialoka river.

A Simple Way to Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

AUSTRO-GERMAN ARMY OF QUARTER OF MILLION FAILS IN ATTEMPT TO BREAK THE RUSSIAN LINE

Most Cruel Fighting Of The War in East In Progress Near Cracow

Report From Vienna Admits Heavy Loss in Attempts to Break Through Russian Centre at Gorlice -- Teutonic Armies Forced to Retreat -- Hurling Army of Quarter Million Men Against Line.

Geneva, May 6.—The Tribune De Geneve has received a despatch from Vienna, saying that the desperate effort of an Austro-German army of 250,000 men to break through the Russian centre at Gorlice has failed. The losses have been heavy, and the Austro-German forces were compelled to retreat to the west of Neu Sandau.

German troops continue to arrive at Cracow, and the fighting near there is said to be the most cruel of the war.

The Vienna telegram relates also that an Austrian army corps, under Archduke Eugene, arrived yesterday at Noravitz, ten miles from the Serbian front.

Newspapers of Southern Germany, the advice from Vienna discussing the Italian-Austrian situation, admit that it is "extremely grave for our ally and us."

MOTHERS' DAY.

On May the 9th—Mothers' Day—the Nation rejoices as one in honoring Mother.

For Mother's memory flowers white, For Mother's living flowers bright.

A favorite plant or a charming floral basket will bring a glow of happiness to mother's face and warm her heart with precious memories and gratitude.

A profusion of spring flowers and all kinds of potted plants, also carnations and roses, to gladden the heart of mother, can be found at the store of Messrs. K. Pedersen, Ltd., 49 Charlotte street, Market building.

The difference in tea lies in their favour. As the flavour in tea comes from an essential oil, which detests water as the tea gets old, it is necessary for you to buy only fresh well-packed tea in order to be sure of getting good flavour. "SALADA" tea, by reason of its enormous sales, is always fresh and therefore delicious.

SAY THEY HAVE TAKEN 40,000 PRISONERS

German official report claims gains in East and defeat of French in Ailly wood.

Berlin, May 6, via London.—In the German official statement issued today the announcement is made that German soldiers forced the French troops to evacuate their positions in the Ailly wood, and captured more than 2,000 Frenchmen.

The statement says that the number of French killed was extremely heavy and that they also lost two cannon and a number of machine guns and mine-throwers. The statement follows:

"Over the whole front artillery duels have taken place. We made further progress near Ypres (Belgium) and have taken the Venhelpe Farm and another farm near the Messines? Ypres railway. We made 100 prisoners and took fifteen machine guns.

"In the forest district, to the west of Combrois, we made an advance and captured four French officers and 135 men. We also took four machine guns and a mine-thrower.

"In our attack yesterday in the Ailly wood we achieved our objective by forcing the enemy to evacuate his positions. More than 2,000 Frenchmen, among them 21 officers, were made prisoners. We also took two cannon and several machine guns and mine-throwers. The number of Frenchmen killed was extremely heavy.

"The enemy attacked us in the region north of Filroy and near Croix Des Carmes. North of the former place the enemy pushed forward as far as our trenches.

"At one point in this sector fighting continues. At all other points the French were beaten back. In the Vosges an advance against our position north of Steinbrueck was repulsed.

"In the eastern theatre, southwest of Mitau, south of Szadow and east of Rossiena (Russian Poland) fighting continues.

"Northeast and southwest of Kalwary our positions were attacked several times yesterday by strong Russian forces. All these attacks failed, with very heavy losses to the enemy.

"The enemy advanced against our bridge-heads on the Pillica river without success.

"Bombs were dropped on the fortified town of Grodno last night.

"In the war area to the east of Tarnow and to the north of that place as far as the Vistula river, and on the right bank of the Dunajec river, fighting continued far into the night.

"The number of prisoners so far taken has reached to more than forty thousand. It is worthy of note that this is the Russian front.

"In the Beskid Mountains, on the Lupkow Pass road, an attack is being made by the forces under General Von Der Marwitz simultaneously with an attack made by the Austro-Hungarian army, which is co-operating with the Germans. These attacks are progressing favorably."

Landing of Troops On Gallipoli One of Most Difficult Feats of War

Landing Forces of British and French Displayed Remarkable Skill and Courage — Fight Way Through Rain of Shells From Enemy's Stronghold and Drive Turks From Their Positions.

London, May 6.—The operations in the Dardanelles are being pressed forward under highly satisfactory conditions, Premier Asquith told the House of Commons this afternoon in the course of a statement upon the combined naval and land attacks on the Gallipoli peninsula.

The Premier said: "At daybreak of April 25, the landing occurred, the troops making use of six landing places. By nightfall 29,000 men had been disembarked in the face of a fierce opposition by infantry and artillery entrenched behind successive lines of wire entanglements."

"The leading troops of the Twenty-Ninth Division were held up all day to the west of Seddul Bahr, but at sunset they succeeded in a fine attack along the heights which made possible the taking of a good position covering the disembarkation of the remainder of the division."

"The landing brigade of the Australian and New Zealand corps were sent ashore at Gaba Tepe at half past four o'clock in the morning in complete silence. The enemy opened a heavy fire at point-blank range, but the beach was rushed with good effect and the attack carried out with the utmost dash up the slope."

"French forces effected a landing at Kum Kale, and advanced with great gallantry. Every report speaks of the magnificent co-operation of the naval forces. I regret the casualties were very heavy, including the death of Brigadier General Napier."

"During April 26, the disembarkation continued. The troops ashore were subjected to continuous and determined attacks from the enemy, but these in every case were repulsed with heavy losses. The Twenty-Ninth Division, under command of General Hunter, with great valor carried the Turkish position at Seddul Bahr, which consisted of rocky ravines, ruined houses and wire entanglements."

"By evening of April 27, the Twenty-Ninth Division was firmly established across the Gallipoli peninsula, having advanced two miles from the point of landing. They were joined by French troops who, having fulfilled the task of silencing the hostile batteries on the Asiatic coast which interfered with the landing at the Gallipoli peninsula, had re-crossed the Straits. The Australian and New Zealand corps defeated every counter-attack and steadily gained ground."

"The disembarkation continued April 28 and 29. By May 2nd, a further advance had been made by the French and British troops on the southern end of the peninsula, and the Australian and New Zealand corps had been reinforced by the Royal Navy Division."

"The positions everywhere have been consolidated. In the successful performance of this, one of the most difficult operations of the war, landing on an open beach in the face of determined opposition, the troops engaged displayed unsurpassed courage and skill."

"The operations are now being continued and pressed forward under highly satisfactory conditions."

REPORTS OF AUSTRO-GERMAN VICTORIES IN WEST GALICIA ABSOLUTELY UNFOUNDED

Washington, May 6.—The Russian embassy today received the following despatch from the Russian Minister of Foreign Affairs:

"The reports from Berlin and Vienna of a victory gained by the Germans and Austrians, in Western Galicia, are absolutely unfounded. The battles that are proceeding now in that region give no foundation whatever to talk even of a partial success of our enemies. You are asked to contradict most emphatically the reports spread by the Germans."

Relief Ship Not in War Zone When Torpedoed

London, May 6.—The British steamship Harpaluce, under charter to the American Belgian Relief Committee, which was sunk by a German submarine in the North Sea, the early part of April, was torpedoed within twenty-

three miles of the Dutch coast, according to a report made to the British Admiralty after an investigation which was confirmed chiefly by an examination of the members of the crew of the steamer for the reason that no

part of the ship remained afloat. The report asserts that the Harpaluce, at the time she was attacked, flew the flag of the Relief Commission and that she had also large sheets bearing the name of the commission stretched along her sides. The report points out particularly that it has been proved that the Harpaluce was not within the war zone when she was sent to the bottom.

"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H. M. The King.
TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

THE WAR SITUATION.

Although the despatches from the war zone do not bring the best sort of news, telling of German advances, particularly in the eastern area, it must be remembered that the Kaiser's forces must make still greater advances before they can make up for the severe defeats they have already suffered. And this is taking the German estimate of operations at its German value, a process which experience has taught to be a risky one. Some days ago the German news agencies reported that the Teutonic troops had scored great successes over the Russians; later advices, this time from Petrograd, changed the complexion of events, and it was shown that the great "success" could be very largely discounted. Now it is reported that the Germans have made notable advances into Russian territory. Petrograd has not yet been heard from, but as there has been no disposition on the part of the Russian commanders to hide the truth, it may be taken for granted that the Russian statement when it comes will more nearly represent the real condition.

On the western front, too, there is little reason for discouragement. The Germans, by the use of poisonous gases, captured some positions on Hill No. 60, where some of the most desperate fighting of the war has taken place, but the British and French troops have regained part of the lost territory and are in a fair way to restore their line to its former position.

The most important operation of the week, however, is being carried out in the campaign against the Turks in the Dardanelles. In the face of the most determined resistance the Allied troops succeeded in landing forces on an open beach and establishing themselves in strong positions in the Gallipoli Peninsula. The bombardment of the Dardanelles positions from the sea is continuing with success, and the British and French forces are gradually winning their way to the capture of Constantinople.

A notable feature of the campaign against the Turks is the bravery displayed by the Australian and New Zealand contingents. Like the Canadians in the vicinity of Ypres, they were heavily engaged and suffered severe losses, but they did the duty required of them and left their mark on the enemy in true British style. In short the quality shown by the fighting men of the Overseas Dominions of the British Empire has been an outstanding feature of this war.

Prior to the opening of hostilities it was the belief in Germany that the daughter states of the Empire would not be so ready to respond to the call of the Mother, but the falsity of this was quickly shown. In a very few weeks after the outbreak of war Canadian, Australian, New Zealand and Indian troops were on the fighting lines doing their share and doing it in a fashion which told more plainly than words that the blood of the Mother still flows in the sons. After this war is over the daughter states of the Empire will be accorded a still higher place in the affection and esteem of the people of Great Britain, and Canada will rank with the best.

THE PROVINCIAL LEGISLATURE.

The session of the Provincial Legislature which closed on Wednesday was one of the most successful ever held, both in point of the quantity and value of legislation placed on the provincial statute books and in the harmony displayed during all the sittings. Of the legislation passed, two measures are of outstanding importance. In the amended liquor license act this province now has the most advanced temperance legislation ever adopted by a Canadian province. While it marks a long step in the direction of temperance it is also eminently fair to the men who have large sums of money invested in the liquor business and who, consequently, are entitled to consideration.

The situation in connection with the St. John Valley Railway was admitted to be a difficult one but it has been met by the new act. Under its provisions the province secures a greater control of the railway and is in a position to secure its early completion.

Already the province is in receipt of forty per cent. of the gross earnings of the completed portion of the road between Fredericton and Centreville and as the length of the line in operation is added to, these receipts will grow accordingly. The province will be absolutely assured against any loss in the matter of interest on the guaranteed bonds. While the two acts mentioned were the most important ones passed at the session there was a great quantity of other useful legislation placed on the statute books. Such included the Probate Courts Act making necessary and beneficial changes in the former measure.

One notable feature of the session was the admirable manner in which Premier Clarke discharged the arduous duties of leadership. In every way he has measured up to expectations and greatly strengthened himself in the esteem and confidence of the people as the leader of what is eminently a "fair play government." Referring to the premier the Fredericton Gleaner says in part: "Although in anything but robust health, the Premier has never spared himself in the slightest degree; and he has in every way shown that he possesses all those qualities of statesmanship which were freely predicted of him when he assumed the leadership of the government. Attorney General Baxter, too, as a new member of the Executive, has more than 'made good.' He has brought his knowledge and ripe experience as a practising barrister to bear on the duties of his office, and much of the legislation which has occupied the attention of the House this session is due to his initiative. He has turned his knowledge, gained by daily experience in the courts, to some practical purpose, and the result is the amendment and simplification of many points of legal procedure."

THERE CAN BE NO PEACE YET.

Those good ladies who are meeting at The Hague to discuss peace will make many new friends and, doubtless, will enjoy each other's society, but will accomplish little of real value. Their mission is untimely. They are talking peace when there is no peace, when there can be no peace until the wrongs of Belgium have been righted and the dragon of Prussian militarism so thoroughly subdued that it will never again raise its threatening head.

There are mothers and widows and sisters in every portion of the world mapped lands, in France, Russia and Belgium in whose ears the death cry of sons, of husbands or brothers, will ring and reverberate until they, too, have passed to the beyond. There are fathers and sons and brothers who thirst to avenge the death or injury of loved ones. This war was started as a crusade of right against wrong, of truth against error, ignorance and injustice. With all due deference to the ethical conception of the relation of man to man it may be fairly said to have passed that stage. The men in the trenches are fighting for a cause, but their arms have been steeled and their hearts hardened by German brutality and blood-lust.

While this is so there can be no peace. Until Germany has been crushed so that she will never again transform a world of peaceful progress and human development into a world of blood and tears and retrogression, the struggle must go on. Lives will be lost, blood must be shed, hearts must bow in grief and sorrow, but the process cannot stop. Peace will come, but it must come as it will and with the fullness of achievement. Up to that day Peace Conferences, Peace Palaces and Peace Propaganda will be of little avail.

The Standard extends hearty congratulations to "Doctor" J. B. M. Baxter, and "Doctor" J. Roy Campbell, both of whom were honored by Kings College yesterday with the degree of D. C. L. No two members of the Bar of New Brunswick more richly merit the honor, and Kings honors herself in honoring them.

WELL SPOKEN

(Hamilton Herald)
"I am a Belgian before anything, and I cannot think as you do. There can be no peace without justice. The war must continue until the Belgians' wrongs have been righted. There

must be no mediation except at the bar of justice."

Go spoke a Belgian woman at The Hague women's convention.
Those words, noble as they are, are merely an echo of the response of the Hamilton women to the peace petitions from the United States. The women are ready to suffer, even to die, rather than give way to an ignoble peace. All honor to them. With such women, how can men do other than fight their way to victory or to death?

AN OUTLINE OF THE GREEKS' POSITION

Utterances of M. Venizelos help student of International Politics to make shrewder guess at likely drift of future events.

London, May 6.—With a shrug of the shoulders and an action of the hands expressive of much complexity, a well-known European diplomatist remarked to a representative of The Christian Science Monitor recently that Rumania's delay in taking a final decision was not due to any uncertainty as to her real desire but entirely to the extraordinary tangle into which the negotiations in the near east had woven themselves. Something of what these negotiations really are is gradually becoming apparent. Never before, perhaps, in the history of the near east, has it been found so impossible for one of the countries within the pale of this designation to move without being first careful to adjust its relations with its immediate neighbors. Serbia, it is true, was plunged into war with Austria whilst all the other Balkan states held aloof. Nevertheless the near eastern diplomatists stand convinced that Serbia's case only represents the supposititious exception which prove a supposititious rule, and that it would not be safe for any one country to move without having come to an understanding with all the others.

The position of Rumania has been defined to the fullest extent of available information. For the moment the fog of diplomacy shows no sign here of clearing further. In Greece, however, matters are different, and as M. Venizelos unobscures himself to the Athens press, makes public his memoranda to the King, the history of recent happenings in Greece becomes every day clearer, and the student of international politics is every day able to make a shrewder guess at the probable drift of events in the future. M. Venizelos is a man of big ideas. The Greek people, who, some five years ago, hailed his advent to the premiership with such joy, and spoke of him as the wonderful visitor from Crete, have had reason ever since to place their fullest confidence in his foresight and political wisdom. It is generally admitted that Greece today owes her position largely to M. Venizelos' energy. When the news of his resignation became known, the surprise, almost amounting to bewilderment, which this information occasioned was quickly followed by the firmly expressed conviction that the retirement was only temporary and would be recalled to office. Days, however, are passing into weeks and weeks will very shortly multiply into months, and yet M. Venizelos is still out of office, and the latest news speaks of his definite retirement from politics. The breach between him and M. Gouras, always wide enough, has become more definitely fixed, and the failure of the former premier and his friends to put in an appearance at the recent national festivals has made it clear not only to the Greek people but to the larger world outside the kingdom that M. Venizelos and King Constantine are no longer in agreement than they were a month ago.

Concerning M. Venizelos' policy and ambitions there has been a good deal of uncertainty, and statement and contradiction from either side have followed each other rapidly. This much, however, is now rapidly clear, that M. Venizelos recognized that Bulgaria was the key to the position; that Bulgaria must somehow or other be placated in order that Serbia might be safeguarded from attack in that quarter, and Rumania also left free from such a menace. Bulgaria, as all the world knows, was hankering after Kavalla. M. Venizelos, with that larger view which is not afraid to sacrifice something actually in hand for a brilliant possibility, was willing to sacrifice Kavalla, to hand it back to Bulgaria on certain well defined and secure conditions, with the hope and expectation of vast territorial aggrandizement for his country in Asia Minor. This expectation was based on something more, however, than M. Venizelos' political faith. M. Venizelos in his memorandum to the King on January 24, states that the British minister at Athens had, on that day, on behalf of his government, invited Greece to support Serbia and had given the assurance that the powers of the triple entente would in return be prepared to offer Greece suitable territorial concessions in Asia Minor.

M. Venizelos is nothing, if not definite, in his proposals. With a tenacity which must have grievously shocked many diplomatists of the elder school, who looked upon the Asia Minor

And aftir a wile he took the tertril hoast, and the next day won the club as the present extant of Greece. The portion to be ceddy by Greece to Bulgaria, according to M. Venizelos' scheme, would be 2000 square kilometers, while Greece on the other hand would stand to receive from Serbia, territory amounting to 1000 square kilometers. As regards population, while Greece would be ceddy 30,000 inhabitants, she would be claiming more than 800,000 in Asia Minor. Allied diplomacy, however, a short time ago, evidently decided to take the plunge. The desire for a final settlement of all great questions near or remote has evidently proved suffi-

cient to overcome all doubts as to issues which might be raised. It is in fact quite evident from M. Venizelos' statement that the Asia Minor question has for months past been discussed, even tentatively "settled." One of these tentative settlements M. Venizelos has just revealed to the world. It remains to be seen whether or not it has been finally disposed of. As has been said, the latest news from Athens speaks of the definite retirement of M. Venizelos, insinuating that his decision is irrevocable, and hints at the gradual settlement of Greece into a policy of non-intervention. It is impossible, of course, to see any distance ahead. M. Venizelos, in retirement, cannot prevent his views being vigorously urged up and down Greece by each and all of his many supporters, neither can he prevent the development, where he himself is concerned, of that added power which is one of the perquisites as it were of "King in Exile." So matters stand at the moment of writing. Their further development is being regarded, not only in Greece, but far beyond its borders, with an interest such as few recent developments outside of the actual war operations have succeeded in arousing.

The Gold Dust Twins' Philosophy

NOW you have often said—"Oh dear, I dread when eating time comes near. It's not so much the cooking, grub, but cleaning after,"—there's the "rub." Each kitchen holds a mass of work, no tidy little wife should shirk.

The kitchen floor, the kitchen sink, the kitchen pots as black as ink, the kitchen kettles and the pans, the silver, glass and cups and cans; wherever you may look, the toil means more than any kettles boil. To just "prepare" a meal is "fun," but work, with THAT is scarce "begun."

If those who stay up days and nights to win the cause of "Women's Rights" would only vote the GOLD DUST PLAN they soon would have the best of man. More time for comfort and for smiles; more time to play a woman's wiles, for once the GOLD DUST TWINS appear, Hard Labor's cry you never hear; frail woman is a queenly soul who plays the "Take-it-Easy" role. Each GOLD DUST package sets her free by bearing out its guarantee, and never more those household woes that every weary woman knows. File up the dishes as you will, the GOLD DUST TWINS will clean 'em still. Old floors and woodwork sinks and pans, turn out as Master Cleaner Plans. From sun to sun, and chore to chore, your tasks will fret you nevermore.

The Gold Dust Twins Have the Whole World Brighter

THE MAORIS JOIN BRITISH TROOPS IN EGYPT

British Imperial Force in Egypt very Cosmopolitan in Its Make-Up.

MAORIES TAKE THEIR WORK SERIOUSLY
In ranks are men who in tribal clashes would have been war chiefs.

Cairo, May 6.—To the great British Imperial force now in Egypt troops of another race have been added. A small battalion of Maoris has landed at Suez after a forty-five days' journey, and are engaged in the desert at the Helwan, on the site of an ancient city. The magnitude of the resources of the British Empire could not be better illustrated than by the recital of the composition of the force. From the mother country there are Territorials and regiments of Yeomanry. From Ceylon comes a corps of the Buffs. From the Colonies there is the 2nd New Zealand Mounted Rifle Battalion, which is represented in the men recruited in the island continent. New Zealand has sent a bigger proportion of her population than any other dominion, and to her contingent the Maoris must be added. In the Indian contingent are Sikhs, Gurkhas, Punjabis, Rajputs, Brahmans and Hindus, and many more are included in the imperial service troops raised by the native princes and now doing service for the Empire.

The Maoris take their part in the Empire's work very seriously. Strange as it may seem, the physique of the Maori manhood was against them. Englishmen who were in the Maori ranks and who saw the weight of their pack could understand how difficult it would be to put a limit of twelve stone to the weight of Maori recruits, and the men of the regiment believe that the finest of their people were ruled out by such a regulation. That is the reason why this is a regiment of young men. But if the most powerful are left behind, there is plenty of brawn and sinew in the Maori youth of Egypt. Heavy of limb, deep-chested and muscular they are.

Perhaps discipline was the most difficult thing the Maoris had to learn. In the ranks are men who in the case of a tribal war would have been chiefs of war parties and would have taken precedence of Maoris at present holding commissions in the battalion. Descendants of the big chiefs who fought in the Maori war are privates today, and the whole of the forty tribes are represented. However, the Maoris have disciplined themselves as shown by the fact that in the forty-five days' voyage from Auckland there was not a complaint. The men have a passion for drill, and if they see a movement done once they will imitate it perfectly. Many of the men have been educated at one or other of the two Maori colleges in New Zealand, but a few speak very little English and find it hard to understand some of the words of command, which have to be interpreted. But they are setting down to their duties well, and they are desperately eager to get into action.

The Maoris draw the same rations as the other colonial troops, and the food is prepared in the same way, but doubtless on holidays they will do as they did at the camp at Auckland—cook the rations in a "hangi." A hole in the ground is filled with firewood, on which is piled a heap of stones. The fire is lighted, and when the stones are heated the embers are withdrawn and green leaves are packed around the stones. Water is then thrown on, and meat, potatoes, etc., placed in a net and covered with a cloth are buried with earth on the stones, and the food is left to steam.

HEART WOULD PALPITATE. HAD WEAK and DIZZY SPELLS.

Palpitation of the heart is one of the most common of all heart troubles. The heart will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over the system accompanied by weak and dizzy spells, making you feel that you are surely going to die. When you feel this way what you require is a real good heart and nerve tonic; one that will strengthen the weak heart and build up the nerve system. For this purpose we know of nothing that can equal Milburn's Heart and Nerve Pills.

Mrs. J. S. Nicholls, Listowel, Ont., writes: "I was weak and run down, my heart would palpitate, and I would have weak and dizzy spells. A friend advised me to try your Milburn's Heart and Nerve Pills so I started at once, and found that I felt much stronger, and my heart was ever so much better within a short time. I cannot praise your medicine too highly for it has done me a world of good. My husband has also been bothered with heart trouble ever since childhood and finds great relief in using your valuable pills."

Milburn's Heart and Nerve Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Two of these "hangi" will prepare rations for 500 men. Very few of the Maoris had been overseas before the voyage. With the officers and crew of the troopship they were fast friends, and in coming up the Red Sea they drew up the following quality of their testimonial, and every man signed it. The testimonial is headed "Te-hoko-whitu-a-Tu." Literally translated this means "The 140 fighting men of Tu, the War God"; in other words "The fighting war party of Tu." It goes on:

To the warden of the steering-paddle, to his chiefs and his adherents. Greetings! This is a farewell to you who brought us safely over the breaking waves of the great ocean of Kiwa (the circumnavigator). This is the first Maori war party that has paddled over these seas since Alta-te-uaringa-nui (India) was left by the descendants of Tuterangi-marama in 450 B. C. It was the incantations of the Priestly navigators and their knowledge of the stars that guided the canoe of our ancestors across the seas of the Fish of Maui.

Your incantations have been materialized by your untattooed wizards in sea-craft into charts, compasses, sextants, and other forms of witchcraft. As one of the tree fern disappears another takes its place; as one wizard dies another appears. Greetings to you, the wizard, the successor of the navigators who have passed away to the bosom of the deep. Through this relationship our thoughts have been in accord, our actions one, and friendship firmly established between us. We render hearty thanks to you, Oh sir, and your people for the innumerable kindnesses we have received at your hands. The 140 fighting men of Tu, the War God, have reached Egypt, the land which was trodden by your ancestor Moses in the days of long ago.

Farewell. Return, recross the troubled ocean of Tawhaki in peace and safety. Give our love to the homeland and in due time come back for us.

ARE OPENING A PLANT IN CANADA

The Canadian Bond Crown Company, Limited, which secured its Canadian charter a short time ago, has just elected its regular board of directors and has commenced manufacturing. The parent company is located in the United States at Wilmington, Dela. The Canadian company is capitalized at \$200,000, while the plant is equipped with the latest machinery for the manufacture of metal tops for bottles, stoppers and other articles of a similar nature. The directors of the company are: President, H. P. Scott, Jr., of Wilmington, Dela.; vice-president, S. W. Ewing, Montreal, and secretary-treasurer, W. G. McGaw of Montreal. The directors are H. P. Scott, Jr., S. W. Ewing, S. G. Bond, and A. H. Ewing. In an interview, Mr. Scott said: "I notice a great improvement in business in the United States. Confidence is being restored and a greater volume of business is passing than was the case a short time ago." Their establishment of a new plant in Canada is a very good indication that the directors of this company consider that conditions are improving in this country as well as in the United States.

GERMANY NOW HEADS LIST IN NAVAL LOSSES

Latest figures show that in tonnage the Kaiser's fleet has had the worst of the encounters on the sea.

Germany's lead in naval losses was further enhanced with the interment of the auxiliary cruiser Kronprinz Wilhelm at Newport News, Va., April 23. This vessel, the last of the Kaiser's commerce corsairs, had a reputation for destroying British merchant ships almost equal to the Prinz Eitel Friedrich, also interred here, and the Emden and Karlsruhe. She is by far the largest of the raiders, her tonnage being 14,908. The German admiral on April 7 admitted that the submarine U-29 was sunk by the British March 26. This latest type of the German steel sharks was commanded by Captain Otto Weddigen, who with the U-9 sank the British warships Hogue, Aboukir and Cressy last September. She displaced 800 tons, had a speed of eighteen knots on the surface and ten knots submerged, and a radius of 2,000 miles. According to the latest figures John Bull's navy has lost 25 units with a total displacement of 202,154 tons, while the Kaiser's fleet is minus 23 warships, aggregating 222,954 tons. This total is reduced by 25,000 tons if the reports be true that the battleship Audacious, which was sunk off the Irish coast by a mine Oct. 27, has been raised and is soon to rejoin the British fleet. The sinking of the Audacious has never been admitted by the British Admiralty, although well-authenticated reports from many quarters clearly prove that she disappeared beneath the waves. The most recent analysis indicates

that the personnel of the Kaiser's fleet has suffered less than that of her ally and antagonist, 5,314 in killed and prisoners being credited against Germany, while the British have lost 5,875. In actual loss of life Germany has an advantage, her death list numbering 3,334, whereas 5,375 English officers and men have found a watery grave. The British, however, have rescued and taken as prisoners 1,330 German officers and men, so that the fighting strength of the Germans has been reduced nearly as much as that of the British.

German submarines were responsible for the loss of eight of the British vessels, while the submerged mines has played scarcely a less conspicuous part, seven English warships having been destroyed by that means. Less successful have the British been with the torpedo, only four German men-of-war having been disposed of in this way. But in direct naval engagements where the opposite fleets have been able to use their big guns the British are easily in the lead with at least 17 Teuton fighting ships to their credit, whereas the Germans have shelled only four Britishers.

The losses of the other belligerents, Austria, Russia, France, Turkey and Japan, are insignificant compared with those of Great Britain and Germany. Facts and figures regarding the casualties of these minor fleets are not as complete as those of the two great naval foes, but from the reports which have escaped the fine-tooth comb of the press censor, it appears that France has suffered most, eight of her vessels, totally 27,307 tons, having been sunk. The loss of life has never been published, so far as known. The Japanese are the smallest losers, with a tonnage of 4,190 at the bottom.

BRITISH OFFICERS ADORN STATUE OF MAID OF ORLEANS

Paris, France.—The Temps notes with appreciation the graceful act of those English officers involved in Paris, who, to show their admiration for France, placed a bunch of roses and carnations at the foot of the statue of Jeanne d'Arc in the church of Saint Louis at Versailles. "They did not believe," says the Temps, "that the present fraternity between England and France could be disturbed by a reference to the wars which the two countries once waged upon each other. . . . The English officers paid their homage to the Maid of Orleans because she embodied for them all the moral beauty, the generosity and the heroism of those who throughout the centuries, today as 600

ST. JOHN CITY RIFLE CLUB OFFICERS

The annual meeting of the St. John City Rifle Club was held last evening at the office of the captain, the attendance being very large. The report of the secretary showed the club to be in a very flourishing condition.

The club has maintained an indoor range during the winter which has been well patronized and great benefit to the new members. The programme carried out during last summer on the open range was well attended and some large scores made, the average scores being far in excess of anything made in previous years, especially among the young shots. The election of officers for the ensuing year resulted in the following:
 Captain, N. J. Morrison; Lieut. E. S. R. Murray; sec.-treas., J. G. Sullivan; ass. sec., W. C. Magee.
 Executive committee—A. G. Staples, A. Ellison, R. A. C. Brown, Frank Shannon, J. Fred Emery, and the officers.

PROKOS VS. OLSEN

The sporting fans of the city will have a treat on Wednesday night of next week at the Opera House. Arrangements have been made for a wrestling carnival with three good bouts. Mattson of Carleton will meet the Bulgarian, Brooks has been matched with O'Toole, and the main bout will be between Jim Prokos and "Bull" Olsen, the terrible Swede. This bout will be to a finish, best two falls out of three, catch as catch can. A first class referee has been engaged. There will be no disputes, no arguments, the bouts will positively go on as arranged.

BASE BALL NOTES

Leslie Mann, who jumped the Boston club, has, according to the Pittsburg Sun, failed to make much of an impression as a member of the Chicago Feders, and Joe Tinker has offered him to any Federal League club that will take him. Stallings, who understood Mann, probably got more good work out of him than any other manager could or ever will.
 "Butch" Schmidt of the Braves, is the best first baseman in the game until you see "Stuffy" McInnis, and then "Stuffy" is the best you see. "Butch" is both as good enough to get by.
 Fielder Jones of the St. Louis Feders says that some of the methods used by the club owners of the National and American Leagues are almost unbelievable. "Such methods would kill any other sport that I know of, but baseball in itself is such a good, strong, clean, wholesome game that it lives," says Jones. Pres. Ban Johnson says that Jones has overdrawn the situation to make his points, and declares that the American League is composed of clubs owned by cleaned-up men, who have the best interests of the game at heart. Jones himself, he says, owes much of his prosperity to the American League. When he left the Brooklyn club to join the White Sox he was receiving a salary of \$2,800, with little prospect of increasing it, and when he left the White Sox he was receiving a salary of \$10,000, and that when such salaries were more unusual than they are now.

UMPIRE ARMED WITH GUN.

Kansas City, May 6.—A baseball umpire who carries an automatic shotgun is a reality in the North Side. Rosa Plasatana, official umpire for the North Side pool hall teams, made his debut yesterday with his armament on the grounds just south of the Court House.
 The novel spectacle of a man standing in the centre of the diamond, pointing a shotgun at a runner whom he was attempting to halt and send back to second base because of a

ground rule providing that a runner take only one base on a passed ball, attracted Prosecuting Attorney Jacobs as he looked out of his office window. Inquiry developed that Plasatana consented to be "official" umpire only on the consideration that he be allowed to carry something with which to defend himself.

NOT SETTLE OUT OF COURT

French Lick, Ind., May 6.—I know nothing of an agreement for the withdrawal of the suit between organized baseball and the Federal League in the United States Court at Chicago and will not consent to such an arrangement," Pres. Gilmore of the Federal League said today.
 Gilmore said he received a number of telegrams stating that Ban Johnson was going to end the baseball war, but declared he did not know what was meant until the Johnson interview, given out in Boston, was read to him.
 "We will never consent to the withdrawal of the suit," he reiterated. "The Federal League was organized because it was felt there was room for a third major league. We are perfectly satisfied with conditions in our organization."

WORLD'S MILE RUN MARK

Providence, May 6.—Friends of Norman S. Taber, Rhodes scholar and Olympic star, who was second to John Paul Jones of Cornell when the latter lowered the amateur mile run record to 4m 14.25s, tonight announced that he would enter training for an attempt to lower that mark.
 Taber has decided to make his effort at the National amateur championship, to be held at San Francisco in August.

PEACE NEGOTIATIONS

Chicago, May 6.—Charles Weeghman, owner of the Chicago Federa, talking over the telephone from West Baden, Ind., this afternoon, said: "There will be peace all right. The public is tired of baseball in the courts. Whether the agreement will call for three major leagues or absorption of the Federa I don't know; others are carrying on the negotiations, but whatever the plan is I am ready."

TWO MEN IN ONE NIGHT

New Orleans, May 6.—Al Shubert, the New Bedford, Mass. bantam, next Monday night will meet Kid Herman for six rounds and follow this fight by meeting Zulu Kid for six rounds. Both fights will be staged at the Unity A. C.
 Shubert was to have met Eddie Coulon, who hurt his hand in a fight with Erle. It is the first time in years that a fight of this kind has been arranged in which one man meets two opponents in one night.

SHERIFF GOT WILLARD.

Oklahoma City, May 6.—Deputy Sheriff Sanders smashed the window in Jess Willard's private car when entrance was denied him early this morning. Sanders found the champion barricaded in the lavatory.
 The champion was sued for \$20,000 by Phillips & Cutrell, who say they have an old contract for Willard's performances. Willard paid his fine and costs, amounting to \$150, assessed against him here four years ago for prize fighting.

SENT TO PROVIDENCE

Boston, May 6.—Walter Reh and Pat Haley of the Red Sox were sent to the Providence club yesterday under an optional agreement, as it was thought that they would be better off doing a little regular work than sitting on the bench all summer. Both are grand good ball players and will return at the close of the International season, and before that if the Red Sox should need their services. Reh was the best pinch hitter that the Red Sox had.

RED SOX VICE PRESIDENT

Boston, May 6.—Paul Lannin, a son of Pres. Lannin of the Red Sox, yesterday was elected vice president of the Boston American League club. Mr. Lannin became twenty-one years of age yesterday and will be graduated this spring from Fordham, where he has made quite a reputation as the manager of the football team.
 He is very fond of baseball and plays the game very well as an amateur, and after his school days are over he will keep in close touch with the speed boys.

KILRAIN PURCHASES AN ESTATE.

Woburn, May 6.—Jake Kilrain of prize ring fame, now a resident of Somerville, is soon to move to this city, where today he became a property-holder by purchasing the Edward A. Tufts estate at 200 Cambridge street. This, an attractive place, is nearly opposite the home of Mr. and Mrs. Jack Geraghty.
 Kilrain has paid many visits here as the guest of his friend of long standing, James E. Darnold, of Russell street. His daughter is the wife of Dr. John Reynolds, a Woburn boy, though now of Quincy.

FIGHT FILM BAR UPHELD.

Jersey City, N. J., May 6.—Collector Frederick K. Freed of Newark, N. J., was sustained in refusing to allow entry to photographic films of the Willard-Johnson fight at Havana by Federal Judge Thomas Haight here today. T. Lawrence Weber had applied for an injunction, alleging that the law barring the films is unconstitutional because Congress exceeded its powers under the "commerce" clause. The judge held the act to be Constitutional.
 Counsel for Weber said Judge Haight would sign the papers so that the appeal would come before the United States Court of Appeals in Trenton on Monday, from which another appeal will be taken to the United States Supreme Court if necessary.

BOXERS START FOR CANADA.

Boston, May 6.—Jim McDonald, Joe Stanton, Louis Gallant, Henry Brown, Harry Carlson and Mark Cores, who were winners in the Canadian trials bouts at the B. A. A. last Monday night, left at 8 last night for Montreal to compete in the Canadian championships tomorrow and Saturday. Steve Pasternack, who was also a winner, did not go as he could not make the weight, 105 pounds. Eddie O'Brien, of South Boston, who boxed Pasternack in the final bout, went in his place and will have no trouble making the weight.

BIG LEAGUE GOSSIP.

Jacques Fourrier, the White Sox slugger, with an average of .463, tops the batters of the American league, according to averages published today. The league's veterans are well to the front, with Cobb, Detroit, hitting .404 and closely pushing Veach, his teammate, with .423, for second place.
 Eddie Lennox, Pittsburg, leads the batters of the Federal league. In seven games he has been up six times and made three hits, for a percentage of .500. Also in the first ten are Westertz, Brooklyn, .476; Mann, Chicago, .437; Duncan, Baltimore, .436; Gagnier, Brooklyn, .435; Myers, Brooklyn, .417; Russell, Baltimore, .400; Magee, Brooklyn, .383; Kauff, Brooklyn, .378; Cooper, Brooklyn, .370. Kauff sets the base stealing pace with the nine.

Led by Allen, of Pittsburg, with four wins to his credit, there are six undefeated pitchers in the Federal league. The others are Kaiserling, Newark, with three victories; McConnell, Chicago, two; Mullin, Newark, two; Pendergast, Chicago, one, and Finneran, Brooklyn, one.

NO BELGIAN BANK NOTES IN ENGLAND

London, May 6.—An official proclamation announced today prohibits the entry into Great Britain of Belgian bank notes.
 The prohibition of the exportation of British gold anywhere except to British possessions or to Great Britain's Allies, also was officially gazetted today.

MONTREAL MARKET QUIET YESTERDAY

Dominion Bridge and Scotia strong - Buying of Canada Car for New York interests.

(Furnished by McDougall & Cowans.) Montreal, May 6.—After the weakness of yesterday the market gave a good account of itself, but was on the whole quiet.

Both Bridge and Scotia were strong, while the Power stocks were neglected. Toronto Railway was back to the minimum. Money is easy. We were able to borrow money in Boston on Canadian stocks. This is the first time we have ever been able to do this.

We were again purchasers of Canada Car for New York interests.

CLOSING LETTER OF N.Y. MARKET BY E. & C. RANDOLPHE

(Furnished by McDougall & Cowans.) New York, May 6.—All through the day the market was weak and strong by turns, but at the close it had a net advance as a result of covering of shorts in the last hour by traders, who thought there might be developments over night which might produce a good effect. It was definitely known that the plan to exchange Anaconda stock for Amalgamated on the basis of two shares of the former for each share of the latter, and to distribute in addition, the value of certain other assets of the Amalgamated Company to Amalgamated stockholders, was ready for announcement, and there was some expectation of a favorable market result from that development.

Its difficult to see, however, how the position of the stocks can be greatly benefited by the proposed change, as nothing was added to the value of the properties, and only a small saving can be effected in the way of reduced administration expenses and taxation. In the rally at the close, Bethlehem Steel was particularly prominent, a new short interest having been formed in that stock, while there was no confirmation of rumors that the company had received an additional war order of large amount. The trading was active at the close, and prices were up a little from the low, but the tone was uncertain. Sales \$11,304. Bonds \$3,860,000.

TRADING SUBJECT TO RESTRAINT AND IRREGULAR PRICE CHANGES

Leading stocks slumped, but news of lessening of strain between Italy and Austria caused general improvement towards closing hour.

New York, May 6.—The foreign situation was less of a depressing factor in today's stock market, but trading was subject to some restraint and irregular price changes. In the course of the early decline leading stocks went as low or lower than at yesterday's close, but general improvement was shown in the final dealings, the movement being concurrent with semi-official advice, which suggested some reduction of the strain between Austria and Italy.

In the main the day's operations were professional, the trading element venturing from the long to the short account and back again with such rapidity as to make for frequent confusion of prices. Reading and several other speculative favorites reflecting intermittent pressure, and the movement elsewhere showed a mixture of gains and losses.

Pressed Steel Car, the locomotive issues, some of the motors and petroleum secured advances of two to four points, but Westinghouse failed to

Helping the Soldier Made Sightless by War

The blinded soldier is a figure of tragedy. He, who belonged yesterday to the adventurous, is today a prisoner of despondency. His world has fallen in ruins; and, unless he will relinquish all claim upon it, he must build it again from the foundations with unskilful hands. He cannot accomplish this without help and encouragement; experience has shown that help from those who have faced a like calamity to his own is of greater worth to him than any other.

Help for the blind by the blind is the working principle of the institution opened by the Blinded Soldiers' and Sailors' Care Committee at St. Dunstan's, Regent's Park. That principle, in its application, has made St. Dunstan's one of the most interesting places in London. It has lightened the sadness which, more actual even than the imprint of pain, though much more elusive, lingers in the faces of the men who are learning here how to begin life once more at the beginning, and to discount misfortune and defeat memory by new achievement.

The object of the work is to teach every blind soldier trade by which he may expect to earn his living, and to introduce him at the same time to the Braille system of reading and writing. Blind instructors have been engaged in every instance. These men are among the most capable workers in the country, and their energy and enthusiasm are an immediate incentive to effort. The knowledge that other men have "made good" in spite of their blindness is therefore the first lesson which the blind soldier receives. There is generally in his character a quality of determination which, thus aroused, may be counted upon to achieve success.

St. Dunstan's, Regent's Park, which was lent to the committee by Mr. O. Kahn, is a very large house standing in fifteen acres of ground. Thanks to this latter circumstance, it has been found possible to include poultry farming and market gardening among the subjects of instruction. This country life section has been taken over by Captain Pierson-Webber, one of the best-known blind experts in England. Captain Pierson-Webber's life is itself a romance of successful endeavor against heavy odds; he has proved that a blind man may, without previous knowledge, compete with experts on their own ground; his work in connection with poultry farming is known throughout the agricultural world.

Many very wonderful devices have been introduced by him into the model farm which he is now conducting. The arrangements of gates and pens, of railings and coops, reveal extraordinary ingenuity. A blind man, by means of them, is enabled to conduct the farm with entire success, to catch any fowl he may desire, to drive his birds from one plot of ground, to another to collect eggs, and generally to superintend everything. Captain Pierson-Webber was a soldier himself before he became blind, and therefore is especially well qualified to help the men who are receiving instruction from him.

Inside the house, in a large conservatory, work-tables have been arranged for the teaching of carpentry, boot-repairing, mat-making, and basket-making. At the rear of the bench a young fellow who lost his sight on the Aisne may be seen completing his first picture-frame. It did his instructor and himself credit. In this case blindness was caused by a bullet which passed from one side of the forehead to the other, injuring the optic nerves. Near him another young soldier, a victim of bursting shrapnel, is having his first lesson in drilling with a brace. That he was entering into the spirit of the work was obvious from his cheerful expression, yet only a short time ago he returned from a German prison, broken down in health and without hope for the future. The bootmakers are very busy indeed, and their work is of great value. So into were the mat-makers.

In another room is a message class. Massage is one of those very useful occupations at which blind people are found to excel. In view of the widespread need for this treatment which the war has produced and is producing, no better lesson could be taught or learned. The large Braille room is full of pupils, some of whom being instructed in the elements of the alphabet, others at work on the ingenious Braille typewriters. Everywhere one meets the spirit of hope and cheerfulness, until the impression of pathos gave place to an enduring sense of admiration. Here surely is a nobler courage even than the fierce bravery of war.

When their period of instruction is over it is hoped that it will be possible to place men in permanent positions, and a large grant has been made by the Prince of Wales' Fund towards this purpose. The actual cost of running the hostel is borne by the National Institute for the Blind, the Red Cross Society and the Order of St. John.

Two inmates who were blinded in the fighting at Ypres are seen being led about the grounds by one of the London society ladies who helped establish the hospital.

On April 19 Queen Alexandra paid a visit with Princess Victoria, the Princess Royal, and Princess Maud, to the hospital. Her Majesty was conducted round the building, visiting the work-rooms where the men were learning various useful trades, and showed keen interest in all she saw. Queen Alexandra chatted with the men and expressed her amazement at the progress they have made and their cheerfulness and good spirits. To each she presented a large bunch of primroses, tied with red, white and blue ribbons.

This war is doing an enormous amount towards encouraging tea drinking all over the world, and it looks as though in countries where tea has up to now been more or less an experiment or a luxury, it will in the near future be in a fair way of becoming a national beverage. One of the labor difficulties, has been, of course, always been large tea drinkers, and with the Government's action in closing down the State-run vodka cabarets an even larger consumption is bound to follow. France, hitherto a very small consumer, and essentially a coffee country, has been chiefly the labor difficulty, has been handicapped. New land takes some years to come into full bearing, and young gardens require to be treated tenderly at first. Of course China could, if she would, produce countless millions, but unless British grow tea goes to absolutely prohibitive prices there is not much prospect of the tea-drinking public reverting to China Tea.

OBITUARY.
The death took place on Wednesday at his residence, Montreal, of R. D. McNaughton, formerly a well known resident of this city. He was the oldest son of the late Mr. Peter McNaughton, and was a member of the old firm of Beard and Vennings until the time of the St. John fire. In the early days of the C. P. R. he located at Moosemin, Sask., and established a very successful business. Ten years ago he retired and moved to Montreal where he has since resided. He is survived by two sons, both in active service in France in connection with the Montreal artillery. The elder, Major A. G. M. McNaughton, was wounded in the recent fighting. He is also survived by one sister, Mrs. J. H. Murray, of this city, and a brother, Mr. P. W. McNaughton, of Sackville.

James P. Shaughnessy.
James P. Shaughnessy, son of Patrick Shaughnessy, St. Stephen, died in Boston on Sunday. His death was due to an accident. In crossing a street the young man had stepped aside to avoid collision with a rapidly moving car and had been struck by a street car that was also moving rapidly. He was thrown to the ground and sustained a compound fracture of the skull and other injuries. The young man had been attending an automobile school since last fall. The remains were brought home for burial. Besides his father three sisters survive.

FUNERALS.
The funeral of Mrs. Hannah Foley took place yesterday morning at 8:30 o'clock from her late residence, 4 Drury Lane, to the Cathedral, where Requiem High Mass was celebrated by Rev. M. P. Howland. A large number of friends attended the service. Relatives acted as pall-bearers. Numerous beautiful floral tributes were received including a wreath of pink and cream roses from the employees of the Canadian Drug Co. The remains were laid to rest in the New Catholic cemetery.

**Cures Biliousness
Prevents Bright's Disease**
The Certified Statement of One Who Has Proven the Efficiency of Dr. Chase's Kidney-Liver Pills.

Mr. Colin M. Kiel, Craighurst, Simcoe county, Ontario, writes: "My mother and I have both used Dr. Chase's Kidney-Liver Pills with great satisfaction. We find that there is nothing to equal them as a prompt cure for torpid liver, biliousness and indigestion. Some years ago my mother came near death from kidney trouble and has to be careful in preventing Bright's disease. By using Dr. Chase's Kidney-Liver Pills is that they do not grip and yet accomplish good results. You are all liberty to use my letter."

This statement is endorsed by Mr. Marmaduke Caston, Justice of the Peace, who writes: "This is to certify that I am personally acquainted with Mr. Colin M. Kiel and believe his statement regarding Dr. Chase's Kidney-Liver Pills to be true and correct."

If you are interested in this case, write to Mr. Kiel, enclosing stamp for reply, and he will verify his statement. We like to have people to do this, for we are very careful to only use statements from responsible persons.

Should this case not be similar to yours, write to us for the statement of some one whose trouble was along the same lines. We have thousands of letters to choose from. Or better still, put the Kidney-Liver Pills to the test right away. They will only cost you a quarter and a box lasts for some time.

As a means of awakening the action of liver, kidneys and bowels and thereby curing biliousness, indigestion, headache and kidney troubles, Dr. Chase's Kidney-Liver Pills hold a unique position. By their combined action on these eliminating organs they prove effective in complicated ailments which defy ordinary treatment. One pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Company, Limited, Toronto.

ENOUGH WHEAT FROM INDIA TO PREVENT A PANIC IN LONDON

London, May 6.—The British government hoped, said the Marquis of Crewe in the House of Lords this afternoon, that the exportable margin of wheat from India would be sufficient to prevent anything like a panic or a rise in the price of wheat for the current year in this country.

Government interference with the export of wheat from India, the speaker said, was due to the belief that unless some strong action were to be taken a serious position would be created in India, owing to the high prices to which the wheat was advancing.

The government was prepared, the Marquis concluded, to take as much wheat from India as it could get, in view of what the price of wheat likely was to be in this country.

Grippe a Robber Of Strength and Flesh

Run-down, Underweight People Should Regain Lost Flesh and Strength at This Season

People who have gone through winter suffering a succession of coughs, colds, grippe, catarrh or other ailments peculiar to cold weather will probably be surprised, if they climb on a weighing scale, to see how much flesh they have lost. Most everyone reaches spring with weight decreased, vitality lowered, nerves affected and general health and strength impaired.

The best way to regain lost flesh and strength is through the original source of all flesh and strength—your food. Food, however, produces flesh and strength only in the proportion in which its nourishing elements are absorbed by the blood. Loss of weight indicates a leakage of the fats, sugars and starches of your food. Instead of going to the blood they are passing through your body as waste.

The assimilative functions of your stomach and intestines are out of order and you need something that will get them working right again. Nothing is better for this purpose than a single Sargol tablet eaten at meals for a few weeks. Sargol does not build flesh of itself and taken between meals is of little value for the purpose, but, swallowed with your food, it acts upon every mouthful you eat, first separating all the fats, oils, sugars, starches and other materials which make for flesh and strength from the waste matter and then preparing all these fat making, nourishing elements into a form which the blood can readily absorb and distribute throughout the body.

The effect is quickly felt. Reported gains in weight of from ten to twenty-five pounds a month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by leading druggists everywhere and every package contains a positive guarantee of weight increase or money back.

Caution: Sargol is widely used as a general body builder and for many a common trouble, but when used for such purposes alone and where patient does not desire an increase of weight it should be taken not less than one hour after meals. If taken at meal-times it will almost certainly produce an increase in weight that some may not desire.

The annual meeting of the Alumni of King's College was held on Wednesday morning, the President, Judge Forbes, in the chair. The attendance was not up to the average, due to some extent to unfavourable weather. The report of the executive deals first with the retirement of Rev. Canon Powell from the presidency, and deep regret is expressed that he has felt obliged to lay aside his work here when, under his leadership the confidence of the people in the college was increasing year by year. From first to last Dr. Powell has held uncompromisingly to the fundamental principles upon which King's College has stood

OKLAHOMA TOWN SWEEP BY A TORNADO

Armdre, Okla., May 6.—Three persons were injured and much property damaged here today by a heavy wind storm. It was reported that Wilson, Okla., near here, was hit by a storm which blew down forty buildings, but that no one was seriously injured there. Winds of almost tornado proportions were reported over a wide section of Southern Oklahoma.

HAVE NOT RECOVERED BODY OF ALBERT CO. MAN DROWNED TUESDAY

Sussex, May 6.—The body of John Leeman, aged 37 years, youngest son of Mr. and Mrs. Jackson Leeman, of Kerry, Albert Co., who was drowned on Tuesday while river driving on the "Forty-Five," a branch of the Upper Salmon River has not yet been found. A number of men searched the river Tuesday afternoon and all day Wednesday, but no trace of the body could be found.

The first Kings County hero to lose his life for King and Country on the battlefields in Europe was Sergt-Major Arthur Adams, of Hampton. On Saturday his parents received a cablegram telling of his being wounded and on Monday another announcing his death. Died from wounds received in the great battle of Langemarck, which made history for Canada. Sergt-Major Adams, who was 28 years of age, enlisted with the Montreal Highlanders, and went to the front in the first contingent. He was a good soldier, having gone through and held certificates from the Military schools at Fredericton, N. B., and Kingston, Ont.

His parents reside at Hampton, N. B., his father being Capt. James Adams, of the cable steamer, Minia. One sister, Marguerite, is in this year's graduation class at the U. N. B., and another, Elizabeth, is a teacher in the King Edward School, St. John. A brother James lives at home. The bereaved family have the sympathy of all in the loss of the greatest boy who gave his life to aid the Empire's cause in the world's greatest war.

Johnson-McArthur. A pretty house wedding took place at the home of the bride's parents, Mr. and Mrs. John McArthur, Nelson street, on Monday evening, the 3rd inst, at 8 o'clock, when their daughter Violet, was united in marriage to Robert Johnson, of Sussex.

The ceremony was performed by Rev. Thomas Mitchell, the happy couple being unattended. The bride was dressed in cream serge skirt with shadow lace waist and looked charming. After a dainty luncheon had been partaken of the bride and groom drove to the residence of H. E. D. Golding, Main street, where they will make their home for the present. The bride who is a very popular young lady, was the recipient of many handsome and useful presents; the groom's gift being a horse and carriage.

Spruce Lodge will open for the season on May 15th. This charming summer home which was made more attractive than ever by the addition last year of sundry cosy up-to-date improvements will no doubt have many permanent and transient guests when the weather warms up a bit.

PROHIBITS EXPORT OF COTTON FROM EGYPT

London, May 6.—Great Britain has requested the government of Egypt to prohibit the export of cotton to all ports other than France, Russian, Spanish and Portuguese.

Foreign Secretary Grey informed the House of Commons this afternoon that he expected this prohibition to become operative very shortly.

Belgian Relief Fund.

A contribution of \$11 for the Belgian Relief Fund was received yesterday morning from the Girls' Reading Club, Hampton, per Miss F. L. Devoe.

CONTRIBUTIONS TO PATRIOTIC FUND, \$2,712.75

Newcastle, May 6.—At the monthly meeting of Newcastle Patriotic Fund Treasurer W. J. Jardine reported collections to date \$2,712.75. North Esk Parish had contributed \$208.25 of this. Several new families were granted allowance. About \$380 was voted for May payments.

PART OF CARGO GOING TO A PRIZE COURT

London, May 6.—The American sailing ship Carolyn, from Savannah, Mar. 30, for Rotterdam, is now discharging her cargo of cotton at Leith, Scotland. Part of this cargo has been purchased by the British government. The remainder of it goes to a prize court on the claim made by the government that it was destined for Germany.

KAISER RETURNS TO BERLIN

Amsterdam, via London, May 6 (9.57 p.m.)—The Nieuw Rotterdamse Courant says it learns from Berlin that Emperor William arrived in Berlin yesterday from headquarters, and that he was enthusiastically cheered by the populace.

YARMOUTH EXEMPTS SOLDIERS FROM TAXES

Special to The Standard. Yarmouth, N. S., May 6.—At the semi-annual session of the Municipal Council just closed a resolution was passed exempting all those from the municipality who had volunteered for services under the Militia Department of Canada from all rates and taxes for this year. Another resolution voting \$600 for the Canadian Patriotic Fund was also passed.

WITHDRAWS CHARGE IN ASSAULT CASE

Special to The Standard. Hartland, N. B., May 6.—Wilmot Ryder, who was arrested yesterday on the charge of attempting a criminal assault on the 9 year daughter of Judson Rideout at Middle Simonds, was brought before Police Magistrate Cameron this morning for trial. Before the court opened Rideout asked permission to withdraw the charge, and this was granted on the condition that the accused would not take any action against Rideout for assault and battery. As the matter stands at present either party can bring the matter up again.

ORGANIZATION MEETINGS

The meeting of the Conservative electors of Simonds No. 3, for the selection of officers and delegates to the nominating convention, will be held at Charles Mayall's on Monday evening.

The St. John Conservative Club is called to meet on Friday evening in their club rooms, Market building, for the selection of delegates to the nominating convention.

St. Andrew's Society

The quarterly meeting of St. Andrew's Society was held last evening in the Temple Hall, Germain street. Routine business was transacted.

Knocked Down by Bicycle.

On Wednesday Gladys Minford, aged 15 years of age, was struck and knocked down by a bicycle owned by Roy Dunn on the corner of Charlotte and Union streets. The young woman was quite badly injured and was assisted into M. V. Padlock's drug store where her injuries were attended to and she was then conveyed to her home on Moore street.

Memorial Service.

On Sunday afternoon next the members of Maple Leaf Lodge, Prentice Boys, of Fairville, with members of sister lodges will hold a memorial service in the Church of the Good Shepherd, Fairville, in memory of the late Rudolph McKel who died in France as the result of wounds received while fighting the Germans. The lodge members will assemble at the lodge room at 2:15 o'clock and headed by the Carleton Cornet Band will parade as far as the Provincial Hospital corner and then to the church where the Rev. Mr. Dunham will preach.

Chatham Runaways Captured.

Chief of Police Simpson yesterday received a telegram from Chatham to the effect that two young fellows named Blanchard McCurdy and Striving Jardine, aged 14 and 15 years respectively, had run away from home and were supposed to be in St. John, and if located to hold them until sent for. Yesterday afternoon Detectives Worrell and McLaughlin went out on the hunt and found the two runaways in the Grand Union Hotel, and they were taken to central police station. Word was sent to Chatham and a reply was received that the fathers of the boys would arrive here today to take them home.

Little Girl Injured.

As the result of some work being left unfinished on the corner of Wright street and Gilbert's Lane, Marjorie, the five-year-old daughter of R. H. Irwin, sustained a broken bone in one of her arms yesterday afternoon.

Last February the city workmen built a retaining wall near Mr. Irwin's home on the corner, placing two pieces of timber and filling the space with rocks, leaving a drop of about 14 inches. It was stated then that the work would be left until the frost got out of the ground. It was while the little Irwin girl was walking on the timber yesterday that she fell and sustained the injury. Dr. Christie was summoned and attended to the injured child.

College Entertainment.

There was standing room only in the school room of the Anglican church at Rotheray last evening when an excellent entertainment was given under the auspices of the Rotheray Collegiate School. The programme opened with a very laughable farce entitled "Parlez Vous Francais?" by a number of the students. There was an exhibition of tumbling by Messrs. Alward, Starr, Whitley and Jack. The College orchestra rendered a number of selections, and C. Prescott and H. Barker were heard to advantage in a violin duet. A vocal solo was rendered by H. J. Best. A sketch was well put on by C. Prescott and C. Alward, and the programme was brought to a close with the singing of "We'll Never Let the Old Flag Fall." The entertainment was a grand success and greatly enjoyed by the large audience.

**ODD FELLOWS
OPEN NEW HALL**

Enjoyable Entertainment by Siloam and Pioneer Lodges—Mack's Musical Revue Assisted.

The members of Pioneer and Siloam Lodges, Independent Order of Odd Fellows, held a house warming last evening in their new lodge rooms in the Orange Hall building on Germain street. Prominent local entertainers, including Mr. S. Herbert Mayes, Mr. C. Brook Skelton, Mr. D. Arnold Fox, Mr. Joseph Murdoch, Professor Byron Tapley, and Mr. A. E. McGinley, also the members of Mack's Musical Revue now playing at the Opera House, gave an enjoyable entertainment. They came directly to the lodge rooms after the evening performance at the Opera House. Nat (O'Brien) Farnum first appeared in a Hebrew impersonation that brought down the house, then gave some impersonations of famous people and closed his part of the program with two good songs, "Are we down hearted?" and "Sister Susie." He had to respond to an encore before the audience would let him go.

Bob Winstanley and Anna Mae Miller sang and danced in a pleasing manner and Alice Wallace was heard in artistic vocal selections. Messrs. Winstanley, Farnum and Howard Smith appeared in a trio and rendered a comedy number that was heartily enjoyed. Howard Smith contributed a solo and also sang a new patriotic song, "Where the English Channel Flows," that scored a hit. Miss Pearl Evans, the prima donna of the company, sang a beautiful selection that showed her rich voice and artistic phrasing to advantage. This part of the entertainment closed with a chorus number, "Soldiers of Canada," by the members of the company. Clarence Love, musical director of the company, presided at the piano.

S. Herbert Mayes gave a stirring vocal selection which was heartily applauded. He was compelled to leave in order to keep another engagement and so could not respond to an encore.

Mr. Skelton was in fine voice and gave two songs which delighted those present.

D. Arnold Fox and Professor Tapley were heard in piano selections.

After the entertainment dancing commenced and continued up to midnight. During the evening refreshments were served. All present voted the function one of the most enjoyable ever held by the Odd Fellows.

The entertainment was under the joint auspices of Pioneer and Siloam Lodges. A. E. Jenner, Noble Grand of Siloam Lodge, presided during the early part of the evening and later on W. J. Ingram, Noble Grand of Pioneer Lodge, took the chair.

Both Pioneer and Siloam Lodges have moved from the hall on Charlotte street to the new rooms on the second floor of the Orange Hall. Siloam Lodge will meet there every Monday night while Pioneer Lodge will hold its meeting every Thursday night.

"THE CHAPERON" AT SEAMEN'S INSTITUTE

Young ladies present bright Comedy—Girls' Club do well in Amateur Theatricals and Specialties.

A three-act comedy entitled "The Chaperon" was presented last evening at the Seamen's Institute by the Girls' Club of the Playgrounds Association. Misses Wayne, Whipple and Rogers, assisted under the direction of Miss Emma Heffer. There was a large audience and frequent applause showed that the work of the young ladies was much appreciated. Particularly pleasing was the last part of the programme which consisted of an exemplification of physical culture and pantomime, those taking part being dressed in Grecian costume and a daisy chorus and dance, with Spanish waltz. The various characters in the little comedy were taken by Misses Edith Piers, Minnie Martell, Rhena Whipple, Estelle Earle, Carrie Green, Jennie Boyd, Hazel Flower, Violet Marschan, May Eyle, Margaret Starkey, Nettie Nichol, Tillie McDevitt, Violet Brindie and Pearl Wayne.

Misses Rogers, Steeves, McDevitt, Nodwell, Kelley, Forrester, Rolston and Howard in the first specialty number, physical culture, pleased all, and in the second number capable and painstaking work was shown by Misses Scott, Wilson, Strayhorn, Ferris, Marr, Kelly, Nodwell, H. McDevitt and T. McDevitt. Soloist, Miss Caroline Fulford, accompanist, Miss Georgie Hayward.

**ANNIVERSARY
OF WOMEN'S
SUFFRAGE ASS'N**

Twenty-first year celebrated—Votes for Women the theme in good entertainment—Speeches and fine musical numbers.

The St. John Woman Suffrage Association held its twenty-first anniversary last evening in the studio of the St. John Art Club. Miss Clara McGivern presided, and gave an interesting and instructive address. Rev. F. H. Wentworth spoke on some phases of the movement for granting votes to women. A playlet entitled "Miss Appleyard's Awakening" was well presented. A good musical programme was provided and the many present were well entertained throughout the evening.

Miss McGivern, in opening the proceedings, remarked that the granting of the civic vote to married women taxpayers of St. John showed a distinct advance in the agitation for women's franchise; that it was quite an achievement, and the audience was glad to hear the news that the legislature had passed the bill. The speaker then introduced Rev. Mr. Wentworth as an advocate of woman suffrage.

Rev. Mr. Wentworth said that he believed the day past when the question of woman's suffrage should create astonishment. "I believe," he said, "when this war is over the astonishment will be altogether on the other side. It will be the wonder of the nations at why women were not given a larger, in fact an equal, place with men in the management of national affairs. Women have suffered too long at the hands of men; I do not mean that men have been purposely cruel and brutal, for they have rather thought they have been kind in shielding the 'weaker sex' from the hard and worrying things appertaining to national and civic affairs. Yet it is a sad fact that man has tried to kill the woman, so far as the state goes, with a kindness which is not kindness in the real sense.

"Man himself has suffered too long as the result of the disfranchisement of women, although the majority of men are unconscious of this. So, too, is the majority of women, women who are shocked at the suffragette movement, and only look at what they call the unwomanly actions of the millitant. Yet, perhaps, had it not been for the millitant, the question of woman's suffrage would not have had the prominent place in our minds that it has today.

"I maintain that it is in the highest interests of the race that women should be on equal terms with men. The matter of sex is only a phase of our being. Why should we make it dominate beyond its own proper borders? We do not allow it to intrude into the realm of art and music. The world needs the influence, and the intuition of women in political life. They want to vote because the sorrows of the world have entered into their souls and they realize that it needs their vision, their activity, to forward every good interest."

In the playlet which was much enjoyed, Miss Miriam Hatheway took the role of Miss Appleyard; Mrs. Wilfrid Gribble, that of Mrs. Crabtree, an anti-suffragette, and Miss Ermie Climo Roy, of Moncton, the maid. As a result of clever conversation, with plenty of wholesome repartee, Miss Appleyard and everybody else agreed that there's something in the view, after all, that women should be entitled to vote. Miss Minnie Miles sang "My Ain Folk," Jack Stenhouse, "Kings of the Road," and Mrs. Burton L. Gerow also gave a solo. All these musical numbers were much appreciated as was the accompaniment of Miss Fenety and Miss Biedermann.

**VICTORIA WARD
ELECTS OFFICERS**

The meeting of the Liberal-Conservatives of Victoria Ward, Wednesday evening, was well attended and all present showed great enthusiasm.

The list of officers, which follows, was inadvertently omitted from yesterday's Standard.

Chairman, H. H. McLellan; vice-chairman, Thomas Ingraham; secretary, Otty M. McDonah.

Delegates—H. H. McLellan, Miles E. Agar, Lewis, Patchell, Frank M. Shannon, Wellington Green, Robert R. Patchell, Blanchard, Fowler, William A. Wetmore, Hassen B. Daley, F. Roy, Crawford, J. W. Cameron, Thomas Ingraham.

Substitutes—John Ross, Richard H. Irwin, Otty M. McDonah, Robert J. McPherson, Harry R. Coleman, James Rogers.

Everybody Wears Silk.

In the face of the advance price in nearly all women materials one is able to buy silk at almost the price of cotton materials. F. A. Dykeman and Co. are placing on sale Saturday morning a large quantity of black paillette silk thirty-six inches wide at seventy-five cents per yard. This is an excellent quality, and its wide width makes it a very economical material to cut from. Be on hand early if you wish to get some of this excellent silk.

**FIFTY-FIFTH
AWAY MONDAY**

Battalion will mobilize in Sussex—Camp being prepared for the men.

Monday night will see the majority of the men enlisted in the 56th Battalion under canvas in Sussex. The St. John detachments will go to Sussex on a special train, leaving here at 12:45 p.m. The detachments at Edmundston and Sackville will not go to camp till later.

Sergeant Major Richardson and three men from the quartermaster's stores will go up tonight.

Lieutenant Colonel Kirkpatrick and the officer who were in Sussex returned to the city last evening. It is expected that all the officers will return to Sussex tomorrow.

Captain Gardner, the medical officer of the battalion, is in Sussex looking after the sanitary arrangements of the camp.

The 56th will take the rifles which they have been using here to Sussex with them.

Several lieutenants will have to be appointed to take the places of the lieutenants going to England with the reinforcement draft.

A group photograph of the men of the 56th stationed here was taken in the exhibition grand stand yesterday afternoon.

The Rotary Club will assist in the recruiting of men for the 56th Battalion. Howard Robinson, who was instrumental in bringing the 26th Battalion up to strength, will assist in the work.

The men of the 26th Battalion spent yesterday afternoon in manoeuvres in different suburbs. Two companies went to Kane's Corner, while several others went to Rockwood Park.

The other corps were hard at work in routine drill.

PERSONAL.

Mrs. Morton, of Trinidad, who arrived on the steamer Chaleur, is the guest of Judge Forbes, Wellington Row.

J. B. Hachey, M. L. A., and W. A. Witzell, M. L. A., who were in the city yesterday returned to their homes in Gloucester this morning.

George B. Jones, M. L. A. and George W. Fowler, M. P. returned to their homes in Kings county last night.

Stockings and Belt Found.

If the young woman who thoughtlessly dropped a pair of black stockings near the corner of Charlotte and Union streets yesterday will call at the police headquarters she will receive them. There is also a woman's belt at the police station that was found on Charlotte street.

**J. K. McNEILLIE WILL
SUCCEED F. P. BRADY AS
SUPERINTENDENT OF I.C.R.**

Important Changes Among I. C. R. Officials—Mr. Brady to Take Charge of Quebec-Winnipeg Section of N. T. R.

Moncton, May 6.—Some important changes have been made among the I. C. R. officials as the result of the government taking over the National Transcontinental between Winnipeg and Moncton. Some days ago it was announced that the operation of the N. T. R. from Moncton to Winnipeg and the Lake Superior branch of the Grand Trunk Pacific Railway from Fort William, Ont., to Superior Junction had been taken over by the government.

In connection with the operation of the N. T. R. between Moncton and Winnipeg, Mr. F. P. Brady, who has been general superintendent of the I. C. R. at Moncton for the past eight years, has been appointed general superintendent of the N. T. R. between Quebec and Winnipeg and the Lake Superior branch of the Grand Trunk Pacific Railway between Fort William and Superior Junction with headquarters at Cochrane, Ont.

R. S. Richardson, assistant superintendent at Moncton, will be transferred to the Transcontinental on the Winnipeg section.

Mr. J. K. McNeillie of Montreal is appointed general superintendent of the Intercolonial Railway, the Prince Edward Island Railway and the N. T. R. east of Quebec, with headquarters at Moncton, N. B., in the place of Mr. Brady. Mr. McNeillie, who is forty-one years of age, was born in Lindsay, Ont. He started his railway career as office boy with the Grand Trunk when eleven years of age and learned the machinist trade. After graduating as machinist he became a clerk in the master mechanic's office of the Grand Trunk and later went with the C. P. R. as clerk in the mechanical department and rose from that position to superintendent. When Mr. McNeillie resigned from the C. P. R. to come with the I. C. R. he was superintendent of the Quebec division of the C. P. R. at Montreal, and he had acted as general superintendent of the big Canadian railways on different occasions. The new general superintendent of the I. C. R. will arrive in Moncton on Friday.
