## SIR LOMER SEES BOOM AHEAD

Everything Points to Big Development in Canada Now.

London, May 16.—Sir Lomer Gouin, Premier of Quebec, called on the Minister of the Interior, Mr. Bennett, on Saturday. He said that on no previous visit had he realized so fully the breadth and vision of British statesmen and of the business community. He had good reason to anticipate as a result of the visit that immediate steps would be taken to develop some of Canada's great natural resources. The premier said: "We are, I believe, on the eve of a great boom. The world is crying for more manufactured goods and we have an inexhaustible raw material supply which we want worked by British capital."

The agent-general's office in London, he added, was proving increasingly valuable and the Quebec government would extend its usefulness.

### THOUGHT THE ROUTE WAS RATHER CIRCUITOUS.

He was going home and it was growing dark. His road from the station was a lonely one and he was getting along as fast as he could, when he suddenly suspected that a man was following purposely. The faster he went the faster the man followed, until they came to a cemetery.

"Now," he said to himself, "I'll find out if he's after me," and he entered the cemetery. Vague visions of revolvers and loaded clubs grew upon him. He circled and his pursuer dodged after him. He made a detour. Still the man was after him. At last he turned and faced the fellow.

"What do you want? What are you following me for?"

"Well, sir, it's like this: I'm going up to Mr. Fitzroy's house with a parcel and the porter at the station told me if I followed you I should find the place, as you live next door. Do you always go home like this?"

### PROFESSIONAL.

Dr. W. H. Coffin, diseases of the eye, ear, nose and throat, will be at the Hotel Dieu Hospital every Wednesday.

The Toronto Mail and Empire (Conservative) says:

"The new taxation can hardly be described as of the paucity variety. It will make the budget unpleasantly familiar to many people whose path it was never known to cross before."

"The new taxation is sweeping in its character; far beyond what was anticipated, and it will have a tendency to burden poor as well as rich. It brings additional increases in the cost of living and the fact that food-stuffs are not directly taxed in the new proposals is a poor consolation in view of the powers of the wheat board."

The music in "Bringing Up Father" is a sure cure for any blues. Proceeds from the Soldiers' Memorial Hospital. You ought to see it.

Miss Mardiganian who will appear in "Auction of Souls" at the Opera House next week is the sole survivor of half a million Christian Armenian girls.

The film shows truthfully and without exaggeration what she and her companions stood during the two years in Turkish harems—in the hands of Turkish soldiers and roving bands of Kurds before she escaped to America. Every incident, vouched for by the British investigator, Lord Bryce, and the American Ambassador to Turkey, Henry Morgenthau.

**PROPOSED MUNICIPAL HOME IN YORK COUNTY.**  
FREDERICTON, May 13.—Commissioners for the establishment of a municipal home for York County and the towns of Devon and Marysville met, this morning. Walter Walker was elected chairman. The meeting is being continued this afternoon.

**CHEAPER CLOTHES?**  
St. John merchant stated on Tuesday morning he had received advice from the Eastern States that prices were dropping rapidly there and that a slump was due there soon—in November. A cut of 20 per cent. has occurred in the prices of clothes and other articles of wear in the Eastern States, he said, and merchants in many cities had decided not to replenish their stocks until the wholesale price had declined sufficiently to permit of replacement at a reasonable profit.

Did you read "Ravished Armenia" when it ran in serial form in the newspapers? If so you will be doubly interested in the screen version "Auction of Souls" which comes to the Opera House next week.

## GREAT PROGRESS IN SOMME REGIONS

Over 200,000 Acres of Devastated Land Put Into Cultivation.

Great progress has been achieved by the inhabitants of the devastated regions of the Somme during the summer of 1919, in restoring something like normal conditions.

Of 400,000 acres in a completely useless state, statistics show nearly half have been put in cultivation and this year's harvest will yield a cereal crop of more than 3,000,000 bushels. At the end of the year it is expected there will remain but 70,000 acres uncultivated. Twenty-seven million of sixty million square yards of trench and shell holes have been filled in, and eleven million square yards of barbed wire entanglements removed.

At the time of the armistice there were 235 towns and villages, more or less demolished, giving an area of 4,500,000 square yards of debris to be cleared.

About a quarter of this has been done. The towns of Amiens, Corbie, Ham, Noye, Boves and Ally-sur-Noye, and a number of neighboring villages, have been almost entirely cleared, and more than eight thousand of the twenty thousand damaged houses repaired and made habitable.

Ten thousand huts have been erected and of the 1,200 industrial plants more or less demolished 320 are in full and 406 in partial operation.

In addition, rivers and canals have been repaired and are being used. Wells and ponds, have been cleaned, and railroads, both main lines and light, restored.

**NEW-SIZED CANADIAN CENT COMING OUT**  
First of the New Dimension Minted Yesterday.

Ottawa, May 18.—Canadian cents of the new size were struck at the mint for the first time today. The first two coins minted were presented by the Master of the Mint to Sir Thomas White, who as Minister of Finance, brought in the necessary legislation last year.

The new coins are slightly larger than the old ones.

The Toronto Mail and Empire (Conservative) says:

"The new taxation can hardly be described as of the paucity variety. It will make the budget unpleasantly familiar to many people whose path it was never known to cross before."

"The new taxation is sweeping in its character; far beyond what was anticipated, and it will have a tendency to burden poor as well as rich. **EDITOR'S MAIL.**  
A Few Words of Advice to the Auto Speeders.

To the Editor of The Graphic.—Sir,—For the safety of the general public, and especially the children, it is my intention to assist the police in putting a stop to this 25 and 30 mile auto clip past my home in Roseberry street.

Not only do I consider this high rate of speed most dangerous, but it prevents me from displaying my goods for sale, also from opening any window in my house owing to the dust which is created by such high speed.

The law only provides for a speed of 12 miles per hour within the town limits, and it is my intention to see that the law is carried out.

Yours truly,  
JAS. P. JARDINE.

## WHAT THE PAPERS HAVE TO SAY

Criticism of Budget is Very Strong From All Parts of Canada.

The following are a few of the criticisms of the Budget which appear in the daily papers from all sections of Canada:

Halifax, N. S., May 19.—"The Halifax Morning Chronicle says: 'Altogether the budget imposes a stiff load on taxation which, for the present, the people must grin and bear.'"

St. John, N. B., May 19.—"The Daily Telegraph says: 'The budget increases the cost of living for most people.' It says the Drayton proposal of future extensive tariff revision is a bid for continued support until it has been seen what can be done in the way of cabinet reconstruction and the perpetuation of the Unionist party."

St. John, N. B., May 19.—"The Globe says: 'There will be agreement that means must be adopted to reduce the terrible load of debt, but there will be much disagreement as to the distribution of the burden. Sir Henry has paid attention to the wide demand for relief from some heavy taxes. The manufacturers have insisted that nothing must be done to affect their special interests, and nothing practically has been done. Luxuries are to be more heavily taxed as they ought to be, but many articles which are far from being luxuries will be dearer to the public at large than they have been. Generally there will be found much fault with the budget proposals, which will be removed by the promise of a future tariff inquiry.'"

St. John, N. B., May 19.—"The Times-Star says: 'The budget offers no relief to the people, but adds to the cost of living. What are termed luxury taxes will hit everybody who desires to wear such clothing as is now regarded as essential, for only poor goods can be got at prices lower than those quoted. The Drayton budget stands for high protection. It will not satisfy the Liberals or the Farmers.'"

Toronto, Ont., May 19.—"The Globe says: 'The result of the reform excise taxation introduced by Sir Henry Drayton will be the retention in the pockets of many already rich beneficiaries of the tariff of the large sums that have been diverted to the public treasury.'"

The Toronto Mail and Empire (Conservative) says:

"The new taxation can hardly be described as of the paucity variety. It will make the budget unpleasantly familiar to many people whose path it was never known to cross before."

"The new taxation is sweeping in its character; far beyond what was anticipated, and it will have a tendency to burden poor as well as rich. ## PLANS OUT FOR CAMP SUSSEX

Big Assemblage of Soldiers on June 22—Twenty-One Units to Be in Training.

Elaborate preparations are being made in military districts for the annual training of the various units of the non-permanent active militia, which will assemble at Camp Sussex beginning on June 22 for twelve days.

This encampment will be the first of its kind since 1914. A large camp is expected. The re-organization of the militia units is almost complete and those not yet approved will receive sanction of the authorities before the camp date. The camp will be under supervision of the staff now at local military headquarters who will move to Sussex during that period to direct the training with the assistance of the commanding officers of the various units. This matter of pay and allowances has been gone into. Those who have served in the Canadian expeditionary forces during the war will receive more than those who have only trained at camp prior to the war. The privates who have not seen service with the C. E. F. will receive \$1.25 a day while all who have served in the C. E. F. will receive \$1.50; sergeants of the former class \$1.75 a day and latter class \$2, while other ranks will be paid in proportion.

In addition to pay each man will receive his transportation to and from camp, all clothes, laundry, food and medical attendance, which has been estimated to be equivalent to \$3 a day, besides the benefit of the military training and the twelve days of field sport day. New khaki uniforms will be issued and with the up to date reorganization and increase in strength of each unit the drill grounds in Sussex this summer will present an appearance more elaborate than that of the pre-war days.

There will be twenty-one units in training comprising branches of all the militia units in this district.

The following units and the length of their period of training have been authorized: N. B. dragoons, cavalry twelve days beginning June 22; 8th Princess Louise N. B. Hussars, cavalry, the same period; 12th brigade Canadian field artillery; 89th Woodstock battery, twelve days but the firing detachment will go to Petawawa for four days for practice on the range there; 90th Newcastle battery, the same period of training at each place; 8th battery the same length of time at each place; 3rd N. B. heavy brigade, 15th heavy battery will train at their local headquarters in this city for twelve days and their firing detachment will go to Petawawa for four days firing practice while the 4th and 6th siege batteries will carry out the same training. The 7th Canadian machine gun brigade and the 1st battalion St. John Fusiliers will train twelve days at their headquarters in this city and in addition will have four days training at Sussex; the last four days of the camp. The other units, 1st Brighton field company, engineers, the signal company (not yet organized), Canadian officers training corps of the U. N. B., Carleton light infantry, York regiment, Northumberland regiment, New Brunswick rangers, No. 7 Company Canadian army service corps, and 14th field ambulance, Canadian Army Medical Corps will go to camp June 22 and will train twelve days.

What is to be Done With the Turks? Do You know what should be done with them? Before you can justly decide such a question see what they did to Aurora Mardiganian and 500,000 of her sister Armenians, portrayed truthfully, and without exaggeration in "Auction of Souls."

The Toronto Mail and Empire (Conservative) says:

## MOORE NOW THE CRY

Dominion Budget Fixes Additional Taxes to Meet Heavy Expenditure.

Ottawa, May 18th.—Declaring that Canada has finished borrowing and hereafter will get by taxation what is necessary to meet the ordinary and capital expenditures of the country, Sir Henry Drayton, minister of finance, introduced a budget this afternoon which proposes to collect some of the additional revenue needed by excise taxes on articles entailing an extravagant or luxurious expenditure, or which are bought only by those who have a goodly surplus of income to expend for other than the absolute necessities of life.

Another tax from which a considerable revenue is expected is a tax of one per cent. on the sales of all manufacturers, wholesale dealers, jobbers and exporters—except sales of essentials such as meats, butter, cheese, any substitute for butter, lard, eggs, vegetables, fruits, grains and seeds in their natural state, meals or flours, or flour, barley, oats, rye or wheat, coffee, tea, salt, feeds, nursery stock, fish, sugar, syrups and molasses, artificial or bituminous coal, artificial limbs and goods exported.

Stamp duties are increased on bills of exchange and promissory notes, and a tax of two cents a share on all stock transfers is proposed.

The taxes on income of five thousand dollars and upwards are increased by five per cent., making the tax on a personal income of five thousand dollars \$126 instead of \$100 such as now; on a corporation income of one hundred thousand dollars, \$10,500 instead of \$6,000 as now.

The business profits tax is not discontinued, but the present exemption is extended from seven to ten per cent., and the disappearance of this tax after this year is more than a possibility in view of the remarks made by the minister.

Business with a capital of \$25,000 or over, and under \$25,000 have now to pay one quarter of all profits exceeding ten per cent. on the amount of capital employed, but this tax will now be reduced from 25 p.c. to 20 p.c.

The general war customs duty of seven and one-half per cent., which produced approximately thirty million dollars of revenue last year, is abolished entirely, thus completing what was begun last year when articles of food, clothing, agricultural implements, fertilizers and other items were exempted from it.

**WILL RESUME STEAMSHIP SERVICE**  
Resumption of Passenger and Freight Service—St. John—Boston.

The resumption of service on the International Line will offer great advantage between St. John and Boston for both passengers and freight.

The passenger service is particularly attractive and it is anticipated that travel will be unusually heavy during the summer season.

The steamship "Governor Dingley" will leave St. John every Wednesday at 9 A. M. and every Saturday at 6 P. M. The Wednesday trips will be via Eastport and Lunenburg, while the Saturday evening trip will be to Boston direct, due to arrive about 1 P. M. Sunday.

The steamship "Governor Dingley" has been completely refitted, and equipped with oil fuel, the state rooms are commodious, well ventilated, and the meals served on board are of the best the market affords.

For the expedition transportation and handling of freight this line will render the best possible service and with the Metropolitan Line between Boston and New York via the Cape Cod Canal, which has special facilities for the transportation of automobiles, horses and express freight.

**WARNING.**  
Campbellton residents are warned not to fish at Battery without first procuring a license. Sunday some party or parties started a fire at Oak Point and the lighthouse, Mr. Carr's summer cottage and other property were saved with difficulty. The authorities are determined to stop fishing and camping there.

## ROADS GOOD.

The new road between Campbellton and Dalhousie stood the hard winter in good shape and auto parties down country report the roads in good condition, but in need of spring attention in some places. There was one bad spot just before Dalhousie Junction is reached, which caused trouble to heavy cars, but which is no doubt repaired by this time.

## SHIPBUILDING ON THE RESTIGOUCHE

History of Ship Building From Its Earliest Records to the Present

When the good ship "Harry A. McLennan" was launched at Duncan's Point, on 27th Aug. 1919, the pretty and unusual sight was witnessed by thousands of our people, and many were the questions asked that day, said very often since, as to how many vessels were built in Campbellton. How many on the Restigouche, and by whom. Hearing the questions asked so often, and the numerous discussions on the question, the writer became interested enough to look up data, and local history touching the matter, and thinking it might be of interest to some of our readers, I herewith give you the result of my search, and trust it may lead to further facts and history, relating to those busy days on the Restigouche, a half century or more ago.

It may be of interest to know that prior to 1830, all vessels built in Quebec, New Brunswick, Nova Scotia, P. E. I., Magd. Islands, and Labrador, were registered at the Port of Quebec.

The earliest record at Quebec Customs, of vessels built on the Restigouche, is in 1803, when a vessel named the "Aurora" was built at Eel River, and the following at the same place, the "Walham" in 1815. "Providence" in 1816, "Saint Ann" in 1917.

The writer has no further particulars of those vessels, but it is thought they were built by Americans, citizens, who were at that time shipping our best Pine and the King of all fish, the Restigouche salmon, to American ports. Mr. Clinch suggested that I might get some further information regarding those first years built on the Restigouche from the Customs at St. John, but regret I have been unable to get any information from the Collector there.

For the above information, I am indebted to Mr. Clinch, the Collector at Quebec, and whose courtesy and interest in the matter is most appreciated. I find that six vessels were built at "Athol" a little west of the burying ground, by the late Robert Ferguson, Esq., Merchant, and are as follows:—

The schooner "Kessenger", launched the 17th Sept. 1828, tonnage: 62; the brig "Mary", 200 tons in 1832; "Shakespeare", 545 tons in 1838; bark, "Athol", 432 tons, in 1839; bark "Tay", 462 tons in 1840; the schooner "Victoria", 132 tons, in 1841. I am indebted for most of this information to the late Daniel Ferguson, Esq., who had a long and honorable career as Collector of Customs at Chatham, N. B., and with whom the writer corresponded but a few weeks before his death. Mr. Ferguson, in one or his letters, said that his father had built several schooners long before the dates quoted above, but he did not learn where they were built. He told of an interesting event that occurred in 1812 when his father sailed on one of his schooners for Boston with a valuable cargo of salted salmon and furs, and United States before at war with Britain, the vessel was captured by an American privateer, and he was taken prisoner, and confined at Salem, Mass. He lost both vessel and cargo. When peace was declared he was set at liberty. Other than those built at "Athol" the first built on the Restigouche and registered at Port of Chatham was named "New Felix Schilling" in 1828, tonnage 418, and owned by Alexander Fairbairn, Dalhousie. The next was the schooner "Mary" of 94 tons, and owned by Robert Adams, William Adams, John Adams and Peter Adams. The exact location of where she was built, is not accurately known, but tradition says on the Quebec side, above "Bordeaux" and probably on the shore of the present well known Melvin Adams farm. It is said that Mr. Peter Adams, called to Quebec city on her maiden trip. The following list of vessels registered at the Port of Chatham is supplied through the kindness of George Watt, Esq., Collector of Customs at that Port, whose efforts in searching through thousands of entries, must have been considerable, and which the Restigouche readers will appreciate and consider of real value.

Only a few weeks before the death of Mr. John Moffat, Head Tide, the writer interviewed him respecting the subject of ship building on the Restigouche, and from memory, he gave me the names of six vessels built at Campbellton, the registry of which I have not been able to find. I give you the names of those vessels as given to the writer, and if any friends can verify this as authentic, please do so through the Graphic, or to the writer.

"Middleton", "Abyssinia", "Ghengis Khan", "Thomas Braly", "Crested" and "Annabella". The latter vessel, is well known, was built at the Ritchie ship yard in 1853 by Arthur Ritchie, and had a tonnage of about 800. There are several in town who witnessed the

## BEST ACT OF LIFE DECLARES FIREMAN

Wife Overjoyed At Results Of Tanlac Bought For Her By Husband

"My wife is now able to do her household work for the first time in many years, and I want everybody to know that it's all because of the good results she has gotten from Tanlac," said L. Constantine, a fireman employed by the Reid, Newfoundland Railway, living at 87 Hamilton Street, St. John, Newfoundland, while telling of his wife's recovery since taking the medicine.

"For years and years," he continued, "my wife's health has been bad, and she was so weak and thin I looked for her to give out and break down just any time. Her circulation was poor and she was so pale she hardly had the color of blood in her face. Her nerves were on edge and at the least excitement or unusual noise she would shake like a leaf. Headache spells often came on her and at night it was next to impossible for her to sleep well. She had little or no appetite, and it seemed that she had lost all her strength and energy and was so weak she was almost helpless. It looked like the more medicine she took the worse she got and I can hardly understand how she managed to hold out as long as she did.

"A friend of mine who had been taking Tanlac told me what it had done for him so I went straight to the drug store and bought some to see if it would help my wife. Well sir, she seemed to improve with each dose and in a few days she was looking better and actually like a different person. Her appetite returned, everything she eats agrees with her now, although it has been only a little month since she started taking Tanlac she has already gained about fifteen pounds. Her blood has been purified, she is stronger than in years and has now gone back to doing her household work. The headaches have left her and her nerves are steady and she seems what it is to enjoy a good night's sleep and rest. She is so overjoyed at her recovery that she is praising Tanlac all the time, and since I have seen what it has done for her, I believe that when I bought this medicine I did the best act of my life."

TANLAC is sold in Campbellton by THOMAS WRAN, Druggist; in Jacques River, by S. McALLISTER, and in Archibald Settlement by M. SKEARER, also in Chandler by ARTHUR NADEAU.

## HARRINGTON—O'MEARA.

The marriage was solemnized at Wyldie College on Wednesday afternoon, May 12th, of Helen Margaret, eldest daughter of Principal and Mrs. O'Meara, and the Rev. J. Sidney Harrington, son of the late Charles Sidney Harrington, K. C., and Mrs. Harrington, of Halifax. The ceremony was conducted by Principal O'Meara, assisted by the Rev. Canon. The bride, who was given away by her uncle, Mr. Edward Boyd, wore her travelling suit of French blue silk, with hat to match and white fox fur. She carried a white prayer book and her flowers were orchids, sweet peas and sweetest roses. Miss Marjorie O'Meara, sister of the bride, acted as bridesmaid and Mrs. O'Meara, and the Rev. J. Sidney Harrington, M. C. The ushers were Mr. Robert Boyd and Mr. Gray Eakins. After the reception at the Principal's residence, Mr. and Mrs. Harrington left on a short motor trip. They will live in Campbellton, N.B.—Toronto Globe.

## PREPARING FOR CONVENTION

Strong Committees Named to Make Every Preparation for Guests.

Dalhousie, N. B. May 17.—The citizens of the shiretown of Restigouche Co., appreciating the fact that their pretty little town has been chosen as the place for the annual convention of the "All New Brunswick Tourist," Game and Resources Association to be held here on June 16th and 17th next, have through their town council appointed a strong committee by a resolution moved by Alderman John B. Delaney and seconded by Alderman Neil McKillop McNeill at the regular meeting of the Dalhousie town council, held on Wednesday 12th inst., to assist in every way possible to make the convention a success.

The first meeting of the committee was held on Friday evening, May 14th in the Town Council Room and was largely attended. His Worship Mayor Andrew Barberie occupied the chair, and Mr. J. B. Deacon acted as Secretary. The Mayor in opening the meeting stated that Hon. C. H. LaBillico had been appointed at St. John, N. B., as Vice President of the new Tourist Association for the County of Restigouche, and it was of necessary importance that he explain to the committee what was expected from the Town and County to make the convention a grand success.

Mr. LaBillico spoke at considerable length and placed before the committee the correspondence he had had with Mr. C. B. Allan, Secretary, St. John, N. B., and with Mr. W. Allen, President of the New Brunswick Guides' Association. He explained the object of the "All New Brunswick" Tourist, Game and Resources Association. Its objects were: To foster a broad community spirit and create more optimism among our citizens. To encourage development of our natural resources and a greater publicity of the advantages and attractions of New Brunswick, as well as the protection of the Fish and Game of the Province. As every man owes some of his time to the rebuilding of the community to which he belonged he appealed to the people of Dalhousie, to the citizens of the County of Restigouche, to do all in their power to assist in the entertainment of the distinguished guests, who would visit the far North of New Brunswick, about the middle of June, and would spend the 16th and 17th of June in our midst.

Apart from the regular meetings of the convention, to be held at the Inch Arran House, to be presided over by the Pres. of the Association, Mr. F. B. Edgecombe, of Fredericton, N.B. which it was expected would be attended by His Honor Lieutenant-Governor Pugsley, Hon. W. E. Forster, Premier of New Brunswick, Hon. James A. Murray, Leader of His Majesty's opposition, N. B., the Mayor of the City of St. John, N. B., Hon. P. J. Veniot, Minister of Public Works, Bathurst; and many other citizens from different sections of the province, there would be representatives of large transportation companies, editors of Fish and Game magazines, etc. A special feature of the convention would be the visit to Campbellton and Dalhousie, during the first day of the convention of two hundred representatives of the National Press Association, representing eleven thousand publications. The people of Campbellton had undertaken to bring them to Dalhousie and to take them to their train at Mata-

## ATTRACTION OF THE NORTH SHORE

Attractive Folders Issued by Canadian National Railways.

The Canadian National Railways have just issued two attractive and well illustrated folders, with pictures and maps descriptive of the St. John River Valley and of the North Shore of New Brunswick, giving particulars as to the trains and many of the cities, towns and villages touched by the valley Railway, the Intercolonial and branches.

The booklet dealing particularly with the North Shore gives interesting details the history of the Bay Chaleur and contains sketches of Campbellton, Dalhousie, Chatham, the Gaspé Peninsula, Newcastle, Chatham and other points of interest.

## FOREST FIRES.

Considerable smoke is in evidence during the past week and it looks like forest fires. This is the season when all should be careful of fire when in the woods or along the river.

Mr. Deane, the proprietor of the Inch Arran House would do all that could be done in his line. The parlors of the Hotel could be used for the regular meetings of the convention and the dining room could seat 225 persons at the banquet, which it was proposed to be held the second evening.

Mr. Christie, manager of the Campbellton and Dalhousie Opera House, had kindly offered the use of the Star Theatre of Dalhousie, for the use of the delegates to the convention, to exhibit views of fishing, hunting and lumbering in New Brunswick. It was also proposed to treat the visitors to a sail on the Restigouche River and Baie des Chaleurs.

Following the complete explanations of the Vice President for the county, a regular discussion of details took place, resulting in the appointment of committees to organize the good work.

His Worship Mayor Barberie named the following as members of the different committees:

Standing Committee:—Hon. C. H. LaBillico, Chairman; Harry McEvoy, W. R. Cragg, E. R. Gaudet and D. G. Stewart.

Committee to select membership at \$1.00, Murray McKay and S. L. T. Clifford.

Decoration Committee:—J. B. Deacon, Adam Bugbold, E. R. Gaudet, S. L. T. Clifford, Thos. G. Scott, Neil McKillop McNeill, Charles Cabot.

Mr. and Mrs. John E. Dean and Miss Vera Dean are expected here next week from Montreal, where they spent the winter months. Mr. Eddy Dean, who is to manage the Inch Arran House this year, was at the organization meeting on Friday evening. He expects to have the hotel in splendid shape for the 15th June, to be ready to receive the members of the "All New Brunswick" Tourist, Game and Resources Association, and will work hand in hand with the standing committee, who in turn will be guided from the central office in St. John, N. B.

It was decided at the meeting to issue invitations to Hon. John H. Kelly, New Carlisle, P. Q., to the federal and provincial members of the Counties of Bonaventure and Gaspé, as well as to members of the Bonaventure and Gaspé Board of Trade.

## SHIP BUILDING ON THE RESTIGOUCHE

(Continued from Page 1)

launching and perhaps the only person living who was on the deck on that morning in September, sixty-years ago, was our well known citizen James D. Murray. If the above named were all built at this place, it will show about eighteen built at Campbellton and six at "Athol."

Most of those built at Campbellton, prior to 1860 were designed and built by that master builder R. Y. Tait, who is well remembered here by a few of our oldest citizens. The writer had a communication from a son of the builder, Albert Tait, Dalhousie, who expressed his regrets that the records his father kept of all his vessels could not be located. He gave me the information, that there were two vessels built at Eel River on the front of his present farm, that I have no record of, one was a Brigantine, built by John Barberie, and a schooner of 80 tons by N. S. Harquail, both of Dalhousie. The "Ritchie shipyard" it is well known by the older citizens, was located at the site of the present Shives-Co. mill, and that the highway leading to it from the east, ran from Prince William street north of Mr. Boudreau's store, past the Ritchie residence, along the north line of Pleasant Street, through the shipyard, coming out to the present Water street, at or near Mr. Cantin's store. It will be remembered that Andrew street was open to the water, but the apathy of our authorities sixty or more years ago, allowed it to be closed, to the great loss of this present generation.

The following list is complete so far as I could ascertain:

1829—"Marion MacKenzie," tonnage 128, owner, Wm. MacKenzie, Dalhousie.  
1829—"Elizabeth," tonnage 32, owner, Chas. Deot, Dalhousie.  
1834—"Magnolia," tonnage 150, owner, Arthur Ritchie, Dalhousie.  
1836—"Temperance," tonnage 43, owner, Hugh Montgomery, Dalhousie.  
1837—"Agamora," tonnage 231, owner, John Montgomery, Dalhousie.  
1838—"Waver," tonnage 40, owner, H. Montgomery, Dalhousie.  
1839—"Pandora," tonnage 561, owner, H. Montgomery, Dalhousie.  
1839—"Sylph," tonnage 140, owner, Arthur Ritchie, Dalhousie.  
1840—"Dalhousie," tonnage 654, owner, John Montgomery, Dalhousie.

## ONE WOMAN'S EXPERIENCE

Of Interest to Childless Women.

Toronto, Ontario.—"I suffered for a long time from a female weakness, inflammation, and a terrible headache caused by that condition. One day one of your booklets was left at my door, and I read how other women with troubles like mine had been made well, so I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash, and it helped me wonderfully, and I now have the finest little baby boy that any mother could want. I want to recommend Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism."

The experience of Motherhood is a trying one to most women and makes distinctly an epoch in their lives. Not one woman in a hundred is prepared or under-stands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong, and this good old fashioned root and herb remedy contains no narcotics or harmful drugs.

B-H PAINT 100% Pure Paint

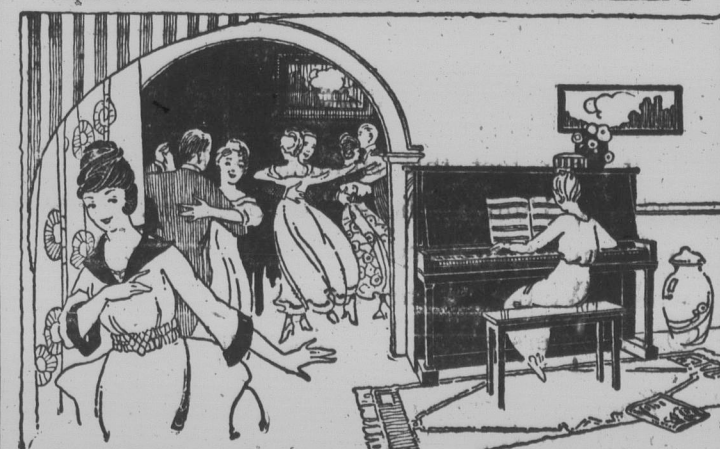

If you would avoid constant retouching—if you would have the paint that has maximum covering capacity, investigate the cause of the high reputation attained by B-H. You'll find that the favor in which it is held by so many experienced painters is due to a truly remarkable degree of purity—a purity attained by using such ingredients as the famous Brandram's Genuine B.B. White Lead—together with pure zinc and the purest linseed we know how to make in our own splendidly equipped mills. Your investigation will result in a trial of this brand—and that trial will make you a confirmed adherent of this paint that goes so far and lasts so long. Its fine, smooth surface never cracks or peels—the tough, air-tight coat it gives affords the surest kind of surface-protection against time and weather.

## Something Fascinating About It

THE joy of the dance—the laughing lilt of the latest rag—a bounding, resounding cataract of soul-stirring sound—isn't that the picture your mind calls up when you think of music?

Perhaps that's the phase of music you best appreciate—the gladsome, joyful abandon, the vim and vigor of echoing melody.

Then—when you come to buy your piano it's the big feature you'll look for—the power to lift you out of yourself with the carefree, bountiful cheeriness of its song.

You'll be wise to hear first and foremost the flexible tone of

Canada's Greatest Piano

Note how it responds to the happy mind, makes the last red

corpulence in your blood glow with animation.

And then listen to its delicate murmurings, its bold, rich harmonies. As you contrast them with the thrill of its ringing echoes—

—truly you will say there is something fascinating about the tone of the Gerhard Heintzman.

Call at our store. Judge the merit of Canada's Greatest Piano. Compare its fascinating beauty—see the graceful lines, the richly finished cases of this famous piano.

Come and picture what it would mean to you to have this joy in your home; what an inspiration it would be to the children—how it would brighten home-life, make entertaining so delightfully simple.

You'll be surprised that so great a lifetime possession can be bought on such easy terms.

### WHEN WILL THE BUBBLE

BE PRICKED

Almost daily it is announced in the newspapers that members of the various building trades are out for an increase over the existing wage scale. And in ninety-nine cases out of a hundred, the increase is granted. Then there are building materials of one kind and another, which have been steadily advancing in price ever since the armistice was signed, and show no signs of a decline. On the other hand, there is reason to believe there will be further advances, because the supply shows no signs of catching up with the demand. Take lumber, which is manufactured right at our doors. Twenty years ago refuse spruce, sawn, sold at \$1.50 per thousand; today, the price for the same quality is \$35.00 per thousand. In 1913 sawn spruce sold at \$18 per thousand; now the price is \$60. Pine lumber sold in 1913—the year before the World War—at from \$20 to \$25 per thousand, today it readily brings from \$65 to \$80 per thousand. Dressed oak which was quoted at \$90 per thousand six years ago, is now selling, we are told, at from \$600 to \$700 per thousand. And these advancing prices go on and on. A person can now advertise an auction sale, and dispose of all classes of second hand goods, from a lawn mower to a piano, at higher prices than originally paid. Second-hand furniture also brings bigger prices than paid for the same stuff when new.

Foodstuffs, as everyone knows, have also been swept along in the mad rush of price-climbing. Sugar today is five times its former price, and it is claimed even at a fabulous figure per pound, the demand far exceeds the supply. Flour prices are also steadily climbing, and with yesterday's advance of \$2.10 per barrel, flour is now three times the price it was just prior to the war.

These are merely a few of the problems of everyday life that citizens are called upon to face. It may well be asked when and where do we get off? When is this bubble going to be pricked? One thing is certain and it is this: We cannot forever keep treading around this circle of ever-increasing prices.—Chatham Commercial.

### "OF THE SERVANT CLASS"

(From the Toronto Globe.)

The flavor of snobbery which characterized certain comments at the sitting of the Parliamentary Committee on Pensions and Re-Establishment in Ottawa on Monday is odious to the true spirit of Canadianism. To put out them to pass unchallenged would be unjust to a national sentiment that is real and deep. The committee had under consideration the claim of Canadian widows whose soldier husbands had fallen in battle in defence of their country. It had been urged that the pension scale should be made sufficient to enable these bereaved women to live without undertaking outside work. According to the Canadian Press despatch chronicling the proceedings, Brigadier-General H. H. McLean, Unionist member for Royal, N. B., offered some remarks. His contribution to the discussion is recorded as follows:

"General McLean said women would be encouraged in idleness. The average wife of a private, said General McLean, was of the servant class before marriage."

Somewhat later in the committee's deliberations the despatch states that:

"Mr. MacNeil protested against the statement of General McLean that private's wives came from the servant class. He stated many of them were from the best homes in the Dominion."

The contemptible snobbery of General McLean's comment is not happily rebuked by Mr. MacNeil. The reference that those who serve do not come from "best" homes is wholly unwarranted. The best homes in the Dominion are not the homes of the idle and the useless. "The best homes in the Dominion"—and the best to the Dominion—are those in which the spirit of service is cultivated and honored and respected. As for General McLean—the Parliament of this country is no place for him. An individual who, at the close of a world war fought and won for the cause of civilized democracy—a war in which Duke's son and cook's son became comrades in service and sacrifice—assumes the superior attitude of the autocratic breed that deems itself of a higher order than the rest of mankind, has no place in Canada's citizenship. The lessons of the war must have meant little to this soldier, but the great mass of the Canadian

people have emerged from the grim conflict determined to realize some of the ideals for which so many of their gallant sons made the supreme sacrifice. They have learned that the standard of manhood and of womanhood is not gauged by badge or rank and cost of clothes. They know now that the measure of worth is the measure of service. And they are beginning to understand why it was said and why it was written: "He that is greatest among you shall be your servant."

### THE PRACTICAL WAY.

Many alleged solutions for the problem of high prices prove useless. The home or vacant lot vegetable garden has proved itself a dependable success in lowering food expenses.

Gardening is productive work. Part of the proof that productive work will bring down high prices lies in the experience of many thousands who have found gardening a way to live more cheaply. The general public has gained all through the increase in supplies.

The vegetable garden habit has been established and should continue to spread. It offers an effective way to combat high food prices. Ex.

### PROPERTY TRANSFERS.

Mr. Joseph Sharp has sold the Brunswick Hotel to Mrs. Francour. Mr. Edgar Shirley has sold his residence on Duke Street to Mrs. Mary E. Roberts. Mrs. Jas. McDonald has purchased the Bruce McBeath residence on Sugarloaf street, while Mr. Brooks of Athol has purchased from Mr. W. H. Wallace the concrete house on Sugarloaf Street.

### Brevity.

"My good woman," said the learned judge, "you must give an answer to the fewest possible words of which you are capable to the plan and simple question whether, when you were crossing the street with the baby on your arm and the omnibus was coming down on the right side and the taxicab on the left, and the carriage was trying to pass the omnibus, you saw the plaintiff between the carriage and the taxicab or whether and when you saw him at all, and whether or not near the carriage, taxicab or omnibus, or either, or any two, and which of them respectively, or how it was."

### A Humane Warden.

The constable of a New England village, a man of exceeding good nature, found it necessary to look up three tramps who had strayed into his jurisdiction. Soon after the arrest he was met by the mayor of the village, who, observing the constable hurrying down the main street, said: "Where are you going, constable?" "Oh," explained the constable, "the three tramps I just looked up want to play bridge and I'm hunting for a fourth."

### Quickest Way.

The village painter was painting the inside walls of the church, and was getting on remarkably well with the work, his brush keeping time to a love-jazz tune which he was whistling. The vicar walked in and exclaimed: "John, you should not whistle in church."

"I can work better while whistling, sir," said John.

"Then whistle a hymn tune," said the vicar.

"Very well," replied John, and commenced whistling that well known tune The Old Hundred very slowly, his brush also keeping time.

The vicar hastily went up to him and said: "Whistle the other tune, John, or else the painting will never be done."

### He Got The Post.

After a ruthless process of rejection there were five applicants for the post of errand boy left for the head of the firm himself to interview.

It was one of his flippant remarks, and he sought to amuse himself by asking the eager boys puzzling and quite irrelevant questions to test their general knowledge.

"How far away from the earth is the North Star?" was the question he fired at the third shiny-faced youngster.

"I'm sorry I cannot give you the exact figure off-hand, sir," was the reply, "but on a rough estimate I should say that it is far enough away not to interfere with me running errands."

### SPOKE TO ORANGEMEN.

Rev. Mr. Fish of Toronto, Most Worthy Grand Chaplain of the L. O. L. was a visitor in town last week. Saturday evening he addressed a large meeting of the members of the order in their lodge room. Sunday evening he occupied the pulpit of the Methodist church and preached eloquently to a very large congregation.

### FATALLY BURNED.

News of the fatal burning of Mrs. Wm. Alexander of Hayward, Wis. was received here by the brothers of deceased lady's husband and was a great shock to all. Mrs. Alexander was raking up and burning the leaves about the yard at her summer home, when she backed into the fire, which ignited her clothing and she was very severely burned before her husband and son, who was near could extinguish the flames. She was taken to the Duluth hospital where she expired Thursday night.

## OBITUARY.

JOHN M. SUTHERLAND.

There are few events recorded in the daily or weekly papers, of so much real import as the passing hence of a good man. It is the old, ever new, expected, yet startling fact, that means so much, and is still so full of mystery. It has the pathetic appearance of a vanishing figure, that has attained to strength and mature powers, and then faded away into weakness and senescence. And we are impressed with the brave struggle, but saddened by the seeming decline and defeat. Is this the final end and issue of life? Were all its morning dreams, and midday struggle just a prelude to the obituary notice? That after much wandering the traveller had lain down to rest in the sight of sorrowing, but helpless friends? Whatever be the hopes or the assurances we may entertain the end comes in course and we go hence. As Dr. Joseph Cook said, "We desire to go hence in peace."

The passing of Mr. Sutherland in a very marked way, breaks a tie that linked us to the past; past not only in the sense of time but as to spirits and conditions. In very much past. If his life be regarded as a poem, its opening pages are all in heroic verse. Opportunities were rare, apparently: advantages were few, difficulties real and thick. But over these the brave, aspiring spirit triumphed. It was a great triumph where the young man, through dire, of great effort and great economy, stood at length to receive the coveted college degree. It was a higher, holier elevation of soul, that was his, as he received his theological diploma, in the house of Theologians, across the sea, and that now he was prepared to engage in the sacred service of ministry upon which his heart was set. And in that life work what high ideals, what unquenched faith and devotion!

Those who knew Mr. Sutherland best were impressed with certain elements of character, which in him were outstanding. The first of these was the maintenance of a high standard of Christian life for himself as a Christian minister. He was very far from regarding the minister as a special creation, but was very insistent that the work was a special calling. And that no gifts were too good for the service, nor were any gifts good enough without application and devotion. He was therefore to himself exact and exacting in demanding from himself a high tone of living, and serious, sustained work as a minister. And any work done by him, was done as a Christian minister. As School Inspector he was never forgetful of his "high calling" and so all was done after the high standard which that "calling" imposed. It would be strange indeed, if ever a service was undertaken, or a conference held without adequate and conscientious preparation.

And all who knew him, knew how faithfully he carried out what was undertaken or implied in his office. It required real and serious illness, to prevent him fulfilling his appointments; and only impossible roads or impossible weather prevented him from appearing at the expected place at the expected time. Some of his friends often wished that he might be more easily dissuaded from exposure and hardships in doing his work, but it was a point of honour and of keeping faith, with his. Such devotion to his Master was more than sermon.

It was from a world greatly changed since life opened to him in the comparatively newly settled community in Pictou Co., Nova Scotia, and with little in sight but woods and sky, and the world on which his eyes closed in the strange and distant west. Between these points in literal space lies a continental Dominion, since sprung into being, and to some extent furnished with all the furnishings of an industrial and civil life. And in the realm of things that minister to life, the change seems incredible. For in those years his association and used two of the most serviceable and transforming of nature's forces—steam and electricity. And these have thrown into mens laps such wizard gifts as few can appreciate. But whatever changes may come no boy will ever find life with worthier ambition; no life will ever move along higher, sturdier lines than those along which the subject of this appreciation moved, then did John McRae Sutherland, Minister of the Gospel, Servant of the Lord Jesus Christ! Who doubts that higher honours and holier joys are his, in the fellowship of the Saints?

W. B. MacCALLUM.

ST. JOHN AND PROVINCE ON EVE OF DEVELOPMENT

Mayor Schofield of St. John in an address before the Commercial Club on Friday evening, indicated that St. John and the province are on the eve of extensive development. His words in the course of his remarks said that the people here did not appreciate the magnitude and value of their natural resources, nor did they show their true spirit hard enough. He referred to the advertising work of the Tourist Association.

After looking at all the rugs in the store, the customer decided that she thought she like the pink one with the purple roses best.

"But I'd like to see it in my room," she said. "I suppose you'll send it on approval?"

"Well, madam, it's—er—hardly usual," demurred the proprietor. "But in the circumstances, perhaps—"

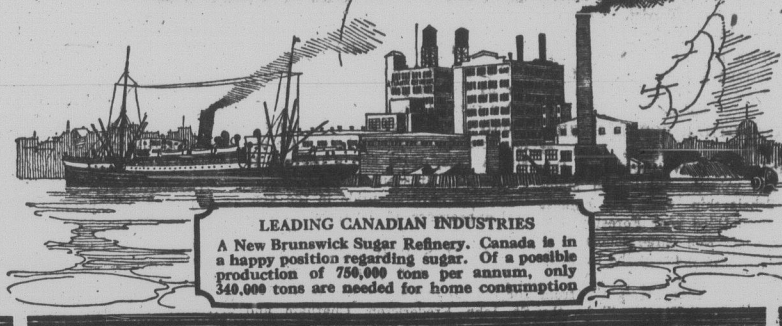

The customer's five-year-old daughter, who had stood silent during the long inspection, now tugged violently at her mother's skirt.

"O, mamma," she piped in her fairly clear treble, "hadn't you better warn him to be sure and get it there in time? Our party's tomorrow, you know."

**GLO. COUNTY MAN DROWNED.**  
Henry Lantegne, of Island River, Gloucester County, while crossing over a stretch of weak ice in Shippegan harbor to go to Shippegan village, broke through in the middle of the channel. He held on to the edge of the thin ice for a short time and called lustily for help. Dr. E. Paulin with a score of others rushed to the imperiled man, but before they could reach the spot the swift current dragged the unfortunate man under the ice. His faithful dog, which has followed him, sat near the hole pitiously yelping for his master and would not leave the place until dragged forcibly away by the rescuing party. Lantegne leaves wife and three children.

## OWES HER LIFE TO "FRUIT-A-TIVES"

After Years of Suffering with Dyspepsia, this Fruit Medicine Gave Relief

**MISS ANTOINETTE BOUCHER.**  
317 Dorion St., Montreal.  
"I am writing to tell you that I owe my life to 'Fruit-a-tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health. I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good. I read something about 'Fruit-a-tives' being good for all Stomach Troubles and Disorders of Digestion so I tried them. After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored. I thank the great fruit medicine, 'Fruit-a-tives', for this wonderful relief."

**CODFISHING HAMPERED.**  
The outlook for the cod-fishing season on the North Shore is none too bright. The fishermen say they are seriously handicapped by high prices for material used in fitting out vessels, high prices of salt and poor facilities for transportation. The situation is regarded as serious by the inhabitants of Shippegan, Miscon, and Caraguet, where the cod-fishing industry is the principal means of livelihood during the summer.

## DALHOUSIE.

Dalhousie, May 19.—After a long and cold winter followed by a very backward spring the good people of the shiretown on Sunday bade farewell to Jack Frost. It was really a relief to see the people wend their way to the different churches in summer attire. After the morning service, there was great rejoicing when the first large vessel was seen sailing up into the harbor, and docking at Dalhousie Lumber Co's large wharf. Upon inquiry it was found to be the new steamer "Ashtabula", Capt. Wm. Wilson of Cleveland, Ohio. The vessel was built in Cleveland. It is her first trip. Her tonnage is 1663 tons and has a crew of 32 men. The new boat will take a cargo of pulp wood for Portland, Maine.

The provincial government has been notified, that the town council of Dalhousie, will accept the offer of an loan of \$25,000, to assist those who wish to build homes in the shiretown. There is a great scarcity of houses in Dalhousie, and it is a wise move on the part of our town rulers, to place people in a position to make plans to own their own home.

Reports coming from Carleton, P.Q. are encouraging as to the herring fishing. Trout are now coming into the river here, as some very fine specimens have been taken at the public wharf.

A large whist party is advertised to take place Thursday evening, 20th inst, in the convent hall. The proceeds are to go towards defraying the expenses of painting the R. C. church. The interior having received a thorough cleaning recently, the exterior will be overhauled and get two coats of paint. The presbytery has also been renovated lately.

Mr. Edgar Pettin, Kedgwick, Rest. Co., who was in the employ of the Provincial Bank, at Bathurst, has been transferred to Dalhousie, where he is teller in the new branch of the Provincial Bank of Canada.

Mr. Thos. G. Scott spent the weekend with friends at Bathurst. While in the shiretown of Gloucester Co., on Monday, Mr. Scott, who takes great interest in the future of Dalhousie, looked into the question of Water and permanent sidewalks, and returned home carrying some valuable information with him, which he will impart to the chairman of the roads and streets committee, Alderman John Eric Oakleaf.

Mr. and Mrs. Harold Oakes, Gilfred, U. S., arrived here on Monday, on their way to Fleurant's Point, Bonaventure Co., P. Q., to see Mrs. Oakmother, Mrs. Charles Court, who has been very ill, but who is now reported as much improved.

## PRODUCTIVITY OF GASPE PENINSULA

Poultry Shipments from Matane and Bonaventure Counties Are Large.

Ottawa, May 15.—Three thousand dozen eggs in single shipments are arriving regularly in Montreal from Matane and Bonaventure counties, Que. This is drawing attention to the fact of the Gaspé Peninsula as a poultry producing section. Some of the farmers are reported to be making twenty-five dollars (25) per dozen for their flocks. They have been obtaining as high as one dollar per dozen for eggs, which were sold mostly in Montreal through a co-operative marketing association.

Prior to the organization of the association in 1917 the few eggs received from Gaspé however, were very poor quality, as low as three dozen fresh eggs to the thirty dozen cases. Buyers say it is now a rare thing to find many eggs to the case which are not fresh. The farmers are paid on a "quality basis" and use care in handling their eggs. During the present season of lessened production the trade is keen to find such districts, where production and quality are being so greatly developed.

## NEW CARLISLE.

Rev. J. F. McCurdy has gone to Moncton on business.

Mr. and Mrs. J. Mitchell have returned from Montreal. We are glad to hear Mr. Mitchell is very much improved in health.

Mr. C. W. Scott has opened his Restaurant in Town which is very much appreciated during this scorching weather.

Mrs. Young who has been visiting her sister Mrs. Jas. Hocquard, has returned to her home in Shigawake.

Mrs. LeQuense spent the week-end in New Richmond.

A number of Railway men were in town on Sunday attending the meeting of the Railway Association.

Mrs. John Gordon left for Campbellton on Monday.

Mr. E. Acteson of the Bank of Nova Scotia is at present on his holidays.

Mrs. J. N. Couillard and little son have gone to Campbellton where the latter is to undergo treatment at the Hospital.

Mr. Henry Jacobson has returned from Campbellton where he has taken his son Clyde for treatment. We understand the latter is progressing favorably.

Several of the young people attended the De-Arsenault Wedding at Bonaventure on Tuesday.

**GAS IN KENT COUNTY.**

There is every promise that during the coming summer a most searching investigation will be made for oil in Canada particularly in the northwest section of the country. The Anglo-Persian Oil Company, a powerful British syndicate two-thirds of the stock of which is owned by the British government, is boring in New Brunswick and recently struck a flow of gas near Coal Branch, in Kent county.

### IMPERIAL HONOR FOR QUE. PREMIER

Premier and Lady Gouin Dined  
With King—French Order  
Conferred.

LONDON, May 18.—Premier and Lady Gouin dined with the King and Queen today at Buckingham Palace. The premier was also notified today that he had been created commander of the Legion of Honor. The insignia will be officially conferred in Quebec by the president of the Franco-American committee. Premier Gouin sails on the Minnedosa to-morrow.

### THE POTATO CROP.

(Experimental Farms Note.)  
The potato is one of our most important food crops, and yet it is one that very often does not receive the attention it should. It is the practice of many farmers to leave the planting of potatoes until practically all other crops are in. With the exception of, perhaps, some parts of the Maritime Provinces this late planting means a much smaller yield than there would be if the planting were done before the middle or by the middle of May. By the end of May or beginning of June the seed-potatoes have sprouted so much that when these are broken off at planting time the new shoots will not come on with the same vigour as they did early in the season. Furthermore it is important for the potato to get a good root system before the hot weather sets in.

It is of the greatest importance to use good seed. Two lots of seed of the same variety which look very much alike may give a difference of three hundred or more bushels per acre in the crop, as has been shown in experiments at the Experimental Farm, Ottawa. In 1919 for instance, one lot of Irish Cobbler yielded at the rate of 378 bushels per acre and another 37 bushels per acre. The best Green Mountain stock yielded 330 bushels per acre and one of the poorest 46 bushels per acre.

If possible, one should know where the seed was grown the previous year that he is about to use. If it came from a crop, the plants of which grew vigorously until cut down by frost, then, if free from disease, it will be a rule, yield a much better crop, than if it is from a crop, the plants of which withered in the middle of summer and the tubers lay in hot soil the rest of the season. This year when the price of potatoes is so high there will be a temptation to use small potatoes for seed. If these small potatoes come from a good crop the previous year the results are likely to be satisfactory if the season is favorable, but if they are from a small crop the previous year when the plants dried up early the plants this year are likely to be weak and the yield not very good.

### In Terms of Astronomy.

"I wonder," remarked a youthful astronomer, who was very slow in doing what was expected of him, "if you would let me associate you with a star—Venus, perhaps, the star of love?"

"Well, no," replied the young lady addressed, thoughtfully, "I would rather that you thought of me as Saturn."

"Indeed, Why?"

"Oh, well, you know, didn't you tell me that Saturn has a ring?"

He bought one on the following day.

### What Was Observed.

Inspector—Do you teach observation?

Teacher—Yes.

Inspector—Then I will test the class. Now, children, shut your eyes and sit still.

Following this, the inspector made a slow whistling sort of noise and followed with: "Now, children, what did I do?"

For some time there was no answer, but ultimately one little boy piped out: "Kissed teacher."

### Far-Sighted.

Wife—The doctor says I will gain at least twenty pounds if I can get away for a month.

Hub—Couldn't think of it. Why, not one of your gowns would fit you then.

"A spin in the country! The hamper full of good things to eat, the tank full of Imperial Polarine and the crank-case filled with Imperial Polarine. Nothing can mar the day's pleasure."

### Thorough Lubrication

IMPERIAL Polarine can be depended on to give you thorough lubrication, to keep the engine running quietly and faultlessly, to take you a 100 miles or 1,000 miles at the least cost for fuel, oil and repairs.

Imperial Polarine forms a piston-to-cylinder seal that maintains compression and utilizes the full power of the fuel. It spreads a thin, yet unbreakable oil film over every friction surface that minimizes wear—it is the perfect lubricant.

Imperial Polarine will not break up under high operating heats. It burns freely with hardly a trace of carbon. Costs less because it saves depreciation and fuels. Sold in gallon and four-gallon sealed cans, half-barrels and barrels, also 12½-gallon steel kegs, by dealers everywhere.

Look for the Imperial Polarine Chart of Recommendations when you buy oil. It shows which of the three grades described below is recommended for your car. Use the grades specified, exclusively.

"Voulez-vous—began Washington for the twentieth time, while the waiter's head, swam.

At last a tourist, seated opposite, looked up from his Anglo-French pocket dictionary.

"If I may assist you, sir—

But Washington waved him haughtily aside.

"By all means!" answered the tourist, blandly. "But I wish to point out that you are asking for a stair-case, when all you require is a spoon."

George's Handicap.

A certain senator, deploring the dishonest methods of one type of business man, once said, with a smile. "It all brings back to me a dialogue I once heard in a southern school. 'Children,' said the teacher, 'be diligent and steadfast, and you will succeed. Take the case of George Washington, whose birthday we are soon to celebrate. Do you remember my telling you of the great difficulty George Washington had to contend with?'"

"Yes, ma'am," said a little boy. "He couldn't tell a lie."

With high hopes in his heart, the curate called upon the great lady of the village.
