WILL HE PULL THROUGH.

The House of Commons has very imously agreed to the request that John Charles Rykert shall be given one more chance to show cause why Sir Richard Cartwright's motion of condemnation should not be passed upon him. It is very questionable if Rykert would have exdended like consideration to an opponent under similar circumstances. The charge that Rykert is a boodler, and that he is self-convicted by his own published correspondence, has been hanging over his head for three years. He has had abundance of opportunity to formulate a defense. He has endeavored to defend himself on two occasions in the House of Commons, and yet, when asked what he has to say sentence should not be pronounced upon him, he whines that he has not had fair play and that he should be tried by a committee. To that committee his case will now go. No doubt an attempt will be made to have a whitewashing report brought in, but for the honor of Parliament let us hope that such a scheme will be frus trated. There must be no side issues. The

A NEW PAGE OF HISTORY day afternoon accepted Bismarck's resigna-tion of the Chancellorship. It is stated in day afternoon accepted Bismarck's resignation of the Chancellorship. It is stated in well-informed circles the present difference between the Emperor and Prince Bismarck is irreconcilable. It arises from the Chancellor's refusal to accede to a request made by Dr. Windthorst, leader of the Clerical party, to restore to the Duke of Cumberland, the claimant of the throne of Hanover, the larger portion of the Guelph funds. The attitude of the Emperor in opposing Prince Bismarck in this matter is taken as an indication of his desire to conciliate the Clerical party. If the Government is to secure a working majority in the new Reichstag it cannot well get on without the party of the Center, which Dr. Windthorst controls. The report is repeated that the Emperor proposes to appoint General Von Caprivi, who is now commander of the Tenth Army Corps, to the Chancellorship. When the public worship estimates came up for discussion in the Lower day. Dr. Windthorst said it had been his intention to review the position of Catholics in Prussia, but he would desist. Bills were read a third time, to amend the act respecting private asylums—Mr. Ross (Huron); to incorporate the village of Burk's Falls—Mr. Armstrong.

The House then again went into Committee on Mr. Hardy's bill to regulate mining operations. The clause relating to hours of employment of boys, which formerly made the age limit 13 to 16, was amended, making the limit from 14 to 17. The following sub-section, "A week shall be deemed to begin at midnight on Saturday night, and to end at midnight on the succeeding Saturday night," which, as Mr. Garson had pointed out, would lead to the belief that Sunday work was countenanced by the bill, was changed so as to read "midnight on Sunday."

On clause 6, which provides for a register being kept of "boys, male young persons, and women" employed, Mr. Meredith thought it would be as well if the word "women" were taken out of the bill altogether, and the employment of women altogether prevented.

The second cause provides that the work done is to be allowed for as statute labor. The third clause provides that upon default of townships the county may provide for payment of work. Mr. Drury explained the necessity of the bill, and added that it was based very largely upon an act of Ohio, where they were very much troubled with prairie and forest fires.

Mr. A. F. Wood objected to the money for these services being paid out of statute labor funds.

THE QUARTET CLUB.

Successful and Enjoyable Concert in Victoria Hall.

The concert by the London Vocal Quartet Club last night proved a most enjoyable one. Miss Jessie Alexander, B.E., was advertised as the attraction of the evening, it being her first appearance in London, and her selections were enthusi-astically received. Her first piece, "Song

was advertised as the attraction of the evening, it being her first appearance in London, and her selections were enthusiastically received. Her first piece, "Song in Camp," with the quartet accompaniment was a very effective piece of elecution, and the subdued harmony of the music greatly enhanced the effect. Her comic recitations also showed her great ability and versatility, representing a boy gradually demolishing an apple, while his "fortal Annihilation," representing a boy gradually demolishing an apple, while his "chums" are yearning for a bite, was a capital imitation, and most amusing out the second time was presented with a magnificent bouquet.

Mr. Percy Carroll's solo "The Garden of Sleep," was well received and rendered in excellent style. He should, however, try and overcome a very prominent defect in pronunciation; the letter "a" being a great second time was presented both sang in their usual good style, Misself and overcome a very prominent defect in pronunciation; the letter "a" being a great second time was presented by the sent of the washer. The selection of the quartet were a great treat, the "Spinning notes, and she is daily gaining prominence as a violinist. She obtained the first encore on the programme, and played in response an air which showed her command of tone, and her power of throwing the highest expression into her music. The selections by the quartet were a great treat, the "Spinning Wheel" from "Martha" being rendered in a most descriptive way. "The Professor at Home" was also well as any feature of the programme. The voices harmonized beautifully and the various pieces were given with an accuracy and evenuess that makes quartet sing ing so delightful. Mr. W. J. PRESIDENT VAN HORNE, of the C. P. R.,

The bridge project is favored at Ottawa, and the tunnel gains favor at the United States capital.

HAMILTON House of Refuge has many patrons. Its inmates get ten gallons of giving whisky to some of these old men in the quantities they have been getting just Hamilton paupers must have!

THINGS are certainly unequally distributed in this world. A dispatch from St. John asserts that in the northern part of New Brunswick the lumbermen are coming out of the woods because the snow is seven feet deep and work is unprofitable. In the south and in Nova Scotia they are forced out of wickers had their share of snow and ours

The Hamilton Spectator warns Sir John Thompson to be careful how he frames his bill to prevent some people getting married to certain other peo-Canada, says our contemporary, they'll go to the United States and come back just as much married as if the job was done here.

RICHARD QUANCE, who has been selected as Tory candidate for South Wentworth, after a dozen others had declined nomination, hesitates to accept. No wonder; he was the candidate at last general election, and was defeated by a substantial majority of the Central Farmers' Institute. Mr. Quance spoke very disrespectfully of the ward. Sufficient summer rains will make newly-enfranchised electors during last campaign, and got himself into hot water over it. He is no match for Mr. Awrey.

TORONTO Board of Aldermen have refused to petition the Ontario Legislature to give the franchise to married women, but all other women, including widows, will be wild fowl will return, shoals of fish will placed on the same footing as men in force their way from the great lakes up and would not thank the Legislature for the existence year after year, the same municipal rights as her husband, who, in the large majority of cases, is quite competent to look after her interests, and does look after them. But the provisions placed on the statute book by the Mowat placed on the statute book by the Mowat Government, conceding the right of un-married female property-owners to have a voice in the municipal laws by which they are governed, are eminantly just, and can-not be fairly objected to by anyone. By and bye these unrepresented female citizens will have the right to vote in Parliamentary elections. Eh, Mr. Waters?

A good deal of unfavorable comment has aaken place on an alleged remark made by Rev. Dr. McMullen, of Woodstock, in the course of a recent sermon. It was reported that Dr. McMullen spoke as follows in reference to the Benwell murder:

erence to the Benwell murder:

"Thank God that there is a hell for people guilty of such crimes," and further that I "had no desire to be in heaven with the man who had committed so foul a deed."

Dr. McMullen's attention being called to this remarkable declaration, he denies having used language to "targetonylly shock." ing used language so "atrociously shock-ing," and says he hopes he never will give utterance to such a statement. His syn-opsis of what he did say is interesting:

A CANAL ON DRY LAND. Judge Ermatinger, of St. Thomas, must have a wonderful conceit of himself as well culties. If the burdens on industry were as of Kettle Creek when he undertook to removed, and every man were allowed to prevail upon the Minister of Public Works to make a survey of the bed of that creek for a canal. The dirty little stream does not them with the soldier strapped on his back, furnish enough running water to supply the city's horses and cows during the summer months; and were it not for the occasional deep holes and mill ponds, where the Judge

took his first swimming lessons 30 or 40 years ago, one might walk dry-shod over its bed from St. Thomas to Port Stanley any time from June to October. How Judge Ermatinger could have the cheek to ask Sir Hector for a surveyor to take the levels of Britain. The reverse is the case, as is comprehensible. It is not as if the Judge says the C. P. R. would have been extended to Hamilton this year if all matters had 30 or 40 years ago. Many and many a manhood, has the audacity to put the Works! We are amazed; nay, considera-

The deliberations are conducted in French, which is yet regarded on the continent as the language of diplomacy, but all documents are ordered to be printed in German as well as in French. In this respect we on this continent are ahead of the old world, as at the recent congress of American nations in Washington, where the majority of the delegates spoke either French, Spanish or Italian, the conference alanguage was English.

It is at least doubtful if the conference will be productive of many practical results, though there can be no doubt that the amelioration of the condition of the working desired. of the delegates are from Great Britain,

Commenting on this terrible crime, which has shocked the civilized world. I appealed to any hearing me who that have doubts as to the reality of a hell of banishment from God for impenitent and incorrigible transgressors, whether such a hell of banishment for the casent of concience? And I proceeded to point out than heaven of purity and happiness would be an impossibility without a place of banishment for the incorrigible de piser, of the continentismuch to be desired. The striph that there be such a place of banishment, it must therefore be right, and it is right to bank him for it, as otherwise heaven would be an impossibility. As to having 'no desire to be in heaven't now finds certain classes of criminals to be intolerable.

It certainly is unfortunate that the tories not only for twelve hours a day durreverend gentleman should have been mis- ing the week, but for a very considerable represented. No doubt the individual who telegraphed the parody of this declaration really no Sunday labor in the factories and

The Queer People of London.

[Hamilton Spectator.]

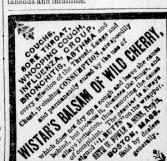

They are queer people in London, Ontario. Three men destroyed a shade tree in that city the other day, and they were immediately hauled before the Police Magistrate and charged with having perpetrated malicious damage. It is different in Hamilton. On upper James street recently two men worked the greater portion of two days destroying ten shade trees. They were well-grown, thriving, beautiful trees. Now they are hideous stumps. But nobody ever thought of bringing these men before the Magistrate—not even the new street inspector.

The practical effect of the present system in this country (where it is impossible to give a game, as they do in England, two, tires, and sometimes four days) is, that with the game beginning at a o'clock arrives an inning each has been darkness ests in it is impossible to complete a second inning for each side. The plan, we think, will vastly improve this condition of affairs without affecting the game in other ways. Its advantages are so manifest to those who are familiar with the difficulties under which we have always labored in playing the game here that it is hardly necessary to mention them. The only objections that have been offered have to my mind rather strengthened than weakened the proposition. The principal objection has been that it would affect the skill of a batsman who had become 'set for a big score, the requent changes interfering with his 'eye.' FROM BUSINESS

Robt. Wallace has, after twenty years steady business in London, decided to retire, and now offers his magnificent stock of Tweeds, Worsteds, Trouserings and all classes of Merchant Tailoring Goods, as well as his select stock of Gents' Furnishings, and his enormous stock of Ready-made Clothing, at clearing prices; the sale to continue for the next three months, unless the business is disposed of sooner. This presents to the buyer an unusual opportunity for securing a superior class of goods at low prices.

Ordered Clothing will be made up in the superior manner for which our establishment is noted, at a large

Mr. Hutchinson to the Fore.

To the Editor of the ADVENTISER:

I see by an article in your last night's paper that the water question for London South is presented so as to lead the general reader to suppose that an independent water supply cannot be furnished. This is done in language indicating that the writer really understands the true position, which he nevertheless presents in a manner calculated to mislead. He says it was expected that the opposition to amalgamation would be withdrawn "when it was shown that an independent water supply, to be provided by district assessment was out of the question." Of course, the general reader will understand this sentence to assert that an independent supply could not be furnished for London South, not probably notioing the words, "to be provided by district assessment," which are the key to the situation—admitting as they do, that the means for such supply are within reach, though not by what the writer calls district assessment. This is not very important, as the people of the London South we propose to set apart are evidently a thirsty lot, and yet not fond of whisky, nor inclined to permit the location of taverns in their midst, as probably would be done if annexed to the city, and therefore our people will be glad to have the water mains extended everywhere, not as in the city so as virtually to exclude so many poor water-loving workingmen from the benefits of the water system.

We promise water to all who need it at far less expense than by annexing to the city and leaving us still free to manage our own affairs. Yours truly,

CHARLES HUTCHINSON.

To the Editor of the ADVERTISER:

I wish to call the attention of the health officer and authorities generally to the fact that certain parties whose names I am unacquainted with were last evening, and for that certain parties whose names I am unacquainted with were last evening, and for all I know may be doing the same to-day, taking ice from the stagnant pool on Colborne street, corner Victoria street, generally known as the Turf Pond. This pond is a disgrace to the whole neighborhood, being full of frogs and pollywogs, etc., all summer, and is a receptacle for all the dead dogs and cats in the neighborhood. The use of this ice for preparing summer drinks, etc., must be extremely dangerous to the health. I think, therefore, the proper authorities should see to it without delay. Yours truly, Yours truly,

Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarth, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarth. After taking half a dozen bottles of this medicine. Around it were the broad fields bathed in the rich yellow light of the afternoon sun, and winding sinuously downward from its doors I could trace the little canal which had been cut through the shallow waters of the inlet to give access to the bay.

Many a time I had roamed through those wide fields, and many a time I had glided over the quiet waters of that little inlet. Again I feit the yellow dust of the lilies blown softly against my cheek, and heard the sighing of the slender rushes as they bent lowbeneath the boat. Again I became friends of the wild roses, the tall waving grasses, and the limpid little stream that slips noiselessly through them almost hidden from sight. Ah, yes, it was a very gentle stream, and so cool beneath the shadow of the overhauging trees. Yes, the trees shaded it well. It was always cool. I remember—what was it I was thinking of? Of—of some stream. Yes, I think it was a stream. Well, I remember—but I remembered no more, and I think it must have been at this juncturethat my musings slowly dissolved themselves into dreams, and without knowing it I quietly fell asleep.

When I awoke it was with a start. I must have been asleep some time, for I found myself shivering. The room was very cold and dark, the fire having burned itself out during my sleep until nothing remained except a few smouldering embers. I had been dreaming again of that ghastly skeleton, with the awitul monotone of 'Dust and ashes." It had again stood in the tall case, and grinned at me with its hollow jaws. IMPORTANT! Remarkable Restoration to Heaith of Well Known Canadians whose Cases were Given up as incurable.

From the few of the hundreds of letters we have received from those who have been restored to health and strength by the use of that wonderful discovery, Paine's Celery Compound, we make a few extracts. We hope that the thousands of Canadian men and women who are suffering from nervous and wasting diseases, will profit by these true and plain statements of facts.

D. S. Davidson, of Montreal, suffered for years with nervous dyspepsia, pain in his back, and sleeplessness. He tried doctors without relief, was losing flesh rapidly, and had about given up heart when he commenced the use of Paine's Celery Compound. "Now," he says, "I am a new man. BARKWELL'S BRONCHIAL BALSAM

Dear Sir, --- I wish to testify of the merits of that grand preparation known as Barkwell's Vegetable Healing Bronchial Balsam. I was told by a neighbor what a grand Balsam it was. My little girl was very ill with bronchitis, and a very few doses restored her and I believe saved her life. I feel it my duty to let others know that they also can be cured of this terrible affection. MRS. MARGARET LOWTHER,

the working classes if such changes as are described in it should eventually happen. Several other gentlemen present spoke on the advantages of organization. One speaker took exception to the paragraph going the rounds of the press under the caption of "Tyranny of Labor," and contended that, while labor is described as tyrannical, there has been evidently no effort made to discover the reason for the position that the men take when demanding the discharge of an obnoxious manager. Another meeting will be held two weeks from last night, when Jos. Brent, of London, president of the Trades and Labor Council, will speak on the same subject.—[Woodstock Bentinel-Review.

Johnston vs. Hamilton.—Action brought by a member of the firm of Paul Weidmann & Co., of Weidmann, against James Hamilton, pump manufacturer, of Alvinston, for damages for false and malicious arrest. The affair rose out of a dispute as to the ownership of a pump on the premises of a former resident of Weidmann, who had absconded. Case still on.

Kelly vs. Forby.—Action to recover possession of lumber and damages for unlawful detention. Plaintiff is a dealer in ties and staves, residing at Aylmer, and the defendant is manager of a sawmill near this place. Plaintiff brought to the mill a quantity of logs to be sawn into ties. A dispute arose as to the rate at which the work should be done. Defendant, after a certain number of ties had been removed without payment being made for the work, although promised, refused to allow any more to be removed until paid in full. The plaintiff tendered \$81 as the full amount of the account, which was denied. Judgment in favor of defendant for \$130 and costs.

UNCLE SAM'S TARIFF. Features of the Bill Prepared by the Ways and Means Committee.

Washington, March 19.—The internal revenue features of the tariff schedules agreed upon by the Republican members of the House Ways and Means Committee are: Abolition of all special taxes upon dealers of all kinds known as licensees. The taxes upon suuff will be repealed. Farmers and planters growing tobacco may sell to whom they please without restraint. The tax upon manufactured tobacco will be reduced from 8 to 4 cents a pound. Cigars, cheroots and cigarettes will carry the same tax as under the present law. Alcohol used in the arts is free under substantially the same restrictions as prescribed in the Senate Bill. The reduction in the revenue from these sources will be between \$17,000,000 and \$19,000,000.

In the lumber schedule the duty on sawed boards, planks and finished lumber is reduced 50 per cent. from the present rate. There is a special provision that if Canada lays an export duty upon lumber duties shall be collected according to existing rates. WASHINGTON, March 19 .- The internal
