57TH YEAR. NO. 22815

LONDON, CANADA THE HOME OF UNBROKEN PROSPERITY.

THE LONDON ADVERTISER, LONDON, ONTARIO, TUESDAY EVENING, SEPTEMBER 14, 1920. 112 COLUMNS.

# HOME EDITION

Weather—Fair; warm.

PRICE THREE CENTS.

# THANKSGIVING DAY IS SET FOR MONDAY, OCTOBER 18 PEOPLE ARE PEOPLE RIGHT, FROM SOVIET COMMISSIONERS RECORD CROWDS POURING IN FOR LONDON'S BIG FAIR

## FAIR BOARD IS ADDING MANY EXTRA ATTRACTIONS FRONT OF GRAND STAND

Big Crowds Pouring Into City For London's Great Exhibition—Farmers' Day Tomorrow Promises To Break All Records.

Complete satisfaction with the attendance so far, and the brightest expectations of bumper crowds this afternoon and evening, were expressed at the meeting of the directors of the Western Fair Association at noon today. Everything was reported to be running with more than ordinary smoothness. Additional ring attractions before the grandstand will appear this evening and remaining evenings of the fair. It is likely that a Wild West act will be obtained from the Johnny Jones midway outfit, or possibly several acts.

The attractions committee was authorized to exceed its appropriations for ring attractions at today's meeting and the new attractions will appear before the grandstand this evening. Various ring equipment required by acts which only appeared at the fair last year, and which will be lengthened but not a double act.

More Lights Also.

Additional hydro lights will be strung along the front of the grandstand so that more light will be thrown on the Auto Polo act, which excited storms of applause Monday. Three cars were wrecked at Monday night's performance, but the polo players carry a full staff of expert mechanics and repair men with them, in addition to four or five cars, and no matter how many of them badly the cars are wrecked they are back in shape for the next performance. The inside ring fence suffered very badly, however, and by the time the act is through appearing there will probably be no fence left.

Friday will be another big popular-priced admission day, when adults will pay 25c and children 15c. The gates and tickets committee was authorized to confer with Mr. Jones, of the Johnny Jones Midway Show, and ascertain if reduced children's prices on the Midway would be offered Friday.

## OUTLINES AUSTRALIA'S DEFENCE POLICY

Premier Hughes, who, it is stated, will be unable to attend important conferences in Europe because of problems confronting his government, has announced a defence scheme to cost more than \$30,000,000 annually. It includes compulsory training of boys of 18 years.

## LABOR PARTY ITSELF TO BLAME FOR MOST OF THE INDUSTRIAL TROUBLES

So Declares Delegate John Varley Before Windsor Labor Congress in a Plea To That Body To Remain Out of Politics—Peter McCallum of Toronto Advocates Workers' Republic With Soviet Form of Government.

Windsor, Sept. 14.—This morning's session of the Trades and Labor Congress of Canada struck a lively stride, proceedings speeding up on the conclusion of the debate on the resolution of the Ottawa Painters, Local 209, favoring political action on the part of the congress, which was finally eliminated from the report on a motion of James Simpson of Toronto, that the congress reaffirm its stand on political action, as adopted by the Ottawa convention. Then came an exciting half-hour over the resolution of the Toronto Trades and Labor Council, which failed to reach the speaker in the gallery within the time limit, although mailed from Toronto on August 26, and have not reached him yet through the source of His Majesty's mails. James Simpson asked that the report be put off until after the meeting, but the executive committee in connection with the Winnipeg strike, which made implications against Secretary Draper which the acting president of the union concerned advised him not to do, and the speaker refused the business of the body concerned.

Non-Partisan Committee.

In order to get its views on the tariff question before the tariff commission at its opening sitting, a report of the executive committee recommending a non-partisan commission to deal with tariff matters, and shortly after this a heated argument was precipitated with the clause in the report of the executive committee relating to political action. Delegate J. W. Wilkinson of Vancouver, in presenting the report, declaring strongly against the intervention of the congress in politics and pointing out that every view of labor from the advanced radical to the reactionary would demand the support of the congress in the propagation of his political views. Before the motion for the adoption of the clause was put to the convention, Peter McCallum of Toronto entered a plea for the entry of the congress into politics, and declared himself in favor of a workers' republic, with a board of soviet form of government.

Spectator Reprimanded.

This brought an expression of approval from a spectator in the gallery, which drew a reprimand from the president, and John Varley took the floor. He did not mention any names, but referred to the damage that had been done to the labor movement by men in the pulpits and then out of their pulpits into the labor movement. He was interrupted by the man in the gallery, and the latter was told sharply by the president that he would either have to maintain order or get out. Delegate Varley stated that the mission of labor was to produce a higher type of humanity, and declared that the trouble with labor conditions in Canada was that it was not a labor party itself. James Simpson of Toronto came back with the assertion that the people connected with the labor organizations in the west were doing more for the workers than any other people in the Dominion.

Throughout the session there was a more or less interruption on the floor of the hall, particularly by those opposed to the radical sentiment. The speaker, however, was not disturbed until 3 o'clock tomorrow morning. Continued on Page Eleven.

## Acquires One of Canada's Oldest Journals

JOHN M. IMRIE, who has purchased the Hamilton Times, which was established in 1837. Mr. Imrie was manager of the Canadian Daily News-Paper Association since December last, and prior to that was for nine years manager of the Canadian Press Association.

## SOVIET OFFICIALS DROWNED IN RIVER NEVA AT PETROGRAD DURING REVOLT AGAINST REDS

Serious Anti-Bolshevik Uprisings Reported in Great Russian City—Soviet Commissioners Who Escape With Lives Forced To Seek Places of Refuge To Avoid 'Fury of Mob.'

London, Sept. 14.—Serious anti-Bolshevik rioting is taking place in Petrograd, it is declared in reports from that city received in Berlin, says a dispatch to the Exchange Telegraph Company from the German capital, filed yesterday.

Six of the Bolsheviki commissioners, it is asserted, have been drowned in the Neva, while the others have been compelled to seek places of refuge.

## REDS' DEFEAT CAUSES RIOTING.

Paris, Sept. 14.—Rioting took place in Petrograd when news of the soviet military defeat reached there, according to a report which the French foreign secretary has received from Copenhagen. The rioting assumed the proportions of a counter-revolution, and many of the commissioners were killed.

At the foreign office, it was said, credit was given the Copenhagen dispatch, except for one portion of it, which declared soviet fleet had mutinied and fired on Kronstadt.

## WOMEN TO TAKE OVER IMPORTANT DUTIES CONNECTED WITH CHURCH

Montreal, Sept. 14.—Bishop Farthing, speaking last night of the outstanding features of the Lambeth Conference, which he recently attended, said that these were international relations; the position of women in the church, and church reunion.

In regard to women it had been decided to revive the order of deaconesses, and women will now be able to minister in various forms, such as preparing candidates for baptism and confirmation; assisting at the sacrament of baptism; or even administering the rite itself in emergency cases. Under certain cases women will also be able to read the prayers in church or instruct and exhort.

The most important part of the work, said Bishop Farthing, was reunion. The committee issued an appeal to all Christian people to confess and repent of the sin of schism, and the bishops are determined that in future the responsibility for disunion shall not rest with them.

## REDS COMMENCE DRIVE TOWARDS LEMBERG CITY

Polish and Ukrainian Troops Are Driven Back by Cavalry.

SOVIET BRIGADE TAKEN Gen. Wrangel Captures Bolshevik Troops in Surprise Attack.

London, Sept. 14.—The Russian soviet forces, it is reported from Moscow, have taken the offensive on both sides of Brody, near the Galician border, and are marching on Lemberg, according to an Exchange Telegraph Dispatch from Berlin, dated Monday.

The Polish and Ukrainian troops, it is declared, have been driven back by the Russian cavalry.

WRANGLER CAPTURES BRIGADE.

Sebastopol, Sept. 14.—Troops commanded by Gen. Baron Wrangel on the Taurida front, northwest of the Sea of Azov, have surprised and captured a Bolshevik brigade, including its staff and training, according to reports reaching this city.

The expedition sent into Kuban, southeast of the Sea of Azov by Gen. Wrangel seems to be a failure both from a military and a political view.

## THANKSGIVING DAY ON MONDAY, OCT. 18

Date Is Definitely Set by the Governor-in-Council.

Ottawa, Sept. 14.—Thanksgiving Day this year has been set by the governor-in-council for Monday, October 18.

## WILL DISCUSS LABOR PROBLEMS

Hon. Manning Doherty To Meet District Men At Fair Tomorrow.

Hon. Manning Doherty, provincial minister of agriculture will address a meeting of the Western Fair directors' dining-room in the Exhibition Grounds on the subject of immigration. Many out-of-town members of the board have promised to attend.

There has been considerable dissatisfaction among the farmers of Western Ontario during the past years, owing to a great shortage of farm labor. To remedy this the committee of the United Board of Trade took up the question of immigration a few months ago, and since that time a large percentage of the experienced farm labor coming to this country for Western Premier Theodore states, according to Hon. Manning Doherty, among those who have promised to be present are: Hon. J. L. Stewart, S. P. Glass, County Clerk John Stuart, and Lieut.-Col. W. J. Brown of this city. Mr. Maxwell of the Chamber of Commerce in Chatham; W. W. Ferguson, Strathroy; Dr. J. A. Atkinson, Elmira; Joshua Jones, Exeter; A. J. Mountain, St. Marys; G. W. Lea, Simcoe; D. M. Moss, Elmira; E. J. Payson, Kitchener; H. Sneyd, Preston; J. M. Hale, Aylmer; J. L. Lodge, St. Thomas; George Hay, Telfer, Paris; F. W. Hay, Listowel; A. Wilks, Inwood; W. E. Lambden, Tillamook; J. N. McKenna, Lucknow; S. G. Davis, Thorncliffe; A. W. Deacon, Stratford, and A. H. Davidson, Southampton.

## PRINCIPALS IN FAMOUS TRIAL ARE REMARRIED

Tremblay-Despotie Annulment Case Still Before Privy Council.

## HUSBAND PETITIONED

Wife Appealed Against Superior Court Judgment Through Sympathizers' Fund.

Montreal, Sept. 14.—Word comes from St. Victoire, Que., that Napoleon Tremblay and Malvina Despotie, the two principals to the marriage annulment case which has been before the local courts and the privy council for years, have been remarried there.

Napoleon Tremblay and Malvina Despotie were cousins, though their common ancestors lived over a century ago. They were married by a priest without a dispensation as required by the Roman Catholic Church. Upon the petition of the husband in 1912, the church authorities first, and then the civil court, annulled the marriage on the grounds that as the church had not been notified of the marriage, it was null and void. The wife, on the strength of a fund subscribed by sympathizers in Montreal and elsewhere, appealed the case first to the privy council, and then to the latter body, which is expected at any time.

## CUPID STEPS IN WHILE CASE IS STILL IN COURT

[Special To The Advertiser.]

Montreal, Sept. 14.—While the legal umbrines of the privy council are pondering in London the merits of Tremblay-Despotie marriage case, while their lordships are going exhaustively into all the civil and canonical laws regarding marriage from the days of Constantine, first Christian emperor of Rome, to the present day, the couple could not be legally married without the church's dispensation. It was non-existent "ab initio," because being Roman Catholics, and cousins, the couple could not be legally married without the church's dispensation. While the lawyers, after pleading the case first in 1915, and again two months ago, are awaiting the judgment of the privy council, the parties directly concerned have gone to a higher court.

Cupid Pleads Cause.

Cupid has pleaded his cause at the bar of love. Judgment has been rendered in their favor, and the doctrine upheld is to be consecrated at the altar of matrimony.

In other words, Tremblay has applied in due form of the parish of St. Louis, Richelieu County, where his wife was born, for a copy of the certificate of his birth, and informed the priest that his purpose is to obtain a dispensation so that they may be married "all over again."

Therefore, whatever may be the outcome of the appeal to London on the annulment case, the couple are likely to find Tremblay married happily and legally beyond all question of canonical and civil laws.

## PRISON DOCTORS CAN DETECT CHANGE IN CASE OF MACSWINEY

Irish League States That the Lord Mayor's Condition Is Worse.

London, Sept. 14.—Conflicting reports concerning the condition of Terence MacSwiney, lord mayor of Cork, were issued this morning, the 33rd day of the hunger strike which he has maintained in an effort to force the British Government to release the six in British prisons. The prison physicians who are attending MacSwiney stated there was virtually no change in his condition, and that he had passed a restless night. His cousin, Malvina Despotie, stated MacSwiney had a very bad night, and was appreciably weaker this morning. He was still conscious and his mind was active.

## MACSWINEY'S DEATH WOULD END CHANCES OF ANY SETTLEMENT

London, Sept. 14.—Negotiations for the settlement of the Irish question, which are described as the most promising since yet initiated, will be null and void if Terence MacSwiney, lord mayor of Cork, should die. The British Government, which is continuing his hunger strike, says the secret negotiations on the basis of full self-government within the Empire have been going on during the last three weeks between the most prominent republicans. The moderates have at last been told, however, that nothing further can be done while MacSwiney is near death, and if the lord mayor dies the last hope of settlement on the proposed basis will disappear.

Appointment of an additional under-secretary for Ireland has been decided upon by the Government, whose duty it will be to deal with all problems arising from the six counties of the province of Ulster, the Unionists' stronghold in Ireland.

## W. O. PUBLISHERS TO DISCUSS PLANS AT BRANTFORD MEETING

Newspapermen From Principal Cities Are in Attendance.

Brantford, Sept. 14.—The second organization meeting of the Western Ontario publishers being held here today at the Kerby House, with a large attendance of publishers from the Western Ontario field. The program includes for the day an automobile tour of the city at 11 o'clock this morning, and luncheon at 12:15, after which the visitors will get down to a program of business subjects and mutual interest. Many well-known newspapermen from Toronto, St. Catharines, Woodstock and Galt will take part.

## GOVT. MINISTERS REACH WINNIPEG

Sittings of Tariff Commission Open Today.

Winnipeg, Sept. 14.—Sir Henry Drayton, minister of finance, and Hon. Gideon Robertson, minister of labor, were in the city last night to attend the sittings of the tariff commission, opening this morning.

## URGENT PRISONERS' RELEASE

Washington, Sept. 14.—A delegation of labor officials, headed by Samuel Gompers, today waited upon Attorney-General Palmer to urge "the release of political prisoners."

## JACK JOHNSON SENTENCED TO ONE YEAR AND ONE DAY

Former Heavyweight Champion Is Also Fined \$1,000.

Chicago, Sept. 14.—Jack Johnson, former world's heavyweight champion, was sentenced to one year and a day in Leavenworth Penitentiary and fined \$1,000 today by Federal Judge George J. Baker, for violation of the Mann act.

## Heroine Of Trail Of '98 To Contest Western Riding

Miss Kate Ryan Will Be Liberal Candidate.

Stewart, B. C., Sept. 14.—Miss Kate Ryan, one of the heroines of the trail of '98 to Dawson, is a likely candidate for the leadership of the Liberal party in the riding of Kamloops. It is said that Miss Ryan will contest the riding as a Liberal. The seat was formerly held by the late Frank Mobley, who was Liberal whip.

## METAL WORKERS AT FIAT PLANT BUILD GUNS FOR EMERGENCY

Will Use Weapons Either For Offence or Defence Purposes.

Turin, Italy, Sept. 14.—Workmen occupying the Fiat automobile plant here have since taking over the works constructed 143 machine guns, 8 armored cars and many rifles. It is asserted they intend, if necessary, to use them either for offence or defence. Workmen in occupied factories here are said to have broken open safes and appropriated funds to pay wages to workmen.

## ITALIAN NEWSPAPER SAYS METAL WORKERS' CRISIS IS NOW PAST

Rome, Sept. 13.—Italy has passed through the crisis of the metal workers' movement, according to the Giornale d'Italia. In commenting on the situation the paper says: "Until yesterday we were on the edge of Bolshevism. That danger seems to be removed and leaders of the workmen have become the heralds of necessity to produce more. We shall see whether they are able to induce their followers to do so."

## THE WEATHER

TOMORROW—FAIR AND WARM. Toronto, Sept. 14—8 a.m. Forecasts.

Station	High	Low	Weather
Calgary	52	32	Fair
Edmonton	50	30	Fair
Port Arthur	62	56	Cloudy
Port Stanley	72	62	Cloudy
Buffalo	68	58	Cloudy
Toronto	70	58	Cloudy
Kingston	68	56	Clear
Ottawa	68	56	Clear
Montreal	60	50	Cloudy
Quebec	60	50	Cloudy
Father Point	48	42	Rain, Fog

The general distribution of pressure has not changed much since yesterday. The disturbance near the Atlantic coast is almost stationary south of Nova Scotia, and the barometer continues quite low in the West.

Heavy rains with strong winds have occurred in the Maritime Provinces.

## ILL-HEALTH TO MAKE DESCHANEL RESIGN OFFICE

New French President Will Be Elected in November.

Paris, Sept. 14.—President Deschanel will probably be forced to resign because of ill health, says the newspaper Eclair, which says the French parliament will open its session early in November after electing a new president.

## KAMENEFF ARRIVES IN NORWEGIAN CITY

Says Lloyd George's Statements Have Brought End To Negotiations.

Christiania, Norway, Sept. 14.—M. Kameneff, head of the Russian Bolshevik trade mission in London, who left England a few days ago, has arrived in Bergen. He will stay three days in Norway and will come to this city for a conference with Maxim Litvinoff, Bolshevik assistant commissioner for foreign affairs.

## SAYS NEGOTIATIONS ENDED

London, Sept. 14.—M. Kameneff, head of the Russian Bolshevik trade mission there, is said to have written to the British parliament declaring that statements made by Premier Lloyd George on the occasion of his departure had brought about a break in Russo-British negotiations. A dispatch from London says M. Kameneff has "constantly worked to bring about the failure of the Anglo-Russian negotiations."

## BODY OF OLIVE THOMAS WILL BE SHIPPED TO NEW YORK FOR BURIAL

Paris, Sept. 14.—It is probable the body of the late Olive Thomas, moving picture actress, who died here last week, will be shipped to New York Saturday aboard the liner Mauretania. Jack Pickford, husband of the dead woman, and a few friends will be among the remains to the United States.

## WOMAN NARROWLY ESCAPES DEATH IN ELECTRICAL STORM

St. Marys, Sept. 13.—Mrs. Roy Nethercott of Science Hill, Blanshard, a few miles from town, had an exciting experience and a narrow escape from death when struck on Saturday during the electrical storm that passed over Blanshard and St. Marys, while hanging out wash clothes on a wire line. The lightning struck the wire line, throwing Mrs. Nethercott down, and some of the electric fluid scorched her around the shoulder.

## What's Doing Tonight?

Western Fair. Loew's—Constance Talmadge in "The Perfect Woman" and vaudeville. Majestic—"Shipwrecked Among the Cannibals." Grand—"Grumpy." Patricia—Herbert Rawlinson in "The Passers-By" and vaudeville. Allen's—Mae Murray in "On With the Dance."

OTHER EVENTS.

St. John's Lodge, No. 20, G. R. C., A. F. and A. M., at 8 o'clock.

## RETURNED SOLDIERS CLAIM INJUSTICE IN AWARD OF PENSIONS

Man Who Had Leg Blown Off in France Said To Have Received Notice That His Disability Was Not Due To Service—Other Cases Reported.

Constantly complaints of injustice in connection with awarding of pensions to returned men who have lost their health, and in some cases their limbs, as a result of their valor on the field, are being brought to the attention of the Great War Veterans' Association in London. Some of the complainants are members of the organization.

One man who has been with the colors the greater part of his life is afflicted with a disease which at intervals causes him to suffer a loss of blood, it is alleged. He applied for a pension in a lump sum. The reply which he is said to have received was to the effect that the disease from which he is suffering was not contracted while he was in France, England or Canada. As the disease takes about twelve months to develop, he is at a loss to know just when he developed it, if he did not contract it while serving with the Canadian expeditionary force. He was in India more than twenty years ago, and was in South Africa. The result was that the soldier did not receive money.

Not Due to Service. Another returned man, who had his leg amputated in an explosion, is claimed to have received a notice from Ottawa telling him that his disability was not due to service. He was in the front line, because he was a nervous case. When he went to this specialist he is alleged to have been told, even before he was examined, that he had not a chance of getting pension money.

One night a member of the Great War Veterans' Association came over to the organization rooms in bad shape, it is said. One of his hips was protruding so that he was almost unable to walk. He was taken to a hospital. After he got out of this institution he went to work in order that he might be able to exist. He was not capable of holding a steady job, he got employment cutting wood for a few days. Before he contracted his task he became exhausted and was forced to quit. He is not receiving any pension.

Meets Wednesday.

On Wednesday from 9 a.m. to 4 p.m. the pension board will be in session at 404 Talbot street (corner of Dundas and Talbot), when many applications for pension money, both in lump sums and in monthly allowances, will be heard.

Returned soldiers in London are up in arms because of the injustice that is alleged to have been done to their comrades who, being unable to support themselves, go before Government representatives to secure money which is set aside for that purpose. It will be remembered that a former member of the Princess Patricia's Canadian Light Infantry who had lost a limb while serving in France committed suicide in Chicago when he received official word that his allowance had been discontinued.

By way of contrast, one of the Great War Veterans told of a man who had taken sick a short time after he enlisted and was sent to hospital and is now receiving a comparatively large pension.

WANTS VOTE TAKEN  
ON MOTOR BUSESSES

Ald. Harley Believes City's Transportation Problem Can Be Solved.

"If anything is submitted to the people regarding the street railway situation at the next municipal election, the mayor of establishing a motor bus system certainly will be considered with it," Ald. P. S. Harley declared today. "The question has not been discussed by the council lately, but it has not been forgotten by any means."

Ald. Harley believes that no immediate steps to establish such a system of transportation should be taken even if it is approved by the people. He pointed out that the franchise of the street railway has several years to run, and that careful planning will be necessary in order to evolve a bus system which would entirely supplant the street railway.

"There is no hurry about it," he said. "This means of transportation is only in its early stages. Other municipalities are trying to solve it. We will find many things to learn from them. We have plenty of data on hand, and we are keeping it up to date. We are waiting for the prospects for bringing the motor buses here are a little more definite. I do not think it will be necessary to ask for the appointment of a special committee."

KEEN INTEREST IN  
BUTTER-MAKING

Big Day of the Competition Will Be On Wednesday.

The amateur butter-makers' competition opened in the Dairy Building at the Western Fair today under the direction of D. McLean, government dairy inspector. Only one competitor was present.

The big day in the butter-making competition is Wednesday. The event is open and it is expected that there will be many keen contests among the eight entries.

On Wednesday the competitors will contest for the sweepstakes. There are more entries for the big events this year than on previous occasions. A large number of Fair visitors watch with keen interest the women making butter in the up-to-date dairy with the most modern equipment.

Those who are to take part in the competition in the professional class on Wednesday are: Miss M. Bryden, Puslinch; Miss E. Wilson, Ayr; Miss A. Barber, It. R. No. 7, Guelph; Mrs. W. Hill, Parkhill; Miss L. B. Gregory, Ilderton; Mrs. R. Durea, Goderich; Mrs. R. C. Young, Belmont; Mrs. P. Fenwick, Brampton.

NEW YORK STATE VOTERS  
SELECT CANDIDATES TODAY

New York, Sept. 14.—Enraged Republicans and Democrats of New York State went to the polls today to vote for candidates who will represent them for the various state offices as well as for United States senator, representatives in congress and seats in both houses of the legislature.

Leaders of both parties predicted a large vote. The most important contests of a state-wide nature are for United States senator and governor on the Republican ticket and for United States senator on the Democratic ticket.

TEN-CENT STREET CAR FARE. Saskatoon, Sask., Sept. 14.—The city council last night decided to adopt a 10-cent cash fare on the municipal street railway system.

A one-man car bylaw will come before the voters a second time in December, and if adopted will be made the basis of a revision in fares, it was announced.

There's no waste to  
Grape-Nuts

and it saves sugar, for it contains its own sweetening

No cooking is necessary and the likable flavor of this wheat and malted barley food is equaled only by its economy.

Grocers everywhere sell Grape-Nuts.

Five London Lads  
Called For Navy

Will Form Part of Crews To Bring Boats Out From England.

London seems to have been particularly happy in the selection of boys sent to England to help in manning the boats which are to be brought to Canada as part of a Canadian navy. Out of fifty boys chosen from the entire province, London is sending five.

The five who went from London are: William Moir, son of Mrs. A. Moir, 34 Elmwood avenue; Robert Thompson, son of A. Thompson, 17 Trafalgar street; Donald McIntosh, son of B. C. McIntosh, 83 Smith street; Frank Swindall, son of Mrs. Emma Swindall, 48 Brookside street; and Ralph Gregory, 214 Colborne street.

The lads sailed today from Montreal. They will receive their kit, pay, clothing allowance, and schooling, and in addition will have the honor of being among the first members of the new Royal Canadian Navy. It was stated to The Advertiser today that a further call may be made in London shortly for boys to go overseas and man ships for the new navy.

Goderich Nurse  
Signally Honored

Chosen From 200 Applications For Rockefeller Medical College.

[Special to The Advertiser.] Goderich, Sept. 14.—Miss Mabel Tom, daughter of School Inspector Tom, of this town, formerly of Stratford, has received an appointment to the staff of the Union Medical College at Peking, China, and will leave at the end of the month to take up her duties. The college is one of the best established by the Rockefeller Foundation Fund. Miss Tom is signally honored in that she was chosen from more than 200 applicants for the position. She was one of the first nurses to leave with the American Expeditionary Forces, and prior to that time was a nurse in the New York hospital. She will sail on the steamer Empress of Russia for China early in October.

Huge Lynx Seen  
On Green Island

Hunters of Pike Bay District Are Seeking His Pelt.

Warrton, Sept. 14.—One of the largest lynxes ever seen in the district is being eagerly sought by local hunters. It was seen about 6 o'clock yesterday morning by James and John MacFarlane on the shore of Pike Bay. The huge animal was just at the edge of the woods and immediately made off.

There is little doubt this is the same animal that was seen last winter by Eli Robbins, but as he had neither companion nor dog he was unable to overtake him before dusk. The heat cunningly traveling just as slow or fast as necessary or dodging on occasion.

Two years ago near Sky Lake, George Hardman and sons tracked and shot a 6-foot lynx, which had been denuding sheep flocks the previous summer. Judges at fairs might envy his unerring judgment in picking the prize winners of the flocks.

REPUBLICANS WIN  
MAINE ELECTIONS

The Biggest Majorities Ever Recorded in State's History.

Portland, Me., Sept. 14.—Maine gave an overwhelming plurality to the Republican ticket in the state election yesterday with a total vote larger by 55,000 than the highest ever previously recorded in the state.

Frederick H. Parkhurst, of Bangor, was elected governor by a margin of 65,000 over his Democratic opponent, Bertrand G. McIntyre, of Norway. The plurality was 17,000 more than the largest obtained by any other gubernatorial candidate in the history of the state.

Four Republican congressmen were elected by large pluralities. Results showed that most of the women voted Republican ticket.

The only woman who was a candidate for public office at the election was defeated, however. Miss Margaret Dyer, of Bar Harbor, was the Democratic candidate for registrar of probate in Hancock County. She received but a small vote.

DAMAGE SUIT  
IS THREATENED

Turning Gas Off May Cost a Pretty Penny.

[Special to The Advertiser.] Belmont, Sept. 14.—Turning the gas off here without any warning may cost the Southern Ontario Gas Company a pretty penny. It was stated to The Advertiser today that an action for heavy damages is contemplated against the company because of its most interesting one and may be used as a test case.

The contract, which was between this municipality and the company was drawn up by David Fraser of London and is believed by those who have seen it to be a most excellent document. Whether or not it is binding remains to be seen.

Gas Is On Again. In the meantime, following an order issued by Hon. Henry Miller, minister of public works, the gas was turned on again last night. Just what rates are to be charged for it are not known.

At a meeting of the trustees of Belmont gas consumers of the district and officials of the company held here Monday afternoon to discuss the situation, the company was insistent upon raising its rates to 85 cents. The inference some of those present took from what was said was that the company is largely basing its claims for increased rates upon what coal now costs regardless of any contract it made with the local consumers.

The following resolution was passed, moved by Reeve Stanley Shaw of Deception, and seconded by Councillor J. F. Cousins of Westminster: "That it is the opinion of this meeting that, in the event of the natural gas company continuing to evade and disregard prices named in their franchise, the Government be urged to take over the gas production and distribution to supply the consumer at a reasonable cost."

John M. McElroy of London looked after the interests of the consumers. He made it clear that the consumers think they have been very, very shabbily treated by the company in turning off the gas without warning right in the middle of harvest time, that the consumers have a contract which they believe is thoroughly binding and that they are going to fight to a finish.

The agreement, he pointed out, was made for twenty years. The gas company, he said, could not reasonably expect to break its contract and make such demands as are being made.

P. H. Bartlett of London, who represented John Barons, who controls the gas supply going to Belmont and the town line, declared they had nothing to do with any franchise with the township of Westminster.

Mr. McElroy stated that under the franchise, if Mr. Barons refused to supply gas it was up to the Southern Ontario Gas Company to do so.

DERIES RUMORS OF  
HEAVY LOSS TO CITY

Assistant General Manager Declares Nothing in Reservoir Story.

Rumors that a heavy loss had been sustained in connection with the building of the new reservoir at Springfield because the original excavation was too small and had to be enlarged with hand shovels were emphatically denied today by A. O. Hunt, assistant general manager of the public utilities commission.

According to the rumors the excavation work which was done by a firm of Brantford contractors was approved by officials of the commission. When the concreting stage of the operation was reached, it was discovered that an additional three feet of earth would have to be removed from the banks. As the contractors with their steam excavating machinery had left this had to be done by means of horse-drawn scoops and hand shovels, the rumors said.

There is no foundation for any belief of this sort, Mr. Hunt stated. Scoops are being used, but this is for the purpose of leveling the banks before the concrete is laid. The original excavating was done in the rough, and the leveling had to be given it before it formed a suitable base for the cement work, he said. The action of the contractors in leveling the banks was finished also necessitated some leveling work.

REPUBLICANS WIN  
MAINE ELECTIONS

The Biggest Majorities Ever Recorded in State's History.

Portland, Me., Sept. 14.—Maine gave an overwhelming plurality to the Republican ticket in the state election yesterday with a total vote larger by 55,000 than the highest ever previously recorded in the state.

Frederick H. Parkhurst, of Bangor, was elected governor by a margin of 65,000 over his Democratic opponent, Bertrand G. McIntyre, of Norway. The plurality was 17,000 more than the largest obtained by any other gubernatorial candidate in the history of the state.

Four Republican congressmen were elected by large pluralities. Results showed that most of the women voted Republican ticket.

The only woman who was a candidate for public office at the election was defeated, however. Miss Margaret Dyer, of Bar Harbor, was the Democratic candidate for registrar of probate in Hancock County. She received but a small vote.

SAYS POOR CONDITIONS AT MINES CONTRIBUTORY FACTOR TO SUICIDE

St. John, N. B., Sept. 14.—That conditions in the mines at Cape Breton were not as they were represented by the Dominion Iron and Steel Company's representative in Liverpool, England, and that it was impossible for the miners to earn sufficient money there to pay their debts, was the substance of a statement made by Robert Johnston at the inquest into the death of William Ambrose John of Wales, who committed suicide last Wednesday. After brief deliberation, the jury brought in a verdict that the man's death was caused by a bullet wound inflicted by himself while in a despondent condition.

D'ANNUNZIO'S TROOPS OCCUPY ISLANDS IN GULF OF QUARNERO

Rome, Sept. 13.—Troops belonging to the forces of Capt. Gabriele D'Annunzio occupied the islands of Arbe, Cherso and Veglia, in the Gulf of Quarnero, southwest of Fiume, according to reports received here. Italian soldiers making up the garrison on the island are said to have joined the D'Annunzian volunteers.

WILL LAY CORNERSTONE.

Dutton, Sept. 14.—Good progress is being made in connection with the new building of the Methodist Church, which is being erected here.

INCREASES RANGE FROM 125 TO 35 PER CENT

Montreal, Sept. 14.—Returns coming in, in reply to the questionnaire sent out to firms by the Montreal branch of the Canadian Manufacturers' Association, in order to ascertain the effect of the proposed increased telephone rates, show that the increases will range from 125 to 35 per cent. About 400 returns have been received to date.

SEMONOFF REPORTED TO HAVE SKIPPED WITH GOLD RESERVE

Moscow, Sept. 14.—A report has been received here that General Semonoff, the anti-Bolshevik leader in Siberia, who some time ago was said to have declared his support of the far eastern republic, has absconded to China with his large gold reserve.

GRUNEAU ADMITS THAT OUTLAW STRIKE ENDED

Chicago, Sept. 14.—Admission by John Gruneau, leader of the striking switchmen, yardmen and engine men in the Chicago switching district, that the walkout had ended, was made public today. At meetings called by the men last night, big majorities were reported in favor of returning to their former positions. Railroad managers today reported more applications from their former employees for work. The men are returning, the road officials announced, as new employees.

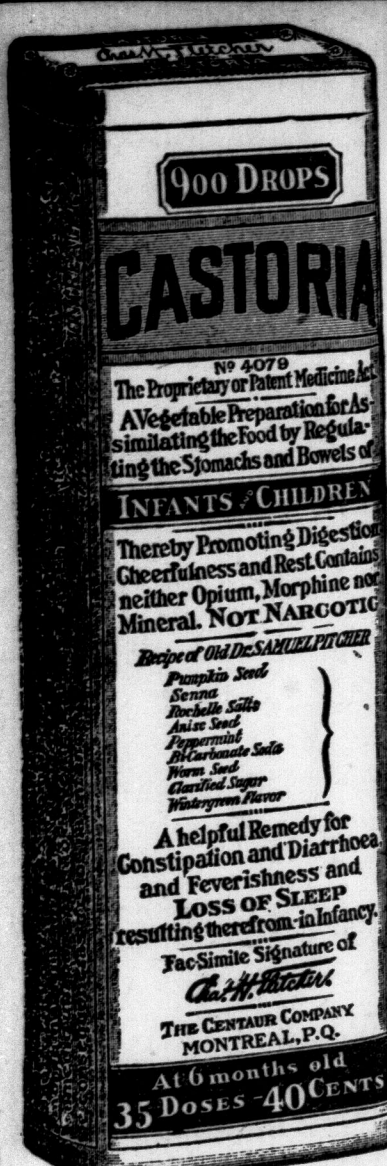

NEW FACTORY FOR PETROLEA.

Petrolia, Sept. 13.—Mrs. E. A. Stokes has purchased from Miss Alley of London the building now occupied by Miss K. Newton. Mr. Stokes, who recently returned from Persia, will erect a nitro-glycerine factory in Petrolia, if he can comply with the Government regulations.

**NOTHING TOO GOOD FOR NEW COLLEGIATE**

**At The Theaters**

**AT THE GRAND.**

Hitherto, it has been impossible to think of the play "Grumpy" and Cyril Maude separately. So completely did the great English actor create the character which he impersonated in the play by Percival and Hodges that it would have been impossible to imagine any other kind of "Grumpy" than the real living Grumpy actually existing in Mr. Maude upon the stage. Now comes Edward Lewers with a presentation of "Grumpy" so closely approximating the nearly perfect with the superb excellence of Mr. Maude's creation that it is hard to tell which is the original Grumpy and which is the imitation, or whether the original or the imitation is the better of the two.

Mr. Lewers is fortunate in his association with Frank Compton, whose impersonation of Raddock, the villain, is a splendid piece of acting. Some slight improvement might be achieved in the work of one or two of the other members of the Lewers and Compton company, but certainly there can be no fault found with the play as presented by Messrs. Lewers and Compton themselves.

The work of Galway Herbert as Ernest Heron is for the most part agreeably spontaneous, natural and free from studiedness. Mr. Herbert is one of the strong members of the cast. Peggy Dundas in the role of Virginia is a clever actress who does very satisfactory work in this play gives promise of a larger reputation in the future.

While not strikingly brilliant, it is fully all that the requirements.

Violence in a human acts very well and very easily, possibly with just a shade of too much ease.

At the Grand, the play is presented by the company of the Grand, and Frederick Monti as Kable, Mr. J. W. is really excellent.

The others give fair support. Trevor Bland as Mr. Jarvis, J. Jackson Dunn as Wolfe, and Conway Dillingham as Dawson, the footman.

"Grumpy" will be presented again at the Grand tonight and tomorrow night.

**Board of Education Sends the City Architect To Cleveland.**

L. E. Carrothers, architect for the board of education, is in Cleveland today, looking over high school buildings there with a view to incorporating their best features in the new college to be built here. The additional trip was authorized at the last meeting of the board of education on the motion of Trustee Thomas Rowe, seconded by Trustee Thomas Colledge.

Conditions in other American cities were investigated by a special committee of the board of education, claiming that it contained only generalities, and no real advice on the erection of a school building.

The architect commenced work on plans but on the decision of the board last Tuesday to make a further examination these were stopped. Nothing will be done now until the architect returns from Cleveland and reports, it is expected.

This condition was criticized today by a trustee, who claimed that every detail of the work for the new college should be rushed with all possible speed, and that further investigation was unnecessary delay.

He pointed out that the wrecking of the old building has almost been completed and that the children of the public school pupils attending Lord Roberts and Alexandra schools are complaining because the children have to go to school at 8 o'clock. One such parent has gone so far as to declare that he will withdraw his child from the school, because his child is not receiving a proper education, the trustee said.

Trustees who take a different view of the matter point out that the expenditure to be made is a very large one, and that the board is justified in making ample investigation before committing itself to definite plans.

## At The Theaters

**AT THE GRAND.**

Hitherto, it has been impossible to think of the play "Grumpy" and Cyril Maude separately. So completely did the great English actor create the character which he impersonated in the play by Percival and Hodges that it would have been impossible to imagine any other kind of "Grumpy" than the real living Grumpy actually existing in Mr. Maude upon the stage. Now comes Edward Lewers with a presentation of "Grumpy" so closely approximating the nearly perfect with the superb excellence of Mr. Maude's creation that it is hard to tell which is the original Grumpy and which is the imitation, or whether the original or the imitation is the better of the two.

Mr. Lewers is fortunate in his association with Frank Compton, whose impersonation of Raddock, the villain, is a splendid piece of acting. Some slight improvement might be achieved in the work of one or two of the other members of the Lewers and Compton company, but certainly there can be no fault found with the play as presented by Messrs. Lewers and Compton themselves.

Peggy Dundas in the role of Virginia is a clever actress who does very satisfactory work in this play gives promise of a larger reputation in the future.

While not strikingly brilliant, it is fully all that the requirements.

Violence in a human acts very well and very easily, possibly with just a shade of too much ease.

At the Grand, the play is presented by the company of the Grand, and Frederick Monti as Kable, Mr. J. W. is really excellent.

The others give fair support. Trevor Bland as Mr. Jarvis, J. Jackson Dunn as Wolfe, and Conway Dillingham as Dawson, the footman.

"Grumpy" will be presented again at the Grand tonight and tomorrow night.

Miss Marjorie Wood, who enacts the strenuous role of Zohra in "Chu Chin Chow," at the Grand Thursday, Friday and Saturday with Saturday matinee, declares that while she is a long role night is due to her excellent physical condition. She is a devotee of athletic sports and is president of the "Chu" hiking club, which is composed of all athletic inclined members of the company, and an all-round authority on physical culture.

"It's all in taking care of yourself," Miss Wood declares. "In taking exercise and keeping yourself physically fit."

"As a matter of fact, however, only those who know something about the strenuous work of the stage as well as in moving pictures, have any idea of the physical strength required to give good performances."

"Those of us who must make make-up of our faces so successfully that they are not visible when the camera is at work, declare that the physical strain of acting is."

"Even the ingenu who radiates her youthful charms over an audience does so at a considerable physical effort. Emotional acting requires physical courage. Magnetism is a personal gift that, of course, is a great deal, but there is a peculiar exhaustion which is quite physical that follows an output of magnetic force."

"From the first to the final curtain in most of the plays in which I have appeared, I have been compelled to keep up an evenness of power, an actual physical effort to carry my audience with me."

"I am a firm believer in exercise for men or women, because I think it is conducive to longevity and that it is necessary in any walk of life."

"I wish women could play baseball, because it is a form of exercise and amusement combined which is a very difficult matter in these days of martini and girl poses. I seem to me that baseball encourages physical independence, moral courage and a skill that keeps one mentally alert."

"An actress must have confidence in herself to be able to interpret a role. Strength, beauty, confidence and exercise begets strength and physical power, without which there is no health of mind. We often see actors and actresses retain their power over the public up to a very advanced age. We see them in the prime of life, but there is a peculiar exhaustion which is quite physical that follows an output of magnetic force."

**NO EXPERIENCE NECESSARY**

The idea that bread making is a long and difficult operation is a mistake, as bread may now be included in the list of quickly prepared foods, for with

**ROYAL YEAST CAKES**

light, sweet bread can be baked and ready for use within four hours from the time the sponge is set. Full detailed instructions are contained in Royal Yeast Bake Book which will be sent free upon request.

**E. W. Gillett Company Limited, Toronto, Canada**

Other sections of the program are well up in the standard set by the feature. They include comic and other film attractions.

**AT LOEW'S.**

A splendid variety program is the feature at Loew's Theatre for the first half of Fair week. Constantine Taimage, in "The Perfect Woman," sharing premier honors with four first class vaudeville acts. As Mary Manson, a young stenographer, required to earn her own living, Miss Taimage is seen at her best. Mary sets her heart on the good things in life, and then goes out and wins them, using her personal charms to excellent advantage in doing so.

Jim Stanhope, of the young millionaire class, falls into her category of good things, but Jim is wary, and eludes her charms for about three reels. Meanwhile Mary does her best, and her efforts are not in vain, although Stanhope is loath to admit it. Finally when his life is endangered and Mary vows three desperadoes with sinister designs on her prospect to such a degree that their murderous scheme is thwarted, Jim is compelled to admit that Mary should be Mrs. Stanhope. However he does not give in until he sees her about to be captured by his partner in business.

Of course, Mary knows all the time that Jim is in love with her, which fact increases the merriment in this photoplay. Supported by an all-star

cast Miss Taimage provides two hours of enjoyment to lovers of the silent art. A Sunshine comedy and educational film, along with a Pathe News Weekly complete the film program.

The University Trio, offering harmony selections, was well received last night, and the efforts of these three artists last night called for encores.

Wilbur and Lyke in an original singing and acrobatic number above the average vaudeville presentation, won the hearts of their audience by clever

work. The Mountaineers, three young men who present a skit on Moonshine operations in the Kentucky mountains, conclude their offering with several pleasing singing numbers. Special scenic settings accompany this offering which is a change from the usual vaudeville attraction.

An added feature is a repertoire of popular songs rendered by a young female soprano in approved style, completing an excellent bill to be repeated today and tomorrow.

**London the home of Kellogg's**

will this week be thronged with fair visitors. They are cordially invited to pay a visit to the plant where the genuine, original

**Kellogg's TOASTED CORN FLAKES**

are made. The plant is located only one block east of the grounds, and cars stop at the door.

Your enjoyment of the original Corn Flakes will be greatly enhanced when you see how beautifully clean is the factory, and how pure the ingredients used.

**Why Stay Fat?**

The answer of most fat people is that exercise and dieting is too hard, too troublesome and too dangerous. They are absolutely harmless, entail no violent exercise, and have the added advantage of cheapness. One little tablet after each meal and at bedtime as pleasant as candy will reduce your weight two, three or four pounds a week, and leave no bad results such as wrinkles or flabby skin. A good size box is sold by druggists at the reasonable price of one dollar, or if preferable they may be obtained by sending the amount to the Marmora Co., 94 Canada Building, Detroit, Mich. They will reach you by mail, prepaid, in plain, sealed cover.

Now that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

## A Permanent Exhibition

The Barnard Institution is not so much a store or a shop as a permanent exhibition of fine Diamonds, Watches, Jewelry and Silverware, worth looking at, even if one can resist the temptation to buy.

LONDON'S FAVORITE SHOPPING PLACE

## TWO PRISONERS JUMP FROM MOVING TRAIN ONE IS REARRESTED

Raymond Moss, Young Diamond Thief, Succeeds in Evading Recapture.

GUELPH, Sept. 13.—The local police have received word that Raymond Moss, alias Albert Melh, the young diamond thief who was arrested here after breaking into Savage's jewelry store, broke custody while being taken from Guelph to Mimico, where he was to have served a year's sentence. Moss was escorted as far as Toronto by Inspector Ryan, but was turned

over to another official there, and while on the train near Coldwater Junction he made a leap through the window while the train was moving at 25 miles an hour. Another prisoner named Palmer also made good his escape at the same time, but was later captured. Moss is still at large.

## MILK PRICES GO UP IN CITY OF OWEN SOUND

OWEN SOUND, Sept. 13.—The Owen Sound Milk Producers' Association has decided to raise the price of milk to the local dairies from 27 cents a gallon to 31 cents a gallon. This will mean that the price of milk in Owen Sound will advance again. It is now selling at 12 cents a quart. **Hallstones Do Damage.** An electric storm visited Owen Sound and the surrounding country yesterday evening that did considerable damage to buildings and roads. It was accompanied by unusually large hailstones that played havoc with any crops that were still standing.

## CHILDREN'S DAY AT FAIR WAS HUGE SUCCESS

Kiddies Enjoyed the Exhibits and Grandstand Performance.

Children's Day at the Western Fair was a huge success. When the gates were closed for the night all those who participated, either as spectators or exhibitors, were confident that the big annual event had got away to a good start and would come down the home stretch with flying colors when the final night arrived. The star feature of the program presented before the grandstand is the auto polo act. Four men in specially constructed small automobiles drive at a daredevil speed around the field until one team or the other scores a goal. In the first performance Monday afternoon two cars were so badly damaged that they had to be removed and one of the cars crashed through the board fence in front of the grandstand. Four cars are used in the act, two being kept in readiness to replace those damaged on the field. They overturned many times, a circular iron frame over the seats preventing the daring players from being crushed in the inevitable accidents of the game.

**Entertaining Novelty.** The Four Pierrots present an entertaining European novelty act, and the Three Mimes, the leading troupe of the best bicycle acts on the road. Jack Stanford and his bally music, Maria, added humor to the program, and Harry Mooney's performing elephants waltzed, played a drum and performed many acrobatic stunts one could hardly believe an elephant capable of doing. Music between the acts was provided by the grandstand by the Citizen's or "Lat Hissers" Band, under the leadership of Roselle Pococke. Music from the bandstand in the park was provided by the Great War Veterans' band.

A very pretty additional act presented Monday afternoon was the Maypole drill by the children of Thames Park playgrounds, under the direction of Miss Olive Wood and Miss Griffiths.

## EXCELLENT EXHIBITS

**CHRISTIE-BROWN BISCUITS.** Biscuits the best on the market are to be seen in the fine display of Christie-Brown Company, Limited, in the Pure Food Building at the Western Fair. Among the collection are the chocolate and coconut macaroons, which are such a welcome addition to the tea or dainty luncheon. For the

## New hair growth

Wonderful new growths of hair are being brought about by those using Kotalko, the Indian hair compound. In many cases it has induced a full hair crop where there was a large bald spot. Kotalko is obtainable in drug stores everywhere. Or send 10 cents for stamps, for proof box to KOTALKO COMPANY, LIMITED, 368-L, Adelaide St. W., Toronto.

fastidious housekeeper there is no greater treat than a visit to the booth of the well-known firm. It is situated at the end of the building and has an alert staff to answer questions for the housewives. Christie-Brown delicacies have become famous the world over and the many new brands exhibited are sure to please the most exacting housewife. "When you buy a Christie biscuit you buy the best, and when you eat a Christie biscuit you eat the best," is the slogan of the company. The women fair visitors were intensely interested and were delighted with the delicate taste of the sample biscuits which were generously supplied to the ever large crowd in front of the clean and well-lighted exhibit.

## DEXTER'S FLOUR AT FAIR.

Dexter's "Snow White" flour, which is one of the main exhibits in the Crystal Palace at the Western Fair this year, lives up to its name. The flour is on exhibit to all, and each one expressed his opinion of it as "the best made." The platform was very prettily decorated with white asters and the white walls and sides of the platform add greatly to the elaborateness of the exhibit. Samples of cooking are shown, and it fairly makes one want to rush into the kitchen and try a bit of it. The flour is made in the city use Dexter's Snow White Flour. Among them are: Neale's, David Gilmore, Dean Baking Company, Johnston Bros. and Briddle Bros. Biscuits, blotters and fly swatters are given away to the many-always satisfied customers of the bakers who use Dexter's Snow White Flour. One of the outstanding features of Dexter's exhibit is that the location is a spot where one can see it. It is situated on the ground floor at the foot of the stairs on the left leading to the second floor.

## TUDHOPE ANDERSON EXHIBIT.

Tudhope Anderson, the leading manufacturer of wagons and all farm implements has one of the finest exhibits in the Machinery Building. The feature of the exhibit is a power lift cultivator. It is something every farmer should have in order to successfully run his farm the way it should be run. Demonstrations as to its advantages are shown the far-seeing farmer. Hand plows, wagons, the Peerless Corona Stoves and other late types and models of stoves are also shown. The stove that catches the eye of every housewife is the Peerless Corona range, with the marble-topped and finished for coal or wood and is one of the best cookers any housewife could desire. A warming oven, which is always a necessity with any stove, is attached to this range. All of Tudhope Anderson's outputs are made in Ontario, Ont. "Buy Canadian-Made Goods."

## HEINTZMAN PIANOS FINE

To all music lovers who visit the Western Fair no greater treat can be promised than that which repays a visit to the exhibit of Heintzman Co., which is artistically arranged on the ground floor in the east end of the Crystal Palace in a booth decorated with the season's flowers and palms, twelve pianos in diverse styles and finishes and a fine machine which has been placed for inspection by the public. While it would be hard to pick a feature which is consistently high class exhibit, there is no doubt that a grand piano which holds the honor position is the pride of the company. This piano has brought credit to the firm by being selected by A. D. Jordan, director of the London Institute of Musical Art, for use in that institution, after he had examined and tested many makes. One outstanding instrument is an aluminum-action player-piano. It has been built to last, and is made of solid aluminum for use in this class of piano. Because the tubes and valves and the frame as a whole are absolutely dust-proof its mechanism has been revealed for inspection. Every piano is beautiful in design and also the "Puchess of York" which on two occasions has been used by royalty while travelling through Canada. There are no sweeter-toned talking machines than the Brunswick, and this makes holds chief place in the Heintzman Company's exhibit of talking machines. It is a magnificent piece of furniture as well as a wonderful creator of music.

## HUNT'S FLOUR BEST.

It is the easiest thing in the world for Fair visitors to locate the famous Hunt's Diamond Flour exhibit in the Crystal Palace. That was necessary was to follow the crowd. On the first day many hundreds guessed the number of pounds of flour in the exhibit. Valuable prizes of bags of flour are given to the person guessing the exact number of pounds or those coming the closest. Hunt's Flour is a household word from coast to coast. Housewives having used it never change to other brands. Without doubt it is the best flour on the market. The Hunt Flour Mills, situated near Nightingale avenue, a few blocks east of the exhibition grounds, is open for inspection to any Fair visitors. It is the most modern mill in Canada. With the exhibit and an inspection of the mill it is sure to convince housewives that there is no better flour manufactured than Hunt's Diamond Flour.

## BEATTY'S SHOW WASHERS.

The time-saver Electric Washer, as exhibited by Beatty Bros., in the Transportation Building, is all that the name implies. It is simple and easy to operate. No other washer is so simple in construction. The time-saver is so neat in appearance. The mechanism is so simple and compact, so completely guarded, and so well out of the way that the machine hardly looks like a power washer. Every woman appreciates a simple machine, for it is so much easier to understand and operate than any other. The time-saver outdoes any other washer. The mechanism of the time-saver depends not on the tub, but on a solid iron foundation, which keeps all parts in their right positions, hence the machine lasts much longer than those complicated machines, which have their parts scattered all around the tub and dependent upon it. Even the wringer rolls of the time-saver depend on this solid foundation. The time-saver runs more quietly than other machines. This quality is due to the simple, solid construction. This exceptional machine is sold in London by J. D. Finnegan, Cowan's Hardware, 1 G. Steele, Hardware, and Kilpatrick Bros. D. R. Coleman is the demonstrator of the machine for the Western Fair, and it is standing at the exhibit during Fair Week.

## SIGNRY HAS MUCH WORK.

Although the Signry, London's leading sign painting company, proclaims itself to the visitors of the Western Fair by only one of its hand-painted signs located in a corner near the Women's Work Building, its work is everywhere in evidence. Hardly a sign announcing the shows and booths is to be found on the exhibition grounds, but which come from the Signry company. Work can be delivered at a few hours' notice, as a large staff of competent workmen is continually at work. Anyone on the grounds who needs signs of any description at a short notice should apply to the booth, which is located near the Agricultural Building.

## CRAWFORD PIANO EXHIBIT.

The handsome display of the musical instruments by the Crawford Piano Company is attracting great attention at the Fair this year. This concern is featuring the William Knabe Company piano, the Willis Art piano and the Chickering piano, all of which stand for the highest in the market. The Ampico Reproducing piano, of which they are the sole dealers, and of which the sales in the past have been so plentiful that the demands cannot be filled, is an instrument that makes it possible to have at home the world's masterpieces executed by the

greatest of musicians of the day, and in a manner that no other thinks the musician is almost alive on the stool beside one.

The Chickering Grand piano attracts large numbers. A girl is playing the piano in a manner that not only wins applause, but conveys to the audience the wonderful music and tone that can be got out of one of these pianos. In addition to the pianos, the Crawford Piano Company is the agent of the Brunswick phonograph. The Brunswick by its triple adjustment, with the diamond point, steel needle and sapphire ball, can play any record made. By virtue of its oval wood tone amplifier this phonograph is void of the metallic tone which detracts from many machines.

## I X L SPICE COMPANY EXHIBIT.

Permeating the air of the Pure Food Building in the vicinity of the eastern entrance is the aroma of freshly-ground coffee coming from the booth of the I X L Spice and Coffee Mill's exhibit. The brands of coffee known to housewives the country over as the Royal Brand and Sweetheart Coffee are made entirely from chaffless and steel-

## A SORE MOUTH

Or Pyorrhea Quickly Relieved By "ABSORBINE JR."

Are your gums sore and tender? Do they smart or bleed when you brush them? Are they slipping away from the teeth? When your gums get in this condition, they need something to kill all germs in the mouth—something to change the spongy, bleeding tissue into healthy tissue. As one dentist writes: "ABSORBINE JR." has a future for dentists in the treatment of Pyorrhea.

Used in diluted form, "ABSORBINE JR." makes a mouth wash that destroys germs, heals the gums, prevents decay. Clean and refreshing in taste and odor—and being a vegetable germicide, is absolutely safe.

\$1.25 a bottle; at most druggists or sent postpaid by W. F. Young, Inc., Lyman Building, Montreal.

**See it Whips.**  
For every whipped cream need try this:  
Set can in a saucpan full of cold water, allowing water to cover two-thirds of can. Bring to boiling point and when water begins to bubble, remove can and chill until ice cold. Then pour into a deep bowl and whip with egg-beater until it is stiff. Suggest to taste.

## Now Brush Teeth

In the new way—Remove the film

All statements approved by authorities

Try this new way of teeth cleaning. The test is free. It has brought to millions whiter, safer teeth. Leading dentists everywhere advise it. See the results, then learn what they mean to you.

## What ruins teeth

Teeth are ruined by a film. You can feel it—that viscous coat. It clings to teeth, gets between the teeth and stays. And most tooth troubles are now traced to it.

It is this film-coat that discolors—not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

## Now we combat it

Dental science has in late years found a way to fight film, day by day. High authorities have proved it by many careful tests. Millions of people have adopted it, largely by dental advice. To careful people it is bringing a new era in teeth cleaning. These new methods are all embodied in a dentifrice called Pepsodent. And you are urged to prove it by a pleasant ten-day test.

## Five important effects

Pepsodent has five effects, all of them essential to cleaner, safer teeth. One ingredient is pepsin. One multiplies the starch digestant in the saliva to combat starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

In two ways it attacks the films directly. Then it keeps the teeth so highly polished that film cannot easily cling.

It differs vastly from the old-time tooth pastes, which dentists now know were wrong. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. Within a week you will know that your teeth are protected as they never were before. And you will always want your teeth to look and feel like that. Cut out the coupon now.

## Fordson Power Farming Exhibit

**AT WESTERN FAIR, LONDON**

SEPTEMBER 11 to 18

SEE  
the plowing  
demonstration  
9-12 a. m.  
each day  
at the  
asylum  
grounds

SEE  
demonstrations  
of every kind  
of farm  
power work  
at the  
exhibition  
GET  
the power  
farming  
idea

Many a farmer is finding at the Fair the road that leads him to greater prosperity. He is going to travel it with a Fordson.

See this Fordson Tractor that is making power farming in Canada the greatest factor of increasing prosperity since the introduction of the self-binder.

This power farming idea is worth studying at first hand—at the Fair. With a Fordson you can increase your acreage. You can dispense with six horses and hire fewer men.

The Fordson will do every kind of power job on your farm faster, better and with greater economy than it can be done with any other source of farm power.

You can do your next plowing at the rate of 8 or 10 acres in a 10-hour day, with only 1½ to 2 gallons of inexpensive kerosene per acre.

You can do every kind of belt work, including threshing, silo filling, pumping, hay-baling, manure-spreading, running the electric light plant, and every other traction and belt job imaginable.

The Ford Truck solves your hauling problems and the Ford Car your transportation problems. Both of these bring your farm miles nearer the city and your market.

FORD, ONTARIO.

## CONSISTENT PURPOSE IS SECRET OF ORGANIZED LABOR'S POWER

Premier Meighen Accorded Ovation by Labor Congress — Reviews History and Progress of Organized Labor — Terms of League of Nations Principles of Organized Labor—Fifteen of 85 Resolutions Passed — Political Resolution Cause of Heated Discussion.

[By Canadian Press.]

Windsor, Sept. 13.—The feature of the opening day of the 36th convention of the Trades and Labor Congress of Canada was an address at the afternoon session by Hon. Arthur Meighen, premier of Canada, who arrived on a train from the east, considered behind schedule, and was unable to reach the convention until 3:30. He was on his way from Windsor again at 4:15, being away from his private car only long enough to deliver his address. The convention opened formally shortly before 11 o'clock, after addresses of welcome by J. F. Clancy, president of the local Trades and Labor Council; Mayor E. B. Winter of Windsor; Walter Meighen, representing the Border Cities Board of Commerce; W. C. Kennedy, M. P., and Hon. Walter Kello, provincial minister of labor and health, the address of the latter being the feature of the forenoon session.

The congress had just gotten a start on the report of the resolutions committee when four red-coated mounted policemen came unobtrusively through the main entrance to the convention hall, followed by a detachment of city police, and ranged themselves along the back of the hall, and President Tom Moore requested the permission of the delegates to interrupt the proceedings in order that they might hear the premier of Canada speak. He then introduced the premier, telling the delegates that should Mr. Meighen feel it his duty to say anything with which they were not in harmony, it was their duty to give him an attentive hearing.

Premier Meighen was given an ovation as he rose to speak and an attentive hearing throughout his address. After briefly reviewing the history of organized labor on this continent, he intimated that the congress was tending to the improvement of the lot of the wage-earner was by a steady determined movement along lines that have already brought results.

"I am here by the invitation of your committee to address this annual meeting of the Trades and Labor Congress, and my first problem is to determine what line of thought I will follow that will be in keeping with the courtesy of the invitation and at the same time be of some little value," said Mr. Meighen. "I am not a member of your organization—though I claim to be something of a laborer, and that in more fields than one. There was a time, indeed, when I think you would have admitted me to membership, but I suppose my wanderings since have placed me outside the waiting list. Anyway, I want to talk, if you will permit me, as one of your number this afternoon; whatever you may think about it, I do not think there is any big divide between you and me."

"This congress represents organized labor—not all, but a large portion of organized labor in Canada. As I understand the position, it stands in the same relation to organized labor in Canada as the American Federation of Labor stands to organized labor in the United States. Labor organizations as a national institution have existed as long as concerns for about 70 years on this continent. In all that time their aims and their activities have altered some, but on the whole they have altered very little. Their principles were summarized in 1881 at the first convention of the federation of organized trades and labor of the United States and Canada, which met in Pittsburgh in that year. They were stated as follows:

**Organized Labor's Aims.**  
"Legal incorporation, prohibition of child labor under fourteen years, uniform apprentice laws, a national eight-hour law, prison labor reform, abolition of the trust system, mechanics' lien, abolition of conspiracy, a protective tariff, and anti-convict immigration law, all trades and labor organizations to secure proper representation in all law-making bodies by means of the ballot."

"The consistency of purpose with which organized labor has adhered to almost all these objects is one of the secrets of its power. When Samuel Gompers was elected president of the American Federation of Labor in 1886, that body had about 150,000 members. He is president still, and his membership is over 3,000,000."

**Central Purposes.**  
"To put the central purpose of these

## AMERICAN COLONEL GIVES FREE ADVICE TO RHEUMATICS

Says It's Sheer Folly For Anyone To Suffer These Days.

Rheumatism can't be cured so long as your system is weak and rundown. You must first build up and get strength to fight off the disease.

Ferrozone cures because it builds up, because it renews the blood and dissolves the uric acid and the poisons that cause rheumatism.

It is proved right here that Ferrozone does cure.

Col. H. M. Russ of Edwards, St. Lawrence County, one of the fine heroes of the Civil War, was completely restored by Ferrozone. Read his statement:

"I couldn't get around without a cane, and then only with difficulty."

"Rheumatism took complete control of my limbs."

"Suffering was more intense than hardships on the battlefield."

"When my doctor had done his best I got Ferrozone."

"Then came a quick change."

"Ferrozone gave me comfort at once, eased the pain, and took the stiffness out of my muscles."

"I am well today. Ferrozone cured me completely. I can jump and run like I did forty years ago."

Be sensible about your case. If your present medicine is useless give it up.

Don't experiment again. Ferrozone is known on all sides to be a cure that does cure. Why not get a supply today. The sooner you begin Ferrozone the quicker you'll get well. Price 50c per box or six for \$2.50, at all dealers, or direct by mail from The Catarthzone Company, Kingston, Ont.

## "Diamond Dyes" Tell You How

Child can Follow Directions and get Perfect Results

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods. Buy "Diamond Dyes"—the other kind—then perfect results are guaranteed even if you have never dyed before. Drugist has color card.

so long looked forward to by Canadian workmen is administered by the department of labor.

**Employment Agencies.**  
"As a further result of this conference the Government decided in 1918 that the time had come when the system of private employment agencies should give to a government system operating on a much wider inter-provincial scale and without expense or imposition upon those seeking employment. Legislation was introduced and passed enabling the labor department to establish employment agencies throughout the Dominion in co-operation with the provinces. These offices were at once installed, and the result has been pronounced and creditable."

**Over 500,000 Men Placed.**  
"Between the first of March, 1919, and the first of August, 1920, 551,817 men and women were placed in employment through the government offices and all without charge to them. This is at the rate of almost 1,200 per day, and surely this is an achievement whose practical value both to the workmen and to the country is at least worth the cost of its maintenance."

"I want to mention another fact. At the conference out of which the League of Nations was constituted the Canadian representation included a representative of labor. The secretary of the League of Nations, Mr. Draper, the labor conventions were agreed to, and the duty of Canada as the duty of all countries is to seek to make practical progress toward putting in effect its terms by co-operation with the other countries concerned. In this way real progress can be made, and I know no other way in which it can be made."

**Advance Without Reaction.**  
"What is the best way to make further progress? It is by steady, determined movement along these lines that have brought results in the past—by exposing the facts and educating public opinion, by loyalty to your organizations, by subordinating to that loyalty the interests of the individual, by giving your organizations respect and power, by studying the advances made in other countries in order to keep abreast or better than abreast at home, by regard for the rights of others, by fulfillment of contracts, by dependence on the ballot, by seeking success only through the power of public approval. These are the methods, and the only methods that have in the past brought advance without reaction. I believe they are the principles upon which the Trades and Labor Congress has relied, and intend to rely."

**Some Vital Facts.**  
"You tell me, yes, we have been struggling along these lines for years, and we accomplished much, but after all our progress has been slow. I believe there is a wide spread still between the wealth of the few and the poverty of the many. I admit you are correct. But in coming to conclusions on the subject there are some very vital facts to be kept in mind. I am going to ask you to regard yourselves as in positions of responsibility, as indeed, in the ultimate all the people of this country are, and to realize that responsibility want you to give to me, and to the congress, the serious reflection they deserve."

**HOLD OUR PLACE ONLY BY RELIANCE ON INDIVIDUAL ENERGY**

"In the first place, we could never as a nation hold up our end or hold any place at all in the world today except by reliance upon individual energy. If there are any in this country who ever relied upon any communitistic system as possible or practicable or even thinkable in competition with countries that hold fast to the energizing principle of individual energy, they must surely have had their theories rudely shattered by recent experiments in Europe. Where the so-called theory of production for use has been put into practice in substitution for production for profit it has resulted practically in no production at all, and has ended in chaos and starvation."

**Neither Rich Nor Poor.**  
"Secondly, there is a wide disparity between the industry and ability, and especially between the good judgment of individuals—a disparity which no legislation can remove. There are, unfortunately, also varying currents of fortune which legislation at best can only partially control."

"Thirdly, the intervening territory between rich and poor is covered in this young country with a multitude that comprises the great majority of our people. Nowhere in the world is there so large a proportion of those who are neither rich nor poor as there is in Canada; those who stand on the happiest ground of all, the middle-ground of moderate means and comfort. To increase that proportion should be the aim of Government."

**Canada One of Many.**  
"Lastly, Canada is only one nation out of many; it is a young and relatively small nation struggling to make its place in a throng of competing countries. We must make our place and hold our place in the world's industrial progress if we intend to maintain a good average prosperity among our people, to sustain our credit and pay our debts. I am in complete sympathy with you that no place in the world's industrial competition must be secured at the price of injustice to wage earners, and on the other hand, wage earners must also agree that any disability placed upon Canadian industries, as compared with industries in other countries, and particularly in the United States, would react first and most severely upon the wage earners of Canada themselves."

**HOW HAS THE GOVERNMENT SHOWN ITS GOOD FAITH?**

"You ask me now what has the Government done to show its good faith with labor? I will go over some things that we have accomplished, and I will have to do so rapidly, as only a few moments of my time remain. It has taken from the ranks of organized labor a vice-president of one of its largest organizations and has given him cabinet rank. Never has a labor minister in Canada been accorded a more generous confidence from his colleagues and a freer hand in the administration of labor's problems than has Hon. Glendon Robertson. There is no department that requires ability of a higher type. A practical labor man for the first time in our history has been in charge, and after two years' trial I believe the almost universal feeling of Canada is that he has discharged his task with admirable fairness and with extraordinary capacity. He has done honor to the ranks from which he came, and has compelled the confidence of men and women of every class."

**Work in Co-operation.**  
"Senator Robertson's policy has been to work in co-operation with responsible labor organizations and with organizations of employers as well. The Government on his advice has had labor definitely represented on no less than sixteen boards or commissions performing public service. This was done at the request of organized labor, and on the whole it has produced good results. Growing out of a conference with employees and employers in 1918 a scheme of technical education was evolved and \$10,000,000 was appropriated to be spread over the succeeding ten years for better training, with the assistance of the state of Canadian mechanics, and this big undertaking

be done, and much lack of employment as well as lack of labor resulted. Twenty-three thousand skilled workmen have been in this way transferred from one province to another, and consequent unemployment has been avoided. The policy thus established has been requested by labor itself and the past of undoubted value to labor, and, I sincerely hope, will continue to be of service to all."

**LABOR'S SHARE IN LEAGUE OF NATIONS ITS MAGNA CHARTA**

"I want to mention another fact. At the conference out of which the League of Nations was constituted the Canadian representation included a representative of labor. The secretary of the League of Nations, Mr. Draper, the labor conventions were agreed to, and the duty of Canada as the duty of all countries is to seek to make practical progress toward putting in effect its terms by co-operation with the other countries concerned. In this way real progress can be made, and I know no other way in which it can be made."

**MURINE After the MOVIES**  
Wholesome-Cleansing-Refreshing  
When Your Eyes Need Care

this congress went as adviser to the prime minister, and it is no information to this audience when I say that mainly through the efforts of the Canadian prime minister, assisted materially by Mr. Draper, the labor conventions were finally inserted in the proceedings of that conference, and a real and useful step was taken toward the recognition by the great nations of the world of what is now called "The Magna Charta" of labor. To the terms of that labor convention this government and the other governments joining in the convention are bound. You know what those terms are. You know they are cardinal principles of organized labor."

**Only Way to Advance.**  
"The only way in which advance can be made toward their adoption is by the concurrent progress of great industrial nations along the lines set down. A first and a big step was taken when those labor conventions were agreed to, and the duty of Canada as the duty of all countries is to seek to make practical progress toward putting in effect its terms by co-operation with the other countries concerned. In this way real progress can be made, and I know no other way in which it can be made."

No government can bring about equality or uniformity of wealth without bringing

disaster to all, but the aim of government should be to bring about equality of opportunity. By the principle of equality of opportunity the present Government will steadily abide. Every citizen who has the energy and ambition should have a chance to earn and receive adequate compensation for service rendered. Do not forget as well that after compensation exceeds the value of service rendered stagnation of industry and unemployment are bound to follow."

**Credit Basis of Industry.**  
"Credit is the basis of industry and commerce, and the credit of a country and of its industries is maintained in

proportion to the security of property which is the reward of industry. Capital we need in Canada, and the more capital we have invested here the more plentiful employment will be, and capital will come if we have comparative industrial peace and progress. The co-operation of workmen is therefore vitally important to themselves and to the nation."

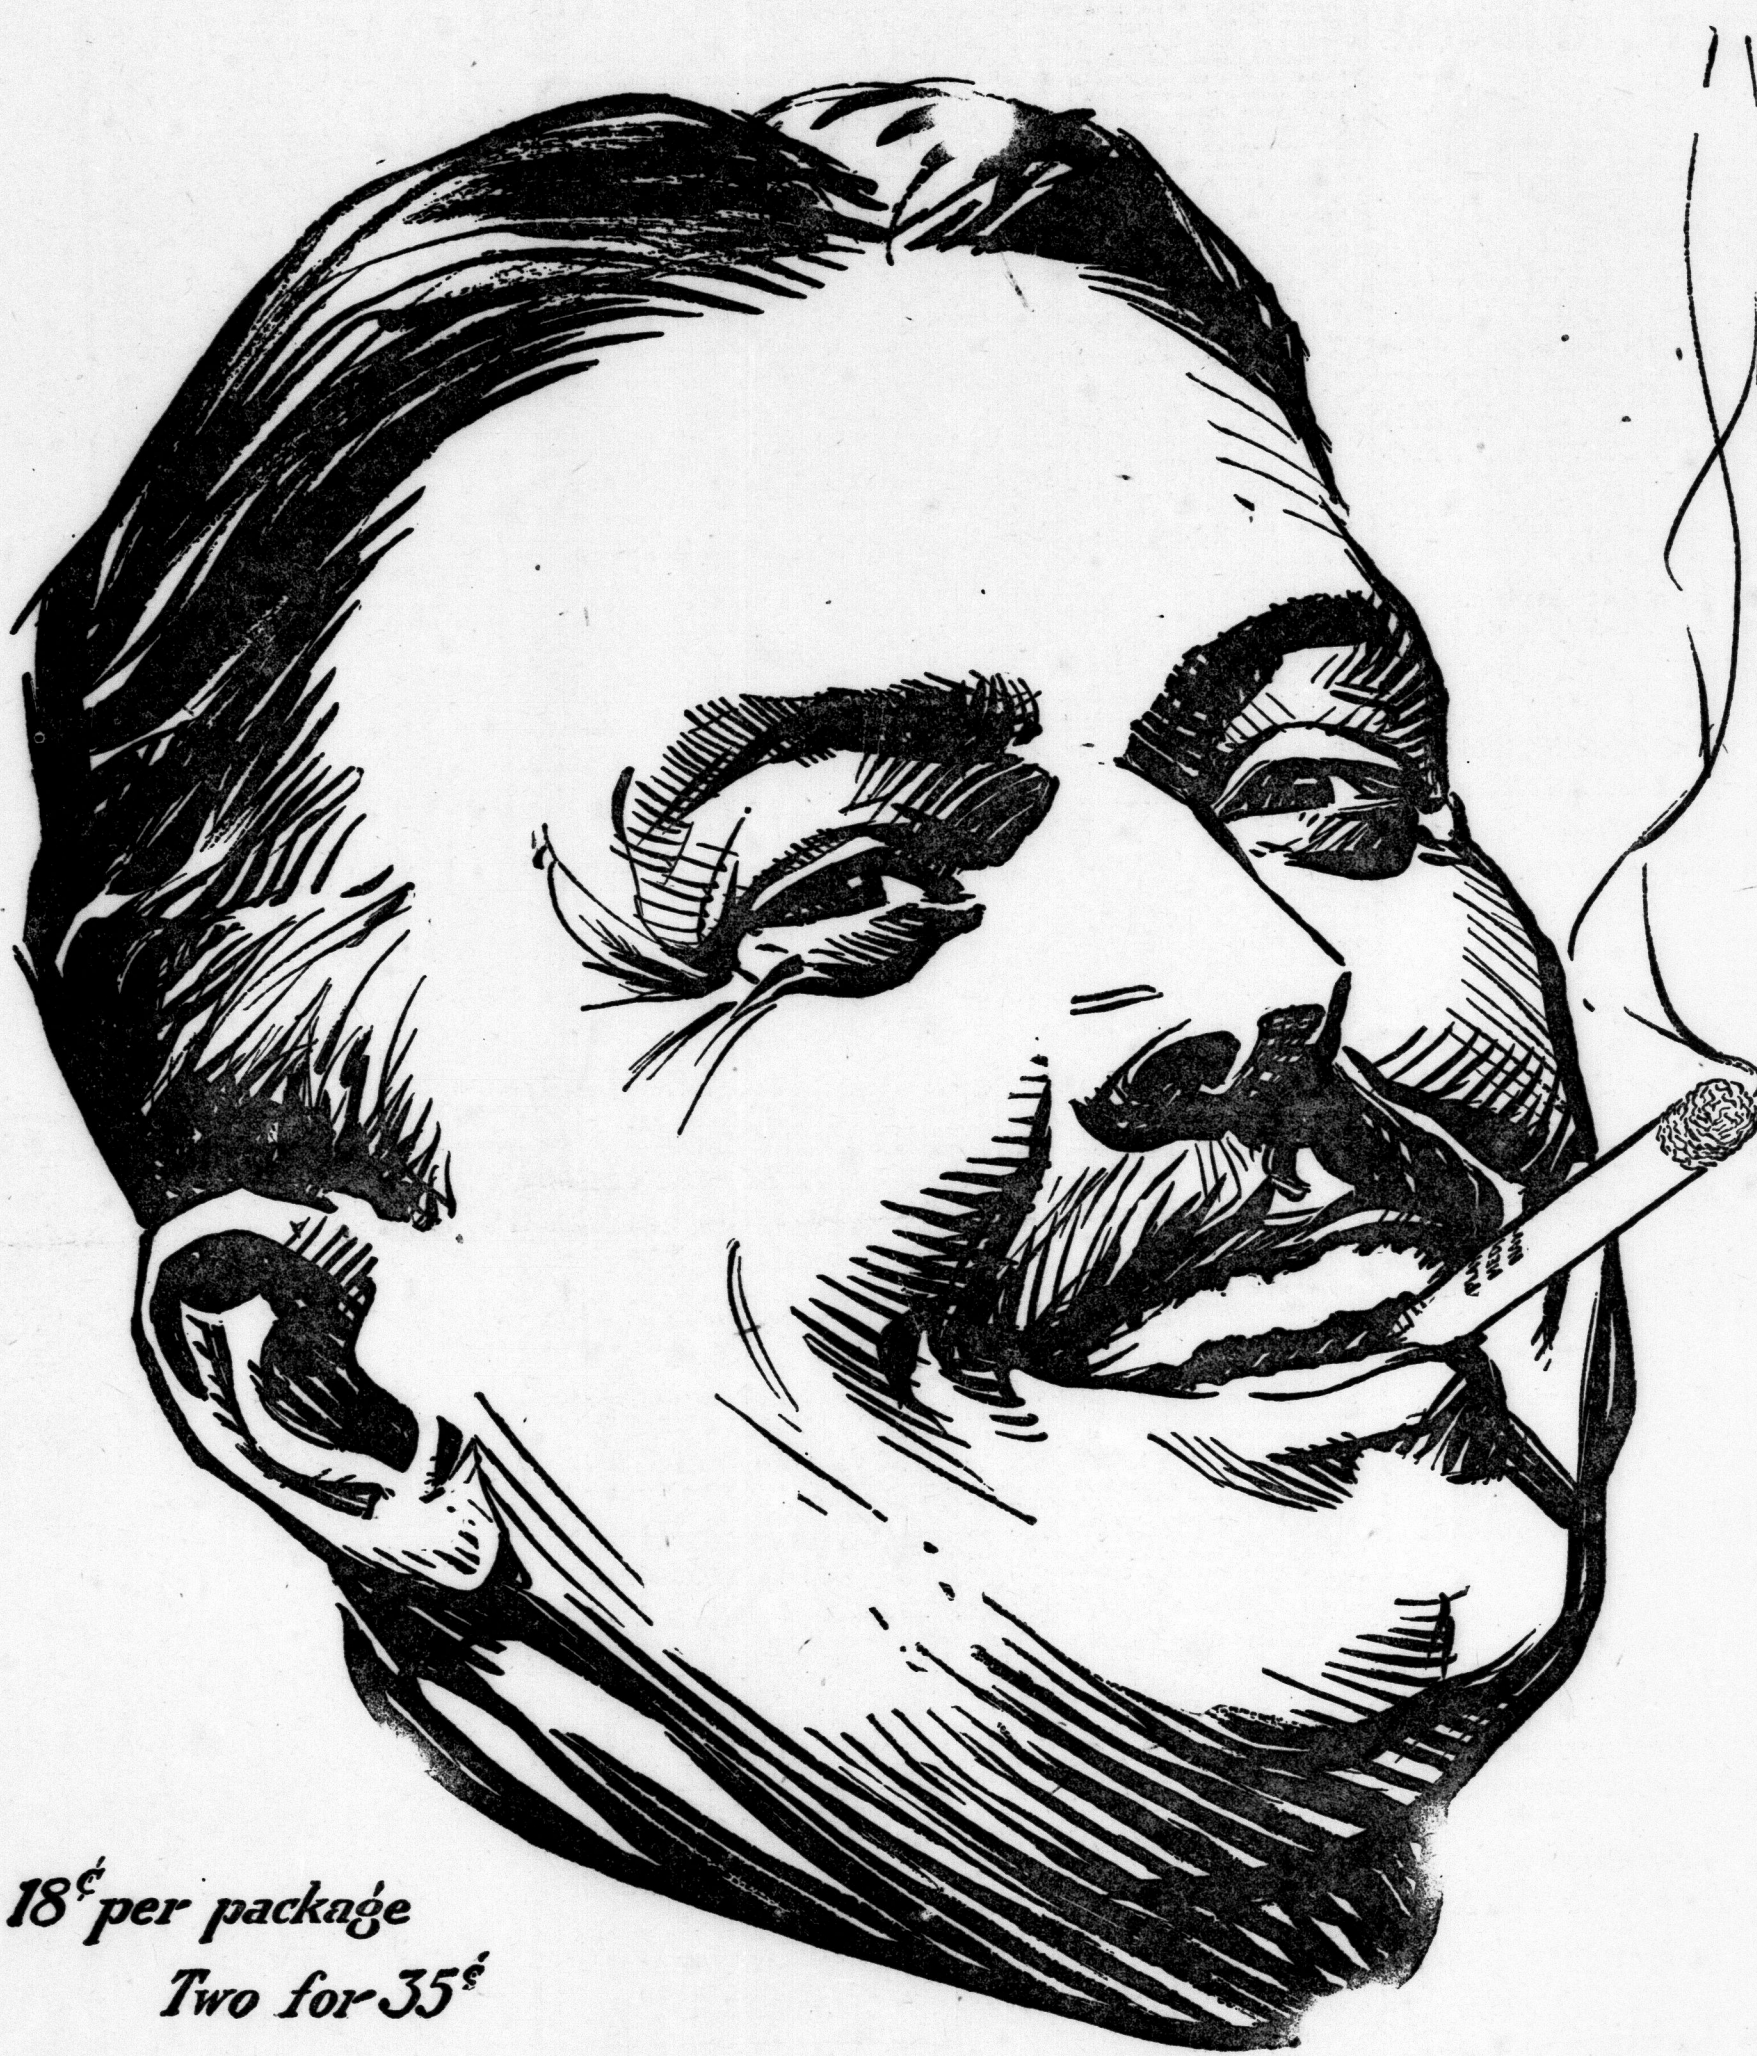

**Must Protect Community.**  
"Workmen who are anxious to advance their own interests cannot afford to ally themselves either industrially or politically with those forces which seek to introduce into Canada policies and ideas which have brought destruction, misery and death wherever they have prevailed. The Government of this country has steadfastly set its face against those influences abroad in this and other lands that aim to destroy respect for constituted lawful authority, civil and religious liberty, property rights and family relations."

The Government of Canada does intend that labor organizations come safely and reasonably will command and receive the respect of the public. The Government's duty is to protect the whole community against dictation Continued on Page Ten.

## LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! it is harmless.

## CHILDREN'S DAY

Continued From Page Five.

reproduces all classes of piano music so perfectly that it is indeed worthy of a high place in the world of music. The Wright Company has been manufacturing pianos in Stratford for fifteen years. While its factories are perhaps not so pretentious as some of the greater firms, yet this very thing is its own advantage, for each instrument is built up with all the personal care and individuality which goes to make the truly great piano. That they accomplish this is shown by the steady growth in the number of the users of this piano, and one has only to hear to believe. No one should fail to hear the piano played by one of the several demonstrators. The Wright Piano is sold at 552½ Dundas street.

### SAMSON TRACTOR EXHIBIT.

A great deal of interest is being manifested in the Exhibit of the Samson Tractor Company of Canada, Limited, from Oshawa.

This is the first year this company has exhibited and they have a splendid display in a large tent on the Fair Grounds. The Samson Tractor is made in Janesville, Wis., the home of the parent company. It is a General Motors unit and a Canadian company has been incorporated with main offices at Oshawa. The Samson is a light four-cylinder tractor which has every promise of finding a wide sale in Canada. The firm Wisconsin have been working on large production schedules for the past eighteen months and have produced and sold an average of one hundred and sixty-five tractors per day. They are increasing their manufacturing facilities, and so will send to the Oshawa firm a monthly quota which is being contracted for among Canadian dealers. It is the intention of the principals of this company to manufacture the Samson Tractor in Oshawa, but at the present time there is no duty on tractors so it seems expedient to keep down the cost and manufacture at Janesville. Another interesting feature of the Samson exhibit is the Samson Truck in three-quarter ton and ton sizes. This truck has many novel features that will make instant appeal to the farmer who wants to motorize his household problems. The front and steering column are beside the motor so as to give fully one-third more box space than is afforded by the average motor truck. This feature not only gives the farmer more room for his produce, but divides the load up more evenly, which makes for more effective hauling.

The front wheels are provided with flanges and the rear wheels with flanges and grippers which are used when it is necessary for the truck to go over fields or muddy or slushy roads.

The Samson Tractor Company is to be complimented on their enterprise in designing a truck that will give service on the average Canadian farm. The other exhibit consists of the Samson Iron Horse, which is a small tractor that will take one or two plows. It is built for doing all odd jobs around the farm, and will go between two rows of corn. It is provided with rubber like the team of horses. It is not the intention of the company to market this machine until next spring.

Then the Samson Tractor Company is showing a fairly complete line of implements, such as disc harrows, cultivators, etc. It will pay any farmer to spend an hour or so with the Samson exhibit.

### MCLAUGHLIN EXHIBIT CENTRE OF ATTRACTION IN TRANSPORTATION BUILDING.

The complete line of the Master Six McLaughlin models consists of seven body types, three open and four closed models. While they retain the traditional lines that have established the McLaughlin as Canada's Standard Car, improvements have been added to increase their convenience and the long life of the cars.

In the new models, the clutch can be readily adjusted with a wrench beneath the floor boards. It is no longer necessary to get under the car to drain oil from the crank case. The water may be drained from the radiator by turning an extended handle placed within convenient reach. In the closed cars, the batteries are very accessible, a door provided in the floor bears over the battery box. The new Master Six Roadster, 21-44, is distinctly new model. Remarkable as it would appear, they still possess the characteristic McLaughlin appearance. Altogether, the seven new McLaughlin Master Sixes present a very pleasing display.

### NORDHEIMER PIANO SHOW.

The House of Nordheimer, the oldest music house in Canada, needs no introduction to the public, it having for over three-quarters of a century received the indorsement of professional musicians, and in turn has been indorsed by the Canadian public. The recognition of the quality of the Nordheimer piano, and the policy of the House of Nordheimer is now nation-wide. Never before have the people of the Western Fair had the privilege to gaze upon a more imposing display of Nordheimer craft and workmanship. The exhibit includes some of their usual styles and finishes of pianos, the beauty and rich tone of which are at one apparent to all. Those who have had an opportunity of visiting the display have noticed with pleasure the new, unfinished mahogany of the same size. This is the newest model out, and all young couples who are thinking of getting married and going to live in an apartment house should certainly come and inspect this new style. This finish is practically new, and its beauty assures for it a popular place among Nordheimer's already famous pianos. The outstanding feature of the exhibit is the Windsor Art Model, mahogany-colored Aeolian Vocalion. This is an instrument whose architectural beauty and wealth of tone make it a cherished treasure to those who possess it, and the envy of all those whose ambition is to obtain all that is great in musical expression. Many other fine designs of record instruments are on exhibit.

### UPTON JAMS AT FAIR.

One of the finest exhibits in the Pure Food Building is that of the Upton Company, Ltd. of jams, jellies, and marmalades. The exhibit is placed by S. H. Moore & Company of Toronto, the agents. A big feature of the exhibit is the pineapple marmalade. Samples, which were distributed on small cakes to the interested spectators, apparently went to the right spot. The new delicacy is sure to make a hit with the citizens of London. The booth is very attractive with innumerable bottles of various colored jams. For afternoon tea or a dainty luncheon nothing will please the guests more than some of the famous brands of jams or marmalades exhibited at the S. H. Moore booth. Along with the exhibit of jams and marmalade is that of the Canadian Nut Company, manufacturers of Squirrel Brand Peanut Butter. There is a wonderful food value in this particular brand, and it is indorsed by physicians as a great body-builder for the children. They are sure to love it and nothing can be found more beneficial. It is manufactured in Vancouver, where the choicest of Oriental nuts, of which it is made, can be found. They are blanched and then hand-picked. It is put up in sanitary, air-tight tins in most suitable sizes for family use.

### THE HYDRO SHOP AT FAIR.

The large central booth in the annex to the Crystal Palace is devoted to the exhibits of the Hydro-Electric Company or "The Hydro Shop." Here may be found on display every kind of electrical appliance to aid the housewife and make the home more attractive. At the booth are experts in electricity and in running these new devices that, in order that every home be complete, these are an absolute necessity. They explain the use and the advantages of these appliances and the visitor is offered a most comfortable seat during the interview.

### CONSISTENT PURPOSE

Continued From Page Nine.

from any section, whether of employers or employees.

"I hope and believe that the established policy of the trades unions affiliated with the Trades Congress of Canada is in keeping with those views, and I say to you: Guard and honor the integrity of your organizations, win by merit the respect and confidence of public opinion and you cannot fail of reward."

Mouthpiece of Labor. Previous to the arrival of the prime minister and after his departure the report of the committee on resolutions was taken up, and 15 of the 85 were concurred in with but little controversy, but on adjournment for the day at 5:30 a heated discussion was proceeding over one from the Brotherhood of Painters and Decorators of America, Local No. 200, of Ottawa, which stated that:

"Whereas the Trades and Labor Congress of Canada claims to be the mouthpiece of organized labor; and whereas, it has been the custom to interview the powers that be in the position of begging; but in hand, to enact legislation; and whereas, Congress has grown to manhood and self-respect; therefore, be it resolved that this congress meeting at Windsor go on record that the time has arrived

you are not exempt from paying when you use Dr. Chase's Ointment for Eczema and Skin Irritation. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this advertisement and send 2c stamp for postage. Enc. a box; all dealers or Edmondson, Bates & Co., Limited, Toronto.

### DOMINION CANNERS' EXHIBIT.

In a booth, where red toothsome jellies sparklingly reflect light pouring down through a green-streaked canopy, the Dominion Canners have placed on exhibition several of its outstanding lines of good things to eat. The exhibit is located in the centre of the Pure Food Building at the Western Fair. Prepared to meet the eye of fastidious women who themselves are pastmasters in the culinary art the display is well worth seeing, and the several lines are well worthy of one's acquaintance. One of the great features of the display is the Dominion Sea Shell Maccaroni. This is something new in this class of food. Made in the form of tiny sea shells it does away with the long-embarassing sticks. A new tomato soup is also being shown as one of the company's features. There are also pork and beans and catsup which look more than tempting. Many classes of jams and jellies are also on exhibition.

### MCCORMICK HARNESSES SHOW.

If one cannot imagine that exquisitely wrought toilet articles in ivory and ebony could find a place in a store where heavy harness and solid leather goods are sold, one needs only to see the exhibit placed in the Western Fair by James McCormick to be convinced that such an arrangement is by no means incongruous. In a booth which is located on the ground floor in the eastern section of the Crystal Palace, the mural decoration of which is show harness and other trappings, can be found a display of high-class toilet articles which has been rarely equalled in this city for quality. Enclosed in heavy glass there are solid ivory manicure sets, brushes, mirrors, combs and all other articles which may be found on a lady's dressing-table. There are also ebony backed articles for gentlemen. In the leather goods divers styled purses and solid club bags feature. There are also many suit cases, trunks and wardrobes. A heavy set of harness bedecked with solid nickel and with nickel names is a feature in the harness exhibit.

### FEAR HEAVY RAINS MAY DAMAGE CROPS

FREDERICTON, N.B., Sept. 12.—With 2½ inches of rain having fallen yesterday and the total rainfall the first 12 days of September amounting to 4.62 inches, conditions as a result of the heaviest fall rains for some years are becoming serious in Central New Brunswick.

Root crops are rotting in the ground, and oats which were cut a week ago in some sections are still lying in the fields and will be seriously damaged. Grave fears are expressed as to what affect the continued rains will have on the potato crop.

### TRIAL FOR LEADERS OF THOROLD RIOTS

TORONTO, Sept. 15.—Information against the alleged leaders of the McNeil riots at Thorold last month were laid by the attorney-general's department this morning. The names of the defendants were not available. The accused will be tried before the magistrate at Niagara Falls this week.

### CURES A COLD QUICK AS WINK!

Easy as Rolling Off a Log To Stop a Cough or Cold With "CATARRHOZONE"

No more medicine for the stomach—that isn't where your cold is lodged. Just breathe in the healing vapor of Catarrhzone—a soothing, healing medication that acts instantly. Colds, sore throat and catarrh fairly flee before Catarrhzone. Every spot that is congested is healed. Irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhzone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhzone. All dealers sell Catarrhzone, large size, which lasts two months, price \$1.00; small size, 50c; sample size, 25c.

### "DANDERINE"

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

## The BlueBird Story In a Nutshell

Continued From Page Nine.

ONE woman stood at the Exhibit of the BlueBird Electric Clothes Washer. She watched intently a demonstration of clothes washing "The BlueBird Way."

Finally she said:

"For a good many years I have washed clothes over a scrub-board. I have spent hours in steamy, damp air, with my back fit to break. Washday was the bane of my life, but week in and week out it had to be faced, and I often used to wonder if there was not some way in which the terribly hard work of washing clothes could be abolished."

"Since I got a BlueBird Washer it actually seems as if I had been released from slavery, and I think if you would only point out to the women that the BlueBird not only washes all kinds of articles as clean as can be, but actually pays for itself by the way it saves the wear and tear on them, that you would hardly be able to make enough BlueBirds."

That is the

BlueBird

story in a nutshell.

To women—and to men who object to their wives doing the distasteful work of scrubbing clothes the BlueBird is one of the important exhibits at the Fair.

Performances.

THE TALK OF WESTERN  
ONTARIO

That startlingly unusual, unex-  
pected photographic record of the  
hair-raising adventures of two in-  
trrepid cameramen who were

**SHIPWRECKED**  
among the  
**CANNIBALS**

DID YOU KNOW—  
That cannibals fight tigers with  
only their hands and feet.  
That cannibals can increase their  
height more than 24 inches?  
Indorsed by the Boards of Educa-  
tion of Toronto, Ottawa and On-  
tario. It is strongly urged that no  
woman or child should miss the  
opportunity of seeing this ex-  
ceptional and interesting film of a  
people we know little or nothing of.  
School Children's Matinee  
Daily, 4:30.

## TORY MINISTER UNDER SCRUTINY OF TWO COURTS

Timber and Election Probes Both Delve Into Ferguson's Past.

PAID SHOT AT DINNER

Witness Says That Ferguson Bought a Meal For Those At Convention.

PRESCOTT, Ont., Sept. 13.—(By Canadian Press.)—Almon Cook, Spencerville hotelkeeper, paid Mrs. Kathleen Bellinger \$2 after she had told him she voted for G. Arthur Payne, U. F. O. defeated candidate in South Grenville, though he (Cook) was a supporter of Hon. G. Howard Ferguson, who was elected; Hon. G. H. Ferguson paid for the dinner of those attending the convention at Spencerville on October 6, 1919; John Boyd, Merrickville, paid \$5 to one Levin Matte on election day, 1919, but claimed that this was to liquidate a debt incurred three or four years before, and he also paid \$7 to a young man named Roche to drive some 20 miles and ask a number of Liberal voters to vote for Ferguson, since there was no Liberal candidate in the field.

These occurrences were described in evidence given at the hearing today of the election appeal against Hon. G. Howard Ferguson, almost a year after he was elected. The case is being heard by the Supreme Court of Ontario at the appeal and counter-appeal. Counsel taking part include W. N. Tilley, K.C., W. H. Price, M. P., and H. A. Stewart, for the respondent, and George Waldron of Toronto for the defeated candidate, G. Arthur Payne.

Many counter-charges. The charges are very numerous and counter-charges plentiful. Something like 200 witnesses, including many men voters, have been subpoenaed, and the witnesses, in themselves provided quite a large audience to follow the proceedings. The case seems likely to last all week.

Proceedings were delayed today by non-arrival of the judges, whose train was late, and it was 4:30 in the afternoon before the first witness was called. The court sat until 6:30, and will resume at 9:30 tomorrow morning.

Ferguson from all parts of the riding, many of them with their wives and families, were in town all day, and are following the proceedings with a lively interest.

The first witness, Almon Cook, a Ferguson supporter, raised a laugh when he told of driving a Mrs. Bellinger to the polls and having paid her two dollars after she told him she voted for Payne. Mrs. Bellinger said she had told Cook whom she had voted for, he said "You have done well, Kate," and handed her two dollars, and then drove away.

Cook's evidence was also that some men attending the convention at Spencerville, where Mr. Ferguson was nominated, had their dinner at his hotel, and Ferguson paid the bill. The total receipts that day were \$85, against an ordinary "good" day's takings of \$35 to \$40. Witness did not know how many meals Mr. Ferguson paid for.

**Drove For Prohibition.**  
John Boyd, a later witness, said he had paid a non-voter \$5 on election day to discharge a debt. He drove both Ferguson and Payne voters to the polls, if they voted for prohibition, which he was working for. He also paid a lad \$7 to do some canvassing.

Before witness was called Gordon Waldron produced a new list of charges, in most cases against unnamed agents of Mr. Ferguson, charged

ing the payment of money to induce voters to support Mr. Ferguson's candidature. These are being proceeded with in conjunction with the other charges, as many of the witnesses are alleged to have knowledge of more than one incident of alleged wrongdoing.

There was a little excitement just as court closed, when a large number of the Payne witnesses pressed forward round the table, demanding their fees for tomorrow in advance. A promise of payment soon brought peace, however.

**SPECIAL TRAIN SERVICE ACCOUNT**  
WESTERN FAIR, LONDON, VIA CANADIAN PACIFIC RAIL.

For the accommodation of passengers attending the Western Fair, the Canadian Pacific Railway will run special trains, Chatham to London and return September 15, leaving Chatham 7:30 a.m., stopping at all intermediate points and arriving London 12:30 p.m. Another train will leave London 12:30 p.m., arriving Chatham 12:30 a.m., making all local stops.

For passengers east of London extra coaches will be put on regular trains into London, and on September 15, special train will leave London 12:30 p.m., for Galt and intermediate stations. For further particulars apply H. J. McCallum, city passenger agent, London, or Canadian Pacific Railway ticket agents.

**BLOWN TO PIECES**  
**DYNAMITING FOR FISH**

OTTAWA, Sept. 13.—A special to the Ottawa Journal says: "Original says: While dynamiting for fish in the Ottawa River near here on Saturday, Henri Coumette, a returned soldier, aged 24, was instantly killed when in some unknown manner a powerful charge of the dynamite exploded in his fishing boat. Though Coumette was alone in the boat many of the villagers, who were watching to see what luck he might have, saw the terrific explosion, which blew his body to atoms. Searching parties have only succeeded in finding several buttons which belonged to the unfortunate man's clothing.

**STEAMER ARRIVES.**  
ST. JOHN, N. B., Sept. 13.—Arrived: Tern schooner Bona H. New York.

**ACIDS IN STOMACH CAUSE INDIGESTION**  
Create Gas, Sourness and Pain—How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck's Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck's Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advt.

## BLUFF ABSENT FROM ATTITUDE ON MACSWINEY

Both British Government and Irish Reiterate Determination.

LONDON, Sept. 13.—Assurances that there is no element of bluff in the respective attitudes of the British Government and the Irish Nationalists relative to the MacSwiney case were obtained from responsible sources of each faction by the Associated Press this afternoon.

"If the Sinn Feiners think we are biding our time and will capitulate when MacSwiney's condition requires an eleven-hour action in order to save his life, they are mistaken." This characterizes the British official view as expressed by the correspondent.

"There can be no question about our desire or intention of having Lord Mayor MacSwiney recede from the tragic stand he has taken," declared an official at the London headquarters of the Irish Nationalist organization. "If he is not released voluntarily by the Government he will most certainly go down in history as the first Irish hunger-striker to perish in an English prison."

**Divulges Nothing.**  
In dealing with the MacSwiney case, the home office, which controls the prison commission, has all along strictly adhered to its policy of divulging nothing about the prisoners. But it became known today that some of its reports from the bedside of the hunger-striker have been surprising. Ten days ago the officials believed that a new Irish crisis was imminent, when the prison physicians reported that the long mayor could not live more than 36 hours. Since then the doctors have declined to predict but have confined themselves to what they believe to be the actual condition of the prisoner.

**METAL WORKERS ARE KILLED BY ENGINEER**

TURIN, Sept. 13.—Unknown persons fired several rifle shots yesterday into the villa of Signor Dibenedetto, engineer of one of the metal works here. The engineer replied to the fire with his revolver and killed two persons, only one of whom has been identified. The police arrested Dibenedetto. The workmen evacuated the plant.

**STEAMER DESTROYED BY FIRE ON ATLANTIC**

ST. JOHN, N. B., Sept. 13.—Nagle & Wigmore have received a cablegram advising that the tern schooner Clarence A. Moulton, Cape Breton for Nantes, France, with a cargo of coal, has been destroyed by fire at sea. The crew were saved. They also have a message from the master of the tern schooner Maid of Brazil, stating that she was put into Cherbourg, France, with her cargo of coal afloat. She was on passage from Cape Breton to Rotterdam.

**FELL FROM CORNICE.**  
GOBERICH, Sept. 13.—While painting the cornice at Mayor Wigle's house today, Arthur Smezel fell to the ground. He was rushed to the General and Marine Hospital, where it was found that one of his collarbones and several ribs had been broken.

*At the close of the day when the physical and mental man craves refreshing entertainment Music lullabies a peaceful rest—The Old Master*

**W. McPHILLIPS**  
Limited.

"THE MUSIC CENTRE"

**PIANO and PHONOGRAPH Headquarters For Everyone**

People in all walks of life come here to select their Musical Instruments. The artist who insists on the finest instrument that it is possible to procure—without regard to cost—finds the Piano or Phonograph of his choice at McPHILLIPS.

The man of moderate means who can afford to invest only a limited sum—but who is anxious to bring to his little home the joy and happiness of music—also finds here the Piano or Phonograph of his choice.

It matters not how much or how little you want to invest in an instrument—come to McPHILLIPS and you'll find the finest instrument at every price level.

Gerhard Heintzman, Martin-Orme, Gulbransen, Wright—noted Pianos and Player-Pianos which can be purchased in London only at W. McPHILLIPS.

We present in our Phonograph Department not only the largest stock in Western Ontario, but the widest selection and range of prices—the New Edison, the McLagan, Columbia Grafonola and Edison Diamond Amberola.

**To Exhibition Visitors**

Our display of Pianos is in the Main Building and our showing of Phonographs is in the annex.

You are invited to hear and inspect these famous instruments.
