## ENGINEER HAS REPORTED

The Civic Official Submits Statement to the Board of Works Meeting.

Has looked into many matters referred to him, with which he deals fully.

The Board of Works met in Harrison Hall last evening. Among other things the Clerk was instructed to communicate with Lynch & Lynch and notify them that the King street pavement was in need of repairs.

The following is the engineer's report: Chatham, June 28th, 1901.

The Chairman of the Board of Works, Chatham.

Gentlemen—I beg leave to submit the following report of work done since our last return and also several recommendations which I trust you will see your way clear to adopt.

Re petition concerning Hock—I am of the impression that the gentleman who presented the petition did it with the best intention in the world. I am strongly inclined to think he presented the said petition to the wrong committee as you are aware, we represent the Public Works Department of the city of Chatham. I might say that Hock has been cutting weeds on the street immediately before and also since the said petition was presented.

Re Chatham Navigation Company.—Have not had time to look into this matter fully. Will report further on.

Re Hock Bros. request.—Have examined the sidewalk in the neighborhood and am of the opinion that the whole block will require a sidewalk and thought that probably it would be as well to submit the result of my examination to your Board in case you should decide on cement.

Re McKenough & Trotter's account of \$4.40.—I have been unable to arrive at any decision in this matter as I have not been in position to ascertain what the money was paid for, but will do so in the immediate future.

Re Kelly's ditch on Park avenue.—Have instructed foreman to proceed at the same as quickly as he can get his men disengaged from their present work.

Would recommend two cement crossings to be placed without delay at Centre and Park streets, one at William and Stanley avenue and one at Centre and School streets. Would recommend your Board would have meters placed on all lawns and gardens in the city of Chatham without delay, as in my opinion the amount of water placed on these lawns, which are already saturated, proceeds at once to run under the road bed, consequently keeping the curbs wet all summer and when they are required to take any more than the average amount of water in the fall, there is no room for it.

The following work has been executed since last report:—

Raised six catch basins on Centre St. graded street to a uniform level preparatory to placing Macadam bottom. Graded all gutters to catch basins as to produce all possibility of water lying on the said gutters. Cut curbs both sides of Harvey street from Wellington to Lacroix, also cut curb from Fifth street to Lacroix, on Wellington. I am now taking old boxes out of gutters and using them as repair wood for crossings, etc., and where needed have replaced them with cobble stone gutters at an easy grade to approaches. Have not been able to get in as many approaches as I would have liked to have done, owing to the difficulty in obtaining men who know how to cobble, and my force is small, but will have them in shape in the course of a week. Have already paved two of these approaches on Harvey, two on Wellington, and one of Llewellyn. Have removed weeds where needed, as my lightning manipulating weed movers could get along. Finished extending Adelaide street sewer. Have hauled earth to fill holes on Wellington west. Repaired several wooden walks, placed several loads of old boxes taken out of the gutters in the city's yards.

The steam roller and scraper have purchased honors and counterfeit coins are ever subject to suspicion.

## MISSION BAND

Splendid Program Rendered at the William Street Baptist Church Last Night.

The closing exercises of the Baptist Church Mission Band were held last evening in the Sunday School Hall. A good crowd was present, but not what the concert deserved. Those who took part were Harry Horsted, Miss Nellie Emery, Miss Gertrude Mae Swan, F. Phelps, Miss Alice Humphrey and Miss Mabel Watson.

The ability of all these artists is well known and nothing further need be said of them than that they excelled themselves last evening. The selection by the children of the Mission Locomotive, which the children giving little speeches on the different parts of the engine to bring out the fact that the engine was of no use without the steam, so any Christian organization is of no use unless enthused with Jesus Christ. An illustration had been drawn on cotton of the locomotive and colored by David Moore, of the Chatham Mfg. Co., and Mr. Moore deserves a large share of credit for the way in which it was done.

After the concert cake and lemonade were served.

Mrs. Swan and Miss Sainsbury, the directors of the evening, might well feel proud of their success.

Purchased honors and counterfeit coins are ever subject to suspicion.

trimmed the following streets since last report: Rolled Queen street pavement, scraped Cross street, Jeffery street, Lacroix, Murray, King West, and Windsor Road, to city limits. Prince street over Creek Church, Princess, Raleigh, Grey, Lorne Ave., Kirk street, First and Second streets, Llewellyn street, Fifth street, Edgar street, Park Avenue, Duluth, Dufferin avenue. Have laid sewer in front of Harrison Hall on Fifth street, to catch basin shallow, so at any time you put a sewer or pavement on Fifth street, this pipe can be easily raised and used for other purposes. Cleared curb on School street, have banked walk on Park street, laid extension walk on Colborne street at city limits, cut curb on both sides of Grand street and part of Joseph. Hauled earth to fill low places on James street, also graded School St., similar to Centre street. An estimate of stone required will be furnished later, with a view to macadam bed or brick rubble in the near future. Cleared curb on Richmond street. Would further recommend catch basin basin be placed on the east side of Duke St. near King to connect with King street sewer. This portion of the city has no outlet for surface water, and must necessarily be flooded at high water. Placed catch basin on Barrie street, P.S. corner of Victoria avenue. Repaired crossings on Wellington and Queen, one on Queen at Edgar, broken by circus wagons, repaired walk and platform at Police station. Yours, etc., J. D. McNAB.

P. S.—I further recommend that trees on all public thoroughfares be trimmed to admit air and sunlight. J. D. McNAB.

## IN THE COUNTRY

Very Enjoyable Social at Huffman's Corners to Which Chathamites Contributed.

## RESERVE TUESDAY NIGHT.

In view of the fact that so many excursions, church entertainments, and other attractions were billed for last evening, it was deemed advisable to postpone the proposed meeting to initiate the Chatham Old Home Reunion until next Tuesday evening.

This was wise. In the organization of this project there should be a full representation from this community. Only by hearty co-operation all down the line can it be made the success its character demands it should be.

Every citizen who desires to see the successful culmination of the Reunion should be on hand Tuesday evening next.

## WHAT WORK WILL DO.

"Honor to whom honor is due." The well-attended and financially successful excursion to Port Lambton under the auspices of the non-coms. of the 24th Regiment proved such owing to the enthusiasm, activity and energy of three young officers. Three days ago Sergt. Major Geo. Embury, Staff-Sergt. R. L. Brackin and Sergt. W. A. Coltart took hold of the project and devoted themselves to it. It's success is a tribute to what can be done by even a few earnest, working individuals.

The excursion was perhaps a small and sectional enterprise but the success of the young men has its lessons. How many commendable projects and enterprises in this city are allowed to drop owing to the lethargy of the promoters, while conservation and effort—poor by a few—is never turned to poor account.

Whenever there is a project before the citizens for the advertisement or development of Chatham support and further it, with heartiness, enthusiasm and indomitable energy.

## Your city will show the benefit.

## AWFUL NIGHT ON SHIPBOARD.

The narrow escape of the passengers of the Lusitania from a watery grave is overshadowed by the still narrower escape of the weaker ones among them from an even more terrible death at the hands of their fellow passengers. It is difficult even to imagine the hideous scene of ignorant and cowardly barbarism which was only averted by the magnificent courage and presence of mind of the officers and crew. On the one hand were some hundreds of panic-stricken foreigners, who, with the cruelty of selfishness, were trampling their own wives and children under foot in their mad rush for safety. Facing the wicked knives of those barbarians was but a handful of British seamen armed for the most part with a simple handspike, striving to save women and children from the selfish brutality of their own husbands and fathers, and from their own destruction. Had this handful of heroes been untrue to the traditions of British seamanship, or had their strength or courage failed them, and this mob of "baser breeds without the law" prevailed, the consequences are too fearful to contemplate.

## SMIFF'S INDIGNATION.

When he sees the fool governments of this Canada of ours refusing or neglecting to do something to take advantage of Canada's natural wealth, Brer Smiff of the Bobaygon Independent waxes wroth and says:

The people of Canada own enough spruce to supply the entire world's demand for paper, and to realize sufficient profit on the business to maintain the whole body of the Canadian people in comfort, affluence and ease. But they give their spruce away! A short pause is here necessary whilst this great journal essays itself by making some remarks that are not suitable to put in print. Yes, the Canadian people who own the spruce, instead of using it themselves give it away to others.

We are the Canadian people. We've got the spruce. We've got the water power. And, by jingo, we've got the money, too. Nevertheless, we don't use spruce or water power, but hand both over to Yankee capitalists of the Rockefeller, Gould, Vanderbilt, Morgan, Carnegie description. Oh, scott! Oh, holy O'Malgarnie! Nor is that all. The governments, to keep up the price of paper so that the holders of the spruce may make a greater profit, put an importation tax on foreign paper and won't let it come into Canada until it has paid duty! Here, carry this journal out into the cool air; it is completely overcome by its reflections on the hopeless stupidity of the Canadian people. Pulp. Pulp. Why, the Canadian brains are pulp.

Yes, we're quite in favor of shorter sermons in our sanctuaries, during the sultry summer solstice.

Woodstock will make her debut as a Canadian city on Monday. We wish for her a successful "coming out."

"Patriot" Paul Kruger says his Lord will deliver his country in his own good time. But the old gentleman exhibits a preference for Europe till the good time comes.

Joseph Chamberlain repeats his statement that a seat lost to the Government is a seat gained to the Boers. Joseph may be a great statesman, but apparently he is not above the methods of the small-potato politician.

The pastor of the William street Baptist church announced that 15-minute sermons would be the order during the sultry summer Sabbath. The decision does Rev. Mr. Ross credit and will, it is to be hoped, also be adopted by other city pastors.

Whitney is to have three provincial machines to "organize frequent conferences, help the party nominees, and so forth." What does the "so forth" cover?—Hamilton Times.

The "Liberal" thrashing machine and secure evidence of its works in the several ridings.

The war editor of the Buffalo Express must be off on a holiday. Here is the first pro-British paragraph we have seen in that journal since the South African war began.

The Boers flogged a member of the Cape Colony assembly who voted for the treason bill. The British have allowed anti-war meetings to be held in London without interference. The British are several points ahead in toleration.

## THE GRAND CLIMACTERIC

At What Age Is Our Best Literary Work Done?

The old discussion concerning the age at which the best literary work is done which is going on again, recalls to the editor, Current Literature, the story of the ambitious writer who proved to his own satisfaction that the full fruition of human brain-power was reached in that year which was 58 when he wrote his great work at the proper time only to have it received with contempt. What to him was a mystery was solved when he discovered that his birth certificate had by mistake been two years post-dated, so that in reality he had allowed his best year to pass. The editor goes on to say that from the debate which has long gone on upon the subject, emerges the conclusion that while no law can be discovered as to writing in general, authors of fiction have generally done their work in maturity. De Foe was 58 when he wrote "Robinson Crusoe," Richardson 52 when "Pamela" appeared, Fielding wrote "Tom Jones" in his 48th and 49th years, George Eliot was 44 when "Romola" appeared, and "Thackeray 36 when "Penny Post" was published. Trollope began his work late in life, the first of his successful novels appearing in his 41st year. Scott was 45 when in 1814 he wrote "Waverley," though he was famous as a poet at the age of 34. Swift was 59 when he wrote "Gulliver's Travels." Apparent exceptions are found in Victor Hugo, who wrote "Hans of Iceland" and "Bug-Jargol" when very young; he was capable of "Les Misérables" only at the age of 60. Balzac produced only inferior work until he had passed 50. The reason of course is obvious: the vigor of imagination, rhetorical power and general information, all of which may be possessed in comparative youth, will equip any writer for a novelist; he must have in addition to these that which ordinarily comes only with actual length of years—wide experience and observation of human life. The real exception is, of course, Charles Dickens, who, at the age of 24 published a book, "Pickwick Papers," which revealed fully developed characteristics of his genius. Not merely was "Pickwick Papers" an unparalleled youthful success but its characteristics remained those of its author's later work. The fact is that through the abnormal experiences of his childhood, Dickens was at 24 what men usually become at twice the age. In his childhood Dickens was a man in many things. It is equally true that in his manhood he remained a child in many things.

**WONDERS OF THE NERVES.**

Unmistakable Proof That Many Serious Ills Begin With Derangement of the Nervous System—The Astonishing Success of Dr. Chase's Nerve Food.

It is only in recent years that physicians have come to understand the nervous system, and to recognize that many diseases which affect the heart, lungs, stomach and other organs are due to an impoverished and exhausted condition of the nerves. Over-work, worry, care, anxiety and severe mental strain are sure to be followed by headache, neuralgia, dizziness, sleeplessness, heart-trouble, indigestion, and serious functional disorders. Gradually the symptoms grow worse; pains and aches increase, and one organ after another gives evidence of derangement, until finally there comes collapse of the nerves and prostration or paralysis.

The family physician seldom gets at the cause of these ailments. He gives a powder for headache, some form of opium to induce sleep, or a stimulant to whip up the debilitated system. Such treatment is only of temporary benefit, and the trouble soon returns in an aggravated form. The tired brain, the worn-out nerves, the wasted strength must be nourished and built up before nature can have power to drive out disease. No prescription was ever filled that can do this so thoroughly as Dr. Chase's Nerve Food. Mrs. D. W. Cronberry, 168 Richmond street west, Toronto, Ontario, states:

"My daughter, who sews in a white goods manufactory, got completely run down by the steady confinement and close attention required at her work. Her nerves were so exhausted, and she was so weak and debilitated that she had to give up work entirely, and was almost a victim of nervous prostration.

"Hearing of Dr. Chase's Nerve Food, she began to use it, and was benefited from the very first. It proved an excellent remedy in restoring her to health and strength. After having taken it for some time, she is now at work again, healthy and happy, and attributes her recovery to the use of Dr. Chase's Nerve Food."

It is only a few years since Dr. Chase's Nerve Food first became known in Canada, and now it is universally acknowledged by doctors, as well as others, to be of unsurpassed value as a thorough restorative for weakened and run-down systems, and nerve-shattered bodies. It is possible that you have erred, as have many others, and used a wrong treatment. If you would be healthy and strong use Dr. Chase's Nerve Food regularly and persistently, and it will make you so; 60 cents a box, at all dealers, or Edmondson, Bates & Company, Toronto.

## OF THE ROYAL BLOOD.

King of Siam Wears the Richest State Attire of All Monarchs.

The "Star" reads many books but seldom picks up a newspaper. Empress Elizabeth of Russia was one of the stoutest women of her time.

Charles Martel, or Charles the Hammer, carried a mace weighing 60 pounds.

The King of Siam wears what is probably the richest State attire of any reigning monarch. The jewels worn on such occasions are valued at over \$200,000.

When the Empress Dowager of Germany first came to the Berlin court it was remarked to Baron Humboldt, then an old man of 90, that the prince, her husband, deferred to her in everything. "Very properly so," replied the great scientist, "she is the wiser man of the two."

By a curious chance, George, the second son of the King of Denmark, has resigned for a longer period over Greece than his father has over his native kingdom. George having been elected King of the Hellenes in March, 1863, while King Christian did not ascend the throne until six months later.

**Inhabitants of Mars.**

"As for me," says M. Flammarion, speaking of the inhabitants of Mars in The National Magazine, "I rather envy them. A world where it is always beautiful, where there are neither tempests nor cyclones, where the years are twice as long as ours, where the kilogram is of 376 grams, and where, therefore, men and women who here weigh seventy kilos there weigh only twenty-six, and where, in a word, everything is lighter, more delicate and more refined." And in another place he goes further, pointing out that if the Martians wishing to communicate with us they would doubtless have made the effort many times in the past and probably long ago abandoned it, deciding it a hopeless business to attempt communication with a planet so stupid.

**Does Not Fear Driving.**

It is perhaps rather a curious thing that, though the King is such an excellent judge of horsemanship, and so fond of the noble animal, it is years since he has driven himself. Neither he nor the Duke of Cornwall has ever shown any leaning towards this pursuit, and it is not likely that the King will be seen driving his own equipage in London. On the other hand, the Queen is very fond of driving her ponies in the country, and all her daughters drive; the Duchess of Fife especially excels as a whip. The Queen, however, has never driven in London. She prefers to ride in a victoria.

**The Driest Spot on Earth.**

This distinction is claimed by Prof. Fairchild for Payte, Peru, which is situated about five degrees south of the equator. Rain falls there, on an average, only once in two years, but the interval is often much longer. When the professor visited the place, last February, the first rain for eight years had just fallen. Yet, even in that arid climate, he found seven species of annual plants, and the natives earn a living by growing a kind of cotton, whose long roots find moisture enough to nourish them in the bed of a dried-up river.

**May Fever Can Be Prevented.**

Don't seek other climes at "Hay Fever Season," don't destroy your stomach and nerves by drugs—prevent the disease. Hay Fever is caused by pollen that floats about in the air and finally find lodgement in your throat and lungs. Medicine won't reach them there, but Catarrhosone will. Catarrhosone is sure death to germs. Start now to use Catarrhosone. Inhale it into the throat, lungs and nasal passages and bronchial tubes; it goes wherever the air you breathe goes, and it will prevent and cure Hay Fever. Endorse by not less than one thousand doctors in Canada and U. S. Sent to any address for \$1.00 forwarded to Polson & Co., Hartford Conn., U. S., or Kingston, Ont.

"Strong drink will take the coat off a man's stomach," asserted the temperance lecturer.

**Poor Girl, Play Her.**

Growing! Yes, into weakness, but not strength. Studies—plenty of them. Tired, of course she is, and weak, too. Does not eat enough, and digests less than enough. This condition is so frequent, but how seldom noticed even by fond parents. Give her Ferrozone, then watch her appetite improve, her cheeks and lips grow ruddy, her step elastic, her spirit buoyant. All this simply the result of eating and digesting enough, making blood, and thereby strengthening the nerve and brain power. Ferrozone gives a woman's strength to weak girls. Your daughter or wife needs Ferrozone. Get it to-day from McCall & Co.

**MARLBOROUGH**

Rumor That the Young English Duke is to Succeed Lord Minto in Canada.

New York, June 28.—A special from London says:

According to persistent rumors, the young duke of Marlborough will be appointed shortly Governor-General of Canada.

The report is exciting a good deal of discussion among the fashionable set, some members of which are considerably worked up over the idea of the young American duke resigning as mistress of Rideau Hall, Ottawa, in the place formerly occupied by King Edward's sister, Princess Louise.

Marlborough doubtless would signalize his term of office by a degree of splendor in the water as hitherto unknown in Ottawa. The idea of appointing Marlborough is said to have originated with King Edward, who has always manifested a fatherly interest in the young duke.

The duchess was formerly Consuelo Vanderbilt, of New York.

**BOYS BEWARE**

Captain of the Steamer City of Chatham Gives Bathing a Kindly Warning.

Last evening, when the "City" was going down the river with the moonlight excursionists aboard, at several places a large number of boys in swimming were encountered. The boys were swimming in the water as thick as bees. There is probably no kinderhearted, good natured and careful Captain sailing the lakes than our own Captain Cornett.

Speaking of the boys in swimming, he said: "I wish the boys wouldn't come quite so close to the boat. They were swimming in the water as thick as bees. There is probably no kinderhearted, good natured and careful Captain sailing the lakes than our own Captain Cornett."

Monday, 1st of July, will be Canadian day at Pan American Exposition, when Honorable Mr. Borden, Minister of Militia, will attend, escorted by 75th Highlanders Regiment from Toronto. As many Canadians as possible should take in the Pan American on this date, and Mr. W. E. Rispin, City Ticket Agent, announces single fare for return tickets, good returning any time Tuesday, 2nd of July.

**BIG TIME**

That's What the Non-coms Gave the Excursionists to Port Lambton Last Night.

The non-coms of the 24th Regiment gave an exceedingly enjoyable excursion to Port Lambton, last night. About two hundred and fifty people from here attended and about fifty from Dresden and Wallaceburg. The excursion was a grand success in every particular. In going out, the 24th Band, which was in attendance, played a number of selections at Dresden and Wallaceburg.

Arriving at the Port, the excursionists enjoyed the dancing until a late hour. The dancing platform has been greatly improved since last season, and the weather last evening was all that could be wished. Judging from the many complimentary remarks made by the dancers, and the repeated encores, the 24th Regiment Band gave complete satisfaction. Notwithstanding the fact that some of their players were not able to attend, and the weather was not so good as it could have been, the excursionists did not arrive back in Chatham until after midnight. The account cleared by the officers will be about \$25.

**SPECULATION**

Master Bykes Does a Little of it on his own Account—Wheel to Which he has Given a History.

Constable Cogrove arrived in the city to-day with a Barnardo boy, 21 years of age, whom he had arrested on a warrant sworn out by Byron Freeman, of this city, charging him with stealing a bicycle. The prisoner is a lad of most comely features and hair of a color that, when displayed by a girl, you look for a white horse. He has in addition to other characteristics a suspended sentence registered against him by Magistrate McKinley, of Ridgeway.

Jos. Sykes, that is the young man's name, bought a Crescent wheel from Mr. Dixon, of Thamesville. He paid \$10 down and gave a note for the balance. Sykes then rode to Chatham and secured the services of Andrew Thomson in selling the wheel by auction. He had got the wheel in Ridgeway and had paid for it.

Byron Freeman, a good natured colored youth, purchased the wheel, paying twenty and some odd dollars in cash for it. Ten minutes afterwards Freeman went into a market eating house to feed himself and the wheel disappeared.

Howard Sykes appeared this morning before Judge Houston and was remanded till next Friday for trial.

The Chatham Loan and Savings Co.'s 30th Half-yearly Dividend.

Notice is hereby given that a dividend at the rate of six per cent. per annum upon the paid up capital stock of this company has been declared this day for the current half year ending June 30th, 1901, payable at the company's office, on and after July 2nd, 1901.

The transfer books will be closed from the 20th to 30th June inclusive. By order of the Board.

## You Can Cure It

A New Cure for Catarrh in Tablet Form.

The old time treatment for catarrh was in the form of douches and sprays later on, internal remedies were given with greater success, but being in liquid or powdered form, were inconvenient and were open to the same objection to all liquid remedies, that is, that they lose whatever medicinal power they may have had on exposure to the air.

The tablet is the ideal form in which to administer medication, but until recently no successful catarrh tablet had ever been attempted.

At this writing, however, a most excellent and palatable remedy for catarrh has been placed before the public and sold by druggists, called Stuart's Catarrh Tablets, composed of the most recent discoveries in medicine for the cure of catarrh, and results from their use have been highly gratifying.

Stuart's Catarrh Tablets contain principally highly concentrated antiseptics, which kill the catarrh germs in the blood and mucous membranes, and in this respect are strictly scientific and modern, as it has been

known for some years past by the ablest physicians that the most successful catarrh treatment was by inhaling or spraying antiseptics.

The use of inhalers, douches and sprays, however, is a nuisance and inconvenience, and moreover can be no wise compared with the same remedies given in tablet form, either in efficacy or convenience.

A clerk in a prominent insurance office in Pittsburgh, relates his experience with Stuart's Catarrh Tablets in a few words but to the point. He says, "Catarrh has been almost constantly with me for eight years; in this climate it seems impossible to get rid of it. I awoke every morning stuffed up, and for the first half hour it was cough, gag, expectorate and sneeze before I could square myself for my day's work; no appetite and a foul breath which annoyed me exceedingly."

"I used Stuart's Catarrh Tablets for two months and found them not only pleasant to take but they did the business, and I can sincerely recommend them to all catarrh sufferers."

Druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package. They can be carried in the vest pocket and used at any time and as often as necessary. Guaranteed free from cocaine, mercury or any mineral poison; absolutely safe.

Most manufacturers would rather fit Dunlop Tires on their machines though they cost a little more.

It's the wheel of "unknown quantity" upon which the dealer usually refuses to fit Dunlop's. He may have a reason. He may be trying to make a little more money by selling a cheap tire.

Cheap tires are made of poor rubber and poor fabric. Dunlop Tires are made of genuine Para rubber and Sea Island fabric. Every pair guaranteed.

## TORONTO'S LOCAL HISTORIAN

Notable Figure in the Early Life of That City Passes Away.

## SKETCH OF REV. DR. SCADDING

End of a Useful Life—He Was Nearly 80 Years Old When He Died—Career of a Famous Canadian and Veteran Clergyman Whose Life Was a Benediction to Many.

One of the most notable figures in the early life of Toronto and the oldest Anglican clergyman in the diocese passed away recently in the person of Rev. Henry Scadding, D.D., who died at his residence, 6 Trinity square. Dr. Scadding, who would have been 88 years old had he lived until July, had been confined to his room since the middle of January, the trouble being a gradual decay owing to extreme old age. He was sleeping quietly when those who were watching in the room were aroused by the extreme stiffness, and upon going to the bedside, it was found that the aged minister of the Gospel, and historian, had finished his course and had peacefully passed away. Mrs. Scadding died in 1843, and one daughter, Mrs. Survan, and several grandchildren survive.

John Scadding, the father of the late Rev. Dr. Scadding, came to York in 1793 with Major-General (afterwards Governor) Simcoe, having been factor to the latter on his Devonshire estates. In 1796 John Scadding obtained from the Government a grant of the whole of "Lot No. 15, on the east bank of the Don, consisting of about 250 acres, with a broken front on the lake. In the same year he returned to England with Governor Simcoe. The late Dr. Scadding was born at Dunkeswell, Devonshire, in 1813, and in 1821 joined his parents, who had returned to York. His father died in 1824 from injuries inflicted by the falling of a tree.

Dr. Scadding received his early education at Upper Canada College, being the head boy of the institution in the first year of its existence, 1830. In 1833 he was appointed a King's scholar, with which came a free course at an English university. He proceeded to St. John's College, Cambridge, where he took a deep interest in the religious and educational movements which were then stirring the best thought of England. Graduating B.A. in 1837, he returned to Canada in 1838, and at once entered into the activities of his country. He became a classical master in Upper Canada College, and was the first incumbent of Holy Trinity Church, holding these important posts for over a quarter of a century, until ill-health compelled him to relinquish them. In the meantime (1840) he had proceeded to his M.A. degree. In 1852 he revisited Cambridge and received the degree of D.D., and in 1867 was awarded D.D. (honoris causa) at Oxford.

Dr. Scadding was rightly termed the historiographer of York, and his labors in that respect have been invaluable. While editor of the "Toronto Standard," he compiled his "Toronto of Old, or Collections and Recollections, Illustrative of the Early Settlement of Canadian Life in Ontario." To this classic of his he devoted himself with rare industry and enthusiasm. His "Four Decades of York, Upper Canada," formed the first part of Dent's memorial volume, entitled "Toronto, Past and Present" (1864). He also edited, with G. M. Adam, another memorial volume in 1891, entitled "Toronto, Old and New—Historical, Descriptive and Pictorial," designed to mark the 100th anniversary of the passing by the British Parliament of the Constitutional Act of 1791. Of his other writings, the best known are: "Shakespeare—the Story—the Interpreter" (1864); "Truth's Resurrections" (1865); "The First Bishop of Toronto, a Review and a Study" (1868); "A Memoir of King's College, Toronto" (1867); "Early Pioneer Life in Canada" (1867); "Some Lapsed Names in Canadian Local Nomenclature" (1897); "Seneca's Prophecy and Its Fulfillment; a Memorial of A.D. 1807, the centenary of the sighting of the northeast coast of North America by John and Sebastian Cabot, sailing under a commission from Henry VII, King of England." Dr. Scadding from 1870 to 1876 held the presidency of the Canadian Institute. He was the first president of the York Pioneers, and one of the founders of that body. In 1885, in acknowledgment of his literary services, he was awarded the Confederation medal by the Governor-General-in-Council.

In his introduction to the volume, "Toronto, Old and New," Dr. Scadding said:

"There ought to be in every county of the province a pioneer and historical society, formed for the purpose of collecting and preserving characteristic sayings, doings, dress, and demeanor of the first founders of settlements and communities amongst us. Such societies will occasionally be found convenient supplements to the ordinary registry office. While the latter preserves its minute record of the division and sub-division of the soil and of the transfer of portions of its surface from hand to hand, the former will often preserve the memory of men who, by the sweat of their brow, earned the first implement of market value for that soil, who sometimes at an early period became ornaments of the acres which they tilled, gracing their respective neighborhoods with characters of high moral excellence and great usefulness, and augmenting the fair fame of the community at large."

It is needless to add that Dr. Scadding, by these researches, which were

## TO HIS LABOR OF LOVE, PROVED THE VALUE OF HIS OWN ADVICE.

The long evening of his life was spent in peaceful retirement. With unimpaired mental faculties, he continued to take an active interest in affairs, and to pursue his original studies to the last. In his quaint old home, he had an uncommon accumulation of literary and historical books, including rare specimens of early topography, paintings, engravings, etc. He also had a fine numismatic collection. He was a patriot of the highest type, among citizens his name is coupled with those expressions of admiration and respect due to one who, through long years, has worked indefatigably for the glory and good of the land of the maple leaf.

## NICK-NAMES FOR CITIES.

Terminology of a Few of Them Gathered in Canada From East to West—Some Typical Names.

Many of our towns have adopted typical names, or have had such forced upon them by a generous and observant public. Most of these require no explanation. A few of the cities and towns, with their supplementary titles, are as follows:

Toronto—The Queen City.  
Ottawa—The Capital City.  
Hamilton—The Ambitious City.  
London—The Forest City.  
Kingston—The Limestone City.  
Brantford—The Telephone City.  
Windsor—The Frontier City.  
St. Thomas—The Railway City.  
Chatham—The Maple City.  
St. Catharines—The Garden City.  
Oshawa—The Royal City.  
Stratford—The Classic City.  
Belleville—The Bay City.

## THE BEST HE EVER SAW.

## A Misconception on the Farming Possibilities of Western Canada.

Just at present considerable interest is being aroused in the fact that a few new districts (of limited acreage) are being opened out by the Canadian Government in Saskatchewan and Assiniboia. Any information concerning this country is eagerly sought. Mr. W. R. Corser, of Higgsville, Lafayette Co., Mo., was a delegate there during last summer, and writing with his own eyes he says: "I found surprising yields of grain of all descriptions. One farmer I visited threshed of 175 acres: '600 bushels of wheat from 15 acres, 40 bushels of barley from 10 acres, 60 bushels of oats from 15 acres, 100 bushels of corn from 15 acres. The samples were all No. 1. I also saw a considerable number of stock. Swine do well and there is no disease amongst them. They are a good source of income to the farmer. The range is the best anything I ever saw. Fat and ready for beef, fully matured and ripened on the nutritious grasses of the prairie. I am firmly convinced that this country offers better facilities for a poor man than any I have ever seen."

## Good Words From Yanketom.

The following is from The Philadelphia Record, and will be read with interest: "That Canada is developing at a rate which well deserves the attention of the manufacturing interests of this country is set forth in a recent report from Consul-General Pittenger at Montreal, who calls especial attention to Canadian progress in railway building. Canada began railway building about the same time that this country did, and considering her comparatively meagre population, has made almost as rapid progress. The United States, with approximately eight million population, has 17,000 miles of railroad, while Canada, with five million people, has 17,000 miles. This comparison, it will be seen, is one of which our northern neighbor has no reason to be ashamed. There is every reason to rejoice at this evidence of Canadian prosperity. In all that pertains to railway equipment, from fish-plats to rails and vestibule coaches, our Canadian cousins (except in a few minor instances) must at present look to the United States as the base of supplies. It is, therefore, with a redoubled fervor, founded upon self-interest, as well as upon neighborly feeling, that this country will wish Canada continued success in the same direction."

OWES HIS EYESIGHT  
TO A MARACLE

Indebtedness to Dodd's Kidney Pills Acknowledged by Thomas St. Pierre.

Health Entirely Re-established by Dodd's Kidney Pills—Another Triumph for This Wonderful Remedy—His Eyesight Has Been Saved.

St. Epi. Que., June 28.—(Special).—One year ago, a miracle was announced in Chicago. R. A. Wade, the great criminal lawyer, regained his sight, after having for years been totally blind.

Throughout the length and breadth of America, and it attracted more attention to Dodd's Kidney Pills than any medicine ever got before. For it was Dodd's Kidney Pills that restored his sight.

A similar case has turned up in the village of St. Epi. Que. Though this sufferer was not stone blind, his eyesight was so weak that he was unable to see by lamplight. And they have been completely restored by Dodd's Kidney Pills, which is another point of similarity.

There is no attempt made to assert Dodd's Kidney Pills are a cure for blindness. Dodd's kidney pills are the greatest kidney medicine ever known. That is the claim made for Dodd's Kidney Pills, and there is evidence enough to prove that claim. But in cases where kidney disease has left poisons in the blood, and the said poisons, attacking the weakest spot, in the eye, Dodd's Kidney Pills are just as infallible as where the poison attacks the joint of the arm or small of the back. That the eyesight of Mr. Thomas St. Pierre was restored, is but the argument that Dodd's Kidney Pills make the blood absolutely pure.

Here is Mr. St. Pierre's letter: "I am happy to-day to see my health completely re-established by Dodd's Kidney Pills. I had a constant pain in the back and limbs. At night I couldn't rest and I could not see by lamplight. Having taken only two boxes of Dodd's Kidney Pills I am perfectly cured. My eyesight is clear. I advise all those whose health is not good, from whatever cause, to try Dodd's Kidney Pills. Nine times out of ten they will be exactly what is wanted. Two dollars spent for Dodd's Kidney Pills will do more than millions spent otherwise, for who holds anything in the world more dear than his health, or who would spare any means to save it?"

## CANADIAN CRICKETERS.

Philadelphia, June 28.—The Canadian cricketers, who reached here yesterday, began a two-days' match with the Belmont team at Elmwood, this city, to-day. The Canadian eleven is captained by Maj. C. C. Straubenzelle, of Kingston, while the Belmont team's captain is C. Coates, Jr. The weather was clear and warm and the ground was in first class condition when play began, shortly before noon.

The Canadians won the toss, and elected to bat first. Capt. Straubenzelle sent H. S. Legum and R. Lounsbrough to bat. King had the ball for Belmont. King bowled in fine form, and the wickets fell like ten pins. When stumps were drawn for lunch the Canadians had scored 63 runs for the loss of five wickets.

The Gordon-McKay Cricket Club of Toronto plays the local team on Friday, July 5th. It plays in Detroit on the 3rd and 4th.

## Holiday Outing Wear

On Monday the Canadian people will fling work aside and go out to enjoy in its prime the beauty of one of the loveliest lands in the circle of the summer world. Inspiring, is it not, to think of all the state-ly scenes—wide landscapes, mountain cones, quiet river reaches and horizon breadths of inland seas—that will satisfy the eyes of beauty-loving men and women from the eastern to the western ocean.

In no part of the land does nature call with more alluring persuasions than in this Western region of Ontario, the acknowledged garden of the Dominion. We have taken it for granted that every man wants bright, correct new furnishings for the holiday to give him the pleasant sense of being equipped "just right" for picnic, excursion party or whatever the social pleasure of the day may be.

In brief, everything you may want is here.

## DOCTORS BAFFLED

BY THE CASE OF MRS. HARRISON OF ORANGEVILLE.

She Was Completely Run Down—Racked With Pains in the Back, Head and Limbs—Again Rejoicing in Good Health.

From the Sun, Orangeville, Ont.  
Many cases are constantly being brought to light of persons being cured by that wonderful remedy—Dr. Williams' Pink Pills—after doctors have failed to be of benefit. Among them may be noted the case of Mrs. Benjamin Harrison, a well-known lady who resides in the near vicinity of Orangeville, Ont. A reporter of the Sun, hearing of Mrs. Harrison's wonderful cure called at her home to inquire into the facts of the case. Mrs. Harrison said she was pleased to be able to testify to the great curative powers of these pills. She said: "For some years I have been a constant sufferer. Just what to call my disease, I do not know; even the doctors were unable to diagnose it. I was completely run down, I had weakness in my head, back and limbs. I was unable to secure sound sleep, and on arising in the morning would feel as tired as before going to bed. My stomach was in a bad condition and the least movement caused me to palpitate violently. Doctors' treatment failed to be of benefit to me and was in a very discouraged state when a friend advised me to try Dr. Williams' Pink Pills. Thinking that they might relieve me a little I procured a supply and began taking them according to the directions. From the first I could see that they were helping me, and by the time I had taken half a dozen boxes I was free from the ailments that had made me so miserable. I now sleep several years since I took the pills and not the least sign of my old trouble has since shown itself. I would strongly urge the use of Dr. Williams' Pink Pills for any person who has a weak or run down system and I am sure they will not fail to be beneficial."

To those who are weak, easily tired, nervous or whose blood is of condition, Dr. Williams' Pink Pills come as a blessing, curing them in other medicines fail and restoring to those who give them a fair trial a full measure of health and strength. Sold by all dealers in medicine or sent by mail, post paid, at 50 cents a box, or six boxes for \$2.50, by addressing Dr. Williams' Medicine Co., Brockville, Ont.
