FOCH HAS SITUATION UNDER FULL CONTROL

Only Slight Progress Made by Teuton Offensive Yesterday, And Another Forty Eight Hours, France is Confident, Will See Enemy Definitely Stopped

By Courier Leased Wire

PARIS, May 26.—(Bulletin).—General Foch now has the situation well in hand, and French troops are beginning to gain on the German advanced forces in a contest of speed.

Those on the scene declare it is not too much to say that another forty-eight hours will see the German drive definitely stopped.

Not the least encouraging news yesterday was the brilliant success of the Americans in the Montdidier sector, which all the newspapers feature.

ONLY SLIGHT PROGRESS.—The German offensive made only slight progress today. Seeing the heavy masses opposed to them, the Allies gave way in the centre, and in some places the enemy crossed both the Aisne and the Vesle.

The Allied Command perceived when the German offensive began that resistance on the lines then held would be impracticable, and effected a withdrawal towards stronger positions in order to give the reserves time to come up.

The Germans pushed forward as quickly as possible with all the troops at their disposal. The Allies gave way, fighting hard. Both the French and British troops on the flanks fought with extraordinary courage, and succeeded in holding on, notwithstanding the great odds against them.

SIX HUNDRED STRONG, C.O.R. LEFT FOR CAMP

Took Departure From the City at an Early Hour This Morning, Entraining in Good Order And Well Equipped for Journey

Hundreds of citizens crowded the G. T. R. station this morning to see the 600 men of the 2nd C. O. R. safely off to Niagara camp.

Announcement was only published yesterday afternoon, and a civic farewell of a formal nature could not be arranged.

At 7.45 this morning the battalion paraded with the exception of rifles, proceeding direct to the station from the armories after receiving instructions from their officers.

It had been said with apprehension that the "new" men would not be up to the mark. One who witnessed the departure would have little thought for such fears, for the men carried on well and betrayed little or no emotion.

On arriving at Niagara-on-the-Lake, the men will go into camp with the other quota of the unit, which has been stationed at Oshawa for the winter.

AMERICANS ADVANCE LINE NEAR CANTIGNY

Line Now Runs 150 to 200 Yards East of That Point, As Result of Successful Attack by U. S. Troops

With the American army in France, Tuesday, May 28.—By the Associated Press.—The American line now runs 150 to 200 yards east of Cantigny as a result of the successful attack to-day.

The Americans first offensive blow was struck in a mist. The French tanks apparently did not have much to do as the American Artillery already had prepared the way.

Several officers, describing the scene, agreed that the outstanding feature in their minds was the wonderful morale of the men, and their absolute confidence in themselves.

BERLIN ORDERS WAR ENTHUSIASM CHECKED

German Newspapers Compelled to Moderate Their Transports of Delight at Renewed Offensive — "Premature to Draw Final Conclusions."

London, May 29.—Berlin newspapers apparently have been given orders to tone down their war time enthusiasm, says the Amsterdam correspondent of The Daily Express reporting on German comment on Monday's fighting along the Aisne.

"Our new success shows us again how justified is our confidence in our leaders. It would be premature to draw final conclusions, but it is enough for the German people to know that its confidence in the spirit of the troops can never be dissipated."

DEATH OF A HERO

Corporal Tyrill Met His End While Helping to Dress the Wounds of a Sergeant

Mrs. J. W. Tyrill, 9 Rose avenue, is in receipt of the following letter with reference to the death of her son at the front:

Dear Mrs. Tyrill.—I have just received a letter from Mrs. Hall asking about your son, Corp. A. A. Tyrill, of this regiment, and saying that neither of you had heard of him since March 9th.

From what Pte. Turner has told me, it is evident that Corp. Tyrill was hit a second time while working his way out after his first wound. He

RESUMPTION OF ENEMY ATTACK ACROSS AISNE IS SLACKENING

Attack on Rheims Sector Hardly Expected, But Was Calmly Met

ALLIES CONFIDENT

By Courier Leased Wire. Reiter's Ottawa agency.—Though the German attack on the Rheims, Soissons sector was scarcely expected, the resumption of the long overdue offensive found the Allies ready.

It is still uncertain whether the southern onslaught is the main German effort. The consensus of expert opinion is that it is merely a preparatory blow.

Opinion Divided. Paris, May 28.—Military opinion is divided as to whether the German drive on the Aisne front is an effort to break through at Soissons and make a dash for Paris by way of Villers-Ceterels or whether it is a manoeuvre preliminary to and for the purpose of concealing the eventual main attack against Amiens.

Notwithstanding their success in pushing the Allies from the Chemin des Dames and the heights of Craonne to beyond the Aisne, and into territory untouched by fighting since early in the war, the enemy has not succeeded in widening the "elbow" about Montdidier or in changing the Allied line in Champagne, east of Rheims.

On the right, northwest of Rheims the British are maintaining a commanding position on the Massif de St. Thierry, north and west of the town of St. Thierry.

Overwhelming numbers enabled the Germans in their first attack to penetrate the Allied lines to beyond the Aisne and capture more than a half score of villages and 15,000 prisoners.

SIMCOE HAS WAR ROMANCE

Veteran Weds Widow of a Fallen Comrade—Other Simcoe News

TOWN CLERK RUSHED

Birth and Marriage Certificates in Universal Demand
A PIONEER PASSES
Mrs. Jacob Niedrauer Dead at the Age of Eighty-Three Years

(From our own Correspondent)
Simcoe, May 29.—The simple notice, that on Saturday last, Pte. Robert Casey, returned veteran, and Mrs. Clarence E. Murch, whose husband fell in France last August, were married at St. Mary's church here, deserves more than passing notice. The wedding was a pretty, if somewhat ceremony. In the absence of Father Nagle, the service was sung by Rev. Father McCarthy. Mrs. W. E. Kelly presided at the organ, and Mr. and Mrs. Raymond Dornan were groomsmen and bridesmaid for the contracting parties.
Fulfilled Pledge to Comrade in Arms
Pte. Murch and Pte. Casey enlisted in the former 133rd, and shortly after reaching England, Casey was separated from his bosom friend and crossed to France. Pte. Murch came over later, and went up to the front past where Casey was in a work battalion. They got in touch occasionally. Murch met his death on his fourth period on duty in the front line, and Casey remembered that Pte. Murch had once remarked: "If I am taken and you spared, you will look after my wife and the babe, or words to that effect. And he remembered his promise. He is now husband to the bereaved wife and step-father to the child that was a babe in arms when its daddy left for France.
The Courier joins a host of friends in wishing the principals to this matrimonial union years of health and happiness, which may in part recompense them, the one for the loss of a dearly loved and faithful husband, and the other for years of service at the front, from which he has been honorably discharged after receiving wounds un-

Edward Eugene Niedrauer Enroute to the Front
Mr. and Mrs. A. Niedrauer were in Toronto Sunday to see their son, Edward, who, absent from home for nine or ten years, signed up with the Canadians at Chicago, and is enroute to France with the Engineers. His brother, Delbert, signed up early in the war, and has been at his trade in England and up behind the lines in France.

Certificates! Certificates! Town Clerk McCall Deluged
Town Clerk W. C. McCall is deluged with applications for birth and marriage certificates. The order issued a few years ago forbidding local registrars of births, marriages and deaths to issue certificates, has not relieved him. He is still in his obliging and accommodating way doing the clerical work and instructing applicants, and even filling in their application papers, and of course the government gets all the fees. We found him working yesterday like a lone man on a straw stack in the days before the blower was attached to the threshing machine, and as it were, keeping the straw from blocking the carriers, and building a very fair stack. And all this without a word of complaint at the shortage of farm labor.

He will get through with the business some time, but will not receive for all his trouble even the handsome consideration given the representative of the orphans who appears when the judge is passing executor's accounts for the wind-up of a small estate.
The word "Registrar" in newspaper paragraphs regarding the securing of certificates, is responsible for the full draw at the post office now received by the county registrar of deeds. People in general take so little interest in municipal matters and matters of common law, that they are now getting an education much to their own annoyance, as well as that of many officials who have nothing to do with the matter in hand.

OVER FOUR SCORE YEARS
Mrs. Jacob Niedrauer died yesterday forenoon at the home of her son Arthur, on Chapel street, at the advanced age of 83 and 8 months from the effect of a stroke paralysis which came some nine

weeks ago. The funeral will be held to-morrow for Forestville, and interment will take place in the family plot where her husband was buried thirty years ago.
A Large Family.
Half a century ago Mr. and Mrs. Niedrauer of Forestville had about them a large family of young children. Of their nine sons and one daughter the following survive: Mrs. Joseph Ferris of Walsingham, Arthur Niedrauer of Simcoe, Nelson and Charles of Buffalo, Wellington of Brantford and Thomas of Orillia. George died in Simcoe. His three nephews are characteristically citizens.

Fred and John migrated to Buffalo and have since deceased, and Jerome met death by drowning. There are twenty-nine grandchildren and a great number of the fourth generation. The whole connection a recharacteristically citizens of integrity and good repute.

During the days of his widowhood, deceased married the late James Ferris of Walsingham, whose daughter had already become the wife of our townsman, Arthur, her fifth son. Although carrying over Joseph Ferris, wedded the only daughter in the Niedrauer family and after the death of Joseph Ferris, deceased made her headquarters in this home while she made long visits with her children enjoying good health. The end came while the pioneer mother was in town on one of these protracted visits. And though carrying over four score years, of a life of activity—to speak figuratively, after plowing more than a couple of young women of today could ever hope to harrow, this good old lady gave promise of health and strength for more than a decade to come, and her remarkable physical tenacity yielded to the inevitable only after a remarkable contest.

Odd Ends of News.
The north ward fire bell has been given a new lease of life. The crank which destroyed the tone has been repaired by an electric yield and the bell was swung on its journal a few days ago and gave out its old time resonance.
A lost child last night gave its parents two hours of anxiety and the police a hustle. It was found finally, sound asleep at home in bed, having slipped in mysteriously while the parents were out searching for it.

It has been announced that Messrs. Harry A. Johnson and T. E. Langford have been sworn in as Justices to keep the peace.

WATERING.
There is always the danger of watering vegetable crops over abundantly. Optatio has been fortunate this spring in the amount of natural watering that the gardens have received but this does not necessarily apply all over Canada. Acty garden should never be watered in the heat of the sun. In any event, the water should be applied in as fine a spray as it is possible to obtain. Force will wash out the seeds, flatten the soil, expose the roots to the sun's rays and thus cause the wilting of the plant. As the seeds are first breaking through, the ground should be gently watered in the evening with the watering can. This hose is destructive if used too soon after planting. It is necessary to stir the soil after each rain or watering in order to conserve the moisture.
Particular care must be taken in the watering of transplanted vegetables. It is a good plan to put a little water in the holes before the plants are put in them. Or on the other hand, the watering may be done immediately after planting while the soil is still loose. This will prevent the plants from wilting.

ANOTHER CHAPTER OF CANADIAN FAME

Dominion Troops Cleared Huns From Woods Near River Luce

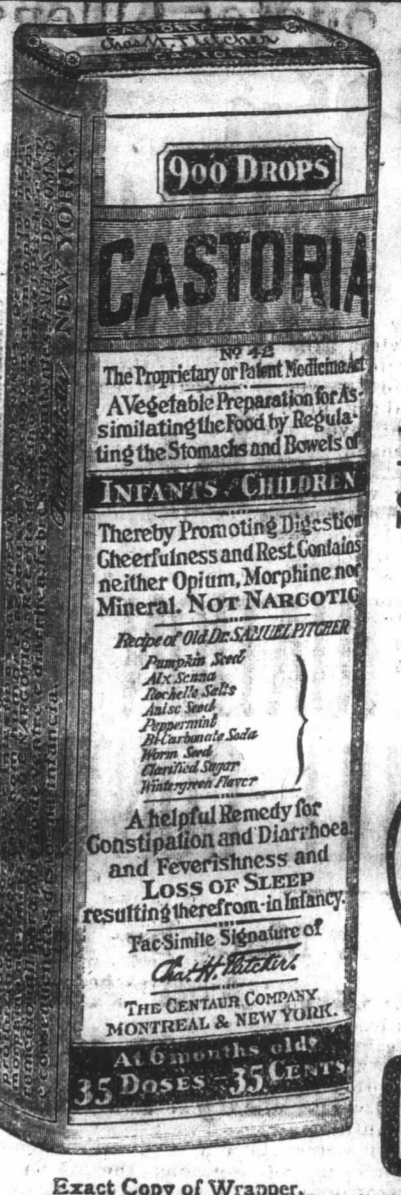

By Courier Leased Wire
Ottawa, Ont., May 29.—The following article by Roland Hill has been received here:
"How the Canadians with the assistance of British dismounted cavalry, cleared the Huns from advanced positions in small woods south of the River Luce on April 4, is another chapter for Canadian military history. The Imperial cavalry, without their horses, went over on the first wave. The Canadians passed through them and cleared and secured the Germans main position just south of the main woods road. Less than two hours the wood was in our possession, and although our losses were heavy, the Huns lost twice as many men. They were part of a new division sent in to the line to hold at any cost those tree-tufted hills that commanded a clear view down the long green valley to Amiens. In some places the Germans did not put up such a fight as in the previous action, and over 300 prisoners and thirteen machine guns were sent back.
The chagrined German commander determined that the Canadians previous success should not be repeated, and he threw a complete fresh brigade of storm troops into the counter-attack. Reinforcements of Hussars and Dragons were brought up and extended the new British line to Thennes where it joined up with British infantry. The Bosches came into the attack in dense waves, and the cavalry's machine guns swept gaps in them. The few that got to close grips were quickly overpowered, and the Huns' attempt to recapture the position was a dismal failure. Hundreds of German dead which were left lying east and south of the wood, must have impressed the enemy, for no other attack was made that day, and in the opinion of Canadian officers, practically the whole brigade was wiped out."

RAILWAY EARNINGS

By Courier Leased Wire
Montreal, May 29.—Traffic earnings of the three principal Canadian railroads for the week ended May 21 aggregated \$5,288,808, a decrease of \$70,146 from the corresponding week a year ago, or 1.3 per cent. For the week, the Canadian Pacific was the only one of three to show a decrease.

CROP OUTLOOK FAVORABLE

By Courier Leased Wire
Ottawa, May 29.—The crop outlook in Canada, according to reports to hand so far, is, on the whole, favorable. Professor J. H. Amsterdam, May 29.—(Associated Press)—Petitions bearing hundreds of names have been sent to the Dutch government, protesting against the presence in Holland of Hagenbeck's circus, which has just come from Germany for a tour of Dutch cities. Counter Offensive Halts Enemy Advance

Germans Checked on Both Flanks, And New Blow is Aimed at Their Centre — Berlin Claims 15,000 Prisoners Taken

Paris, May 29.—The situation today is more reassuring. The latest advices from the front show that while the violence of the enemy's effort as yet is unabated, he is only making headway in the centre, and that even there the German momentum is giving signs of slackening. The Allies are beginning to react with effect on the wings.

The French left is holding well and blocking the German attempts to widen the salient toward Soissons. The French retain a wide bridge-head north of the Aisne above that city—a circumstance highly menacing for the enemy's flank. On the right the British still cling successfully to the group of hills north of the Vesle River.

London, May 29.—Reports from the Western front today emphasize the seriousness of the efforts the Germans are making in the southern part of the line. According to reports received to-day they have massed between ninety and one hundred divisions for the attacks, under the direction of the Crown Prince, which have carried them across the Aisne to the Vesle River, 6 miles south. On a front of 30 miles the German advance has reached at its farthest point a depth of about 12 miles. This is at Fismes, on the Vesle, where the enemy forced passage of the river, as well as at another point. Paris reported officially last night that great French counter-attacks have already begun, with some success. In the region northeast of Soissons the French vigorously counter-attacked on the heights above the Aisne, and despite their crossing of the Vesle, the Germans are being held strongly on the heights to the west of the junction of the Vesle and the Aisne Rivers. Despatches from Paris say that

NOMINATION FOR M. P. IS REFUSED WOMAN

First Female Candidate in Old Land Barred by Technicality

Keighley, England, May 29.—(Associated Press).—The first woman candidate for Parliament, Miss Nina Boyle of the Voters' League, has been refused a nomination on the ground that each of the two nomination papers handed in by her contained the name of a man whose name does not appear on the Keighley register.

Previously Miss Boyle appeared before the returning officer who stated he had received instructions from the Sheriff to admit her nomination without question provided it was properly signed, so that her rejection appears to be the result only of a stranger's name appearing on the paper.

Miss Boyle said she considered a "moral triumph" had been achieved for women, as she had been informed that her nomination ordinarily would have been accepted. "While I am disappointed," she continued, "that a fluke of this kind has prevented actual nomination, it matters little, for if accepted I had decided to withdraw. My purpose in coming to Keighley was simply to test our right to nomination. My test has been successful.

"Unless Parliament decides the question of women entering the House of Commons, it will mean that many women will secure nomination and, if elected, there will be an illimitable number of election petitions against their return, bringing confusion in its train."

The result of her experience, Miss Boyle asserted, would be of great encouragement to all women's political organizations throughout the country.

WAS ON VERGE OF GIVING UP HIS JOB

Health Broken When He Begon Taking Tanlac — Now Works Every Day

"My health was so broken down that I was just on the point of giving up my job when I got hold of Tanlac, and it fixed me up all right, after everything else had failed to do me any good," said Malcolm W. Yeo, of 129 Logan Ave., Toronto, the other day. Yeo formerly lived at Hamilton where he is well known as a man now employed by the Wm. Davies Company at Toronto.

"About five years ago," he continued, "my stomach was out of order, and I began to suffer terribly with indigestion. My appetite failed and I never enjoyed a thing I would eat. What little I forced down soured on my stomach and filled me up with gas till I could hardly breathe. I suffered from awful griping pains in stomach, and a sour bitterish water would rise up in my mouth and almost sicken me. Any kind of food like pork or pastry, would simply tear me all to pieces and I just had to stop eating anything of the kind. My food gave me no nourishment at all and I fell off my weight and became so weak and miserable that I could hardly keep up with my work and saw that if I didn't get relief soon I was headed for a breakdown.

"All these years I was trying one thing after another in my efforts to find something that would help me, but without success, for I kept getting worse in spite of everything I tried. When people began talking so much about Tanlac I decided to try it, and positively, I never have found anything to do me so much good. I have taken about five boxes of Tanlac and I can eat most anything I want, fresh pork and pastry of all kinds. My food gives me a bit of trouble, but that is all, and I never have any more gas trouble any more. My food is nourishing me now, I am than I have been in years. That tired worn out feeling has passed away and I haven't lost a single day from work since I started on Tanlac. Anybody who has suffered like I have knows how I appreciate a medicine that does the work I need. Tanlac and I am glad to give it my endorsement."

Tanlac is sold in Brantford by Robertson Drug Store, in Paris by Apps Ltd., in Mt. Vernon by A. Yoomans, in Middleport by William Peddie, in Onondaga by Neil McPhadden.

ON LABOR BOARD. By Courier Leased Wire.—John F. ANSWERS Telephone Call

Hello! Is that Prof. Mulveney, Parkdale 4331?

Yes, lady.

Is Prof. Mulveney there?

Yes, Prof. Mulveney is speaking. Have you a worm remedy for children?

You can?

Could you tell me, if I brought my little girl down, if she had worms?

No, lady, I cannot tell by looking at children if they have worms?

You can?

No, madam.

Couldn't you tell me if I told you all the symptoms?

No, madam? My remedy, called Mothers' Friend, excels worms, is an excellent Tonic and Builder, good for the Nerves, and is an excellent medicine for Regulating the Bowels; it brings away all filth and small intestinal worms, is perfectly harmless, and can be given to the smallest infant without fear of doing harm. A lady who is living on Shaw street got a bottle of this medicine for her baby 2 years old. She said she had no peace with this child night or day for 4 months; the doctor was calling regularly and did not help the child in the least; the little one took a bad spell and was choking, the mother opened his mouth and pulled out a stomach worm that was strangling the child, also the worm, which measured 8 inches long, with her. She purchased a bottle of Mothers' Friend, and the second dose brought it away. She was horrified at the sight, and brought the worms to me, which I have here in a bottle in my office, and many others from other happy mothers. So if you think it a good investment to try Mothers' Friend, it is \$1.00 per bottle, and 6c for postage in the city, and 25c extra for postage outside Toronto. Now, you understand, it is not necessary to waste car fare bringing your children here, as I do not practice medicine, but have only the one remedy for sick children which cures Worms if they are there, and has cured many little ones of St. Vitus Dance and Convulsions, also Fits. Call or send to 211 Ossington Ave., Corner Dundas St. Toronto. Phone Park 4530. Mothers' Friend in powder form (each package makes twice as much medicine) for \$1.00; no danger of breaking and no cost for sending. Just send \$1.00.

THE SITUATION

The evidence would seem to be clear that the intent of the present German offensive is to reach Paris. In this design the Crown Prince is believed to have over a million men at his disposal, and his troops on certain portions of the present attack have outnumbered the French and the British ten to one.

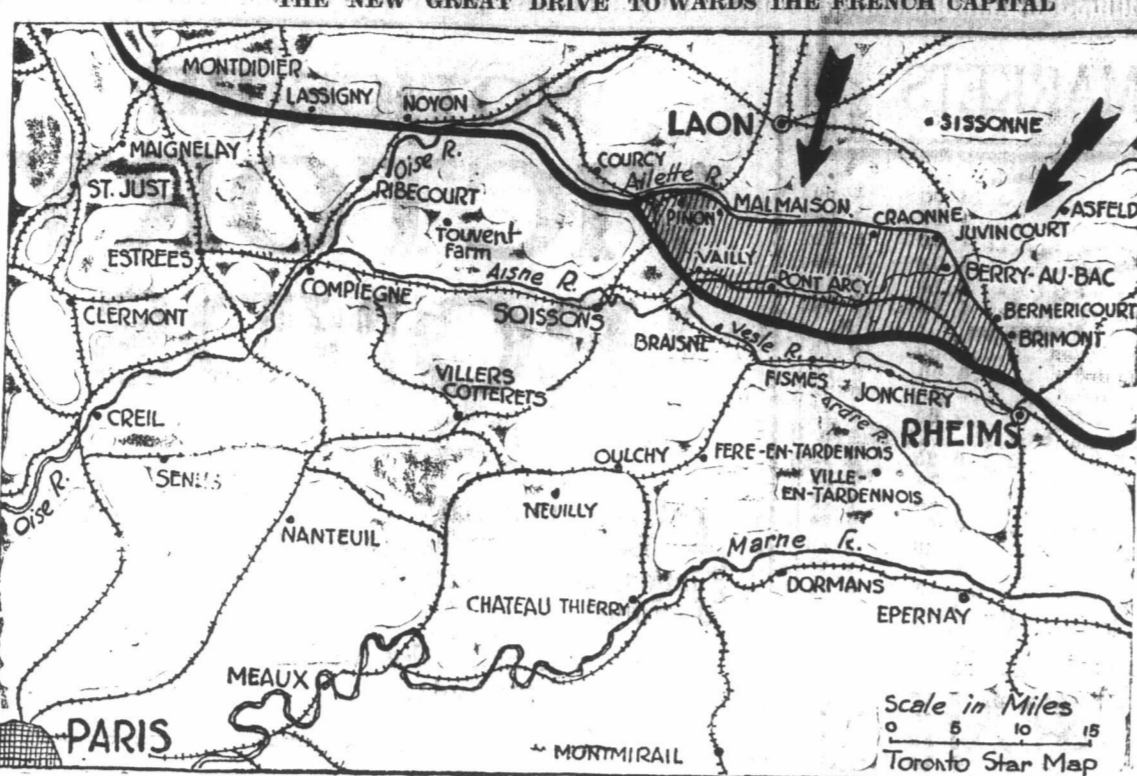

The Germans smashed over the heights of the Aisne on Monday and towards evening broke across the Aisne River at Pont Arcy. Since then they forced the Aisne along all or most of the front between Berry-au-Bac and Vailly.

Yesterday afternoon the Women's Patriotic League attended a muster parade of the battalion, and presented each man with a cigarette and handy necessities. The men were all pleased with the farewell token of the women of the city.

A YEAR OF FOOD SAVING IN THE STATES.

A review in the New York Times of one year of Hoover's Food Control indicates that the results have been most satisfactory. He took a chance on his faith in the American people, and his confidence appears to have been fully justified.

Take the matter of wheat as an illustration. Owing to the shortage of last year's crop there were scarcely twenty million bushels above normal consumption and seed requirements in the United States. Practically all this was shipped by Christmas.

The Germans smashed over the heights of the Aisne on Monday and towards evening broke across the Aisne River at Pont Arcy. Since then they forced the Aisne along all or most of the front between Berry-au-Bac and Vailly.

CUT DOWN JURY TRIALS

Notices have been sent out to all county judges asking them to have as few jury cases as possible this summer. This is being done to relieve the farmers, who are generally called to serve on the juries, so that the work of production will not be interrupted. The request, applies of course, only to cases of a nature that may be tried either by a jury or by a judge, as criminal cases would naturally be tried in the ordinary way. It is therefore more or less a matter for the legal profession to arrange the cases as much as possible along this line.

FORGELY CHARGE

Yesterday morning County Constable Taylor arrested Charles Sowers at Scotland on a five year old charge of forging a promissory note. Sowers had at that time forged another's name to the document, and sold it, but the long arm of the law eventually reached him, and as a result he is now lodged in the police station. He confessed being guilty of the wrong doing, and appeared in the police court this morning. The case was not settled.

FOREIGNERS ROUNDED UP

Eighteen foreigners, mostly Russians appeared before Magistrate Livingston this morning to answer charges of being M. S. A. defaulters. They were included in the number rounded up by the Dominion Police Saturday night in Hurley Hall, and not dealt with on Monday. Most of the men were able to prove that they were not defaulters, but three Italians failed, and will appear at the police court again on Wednesday next. Another was remanded till Monday. Fourteen others were allowed to go on paying the costs of court. Peter Vonecek appeared on an adjourned charge of seduction. He was allowed to go on \$500 bail, having asked to be tried before a jury court. He is now in the hands of the Dominion Police, who claim that though he is a Russian by birth he is a naturalized Canadian, and therefore a defaulter under the M. S. A.

TAX AMENDMENTS

M. J. O'Donohue, Collector of Inland Revenue, has received notification of amendments to the recently imposed taxes on automobiles, furs and jewelry. Automobile dealers, instead of paying the full tax on cars in stock on May 1, are to be allowed to take cash guarantees, bonds or bank securities, covering their taxes, and extending over a period of ten months, at the end of which time all taxes must be adjusted. Automobile and music dealers have expressed a desire to receive their imported goods in bond, and then to pay the tax, but the department states that this cannot be allowed, and that the manufacturers must pay the tax and the dealers adjust the matter with them. The jewelers are required to pay a tax only on stock, in excess of \$1000 purchased on or after October 1 of last year, and unsold on May 1 of this year. The exemption on tea in stock up to 1000 pounds granted retail dealers, does not apply to importers or wholesalers.

BILL NOW UNDER WAY

NEW REVENUE BILL
 Washington, May 23.—Responding to the call of President Wilson in an address to both houses of Congress in joint session yesterday plans were made by Congress to-day for preliminary conferences looking to the enactment at this session of a new general revenue bill. Although heretofore of divergent opinions, members of both the House and the Senate to-day declared themselves united by the address of the President and the news of another German offensive in the belief that a revenue measure be passed before adjournment.
 Public hearings will be started by the House ways and means committee early in June, according to tentative plans under consideration to-day. Leaders were confident the bill can be presented to the House in July. At the preliminary conferences at which the views of Secretary of Treasury McAdoo are expected to be made known, it will be decided upon the proportion of new taxes to bond issue authorizations. It is known the President considers that of the twenty billion dollars needed for the coming year, approximately eight billions should be raised by taxation. This would amount practically to doubling the present tax returns.

Sporting Comment
A HOLLER FROM HAMILTON.
 Oh, boy! Wouldst list to this! Thuh Hamilton Herald—independant, in politics and in whatever it darn please—is up in its journalistic ear, and demanding that thuh Telephone City Manufacturers' League and all connected therewith, be shot at sunrise, if not considerably sooner. 'Cause why? 'Cause such pioneers as Del Orcutt and Samuel Lee, who once cavorted in professional ball, before Noah built the ark, are members of teams in the city league. Both players have long since severed all connection with professionalism, both have been re-elected to this city for years, and have their families living here, and thuh Herald kicks and in kicking reveals the nature of its complaint—that Lee and Orcutt should "get away with it" while severing Hamilton athletes have been unable to secure reinstatement.
 As regards the meeting of the association referred to, W. Scruton, who is a member of the committee, stated this morning that he had heard nothing of it. He points out, however, that the league has obtained written permission to play both Lee and Orcutt. Lee and Orcutt have been finally decided, and this decision is virtually bound to be in their favor.
 "It is no mystery to me," stated Mr. Scruton, "whence the Herald is inspired in this manner. It is not the first time that such a kick has been raised in outside papers, and we know who is at the bottom of it—a man now living in Brantford, who is disgruntled because he can't regain his own amateur standing. If a meeting be held to-morrow night, we are confident that Lee and Orcutt will be authorized to play."
 Where does thuh Herald get its holler? Has it to its warble—
 A special meeting of the Ontario Baseball Amateur association will be held in this city on Thursday night to deal with the situation in Brantford, where veteran professionals like Del Orcutt, Samuel Lee and a few others are playing in the City league with amateurs.
 Billy Smith, president of the O. B.A.A. told the Herald over the long-distance "phone this morning that the time has arrived for action and that the matter would be threshed out at the big meeting if it took all night to come to a decision. He admitted that the Brantford professionals had been granted permission to play until such time as the mystery was cleared up.
 "This is a question that requires plenty of consideration," he said, "and that's the reason for the special meeting. O.B.A.A. could grant permission to the Brantford players to play with amateurs while their cases are being disposed of, is a thing to keep them out of the game until their status has been determined. What right has Del Orcutt or any one else up Dykeville way to play with amateurs while Boyd Hackbush, Harvey Muir and numerous Hamiltonians are forced to sit and watch the amateurs perform?
 It's not a proper ruling, and the Hamilton Amateur Baseball association members feel quite incensed over it. They want the Brantford league outlawed.
 Del Orcutt played Canadian league ball for Brantford. Boyd Hackbush and Harvey Muir also played Canadian league ball. Orcutt is allowed to mingle with amateurs and the other two are barred. And several other Hamiltonians who did nothing more than play in Toronto International leagues are also placed under the ban of the A.A.U. of Canada. It's inconsistent to say the least.
 Jack McKelvy, formerly of Hamilton, now a resident of Brantford, was charged with taking money for winning a race at a picnic. He was declared a professional and he can't play ball in Brantford while the Brantford folks, and the out-and-out professionals are allowed to go on without complaint. That's another case where the amateur moguls erred.
 The matter will be brought to a head here on Thursday night and the O.B.A.A. meeting is sure to be a hot affair. The other cities represented on the baseball body do not take kindly to the leeway granted sure to urge immediate suspension.
 Who gave them permission to play Orcutt & Co. while their cases were being disposed of? Is something the representatives will want to know.

Teutonic Statesmen Enter Suit for Libel.
SOMEBODY TOLD ON THEM
 Here is an Unsavory Indication of the Type of Men Who Are Running the Central Empires, But It is Evident That the People Do No Worry Themselves Over Such Moral Questions.
COUNT VON HERTLING, the Imperial German Chancellor, according to an exchange telegraph despatch from Copenhagen, is officially reported to have brought a suit against the Deutsche Zeitung of Berlin for an article, in which Dr. von Kuehlmann, the German Foreign Secretary, and Count Czernin, the former Austrian Foreign Secretary, were attacked.
 The newspaper asserted that the two statesmen during the negotiations at Bucharest acted in a manner which abased their countries. Secretary von Kuehlmann, it was re-

COUNT VON HERTLING.

presented, was seen often with a well-known member of the underworld, while Count Czernin every evening visited a theatre where dancing girls were among the performers. The German Liberal newspapers, it is added, sharply criticized the Deutsche Zeitung, saying that Dr. von Kuehlmann has not done anything worse than is often witnessed by the Berlin population when the annual meetings of peasants are held.
 The Vorwaerts says:
 "The entire affair is like an intrigue at the Court of Louis XIV. The plotters went with their accusations about Dr. von Kuehlmann's 'immorality' to the very highly-placed lady who is well known for her strict code of ethics through whose influence they hoped to achieve their object."
 It is rather interesting to note how little the German people worry themselves over the moral lapses of the people in power. In all democracies, the men who rule have to be good citizens in their private lives. At least they cannot break the social code in a flagrant manner. The affairs of the German Crown Prince are open as well as notorious, and apparently the leaders of the Government are not much better when, like a green youth on his first journey, they get away from home.

NO FOOD SHORTAGE IN BRITISH ARMY
Soldiers Can Fall Back on Emergency Rations When Supplies are Delayed
 London, May 23.—(Associated Press)—The method of feeding troops during a conflict of many days is now so complete that even in the most critical circumstances the supply train is in constant touch with the fighting line. If communications chance to be cut temporarily each man can rely upon his emergency ration carried in his haversack and which he is forbidden to consume until he receives the order.
 Of this emergency ration, consisting usually of bully beef, biscuit, tea and sugar, the sugar is not the least important, as it is not only a nourishing food, but an excellent stimulant to men suffering from exhaustion. In the event of a retreat, troops subsist largely upon what is known as the Maconochie ration, a meat and vegetable stew packed in cans and easily prepared for consumption.
 The majority of the men are regularly fed from the traveling field-kitchen, marvelously ingenious, which cooks food while in motion. It can bake or boil for 250 men and is in close touch with the transport officers of his corps, who in turn has to bring supplies from train headquarters.

 Bulletin, London, May 23.—Another "Box" by the government leader in the House of Commons today told the lower house of parliament that 300 casualties to hospital cases had been caused by the bombing of British hospitals in France by German aviators.
 Bulletin, Paris, May 23.—The Germans last night crossed the Aisne between Berry-au-Bac and Vailly. It is announced officially. The battle continues fiercely between the Nestle and Aisne Rivers.
 Bulletin, London, May 23.—The British army in France, May 23.—(By the Associated Press)—British and French troops in this morning launched a counter-attack in Flanders east of Dickebusch Lake. The attack began well. Success would make the enemy's assault of yesterday a complete and costly failure.
 In yesterday's attack in Flanders between Loree and Voornzele, the Germans are believed to have employed four divisions on one part of this front, measuring 6,000 yards. The enemy troops were punished so severely that the French, on the right flank, did not even get to close quarters with them.
 Bulletin, Paris, May 23.—German aviators attempted last night to raid Paris. They dropped bombs in the suburbs, but were prevented from flying over the city.
 The announcement follows:
 "Last night about ten enemy airplanes which were flying toward Paris were reported by our outlook stations. An alarm was given at 10.32 p.m. and anti-aircraft batteries threw up a curtain of fire.
 "Several bombs were thrown on the more remote suburbs. No enemy machine flew over Paris. The 'all clear' signal was given at 11.45 a.m.

THE CAUSE OF INDIGESTION
 Thin blooded people generally have stomach trouble. But they seldom recognize the fact that thin blood is the cause of their indigestion, but it is.
 Thin blood is one of the most common causes of stomach trouble; it affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.
 Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles, and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite, and soon the effect of the blood-making pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. You are on the road to sound, good health, and care in your diet is all you need. If your appetite is fickle, if you have any of the distressing pains and symptoms of indigestion you should begin to cure yourself at once by taking Dr. Williams' Pink Pills.
 These pills are sold by all dealers in medicine or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ENGINEERS MEET.
 By Courier Leased Wire.
 Cleveland, May 23.—The triennial convention of the Brotherhood of Locomotive Engineers adjourned last night. The next convention will be held here May 1921. A. L. Johnson, was elected to the second assistant grand chief position for a term of six years. The office was created by an amendment to the constitution at the convention. Charles H. Salmon, Cleveland, who for twenty-eight years has been editor of the engineers' official organ, was re-appointed for six years.
ALLIES BETTER ARMED.
 By Courier Leased Wire.
 Washington, May 23.—Through the use of light web ammunition belts, British and American infantrymen carry 100 more rounds of rifle ammunition than their German opponents with leather belts and seemingly unimportant part of equipment has resulted in the repulse of superior enemy forces on more than one occasion, says a statement issued by the ordinance bureau.
 With his web belt the soldier carries 200 rounds of ammunition, disposed so that every cartridge is easily accessible. The German soldier carries but 120 rounds.

BRITISH CASUALTIES.
 London, May 23.—British casualties reported in the week ending to-day, reached a total of 33,694. They are divided as follows: Killed or died of wounds, officers 168, men 3,527. Wounded, or missing, officers 735, men 29,254.
 The total for last week was 36,677 and for the week before 41,612, the largest of any week since the bombing of the German fortress. The falling off in the totals reflects the lull in the fighting between the attack which ended in April and the one now beginning.

EVANGELINE'S LAND TO HAVE A SHRINE

A new Mecca is beckoning to devotees of art and religion. Its name is Nova Scotia. Already the artists have made their pilgrimages and returned with charming pictures of Evangeline's Land. A collection of sixty paintings, the work of six New York men, known as the Nova Scotia Group, were exhibited recently in New York and elicited much praise.

The pioneers of Nova Scotia have blazed a trail over which a brush and palette laden army will follow in seasons to come. They will come to paint the gentle beauty of apple-blossoms when the great Annapolis Valley is covered with a fragrant pink and white veil. They will come in cherry time to paint the rich red

fruit and the happy people enjoying the Cherry Festival, a time honored custom. They will come in autumn to transfer to canvas the mad riot of brilliant coloring with which Nature paints the woods and hillsides and when the orchards groan beneath their heavy burdened boughs of ripened apples. They will come at all seasons to picture the quaint fisherfolk and their qualster surroundings.

The Dominion Atlantic Railway that swings you around a half-circle from Halifax to Yarmouth, takes you through a Land of Romance, the Land of Evangeline. At the little station of Grand-Pre you will find a wide meadow which is soon to be transformed into a shrine. Here

previous to 1776, stood the Roman Catholic Church of St. Charles, the church of the Acadians. To-day a massive stone cross marks the site of the old burying ground that surrounded the church and nearby is Evangeline's Well, with its long sweep.

The French Acadians have always cherished a reverence for this spot and now through the generosity of the Dominion Atlantic Railway Company they may call it their own. The railway company has purchased this meadow and will make it into an old-fashioned garden surrounded with a rustic fence and has deeded a portion of the ground to the Society of the Assumption, composed of French Acadians, of whom the Rev. C. V.

Landry of Buteche, N.B., is President. This only consideration for this transfer is the promise of the Society to erect a chapel. This they are eager to do and plans are now under consideration.

With the dedication of the new shrine, large numbers of French Acadians from Quebec, Montreal and Upper Canadian points, will make pilgrimages to Grand-Pre similar to those made yearly to Ste. Anne de Beauspre. Their numbers will be swelled by many others who cherish a fondness for the gentle Evangeline and who will be eager to visit the scene of her story and to walk under the ancient willows that still guard this storied spot.

If Not A Family Garden Why Not A Community Garden?

Those who grew vegetables in their gardens, or who went in for Community vegetable gardening last year, and had good results, will do the same this year.

But to those who attempted vegetable gardening without success we say: Try again. As a matter of sheer necessity it is worth your while.

Don't rush into it. Figure out what you aim to do before you start. Then get the advice of a friendly neighbor whose vegetable garden was a success.

First of all fill out the coupon below and mail it and get a free copy of the Department of Agriculture's booklet entitled "A Vegetable Garden For Every Home." It is full of helpful practical suggestions, including plans for various sized gardens. If, after reading it, and getting the advice of your neighbor, you find that the soil in your own garden is not suited to vegetable gardening, get some neighbors or friends to join you and rent, or secure the donation of, a piece of suitable land nearby. Then pool your efforts in labour and money for the cultivation of substantial vegetable crops.

For example: Last year thirty-five men in an Ontario city, all of whom were novices at gardening, formed a pool of ten dollars each, and rented four acres of ground on the outskirts of the city. They then secured the services of a man who knew something about farming. They paid him to plow and harrow the land, purchase seed, and get the job properly started. Then each man agreed, and lived up to his agreement, to do so much hoeing. Incidentally they paid the farmer for his supervision and direction through the season.

Write now for a free copy of the booklet entitled "A Vegetable Garden for Every Home," prepared by the Ontario Department of Agriculture. It is full of helpful practical suggestions, including plans for various sized gardens. You can get a copy by filling out and mailing the coupon below.

ALLIED PLANS PROVIDED FOR A RETIREMENT

Necessity of Withdrawal From the Champagne Foreseen

RETREAT ORDERLY Counter Attack Launched by Franco-British in Flanders Salient

With the French army in Franco, Monday, May 27, (By the Associated Press).—As was foreseen the Entente Allied troops were compelled to cede ground in the Champagne before the massed German attack, but they retired in perfect order. The Germans executing a repetition of their tactics of March 21, the troops retired forces, which they had brought forward during the night onto the lightly held position extending from the westward end of Chemin des Dames to Comroy, near Brionot.

At least 25 selected German divisions participated in the onslaught. Among them were two guard divisions. The attack was preceded by the most intense bombardment of gas shells lasting for several hours. The entire allied line was thinly held by a division of French and British troops.

Meantime other German divisions small bodies of allied troops holding the knife-like ridge decided to fall back in order to avoid useless losses in trying to keep an untenable position in the face of greatly superior numbers.

Everything had been prepared for such a movement in the case of necessity and the troops retired fighting foot by foot until joined by their reserves further back.

Counter Attack Launched
May 28, (By the Associated Press).—British and French troops on the northern side of the Flanders salient launched a counter-attack this morning east of Dickebusch Lake, for the purpose of re-taking a few bits of ground which the Germans captured in this section during their drive yesterday between Loere and Voormezele. The operation appeared to be going well at the outset. Its success was all that was needed to make the enemy assault a complete and costly failure.

When the correspondent visited the French last night virtually the entire sector involved was intact. It was stated that the gains which the enemy made in the Dickebusch region were small.

There was very hard fighting on the French left flank throughout the day and the artillery duel was intense, but the German attack was not made in great strength. The object appears to have been merely to regain the high ground which the French captured on May 20th. Apparently elements of French divisions were employed by the Germans and it may be estimated that eight to ten thousand German infantrymen were sent forward on a front of about 6,000 yards.

Escaped From Tiger.
A singular tiger tale comes from a village in Java, where the tigers had been committing havoc for some time. One day a contractor, an opium smuggler, while passing through the forest saw two tigers following them. They were armed only with knives, and so they ran as fast as they could, but the tigers, as may be supposed, rapidly gained on them.

When almost overtaken they spied a tiger trap, a sort of box-like affair, both gladly rushed in, carrying their burdens with them. The trap shut down very closely, but that pleased them mightily, as they could hear the tigers scratching and snarling on the outside. The night passed in this way and at dawn of day the tigers scampered off and the smugglers essayed to do likewise, but all their efforts were unavailing. They were in a trap, sure enough.

In a few hours the setters came to have a look at the trap, and rejoiced to see it closed, thinking a tiger had been caught. Their joy was doubled, however, when the prize proved to be the unlucky smugglers with a valuable load of opium, and the unlucky fellows were marched off to jail in triumph.

Cinema Photographs of Firing.
Parisians will shortly have the pleasure of seeing a cinema photographic reproduction of the firing of French heavy guns which on May 3 put the last of the German super-cannon out of action. An official army photographer attached to the army, charged with counter-battery work, claims that he has secured an excellent film of eight shots from "Nirelle"—the heroine of the Provençal poet Mistral's masterpiece—and "Mary Magdalene," as two of the great French guns are christened by their servants. It is impossible to say which shots were successful, but hardly had the echo of the eighth shot died away when a message came from a signalling plane that two shots had struck the target.

FEAR TRUTH MAY OUTF
By Courier Leased Wire

Amsterdam, May 29.—A notice appears in German newspapers giving warning against attempts to communicate by mail with Germans in America through neutral Red Cross organizations under cover of Red Cross envelopes. The notice says that such letters are invariably opened by the American authorities and may give valuable information regarding conditions in Germany. It says furthermore, that such letters may never reach the persons to whom they are addressed, and that these persons run the risk of being imprisoned. The warning does not apply to communications through the Red Cross to war prisoners and interned civilians.

Queen's Deputy Is Name

Given to Princess Mary, Who Has Now Come of Age

PRINCESS MARY, known affectionately throughout the kingdom as "the Queen's Deputy," became of age on April 25.

The event is important in an official and historical sense as a matter of record for Burke's Peerage, but it has a deeper significance than that. The princess now is likely to exert an influence for the strengthening and building of war service second to that of no other woman in the Empire. The past achievements of this fair-haired young woman forecast such a mission. An income of \$30,000 a year and full independence are the particular elements of the status she now assumes, which make big things possible for her. The income automatically begins for the princess on her twenty-first birthday. Her war service had its beginning when she was a wisp of a girl nearly four years ago.

The efforts of the little princess sparkle. She has raised thousands of dollars through personal appeals and through the direct work of her deft fingers.

Even before the war the princess had achieved note on her own merits.

PRINCESS MARY.

and had made the public talk about her glowingly. It was principally with her needlework that she won fame. The wealthy title of vice-president of the London Needlework Guild rested upon her frail shoulders buff in the misty days of 1913.

In those days the little princess plied her fingers with crocheting equipment to make garments for the indigent and to weave fine bead ornaments and make necklaces which were to be sold for charity. She worked at high speed. In eleven months, it is reported, she raised \$1,250 through her needlework and Venetian glass bead work for London hospitals just before the great war broke.

Just two months before the war Princess Mary came to the high estate of a "big girl," with her hair done up. This was on May 7, 1914, when she appeared with the King and Queen Mary at the formal opening of the British Museum.

From the beginning of the war the princess took an active part in helping to raise war funds. On Oct. 15, 1914, the young woman issued an appeal to the London public for a special fund with which presents might be sent to "every sailor afloat and to every soldier at the front." The appeal was couched in simple, gripping language that got results. Before that "drive" was over \$500,000 had been raised.

The princess became known as the Queen's Deputy when she appeared in behalf of her royal parent in June, 1917, at a variety entertainment given by the Duchess of Wellington at Apsley House for Mesopotamian relief.

To her needle skill the princess has since the war added the accomplishment of typewriting and shorthand, and has served as a capable assistant to her mother in the conduct of the King's household.

Princess Mary was born on April 25, 1897, and was christened Princess Victoria Alexandra Alice Mary. The cottage at Sandringham was her birthplace.

Her Royal Highness has also taken V.A.D. courses and is now commandant of a whole division.

Italy Will Stabilize Exchange.
No money can now be sent out of Italy by means of bank drafts unless the sender can prove the absolute necessity for so doing as by the presentation of bills to be paid. This is particularly true of large sums of money. This is one of the measures taken by the Government to stabilize exchange and prevent speculation in Italian money. Exchange rates are also fixed by law weekly, to prevent artificial fluctuations. According to Oscar T. Crosby the real difficulty of not only Italy but also Great Britain and France is that they are in need of American money to stabilize their exchange. "What they need is dollars," he said.

Charter rates on U. S. ships are to be cut.

COMBINATION

Womankind is growing to like these combinations more and more as they find out how very practical and convenient they are. The one illustrated in No. 8764 combines a bodice top, camisole with bloomers. It is in chemise style—that is to say, there is no joining at the waistline. It is very easy to make, for the bloomers are simply shirred at the knees on elastic and the straight top is treated in the ordinary way. The shoulder straps are just straight pieces of satin ribbon. The bloomers are in open style.

The lady's combination pattern No. 8764 is cut in five sizes—36 to 44 inches bust measure. The 36 inch size requires 3 1/2 yards 27 inch 2 3/4 yards 36 inch or 2 yards 40 inch material and 3/4 yards ribbon.

THE DUKE AND DUCHESS OF DEVONSHIRE AND PARTY AT TORONTO RACES. The main social and sporting event of the holiday in Toronto was the Toronto Hunt Club meet at the Woodbine, when the historic King's Plate race, the oldest fixture run continuously in America, was won by Springside, the fine Hamilt'n thoroughbred, owned by Mrs. Geo. M. Hendrie.
