MR. BIRRELL INTRODUCES IRISH BILL

BANNERMAN GOVERNMENT OF FREE IRELAND LARGE MEASURE OF HOME RULE.

Irish Council Will Control Education, Agricultural, Public Works and Local Government Departments—No Power to Levy Taxes—The Constitution of the Council.

By Associated Press. LONDON, May 7.—The Irish bill designed to meet demands for Irish home rule was introduced in the House of Commons today by the Chief Secretary for Ireland, Mr. Birrell in the presence of an audience which crowded every corner of the chamber.

The Irish Secretary and those in his confidence kept their secret well, with the result that political curiosity was keen to learn the precise details of a scheme which is likely to create prolonged controversy.

The main features of this latest effort to bestow some measure of home rule upon Ireland and which the promoters are hopeful if adopted will also bring better government to the country, are as follows: Prior to the appearance of the measure a popularly termed "Devolution Bill," but today the advocates refer to it as the "Irish Council Bill," owing to its creation of a council to take over a number of administrative functions.

At the outset Mr. Birrell explained that the object of the bill was to associate the sentiment of the Irish people as a whole with the administrative functions of purely Irish districts.

It did not contain any trace of new legislative power. It would not authorize the levying of a single tax or rate. Departments coming under control of the proposed Irish council would be the local Government board, Department of Agriculture, congested districts board, and national education. The inspectors of the reformatories and industrial schools, and the registrar general, the supreme court judiciary, the Royal Irish Constabulary, the Dublin metropolitan police, Land Commission and prisons board would remain under the control of the imperial authorities.

A representative administrative council consisting of 23 elected and 22 nominated members would be established for the first year by the King and thereafter by the Lord-Lieut. of Ireland. The elected members would be elected on the local government board franchise. The Under Secretary, to the Lord-Lieut. of Ireland would be an ex-officio member of the council, which would have complete control of powers vested in the departments to be handed over to its care.

The exercise of powers vested in the departments will be controlled by resolutions of council and the supremacy of Imperial Parliament be safeguarded by power given to the Lord-Lieutenant of Ireland to reserve his consent to any resolution of the council.

A new education department for primary and secondary education is to be established and will be placed under the control of the Irish Council. The council would be elected for three years. For financial purposes eight departments would be created. A certain annual sum, to be fixed by Parliament every five years, would be charged to the consolidated fund and paid into a separate Irish fund. A special Irish fund to amount to a little over \$20,000,000 yearly would be created. The religious disability feature would be removed from the office of Lord-Lieutenant of Ireland. The council would have the power to appoint and remove officers from the eight departments above mentioned.

In conclusion the Irish Secretary said that if the new council proved a success it might have the way for home rule.

CONTRACT LET FOR LAND TITLES OFFICE

TENDER OF MAY SHARPE CONSTRUCTION CO. ACCEPTED FOR BUILDING.

The contract for the erection of the new Provincial Land Titles Office here has been awarded to the May Sharpe Construction Co. of Winnipeg and Edmonton. The contract price is slightly in excess of \$34,000.

Five tenders in all were received, but the next lowest one was very considerably higher than that of the May Sharpe Co. The new building will be absolutely fireproof, the only wood in it being confined to the furniture. It will be of reinforced concrete faced with terra cotta and pressed brick, and will be of a character of construction which as hitherto has not been attempted in this province. There are not more than half a dozen buildings of the same class of construction in Winnipeg. Work on the building will be started without delay.

SHOT HIS WIFE OF A FEW HOURS

YOUNG BRIDE DYING FROM MANY SHOTS AND KNIFE WOUNDS.

SOUTH FRANKLIN, Mass., May 7.—The police have been unable to locate John Danello, who is alleged to have shot his bride of a night, Frances Danello, at their newly prepared home on Sunday night. The young bride was still alive at midnight, but little hope is entertained for her recovery. The couple were married on Sunday night.

Their new home, until nearly midnight when they retired, Mr. Danello, the groom's father, who occupied a room upstairs, was the only other occupant of the house with them. Early yesterday he was aroused by hearing revolver shots downstairs, and hurrying down to the couple's room found the young woman lying on the bed with three bullet wounds and three stab wounds in her body. The husband had disappeared. No cause is known for the deed.

BLOOD RUNS IN SAN FRANCISCO

STRIKE-BREAKERS SHOOT ON ATTACKING STRIKERS—EIGHT MEN SHOT.

SAN FRANCISCO, Cal., May 7.—Strike-breakers, in the uniforms of car inspectors, strikers and their sympathizers, fought this afternoon on Turk Street for more than an hour. Eight men were shot, among them a policeman and Detective Phillips. Several of them will die. The shooting was done by strike-breakers from car windows, in response to showers of paving stones and bricks hurled by the mob which chased the cars through block after block, picking up their wounded as they ran.

At this hour, (4.15 p.m.) a fierce riot is still in progress in the vicinity of Third and Fillmore Streets. Many police reserves have been called out, and with clubs and drawn revolvers are chasing and dispersing the mob.

BUCKET SHOPS ARE DOOMED

LEGISLATION IN THE WESTERN STATES DIRECTED AGAINST THE SWINDLERS.

By Associated Press. CHICAGO, May 7.—The Tribune today says: Bucket shops throughout the West and in many States in the South, appear to be nearly at the end of their existence. Concerted legislation against them in several States and the passage of stringent laws prohibiting them from operating further, together with the activity of the Chicago Board of Trade in prosecuting cases against them, has caused many of the leading bucket shops which have had a network of private wires covering practically every state in the West, South and North-West, to decide to quit. It is understood that the leading bucket shop in Indiana is preparing to wind up its affairs by the middle of June, which is the time set for their closing up by the state authorities under the law recently passed prohibiting bucket shops in that state. Iowa and Missouri have passed similar laws and bills are pending in Michigan, Pennsylvania and Massachusetts, as well as the Canadian North-West provinces.

CLAIM TOO MUCH DUTY WAS TAKEN

RANCHERS APPEAL TO SUPREME COURT TO GET BACK DEPOSIT ON CATTLE.

Special to The Leader. OTTAWA, May 7.—When the Supreme Court met in the afternoon, argument was proceeded with in the appeal of Spencer vs. the King from the judgment of the Exchequer Court of Canada. The appellants were cattle owners with a ranch in Montana and another in Canada just across the border. In 1902 they took their stock across the Canadian national boundary into Montana, where they were seized by the customs officials claiming that a lot more had been brought in on which duty was not paid and after making examination seized nearly 600 head, claiming that they were older than those entered in 1900 and could not be the same. They were released on deposit of money to recover the duty. Action was taken to recover back the amount retained by the customs department out of deposit. The Exchequer Court judge found that the seizure was justified and dismissed the petition of right. The appellants appealed. The argument was not concluded when the court rose, and will be proceeded with tomorrow.

WITH SLIGHT RESERVATION TO GIVE MOTHER COUNTRY A FREE HAND.

By Associated Press. LONDON, May 7.—It is stated unofficially that the Imperial Conference concluded the discussion of the preference today. Right Honorable Winston Churchill made a speech pointing out the objection from a parliamentary procedure point of view to a preferential tariff. Sir Wilfrid Laurier also spoke lengthily, expressing his adhesion to the 1902 resolutions and his opposition to Mr. Deakin's motion. Hon. Alfred Deakin replied to Mr. Churchill.

NEW POSTAL RATES GO IN FORCE TODAY

UNITED STATES REFUSED TO DEFER OPERATIONS UNTIL JANUARY 1908.

Special to The Leader. OTTAWA, May 7.—The new postal convention between Canada and the United States comes into operation tomorrow. Hon. Lemieux, postmaster general, has been in receipt of resolutions, and requests for certain changes in the rates and also for postponing the putting in force of the new convention until January 1, 1908. This he is unable to do. No change can be made except by mutual agreement. Mr. Lemieux was willing to postpone the coming into effect of the convention until January, 1908, but the United States would not agree to this. The Washington authorities wanted it to take effect at once. The postmaster general, however, has under consideration the application for granting stamped wrappers to publishers at the price of the stamp. He is desirous of doing anything that he reasonably can do to meet the wishes of the newspaper publishers in this regard.

DRANK CARBOLIC FOR PAIN-KILLER

MAN TAKES FATAL DOSE OWING TO WRONGLY LABELLED BOTTLE.

Special to The Leader. FORT FRANCES, ONT., May 7.—A fatal accident took place at the Cherry Island camp of the Rainy River Lumber Co., Rainy Lake, on Thursday last when a man by the name of John McDonald, who had just arrived in the camp, by mistake drank a dose of carbolic acid in place of painkiller. Some six weeks ago he became very ill and went to St. Mary's Hospital, St. Catharines, where he underwent an operation. Returning he visited Mr. Shaw, his old employer, and left on Thursday morning for the company's camp at Cherry Island, walking the entire distance, some seventeen miles, over the ice. Arriving there chilled through, he found a bottle labelled painkiller, but which really contained carbolic acid, and drank the contents. Death ensued.

SIR WILLIAM MULOCK SPEAKS TO THE MINERS

A COMMONSENSE ADDRESS DELIVERED AT PUBLIC MEETING.

By Associated Press. Labor Matters in a Friendly Way as Buyer and Seller—No need for Dislocation of Trade by Resort to Strikes or Lock Outs. Special to The Leader. FERNIE, B. C., May 7.—After the miners had signed the new agreement yesterday, Sir William Mulock in addressing a public meeting said: "You have, I think, acted most wisely in coming together and adjusting your differences in this way. It is true that the boards took no part in this matter. It was not necessary for them to have done so, because the fact that the boards were within reach of both parties seems to have suggested to them the uselessness of their assistance of the boards to do what they themselves could do better if they were so disposed. Sometimes parties to trade disputes allow their feelings to dispose their reason for the moment, and foolish things and unwise words are done and uttered, whereas these trade disputes ought to be regarded as incidental to business affairs, just as a discussion takes place between the buyer and seller of any articles of commerce, the buyer wishing to purchase at the best price. The workman has his labor to sell, the employer has to buy, and it is natural that each one should desire to make the best bargain in the disposition of this article of commerce, but in the past there has been an unnecessary disregard of common sense principles in the adjustment of these disputes. Each party has each other's interests in mind, and each other's interests as if they were hostile forces and have wasted valuable time and money. There is now on the statute books, a statute which renders a strike, lock-out, or cessation of work pending a dispute, wholly unnecessary, and when hereafter such a condition is brought about, so long as this act is upon the statute books, it is a wanton misuse of liberty. There is no longer a necessity for an employer to lock out his men in any of the classes of industry to which this act applies.

REGINA'S NATURAL SUMMER RESORT.

In preparing the Special Spring Building Number issued last week the Leader desired not only to note the progress of the past and the prosperity of the present, but also the prospects for the future.

Great improvements have been effected at Port Colborne to enable the grain brought down from the upper lakes to be transhipped in barges for transportation further east.

The construction also pointed out that the capital could be made, and would be made, an attractive city.

Large the city becomes the more need there would be for a convenient, healthy and attractive spot where our citizens can spend a summer holiday and recuperate from the hurry and strain of active business life.

THE IMPERIAL CONFERENCE. By resolution just given to the press you will see that there is no Imperial Council at all and that the relations between the Government of Canada and the Government of England will still be carried on in future, as in the past, under ministerial responsibility.

FIGURES THAT TALK. Towards the close of the recent session of the Dominion Parliament Hon. Wm. Paterson, Minister of Customs, and war horse of the Liberal party, whose stentorian tones have sent dismay into the Conservative ranks on many occasions, addressed the House on the subject of revenue.

DARING WHEAT SWINDLE TRIED

UNKNOWN MAN ENDEAVORS TO DEFAUD WINNIPEG GRAIN COMPANIES.

WINNIPEG, May 3.—By daring, yet somewhat crude tactics, a man whose identity is as yet a mystery has attempted to procure from two local grain firms by means of forging railway station agents' names to bills of lading, some \$6,000. That his plans were frustrated is largely due to the fact that the would-be swindler was not aware of the fact that all box cars on the Canadian railways are identified by even numbers, while those of flat cars are odd.

STEWARDS HELP TO LOAD BOATS

STRIKE OF NEW YORK LONGSHOREMEN TIES UP ATLANTIC STEAMERS.

NEW YORK, May 3.—The strike of longshoremen engaged in loading and unloading Manhattan and Brooklyn shore fronts assumed a more serious aspect today. So far only two Irish Atlantic passenger lines, the American and Red Star, have been seriously affected, but work has been practically suspended on a score of more or less tramp steamers and fears of a general tie up are entertained.

SPEECH LED TO SERIOUS RIOT

FOR A TIME POLICE OF CASTRIES WERE POWERLESS—MOB IN CONTROL.

NEW YORK, May 4.—A dispatch from Castries, island of St. Lucia, S.W.I., says: "The speech of the new British governor having been construed as encouraging to the aspirations of the workmen, the coal carriers organized an agitation for a big advance in wages and struck work. They intimidated all who were willing to work and were joined by the rabble. All coaling was stopped. 'There is only a small police force here, inadequate to repress disorder or to protect property. Being pressed by the rioters they fired on the crowd and wounded four persons. The police and special officers were confined to their barracks, and the town was left in the hands of the mob. Several shops were wrecked, the market was looted and several persons were beaten. The general public was not molested. 'The coal carriers formulated their demands and the merchants were compelled to yield. The advance in wages is considered ruinous but work has been resumed. 'News of the burning and wrecking of sugar estates is now coming from the country. Armed police are preventing rioters coming into the town.'"

FIRE OUT AT LAST

After Burning Two Years, Fire in Coal Seam is Extinguished.

(Patevay Mercury) The fire which has been eating its way through the coal seam southwest of the town for the last couple of years is now a thing of the past. George Anderson, inspector of lands for the C.P.R., was down last Friday and drove out with P. C. Dunca to see what headway had been made by Redway, who had the contract for extinguishing the fire. Redway began his work last winter and has cut a trench all around the fire, the cutting being in some places ten feet deep. As soon as the snow began to melt this spring on the high land it ran down and filled the trench, making an effectual bar against the progress of the fire. Redway got for his work \$400 and the privilege of selling all the coal he took out while digging the trench.

TOLSTOY WANTS A REVOLUTION

MAN OF PEACE URGES OPPOSITION TO CAESAR'S MINISTERS AND ARMY

BERLIN, May 3.—Count Tolstoy's revolutionary pamphlet, which was prohibited in Russia, is to be brought out here in a fortnight. It is entitled "The Way to a Social Liberty." Although it embraces a dual appeal to both the Russian Government and the people, its chief aim is to arouse the latter to the belief that the only cure is in a successful revolution. Tolstoy practically repudiates his former principle of passive resistance and boldly declares for a war against the present Government to the death, each individual being inspired by what God has at all times demanded for the existence of human beings.

Tolstoy relates a conversation with two workmen who had much to do with his change of view. In part he says: "They made it clear to me that only through a revolutionary measure—not only the execution, but the arrests and banishment—could this fearful, annihilating fight of a people be stopped. 'I am now strongly convinced that the best the Government can do is to give in to the revolutionists, but at the same time such a proposition on my part may be considered an expression of my insanity, and I am glad to be reminded of the fact that revolutionists, conservatives, peasants—unhappy revolutionists manufacturing bombs, unhappy misguided people ordered before a court-martial, and then shot—I am reminded of them. They all put the same question, 'What shall we do?' 'And I now reply, You shall not do what the Czar's Ministers and soldiers, or even the Chairmen of the Revolutionaries, have demanded, but you shall do what appeals to you as men, following the power sent into the world, which gave you life and an ear divine and conscience. Finally, do only that which at all times God has demanded, so that the absurd and the senseless, now, will disappear.'"

ICELAND WANTS ITS OWN FLAG

ISLAND AGITATING MOVEMENT FOR COMPLETE SEPARATION FROM DENMARK

COPENHAGEN, May 4.—An agitation for special Icelandic flag is being strongly pressed in Iceland. The country holds a favored position in the Danish monarchy, and all its demands, and there has been some thought of rendering one. In reply to an inquiry from the committee of the Danish parliament, the commission replied that the supplies sent were valued at \$18,000. Colonel Goethe declared that there was no way intended as a bill and the full correspondence now made public proves his assertion.

Millions for Defense

Those who are disposed to sneer at the stupendous figures given should study the master of campaign funds and then take into consideration the importance of the interests involved. It has been demonstrated in past campaigns that where money was needed to carry out a conservative programme it was not lacking. Business shrewds responded very readily under stress of circumstances. For example, when Mark Hanna was chairman of the republican national committee of 1896, he collected a million dollars in one evening in the Union League club in New York city, two weeks before the election. He called out this vast sum for campaign purposes on a representation that the country was in danger of electing Bryan and bringing about legislation for free silver coinage at 16 to 1.

It was argued on his behalf that no offence had been proved and that he was an innocent man. It was committed in the United States and that the Canadian court had no jurisdiction. Magistrate Jeffs decided to issue a warrant to bring him to trial.

PLAN TO SHELVE ROOSEVELT DEAD

GREAT \$5,000,000 CONSPIRACY WAS NOT MERE HALLUCINATION, HOWEVER

WASHINGTON, D. C., May 4.—When President Roosevelt intimated that he had much corroborative evidence in reserve regarding the alleged \$5,000,000 conspiracy to bring about the nomination and election of the reactionary as president, he spoke knowingly, as may appear later, if the disposition to poke fun at the conspiracy is not come to the president in the form of an echo (sic) from the Senator of Oregon. The senator who bubbled over that evening and boasted of what would be accomplished did not furnish original evidence, but merely corroborative information that had been in the president's hands for at least two months.

Planned at a Poker Game

The first disclosure of the plan to capture the republican nomination for a reactionary was made at a "game" of poker in a private club in January. One of those who held a hand was a very shrewd former senator, who is something of a politician and a devotee of the reactionary. The game lasted most of the night, and at the first suggestion of a conspiracy to revivify the Roosevelt policies, the former senator pricked up his ears, and by sweetening liberal "loves" had cultivated an era of good feeling, and gradually wormed out the details of this interesting programme of the reactionaries. This former senator is ready to stand for the story whenever it becomes necessary, to give the details of the game and what was said on that occasion, in furtherance of the reactionary programme. The president did not jump at the story like a hare seeing a fly. He was inclined at first to view it with incredulity. Other information came to him through various sources, but he filed it all away in a pigeon-hole and thought the matter over. Even after the blubious senator at the Bourne banquet had let himself out, the president sought further corroboration by sending around the next day, a libelle man to appear from "Phillip Grant to Phillip sober." The firm insistence by the talkative senator that what he said was true convinced the president that there was some foundation for the story. Even then he would probably not have made the matter public but for the Harriman incident.

FRENCH PREISTON SEDITION CHARGE

ALLEGED TO HAVE ISSUED PAMPHLET INCITING TO RESISTANCE OF LAW.

PARIS, April 30.—The Ninth Chamber of the Correctional Court was crowded today, when the case of the Abbe Jouin was called on for hearing. The abbe is charged with sedition and is being prosecuted for having in January last distributed a small brochure so worded that, from the government point of view, it incited the people to resist the Separation Law. Proceedings were taken against the abbe chiefly as the outcome of the seizure of the Montaigne papers. The government announced in the Chamber and out of the Chamber that the case of St. Augustin in urging opposition to the law, had been acting under express orders from the Vatican transmitted to him by Mgr. Montaigne, and the documents seized by the police would, it was asserted, furnish ample proof of the culpability of the abbe and his Vatican advisers.

FLOATING ICE BARS NAVIGATION

SHIPPING UNABLE TO LEAVE PORT WILLIAM DESPITE ICE-BREAKER'S WORK.

PORT WILLIAM, May 6.—The outlook for a quick despatch of vessels from this port is not very hopeful at present, as the wharfs are blocked with ice and there is no immediate prospect of its being cleared away. The ice-breaker "Whelan" is busy opening the channels, but with every shifting of the wind the channel fills up and has to again be broken open. There are no vessels from the ice-breaking bay. The Ottawa reached port yesterday after a hard trip, but several other vessels had to turn back for another port.

HINDU RIOTS ARE ANTI-CHRISTIAN

MISSION BUILDINGS SPECIALLY MARKED OUT FOR ATTACK BY NATIVES.

LAHORE, BRITISH INDIA, May 6.—The Hindu outbreak at Rawalpindi, India, appears to have a religious character. The mission buildings were the special objects of the fury of the rioters. An attempt was made to burn the school house, but it was not successful. The school house was burned to the ground. The Y. M. C. A. was looted and damaged and the houses of missionaries destroyed. A riotous outbreak under the leadership of Hindu students has occurred at Amritsar, about 30 miles from here.

WARRIORS RETURN TO WORK TODAY

OTTAWA, May 8.—The new agreement was signed by the miners today and the long strike is now at an end. The executive board of the miners' union will issue orders at once for the men to return to work, and as it will take a day to reach outlying camps it is not likely a general resumption of work will take place until Wednesday, although work may be resumed at Coal Creek tomorrow. Much credit is due to the miners' union. Mr. McDonald stated today that fully 700 men had left the camp and it would be fully two weeks before the working force will be completely reconstituted. The trouble started, McDonald also said that the miners were well satisfied with the new agreement. The credit is due to the miners' union for its efforts in bringing the parties together.

MEXICO UPRISING SERIOUS AFFAIR

UNITED STATES IS WORRIED OVER THREATENED INVASION OF GUATEMALA.

MEXICO CITY, May 4.—It is an open secret here that the Mexican government wants to see the overthrow of the administration of President Cabrera of Guatemala. The political exiles from Guatemala, who are now in this city, are said to have organized a provisional government, which will be set up as soon as the revolution that is now brewing against Cabrera reaches the state of open conclusion. The leaders of the revolutionary movement are well supplied with funds and war munitions and supplies are said to have been purchased in large quantities. While these revolutionary preparations are going on the Mexican government continues to augment her force of troops on her frontier bordering Guatemala. An invasion of Guatemala by the Mexican forces is momentarily expected.

WINNIPEG STRIKE STILL UNSETTLED

PLASTERERS AND BUILDERS FAIL TO COME TO AN AGREEMENT.

WINNIPEG, May 6.—Prospects of an immediate settlement of the plasterers' strike are somewhat clouded. While the plasterers are willing to submit their case to arbitration, the builders have insisted that the master bricklayers and carpenters should submit the demands they have made at the same time, so as to have all differences settled at once. As the plasterers' agreement does not expire until June 1st, they have expressed an unwillingness to arbitrate at once. In view of this it is doubtful whether the builders will pursue as far the arbitration of the plasterers' demands alone, with a prospect of other independent arbitrations, or possibly strikes, to come along during the season.

MONTREAL AUTHORITIES TO PROCEED AGAINST SHIPPERS OF PUTRID SALMON

MONTREAL, May 6.—The shippers of 50,000 tons of British Columbia salmon to Montreal, which was returned by the Board of Health and condemned as unfit for human food, are to be prosecuted. This was the decision arrived at today by the Council of Aldermen who instructed the city attorneys to take whatever action was necessary.

The fish came directly from Toronto and it is likely the prosecution will be entered there. Only prompt action in seizing the decomposed fish prevented wholesale poisoning.

With the transfer of the administration of justice from the federal to provincial authority, and the consequent abolition of the Dominion Courts, which were followed by the bringing into effect of the Court legislation passed at the recent session, the commissions of these gentlemen will become null and void. The Government have in their order-in-council given them provincial commissions.

Mr. Mackenzie and Mr. Brown are both leaders of the bar in this province, while Mr. Ford occupies the position of deputy attorney general.

YEAR'S ACCIDENTS IN OLD ONTARIO CONSTRUCTION WORK PROGRESS

REPORT OF FACTORY INSPECTORS DISCLOSE A TOTAL OF 636. LARGE GANGS WORKING OUT FROM SASKATOON TO WETASKIWIN.

TORONTO, May 6.—Six hundred and thirty accidents, including 27 deaths, occurred in the factories of Ontario during 1906, according to the report of the factory inspectors, just issued. The law is very clear, said Inspector Burke, and requires that owners and others in charge of the premises shall report accidents to this department, but there seems to be a certain amount of negligence on the part of manufacturers to make such reports. This should not be. The reports serve as a guide to investigation and help to prevent accidents.

TEXAS SWEEP BY BIG STORM

TORNADO DOES IMMENSE DAMAGE—VILLAGES ALMOST WIPED OUT.

FORT WORTH, Texas, May 6.—A storm of wind and rain which was general throughout a considerable area of northern Texas and which some places assumed the proportions of a tornado, according to meagre reports received here today resulted in the loss of at least two lives and the injury of many other persons and great damage to property and crops. Several residences were wiped out, but because of damage to wires, details are almost impossible to obtain. At Deport several residences were blown to pieces and many of the farm houses and barns in the neighborhood were badly damaged and several persons badly injured. STREET CARS NOT RUNNING AND TELEPHONES IDLE—IRON WORKERS OUT.

SAN FRANCISCO, May 6.—San Francisco is again in the throes of a bitter struggle. For the third time since the strike broke out a year ago San Francisco is walking, because of the declaration of a strike on all the street car lines in the city by the street car union added to this tie-up in the strike of telephone girls and of 8,000 iron workers. Without transportation facilities, and with a crippled, inadequate telephone service, business is greatly handicapped. A committee from the Civil League of San Francisco yesterday called on Henry T. Scott, president of the Pacific State Telephone and Telegraph Company.

ANARCHIST AFTER KING EDWARD

TRAIN ON WHICH HE WAS TRAVELLING IN SWITZERLAND TAMPERED WITH.

GENEVA, May 6.—The overthrowing of an axle component on a town train on the train on which King Edward was travelling home, is declared by newspapers to be an attempt to wreck the train. The train was stopped, as a measure of precaution, at Sion and it was found that a grease box on one of the axles was missing.

The train had been running at the rate of a hundred kilometers an hour and the axle was while hot. If the axle had gone a few miles farther the axle might have fused and the cars would then have been derailed. It is said that the bolts and nuts securing the box had been deliberately removed. An inquiry was immediately begun.

A BIG VICTORY FOR THE C.P.R. EMINENT VISITORS COMING TO CANADA

TAXATION OF ITS LANDS WILL ONLY BEGIN 20 YEARS AFTER PATENTS. SWETTENHAM TO BE FETED—MILNER EXPECTED IN AUGUST.

The Montreal Witness of the 2nd inst. publishes the following article which contains news of tremendous importance to this country though it is anything but gratifying. The witness says: By a recent decision of the Judicial Committee of the Imperial Privy Council, the Canadian Pacific Railway has won a great victory in the Canadian North-West. When the company got its charter in 1881, there was provision in that the 25,000,000 acres of land granted by the Crown as a subsidy would not be subject to taxation by the municipalities until twenty years after the grant. The municipalities held that the time for taxation had arrived twenty years after the signing of the contract with the Government. The railway company, on the other hand, maintained that the time was not yet arrived. The municipalities insisted that the time for taxation had arrived twenty years after the patents had been issued. The court in the case, two or three of the municipalities opposed the tax, and the company refused to pay. The courts sustained the company's contention. This means a great saving to the company, for the 25,000,000 acres of land valued at \$1,250,017 acres were patented in 1886, when the Laurier Government took office. This fifteen years had passed from the time of granting the charter, yet the land will only be subject to taxation twenty years after the patents were issued. The charter provided that the grant was to be made in alternate sections of 640 acres extending back twenty-four miles on each side of the line from Winnipeg to the summit of the mountains, the odd-numbered sections being set apart for the company. When the present Government took office, it promptly addressed itself to the duty of settling the business by having the C. P. R. select its land and leasing patents for it. There is a clause in the charter which provides that on the land passing from the possession of the company it at once becomes subject to taxation; otherwise, until the expiration of the twenty-year period, the C. P. R. land is constantly increasing in value and is constantly increasing in value. The witness says Mr. J. J. C. Abbott, who drafted and perfected the C. P. R. charter, had it so framed that Mr. Ed-ward Blake, who was elected president of the best legal talent that Canada could produce, could not find a flaw in it that did not always turn to the advantage of the company.

Torn by Wild Beasts

HISTORY OF A GREAT DISCOVERY

The old Roman heroes who were torn by wild beasts at their fights in the now ruined Colosseum at Rome the Greek charioteers and the gladiators who made fighting a profession, all knew the virtues of herbal essences for skin injuries and diseases. They would emerge from a combat sore, bleeding and covered with wounds. They would apply at night their secret herbs to their wounds and a few days would again be ready for combat. Their ideal of a balm or ointment was the correct one—a preparation which must combine power with purity; and that ideal is realized in Zam-Buk.

Ordinary ointments, salves, and emulsions are generally composed of rancid animal fats and mineral poisons.

Zam-Buk, on the contrary, is a healing balm composed of highly refined oils and juices got from certain rich medicinal herbs, and every household may rely on its healing and soothing power.

When the little one runs in from his play with a smarting dirt filled scrape on his hand or knee, simply wash the part, and smear with Zam-Buk, bandaging if necessary.

When father returns from work with a cut, burn, or bruise, a little Zam-Buk again meets the emergency, and the housewife or mother continually finds it a real friend in need for the burns, the scalds, scrapes and bruises of general household duties.

For eczema, ulcers, itch, stabs, abscesses, scalp sores, and all skin diseases, it acts like a charm. It eases the pain and stops the bleeding of piles and cures this painful ailment quickly and surely. All druggists and stores sell at 50c a box, or from Zam-Buk Co., Toronto, for price, 6 boxes for \$2.50.

TO DOUBLE TRACK SIBERIAN RAILWAY

COUNCIL OF RUSSIAN EMPIRE PASSES RECRUITING BILL—FAMINE RELIEF.

ST. PETERSBURG, May 6.—The Council of Ministers has decided to double track the Siberian Railroad. The section from Atchinsk to Irkutsk will be doubled this year.

The Council of the Empire (Upper House) adopted unanimously the Recruiting bill and the bill appropriating \$3,000,000 for famine relief, passed by the Lower House, abolishing drumhead court martial, was not discussed. The Recruiting bill was discussed in executive session only. One member proposed to decrease the number of recruits but withdrew his motion.

Mr. Kokotoff, Finance Minister, made a speech during the discussion of the famine appropriation measure. He said the Lower House had exceeded its competence in bringing up the bill without notifying him, but the matter was so urgent that he asked that all formalities be disregarded. The bill was passed immediately.

Troops had to be called in to suppress a revolt of political prisoners in the jail of the Viborg quarter this morning. The soldiers fired a volley, killing one man and wounding several.

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How women may Avoid them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women, and girls, either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Female troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of these patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the abdomen, nervous exhaustion, pain in the small of the back, dizziness, flatulencies, displacements of the organs or irregularities of all these symptoms are indications of an unhealthy condition of the female organs, and if not headed the penalty has to be paid by a dangerous operation.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the organs, that bearing-down feeling, indigestion, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, etc., they should remember there is one tried and true remedy.

ANNA GOULD WANTS TO SELL PINK PALACE

BON'S LATE WIFE ANXIOUS TO GET RID OF FINE PARIS RESIDENCE.

PARIS, May 1.—Mme. Gould wishes to be rid of her pink marble palace, the scene of so many sumptuous entertainments before she divorced Count Bon de Castellane. So her friends say, and they add that thus far, no one has offered a sufficient price for the mansion.

Mme. Gould refused to rent her fine residence to Ambassador White, who has been searching everywhere for a fitting dwelling and who departs of getting one in the fashionable district.

A syndicate, which includes some of the foremost financiers in Paris, is eager to get possession of the Gould mansion. If successful, they will rent the salons to wealthy fashionable persons who wish to give receptions, dinners or dances. They will make it the Sherry's or Delmonico's of Paris, whose aristocrats are now following the American and English

fashion of giving entertainments in public houses instead of receiving their guests in the comparatively small limits of their private dwellings.

If the plan is carried out, the syndicate will leave intact the famous ball-room in the Gould mansion, but will tear down the partitions that divide the rooms into private suites, so that there will be a series of larger halls in which several entertainments can be given simultaneously.

Society would welcome and patronize such an establishment which would include a library, reading-rooms and the finest cuisine.

The Washington palace is now the only public place where such entertainments can not be given. But many of Mme. Gould's neighbors strongly oppose such a transformation of her palace. They insist that however exclusive such an establishment might be, it would be unwelcome in a district so ultrafashionable. And they take comfort from Mme. Gould's assurance to her intimate friends that she has no immediate intention of selling to the syndicate.

WARRANTS HAD NO SEALS ATTACHED

BUCKINGHAM STRIKERS RELEASED ON TECHNICAL FLAW IN WARRANTS.

OTTAWA, May 1.—By applying the law of the Province of Quebec, by which the affixing of seals to all criminal proceedings instituted in the Province is required, Judge Talbot at a sitting of the magistrates' court yesterday in Hull, released the Buckingham strikers and Dr. Rodrique who were arrested by warrants to which no seals were attached. The point was raised by Recorder E. A. Coyne. He had investigated the law and had looked thoroughly into all phases of the cases and therefore decided that the arrests were illegal and void. Under the criminal code no stamps are necessary. A reserved case was granted.

PROMINENT LADY SPEAKER TO RETIRE

LADY HENRY SOMERSET MAKES HER LAST PUBLIC SPEECH.

LONDON, May 2.—Before a large crowd at Bridgewater House today, Lady Henry Somerset, the widely known reformer, delivered what will probably be her last address in public. The announcement was made by Lady Henry herself, who explained that the fatigue incident to the many calls upon her have impaired her health and that she has found it absolutely necessary to curtail her work. Though retiring from public life, Lady Henry will carry on her home at Duxhurst, where she will continue to live. She has been before the public for many years and is beloved as well known in America as in England. An unhappy marriage led to a separation from her husband and she determined henceforth to give herself to social and religious work. The industrial colony founded by her at Duxhurst in Surrey is the pioneer institution of its kind. Women of all classes suffering from alcoholism find the pleasant home and amongst work-rooms and gardens, poultry yards and dairies they can forget the old influences which have dragged them down.

INDIAN RIVAL FOR LONGBOAT

WILL RUN UNDER I. C. A. C. COLORS AGAINST MARATHON CHAMPION.

TORONTO, May 2.—Tom Longboat has an Indian rival. His name is Adam Henry. The Irish Canadian Athletic Club, a rising young sporting club here—or rather Mr. T. C. Flannigan, its president—has taken out of the woods around Caledonia, and he will be here next Saturday to get into training for a race against the Marathon winner. Mr. Flannigan returned home at noon today from a three-day trip to the Indian reserve in search of a conqueror of Longboat. "I've got a good man, I think," said Mr. Flannigan. "He is nineteen years of age, stands 5 feet 7 1/2 inches and weighs only 100 pounds. He is skinny, but he can run. He did three miles in 14 minutes, 40 seconds for me there. I found out that the Indians away back in the country were larger than the business players and the Indians who hang around town. Every Indian out there is in training. Since Tom Longboat won the Marathon, all have gone into training. Everywhere you go an Indian clad in a pair of trunks will go tearing by. Every boy you see is 500 feet in a sprint. Tom's mother says that none of them can beat her son. They told me out there that Tom has been training his life and that his ambition was to be a prize-fighter."

TORONTO, May 2.—Practically the last of the virgin timber limits anywhere near the waters of Georgian Bay, consisting of 8 square miles near Killarney, Ont., was sold today, the price being a million and a half, to W. J. Bell, of Sudbury, who is said to have had associates in the deal. This limit was offered in 1912 for \$350,000, and no tenders were received.

A RAZORLESS SHAVE.

Burning Ashes is Nothing to Latest Discovery.

LONDON, May 1.—There is consternation among the barbers of England over the invention of a Londoner named Witherington. He has made a paste which removes the beard without the use of a razor in ten minutes. The paste makes the hair so brittle that it can be rubbed off clean with a wet sponge. "No skin trouble" is guaranteed and the performance is simply a part of washing the face upon arising in the morning.

Italian Government Pays \$1,800,000 for Religious Houses.

ROME, May 1.—The long-standing legal action between the Vatican and the Italian government for the confiscation of religious houses in 1870 has been settled by the government agreeing to pay \$1,800,000 to the Pope. This sum was paid over to the legal representatives of the Vatican yesterday—\$600,000 in cash, and the rest in government bonds. The Pope personally sent a letter of acknowledgement to the government and expressed his appreciation for the consideration shown by the Quirinal. Comments in the newspapers show that the transaction is regarded as a significant illustration of the amicable relations now existing between the government and the Holy See.

ROME, April 30.—For a whole month the agricultural laborers at Ferrara, in the province of Ferrara, have been on strike for a more equitable division of labor and wages. So result is the entire population in its resistance to the farmer proprietors that mothers of families, nearly all of whom profess socialist principles, have now sent away from the zone of conflict in all 1,700 babies to be cared for in artisan households in various parts of upper Italy. The Chamber of Labor of Bologna has undertaken to shelter and nurse 150 of these infants of the age of 2 and upward. The Ferrarese Catholic leagues also are making weekly allowances to their associates on condition of their continuing in the campaign of passive resistance.

SUPPORTS SIR WILFRID'S STAND REGARDING IMPERIAL COUNCIL.

LONDON, May 3.—Sir Charles Tupper contributes a fourteen page article to the Nineteenth Century for May on the Imperial Conference. Speaking generally and especially of the thirteen years experience as High Commissioner for Canada in England he supports Sir Wilfrid Laurier's action in the conference, in defeating the schemes for an Imperial Council. He expresses what he calls the fallacies of Sir Frederick Pollock's and the Right Hon. A. Lytton's proposals for a permanent commission to effect the continuity of the conference between meetings. He quotes many instances to show how efficiently this has been done through the secret diplomatic agency of the High Commissioner. Sir Charles Tupper also supports Sir Wilfrid Laurier in opposing colonial cash contributions to naval defence. He proves that Canada has fully acted up to her defence duty to the empire as laid down by the imperial defence committee.

AUDIENCE MAKES HOSTILE DEMONSTRATION AGAINST DE BROGLIE AND WIFE.

ROME, April 30.—The Prince and Princess de Broglie, whose romantic love story is familiar to Americans, have been performing in the last few nights in the Salone Margherita Cafe Chantant in Rome. The Queen of Rome has now, however, prohibited their further appearance in public, consequent upon a hostile demonstration two evenings ago, when their curts was vigorously hissed, and the Princess' voice was completely drowned by the blowing of whistles and the chanting of new songs. Ever since their debut in Rome the Prince and Princess have been the subject of adverse artistic criticism on the part of the press, but no angry feeling was manifested toward their persons until the Prince in an inter- view in a Roman journal denounced the local aristocracy as specimens of ill-breeding, contact with whom had lessened still further his personal respect at having revolted from their ranks. The Prince, who very pallid, bravely defied the rowdy opposition with dignified calm, an attitude in which he was unfortunately not imitated by the Princess, whose first gesture of fury was a Roman journal denounced herself anew to her persecutors with her fingers pointed to her nose. Whether better fortune awaits the De Broglie's in Naples and other big Italian cities in which they are booked to appear remains somewhat uncertain.

TRANSFERRING POPE'S BODY. Will Be Taken to Last Resting Place Secretly by Night.

ROME, May 8.—It has finally been decided that the body of Pope Leo will be transferred to the Church of St. John Lateran at night and as privately as possible. The idea of asking the Government to assist in the ceremony and to guarantee the safety of the procession conveying the remains has been abandoned. The intervention of troops might be misconstrued as a sign of reconciliation between the Vatican and the Government, or a change in the Vatican's policy toward Italy which has not occurred.

It is learned that in pursuance of the plan of secrecy the body of Pope Leo will be removed from its temporary tomb in St. Peter's at night and carried in the early morning to the Church of St. John Lateran, where it will be laid in one of the chapels until the preparations for depositing it beneath the monument to his Holiness.

DUTY CRIPPLES BIG ESTATES. When Owners of English Fortunes Die the Taxes Are Ruinous.

LONDON, May 6.—Two recent cases show conspicuously how the British death duties may cripple even large estates for years. Sir Frederick Wigan died on April 6. Only five weeks ago when Sir Frederick Wigan's father died, \$225,000 was paid in death duties on the same estate.

The other case is that of Sir Henry Huntington, who has just died. He only inherited the estate from his father at Christmas, when more than \$75,000 in death duties was paid. The same amount must now be paid again. In both of these cases the duties fall as lightly as possible on the more distant relatives. The heavy burden falls on the residuary legatees.

IRISH BISHOP DENOUNCES HOME RULE

OPINION GROWS THAT MEASURE WILL BE THROUGH Archbishop Walsh Denounces "Bad All Round" Home Rule Bill. He is a member of the Nationalist Convention Against the Measure.

By Associated Press. LONDON, May 14.—The prospect of the Home Rule Bill which is designed to provide for home rule for Ireland is causing a pessimistic turn in the growing belief that the Home Rule Bill will be accepted on May 21. In accordance with an agreement between the Irish Bishops, and John the Nationalist leader leading the negotiations the drafting of the Bill will be postponed until the Home Rule Bill is passed. During the last few days the Catholic prelates strongly denounce the Bill. The Bishop of Dublin describes it as a "bad all round" measure, while Archbishop of Dublin says "the Bill seems to me that I will find it difficult to induce the approval of it."
