CHICAGO LIVE STOCK

Chicago, Ills., July 27.—A few light hogs went to shippers and speculators at steady prices early in the day. There were nearly twice as many hogs in the West as a year ago and packers are not so anxious to sell. Shipping grades sold at \$8.00 to 8.20, the better grades at \$8.50 to 8.75. Choice lambs at \$7.50 to 7.75 looked steady; otherwise lamb trade was off a dime.

CHICAGO GRAIN MARKETS

Chicago, Ills., July 27.—Wheat is a bear on wheat and the farmers have lost the best friend they have ever known. The world's largest wheat traders, the Chicago Board of Trade, business on the Board of Trade today, there were some vague reports of a bear market in wheat. Shipping in sections of the Northwest which could not find a market for their crops. In fact the brilliant prospects in that territory induced considerable selling and was largely responsible for the decline in wheat prices. The decline, and if the present prospects mature I believe the movement will be out of the average bull. Pat has never made a dollar on the bear or short side of wheat save in a scalping way. The price of wheat that he will again be seen in the lead of the bulls. Quite general rains are expected over the Northwest and winter wheat belt during the next 36 hours. These conditions will mean a partial halt in the preparation and marketing of wheat as well as of further talk of the appearance of rust in the spring wheat fields. The selling movement in wheat was general today and the action of the market was at times fast and furious. Many of the shorts covered around the opening and the price was unchanged by Bartlett, Patten, Peabody, the Armour Grain Company, Arthur Cullen and Norman S. Doupe, Alex. Jack Anderson Averse to Being Photographed for Rogues' Gallery

Vancouver, B.C., July 26.—The police today were greatly puzzled to account for the reason which caused young Jack Anderson, held here for the Toronto police on a charge of cashing scores of bogus checks in different parts of the world, to fight against having his photograph taken for the rogues' gallery. When Detective James Anderson told him that he was going to take his picture the young man wished to leave his classes behind. He was told he must be "taken" with them on. So determined was he not to be photographed with his glasses that he smashed them with the hard cement floor of the jail corridor. A new pair was obtained and he was successfully photographed.

**GUARDS RESPONSIBLE FOR ESCAPE DISMISSED**

Investigation Held at Edmonton Penitentiary Into the Negligence by Means of Which Convicts Atkinson and Johnson Secured Their Liberty Two Weeks Ago Results in Dismissal of Jones and Cook.

As the result of a thorough investigation made by the warden into the escape of convicts Atkinson and Johnson, two weeks ago today, from the Edmonton penitentiary, the two guards, Jones and Cook, were held responsible for the escape and have been dismissed from the staff. When the men escaped on a morning, July 12th, Jones was guard on the north fence overlooking the excavations where the two convicts were at work. Cook was on the fence at the southeast corner.

The former was primarily responsible and was held culpable in allowing the men to move from their work on the excavations which they picked up and carried 60 feet or more to the fence. Jones, who was commanding the position of the fence which they scaled, was also found to be unfit for his position. Cook claimed that his rifle refused to discharge and Jones, who fired a number of revolver and rifle shots failed to stop the escape. The report on the investigation has been forwarded to Ottawa.

A weekly target practice has been instituted at the penitentiary and takes place on Friday afternoon's under the supervision of the warden. It is held on the flats and every guard is required to reach a certain standard of efficiency in order to retain his position. This practice was instituted three weeks ago, but had to be abandoned owing to the lack of officials.

The advisability of securing a bloodhound to track escaped convicts is being discussed. The inspectors are of the opinion that such is unnecessary and the warden also thinks that if the guards do their duty it is impossible for an escape to take place.

Once outside the yards of the penitentiary, however, the recent escapes show how difficult it is to effect a capture in the present condition of the country. In less than five minutes after the two convicts were over the fence, 14 men were on the track and four R. N. W. M. P. had also arrived. Despite the promptness the men got up the present has been unsuccessful.

**EDMONTON'S PROTEST ALLOWED.**

Medicine Hat, July 26.—A meeting of the board of control of the Western Canada League, was held here today. President Fleming occupied the chair and the other members present were Secretary, Lamb; L. A. Goderich, Edmonton; P. Richardson, Calgary; Ben. Hatch, Lethbridge; C. S. Pingle, Medicine Hat; J. Rutherford, Moose Jaw; R. B. Brown, Regina; and J. Winnipic and Brandon were represented by proxy. All protests were taken up and were all dismissed, with the exception of those of the 22nd and 23rd regiments. The latter were referred to the Western Canada League and Edmonton, which was referred to be played on Aug. 11. The dispute between Moose Jaw and Regina in regard to two games of a former series, which have yet to be played was settled by the board ordering one game to be played in each city.

The secretary was instructed to notify all clubs that any postponed or tie games must be played at the next time the teams concerned meet. A motion was passed whereby the meeting was on record as declaring "that the article which appeared in the press in reference to a proposed division of the Western Canada League was entirely unfounded, and had never been discussed by any representative of the league."

Hitherto President Fleming's hands have been tied by a former rule which limiting the salaries which he was allowed to pay his umpire staff. In this matter the meeting agreed to give him a free hand in connection with the league in order that the best possible staff can be secured.

**DISGRACEFUL EXHIBITION.**

Ottawa, July 26.—Nationals defeated Capitals here on Saturday by nine goals to six. The game was a sordid tussle and in a heavy mist. A face fight disgraced the proceedings. Capitals started with a rush and scored within a minute through the goalkeeper. Each representative stood firm for what he considered his rights but all exhibited a most commendable spirit of give and take as present in the calibre of the men who are at the back of the Western Canada League.

Letters were read at the meeting showing that already a big league are looking over this territory for players and most encouraging reports were received concerning not only the prospects for the remainder of the season but also for those of 1940.

Ex-Alderman Bellamy Sounds Note of Warning on Return From Pilots Mound, Manitoba—Canada Thistle Gaining Headway—Crops Uniformly Good.

Ex-Alderman Thomas Bellamy has made interesting observations on the three prairie provinces, said Mr. Bellamy. "Everywhere the grain is headed out and growing nicely. With continued good weather, harvesting will be quite general throughout the west by the 20th of August."

Asked as to the reports of the crop in Manitoba heading out too short in the straw, Mr. Bellamy said that this was true of the country contiguous to Winnipeg, but otherwise the Manitoba crop is all that the farmers could look for.

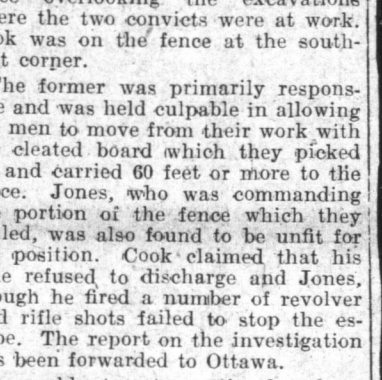

As an indication of the change which has come over the agricultural aspect of a country, Mr. Bellamy told of conditions as he knew them in Pilot Mound nearly twenty years ago. During seven years residence there, three crop failures were experienced, that of the year 1888 being the heaviest. It was a year of drought, but never harvested at all. The damage to the crops was caused by the blighting frosts so prevalent in Manitoba years ago. By way of contrast, Mr. Bellamy stated that early frosts became less and less frequent until it is now over ten years

**The Reason Why**

some dealers offer "something just as good" as Progress Brand Garments, is obvious. The less there is in a garment, the smaller the cost. The smaller the cost the greater the profit—and there are some merchants who are out for the large profits, even if they have to look for new customers every day.

Progress Brand Clothing affords the dealer only an honest legitimate profit, plus the gain that comes from satisfied customers.

Look for the Progress Label. You will find it in an honest made garment, and in the hands of an honest clothier. Every garment guaranteed—"satisfaction or money back."

Should you have any difficulty in procuring Progress Brand Garments, write us direct. While we cannot sell you at retail, we will place you in communication with the nearest merchant handling our goods, a man who will be satisfied to serve you at a legitimate profit.

THE BOARD'S FINDING.

The conciliation board has reported its findings at the meeting in Nova Scotia is between a Canadian and an American labor organization, and that steps should be taken to free Canadian coal miners from the domination of outside interests or officers.

The Railway commission may be asked to gain take up the question of freight-rate discrimination between western points. The agitation is a direct result of a resolution brought before the Associated Boards of Trade during the conference at Saskatoon last month.

Canadian and American coal mine owners are in constant competition for the markets of each other's country. The Pennsylvania miners want to get into the Montreal market, the Nova Scotia miners into the New England market.

Aside from the stability of the industry and the interests of those engaged therein, the coal supply of this nation is at stake. In a country with a pronounced winter season this is a subject of vital moment.

The removal of the alleged menace lies with the Canadian miners. If the menace is real as the board seem to believe, it is their patriotic duty to remove it.

CURRENT COMMENT.

The ex-Shah declined to receive a deputation sent to inform him that he was aware of the fact. If his foresight had equalled his blind-sight he might still be Shah.

The joint committee of the two houses of Congress are pruning off some of the Senatorial amendments to the tariff. When they have concluded a commission will be in order to determine and officially inform the public whether the revision was really up or down.

Montreal Gazette.—The cocaine habit is said to prevail to an "awful" extent in Toronto, and the authorities are urged to move in the matter. They might get on the track of the sinners by visiting some of the newspapers which publish names of social passers for thought in the Queen city.

the product of the local distilleries.

The Calgary Albertian devotes a few words to the attitude of an esteemed contemporary toward "gold brick" schemes, etc. "Do you realize that if you are a gambler and happen to be a friend of the Calgary Herald or a member of its staff, you can do whatever you please in the way of shark business, fleecing the public without any regard to the extent of it, or the rawness of it, and the incident will never be published, and you will be defended to the end and some time after that, and so will be the people who protect you, and you will be interviewed and your version given to the public and none other will be published, and you will be given reputation and honor as if you were an honest man, only more so. And this will be kept up to the finish and it will bring you something too. It is not a pleasant thought for the public, but it is hot stuff for you, Mr. Crook, and it is something that you can bank on in your own business."

The section men on this portion of the G.T.P. have been working for the present are stopping with Mrs. Geo. Clapp on the base line. Many from here attended the farmers' picnic held at Horbar on Wednesday.

Fred Ross, of Strathcona is spending a few days with Mr. Clifford Clapp. A meeting of the official board of the Methodist church will be held on August 18th.

RYLEY.

Johnson & Humphreys' harness shop is opening for business this week. Motor Brothers have shipped nine cars of oats the past week to eastern points.

The two local lumber yards have received about six or seven cars of material each the past week.

Mr. MacPherson has purchased the Red Cross drug store, 1111 & 1113, Saunders. The latter have already removed to Camrose.

Anderson Brothers will move their barn to the new location on the street work is completed now.

The Reliance Lumber Company have their office and storehouse under way and will put up an 80-foot shed at once.

Several residences are to be built in the near future and will improve the appearance of Ryley.

The B.L.F. Creamery Co. are far exceeding their expectations in the amount of cream supply. Their business is simply immense and prices are good for their butter.

VEGREVILLE.

At a well-attended meeting in the town hall it was decided to hold a gala day on the 11th of August. The meeting was presided over by the Mayor and a committee was formed and set to work.

On Thursday before Justices Poyer and Fleming C. O. Linden had La Pierre taken up for assault, contumacious and for breach of the peace. He has been adjourned several times. It was tried before Justices Palkrabek and Doran, but as Palkrabek was not a British subject, Simon brought before the first named magistrates.

Several witnesses were heard and some very contradictory evidence given. The case was dismissed. Simon has appealed. Mr. Russell appeared for the plaintiff and Mr. Madore, of Edmonton, for the defence.

REQUIRE CONSENT OF GOVERNMENTS

Closing of Road Allowance in G.T.P. Yards Subject of Further Negotiations—Member for Sturgeon Objects.

D'Arcy Tate, G. T. P. solicitor, has secured permission from the Edmonton city council to give the G. T. P. railway company a continuous mile for railway yards on the G. T. P. property to the north of the city.

The permission of the city council to permit the road to be closed does not settle the question. Mr. Tate was at the Parliament buildings to negotiate with the members of the Alberta government regarding the matter.

There is a sort of three-fold jurisdiction in dealing with the closing of a government road where it concerns a municipality as it does in this case. When the provinces were formed the Dominion government assumed over the control of all road allowances to the public works department of the provincial government but still held the land in fee of which the roads were comprised.

Now, then, said Mr. Tate, "to acquire any of the rights over a road allowance in question, we have to approach the city council as the agreement for the entrance to the city was made with the council exclusively. The council has given permission for the closing of the road, but representations have to be made to the local government which has control of the road and to the Dominion Department of the Interior which holds the land in fee."

Mr. Tate does not anticipate any difficulty in getting the consent of the provincial government after the decision of the city council. None of the members of the government were present at the building this morning, but Mr. Tate spent considerable time in consultation with John Stokes, deputy minister of public lands by Mr. Tate to get in touch with the members of the government.

"We will have to get the consent of the road allowance," said Mr. Tate, "for the yard simply cannot be placed on the present property. It may be distasteful to the city to close the road, but it will either be a question of which is the more desirable, the presence of the yards so close to Edmonton or the closing of the road."

Mr. Tate said that the contract have already been let at Winnipeg for the building of the work shops on the G. T. P. property and also for an eight-story tall roundhouse. The erection of the building will be undertaken as soon as the matter depending with the government is settled.

Mr. Boyle Objects. J. R. Boyle, M.P.P., for Sturgeon, was also at the buildings Monday and expressed himself as not being so sure that the concession would be made by the government so readily.

The closing of the road means a great deal to the settlers from the north who wish to get into Edmonton," said Mr. Boyle. "It is an injustice to compel them to go so great a distance out of their way to come to the only good market available for their products."

"Are you retained by any parties to fight the proposition?" asked the Bulletin.

"I am doing it because my constituents expect me to look after their interests. I am not acting as counsel for anybody."

THE TANNERY STRIKE. Conditions Quiet Yesterday Though Troops are still on the scene.

Kenosha, Wis., July 23.—Conditions at the plant of the N. R. Alliance Sons tannery here are improved tonight but there is still fear of an outbreak. All day the managers of the plant, John Humphrey, president of the state board of arbitration, and General Otto Feltz of the Wisconsin National Guard, have been making an unsuccessful effort to reach a settlement. The men have yielded many points during the day but took a stand for pay for the day consumed by the strike and in an ultimatum issued late this evening the managers of the company declare that they were willing to have the men return to work, but that they must return on terms which went into sympathy with the strikers came to the plant today and asked to be allowed to return to work tomorrow morning, stating that all they asked was protection from violence. All of the men were ordered to show up for work and given assurances that they would be given protection. This was the first break in the strikers. Others wavered later in the evening and about 200 of the men signed a willingness to return to work.

There were no demonstrations of any nature today, and most of the day the streets about the tannery were completely deserted save for the presence of the deputies and the police officers. It became known early in the day that the men about the building where the men were at work were armed with guns and this fact seemed to impress the men greatly.

General Feltz has refused to cancel his order to have the troops held in readiness and he admitted this evening that he was not satisfied that all danger was passed, but stated that he did not anticipate any trouble tonight.

Moore Defeated Today. Madrid, July 25.—A despatch from Mellis says the Moors were defeated in today's attack after a fierce fighting, but adds, "Our losses heavy."

FIRST G. T. P. TRAIN TO EDMONTON FROM EAST

The first G. T. P. train from the east to pull into the Union station at Edmonton reached the city on Sunday afternoon at three o'clock. It came up from Toleda where it had gone several days before with a party of G. T. P. engineers. This train was made up of engine No. 88, two cabooses and a passenger car.

The latest announcement with regard to the regular operation of trains, comes from Winnipeg, and is to the effect that a regular service is to be established about the middle of August.

WHITE SLAVE TRAFFIC Terms of International Agreement for Control Made Public.

Ottawa, July 24.—The terms of the international agreement for controlling the white slave traffic are announced. The agreement is for the purpose of providing for women of age, deceived under restraint, and also for women and girls under age, adequate protection against the criminal traffic known as the white slave traffic. Thirteen governments have signed agreements, each naming a representative to act as plenipotentiary to see to its enforcement. There are several clauses to the agreement, the most important of which are: Each of the contracting governments undertakes to appoint or to designate an authority whose duty it will be to gather all information concerning the hiring of women and girls for immoral purposes in foreign places, this authority to have power to communicate with a similar service established in each of the contracting states. Each of the governments undertakes to have a strict watch kept for the purpose of seeing, especially at railway stations, port of departure and during voyages, conductors of women and girls intended for debauchery.

Instructions will be sent to officers and all other competent persons, to obtain within legal limits, all information leading to criminal traffic. Arrival of persons likely to be authors, accessories or victims of such traffic will be signalled, if necessary, to authorities at the place of landing, or to diplomatic or consular agents competent, or to other competent authorities. Governments undertake to provisionally place victims of traffic in institutions, and as far as possible send back to their own countries those who ask repatriation. Where the person cannot repatriate the cost of transport will be defrayed by the country on whose territory she resides, as far as the next frontier or port of departure, and the surplus by the country of origin. Contracting governments undertake to exercise as far as possible watch agencies employing women and girls in foreign countries.

WABASH TRAIN SLIDES INTO MISSOURI RIVER

Six Passengers Lose Their Lives and Fifty are Injured in Wreck East of Kansas City. Chair Car Passengers Suffered Most.

Kansas City, Mo., July 25.—Six are dead and more than fifty injured as a result of the wreck of Wabash Passenger Train No. 4, bound for St. Louis, near Orrick, Mo., thirty miles east of Kansas City, at 10:30 last night. A number of the injured are badly hurt and the death list may be increased, while many have injuries of only a minor nature. The wreck was the result of the current of the Missouri River undermining the track and causing the train to slide into the river. The engine plunged into the stream followed by the baggage and mail cars, a "dead" Pullman car and a well filled chair car. Most of the injured passengers were riding in the chair car. This car was only partially submerged but stood on end, throwing the people violently about.

N.D. Town Wiped Out. Grand Forks, N.D., July 25.—The business district of Melinok, seven miles west of the Northern Pacific, was practically wiped out yesterday afternoon by a fire, started by lightning in Sanden's general store. Sanden's general store, Sanden's harness store and the Melinok State Bank were burned to the ground, the town being without fire protection. The loss is estimated at about twenty thousand, partially insured. Wind changed just in time to save the Northern Pacific depot.

Accepts Call to Smaller Salary. Hamilton, July 25.—Rev. J. O. Seymour, pastor of the St. James Street Baptist church, announced his resignation that he had decided to accept the pastorate of the First Baptist church at Calgary. Seymour stated that in accepting the call he was suffering financial loss, but the field of work was larger there, and he thought the move would further the Baptist cause in the west. He will enter his new duties on October 1st.

Youth Charged With Manslaughter. Montreal, July 25.—Wilde Kercher, aged 18, was placed on trial this morning charged with killing P. Charles Peniston, aged 15, during a fight. The dead boy was hit on the head with a rock.

Sir Henry Pallat's Father Dead. Toronto, July 24.—Henry Pallat, father of Sir Henry Pallat, died suddenly at 1:15 this morning at South Wood, his summer residence at Orillia, which he purchased just 20 years ago.

CORPORAL MINNIS IS IN FOURTH PLACE

The Edmonton Marksman is Well Up in the Grand Aggregate for the King's Prize at the Bisley Meet.

Canadian Associated Press. Bisley, July 24.—In the last stage of the King's prize one or two of the Canadians, notably, Sergt. Smith, of Ottawa, who first shot of the meeting, but Corporal Minnis, of Edmonton, who finished fourth with the result that he finished fourth in the grand aggregate the King's prize, this entitling him to thirty pounds sterling. Another Canadian, however, Lieutenant Morris, of Bramanville, Ont., finished fifth in third place, thus winning forty pounds, and from the Canadian point of view, one of the most interesting features of the shooting for the rifle men's blue ribbon this year has been the consistent shooting of this young officer, who, while making no sensational score at any particular range, has achieved so high an average throughout as to land him in third place.

Lieut. Morris had a total of 316, and as he finished ahead of any other competitor, he also won the Standard of Empire prize, being a public commemorative shield, and 21 pounds given by that publication to the individual or colonial taking the highest place in the King's prize. Corporal Minnis, of the London Rifle brigade, the winner, and the second man, are both old countrymen, and Lieut. Morris, who was third, gets this trophy.

The following are the Canadian scores at the final stages: King's Prize, Final Stage, 1,000 Yards. Sergt. Blackburn, Winnipeg... 38 Staff Sergt. A. J. ... 41 Sergt. Smith, Ottawa... 47 Lieut. Morris, Bramanville... 49 Col. Sergt. Freeborn, Hamilton... 40 Corp. Minnis, Edmonton... 37 Sergt. Maj. Higgins, Hamilton... 37

Shaved in Prize Money. Sergt. Blackburn, the 90th, is the winner of the Wingrove competition, and as a result the handsome silver cup, valued at 25 pounds, is added to his list of trophies.

In the Service Rifle Association cup, although the first place in this match, 7 shots at 200 and 600 yards did not fall to the Canadians, they did claim a rather more than fair share of the 250 pounds which is divided into 50 prizes.

Prize: 1—Sgt. Stack, Truro... 200 600 Place 2—Sgt. Stack, Truro... 24 433 2000 3—Sgt. Kerr, Toronto... 24 33 2000 4—Corp. Minnis, Edm'n... 35 32 232d 5—Lt. Morris, Bramanville... 33 3000 Grand Aggregate Service Rifle. Col. Sergt. Freeborn, of the Hamilton, took fifth in this, which is awarded to territorials and ex-territorials whose respective scores in the first stage of the King's vase, Alexandria, Daily Graphic, Daily Telegraph and Graphic, make up the highest aggregates.

Place: 1—Sgt. Freeborn, Hamilton... 8th 2—Sgt. Mitchell, Hamilton... 9th 3—Sgt. Richardson, Victoria... 17th 4—Lt. Smith, Chatham... 113th 5—Sgt. Smith, Ottawa... 113th 6—Sgt. Smith, Ottawa... 113th 7—Corp. Minnis, Edmonton... 23rd 8—Sgt. Maj. Higgins, Hamilton... 32nd 9—Capt. McVitie, Toronto... 41st 10—Sgt. Russell, Ottawa... 64th 11—Sgt. Stack, Truro... 96th 12—Sgt. Kelly, Toronto... 1113th 13—Major Jones, P.E.I... 1300 14—Major Jones, P.E.I... 133rd 15—Sgt. Blackburn, 90th... 1504th

The following Canadians secure bronze medals and the following standings: Sergt. Freeborn, 8th place; Lieut. Morris, 11th; Sergt. Mitchell, 14th; Sergt. Maj. Higgins, 17th; Capt. McVitie, 40th. In connection with this Sergt. Kerr got 5th place and 42 allotted to 375 competitors who did not secure prizes to the value of £2 in these competitions.

The McQueen Competition. This is an unannounced competition, 7 shots at 300 yards. Four Canadians figure in the prize list, which is a sweepstakes. Lieut. Morris, Toronto, 5th, £1.12s; Sergt. Bayles, Toronto, 19th, £1; Major Jones, P. E. I., 21st, £1; Sergt. Smith, Ottawa, 32nd, £1.

Wester Chester Chase Cup. Lieut. Mortimer, Ottawa, took 2nd place in this rapid fire at 200 yards. The target is visible one minute, during which a competitor fires as frequently as he can. Lieut. Mortimer takes a Winchester rifle and 45 for this performance.

Reviewing the Bisley meet, the Times says it had been asserted that the outstanding success of the Canadians is due to the Ross rifle. This, however, using a Lee-Enfield as model as a Ross in their series and a record of the team must be ungrudgingly put down to the fact that both individually and collectively their shooting reached a very high standard. Referring to the Ross rifle the Times links its failure was complete, but whether the failure was due to the rifle or powder it is impossible to say.

WHITE PLAGUE VICTIM

William Howell Found Dead in Stettler Store.

Stettler, Alta., July 25.—Yesterday morning about ten o'clock, Wess Warnock, on going into his store, discovered the dead body of a man named William Howell, whom he had allowed to sleep on a couch over night, as he could not obtain other lodgings. The deceased was married and had a wife, supposed to be in St. John, New Brunswick. He had been some time engaged in the real estate business, but was in an advanced stage of consumption, from which he died. An inquest will be held.

PRINCE ANTOINE GRIEVED

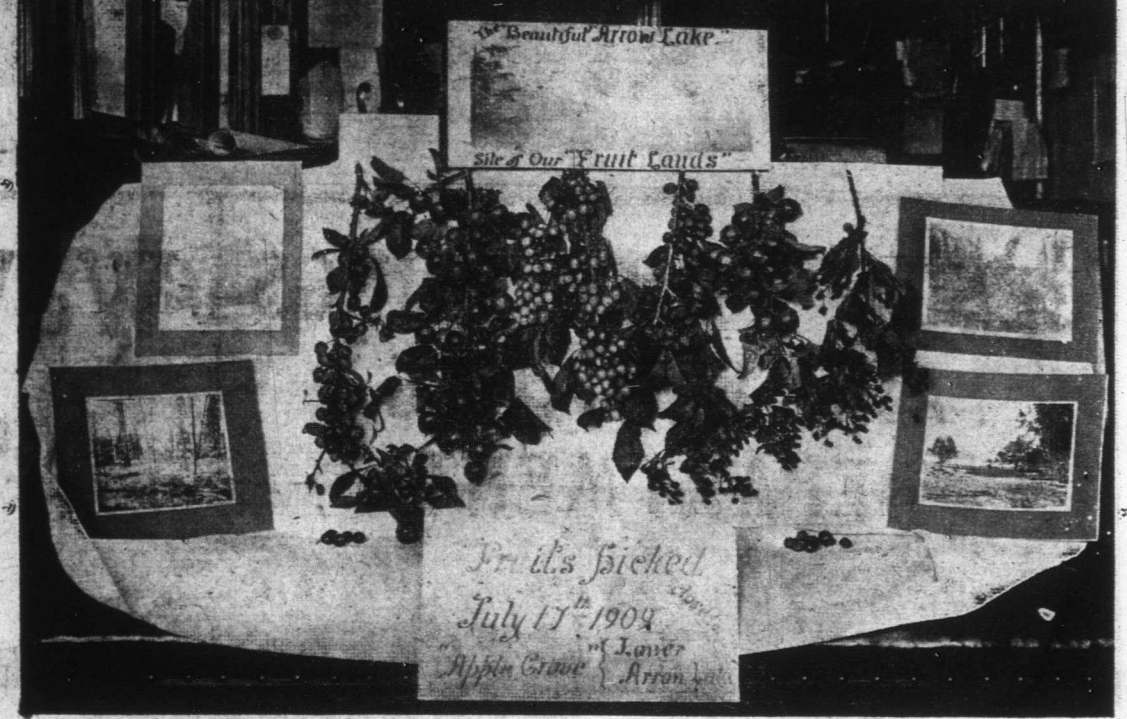

Father of Husband of Princess Beatrice Displeased by Wedding.

Paris, July 24.—The Figaro prints the telegrams which Prince Antoine, the father of Prince Alfonso, who recently married Princess Beatrice of Saxe-Coburg sent to King Alfonso and to his son in connection with their marriage. To the King Prince Antoine expressed grief that his son had wedded in secret. To his son he expressed sadness that the marriage had occurred without his knowledge. "You have disregarded the duties of honor and the holy obligations of a good son imposed by God," he said in his message. "Henceforth all is over between us."

Explosion on Jap Battleship. Tokyo, July 25.—While the crew of the Japanese battleship Asahi was engaged in gun practice at sea Bay yesterday, one of the 12-pounders of the vessel blew up, killing four and wounding five of the gunners. Among the wounded were two officers of the battleship, Lieut. Boy, which is slightly over 100 miles from here, in the province of Ise, is used as a place for target practice by the navy. No additional details of the explosion have been heard from there.

A Tragedy of Lite in Toronto. Toronto, Ont., July 26.—The body of a seven year old girl was found in the bay at the foot of George street this morning. It was identified by an uncle as little Beekie Silverman, a poor small wanderer about the city.

## EDMONTON NEWS

### LOCALS

Part of the structural iron for the new power house has arrived on the ground. The work of erection is expected to begin within the next two weeks.

The Montreal Daily Star last week carried a six inch wide column advertisement from the Edmonton Board of Trade, giving statistics of the city for the months of April, May and June.

The completion of the McLean block on the corner of Seventh and Jasper yesterday was marked by the erection of the flagstaff. The building will be ready for occupation shortly.

The people of Belmont are holding a picnic in connection with the Methodist church on Thursday afternoon and evening, July 29th. Meals will be served on the grounds of Mr. Mellich's place, where the picnic is to be held.

P. D. McKenzie, of Edmonton, passenger conductor on the C.N.R., while tending a tree on his farm near Fort Saskatchewan last Friday, met with a very serious accident. In some way his axe loosed, the blade cutting a gash in his forehead and splitting his nose. Eight stitches were necessary.

R. B. Hughes of Winnipeg, a Canadian Northern engineer, arrived in the city yesterday after a trip from Denard, B.C., two hundred and fifty miles north to the Yellowhead Pass, and thence east over the C.N.R. and G.T.P. surveys to Edmonton. Mr. Hughes was interviewed by the Bulletin regarding nothing with regard to the purpose of his trip. He stated that the G.T.P. bridge over the Pembina was nearing completion and that the grade was built up for some miles west of the river.

### HAD A NARROW ESCAPE

Tuesday night, about half-past ten while crossing the C.N.R. yards in the darkness, J. R. Hamilton, who conducts a feed store on Queen's street, was struck by a passing engine. The accident occurred near the round-house and Hamilton was at once removed to the depot. It was found that he was not seriously injured and was suffering only from a severe shaking up. He was taken to the Public Hospital, where he is rapidly recovering from the effects of his narrow escape.

### W. F. M. S. RECEPTION

Miss Jamieson, field secretary of the W. F. M. S. of the Presbyterian church in Canada, who has been travelling through British Columbia and Alberta in the interests of her work, is expected to arrive in this city on Thursday for a brief visit and will be the guest of Mrs. Jeffrey, 449 Ninth street. As it is the vacation season and auxiliaries are disbanded until September, no public meetings have been announced. Instead, the auxiliaries have arranged a social gathering at Mrs. Jeffrey's home on Friday afternoon at 3:30 o'clock when Miss Jamieson will be pleased to meet with the members of the various auxiliaries and congregations, also any friends desirous of hearing of her work which will be informally presented during the afternoon. A good attendance is hoped for to welcome Miss Jamieson.

## DEATH FROM EXPOSURE

The coroner's inquest on the remains of John Dault, whose body was found on Saturday three and a half miles northwest of the city, where it had laid for the last year, Monday afternoon returned a verdict of death from exposure on or about the 29th of July, 1928. The coroner was Dr. Forin, and the jury Alex. Andrews (foreman), J. J. Tull, Wm. Cameron, Dr. Douglas, George Leppin and L. Lamontagne. The remains were entombed Tuesday afternoon in the Edmonton cemetery.

## TEACHERS ELECT OFFICERS

At a meeting Monday of the teachers from all parts of the province now assembled in the convention hall in the city, the officers for the Provincial Teachers' association for the ensuing year were elected and other routine business was transacted. The new officers are as follows: President, N. E. Carruthers, Lacombe; 1st vice-president, H. C. Cole, 143 Syndicate avenue; 2nd vice-president, W. J. McLean, Red Deer; secretary-treasurer, G. Broad McNally, Strathcona; executive committee, C. Newcombe (Calgary), Jos. Morgan (Lethbridge), C. Lanson (Medicine Hat), C. A. Curtis (Raymond), F. S. Carr (Edmonton).

## PROPOSED MATCH FACTORY

Some time ago E. F. Koehler of London, England, wrote to the city council desiring an act of trade with reference to a match factory which he said he contemplated erecting in Edmonton. The commissioners wrote asking for further information and have received a reply stating that the company proposes erecting a factory on the east side of the city, near the C.N.R. tracks, and investing about \$125,000. The buildings which they propose erecting will be fire proof, of steel and reinforced concrete, and will employ about 40 hands. The writer claims that he is a specialist of fifty years experience in the match business with reference to wood staving that type and popular are the best fitted for match making. The factories work directly from the logs.

## LOST CHECK NOW FOUND

A check ago today H. A. Phillips, of this city, sold a team of horses to Kingston Powell and received in payment a cheque for \$800. During the afternoon Mr. Phillips lost his cheque in his forehead and about \$25 in bills, while going from Ross' Bros' store to the post office. The police were notified, payment was stopped at the bank and inquiries were instituted. Last night Sgt. Brooke located the missing cheque in Strathcona, and returned it to the owner. It appears that a man named Smythe, while in the pool room of the Windsor Hotel in the southern city, noticed the cheque and hid it upon the floor. Picking it up he was surprised to find it was a \$300 cheque which later turned out to be the missing one. He returned it to the owner several days ago and a few days later word reached Sgt. Brooke that the man who had secured the lost property.

## MURDERER MAY HAVE SUICIDED

The R.N.W.M.P. have not yet found any trace of Anton Walworth, the Bohemian who was charged with one of the most brutal murders in Alberta, which took place last July. Since the woman who was the victim of the crime was found dead in a shack three and a half miles south of Stettler, the police have searched the highest districts in the neighborhood but without avail. Detective Nicholson, who has returned from the scene of the crime, is of the opinion that the man who is thought to have been insane has suicided and that his body is lying somewhere in the bush in which he took refuge. It is said that Walworth had been drinking for some time previous to the shooting of the woman and that he had not been getting any rest, but for some time with the murdered woman.

## HAVE THEIR EYES ON US

C. J. Houghton, Canadian government immigration agent at Chicago, Ill., arrived in the city Monday over the C. N. R. on a tour of the Canadian West. He is on the staff of the Canadian immigration service in Chicago. The immigration agent stated that in the last twelve years he had made an annual trip through the west at this season of the year and had never in all that time seen such a crop as that of this year. "If it is all harvested," said Mr. Houghton, "the railway will be given to handle the people who will come into this country from the state of Illinois and adjacent territory."

Last year Mr. Houghton located a colony of sixty-four German families in the Stony Plain district. He expects to bring another large party up over the G. T. P. in September. The immigrants from the state of Illinois are chiefly experienced farmers of a well-to-do class. Two hundred and sixty-eight carloads of settlers' effects were sent out from the Canadian office in Chicago last year, each carrying lower than a thousand dollars worth of goods on the average.

## FIVE MILLIONS FROM SMELTER

Very Excellent Record Shown by Nelson, B.C. July 26.—During the year ending June 30th Consolidated Mining and Smelting Company's smelter at Trail produced 4,500,000 lbs. of copper and led to the value of \$6,000,000, a new record for the plant. In fact, more than noteworthy in view of the exceptionally low price of metal during the twelve months in question, many metallurgists have been carried out by the plant, including several new blast furnaces used larger than those formerly used. The total tonnage for the year was 947,000 tons as against 836,866 for the previous year. In the face of market conditions the return for the

## SKELETON OF J. DOUBT FOUND

On Saturday afternoon, a Grand Trunk Pacific engine under the leadership of D. G. Dempsey found the partially decomposed remains of a man, under a tree, half a mile west of the McEvoy C.M.R. line and about 50 yards north of the G. T. P. The remains were identified as those of John Doubt, who disappeared on July 2nd, 1928, from the city of Winnipeg, Cole, 143 Syndicate avenue. Mr. Cole recognized a gold hunting case and chain to which was attached a pocket watch, as belonging to Doubt. Doubt left Cole's house on the morning of July 2nd a year ago for his usual walk along the C.N.R. tracks, and never returned. He is reported several days later at St. Albert and Stony Plain but again disappeared and was not heard of afterwards.

## STUCK BY LIGHTNING

Another of the electric storms which struck Edmonton, and for several hours the sky was almost in a state of confusion. During the storm a house owned by William Johnston, East Edmonton, about one and a half miles from the south side of the city, was struck by electric fluid. The chimney was shattered and stove pipes were thrown down, but there was no serious damage. All the occupants of the house were away at the time. A barn, owned by Phillip Bousman, near Millerville, south of Strathcona, was also struck by the lightning and burned to the ground. The building was nearly yemphy at the time.

## GRADING RIGHT OF WAY

A number of teams are at work today in grading the right of way of the G. T. P. south of the C. N. R. to east side of Namoy avenue. All the work has been removed from the right of way and the track laying is expected to be completed this week. The G. T. P. will lay one line of track at each end of the right of way in the future. The G. T. P. will each have two lines of rails from the packing plant through to Twenty-first street, in the west end of the city.

## INCREASING ELECTRIC POWER

The Traub Mfg. Co., corner of Synch and Clark street, have increased their electric power in their furniture factory from a five to a fifteen horse power motor. The business of this company is rapidly increasing and calls for greater facilities for handling.

The new electric elevator in use on the Empire block is the first of its kind in Canada. It is operated by a newly patented variable speed motor, doing away with all trouble in control and using much less power than the old style motors. The electric light department have completed the installation of lights and power for the filtration system. The power is used for cleaning the sand in the filtration beds.

New water lines are being installed in Norwood from Willow to Pine avenues.

## BOYS BRIGADE CAMP

Your last correspondent having succumbed to the rigors of the campaign is unable at present to send further news from the front. Thursday night the boys were camped in an empty approach the camp from an unexpected quarter. For three hours there was a thundering cannonade and a perfect deluge. Notwithstanding this unexpected occurrence no alarm was created and when morning dawned everything in camp to be in perfect order. In fact two-thirds of its inhabitants had slept through the thunderstorm.

Friday morning broke fair and the sun shone out drying up the wet. Inspection of camp was postponed in order that the boys might get their bedding dry and parade fell in and marched to skirmishing drill. The march was carried out near the railway depot. After a brilliant rush by which an empty house was surrounded. The boys returned to camp and camped back to the river. The afternoon was spent fishing, bathing and reading. Friday night was quiet, nothing occurred to alarm the peaceful repose of the camp.

Saturday reveille sounded sharp at 6:15 and camp orderlies were soon busy getting wood and water and the camp up the camp. After breakfast camp inspection was held by the O. C., which revealed the fact that a good deal of kit was missing. Guard room fatigue duty having been allotted to all delinquents missing kit began to reappear from various places where it had been carelessly left, and by 10 a.m. the company was under arms for morning drill. This consisted of skirmishing drill just outside camp, and was followed as usual by parade. In the afternoon an extra boat having been ordered, a bottle consisting of two canoes and tow-boat proceeded up the river to the lake on a fishing expedition which resulted in a catch of seven fish, thus substantially replenishing the larder. The afternoon's operations consisted of bathing, reading and fishing. The afternoon's operations consisted of bathing, reading and fishing. The afternoon's operations consisted of bathing, reading and fishing.

## NEW APARTMENT BLOCK

The Arlington Apartment Co., a syndicate composed of several local capitalists, will have a five-story apartment block constructed by the city of Edmonton on a splendidly located site on the northeast corner of Sixth street and Victoria avenue. The block will comprise six suites ranging from three to six rooms each. There will be buffets in connection with each suite, dining tables, writing desks, book cases and wall beds. All finishes will be in oak and attention will be given to every detail of a modern apartment house. The block will be 90 by 120 feet.

## CONVICT CHASE ABANDONED

William Williams, a local guide and tracker, who has been engaged during the past few days in the pursuit of a convict, abandoned the chase. Williams lost all trace of the convict during the week ago near Millet, when it was thought they were almost captured. He had followed them from Leduc to Millet and at one time was almost within halting distance. At one point between Leduc and Millet he says that the men showed great ingenuity in doubling on their tracks to avoid their would-be captors. Here they travelled six miles

## EDMONTON FAIR CONTRASTED

"To test the strength of the Edmonton fair of this year, one has to see the exhibition in Winnipeg and Brandon," said A. G. Harrison, to a Bulletin representative, on his return from a week's trip to the west. "From an agricultural standpoint I think the Edmonton fair was away ahead of Brandon. The live stock exhibits certainly excelled both in numbers and quality."

Mr. Harrison, while in Winnipeg, interviewed Mr. Chipman of the Hudson's Bay office, regarding the securing of a site for the new exhibition grounds on the Hudson Bay property. He was told that all the several applications for sites will be decided shortly at the meeting of the company's directors in London, Eng. Mr. Harrison, after seeing the buildings and grounds at Winnipeg and Brandon, is of the opinion that had the re-organization of the Exhibition association been attempted sometime ago new arrangements would have been again effected owing to the rapid development which the fair has made. With the association entering on question of new accommodation now, the very best site can be secured.

Mr. Harrison was pleased with the fair in Manitoba but is satisfied that the Edmonton show will give them all a race for their money.

At the offices of the Board of Trade are to be had a supply of Grand Trunk Pacific literature relating to farm lands along the new railway and giving the time table of the regular passenger service between Winnipeg and Wainwright.
