CHANCERY CIRCUITS.—These Courts will be held as follows:—Guelph, Monday, 24th March. Owen Sound, Wednesday 30th April. Walkerton, Tuesday 8th April. Goderich, Friday, 16th May.

BOARD OF SCHOOL TRUSTEES.—The Board did not meet last night, for want of a quorum. The Secretary and some half dozen members were present, waited till the town clock struck eight, and then left the Council chamber.

SPRING CIRCUITS.—The Courts of Oyer and Terminer and General Gaol Delivery, and of Assize and Nisi Prius, will be held as follows:—Milton, Monday 10th March. Guelph, Friday 14th March. Berlin, Monday 31st March. Owen Sound, Thursday 24th April.

ENTERPRISING.—The complete poetical works of Burns, with memoir and marginal glossary, bound in cloth, may be had at Anderson's Bookstore, Wyndham street, for the small sum of thirty cents. Surely the works of Scotland's poet are now within the reach of all. Six hundred pages of matter, together with numerous illustrations, for 30c. This is certainly a marvel of cheapness.

GARDNER SEWING MACHINE.—Mr Lummig requests us to say owing to the impassable state of the roads for the last month, he has been unable to deliver machines ordered. But now that he is again able to be on the road, he will attend to all orders left. In order that the Gardner Sewing Machine may be speedily supplied to all, another agent, Mr. Fairgrieve, is assisting him in this section. See adv.

UNLAWFUL PROCEEDING.—A young man named Swartzberger took forcible possession of a span of horses and sleigh, on the Market Square here, to-day, drove them to a hotel, and told the proprietor to keep them for him. He fancied that because the driver was indebted to him he could seize the team with impunity. Constable Nichols was informed of the fact, and arrested Swartzberger, and had much difficulty in getting him to the lock-up. The owner got back his horses.

INHUMANITY IN ROCKWOOD.—A correspondent sends us the following particulars which, if true, makes the blood curdle in our veins. The perpetrators deserve the most severe reprobation: A respectable and well dressed young woman about 18 years of age got off the train from the west at Rockwood on Monday, and was refused accommodation, also at a private house where she begged to be accommodated, as the pains of labour were on her, but was also refused, and on walking down the sidewalk lay down and gave birth to a child, a good many I believe, looking on. Mrs. Bull, like a good Samaritan, took her in, where she lay for some time. These are the particulars as I have just learnt them, and I think the conduct of the tavern-keepers is deserving of the most severe censure, more especially as they have of late repeatedly refused accommodation to parties. This last act puts the climax to their inhumanity.

LOOK OUT FOR YOUR GAS METRES!—The Hamilton Times says:—We are informed that a most extraordinary occurrence, as regards gas metres, took place in this city on Monday, but by a happy interposition of Providence, as it were, a dwelling was saved from destruction, and probably human life also. About five o'clock a gas metre in the hall of the house of Mr. Isaac McMichael, residing at No. 54 Napier street, exploded in the most unaccountable manner. Mr. and Mrs. McMichael were asleep in the back part of the house, and there was no one else in the house, except a daughter, who, unfortunately had stepped into a room near the hall where the gas metre was placed in a ston box and where she heard what alarmed her as a muffled or deadened explosion. On opening the hall room door she saw that portion of it near the metre had burst out, and she immediately raised the alarm. Mr. McMichael attempted to turn off the gas by means of the trap below the metre, but as the pressure was then on, the gas rushed through the 1 1/2 inch feeder with such force that nothing could be done until the flames were partially smothered under clothes. The gas being turned out, it was then discovered that an upper corner of the metre had been blown off, and the gas ignited—no one knows how—then rushed up the wall and rapidly set fire to the paper. The discovery was most opportune, for had not the explosion been heard, or had it occurred at night, the consequences at the least, could have been little less than most serious. There was no fire or even stove in the hall, and as the weather was sharp and cold, and no one near the metre at or shortly before the time of the explosion—in fact no one was in the hall yesterday—the cause of the ignition of the gas is beyond solution. The metre is destroyed. Can any of our readers assign a reason? The occurrence is so rare, if not altogether unheard of here, that we have no idea how it could have happened.

FALLS OF THE DETROIT TUNNEL.—It appears from a report by the Detroit Board of Trade that the attempt to tunnel under the Detroit river is a failure. A committee of the Board waited on the President of the Michigan Central Railway and ascertained that the small trial tunnel, preparatory to the main tunnel, is not half completed and that almost insuperable difficulties in the shape of quicksands, spongy earth etc., render the completion of the main tunnel a matter of great doubt, and that in any event at least five years will be consumed in its building. In view of these facts the board resolved to adopt a bridge over the river, and have resolved to petition Congress to pass a bill authorizing the construction of such a bridge.

THIS MORNING'S DESPATCHES

Important News from Spain.

The King and People in Trouble.

Thurlow Weed in the Flesh.

Three Females Killed by a Wall.

Two More Suicides.

Another Railway Disaster.

Madrid, Feb. 10.—Bands of Carlists have made their appearance in the Province of Toledo. The Senate has, by a vote of 59 against 6, passed a motion of confidence in the Ministry on the question of their course towards the artillery, with regard to the recent demonstrations of insubordination in that branch of the army. The Government has created an ordinance department. The bill for the abolition of slavery in Porto Rico will be taken up in the Cortes to-day for discussion. The snow-storm which prevailed here yesterday also extended throughout the Northern Provinces, where the fall was very heavy.

London, Feb. 10.—The following despatch has been received here. It is marked urgent, and was not delayed by the Censor at Madrid. It is, therefore, believed to have some foundation:— Madrid, Feb. 10.—King Amadeus manifests a disposition to abdicate the Crown, in which case he will resign his power into the hands of the Cortes. The city is quiet.

The King's disposition to quit the throne is attributed to the difference between His Majesty and the Ministry which arose in November last, when the General of the Artillery, Don Hidalgo, was promoted to the Captain-Generalship of the Basque Provinces. The majority of the officers in the artillery arm of the service resigned their commissions at the time, protesting against the promotion as irregular, unjustifiable, and refusing to serve under Hidalgo because he participated in the massacre at Sangli Barracks in 1866. Don Hidalgo, meeting with so much opposition, finally resigned, and the officers withdrew their resignations, but the Ministry recently appointed him to a new and important command in Catalonia; the artillery officers renewed their protest, and again sent in their resignations. The Ministry disregarded them, and appealing to the Cortes, obtained nearly a unanimous vote of confidence. The King from the beginning disapproved of the promotion of Don Hidalgo, and feels affronted because his Cabinet compels him, through the crisis of the Cortes, to acquiesce in the last appointment. It is given out that Zorilla will retire to private life if the King persists in his resolve to abdicate. A number of the Cortes, belonging to the most advanced section of the Republican party held a meeting yesterday to consider what action should be taken in the crisis. About thirty persons were present. They resolved to maintain a pacific yet energetic attitude, and if the King's determination be irrevocable, encourage orderly manifestations in favor of the establishment of the Republic.

The snow interfered with the operations against the Carlists. General Moriones, Commander-in-Chief of the Army in the North, is making a forced march in the hope of overtaking General Ollo, who, at the head of 2,000 insurgents, has again entered the Province of Navarre. The Carlists bands under the command of Santa Cruz, Maesaga, and Inchida, have effected a junction in the Province of Guipuzcoa.

New York, Feb. 10.—The rumor of the death of Thurlow Weed is without foundation.

Kansas City, Kas., Feb. 11.—An old wall of the Ferguson House in this city fell yesterday afternoon, crushing a frame house alongside in which lived a family named Donahue. Mrs. Donahue and her daughter, together with a young lady named Keely, were instantly killed. Another daughter had an arm broken in two places, one leg broken and her breast crushed in, but is still living.

Utica, N. Y., Feb. 10.—Richard W. Hughes committed suicide at New Hartford last night by cutting his throat while in a fit of temporary insanity. Andrew Gethman committed suicide by hanging in Columbia, this morning. Additional particulars of the Scrub Grass Railway gave an enlarged list of wounded but only one more seriously injured. It is now positively known that there were but three persons killed, one news boy and two unknown men. The train was running on time and no blame is attached to the officers of the Road. The disaster was purely accidental and unavoidable.

Local and Other Items.

THE TORONTO WINTER TROTTERING RACES will come off on the 18th, 19th and 20th of February.

The master tailors of St. Catharines have agreed between themselves to advance the price for cutting garments, said advance to take effect on Monday the 10th inst.

The income Franchise Bill provides that all persons having an income of \$300 in towns, and \$200 in villages, will be allowed to vote at the local elections in Ontario.

NEW COUNTY.—Arrangements are being made for grouping the townships of Muskoka for municipal purposes. Next year the Muskokaites look for the formation of a new county.

ON THE SAME EQUALITY.—The Agricultural Society of Muskoka is to be placed on the same equality with other similar societies in the Dominion, and will be entitled to a Government grant of \$700. This will be a great boon to the farmers.

HOTEL-KEEPING IN ST. CATHARINES must be a tip-top business when a man in less than three years can make over ten thousand dollars without any capital at the start.—This has been done, and speaks well of the business of the place.—Times.

STOLEN VESSELS ROBBED.—On Sunday last eight vessels were broken into at Port Colborne, but the amount stolen cannot yet be ascertained until the several masters return to their ships. The arrests have been made, and more are expected.

RETURNED.—The Hamilton Times says: The buffalo-robe advertised by Mr. Nowlan, was returned by the honest little fellow who had picked it up. He was liberally rewarded. We hope that the boy may live to become a man, and that his principle of honesty will never forsake him.

A DRUNKEN fellow had wandered into a Sunday School and took a seat among the primer scholars, when the teacher accosted him with, "Why, James, do you know what condition you are in?" "Yes, m'm,—in the gall of bit'nness," the bonds 'n' niquity. Ask me some hard questions."

PAINFUL ACCIDENT.—At 12 o'clock on Monday a man by the name of Asia Wilsie, one of the firm of Wilsie & Press, was sawing shingle bands in a shingle factory when one end of the band flew from the saw, striking him on the face and breaking the jaw bone. Up to one o'clock he was living, but is not expected to survive.

SUSPECTED MURDER.—An old woman named Beggs, living in Faversham, is supposed to have been murdered in her bed, last week, by her husband, an old pensioner. As yet there is a great deal of mystery connected with the case. Beggs himself was under the influence of liquor at the time, and was just in receipt of his pension. When sober he bore a very respectable character.

APPALLING. The New York Times of Saturday says that three new murders occurred since one o'clock yesterday afternoon! A jealous husband wreaking his vengeance on his wife, a hot-headed boy killing his playmate after a childish quarrel, and a laborer brutally assaulting another in Hoboken; such is the startling array of crime for the last twelve hours. Where is all this to end?

HAMILTON CENTRAL FAIR.—On Saturday last a meeting of the North and South Wentworth and Hamilton Electoral Division Agricultural Societies took place in Hamilton, at which the three societies amalgamated, for the purpose of holding a great Central Fair, such as was held in that city in 1871. Mr. Weir was appointed Secretary in room of the late Mr. Cooley. An Executive Committee was also appointed to make the necessary arrangements for holding the Fair, which was appointed to be held the week after the Provincial Exhibition at London.

ATTEMPTED SUICIDE.—On Saturday morning last, says the St. Catharines News, the wife of Wm. R. Senior, residing on Fourth-Street attempted to destroy herself after the most approved Chinese fashion. The unfortunate woman stabbed herself in the abdomen with an old chisel, inflicting a horrible wound, from which it is doubtful whether she can recover. Her husband was on business in Philadelphia at the time of the unfortunate occurrence.

A BIO PIG.—Mr. T. Kinmer of Schomberg has in his possession a barrow weighing 1,140 pounds. He stands about four feet high and resembles a hippopotamus more than a pig. Mr. T. Kinmer has been offered \$90 for this large specimen of swine, but he holds out for an even \$100. This beastly matter is a kin to the breed mentioned in Swingtons Travels, which he met with in the interior of Africa.

GREAT STRIKE IN WALES.—Sixty thousand colliers are now on strike in Wales. It is the iron-workers' colliers that have just struck, and the iron-workers, who would have been kept to their employment, are also thrown out against their will. Six months ago the colliers got an advance of ten per cent on their wages. Soon after they demanded another ten per cent. This was refused, and on a threat of a lock-out the demand was withdrawn. Now the masters finding prices declining, insist upon taking off ten per cent, already conceded, and going back to the old scale.

WAS IT SACRILEGE.—The editor of the Worcester Advocate has recently received a communication, loudly complaining that the lamps were taken out of a Presbyterian church, to illuminate a tavern where a dance was held, on the 24th ult. The editor becomes as indignant as his correspondent, and demands an explanation from the trustees. They are funny fellows up in that northern country, and require somebody to look after them. The bare idea of putting church to drive any man mad, and the indignant populace, no doubt, will have the perpetrator brought to justice at the earliest possible moment.

THE LATE MURDER IN OSPREY.

Arrest of the Murderer.

He Hangs Himself in his Cell.

SPECIAL TO GUELPH MERCURY.
Owen Sound, Feb. 11, 1873.

Last evening two constables arrived here, having in charge the man Beggs from the Township of Osprey, on a charge of murdering his wife in bed the previous Saturday.

He was placed in his cell in the gaol about five o'clock, and at eight was found dead, he having taken a sheet from the bed, tied one end round the grating above the door, then a turn round his neck, holding the other end in his hand.

When found he was still warm, and grasping the end of the sheet firmly, his head not being much more than two or three feet from the ground.

The prisoners in the adjoining cells did not hear any noise.

An inquest is being held to-day.

Suspected Incendiarism.

Uxbridge, Feb. 11.

The enquiry before the Magistrate into the suspected incendiarism of the Dominion Block, resulted in the commitment of J. C. Fawcett, who has been admitted to bail, and will be tried at the spring assizes in Whitby.

Train off the Track.

Wonderful Escape.

(BY ONE OF THE PASSENGERS.)

As the 6:50 train leaving Guelph on Monday morning 6:50 about six miles south of the town, and within about two miles of Hespeler, a sudden jumping of the cars off the train gave the passengers warning that something unusual had occurred. The train, consisting of three freight cars, a postal and baggage car, and two passenger cars, continued on their way, not rejoicingly, but rocking to and fro in a frightful way. The engine whistled on brakes, but as some of these were broken by the jolting of the cars, the train could not be brought to a standstill till about 400 yards had been travelled, with the mail and baggage car, and the front wheels of one of the passenger cars, off the track. On ascertaining the cause, it was found that one of the rails had broken by the severe frost, and a piece of it, about four feet, broken into small fragments. Fortunately the distance the train ran over, leaving the rails was on the level, or the damage to the rolling stock and injury to passengers would have been great. Fortunately none of the passengers were hurt, except one, who received a bruised face through jumping off the cars into the snow. The mail van is badly broken, and the fish platform, &c., of the rails are broken off for a long distance. It is a wonder more damage was not done, as the two cars that left the rails jumped over a cattle-guard, and had the train gone a dozen yards further, it would have had to jump another guard, and at that point there was a deep embankment, the probability being that the whole train would have been thrown over. Mr. Conductor Carey, who had charge of the train, made all necessary arrangements, and had the passengers stowed away on the engine and in one of the freight cars, till Hespeler was reached, when a nice grain car was improvised for the use of the passengers, all of whom arrived at Harrisburg with about an hour's delay. Means were at once taken to have the road cleared with all despatch, and it was expected the trains would run all right in the course of the day.

Ontario Legislature.

Feb. 10.

A large number of petitions were presented.

Mr. Meredith asked whether it was the intention of the Government during the present session to introduce a measure to provide for the consolidation of the general Statute Law of the Province of Ontario.

Attorney-General Mowat replied in the negative.

Mr. Lander moved for a return of all lands sold or leased by the Government, between the first day of December, 1871, and the present time, to members of this House, or to any firm or company in which any member of this House was a partner, including mineral locations and licenses to cut timber on the lands of the Crown, and also all renewals of such licenses.

Carried.

Mr. Meredith moved the second reading of the Bill to consolidate and amend the law as to wills. He explained that the different laws on this subject were so unintelligible, and so varied as to be almost unworkable, and that he proposed to consolidate them, and make their intentions plain; and also to amend the law by introducing certain provisions now contained in the English law relating to wills.

After some remarks from the Attorney-General and Mr. Prince, the Bill was read a second time and referred to a Select Committee.

Mr. Williams (Durham) moved the second reading of the Bill to amend the Municipal Institutions Act, with respect to the separation of towns from counties. The Bill was read a second time and referred to Committee on Municipal Bills.

The Attorney-General wanted to go on with the resolution respecting the Protin outrage, but Mr. Cameron objecting, Mr. Mowat did not press it, and the House adjourned at half-past four.

Dr. Currie's absence of Sir George E. Cartier.

The duties of his office will be attended to by the Hon. Mr. Langevin, and not by Sir John A. Macdonald, as heretofore.

The trial of the Galway priests for illegal interference in the late Parliamentary elections, commenced yesterday in Dublin, with Chief Justice Whiteside presiding.

Great Fire in Goderich.

Loss Over \$60,000.

Special to MERCURY per Dominion Line.

Goderich, Feb. 11, 1873.—A fire broke out this morning, about half-past one, in rear of D. McKenzie's jewelry store, which spread to the adjoining buildings, and Wadell's Exchange office, Mrs. McMullan's restaurant, Knight, hair-dresser, Mrs. Warnock's fancy store, John Atchison & Co., dry goods. The heaviest loser by the fire is Mrs. Geo. Davis, store and dwelling, very little being saved. Loss about \$15,000 on buildings, besides tremendous loss of goods, which would amount to another \$15,000. As usual there was no water, &c. The fire department is in a wretched condition. Although the attention of the Town Council has been frequently called to the matter, up to the present, negligence to adopt any measures to remedy the evil is apparent. It was only by great exertions that the adjoining block, containing four stores and the restaurant, was saved. The cause of the fire is believed to have been incendiarism.

The Canadian Pacific will extend from some point on or near Lake Nipissing and on the south shore thereof to some point on the shore of the Pacific Ocean, both the said points to be determined by the Governor in Council.

The Company shall, within two years from the 20th day of July, 1871, commence simultaneously the construction of the railway from the Pacific Ocean towards the Rocky Mountains, and from a point in the Province of Ontario, hereinafter to be determined by the Government.

The Company is also empowered to make arrangements with any railway Company in Canada or the United States for connecting the sections of the Canadian Pacific, and to secure running powers over such railways.

If it shall be found that any of the alternate blocks laid out along the line of the railway are unfit for settlement, the company shall not be bound to receive from the Government any greater depth of land in such blocks than one mile computed from the railway.

It took a special train to bring Mr. Langevin from Montreal to Ottawa. It is reported here that Coyne, of Peel, Graham, of Hastings, and McManus, of Cardwell, are dissatisfied with M. C. Cameron as leader.

It is now said that Sir George E. Cartier intends to return to Canada, if not in time for the opening of Parliament, at least shortly after, as he considers himself sufficiently recovered to attend to his duties.

The terms of the Canada Pacific Railway Charter were made known Saturday night. The deputation appointed to proceed to England to raise the necessary funds for carrying on the work will start early next month on their mission.

The contemplated reduction in the militia expenditure is said to be over two millions, and at the same time the Government is now equipping and drilling an absurd regiment of foot guards here, at an immense cost, the country supplying everything—even the officers' uniforms.

The Detroit car-wheel foundry was destroyed by fire on Sunday morning, causing a loss of \$40,000.

GREAT CLEARING SALE!

TWO WEEKS LONGER!

The Great Clearing Sale of Dry Goods and Millinery still continues at

GEORGE JEFFREY'S.

The Great Sale will be continued for Two Weeks Longer, owing to

The unprecedented demand for all kinds of Goods!

And to give those parties who have not had an opportunity to visit the Cheap Sale, one more chance to participate in the Great Bargains!

ANOTHER LOT OF DRESS GOODS

REMNANTS, REMNANTS, REMNANTS.

One whole counter will be entirely devoted to Remnants of all kinds of Goods made during the Sale, to be disposed of at an immense sacrifice.

Remember This Fact.—This Extra Clearing Sale will Positively only last Two Weeks.

Intending purchasers should call and secure Bargains at once.

GEORGE JEFFREY.

A PROBLEM.—A correspondent sends us the following problem, and asks its solution from one of our numerous readers: A farmer has three sons, whom he sends to market with corn for sale. A has 10 bushels—B has 30 bushels—and C has 50 bushels. They all sell the corn at the same price per bushel and when sold each has the same amount of money to bring home.

The working men of Toronto will hold a mass meeting to-night, under the auspices of the Toronto Trades Assembly, at the St. Lawrence Hall to consider the following questions: Convict labor, Mechanics' Lien law, Bill to facilitate the adjustment of disputes between masters and servants, Ballot Bill, and extension of the Franchise. Delegates are expected from Hamilton and Ottawa to address the meeting.

The Hamilton Spectator says.—We were shown this (Monday morning) a counterfeit of the Canadian fifty cent piece. It is skilfully executed, and would be likely to escape detection in a mere passing examination. A closer scrutiny, however, will show that it has been molded instead of being struck from a die. Its weight is also perceptibly less than that of the genuine piece.

COW STRAYED.—Strayed from the premises of the Subscriber, Quebec St., on Friday, the 7th inst., a large milky cow, white and red mixed, with white eye brows, long switch tail. Heavy, and in good condition. Giving milk. Any one returning her to the owner, or giving such information as will lead to her recovery, will be suitably rewarded.

ANNABEL OR THE TEMPTATION.

CHAPTER V. AN UNLOOKED-FOR MEETING—HAPPY NEWS FOR ANNABEL—STRANGE DEPARTURE—BRIGHT PROSPECTS—THE UNSEEN SHADOW.

After being conducted through the immense warehouse of the American department, filled with numberless bales of cotton from the Southern States, and furs and skins from the more northern regions, which were henceforth to be in his own charge, Philip was making his way across an open court to find egress by a lane in the rear of Mossley Street, when his eye lighted on a man man undoing the wrapping of some packages which had been deposited there previous to being transferred to the interior. The man was stooping at the moment, but something in his figure struck the young man as being not unfamiliar, and he stopped short. The man raised his head at the moment, and presented the round, good-humored face of Jim Potts.

The two regarded each other for some moments with mutual astonishment. Philip was the first to break the silence, and he did it only by giving expression to the surprise he felt.

"What! Jim Potts!" he exclaimed. "The very identical," responded Jim, with a broad grin; "and very glad indeed sir, to see you again."

"Is this the place where you work? Are you stationary here?"

"Been here for two months, off and on, sir. I told you I was a bit restless, and liked to see different places. I have been here ever since I came to Liverpool, and like it very well, considering. How's the old gentleman, sir, as you represented from being robbed and murdered in the lane?"

"Why didn't you call back? We expected you would look in and see how it fared with him."

"Well, you see, sir," said Jim, half-bashfully as he cast his eyes on the ground, "I'd ha' done that with readiness, only I thought he might think I was looking for something, and I wouldn't take on that appearance—not for the world, sir. So I stayed away; but I've been often a-thinking of him, and wanted to know how he got round. Is he better, sir, and who did he turn out to be?"

"Ah, Jim, but the last question is a puzzler. He is a good deal better, thanks to the nursing he has had; but none of us know who he is."

"What? Hasn't he told that?"

"Not he; and what is more, he evidently does not want us to know."

"Well, that's what I call uncommon queer, sir. Hasn't he even let out his name?"

"No. He has carefully concealed both his name and social position."

"Very amazin' indeed, sir. What may his reason happen to be, do you think, sir?"

"I can't conceive."

"Maybe he isn't as tip-top a gentleman as he looks, and doesn't like to let out. But if that's it, all that I can say is, he's got up under false pretences, for I never see a better stamp of a well-to-do gent in all my born days."

"He is a gentleman, Jim, and a most influential one, too, as has been fully evidenced to me within this hour. What do you think? He has been the means of obtaining for me a capital situation in this commercial house of Langton & Company."

"What?" cried Jim. "Are you in a situation here?"

"I shall be, on Monday next. I have just got the appointment, and one great deal better than I looked for, thanks to our unknown friend, who asked to see me this morning, and gave me a letter to Mr. Langton. He had learned from Mrs. Dubson that I was in search of a situation, and without a word from me had written the letter. Goodness what was in it, but its contents seemed to create uncommon interest in Mr. Langton's mind, for the moment he finished it he was ready to offer me the situation 'offhand.'"

The Montreal physicians have signed a temperance declaration to the effect that much human misery, disease, and crime is caused by the use of alcoholic liquors. BREAKFAST.—EPPE'S COCOA.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Eppe has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills."—Civil Service Gazette. Made simply with Boiling Water or Milk. Each packet is labelled—"JAMES EPPE & CO., Homoeopathic Chemist, London."

MANUFACTURE OF COCOA.—"We will now give an account of the process adopted by Messrs. James Eppe & Co., manufacturers of dietetic articles, at their works in the Euston Road, London"—See article in Cassell's Household Guide. 3206mdw

PETRIE'S

NEW

DRUG STORE

Nearly opposite the Old Stand,

NOW OPEN.

Mr. PETRIE takes this opportunity to thank the Public for their large and liberal support during the seven years he has been in business in Guelph.

The New Store is the one formerly occupied by Mr. H. Berry, and lately by Mr. J. R. Fort, as a Confectionery Store. The store has been enlarged and refitted, making it a much more desirable place of business than the old stand.

Having secured the new store for a term of Ten Years, I hope, with the assistance of the Public, to prevent in the future as I have done during the past seven years, any monopoly in the Drug Trade in Guelph.

The old store will remain open for business until the first of May.

By conducting my business in the future in the same upright principle as in the past, I trust to receive a continuance of your generous support.

I am, yours very truly,

A. B. PETRIE.

DAY STEAM.—Sir William Fairbairn, at a recent meeting of the Manchester Steam Users' Association, asserted that the time is not far distant when manufac-turers will raise steam as easily as a reclamation of one half, or probably more, of the present cost. "Dry Steam" is the new fairy that is to work this further wonder. The vapor, Sir William says, is now not rightly managed, and the greatest part of its power is undeveloped. It must be isolated from the water, have a much greater expansion given to it, and be used at double, or even at triple, the present rate of pressure. He asserts that this is safely possible. All that has to be done is to provide "something strong enough to hold it." He added that he already has a hydraulic lift of 400 lbs. to the square inch, and which he believes would not yield at double that amount. As the power of resistance is increased, the bulk, he states may be lessened. Thirty years ago the pressure at which engines were worked was from seven to ten pounds. The rate has now been raised from five to seven, and which the fuel being saved. A little of the edge of the wonder is taken off the prognosis by this record. What is proposed to be done is not much more astonishing than what has been done.

IRON IN THE BLOOD.—When the blood is well supplied with its iron element, we feel vigorous and full of animation. It is an inefficiency of this vital element that makes us feel weak and low spirited; in such cases, the *Peruvian Syrup* (a proteid of iron) can supply this deficiency, and its use will invigorate us most wonderfully. R. C. Barnes, Junction City, Kansas, writes that Farrow's Compound Syrup of Hypophosphites is selling rapidly, and creating great excitement on account of the cures it is effecting.

THE STOMACH AND ITS DERANGEMENTS.
The stomach is the common source of most of the chronic wasting diseases for which invalids are constantly seeking relief. When the food is imperfectly digested and assimilated, the blood becomes impoverished, and all the organs and tissues of the body debilitated by want of nourishment. The general depravity of the system manifests itself in some constitutions by disease of the Lungs, Heart, Liver, or Kidneys, and in others by morbid humors, rheumatism, mental anxiety, neuralgia and rheumatic pains, all of which arise from depraved nutrition. To invigorate the stomach, and perfect Digestion, and the formation of Healthy Blood, Dr. Whaler's Compound Syrup of Hypophosphites and Calcium is of great efficacy and reliability, being harmless to infant or adult, and prompt and permanent in its effect.

Iron in the Blood
PERUVIAN SYRUP

MAKES THE WEAK STRONG.
The Peruvian Syrup, a Protected Solution of the Protocid of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damaged and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of its wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhoea, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.
See that each bottle has PERUVIAN SYRUP blown in the glass. Pamphlets Free.
