

THE TOPIC OF DISCUSSION

MR. MCCARTHY IS REGARDED AT OTTAWA.

No longer to the Conservative ranks—He cannot vote with the Opposition because he has once very nearly been a Conservative.

OTTAWA, Jan. 26.—The D'Alton McCarthy affair is the great topic of discussion here. The Toronto papers were eagerly read to-night. The best opinion is that Mr. McCarthy has left the Conservative ranks.

He will certainly not attend their caucus nor dispense their patronage, but it is quite within likelihood he will vote with them on most of the issues that will arise this session outside of his own special lines in regard to race and religious issues.

He cannot vote with the Opposition, especially on trade questions. He will find it a difficult task to get up in the House and attack the C.P. in detail and give specific cases where it is oppressive to consumers.

When he comes here he will have to tackle details and the great interests that are bound up in the N.F., and the people who have supported it cannot answer him until a specific case is made.

Very Near the Throne. As to D'Alton McCarthy's relation to the Conservative party it is the opinion of those who have watched his political career that the first evidence of a divergence from Conservative lines was discoverable shortly after Sir John Thompson's advent to the cabinet.

Up to that time Sir John Macdonald relied entirely on D'Alton McCarthy for his highest legal talent in the House near the throne. More than once Sir John Macdonald has said to his intimate friends, "After my reign is over, McCarthy will be your chief."

Thompson Up, McCarthy Down. But after that advent Mr. Thompson, as Minister of Justice, did all the heavy legal work of the Government without consulting Mr. McCarthy.

Mr. McCarthy received generous treatment from the Conservative party in the way of legal retainers, in the way of patronage and in recognition of his abilities. But he gave in return good services, and as Mr. McCarthy thinks, the balance of account is in his favor.

When Sir John Macdonald died D'Alton McCarthy, if one must judge a man only from close observation, may have been reading his mind, still it is his head that the leadership ought to have come to him.

His attitude toward the French-Canadian made that an impossibility, much as a section of Ontario would have liked it. At all events if Sir John Abbott and Sir John Thompson made overtures to Mr. McCarthy, they meant them in the sense that he must come under and not over.

Whether Sir John Thompson is little to the point. The point is that no deal was made, and after Mr. McCarthy's speeches of late, the Conservative party chiefs certainly decided to get along without Mr. McCarthy.

So that after he was right when he said the present Government was formed without consulting him. Sir John Thompson has never done anything to antagonize Mr. McCarthy, but Mr. McCarthy, at least, has decided to make it a personal struggle. It is not likely that Sir John Thompson will ever see Mr. McCarthy again.

Political Strategy. Mr. McCarthy will make little headway in the present House. He may be quite a power in the House of Commons, especially if he handles himself well between this and the next election. But Mr. McCarthy will not be a power in the House of Commons.

Those Who Can Afford It Lay in Furs for Next Winter. The latest news from European markets prophesies that furs will sell at advanced rates next year and in view of this fact the residents of the city, vestment, are daily picking up good things in furs at prices below cost at W. D. D'Arcy.

It is a chance which may never occur again, and all who can afford to buy are doing so. The furs are being sold at a price which will not be repeated until next season, and it is a pity that many of the residents of the city are not taking advantage of this opportunity.

Yesterday the show rooms of this popular firm were crowded all day. Despite the inclemency of the weather, and in view of this fact, many of the residents of the city are daily picking up good things in furs at prices below cost at W. D. D'Arcy.

THE SEVENTH PARLIAMENT

FORMALLY OPENED BY THE GOVERNOR-GENERAL.

A Great Crowd Present—An Unusual Number of Ladies in Evening Dress—The Opening Was a Most Unqualified Success—Canada Was Well Presented to the Legislature.

OTTAWA, Jan. 26.—The third session of the seventh Parliament of the Dominion of Canada was opened this afternoon by His Excellency the Governor-General under more than ordinary favorable circumstances.

The weather was perfect—clear, bright and not too cold, so that standing in the open air was a pleasure instead of a torment, as it has frequently been at other openings, and as a consequence the crowd which thronged Parliament Hill was the largest which has gathered there for several years.

Inside the buildings the crowd was equally large. The galleries of the Senate were literally packed, and the floor of the chamber was almost unprofitably crowded with an assembly of "fair women and good men."

There were far more ladies present in evening dress than usual, and their handsome costumes, added to the gleam of the uniforms of the ministers, the red coats and gold lace of the A.D.C.'s and staff, and the gorgeous apparel of Archbishop Deland and his attendant priests, all tended to light up and brighten the red chamber in a manner it does not too often get illuminated.

Taken as a whole the opening was a most unqualified success, and His Excellency will be enabled to take a more optimistic view of the future of the Dominion.

On his taking his seat on the throne in the Senate, Black Rod was sent to summon the "faithful Commons" and the Hon. Speaker and his followers having arrived, His Excellency read the following speech: "Hon. Gentlemen of the Senate, Gentlemen of the House of Commons."

In meeting you at the commencement of another session of Parliament, it affords me pleasure to congratulate you on the progress which the history of the year has unfolded with regard to Canada. The progress in trade, as illustrated by the exports and imports during the period for which the official returns have been prepared, has been most gratifying, and the increase has continued down to the present time, with promise that the volume of trade during the current year will exceed that of any year in the history of the Dominion.

The revenues of the country have increased, and the public debt has been reduced, and all these are facts which should be a source of satisfaction to you. It is my duty to inform you that the Government has taken steps to improve the administration of the public services, and to reduce the expenditure, and to these ends it has endeavored to secure the cooperation of all departments.

IT WAS AN IDIOTIC ATTACK.

SO SAID MCCARTHY AT THE BARRETT BANQUET.

Meaning the Effort of the Empire to Retain Him Out of the Party—But He Said He Would Not Be a Victim of It.

OTTAWA, Jan. 26.—Long will be remembered the banquet last night tendered by the citizens of Barrie to D'Alton McCarthy, M.P. It was held in the town hall, and was a magnificent affair. Covers were laid for 300 guests and there was not a vacant chair. A curious coincidence was the fact that every municipality in the three Simcoe counties had sent a representative to the banquet.

Mr. McCarthy presented the annual report of the joint librarians of Parliament. The report was read by Mr. McCarthy, and was a most interesting one. It dealt with the progress of the library during the year, and the work done in connection with the collection of books and pamphlets.

Mr. McCarthy then made a speech in which he alluded to the "idiotic attack" which he had received from some quarters. He said that he was not a victim of it, and that he would not be a victim of it in the future.

SEPARATE SCHOOLS IN YORK.

THE QUESTION DISCUSSED BY THE COUNTY COUNCIL.

Reeve Humberstone Calls the Attention of the Government to an Injustice from Which He Claims the Public Schools in the County Are Suffering.

A telegram was received by Warden Russell in the County Council room yesterday morning from the Rev. Mr. Hill, who is living at Richmond Hill and is reported to be seriously ill.

H. A. Nicholls has been appointed by the board of the separate schools to be the auditor of the accounts of the separate schools.

Reeve Humberstone introduced a motion by which the attention of the Minister of Education was directed to the fact that the separate schools in the County of York were suffering from a serious financial difficulty.

The motion was defeated on the ground that too much expense would be incurred and the minutes would be made too voluminous.

Reeve Humberstone introduced a motion by which the attention of the Minister of Education was directed to the fact that the separate schools in the County of York were suffering from a serious financial difficulty.

The motion was defeated on the ground that too much expense would be incurred and the minutes would be made too voluminous.

WHAT THE PRESS SAYS.

Respecting Mr. McCarthy's Break With His Party.

One would do well to make a summary, and the advocacy of free trade by one Conservative member of Parliament does not overthrow the N.P., nevertheless the speech of Mr. D'Alton McCarthy at St. John's on the 18th inst. is a most interesting and important one.

My predecessor in this report last year urged the necessity of Canada taking the initiative in securing a commercial treaty with Great Britain. It also pointed out that the "destiny of Canada might be determined by the success or failure of the negotiations between her and the United Kingdom."

It is to be hoped that there will be an early revision of the inland postal rates. The present regulations correspond to those of the United States in a number of particulars.

The opening of the St. Lawrence canal has been long delayed. We may have lines of railway at one end and a fast steamship service at the other, but a deep and rapid current in the middle of the river is as necessary as either in order to give the farmers of Ontario and the Northwest a fair and economical access to the markets of the Old World.

The effort on the part of your council to secure Dominion legislation on the subject of the proposed railway is a most satisfactory one. It is to be hoped that the bill on the subject, approved of by the outgoing council, is now under the consideration of the Dominion Government.

I would suggest that the powers conferred upon the Board of Arbitration to settle disputes amongst members of the board be extended so as to permit of a reference to the arbitrators by those who are aggrieved by the action of the board.

I would be glad to draw the attention of the members to the balance remaining under the issue of debentures secured by the Imperial Railway, which is a substantial sum. The sale of these securities would enable your council to reduce very materially the floating liabilities of the board and would occasion a material reduction in its cost of management.

The election of Mr. S. R. McKinnon to be president of the Chamber of Commerce and City Council of London is a most satisfactory one. It is to be hoped that the bill on the subject, approved of by the outgoing council, is now under the consideration of the Dominion Government.

THE PUBLIC WILL NOT BE FOOLED.

THE DOORS CLOSED.

The old story, told over and over again, that the door was loaded—the funny boy who cried wolf too often was finally eaten up, and so it is with the merchants of this city and of every other who are always trying to deceive the public by false cries. They are continually "bawling," "bawling," "bawling," and all kinds of manners of imaginable sales to catch the public—when they do not intend to sell their stock at any reduction on regular retail prices, and have no bankrupt stock but their own—no trash advertised for nothing. It is no wonder then that the public have come to look at these so-called "sales" with a certain amount of skepticism.

It is to be hoped that there will be an early revision of the inland postal rates. The present regulations correspond to those of the United States in a number of particulars.

ABOUT ALUMINUM

Its adaptability for racing shells - Will Hanlan and Gaudaur use it - Besides being the material of which racing shells of the future will be built, aluminum seems destined to be a general useful metal.

It is just possible that Hanlan will secure one of the new metal boats for his race with Gaudaur. Then it will be necessary for the wily Jake to secure the same or a more definite in the face.

Those who have not mined minerals and metals a special study will be started when told that there is 10 times more of this metal in the world than there is of iron, lead, copper, zinc, nickel, gold and silver combined.

The time, therefore, seems not to be far distant when aluminum will take the place of iron, copper and brass in the construction of everything where strength, lightness and durability are essential, and it would be hard to mention a machine or construction intended for use on land or water, and it might be added, in air, where these three qualities are not a necessity.

The New Zealand Champion's Challenge - Sporting Editor writes in the latest issue of your paper some months ago, I have cast my lot with the Detroit Boat Club for the coming season and will begin my duties training oarsmen and scullers there on Feb. 1.

Prospect Park Defeat Toronto Club - A friendly racing match occurred last night between Toronto and Prospect Park, resulting in favor of the Parkers as follows:

First race, 50 furlongs - Rocket 1, Marcellus 2, Time 1:10. Second race, 3 miles - Remorse 1, Blackbird 2, Mayor 3, Time 1:16.

Second Day at Prospect Park - PORK HOPE, Jan. 26 - Open race - W. McCrea's Shamrock won, D. Lake's Last Chance 2, J. N. Reed's Maud 3, Sleepy Emma, Bill of Expense and Minnie P. also trotted, time 2:42.
