Large Tract of Timber
In Central Ontario
THE PROPERTY OF
The Canadian Land and Immigration
Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry-Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Viewed from any standpoint, the lumber market exhibits exceptional strength. Buyers who deferred placing orders in the hope that prices might weaken have now entered the market, only to find that a large portion of the production of both pine and hardwood lumber has been contracted for. Manufacturers are experiencing no difficulty in obtaining the advance over last year's prices which has been fixed upon as the result of the higher cost of production. The buying of the new cut has not been confined to the upper grades, but has included the full range down to mill cutts. On the north shore of the Georgian Bay an average grade of mill cutts, with dead culle out, readily brings \$10, while on the south shore similar stock is held at from \$11 to \$12. In the Sarnia district the price is \$12, with an extra dollar for 10 and 12 inch. Norway lumber is a little stronger, and as the production this season is not likely to be large, a further improvement is expected. For 2x6 and 2 inch, 12 to 16 feet in length, \$14 at the mill is asked. No. 1 pine lath is worth about \$3.00 at the mill, and No. 2

\$2.75. There is steady buying of the new cut of hardwoods. Slightly higher prices are reported for basswood, but other classes remain unchanged.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber is firm but quiet. Manufacturers have sold less than the usual quantity of deals for shipment to Great Britain, as European buyers have not responded to the increased price which it has been necessary to ask on account of the greater cost of production. The asking prices are £10 to £10 10s. c.i.f. for 11x3, and £9 for 9x3. Contracts are being closed almost daily for shipment to the United States and South America. A South American specification of 12 inch spruce, 12 to 16 feet in length, recently brought \$20 for firsts and \$18 for seconds.

Owing to the great depth of snow in the woods in New Brunswick slow progress is being made with logging operations, and it is estimated that the cut on the Upper St. John will be twenty per cent. less than was anticipated at the beginning of the season. In some districts there is over six feet of snow.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade of Western Canada are anticipating the season's requirements by purchasing heavily in advance. It is believed that the demand will tax the capacity of the mills to meet it. Several dealers in the North-West have recently visited the Coast and arranged for early shipments. Prices are firm and likely to be further advanced in the near future. The recent wholesale pine list shows an advance ranging from fifty cents to five dollars per thousand.

UNITED STATES.

There is no exception to the pronounced strength which characterizes the lumber market of the United States. The movement of lumber has been restricted in some districts by a scarcity of cars, but the buying has been none the less urgent. Dealers recognize that there is no probability of a break in prices at least before the spring demand is supplied, and by many it is predicted that there will not develop the usual midsummer weakness. Substitutes for the upper grades of white pine are being purchased to some extent, but the trade is not seriously concerned as to any inroads upon pine that may result from this source. A large percentage of the cut of the coming season has already passed out of first hands. In Chicago prices are strong and the stocks of dealers somewhat broken. Piece stuff is held at \$17.50 f.o.b. Chicago. Buffalo dealers have a light supply of 2 inch No. 1 cuts, for which a price of \$60 is predicted.

There is no accumulation at any point, the demand being sufficient to absorb offerings. Hardwood lumber shows improvement as each day passes. The dealers and large consumers are placing contracts freely with the mills, and while the outlook is for a large production, it is quite probable that the demand will keep pace with it. The stocks of dealers are so low that a large quantity of lumber will be required to restore them to their normal volume. In Chicago \$35 is paid for inch firsts and second white ash. Thick maple is especially strong.

GREAT BRITAIN.

Reports from Great Britain are of a more encouraging character. Russian shippers, during a recent visit to London, held a conference to discuss prices; and it was predicted by importers that a general

lowering of quotations would result. The reverse was the case, however, a decision being reached to strenuously maintain the present range of values. The effect of this decision has already been felt, several contracts having been closed at shippers' prices. The demand from Germany, France and South Africa has improved, and on the whole the outlook is much better than at last writing. Stocks of Canadian deals are moderate for the season of the year. Pine deals are held in strong hands, as it is realized that, in view of the high prices asked for new stock, it would not be wise to dispose of present holdings except at a fair margin of profit. A few large orders have recently been placed for spruce deals. Second quality, 3x9 inch, is held at £10 10s. per standard, and third quality at £10. Birch and oak timber meet with a heavy sale.

STOCKS AND PRICES

Cowan & Company, of Prince Albert, N.W.T., expect to take out 80,000 logs this winter.

George Shearer, of Truro, N.S., expects to cut 1,100,000 feet of spruce and hardwood lumber this season.

Tenders are wanted by March 1st for the supply of lumber required for waterworks purposes in the City of London, Ont.

James Sanderson, of Prince Albert, N.W.T., has 70 men in the woods and expects to cut 3,000,000 feet of logs this winter.

The timber limits formerly operated by Moore & Macdowall, of Prince Albert, N.W.T., are being worked this winter by Mr. Tellord.

Tenders for the supply of lumber for the Road Department of the City of Montreal will be received by L O Davis, City Clerk, up to March 5th.

The Toronto & Niagara Power Company, of Toronto, is asking for tenders up to March 2nd for the supply of 1,750,000 feet of dimension timber.

Job McFarlane, of Dover, N.B., and Chipman McFarlane, of Salisbury, have purchased a timber limit in Albert county and commenced operations.

The tender of H.S. Brennan & Sons has been accepted for supply of lumber for the city of Hamilton, at the price of \$19.20 per thousand. McAllister & Thompson tendered at \$19.70.

The City Council of Stratford, Ont., has accepted the tender of James Bennoch for supply of lumber, at the following prices: 2x10 pine, \$20.50 per thousand; 2x12, \$21.50; 4x4 cedar, \$15.50.

Matthew Doody, of Cobourg, Ont., recently cut 400 pieces of square timber on a farm near Peterboro. The timber is 20 to 30 feet in length and will be rafted to Quebec for export to England.

The Niagara Falls Power Company has purchased 3,000,000 feet of redwood timber to be used in construction work. It was purchased in California and is to be delivered at Buffalo by July next.

A timber berth of 2½ square miles at the mouth of the Salmon river, in Queens County, N.B., will be sold by the Government at Fredericton, N.B., on Wednesday, March 4th. The applicant is W. E. Cadwallader.

The Waddle Land Company, of Regina, N.W.T., recently purchased 2,000,000 ft. of lumber from manufacturers at Vancouver, B.C. The purchase price is given as \$50,000. It is understood that the lumber is to be shipped to Regina immediately.

The Corporation of Chamby Canton, Que., requests bids by March 14th for supply of the following quantities of lumber, to be delivered by June 1st: 58,164 feet of first class spruce, 3 inches x 8, 9 or 10 inches (the whole of the same width); 478 stringers of first-class red pine, 4 inches x 12 x 18 feet long; 60 stringers of first-class red pine, 6 inches x 12 x 18 feet long; 116 pieces of first-class red pine, 3 inches x 6 x 18 feet long.

Of the cooperage market Messrs. Sutherland, Innes & Company, of Chatham, Ont., say: "As far as the market is concerned, anybody that has dry stock, No. 1 quality, can dispose of it readily, as there is a good demand for No. 1 dry stock. No. 2, of course, is slow at this season of the year, but no doubt will look up in the course of a month or so. It is just between the seasons now, so that very little can be said on the state of the market."

The annual review of white pine market conditions, compiled by the Mississippi Valley Lumbermen's Association, contains the following: There has been a decrease in the percentage of piece stuff during the year, due to the higher list on inch lumber. At the beginning of the year 1902 the percentage of dimension in the total stock on hand was 31.6 per cent. At the beginning of 1902 this was reduced to 28.6 per cent and at the beginning of this year the stock sheets show a percentage of 27.2 per cent. in the Mississippi valley. On the other hand, the increased percentage of low grade inch has been cleared up by a brisk demand which prevailed all the fall. There

has been an increase in the amount of No. 3 shop lumber on hand, and it has been suggested that the specifications of this grade be made a trifle more restrictive. There has been some further increase in the cost of manufacture. Operations in the woods this winter will be considerably more expensive than ever before. Features of supply and demand may make some readjustment of prices necessary during the year. We are independent with our upper grades, but should recognize the growing competition with yellow pine, hemlock and western lumber. There is an increasing percentage of low grade stock in each season's cut of northern pine, but the shortage of upper grades increases the call for the lower, and the condition corrects itself.

TIMBER LIMIT TRANSACTIONS.

George McKeon, of St. John, N.B., is reported to have sold to a Nova Scotia syndicate his large timber property on the Nouville river, Quebec. The price paid was in the vicinity of \$100,000.

James F. Kimball, a prominent lumberman of Medway, Me., Wilson Crosby, of

Bangor, and others have sold to the William Richards Company, Campbellton, extensive timber lands situated in parish of Stanley and other parts of York and Northumberland counties. The price paid for these lands was \$100,336.12.

Peter Ryan, of Toronto, recently purchased from C. K. Eddy & Sons, of Saginaw, Mich., eighty-three square miles of timber limits on Lake Penago, on the north shore of Lake Huron. The purchase price is thought to have been in the neighborhood of \$1,000,000. It is reported that Mr. Ryan has since disposed of the limits to the Victoria Harbor Lumber Company.

A GOOD SALESMAN.

Mr. C. W. Spencer, general superintendent of the G. P. R., writes the Harbor Commissioners of Montreal that his company have been requested by a number of timber shippers who handle a large quantity of timber to transport it into Montreal instead of Pineauville, as heretofore. Arrangements have been made with Mr. J. Doran for rafting the timber from Montreal to Quebec. Mr. Spencer will be requested to furnish plans of what he requires, and he will be informed that no exclusive privilege has been given Mr. Doran to raft into Montreal.

THE BOSTON MARKET.

Both the mills and the trade in spruce lumber are hampered by the recent storms which have seriously interfered with transportation. Prices are easier on dimensions, but otherwise steady: Ten and 12-inch dimensions, \$21; 9-inch and under, \$18.50 to \$19; 10 and 12-inch random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, \$17 to \$17.50; all other randoms, 9-inch and under, 10 feet and up, \$18 to \$18.50; 5-inch and up, merchantable boards, \$17; matched boards, \$18 to \$20; cut spruce boards, \$13 to \$14; bundle furring, \$17.

Hemlock lumber is steady at previous quotations: Boards, 12, 14 and 16 feet stock, \$14.50 to \$15 for good eastern; Pennsylvania, No. 1, \$18 to \$19; No. 2, \$15 to \$16.

There is a very firm market for western pine lumber, with a fair demand for the season: Uppers, 1 to 2 inch \$84 to \$87; 2½ to 3 in. \$92 to \$97; 4-in. \$96 to \$100; selects, 1 in. \$76; 1½ to 1¾ in. \$76 to \$78; 2-

in. \$78; 2½ to 3 in. \$84; 4 in. \$93 to common, 1-in. \$67; 1½ to 1¾ in. 2-in. \$72; 2½ to 3 in. \$80; 4-in. \$82; barn boards, \$33 to \$33; coffin boards, \$28 to \$32.

Hardwood lumber continues firm with the demand rather quiet, except for certain grades of hard finish and flooring stock: Quartered oak, \$63 to \$75; plain oak, \$42 to \$47; common and rejects, \$20 to \$25; red oak, plain, \$43; whitewood, \$49 to \$55; sap and common, \$38 to \$45; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$33 to \$37; end-dried white maple, \$46; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; elm, \$20 to \$31.

There is no change to note in shingles, the demand being quiet at steady prices: Extra cedar, \$3.35 to \$3.45; clear, \$2.90 to \$3.00; second clear, \$2.35 to \$2.45; extra No. 1, \$1.75 to \$1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, \$3.50 to \$3.60; 18-inch, five butts to 2 inches, \$4.25; five butts to 2½ inches, \$4.50.

There is still a very firm market for spruce clapboards, with both offerings and

demand light: Extra, \$42; clear, \$40; second clear, \$37 to \$39; extra No. 1, \$30 to \$33.

Laths are quiet at the demand noted a week ago: One and five-eighths inch, \$3.15 to \$3.25; 1½ - inch, \$3.00 to \$3.10.
