NATIONALISTS INCLINE TO BORDEN

Will Support Conservative
Candidates in Constitu-
encies Where There Are No
Nationalist Standard-Bear-
ers—No Government Ac-
clamations—L'anglais
Kickers After Dandurand.

MONTREAL, July 31.—(Special).—
The organization of the two parties
is now well under way, although the govern-
ment have done nothing to satisfy
the Langlois kickers, who ask that
Senator Dandurand shall be replaced
or assisted so that the Liberal com-
mittee may be more representative.
The Nationalists are out against
Laurier all along the line, and Le De-
voir publishes a furious article this
evening entitled, "The End of a Regime,"
declaring that if Sir Wilfrid
displeased parliament it was solely to
escape the results of the Oliver investi-
gation or to get away from answering
questions to the imperial conference.
It is understood that Bourassa, and
his friends will support the Conserva-
tive candidates where there are no
Nationalist standard-bearers, and they
will be no acclamations on the govern-
ment side of the fence.

QUEBEC SHIES AT LAURIER

Strength of French Canadian Premier
Waning in the Lower Provinces.
"Sir Wilfrid Laurier will not have a
solid Quebec behind him after the
coming election," said Clarence J. Mc-
Caig, banker and broker of Montreal,
to The World yesterday.
"Sir Wilfrid has lost strength in
Quebec ever since his navy plan was
made known," continued Mr. McCaig.
"Bourassa and Lavergne, both young
men, are looked upon by the French-
Canadians as the natural successors of
Sir Wilfrid, whose reign is run. The
French-Canadians fear what would
follow the passing of Sir Wilfrid. They
do not fancy Mr. Fielding as the suc-
cessor of Laurier. They want one of
their own, Bourassa or Lavergne. And
if it is necessary to defeat Laurier to
achieve this end, they will defeat him."
"Quebec is coming back to her first
love, the Liberal Conservatives," con-
cluded Mr. McCaig.

JUST LOOKING ROUND.

Al. Gilroy, manager of the Winnipeg
branch of the T. Eaton Co., is in the
city for a few days. He has wholly
recovered from his indisposition of six
months ago, when he had to go to San
Francisco to recuperate from over-
work. He is in the finest of physical
and mental condition now.
ARE YOU A RECIPROCIARIAN?
Reciprocitarians are people who be-
lieve in "give and take." So are recip-
rocitarians. So are reciprocitarians. But
Joe Clark says the reciprocitarians are
the real aristocrats of the cult. They
have the sentiment grammatically ex-
tended according to the best authori-
ties on terminology. We believe in re-
ciprocitarians—the rule to give and take—
but where does reciprocity appear, for
instance, in the negotiations which re-
sult in you acquiring one of Dineen's
two, two-fifty, three or three-fifty
straw-hats for one dollar. There cer-
tainly is no profit in the transaction
for Dineen's-hatters and furriers—our
Yonge and Temperance-streets. The
advantage is all to the purchaser.
That is why Dineen's are reciprocitarians.
They want better retail trade
prices for hats. In the meantime, the
dollar prices continue to prevail.

Coils of Evidence Around Missing Griccio

Testimony at Inquest Showed
Bad Blood Had Existed Be-
tween Himself and Murdered
Man—Police Scour City in
Fruitless Search.

MEN HAD TALKED OF FIGHTING DUEL

A warrant has been issued for the
arrest of Frank Griccio on a charge
of murdering Frank Tarro at the cor-
ner of Front and Church-streets on
Sunday afternoon. Griccio for the past
two years has lived with a young
French woman named Rosa Brunet at
175 Jarvis-street, who gave evidence
at the inquest last evening to the ef-
fect that Griccio and Tarro had quar-
reled on more than one occasion, and
that he carried a revolver of 38 calibre
because he feared a man whom he
did not like.
Griccio had been in the hands of
the police before on a charge of hav-
ing stolen property.
It is said that the trouble was due
to money matters, and that Tarro
was deeply in debt to the accused.
Yet another story is to the effect that
a woman is at the bottom of the case,
and that Griccio and Tarro were
rivals.
It appears that Tarro and Griccio
set out from the restaurant in York-
street to meet in a duel, but changed
their minds and returned to the board-
ing house good friends. They started
out again, and the next heard of them
at the York-street house was that Tar-
ro had been murdered.
Vanished in the Air.
So far there is no trace of Griccio,
the fifty telegrams and pamphlets have
been sent broadcast by the detective

FRANK GRICCIO,
Supposed Murderer of Frank Tarro.
Police Unable to Locate Him.

department. Word has been sent to
nearly every place where it is thought
the criminal might take refuge.
All last night the police and detec-
tive force was keeping a strict watch
of the exits from the city and a con-
stant watch has been kept on some
Italian houses where it was thought
the assassin might be concealed.
The disappearance of Griccio, the
police believe, is good evidence against
him. He has not appeared since the
time he and Tarro left the restaurant
in the afternoon, and yesterday morn-
ing Rosa Brunet went out in search
of him.

cally destroyed but all the inmates have
been removed without loss of life and
are being removed to Toronto.
The fire is still raging and the en-

Premier H. Asquith To Advise Creation Of Fifty New Peers

Meanwhile the Veto Bill Will Not Re-
appear in the Commons—De-
bate Resumes August 7.

LONDON, July 31.—The political
crisis over the veto bill has undergone
a slight modification, as the cabinet
to-day decided to postpone the re-ap-
pearance of the bill before the house
of commons until Aug. 7.

Present anticipations point to the
heating of the breach in the Unionist
ranks. Lord Lansdowne and his fol-
lowers, who favor the bill, and the
Halsburyites, who are opposed to it,
will meet to-morrow night in full force
at a complimentary dinner to the
Unionist party's late hero, Sir Alex-
ander Acland Hood, who is now
known as Lord St. Austrey.
At this dinner Mr. Balfour, the leader
of the opposition in the house of
commons, is expected to make a speech
in an effort to pave the way for a
modus vivendi between the opposing
sections of the party. As a matter of
fact both sides appear to be tending
to the direction, Lord Willoughby De
Broke, who is organizing the insur-
gents to-day for the first time ad-
mitted that his party had gained an
accession in strength.
Lord Lansdowne to-night issued a
letter discountenancing the idea of
any Unionist peers voting in the gov-
ernment lobby for the veto bill. This
belated decision on the part of Lord
Lansdowne probably means that he
has secured sufficient support to make
the Halsburyites powerless against
the votes of the Liberal peers, and
that therefore there is no longer any
necessity for Viscount St. Austrey to
come to the government's assistance,
as it was rumored he would do by
taking into the government lobby suf-
ficient Unionist peers to out-vote the
Halsburyites in case they challenged a
division.
That the tension has lessened is
shown by the fact that King George
has decided to remain at Cowes for the
rest of the week. There is still a
strong belief in the lobbies of par-
liament, however, that Premier As-
quith, in order to guard against sur-
prises, will nominate a batch of about
fifty peers before again trusting the
veto bill to the house of lords.

CONSERVATIVE FORCES IN GOOD FIGHTING TRIM

OTTAWA, July 31.—(Special).—The
Laurier cabinet sets out upon a gen-
eral election campaign with a fierce
family row on. Even the commands
of the prime minister have failed to
keep the ministers from talking about
it. And all Ottawa to-day has heard
the story. It has to do with the ap-
pointment of Sir Frederick Borden as
Canadian High Commissioner in Lon-
don and the elevation of E. M. Mac-
donald of Picou, N. S., to a place in
the cabinet.
The trouble broke out at the council
meeting on Saturday, when the sud-
den dissolution was decided upon, and
this now was the real reason why Hon.
Frank Cochrane went out of the meet-
ing alone. The story that the minister
of the interior left after standing out

ing of the two portfolios which Nova Scotia
has succeeded in retaining in spite of

MOVING PICTURE SHOW PANDERS TO AMERICANS

"Moulin Rouge" Shows Film in
Which British Flag is
Insulted?

Several complaints reached The
World yesterday morning that the
"Moulin Rouge" Moving Picture The-
atre in Yonge-street, just above Queen,
was running a film which was very
offensive to Canadians and British
subjects generally. A World reporter
was sent up to investigate, and dis-
covered ample justification for the
protest.
The film in question is entitled "A
Mother and Sons of 1776," and it is
well calculated to please the many
Americans who walk up Yonge-streets
every day during the summer, and a
large number of whom go into the
moving picture shows to fill in their
spare moments. The film is the usual
type of war drama, and a detailed de-
scription of it is unnecessary. Suffice
it to say that the British are made to
appear cowardly and brutal, while the
Americans are everything that is no-
ble, good and beautiful.
The last scene represents the lower-
ing of the British flag, and the hoisting
in its place of the Stars and Stripes.
The reel of film concludes with a
flamboyant many-colored reproduction
of the American ensign, which flutters
on the screen for some minutes after
the play proper has been concluded.
On the two occasions yesterday when
a World reporter was present in the
theatre, this waving of the Yankee
flag was greeted with applause from
several bodies of Americans who hap-
pened to be present.
Several people who saw this film
wondered what was the matter with
our moving picture censor. A film of
this kind should no more be allowed
than one that is absolutely immoral,
and the manager who permits it to
appear in this theatre should be made
to feel the weight of public opinion.
No wonder that the Americans com-
ing over here and seeing this sort of
thing going on, have come to the con-
clusion that we, too, are desirous of
annexation.
If the moving picture men are so
blind to their own interests as to run
pictures of this kind for the small im-
mediate profit it brings them, the po-
lice department or the board of film
censors should see that it is stopped.
The film in question, if not inter-
fered with, will probably be passed
round from one Toronto theatre to
another. The World hopes that this
will not be allowed.

DEMOCRATS FOR FREE LIST.

WASHINGTON, July 31.—After two
lengthy caucuses to-day the Democrat
senators late to-night decided unani-
mously to support the farmers' free-
list bill, passed by the house, and
which will be voted upon to-morrow
in the senate.

Reciprocity Will Give the Canadian Market to the American Sheep-Raiser.

The World this morning publishes two photographs
of a regiment of over 1,100 American sheep that invaded
the Toronto market yesterday, and each of which paid \$1.00 duty
to come into Canada, and all of which are now being sold, or
were sold yesterday, on the Toronto Stock Yards in competi-
tion with Canadian sheep.
One view shows a flock of lambs and another a flock of
full-grown sheep of various ages, and these sheep are only part
of a flock of over 20,000 American sheep that have been sold
on the Toronto market within the last few months. Whether
American sheep have been sold at other points in Canada we
cannot at the present moment say, but the great outstanding
fact is that reciprocity means giving the whole Canadian mar-
ket, now held by Canadians, to the American sheep-raiser, to
the great injury of the Canadian farmer, and especially the On-
tario farmers who raise so many sheep.
The duty on this flock of 1,196 sheep which was paid on
Saturday at the Custom House was \$1,144.50. Probably one-
half of them were sold on the market yesterday to Toronto and
Hamilton butchers, and the rest will probably be disposed of
to-day. The World saw a great many drovers yesterday and
others interested in live stock, and who have regular transac-
tions on the Toronto market, and hardly a single man was pre-
pared to say that reciprocity would not be injurious to the
Canadian sheep-raiser. Some of the drovers were so much an-
noyed at this invasion that they attribute to it the drop in the
market yesterday of Canadian lambs and sheep of 25 to 50 cents
a hundred.
The World therefore considers that it has more than es-
tablished its contention that reciprocity means nothing for the
Canadian farmer so far as sheep are concerned. Another not-
able incident of the day was that The Star, which attributed this
invasion to some kind of political manipulation, had no word to
say last night on the matter. It simply had gone into silence.
If it's a good thing to have these sheep come into Canada—
and reciprocity will bring in thousands and thousands of them—
why isn't The Globe and The Star out to welcome the invaders?

HARD TO GET WORKMEN TO COMPLETE SCHOOLS

Trustees Confronted With Serious Problem Because Contractors Are Hard Pressed.

The continued activity in the building trades is greatly handicapping the board of education in their work of summer improvements. The new schools are well under way, but the scarcity of skilled labor renders the time of their completion uncertain.

At the meeting of the finance committee yesterday to consider tenders it was observed that in a number of cases only one tender was sent in, and new tenders would have to be called for.

"The contractors say that they can't get men for love or money," declared Trustee Hodgson, speaking of the lack of tenders for galvanizing roofing at Hillcrest School. There are a large number of roofing concerns, but the scarcity of hands and the great amount of work keeps them busy. The tender of John T. Flowers in this respect was a hole there, and Mr. Hutchinson, who has the work in hand, cannot secure men, and it looks as though the painting could not be finished before school opens. This would be very serious, as we have no place to put the pupils."

He suggested that a proposition be made to Mr. Hutchinson whereby either he secure more men immediately or allow the board to install their own men on the work, charging him for their time. If this is not accepted, the job will be taken away from him.

"The plastering is now done, and the carpentering must go on at once. There should be three or four men working in each room."

The committee instructed Mr. Hodgson to do as he thought best.

The case of G. N. Reynolds & Co., who pleaded a mistake in the contract for the supply of 500 chairs at the expense, will be looked into by C. A. B. Brown, chairman of the committee.

Contracts Awarded.
The following tenders were accepted: S. Pollock, mason work at Harbord Collegiate Institute, \$1075.
Hagan and Reid, mason work at Hillcrest School, \$715.
F. Armstrong, carpentry at Hillcrest School, \$282.

Oliver C. Poole, carpentry at Lansdowne School, \$310.
Keith & Fitzsimons, plumbing at Lansdowne School, \$460.

Orr Bros, masonry at Palmerston School, \$355; at Strathecona School, \$235.
Jas. Taylor, painting at George-street School, \$445.
Orr Bros, grading and sodding at Brown School, \$350.
Mr. Orr, who holds the bricklaying contract for the school, requested the committee to ask an allowance for the advance in the price of brick during the time in which he was forced to re-order the steel superstructure. He was advised to go on with his work and make his application thru Supt. Bishop, when the job was completed.

NO HOUSE AND LOT FOR KING'S PRIZE WINNER

Civic Legislation Committee Inclined to Give Silver Service to Pte. Clifford.

Whether Private W. J. Clifford, winner of the King's Prize and the Prince of Wales' Prize at Bisley, shall be given two sets of table silverware or a house, was not decided upon at the meeting of the civic legislation and reception committee at the city hall yesterday.

Ald. Phelan moved that a silverware set, worth \$500, be given. This motion, which was carried, provided that if the friends of Clifford came forward and offered to start a subscription, the money for the silver set would be put on the subscription list. The officers of the Grenadiers, to which regiment Clifford belongs, have decided to give him a silver tea set worth about \$450. If a subscription is started this money will also be added, probably.

Lieut.-Col. Gooderham, commanding officer of the Grenadiers, entailed the committee-room a few minutes after the committee had decided to give the silver set.

"A cabinet of silver will be of very little use to Clifford," he said. "Look at what Hamilton and Vancouver did. They presented their prize winners with houses and lots. Frankly, I don't think you are giving him enough. I think the city should buy him a house and lot."

"It is out of the question to suggest the purchase of a house and lot," declared Controller Spence. "The council would not approve of it. We cannot be generous with other people's money."

Controller Ward suggested that the money be put together as the nucleus of a subscription. He was of the opinion that the city might give \$1000. "There is no use soliciting subscriptions," said Ald. Maguire. "After the enthusiasm dies down, the house would not be paid for."

Efforts will be made to have Clifford come via North Toronto. The aquatic clubs have promised to turn out and march in the parade on August 10th.

Congrats. for Argos.
As for the reception to the Argonauts, who won six out of the twelve championships at the recent N.A.A.C. regatta at Saratoga, N. Y., it was decided to ask the mayor to give them the congratulations of the city.

The sum of \$100 was voted for the reception of the Grand Lodge of the True Blues, who will meet here on Aug. 29 and remain three days.

An unanticipated request was voted for the entertainment of the Corinthian football team, who will come here Friday. A smoking concert will be held for their benefit that evening.

The members of the reception committee were asked to be at Hamilton's Point on Wednesday night to assist in the presentation of lockets to Tall, Halbbaus, Knox and Brock, the athletes who recently did good work in England.

WOODSTOCK POLICE GET SUNDAY POKER PLAYERS

Authorities Get the Names of Fourteen Men, Some of Them Preminent in Business.

WOODSTOCK, July 31.—(Special.)—Chief of Police Killing, accompanied by Constable Robertson of the city police force, paid an early morning visit to a Dundas-street room about 1.30 a.m. Sunday and disturbed a quiet game of poker that had been started on Saturday evening, and which had extended into the Sabbath. As a result the names of fourteen men who were in the room at the time, and some of whom are prominent business men of the city were taken, and they in all probability will be asked to appear before the magistrate at an early date.

The raid by the police was entirely unexpected, and resulted in considerable consternation to the members of the party. The police are not talking for publication for some reason or other, but it is understood that quite a little layout was confiscated, including some of the tell-tale chips. The loose change on the table was scattered in by the players.

The raid was carefully planned by Chief Killing, who had received a tip that there was a joint in operation, and the officers effected their entrance to the room by creeping up the back stairs in their stockings feet.

DAMAGED BY SUNKEN LOGS

Ossifrage Forced to Go on Drydock at Detroit.

CHATHAM, July 31.—The steamer Ossifrage has been taken to drydock in Detroit for the second time this year. Her propeller struck a sunken log in the river. The Ottawa Government has, upon many occasions, promised to dredge the river to a sufficient depth for navigation, but so far nothing has been done and it is with great difficulty that a passenger boat is maintained on the Chatham-Trotter run.

The navigation company, despairing of anything being done by the government, are now engaged taking the logs out of the river themselves.

FAVORS PHYSICAL CENSUS

Dr. Struthers Says Statistics Would Be of Great Value.

"There should be no difficulty in having a medical inspection system for the rural schools," declared Dr. Struthers, chief medical inspector of the city schools yesterday, referring to the action of the Ontario Medical Council, in advising such inspection. "There is some possibility that action may be taken by the department of education in the near future. The physical examination of the pupils would be the principal duty of the inspectors." He pointed out that most of the diseases and temporary ailments prevalent in the city were practically lacking in the rural sections.

"A complete system of physical examinations of rural schools in conjunction with medical inspection of city and town schools, would provide invaluable statistical results for the promotion of the health of the nation.

"And the system would not be expensive. One doctor could look after two or three schools in the section over which he practices, and by that plan the expense would not be overburdensome to the ratepayers."

New St. John's Church.
Active operations on the new parish house at St. John's Anglican Church, West Toronto, have begun. The excavations are nearly completed, and the masonry work will commence at once. Rev. T. Beverley Smith, incumbent, thinks that the building will be completed and ready for occupation about the first of November.

A large portion of the funds necessary to the building of the edifice has already been contributed, and it is hoped that the parish house will be opened free of debt.

STORM PROVED COSTLY IN ONTARIO FRUIT BELT

South and Western Districts Suffered Most—Apples Blown Off Trees.

Reports of what damage the wind storm of last week did to the fruit crops of the province were received yesterday at the parliament buildings. W. W. Hodgkiss, secretary-treasurer of the Ontario Fruit Growers' Association, had a long list of telegraphic messages from different points, specifying how much damage had actually been done. It is evident from the reports that the eastern part of the province was not seriously affected, as complaints have only been received from the western and southern districts.

In Western New York, around Buffalo and Rochester, which is practically an extension of the Niagara fruit district, the damage was especially heavy. Thirty per cent. of the greening apple crop was destroyed, 15 per cent. of the fall varieties, 40 per cent. of the Bartlett pears, and 20 per cent. of Duchess pears.

Variable reports come from Ontario. Much havoc was wrought by the wind in Simcoe County, and Great ones destroyed. In Lambton County, 20 per cent. of the apples are blown off, but the damage to plums and pears is not so bad. Ten per cent. of the winter apples in the Niagara district are blown off the trees, and 20 per cent. of the summer apples. The pears have fallen to the extent of 20 per cent.

HOW TO REMOVE WARTS BY A PAINLESS REMEDY

Don't allow these unsightly excrescences to spoil the beauty of your hands or arms. Remove them painlessly and for all time by applying Putnam's Painless Corn and Wart Extractor. and plums 10 per cent. In Georgetown the wind blew down one-third of the entire apple crop with the exception of apples.

The secretary of the New York Fruit Growers' Association states that all the counties bordering on the lakes, suffered heavily from the storm, fully 25 per cent. of the fruit crop being destroyed.

OVERRODE COURT OF REVISION

Judge Morgan Supports City's Contentions Regarding Anderson St.

It is within the jurisdiction of the court of revision to add any lands not already included by the assessment department in the plans for the widening of Anderson-street? Judge Morgan thinks not, and yesterday questioned the action of the court of revision in seeking to add McCaul-street and St. Patrick-street to the properties included by the department.

The properties to be assessed for the improvements were Simcoe-street, 62 feet south of Anderson and 300 feet north, and a similar distance on William-street.

"I cannot see how this thing is going to improve the property around there," declared his honor. "They have already all the street car accommodations they want."

Mr. Beardmore, an Anderson-street property owner, stated that his property would be damaged instead of benefited, and yet he was being assessed \$2.50 a foot for it.

MEN BADLY NEEDED.

A conference was held in Winnipeg recently between deputy ministers of agriculture for provinces of Manitoba and Saskatchewan and the Dominion Government commissioner of immigration dealing with the question of harvest laborers needed for this year and more conservative estimates place the number from 40,000 to 45,000. Government reports show that winter wheat in Alberta and earlier districts in Saskatchewan and Manitoba will commence cutting before August 15th and harvesting will be in full swing by August 15th to 20th. The railway companies are taking action to co-operate with a view to obtaining the necessary labor, and in this connection the general agent of the Grand Trunk Pacific advises that that company can take care of 4000 or 5000 along their line by August 8th and 9th, and commencing August 15th as fast as they can be obtained.

Note and Comment

Toronto's sixteen straight victories may not be a record, but no other team in organized baseball likely ever displayed such a pleasant reversal of form so soon after losing eleven straight.

Look here, ye modern statisticians, at the feat of the Cincinnati Red Stockings, who in 1869-70 won 57 straight games, which is the world's record in that respect, and is likely to stand.

Big league records for straight wins: Providence Nationals, 1884, 20; Chicago White Sox, American, 1886, 20; New York Giants, National, 1891, 19.

What does the Montreal Star mean by the following: It is announced on the best of authority that an investigation is going on at present into certain charges made against the members of one of the great amateur clubs of the country.

Mr. Lyndhurst Ordan, an original member of the old Carleton Club, 1874, and the Wanderer, 1875, who has been a member of the following times in information concerning early soccer in England.

In view of the coming visit of the Cornishians, the amateur exponent of Association football, who will play at Hamilton's Point Aug. 5, and Rosedale lacrosse grounds on Aug. 7, and those of seven who drew up the first Association rules at the London Tavern, London, 1863, I have been asked by friends to give my reminiscences.

After winning sixteen straight, the Leafs succumbed to McGinnity's Braves, but we sincerely hope the team start again for a record of eight wins.

The unfortunate accident to Eddie Phelps will be averted, it is believed, and it is to be feared that too much may be made of the match which reports say is playing a great game at present and throwing in most approved style.

The Leafs were certainly fortunate in landing T. J. Stroud, a fine utility felder, who has been shown every day now that he has been asked to play a third base position, covering as well as he did shortstop.

Willie Keeler's return to the Leafs will be welcomed, as this player has been very popular with the Toronto fans.

Lefty Smith, the star southpaw of the Brantford club, who has been a member of the Leafs since he was a babe in the cradle, and will return to Brantford today.

A wire was received by the Brantford club of the Canadian League, stating that owing to objections by Guelph, certain changes were necessitated in the schedule drawn up at St. Thomas.

The corrected Canadian League dates for the first week in August are as follows: Wednesday, Aug. 3—Hamilton at London; Brantford at St. Thomas; Guelph at Berlin.

Friday and Saturday, Aug. 4 and 5—Berlin at Brantford; St. Thomas at Guelph; London at Hamilton.

Monday and Tuesday, Aug. 7 and 8—Berlin at Hamilton; Guelph at London; Brantford at St. Thomas.

INDIANS DEFEAT LEAFS IN PITCHERS' BATTLE

McGinnity's Men Hit Bachman Hard in Ninth Innings and Pull Out a Win.

NEWARK, July 31.—The Indians defeated Toronto today in a twirling contest, in which McGinnity's men broke in the matter of hits, but the Leafs had all the luck and won by a score of 3 to 2.

The Indians scored the first run of the game in the fourth, when Nee, the first baseman, beat out an infield hit, and reached second when he was thrown out by Tony Smith in the fifth.

The Leafs went to the front in the eighth, Delahanty got a base on balls, and Nee, in an endeavor to catch Delahanty at third, threw to the stand, and Delahanty scored.

THREE SENIOR EIGHTS FOR CANADIAN HENLEY

Fine Lot of Entries for Rowing and Sculling Races at St. Kitts Friday and Saturday.

Judging from the entries, the thirty-second annual regatta of the Canadian Association of Amateur Rowers, which will be held on the Henley course at St. Catharines on Aug. 4 and 5, should furnish many stirring contests.

Apparently E. B. Butler, the Argonaut senior sculler, who distinguished himself by winning the senior race he could possibly have won at the N. A. A. O. regatta at Saratoga, N.Y., has frightened out all competitors.

TUESDAY MORNING, AUG. 1, 1911

ONLY ONE SIDE OF THE SHIELD.

Now that the election is on the public will be able to size up the merits of the great issue which has been submitted to them, namely, the merits and demerits of reciprocity as proposed by Sir Wilfrid Laurier.

This reciprocity has two sides, and must be looked at from two sides, namely, the wider market, which is illusive and uncertain, and the home market, which is certain, which is profitable and which is higher in many respects than the American market.

RECIPROCIETY AND PRICES.

Many articles have recently appeared in United States periodicals containing statistical tables of the changes in the cost of living. They show conclusively that they do not take farmers of that country receive less for their products than the prices to the consumer had been steadily increasing.

The invasion of the Toronto market by the United States sheep exported is not the act of political agents, as the Dominion Government organs pretend. The figures published by The World show undubitably that sheep imports have not been sporadic but continuous and that the cause must be found elsewhere.

Reciprocity organs have been telling the Canadian farmer that the identification of the markets for natural products in the two countries will remedy

that situation. The assertion is preposterous and patently wrong. These same free trade organs, when it suits them, account for the vast industrial and commercial expansion of the United States by pointing out that absolute free trade prevails among the component states of the republic—that it is in fact one of the largest free trade areas in the world.

ANNEXATION AT ONCE.

Ald. McCausland is quoted last night in the Evening Telegram to the effect that if the annexation of North Toronto were submitted to a vote of the people it would be a foregone conclusion.

"I have been trying it out," he said, "amongst the residence of ward six, and I find the feeling is about 3 to 1 against annexation. I found the same feeling up in Dovercourt, and I am confident that it extends over the entire city. This more than ever confirms me in my opinion that annexation should not be rushed thru by the city council without giving the people a chance to decide.

"Large sections of the districts last annexed are still without necessary services, and we should not pile more work on to the engineering department until it can catch up with the work in those districts."

We take leave to doubt the accuracy of Ald. McCausland's conclusions, and to think that had he taken the pains to educate his constituency on the subject and apprise them fully of the facts it would be simply impossible for them to vote against their own interests to that extent.

Ald. McCausland should take pains to inform himself and his constituents why the Ontario Municipal and Railway Board left the question of the Metropolitan Railway open till September in order that the city council might take advantage—take advantage, we say—of the opportunity to annex North Toronto and settle this vexed question.

North Toronto's revenue is in excess of its requirements at present. If annexation takes place the assessment will be raised and the revenue increased in future years. North Toronto will be an asset and not a liability. City Treasurer Coady stated that the financial affairs of the town were most satisfactory.

But Ald. McCausland has a further objection. There is much work to be done in the city, he says, which the engineering department is unable to catch up with. Ald. McCausland will find it difficult to explain to any reasonable person why this is an objection to the annexation of North Toronto.

P.W. SOTSMAN DELIGHTED WITH WINN HAMILTON

Thanks World for Support Given Hydro-European Trip Was Real Eye-Opener.

"That was a great fight in Hamilton, and a great victory. I didn't expect the bylaw to carry, mind you, but I had hopes. The World deserves credit for its generous support of the bylaw during the whole campaign."

This is what Engineer P. W. Sotzman of the Hydro-Electric commission had to say yesterday afternoon regarding the recent fight in Hamilton in which the citizens endorsed the bylaw to provide money for the establishment of a municipal power and lighting plant under the Hydro-Electric system.

Mr. Sotzman, after his return from an extensive tour of Germany, Austria and Switzerland, is enthusiastic over the possibilities of electricity in Canada, after seeing what has been and is being done in European countries, especially in the domain of the Kaiser.

"I had an interesting time," he said to The World. "It was hard work but it was interesting, because every day I saw something new, some method even more improved than the one I had seen the day before. The people are beginning to use electricity for everything," he continued.

Should Write a Book. When asked if he intended to recommend any improvements for the Hydro-Electric to carry out, Mr. Sotzman replied, "I think a book should be published, telling the people what is doing in Germany."

There is no exclamation, he pointed to a pile of foolscap about nine inches high, lying on the table. "That is just a condensed description of what I saw. Everything is described merely in outline, and in a very few words. I could write for weeks and still not finish telling what utilities electricity is being put to in Germany, Austria, and Switzerland."

Mr. Sotzman is just now getting his aggregation of facts into presentable form and will have some valuable recommendations to offer when he has time to settle down again to routine work.

WHO'LL BE CROWN ATTORNEY?

Several Candidates Would Like the Appointment—R. H. Greer Mentioned. Who is to be county crown attorney? The latest report is that Richard Greer, president of Ward One Conservative Association, is the government's choice for the position, but there is also talk of transferring J. W. Seymour Corley, K.C., from the city crown attorneyship to that of the county, and his place being taken by Eric Armour, K.C.

Greer is also spoken of by the legislature, as the nominee of his party in East Toronto, as Hon. Dr. Fyne's running mate.

STICKS TO HIS POST.

LONDON, July 31.—Altho he had engaged passage to New York for himself and wife on board the steamer Lusitania, which sailed last Saturday, the Earl of Granard was compelled to stay here. The countess sailed alone. The Earl was compelled to forego a trip in order that he may be present, to help pass the veto bill thru the house of lords. The fact that he holds a political appointment as minister obligates him to the government.

HUSBAND AND CHILD HAVE DISAPPEARED

Montreal Woman Distracted Over Mysterious Occurrence—Can Find No Clues.

MONTREAL, July 31.—Her husband and her 2 1/2-year-old son also vanished, Mrs. Charles O'Neill of 311 Cadieux-street, is crushed under a double load of sorrow.

A week ago Charles O'Neill, vendor of small wares, was lost to sight. On Saturday afternoon the little son begged a penny to buy ice cream. He toddled off to make the purchase and has not been seen since.

Two or three days after her husband had failed to return, Mrs. O'Neill received word from Kingston that her husband was being detained in that city.

She communicated with the municipal authorities but her letter could hardly have left the city when she received another from Toronto, stating that her wandering husband was there, also under detention.

Since then the distracted woman has had no word which might give her a clue as to the whereabouts of her husband, who she hopes will return to help her seek her baby.

HAD PERILOUS EXPERIENCE

Crew Spent Three Days on Foundering Vessel.

PORTLAND, Me., July 31.—After three days' almost ceaseless work at the pumps to prevent their vessel from foundering, the crew of the little schooner J. Arthur Lord, brought their battered craft into this port late today.

The schooner sailed from St. John for New York Thursday, with lumber, oil, and other cargo. The vessel was in a leaky condition and the crew had to work hard to keep her afloat.

NO DEFINITE DATE SET

Ottawa Not Officially Advised When Duke Will Arrive.

OTTAWA, July 31.—In reference to the statement that the Duke of Cornwall will arrive at Quebec, Oct. 12, it was learned from Major Trotter, A.D.C., that no official notice has yet been received. Major Trotter stated, however, that he had heard of the report to the effect that the duke was to sail on Oct. 6, but that no preparations would be entered upon until official notification is received.

100 PASSENGERS IN PERIL.

PHILADELPHIA, July 31.—Carrying one hundred passengers, the steamboat Burlington, which left here this evening for Trenton, N.J., struck a rock in the Delaware River three miles below that place and sank. The passengers, it is reported, were all safely landed.

MILKY WAY AT STATION.

The bad condition of the tracks at the Union Station was responsible for a block in the Delaware River three miles below that place and sank. The passengers, it is reported, were all safely landed.

SOUVENIR HUNTING IN STRENUOUS FASHION

Entire Business Section of the Town Destroyed—Help From Outside Points.

NEW YORK, July 31.—Sovvenir hunters never broke up the ceremonies that accompanied the beginning of work on the new subway today.

Workers had loosened a little square of asphalt on Lexington-avenue, under which the new line will run, and Public Service Commissioner Willcox was preparing to lift the first shovelful of earth with a silver spade when several thousand enthusiasts swept away the small police guard.

After the reserves had brought order out of the mob, the ceremony was continued, but the first earth was not lifted with a silver spade. It was scooped out of the hole by dozens of unoccupied hands while the police fought to keep the city officers and others from being swept off their feet.

When the ceremonies began again the hole was several inches deep, while the crowd continued outside the police lines to scramble for the cubic foot or more of earth gathered by the more energetic of the souvenir hunters.

No arrests were made and nobody was badly hurt, altho four women fainted and the police captain had his badge snatched from his cap, also, as a souvenir.

QUARTER MILLION FIRE AT FARNHAM, QUEBEC

FARNHAM, Que., July 31.—Fire destroyed the entire business centre of the town last night, causing a total loss of probably a quarter million. The blaze originated in a warehouse back of the fire station, about 10.30 p.m., and spreading to adjoining sheds and wooden buildings, got beyond control. Assistance was immediately asked from St. John's, Montreal and Sherbrooke.

The St. John's fire brigade was the first on the scene and did good work checking the fire on Main-street, near the Montcalm Hotel on one side of the street and D. B. Meigs' private residence on the other side.

The burnt area covers from the post-office down to the river on both sides of D'pot-street, and from the Montcalm Hotel on the south side of Main-street to St. Vincent-street, and from D. B. Meigs' residence on the north side of the street to the bridge. The Eastern Township Bank building, which was in the burnt district, is the only building standing, and has not been damaged to any great extent. On arrival of the Montreal and Sherbrooke fire engines the progress of the fire was soon stopped and it was under control at 4 a.m.

MOB ALMOST BREAKS UP CEREMONIES

Accompanying Beginning of Work on New York Subway. Entire Business Section of the Town Destroyed—Help From Outside Points.

NEW YORK, July 31.—Sovvenir hunters never broke up the ceremonies that accompanied the beginning of work on the new subway today.

Russell Motor Cars

News About the Knight Motor

THE sensation of the season in the American automobile market is the announcement by several leading makers of the adoption of the Knight Motor.

Other prominent American cars will follow with similar announcements in the near future.

THEIR announcements prove nothing that has not already been demonstrated by the foremost cars of Europe and by the Russell in this country. There is, however, an added significance when it is remembered that this widespread adoption by American cars comes after years of service in the European and Canadian fields has left no chance for doubt as to the motor's superiority over engines of the poppet type.

AS is already generally understood, the Russell car, as sole owner of the Canadian rights to the Knight Motor, will continue to be the only car equipped with this engine appearing in the Canadian market.

Ned Clark Got Three Months. The notorious Ned Clark was somewhat intoxicated on Saturday and was ushered off the street by a policeman yesterday he appeared in the early court and after complaining bitterly about the treatment he had been forced to endure while in the cooler, went down stairs for three months. The option was the forfeiting of \$20, and that was \$20 more than Ned possessed.

Broke Into Store. In the police court yesterday morning John Marshall and John Beckett pleaded guilty to breaking into the Home Furniture Co.'s premises on Queen-street, on Thursday evening last. They were sent below for one week, when sentence will be imposed.

WASHINGTON, July 31. So successful have been the operations of the United States in the Philippines, that the British Government has formally requested permission to transport to that place for treatment about 40 lepers now at British North Borneo. It will be impossible for this government to grant the request, as the United States laws prohibiting the entry of such afflicted persons operates in the Philippines by special agreement.

GOOD CATTLE STEADY LOWER CLASSES EASIER

Sheep and Lambs Lower—Calves Steady—Hogs Ten Cents Lower.

The receipts of live stock at the Union Stock Yards were 157 cars, consisting of 2900 cattle, 1000 hogs, 1472 sheep and lambs, 100 calves and 80 horses.

The quality generally of cattle was medium to good, with several choice loads. Trade at times was inclined to be slow, but, considering the large number of cattle on sale, there was a good market.

Prices for the best butchers and export cattle were about steady, and the medium in both classes were 10c to 15c per cwt. lower, and cows were 10c to 20c per cwt. easier.

Exporters. E. L. Woodward bought for Swift & Co. 1000 head of live stock, 1000 lbs. each, at \$3.75; also 200 steers for Liverpool, 1300 lbs. each, at \$3.85.

Butchers. Prime picked cattle, 1000 to 1200 lbs., \$5.50 to \$5.85; medium, \$5.20 to \$5.50; common, \$4.80 to \$5.20.

Sheep and Lambs. Large receipts caused prices to be easier. Lambs sold at \$7 to \$7.50, and a few at \$7.25. Canadian sheep sold at \$4.90 to \$4.95 per 50 lbs. American yearling sheep sold at \$5 to \$5.50.

Hogs. The Swift Canadian Company quoted hogs at \$7.75, fed and watered at the market. W. J. Johnston, buyer for Gunna, quoted hogs at \$7.50, fed and watered, and \$7.25 for dry cars to country points.

Representative Sales. Maybee & Wilson sold: 15 exporters, 1200 lbs. each, at \$5.20; 15 exporters, 1200 lbs. each, at \$5.20; 15 exporters, 1200 lbs. each, at \$5.20.

Local grain dealers' quotations are as follows: Oats—Canadian western oats, No. 2, 41c; No. 3, 39c; laker oats, Ontario, No. 2, 23c; No. 3, 22c.

Wheat—No. 2, red, white or mixed, 80c to 81c, outside points, nominal. New wheat, 78c. Rye—No. 2, 56c to 57c, outside, nominal.

Barley—For feed, 50c to 55c; for malting, 67c to 68c, outside, nominal. Buckwheat—5c to 58c, outside, nominal.

Manitoba wheat—No. 1 northern, \$1.00; No. 2 northern, 80c; No. 3 northern, 75c; No. 4 northern, 70c. Manitoba flour—Quotations at Toronto are: First patents, 55c; second patents, 54c; strong bakers, 54c.

Corn—No. 3 yellow, 60c, c.i.f., bay parts. Peas—No. 2, 78c to 80c, outside, nominal. Ontario flour—Winter wheat flour, 33c, substandard.

Milled—Manitoba bran, \$21 per ton; shorts, \$23; Ontario bran, \$21 in bags; shorts, \$24, car lots, Toronto. Montreal Grain Prices. MONTREAL, July 31.—The foreign demand for old crop spring wheat was fair, but, although prices were 1 1/2c in the per quarter higher than Sunday, they were still out of line with values here, and no new business was reported.

Flour—Manitoba spring wheat patents, firsts, 55c; seconds, 54c; winter bakers, 54c; straight rollers, 54c, in bags. Rolled oats—Per barrel, \$4.75; bag 50 lbs., 82c. Corn—American, No. 3 yellow, 58c to 60c. Milled—Bran, Ontario, \$21 to \$22; Manitoba, \$20 to \$21; middlings, Ontario, \$24 to \$25; shorts, Manitoba, \$23, moulins, \$20 to \$21.

Montreal Dairy Market. MONTREAL, July 31.—A stronger feeling prevails in the cheese market, and prices have advanced. Butter is firm and fairly steady. Eggs steady. Eggs—Selected, 21c; fresh, 17c; No. 1 stock, 15c. Cheese—Wentworth, 12c to 13c; eastern, 12c to 12c. Butter—Clover, 22c to 23c.

Liverpool Grain and Produce. LIVERPOOL, July 31.—Closing wheat: Spot steady. No. 2 Manitoba, 74 d. puters firm; July not quoted; Oct. 59 1/2d. Flour—Winter patents, 37s 3d.

Montreal Provisions. MONTREAL, July 31.—Demand for provisions good. Refined sugar is strong, and prices have scored another advance of 10c per 100 pounds. Standard granulated now selling at 35.25. Dressed hogs—Abattoir, 50c to 51.50, per 100 lbs. Ham, half-barrels, 50c to 51.50, barrels, 50c to 51.50; tierces, 30c to 31.50.

Hay and Compound Feeds. Hay, mixed, \$15.00 to \$18.00. Straw, mixed, per ton, \$10.00 to \$12.00. Straw, timothy, per ton, \$15.00 to \$18.00. Compound feeds, 25c to 30c per 50 lbs. net (paraffin lined), 25c to 30c per 50 lbs. net, graded, two handles.

Fruits and Vegetables. Potatoes, per bag, \$1.75 to \$2.00. Apples, per bushel, \$1.00 to \$1.50. Peaches, per bushel, \$1.00 to \$1.50. Plums, per bushel, \$1.00 to \$1.50.

Mining Market Drifts Into Period of Extreme Dulness

Mining Market Holiday Trading Prices Generally Drag Lower

Hollinger Takes a Sharp Decline After an Early Appearance of Firmness—Cobalts Moving in Extreme Apathy.

World Office, Monday Evening, July 31. Extremely narrow trading characterized the mining list to-day, the market showing an even more pronounced apathy than was prevalent during the latter part of last week. This was attributed by brokerage interests to the fact that many traders were off holidaying, and certainly the appearance of the exchanges would seem to bear out this idea, there being a small attendance of members on the floor most of the day.

A dull market is more likely to decline than anything else, and this was aptly illustrated in the trading to-day, the list apparently sagging off gradually of its own weight. There was no great pressure to sell, and the market was even less inclined to buy, and prices proved extremely hard to hold in most instances.

At the opening of business the Porcupine issues showed a decidedly firm tone, this being due to a slight congestion of buying orders over the weekend. As soon as these were filled and removed as a market influence, the demand subsided, and from that time on the list displayed a reactionary tendency.

In the early trading Hollinger got as high as 12.25, an advance of 50 points from the opening sale. Selling on the rally proved an insistent nature, and was too much for the stock, and the price gradually drifted down, and then broke sharply to 11.30, a drop of 96 points from the quotation, and a net loss for the day of 45 points.

Traders are inclined to view the flurry in Hollinger as of a manipulative character, and it was stated that much of the trading activity of an inspired nature. At the close the best bid on the Standard Exchange was below the bottom point of the day.

Small losses were recorded by the majority of the cheaper issues, and it was the general idea that much of the selling was coming from floor traders who were working for a time. Extension lost two points at 85, West Dome dropped back to 210, and Vepond got off to a rather selling early in the day, as high as 59. Jupiter was back again in a rut, being decidedly quiet today.

The Cobalts were even more apathetic than usual, the big majority of the silver mining issues not making an appearance in the day's transactions.

GOOD VALUES IN NEW FIND. Mr. George O. Randolph, B.Sc., E.M., engineer in charge of the Porcupine Keora Mining Co., Ltd., in North West, vice-president of the company, and Mr. William G. Gunn, managing director, left Toronto on Friday evening to inspect the new find.

Eleanore Gold Mines Co. of Porcupine Limited

(Incorporated under The Ontario Companies' Act.) Authorized Capital \$1,000,000 Treasury 285,955 (Par value of shares, \$1.00.)

DIRECTORATE W. R. HUNTER, President, a prominent builder and contractor, Toronto. J. E. BRAYLEY, Vice-President and Treasurer, one of Toronto's foremost merchants. J. J. Taylor, Secretary, Accountant at F. Broderick & Co., King Street, Toronto. O. L. MACKLEM, Broker, Toronto. H. BILLINGHURST, Fruit Merchant, Toronto. F. R. SNOW, Manager John Leckie & Co., Toronto. W. S. C. PIKE, Tent Manufacturer, Toronto.

The directors of the Eleanore Gold Mines decided yesterday at a special meeting to place on the market only 100,000 shares of stock at \$1.00 per share, this amount to be set aside solely for developing the 120 acres situated in Shaw Township.

Prominent mining engineers, who have examined this property, declare that the Eleanore Gold Mines is one of the most promising prospects in Shaw Township.

A prospectus of this company sent free upon request. Cheques or drafts, payable at par in Toronto, must accompany subscriptions. Full information furnished by O. L. MACKLEM & MACKLEM, 503 MCKINNON BLDG.

STATUTORY INFORMATION. Authorized Capital \$1,000,000 Par Value \$1,000,000

Original Incorporators: Edna Lafontaine, Stenographer; Albert Brock Currier, Student-at-law; Henry Everett Bowers Coyne, Student-at-law; James Henry Oldham, Student-at-law; Edward O'Brien, Stenographer; Harry of the City of Toronto in the Province of Ontario, each of whom subscribed for one share of the common stock.

One share has been fixed as the qualification of a director, and under the bylaws the directors are not at present to receive remuneration. The names of the directors mentioned in the prospectus are: W. R. Hunter, President, Toronto; J. E. Brayley, Vice-President and Treasurer, Toronto; J. J. Taylor, Secretary, Toronto; O. L. Macklem, Broker, Toronto; H. Billinghurst, Fruit Merchant, Toronto; F. R. Snow, Manager, Toronto; W. S. C. Pike, Manufacturer, Toronto.

The minimum subscription on which the directors may proceed to issue the shares of the company has been fixed at one share, and the full amount of the subscription is payable on application and allotment. Six hundred thousand shares of the capital stock of the company have been allotted or issued or agreed to be allotted and issued as fully paid up non-assessable stock in consideration of the transfer to the company of the properties set out in the agreement heretofore mentioned (to part thereof being paid for gold will). Five shares will be issued to the original incorporators, and the remaining three hundred and ninety-five thousand nine hundred and ninety-five shares of treasury shares belonging to the company.

The company has acquired from Samuel G. Abbott of Toronto, as vendor, mining claims numbers 2103 P, 2102 P, and 2103 P, situated in the Township of Shaw in the Porcupine Mining Division, in the Province of Ontario, for which it has agreed to issue the 600,000 shares of its capital stock as fully paid up non-assessable stock.

The company has power under its charter to pay a commission not exceeding twenty-five per cent. upon the amount realized for subscribing or agreeing to subscribe for or procuring or procuring to procure subscriptions for any shares in the company, or for underwriting or procuring underwriting of shares in the company, or for interest on money advanced in connection with the company's business.

The estimated amount of preliminary expenses is \$2,000.00. No amount has been paid, or is intended to be paid, to any promoter in cash shares or debentures, or in any other form.

The company has entered into a contract, dated the 16th day of June, 1911, with the said Samuel G. Abbott as vendor, for the purchase of the mining claims in the foregoing terms, whereby the company acquires the same in consideration of the allotment and issue to the said Samuel G. Abbott of the 600 shares of the capital stock of the company as aforesaid. A copy of the contract may be inspected during business hours at the offices of Messrs. Lennox and Lennox, Chartered Life Building, Toronto, in the City of Toronto.

All the directors, along with others, were members of a syndicate which owned the said mining claims and received the respective interests therein as follows:

RELIEF FOR PORCUPINE FREIGHT SITUATION

Railway Sidings Are Being Laid With Despatch and Handling Facilities Provided. PORCUPINE, July 31.—(Special.)—Railway and wagon-road building has been the centre of interest in the camp this week, and Chairman Engvall, who left this morning, has arranged to have every carload of freight loaded in the morning in the next three days. During this time travel trains will be laid out so as to make a clear right-of-way for the cars. A hundred cars are now on hand on the Golden City sidings, and the owners have been notified that all cars must be unloaded within twelve hours. A special trainload of freight came in last night. Railway sidings are being laid with despatch and soon the great amount of freight coming into the camp will be handled more easily.

The wagon road to South Porcupine from the Lakeview depot is finished, to connect with the wagon road, and it is announced that the work of building a roadway from the Golden City sidings to the mines in North-West by the way of Foxboro village will be started the first of the week. Wagon roads as feeders for the railway lines must now be constructed, and before winter sets in all the mines in Whitney and Tachia have been connected with a near shipping point on the railway. With building material being rushed into the camp, as is now planned, the work of reconstructing both mines and town will be well underway within three weeks' time. West Dome, Dome Extension, Imperial and Standard have ordered new complete mining outfits. Not until machinery and building material can be shipped in and gotten onto the properties will the real mining work begin in earnest from the surface prospecting now planned. E. C. Garrow, assistant postmaster, has been instructed to take charge of the postoffice and build up an efficient service. Chas. Fox.

SILVER MARKET.

Samuel Montagu & Co., silver brokers, London, England, writes: The market has remained tranquil the week without change and languid in tone. The rates in India are reported to be still patchy; favorable news as to market to some extent, but it does not follow that much improvement in price can be looked for. The large speculative stocks, which the large wearied hands, the Indian bazaars have bought in the market, and there is a certain amount of outside demand which may be expected to continue. Large Increase in Visible Wheat Supply

Grain Market Affected by Bearish News Developments—Brokers' Comment. J. P. Bickell & Co. from Logan & Bryan: Wheat—Bullish news influenced a little buying early, but there was no outside buying support, and early buyers unloaded on a decline. An increase of 6,000,000 bushels in the visible was a bear influence and checked the advance. Commission houses had wheat for sale on the bulge, and during most of the day there was an extremely dull trade. Northwest reports indicate the spread of black rust, but crop is maturing rapidly, and it seems to be a question if there is much more damage from this source. St. Petersburg cable confirmed recent bad reports from Russia. Stocks are large, and primary run

still liberal. Market lacks the help of outside buying. Flinley Barrell wires: Wheat—After displaying considerable strength, due to persistent buying by local crowd, finally eased and closed relatively heavy, as for wheat, but not from top prices. The early stimulating influences were light receipts southwest and additional return in the market. Minnesota, but as heavy selling orders were encountered, and news from other sections was slightly more encouraging, sections were again more discouraged, and at times to liquidation developed an oversold condition in consequence the market thereafter gradually sagged. There was a steady rise in wheat, which will be in order on any further depression. Erickson Perkins & Co. had the following: Wheat—The market opened steady and advanced nearly one cent above Saturday's prices, in sympathy with the strength in northwestern markets, which latter were influenced by continued reports of rust and poor threshing reports in many sections. During the latter part of the session the advance was lost, owing to the enormous increase in the visible supply and general apathy in the cash department. The recent return in the market has had the effect of shutting off the export demand temporarily, as foreign buyers do not show a disposition to take hold on an advancing market. We believe that on a steady or rising market Europe will buy fair quantities of our wheat. Prices ruled fairly steady within a narrow range. Trade was again most liberal. Receipts very light, also the demand. Moderate precipitation Saturday caused some short selling, and views are very mixed regarding the harvest, showing a spotted condition of the crop. The heavy tone and lower market in oats contributed to the fractional decline in corn.
