27TH YEAR

LET COUNTRY'S GOLD MOVE WEST'S CROPS

Why Should Not the Government Deposit With the Banks Sufficient to Relieve the Present Financial Stringency, or Increase the Note Issue?

A well-known railway man is said to have made the statement on a certain occasion—"The public be damned!" In so far as the United States is concerned the administration there for some time has said in so many words—"The constitution be damned!" The world is passing thru a stage of money tightness such as has certainly not been witnessed in the experience of anyone living at present, and history does not record an epoch when money stringency has reached such a general stage as is now the case thruout the civilized world.

Canada is feeling the acute pressure equally as much as the United States, but our better method of financial administration has enabled us to pass thru the experience thus far without any of the disastrous results which have occurred on the other side.

The Northwest farmer, who suffered first at the hands of Providence in a slim crop, is now being subjected to further hardship because of the stringency in the money market and the inability of the banks to take his wheat and other products which he has to sell, and get them off his hands, so that he may repay the debts which he has accumulated during the crop year.

The way in which the government can act, as it presents itself to the World, is this: Either that a part of the big gold reserve which is now held against the Canadian note issue should be deposited with the banks as a temporary means of providing money to move the crops, or that the act governing the note issue be changed, increasing the amount against which a 25 per cent. gold reserve must be held from thirty millions to fifty millions. This would provide an additional fifteen millions of Dominion note issue, and would serve as a permanent growth of Canadian commerce is sufficient to require that the Dominion note issue in any event should be increased at no distant date, and there is no time when the benefit of the increase would be felt more than now.

Manufacturers, merchants, and, in fact, every person, is feeling the peculiar state of the money market. Works are being closed down for the lack of available capital, and thousands of men thruout the country will be unemployed this winter because it is impossible to get sufficient money to carry on business, altho the demand for labor is nearly, if not quite, as keen as it has been for several years. In the United States President Roosevelt and his administration became seized of this condition of affairs several months ago, and have made certain provisions calculated to relieve the stress of events. Large amounts of money formerly held in the Washington treasury for the purpose of paying off government disbursements have, in violation of the law, been deposited in the National banks. The Bank Act has also been violated, in as much as the requirement that a certain percentage of reserves against deposits be held by the financial institutions has not been complied with. The New York banks for the last three weeks have fallen below what is termed the legal reserve. This deficit last week totalled upwards of fifty-two millions of dollars.

It is reported from Ottawa that Hon. Mr. Fielding, minister of finance, is considering a means to relieve the Canadian money situation. It is also stated that all the leading Canadian bankers are holding a conclave at Montreal on Thursday for the purpose of making some united arrangement to tide over the present difficulties. The World is prepared to back up any reasonable and safe method of providing the Canadian people with enough money to enable the farmer to market his crop, the manufacturer to continue his output, and the merchant to effect sales. In a word to keep the business of the country moving on at its present rapid pace, until the world's money has got into a more settled condition. There are times when it is necessary to get outside the ordinary ruts of legislation. Just such a one exists now. If Canada were thrown into the throes of a war campaign it would be necessary to put up the Dominion credit for perhaps one hundred or even more millions of dollars. Are we not up against a possible commercial crisis just now, which is fully as important, or even more so, than that which might be brought about by a war scare?

In the vaults of the federal government there is to-day gold to the amount of \$44,617,743.81. Why not utilize a portion of this gold, which is now doing nothing, by depositing some in the banks, thereby enabling these institutions to increase their loaning ability to the community, and avoid what must otherwise be the inevitable result—that of many commercial failures, bringing in their train trials and difficulties to every member of the community? It has been suggested that another way of getting over the scarcity of money is for the banks to be allowed to issue more notes than the present banking act provides for. There is no remedy in this, however. The privilege of the Canadian banks to-day enables them to issue more notes than the people demand. The issue of notes is useless unless the banks have the money to loan. What the banks want is deposits. Their present deposits are used up, or so close to it that they are scared to make further advances. The gold held by the Dominion government is, of course, hoarded for specific purposes. Many years ago, when the first issue of Dominion notes was made, the law required that gold must be kept on hand to the extent of 25 per cent. up to twenty million dollars, and for any note issue beyond that, dollar for dollar in gold must be deposited with the Canadian treasury. Later this amount was raised to thirty million dollars, but the present position is this, that the total note issue of the Dominion is \$61,241,544, against which, as previously stated, there is gold in the treasury to the extent of \$44,617,743.

Even under the act governing the note issue on the 31st of October there was an excess of specie and guaranteed debentures of \$7,822,865. Against this there has to be held, under the Savings Bank Act, \$6,142,611, but after making all these allowances the Dominion government to-day has a total excess in gold which is unappropriated, of \$1,680,254.

Let the Canadian Government loan the banks a portion of the reserve, for a stipulated period, failing a permanent increase in the government note issue, but let it exact, as is the just due of the people, a fair interest on the money so advanced. The commercial life of the Dominion must not be atrophied for want of money when stores of gold lie covered in dust in the Ottawa treasury.

GERMANS RAISED DECLARES FOR PEACE

British Public Has Not Enthused, Tho Reception Has Always Seemed Most Cordial.

LONDON, Nov. 13.—Emperor William of Germany, the guest of King Edward, made a speech to-day at the Guild Hall, where he was entertained by the City of London. He urged the strengthening of the Anglo-German relations and emphasized his unalterable desire to foster the peace of the world. The day passed off without the expected socialist demonstration, much less any disorder or rioting.

The reception given Emperor William by the people of London has been respectful, but compared with that given some other royal visitors in recent years, it was not so enthusiastic. The atmosphere, which has prevailed during his appearance in public, has been one of restrained coolness, and there is no doubt that the English officials are relieved that the passages of the German emperor thru the streets of this city took place to-day without any disagreeable incidents.

The anti-German feeling among a large section of the English people, which just at present is particularly strong, derived fresh impetus from the antagonism with respect to the two nations on various lines during the recent peace conference at The Hague.

Results Remain to Be Seen.

Emperor William evidently intends that his visit shall inspire better feelings, but the results it remains to be seen. However, cordial relations between the ruling houses of Great Britain and Germany may be, the British public does not share these sentiments. A large section, if not a majority of the English people, persists in believing Germany to be Great Britain's one enemy among the nations, and this enmity has been fanned recently by continuous warnings from some of the leading newspapers and relatives, as well as from military experts, that Germany's chief naval and military activities were directed toward schemes for the invasion of England—that Germany plans to surprise England some day when she is fully prepared to strike suddenly, as Japan surprised Russia. "The German invasion" is becoming a hobby of the anti-Germans, and the subject of ridicule for the pro-Germans; the idea has, however, unquestionably affected the mind of the public and it has tended to surround the visit with an Emperor William's professions of his desire for peace.

Emperor William's Reply.
 At Guild Hall an address of welcome was presented to the emperor in a magnificent gold casket. In reply, his majesty recalled his remarks, said that he had been in London in 1891, and emphasized his unalterable desire to foster the peace of the world. His majesty, during the speech, said:

"I said then, on this spot, that my aim is above all the maintenance of peace. History teaches me, and I will do me justice in that I have pursued this aim unwaveringly ever since. The main prop and base for the peace of the world is the maintenance of the good relations between our two countries, and I will further strengthen them so far as lies in my power. The German nation's wishes coincide with mine. The future will then show a bright prospect, and commerce may develop among the nations who have learned to trust one another."

The emperor and empress after lunch returned to Paddington Station on their way back to Windsor, by different route, and everywhere were greeted in the most friendly manner by the large crowds of people assembled. Emperor William appeared to be in splendid spirits, as he laughed and joked with his immediate neighbors, but he looked haggard. His face was pale, thin and drawn.

LEMIEUX IN LAND OF SUNNY JAP

Met by Count Representing Office of Foreign Affairs—Will See the Mikado.

TOKIO, Nov. 13.—Rodolphe Lemieux, postmaster-general and minister of labor of Canada, arrived on the steamer Empress of China this evening. He was received at Yokohama by Count Teramima, representing the Japanese department of foreign affairs.

A program for the entertainment of Minister Lemieux will not be arranged until his wishes in the matter are known. He will be received in audience by the emperor on the latter's return from the army manoeuvres. The Japanese government understands that Minister Lemieux comes as a representative of the Canadian Government for the purpose of discussing and investigating immigration matters, and that he brings an indefinite plan for their settlement. The Japanese Government considered that its present plans now in progress, looking toward the control of emigration, would be satisfactory to Canada, and it is not likely that the visit of the minister will result in any material change.

BRIDE WAITED; GROOM IN CELLS

Eddy Watson Asked Detective to Cash a Worthless Cheque—Told Pretty Tales.

While Minnie Ashwell, his bride to be, waited with the assembled guests at their mutual boarding house, the home of M. Patterson, 7-1-1 Morrison-street, yesterday afternoon, Edward, alias Andrew, Watson, was undergoing an unexpected experience. Walking along West Queen-street, about 2 o'clock, Edward approached Detective Wallace, whom he did not know, and produced a cheque drawn upon the Bank of Hamilton in favor of M. Patterson for \$700. It was signed "E. A. Sinclair." Upon this he requested a loan, saying that the money had been sent him by his father-in-law in Scotland, but that as the cheque was dated before he was unable to cash it at the bank.

This, he pointed out, was peculiarly inconvenient, as he had promised to marry his girl at 3 o'clock and wanted to buy some things for her and an overcoat for himself.

At police headquarters, Detective Wallace says, Watson admitted that the cheque was a forgery, as was another of \$500, which was found in his pocket drawn in the same way in favor of Miss Ashwell. The detectives went to the Morrison-street house, where they found the bride anxiously awaiting the groom. They broke the news as gently as possible. They were informed that Eddie boarded there for about three months and a few days ago had given the cheques to Mrs. Patterson, the landlady, and to Miss Ashwell. Yesterday morning he had asked for their return and had sailed forth to cash them. He also promised to call at Eaton's and Simpson's stores to pay for a watch and two rings which he had ordered the day before when on a shopping expedition with Mrs. Patterson and Miss Ashwell.

This would be before 9 o'clock, and he had returned about noon, telling them he had paid for the jewelry and seen them on the wagon for delivery. He had also, he said, ordered a roast of beef and a goose for the wedding feast. Mrs. Patterson had told him in the morning that she must have some money, as she had a bill of \$20 to meet, and as Watson owed for three weeks' board and a matter of six dollars, which he had borrowed, he offered to take the bill and pay it. At noon he said he had done this.

He left the house again shortly before 1 o'clock and had not returned. Before leaving he had kissed the girl and told her he had bought a set of rings for her and another for Mrs. Patterson. The guests had been assembled, but were becoming restive when the detectives arrived, and neither the groom nor Rev. Mr. Welf, who Watson had told them was to perform the ceremony, had arrived. A search of the streets failed to locate Watson, who was charged with forgery.

MERCURY WILL CROSS THE SUN.

OTTAWA, Nov. 13.—(Special.)—R. M. Motherwell, the observer at the Dominion observatory, makes the statement that the planet Mercury will cross the surface of the sun tomorrow morning between 5 and 6 o'clock, and possibly thru smoked glass. It was last seen crossing the sun's surface in 1894, and will not be visible in this way again until 1914.

SPECIAL CAR AIDED POLICE

Flying Trip of Detectives to Catch Quartet of Hamilton Suspects.

After an exciting race to meet the Hamilton express, which arrived at South Parkdale at 8.30 o'clock last night, to which the street railway company contributed a special car, sent straight thru, with stops barred, Detectives Mackie, Newton and Sockett arrested four men wanted by the Hamilton police charged with committing a series of housebreakings which have recently occurred in that city.

A phone message from the chief of the Hamilton force sent the detectives flying to the station, and, catching the special car, it was run straight thru. They arrived just as the train was pulling into the station. On board they found Hamilton Constables Saver and Robinson, who had come down to keep their eyes on the men, having boarded the train too late to accomplish their arrest in Hamilton.

The men were taken into custody at the Union Station and locked up in the Court-street Station. They are: John Campbell, 22 years; Howard Campbell, 22 years; Walter Hildreth, 21 years, and George Young, 22 years, all of Hamilton. They will be taken back this morning.

DIES AT RECEPTION.

Mrs. Arthur L. Rundle Expires From Attack of Acute Indigestion.

Laughing and talking with friends at the annual at home at Amelby Hall yesterday afternoon, Mrs. Arthur L. Rundle, 165 Park-road, fell forward to the floor and expired.

Dr. J. A. Temple was hurriedly called and Dr. Helen MacMurphy, assisted by friends, did everything for the woman, who they supposed had fallen into a faint. When Dr. Temple arrived Mrs. Rundle was dead. Death he ascribed to acute indigestion, from which deceased had been suffering for some time.

Mrs. Rundle was the widow of Arthur L. Rundle, who 40 years of age and had lived for many years in Peterborough, where a sister now resides. For the past year and a half deceased had lived with G. A. Galloway on Park-road.

YOUTH BECAME A FLOATING SPIRIT

"Materialized" and Crew Flowers a la the Medium, While Big Crowd Applauded.

Never heard of Bert Walton? Well, he is a stripling who last week disturbed the peaceful atmosphere of Broadway Hall, Spadina-avenue, during the working hours of Rev. Clarence Howland and company, by suggesting that vulgarly mundane means were utilized for the production of flowers and filmy figures. He then asserted, in a brutal, matter-of-fact way, that with his own earthly hands he could duplicate these signs and wonders, and was challenged to "make good."

It was a large gathering that climbed the stairs to the hall last night. There were few who were daunted by the demand for a quarter, and by 8.30 p.m. the "S.R.O." sign was out, he asked "that the commission's engineers are dealing with questions in which they lack experience?" It seems like that to me.

Perhaps Mr. Gibson's lack of the advantage of the assistance of a private secretary may have induced him to overlook the first report of the Ontario Hydro-Electric Power Commission, dated April 4, 1906, in which his question are dealt with at length and from various points of view. Let Him Read and Learn.

"Why cannot we be informed in the only definite units of electrical power, viz, the horse power hour, or the kilowatt hour, what the cost to the consumer will be?" he complains.

On pages 26-30 of the report mentioned he will find the rates per kilowatt hour figured out for him. But the ordinary man having these figures is no wiser than before, and the familiar horse power per annum rate, on which all the standards of comparison have been made, really afford him a better idea of the prices than the technical figures which Mr. Gibson pretends the commission had not given.

Fred Nicholls' View.

Frederic Nicholls of the Toronto Electric corporations has written to The World with the object of not withholding information that, if given at the right time, might have saved the city some very serious loss.

"I do not hesitate to say," he continues, "in the most emphatic manner that the estimate of \$5,200,000 will be found totally inadequate for the purpose, but assuming that the citizens will be satisfied with a service provided by the amount estimated, let us see for a moment what the cost to the consumer, in plain figures, will amount to."

Mr. Nicholls estimates interest at 4 per cent. and depreciation at 6 per cent., or an annual charge of \$520,000 on the 10,000 horsepower to be used, or \$52 per horse power, and depreciation at 6 per cent. this by four, making \$208, as he considers the load factor will not exceed 25 per cent. of the maximum load. He also adds the cost of power at \$17, multiplied by four, or \$68, to this, making \$276 per horsepower as the cost of power to the consumer, apart from cost of operation.

It will be seen that these multiple calculations leave out of consideration several factors provided for by the commission. It has already been pointed out that much more power can be sold than is actually delivered, this being one of the elements of profit relied upon.

CAN'T BE TRICKED BY-LL

Cheap Power in Sight for Toronto in Spite of Efforts to Frighten Coatsworth.

"We will not be tricked by anyone into postponing the submission of the bylaw before the first of January," was Mayor Coatsworth's declaration yesterday in discussing the electric power situation.

This is the kernel of the whole problem. Everything that is possible is being done to mislead the public. Only technical experience and expert knowledge are of any assistance in forming a correct judgment of the matter. These are not available to the ordinary man except thru secondary channels, and those not always reliable. Consequently he is apt to be scared into a panic by statements that are plausibly unintelligible.

The statements made by engineers and experts provided can be easily capable of being twisted into support for any argument that an opponent of cheaper power in Toronto may desire to use. The main fact remains that cheap power for Toronto is in sight. Cheap power for Toronto has been brought within measurable distance by the efforts of the Hydro-Electric Power Commission. Cheap power for Toronto depends upon the bylaw authorizing its distribution being submitted and carried.

Prices Confirmed.

Three commissions of the Ontario Government in succession have verified the figures submitted to the public as to the prices at which power could be supplied. For months it has been argued that these figures were absurdly low, and that it was impossible to give service at such cheap rates. The most recent arguments against the commission depend on the statement that the Toronto electric companies are getting power from Niagara at cheaper rates than the commission is able to and can supply power in Toronto cheaper than the commission will be able to do.

The citizens of Toronto by their support of the commission have extorted this admission from the companies. By continued support of the commission they will be able also to acquire the use of the cheap power promised. The way to get it is to carry the bylaw.

Ex-Attorney-General J. M. Gibson of Hamilton saw fit to rush into print with a letter to "The Globe" yesterday, plaintively asking for information from the Hydro-Electric Power Commission. "Is it not the case," he asks, "that the commission's engineers are dealing with questions in which they lack experience?" It seems like that to me.

Perhaps Mr. Gibson's lack of the advantage of the assistance of a private secretary may have induced him to overlook the first report of the Ontario Hydro-Electric Power Commission, dated April 4, 1906, in which his question are dealt with at length and from various points of view. ONTARIO FRUIT GROWERS ANNUAL SESSION

Many New Varieties of Apples Are Being Tried—Chief McNeil on Fall Apples.

The Ontario Fruit Growers' Association opened their forty-eighth annual convention in Victoria Hall yesterday.

President Harold Jones of Markham commented upon the satisfactory growth of fruit growers' associations during the past year and in presenting the report on new fruits, Prof. Macoun of Ottawa held that the most successful apples were originated in the country.

Prof. Huitt exhibited a seedling apple during the past year and in presenting the report on new fruits, Prof. Macoun of Ottawa held that the most successful apples were originated in the country.

The market is opening quickly in England," said Chief McNeil of the Dominion department of agriculture, at the afternoon meeting, "and we can grow apples here that will compete successfully with the British grower."

SANDSUCKER UNDER THE SEARCHLIGHT

Former Captain Withdraws Some of His Serious Charges—Robbery Suspects Under Arrest.

The public are warned to beware of a party signing himself H. Conning, who purports to be a canvasser for The Toronto World. His method is to collect 25 cents for one month's subscription, promising an enlarged framed picture if a photograph is forwarded to The World.

HAMILTON, Ont., Nov. 13.—(Special).—The fire and water committee was in session until 11 o'clock to-night investigating the charges made about the sanducker by ex-Capt. Bongard.

J. S. McLellan, the secretary of the Sand Dredging Company, from whom the dredge was bought, testified that it had never been in the bottom of Toronto Bay, and that it was in first-class condition when the company sold it to the city.

The ex-captain withdrew the charges that the sucker had been under water and that it was second-hand when the company bought it.

Mr. Bain said that up till the time of the fire it was capable of doing all that the city required of it, and John Bain, a machanic who is repairing it, testified that with the installation of a new runner for the pump it would be in first-class condition.

The police to-night rounded up a gang of four young men whom they suspect of having been in some of the many houses robbed that have been reported during the last few weeks.

It was stated at the meeting of the parks board this afternoon that the park board had proposed to build a new house, valued at \$7,000.

SAD SUICIDE OF A JACKASS.

Sentimental Long-Eared Animal Overcome With Grief. GREENWICH, Conn., Nov. 13.—This is the story of a sentimental jackass and its suicide.

The jackass was owned by John Boles, a neighbor of Ernest Thompson Seton at Cos Cob. It had as a friend and companion a dog which was killed to-day by a trolley car in front of Mr. Boles' house.

The jackass witnessed the tragedy. Evidently its nerves were unstrung. A little later when another car came along, the desolate jackass leaped over the fence in front of the car and perished.

Now He's Really Dead. RICHMOND, Va., Nov. 12.—Robert Ryan, who died in this city several days ago as a ward of the Little Sisters of the Poor, lived twenty-two years after letters of administration had been granted to his wife, Mrs. Margaret Ryan, by the new York court, and his estate, estimated at \$50,000, had been divided among her and her children.

BROWNS

WE SELL WHAT WE ADVERTISE

BROWNS

We Bid You Welcome to Our Early Winter Style Opening And Holiday Novelty Fete On Thursday, Friday, Saturday

On these three days "we make merry" again with patrons and friends and mark another epoch in the history of a great and growing store. With that restless energy and ambition to be "doing things," we're leaving all old ruts and beaten paths, hewing out new ways and new plans, and of these you have the practical results every day that you shop here, but for the rest of the week we take the position of "host" and invite you to join us in an interesting mid-season "at-home," when we shall make special displays in every department and want you to feel as free as the air to pay the store a visit, and that without any thought of making purchases unless you really need to—COME.

CASH OR CREDIT

Fashions for the Ladies

You may say, "Why, that's a furniture store!" Well, first of all it is, but all the comforts of living are not confined to home needs. We found that out long ago and planned accordingly, and that's why you find here to-day one of the largest departments in the Dominion supplying ladies with all that's fashionable and comfortable in ready-to-wear apparel—a department that takes no second with any store of its kind this side of the water—a department that "strikes twelve" every time in showing the fashions that are the vogue "on the tick," in correctness, and in variety enough to meet every whim and fancy of the woman of fashion or the needs of the plainer folk—a department that spells ENTERPRISE on every "peg"—well manned and well kept.

Coats and Costumes

In Suits and Costumes there's everything from the good serviceable everyday garments to the most elaborate of street, reception, and "decolette" creations. In coats and cloaks, just the right thing for the right place—short coats and long coats, plain coats and beautifully trimmed coats, and the wanted kinds, but not one that's a minute off style.

Skirts and Waists

We've had the name for many a day for having the grandest showing of ready-to-wear walking and dress skirts in the city, and when you've seen what's here you'll easily vote us first place—add to these an exceptionally fine collection of new and novel things in dainty waists, and you've a combination that will cause little wonder that it's "the talk of the town."

The Fine Furs

Just a matter of a few months since we asked you first to step into our fur department—had small beginnings—but to-day stands alongside of the biggest of the exclusive fur stores, with the grandest of stocks—the most honestly made up—and certainly right in touch with fashion decrees in popular furs and newest styles—and we've been so careful for quality that our reputation is behind every piece in case or on rack. Special show of Neck Pieces and Muffs, Fur Jackets, and Fur-lined Coats and Cloaks. You have a special invitation here.

Lovely Millinery

You expect almost kaleidoscopic changes in millinery fashions—and we know it, else why would we keep a score of deft-fingered people reproducing those pretty Paris "tit-bits" of headress and those stunning New York patterns just as quickly as they get into the hands of our special "landing waiter" over in Gotham. The prettiest of everything is here in special display this week. Prices about half the exclusive milliners' figures.

FIT-RITE Clothing for Men

This is the home of "Fit-Rite" Clothing, and so it's the home of the best ready-to-wear clothing for men that we know—and that's why it's here—and that's why more men are wearing good ready-to-wear garments than they ever did—Fit-Rite process has put the clothing business on a higher plane, and men have been quick-witted enough to see and appreciate the fact, and to-day we're supplying men and boys all over the city with it who were the erstwhile customers of the custom tailor—special winter opening display of Suits and Overcoats in the latest and best in make, color, pattern, and weave.

Fixings For The Home

We've grown to be many-sided and broad-sided, too, but Furniture was our first love and that's why you know us first of all as a Furniture store, and it's just as appropriate now, with all the departments we have, to make special mention of it in inviting you here to see the specially nice lines we're showing, and afford you many a sensible suggestion in the choice of Christmas gifts—and like enough, you know that nothing is better appreciated from the standpoint of usefulness—our buyers have gone hither and thither, here, there, and yonder, picking up the useful and the novel things of all sorts of home things, and many of these new lines see the light of day for the first time here this week—no better time than now to choose.

For the Parlor

Handsomeness—elegance, comfort, and cosiness "wrapped up" in big Easy Chairs and Rockers, Fancy Parlor Chairs and Divans, Parlor Suites, Couches, and Davenport, Morris Chairs and Reception Chairs, Tables, Carpets, Rugs, Squares, and Mats—beautiful Curtains and Draperies, and other things all in accord with present day furnishing and decorative ideas—and everything in plenty—every line a gift hint.

For the Bedroom

Everything that's staid and staple in boudoir fixings—the right wood—the right finish—and the right designs—in Dressers—Washstands—Bureaus—Cheffoniers—Shaving Stands—Pier Glasses—Dressing Tables—Steel Couches—Wooden Beds—Iron Beds—Solid Brass Beds—Springs—Mattresses—Den Cushions and Pillows—Sheets—Cases—Blankets—Quilts—and Comforters—and don't forget the Cots—Cribs—and the Cradles for the little tots.

For Dining Room

You'll get at a very practical side of the gift-giving idea when you visit the Dining-room Furniture Floor with its wealth of variety and novelty in rich oak and mahogany—its mission goods of early English and weathered finishes—in Sideboards, Buffets, Dinner Wagons, Square Tables, Round Tables, Side Tables, Jardiniere Stands, Dining Chairs, Dining Sets, China Cabinets, Reed Chairs, Reed Rockers, Grandfather's Clocks—and right along with these dining-room needs to find Kitchen Cabinets, Kitchen Cupboards, Kitchen Chairs and Tables, Child's High Chairs, Low Chairs, Medicine Cabinets, and other things that are as useful as they are good.

Den, Hall, Library

All the quaint and queer things that bode for comfort and convenience—and you'll not likely find anywhere the equal of the novelty you'll see here in Mission Goods for the den, the library, and the hall—Mission styles and other styles, Mahogany, Early English, and Weathered Oak, and genuine Quarter-cut Oak in the richest of golden finish—Settees, Arm Chairs, Rockers, Lamp Stands, Library Tables, Magazine Tables, Desks, Book Cases, Hall Racks, Hall Seats, Hall Chairs, Hall Trees, Hall Mirrors, and in the same section a splendid big line of Parlor and Music Cabinets, Roll Top and Flat Top Desks, and other office appliances and filing devices. Some grand presents will be picked from these.

Jewelry

What could suggest holiday gift-giving more than a jeweler's stock—be it in the little shop up the street—the bigger shop down the street—or the big department in a big store like this? Our jewelry shop is a Little Wonderland of novelty and niceness, and already people are picking over and paying for in "easy payments" many things between the little "trinket" and the "karat" or more diamond setting—a lovely line of Brooches—Pins—Barettes—Lockets—Pendants—Gems and Ladies' Watches—Birthday Rings—Signet Rings—just a most complete choice, and priced to meet anybody's purse. Remember, you can buy now and have us "set-them-by" for you, till you want to make the gift.

Heaters---Ranges---China

A very practical department this with its 200 and more styles and sizes in Heaters and Ranges—every one a most reliable make—its splendid displays of Gas, Electric, and Combination Fixtures—very newest designs in China, Silverware, Cutlery, Lamps, Clocks, fine English decorated Porcelain and China Dinner Sets, French China Tea Sets, new designs English Pattern Toilet Sets, Fancy Cups and Saucers, Fruit Sets, Vases, Flower Trays, Refrigerators (a little, out of season, but they're there), Baby Carriages, and Go-Carts, never out of season, and they're there. On this "annex" floor one of the most interesting displays of the whole 10 big selling floors.

Indoor B. B. Many Teams Entered

Soccer Referees For Saturday

NOTE AND COMMENT

That association in the east that call themselves the Amateur Athletic Federation Union have now professionalized Longboat and all the runners who took part in the road race at Montreal Saturday. Since they have been asleep so long no one will now try to wake them.

RUGBY.
Ottawa are losing Jack Ryan, their star outside wing man, who has accepted a position in Montreal. Ryan was the find of the season, and is without doubt the best outside wing man playing the game around wing parts. Ottawa's loss will be Montreal's gain, and Chaucer Elliott wears the smile that won't come off.

Varsity sends three teams to the East Saturday—senior and junior to Kingston, and intermediate to Montreal. On the form shown last Saturday both intermediate and junior championships look good.

BASEBALL.
Muggsy McGraw, manager of the New York Giants, has the racing fever and is now in danger of losing the manager's job, which reports say will go to Roger Bresnahan, the big catcher.

HOCKEY.
The announcement that Ottawa College will be represented in the Intercollegiate Hockey League will be hailed with delight by not only the three universities, but the public at large. Their desire to enter the league is evidently due to the success obtained by their Rugby team. With College in the intercollegiate series will be one of the strongest in existence.

TURF.
According to the bookmakers at Aqueduct the ring is in a terrible state. Tuesday afternoon Orlando Jones declined to cash one of John Cavanagh's cheques for \$50 and he supplemented his refusal with the declaration that he could not afford to honor the paper of a Rockefeller. Other bookmakers declare that they are hard pressed for cash with which to carry on their business. Their sheets are covered with the records of unpaid markers. These markers are generally good, the layers say. The persons they have credited are simply unable to get hold of any money because of the troubles in banking circles.

Half a dozen of the biggest bookmakers have knocked off altogether and those who remain are doing a cash business. It is desperately hard to get down a marker for more than \$100, and a \$50 note produces a panic wherever it appears. A dozen or more layers who had planned to go to Benning's for the autumn meeting of the Washington Jockey Club have decided to remain in New York the last fortnight of the current month and play bridge.

Over \$100,000 was taken from the bookmakers at Aqueduct Tuesday, when Alamancor captured the jumping race by three-quarters of a length from Kara, the first choice. Johnny Walters, the millionaire clubhouse commissioner, bet over \$3000 on the winner at an average of 8 to 1. Charley Fox collected \$5000 from different layers Wednesday afternoon and Eddie McDonald handed a commission that won over \$30,000.

Purrlane was well played both here and in New York Tuesday, and from accounts of the race, Jockey Swain's grand ride in the stretch brought home the bacon for the Segramites.

JOE KELLEY'S IRISH WIT.
Over at the Pithole race track last week there was quite a galaxy of professional baseball players among the number being Jack Dunn, Walter Brodie, McGraw, Robinson, Hugh Jennings, Joe Kelley and Dimping Mahon, says Revere Rogers in The Washington Star.

One day this winter was foregathered in the club house, discussing the needs of the inner man, when who should come in but a Baltimore sport who is noted for his windy ways and the unreliable brand of hope he ladles out.

This chap, according to his tale, has all the bookmakers up a tree, owing to the heartless manner in which he trims their rolls. He simply has these rather astute gentlemen beaten badly at their game, and his winnings are not small ones, either.

Oh, dear, so this young Wisenheimer takes the pencil scratchers' kale in betty bunches—that is, if you listen to Alexander—and he wouldn't lie—at least, he declares he wouldn't; for anything in the world.

As he was acquainted with several members of the ball players' party, he ambled over and wanted to buy, but the fellows didn't happen to care for anything, so Mr. Sport sprawled out on a chair.

"This racing isn't in it with the kind of stuff we had at the Latonia track last June," he declared. "Why, I was twenty thousand to the good in five days up there. And then I put two \$5000 bets down on Darling Dan in the first race to show, and another five on Meggs Hill to win in the third."

What the outcome of these bets was the sporty lad was not allowed to state. For just at that moment Joe Kelley gave a yawn, and as he did he cried out:

"Boys, put that piker out of here!"

OTTAWA COLLEGE TO PLAY HOCKEY

Will Join Intercollegiate League—Simcoes Branching Out—Gossip.

OTTAWA, Nov. 13.—The Ottawa University Athletic Association will be represented in the Intercollegiate Hockey League this winter. This announcement was made today by a prominent officer of the University Association. The College Club has practically completed arrangements, and all that is now awaited is the consent of the faculty, which will probably be granted in a day or two.

Consequently, it is altogether likely that the application of Ottawa College for admission into the Intercollegiate will be received at the next meeting of that organization.

There is some excellent hockey material at the university just now, and a crack team can be put on the ice. Nick Bawit, the football full-back, who is in the Water-street Hospital with a broken collar-bone, was the best forward player in the City League last year, and has played a couple of games with the Ottawa Prospects. In fact, are very bright, and there is no reason why College should not make as big a hit in the Intercollegiate Hockey League as they have done in the football union.

Arrangements will be made to practise and play the matches at the new Rideau Rink or the Laurier-avenue Arena.

Simcoes Branching Out.
At a meeting of the Simcoe Hockey Club executive last night it was decided to change the name to Simcoe Athletic Club. A resolution to this effect was asked at a general meeting called for Tuesday, Nov. 13, at the King Edward.

Hockey Notes.
At a recent meeting of the Kappo Phi A. Club a meeting of the Kappo Phi A. Club was held for the purpose of electing officers for the coming year. The officers elected were: President, J. J. Coulter; Vice-President, J. J. Coulter; Secretary, J. J. Coulter; Treasurer, J. J. Coulter.

HAMILTON CONFIDENT.
Upper Canada Defeats Ripley—Plan for Argo Game Opens To-Day.

Much uneasiness is being felt in Hamilton over the outcome of the game with the Argonauts here at Varsity field Saturday. Unless the Tigers win from the Argonauts they will be tied with Ottawa for second place and the striped champions of former years want that position undisputed.

INDOOR BASEBALL LEAGUE MANY TEAMS ARE ENTERED

Two Exhibition Games Will Be Played Saturday Night—Garrison News.

The Garrison Indoor Baseball League executive met last night in the armories, the following teams being entered: Royal Grenadiers B D and E Companies one team each, G Company two teams; 48th Highlanders A, B, C, E, F and G Companies; one team each, H Company two teams; G.O.R. 2 teams; 5th Mississauga team; Stanley Barracks, two teams; E Horse, one team; 8th Field Battery, one team; Army Service corps, A, D, B and K Companies, and Stretchers corps, 8 to 330; D Company, Grenadiers v. first team of Engineers, 88 to 11 o'clock. These games will count on the practice game schedule. A complete schedule will be arranged as soon as all the teams are formally entered.

It is urged that the names of all units entering teams should be handed in to the secretary this week.

The executive intend to be very strict this year in the matter of umpiring. The umpire will have the right to stop and award any game where disorder of any sort arises. Teams not on the field two minutes after schedule time will default their games.

The next meeting of the executive will be held on Wednesday next at the Armories and every Wednesday throughout the season.

The Royal Grenadiers are forming an athletic association and are holding a meeting for that purpose next Monday night at the Armories at 8 o'clock. Major Mason will preside.

A squad competition for medals in No. 1 Field Ambulance, A.M.C., will be held in the Armories at 8 p.m. on Monday, the 18th. The judges will be Major Penton, Capt. World, Sgt.-Maj. Beatty.

Toronto Soccer Executive Meet.
The executive committee of the Toronto Football League met at 92 Bay-street last night and appointed referees for Saturday's games.

For the first of the home-and-home games for the senior championship between Little York and Thebes at Little York, J. A. Brown of the City Teachers' Referees. The game will be called at 8 o'clock. Other referees are: Don Valley at All Saints; George East at St. George's; St. George's at All Saints; St. George's at All Saints; St. George's at All Saints.

Records of three Ball Players Traded by Yanks to St. Louis

Hard on Wild Bill Donovan—Jake Weimer Repented—Will Play Object to Boston Nationals' Purchase?

As the details of their long careers in baseball may have been forgotten, below are given sketches of Jimmy Williams, Danny Hoffman and Hobe Ferris who have been traded to the St. Louis Americans by the New York Yankees for Hemphill, Glade and Niles.

Jimmy Williams.

James Thomas Williams, third baseman, was born in St. Louis, Dec. 20, 1876. He learned to play ball in St. Louis and secured his first professional engagement in professional baseball with the Pueblo Club of the Colorado State League, in 1895. He was a member of the Pueblo, Leadville, Colorado and Albuquerque, N.M., teams in 1895 and 1896. He secured an engagement with the St. Joe Club of the Western Association, and his batting and fielding record attracted general attention. His principal achievements in the batting line in 1898 was four hits, including three home runs, with Peoria. His batting record in 1901 was .325. He had a fielding percentage of .985 in 1902. In 1903 he was named a first baseman in the American League. He was named a first baseman in the American League in 1903. He was named a first baseman in the American League in 1903. He was named a first baseman in the American League in 1903.

Daniel J. Hoffman.

Daniel J. Hoffman was born in that section of New England which has furnished many baseball stars. The date of his birth is 1880. He played in the Connecticut State League, in 1901. In the following year he was transferred to Springfield, Mass., where he was named a first baseman in the American League. He was named a first baseman in the American League in 1903. He was named a first baseman in the American League in 1903.

Hobe Ferris.

Hobe Ferris was born at Providence, R.I., in 1871, stands 5 feet 8 inches in height and weighs 160 pounds. He is considered as one of the greatest infielders in the business, being a tireless worker and a most enthusiastic over the outcome of each game.

Tough on Wild Bill.

"Wild Bill" Donovan of the Detroit Tigers, premier pitcher of the American league, while attending the meeting of the National Association in New York last week, told of his heart-breaking experience in the first game of the world's series in Detroit world's championship series.

Howard was at bat.

"Howard was at bat," O'Day tossed out to a new ball to me, and as I was rubbing it in the grass Charlie walked out and asked what kind of a ball I was going to serve Howard. I told him a low curve inside. Well, the ball could not have been placed better. I had walked up to the batter's box and handed it out to the Chicago batsman. Schmidt had set himself for the ball, and he was in such a position that the curve hit his glove, and took a mean bound. He swung it, and with it his only chance of winning a game in the world's series.

Walter Repented.

"Jake Weimer of the Cincinnati Club is the only ball player of the many I have been compelled to discipline in the line of my duty who ever came to me and told me I was right in firing him," says President Harry Pulliam of the National League. "During a game between the Reds and the Cubs, last July, Weimer became so abusive to the umpire that he was put out of the game. When the case

Will Players Object to Color?

President Dugan of the Boston National League Club has announced that E. Dugan the pitcher Dugan secured from the San Francisco Club, will surely pitch for the Boston Nationals. Joy pitched in Honolulu before he came to San Francisco. He is very dark and it has been rumored that some of the big league players may object to playing in the same team with a man of that color. Buffalo Walker and Bob Higgins with Sprague, and they didn't last season out. That is how the color line is sprung. Walker is now keeping a hotel in Steubenville, Stovey is a barber at Jimmy Sebring's home in Williamsport, Pa., and Renfro is still playing with the Chicago Cubs.

GRASS WINS CROSS COUNTRY.

St. Andrew's College held their annual cross-country run yesterday over a six-mile course. Over 60 boys contested, Grass being returned the winner. The following is the order of the first 30: 1. Grass (33 min.); 2. Macdonald I. (33 min. 10 sec.); 3. Parsons (33 min. 30 sec.); 4. McCarty (34 min. 38 sec.); 5. Edmonds; 6. Matherson; 7. Silver; 8. Corbould; 9. Sutherland I.; 10. Bicknell; 11. The different form winners were: Form 6, Rogers; Form 5a, Newman; Form 5b, Bath; Form 5c, Silver; Form 4b, Matherson; Form 4c, Davison V.; Form 3b, Bicknell; Form 3a, Macdonald III.; Form 2, Carlisle; Form 1, Campbell II.; Prep, Whitney.

McAllister Was Nominated.

Sporting Editor World: In your issue of Tuesday an item was published regarding your sporting column which was nominated for 1908. Several glaring inaccuracies occur in this report, so glaring in fact, as to make it seem very doubtful that they were made accidentally. Mr. Frank Slattery was announced as having been re-elected president of the Ontario Jockey Club for 1908. Several glaring inaccuracies occur in this report, so glaring in fact, as to make it seem very doubtful that they were made accidentally.

Jockeys Englander and Higgins were refused admission to Aqueduct Tuesday.

It is hardly probable that Jockey Willie Krapp will get a license to ride in the east again.

Starter Dale officiated at the barrier at Aqueduct on Tuesday.

In the place of Mr. Cassidy, who was absent from duty on account of the illness of his wife, Mr. Dale was in rare form. He dispatched his fields quickly and in good order, and he had not the slightest trouble with the jockeys. They minded him as they had raced under him all summer.

Fred G. Mc'Brien has cards out for aldermen in the sixth ward.

The board of council has decided not to have a chart of the city prepared. Building permits amounting to \$230,000 were issued by the city architect from Oct. 30 to Nov. 11.

Langford Gets Decision.

LOS ANGELES, Cal., Nov. 13.—Sam Langford of Boston was given the decision over Young Peter Jackson of Baltimore at the end of the twentieth round in a fight before the Pacific Athletic Club last night. Charles Epton was the referee. Jackson was unopposed in his failure to fight, and Langford showed his class by knocking out his opponent in the first round. Langford was the favorite, was cheered by the large crowd in attendance.

Central Y. M. C. A. Fencing.

Saturday, Nov. 16, marks the beginning of Toronto Central Y.M.C.A. fencing contests. At 7.45 the members of the first and second teams, consisting of Dudley, Daily, Wally, Longbottom and Scott, will fight an individual foil contest for a silver medal. The amateur fencing clubs of London, England, will govern contestants acknowledging all hits. Blue chalk is to be used to aid judges in their decisions. The judges will be Sergt-Major Brookler, referee, assisted by A. Goulding of Varsity and Walters of Central Y.M.C.A.

McAllister Was Nominated.

Sporting Editor World: In your issue of Tuesday an item was published regarding your sporting column which was nominated for 1908. Several glaring inaccuracies occur in this report, so glaring in fact, as to make it seem very doubtful that they were made accidentally. Mr. Frank Slattery was announced as having been re-elected president of the Ontario Jockey Club for 1908. Several glaring inaccuracies occur in this report, so glaring in fact, as to make it seem very doubtful that they were made accidentally.

Jockeys Englander and Higgins were refused admission to Aqueduct Tuesday.

It is hardly probable that Jockey Willie Krapp will get a license to ride in the east again.

Starter Dale officiated at the barrier at Aqueduct on Tuesday.

In the place of Mr. Cassidy, who was absent from duty on account of the illness of his wife, Mr. Dale was in rare form. He dispatched his fields quickly and in good order, and he had not the slightest trouble with the jockeys. They minded him as they had raced under him all summer.

Langford Gets Decision.

LOS ANGELES, Cal., Nov. 13.—Sam Langford of Boston was given the decision over Young Peter Jackson of Baltimore at the end of the twentieth round in a fight before the Pacific Athletic Club last night. Charles Epton was the referee. Jackson was unopposed in his failure to fight, and Langford showed his class by knocking out his opponent in the first round. Langford was the favorite, was cheered by the large crowd in attendance.

Central Y. M. C. A. Fencing.

Saturday, Nov. 16, marks the beginning of Toronto Central Y.M.C.A. fencing contests. At 7.45 the members of the first and second teams, consisting of Dudley, Daily, Wally, Longbottom and Scott, will fight an individual foil contest for a silver medal. The amateur fencing clubs of London, England, will govern contestants acknowledging all hits. Blue chalk is to be used to aid judges in their decisions. The judges will be Sergt-Major Brookler, referee, assisted by A. Goulding of Varsity and Walters of Central Y.M.C.A.

GRANTS WILL BE INCREASED

But Plans for Technical Education Are Not Complete.

Hon. Dr. Pyne, minister of education, stated yesterday that the question of technical education was receiving the attention of the cabinet.

It is understood that there will be considerable increase in the grants for technical education.

Promissory Notes.

The Ferrol Company of Toronto have been made defendants in an action brought by H. V. Kahle to recover \$1090.03 upon two promissory notes made by the defendants.

Six of the nine mining inspectors in Northern Ontario have been withdrawn. Three will remain in the north all winter.

POLITICAL INTELLIGENCE

The Calgary Eye Opener of Nov. 9 just to hand, ought to be interesting reading to the reverend editor of The Globe, not to mention others.

The following are the appointments for Hon. A. G. MacKay's tour of the Rainy River and Lake of the Woods districts next week.

Monday, Nov. 18—Port Arthur. Tuesday, Nov. 19—Port William. Wednesday, Nov. 20—Kenora. Thursday, Nov. 21—Rainy River. Friday, Nov. 22 (evening)—Egmo. Saturday, Nov. 23 (evening)—Fort Frances.

Richard Blain, M.P., who is holding a series of meetings throughout his riding, will speak at Charlestown to-day and at Bolton to-morrow.

The Canadian Freeman, an Irish-Catholic organ published at Kingston, suggests Charles Murphy of Ottawa for a cabinet position.

A warm fight is on in Colchester, Nova Scotia, for the vacant seat in the House of Commons.

Lincoln Liberals, who meet on Saturday at St. Catharines, are expected to nominate M. J. McCarron.

Peremptory list for 11 a.m.: 1. Clunan v. Kelly. 2. Toronto v. Toronto Railway Co. 3. Port Arthur Club v. Port Arthur. 4. Re Haven Lake, etc., Co. 5. Re McKeivie. 6. Imperial Bank v. Virtie. 7. Grand Valley v. Brantford. 8. Lorie v. Dewdney. 9. Henderson v. Toronto Railway Co. 10. Re Calderon and Douglas.

Overdue Account. A balance of \$596.65 on an overdue account has caused John Martin of Cobalt to take action against W. A. Hamilton, claiming unstated damages for alleged negligence on the part of the company.

The application of John Orville Duke to Master-in-Chambers Cartwright to have the Trusts and Guarantees Co. added as a defendant in the action of Duke against Urey has been allowed.

An Interesting Point. The Canada Sand Lime Brick Co. began an action under the Mechanic's Lien Act against William Campbell, William Campbell and George Ottawa to recover \$113.75 for material supplied for a building on Armstrong-avenue.

Negligence. A writ has been issued by Ernest Munro against Roman Stone Co. of Toronto, claiming unstated damages for negligence.

IS THE TWO CENT RATE COMING? The Weekly Sun, commenting editorially on the official statement that the railway commission is about to enter upon a systematic enquiry into the whole question of passenger rates, says:

"The commission will find in the railway statistics for the year ending June 30, 1906, prepared by L. Payne and published by the department of railways and canals, some facts which ought to prove of material assistance in the enquiry undertaken. These statistics show that while the railway mileage of Canada increased by about 3,000 miles between '96 and 1906, the number of passengers carried on Canadian lines nearly doubled in the same time, and the earnings on passenger traffic increased from \$18,747,000 to \$23,292,000. In other words, while the mileage of track increased 33 per cent. in the ten years, the earnings on passenger carried over the track showed an advance of 143 per cent. in the same time.

"The returns seem sufficient of themselves to justify the demand for a reduction to-day from the rate per mile charged at the beginning of the past decade.

"If we turn to United States railway returns for purposes of comparison, a like lesson is conveyed. The report of the Interstate Commerce Commission shows that in Ohio, Indiana and Michigan the average earnings per mile from passenger traffic are \$2500. On the Canadian Southern, in lower Ontario, the average is \$4000, and there is reason to believe an equally good showing for the Grand Trunk and Canadian Pacific systems which run thru a similar territory to that served by the Canada Southern.

Yet the Grand Trunk and Canadian Pacific charge three cents per mile, while in Indiana and Ohio and over practically the whole of Michigan the charge is limited to two cents.

"It should not require any very long enquiry to convince the railway commission that two cents per mile should be the maximum charge in older Ontario, at all events."

Costumes in 'The Dancing Girl'

The players in the interesting social drama, "The Dancing Girl," whose sensational subject is drawing much attention at the Royal Alexandra this week, are wearing some of the prettiest gowns seen this season. As usual Miss Evelyn is the clotheshorse "par excellence" of the company, besides being its leading actress. By the way, that word "clotheshorse" is far from being one of contempt. It takes a well-developed figure and a charming face to show fine gowns off to the best advantage. Her first gown is, of course, a Quaker gown, and an odd effect is produced when she dances in it for the first time, which she does, by the way, very well. But in the boudoir scene Miss Evelyn wears a really exquisite gown of painted net with deep hem of satin. The tints are from palest pink to a deep rose, and the fashion is the popular semi-empire. The corsage is trimmed with bands of rose silk and cut square. It is a daring gown for a girl with Miss Evelyn's auburn hair, but it is very becoming. Miss Lasche wears a very charming and elaborate gown of rose, satin and chiffon-lined, and combined with soft silk. As the little lame heroine of the piece she acquires a certain added pathos in the evening toilette, donned to attend the ball given by the man she loves. Miss Evelyn's sequined gown is very effective in the scene, and, like

most of her gowns, is a la princesse. The dress of one other guest is especially beautiful. It is a French creation of primrose satin, almost sleeveless, with draped chiffon and satin bodice and a slashed Greek shoulder drapery. The wearer, a tall girl, wore the gown with excellent effect. ORANGEVILLE, Nov. 13.—Lord Dufferin Chapter of Daughters of the Empire have undertaken the erection of a hospital and for the purpose of raising funds a fancy fair will be held on Thursday and Friday, Nov. 14 and 15. R. R. McKeown, M. A., and Mrs. McKeown, Dr. Barr, M.P., and Mrs. Barr, Mrs. Dewar, regent of the chapter, will open the fair on Thursday at 1 o'clock. There are Japanese, fancy work, candy, gipsy, ice cream, doll, apron and paper booths. An immense Xmas tree in the centre of the hall makes a very pretty sight. A high tea will be held Thursday evening.

THE BEAUTY PATTERN CO. 5955—An Exceedingly Stylish Little Coat. The plain long coat in double-breasted style is always a popular model for home making. This one is particularly modish with its broad shawl collar extending out over the sleeves, as it gives the wide shoulder effect, so becoming to children. The back is quite plain and the lines of the front unbroken, save for the pockets and three large buttons that effect the closing. The regulation coat sleeve is gathered into the armholes. The lower edge is prettily finished by a turned back cuff. Herring-bone chevrons were chosen for the making, but Scotch tweed, broadcloth, velvet and the novelty fabrics are all suggested. For a child of 8 years 2 1/2 yards of 44-inch material will be required. Girls' coat No. 5955. Sizes for 6, 8, 10 and 12 years. A pattern of the accompanying illustration will be mailed to any address on receipt of ten cents in silver.

Women's Local Council. The executive of the Toronto Women's Local Council met yesterday, the president, Mrs. Torrington, in the chair. Dr. N. Rutnam, in the chair, gave an interesting account of the Women's Union of the lines of the Household Economy Association of Toronto. A branch of this union was formed of Cingalese women, who were almost totally ignorant of all matters pertaining to health, and a course of lectures was delivered which were well attended and aroused great interest. At present efforts are being made to form a similar branch among the Mohammedan women. Dr. Rutnam stated that the union was desirous of affiliating with the International Council of Women and Mrs. Torrington expressed the hope that it might be met before the international meeting, which is to be held in Toronto in 1909. The committee on medical inspection in the schools submitted a resolution approving of the inspection by teachers proposed for the city schools, but expressing the opinion that there can

PALE, TIRED WOMEN Regain Strength and Freshen Quickly With Ferrozone

Nothing is more certain than the direct action Ferrozone exerts in female complaints. It is the best medicine for restoring virility and strength. By instilling new life into the blood every organ in the body is better nourished, and in consequence takes on strength. Ferrozone's record is marvelous. It makes you feel strong and sturdy. Nourishes the weak, rebuilds and restores those in search of better health. For girls and women, both old and young, Ferrozone can work wonders as it did for Mrs. Mary Melong of Harbor Bouche, N. S., who writes: "Ferrozone built me up. Before using it I scarcely knew what good health meant. I was just as miserable and weak as any woman could be. Tired from morning to night, bothered by trifles, unceasingly nervous. The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health. Try Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. Whether anemic, nervous or suffering from secret disorders—if you want cure, use Ferrozone. Price 50c per box, or six boxes for \$2.50, at all dealers.

BREDIN'S CREAM LOAF

Market conditions in a price way have no effect on the sterling worth of the Bredin's Cream Loaf.

The quality standard was set at the top notch, and it stays there, so that you know to-day's loaf will be as good as yesterday's and to-morrow's as good as to-day's.

That's the confidence that has made the demand for the Bredin's Cream Loaf.

So that it is easily the most popular loaf that's served anywhere.

Alex. Watson to Serve Two Years for Embezzlement.

Alex. Watson, who, as local manager of the Canadian Oliver Typewriter Company, defaulted with \$200, as well as eloping with his secretary, was yesterday sentenced by Judge Winchester to two years in the Central. He had served a term of six months for embezzlement in England.

"But that was four years ago," Watson pleaded, "and I have been in Canada only one year."

"You didn't waste much time following in your old footsteps," remarked his honor.

Watson admitted that he had been married before in England. But from this alliance, he said, he had been freed by a divorce from the high court.

ROASTS MAGISTRATE FREES THE PRISONER

Justice Anglin Quashes Conviction of Streetsville Man—Had No Chance to Defend.

"I have rarely heard of magisterial authority being more unfairly and arbitrarily exercised than it appears to have been by the police magistrate in this case. His course was entirely contrary to the spirit which happily pervades the administration of justice in this country," said Justice Anglin yesterday in quashing the conviction by Magistrate Robert Crawford of Brampton of James Farrell of Streetsville, who had been charged with selling liquor without a license. Farrell had been sentenced to four months in jail.

Defendant alleged that no evidence had been submitted at the trial that he had been a second offence, and that the liquor sold was "local option" beer. "But," says the judge, "perhaps the most serious complaint of the defendant, is that he was not allowed fair and reasonable opportunity to make his defence. The offer made by the magistrate to grant an adjournment on the payment of \$10, even if not withdrawn, as the accused swears it was, scarcely evinces any consideration. He was refused even an adjournment of a few hours and was compelled to proceed with his trial without witnesses, without opportunity to present a defence, apparently substantial and bona fide, and defended by a counsel chosen not by himself but by the magistrate who tried him."

WEDS ON DEATHBED. Pathetic Ceremony in Grace Hospital as Bride is Dying.

Scenes of sadness are familiar sights within hospital wards, but it is seldom that so pathetic an incident occurs as when Lydia McLean and William McArthur, both of St. Catharines, were wed in Grace Hospital Tuesday afternoon. The bride was dying and expired at 6 o'clock that evening.

Rev. C. Ennor Sharp of St. Thomas' Church performed the ceremony, while a small party of relatives and friends were grouped about the cot of the bride. William McLean, her father, gave his daughter away, and his voice broke as he made response. The clergyman, too, was shaken in his sad duties. The dying woman was the only smiling face in the group.

For six years the girl, who died of tuberculosis, had lived in Toronto. She was employed with the Keen Manufacturing Co.

PARTS WITH HER CHILDREN FOR HER STRANGE FAITH

Girls Invite Mother to Live With Them if She Will Forego Fire Worship.

NEW YORK, Nov. 13.—Refusing to abandon the practice of fire worship at the request of her daughter and her new son-in-law, Mrs. Augusta Maier parted yesterday with her two daughters, the only relatives she has in the world.

One of these daughters, Helen, who on Saturday became the wife of Theobald Fuchs, an employe at the Hotel Seely, moved yesterday into an apartment in East sixty-seventh street. She took to live with her there her elder sister, Miss Gussie Maier.

Their mother remained in their old apartment, where two oil lamps, which Mrs. Maier has kept burning for six years as part of the ritual of her worship of fire, were kept lighted last night.

Mrs. Maier, who is a botanist, author of several theses on mathematics and as one time was governess in a family of distinction in Germany, declared she would never give up her belief in fire worship or her practice of its rites.

Keeps Two Lamps Burning. "For the last six years," she said, "I have been a worshipper of fire, which is the purest and cleanest element in the world. I have kept burning on the table in the middle of my room two fires, which represent to me all the fire in the world, though they are kept burning with an altar. Thru my belief in the worship of fire I have been made a happier woman and also I love Mr. Fuchs. I cannot bring myself to recede from my religion."

"But we made the condition," said Mrs. Fuchs, "that my mother must abandon the practice of her religion. Not only are the two burning lamps a menace to the safety of those who live in the same building with her, but we object to that part of the ritual of her religion which makes it necessary for her to arise each morning before dawn and to greet the coming of day with a hymn which she intones at the top of her voice."

"My husband has assured my mother that he will make whatever provision for her support she desires. She has a bank account and she has her own funds. She did not attend my wedding. After the ceremony my husband, my sister and I did not return to our old home, but came here to live."

Wanted to Burn Food. "My mother came here to-day and wanted to burn all the food that she had left over from yesterday. We explained to her that this is a new apartment building and that we are new tenants. We told her that the worship of fire could not be carried on here as it has been in her own home. She was obstinate. She said that unless we promised not to interfere with her practices she would not come to live with us. We would like to have her here, but we cannot have her here."

"I shall remain in my apartments here, where I shall keep my religion. The position has not been offered me," he said, "and I am not considering it. Furthermore, I have no idea that the government has any power to interfere with the religion which has been so much help and comfort to me," said Mrs. Maier.

MEMBERS NOT FOR JOB. Speaker Crawford and Dr. Pyne Do Not Want Registrars. "I hope to be able to announce the appointment of a registrar for West Toronto in a few days," said Hon. J. P. Whitney yesterday afternoon.

The cabinet will meet this afternoon, when in all probability the matter will be taken up.

From Hon. Speaker Crawford, who represents West Toronto, it was learned that the Toronto members, who will be consulted regarding the registrarship, had not yet considered the appointment. It is known, however, that the Speaker will be the next registrar.

Michael Rourke of Windsor has been appointed bailiff of the seventh division court of the County of Essex, vice C. F. Baby, deceased; and H. C. Weir of Alexandria has been appointed bailiff of the second division court of the United Counties of Stormont, Dundas and Glengarry, vice Angus McDougall, deceased.

A Genuine Stradivarius. PITSBURGH, Pa., Nov. 13.—The police are holding what they believe to be a genuine Stradivarius violin. It is described "Antonius Stradivarius Faciebat Anno 1735." One negro charged the arrest of another on a charge of stealing the instrument. The complainant says he got it from a junk dealer, giving a mandolin in exchange.

From an eminent authority we learn that the old-fashioned mixture of cologne and whiskey is still recognized as a splendid treatment for coughs, colds, whooping cough, and throat troubles. The recipe is as follows: Fluid extract Licorice..... 1/2 oz. Fluid extract Cascara..... 1/2 oz. Eluix extract..... 1/2 oz. Best rye whiskey..... 6 oz. These are all simple and well-known ingredients, and are inexpensive.

This is better to take than many advertised cough syrups, which only upset the stomach and digestive organs.

THIS AUTO SWIMS.

And May Become Valuable as a Life Saving Appliance.

NEW YORK, Nov. 13.—The little French "blue boat on wheels" Waterland I, was conveyed by eleven automobiles, filled with electricians, motor boat enthusiasts, yachtmen and other experts, to Port Washington, Point, where the combination boat automobile plunged into the North River.

Driven by its small propeller, the shaft of which is coupled to a 20 horse-power motor, the boat went out a hundred yards and returning at a good speed, mounted the beach and came out high and dry. On a third trial the boat went at least five hundred yards. It is said that with its present engine it can travel 35 miles an hour on land and nine knots an hour in the water.

Waterland I is soon to be taken to Washington with a view to showing the government officials that the boat would be useful in life saving stations.

PHRASE NOT COINED. Why Roosevelt Eliminated "In God We Trust" From New Issue.

WASHINGTON, D.C., Nov. 13.—In answer to one of the numerous protests which have been received at the white house against the new gold coins which have been coined without the words, "In God we trust," President Roosevelt has written a letter which says, in part:

"When the question of the new coinage came up we looked into the law and found there was no warrant for its being put in 'In God we trust' on the coins.

"My own feeling in the matter is due to my very firm conviction that to put such a motto on coins or to use it in any kind of manner not only does no good, but does positive harm, and in effect irreverence which comes dangerously close to sacrilege. A beautiful and solemn sentence such as the one in question should be treated and uttered only with that fine reverence which necessarily implies a certain exaltation of spirit."

RELEASE MILLION RESERVE.

Will Probably Be Used to Relieve Demands of Grain Trade.

OTTAWA, Nov. 13.—Enquiry goes to show that the present gold reserve held by the Dominion Government in security for the bank note circulation, amounting to four million dollars, is about one million dollars more than is actually required.

No doubt this will be set free so as to relieve the demands of the grain trade at the present juncture. Even this amount may not afford temporary relief, as the elevator companies rely upon the banks for practically all that is required, not only to purchase their grain, but to margin it, but to margin it until it has been actually sold and delivered abroad.

WATCH THE STOMACH.

HAVE YOU ANY OF THESE SYMPTOMS? If you have either variable appetite, a faint gnawing feeling at the pit of the stomach, unassisted hunger, a loss of food, rising and soaring of food, a painful load at the pit of the stomach, choking sensations in the throat, headache and dulness of spirits, constipated bowels with alternate diarrhoea, are you gloomy and miserable?

THEN YOU ARE A DYSPEPTIC. The cure is careful diet, slow eating, thoroughly chewing the food; avoid drinking at meals.

Keep regular habits, abstemiousness, loosen the digestive powers and regulate the stomach and bowels with Burdock Blood Bitters. It has cured the worst forms of dyspepsia, even of twenty-five years duration. Mrs. Geo. Parks, Cooper, Ont., was cured. She writes: "I have used Burdock Blood Bitters and a few medicines, can give you great relief in dyspepsia and stomach trouble. I was troubled for a number of years with dyspepsia and could get no relief. It helped me to get my rights away and I think it a wonderful remedy. I would recommend it to all sufferers from dyspepsia."

RATIONAL SUNDAY LEAGUE.

First Public Meeting Will Be Held in Toronto Nov. 24.

The Canadian Rational Sunday League will hold a public meeting in the Grand Opera House on Sunday, Nov. 24, when several speakers will give addresses on the lines of the league's principles. A musical program will also be provided.

A 25-page pamphlet for general distribution has just been issued, which, in its introduction to a series of extracts from the press, says:

"On the 19th of March 1907, when the Rational Sunday League was organized, the Provinces of Quebec, Manitoba and British Columbia promptly repudiated the law. Ontario and Alberta submitted to a hateful persecution and interference with their civil rights, which, like many religious persecutions, carried to the limit of oppression."

CHEAP LIGHT FOR ST. KITTS.

Ontario Power Company to Take Over Stark Obligations.

ST. CATHARINES, Nov. 13.—(Special.)—From present indications St. Catharines will obtain street lighting for the next five years at a price below \$350 per night. That was the price of the Stark system, but because of the failure of that company to fulfill its contract, the Lincoln, a subsidiary of the Ontario Power Company, has been supplying light for \$750.

Now the Falls Power Company, a subsidiary of the Ontario Power Co., is taking over the Stark system and is to be paid for the Stark Company's debt and fulfill the contract at a better price to the city than \$350.

J. H. CAMPBELL RELEASED.

McGuire Not Guilty of Assaulting Constable—North Bay Cases.

NORTH BAY, Nov. 13.—At the general session before Judge Leask, now in progress, J. H. Campbell, committed for trial from Cobalt, charged with stabbing Mary Crawford, was discharged, his finding of not guilty. Campbell and his wife kept a house of ill-fame.

McGuire v. McGuire verdict not guilty. McGuire was accused of assaulting a constable in Halesbury at a road-house.

UNIFORM REGULATIONS IN MAKING OF BOILERS

Manufacturers Claim That Varied Provincial Demands Are Not Desirable.

At a well attended meeting of the manufacturers of engines and boilers yesterday preliminary steps were taken towards arriving at a boiler construction act that would be satisfactory to the manufacturers and at the same time protect the public.

F. R. Leonard of London presided. He stated afterwards that existing provincial regulations imposed considerable hardship on the manufacturer or by reason of the diversity of conditions which they require. It would be saving money for the manufacturer, and the consumer would have a better boiler if the provinces would standardize their regulations.

For some weeks the association has been collecting information regarding boiler construction legislation in all parts of the world, and a committee of experts representing six or eight of the largest boiler makers in Canada will shortly meet to evolve a measure that will meet the requirements of all localities and all interests. A strong force will be made either to induce the provinces to amend their legislation or to secure a Dominion act that will supersede the provincial acts.

FIREMEN ARE HUSTLERS.

On the Job at an Early Morning Blaze in Three Minutes' Time.

The Griffin Amusement Co. have sent a cheque for \$25 to the firemen's benefit fund, as a tangible expression of thanks for the work of the department at a blaze which broke out at 1 o'clock in the morning of Oct. 25. The flames were bursting out across the sidewalk before the alarm was turned in, and Manager Griffin, in a letter to Chief Thompson, says:

"We wish to take this opportunity of thanking most warmly yourself and the members of your most efficient department for your valiant efforts, which resulted in the suppression of the fire with but slight damage to our premises."

"We know it to be a fact that within three minutes after the alarm rang the firemen were on the spot—a record which we think cannot be beaten by any fire department on the continent."

RUN OFF ON T. & N. O.

Two Men Injured at Foster Mine Sent to Toronto.

COBALT, Nov. 13.—(Special.)—The engine and a couple of cars of a T. & N. O. freight train jumped the track this morning about 50 miles this side of North Bay. They were pretty badly damaged, as was also the track, and as a result of the wreck, the passenger train due to arrive in Cobalt at 2:30 p.m., was five hours late. No person was killed or injured.

The two men, Mackenzie and Geutiuro, who were hurt at the Foster Mine last week, as a result of an explosion, were taken to the Toronto General Hospital.

INSPECTION OF CATTLE.

Government Has Started Active Campaign Against Tuberculosis.

OTTAWA, Nov. 13.—(Special.)—The government has started an active campaign against tuberculosis in cattle. Dr. J. B. Hollingsworth began to-day by inspecting a herd of cattle near the city. Any affected animals will be marked over to the duty of the government officials. They will be ear-marked with the letter T, and, also possibly allowed to remain on the same farms, will be isolated.

ENTOMBED 87 HOURS MINER'S LUCKY ESCAPE

POTTSVILLE, Pa., Nov. 13.—Imprisoned for 87 hours, several hundred feet below the surface of the earth, almost directly under his own home, where his wife and children mourned for him as dead, Michael McCabe of Gilberton was to-day taken from his tomb in the Draper mine, barely alive. Relays of workmen toiled unceasingly to reach him.

2000 MINERS IDLE. VANCOUVER, B. C., Nov. 13.—Yesterday the Grandby and Snowshoe mines at Ploint, employing 500 men, closed down tonight, said to be due to the loss of power at the mine.

The other Lode mine is reported to be doing likewise, and the three smelters of the district will be blown out and idle probably by to-morrow, making 2300 men out of work.

HERE'S A WAY TO SAVE DOCTOR BILLS

Physicians Give Free Advice by Which Patients May Profit.

It was an association of gentlemen, professionally physicians and chemists, all of whom were born in the free trade, so to speak, and who have been first to give it all their lives, who first gave to the world Castoria, which everyone knows is a pleasant and effective remedy for the ailments of infants and children. It has always been recognized as a meritorious preparation, and its reward has been the greatest popularity ever enjoyed by any medicine ever put upon the market; attained, not by any means, by advertising or appeals to ignorance or vanity, but by inherent merit.

All physicians recommend it, and many, very many, prescribe it. Many persons call in the family physician, or their parents take advantage of what the physician told them when he first called in consultation. All good family physicians advise the children Castoria. Healthy parents know this remedy of old, for they took it themselves as children. It was more than thirty years ago that Castoria made a place for itself in the household. It bore the signature of Charles H. Fletcher then, as it does to-day. The signature is its guarantee, which is accepted in thousands of homes where there are children.

Much is printed nowadays about big families. Dr. William J. McCrann of Omaha, Neb., is the father of one of the largest families in the world. Here is what he says: "I have in my family certainly know something about your great medicine, and aside from my own family I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Charles H. Fletcher has received hundreds of letters from prominent physicians who have the same esteem for Castoria that Dr. McCrann has. Not only do these physicians advise them to use Castoria in their own families, but they prescribe it for their patients. First of all it is a vegetable preparation which stimulates the system, regulates the stomach and bowels. After eating comes sleeping, and Castoria looks after that, too. It always relieves the patient of the distress of sleep, and this absolutely without the use of opium, morphine or other baneful narcotics.

Medical journals are reluctant to discuss proprietary medicines. Hall's Journal of Health, however, says: "Our duty to expose danger and record the means for advancing health is not to be trifled with. It is our duty to remedy what produces deformity and health by regulating the system, and by studying it, and our readers are entitled to the information."

THEY CAST OUT DEVILS. Man and Woman Placed on Trial for Murder.

WAUKESHA, Wis., Nov. 13.—Harold Mitchell and Mrs. Harold Mitchell were placed on trial here to-day on the charge of murdering Mrs. Anita Gilberton, who died in Zion City Sept. 13, after they had tried to "cast out devils" from her. A jury was sequestered to-day and several witnesses heard.

SWORE IN THE SHAH.

TEHERAN, Nov. 13.—The shah went to the national assembly to-day at 8 o'clock in the afternoon in an open carriage. Mounted Cosacks rode in front and Bahari's cavalry in the rear. The streets were lined with soldiers. The square in front of the house was decorated with banners and festoons. Royal princes, cabinet deputies and high officials in full dress uniforms and decorations were present at the house to meet the shah.

He made a short speech; then the Koran was brought, and he took the oath of allegiance to uphold the constitution.

ARRESTED CUSTOMS CLERK.

MONTREAL, Nov. 13.—Amenait, the customs clerk arrested yesterday, is held on a serious charge. A search of his house disclosed \$5000 worth of goods taken from the customs warehouse since the fire. It seems he has been working at the burned building and took a parcel home every night.

Grain Rate Down. CLEVELAND, Nov. 13.—The grain rate from the head of Lake Superior was cut again and is now 1 3/4-cents wheat to Buffalo. A steady decline in the rate is expected for the week and most of them will have a further decline. Ore carriers are badly hit, and it is expected that there is much delay.

The new steamers Eiba and Adriatic, building for the Lackawanna fleet, will be ready for service next week, but will not be put into commission this year.

Sixty dollars and cost for selling liquor without a license at his barber shop in West Richmond street was the portion of James Thompson in police court yesterday.

THE ELIAS ROGERS CO. LIMITED. ESTABLISHED 1858. TOO YOUNG TO MARRY COURTS APPEALED TO. Writs issued for Annulment of Two Marriages—Toronto Junction Couple Figure in One.

Married in haste to repent at leisure is the maxim the truth of which several young couples have been exemplifying lately at Osgoode Hall, due advantage being taken of the statute of last session, providing for the annulling of under-age marriages. Two more writs, making four within a few months, were issued yesterday. Margaret Austin of Toronto had issued one as the mother and next friend of Margaret E. Knight against William Alderson, driver of a grocery rig, of the same town, claiming an order from the court declaring null and void an intended marriage between her daughter and Alderson. An injunction is also asked restraining Alderson from communicating with his wife, either personally or by writing. She accuses Alderson of making false affidavit as to the age of the girl, and by that means securing a license from Cecil March of Toronto. On Axel E. the marriage took place before Rev. Alex. Williams, rector of St. John's Anglican Church.

"The plaintiff never consented to marry the defendant," says the statement of the solicitor in writing. "The defendant, and by his undue influence, and by threats, was induced to go through the formalities of a marriage, which he refused to recognize the marriage, and has refused to recognize it since."

The plaintiff also entered suit on behalf of his 16-year-old daughter, Edna Gill, who was married to the defendant, and this absolutely without the use of opium, morphine or other baneful narcotics.

An echo of a previous application was an order issued by Master-in-Chief, George Cartwright, that Albert E. Noble must pay his wife Agnes E. Noble \$3 per week from July 15, 1907, until the trial of the action for annulment of the marriage. Noble alleged on the application that he was employed in his father's detective agency and was receiving \$11 a week, but it took all that to keep himself. Mrs. Noble, who was employed as a saleslady in Detroit before her marriage, had since her separation from her husband taken employment with a firm on Simcoe street. In addition to the \$3 per week, Noble is also ordered to pay the costs of the proceedings fixed by the clerk-in-chambers.

HERTZIAN WAVES MAY BE USED THUS IN FUTURE. SYDNEY, N. S., Nov. 13.—Altho Signor Marconi is chiefly occupied at Glace Bay with his system of wireless telegraphy, he finds time to devote his genius to other experiments. These, however, for the most part, have to do with the employment of the Hertzian waves, the same that are sent flying across the ocean with messages.

It is practical to employ these waves, Marconi said that in time power will be transmitted between two distant points without any visible medium of communication. However, he has spent but little time on this phase of the question, he said, his work being mainly taken up with the development of wireless telegraphy.

Hertzian waves are now being employed in naval warfare to a considerable extent, Marconi says. Every ship of the British navy with any pretensions whatever, besides being equipped with his system of wireless telegraphy and telephony, is made more deadly by an apparatus invented by him, which by the employment of these same waves controls and explodes torpedoes at a considerable distance.

The Paris cable despatch of recent date that an Austrian electrician is attempting to obtain financial support for an invention which he says will nullify wireless messages in war time has not created any consternation among the Marconi people at the Cape Breton station. It will be remembered that the inventor declares that the apparatus makes unintelligible all messages sent within a radius of 700 miles. The mechanism is quite simple, consisting merely of a revolving tower with one or more batteries which send flashes varying in strength. The radius is stated to be so deluged that the operators will not be able to distinguish one message from another.

The Marconi people admit that this is very interesting, but the answer is obvious. The Marconi apparatus is capable of doing what he represents, what? It only means that while a wire can be cut by a blow and a cable can be put out of business with a few blows, it will require the erection of an expensive plant to put the wireless out of business.

The Norwich Union Fire Insurance Company will make alterations to the warehouse, 12-14 East Wellington-street, at a cost of \$12,000.

THE DEATH OF MRS. SARAH BIGWOOD. The death occurred yesterday at the residence of her daughter, Mrs. William Patterson, 189 Beattie-street, of Mrs. Sarah Bigwood, widow of the late William Bigwood of Devonport, England, 51 years ago, coming to the end of a life of 83 years in Canada in 1853, and in St. John's, Newfoundland, Peterboro, until 12 years ago, when she removed to Peterboro, coming to Toronto some years ago. Death was due to old age. Family of five sons and one daughter survive. The funeral will take place on Friday morning at 9 o'clock at the Union Station, for intermediate of the fifth line, Cayvan Township, Peterboro.

Mrs. Mary Standen. Mrs. Mary White Ronald Standen, wife of William J. Standen of 11 Charles-street, died yesterday evening. She had been in excellent health until Tuesday morning last week, when stricken with a hemorrhage of the brain, was unconscious until the 6th day. Mrs. Standen, who was in her 68th year, was of Scotch origin, her father being the late Andrew Ronald of Glasgow, who was in the 10th Highland Regiment, until 1845, when he was promoted to Major, and was in the 91st Highland Regiment, until 1851, when he was promoted to Lieutenant Colonel, and was in the 91st Highland Regiment, until 1857, when he was promoted to Colonel, and was in the 91st Highland Regiment, until 1863, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1869, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1875, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1881, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1887, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1893, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1899, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1905, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1911, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1917, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1923, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1929, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1935, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1941, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1947, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1953, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1959, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1965, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1971, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1977, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1983, when he was promoted to Major General, and was in the 91st Highland Regiment, until 1989, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 1995, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2001, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2007, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2013, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2019, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2025, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2031, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2037, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2043, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2049, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2055, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2061, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2067, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2073, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2079, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2085, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2091, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2097, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2103, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2109, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2115, when he was promoted to Major General, and was in the 91st Highland Regiment, until 2121, when he was promoted to Lieutenant General, and was in the 91st Highland Regiment, until 2127, when he was promoted to Major General, and was in the 91st Highland Regiment

Liquidation Inevitable Wall Street Again—Toronto Stocks Heavy on Small Selling.

World Office, Wednesday Evening, Nov. 13. The Toronto stock exchange to-day was a reflection of the New York market, very little doing. The attitude of the general public towards speculation is discouraging to the brokers. Many who have money are not inclined to part with it, thinking the market will go lower, hence even this day the power for the moment is removed from the realm of the stock arena...

That New York bankers are negotiating for a large block of \$10,000,000 gold for import from Paris, was learned definitely to-day, and it was generally believed that the deal would be successfully concluded in the near future.

It is understood that the head of the American Smelting and Refining Co. told a friend last night that the next stock would be exchanged from the regular rate of two per cent. quarterly.

Heldelbach, E. & Co. have engaged \$1,200,000 gold for import, making their engagements on the present movement \$1,500,000. The total engaged for import on the present movement is now \$5,000,000.

A prominent international banking house, referring to the demand for currency, says that it could dispose of practically all the gold and currency it could secure at 1-1/2 per cent premium or better.

New York: A report is current in this city, which is confirmed officially, but is credited in usually informed quarters, that Secretary of the Treasury Cortelyou will shortly call for ten per cent of the U. S. Government deposits in the National banks, or approximately \$22,700,000.

Since the reaction in business began the U. S. Steel Corporation has laid off about 20,000 men. So far the reduction in working force has been confined largely to the tin plate and sheet steel departments and the blast furnaces. Average number of employees in service of Steel Corporation last year was 202,475.

There will be no reduction in dividends either on the Union Pacific common or Sao Paulo common at the forthcoming meeting. Both U. P. and S. P. have decided to maintain their dividend policy in all other circumstances in their history. U. P. earned in the late fiscal year a surplus applicable to common dividends of \$20,400,000, or 17-1/2 per cent on common stock. Southern Pacific earned \$3,757,186, or more than 12 per cent on common stock.—Dow Jones.

Joseph says: The Harriman investigation resumed to-day. Do not become too bullish on Union Pacific, its earning capacity is extraordinary, and the dividend rate of ten per cent. pays at its selling price over nine per cent. Some support will be given to Smelters around the present level. On all little stocks buy on-line conservatively, holding for good profits. Speculation—

WEAK ON SMALL SELLING. World Office, Wednesday Evening, Nov. 13.

The Toronto market to-day was weak, on the smallest kind of transactions. After giving evidence of a firmer undertone for the past few days, it must be accepted in the light of to-day's events that liquidation is still proceeding. Mackay preferred, for instance, which sold yesterday at 53 3/4, was quite freely doled out to-day at 53, and it is not improbable that much more of the stock could have been procured at the same price.

There is nothing at the moment governing the situation otherwise than the technical position of holdings. It is quite possible that many accounts have yet to be lightened, and also it is not plain that these may be forcibly thrown on the market, the fact that such is the case is sufficient to prevent anything but the most temporary rallies. Anything that might be done by the government to help the money market can have only a very indirect effect on stock values.

TO EXAMINE ALL BOOKS INFORMATION INVITED

Preliminary Proceedings in the Chambers' Enquiry, Which Continues Monday.

A decision was reached at a preliminary conference of counsel in Judge Winchester's court yesterday to begin the investigation into the civic parks department on Monday next.

Judge Winchester said he was making arrangements to obtain all books and documents pertaining to the case, and that it was his desire to make the proceedings as public as possible. Any communication received bearing on the subject would be treated as strictly confidential.

The announcement was made by Corporation Counsel Fullerton that W. E. Raney would be associated with him in preparing the case, while W. W. Vickers stated that T. C. Robinson, K.C., would act with him as counsel for Commissioner Chambers.

Objection was taken by Mr. Vickers to Judge Winchester's suggestion that all the books of the parks department should be made available to the public, which would "disorganize everything."

Mr. Fullerton said he would oppose such proceeding if it meant a "lot of red tape." Mr. Vickers warmly asserted that such contention was "rot," and that the books were the property of the city.

The Judge ruled that a start be at once made, but Mr. Vickers opposed, saying that Mr. Chambers was unwell. Judge Winchester replied that he would proceed to investigate the books alone.

Mr. Fullerton explained, on behalf of the city, that there was no ill-feeling against the parks department. While all conditions would be respected, anonymous letters would receive scant consideration.

The appointment of W. E. Raney to act with Mr. Fullerton came as a surprise for some sharp criticism at the meeting of the board of control. Mr. Raney is a legal partner of Ald. James Hales, chairman of the special committee chosen to look into the charges.

The mayor said he did not know of the appointment of Mr. Raney, and thought of his connection with Ald. Hales.

THRU TRAIN TO OTTAWA. C. P. R. to Begin Special Service on November 25.

MONTREAL, Nov. 13.—The Canadian Pacific Railway authorities have arranged a new service between Toronto and Ottawa. Commencing Nov. 25 a new train will leave Toronto at 10:45 p.m. and run thru to Ottawa, arriving there at 7 a.m. It will also leave Ottawa at 10:45 p.m. and run thru to Toronto, arriving there at 7 a.m.

The C.P.R. will in the spring make another experiment with the introduction of a motor car on the suburban service, which was tried with only partial success on Fullerton's line between Montreal and Vaudeville. This time the experiment is to be on the Gibson branch, which connects Fredericton with Woodstock.

Killed in Collision. MONTREAL, Nov. 13.—The result of a collision between two ballast trains on the G.T.R. at St. Polycarpe, Fireman A. E. Hope sustained such serious injuries that he died early this morning.

One of the trains was standing at the station when the other crashed into it, damaging the engine and three cars.

Uniform School Books. WINNIPEG, Nov. 13.—(Special.)—The ministers of education for the three prairie provinces, Hon. Mr. Balfour, premier of Alberta, Hon. Colin Campbell, Manitoba, and J. A. Calder of Saskatchewan, held a conference here regarding the question of uniform school books.

MOTHERSILL WON CASE AGAINST FARMER HENRY

Defence Was That Blackmail Had Been Attempted—Jury Brought in Verdict After 20 Minutes.

BRAMPTON, Ont., Nov. 13.—(Special.)—A case which created a great deal of attention in Peel and Halton Counties, was completed this afternoon at the Peel fall assizes.

Joseph Henry, a farmer of Chippewa Township, brought the action against John Mothersill, a neighbour farmer, claiming unstated damages for the alienation of his wife's affections.

The plaintiff charged that an unlawful relationship existed between the two defendants, which ended in June last.

Henry, returning home unexpectedly, discovered Mothersill in company with his wife. He at once attacked and bound him, forcing him to return home in the middle of the day minus his trousers. The plaintiff was subjected to a severe cross-examination by Mr. Robinette, but stuck to his story.

The two daughters of the plaintiff, attractive, educated young women, with tears in their eyes, plainly manifesting the painfulness of the position in which they were placed, corroborated their father's story, while at the same time, in a despatch from their mother, Mothersill testified in his own behalf, and denied everything. He said he was at Henry's house to see the plaintiff on business, that he was pounced upon by Henry and another man, who was masked, abused, stripped of his clothing, and sent out of the house being blacked. The jury had told his wife on the Monday following.

Mrs. Mothersill, their two sons, and a long list of witnesses were called, to show that Mothersill was a good band and citizen, and that the surrounding circumstances were against Henry's story. Mrs. McConnel, a sister of Mrs. Henry, who had heard her husband tell her that it was all a put-up job. T. C. Robinette acted for the defence.

The address of counsel and the charge of the judge occupied nearly the whole day.

The jury charge was a most comprehensive review of every detail of the evidence and required nearly three hours in delivery.

During a very nice reference to his wife and his daughters, by the judge, Henry cried till the tears ran down his cheeks. The jury did not regard the case as so difficult to decide, for after 20 minutes' deliberation they brought in a verdict for the defendant, Mothersill.

ROOSEVELT ASKS POWER TO DRIVE OUT THE TRUSTS

Urges License System With Power to Revoke Charters Pending Appeal.

WASHINGTON, Nov. 13.—President Roosevelt wants personal and unlimited power over the trusts. He wants congress, after forcing all interstate corporations to take out national charters, to give him the authority to revoke the charter of any trust found violating the law, the revocation to take effect immediately, pending appeal.

A bill, which it is said the president will have sent to congress as a radical means of dealing with the trusts, contains the following provisions: First—Make it obligatory on corporations doing interstate business to take out a federal charter.

Second—If the corporations are suspected of violating this law, to have the facts ascertained by competent authority, such as the bureau of corporations, the interstate commerce commission or the department of justice.

Third—If there are violations, the president shall revoke the charter. This provision goes several steps further than that one invented by Milton D. Purdy—namely, to find out if the corporations were violating the law, and then, after certain proceedings, to appoint receivers. The latter plan, of course, did not seek the annihilation of the trust business, but merely suspension.

President Springs His Idea. While there is no specific warrant for the statement, it is said that when newspaper representatives called on the president recently to talk about the paper trust, he said that he was having corporations doing interstate business incorporated federally, so as to have the revocation of the license power as a club to make them do good, or to put them out of business.

The suggestions for the new law probably have been put out to have some discussion before the meeting of congress. At the first blush, it appears to be a desirable measure. It does not provide full sentence for the individuals who are found to compose a trust in violation of the law.

It is nevertheless maintained that, even if there be a final appeal to the supreme court, the law could be so framed that the revocation of the license should become effective immediately and not be interfered with until after the decision of the supreme court.

What looks like an inspired suggestion was based on the belief that the technicalities make real remedy almost impossible through the courts.

He would circumvent the courts by putting the power directly into an executive department. Those who are familiar with the president's expressions in this connection consider it the most vigorous he has yet put before the house.

Some of the conservatives incline to vigorous regulation take the ground that what the president said in this connection is a departure from the usual preparing for no backward step. Critics of presidential politics point out that such a status as suggested would leave the executive department the absolute master of all business.

That the plan is feasible and probably not unconstitutional, last year's lessons, by other means, by people who do not fear measures strong enough to meet the situation.

NOVEL SUIT AGAINST C.P.R. Man Jumped When Told, But Collision Did Not Occur.

OTTAWA, Nov. 13.—Edwin Mostyn has filed a writ against the C.P.R., claiming \$2000 damages for injuries sustained in an expected collision which failed to occur.

While on the way to Kingston recently with the body of his wife, a conductor rushed into the car and told the passengers to jump for their lives as a collision was at hand. A wild scramble ensued, wherein Mostyn says he was trampled first in the car and afterwards when outside.

Predicts Hot U. S. Campaign. DES MOINES, Ia., Nov. 13.—Congressman J. A. F. ONE DEAD, ONE INSANE

Suit of Stacy v. Miller Presents Unusual Features. The original plaintiff dead and the defendant a lunatic—such are the changes wrought since the action, Stacy v. Miller, was instituted. Stacy was an aged resident of Stouffville and Miller his nephew. It was alleged that Miller had induced Stacy to sign a blank cheque for a small loan, but which Miller filled in for \$5000. He drew \$3000 from the bank. Stacy's widow, who has been made plaintiff, seeks to recover the money. "I am at a loss what to do," said E. F. B. Johnston, K.C., for Miller. "I have no instructions in the matter and I cannot get two minutes of sensible conversation with the man. He is quite insane, and I cannot accept the responsibility of going on with the case to-day under such circumstances."

Some evidence, however, will be taken to-day. Beekeepers Meeting. The annual convention of the Beekeepers' Association of Ontario is being held in the county buildings on Adelaide-street. An address of welcome was read last night by J. D. Evans of Islington.

RETURNING TO CAMP IS ACCIDENTALLY KILLED

Son of Mr. Diamond, Near Lansing, Shot Dead—Services at Junction—County Items.

TORONTO JUNCTION, Nov. 13.—Another member of an old and much-respected family in Toronto to Junction passed away yesterday, in the person of Mrs. Margaret Hurd, of 77 Willoughby-avenue, widow of the late Kilburn Hurd, J.P., who died in 1904. Mrs. Hurd, who was 69 years old, contracted a cold not long ago, which developed into pneumonia, the cause of her death. The funeral will take place on Friday afternoon, to Prospect Cemetery. Deceased is survived by Charles Hurd of Iowa City, and Mrs. Byron Kilburn of South Orange, N.J., also two brothers, James Watt of Dakota, and Charles Watt of Mesford. Kilburn Hurd was prominent business man of Mesford, but retired and came to the Junction, where he resided for 17 years, till the time of his death. He was for many years a member of the Junction Board of Health. The evangelistic services at Victoria Presbyterian Church at night, being held completely fill the church. The services will be continued every afternoon except Saturday, and every night till Wednesday, Nov. 20. A meeting for men only will be held next Sunday evening in Victoria Church, and a ladies' meeting in the same evening in the Baptist Church. Both these meetings will be in connection with the evangelistic services. Rev. E. M. Millman will address a public meeting of the Young People's Missionary Society in the basement of St. John's Church, on Monday evening, Nov. 18. The pupils of Annette-street Public School will, under the management of Principal McDonald, be present at St. James' Hall, on Friday evening, Nov. 23. Miss Margaret E. Knight, daughter of Margaret Ann and Frederick of Frederick and Dundas-streets, is suing, thru her mother, for the annulment of her marriage with William Alderson, which took place on Aug. 10, 1907, by Rev. Alex. Williams, in St. John's Episcopal Church, Toronto. The parents claim that their daughter was a minor at the time, and that Alderson made a false affidavit of her age in order to procure a license from Cecil J. Murch, Toronto.

NORTH TORONTO

Returning to Camp, Youth Meets Tragic Death.

NORTH TORONTO, Nov. 13.—A telegram received this afternoon by James Diamond, of the 2nd concession of West York, near Lansing, conveyed the sad intelligence of the accidental death of his son, who had returned from a night, while returning to camp with his uncle's hunting party. Deceased was 22 years of age, and in addition to his parents, his brother, who is employed at Fenwick's barber shop in this village. No further details of the shooting were given. It is expected that the body will be brought home to-morrow.

A few evenings ago a citizen of Eglington had a large party of visitors from Toronto. When the party broke up it was discovered that they could not catch the last car going south, and leaving Cleary's at 12 o'clock, and to run in the barn. They were allowed to ride on that car to the barn, but each only for a few minutes, and in cash. Now the question is asked "by what right can the Metropolitan Railway people charge ten cents a trip?"

The assault case of Thomas Rochford was heard before Judge Winchester this morning. Rochford, being drunk and violent, was charged with what had happened. The crown charged that Rochford had struck his wife with a beer bottle on one occasion, and at another time had kicked her so violently that she had to undergo treatment. Dr. E. Doherty testified that the injuries were serious. Mrs. Rochford pleaded for clemency for her husband, acknowledging that he was drinking pretty far into the bottle, and that he would go to a priest at once to take the pledge. His honor, however, did not favor the idea of setting the prisoner free, and said the last would be useful here, and about fourteen stripes would make a better man of him. I won't let him out to kill his wife, it is better for the county to support the family than to pay the cost of a murder trial. The prisoner was remanded for a week to find out more about him. With the addition of a curate, Rev. Mr. Ladbroke, the attendance at Christ Church, Deer Park, has materially increased, and the latter will make a special canvass of the whole of the parish. The meeting at the S.O.E. Society last night was exceptionally well attended, and a program was formulated for every night of meeting during the winter months. The Women's Foreign Missionary Society of the Presbyterian Church held their annual meeting to-day at the residence of Mrs. Nesbitt, Davistown. Mrs. Atkinson, a returned missionary from South Africa, addressed the meeting. Mrs. James Logie, who attended the recent convention at Newmarket, presented her report, which was much appreciated.

WORTH TAKING.

One ounce Fluid Extract Dandelion; One ounce Compound Salsaparilla; Four ounces Compound Syrup Sarsaparilla. Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the urinary bladder and all urinary troubles. This, says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lameness, sciatica and other afflictions arising from sour, impure blood. The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home. If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

grounds on Saturday afternoon, when the Little York football team met the Thistles. The score last year was 1-3, and this season the locals are hopeful of better success. The weather is favorable the game promises to attract a big gathering. The body of young Wigmore is still an undetected body, awaiting official identification. The Sunday World of Nov. 17 will contain an article on the East Toronto and the Beaches, which ought to prove of great interest locally. The paper will be on sale at Mr. Gregory's drug store, near corner Main and Gerrard-streets, where orders may also be left. Says Fees Are Low. The suggestion of Mr. Hinds and others to utilize the unoccupied portion of the high school for public school purposes is received with favor generally. It is also suggested that a statement showing the comparative number of East Toronto and outside students for each year in the high school would be most interesting. It is charged by many townspeople that \$50 per annum—the amount charged outsiders for tuition—is not enough, in view of the great cost to the town.

WYCHWOOD

Suburbanites in Northwest to Discuss Annexation.

WYCHWOOD, Nov. 13.—A mass meeting of the ratepayers of Wychwood and Bracondale will be held in Hillcrest school-house on Saturday evening to discuss annexation to Toronto. A full attendance of the residents of the district is especially requested. The congregation of the Church of Christ have unanimously refused to accept the resignation of their pastor Rev. D. Dick.

MARKHAM

Farm Property Sells Well in Markham Township.

MARKHAM, Nov. 13.—While the acreage devoted to the growth of the sugar beet has not this year in the Townships of Markham and Scarborough been as large as last the yield has been fairly good. Several carloads have been shipped from Markham station to the Ontario Sugar Co. of Berlin. Some farm lands in York County are not going begging for a purchaser, in spite of the alleged bad year. J. D. Hamilton of Locust Hill has sold his farm of 100 acres, with a good house, for \$8800, or at the rate of \$80 an acre. James Penny has bought Wesley W. Palmer's farm of 100 acres, the east half of lot No. 5, con. S. Markham Township, for \$7000. The property is a good one, and the price reasonable.

The auction sale of lots and household property belonging to Joseph Heebner was fairly satisfactory. Rev. E. L. Lidgion of St. Thomas, formerly of Markham, will preach the sermon at St. Andrew's Presbyterian Church here on Sunday, Nov. 24. On the Monday evening following a high-class concert will take place at the residence of Mrs. Nesbitt, Davistown. The Speight Manufacturing Co. are closed for repairs and stock taking. Annual report, and will, it is expected, re-open on Nov. 18.

WESTON

Great Success Attends Women's Institute Meeting.

WESTON, Nov. 12.—The regular monthly meeting of the Women's Institute was held in St. John's Hall here, one of the best gatherings of the season. 65 ladies were present. Miss B. Duncan, graduate of the Hamilton School of Domestic Science, gave a good practical talk on "Everyday Helps to the Housewife." Mrs. Dr. Irwin rendered a solo most acceptably, and Miss Bookless, assisted by Miss E. Scoville, gave two violin selections; Miss M. Amherst a reading; Mrs. J. H. Taylor and Miss E. Savage presided.

HOLLAND LANDING.

Last Horse Trade Was a One-Sided Affair.

HOLLAND LANDING, Nov. 13.—Stephen Thompson, on his arrival home last night, received a summons from Police Magistrate Woodcock, charging him with horse stealing. He appeared before Judge Winchester in the court this morning, when the crown attorney stated that while Thompson was legally guilty there seemed to be no criminal intent. Thompson had traded horses, and thinking he had the worst of the deal, he had changed the steeds, this time without the sanction of the other man. Thompson was released on suspended sentence. The will of the late F. Morton of North Gwillimbury, entered for probate, disposes of an estate valued at \$30,700, to the widow, two sons, Raymond P. and Francis A. Morton, and a daughter, Lella P. Morton. Provision is made for the education of the children. The estate consists of 50 acres of land in North Gwillimbury, worth \$6000, and the balance in other parts.

Tremayne, rector of St. George's Anglican Church, Islington, is said to have tendered his resignation of his present official position, to become assistant to his father, Rev. Canon Tremayne, rector of Christ Church, Mimico. Archbishop Sweatman was this morning waited upon by a deputation respecting another rector at Islington.

MRS. TOWNSEND MAY YET BECOME A DUCHESS

By Means of Little Financial Juggling, the Necessary Amount to Buy Duke May Be Raised.

BRIE, Pa., Nov. 12.—By a decision of Judge Walling, from which an appeal probably will not be taken, Mrs. Richard H. Townsend, of Washington, New York and Newport, will have \$2,000,000 available immediately from the immense fortune left to her and her sister, Mrs. Charles H. Strong of Erie, by their father, the late Congressman William L. Scott. The court holds that the \$2,000,000 realized from the sale of the Scott Coal Company should be classed as profits, not as part of the principal of the estate, which the thrifty millionaire laid up so that his daughters might use the income. If it is true, as has been reported from Washington, that the Duke of Alba, possessor of the longest and proudest string of titles in Spain, has been hesitating about marrying Mrs. Townsend's daughter, Mathilde, because her income would not amount to more than \$200,000 a year, which is four-fifths of her mother's, the addition of a million to the maternal bank account may be welcome news. Mrs. Mathilde Townsend's engagements have been romantic and by no means few in the minds of a gossiping public. The most persistent story has been that often repeated on both continents in the last year attaching her to the Duke of Alba. Miss Townsend is one of the handsomest belles of Washington. It was reported there only a short time ago that the duke had sent his financial agent to audit the family accounts, and that he had discovered that Mrs. Townsend's income did not exceed \$250,000 a year. It was stated that the marriage was in doubt because the duke could not afford to let his eleven distinguished titles go at such a figure.

APPEAL TO POLICYHOLDERS.

Insurance Companies Will Fight the Proposed Legislation.

That the proposed insurance legislation will be vigorously fought at Ottawa by the companies seems likely. Already one of the larger companies is sending out to its policyholders a petition which they are asked to sign for presentation to parliament, which reads: "We do not approve of the draft bill of the royal commission as it at present stands, and earnestly hope that parliament will eliminate or carefully amend all clauses that would tend to lessen the security or diminish the profits of policyholders. We favor the requirement of the utmost publicity in regard to the transactions of the companies, believing this to be the most effective way to prevent abuses. We favor granting the companies reasonably wide investment powers, believing that to unduly restrict the field would be unwise, and would lessen the profits of policyholders, and thereby increase the cost of their insurance, without adding to their security. As most of the evils found in the United States were shown to not exist in Canada, we do not consider that it is necessary to copy the Armstrong law here. Sufficient time should at least be allowed to judge of its workings in New York before adopting it in Canada. The circulars dilate on the intricacies of the insurance business, and on the capability of the government commission and the justice of the proposed legislation. We appeal to you to assist us, to avert the calamity with which we are now threatened," is one of the paragraphs of the circular.

Significant Protection.

CAPT. TOWN, Nov. 13.—(C.A.P.)—A non-party mass meeting adopted a resolution proposed by Schreiner supporting a protective tariff on South African products. The meeting is regarded as marking a significant protectionism.

A DOMINION DEPARTMENT.

Elgin issues an Interesting Despatch Sent to Premiers.

LONDON, Nov. 12.—(C.A.P.)—Lord Elgin issues copies of a despatch sent to the premiers of the self-governing colonies respecting the reorganization of the colonial office. It enlarges the scheme Elgin outlined in the house of lords, dividing the office into three departments, one the Dominions department, crown colonies department, and the general department. The secretariat of the imperial conference linked the Dominions department, without being entirely merged therein. Lord Elgin says the reorganization is made in a strong desire to promote the interests of all parts of the empire and produce efficient, sympathetic treatment on the manifold questions which arise. He asks for cordial cooperation of all concerned. Means—Hopkins. PORT COLBORNE, Nov. 13.—Miss Alice M. Hopkins was united in marriage to Mr. Harry Means of Toronto this afternoon at the home of the bride's brother, Mr. L. J. Hopkins. The Rev. D. R. Smith of St. James' Church officiated. The bride wore her traveling gown of brown chiffon broadcloth, with hat to match. Mr. and Mrs. Means left on the evening train for Toronto, where they will reside.
