THE DAY'S EVENTS REVIEWED

No the British front a heavy artillery action prevailed on both sides yesterday, the bombardment being intense. Continuing their pressure towards Lille, the British exploded a mine, shaking up the Germans near Railway Wood, south of the Ypres-Roulers railway. Irish regiments have again won the distinction of being mentioned in the despatches of Sir Douglas Haig, who says: "The Irish regiments which took part in the capture of Guillemont share in the success gained that day." Under cover of Thursday night, the British troops stationed southeast of Guinchy and near Richebourg l'Avoue, raided the German trenches and inflicted severe casualties. It was in this district that the British heavy artillery and trench-mortar bombardment opened on Thursday. The raid by night was after the customary manner of feeling out the effect of the British fire.

In isolated actions at close quarters the French increased the area of their occupation of Vermandovillers, south of the Somme, yesterday. It is probably the delay in clearing the Germans out of

LONDON, Sept. 8.-The presen operations in Galicia are now regarded by military critics in Petrograd as a "Russian general attack," says a Reuter despatch from the Russian capital. The military critics comment on the difficulty facing the central front. powers in being driven to fight on two fronts, namely, against Gen. Sakharoff on the east and Generals Scherbatchoff and Letchitzky on the south.

Regarding the heavy fighting in the calties on the enemy. The Germans region of Halicz, southeast of Le:nberg, where the Germans, Austrians and Turks are all fighting stubbornly, the critics say the Russians have overgreed Guillemont on Sunday have received especial mention in the despatches of Sir Douglas Haig. Drive Foe Forward

The Russians have driven the Austro-German fonces under General Von Bothmer across the Gnila Lipa River at a point north of Halicz, and they are carrying out an encircling movement of that important place. The Austrians claim that fighting is still proceeding east of Halicz, but from various sources it is learned that the Russians have that city practically in their possession. They are menacing the sole remaining line of retreat of the garrison.

The Teutons are still offering a des perate resistance to the Russian advance from the western bank of the Gnila Lipa River and they are bombarding the advanced Russian detachments from the positions to which they have retired under Russian pressure. The exact position in regard to Halicz

s unknown.

German Attempt Fails.

The Germans failed in a desperate attempt to drive back the advanced Russian forces, which captured their positions on the western bank of the River Dwina, north of Dvinsk and south of Riga. They presaged their counter-attacks with heavy artillery preparation, but when their infantry advanced it was severely repulsed by the Russian fire.

The Russians also repelled by their

Allies Continue Heavy Bombardment on Whole of Somme Front-Heavy Fighting Breaks Out Again at Verdun, Germans Being Repulsed.

Special Cable to The Toronto World.
PARIS, Sept. 8.—The only feature on the French front south of the Somme today was the capturing of additional ground in the Village of Vermandovillers in isolated engagements. Fifty prisoners were taken by the French.

On the whole of the Somme front the artillery struggle continues actively. The bombardment each day grows in fury. French and British batteries never cease to pour out a deluge of thousands upon thousands of shells of every calibre, German positions are surrounded by clouds of dust and smoke and one frightful explosion follows another, throwing up enormous masses of earth and material. Tonight the sky resembles a vast furnace, with the illumination spreading as far as the eye can see.

Fighting Lively at Verdun. On the Verdun front the fighting was lively, with the Germans attacking the French positions recently established in the Vaux-Chapitre Wood. Their assaults were repulsed. The French, in grenade attacks, advance i

southeast of Thiaumont. The following is tonight's official French communication:

"South of the Somme isolated engagements enabled us to advance in the Village of Vermandovillers, where we captured about 50 prisoners. "The artillery struggle continues actively on the whole of the Somme

"On the right bank of the Meuse the Germans launched this morning several attacks against the positions we captured in the Vaux-Chapitre and Chenois region. tack. In the Thiaumont sector and on the Fort De Vaux road there was a violent cannonade. In the Forest de Parry an enemy attack on one of our works was repulsed. Elsewhere on the front there was the customary cannonading.

"Aviation: During yesterday on the Somme front two enemy aviators were brought down in the Epenancourt region and another, compelled to descend after a fight near our lines, was destroyed by artillery fire. Three other enemy machines appeared to be seriously injured, the observer of one being killed by machine gunfire.

It is confirmed that on the fifth instant Lieut. Guynemer brought down his fifteenth enemy aeroplane in the region of Abalincourt."

Practically every soldier in Toronto will attend the funeral of Lieut-Col. C. Nesbitt Shanly, D.S.O., of the Canadian Army Pay Corps, who died at his regidence, 15 Willcocks street, on Thursday. It will take place this afternoon at 3 o'clock and the following teglments have been ordered to parade at the armories at 2 p.m.: Q.O.R., 10th Royal Grenadiers, 48th Highlanders, 9th Mississauga Horse, the Governor General's Bodyguard, 109th, Canadian Army Service Corps, Army Medical Corps, Corps of Guides and all other city and overseas units.

The late Lieut.-Col. Shanly was the only surviving son of the late Francis Shanly, the prominent railway engincer, and was a native of Toronto. He was educated at Upper Canada College and for three years was the official secretary of Sir John Gibson, ex-ixt-Governor of On ario. For twelve years he was connected with the 10th Royal Grenadiers and held the rank of adjutant for three. When war broke out he was in the employ of the militia.

# HIGH-CLASS QUALITY

The present season is said to be one of the best in years for the growth and ripening of red clover seed. All over the county and down thru Ontario, Durham and Northunberland, the red clover heads are filled with a high-class quality of seed. One man in Markham Township, on the 2rd concession, who had about 90 acres of first crop clover and could not find time to cut it before, has just done so, with the result that while it is useless for feed the value of the crop is more than doubled in the splendid sample and turnout of seed. Practically the same report comes from all over the county, and while alsike is only an average crop the red clover will make up for it. Clover seed is high and scarce, and commands a ready sale in the city and at country points.

# The Eureka Electric Cleaner

One of The Very Best of Its Kind. With Several Special Features That Make For Efficiency, Speed and Convenience

TO HOUSEWIFE dare profess to be up-todate unless she owns an electric cleaner. Ease, thoroughness and speed in household cleaning are its magic charms. The old-time toil of sweeping and dusting vanishes with its use. The only question that arises is-which cleaner to buy?

Wherefore it behooves us to draw attention to the "Eureka"-proven by practical test and official award to be one of the most satisfactory cleaners on the market. Here are some of its special and particular features:

The convenient button switch by which the electricity controlled. It is on the handle. You simply press this outton lightly forward to start the machine, and draw it lightly backward when you wish to stop.

The curve in the handle. It fits the natural position of the hand when drawing the machine back and forth.

The Eureka runs on rollers. The entire machine rests three rollers, permitting it to glide over the floor, with the least possible effort to the person operating it.

# Gigantic Special Selling of Petticoats Takes Place on Monday and Following Days

In Which Will Be Featured Dozens of Remarkable Values—Petticoats of the Most Varied Description and in Many Cases at Prices That Scarcely Cover the Cost of Material.

ONG AGO IT WAS DECIDED TO OPEN THE AUTUMN SEASON with a really record-breaking selling of Women's Petticoats, and for many months our buyers have been making preparations for the great event -buying materials whenever an advantageous opportunity presented itself. With the result that now we offer the largest collection of low-priced petticoats that it has ever been our good fortune to assemble.

AND A POINT TO BE REMEMBERED IS THAT THESE LOW PRICES ARE FEATURED, NOTWITH-STANDING THE FACT THAT THE COST OF MATERIALS HAS IN EVERY CASE INCREASED SINCE LAST YEAR. All the petticoats are cut on the lines that Fashion has prescribed for Autumn wear-with plenty of fullness, and with moderately deep flounces.

These groups selected as Monday's special offering will give an excellent idea of the representative nature of the collection:

#### Group 1-Taffeta Petticoats

### Silk and Wool Poplin, Less Than Half-price

An Extra Good Early Morning Special in the Dress Goods Departments Monday

VERY piece of this poplin is new and fresh; in-Deded, from many pieces not a yard has been cut, and the only reason for such reductions is that our stock in these materials is unusually heavy. There are two weaves one the usual silk and wool poplin of moderate weight; the other is fine and light as to resemble edienne.

Both are 40 inches wide, and suitable for either dresses or light-weight suits. The color range is most extensive, and includes many of the new blues, as well as several shades of navy, Balkan, myrtle and Russian

greens, taupe, brown, sand, slate, Burgundy, old rose and black, and many others. The quantity is considerable, but at such a price it is not to be expected that it will last long, so come early. Less than half price, at \$1.19 a yard.

# Review Day Stimulates | Big Athletic Meet at Exhibition Today | Another Children's Day Interest in Live Stock | Big Athletic Meet at Exhibition Today | Another Children's Day SEPTEMBER 9 1916 -

# IMPORTANT INDUSTRY RECEIVES RECOGNITION AT THE EXHIBITION

Educational Value of Fine Exhibits in Live Stock Has Great Influence Thruout Dominion and is Particularly Essential When Country is at War.

In order to reach the million mark, 189,001 persons will have to but in an appearance at the Exhibition today. The attendance figures were boated yesterday by 57,000, or 4,000 more than the premiods year. On the same day in 1913 78,000 persone passed thru the turnstiles. There is still a chance to "beat the million."

Review Day is one of the most significant at the Canadian National Exhibition, for at is the day that all the prize-winning live stock is paraded, and emphasis is placed dpon the value of live stock as an industry in Canada and upon the important part it plays in making the Exhibition what it is today. It will not be the fault of the directors if interest is not awakened in farming pursuits for they have made it a point to have on view the very finest examples of pure breeding and have left no stone unturned to encourage breeders to put their stock on exhibit.

That the industry is recognized by the public at large is proven by the thousands who have visited the stables during the past two weeks and by the large numbers who witnessed the parade yesterday. This year's fair will do much towards focussing attention along these lines and this means a great deal especially in time of war. It has been the aim of the officials this year particularly, and at all times, to try to create ambitions in the youth of the country and city and the education which one receives by seeing the best in any line is of untold value to the individual and ultimately to the country at large. The best in many lines has been seen during this Exhibition. As from year to year improvements are made, discoveries disclosed and progress attained, so has it been the plan to draw these things together, get them within a prescribed area under their proper classifications, easy to locate and at liftle or no expense to those who wish to see them and profit thereby.

The influence of the Canadian National Exhibition is felt from coast to coast and the benefit which Federation Year will be to the Dominion can not be estimated.

Art is Discussed.

# EVERYBODY GOES TO EXHIBITION ON CITIZENS' AND ATHLETIC DAY

Grand Wind-up of Federation Year Will Take Place Today, and Big Attendance is Expected for Athletic Events.

"Everybody goes to the Exhibition on "Citizens' and Athletic Day" and everybody is expected to make one final effort to get as close to the million mark as possible. For today a big athletic program has been arranged, one of the largest to be held anywhere this year in the Dominion, and on that account it is fully expected that a large number will be seated in the grand stand this afternoon to witness the events.

This is second "Children's Day" too, and again all the youngsters will be admitted to the grounds for five cents each. This will not only augment the attendance but will give the kiddles another chance to see all the things they missed on their own real day. It will give them also another opportunity of seeing the wonders of the wond and here again a five cent piece will be the medium of exchange. A bigger naval battle than ever before will be put on this evening and, in fact, it is to be the real finish and will undoubtedly put a fitting climax on the biggest attempt the directors have yet made for success.

# LOVERS OF HORSES SEEK PEARS' STABLE

Everyone Admires Big Gray Beauties and Makes a Point of Seeing Them at Exhibition.

Many who visit the horse department of the Canadian National Exhibition ask the whereabouts of the big gray horses and as a rule they are directed to stable No. 15, where William Pears of West Toronto keeps his splendid an-Everyone admires the big beauties, but horsemen are particularly interested in their pedigrees and performances, the list of which is a long one. First, to the right of the east door is Cormier (Imp). This horse has been shown for several years, and still rytains much of his bloom. Last year he was first and second in the Produce Stakes, prizes for which were given by the Dominion Government. This year he headed the group of best five Percherons on the grounds. He has been champion several times and is undoubtedly one of the best stock horses in Canada. In order, following the great white stallion are these others: Major Cormier, three years old, 1st at Toronto in 1914, not shown in 1915, 2nd this year, and one of the five which won the gold medal; he is the magnificent colt weighing 1900 lbs., and will mature as a great horse. He is owned by William Unger of South River, Parry Sound, but was bred by Mr. Pears. Lady Grey, a five year old mare, was first in the brood mare class 1916 and 1915, and won the silver medal for the best Percheron mare; she hus been three times champion, and in fact has never been beaten. She was bred by Mr. Pears, and is one of the most typical Percherons that we have seen. Kocarde, an imported mare, 6 years old, is very large; 18 hands high and weighs a ton; she was 3rd in 1915 in the brood mare class, and 4th this year. Her foal of 1915 won 1st prize for yearling filly and this year's foal was 2nd in its class. Kocarde is a very large mare, but very clean and is proving a high class brood mare, having three foals to date, two of them taking 2nd and the other 3rd prize this year. Julia (imp.), black, won gold medal and championship at Toronto in 1912 and 1913, and has always been in the money; was 3rd this year, and of her three filly foals, the oldest, 3 years,

Piper made a profit of over \$5000 on the deal. The late Goldwin Smith was in the habit of taking a number of children to the zoo and lecturing to the animals.

The so long away from Toronto, Mr. Piper has always retained a great interest in the city and has closely followed its progress. He is now 77 years of age, but is as hale and hearty as many much younger. Two nephews are the head of the firm and N. L. Piper Company. Yesterday he was the guest of Dr. Orr, at the Exhibition, and greatly enjoyed the grand stand performance in the evening. He intends visiting the fair again today.

SAVE THE CHILDREN.

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmiess even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

### Coming Warwick of the Middle West

Henry Ford has submitted patiently to being called a crank, a lunatic, a freak and a hypocrite, but he objects to being called an anarchist, and is, troops, which, magnificent as they are therefore, suing The Chicago Tri- in action, cannot be expected to know bune for \$1,000,000. Littel suits are usually jokes in the United States, but Ford has a way of smashing records which may well cause uneasiness to is nothing more nor less than unsel-After all, it is difficult to prove that a man is an anarchist, freely as that epithet is bandled about. The Chicago working men who sit upon the jury may manifest a disposition to encourage the Detroit brand of anarchy. If John Reed lives in . Chicago, Medill McCormick will certainly see that he does not sit on the jury. Mr. Reed contributes to the current number of The Metropolitan Magazine a most eulogistic article upon Ford and his work, entitled "Industry's Miracle HYDRO-ELECTRIC CASE Maker." The article, perhaps, makes the hero too good to be true, but certain outstanding facts are well worthy of attention. We are told that Henry Ford is the only rich man in America who is independent of Wall Street, and that Wall Street is out to get Henry Ford.

IN OSGOODE HALL held in Port Credit, it was decided to make one more effort to locate the unfortunate woman.

Attorney-General Applied for Orthodox was located in about 42 feet of water, and about 25 feet north of where the canoe was found in the rushes. When taken from the water the body was fully clothed and in perfect condition. Mrs. Victor's jewels, private papers, and conv. of the left.

How Wall Street can get at a man who needs no credit, and has millions upon millions of idle cash upon hand, does not clearly appear, but Mr. Reed believes that the U. S. Steel Corporation and other concerns controlled by attorney-general, and E. C. Cattanach the "Street," will try to cut off Ford's for the commission. raw material; meanwhile he will not sell out. In declining an offer of one billion dollars for his plant now capitalized at two million dollars. Mr. writ of any claim against him. If DR. PYNE TO DECIDE ON Ford declared that he would tear the action is brought against the at down the factory brick by brick with his own hands rather than allow it to become the basis for stock exploita-

tion and the deviltries of high finance. Ford hates Wall Street in general, but he is especially bitter against the distillers' trust and the Standard Oil nonopoly. He says there is no use for him to make cheap automobiles, and presenting the company. especially cheap tractors for the farmers, which he is planning, if the SNOWBIRDS APPEARED farmers and producers generally are to be exploited by the soaring prices of denatured alcohol and gasoline.

Ford is, therefore, at work upon formula and a simple plant, which will enable every farmer to produce his own motor fuel upon his own farm at a trifling cost.

Ford is said to represent in a striking manner the ideals and the sentiments of the middle west. He is something of an idealist, but he backs up his ideals in a financial way. If he sentence of 30 days on the jail farm. preaches socialism, he pays high When arrested by Morality Officer Kerr, he stated that a quantity of local leaders, a merely verbal uplifter. there by another person, whose name, Even his pacifist views, outlandish as however, he refused to divulge. they may sound to us in Canada, rather appealed to many voters west of the Alleghany Mountains. ### Learning Russian

Dr. Hunter was well advised to sugrest that Russian be substituted for German in the high school curriculum There will no doubt be plenty of obectors among the class of people who always object to any new idea. It has also been suggested that teachers are difficult to obtain. This is not the experience of those who have made the attempt. It is fairly obvious that a nation of 180,000,000 should be able to supply some teachers from among its emigrants.

There is no good reason for dropping the language of Goethe and Schiller and Kant and Hegel and Schopenhauer and Wagner altogether. But Russian literature is not less rich than German, and the Russian language is almost the most remarkable of spoken tongues. It adds an entirely new element to our English speech which German cannot claim to do, and we would thus be the richer for any familiarity we may cultivate with the Slav mind.

Russian should at least be on th same basis as any other language as an optional subject, and it has certainly a much better right to be compulsory than German has.

#### Team Play

Team play is necessary in war as well as in sport. The infantry, carried away in the fury of a recent successful charge and chasing the Germans as they had been hoping to do for two years, were over eager, and as a result lost half their gains. The Germans had massed in their own rear for a counter-attack, and would have presented a splendid opportunity for the British artillery, but the British infantry were too far forward to risk the shelling of the Germans, who would otherwise have been blown to pieces. Perhaps this over-eagerness Ended Her Life After Hus was due to lack of discipline in

everything about tactics. But it is a fine example of the necessity for team play, and team play fishness, whether on the part of a single player, or of a regiment, or of The artillery must have its chance as well as the infantry, and the time is coming when the cavalry may outdistance them both. # POLITICAL NOTES

The British Columbia elections, occu next Thursday. The legislative term expired some months ago, but by common consent the elections were deferred until September. Hon. W. J. Bowser, the Conservative premier, is confident that his government will be returned to power, out the Liberals, headed by H. C. Brewster of Victoria, appear to be no less confident. The campaign now drawing to a close has been characterized by unusual bitterness, and no matter how the election results, we may expect to near wholesale charges of electoral corruption.

The Conservatives in 1912 certical the province so overwhelmingly that not a single Liberal candidate was returned to the legislature. In 1910 their triumpy was almost as complete. Dissensions within the party, the enforced retirement of Sir Richard McBride and the astounding majorities piled up against the gov-ernment in recent by-elections, have all combined, however, to entirely change the situation, and there are many today

who believe that the Bowsen government s doomed to defeat. Sir Charles Hibbert Tupper is stump-ing the province in the Liberal interest. He declares that he is still a good Conservative, but that the only way to rid he party of the Bowser junta is to defeat the present government. Other Con-

hollow of his hand. Open disaffection first became apparent after the failure of the Dominion Trust Co., the compres of the real estate boom and the refusal of certain railway corporations which had been financed by the prevince to proceed with their ambitious programs of railway construction and terminal improvements. Sir Richard clashed with his followers in the legislature upon a proposal to grant further financial aid to the Pacific & Great Bastern Railway. Little is known as to details of that clash, but its net result was the resignation and exile of Sir Richard and the promotion of Mr. Bowser to the premier-

Since then, the Bowser government lost by-election in Vancouver by over four housand majority, was fairly swamped in a Victoria by-election and escaped by he skin of its teeth in Rossland, where Lorne Campbell, a newly-appointed minister, sought re-election. True, the Bowser government claims that gross frauds were ommitted by the Liberals in the Vancouver by-election. If any frauds were committed they were certainly unnecessary, but the Liberals will nevertheluss suffer from their commiss

The socialist vote is a big factor British Columbia, and it can easily defeat the government by going to the Liperal candidates. As a rule, however, the socialists refuse to coalesce with any other party, and it would not be surprising if in many a riding the Bowser candidate slips in with a majority of the voces against him, but divided between the Liberal and socialist candidates.

The soldiers are to vote, but for some reason their votes are not to be counted antil a month after the election. The Liberals are protesting loudly that some trickery is intended. Should the stay. at-home vote, as recorded next Thursday, be against the government and the soldiers' vote as counted a month later so change the result in certain close ridings as to give the government another lease of life, there would be a cry of fraud arise immediately. However, if the Bowser government be beaten, the defeat will be in the nature of a land-

If the Bowser government is defeated many will regard the result as foreboding disaster to the Conservatives in the federal field. It would come as final blow following in the wake of so many Conservative reverses. Premier Bowser, however, is confident, and he is one of the keenest politicians in

The result may hinge upon how the personal friends and followers of "Our Dick" regard Mr. Bowser. They are sufficiently numerous to defeat the premier if they really go after him. But it is almost impossible to forecast the result of a contest so far away.

The commission passed resolutions advocating the immediate promulgating of a land settlement scheme for returned roldiers, and the building of a national transcontinental highway commissions to synchronize with feat the present government. Other Conservatives, scargely less prominent, are supporting Liberal candidates.

A deputation from the Muskoka Free Hospital for Consumptives waited on the commission, which discussed further accommodation for tubercular soldiers, and left it in the red Alfred Thompson, and the committees in Ontario and Quebec to go into the matter and, after securing expert medical advice, to define a definite policy to deal with the situation.

Physical Drill Reduced Wastage.
Lloyd Herris and Major Todd, both
of whom have recently returned from England, reported to the com that in the various convalpitals there during the last few months a system of physical drill had been installed which had resulted in reducing the wastage from 80 per cent. to 17 per cent, approximately. A similar system will be instituted in all the military hospitals in Canada. At present it is in operation in Montreal, Kingston and London.

T. B. Kidner, vocational secretary, presented a report on vocational train.

Locals Unable to Do Anything With Colwell While Royals Score Seven.

It is quite awhile since the Leafs got a trouncing like the Royals handed them resterday. The Royals peppered the offerings of Letty McTigue to all corners of the lot and scored a 7 to 0 shutout. The Leafs found Colwell a

were well scattered.

In the Royals' little lot of fourteen hits one homer and seven doubles were included. Paul Smith, he who plays included. Paul Smith, he who plays sterling ball in right field for the visitors, had a large afternoon. He got the homer, a double and two singles in five times at the plate. Lefty McTigue was the only Leaf who could hit Colwell's puzzlers with any regularity. The local pitcher banged out a double and two singles.

McTigue had an off day, that is the only way we have of explaining the alaughter. The Royals started in to bang him in the first territories.

Summary—Sacrifice hits—Maisel, Slattery. Stolen base—Smythe. Home run —P. Smith. Two-base hits—McTigue Howley (2): Smythe, Cather, P. Smith, Moran, Maisel. Double play—Damran to Smythe to Slattery. # MANY STARS ARE TO GET THE GATE

Larry Lajoie, It is Rumored, Will Retire-Sam Crawford Slipping.

CHICAGO, Sept. 8.—The personnel of major league baseball is in for a tremendous shaking up next season. The star of many a leader is slowly sinking beneath the horizon and new faces and young blood is at hand to replace them.

Among the most prominent of the old heads who seem certain to fall by the wayside is Larry Lajoic. The veteran infielder, while he has been playing a great fielding game with the Athletics this season, has forestalled possible managerial action with the announcement that he will retire with the end of the season. Sam Crewford, the still dangerous as a batter, is slowing up, and several incidents of late would indicate that Jennings is getting ready to place the skids under "Wahoo" Sam. Oscar Stnage is another of the Tigers whose days with the big show are numbered.

The Lenching of John Collins and the suspension of Jim Scott of the White Sox indicates to those who know the inside workings of the south side team that both are slated for the minors. Scott has enjoyed his last fall from grace, and Collins should never have been kept on the Sox as long as he has. Clyde Milan has been slipping with the Senators, and while he may stay in the American League yet for a while he's sure to be cast adrift by Griffith.

Latry Cardner of the Red Sox and Gandil of the Indians are on the list, while it is better than an even money bet that Evers will be missing from the Braves' line-up next season.

CUP FINAL TODAY. It should be a great game of soccer at the Varsity Stadium today when Haracas and Eatons meet in the replayed final of the Ontario Cup (Toronto series). These teams met last week and played to a draw. All other games are canceled, and a good crowd should be on hand.

DETAILS ARRANGED. All arrangements for the soccer inter-national, All-Canada v. All-United States, have been completed. The Canadian team will play in Providence and New-ark next month, dates to be arranged later.

Chilcoote Won in Straight Heats, Race Lasted Three Days

Chilcoote, four-year-old stallion, by San Francisco, dam Chimes Girl, won a great race in the \$1000-stake at Wheeling, West Va., over a half-mile track, beating the great horse, The Toddler. The race was a very peculiar one. On Tuesday they came out for the stake and went one heat before a downpour of

cannot be heat in \$11\square and not her downpour of rais caused a postponement until Thursday, when Chilcoote won the final heat in 2.12, making it three straight heats, a remarkably fast race over a half-mile track not fast. He was driven by Nat Ray of Toronto and defeated The Toddler in three straight heats, driven by Harry Stinson, son of the late Cope Stinson of Brantford, also beating Ormond Rose, Tommy Todd, Lord Talbot and others not in the money. This stamps Chilcoote as one of the best four-year-olds ever brought to Canada, as each and every horse in the race tried to defeat him. CHICAGO GOLFERS WILL PLAY FINAL

C. Evans and R. Gardner Remain for U. S. Championship.

PHILADELPHIA. Sept. S.—The national amateur golf championship of 1916 is a prize assured for the west for another season at least, as Charles Evans, jr., and Robert Q. Gardner, both of Chicago, won their way into the finals of the titular tournament on the course of the Merion Cricket Club today, and will meet for the championship over the same sward tomorrow. Gardner came thru to the final by defeating Jesse Guilford of Massachusetts, 5 and 4. while Evans eliminated D. C. Corkan of Baltimore, In this meeting of Caratan and 2.

Massachusetts, 5 and 4, while Evans climinated D. C. Corkran of Baltimore, 3 and 2.

In this meeting of Gardner and Evans another chapter will be written in American golf history, for it will be the first time that a defending amateur champion has ever faced the amateur open title-holder of the same season. Chick Evans, one of the three amateurs of recent years to hold the open honors, as a result of his victory at Detroit in June, has the opportunity to capture two national championships in the same year, but in Gardner he will meet a worthy adversary, for the 1915 laurel-bearer is a fighter in every sense of the golfing terms.

As a result one of the best exhibitions of amateur play of recent years is expected tomorrow, for neither finalist was overgolfed in winning his way into the final. In fact, the play, taken as a whole, was rather slow, neither victor being closely pressed, while, in addition, the afternoon rounds were played in a gale of wind, thunder, lightning and heavy rain, which drenched spectators, officials and the four competitors in the semi-final round.

Hamilton and Toronto Soldiers filitary Rugby League This Fall.

Up in Camp Borden they have it all doped out for military Rugby on such an extensive scale this fall that the Big Four would not be seriously missed. It is proposed to have a two-team Soldiers' Union, one of Hamilton men is proposed to have a two-team Soldiers' Union, one of Hamilton men in khaki, under Major Sammy Manson of last year's Tigers, and the other Toronto soldiers, under Lieut. Frank Knight of last year's Argonauts. A double home-andhome schedule is proposed. This would partially fill the bill, and the Rugby fans would have the chance of seeing at least two good senior games this year of strife. There will be activity in the City League, where the executive are waiting for the teams to declare themselves, and upon receipt of information as to what series they intend entering, the schedules will be prapared without delay, so that an early start may be made. To date three teams have stated their intention of playing in the intermediate series, viz. Beaches, Riverdales and Capitals. The 5s and 11s-lb, series, will be continued this season.

the St. Louis Cardinals would be at present.

Mesdows first donned the "cheaters" when five years of age. Today, at 22, he is the star right-hander of the Cardinals' slab corps, and has worked this season in one-third of the contests played by Huggins' crew.

"livery one attempts to discourage the youth who is handicapped as I am by nearsightedness," said Meadows, "but if a youngster has talent, love of the game and will stick and work he'll make good, for his handicap is not an insurmount-sable one.

hearsigntedness," said Meadows, "but if a youngster has talest, love of the game and will stick and work he'll make good, for his handicap is not an insurmountable one.

"When five years of age I was told that I would have to wear glasses for the remainder of my life. A few years later they caused my greatest handicap, for I loved baseball above all other games. As a boy I possessed some natural talent for the game, but those who played with me were always fearfully afraid that in some manner my glasses might be broken, and I would be injured.

"Every attempt was made to discourage me, but I continued to play. My home was in Oxford, N.C., and I attended the military academy there. I made the baseball team, became their pitcher, and still attempts were made to discourage me, my friends claiming that it was a waste of time, as I would never be able to play professional baseball.

"At eighteen years of age I went to the Durham (N.C.) team, pitched for two years and was claimed by \$t\$. Louis. That's my story, My spectacles are not a handicap either in the field or at bat. I honestly do not believe that I could pitch any better could I throw them aside."

Meadows holds ont little encouragement, however, for the youth who would sirve for an infield, outfielder would be unable, to don specs and a mask to work behind the plate.

HALIFAX, N.S., Sept. 9 .- The kee HALIFAX. N.S., Sept. 9.—The keel has been laid for the 2000-ton steel steamship which the Nova Scotia Steel and Coal Company is building at New Glasgow. All the steel for the steamer has been fabricated and the rivetters are at work fitting the bottom. Whether the steamer will be ready for launching this year is problematical but Colonel Cantley says she will certainly be floated and ready for sea by April. The steamer is to be fitted with turbine engines. This will be the first steel steamer to be built in Nova Scotia and if the venture proves a success and feasible the "Scotia" company will build others.

ED. MACK, LIMITED 167 Yonge Street

It was noticeable that altho the animals excelled in quality the exhibits of former years yet the number hibits of former years yet the number was less. This is partially due to the scarcity of help in the country because of the war, and also the absence of imported animals, which since the war began have not been brought into the country in the same numbers as in other years. But what was lacking in quantity was made up in quality, as competent judges state that never before have so many really superior animals been shown at this Exhibition. The parade was made up of prizeanimals been shown at this Exhibition.

The parade was made up of prizewinners, many having been victors in
other contests and in other years. To
"Lord Lenefer," the champion Clydesdale stallion of this country, was
awarded the honor of leading the
procession, and this superb specimen
of horseflesh called many comments
from admiring spectators. The stallion is owned by Graham Bros., of
Claremont, Ontario, and is not only the
champion, but is the grand champion
of this country as well. He was shown
at the Exhibition a year ago, and was
then awarded the championship, which
honor has been maintained this year.

Heavy Draught Horses.

Following the Clydesdales came the heavy draught, followed by the great heavy Percherons. The display of this breed was large and the black, grey and dappled grey animals won the admiration of all. The number of

prize-winning Hackneys was large, and these horses formed a great contrast in size with the Percherons which preceded them, but the members of this breed were much superior to the other classes of light horses. The allies losses are conservatively estimated here as follows: Russian, 600,000; British, 230,000; French, 150,000; Italian, Serbian and Roumanian combined, 50,000.

Some Austrians experts and a number of Germans have estimated the Russian losses at more than 300,000, and the combined British and French losses at more than 400,000. Official casualty lists given out at London show British losses of about 125,000 for the month of August alone.

The Ontario Gazette for this week contains also the notice of a land and water deal between Mrs. Margaret G. Armstrong of Petrolea, Ont., and "His Majesty King George the Fifth, represented herein by the minister of lands, forests and mines, for the Province of Ontario, of the second part."

It appears that Mrs. Armstrong owned a piece of land in Bosanquet, known as peninsular humber two, near the mouth of the Aux Sables river, and that Lake Huron changed the course of the river filling up the old mouth and making a new channel over peninsular number 2. Mrs. Millar was, until last December, a member of the teaching staff of the Toronto Board of Education.

The Rev. Audry Brown was also a guest of the Rotary Club, and spoke upon the work done this year at West. Foint Gardens, the vacant lot gardens obtained by the Rotary Club for the memorial institute. Altho, owing to the lateness of the season, the land was not plowed up until the end of June, these gardens have proved a big success. Apart from their productive value and the fact that they had taken the people out into the country, and gave them a great deal of pleasure, Mr. Brown pointed out to those present the great factor which such gardens had already proved in helping on the work of preserving the Mrs. Millar was, until last Decemsuch gardens had already proved in helping on the work of preserving the unity of the home, where mothers and shildren worked side by side in these little plots and father would come out at night to join them. A big work was being done in bringing them closer together. Here at least is one point where their interests, so often divided in the home life of today, could be happly united.

Spoke of the Children's Work

Spoke of the Children's Work. Miss G. Kennedy of the Toronto Sunday World spoke on behalf of the number of children who had worked experimental plots this summer thru the medium of the paper and seeds kindly given by the Rotary Club. Mention was also made of the kindness of Mr. Frank Raw in making a number Kennedy emphasized the educational value of such work and had several letters from the children showing their interest and progress in the gardens.

#### TOO MUCH WRAPPING ON PAPERS FOR SOLDIERS

Mrs. Fellowes, in England, Sends Some Advice to Friends in Canada.

Writing from London to a friend in Toronto, Mrs. Fellowes (Gladys Huestis) Writing from London to a friend in Toronto, Mrs. Fellowes (Gladys Huestis) says:

"I am appealing to you in this note about a small matter that, with your assistance, might help us a lot. I am now working in the newspaper department of the Canadian Red Cross in Cockspur street. We receive hundreds of papers sent direct or thru private parties to that office or Lady Drummond. We readdress them to the wounded soldiers, or those overseas. Using the same stamps and wrappers. The Toronto papers are so well done up that hours of extra work has to be put on them to find what city they belong to. Smaller wrappers or the word Toronto would be the greatest help. Halifax seems to be the only other city that gives us so much trouble. It's a small matter when written, but the mail bags this morning reached to the celling and the assorting is a big undertaking. Most of the packages have remarks like "Vancouver papers for wounded," etc. If this matter is too small to mention don't pay any attention to it, but it rather gets tiresome to hear other women everlastingly complaining about the unwrapping of our Toronto mail. Believe me,

Very sincerely,
Gladys (Huestis) Fellowes. Very sincerely, Gladys (Huestis) Fellowes.

A successful Rotary Club luncheon was held yesterday at the Hotel Carlsnite, when a large gathering of local members, with many Rotarians from various parts of Canada and from points of the United States, met together. The occasion was the distribution of prizes among successful competitors in vacant lot gardens and a review of the activities of the club during the past year.

W. Ridley, president of the club, occasion was the club, occasion with the competition of the club, occasion was the distribution has reached a higher number than the previous week. Yesterday was probably the best day so far this week. Of the 46 who applied at the armories deput 38 were passed by the doctor and turned over to the various units. The Canadian Army Service Corps were successful in getting the second week.

The new military convalescent home at old Knox College is getting its finishing touches and will be in readiness when it is officially opened on the 17th of this month. Different Toronto societies have donated practically all of the furniture that is in the building. This hospital will be kept exclusively for the use of soldiers who are

recuperating.

Captain Ley will be the officer in charge and will have an entirely new hospital staff.

Notified Solicitor Yesterday After Controllers Failed to Abate . Nuisance.

## WANTS MORE EVIDENCE

Dr. Risk Refused to Call Meeting of Board of Health Until He Obtained Such.

The board of control failed to take any action yesterday to labate the abattoir nuisance in West Toronto. but immediately after the fmeeting Mayor Church wrote to the chief of police, the city solicitor and the medical health officer directing that police court action be taken against the companies. Alderman Risk, chairman of the board of health, who was present at the meeting, absolutely refused to call a meeting of his committee to take action until he had secured additional evidence.

Chief Inspector Wilson, of the health department; informed the deputation present that notices had already been sent the company to abate the nuisance, and the seven days' respite was already up.
D'Arcy Hinds declared that the ex-

cuse that the abattoirs were working on war orders was a blind. He said there were men working on the case for the city who were acting improperly. "If they are told anything regarding the matter," he said, "it gets back to the abattoirs like a flash." Mayor Church: The legal department which has been working on the case, is too fond of technicalities. I may move for a reorganization of the whole

department.
When Dr. Risk declined to call a meeting of the board of health, the mayor remarked "I am going to find out who is mayor of this city."

Full. There's a lot of good stuff in The Sunday World this week, and as the edition is limited to slightly over 100,000 papers, those anxious to get it should make sure of buying the paper early in the evening. Complete sporting events, of course, including the soldiers' games at the Exhibition, will be found in the

of course, including the soldiers' games at the Exhibition, will be found in the last edition.

One of the principal stories published this week is written by Frank Yeigh. It deals with all military camps in Canada, and is entitled "Canada, a tented country. resounds to the tramp of her armed sons." It is especially interesting at this time, and the story is told as only Frank Yeigh can tell it. Then, there is the regular weekly special story from Camp Borden by The World's staff reporter there.

Other stories of interest in the feature section include a column on the New Technical School, which was opened last Tuesday; statistics on the number of workers in Canada and what jobs they hold: a sketch of John G. Kent, expresident, and one of the directors of the Canadian National Exhibition; the decrease in thieving by children in Toronic; hints for campers; a column, first of a series, of stories told on the firing line, and many others. There also are two pages for moving picture fans and two pages for heatre patrons, as well as the usual automobile and motorcycle sections, and the regular Lou Skuce cartoon on the front page.

In the women's section, H. M. Ball has her timely fashion talks as usual, and there are all mainer of stories of interest to women and children, including a narrative by a Toronto woman who saw a Zeppelin raid on Calais, and a story on the Canadian beaver by F. May Simpson. Aunt June's column is gaining favor with the kiddies every week, and the department conducted by Ellinor Murray for parents is read by thousands, as is shown by the number of letters received and auswered every week.

Four timely editorials and "Crusts and Crumbs" appear on the editorial page, which has no equal in Toronto.

The illustrated section contains photographs from Muskoka, pictures from the firing line, and a score or so of photos of Toronto men now at the front. The lour-page comic is admitted to be the best of any weekly paper in Canada.

The rews section contains all the latest local, general and war news u

# PLAYS, PICTURES AND MUSIC

"ON TRIAL"

No better proof of the tremendous success of "On Trial," can be cited than the continually eager crywds that flocked to see it during its first week's engagement at the Alexandra. Theatre, and the extraordinary demand for seats for the second week's engagement of this gripping and vivid drama indicates another banner week. This remarkable play is a drama of virile emotion, stage craft and genuine piot and has received the endorsation of the Toronto public and critics alike. The play begins with a scene in the courtroom, where a young hushand and father is on trail for murder.

It is the unusual features that have made "On Trial" the most talked about play in years and brought fame and fortune to its author.

The same great cast will be seen and to ayoid disappointment patrons should secure their seats as far in advance as possible.

ALBERT BROWN IN "THE BLACK FEATHER."

The host of friends and admirers which the sparkling comedian, Alliert Brown, made for himself in "The White Feather" will, on doubt, be on hand to greet him when he appears in a sister piece "The Black Feather" at the Grand Opera House on Monday night.

Tremayne, author of many successes in past years, and was especially written for Mr. Brown. It is a camedy of war diplomacy, with an undercurrent of intense emotion, and deals with the troublesome days in London just prior to the outbreak of the war. Pick Kent (Mr. Brown's role) is the son of a diplomatist, and a member of the secret intelligence staff of Great Britain. For the purposes of his profession ha poses as an idler. As such he is keeping watch on an Austrian countess and a German count who are using their best endeavors to get at the private messages of the British foreign office, anent the Serbian crisis. The incidents by which Dick Kent saves the situation and wins the girl of his heart into the bargain are replete with humor, emotion and excitement. The play is one of such quality that it requires a very efficient cast, and this Mr. Brown promises.

# "A PAIR OF SILK STOCKINGS"

Toronto will at last have an opportunity of seeing, "A Pair of Silk Stockings," the New York and London success of the season, as that delightful offering will come to the Alexandra Theatre for one week, commencing Monday, September 18th. This delightful dainty comedy is funny without being questionable and for an evening's enjoyment nothing could be more pleasing. The seat sale will commence on Thursday.

# LOEW'S YONGE STREET THEATRE

Ethel Whiteside's huge spectacular musical production, "Around the World," featuring Bob Harman, Jack Ellsworth and Ardelle Cleaves, will be the big headliner at Loew's Yonge Street Theatra the coming week. This is said to be the most expensive and gorgeous act of its kind ever shown in vaudeville, with a big chorus, unusual scenic and electric effects, beautiful costumes and musical comedy stars. Helen Smith and company will present a comedy sketch, "Hiring a Maid," telling the troubles of a couple in search of a maid, and the husband's methods of procuring one. Louise Mayo, who has been in Toronto before, will present a refined plane and song offering with costume changes. Morris and Beasley are clever musical comedy stars while The Flying Keelers perform many hazardous feats in mid air. Fox and Ward are clever comedians and with Neal, Franklyn and Sogal in a singing, dancing and "chatter" melange complete the bill.

### "TWIN BEDS"-COMING.

"Twin Peds," the irresistibly human play of life among apartment house dwellers which will be presented at the Grand week of Sept. 18, was written by Salisbury Field and Margaret Mayo, and is a clean and adroitly woven exploitation of the dramatic diffi-cuities, the jealousies, the suspicions and the amazing adventures of three married couples who occupy apart-lments in the same building in a tashlonable section of New York city.

SHEA'S Shea's headline attraction this week will be that famous racontour Walter C. Kelly, familiarly known as "The Virginia Judge." Joe Van and Gus Schenck, are pianists of rare ability. Dorothy Regal, the charming character comedienne, will offer the latest of her character sketches, "The Girl at the Cigar Stand." ## STAR THEATRE.

"The Ginger Girls," a brand new production on the circuit this year, presented by the Burlesque Amusement Co., will be seen at the Star next week. Ben Small, who is probably the best-known comedian in the burlesque ranks of the present day, is commander-in-chief of the laugh bribade of "The Ginger Girls," Assisting Small is Geo. Wagner, the clongated comedian, who made his debut last season in burlesque; Niblo and Spencer, a clever pair of performers who are in burlesque, but who have an established reputation in vandeville; Gertrude Ralston, prima donna; Mabel Lynest, a comely soubrette; John D. Bollman, Marion Chase, and Al Dupont.

The chorus, twenty in number, are beautifully costumed in some original creations, and the song numbers are new and up-to-date.

## THE REGENT THEATRE.

Mary Pickford in the quaint character of a Dutch girl is the feature of the Regent Theatre today. As a drawing card, Miss Pickford has not lost any of her attraction, judging by the splendid audiences that have visited the theatre during the engagement of this beautiful picture-play. As Hulda of the dyke country, Miss Pickford has one of the best characters she has so far undertaken, and will undoubtedly rank as one of her greatest contributions to motion picture art. The Regent Graphic, a splendid review of events of recent happenings, and several other good features, which include a fine 'cello solo played by Mr. John Sterin, the clever 'cellist of the Regent orchestra, complete a very satisfying bill. Some special features are contemplated for next week, particulars of which will be announced thru the press.

THE CAUSE OF DEATH

Jury Returned Open Verdict at Inquest on Body of Pte.

Howlett,

Coroner Dr. Gardiner's jury at the morgue last night was unable to determine the cause of the death of Pte. W. Howlett of the 114th Battalion, who died in the Gerrard Street Base Hospital on Sept. 1, and returned a verdict to that effect. It had been thought that the soldier had taken cocaine, but beyond evidence given by comrades that they had observed him taking tablets previous to his death, there was no substantiation of this. The post-mortem examination showed that the man's heart was in a diseased condition, and the taking of cocaine or any other heart depressant might have hastened death.

Naval Demonstration Tonight Will Be Scene of Many Explosions and Craft is Advised.

The tenth and last week for "The Birth of a Nation" commences at Massey Hall Monday. This will be the last opportunity in this city to see Griffith's wonderful spectacle in its entiroty. On Tuesday a souvenir will be presented to every lady patron in commemoration of the one-hundredth performance in Toronto. This unusual record, made in less than one year, more than doubles the showing of any other attraction. "The Bonnie Briar Bush" and "The Bird of Paradise" probably hold the next hest record, the former having played here forty-eight times in six years and the latter about the same number of times in five years.

A deep and abiding love-interest is based on the incidents taken from Thomas Dixon's story, "The Clansman." The splendid acting by the notable cast assembled by Mr. Griffith, and will give an exhibition of bombing about 10.15 p.m. in the trenches.

## SPECULATION SETS IN

Values Touch Topmost Mark for Season for September.

HICAGO, Sept. 8 .- Reports of fresh of a bullish crop report from Washing-The close, altho unsettled, was 20 2%c net higher with December at 66 to \$1.56%, and May at \$1.57 to \$1.57%. Corn gained %c to %c, oats fin-

st.57%. Corn gained %c to %c, oats finished unchanged to %c up, and provisions down 10c to 50c.

Wheat prices at first showed considerable depression owing to lower cable quotations by Liverpool, announcements of a general strike of mill operatives and word that British dealers were purchasing freely in Argentine rather than in the U.S. Authorities here, however, contended that wheat in the U.S. was relatively 10c a bushel cheaper than in Argentina. Then came despatches that the Bulgarians had captured three seaports in Roumania and were waging battle over a wide front against the Roumanian and Russian forces together. Active speculative buying here ensued and the market rose to the highest prices of the season for September and December, and nearly so for May. General saceptance of bullish forecasts of the government crop report acted thruout the day, but specially in the lasthaff of the season as a handicap on the bears.

half of the session as a handicap on the bears.

Treent demand for cash wheat was evident in all directions. Northwestern millers were said to have been unusually alert in snapping up supplies and there appeared to be no let up in the call for wheat for export.

Com mounted to the highest September price in 24 years, 91c a bushel. Selling by the principal holders, however, caused a reaction nearly to yesterday's finish. The strength of wheat seemed to be the chief bullish influence, but besides there were erroneous private estimates current that the government crop total would show a falling off instead of a material gain.

Giesses went wrong as to the government report on oats as well as on corn. Two of the largest houses here were heavy supporters of the December delivery of oats.

Weakness in heg quotations and in the cotton oil market pulled down provisions. Longs were big sellers of lard.

## MILLING CAPACITY OF

HOLLINGER IS INCREASED Changes in Cyanide Plant Expected to Have Good Results.

H. B. Wills in uls weekly letter says: Rapid increases are being made in the filling capacity at homoger Consolidated, and as rigged today is crushing 1900 ed, and as rigged today is crushing 1900 tons daily. Several changes are also being installed in the cyanide plant, so that a nigher recovery will soon be recorded. Since the taking over of the Acme, Miller-Madleton and other properties belonging to the Timmins-Mc-Mart.n-Duniop syndicate, the earnings have fanen slightly below dividend requirements, but this will only be temporary, as the mill enlargement will quickly bring this up where the treasury surplus will again be materially augmented. No shareholder in this company need have any fears insofar as the future is concerned, as even a higher rate of dividends is more than likely during the coming year, and such will continue for years and years to follow.

It is stated that Managing Director P. A. Robbins is to be moved to the main office in Toronto and Superintendent Globe to be placed in charge of the mine, with C. H. Porrier who has been the Porcupine-Vipond manager, as his assistant.

### BANK CLEARINGS IN CANADA.

Bradstreet's commercial agency says: Vacations, and what might be termed "marking time" in wholesale trade, tended to reduce Canadian bank clearings for the month of August. But aside from diminished yields of wheat, conditions thruout the Dominion seein healthy. Altho payments during August receded below those reported for each of the three preceding months, the record is the best ever registered for the month named, gains over every preceding August being shown. In fact, payments for the eighth month of this year, aggregating \$842,595,842, decreased only 2.6 per cent, from July, while advancing 5.5 per cent over August, 1915, 47 per cent, over that month in 1914, and 14 per cent, over that month in 1914, and 14 per cent, over August, 1912. Every city exhibits an increase over August of last year.

For eight months of the current calendar year the grand total is \$6.-317,280,887, an increase of 41 per cent, over the same eight months of 1914, and of 9 per cent, over the corresponding period in 1913.

At the meeting of the Dome Extension and Dome are dealing with the option. At the meeting of the Dome Extension and president Delamar, of the Dome, saying that the option would be exercised "immediately" If the diamond drilling revealed important ore bodies. Now, the drilling, even according to the official admissions, has revealed three or four separate important ore bodies, one of 10 feet of \$7 ore, and one of 17 feet of \$12 ore, being the chief. I am told by a friend working at the Dome mines that the Dome ore zone has been discovered in the Dome Ex. All this has forced the Dome management in New York to acknowledge the option will be exercised, but what about the time? Does President Delamar keep his word? The market action of Dome Ex. suggests the insiders intend to putter along, trying to freeze out as many appail holders as nossible. It is not City. Union. ## TROUBLE OVER CONTROL.

The total failure of Canadian Locomotive to share in the advance of most other Canadian industrial stocks has occasioned a good deal of comment. occasioned a good deal of comment. It develops that there has been considerable controversy as to just what group is now in control of the company. Early in the year it was reported that the Harty group of Kingston, who were formally in control of the old locomotive works there, had secured control but latterly it has been maintained that this is not entirely the case owing to the feet that the preferred stock has a voting power and this is controlled almost entirely by the firm of Brown, Shipley and Co. of London, the Canadian representatives of whom are Aemilius Jarvis & Co.

It has been paying dividends since 1907, when the initial disburgement was 2 percent. that disbursement was 2 percent, amounting to \$44,130, and has continued up to the present time, until the total payments, with the dividend just declared, amount to \$4,-876,473, or nearly 122 percent of the

# DEVELOPMENT AT DAVIDSON

YIELDS GOOD RESULTS The Davidson Gold Mines Limited, whose holdings comprise three claims in northeastern Tisdale, resumed development work last June and have since continued the main shaft from the 200 to the 300 foot level. A station is now being cut and lateral operation is now being cut and lateral operations are to be commenced immediately. On the 200 foot level the vein has been proven for a width of 42 Jupiter was in strong enquiry, but it to accordance. MERGER REPORT has been proven for a width of 42 feet, and carries free gold in abundance, while at 100 feet it is 24 feet with average gold values of \$11.60 to the ton. The properties have been regarded with a good deal of favor since mining operations were first started in the camp, as the surace showings were very satisfactory, and developments at two levels have yielded goo'l results.

# DEMAND STILL URGENT

FOR SILVER SUPPLIES Samuel Montagu and Co., London, say in their circular of Aug. 24: The amount of disposable silver has been so small, and the prospect of larger supplies coming out at an advance in price so slight, that buyers for coinage—a demand as implacable as everhave not found it worth while to compete for what was offering. This policy was the more justifiable owing to the large amounts obtained from China recently, when sales were made freely from that quarter. During the current week the China exchanges had a hardening tendency, and further a hardening tendency, and further sales seem unlikely at present.

The hindrance to Mexican mining, which may possibly be prolonged, will nave the effect of further reducing the annual output, and a strong statistical annual output, and a strong statistical position will be created. Demand proposition will be created. Demand promises to be more urgent than ever, especially should China be compelled to replace, or even more than replace, the heavy sales of the lust year or so, whilst the quality of supplies will be decidedly less.

## decidedly less.

LOOKS FOR BIG BOOM R. E. Keinerer in his weekly market letter says: "In spite of the interven-tion of the holiday, the market of Tuesday in the Porcupine and Cobalt snares was the strongest and most active which has been recorded for a onsiderable time and advances were the rule thru out practically the whole of the list. It was noticeable that brokers all over the floor held numerous buying orders leaving the selling orders in a hopeless minority; a condition of affairs which can indicate only one thing—the commence-ment of cumulative public buying which will result in one of the great-est booms which have ever been re-corded in Canadian mining issues. Certainly the markets of this week give every reason for believing that the tremendous upward movment is now under way and we look for a

# steady continuance of the extremely active and advancing markets.

H. B. Wills in his weekly letter says: From a physical viewpoint of the various mines, particularly those of Porcupine, Cobalt and Tonopah, there is every reason to expect a big upward swing in market values, as today each of these camps has a larger tonnage or high-grade ore blocked out and in sight, also a more substantial treasury surplus on hand than at any time in over a year. The same applies to the various copper producers and the enormous growth in the demand for metal, base and precious is establishing company earnings such as has never before been recorded.

# TERCHANT 74 COLBORNE STREET, TORONTO

Mining Market More Active, But Speculation Makes for Considerable Irregularity.

The Toronto mining market was more active yesterday, but with considerable irregularity. The sharp up and down movements were comment. ed upon yesterday by brokers, who viewed these erratic movements as not conducive to the market's welfare. The advances in some issues were thought to be too speculative, and unless the market was later prepared to absorb these purchases a reaction was considered certain. The newer stocks are getting good support, Lorrain, Davidson and Calumet each having a responsible enquiry. Davidson and Calumet were hard to buy and prices rose

Jupiter was in strong enquiry, but it was rumored that certain interests prevented the buying from having its natural result on the price. New York buying made a stronger market for Ophir, which sold up to 9½. Newray fell off in activity largely because of a scarcity of offerings at the current level. current level. Silver was higher again yesterday

# but the older Cobalts outside of Nipissing made no response to this. The market is broadening and conservative brokers are hopeful that too much speculation will not deter a solid improvement.

The Mining Record of Denver, Col., had the following despatch on Tues-COBALT, Ont., Sept. 5.-Develop ments on the Newray property at Por-cupine have been of a very encourag-ing nature, according to a mining man cupine have been of a very encouraging nature, according to a mining man who has returned from visiting the property. Shortly after work was started by the company this summer a large force under Manager Charlebois was started trenching and stripping and in the course of this work an entirely new vein system was disbusiness on Saturd 1916.

The transfer books be closed from the 1 ber to the 30th day both days inclusive. By order of the F bols was started trenching and stripping and in the course of this work an entirely new vein system was discovered. Since that time work was continued simultaneously in the search for the vein upon which the shaft was sunk and which had been lost in faulting and in trenching for new veins. The new big vein has now been traced a considerable distance and on the surface it has widened out to 20 feet in places. A previous sampling gave a very good average assay and of all the channel samples taken along the vein there were no blanks. Another thoro sampling is now being made which will include that large portion of the vein since stripped on the surface, and if equally good values are found in the averages a cross-cut will be made at the 400-foot level to cut this vein at that depth. Diamond drilling is still under way in an endeavor to locate the lost vein in the shaft, but since developments have been so satisfactory in connection with the new find Manager Charlebols considers its development equally as important as that of the original find. Before the old vein was lost in faulting the Mines Leasing company took out a considerable quantity of gold. September 8th, 191

## MARKET IS HEALTHY.

Heron and Co. had the following at MONTREAL, Sept. 8.—The Standard stocks were again active today, and the munition shares with the exception of Cement did little. There seems to be a persistent short

interest in the latter stock, and when the shorts try to cover the market is run up on them. Lake of the Woods, Brazilian and Quebec Railway were all strong stocks. Brazilian traction was the most active, and some of the demand was reported to come from New York. English stock seems to be still for sale, and had it not been for this, today's movement would have gone further. # AT SIMPSON'S TO-DAY

We'd like every man and boy who is considering his Fall Outfit and who interested in the better class of clothes, to pay a visit to the Men's Si some time today. Everything for Autumn wear is on display---Suits. Or coats, Hats, Boots and Furnishings from the best Canadian and America makers.

We call your attention particularly to:

Men's Suits at \$24.00

At this popular price we have suits made by an American clothing manufacturer who is famous for the quality of his tailoring. No custom work is better than you will find in these suits. A diagonal tweed, in brown and gray mixture, is a particularly handsome suit. The coat is form fitting, and has patch pockets. Another beauty at this price is a soft tweed suit in dark Oxford gray, with white and

Young Men's Pinch-Back Suits for Fall at \$22.00

Now here is a suit that young men cannot help admiring. It's got all the snap and style imaginable, while the materials and tailoring are the best that it is possible to provide at this price. The cloth is an English tweed, in a rich brown mixture. Single-breasted pinch-back sacque coat, single-breasted vest, and gracefully hanging trousers, finished with cuff bottoms. Sizes 33 to 37. A real 22 00 young man's model, and fine value. Price .....

Men's Suits at \$30.00

If you want to pay \$30.00 for a suit, and if good tailoring and correct fitting are important to you, look at these American suits of rich brown worsteds. Such shoulders and collars, such neat lapels and graceful fronts can be produced only by the masters of the tailoring art. We also have beautiful tweed and serge suits at this price -all intended for the best dressers in the community.

Our Special Suits at \$15.00

We cannot say too much about the merit of our \$15.00 suits, for we have given them the thought and care that makes us sure of our ground when we claim for them first place at the price. This is a very popular-priced suit, and for years we've made our \$15.00 suits so good that many Toronto men wear them all the time, and wear nothing else. This season our \$15.00 suits are of the same high quality and excellent tailoring as in other years, and we promise you the same satisfaction as when woollens were cheaper and labor more plentiful.

The New Fall Overcoats

The carefully dressed man will find these coats to his liking. They are made light weight, tan colored, English Burberette, which is a splendid weight for Fall. It is a single-breasted, slip-on style, with patch pockets and silk lined shoulders and sleeves. A smart, dressy coat and a good value. Sizes 35 to 44. Price . . 18.50

Handsome Tweed Coat \$18.00

We would like you to see this coat of English tweed—it's in dark gray, showing a refined, subdued pattern. Cut on the fashionable Chesterfield model, with single-breasted, button-through front. This coat is exceptionally well tailored, and you are sure of getting fitted carefully and correctly. Sizes 36 to 44. Price 18.00

A Wonderful Opportunity to Get a Fine Suit for We extend to out-of-town \$13.95 --- The Values are \$18.00, \$20.00, \$24.00, We've been selling the new Fall Suits for several weeks, and some lines are now broken up. Today we are taking the broken lines of our fall \$18.00 to \$30.00 suits, and placing them on

people the same free shipping facilities as are given by the Mail Order Department, providing purchases amount to \$10.00. This applies to all the Special Sale values.
