NEW FRANCHISE ACT IS KEENLY DEBATED IN FEDERAL HOUSE

Contentious Clause on Voters' Lists Preparation is Carried on Division.

SOME AMENDMENTS

Ottawa, June 21.—(By Canadian Press)—After a month in suspense, the franchise bill was again to the front in the house today. During the previous weeks of consideration practically all the hundred and one clauses of the bill were adopted. But a few remained, with the bill still in committee. Today, they were subjected to whose series of technical amendments adopted generally with little discussion. A declaration made by Hon. Hugh Guthrie, solicitor-general, however, aroused keen discussion.

It was on the clause relating to preparation of voters lists. When last before the house, the clause gave rise to controversy. There were conferences between representatives of the two sides of the house also the conferences failed to result in a satisfactory solution. And Mr. Guthrie frankly declared his intention of asking the house to adopt the principle laid down in the bill as presented to the house. He argued that these things therein laid down would involve some expenditure. But in Mr. Guthrie's view, it would give as honest a list as it was possible to get.

MacKenzie King's Criticism. Opposition members strongly disagreed. Hon. W. L. Mackenzie King, leader of the opposition, argued that it was perpetuating the enumerator method which had been so objectionable a feature of the war times election act.

SIR ADAM IS MUM ON STRIKE SITUATION

Hydro-Electric Commission Will Hold a Meeting This Morning.

Sir Adam Beck returned to Toronto early last night from the Chippawa Canal, after a survey of the strike situation. He is in the city to attend a meeting this morning in the offices of the Hydro-Electric Commission building, which will deal particularly with the strike at the canal.

UNIONIST CAUCUS BEING HELD TODAY

Leadership Question Debate Deferred Until a Later Conference.

Ottawa, June 21.—(Special)—The much-advertised unionist caucus to be held tomorrow will not deal with the leadership question. There may be a preliminary talk forced by some members, but the government hopes to defer this subject until another caucus, to be called in a few days. Tomorrow the naval question, wheat board and restrictions on exports will receive most of the attention. It is a great disappointment to many that the period of uncertainty is to be extended, and they may voice their regret, or even displeasure, tomorrow.

NOT A WHEEL TURNS AT CHIPPAWA WORKS; TIE-UP IS COMPLETE

Union Officials Believe Toronto Meeting Today Will Reopen Negotiations.

POWER MEN STICKING

Niagara Falls, Ont., June 21.—Except at the Chippawa end of the Chippawa development works, not a wheel is turning today, and the tie-up was complete. About a hundred men are at work at Chippawa on the dredge and shovel; otherwise the great ditch presented the appearance of an abandoned trench after the battle had passed over it.

Kingston, Ont., June 21.—(Special.)—One of the greatest social events of the season here, that of the Royal Military College ball, took place last night and was attended by upwards of 800 guests. It was a most brilliant affair and regarded as one of the most distinguished gatherings ever held in the history of the college. The spacious gymnasium, where the dancing took place, was blaze of color and the dancers presented a magnificent spectacle, the effect of which was heightened by the music rendered by Romanelli's band of Toronto. The guests were received by Lady Macdonell, Major-General Sir A. C. Macdonell, C.M.G., K.C.M.G., and B. S. M. Adams.

### "WE WOULDN'T BE WITHOUT TANLAC"

Mrs. McCurdy Says It Helped Her Whole Family Back to Health.

### "Tanlac has done us all so much good that we look upon it as the family medicine, and I wouldn't be without it in the house now on any account," said Mrs. M. C. McCurdy of 140 Stanley Avenue, Hamilton, Ontario, recently.

"I was in a very run-down condition a little while ago," she continued, "and my stomach was so bad that I couldn't eat anything and I was losing weight. I didn't care whether I ate anything or not yet even a light meal would upset me. The food would lie in my stomach like a lump of lead, and cause me severe pains. My head ached at times fit to burst, and I had dreadful spells of dizziness. I fell off in weight until I only weighed a hundred and thirty pounds and always had a dull, heavy and tired feeling, so that the work of the house was too much for me, and I wanted to lie down all the time. My nerves were all of edge and even the slightest noise out of the ordinary would upset and irritate me.

### When I read of how Tanlac was helping so many people, I thought I would give it a trial. My appetite improved on the very first bottle, and from then on my general improvement was rapid. I soon found that I could digest whatever I ate and my food seemed to be doing me good. As a matter of fact I haven't had any stomach trouble since, and have gained fully ten pounds in weight. I now feel strong and energetic, and really never felt better in my life.

"Then my husband saw how much good Tanlac was doing me, he started taking it too, for he was feeling run-down at the time, and it helped him quite as much as it did me. The whole family have used it and it agrees with all of us. We think it is a wonderful medicine and that there's nothing as good as Tanlac."

Tanlac is sold in Toronto by Tanlac drug stores and by an established and secure in every city.

REVIVAL OF WHIP AT GRAND OPERA

This and "Norma Talmadge Week" Are Amongst Many of Week's Big Draws.

FATHERS' WEEK AT THE ROYAL

George Ads Comedy Shows How a Business Parent Can Show How to Make Speed as Well as Money.

The Wise comedies, with which the Robins Players are regaling full houses, create more laughter every week. Last night, George Ads' "Father and the Boys," with Tom Wise in the paternal character, evoked more curtain calls than either of the two first-rate successes that preceded it.

These comedies are Tom Wise and some helpers. They help admirably—boys, girls and the rest of them. The boys were Graham Vasey and Romaine Callender. The coxcombical, tricky major was Richie Ling, who could find an unsuitable part. John Daly Murphy did the lawyer admirably, and Edward Robins came in effectively at the last act as the miner lover, who has struck it rich in Alaska.

"THE WHIP" WINS.

Famous Sporting Drama in Pictorial Form a Big Hit at the Grand Opera House.

Everyone loves a horse race. This fact was demonstrated at the Grand Opera House yesterday afternoon, when a capacity house witnessed the pictorial version of the famous Drury Lane melodrama, "The Whip." The story is in eight big acts and each part has a startling dramatic situation hanging from an automobile smash-up to a railroad collision, a mob scene and a thrilling race—a real race—at the famous Saratoga course. Horses and dogs and action abound, something doing every minute, and thru all runs a pretty love story. "The Whip" is the most of the best that can be ever made by old Judge Beverley, a gallant sportsman, who maintains a whole establishment of thoroughbreds. The affection of the kindly old judge are divided between his beautiful and accomplished daughter, Diana and this really fine race horse, into their lives comes Hubert Brancaster, a young man of good family who lives on a nearby estate; Baron Sartons, a nobleman, coming with a letter of introduction from Europe; and Mrs. Brancaster, of his own, with these tunes of Brancaster become involved, thru no fault of his own, with these two swindlers, on an ocean trip, and he is not at all clear of them when he meets and falls in love with Diana. They wish that lady to marry the bogus baron, and they lay troubles thick and fast in the path of young Brancaster. Real adventures follow, culminating in the wonderful race at Saratoga, in which "The Whip" wins. The picture is presented with all the big stage effects that made for its success when first screened, and has the accompaniment of an appropriate musical score. Judging by the reception given the revival of this exciting and sensational photodrama, it should have a long run at the Grand, where a matinee will be given every day.

AT SHEA'S HIPPODROME

Blanche Sweet Plays Attractive Part in "The Deadlier Sex"—Good Dancing and Vaudeville.

A capacity house and a program that afforded laughs galore were the experience at the matinee at Shea's Hippodrome yesterday. Featuring the beautiful Blanche Sweet, who does capable and attractive work in "The Deadlier Sex," when typifying the self-reliant American girl who shows that she can be as alert and competent in protecting business interests as the sex generally is credited with being in affairs of the heart.

"ROMANCE" AT LOEW'S

Doris Keane Plays Emotional Role in This Photoplay.

Edward Sheldon's famous love story is being shown as a motion picture at Loew's this week, with Doris Keane in her old role as Cavallini, an Italian opera singer. One of the chief characters in "Romance" is a bishop, who saves the virtue of his young nephew against the wiles of the world, the flesh and the devil.

and, by way of warning, the bishop tells the sad story of his own romance. It is a story of unusual appeal and emotional strength. It is a sensational story of the passions of youth and the ardor of a first "affaire de coeur." Doris Keane made her name as an actress of great dramatic prowess when portraying the same role on the speaking stage in London, England, and there is every reason to suppose that she will become equally popular here thru the medium of the screen.

The vaudeville turns this week are of unusual excellence. The dancing of Monsieur Adolphus and the Gilmore deserves special mention in this respect. There is a turn of great merit executed with skill and perfect technique. Other good turns are presented by Gilroy, Dolan and Correll; Browning and Davis; Follette; Pearl and Wicks; the Hippon Duo, and Harry Fisher in "The Crazy Wheelman and the Little Soubrette."

"THE INFERIOR SEX."

Mildred Harris Chaplin Fills Suitable Role in Picture at Regent.

Graceful and dainty is Mildred Harris Chaplin, in her latest picture, "The Inferior Sex," which is showing at the Regent this week. She plays the part of Grace Madden, the romantic wife of Bruce Madden, a millionaire sportsman, who is beginning to tire of his wife's devotion.

"EASY TO GET."

Marguerite Clark is At Her Best in Amusing Picture at the Strand.

Winsome and merry Marguerite Clark is always amusing and instructive in her pictures. In her latest production at the Strand, "Easy to Get," she teaches a double lesson—a lesson to cocky young men who think every girl they meet is anxious to marry them, and a lesson to young girls not to make the path to matrimony too easy for the lover. Miss Clark in her new production portrays the bride of four hours, and then overhears a conversation between her new husband and a friend, which takes place in the smoking room of an express train, to the effect that she was easy to get. The young bride escapes from the train and hides successfully from her husband, who follows her thru numerous adventures, until he finally locates her amongst a gang of thugs, and it costs him \$5,000 (the honey-moon money) to secure their joint release. The theme of the picture is, "Easy to Get," and the acting of the entire company above the average. "Easy to Get" should fill the Strand all the week. Two good comic pictures are also shown—in fact, the whole bill is an excellent one.

"NORMA TALMADGE WEEK."

Winsome Photoplay Star to Be Seen in Three Different Pictures at the Allen This Week.

Recently we have had self-denial weeks, and almost every other kind of

week, but the Allen Theatre has put across something unique by having what they call a "Norma Talmadge week." This is a series of three winsome photoplays star will be seen in three different pictures during the week, each one running for two consecutive days. Back to back are "Poppy," which runs Monday and Tuesday; "Ghosts of Yesterday," Wednesday and Thursday; and "De Luxe Annie," Friday and Saturday, are all past successes.

In addition to the gala Talmadge week, the Allen concert orchestra offer an attractive musical program. The overture is from the opera "Il Guarany," and a flute solo, "The Bluebirds of Scotland," by Mr. I. H. Bradford.

Picture Causes Talk—Regent.

And now, since it has been announced that "The Inferior Sex" is a photoplay and that it is to be shown all this week at the Regent Theatre, reports are at hand to say that the advance advertising caused many arguments around the tables in Toronto's homes. Not only was the question of "the inferior sex" discussed in the homes of the well-to-do, but apparently it set all classes talking. Human nature is the same every where, it is said, and it is not surprising to hear the news. However, the question is viewed from the fact that there are more people curious to see "The Inferior Sex" at the Regent than any other picture this season. Evidence of this is at hand in abundance. So keen are those interested, that even the hottest of weather will not deter them from enjoying the movie in which the story is presented. Mildred Harris Chaplin has made some wonderful pictures, but it is doubtful if she ever starred in a production that is so outstanding as this one. Some say the picture is a bit "risque," well, it is certainly not too risky, and in the least bit disturbed. It is spicy. It is calculated to arouse deep interest, but it is handled to a nicety. The standard which the Regent maintains is a guarantee that it will please everyone. The story is extremely fascinating, and its telling will be ably accompanied by the Famous Regent Orchestra, whose accompaniments always lend lustre to the production. Then, too, by its superior ventilating plant, the Regent atmosphere is maintained at a comfortable temperature, making the visit one pays enjoyable from every point of view.

JOHN KIRTON DEAD

World Loses One of Oldest Agents and Ontario an Octogenarian.

The World regrets to announce the death of one of its oldest agents, John Kirton of Whitevale. The late Mr. Kirton, who was born in Lincolnshire (England) in 1837, was in his 81st year. He came to Canada in a sailing ship in 1860 and first settled in Scarborough, but lived most part of his life in Markham and Pickering. Wherever he lived, however, he kept up his world connection. The deceased gentleman was a life member of the York Pioneers and the A. O. F. He is survived by two daughters, Mrs. S. J. Dickson (wife of the acting chief of police) and Mrs. Burdholder, Whitevale; four sons, Isaac, Oklahoma City, William and Harvey, North Dakota, and Richard, Anglia, Sask.

CARBONI PUPILS ENTHUSE AUDIENCE

Seating Accommodation at a Premium For One of Year's Successful Concerts.

Seating accommodation was at a premium and many were unable to gain admittance to Columbus Hall last night when one of the most successful concerts for a number of seasons was given by singers from the studio of Maestro Carboni, who was also accompanied and inspired to those who presented the program. The recital was outstanding for the fact that the many of those who took part were young youthful even numbers, who sang with taste and intelligence, together with voice production and enunciation that showed the singers to have been under the tuition of a teacher who not only understood all the technique that makes the artist, but was also able to impart to his pupils the spirit that gives the quality of vitality without which music is lacking that which makes it the art which is called divine.

While all did well it is hard to discriminate a brilliant number was a quartet from "Henry VIII." (Saint-Saens), in which the voices blended with fine effect, by Nora Williamson, Louise Berwick, J. E. Rehm and J. O'Meara; the air from "Mignon"—"Comme au Pays" (Ambrose Thomas)—was sung with exquisite taste by Gertrude Stevens, and the Air from Liszt, from "L'Enfant Prodigue" (C. Debussy), was an example of sweet tones and tender diction. One of the triumphs of the evening was that of Catharine Robinson in "Nobles Seigneurs Salut" (Meyerbeer), who sang with full round soprano notes and brilliant execution. Ruth Thom-Dussean sang with the ease and finish that Toronto audiences are accustomed to when she appears and enthusiastic applause was given her number.

The air from "Oberon" by Muriel Lomax was one of the most exciting numbers of the program, to which the singer did full justice. The invocation "Eli, Eli," a traditional Yiddish melody of Russia and Poland, was fervently interpreted by the fine voice of J. Elcho Fildes, and "Weichmann What of the Night?" by George Thom and Thomas Fielder, was sung with full modulation and spirit. The air from "Herodiade," by Lambert Dussean, received the dramatic treatment which gives it attraction. Among others on the program were Pauline, who sang with exceptional announcement; Sadie McAlpine, a dainty vocalist; Marybell Wallace, Carlo G. Cloini, Edie White, Mary Sloane, "Le Cor" (Flegler), by W. R. G. Heine, was finely interpreted, and the chorus, "Good Night Good Night, Beloved" (Pisauti), was an example of refined part singing. Verdi's "Rigoletto" quartet, sung by the well-known artists, Ruth Thom, S. Winnifred Parker, J. W. Davidson and Thomas Fielder, closed the program.

Mr. Dussean expressed regret at the approaching departure for some time of Calgary, who is accompanied by the expression of his pride in the work of the maestro, which had won recognition from New York, where he goes on, contract to put on a series of concerts during the fall season.

DECKS OF DOPE IN MATCHBOXES

Police Say Drug Sellers Demanded \$5 a Shot From Habitués.

Two alleged "dope pedlars," who have been selling drugs to returned men and users of drugs, were arrested last night in a downtown park, thru the clever detective work of Plainclothesmen Greenlee and McArthur of Court street station. The men arrested, Albert Thompson, of Hamilton, and James Chapman, New York, are held on charges of "having drugs in their possession."

One hundred and thirty-five decks of cocaine and morphine were found in cigarette and small match boxes carried by the two men. Thompson and Chapman had close to \$200 each in their possession when searched in Greenlee and McArthur have been tracing the movements of these two pedlars for some weeks. Many complaints have been made of "dope being sold in certain downtown places." Last evening Thompson and Chapman were seen to place a bench behind a small quantity in slips of white paper, patiently waited in hiding until they saw no less than four different persons enter the park, make a purchase, then leave. The plainclothesmen then pounced on Thompson and Chapman, and had them arrested before they could attempt to dispose of any of the dope. Both men are said by the police to have brought the drugs in from Montreal, placed a small quantity in slips of white paper, and offered them for sale. They were receiving from \$1 to \$5 a deck.

If a victim of the drug was seen not to have any money, according to the police, do you ever stop to remember that the temperature of Lake Superior never rises above 40 degrees? What if you don't spare the time for a long holiday? The Canadian Pacific Railway's Clyde-built steamers make a five-day trip from Port McNicoll to Fort William and back, during which you can be as cool as an Eskimo and as comfortable as a clubman.

AMPUTATION CASES FAVOR NEW PENSIONS

Details of the new pension scale were discussed, and in some cases criticized, mostly favorable, at the general meeting of the Amputation Cases Association, held in the Central Y.M.C.A. last night with the president, Capt. Lambert, in the chair. A resolution was passed, and will be forwarded to Ottawa, protesting that the clause in the new scale of pensions in Canada from benefiting under the new bonus. A letter was sent to the minister of militia, criticizing the ruling of Magistrate Saunderson of Calgary, who stated that any one could wear a first-class returned button whether he had been to France or not.

It was reported that the new amputations club house at the Nipigon street would be officially opened, with all due formalities, on Saturday, July 10. It was also decided that August 10 should be the date for the proposed picnic to Niagara Falls. Arrangements are being made for the playing of baseball, bowling and trap shooting on the occasion. A vote of thanks was extended to the Y.M.C.A. for the privileges of using the swimming pool.

LOOKING FOR RELATIVES.

The Toronto police have been asked to try and locate relatives believed to be living in Toronto, of Charles Smith, shot and killed recently in Kansas City. Smith was being sought by Detective N. J. Hatvey, of the Kansas City police when the latter shot and killed Smith.

HICKS TO SEE RANEY ON BRIBERY QUESTION

Andrew Hicks, M.L.A., will arrive in the city today to confer with Attorney-General Raney with regard to his alleged statement that bribes had been offered to members of the Ontario legislature for assistance in passing legislation. The attorney-general will make a thorough investigation. The Hon. Observer of June 17 reported Hicks as saying that the member for South Essex (Fox) had been offered money to drop a bill he had brought before the legislature that would prevent the removal of sand from Pelee Island for rebuilding in the United States. Fox has already denied the statement, saying that Hicks must have misunderstood what he said.

TEAMSTERS DELAY ACTION.

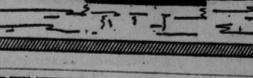

Acting upon advice from Daniel Tobin, international president of the Teamsters' Union, the Toronto union has decided to await action by the general organizer for Canada, J. W. Ashton. Mr. Ashton arrived by the last train last night and will get down to business this morning. It will be recalled that the companies such as the Dominion Transport and others in the city, recently refused to accept the findings of the board of conciliation, which granted the men 48 cents an hour, hence a more recent decision of the teamsters in Toronto to strike. This decision was reversed on Saturday upon the advice of Daniel Tobin, as noted above.

# CANADIANS BIG HIT AT ROTARY MEETING

## Atlantic City Cheers Them—Two Thousand Parade Boardwalk.

Atlantic City, N.J., June 21.—(Special.)—The Toronto delegation to the eleventh annual convention of the International Association of Rotary Clubs, which convened here today, continues to hold the centre of the stage. Everywhere is seen the Union Jack carried by the delegates, and in some prominent hotels along the famous "board walk" this emblem is more conspicuous than even the American flag.

The delegates marched in a body to the steel pier, where they registered. Preceded by several bands, recruited among local talent, the Toronto delegation marched the length of the "board walk" before their official entrance on the pier. Everywhere the Canadians were cheered, and their colors did much to attract universal attention.

Prominent at Pageant. This evening they took a prominent part in the pageant presented in the convention hall. Foreign delegates entered the hall dressed in their native garb. First came the Chinese, whose delegates from Shanghai decorated the original costume. Then followed Porto Rico, Scotland, Hawaii and several other countries, 17 of which are represented in the delegation of 1920.

When Canada made its entrance the entire delegation arose and gave three lusty cheers. The Canadians acknowledged the distinction very gracefully. Following the parade many were seen along the boardwalk taking chair rides.

Norman W. Towell, president of the Toronto Rotary Club, was loud in his praise for the showing thus far of his contingent. Harold Rook, also of the Toronto Rotary, was busily engaged throughout the day accepting invitations for the presence of the distinguished Rotarians at many functions here. The uniform many of the delegates added extra color to the splendid convention.

Atlantic City Honors. In Atlantic City, in honor of the Canadians, built a mammoth May Day pole in the centre of the boardwalk, opposite the Canadian headquarters. From the top mast flies the Canadian flag. Passing Canadians are conscious of this honor, and bow in reverence to the hospitality of the local Rotary.

The delegation from Toronto is with hardly an exception, pulling for Edinburgh, Scotland, for the coming year. Los Angeles and Boston are seriously contesting Edinburgh's claim, but few delegates are in favor of Los Angeles, and few in favor of Boston. Canada has 2000 present, which comprises one-sixth of the entire assemblage.

At the meeting this evening in convention hall, William Logie of Glasgow, Scotland, invited the representation to visit Edinburgh next year. His address of invitation was loudly applauded by the Canadian delegation.

Canadians the Feature. The feature of the evening, however, was the entrance of the Canadians, as the people from the United States sat around and lustily acclaimed them.

Soldiers from Camp Dix arrived here this evening. They will remain through the week to entertain in their military way the visiting Rotarians. An exhibition of modern warfare will be given tomorrow evening, and already hundreds of Canadians have secured reservations in the honor section. In view of the fact that many of the delegates are former service men, the exhibition will be doubly appreciated.

Contest for Presidency. The sentiment of the Canadians for president was not disclosed. It is known, however, that they will be willing to vote for Estes Snedcor of Portland, Oregon, if for the Pacific coast delegation will fall in for Edinburgh next year. The Pacific coast is now pulling hard for Los Angeles, and the trade is being seriously considered in the four-cornered fight for this international distinction.

The Canadians are occupying exclusively ten of the most prominent hotels here. Mr. and Mrs. Bert Anderson, Gordon Purvins, Mr. and Mrs. Moore, Mr. and Mrs. Shirley, all of Toronto, are taking prominent parts in the convention.

CHARGED WITH THEFT. Charged with stealing \$75 worth of goods from a downtown departmental store, Doris McQuade, Pembroke street, was arrested yesterday by detectives Nureye and W. McConnell. The thefts consisted of a ladies' coat, three waists and a child's dress.

N. E. TORONTO CANDIDATES? James Higgins, third vice-president of the G.A.U.V., a well-known labor man, has accepted nomination as candidate for the Northeast Toronto seat. As the Labor candidate Rev. Dr. Bland was the original nominee, but owing to some ecclesiastical ruling he has since declined to stand. It is not yet decided whether both Major Stoddard, the veterans' candidate, and Mr. Higgins will remain in the field as candidates.

FUMES CAUSE MISHAP. Montreal, June 21.—The murky chemical fumes of the Weyamack mills at Three Rivers were blamed today for the stranding of the steamer Quebec of the Canada Steamship Lines, Limited, which rounded June 21 at the former anchorage held today, Dominion Wreck Commissioner L. A. Demers said that his finding would be given in the course of the week.

SHOT WHILE IN FIELD. Gloversville, N.Y., June 21.—Albert Flowers, 24 years old, is in a hospital here today with only a bare chance for his life as a result of being shot yesterday by an unknown assailant. Flowers with his cousin, Miss Hattie Williams, had just entered a field on the outskirts of the city for the purpose of picking strawberries when Flowers suddenly fell, exclaiming, "I think I'm hurt." He was found to have been wounded by a bullet in a charge of buckshot, evidently fired at close range.

Miss Williams says she did not hear the shot fired, but heard a whir in the air.

The staff of the T. Eaton Company's general offices held a picnic at Ward's Island on Saturday, where they were photographed in a group for The World.

# NEW FRANCHISE ACT IS KEENLY DEBATED

(Continued From Page 1).

More important among amendments made to the bill provide: (1) The last provincial lists shall be used as basis for preparing federal lists when such provincial lists are not more than two years old (instead of not more than one year old, as the bill originally provided). (2) In Ontario, where no regular provincial list is available, but a list in course of preparation under the provincial law of 1920—a list revised by a county judge—this latter list would act as the basis. (3) One registrar is appointed in places of from 3000 to 4000 population, with an additional registrar for each 4000 more of population. (4) Advanced polls to apply only to railway employees, sailors and commercial travelers. (5) Elector disfranchisement under provincial statute by reason of race or color entitled to vote in the Dominion elections if he served in the Canadian forces.

Pass Naturalization Bill. When the committee rose, consideration of the bill was still uncompleted, the committee reporting progress. The house subsequently discussed the bill to amend the naturalization act, which passed committee stage and received third reading.

The house adjourned at 12:30 a.m. Tomorrow pensions will be considered. In the evening, Sir Herbert Ames will speak on the league of nations.

Questioned in the house this afternoon, Sir George Foster said he did not intend to give details at present regarding the agreement reached between Canada and the West Indies. An understanding had been reached not to give out details until Aug. 4.

Grand Trunk Arbitrators. Hon. W. L. Mackenzie King asked if the arbitrators of the Grand Trunk had yet been appointed.

Sir Robert Borden replied that the government had not as yet appointed the arbitrators of the Grand Trunk, either, made its nomination. Both the government and the Grand Trunk, however, were preparing evidence for submission to the arbitrators. It was not yet ready, and therefore, no time was being lost by reason of the fact that the arbitrators had not yet been appointed.

Speaking on a motion by Hon. Rodolphe Lemieux, for production of all correspondence between himself and Judge Robson regarding the latter's resignation from the chairmanship of the board of commerce, Sir George Foster said that such correspondence brought down. On this understanding, Mr. Lemieux's motion was adopted.

When the house resumed consideration of the franchise bill in committee, Hon. H. G. Guthrie moved that clause 100, respecting advanced polls, be amended to make these applicable only to railway employees, sailors and commercial travelers. The amendment carried.

Referendum Voters' List. He also moved that the preceding clause be amended to provide that in the taking of a referendum under the temperance act, the chief election officer be given power to say the voters' list should be used in the Ontario provincial election in October, 1919, shall be accepted, without revision, as the basis of lists for a temperance referendum in that province. The Ontario referendum is to be taken this fall.

The minister explained that much of the machinery provided under the new act was not necessary for a simple temperance referendum, and the chief election officer was, therefore, given power to dispense with the use of that unnecessary machinery. His decision on that point, however, will be published in The Canada Gazette four weeks before the date of voting. The amendment carried.

To Mr. Jacques Bureau, the minister explained that he had no objection to amending section 32 to provide that lists two years old should be accepted as the basis of voters' lists under the new act. This was because in certain sections of the country voters' lists were revised only every second year.

Voters' Lists Preparation. The committee turned to the clause dealing with the preparation of voters' lists. This clause aroused considerable controversy when last before the committee.

Mr. Guthrie was of the opinion that it was better to adopt one general principle for the whole Dominion. The principle laid down was that provincial lists should be adopted as a basis for the franchise where there were provincial lists in existence not more than one year old. It had, however, been pointed out that in the province of Quebec there were five or six cities where there was no annual list, but a list prepared every two years. Mr. Guthrie thought this situation might be met by providing that provincial lists be adopted as a basis when not more than two years old.

Mr. King said: "The system proposed by the government was that of having lists prepared by enumerators. It was the system adopted under the war-time election act and proved a most objectionable feature in that legislation."

term, "provincial lists." Mr. Guthrie stated that under the act the last official legal provincial list would be used as the basis of the new federal list. It would not matter if the provincial list had not been actually voted upon as long as it was the legal list accepted for elections to the legislature of that province.

King Strongly Objects. Mr. King declared that the government must take a reasonable attitude toward the suggestions of the opposition, or it would have difficulty in putting through the clause. The lists that were prepared for the municipalities, not being revised by the courts of revision, would be acceptable as a basis for the federal lists. Why should an army of enumerators be appointed to prepare complete new lists in Ontario when the municipal lists were available?

When Mr. Mackenzie King suggested that the amendment be drawn up, he said that Mr. King himself would have to draw it up.

Guthrie Moves Amendment. Hon. Hugh Guthrie later announced that he had prepared an amendment to clause 32, respecting the preparation of lists, which he thought would meet the objections raised by Hon. Mackenzie King. This amendment was in effect that where no regular provincial list was available in Ontario, but there was a list in course of preparation under the provincial law of 1920, which list had been revised by a county judge, it would be accepted as the basis of a federal list. This list would be subject to all the provisions respecting the addition or removal of names.

Amendment Carries. Mr. Guthrie said that where some municipalities were revised and others were not, only those which had been revised would be accepted as the basis of the federal lists. This provision would only apply to Ontario. The amendment carried, as also did the amendment to allow of the use of lists not more than two years old.

The schedule providing for the appointment of registrars was amended so that one registrar shall be appointed in places of from 1,000 to 4,000 population with an additional registrar for each 4,000 more people.

Hon. W. S. Fielding said the employment of an army of enumerators was a waste of public money and a useless expenditure.

Mr. Guthrie's amendment was adopted.

# NO TRADING WITH SOVIET RUSSIANS

## Nothing in Story of Reciprocal Commerce, Says C. M. A. Official.

There is nothing in it as far as our organization is concerned," stated James E. Walsh, manager of the Canadian Manufacturers' Association, in an interview here today, predicted that new Russia will not be a highly centralized state, and that much latitude will be given the many races of the country to govern themselves. He said recognition of the independence of Finland would never, in principle, be subject to any doubt, but he expressed the opinion that it was of the greatest importance for both Finland and Poland to come to an understanding which would guarantee their mutual strategic interests. As for the other new states arising within the area of Old Russia, General Wrangel said those that were virile will continue to live in a sort of federal relation with the Russian state.

# DRUG TRAFFICKING LEADS TO ARRESTS

## Five More Men Apprehended in Toronto Face Several Serious Charges.

Five more men alleged to be connected with the illicit trafficking in dope, which has been going on in the downtown section, were arrested at one o'clock this morning by Detective Sullivan, with Constables George Lee and McArthur. With two other alleged "King Pin" pedlars named Chapman and Thompson, arrested earlier in the evening, these five men are alleged to be members of a gang, who, in addition to selling drugs, are believed to have been connected with a number of thefts which have occurred recently.

In the net which was spread over the Queen street section last night, over \$1000 worth of morphine and cocaine was seized.

Walter Walker, Hamilton; John Burnes, Hamilton; John Smith, 207 Simcoe street; Constable Doyle, East King street, and Philip Antrie, 200 George street, were captured on Queen street and are charged with having possession of the dope. A number of packets, done up in gum wrappers and small boxes, were found in the pockets of the accused. A number of needles, used to inject the drugs, were also found.

Recover Much Clothing. Detective Sullivan recovered a number of raincoats, suits of clothing and silk shirts in one of the premises. These are believed by Sullivan to have been stolen from stores reported to have been entered by the thieves last month. East this morning the police of No. 1 division were still working to round up others in the gang. No charges of theft if we could establish trade connections, everything being equal, but I do not think the time is yet ripe."

# TROOPS RESTORE ORDER IN DERBY

(Continued From Page 1).

Shops and Schools Closed. Between Unionists and Nationalists died today, bringing the number of deaths for the present outbreak of party strife up to six.

Shops and schools were closed today, and many houses were barricaded because of the rioting. The streets were deserted by all except those fighting or protecting vantage points. The dock workers struck, declaring they would not handle freight until peace had been restored.

The rioting, which started at two o'clock this morning, after the troops had been withdrawn, following yesterday's battle, continued all day. Reports of additional casualties were received, but travel on the streets was so dangerous that it was impossible to obtain accurate details.

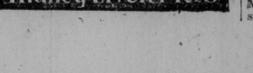

Shoot Three Unionists. From two to five o'clock this morning there was intermittent firing in many parts of the town. Between five and seven o'clock three Unionists were shot, one of whom was thrown into the river. Thereupon a large body of Unionists charged down Carlisle street, firing volley after volley toward the Sinn Féin stronghold in Bridge street. The Sinn Féiners returned the fire.

The two sides manoeuvred between the streets, keeping up a fusillade most of the day. Thereupon a large body of troops broke up the fighting temporarily at ten o'clock this morning. When the troops appear at once peace, however, fighting breaks out at another place. More troops are being sent to the scene of the rioting.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they thoroughly cure indigestion and overcome the many annoying symptoms.

# WRANGLER'S VIEW OF RUSSIA.

Sebastopol, June 21.—(By the Associated Press)—General Baron Wrangel, commander of the South Russian volunteer army, in an interview here today, predicted that new Russia will not be a highly centralized state, and that much latitude will be given the many races of the country to govern themselves. He said recognition of the independence of Finland would never, in principle, be subject to any doubt, but he expressed the opinion that it was of the greatest importance for both Finland and Poland to come to an understanding which would guarantee their mutual strategic interests. As for the other new states arising within the area of Old Russia, General Wrangel said those that were virile will continue to live in a sort of federal relation with the Russian state.

Quebec, June 21.—(By Canadian Press)—Gustave C. Piche, chief provincial forester, stated tonight that he believed that the forest fire in the vicinity of Boiger on the line of the transcontinental, had not aggravated, as he had given instructions that he be notified immediately if the fire got worse, and up to a late hour tonight he had not been called.

He stated that in Timiskaming the situation was greatly improved, but there were fires still burning, owing to the imprudence of many settlers who were burning brush without permits.

When World is Normal. "Of course, I am sure that steps will be taken later on to effect a better trade connection between Canada and that country, but it will not be until conditions there have commenced to come back to something approaching normality. We are certainly not going to trade with them until their money is not worth anything."

Mr. Walsh, however, hinted that arrangements were already being made to send a representative of his organization to Russia to investigate conditions with this ultimate end in view. "It certainly would be a good thing for Canada if we could establish trade connections, everything being equal, but I do not think the time is yet ripe."

## Oppose Wheat Board

Berlin, June 21.—President Ebert has formally appointed Konstantin Fehrenbach as chancellor. Herr Fehrenbach is president of the reichstag.

Montreal, June 21.—At a meeting of the Montreal Grain Exchange today, it was decided to appoint a delegation to present to the minister of trade and commerce the opposition of the association to the continuation of the Canada wheat board.

"A spin in the country! The hamper full of good things to eat, the tank full of Imperial Polarine and the crank-case filled with Imperial Polarine. Nothing can mar the day's pleasure!"

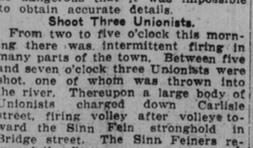

# Thorough Lubrication

IMPERIAL Polarine can be depended on to give you thorough lubrication, to keep the engine running quietly and faultlessly, to take you a 100 miles or 1,000 miles at the least cost for fuel, oil and repairs.

Imperial Polarine forms a piston-to-cylinder seal that maintains compression and utilizes the full power of the fuel. It spreads a thin, yet unbreakable oil film over every friction surface that minimizes wear—it is the perfect lubricant.

Imperial Polarine will not break up under high operating heats. It burns freely with hardly a trace of carbon. Costs less because it saves depreciation and fuels. Sold in gallon and four-gallon sealed cans, half-barrels and barrels, also 12½-gallon steel kegs, by dealers everywhere.

Look for the Imperial Polarine Chart of Recommendations when you buy oil. It shows which of the three grades described below is recommended for your car. Use the grades specified, exclusively.

# FAITH HEALER HEAVILY SCORED

## Canon Skey Casts Strong Doubts on Hickson's Bona-fides.

That Canon Skey of St. Anne's Anglican Church, in stating objections to the visit of Mr. Hickson, the "faith healer," to St. James' Cathedral, is but voicing the opinion of a vast number of Anglicans is an undoubted fact, Canon Skey, in speaking of the coming demonstration by Mr. Hickson of his powers, said:

"I am very much afraid many people may try to make another sensational side track of this gift of healing. I do not believe in this claimed revival of the Pentecostal gift. Why has not one of our pious leaders had it if it is true? If this is a supernatural gift, then I think it would act in this way: That the hardest cases would be just as easy as the simplest."

Canon Skey said that God had given six health laws to be obeyed—sanitation, cleansing, refraining from touching a dead body, hygiene and dieting, exercise and rest. "We cannot expect supernatural aid when natural laws are obeyed," he said. "There are three great dangers to the gospel these days—materialism, sensationalism and going to extremes."

In again referring to Mr. Hickson's powers, the canon said: "I would first take it to mean lying twisted and deformed or to be back for they would need it. I would take it to 'Euclid Hall' and to those of our soldiers who are maimed for life. Does Mr. Hickson heal at all? I think he does. But how does he heal? There were many cases of mental healing, the triumph of mind over body in the case of people who suffered from an obsession. Christian science had been stolen from this idea."

"If you believe you haven't a body and can't feel pain, and if you believe you have a body, but it can be healed, it is the same thing," he said. "Another form was magnetic healing in the case of certain individuals who possessed unusual magnetic power in their bodies. My own impression is that Mr. Hickson's healing many cases, but it can be explained by either of these reasons," he said. "You will ask: 'Are there no cases of supernatural healing?' Yes, there are." The canon quoted the prayer of faith which he had tried first, and if physicians had exhausted all their skill in vain, then God might heal. "But we cannot tell which God will raise up and which He will not."

"If healing of you is for the glory of God, then you will be healed. If the healing doesn't come, something better will come," said the canon.

All the tickets for the two services to St. James' Cathedral have been issued. Requests for admittance have come from all parts of Ontario.

TUESDAY MORNING, JUNE 22

**Do We Want to Outlaw War?**  
The parliamentary appropriation for Canada's share in the league of nations was over sixty thousand dollars. Our membership in the league has been heralded as the final proof of our arrival at the status of equal nationhood with the United Kingdom, the United States, and every other nation in the world. As Mr. Mealy points out in a letter to The World, Canada led the western hemisphere in the fight to save liberty and democracy. If she chooses she can give leadership to the new world's participation in the league of nations, the object of which is to liberate mankind from the curse of war, to reduce armaments, to ensure open treaties and their observance, to set up a court of international justice, and to give backward races a fair deal.

Mr. President Taft and Mr. Hoover, both pro-leaguers, profess to see in the selection of Warren Harding as the Republican candidate for the presidency an assurance that the United States will presently enter the league, and thus justify the hopes of the allies. Leadership of this half of the world in the league's work means something more than a merely official adherence to it. The democracies for which the earth has been made apt must have, relatively, as keen an appreciation of the league's objects as they had of the issues of the war. If Canada is to give a new lead, the Canadian people must know more than that parliament has appropriated \$60,000 for official expenses in connection with the league.

In Britain the League of Nations Union has been formed to promote the public opinion, which is the only sure anchorage of the league. The union wants \$50,000 for its propaganda. They do these things wisely over there. The union ranks the league covenant, historically, with Magna Charta and the constitution of the United States, and it declares that the statesman having given us the covenant, it is the people who must give life to the league. The driving force to this end is to be the League of Nations Union in all the nations of the league.

What driving force in honor of Canada's membership in the league has been developed in Canada? The allocation of \$60,000 seems to have no relation to the development of public opinion. Hundreds of town meetings were held in England soon after the formation of the union. Leaders of public opinion in every department of political, social and educational activity joined the oratorical army. In many places the meetings were reported to have been the greatest ever held. Political opponents vied with each other in supporting the effort to outlaw war.

If there has been propaganda for Canadian appreciation of Canada's place in the league, little has been heard of it, beyond a few speeches by Mr. Rowell, which have not aimed to create any permanent organization. We have all believed that the war gave the final historical imprimatur to Canadian nationality. The league has given us a chance to take a new place in internationality. But we have not done it, as far as the public consciousness is concerned. And, so far, there is no sign that public men have become seized by a new ambition to stimulate the reflection and action of their compatriots in this very potential matter.

**Getting Men Interested in Their Work.**  
A few months ago Frank A. Vanderlip of New York delivered an address in Toronto which made a good many people sit up. He gave figures to show that with more factories established and more men at work the actual output of industry had declined in a startling manner between 1914 and 1920.

1920. A thousand men working a thousand days apiece, he said, upon many works of construction were producing little more than was formerly produced by seven hundred men working seven hundred days apiece. He did not attempt to explain the phenomenon, but observed in passing that this falling off in production had accompanied an increase in wages.

There was no suggestion that the artisans were consciously soldiering, or that they were deliberately doing less work because they were receiving more pay. Mr. Vanderlip contented himself with stating the problem. An eager, even a ravenous world market had not, he said, checked a steady fall in production.

Evidently labor was not taking the same interest in production as capital, and one reason may have been that labor had no part in the management of the business. The men were directed to do certain work often monotonous and uninteresting, in highly specialized industries. They did this in consideration of a promised wage. They know little about the market for the product they were making, and probably feared over-production.

One remedy suggested is that labor shall share with capital in the management of industry. This may be considered impracticable by the men who build the factories and naturally want to run them in their own way. Yet these same men endeavor to stimulate production by piece work and a participation in profits. They are conscious of the problem and would like to solve it in any reasonable way. But they want to keep the reins of management in their own hands. Why not go into conference with the men? Some American concerns are said to have done this and improved the production.

**Should a Hero Be Out of a Job?**  
Not long ago some Canadian soldiers were quoted by a writer in The Manchester Guardian as saying that nearly all the English novels ought to be scrapped because the hero never makes his own living but hangs around waiting for some old woman to die and leave him her money. Even Dickens fell under the ban, although he was a hard worker himself and kept the nose of his favorite hero, David Copperfield, to the grindstone as a parliamentary reporter. The incident has a Mr. St. John Ervine to discuss the general question of art as it is viewed in the mother country and the materialistic puritanism which he finds rampant in Canada and the United States.

Mr. Ervine, it appears, recently whittled away his time when journeying from Cincinnati to Toronto by reading a magazine published on the other side, but largely circulated in Canada, which he believes is responsible for what he considers the Canadian soldier's narrow outlook. In this magazine the hero was always a successful business man. He was an efficiency expert, a high pressure salesman or some other kind of industrial wizard who had no time for art or romance. The villain was always an artist or a poet who was felled at the very moment when he had almost succeeded in persuading the heroine to attend a lecture by a foreign novelist. The businesslike hero took time enough to rescue the heroine at this crucial moment, and after that she rivaled him in her devotion to Big Business.

Mr. Ervine says a man is not interesting because of his occupation, but because of his character, disposition, passions and weaknesses. He believes Hamlet to be one of the greatest literary creations in spite of the fact that he never worked for a living or even looked for a job. Mr. Ervine even goes as far as to suggest that some spots of wickedness is needed to make a hero interesting.

In his native province of Ulster he tells us that many people banned novels as being "all lies." That, in his opinion, was a childish objection. The bald truth he does not regard as artistic unless and until it is illumined by imagination. He would probably sympathize with the character in the opera Mikado who justifies a string of fabrications by saying that they were intended "to give an air of picturesque verisimilitude to an otherwise bald and unconvincing narrative."

**"TORONTO" TRAVELERS FORWARDED BY TRAIN**

Passengers All Safely Ashore When Ship in Trouble at Port Frederick

Kingston, June 21.—On her eastward trip this morning, the steamer Toronto of the Canada Steamship Lines went ashore on Point Frederick, just east of the harbor. It is not thought that she has suffered damage. She carried 250 passengers. Two tugs are working to release her.

Two hundred and fifty passengers aboard the stranded steamer Toronto were all removed by the steamer Wolfe Islander late this morning and sent east by train.

The steamer Toronto, which went aground in the harbor early this morning, was released by the Donnelly Wrecking Company at 6:15 o'clock tonight. She was taken off without damage and cleared for Toronto at midnight.

**CHATHAM LIQUOR PROBE**

Chatham, June 21.—(Special).—An enquiry into circumstances relating to the seizure of a carload of liquor in the city recently is to be held here on June 23, it is reported, with J. C. Elliott of London conducting the enquiry before Judge McBeth.

**OTHER PEOPLE'S OPINIONS**

The World will gladly print under this-head letters written by our readers, dealing with current topics. As long as they are not longer than 200 words, must be written on one side of the paper only.

**HELP THE LEAGUE OF NATIONS.**

Editor World: I have just received a pamphlet upon the league of nations which contains information in regard to the league as the only safe plan of dealing with international difficulties. May I ask your attention to the words of Lord Robert Cecil in the house of commons: "The league must go on, for it is the sole hope of permanent peace. If possible, certainly we desire American co-operation, but if the United States decides not to take part in this international effort, we must go on. The burden will be greater upon us and upon other nations, but our people, and I have no doubt the people of Europe, will face the burdens as they faced those that fell upon them during the war." Sir Donald Maclean in the house of commons put the following question to the government: "May we take it that, whatever happens to other countries, there will be no slackening of the determination of his majesty's government to do all in their power to take the lead in seeing that the league of nations becomes an operative instrument of human progress?" Mr. Bonar Law replied: "My friend need have no doubt of that, and I think that we would be a mistake to assume that all possibility of help from the United States must be given up."

The Daily Express of London asserts that the "league is dead." This is doubtless a mistake to assume that "the wish is father to the thought." It does but make clear to the whole world how determined is the aim of certain reactionary influences of Great Britain and of continental Europe, whose exploiting of profiteering interests are threatened by the league, to prevent the league from performing its service to humanity. Notwithstanding such hindrances a number of important steps have already been taken by the league, while much more would have been done had not such difficulties first to be overcome.

I would urge that as Canada led North America in the fight for world freedom and safety, so we can now lead America in this new era of civilization on behalf of the league of nations, to safeguard the future peace and reconstruction of the world. May we not also hope by our example and influence to help the people of the United States to understand more clearly their responsibility?

In view of the coming to our cities of many representatives of the press of Great Britain, may we not look to our national and patriotic clubs, and organizations to prefer requests to these delegates to address our people upon this great problem?

A league of nations union has been formed in Great Britain for the strengthening and furtherance of the league of nations. Our friends from England and Scotland can tell us what they have done and advise with our people what we can and may do.

Henry Moyle.

**DAY IN PARLIAMENT**

Ottawa, June 21.—(Special).—Sufficient foreign orders to keep Canadian shipyards engaged for two years are said to be in sight, if the government's plan for encouragement of shipbuilding, announced today, is accepted by parliament. The government's proposal, being summarized, is that the minister of finance may be authorized by the governor-in-council to endorse promissory notes drawn by the purchaser in favor of the shipbuilder for 50 per cent. of the purchase price in cases where the remaining half of the cost has been provided for by the policy to vessels of more than 3,000 tons, and the vessels to be mortgaged to the government for the full amount of the notes endorsed and to be registered in Canada without right of transfer until the mortgage has been cleared off.

Belief that such assistance will bring heavy foreign orders to Canadian shipyards is largely based upon the knowledge that France has decided to build up a large mercantile marine and is endeavoring to place orders in the Dominion. Up to the present time this has been very difficult because of the obstacle placed in the way by the necessity of arranging for credits. France, it is now stated, is willing to pay in full when interest and capital can fall due, and it is reported that a large credit association with which the name of Sir Henry Pellatt is prominently identified has recently offered money in New York to help finance the orders, and that this, supplemented by the government, will result in large freight orders coming to Canadian yards.

The government, apparently, had the case of the French and other foreign countries in mind in declaring its intention to build up a mercantile marine. A special clause in the provisions above mentioned with respect to mortgaging the vessels, which is now being complied with, is that the amount of the said promissory notes endorsed by the minister of finance shall be furnished by the purchaser as may be approved by the governor in council.

The government and its followers believe that this plan will avoid most of the difficulties in connection with extensions of the credit to foreign countries, twenty-five per cent. cash coming to Canada, the balance in installments, other twenty-five per cent. coming according to arrangements between the government and the purchaser (in this case a foreign power), and the two to five-year notes endorsed by the finance minister having ample time to run. The money loaned meanwhile coming to Canada for the development of Canadian industries.

In respect of ships built for Canadian yards, the government would have a mortgage on every ship, and the mortgage to be made in the same way. How the government of commons will accept the plan, and the conditions which require some of the units composing the British Empire Steel Corporation would benefit largely from the business secured by this plan, but it is by no means certain that the consideration will militate against the passage of the legislation.

Senators today gave the government another jolt. This is becoming a habit of the upper chamber and this session party lines have been nearly obliterated.

**WORLD'S DAILY BRAIN TEST**

BY SAM LOYD. 5 Minutes to Answer This. No. 226.

Farmer Sykes claims to have discovered the relative yields between squashes and pumpkins. He says: "In a square field I had 500 hills of pumpkins and there were only 5 rows of hills of squashes, and I got just as many squashes as pumpkins. Now how many squashes do you think I got to the hills?"

Answer to No. 225.  
Six persons might have lived in that house, according to the boy's statement, but it involves a peculiar condition of relations, which requires some explanation. Let us say that Mr. A was a widower with a son who was a widower with a son. Then there are fathers and their sons. Then there are Mrs. B, a widow with a daughter who is a widow with a daughter. Thus two mothers and their daughters. Now we marry the three A's to the three B's and we have three childless couples.

**CHAPTER III. (CONTINUED).**

Men who had finished their breakfasts rose hastily with a marked awkwardness and ill-concealed haste and went outside, whence their low voices came back in a confused consultation. Men who had not finished followed them in an amazingly short time. There were but the girl, Lee, Trevors and the cook that I count you out. Trevors went out, Benny by his heels, Bud Lee, moving with his usual leishurelessness, was following when Judith's cool voice said quietly: "You're waiting a moment. I want to talk with you." Lee hesitated. Then he came back every man.

The men outside naturally grouped about the general manager. His angry voice, lifted clearly, reached the two in the room. "In first," said Trevors harshly. "As soon as I can get going I am leaving for the Western Lumber camp. Every one of you boys holds his job here because I gave it to him. Do you want to hold it now, with a fool girl telling you what to do? Do you want me up and down the pier at you for a pack of riddles and imbeciles? Or do you want to roll your blankets and quit? To every man that jumps the job here and follows me today, I promise a job with the Western. You fellows know the sort of boss I've been to you. You can guess the sort of boss that chick-on in there would be. Now I'm going. It's up to you, stick to a white man or fuss around for a woman?"

He had said what he had to say and, cursing when his shoulder struck a form near him, made his way down the stables. Burdick was ahead of him, going for the team.

"Well, Lee," said Judith sharply, "where do you get off? Do you want to stick to me today, or listen to me?" "I guess," said Bud Lee, "you'd better count me out."

"You're going with that crook?" "No, I'm going on my own."

"Why? You're getting good money here. If you're square I'll keep you at the same figure."

"But Bud shook his head. "I'm game to play square," he said slowly. "I'll stick a week giving you the chance to get a man in my place. That's all."

"What's the matter with you?" she cried hotly. "Why won't you stay with your job? Is it because you don't want to take orders from me?"

Then Lee lifted his grave eyes to hers and answered simply: "That's it. I don't see that you've got any call to be into a man's job."

"Oh, soot!" cried the girl angrily. "You men make me tired. Two kinds of ladies! And ten thousand kinds of men! You want me to dress like a doll, I suppose, and keep my hands soft and white and go around like a brainless, simpering fool! There are two kinds of ladies, my fine friend: the kind that can and the kind that can't! Thank God, I'm none of your kind. Gulping down a just mouthful of coffee, she was on her feet and passed swiftly out among the men.

"You men!" she cried, and they turned sober eyes upon her. "Listen to me! You've heard that big stiff rant; now hear me! I'm here because I belong here. My dad was Luke Sanford and he made this ranch. I was raised here. It's two-thirds mine right now. Trevors there is a crook and I told him so. He's been trying to sell me out

**BANK INTEREST MOTION DEFEATED**  
Senate Against Government Paying Four Instead of Three Per Cent.

Ottawa, Ont., June 21.—(Canadian Press)—In the senate today a motion by Senator Power to increase the rate to depositors in government banks from 3 to 4 per cent, was discussed at some length, but was finally lost on division in supporting his motion. Senator Power pointed out that the rate had once been four per cent, and could be changed now by order-in-council. Today the government was paying three per cent, for outside loans and only two per cent for its own. The Canadian banks were enabled, as a result of this, to keep their rates down to three per cent, so that the government was really preventing the people from receiving adequate interest on their deposits.

**CHAMBER ARGUMENTS**  
Senator Bostock supported Senator Power, but called attention to the fact that savings banks, through which the people could secure five per cent, were not included in the motion. He argued that the banks would be forced to raise their rates to four per cent, and that the government would be forced to raise its rates to five per cent, if the motion were carried. He also pointed out that the government was paying three per cent for its own loans, and that the banks were enabled to keep their rates down to three per cent, so that the government was really preventing the people from receiving adequate interest on their deposits.

Marshall, but it is generally understood that the McCauley strength, and the Wilson administration, a record strength will be thrown to Senator Carter H. Glass of Virginia. Mr. Glass has an enviable record in public life. He was elected as secretary of the treasury, and is a close personal friend of President Wilson and undoubtedly will secure all the delegates that Mr. McCauley can influence. The announcement that Champ Clark will be a candidate is not taken seriously. The ex-speaker is considered to be a third term candidate. He was born in 1850. Neither do the politicians seriously believe that President Wilson will project himself into the contest as a third term candidate. He will be represented on the floor of the convention by a number of his cabinet, and Secretary of State Colby is expected to be a permanent chairman. Attorney-General A. Mitchell Palmer is a candidate for the nomination, but he can scarcely be said to be the administration candidate.

A Third Party.  
The president's recent interview made little or no impression on the Pacific coast. A large element of the population is extremely radical and would welcome a third party under the leadership of Hiram Johnson. They will also be attracted by the new National party which may be formed at Chicago next month. This party hopes to unite the Farmers' Non-partisan League and the National Labor party, and will no doubt come out fitted for government operation of railways.

The Cox, Marshall and Glass may lead on the first ballot they will by no means have the fight to themselves. Other names will go before the convention. Governor Edwards of New Jersey is an avowed candidate, and is mentioned as a general favorite. Others prominently mentioned and who undoubtedly could command some support in the convention include: President Wilson, Hon. William Jennings Bryan, Hon. Champ Clark, Ambassador John W. Davis, Secretary of State Colby, and Governor Owens of Oklahoma.

PRESBYTERIANS AGAINST BETTING

Favor Methodist Campaign Against Legalized Gambling on Race Tracks.

Rev. Dr. Shearer's new campaign by the Presbyterian Church against the continuance of legal betting at the race tracks, is being rigorously supported by the Methodists. The Christian Guardian, in its coming issue this week, under the caption, "Parliament Approves Race Track Gambling," will say: "The Parliament of Canada has again endorsed the strange and irrational idea that the gambling which is a crime anywhere else is a perfectly innocent amusement upon a race track. The premier, Sir Robert Borden, declares that the government's legislative amendments are as far as the government can go; but this is not very satisfactory. It is the idea of a politician rather than a statesman, and when every state in the neighboring republic has outlawed the evil, as the Hon. F. W. Crothers declared on the floor of the house, it is humiliating to the premier of Canada to declare that the present government is not able to get rid of the evil. Surely the government that could not get rid of the script the manhood of Canada is abundantly able to declare that the gambling which is forbidden on the streets and everywhere else will not be tolerated upon the race tracks. The question naturally arises, Who is it, or what is it, which backs this evil, and which is confessedly stronger even than the national government? It is true that there is a power in Ottawa that prevents the extinction of race track gambling, would it not be well for Sir Robert to take the Canadian people into his confidence and let them know what power it is which is strong enough to keep this vicious race track gambling alive. Race track gambling must go, and the sooner it goes the better our people will be pleased."

GUILTY OF RECEIVING After Taking Liquor Gordon Fargeter Forgot Everything.

In the sessions yesterday, Gordon Fargeter, a young man, was convicted of receiving or retaining in his possession an automobile, the property of Hedley Shaw, of whom he was charged with stealing as well as receiving. Fargeter was captured by Officer O'Neill after a stern chase, in the course of which the revolver of the officer came into play, doing some little damage to accused, while four other occupants of the car, scenting the presence of the representative of the law, got out of it and bolted. The auto, it was stated, was traveling at about 70 miles an hour, and in the course of the journey turned round twice in the middle of the street, jeopardizing the lives of the occupants. Accused, who denied all knowledge of the theft, stated that he was accosted by three men in the auto at the corner of Yonge and Gerrard, who asked him where a bottle of whiskey could be obtained. The whiskey obtained, the merry party adjourned to Queen's Park and did full justice to the accused admitting that he remembered nothing afterwards.

Offers Reward For Jewel Robbers' Arrest

Abraham Rosenthal, whose jewelry store at 125 West King street, was robbed of \$30,000 worth of diamonds, last Friday, informed the police yesterday that he would offer a reward of \$5,000 for information leading to the arrest of the robbers. Circulars are being prepared with an inventory of the stolen diamonds and these circulars will be sent to different cities in Canada and the United States. An examination of the firm's books shows that about 250 pieces of diamond jewelry besides scores of costly loose stones were stolen. It was stated that the insurance on the stolen goods amounted to \$20,000.

RELATIVES AT LAW

SMALL MOVEMENTS WONGLY REPORTED

(Continued From Page 1).

That his client was in good health and "as fine a fettle as Lever saw him." Mr. Flock said he was of the opinion that Mr. Small had been held up by thugs in the vicinity of his home, killed, and his body thrown into the ravine.

Controller Maguire's Statement. Then again on January 5 The World published a statement by Controller Maguire to the effect that he met Mr. Small coming out of the Grand Opera House at 4 p.m. on December 2. The controller had some business to transact with the theatrical man, but Mr. Small asked him to put it off to the following day, and complained that after a hard day's work he was nearly all in.

The appointment for next day was kept by Mr. Maguire but not by Mr. Small.

All this evidence goes to prove that Mr. Small was in the Grand Opera House at 5.30 p.m., but does not show what he did there. It is even held, also there some outside evidence which leads to a conclusion that he actually did proceed on his way.

The Toronto evening paper falls into exactly the same errors as its morning contemporary. The World files a greater application. The World files for last January are still outside, so there is hope that blanks in the story may be filled in and errors corrected.

But many minds there are doubts as to whether John Doughty was an actual thief—stealing in fact \$150,000 worth of Victory bonds. If on December 2 Doughty had contemplated stealing the bonds and kidnapping Small, he could just as easily have stolen \$250,000 worth as the one hundred thousand.

It is interesting to note that he actually obeyed his employer's instruction to take \$1,000,000 to the bank for registration in an established bank. Why, then, did he not do so?

Mr. Small may have put the \$100,000 worth of bonds into his office safe. There is a belief that this latter actually happened and that Doughty, when he came to Toronto at the end of December, opened the safe and extracted the bonds and some other valuable papers, but, of course, all this is just as much speculation as to assume the missing secretary extracted the bonds from the safety box.

The non-appearance of Doughty to explain his connection with the mystery is, of course, decidedly against the belief that he has a clear conscience. On the other hand, some of his friends argue that he has some too much for some interested people to be being paid to stop well away from Canada, that he was "fed up" to use his own words, with his job in Montreal, is proved by the letter received from him two days after his disappearance, but whether he meant to quit just as quickly as he did on his visit to this city, is a matter time alone can solve.

BIG BATTLE LIKELY FOR PRESBYTERIANS

Postponement of Action Towards Church Union Causes Protest.

Presbyterianism in Canada is in line for a big bolt, according to the information received by Rev. Dr. Creighton, editor of The Christian Guardian, who returned yesterday from a six weeks' tour of the Methodist conferences in the western provinces.

Rev. Dr. Creighton said: "There is widespread dissatisfaction throughout western Canada over the action of the Presbyterian general assembly postponing action on the question of church union for another year. The result was likely to be an increase in the local organization of union churches. This had already been in progress under a federated Presbyterian Methodist and Congregational board. This had no terrors for Methodists because frequently the union churches advertised in The Christian Guardian for the Methodist conference or assisted by a home mission fund, divided their mission or educational work between the two churches, the respective denominations represented in the local churches. The dissatisfaction of the Presbyterians over the postponement of church union was the most impressive feature Dr. Creighton observed while west.

He was intensely gratified by the crop of union churches which did not improve upon in the localities he visited or territory passed thru.

Dr. Creighton went first to the British Columbia Methodist conference at Vancouver. While no boom was in progress, a steady revival of business was reported.

The provincial election was a prominent counter topic at the Manitoba conference at Winnipeg, the consensus of opinion being that the Norris government was likely to be sustained. There appears to be a desire to forget the Winnipeg strike.

REV. BYRON N. STAUFFER RETURNING TO TORONTO

Rev. Byron N. Stauffer, formerly pastor of Bond Street Congregational Church, Toronto, has resigned the pastorate of the Congregational Church, Winnipeg. It is understood to be his intention to return to Toronto to hold a series of Sunday evening services.

REV. MR. BLAND OUT OF POLITICS.

Rev. Samuel G. Bland, pastor of Broadway Methodist Church, Spadina avenue, said last night that his decision to keep out of provincial politics, so far as the candidates for the vacancy caused by the resignation of Rev. Dr. Cody was concerned, was final. This was because the duties might be incompatible with those of the Methodist pastorate.

PARTIES MAY SETTLE.

In the county court yesterday Judge Denton reserved his decision in the action brought by Melville H. McArthur against the town of New Toronto and A. A. Scully to recover damages in respect of a broken ankle, sustained by the plaintiff when he fell on the sidewalk opposite the Scully factory, on which he alleged, was allowed to accumulate, owing to the culvert not being sufficient to carry off the water from the adjoining property. The parties will try and settle at an amicable settlement and report to the judge. Meantime the case against the G.T.R., called as defendants, has been dismissed.

UNAUTHORIZED PARKING

Twenty-five informations were lodged against the Yellow Cab Company for using other than authorized parking space. One fine of \$5 was imposed, and the other 24 cases were remanded till called on.

ROBBED A STRANGER.

In the sessions yesterday George Webster was remanded until today for sentence on a charge of robbing Dan de Guilo of a sum of money. Accused met de Guilo while the latter was waiting for a street car and invited him to his boarding-house to play poker, which the fleeing gentleman could not play. The robbery was staged and took place on the railroad track near Lansdowne.

OLYMPIC RE-ENTERS PASSENGER SERVICE

Is Largest Oil-Burning Steamer in World—Better Than Coal.

A cable message from London reports that the largest oil-burning steamer in the world, the White Star liner Olympia, will re-enter the passenger service between New York, Cherbourg and Southampton after an absence of nearly a year, during which time the vessel has been reconditioned thruout.

The selection of oil fuel as a motive power for this mammoth steamer was made after exhaustive tests, and was the latest marine practice of the world's greatest navies and thousands of mercantile vessels. Scores of large liners at present in the process of being "oiled," as the technical phrase has it. The giant operation of converting the Olympia's 195 furnaces from coal to oil fuel to provide steam in the 29 boilers, has been a most intricate and successful one. 4,000 workmen having been employed for several months installing special machinery for this purpose. The Olympia's oil-carrying capacity is estimated at 50,000 barrels, which will be stored in the cellular compartments between the ship's double bottom. It is estimated that the steamer will require 25,000 barrels on each voyage, the quantity varying slightly according to the speed. The installation of oil is expected to eliminate all the delays heretofore caused by bad weather and other unusual conditions, which frequently interfered with coal loading, and will also result in greater comfort to the passengers, because of the absence of dust and cinders on the decks.

It was reported that the British Columbia Methodist conference at Vancouver. While no boom was in progress, a steady revival of business was reported.

The provincial election was a prominent counter topic at the Manitoba conference at Winnipeg, the consensus of opinion being that the Norris government was likely to be sustained. There appears to be a desire to forget the Winnipeg strike.

"What's in a Name?"

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel.

by MILDRED MARSHALL

NINA. The Nina has a typically French sound, the name is regarded as English. However, it came to us thru the French by a lengthy process of evolution. The Hebrew Chanannah was its earliest source, and from this word it derived its significance of "grace."

Thru the English Hannah it came to France as Anne, and was soon given the diminutive, Annette. As Nannette it appeared simultaneously, but the French love of variety changed the latter form to Nanon and finally to Nina.

The beauty and fame of Ninon de L'Enclos, superwoman and court "vamp" in the reign of Louis XIV, spread her name afar. It became almost a synonym for charmer, and the name of several countries coveted it. But Nina is too Gallic for English ears, so, in its transportation across the Channel, the ending underwent a change and Nina was the final result. It has enjoyed extraordinary vogue in this country.

The diamond is Nina's talisman gem. It is the emblem of fearlessness and invincibility, and promises its wearer success in all undertakings and freedom from misgivings. According to an old superstition, it enhances the love of a husband for his wife. Sunday is Nina's lucky day, and 3 her lucky number.

Your Appetite for Beefsteaks

loses its edge these warm-weather days. That's Nature's warning. Wisdom demands light food—food that is easily digested, that does not over-tax the system.

Good sense and good health should prompt you to double the amount of milk you usually use these days.

Consider why— It is the food your body uses that counts—not the food you consume. One quart of milk is as rich in nourishment as six eggs, or 2 1/2 lbs. of salmon, or 2 lbs. of chicken, or 3-5 lb. of bacon, or 3/4 lb. of round steak, or 4-5 lb. of pork chops.

And milk is the only food complete in itself—it contains in balanced proportion all the food elements your body needs.

You'll keep active and fit if you make milk an important part of your daily diet these days.

See that the children have free access to the Farmers' Dairy bottle. Let them drink milk when they come in thirsty and hot—too eager for play to eat a proper meal. Give it to them to drink at meal-times—and on fruit, cereals, and puddings.

Farmers' Dairy Milk comes from well-fed, well-tended cows. From Ontario's finest farms. It is richer than ordinary milk. And it is made safe by scientific pasteurization in the Wonder Dairy of the continent.

### GREATEST FIND OF THE CENTURY

Dr. Julian Loudon Thus Describes Possibilities of Cancer Serum.

There are three outstanding factors connected with the new discovery of serum for cancer treatment for which Dr. Thomas J. Glover is sponsor. The treatment has undoubtedly proved valuable as a means of alleviating pain and of inducing marked improvement in the worst cases. Secondly, Dr. Glover has never for an instant considered the question of fees for any case to date, rich and poor alike getting treatment at the outdoor patients' clinic at St. Michael's Hospital, pre-eminently Dr. Glover's hall of fame. Thirdly, vivisection has been an absolutely necessary factor in consideration of the means to the end, the treatment having been given in varying doses to animals to induce disease in them, and again other serum having been injected into the same animals to cure them of the effects of the first injection. Hundreds of animals have been experimented upon in order to work out the cure. It is such it is, and, as against these hundreds of animals will in the years to come be counted the cure of millions of beings human and other, from the ravages of the most dreaded of diseases.

**Jubilant at Results.**  
While Dr. Julian Loudon, among the best-known of Toronto's medics, is not sure that the new treatment is a cure, sufficient time not having been given to show permanent effects, he is more than jubilant at the results noted to date. Dr. H. B. Anderson, East Bloor street, had not as yet seen any of the patients referred to, but stated he had every reason to believe that Dr. Glover had made some remarkable discoveries.  
Dr. Loudon, who referred caustically to the Germanism of the American universities today, and to their lack of incentive to individual effort in research work, characterized cancer as an unexplored continent. "May we not hope that at last a Livingstone has arisen who will take us to the centre of this dread continent. If this serum treatment be successful, as I trust it will, it will indeed prove the greatest discovery of the century."

### BRITISH MERCHANTS INSPECT CONDITIONS

Dry Goods Delegation Representative of Overseas Trade.

A party of thirty-two British and American drygoods merchants are visiting the city to inspect our local stores and business conditions. The British visitors represent the drapers' chamber of trade of England, while there are eleven United States business men representing the National Drygoods Association.

The British delegation is justly representative of the various types of textile distributive trades in Great Britain, from the largest stores in London and the provinces to the ordinary drapers doing a good and medium class trade. The object of the visit is to gather information as to the conduct and organization of drygoods stores on this side of the Atlantic, to compare business methods and merchandise values. Window display and advertising will receive special attention. It is hoped that much mutual benefit may result both to the visitors and their hosts from the exchange of ideas which the visit will foster. Miss Dorothy Cook, daughter of F. W. Cook, is secretary of the Englishmen, and the tour is under the direction of Homer S. Curtis, organization secretary of the National Retail Drygoods Association.

The visitors, starting at New York, have traveled west across the United States, and now are returning east thru Canada. They have so far called at 22 cities, and from here they will go to Ottawa and Montreal, returning home via New York.  
F. W. Cook, chairman of the Drapers' Chamber of Commerce of Great Britain, declares that he does not look for a drop in the price of staple goods for another 18 months, owing to the world shortage of raw material, high cost of raw products, high freight rates and shortage of ships.

### WILLS AND BEQUESTS

The heirs to the \$20,647 estate left by Robert Myers, a farmer, are Janet Walter, Elgin, Adelaide Leonard and Maggie Myers. Deceased died intestate.

Mrs. Harriet E. Knox is named sole beneficiary and executrix under the will of the deceased husband, John A. Knox, a watchmaker, who died leaving \$13,600.

Under the will of the deceased George R. Felter, who died in Austria, his widow, Mrs. Rosalie R. Felter, is named sole executrix and beneficiary to the \$13,425 estate left by him.

The deceased Miss Annie Hollingworth left estate valued at \$10,493, and after bequeathing \$500 to her father, three sisters and two brothers, directed that the residue should be inherited by Mrs. Hannah Hamilton, of Gravenhurst, another sister.

Under the will of the deceased Mrs. Lucy Ann Knight, a widow, her two sons share equally in the \$5,350 estate left by her.

After providing legacies of \$10 to each of her three children, the deceased Mrs. Victoria Lines bequeathed the residue to her husband, Thomas Lines of Aurora. Deceased left \$14,454.

### WANT REPUTABLE DETECTIVES.

Attorney-General Raney has written to Crown Attorney Corley, declaring that he does not approve of the employment of disreputable persons as detectives. This action was taken by the attorney-general, following the receipt of a letter from Mr. Corley regarding the case, where a woman was used to secure a conviction against a man for B.O.T.A. Such persons, says the Hon. Mr. Raney in his letter, should not be used by the crown to enforce the law unless under very exceptional circumstances.

### EVERYTHING IS LITTLE EXCEPT BIGNESS

IT shore's got me how a lotta young jessies are forgin' ahead and gettin' themselves talked about. They don't think twice of lettin' their hands and arms go nude on a day like this.  
They can butt into a night romp with their fingers crossed and swap a tag with a slash haired john while someone kills the plane every night in the week. The word proper don't cut no cantelope with them, and from some slants I've had I'll say the world is blasé at seventeen.  
Even if you slip into a simple little hotel you get jarred, but as shore as snobs is snobs, we ain't livin' no more unless somebody starts somethin'. Like today; Luck broke pretty good for me and about twelve ten I met Sporty Montgomery who is some boy and after one-over'n' his lay-out, I took a wing and we did a team into a swell hotel, and leave it to me to order a meal that set him back at least five bucks.  
We jest got finished decidin' between saasparilla and iced tea—(both sice death) when I walked a mool dolled to kill in a carky cool slinker and a red Kelly. She looked thru us like a X-Ray special and waltzed to the next table. The room was filled with a bunch of refined people and right in front of us all, Cleopatra heaved out a nifty "platinum" case, tapped a cigaret on the table like a slouch in a ten cent mello-drammer, and then set back and shot whiffs what she watched thru blinky lamps.  
It didn't take Monty long to spot her and then offer me his case, "I don't smoke—and it aint on account of my voice either," I slams.  
"When in Rome, you know," he says, like I was somebody's aunt.  
"That's exactly why I aint smokin'. I am in Rome, but that dame aint! What right has she to spring atmosphere on a place like this? Perhaps she don't know it, but she's pullin' small town stuff. If he was a celebrity like a player at Woodworth's or a window demonstrator we could forgive her for bein' 'different'. I aint joined the brigade of the sad Sunday guys or the uplifters, but here's where I spout," I says, makin' for the management.  
But I'll spill you the rest to-morrow. The rain's over and I gotta weed my pepper-grass border.

## ORIOLES MAKE HAY WHILE LEAFS REST

### Rain Played Havoc With the Ball Schedules on Monday

Yesterday's rain was general all over the North American continent. Leafs were billed to spend a holiday at Syracuse, but the witness made it disagreeable. Jersey City and Reading were visited by the downpour and were unable to stage games.

Three National League games were also stopped and a like number in the American League were postponed.

Duffy and his aids will be at Syracuse until Thursday on Friday they will move to Reading for the local scoring. Home games will be played on Monday and Tuesday. Rochester visit next for one day and the Leafs will spend practically the whole of July away.

At Cleveland (American)—Cleveland retained first place by defeating Boston 3 to 2 in 12 innings.

At Philadelphia (National)—Philadelphia defeated Cincinnati, 5 to 1, in the opening game of the series. Sensational fielding held down the local scoring. Pauleta and Rariden had fingers split and had to retire. Score: R. H. E. Philadelphia... 0 2 1 0 0 2 0—5 11 1. Batteries—Lauther and Rariden, Allen; Rusey and Wheat.

# ROWING Kelly Ineligible for The Diamond Sculls

## HAVE MERCY, MR. WEATHERMAN.

## REDS AND INDIANS HOLD OPPOSITION

### Major League Leaders Standing the Drive Gamely—Dodger Pitchers Slip.

New York, June 21.—The ability of the Cincinnati Nationals and the Cleveland Indians to maintain a winning pace against the eastern teams in the present inter-sectional series has enabled them to retain the leadership of their league. Reds dropped their chief eastern rival, the Brooklyn Nationals, and the Cleveland Indians, respectively, last week. Rain interfered with the schedule of both league leaders.

The Brooklyn National pitchers have been unable to check the western visitor, losing series to Cincinnati, St. Louis and Chicago. St. Louis' spectacular win, which started in the west, met with a surprising interruption in Philadelphia, where the Quakers won three out of four. Both Chicago and Pittsburgh have recovered from their losing slump.

The Cubs, who won their fifth straight game yesterday, have hopes of getting back into the leadership scramble before returning west this week. New York appears to be headed for last place, as the Giants pitchers are not meeting with much success, while Philadelphia, which has a fair combination of effective batsmen, is steadily picking up.

In the American League, Cleveland was out-gunned and defeated yesterday by Boston. The pitchers engaged in close low score battles with Detroit last week. New York broke the winning streak by showing a steady hand when the Stars were making their home at the stadium, where baseball on the Sabbath is permitted.

The Leafs brought word from Baltimore that Sunday ball in that city is hanging more on a knife edge, with the probability favoring a stopping of the game. The Leafs were asked not to kick up any fuss, as the stopping of the game would mean a loss of \$100,000 to the Leafs. Toronto came to this decision, and Eddie O'Neil is expected to leave for Baltimore to see that the game is not stopped.

## SOCCER NOTES

## DEFENDER YACHTS FINISH THIS WEEK

### Trial Between Resolute and Vanitie Postponed on Account of Weather.

Newport, R.I., June 21.—The Newport Yacht Racing Association has offered a cup for the winner of the most races this week, the last in the series of elimination trials between the sloops Resolute and Vanitie, for the honor of defending the America's Cup.

Today's race was scheduled to be held over a 30-mile triangular course, but fog and lack of wind combined to prevent the tenth trial.

Postponement was announced after the start, and the race will be held later than the starting hour for conditions to improve.

Sandy Hook, N.J., June 21.—Sir Thomas Lipton went aboard his steam yacht Victoria, at 11 a.m. today. At 12.15 the yacht was under way. A light southeast wind was backing into the bay, but rain squalls caused the postponement of the second trial race between Sir Thomas Lipton's yacht and the America's Cup, and the 21st anniversary of the storm broke on the southwest just before the contest was to start and when it had passed it was too late to begin the race. Both yachts remained at anchor.

## HARTRANT MOVES TO STEEL LEAGUE

### Leafs Part With Him—Four Games in Three Days at Syracuse.

Syracuse, N.Y., June 21.—(Special.)—The schedule makers of the International League must have had a slip from the weather bureau, when they picked Hartrant to play one for the Stars at Syracuse with a broken right leg, when the Leafs were making their home at the stadium, where baseball on the Sabbath is permitted.

The well-travelled athlete will get into tomorrow, twice Wednesday and again Thursday. The second part of Wednesday's bill will be the game scheduled for this city on Sunday, May 9, when the Leafs were making their home at the stadium, where baseball on the Sabbath is permitted.

The Leafs brought word from Baltimore that Sunday ball in that city is hanging more on a knife edge, with the probability favoring a stopping of the game. The Leafs were asked not to kick up any fuss, as the stopping of the game would mean a loss of \$100,000 to the Leafs. Toronto came to this decision, and Eddie O'Neil is expected to leave for Baltimore to see that the game is not stopped.

## SEMI-FINAL GAME IN ONTARIO CUP

### Willys Take on Sudbury — Team From Montreal Selected.

Willys-Overland will play Sudbury at Varsity Saturday in the semi-final round of the Ontario C.C.C. series of Parkville and Toronto players on their team. Bol of O.C.C. Sport of Parkville and Toronto players are the most prominent.

The games this week are: Overland v. Dunlop or G.A.C. (referee, Johnston); Lancahire v. Devonians (Cameron); Brampton v. Street Railway (McLean); Parkville v. Willys v. Gunns (McLean); Parkville-Morse v. U. V. L. (Hinton); Shamrocks v. Baracas (Kerr); All Scots v. Scottish (Banks); Canadiana v. bve.

In the opening round this morning, J. M. Fyvale, the well-known English veteran, was defeated by Wm. M. Johns, son of San Francisco, the United States singles champion. J. Norris Williams of Boston, United States champion in 1914 and 1915, defeated N. Field, an English provincial player.

O. G. N. Turnbull of England, opened strongly against Gerard of the United States, but the latter finally won 7-5, 6-3, 6-3.

William T. Tilden of Philadelphia, defeated the latter finally won 7-5, 6-3, 6-3.

All four Americans who played in the opening matches for the British lawn tennis championship defeated their opponents today.

A battle royal is anticipated tomorrow when William M. Johnston meets J. M. Fyvale, who is regarded among the strongest Englishmen in the present tournament.

Tomorrow night's game between the Athenians and the Beaches in the Riverdale Lawn League series at Riverdale Park, is badly needed by each team, and it is sure to be bitterly contested. The champions and Butcher's crew have been selected for second place, and the victor in the mid-week twilight fixture will seriously influence the lead of the pacemaking Wellingtons.

O'Connell and Stanley are likely to be the opposing twirlers, while Dr. Joe Farley plays the cent ball in Beaches in Saturday's game. Bue Dye, who is going great guns for the Athenians, and has been a bit, factor in their present winning streak, will be in the lineup again.

## ARMORED CARS AND TANKS RACE

### Paris, June 21.—Coincident with the running of the grand national steeplechase another derby, was being contested at Paris today, the derby of armored cars and tanks.

The "Twenty-seven tanks went over a three kilometer course of hills and dunes, with two obstacles, between Satory Camp and Versailles. One of the obstacles was a steep hill and the other a wide stone quarry. Twenty-five tanks finished, only two coming to grief. The minister of war, Andre Lefevre, and numerous French and allied officers witnessed the race.

The Prince of Wales found four golf balls during one round of the game at Wellington, New Zealand. He found three balls at the third hole. He pocketed the third, remarking: "This means luck in the South Island." Later he found another ball, exclaiming: "Something splendid must be going to happen. I have never before gone round without losing a ball."

## JOE POCOCK MARRIED.

### Joe Pocock, who played a fine game at half back for Argonauts last fall, was married yesterday to a Parkdale young lady, Miss Margaret Crowley.

The executive of the Granite Club extend their invitation to the many friends of the participants in the tournament, which opens Saturday, June 26, 2 p.m., to visit the lawn and view the play on any day during the tournament. The ladies, and it is hoped that many of the players' wives, sisters, etc., will be there to see their "great bowler" perform.

## VESPER OARSMEN BARRED AT HENLEY

Philadelphia, June 21.—Jack Kelly, national sculler, secretary of the Philadelphia Sculling Club, was debarred from rowing in the diamond sculls race at the Henley Regatta, because of a ruling of the English stewards that they must adhere to the resolutions adopted June 23, 1906, that no entry of the Vesper Boat Club or any other club, the members of the crew of the club which rowed in England in 1906, be accepted in the future.

This explanation was received today in the form of a letter by John Arthur Brown, secretary of the American Rowing Association. Mr. Brown said he would acknowledge the letter and debarred the crew of the club which rowed in England in 1906, be accepted in the future.

## THREE WEEKS' RACING AT WINDSOR IN JULY

### Devonshire Follows Hamilton and in Opposition to Fort Erie—The Betting.

Windsor, June 21.—The tracks here are making preparations for the approaching season's racing. Devonshire track (independent), July 8-10.

Windsor Jockey Club (C.R.A.), July 14-21.

Kenilworth Park Jockey Club (C.R.A.), July 22-29.

Stable and buildings spick and span, in a brand-new coat of white paint, and the three-week racing, now owned and controlled by the Horse-Breeders' Association, is about ready for the "big show-off" ball, Saturday, July 3, when racing will resume at Fort Erie, then racing will resume at Windsor after a three-year spell of idleness.

Stable blanks issued by Racing Commission in America, in the past few days, have been issued by the Windsor Jockey Club. The program has been built up under \$1200. In addition to the feature race, there are in the Border Cities States and the Detroit States, both valued at \$3000.

The problem of how to take care of the horses in the Dominion is a most satisfactory manner, taking into consideration the difference in exchange of money of both countries, the association's managing director of the association, who worked out by devising a plan which will satisfy all the patrons.

To be brief, the plan is as follows: Bets made in America will be paid in United States currency, and vice versa. There will be mutual machines at the post on both sides of the currency.

Profiteering, which existed at race tracks even pre-war days, will not be tolerated at Devonshire, and in other occasions, such as lunch-rooms, "hot money" will be sold, but all other things at prices fixed by the association.

Also the daily license fee that all patrons must pay to the Ontario government has been increased from \$2.00 to \$2.50, and notwithstanding that the price of tickets in the Dominion are now limited, the admission fee has been placed at \$2, including war tax, an increase of 25 cents over the old price.

The club will be at a premium long the bugle calls the first field of horses to the post on Saturday, July 10.

At the present time, Edward J. Baxter, assistant secretary of the club, is head over heels in the work of opening up the Dominion to the Dominion, and answering requests for accommodations from horsemen in all parts of the Dominion.

Under the arrangements at present, the club can take care of close to 1000 horses, but the indications are that there will be nearly 1500 races under a short time.

In the stake events alone more than 300 non-normals have been entered, a number in the rich Frontier Handicap, \$10,000 added, exceeding all others, and the admission fee for the Dominion is \$2.00.

At the first meeting alone more than \$20,000 will be distributed in handicaps, which is a record for the Dominion. The prize money, the overnight won't be worth less than \$100, and some of the stakes are in excess of \$1000, and the stakes of lesser value and outside the pale of the millionaire standard.

## WOODSTOCK TROTS

Woodstock, June 21.—(Special.)—The horse races here on Wednesday and Thursday, Dominion Day, have attracted a record entry. Already a large number of horses are here, including most of the Ontario trotters that have secured thirty-three or more wins in races in which he started, besides the second in six and third in three others in the Dominion. The Duke of Portland, and taken to England in 1916, the idea being that his stout muscles would be of use in the Dominion.

The British Stud. He sired Sparmit and Fowling-Place, Ramrod and other good stock, but perhaps his greatest claim to fame in England scarcely realized anticipation. He died at the Welbeck Stud shortly before the outbreak of the war in 1914.

# The Position Into Which the Company Has Been Forced

**T**HE EMPLOYEES of the Toronto Railway Company have made new demands in the form of an ultimatum that they will go on strike unless the Company grants them the scale of wages paid on the civic line—60c, 62½c and 66c per hour, combined with the extra allowance of time-and-a-quarter for Sunday work, equivalent to 82 1-2c per hour, and time-and-a-half for overtime and holiday work, equivalent to 99c per hour, which is not paid by the City.

We do not consider that these new demands are a compromise on the men's part, as there was no evidence before the Arbitration Board to justify the original demand of 85c, and they might just as well have asked for a dollar per hour and dropped to seventy-five cents as to present the present ultimatum.

The Directors of the Company have carefully considered the men's ultimatum, and have come to the conclusion that they cannot submit to these demands.

This decision is based upon the recent award of the Board of Conciliation appointed under the Industrial Disputes Act to Adjudicate upon the claim of the men for a flat rate of 85c per hour. The award of this Board, after going fully into the matter and hearing all the evidence, was:

**that the increases granted to the men in the last few years had fully taken care of any increase in the cost of living; that the present scale of wages is higher than that paid in surrounding cities for that class of work; and that on an average motormen and conductors are paid equal to or averaging more than the skilled trades of the city, without taking into account uniforms and free tickets or other advantages which the employees enjoy in the Company's service; and they recommended that the present scale of wages and conditions be continued until the expiry of the franchise on August 31, 1921.**

We believe we are justified in resting our case upon this award, in view of the large increases which have been granted to the men by awards of arbitration boards in the past few years, which the Company has accepted in every instance. In the present case we think it is up to the employees to do likewise, and thus vindicate the

**principle of arbitration to settle wage disputes and avoid strikes.**

In 1916 the men were paid: First year, 23½c; second year, 25½c, and third year, 27½c per hour.

In November, 1916, the Company voluntarily granted an increase of 2½c per hour, making the rate 26c, 28c and 30c per hour.

In June, 1917, when the agreement expired, the men re-

fused an Arbitration Board under the Industrial Disputes Act or an Arbitration Board of Toronto citizens, and went on strike. They were induced to return to work at an increase of 6c per hour and the offer of an Arbitration Board. The award of the Board granted them an additional cent and the term of service was altered, the rates being fixed at: first six months 30c, second six months 32c, second year 35c, third year 37c per hour, and fixed the term of agreement for two years.

Eight months before this agreement expired, the men applied for a Board, asking for a war bonus, and this Board granted an increase of 2½c to those in the first six months of service and 2c to the other classes, making the rates: first six months 32½c, second six months 34c, second year 37c and third year 39c per hour.

In June, 1919, the men again refused an Arbitration Board and went on strike; and under the interim report of the Board, which was contingent upon a five-cent fare being granted the Company, the Ontario Railway Board, which was then in possession of the property, granted an increase of more than 16c per hour, and again altered the term of service, making the scale: first three months 50c, next nine months 52½c, thereafter 55c per hour. The rate of wages has thus doubled since 1916, and in addition the term of service has been altered so that a man attains the maximum rate in one year instead of two years. The men were also granted an eight-hour day, time-and-a-half for overtime after eight and a half hours' work and on public holidays and other operating conditions which they demanded.

The award of last year cost the Company about a million and a half dollars per annum, and the total increase since 1916 adds to the pay roll about

## Two-and-a-Half Million Dollars.

Last year, the increase in wages applied for 6 months, from July 4 to the end of the year, and we had a surplus of only thirteen thousand dollars in the year's operations; whereas this year we have to meet the increase in wages for the full year, or

## An Additional Sum of \$750,000

In view of these circumstances, and in the face of the award of the Board, the Company cannot grant any increase in wages. The franchise has only fifteen months to run, and, taking into account all that the men have got from the Company in the past three years, we believe the citizens will agree with the Board of Conciliation that they can well afford to work until the end of the franchise at the present scale of wages.

CATTLE MARKET IS STRONG AND ACTIVE

the Harris Abattoir. The same firm sold 18 heifers, 900 lbs. apiece, for Mr. McKinley of Forest, at \$15.75, to the Wm. Davies Co. and the other.

They sold 20 cattle for Marshall Bros. of Forest at \$15.50 to Gunns, Ltd., and two loads of steers at \$15.85, one load to the Wm. Davies Co. and the other to the Canadian Packing Co. and the shippers were, as might be expected, highly gratified at the splendid sales made by the C. H. & C. Co.

The hog market was firmer, with the bulk of the sales going at 15 1/2c to the farmer, 18 1/2c f.o.b., and 19 1/2c fed and watered.

Personal Note. Ollie Atwell and Alex. McDonald (Gunns, Ltd.) left last night to attend a gathering of western live stock men, scheduled to meet in Winnipeg on Friday and Saturday. The purpose of the meeting is to get together in mutual trade and social relations, and at a meeting of the local commission men and others, held in Gordon Himmelfarb's office yesterday, Mr. Atwell and Mr. McDonald were unanimously named.

Ollie Atwell bought two loads of steers, 750 to 850 lbs., at from \$10.75 to \$11.50; one load of good grass cows at \$2.25 to \$2.50, and one load of light, medium steers and heifers, 600 to 700 lbs., at from \$9 to \$10.

PETROL WEAKENS ON SMALL SALES

New Oil Stock Suffers Heavy Decline on Light Liquidation.

HOLLINGER IN DEMAND The mining market contained no evidence of a widened interest yesterday's business. The active stocks were traded in almost without change. Hollinger was in larger demand and good support was rendered the share throughout the day.

Heavy Flow of Oil In Second Inland Well Limited. Has been again successful. On the 18th instant, its No. 2 well, north of Thamesville, came in with a depth of 250 feet. The field manager estimates its output at 110 barrels per day. The oil is of the best quality, free from sulphur, with a specific gravity of 44 degrees Baume.

Ontario Public In No Hasten to Buy Stocks Heavy clues in his weekly letter says: "Even if loaning rates should be materially lowered it is very doubtful if there would be any particular haste to buy stocks by the outside public, as politics has now entered into the situation as an important factor."

Kirkland Lake Camp To Increase Its Output From present indications, five mines in the Kirkland Lake district will be producing gold before the end of the current year. An output at the rate of close to two and a half million dollars annually is predicted.

Oil! Oil! Oil! TWO BIG PRODUCING WELLS THE Inland Oil & Gas Company, Limited (no personal liability), has been again successful. On the 18th instant its No. 2 well came in with a rush. The Field Manager estimates its output at 110 barrels per day.

A HIT IN PAPERS

The story of a fortunate speculator in the paper stocks was vouched for yesterday by a friend of the lucky one. With an initial margin of \$1,000 this trader made his first venture by the purchase of 50 shares of Abitibi. His profits were used as the basis of other purchases and Saturday he had cleaned up and exhibited his cheque for \$51,000.

Combination of Adverse Circumstances Depresses New York Stocks.

New York, June 21.—An unfavorable combination of circumstances has depressed the New York stock market. The strength of the exchange was almost the only development of the session, also still unimpaired by evidence of immediate gold imports from London or the far east.

NEW YORK CURB. New York, June 21.—The close on the curb was irregular, the market during the last few hours being subject to moderate bear pressure. News developments were few and the market became heavy with rather active trading.

PRICE OF SILVER. London, June 21.—Bar silver, 51 1/2 per ounce. New York, June 21.—Bar silver, 92 1/2 per ounce.

GOLD FROM CANADA. New York, June 21.—The branch of the Bank of Montreal here today acknowledged receipt of \$4,000,000 from Canada.
