## France to Direct Her Efforts to Keep Turkey and Britain Apart

### BACK UP THE TURKISH CLAIMS

Moslem Members of Indian Legislature See Viceroy

Content That Turkey is Entitled to Fruits of Victory—Feeling Reported Strained by Decision of Britain.

(Canadian Press)

London, Sept. 22.—Details of the views in the Near East situation which were urged yesterday by twenty-five Moslem members of the Indian legislature in an interview with the Viceroy of India, Lord Reading, according to a Reuters message from Simla, show that they urged an early peace with Turkey. They suggested that the essential sovereignty over Thrace, including Adrianople, Constantinople and Asia Minor along with Smyrna and that measures for the protection of the Christian minorities therein.

The deputation expressed appreciation of the difficulties with regard to the straits, but hoped the straits would be restored to Turkey on the latter furnishing guarantees. The deputation declared that it was important that in the settlement of the question regarding the straits, Constantinople should be safeguarded from sudden attack by enemies and requested that the British government should be associated in the discussion of peace terms.

All the Moslems in India contend that Turkey is entitled to reap what they regard as the just fruits of her victory, which relieved the tension in Moslem feeling and pre-disposed it to whole-hearted co-operation with the government.

Moslem feeling, however, is acutely strained by the idea that Great Britain is taking up an unfriendly attitude towards what they regard as reasonable Turkish claims.

In the event of a Turkish-British conflict all the moderate co-operation Moslems in India would almost be forced to desert the government and thereby would give the non-cooperation element a strong and lamentable lease of life which would be a disaster to India from every point of view. Considering the vital importance to the interests of Great Britain in India of a peaceful settlement of the present trouble in the Near East it is unnecessary to refer to the grave external possibilities in the countries adjoining India.

## BASEBALL MEN'S HALL OF FAME

George Sisler's Name First to be Inscribed on Monument—Speedy Horses After Records.

Chicago, Sept. 22.—George H. Sisler, brilliant first baseman for the St. Louis Browns, who was awarded the American League trophy offered by the club owners as a reward to the player who proved of the greatest service to his team during the 1922 season, declared to the Associated Press today that he hoped to dedicate his feat next year.

The name of this baseball idol will be the first inscription on the 100,000 baseball monument to be erected by the American League in Washington and which is to be presented to the U. S. government as a memorial to the nation's pastime and a hall of fame for perpetuating the memory of its greatest players.

Against Times. Cleveland, Sept. 22.—Four champion trotters, three with world's records of a mile in better than two minutes, will attempt to reduce their time at North Randall track this afternoon.

Peter Manning, world's fastest trotter, will attempt to lower his mark of 1:57 3/4. He will be driven by Thomas W. Murphy, Poughkeepsie reinsman, who also will pilot Arion Guy, world's champion trotting stallion, in an effort to break his record of 1:59 1/2.

Halifax, N. S., Sept. 21.—Members of the Nova Scotia schooner race committee left Halifax this morning for Lunenburg, where they will confer with vessel owners to make arrangements for the Nova Scotia races to be held off Halifax this fall. The tentative date for the races is October 7.

Halifax, N. S., Sept. 21.—Margaret Dillon and Prince Loree will not be among the harness horse racers which will compete against their time records at North Randall tomorrow, it was learned here today. No reason was given.

Margaret Dillon, pacing queen of the country, will have been sent against her two-minute mark, and Prince Loree, the double-gaited champion, was to have gone against his trotting record of 2:04.

Sends Negotiator to Urge Kemal to Remain in Asia Minor

Turkish Leader Said to be Trying to Keep His Military Captains in Check But Finds Difficulty—Hope to Fix Place and Date of Peace Conference Today.

(Canadian Press Cable)

Paris, Sept. 22.—The French cabinet today decided that, in view of the refusal of the British to withdraw their forces from Chank, on the Asiatic side of the Dardanelles, the efforts of the French government should be directed toward preventing war between Turkey and Great Britain. To this end it was agreed immediately to send Franklin Bouillon to Smyrna.

The cabinet met this forenoon at the Palace of the Elisee, presided over by President Millerand, and heard a report from Premier Poincare on the Near Eastern situation.

A decree was signed convoking the chamber of deputies for October 12. M. Bouillon, who was the negotiator of the agreement reached at Ankara between the French and the Turks, will urge upon Mustapha Kemal Pasha the necessity of remaining in Asia Minor until peace terms are decided upon.

The French negotiator will probably leave today or tomorrow, and he hopes to arrive in Smyrna before the termination of the conference now in progress there between Kemal and his governmental and military chiefs for the purpose of deciding to push on in the face of the British military and naval concentration or await the results of the peace negotiations.

The latest reports received in official circles here indicate that Kemal is trying to keep his military leaders in check, but the difficulties of the problem are admittedly great. The French, however, still feel that the Ankara leader can succeed.

The meeting of the allied representatives here to consider the Near Eastern situation, which planned to resume its sessions at two o'clock this afternoon, was expected to fix a place for the peace conference and settle the date. An effort was to be made to draw up a tentative agenda, but it was thought this might prove impossible because of the refusal of Great Britain to commit herself in any way regarding the Turkish claims in advance of the conference.

Premier Poincare was expected to make another effort to modify the British attitude toward the Turks, but it was believed he was not very hopeful of changing the British determination to remain in Chank.

When the conference met this afternoon Premier Poincare, Lord Curzon, Count Sforza of Italy, and Lord Harding, British ambassador in Paris, were present. Lord Curzon presented the British decisions reached by the cabinet in London yesterday including the declaration of Great Britain's determination that her troops remain at Chank and her unwillingness to bind herself to peace terms in advance.

Premier Poincare, it was understood, continued his efforts to persuade the British to adopt a more conciliatory attitude.

BRINGS OUT NEWS OF \$30,000 ROBBERY

Youth and Girl in Court in Montreal—Theft from an Auto.

Montreal, Sept. 22.—When Jack Lacker of Church street, twenty-one years of age, and Mina Robert, alias Lapalme, appeared in the court this morning, it was disclosed that money orders and checks to the value of \$30,000 had been stolen from an auto belonging to the Wolsons Bank on Aug. 11 last. Lacker is charged with the theft and Robert with receiving. Evidence given by detectives went to show that the theft occurred when the car was left by a messenger in front of a branch of the bank at the corner of St. Lawrence Boulevard and Ontario streets. The loss was kept quiet and the arrests were made last night when attempts were made to cash some of the money orders. The police are looking for two other men concerned in the robbery.

INCOME TAX CASES IN CAPITAL

Fredericton, N. B., Sept. 22.—Three cases in which citizens here were prosecuted for failing to make income tax returns for 1920 were heard in the police court this morning. F. J. Landry acknowledged violation of the law in failing to make a return, and was fined \$50 two months. J. M. Scott was charged with a like offence. The prosecution was granted a week's adjournment.

Duncan MacDougall defended the charge against him and alleged that he had made a return. Adjudgment was made.

SEARCH FOR STILLS

Fredericton, N. B., Sept. 22.—Chief Liquor Inspector Hawthorne and Inspector Fraser Saunders visited three places in the parish of Kingsclear on Thursday afternoon and made searches for illicit stills. At two places no signs were found, but at the other there was evidence of operation of a still some time before. The operators were not around and there was nothing to indicate that there had been liquor distilled for some time.

## WHERE ALLIES AND TURKS CONFLICT

Britain is taking a firm stand against the Turks under Kemal Pasha, whose demands since victory over the Greeks have been notable for the comprehensiveness. The surrender of Thrace by the Greeks, the abandonment of any designs to hold Tchataldja, and the withdrawal of Allied forces from the neutral zone around the Dardanelles, Constantinople and the Bosphorus are all parts of his requests. Bulgaria is reported as mobilizing along the Maritza River, and also to be demanding the surrender of Adrianople. The British government is hopeful that France and Italy will assist in felling these propositions. If they fail, Britain will oppose the Turks alone. The places mentioned in the foregoing will be found on the map underlined. Other points which may figure in dispatches later will also be found on the map.

## NEW PHASE OF RUM-RUNNING

U. S. Merchant Sailors Say They are Held by Spanish Government at Cadiz.

(Canadian Press)

New York, Sept. 22.—Sensational charges of international rum running and mistreatment of U. S. merchant sailors are contained in a letter published in the New York Times today bearing the signature of four members of the crew of the steamer Korona, now held by the Spanish government in the harbor of Cadiz.

The letter, written by the owners of the Korona, is now under indictment, charged with violating the Volstead law.

The letter states that the Korona originally was under Canadian registry and was operated at one time by the Furness, Withy line, but was purchased by the Globe Line, a N. Y. concern, through one of their dummy officers, an Englishman, one Captain Barkley.

The letter-writers charge that after their vessel had engaged in wholesale rum smuggling in and about New York waters, in which they declare various government and New York city officials participated, the vessel steamed to Cadiz, where it is now being held under government and private liens. Members of the crew, they charge, are stranded in the Spanish port unable to return to their homes because they have received no wages. The Korona sailed from New York on March 19 last.

The writers charge that officers of the Globe line obtained false clearing papers headed ostensibly for Greece, but in reality came to anchor twenty-two miles off shore and transferred 40,000 gallons of alcohol to waiting tugs. The tugs which returned the contraband to New York and points on the Jersey coast.

Mark L. Gilbert, former president of the Globe line, and a dozen other men now are under indictment for alleged rum smuggling in the Korona case. The prohibition authorities learned through the customs authorities of the activities of the ship, although she managed to elude the dry navy. The Globe line went out of business after the grand jury had returned the indictments.

ROBERTS TO DIE ON NOVEMBER 24 FOR N. S. MURDER

Tusket, N. S., Sept. 22.—Omar Roberts convicted of the murder of his nineteen year old house keeper, Flora Gray, on the night of August 28-29, was sentenced today by Mr. Justice Chisholm to be hanged on Friday, Nov. 24.

FERRY BURNS, 10 MEN ESCAPE

Montreal, Sept. 22.—Caught on the ferry steamer Richelieu, which was blowing from stern to stern and drifting down the St. Lawrence toward the Lachine Rapids, ten members of the crew narrowly escaped with their lives in a small boat last night. The Richelieu, which is of wood construction, runs across the river between Laprairie and Verdun. She caught fire from the ropes holding her to shore were burned, allowing her to drift out into the swift current. The crew scrambled into a small boat and had almost made shore when it was found the boat was missing. A return into the current was made and the man picked up. He had been forced to jump from the burning vessel. The steamer was burned to the water's edge and sank.

SIR CHARLES SANTLEY DEAD; WAS FAMOUS AS A SINGER

London, Sept. 22.—Sir Chas. Santley, for decades probably the best known and most popular singer on the English concert and oratorio stage, died at his home here yesterday in his 87th year. He made very successful tours in opera and concert in the U. S. and Canada in 1921-22.

## WALTER TOO BIG FOR SCHOOL SEATS; MORE HOLIDAYS

Little Rock, Ark., Sept. 22.—The regret of Walter Winkley over re-opening of school was turned to smiles of joy today. Walter is sixteen years old. He weighs 216 pounds. Superintendent of Schools Abbot tried to find him a seat, but all were too small. He tried to fit Walter in sideways, but was unsuccessful. Walter was allowed to have a couple more days of fishing and swimming until a special seat for him is completed.

## PROMINENT MEN KILLED IN FIGHT

One was Republican M. P. in Ireland. Another Son of Prof. John MacNeill.

Belfast, Sept. 22.—Brigadier General J. Deavin, reported to have been killed with five other irregulars in a fight near Sligo on Wednesday night, was the Republican member of the southern parliament for East Mayo and Sligo. He was active in organizing the opposition to Arthur Griffith's meeting in Sligo last Easter Monday.

Another of the dead Republicans has been identified as Brian MacNeill, second son of Prof. John MacNeill, minister of education in the Dail cabinet. Three of Professor MacNeill's sons were active members of the Irish Republican army before the truce, and the surviving two are officers in the Free State army, one holding the rank of brigadier.

Brian was in charge of the irregulars who captured Ballina from the Free State army. He was an undergraduate at the National University and 23 years of age. The battle lasted four hours, and the majority of the Republicans craved capture.

## PRINCESS COLLIERY MEN STRIKE

North Sydney, N. S., Sept. 22.—The mine of Princess colliery, of the Northern British Empire Steel Corporation group, again strike today as a protest against the retention in the company's employ of a lampshop chieftain, John Francis. They contend that he is not properly attending to the lamps. It is said in some quarters that the real cause behind the trouble is Francis' attitude during the late strike. The company officials say that the man has been paying proper attention to his work, but it is thought probable that other employment will be found for him.

The representative of the company and men will meet to consider the difficulty this afternoon.

## MINER IS FOUND DEAD IN COLLIERY

North Sydney, N. S., Sept. 22.—Edward Fleming, forty-one, married, was found dead at his place in Jubilee Colliery, Sydney Mines, this morning. The column bar of his coal-cutting machine lay across his abdomen. Medical opinion is that he had the breath knocked out of him while the bar, and the weight of the machine gradually suffocated him. It is supposed that he was setting his machine to make a top cut and stumbled, causing it to fall on him. He was a native of Newfoundland and is survived by his wife and five young children.

## WEATHER REPORT

Synopsis—Pressure is high over Newfoundland and to the south of the Great Lakes and lower over the Canadian northwest while the south Atlantic storm is moving out to sea. The weather here is mostly cloudy. Saturday moderate to fresh westerly winds, fair.

Forecast: Gulf and North Shore—Strong south-westerly winds, mostly cloudy. Saturday moderate to fresh westerly winds, fair.

Maritime—Moderate winds, fair today and on Saturday. New England—Fair tonight and Saturday; moderate temperature; fresh north-westerly winds, becoming variable.

## NO JOY IN SOUND OF WEDDING BELLS

Ex-Kaiser's Family Oppose Marriage—Former Crown Prince in Particular.

Doom, Sept. 22.—The marriage of former Kaiser William will occur not with the freely given consent of the entire Hohenzollern family, as reported from Berlin, but despite their bitter opposition and against the strongly expressed wish of the ex-crown prince, according to information from a source very close to the former Kaiser. It is said that the relations between the ex-crown prince and his father have lately become very much strained. The strong opposition on the part of the crown prince and others of the imperial family may be due, it is said, to financial reasons. Those in a position to know say that the former emperor's sons and especially the crown prince, reduced to leading a very simple life by their father's financial straits, may be afraid that the marriage will make their situation worse. They also fear further complications and contentions in the event of the death of the ex-Kaiser, when his personal fortune, estimated at \$20,000,000, must be divided.

## HARD COAL ABOUT 60 P. C. BUT THE PRICE ABOUT SAME

Philadelphia, Sept. 22.—Only sixty per cent of the normal supply of domestic sizes of anthracite coal will be available this winter but prices will be practically the same as last winter. It was announced yesterday at a conference of fuel administrators representing all of the hard coal consuming states and Canada. To overcome this shortage in supply, however, a campaign for the education of the public in the use of the smaller sizes of anthracite, known as buckwheat, of which there is an abundance, is to be inaugurated.

The Canadian representatives were assured that the country would be fairly dealt with.

## Announcement After Philadelphia Conference—Campaign for Use of Smaller Sizes—Deal Fairly With Canada.

Washington, Sept. 22.—The new rates of the tariff act of 1922 were applied to the flow of U. S. imports. Millions of dollars of revenue, officials believe, will be raised immediately from the assessment of the new duties on goods in bond in transit to ports of entry.

The tariff commission, as the agency through which the president will exercise his new authority to increase or decrease rates and to change from foreign to U. S. valuation as the basis for assessing ad valorem duties, assumes greatly enlarged function. In addition to extensive investigations into costs of production at home and abroad as a basis for recommendation of rate or valuation changes to the president, upon the commission, also, devolves the responsibility of determining any case of discrimination against U. S. commerce and trade in foreign countries and of making recommendations as to means for meeting such situations.

Ottawa, Sept. 22.—(Canadian Press)—Government tariff experts are making a close study of the changed conditions in trade between the U. S. and Canada entailed by the new U. S. tariff, but not until general trade returns with the U. S. are available will it be possible to determine at all accurately what the effect on Canadian trade has been.

Under the new U. S. tariff Canadian wheat will have to meet a duty of thirty cents a bushel instead of thirty-five as under the emergency tariff.

TO LEAVE NEXT WEEK. N. R. DeBrisay, district passenger agent of the C. P. R., who was recently promoted to the post of assistant general passenger agent on the western lines from Winnipeg to Fort William, will leave for his new field at the first of the week. Tomorrow evening he will leave for Bathurst to spend the week-end with his parents. His successor, G. Bruce Burpee, is expected to arrive here on September 30 to take over his new duties.

Chicago Grain Market. Chicago, Sept. 22.—Opening: Wheat, September, 108 5/8; December, 107 7/8. Corn, September, 64 1/2; December, 60. Oats, September, 39 7/8; December, 37 5/8.

## Turkish Advance To Neutral Zone Is Reported Today

Guns Now Able to Command Entrance to the Dardanelles

Naval Experts Say Heavy Batteries are in Position to Prevent Free Ingress of British Warships—Kemalists are Demanding Early Guarantee as to Thrace.

(Canadian Press Cable)

Constantinople, Sept. 22.—Turkish Nationalist forces have seized the town of Es-Isne, on the Asiatic side of the Dardanelles, and are threatening Kum Kalei, an important key position on the southern side of the straits. The Kemalists were nowhere opposed.

The Nationalist move, in the opinion of the naval experts here, will enable the Turks to prevent free ingress to the Dardanelles to the British Atlantic fleet units which are on the way from Malta. The important positions involved were up to today occupied by the French and the Italians, and from them the heavy Turkish batteries can command the entrance to the straits.

Es-Isne, seized by the Turks, is a small town in the valley of the Meander river, in the Vigha district south of the Dardanelles, and is less than twenty miles from Kum Kalei. The latter town, which the Nationalists are threatening, is on the waterfront itself—almost at the entrance to the straits from the Aegean.

Both places are within the zone of neutrality about the straits, laid down by the treaty of Sevres. It is uncertain from available data whether Es-Isne is within the military zone of neutrality, proclaimed in May, 1921. There would appear to be no doubt, however, that Kum Kalei is within this latter zone, against the invasion of which warning was issued in Constantinople yesterday by the British General Harrington, commander-in-chief of the allied forces.

TURKS DEMANDING QUICK GUARANTEE.

Constantinople, Sept. 22.—A pessimistic view of the present situation is taken in Turkish nationalist circles here. It was declared yesterday that, unless the Kemalists received assurances and guarantees from the allies within forty-eight hours that the question of movement of Thrace would be settled in favor of the Turks, a serious situation would arise and it would be impossible to restrain the forward march of their army.

At the same time, however, it was said that the Ankara government would agree to negotiations and suspend movement of its troops provided the European powers furnished serious guarantees as to Thrace.

Respect for the neutrality of the straits and the zone in the Constantinople sector occupied by the allied forces depends, it is declared, on the reply to these demands.

## CONSTABLE IN ALBERTA SLAIN

Calgary, Sept. 22.—Shot in the back as he was entering his home, Constable H. O. Larson of the Alberta provincial police, was killed at Coleman, Alta., late yesterday afternoon, allegedly by Emil Piccarello, said to be a bootlegger and known as "Emperor Picq." A woman, believed to be Piccarello's wife, is also alleged to have fired a shot at the constable. Revenge is believed to be the motive, as early in the afternoon Constable Larson stopped Piccarello's car when he refused to stop his car and submit to a search.

THE U. S. TARIFF

Washington, Sept. 22.—The new rates of the tariff act of 1922 were applied to the flow of U. S. imports. Millions of dollars of revenue, officials believe, will be raised immediately from the assessment of the new duties on goods in bond in transit to ports of entry.

The tariff commission, as the agency through which the president will exercise his new authority to increase or decrease rates and to change from foreign to U. S. valuation as the basis for assessing ad valorem duties, assumes greatly enlarged function. In addition to extensive investigations into costs of production at home and abroad as a basis for recommendation of rate or valuation changes to the president, upon the commission, also, devolves the responsibility of determining any case of discrimination against U. S. commerce and trade in foreign countries and of making recommendations as to means for meeting such situations.

Ottawa, Sept. 22.—(Canadian Press)—Government tariff experts are making a close study of the changed conditions in trade between the U. S. and Canada entailed by the new U. S. tariff, but not until general trade returns with the U. S. are available will it be possible to determine at all accurately what the effect on Canadian trade has been.

Under the new U. S. tariff Canadian wheat will have to meet a duty of thirty cents a bushel instead of thirty-five as under the emergency tariff.

TO LEAVE NEXT WEEK. N. R. DeBrisay, district passenger agent of the C. P. R., who was recently promoted to the post of assistant general passenger agent on the western lines from Winnipeg to Fort William, will leave for his new field at the first of the week. Tomorrow evening he will leave for Bathurst to spend the week-end with his parents. His successor, G. Bruce Burpee, is expected to arrive here on September 30 to take over his new duties.

Chicago Grain Market. Chicago, Sept. 22.—Opening: Wheat, September, 108 5/8; December, 107 7/8. Corn, September, 64 1/2; December, 60. Oats, September, 39 7/8; December, 37 5/8.

## CHURCH UNION AGAIN TO FORE

Meetings are Being Held in Toronto

Separate Gatherings and Joint Assemblage on the Question—Presbyterian Opponents Calling Congress for Next Month.

(Canadian Press)

Toronto, Sept. 22.—Another step in the direction of reaching some basis of agreement in connection with church union in Canada, was taken here today, with separate and joint meetings of the committees of the Presbyterian, Methodist and Congregational churches. A committee of the Presbyterian church will also confer with a committee of the Church of England, but the chance of representatives of the Church of England on the general joint conference committee is regarded as somewhat remote.

It is expected that the influence of the Presbyterian anti-unionists known as the Canadian Presbyterian Church Association, will be felt at the present inter-church union conference. This organization has called an all-Canada anti-church union conference in Toronto for October 12 and 13.

Taken in relation with the general conference of the Canadian Methodist church to be held in Toronto, commencing Sept. 27, the present inter-church union conference is regarded with aided importance.

The anti-unionists hope that the legal obstacles with regard to the disposal of properties and trust funds will prove so insurmountable that the unionists themselves will be deterred from proceeding with union measures.

In regard to conferring with the Anglican Church regarding the scheme of mutual re-ordination of such hands, which was recently discussed by prominent clergymen of the Church of England and the Presbyterian Church of Montreal, the following were selected to meet representatives from the Anglican Church and were instructed to endeavor to promote unity between the two bodies.—The Very Rev. Mr. Clark, moderator, convenor; Rev. Dr. Duncan, of St. Paul's, Montreal; Dr. Macleod, Principal, University of Toronto; Rev. Dr. Murray, of Halifax; Dr. Pidgeon of Toronto; Dr. Dickie and J. Rodger, of Montreal; Principal Sandier, Dr. Macleod, of St. John's; Rev. Dr. Murray of Saskatoon; Sir Robert Falconer, and J. J. Gibson, of Toronto.

JUDGMENTS IN SUPREME COURT IN FREDERICTON

Fredericton, N. B., Sept. 22.—Judgments in three actions were handed down by the appeal division, Supreme Court, this morning.

In Knox vs. Spencer, Mr. Justice White read judgment to the effect that the order appealed from be set aside; that the plaintiff should have twenty days from the day on which the judgment is delivered in which to serve an amended statement of claim; and that falling after the filing and delivery of such statement of claim within that time, this action shall stand dismissed with costs against the plaintiff's next friend; that in the event of such statement of claim being delivered within the time mentioned, the defendant shall be at liberty to plead and deliver an amended answer within fifteen days from the receipt of said statement, and if he disputes the sufficiency of claim, shall be at liberty to apply to have the same set aside or amended, or to have the action dismissed under order 25 or any other rule order of the judicature act applicable to the circumstances. The plaintiff's next friend must in any event pay costs of this appeal and the costs of the hearing before the chief justice of the king's bench division on which the order appealed from was made, including the costs of obtaining and serving the order for said hearing.

In Thomas vs. Cruise, Mr. Justice Grimmer read judgment for a new trial on payment of costs of former trial by the defendant. The chief justice and Mr. Justice White concurred.

In Fournier vs. Smith, Mr. Justice Grimmer read judgment refusing a new trial. Chief Justice Haeser delivered judgment to the like effect and Mr. Justice White agreed. The application was dismissed with costs.

Argument in the appeal of William G. Pugsley of Montreal vs. Frank O. Garrison of St. John from judgment of Mr. Justice Crooks of the king's bench division, was continued. F. Taylor, K. C., supports the appeal and J. B. M. Baxter, K. C., and J. H. A. L. Fairweather will oppose. The original action was for commissions claimed by the plaintiff.

JEWISH NEW YEAR

Ottawa, Sept. 22.—When the sun sets it will have ushered in for Hebrews the world over a new year, that of 5683. The occasion, one of primary importance in the religious observances of the Hebrew race, is universally marked by a solemn service which begins this evening and lasts for two days.

WILL FIGHT TO RETAIN THRACE

Turks Must Never Have It, Say Greeks

Foreign Office Statement on Situation—To Send Troops to Supplement Forces Now in Adrianople—Morale Declared Improving.

(Canadian Press) Athens, Sept. 22.—Greece will never permit the Turks to invade Thrace, which she considers part of her home-land and retention of which is an essential preliminary condition to any

peace conference." This was made in a statement to the Associated Press by the Greek foreign office today. "We have lost Asia Minor, but we must keep Thrace," said the statement. "That is an essential preliminary condition to any peace conference. Our army in Asia Minor, which had been fighting for ten years, was absolutely exhausted, but the Greek nation will never permit the Turks to invade Thrace, which we consider home territory."

"We have demobilized the (military) classes from 1912 to 1918, but the classes from 1919 to 1922 are keeping on a war footing, making a total army of 150,000 men available for Thrace should the Allies permit the Turks to cross to Constantinople."

"Unhappily we lack ammunition, artillery and general equipment. The Smyrna massacre speaks for itself. Greece is defending Christian civilization."

"Internally Greece is quiet. There is absolutely no danger of a revolution. Foreign reports of trouble are the outgrowth of the insistence of our troops that they be returned to Piraeus instead of being demobilized on the islands. But these wearied men had no revolutionary designs; they only wanted to go home."

Adrianople, Sept. 22.—Greece is apparently determined to defend Thrace at all costs. It is understood that every available division in Northern Pirus and Macedonia will be sent to supplement the forces now in Adrianople. French reports indicate that the morale of the Thracian troops is improving. Major General Polymenakos, the new commander-in-chief, has inspired the soldiers with a new spirit.

In his order of the day yesterday he appealed to the men to retrieve Greece's lost military glory, declaring that political leanings must be forgotten in the face of the common danger.

NEW PLAYER AT THE GARDENS The Gardens will be open tonight principally to introduce a new player which has joined the personnel of the Black and White orchestra. Don't fail to hear the new combination.

IN RESTIGOUCHE CO. Campbellton, Sept. 21.—(Special)—Mrs. Fred Furlong, of Lorne settlement, is now in a very critical condition as a result of injuries inflicted by herself on Tuesday night, when she made an attempt at suicide by cutting her throat. There is little hope for her recovery. She has one child.

As to the Sloven. Perry Richards said he had turned from Princess into Sydney street with his sloven and then driven to Mecklenburg street when he spotted the automobile just on the curve. He said he did not know there were any children on the rear of the sloven, which was covered. He said his horse was walking around the curve. He noticed throngs of children in Sydney street as he drove down. He saw the car coming up Mecklenburg street, and said it was coming slowly. The first time he saw the lad was after the car had passed over him.

John S. Coughlan, Richard J. Ivesy, Joseph Gouding, William C. Clifford, Ronald Smith, Francis Richards and Walter Brindle, all eye witnesses of the accident or arrivals shortly after it happened gave corroborative evidence. The jury remained out only twenty minutes.

FAREWELL FOR DAVID HIPWELL. At a large gathering of the local members of the Loyal Orange Order held in the Orange Hall, Germain street, last night in honor of David Hipwell, a past grand master, J. Starr Tait, the county master, on behalf of the members presented to Mr. Hipwell a handsome leather club bag with initials inscribed on it. Mr. Hipwell has been an outstanding figure among the Orangemen of the province and has been devoted to the cause of the order, working especially for the Protestant Orphanage. He is leaving St. John shortly to make his home in British Columbia and at last night's gathering his fellow members expressed in warm terms their appreciation of his sterling character and his faithful work as an Orangeman. The hall was filled to capacity as every

A VERDICT OF ACCIDENTAL DEATH

At the coroner's inquest held last evening to enquire into the manner in which Francis E. Barnes came to his death on September 19, Mrs. A. C. Skelton, driver of the car which struck the unfortunate lad, was exonerated by the jury.

The finding of the jury was as follows: "We, the jury empanelled to inquire into the death of Francis Eric Barnes who died at the General Public Hospital on the nineteenth day of September 1922, came to his death by being struck by an automobile driven by Mrs. Julia Skelton. We find that no blame for the accident can be attached to Mrs. Skelton."

"We commend the commissioner of public safety in bringing to the notice of teamsters the danger of allowing children to climb up and ride upon their teams. We recommend that a policeman be placed on duty in Sydney street near the schools at the hours of dismissal. We further recommend that the teachers in the public schools be instructed to caution the children of the need of care in crossing streets, and so far as possible to instruct them in 'safety first'."

(Sgd.) "ERNEST J. TODD, Foreman."

DAVID J. STOCKFORD, THOMAS GIBBONS, THOMAS A. TROTT, ALEX. SULLIVAN, JOHN McCOURT."

Summary of Testimony. Dr. Harold H. Sharpe, an interne at the General Public Hospital, said that he saw the boy when he was first taken to the hospital; he said that Dr. C. M. Kelly was attending to him at the time. The doctor said that death was due to a fracture at the base of the skull. The fracture, he said, occurred at 1 o'clock, less than an hour after the boy arrived there.

Mrs. Julia Skelton was the next witness called. She said that she was driving west along Mecklenburg street when she saw several school children on the street. She said that she sounded her horn and placed the car in second gear. She declared that she was just turning into Sydney street when she saw a large boy run in front of the car. She declared that she did not notice the sloven or the little boy who was struck by her machine. She declared she did not know how far the machine went after it hit the boy.

As soon as the car stopped she said that her daughter ran to a house to call a doctor. She declared that by the time she got to the boy a man had helped her daughter pick up the sloven, which was bleeding profusely, and he offered to accompany her to the hospital. She said that she, accompanied by her daughter and this stranger, then took the boy to the hospital.

On being questioned, the witness denied any recollection of the sloven which the unfortunate boy jumped to his death. She said that the car was working all right that morning. She said that she had been driving a car for about four months and that she was well over on her own side of the street at the time.

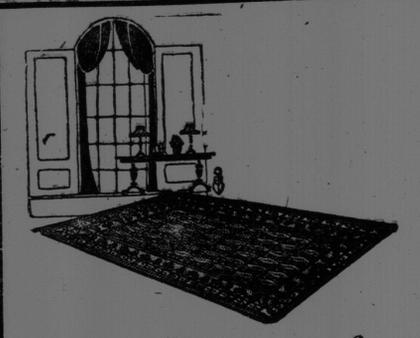

To one of the jurymen the witness said that this was the first accident that she ever had since she commenced driving.

Miss Katherine M. C. Skelton said that she was in the car at the time the accident occurred. She corroborated the evidence of her mother regarding the movements of the car. She remembered, however, seeing the sloven and three boys jump off it. She noticed one boy just run clear of the left wheel of the machine and then, as she looked to the front of the car, again she saw a little boy just in front of the car, too close to stop the machine. She could not identify the little boy as one of those who jumped off the sloven. She said she immediately ran to a house nearby to telephone for the ambulance. She declared she helped a strange man pick up the injured lad.

As to the Sloven. Perry Richards said he had turned from Princess into Sydney street with his sloven and then driven to Mecklenburg street when he spotted the automobile just on the curve. He said he did not know there were any children on the rear of the sloven, which was covered. He said his horse was walking around the curve. He noticed throngs of children in Sydney street as he drove down. He saw the car coming up Mecklenburg street, and said it was coming slowly. The first time he saw the lad was after the car had passed over him.

John S. Coughlan, Richard J. Ivesy, Joseph Gouding, William C. Clifford, Ronald Smith, Francis Richards and Walter Brindle, all eye witnesses of the accident or arrivals shortly after it happened gave corroborative evidence. The jury remained out only twenty minutes.

FAREWELL FOR DAVID HIPWELL. At a large gathering of the local members of the Loyal Orange Order held in the Orange Hall, Germain street, last night in honor of David Hipwell, a past grand master, J. Starr Tait, the county master, on behalf of the members presented to Mr. Hipwell a handsome leather club bag with initials inscribed on it. Mr. Hipwell has been an outstanding figure among the Orangemen of the province and has been devoted to the cause of the order, working especially for the Protestant Orphanage. He is leaving St. John shortly to make his home in British Columbia and at last night's gathering his fellow members expressed in warm terms their appreciation of his sterling character and his faithful work as an Orangeman. The hall was filled to capacity as every

Wilton Squares of Oriental Splendour

The centuries old carpet craft and color-art of the Orient reappears here in rugs distinguished by the name and worth of Wilton quality. The first square shown strikes a new note in background—the deep sinking pile stands out here and there in an elaborate yet clearly defined, quaint little Chinese chairs. Others dominate the border in the prevailing tints of faint greens, strong blues, amber and blacks. This framed again in a symmetrical configuration reminiscent of the ancient Egyptians, the fountain heads of all historic tracery.

In the 9x10 1/2 size this square has recently changed price from \$120 to \$82. Any size and pattern available. Open all day Saturday.

## NOVEL SCHEMES FOR DELIVERY OF DRUGS TO ADDICTS

London, Sept. 4.—(A. P. by mail).—Scotland Yard is conducting an intensive campaign against West End drug traffickers whose activities of late are said to have greatly increased. Some of the methods used in delivering drugs to the purchaser are described in a recent report.

"Fourth lamp-post on the right," a trafficker whispers in the ear of a cocaine victim. He passes down the street, and with the aid of chewing gum fixes a little white packet on the fourth lamp-post. The purchaser follows at a discreet distance and removes the packet.

Another trafficker drops rolled omnibus tickets on the pavement. He is followed by a string of addicts who pick up the tickets, which contain cocaine.

Another throws an apparently empty match box into the gutter. A minute or so later a customer picks it up and extracts one or more packets of cocaine.

Another trafficker keeps the drug in the turned-up ends of his trousers. He advises his customers where he will walk, and as he goes along he stops as if to fasten his bootlace. In reality he is placing a packet of cocaine on a doorstep, whence a customer picks it up.

## BOURGEOIS DRIVE REAL ARTISTS OUT OF GREENWICH

**Migration to Roofs of Manhattan Waterfront Warehouses Planned—Studio Rents Forced Up.**

New York, Sept. 22.—Artists are planning to desert Greenwich Village and migrate to warehouse roofs along the Manhattan waterfront, according to Julian Boyer, chairman of the rent committee of the American League of Artists, Inc., who has called a meeting of artists and real estate men to arrange for wholesale studio buildings on the tops of commercial buildings along the Hudson and East rivers.

Such a move is necessary to escape from immoral, bootlegging and dilapidated neighbors, who have forced up the rents in the Greenwich Village and other artistic sections, according to Mr. Boyer and other artists. Studio rents have been multiplied chiefly, it is alleged, by the competition of bourgeois people who know nothing of art, but like to wear flowing ties and live in the midst of temptations.

New York is being destroyed as an art centre by the usurpation of studios and the dispossession of artists, according to Frederick K. Dewiller, a well-known painter, who has a studio in Carnegie.

"Young artists are being forced out of the city by hundreds," he said. "The coming generation of American painters are to be found today in the farms where they can live cheaply and use the barns for studios. New York is now an art grave as far as domestic art is concerned. It is the mart chiefly for imported works of art. American artists are being driven out of contact with their markets. The struggling young fellows in finding it more and more difficult to get a foothold in New York city. He has a hard time keeping in touch with his market from a farm in New Jersey, Connecticut, or Long Island. If it keeps on, art will become strictly a rich man's game. A young fellow without capital to back him won't be able to get a start. He can't pay the studio rents in New York city, because of the thousands of people in other walks of life, who are taking the studios, either because they are cheaper, or because they can be furnished easily, or because they want to live in a section that has the reputation of being artistic. I don't care to discuss the encroachments of immoral people, because that has already been fully set forth.

"Before since Maurier wrote Trilby or before that, it has been a fad among thousands of people to make excursions to studios to watch the way artists live. Bobbed hair and smoking among women are both the immediate results of this mania of non-artists for peering into the studio life and imitating it. The outsiders found that women artists and models smoked and they took it up. The model was the first to bob her hair and millions have followed suit. Bobbed hair was strictly a matter of utility with the model. When she applied for employment, she needed to be able to whisk off her costume and whisk it on again, without the bother of disarranging and fixing her hair. What was for her a matter of business efficiency was taken up everywhere by women who seem to think there is something intrinsically artistic about it."

## C. N. R. NIGHT TRAIN WILL LEAVE 11 P. M.

Will Run on Latter Schedule Up to and Including Sept. 30.

Owing to numerous requests from patrons along the line, C. N. R. will hold No. 10 train, scheduled to leave 10:45 p.m., until 11 p.m. This will continue up to and including September 30. ## SURGEON GETS NEEDLE NEAR BOY'S HEART

**Operation Saves the Life of a Young Ethical Culture Scholarship Student.**

New York, Sept. 22.—Saved from death by an operation in which a part of a needle was removed from the pleural cavity, a half-inch wide from the heart, William Constable, 12 years old, of 846 West Forty-ninth street, a special scholarship student of the Ethical Culture School, was discharged as cured from Roosevelt Hospital. The lad, a great favorite in the vicinity of his home, where he is known as "Dimples Willie," also had endeared himself to the nurses of the hospital, where he had been a patient since Sept. 6, and was showered with kisses when he started home yesterday, accompanied by his mother, Eleanor, the widow of a painter.

On Sept. 6 the boy was on his way home with some chums on an auto truck, a driver having given them a lift. In the vicinity of the street, planning to take it home to his mother, became imbedded in his stomach. He was unable to stand up when he reached the ground and his chums hailed a passing automobile and took the boy to a hospital. He was admitted to Roosevelt Hospital and the next day the operation to remove the greater part of the needle was performed under the direction of Dr. Henry W. Cavonne, 61 East Fifth street.

William, who is one of five children and is regarded as a sort of child prodigy, got his Ethical Culture School scholarship through a competitive contest held at Columbia University. He hopes to be an electrical engineer when he grows up. The outlook was rather dark while he was in the hospital, for the operation necessitated the "collapse" of one of his lungs, and he was obliged to breathe through one lung during the period of convalescence. When he was discharged, however, both his lungs were functioning correctly and he seemed none the worse for his experience.

## SUBMARINE CABLE NOT SUPERSEDED

**Companies, Undeterred by Wireless Competition, Lay New Lines.**

London, Aug. 30.—(By Mail).—Submarine cabling is not in danger of being superseded by wireless transmission, if one may judge from the activities of cable companies since the armistice. One European company has laid over 28,000 miles of ocean cable in the last three years, and it is believed that American companies have done as much in other parts of the sea.

Today the world is encircled by 225,000 miles of electrified ropes that carry messages from man to man. Fifty years ago there were only 8,000 nautical miles of cable. On the modern routes duplicate, triplicate and even sextuplicate cables are provided, and the entire system is linked up by alternatives and circuitous lines, so that if interruption occurs on one artery another may be quickly pressed into use. Land lines that link these ocean cables into one vast network constitutes the nervous system of the civilized world. This is hardly any spot on the habitable globe which cannot be reached by a message over this great arterial system.

With the amazing development and perfection of wireless as a means of disseminating the world's thought, it was believed at one time that the submarine cable soon would become obsolete; but the fact is that the business of the ocean telegraph companies has increased by leaps and bounds until today there are scarcely sufficient cables to carry the enormous volume of messages daily sent across the Five Oceans.

## HER ART FAILED HER; FINE OR JAIL TERM

London, Sept. 22.—Because her art failed her when she most needed it, Mary Mitchell, pretty little gypsy fortune teller, was fined \$500 and costs or six months in jail for stealing a lone dollar bill from a local police officer.

A plain clothes officer visited the girl's fortune-telling booth, and although she read his palm at considerable length, she failed to see the crossed bill plainly set forth.

Later on in the ceremony she borrowed his money and placed it in mystic form across his breast. The bills were returned and when the officer examined the marked roll on leaving the tent he found that one bill had been neatly extracted.

## CONGRESS EXPECTED TO ADJOURN TODAY

Washington, Sept. 22.—Senate and house leaders had shaped their plans for adjournment of Congress sine die today, with only minor legislative matters apparently remaining to be cleaned up. A special session is likely to be called by President Harding about November 15.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 22, 1922

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

PROTECT THE PUBLIC.

The proposed contract for the Musquash power to be executed by the city of St. John and the New Brunswick Electric Power Commission contains a clause which would prohibit the city from selling the hydro power to any corporation which would re-sell at a profit.

That clause is one of the chief safeguards for the citizens of St. John so far as the hydro contract is concerned. Without it the city would find itself in a position where a deal could be made to hand the power over to the New Brunswick Electric Power Company for distribution at a rate which would deprive the public of the full benefit of the Musquash development.

The Musquash water power was developed with the people's money, and for the people. It was not developed for the New Brunswick Power Company or any other monopoly, and no private corporation should be allowed to use the credit of this province to make money out of the water powers.

The commission should remember that the present Mayor is being recalled, and that in all human probability a new Mayor will be at city hall so soon as it is possible to put him there.

THE NEAR EAST.

Some of the anxiety over the Near East situation will be revived by the news in today's despatches. Matters had appeared to be quieting down with the reaching of an accord by Britain and France as to the Allied policy in the premises and the decision to hold a peace conference.

YOUNG MOTHER IN NOVA SCOTIA DIES FROM BURNS

Antigonish, N. S., Sept. 22.—Mrs. Annie Melanson, 21, wife of Frank Melanson, of Pomquet, near here, was severely burned on Monday by the ignition of kerosene which she had accidentally spilled on her clothing while cleaning lamps, has died from her injuries.

PROMISES SURPRISE IN THE DELORME CASE

Montreal, Sept. 22.—In the Adelard Delorme case, Leo Houle, acting for the priest, has raised the contention that the Montreal courts have no jurisdiction to hear the case.

AN AID TO NAVIGATION.

A marked improvement in the application of the principles of the radio direction-finding system for the guidance of vessels has been worked out by Signor Guglielmo Marconi, with the assistance of Mr. C. F. Franklin, a British engineer.

Signor Marconi's method will prove even more useful, and in a wider field. Experiments with the new apparatus are being made at Inchkeith Island, in the Firth of Forth, and if they prove as successful as the inventor anticipates it is expected that eventually mariners in every part of the world will benefit by the widespread adoption of this new aid to navigation.

The device is expected to serve the mariner in much the same way as does the lighthouse or the fog signal, with the added advantage that it will be equally efficient by day or by night, and in clear weather or in fogs or storms.

Gradually, the ingenuity of man is overcoming the perils of the deep, but sufficient danger still exists to ensure a warm welcome for every new aid to navigation, and if Signor Marconi's invention proves successful, it will add to the chain which he already has upon the gratitude of mankind.

LOCAL NEWS

Numerous shooting parties are at Grand Lake and vicinity for the opening of the duck season, among them being W. I. Fenton, Wakefield Fenton and T. H. Estabrook, who have John Sabettis as guide; R. A. McAvity and party and several parties from Fredericton and Gagetown.

Dallas Carleton of Sussex was fined \$20 and costs yesterday at Hampton by Magistrate W. H. Parlee on a conviction for speeding and inflicting an injury on the occupants of a car owned by E. J. Wall of this city in a collision near Apohaqui on September 4.

LeRoy F. Harding, of St. John, who served overseas with the Canadian Expeditionary Force, while in England had a duplicate of his identification disk made for a bracelet for his wife. It was lost in London and Mr. Harding had never expected to see it again when a young lady in Burnt Village, near Chatham, showed him the identical disk one day.

Rev. J. V. Young, priest in charge of the Mission Church of St. John the Baptist, announced yesterday that a noted English Mission priest would be in St. John in January and conduct a ten days' mission at the church in Paradise row. The mission will be Rev. Father Maurice Cyril Bickers, M.A., a member of the Community of the Resurrection which has a monastery at Mirfield, England, and a priory in London.

The steamer Calvin Austin on the New York-Boston route ran aground in Cape Cod canal recently and damaged her rudder. She was refloated and towed to Boston but will be incapacitated for service for a few days. In the meantime, her place on that route will be taken by the Governor Dingley of the St. John-Boston route, the Dingley to be replaced on this route by the steamer Camden, which will arrive here tomorrow morning.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

RESISTANCES IN RADIO CIRCUITS.

When a piece of wire is connected across a storage battery a current is drawn from the battery the intensity of which is determined by the amount of opposition offered to current flow by the wire itself.

1000 ohms 1000 ohms

Series Resistances Receiving Telephones

Parallel Resistances Battery Charging

The unit of resistance is the "ohm" and an idea of the unit may be gained from the fact that an ordinary filament rheostat for vacuum tube operation usually has a resistance of about five to ten ohms, while the resistance of a pair of telephones for radio is usually 2000 ohms.

During a recent examination one of the questions read thus: "If one horse can run a mile in a minute and a half, and another is able to do the same distance in two minutes, how far ahead would the first horse be if the two ran a race of two miles at these respective speeds?"

One pupil returned his paper with the query unanswered, except that he had written on the sheet—"I refuse to have anything to do with horse racing!"

There is a brewer in Milwaukee who has the precious gift of imagination. When brooding ceased in Milwaukee he sat down and thought, and presently evolved a formula for "near-beer," an anaemic ghost of the real juice, warranted non-intoxicant. Then he had a special label printed for his bottles. It reads: "It is forbidden by law to put a raisin into this beverage, since it has the effect of making it intoxicating."

The pressure at the South Wales docks during the last three weeks has been phenomenal. Both outputs and tonnage have responded to the demand. The production in the South Wales coal field has been restored to practically the pre-war level of about 1,110,000 tons per week.

Barclay's Bank Review: The demand for British coal from the United States has exceeded anticipations. It was stated in last month's Review that the orders placed for British coals this quantity nearly one-half was for South Wales coals.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, SEPTEMBER 22, 1922

WOMAN AND A MAN IN MURDER

New Facts About Slaying of Minister and Mrs. Mills

Scratches on Victims—Think Slayers Located Trysting Place of Clergyman and Set Trap for Them.

New York, Sept. 22.—The possibility that both a man and a woman participated in the murder of the Rev. Edward Wheeler Hall and Mrs. Eleanor Reinhardt Mills at New Brunswick, N. J., last Thursday is emphasized by the discovery of new evidence. Four witnesses told the authorities they had heard shots and the screams of two women about midnight on Thursday.

Additional information regarding the results of the official examination of the bodies also disclosed that there were deep finger and nail scratches on the woman's face and neck and on the clergyman's hands and arms, indicating that a woman had attacked the couple with her hands before they were shot and killed by a companion, probably a man.

After Dr. Hall left his home about 7:30 o'clock last Thursday night, ostensibly to go to his office at the Protestant Episcopal Church of St. John the Evangelist, going on foot, it is now believed, the man and the woman who were watching his movements motored to the clergyman's trysting place and waited until he appeared with the woman. It is believed that the woman who lay in wait did not know that the man with her had a pistol in his pocket, and did not think for a moment that the

pitch from the first scream. This is taken to mean that the second woman was surprised at the sight of the pistol and attempted to prevent murder. Then came the shots. Mrs. Mills was shot once in the forehead, and her face was burned so with powder that the pistol must have been held close to her face. The two wounds in the back of the clergyman's head were not powder burned, so he may have been shot as he was trying to escape.

McCabe jumped out of bed, dressed and walked across the canal bridge along the landing road to see what was the trouble. He stopped some distance up the road and waited for four or five minutes. Then he heard another scream that sounded like the voice of the first woman. There was no more noise and the voice seemed some distance away, so he returned to his house. As he and his wife stood by an open window they heard a series of screams, also like that of the first woman, but they grew fainter, and finally died out.

Mills, the widower of the tragedy, Mrs. Hall, the widow, and her brother, Willie, according to the figures about which the investigation revolved. All three were expected to be questioned again—Mrs. Hall for further details of her nocturnal wanderings in the early hours of Friday morning, soon after the murders are believed to have been committed; Mills for the story of his own wanderings at the same hour, and Willie for further light on his unaccountable prediction on Friday morning that "something terrible is going to happen."

MORNING NEWS OVER THE WIRES

A maritime province fisheries conference opened in Shediac on Wednesday with about seventy-five inspectors, officers and others interested in the fisheries business present. Professor Knight and Dr. Hunsman were the speakers Wednesday and yesterday. Mayor Kelly of Shediac, welcomed the delegates and his speech was replied to by Ward Fisher of Halifax, superintendent of fisheries. The conference will last a week.

A fire which broke out on the premises of Joseph Doyle at Richfordville, near Campbellton, on Tuesday night, destroyed his house, barn and touring car and the occupants of the house had barely time to escape. The loss exceeds \$6,000, of which \$4,500 is covered by insurance.

According to a rumor in London, Premier Lloyd George offered his resignation at a meeting of the cabinet ministers at Chequer's Court, his country home, last week-end but it was refused. The rumor also says that Lord Curzon threatened to resign if his policy for securing the co-operation of France was not supported by the conference.

NEW YORKERS' BONES DUMPED INTO OCEAN

Two Truckloads From Old Buryal Place Treated as Rubbish.

New York, Sept. 22.—Two motor truckloads of human bones, the remains of several hundred of New York's early settlers, some of them possible minute men heroes of the American Revolution and American soldiers of the war of 1812, were ingloriously and unceremoniously dumped into the ocean this week from a city rubbish scow.

Workmen employed by a construction exchange excavating a cellar dug up the ancient churchyard. Old brownstone tombstones with names and dates, the latest of which was 1820, were unearthed.

In one corner of the plot, when a brick vault was broken up, the excavators discovered human skulls and other bones. It was evident there had been an interment from the original burial, possibly sixty years ago, when a public school was erected on the plot.

HOSPITAL AID

The women's hospital aid committee met yesterday afternoon in the Board of Trade rooms with Mrs. T. H. Carter in the chair. Mrs. Lester Mowry read the treasurer's report, showing expenditures of \$387.01, a balance of \$2,467.82, an emergency fund of \$1,011.81 and a flower fund of \$4.25. Mrs. L. A. McAlpine was appointed secretary. It was decided to provide assistance for a young girl in the hospital and to continue the semi-monthly ice cream treat for the patients. Mrs. T. Carleton Lee presented a statement of the purchase of canvas slippers. It was decided that each member should bring as many books as possible to the next meeting as a donation to the patients library.

Miss Belle Howe, social service worker, told of thirty-two visits. Convenors reports were read. Mrs. E. A. Young reported a generous supply of magazines. She commented on the fine appearance of the hospital and the grounds. Mrs. T. H. Carter, convenor for the second month also spoke well of the condition of the hospital. Mrs. Leonard, convenor for the last month, referred to the kindness of those who had given flowers.

Denominational reports were given by Mrs. Leonard for the Anglicans, Mrs. H. E. Thomas for the Methodists, Mrs. J. H. Doody for the Catholics, Mrs. James Christie for the Presbyterians. Mrs. R. S. Sime gave the cook book report, showing a total of 1,060 books taken from the publisher. Mrs. R. Roberson was appointed visiting committee convenor for the next month. She sent her report as convenor of the magazine committee.

AMERICAN BRIDE FOR BORIS?

Bulgars Said to Want a Wealthy American Queen.

London, Sept. 22.—According to the Geneva correspondent of The Exchange Telegraph Company, the Bulgarian Prime Minister, M. Stamboulsky, has announced that King Boris wishes to marry a beautiful and wealthy American girl.

The Bulgarians, it is said, have lost faith in royal alliances and hope that an American Queen will be a greater asset to their country than a European.

It is added that King Boris' bride, in addition to having youth, beauty and riches, must be cultured and must interest herself in the education of women and the establishment of schools for young women in Bulgaria.

STEEL AIRPLANES WEIGH LESS THAN WOODEN ONES

London, Sept. 22.—(A. P. by mail)—Great Britain possesses an all-steel bombing airplane, a distinct departure

Use the Want Ad. Way

in aerial construction. Except for its canvas wings the entire machine is built of steel. Nevertheless, it is 4 per cent lighter than a wooden airplane of the same dimensions.

The claim is made that this machine shows a great advance over German airplanes constructed of aluminum alloy, which is said to lack the strength of British steel. It is equipped with two Napier 1,000 horsepower engines. Although designed as a fast long distance bomber, it is said to be as easy to maneuver as a little fighting scout. This is because of its steel construction, which permits the grouping of all weights.

Advantages claimed for all steel airplanes are greater strength, increased load carrying capacity, ease of manufacturing in large numbers, and the fact that they are less vulnerable to bullets and shrapnel while flying, and also that they are virtually fireproof.

Purity Private Brand Brick advertisement. Includes text: 'Like word of the arrival of a long absent friend, the return of your cherished favorite, the Purity Private Brand Ice Cream Brick will be joyously welcomed by you and many hundreds of Purity patrons who, last season, could scarcely get enough of this delightful frozen delicacy which this year, will be even more delicious than ever.' Also features 'Mix-Fruit' and 'Purity ICE CREAM' logo.

Nemo Corsets advertisement. Features text: 'Nemo Corsets are indispensable because of their TRIPLE SERVICE (ECONOMIC-HYGIENIC-STYLE)'. Includes illustrations of women in corsets and a list of prices: Wonderliff \$7.25, Jusput \$5.50, Solid Service \$4.00, Kopservice \$7.00.

Life Insurance advertisement. Features a large illustration of a woman in a long dress holding a shield, with a house in the background. Text includes: 'Your Home', 'Have you placed the "guardian angel" of life insurance over your home?', 'A home protected by life insurance—covering the mortgage and the necessities of life—is one of the happiest places possible.', 'The guardian angel of life insurance simply takes your place and "carries on." With a mighty three billions of dollars she is standing watch over thousands of Canadian homes, where the parents and children all live in the happiness that comes through the knowledge of adequate protection.', 'Life Insurance representatives are the great ambassadors to your home. They will be pleased to show you how simply and easily you can throw the "mantle of protection" around it.', 'NOTHING CAN EVER TAKE THE PLACE OF YOUR HOME. IT IS A WORLD IN ITSELF ABOUT WHICH EVERYTHING REVOLVES.', 'LIFE INSURANCE SERVICE.', 'The Love That Never Dies.'

**CONFERENCE IN PARIS RESUMED**

**Demand That Foreign Wars be Not Allowed to Pass Straits Without Turkish Permission—Favor Two Sets of Negotiations.**

(Canadian Press Cable)  
Paris, Sept. 22.—The Near East situation seemed a little more hopeful, at least from the viewpoint of preserving allied unity, upon the resumption of the conference between Lord Curzon and Premier Poincaré today.

Disturbing reports, however, continue to come from Constantinople and it is reported that the Turkish Nationalists are on the point of issuing an ultimatum to the allies, demanding the evacuation of Thrace within forty-eight hours.

The Nationalists' representative in Constantinople is said to have informed the commander of the allied forces that the earliest possible date should be fixed for the proposed peace conference, the repeated postponement of which had almost deprived the Nationalists of confidence in diplomatic means of settlement.

It is probable that the date and place of the peace conference will be settled at today's meeting, but it is not thought the allied statesmen will be able to do more than this, as it is becoming increasingly obvious that the other details will require closer consideration.

Even the question of the Straits of Dardanelles, which at first appeared simple, offers great difficulties. While the disposal of Constantinople presents an easy problem, that of Gallipoli, as Ferid Bey points out to L'Oeuvre, is delicate.

"As to the Straits," said the Kemalist representative, "we ask that foreign warships be not allowed to pass without our permission; otherwise our capital is unsafe."

Ferid Bey favors two sets of negotiations, one of a general character to restore peace between Turkey and the powers, and the other to be confined to settlement of the straits question, with Russia and other Black Sea countries participating.

**NOTORIOUS BRIGAND GUARDED CHILDREN**

**1,800 Orphans Made Adventurous Trip of 500 Miles in Robber-Infested Country.**

Paris, Sept. 22.—A message from Beirut says that 1,800 orphans have arrived there after an adventurous 500-mile journey across the mountainous hinterland. The country through which the caravan was obliged to travel from Harput is one of the wildest in all Asiatic Turkey, infested by robber bands and pillaging tribes engaged in continuous guerrilla warfare, so that the Near East relief, which made the arrangements for the transportation of the

**There's only one way to get the Best Salt and that is to ask for it Name the BRAND every time Refuse to accept substitutes. Insist on Getting**

**Use the Want Ad. Way**

children—they have now been shipped safely by sea to Constantinople, where they are being placed in American orphanages—had well justified fears concerning the outcome of the undertaking.

One of the most notorious robber chiefs haunting the district—perhaps the best known brigand in Asia Minor today—called the Sheriff Agda, was feared above all, owing to his previous persecution of the Armenians. Hearing that, according to legends current throughout the country the Sheriff Agda had one redeeming trait, namely, a great fondness for children, the Near East Relief Director, Howard Macatee of Kansas City, took the bull by the horns—by inviting Agda himself to protect the orphans' caravan against the attacks of other brigands. The chief accepted the commission, and with thirty of his best horsemen armed to the teeth, accompanied the caravan, which was thus able to accomplish the difficult journey without any serious casualty, despite all the dangers.

**PREDICTS GREAT GROWTH IN OUR POPULATION**

Calgary, Sept. 22.—Canada is on the eve of a period of development in population in the next quarter of a century which will dazzle the world, said Sir John Willison, president of Western Canada Colonization Association, at a combined meeting of the men's and women's Canadian clubs of Calgary and the local board of trade last night.

**IS TO OPPOSE CHURCHILL AT POLLS IN DUNDEE**

London, Sept. 22.—(Canadian Press)—W. Pilkington, K. C., has been nominated as an independent Liberal candidate in Dundee, to oppose the return of Right Hon. Winston Churchill, secretary of state for the colonies, in the next general election. Mr. Churchill was returned in the last election in Dundee, as a coalition Liberal by a majority of 15,965.

**AGAINST BRITAIN ACTING ALONE**

**Labor Party Opposed to War in Near East—Send Dispute to League of Nations.**

London, Sept. 22.—The attitude of the British labor party towards the present Near Eastern situation is succinctly set forth in a cable message sent today to the Australian and New Zealand laborites. The message reads: "British labor is opposed to any wars in the Near East, and believes the only way of averting it is by reference of the dispute to the League of Nations, in which Turkey, Russia and Germany should be included. We are strongly opposed to Great Britain acting individually, and demand a settlement by discussion and agreement."

**PAY IN PRODUCE**

**Barter Replaces the Use of Money in Some Parts of Germany.**

Weimar, Germany, Sept. 22.—Barter is replacing the use of money in various parts of Germany as a result of the serious depreciation of the mark.

The Weimar board governing the agricultural schools at Tryptitz and Markuhl has fixed the tuition for the winter term in rye instead of in money. The Saxon Thuringian Power Co. at Auma has announced that it will gladly receive, instead of cash, ten eggs, three pounds of wheat flour or a quarter of a centner of potatoes for each kilowatt hour of electricity consumed.

Namzburg and Braunschweig physicians say that all rural patients will be expected to pay for medical attention in produce at its pre-war cost.

**THE TEDDY BEAR WAS BLOCKED BY ARCTIC ICE**

Nome, Alaska, Sept. 22.—The schooner *Teddy Bear* which left here on August 18 with an expedition headed by Capt. Joe Barnard to bring off a party sent by Vilhjalmur Stefansson under the leadership of Allan Crawford to Wrangell Island last year, was back here today with a propeller bent by the heavy ice in the Arctic ocean. The *Teddy Bear* reached Whalen, Siberia, but was unable to proceed to Wrangell Island because of the heavy ice.

The Crawford expedition spent last winter on Wrangell Island, having gone there, it is understood, to run up the British flag. The party is said to have plenty of food for this winter.

**WHALEN, MENTIONED IS THE FOREGOING FROM NOME, DOES NOT APPEAR ON SEVERAL MAPS OR IN A GAZETTEER CONSULTED.**

**FUNDY CHAPTER MEETS**

The Fundy Chapter, I. G. D. E., held its first meeting of the season last night in the G. W. V. A. rooms with Miss L. Sheldon presiding. It was decided to hold a rummage sale early in October and Miss Colston was appointed convener of a committee to take charge. For a tea and sale to be held in November.

**ACCUSE GOVERNMENT OF BAD FIGURING**

British House Builders Are Defending Their Charges.

London, Sept. 22.—(Canadian Press Cable)—The National Federation of House Builders denies statements alleged to have been made by government officials that the cost of building is now 60 or 70 per cent. over the pre-war figures.

The federation says that a builder cannot build a house under 125 per cent. over the 1914 figures, and declares that the prospect of a further substantial reduction is remote.

**WINTER OIL TANKERS IN BEDFORD BASIN**

Halifax, N. S., Sept. 22.—It is announced that five Imperial Oil Company Limited tankers will be laid up in Bedford Basin here this winter. They are the *Mina Drea*, *Vancouver*, *Montreal*, *Trenton*, and *Tadoussac*.

**GIRL SHOT IN HEAD AND SET ON FIRE**

Kansas City, Mo., Sept. 22.—The body of a girl, apparently about sixteen years old, almost nude and badly burned, was found yesterday afternoon on the charred remains of a brush pile, east of North Kansas City. The body, a bullet hole through the head, was found by a peddler, who was in search of firewood. The clothing had been saturated with coal oil before a match was applied by the alayer.

Thirty feet away was an empty jug containing a strong odor of oil. The torso was almost entirely burned.

**FAIR IN SUSSEX**

Preparations are being made to run a Kings county fair in Sussex on Oct. 4, 5, 6 and 7, by the Sussex Amateur Athletic Club, the proceeds to go towards carrying on the work of this organization.

**Now You Can Buy All the Dainty Underthings You Want**

*We sell them for the mere cost of materials!*

Yes—you can have all those lovely silk underthings you have always yearned for—nor do you need to spend long hours making them. Buy them for the actual cost of materials.

In our new Lingerie Department we show you myriads of lovely new underthings at prices you would actually pay for the materials alone. And the workmanship—the careful tailoring, the perfect finish, have those clever little touches that no seamstress can give.

**You cannot possibly make Lingerie at these prices**  
JUST TWO EXAMPLES

<b>SATIN ENVELOPE CHEMISE—</b>	
Our Price	\$4.50
To make yourself:	
1 3/4 yds. Satin at \$2.25	\$3.94
4 yds. Hemstitching at 15c.	.60
Ribbon	.10
	<b>\$4.64</b>

<b>RADIUM PRINCESS SLIP (Hip length hem)</b>	
Our Price	\$7.95
To make yourself:	
2 3/4 yds. Radium Silk at \$2.50	\$7.06
2 yds. Hemstitching at 15c.	.30

**1847 ROGERS BROS. SILVERPLATE**

*This spoon set in the Ambassador pattern is an ideal gift for young housewives. Its extra charge for the silver which is plated with blue metal.*

**Furnishing the home with silverware**

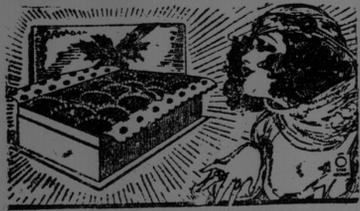

ASK yourself these questions before you purchase silverplate: Is it attractive? Is it well known? Has it stood the test of years? Is it the best of its kind? Can other pieces be added later in the same pattern?

This year's celebration of the seventy-fifth anniversary of "1847 Rogers Bros." answers "yes" to the above questions. Time has proved its quality, its desirability—and a wide variety of "open stock" patterns has long been one of its distinctive features.

For any kind of a gift this year, "1847 Rogers Bros." is particularly appropriate. Remember the date, 1847, as a symbol of finest quality. Emphasize it when you buy.

See the attractive chests and gift box assortment at your dealer's. No extra charge for the colorful packages.

**LOCAL NEWS**

**ENGAGEMENTS**  
Mr. and Mrs. A. Crowley, of Princess street, have announced the engagement of their daughter, Mary Margaret, to Harry Louis McQuade, the wedding to take place on September 27.

**LIQUOR CHARGE**  
James LeClair was charged this morning with having intoxicating liquor in his beer shop in Mill street on September 21. He pleaded guilty and put up deposit for his appearance on Monday morning. In the meantime some inquiries will be made. W. M. Ryan conducted the prosecution.

**AT NEWMAN BROOK.**  
Commissioner Wigmore spent some time this morning inspecting the work at Newman brook where he had a crew of men extending the arch preparatory to the installation of a thirty-six inch sewer main, which is to be connected with the new system being installed in Lansdowne avenue, Metcalf street extension and adjacent streets.

**SPOKE ON HEALTH**  
Hon. Dr. W. F. Roberts, minister of health, returned to the city today from Milltown, N. B. where he spoke last evening on public health. The meeting was held in the large new school house in Milltown and was under the auspices of the St. Stephen and Milltown Red Cross. President DeWolfe of the Red Cross officiated as chairman.

**ENDING INSPECTION**  
A. D. MacTier, vice-president of the C. P. R., and J. J. Scully, manager of the eastern lines, who are on an inspection trip through the New Brunswick district, left Fredericton at 6:30 o'clock this morning enroute to Edmundston. From there they will proceed to Quebec over the C. N. R.

**FOR BRIDE OF SEPTEMBER**  
Friends of Miss Mary Crowley assembled on Monday evening at the house of Miss Gladys McCarthy and tendered her a novelty shower in honor of a happy event of the near future. The evening was marked by the presentation of many gifts, serving of dainty refreshments and several hours of happy reunion.

**FINE OF \$100.**  
Police Magistrate Ritchie gave judgment this morning in the case against Mrs. Florence Gordon, charged with cutting and wounding Wiley Brewster. He said that the fine provided in such cases was \$200, but there were certain extenuating circumstances in this case. She had been provoked, though it was not excusable to take the law in one's own hands. A fine of \$100 was imposed. E. S. Ritchie appeared for the defense.

**BISHOP VISITS COAL MINE**  
His Lordship Bishop LeBlanc returned home last evening after a confirmation visit trip to Chipman and Minto. On last Wednesday he confirmed forty-three children and adults at Chipman, and on the same evening confirmed eighty-seven at Minto. His Lordship was accompanied by Rev. Raymond McCarthy. He said conditions in Minto were exceptionally good and there was demand for more laborers. He visited the coal mines and inspected the operations and said the work was very interesting.

**FERTILIZER CASES.**  
In chambers this morning, before Chief Justice Macneil, W. P. Jones, C. C. for the defendants in several cases in which Gunns, Ltd., are plaintiffs, applied to enter corrected statements of defence and counter-claim. These statements in which the company is suing for recovery of the purchase moneys on sale of fertilizer, and the defendants are alleging that the fertilizer sold were not of the quality represented. An order was made, returnable on October 6. W. H. Harrison appeared for the plaintiffs. The defendants are costly upper province farmers.

**DINGLEY KEEPS TO ROUTE.**  
Word from the Eastern Steamships Co. office here this morning changes a report that the Governor Dingley has been taken off the Boston-St. John route to replace the Calvin Austin on the Boston to New York trip. The Austin is laid up for repairs as a result of an accident yesterday morning in the Cape Cod Canal and it was reported that the Dingley would take her place, while the Camden came here. A wire was received at the company's local office today that the Dingley had sailed this morning for St. John as usual.

**TRAFFIC CASE.**  
C. L. Lane was charged this morning with exceeding the speed limit on September 18 at 10:40 p.m. at the intersection of King and Charlotte streets. Police Constable Quinn testified that the car had been traveling at the rate of fifteen miles an hour whereas the speed allowed was six miles. The accused said it had been raining hard and he had got a man at the garage to leave his duty and drive him home in his car, number 4-220. The man had been hurrying and that possibly accounted for the excessive speed. He was fined \$10 and the fine allowed to stand.

**PROBATE COURT.**  
No allegations were filed in the probate court today in the matter of the estate of William Charlton, although a caveat had been entered, and so this morning, upon the hearing being resumed, proof of the will in solemn form was allowed by His Honor Judge McInerney. The estate was valued at \$1,482.50. The executors, L. P. D. Tilley, K. C., and Mrs. Annie Bridgton, were sworn.

**HERE FOR JEWISH NEW YEAR.**  
The Jewish New Year brings to St. John two prominent people, Madame Levine and his sister, Miss Sarah Levine, son and daughter of Rev. J. Levine, who was formerly rabbi here and conducted services in the synagogue for several years. Mr. and Miss Levine motored from Albany, N. Y., and are spending the holiday with their sister, Mrs. Frank O. Garson, of Douglas avenue. Mr. Levine is a prominent chartered accountant in Albany and is president of the Albany Zionist organization, and chosen delegate to attend the recent convention in Philadelphia. The young people in Hebrew circles will welcome these two visitors, who were very popular when residing here, and Mr. and Miss Levine express themselves as delighted to visit once again their old home town.

**COMMISSION NOT COMPETING**

**Mr. Foss Outlines Plan of Power Supply for Communities.**

Any community within reach of the Musquash development can organize an electric light district and contract with the N. B. Electric Power Commission for a supply of current. C. O. Foss, chief engineer of the commission, said today. It will be necessary for them to become incorporated by act of legislature first, he added, and receive from that body authority to issue bonds to cover the cost of distribution. Mr. Foss reiterated his denial that the commission proposed going into competition with any municipality or district in the supply of electric current. He said that the aim of the commission was to give the people the power at cost, and whereas there was no municipality or incorporated district to handle the distribution the commission was prepared to distribute it. He said that the commission was prepared to write into the proposed contract with the city a clause agreeing to credit the city with any quantity supplied direct by the commission to users within the scope of the city's distribution lines.

Asked if it was proposed to tap the main transmission line for each incorporated district along the line between St. John and Moncton, Mr. Foss said that this was neither necessary nor desirable, such substations would add to the expense and would also weaken the main line. The present plan, he pointed out, was to erect a substation near Brookville, from which could be served all the area between that place and the city, including East St. John, as well as the places along the C. N. R. as far as Fair Vale, including Renforth and Rothesay. Another station was planned for Hampton to distribute over the area from Naineweg to Bloomfield, and another at Sussex would serve the consumers from Norton to Penobscot. If any district found that it could not guarantee sufficient to pay for its own distribution, it could be joined with another district and served through the commission. A line from the sub-station in the Main wagonish road would provide for the people along the line of the C. P. R.

Mr. Foss pointed out that the commission was not figuring on making a profit from the people if any municipality or district for that reason would not attempt to enter into competition with municipal or district bodies who were acting for the people just as the commission was.

**STOREKEEPERS HAILED TO COURT**

Reports Against Several Under Food Regulations.

Some cases brought by the sub-district board of health were before the court this morning. David Aronoff, George A. Chaggaris and Samuel Kashtsky were charged, on information laid by Dr. William Warwick, district medical health officer, with keeping for sale goods not properly covered as required by law. Daniel Mullin, K.C., appeared for the three accused and Dr. J. Roy Campbell, K.C., represented the board of health. The case against Aronoff was the first taken up and a plea of not guilty was entered. Mr. Miller, S. P. Fawcett, assistant food inspector, reported on conditions as she found them on Sept. 5. She was cross-examined by Mr. Mullin as to the scope of her duties and the frequency with which she paid visits. She said she had left copies of the regulations at Aronoff's store at various times and had explained them to him. He had not been in the store on the last occasion. T. M. Burns, secretary of the sub-district board, identified a copy of the food regulations.

Mr. Mullin said that the regulations of Section 44, were not warranted by the health act, Chapter 36, Acts of 1918 and therefore were ultra vires. Considerable argument ensued upon this point. The cases against Chaggaris and Kashtsky were substantially the same and adjournment was made until Monday morning, the accused being released on \$100 deposit for their appearance. Claude Richardson and Alexander McBeth, on like charges, were required to put up deposits of \$200 and \$25 respectively for their appearance at the same time.

**SAYS BUSINESS BETTER.**

Walter G. Miller, of the local C. G. M. staff, returned to the city last night from Sydney, where he was superintending the loading of the Canadian Conqueror with steel for Australia and New Zealand. Mr. Miller says that business, and especially harbor business, is increasing and that the British Empire Steel Corporation are gradually raising the amount of their output. The Conqueror took with her the largest cargo of steel products ever sent from this country to Australia. It included barbed wire, nails, staples, mill wire, and fence wire, and totalled 2,200 tons. She had also 450 automobiles and general cargo from Montreal. She is one of the larger of the C. G. M. boats, being 3,386 tons register. Captain George Foy is in command for his second trip in this vessel from Canada to Australia. While in Sydney, Mr. Miller also assisted in the loading of the Canadian Coaster with a part cargo of ammonium sulphate. She sailed on Monday.

**STREET WORK.**

The city public works department was engaged today in putting the finishing touches on the paving work in Prince William street which will be completed tomorrow night. The junction of the new pavement with Princess street and also at the foot of King street was effected this morning and the rest of the sidewalk work was done this afternoon. In spite of the delays occasioned by bad weather and the difficulty of carrying on work without paralysing traffic, the work was finished in good time and presents a greatly improved appearance over the old street.

**FOR THE V. O. N.**

There is to be a house to house canvass for funds for the Victorian Order of Nurses in Halifax next week.

**LUXURIOUS FALL SILKS**

Are Now on Display for Your Consideration

We cordially invite you to visit our Silk Department the next time you are out shopping. The new silks for Fall are on display and we think they are wonderful. So will you when you see them. CARD OF THANKS

Mrs. Frank Frauley and family wish to thank their many friends for kindness and sympathy shown them in their recent bereavement.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

NEW SHOW AND THE KIDDIES TOMORROW

Imperial Theatre will conclude its big week Saturday with a brand new picture bill, "Devotion," by the First National Co., and serial "White Eagle," also the Rossie Kiddies for two final performances. The children will appear at the end of the matinee, namely about four o'clock, continuing until closing time, after five. They will introduce several new things in this extra engagement, including a school-room scene which is very funny. In the evening the Kiddies will appear at 8.30 as before.

LOCAL NEWS

CARD OF THANKS. Mr. and Mrs. G. Kindred wish to thank all those who so kindly assisted them when their cottage at Ketepec was burned recently.

The Uptown Tea Shop on the square is the meeting place for those who wish to combine a hot lunch and a cozy chat. 108-9-23

LOCAL NEWS

AWAY AGAIN. Albert and Samuel Leyden, aged seven and nine years, who disappeared from their home at 149 Millidge avenue, last evening, have not as yet been found. The detective department is looking for them.

DIED IN WINTHROP. Mrs. Elizabeth Hintze, wife of O. J. Hintze, died at her home in Winthrop, Mass., on Sept. 21, after a long illness. She was a daughter of the late Alexander Griffiths, a well-known resident of the west side. Besides her husband, she is survived by one brother and one sister, Frank M. Griffiths, 271 Duke street, West St. John, and Miss, of Winthrop, Mass. Mrs. Hintze had a large circle of relatives and friends in the city, who will receive the news of her death with sorrow and regret. The burial will take place at East Boston, Mass.

PERSONALS

The Misses Astin of 164 Carmarthen street, have returned after a very pleasant and enjoyable visit to friends at Grand Lake.

James A. Hennessey and his bride arrived in the city on the Boston train on Thursday night from Edmonton and are visiting Mr. Hennessey's parents at 87 Main street, Fredericton. They were accompanied by Mrs. Hennessey's sister, Miss Pauline.

Mrs. Robert Graves and two children, of Halifax, are visiting her mother, Mrs. Robt. Thompson, Rothesay avenue. Miss Jean Thompson has arrived home after visiting Mrs. Graves for three months.

VIEWS OF SENATOR ROBERTSON ON IMMIGRATION

Winnipeg, Sept. 22.—Senator Gideon Robertson, interviewed here last night on his arrival from the east, declared every legitimate effort should be made to encourage people with a little capital to settle on the land in Canada. Any immigration policy should be framed to avoid importing industrial workers who could not be absorbed into industry and while there was unemployment in the country.

IN WALL STREET.

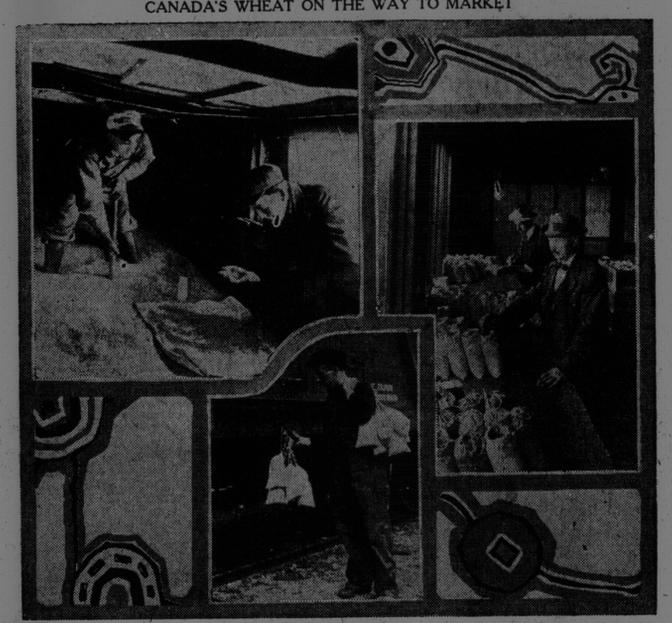

New York, Sept. 22.—(noon)—Inability to meet overnight margin calls forced in the stock market today, causing further recessions in prices. Selling pressure, induced largely by liquidation of weakened accounts, extended over most of the list, public utilities, rails and some specialties being the hardest hit. Losses of a point or more took place in Columbia Gas, Public Service of New Jersey, People's Gas, Missouri Pacific preferred, Erie second preferred, Chicago and North-western, Baldwin and Studabaker. American Ice dropped two points. Elsewhere, the declines were largely fractional. There were a few exceptions to the downward trend. Jones Brothers Tea was pushed up 11-2 in response to announcement of an increased dividend. Rock Island, one of the weak features yesterday, rallied feebly and St. Louis Southwestern moved up a point. Standard Oil of New Jersey and Gulf States Steel also extended their gains of yesterday.

Noon Report.

New York, Sept. 22.—(noon)—Completion of early forced selling, which failed to uncover any acute weakness, caused extensive short covering in the later dealings. Speculative belief that the reaction had gone far enough was indicated by the ready absorption of all offerings, or more took place in Columbia Gas, Public Service of New Jersey, People's Gas, Missouri Pacific preferred, Erie second preferred, Chicago and North-western, Baldwin and Studabaker. American Ice dropped two points. Elsewhere, the declines were largely fractional. There were a few exceptions to the downward trend. Jones Brothers Tea was pushed up 11-2 in response to announcement of an increased dividend. Rock Island, one of the weak features yesterday, rallied feebly and St. Louis Southwestern moved up a point. Standard Oil of New Jersey and Gulf States Steel also extended their gains of yesterday.

Fredericton, N. B., Sept. 22.—The Fredericton branch of the G. W. V. A. adopted a resolution approving the steps taken by the British government relative to the Near East.

MECCA OINTMENT Burns, Sores, Guts Etc. Get Free Sample From Your Druggist.

These illustrations show some of the several steps in the inspection and grading of the wheat crop of Western Canada on its way to the markets of the world. One picture is of a grader and his helper in a car of wheat, taking samples from the same; another a collector of small sample bags from the railroad cars; a third is a scene in the office of the graders at the head of the Lakes, classifying and tabulating the various samples.

MILITARY COURSES HERE

Announcements Made at Headquarters—Certificates, Appointments, Promotions and Transfers.

In district orders issued recently by Colonel John Houston, D. S. O., officer commanding military district No. 7, attention has been called to several courses of instruction to be given. Brigades and battery commanders in the artillery units have been asked to send in the names of any officers whom they think qualified to take examinations with the understanding that these men will have to take the regular course, which will commence on November 6 or January 8, if they fail. It is stated in the orders that three officers and six N. C. O.'s of the 12th Brigade, C. F. A., and the 3rd Heavy Brigade, C. A., may send in applications if they think they may not be vacancies for all.

A twenty-eight day course for the Canadian Engineers will be commenced on January 15 and the officer commanding the 1st Brighton Field Company has been informed that he may send applications from three officers and three N. C. O.'s to take the course.

A machine gun course will be held from November 20 to December 16 for lieutenants and N. C. O.'s, and from January 8 to February 4 for captains and field officers. The 7th C. M. G. B. has been asked for two officers and five N. C. O.'s applications for the former and two officers for the latter.

The establishment of provisional schools of training for signallers, in visual telegraphy, has been authorized for St. John, Fredericton and Perth, the dates to be fixed by the officers commanding the districts.

The following have been granted certificates following recent examinations: New Brunswick Dragoons—Lieut. C. Osman, cavalry lieutenant. Lieut. R. B. Beebe, cavalry lieutenant. 8th P. L. (N. B.) Hussars—Lieut. H. S. Gambell, cavalry lieutenant. Lieut. P. J. Brewster, cavalry lieutenant. Lieut. J. L. Macaulay, cavalry lieutenant. Carleton Light Infantry—Major C. V. Armstrong, infantry field officer. Major F. W. C. Wetmore, infantry field officer. Lieut. W. D. Rankin, infantry lieutenant.

North Shore Regiment—Major A. H. Troy, infantry field officer. Major E. W. W. Watling, M. C., infantry field officer. Lieut. J. R. Nicholson, infantry lieutenant. Lieut. C. F. Kingston, infantry lieutenant.

New Brunswick Rangers—Major H. G. Palmer, infantry lieutenant. Major F. L. West, infantry field officer. N. B. Contingent, C. O. T. C.: Major A. Cameron, infantry field officer. (Brighton) Field Coy. C. E.: Captain W. H. Hoyt, cavalry lieutenant. Lt. (Sup.) R. B. Manzer, equitation. Carleton Light Infantry.

Major C. V. Armstrong, M.M., equitation. Capt. A. E. Raymond, equitation. York Regiment—Lt. (Sup.) H. A. Gibson, equitation. North Shore (N. B.) Regt.: Major A. H. Troy, equitation. Major E. W. W. Watling, M. C., equitation. Capt. A. L. Barry, equitation. New Brunswick Rangers: Major H. G. Palmer, equitation. Capt. E. C. Armstrong, equitation. Major Allison Cont. C. O. T. C.: Major W. L. West, equitation. U. N. B. Cont. C. O. T. C.: Major A. Cameron, equitation. Carleton Light Infantry: Lieut. F. L. Moores, quartermaster's duties. Mt. A. Contingent C. O. T. C.: J. S. Hewson, infantry B. M. Angering, infantry A. J. B. Angering, infantry A. K. E. Buckham, infantry A. H. J. Rowley, infantry A. A. B. University Cont. C. O. T. C.: A. E. L. Booth, infantry A. F. Coker, infantry A. R. B. Manzer, infantry A. D. A. MacLach, infantry A. R. E. Secord, infantry A. H. J. Maxwell, infantry A.

The following appointments, promotions and transfers have been recorded: 1st (Brighton) Field Coy.—To be provisional lieutenant, Paul Wilmet, Caldwell. Prov. Lieut. (superannuated), R. B. Manzer, R. J. Smith are absorbed into the establishment. The New Brunswick Dragoons—Prov. Lieut. R. J. Harrington is permitted to retire. Prov. Lieut. H. B. Ferris is retired. 12th Brigade, 90th (Newcastle) Battery.—To be provisional lieutenant (superannuated), Joseph Reginald Henry. 8th Signal Battalion, No. 8 Signal Company.—To be captain (quartermaster and transport officer), Lieutenant (Quartermaster and Transport Officer) R. C. Chandler. York Regiment (12th Bn. C. E. F.): To be lieutenant-colonel and to command the regiment, Major A. Sterling; vice Lieutenant-Colonel W. H. Laughlin, transferred to the Reserve of Officers. The undermentioned gentlemen cadet of the Royal Military College is granted temporary commission as second lieutenant in the Canadian militia for the period of his attachment to unit of the active militia during annual training, 1922, as stated: James Edward Gamon, The New Brunswick Dragoons. Capt. W. H. Hoyt, C. E. 1st (Brighton) Field Coy C. G., is granted leave of absence for period of six months commencing 1st September.

FOOTBALL TEAM TO BE REORGANIZED

An effort will be made to get together again the football team from this city which played U. N. B. last year and since a few members of last year's team are lining up this season with Trojans others will have to be secured to fill their places. It is expected that the first practice of the season will be held tomorrow. Arrangements are to be made today to secure grounds. It is hoped that former football players will turn out and help fill the vacancies in this team.

SACKVILLE HEARS RED CROSS CALL

On Tuesday evening a large and enthusiastic audience greeted Mrs. Kubring at Midon Sackville when an address was given on the great national programme of the Red Cross and the part being carried out in New Brunswick. Excellent slides were shown illustrating the subject. Mrs. Lawson Smith, president of Middle Sackville Red Cross, was in the chair and short speeches of appreciation were made by Rev. Mr. Price and others, all supporting the work of the Red Cross. The membership campaign is to be taken up soon and it is expected it will be as well supported as this section of the province always does in patriotic service.

The vice-president, Mrs. Black, entertained at luncheon for Mrs. Kubring, and at the tea hour the special workers of the Red Cross met with Mrs. Kubring in an interested conference. The ladies of Sackville proper also conferred with Mrs. Kubring and they are willing to assist in every way in their power.

FOR LIGHTS ON FARMERS' WAGONS

Toronto, Sept. 22.—That for their own safety all farmers' vehicles should carry lights at night, was strongly emphasized by various local motor leagues in Ontario, upon the parliamentary committee appointed for the purpose of consolidating the motor vehicle legislation.

LATE SHIPPING.

MISSIONARY WORK OF CHURCH OF ENGLAND IN CANADIAN WEST

Brantford, Ont., Sept. 22.—The responsibility of the missionary society of the Church of England is irrevocably pledged in regard to Indian, Eskimo and other mission work in the Canadian west, according to a statement at a meeting of the society's board of management here. Canon Gould read an address showing great growth in the society's membership and usefulness. He suggested new ventures and increased efforts. He expressed himself as opposed to an open wide policy of immigration as being detrimental to the highest welfare of Canada. He advocated the bringing in of the better classes amongst the population of the motherlands of Great Britain and Ireland.

NEW HARBOR CHART.

Two charts of St. John harbor and its entrances, with a lapse of 144 years between the times of their being made, hung side by side on the wall of the St. John Board of Trade rooms in Prince William street. One, a blueprint, was made in 1778, and the other, a finely scaled map, is the latest chart of the harbor, received only yesterday by the Board of Trade. The chief difference lies in the amount of information given, the former merely showing the harbor and its entrances with a general idea of the depths of the channels, while the new map gives soundings, a lay-out of the city and the positions of the buoys.

U. S. NAMES SPENS AS FUEL DISTRIBUTOR

Washington, Sept. 22.—President Harding today signed the administration coal distribution and anti-profitting, and the fact-finding coal commission bills. It was announced that Conrad E. Spens, vice president of the Chicago, Burlington and Quincy Railway Co., has been appointed federal fuel distributor under the new coal distribution and anti-profitting act. The new post carries with it broad authority to devise plans for movement of coal shipments. Mr. Spens was chief of the transportation division of the food administration during the war.

HALIFAX GOLF PLAYERS WIN AT RIVERSIDE

The Brightwood Golf Club of Halifax, defeated the Riverside Golf and Country club this morning in this morning's match on the Riverside course by a score of 29 to 9. The players paired off this morning for twosomes and this afternoon they will play four-ball fore-somes. The teams are as follows: Brightwood—Gerald Melke, Frank Melke, W. A. Henry, H. H. Baid, T. W. Rawlings, R. C. Smith, Col. J. L. McKinnon, M. McLeod, M. S. Clarke, W. S. Graham, J. G. Farquhar, Capt. H. F. Lindsay, A. Shatford, S. L. Currie, P. W. Murphy, Col. W. E. Thompson, C. C. Tyner and Col. J. W. Vidigo; Riverside: H. N. Stetson, A. S. Peters, Eric Thomson, A. C. Currie, S. B. Smith, J. U. Thomas, I. McCarthy, W. D. Foster, J. G. Harrison, L. W. Peters, C. H. Peters, W. B. Tennant, J. P. Barnes, Thomas Bell, James Murray, Ralph Robertson, W. C. Birrell and F. A. Thomas.

BRITISH TROOPS LEAVE IRELAND

Belfast, Sept. 22.—The Sussex Regiment left Londonderry this afternoon with its destination, it is understood, the Near East. An advance party of the North Staffordshire Regiment, the other battalion of which is at Constantine, travelled by the same steamer. The destroyer Wryneck, which has been anchored off Londonderry for some months owing to the border troubles, is under orders to leave immediately.

DE VALERA NOT ON PEACE MISSION IN DUBLIN.

Dublin, Sept. 22.—The Republican publicity department in Dublin declared today that a statement recently circulated to the effect that Eamon De Valera was in Dublin to negotiate with the Free State government, was a fabrication. This denial is borne out by information from Free State quarters.

1000 Eggs in Every Hen

New System of Poultry Keeping—Get a Dollar a Dozen Eggs—Famous Poultryman TELLS HOW

"The great trouble with the poultry business has always been that the laying life of a hen was too short," says Henry Trafford, International Poultry Year Editor of Poultry Success. "The average pullet lays 100 eggs. If kept the second year, she may lay 100 more. Then, she goes to market. Yet, it has been scientifically established that every pullet is born or hatched with over one thousand minute egg germs in her system—and will lay them on a highly profitable basis over a period of four to six years' time if given proper care. How to work to get 1,000 eggs from every hen, how to get pullets laying early; how to make the old hens lay like pullets; how to keep up heavy egg production all through cold winter months when eggs are highest; triple egg production; make slacker hens hustle; \$5.00 profit from every hen in six winter months. These and many other money making poultry secrets are contained in Mr. Trafford's '1,000 EGG HEN' system of poultry raising, one copy of which will be sent absolutely free to any reader of this paper who keeps six hens or more. Eggs should go to a dollar or more a dozen this winter. This means big profit to the poultry keeper who gets the eggs. Mr. Trafford tells how, if you keep chickens and want them to make money for you, cut out this ad and send it with your name and address to Henry Trafford, Suite 6211, Herald Bldg., Binghamton, N. Y., and a free copy of 'THE 1,000 EGG HEN' will be sent by return mail.

Jo-Bel THE WONDER SALVE (Registered)

Takes this opportunity of thanking those who during the Exhibition gave such glowing testimony of the wonderful relief which they personally had received from its use, one enthusiast saying: "Anyone with piles who knows about Jo-Bel and does not use it, is either a darn fool or does not want to get better, for it will cure it if used faithfully! I know!" Watch this space. Sale at druggists, or Jos. A. Minch, 137 Orange street, St. John, N. B. Price 50 cents and \$1.00. Mail orders promptly filled.

MINNEDOSA HAS 161 CHILDREN

Barnardo Boys and Girls for Canada—French Theatrical Company.

Quebec, Que., Sept. 22.—The Canadian Pacific 14,000-ton steamer Minnedosa, Capt. H. Sibbons, from Antwerp and Southampton, docked here at 12.45 this morning, bringing 471 cabin and 403 third-class passengers. Among the cabin passengers were 200 French Americans, also returned Canadians. The latter included Judge E. B. and Mrs. Russell of Halifax. In the third-class compartment, mostly composed of British immigrants who boarded the Minnedosa at Southampton, there were 161 boys and girls from the Barnardo homes in England. The Minnedosa brought out an unusually large assignment of Canadian mail, 1,800 packages.

Among the cabin passengers were members of the De Feraudy Comedy Company from the Theatre Comedie Francaise, Paris, who are here to make a Canadian tour and make their bow before a Quebec audience on next Monday night.

TORONTO SALESMAN TAKEN ON A CHARGE OF THEFT

Toronto, Sept. 22.—Investigation conducted by the police over a considerable period, regarding large thefts of butter and eggs from the Wm. Davies Co., culminated in the arrest last night of Albany Trouton, a salesman for the company, on a charge of theft, and George Way, on a charge of receiving stolen goods by Trouton. It is said some \$9,000 is involved.

Cardston, Alta., Sept. 22.—Fear is expressed that several Indians have perished in a prairie fire raging on the Blood Reserve near here. Property loss is already \$200,000.

Ironized Yeast Will Ironize Your Nerves

To Produce Great Natural Nerve Strength, Yeast Should Be Ironized and Not Merely Mixed With Iron. There is Only One Ironized Yeast in the World. Now, Mr. Man, tighten your fist and clamp your jaws tighter. Now lift your feet, as tight as you can. Notice how weak is the tightest you can get? A pack of Ironized Yeast body made it possible for you to do these two things. If you had still more vitamins, ironized, you could tighten your fist and your jaws all the tighter, and your feet would be as tight as iron. Ironized Yeast is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. Give your nerves the natural food-strength they lack. It is the most powerful reconstructive in the world today for tired, exhausted men and women. It is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. Give your nerves the natural food-strength they lack. It is the most powerful reconstructive in the world today for tired, exhausted men and women. It is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. Give your nerves the natural food-strength they lack. It is the most powerful reconstructive in the world today for tired, exhausted men and women. It is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. Give your nerves the natural food-strength they lack. It is the most powerful reconstructive in the world today for tired, exhausted men and women. THE PROPOSED HYDRO CONTRACT DISCUSSED

Considered at Length at Conference Yesterday

Many Questions Asked and Very Effectively Answered by Mr. Kribs—No Steam Standby in Any Part of Ontario Hydro Commission's System, He Explains.

The draft of the proposed contract between the New Brunswick Electric Power Commission and the city of St. John was considered by a joint meeting of members of the commission and the city council at a meeting in city hall yesterday afternoon and evening.

The chief questions under discussion yesterday were continuity of service, which the commission was willing to guarantee, the time for the operation of the contract to start, which is to be arranged by mutual agreement, and the question of to whom the city may sell current, which is to be considered later.

The meeting opened at 8 o'clock and continued, with a break of two hours for dinner, until 10:45 last evening. These present during the afternoon were Hon. Dr. Foster, premier of New Brunswick; Hon. Dr. E. A. Smith, C. O. Foss, Gordon Kribs, J. D. P. Lewin, Mayor McLellan, Commissioners Frink, Wigmore, Bullock and Thornton, with the common clerk and the city electrician.

In opening the proceedings, Mayor McLellan said that the city commissioners had gone over the draft of the contract between the city and the power commission. The city solicitor had seen the present and several changes were suggested in the wording of the contract.

Hon. Mr. Foster said he was present to go over the contract with the commissioners. It was decided to take up the contract section by section. Mr. Lewin read the sections. There was a discussion on whether the contract should say "electrical power or energy," "electrical power and energy," or simply "electrical energy." It was finally decided to have it "electrical power or energy."

His worship suggested a change in regard to the current to be taken by the city, but Mr. Kribs pointed out that the clause as it appeared originally gave the city greater leeway in regard to peak load. However, he saw no objection to accepting the mayor's suggestion. This was to reserve, deliver and supply to the city, as required by its electrical energy, at the option of the city, to an amount of from 10,000,000 kilowatt hours to 15,000,000 kilowatt hours per year. If 10,000,000 k.w.h. is contracted for it is to be consumed at a rate of 2,388 k.w.h. during a period of thirty minutes. If 15,000,000 k.w.h. is contracted for the rate to be 3,500 k.w.h. during a period of thirty minutes.

Mr. Kribs pointed out that the contract put the peak at 4,715 k.w.h., as the maximum and the city could go anywhere below that figure providing the power factor was maintained at 85 per cent. In answer to the mayor, the city electrician said the contract was the better arrangement for the city.

Commissioner Bullock wanted it understood that the minimum consumption would be 10,000,000 k.w.h. and the city would have to pay for this amount \$120,000, whether it was used or not. When the consumption went above 10,000,000 k.w.h. the city would pay at the rate of 1.2 cents.

Horse Power Basis. Mayor McLellan asked if there was any objection to the city buying on a horse power basis and Mr. Kribs said the commission preferred the plan submitted, but if horse power was to be the basis of payment a new contract would have to be arranged.

Dr. Smith said a change would have to be decided upon by the commission. The mayor suggested that the city should have the right to secure a greater amount than provided for in the contract, providing there was a demand for it.

made restrictions because other municipalities desired to do business direct with the commission direct. Mr. Foss said that if the commission took power and sold it to outside people and that power came through through the city station the city would be credited with it, if it was so desired.

At this stage the mayor read a circular to which he said was being circulated in Rothesay and which asked those desirous of securing power or light to fill out a form. This looked like competition for the city, should it acquire the lines of the New Brunswick Power Company.

Mr. Foss informed those present that the hydro commission had no knowledge of this circular. There was a movement on foot to give Fair Vale light, but the effort did not extend to Rothesay. There had been no offer to Rothesay households to supply current at four cents.

According to Mr. Frink, under the city act respecting hydro, it could not go to East St. John, Fairville, Lancaster, nor Rothesay. The act as originally sent to the legislature by the city was not so confined but had been cut down at the capital.

According to Mr. Kribs the Ontario towns were not allowed to build outside their own limits but the power commission built the lines and the cities could operate them. He wished to say that the whole hydro scheme here was a co-operative venture and the commission could copy the work of the Ontario body. The plan was to supply the citizens with light and power at cost.

It was definitely announced by Mr. Foss that the commission would not come into competition with the city in regard to electric current. Mr. Frink thought that some means should be available by which the city and county could work together so that there would be no need of maintaining two crews when one could do the work.

Mr. Lewin thought the city act would have to be changed if the idea of Commissioner Frink were carried out. There was a discussion of a technical nature over power factor. The question of supplying current to Westfield was also brought up by Mr. Thornton, but it was explained that if the cost of production was below the maximum every community taking current would benefit.

Premier Foster said it was the intention to have these small districts taking electric current incorporated for the purpose and they would eventually be on similar footing to St. John. Mr. Bullock asked if a fixed rate could not be given to St. John. He thought the exact price should be mentioned and not a maximum rate.

Premier Foster explained that the principal was to supply current at cost, and this could only be done by fixing an outside rate and lowering it when opportunity presented. It was shown that the suggested price was fixed on the basis of an expenditure of \$2,200,000. If the development should cost more the city would not be liable for a higher rate than 1.2 cents per k.w.h. The city was protected by the contract.

The scheme of financing was then explained, and it was shown that the cost of the plant and equipment was provided for. Mr. Frink said that although every citizen was generally interested in the scheme, the city had to figure out its own finances, and the government had to do the same for itself. He made some reference to collecting dollars and was taken to task by Mayor McLellan for throwing out insinuations, but Mr. Frink said that the mayor was visionary.

Mr. Bullock suggested that if the city were going into competition with the N. B. Power Company the lowest possible price would have to be quoted. Premier Foster announced that the commission could only discuss the contract on a 1.2 cent per k.w.h. as a maximum. The question of equipment for the city plant was brought up and the commissioners pointed out that they should be given a chance to approve the equipment used by the city in order to protect themselves. Details of this part of the contract are to be dealt with by the solicitors. It was thought by those present that with the suggestions offered the contract as so far considered could be made satisfactory to both parties.

Those present when the discussion was resumed at 8 o'clock were Hon. Dr. Foster, premier of New Brunswick; Hon. Dr. Smith, chairman of the power commission; Mr. Foss, member of the commission; Gordon Kribs, electrical engineer for the commission; J. D. P. Lewin, solicitor for the commission; Mayor McLellan and City Commissioners Bullock, Wigmore, Frink and Thornton.

In regard to when the city would begin to pay for the current, Mr. Lewin said this was a matter for negotiation, but the drafted contract left the matter to the commission under certain conditions. Premier Foster said the question could be settled before the contract came into force.

Mayor McLellan read from the Moncton contract and said that that city seemed privileged, but it was pointed out that Moncton was waiting for current and was different from St. John in that respect. In answer to Mayor McLellan, Dr. Smith said that if St. John were ready at present for current it could not be supplied immediately but Mr. Foss said it would be ready within ninety days.

Mr. Lewin added that under the terms of the drafted contract that would give the city at least 120 days before the commission could call for payments. Mr. Kribs thought that part of the current could be taken by the city within two months and that the amount could be increased gradually. In answer to Dr. Smith, Mayor McLellan said that the city owned at present a transmission plant in western and northern parts of the city but they were under lease and he did not know just what the terms were.

Dr. Frink said that if the contract were accepted it would mean that for a time at least the citizens would be under a levy for the amount due the commission for current. Mr. Kribs said that under the schedule of rates as suggested by him for consumers the city would be square with the account in three years, having paid up the deficit of the two preceding years. Under present conditions he understood that the power company was doing little to take care of the power load available here.

Mr. Kribs is to supply the city with figures showing how he worked out the rates he suggested. There was a discussion on the present service, which has been under consideration by citizens and reference was made to the costs and amounts of current used here. It was again pointed out that the current per capita used in St. John was less now than in other places while the cost was higher.

The matter of rendering accounts and the question of interest on arrears are to be discussed later. The question of a constant voltage and frequency was also discussed, and a leeway of ten per cent. was thought to be sufficient. Other matters of supply and distribution were discussed and the opinion of Mr. Kribs was secured on several matters.

Several sections of the contract were run over and appeared acceptable with slight re-arrangement. The solicitors and then brought back to another meeting of the parties interested. The steam standby question was brought up but there appeared nothing new in this regard, although the engineers assured the meeting that a steam standby was not necessary now. If such a thing were needed it could be built after the hydro system had been found wanting.

The mayor was strong for a steam standby and said he believed that the people generally were desirous of the guarantee for continuity of service. He brought up the names of many places in the province where service was the theme of a discussion, and it was thought that this matter could be left to Ontario and asked Mr. Kribs if these places had steam plants as a standby. Mayor McLellan said he was not afraid of slight stoppages in the service but he felt that the phrase "Act of God" might be made to cover "anything" and therefore he was trying to have every suggested cause of interruption of service fully provided for.

Mr. Lewin was sure that the commission would be ready to meet the city in these sections of the contract, which provided for continuous service. In answer to Mr. Frink it was said by Mr. Kribs that in case the plant of the power company were obtained by the city there need be no delay in turning the hydro current into the city. In answer to Mr. Kribs, Mayor McLellan said he did not know just what guarantee of continuity of service he desired.

Several legal points which might arise were here discussed, and Mr. Lewis said that the government was responsible for the contracts of the commission when the governor-in-council approved them. Other parts of the contract were passed over as being agreeable to both parties.

Section twelve prohibited the city from selling to other than bona fide consumers, but this was left to be considered by the solicitors and taken up again at a future meeting.

It was suggested that the term of the contract run for thirty years. It was decided to have the contract re-drafted by the solicitors along the lines suggested, and that another meeting be held on Tuesday afternoon at 8 o'clock to consider the revised draft.

Premier Foster thought the principle of current at cost should be adhered to, but if the representatives of the citizens of St. John thought this were not so they would have to take the responsibility.

Here's the Happy Way to Rid Yourself of Constipation PERMANENTLY!

Bran is the most wonderful health food known! Nine-tenths of human ills would be eliminated if all the people would eat bran regularly, because bran corrects constipation! Constipation can be blamed as the starting point of 90% of the sickness!

Physicians endorse the use of Kellogg's Bran for constipation. It is not only sure effective as a permanent relief if eaten regularly, but it is the ideal way to correct constipation through food!

Cuts Grease. One to two tablespoonsful in dish water makes the dishes spotlessly clean.

Waterproof and Easy to Clean. Gold-Seal Congoleum is waterproof, rot-proof, and germ-proof. A quick going-over with a damp mop makes Congoleum as clean and spotless as when new—its colors fresh and sparkling.

Lies Flat Without Fastening. No tacks, nails or cement are ever required to hold Congoleum in place. It literally "hugs" the floor and never "kicks-up" or curls at edges or corners.

Genuine, Guaranteed Goods. All the Gold-Seal Congoleum offered this week is fresh new goods. All of it carries the famous Gold Seal pledge of "Satisfaction or Your Money Back."

Only 2 More Days. Whether or not you intend to buy, you should by all means visit one of the stores and see for yourself the many beautiful patterns in which Gold Seal Art-Rugs are made, and their other wonderful advantages.

Popular Sizes—Popular Prices. 9 feet x 3 feet, \$4.50; 9 feet x 7 1/2 feet, \$11.25; 9 feet x 4 1/2 feet, 6.75; 9 feet x 9 feet, 13.50; 9 feet x 6 feet, 9.00; 9 feet x 10 1/2 feet, 15.75; 9 feet x 12 feet, \$18.00.

Gold-Seal Congoleum By-the-Yard—85c per sq. yd. In roll form, two yards wide, for use over the entire floor. Prices Winnipeg and points West proportionately higher to cover extra freight.

Displayed this week at all Departmental Stores, Dry Goods, Furniture and House Furnishing Stores throughout the city and vicinity.

CONGOLEUM COMPANY OF CANADA, LIMITED. Factory and Office: 1270 St. Patrick Street, Montreal, Que.

Why not a cheerful Gold-Seal Rug for your bedroom?

"I certainly like your new Congoleum Rug!"

There is a Congoleum Rug pattern for every room in the house.

WHEN the stores close on Saturday night, the big Gold-Seal Congoleum Week comes to a close. The displays of Canada's most popular floor-covering, that have been shown all week, will be withdrawn. Your opportunity to choose from complete assortments of Gold-Seal Art-Rug patterns and sizes will be gone.

If you have not yet had Congoleum in your home, you owe it to yourself to at least see what beautiful, sanitary, practical floor-covering you can buy for amazingly little money.

Of course you can buy these Art-Rugs at any time, but by making your purchases today or tomorrow you are assured of finding designs and colorings that suit your own individual taste, in exactly the rug-sizes you require.

Beautiful Patterns for Every Room. Gold-Seal Congoleum is famous for its beautiful patterns. You will find Oriental and Chinese designs in warm, rich tones for halls, living room and dining room—dainty flowered patterns that bring a fresh, bright look to bedrooms—and, for kitchen, bathroom and pantry there is a fine range of pleasing color combinations.

NEW YORK OUT ON BIRTHDAY DATE

Quaint Old Letter Cited to Prove That Tercentenary Celebration Should be in 1926

New York, Sept. 21—(Associated Press by Mail)—Out of the archives of 200 years ago, Hollanders have brought to light a letter with which the Netherlands Chamber of Commerce strengthens a claim that the celebration of the 300th anniversary of the founding of the New Amsterdam, now New York, should be in 1926, rather than in 1924, as tentative plans announced.

Here is the letter, with its quaint and brief description of the spot where now 6,000,000 persons live; where the assessed valuation is \$6,000,000,000 or \$250,000 an acre; where the exports are 100,000 times those of the year of its founding:

"Recap. 7 November 1626. High and Mighty Sirs—Here arrived yesterday the ship The Arms of Amsterdam which sailed from New Netherland out of the Mauritius River on September 23; they report that our people there are healthy and live peaceably. Their women also have borne children there; they have bought the Island Manhattes from the wild men for the value of sixty guilders, is 11,000 morgens in extent. They sowed all their grain in the middle of May and harvested it in the middle of August. Thereof being samples of summer grain, such as wheat, rye, barley, oats, buckwheat, canary seed small beans, and flax.

The cargo of the aforesaid ship is: 7,246 Beaver skins, 1,786 Otter skins, 675 Otter skins, 48 Mink skins, 86 Cat Skins, 33 Mink skins, 34 Rat skins.

Many logs of Oak and Nut wood. Herewith: High and Mighty Sirs be ye commended to the Almighty's Grace. In Amsterdam, Nov. 5, Anno 1626, Your High Mightiness' Obedient, P. SCHAGEN."

The sixty guilders mentioned, at the present rate of exchange, amount to the \$24 price of Manhattan known to every schoolboy; the "Mauritius River" is the Hudson, from whose waters, by the way, a giant air cruiser recently took flight for Brazil—the glorified descent, 300 years apart, of the little ship that carried "otter skins, rat skins, and many logs of oak and nut wood."

L. Witter Van Hoogland, secretary of the Netherlands Chamber of Commerce in New York, points out in recommending 1926 as the year for the tercentenary celebration, that the earlier settlers, contrary to the belief of historians of years ago, probably settled in Fort

Orange, now the city of Albany, while Manhattan remained a trading post until the group landed there as settlers in 1626.

GIRL AND FATHER HELD FOR MURDER

Latter Pleads Self-Defence; Former Charged as Accessory.

Kittanning, Penn., Sept. 22—Mrs. Vernie Shaeffer, 19 year old daughter of Andrew Davis, aged 87, who is under arrest here charged with the murder on Saturday of David Speer Moxon, aged 38, mine superintendent, and over whom the aged man is said to have killed Moxon, was lodged in the Kittanning jail on a charge of being an accessory before the fact in the murder.

Mrs. Shaeffer was arrested by Constable Thomas Woods in her home, at Vandergrift, Penn., where she resides with her husband and two young children. Mrs. Shaeffer, in a statement made to

Use the Want Ad. Way

the authorities, said she was at her father's home, near Kittanning, and that she was instructed by her father to go to the mine of the Beacon Hill Coal Company, near Ripper, and tell Moxon to come to the Davis home. Mrs. Shaeffer, according to the authorities, said she went almost to the mine, sent a boy the remaining distance to get Moxon, and then accompanied him part of the way back to her father's home.

Davis told the authorities that he was waiting to get a shot at a goosling near his home when his daughter appeared with Moxon out of a grove. Fearing that the mine superintendent was going to attack him, Davis called to him by stop, but he did not heed him. As Moxon rapidly approached, he raised his gun and fired. Davis stated that he aimed to hit Moxon below the knees, but that his shot went high and struck him in the abdomen.

"I had no intention of killing him," Davis said. He further stated that there had been a quarrel of some weeks between himself and Moxon, who he alleged had been paying unwelcome attention to his daughter.

WANTS NO WAR IN NEAR EAST

British Labor Favors Conference to Adjust Situation With Turks—"War Settles Nothing."

London, Sept. 22—Labor protests against the Government's policy in the Near East continue unabated. In a speech by J. R. Clynes (Manchester) at a dinner of the Municipal Employers' Association, he said: "It may be true that the trade of the world requires the freedom of the Straits, but this freedom could be secured without force, and can never profitably be maintained by gunboats without incurring the consequences of damaging suspicions and enmity for us in the Eastern parts of the world. A peaceful result can be reached by using a real League of Nations or by an immediate conference which would recognize the just claims of the dispute by agreement or arbitration."

"A friendly approach to Turkey would be immeasurably better than preparing for warlike action in anticipation of a Turkish attack," he continued. "In any case the endless conflicts due to war measures show that war settles nothing for anybody, and that the world cannot safely be trusted in the hands of those responsible for the conduct of affairs which has brought us near to another war before enjoying any recovery from the last."

BARBERS, BUT ONLY IN NAME

London Company Election Recalls Ancient Trade Guilds.

London, Sept. 4—(Associated Press, by Mail)—A reminder of the survival of the ancient trade guilds in London, long after their members have ceased to have any connection with trades they ostensibly represent, is provided by the election of Sir Samuel G. Sheard as chairman of the Company of Barbers for the ensuing year.

Sir Samuel never was a barber, and if any of his ancestors ever were he had forgotten it, and the same is true of all the members of the company. But they are very proud of the old traditions which the company once maintained, and got together on stated occasions to eat a generous dinner, washed down with good wine, and listen to speeches about the good old days.

The company is an ancient one. It was incorporated in 1461, and fifty years later an act was passed which prohibited any persons not members of the company from practicing surgery within seven miles of the city of London unless they had been licensed by the Bishop of London.

Barbers were versatile folk in those times, combining the evocations of surgeon and dentist with the work of trimming hair and beards.

BEAR MAULS MAN AND WIFE

Woman Loses Scalp When Tethered Bear Breaks Free.

Niagara Falls, Ont., Sept. 22—Hartley P. Upper, barrister, and his wife of this city are in a hospital here, severely injured after an encounter with a big bear kept on the farm of F. Kalor in Stamford Township.

Mrs. Upper, who is more seriously injured, had her scalp torn completely off. The Upper's drove out on a visit, and Mrs. Upper stayed out near the bear, which was tethered by a chain. He broke the chain and sprang on Mrs. Upper, hauling her and tearing her clothes and flesh. Hearing her screams, Upper rushed to her aid, and the bear turned into the house. Upper was also badly mauled and had his leg broken before the bear was shot.

50-YEAR ROMANCE

College Sweethearts of 1863 Renew a Broken Engagement.

Chicago, Sept. 22—A romance that endured through a half century came to a happy fruition at Evanston this week when Mrs. Ella H. Ellis, seventy-three of Evanston and Edward F. Fox, seventy-six of Albany, Ore., exhibited a marriage license.

They were sweethearts when they attended the Wheaton College together in 1868 and became engaged then, but Mr. Fox left to finish a college career at the University of Michigan and they drifted apart.

The wife of Edward Fox died in the west two years ago. When he came east he learned that Ella's husband, a Congregational minister, had died thirteen years ago. Then the college romance was renewed.

CONSTANTINOPLE

(Toronto Mail and Empire)

Liman Von Sanders, the German general with the Scotch name, who was commander-in-chief of the Turkish armies in the Great War, expresses the opinion that Britain cannot defend Constantinople against Kemal Pasha. Liman, like most other loyal Germans, is no doubt hoping for a Turkish victory should war be declared between Britain and Turkey, but he probably knows that Kemal would find the capture of the city a matter of great difficulty, if not impossible, especially since he could not reach it for a month. The British navy is now on the spot and with the troops that could be rushed to the front in a fortnight, could probably hold the Straits indefinitely. History shows that Constantinople is an easy city to defend. It has been attacked scores of times, but has fallen only three times. In each case it was forced to capitulate by the operation of armies on its European flank. Never has it been taken by an army advancing from Asia. Yet that is what Kemal must attempt if he makes up his mind to defy the British. The Peninsula.

The city with its suburbs is formed by two European and one Asiatic peninsulas. The European part consists of Stamboul, where stand most of the Turkish public and private buildings, and is the old site of Byzantium, which was captured by the Ottoman Turks in 1453. Pera contains most of the foreign residences, and at its tip is the commercial quarter of Galata. The Asiatic peninsula is Scutari. In some places the Bosphorus is only half a mile wide which leads a French expert to remark that the Turkish four-inch guns could command the European quarter of Constantinople. At some points the Bosphorus is too narrow to permit much freedom of operation to battleships, but at other

points it gives plenty of room for manoeuvring, and to prevent the Turks from bringing their guns to bear on Pera it certainly would not be necessary for Constantinople, especially since the heavy guns have a range of twenty miles or more. Should there be an attack it will be necessary for the Turks to advance along the peninsula that ends at Scutari, since being without a navy there would

able for them to advance in a straight line down the middle of the peninsula, they would not move a foot without being under the fire of heavy guns. It would be impossible for Kemal to transport guns heavy enough to answer the guns of the British warships over a country more fitted for the operation of goats than heavy field artillery. Being without ships, it would be impossible for the Turk to attack the city from the European side, the only side on which it had proved pregnable before. Moreover, there is the probability that if there is to be a fight for the city the British will throw up fortifications on the Scutari Peninsula and thus make still more difficult the advance. Many Times Attacked.

In past attacks upon the city the defenders have always had an army of manoeuvre on the Asiatic side, and on the occasions when the city has been taken it was the European flank that proved vulnerable. It has been assaulted by the Avans, Arabs, Bulgars, Varangians, Venetians and the Latin Powers of Western Europe. In the fourth century it was occupied by Constantine the Great, who changed its name from Byzantium. Early in the thirteenth century it surrendered to the Venetians, and the following year to the Crusaders, while the Turks captured it in 1453. Russia and Austria tried to take it in 1768-1807, and on three other occasions Russia tried alone, the last occasion being in 1854, when, had the city been seriously threatened, it would have been defended not only by the Turks, but by their allies, the British, French and Sardinians. Nearly Taken by British.

The Russian-Turkish war of 1877-78 resulted in Turkey being shorn of

Warning to Investors

HE AIMS TO MAKE HEALTH CONTAGIOUS

Methods at Mt. Sinai Hospital Health Class Explained by Dr. Wile, Its Founder—Treated Before Very Ill.

New York City boasts of being probably the only city in the world in which there is a Children's Health Class—an institution where children are inoculated against disease when disease does not

CARLETON CORNET BAND FAIR  
CURLING RINK, WEST ST. JOHN  
Commencing Saturday, September 23

27-9-22

even threaten them. An attempt is being made, in this new movement, to make health contagious, and thus far results have been highly satisfactory.

Dr. Ira S. Wile, well-known physician and associate editor of American Medicine, feels that many ills prevalent in childhood are preventable and that children ought to take pride in being

healthy. This health-spreading movement among boys and girls of which Dr. Wile is the founder is being tried out at the Children's Health Class at the Mount Sinai Hospital.

"Our work, which aims for an uncontrollable epidemic of health, is mainly preventive," Dr. Wile said. "The Children's Health Class differs from the ordinary clinic in that it gets the child before it is actually ill. The child may be only run down or weak. Since it has nothing organic the matter with it, the ordinary clinic, because of the very nature of its work, can do little for the child. Yet without the proper care and attention it will not be long before the child does really become ill. It is right here that the health class steps in, and without prescribing any medicine at all it takes the weak child and puts it on the road to health. At the same time the healthy child is taught how to continue in health.

"Experience has shown me that a great deal can be accomplished in the treatment of children without the use of medicine. I believe in the psychological approach and in the power of suggestion in the treatment of children. Not only the physical side of the child is taken into consideration, but its mental and moral habits are also looked into. Thus all the problems of childhood are being unified here. The child is studied as a human being in its own realm of life where not two children are alike. For each child there is an individualized treatment. After all, it is the child that is being treated and not the disease.

"The visitor to the Children's Health Class is particularly struck by the fact that it possesses an atmosphere peculiarly its own and unlike that found in an ordinary clinic. The waiting room is not a place of rigid discipline and formality, but abounds in cheerfulness and activity. Adults and children are free to move about as they please and are encouraged to interest themselves in the work going on, to study the educational material available, to compare gains in weight, to note the progress of other children, and to acquire the point of view that health is an asset worth achieving. A sense of beauty and joy prevails through an ample provision of books, games, toys, racing horses, a blackboard and the like, for the children.

Dr. Wile believes firmly in the humanizing element. Children at his class are never shot up alone with a doctor.

They are examined in front of all the other children and adults. What is said is for the benefit of all. Every mother in the room thus can learn preventive methods in respect to her own child.

The children are treated for all sorts of minor ailments. "Sometimes," Dr. Wile explained, "a mother will come to me and say, 'My child won't eat.' The home life of the child will then be gone into. The mother will be asked the kind of meals she prepares for the child. Or sometimes a worried mother will tell me, 'My child persists in lying.' The child is then taught the power of self-control as applied to the things he says. Another mother will complain that her child refuses to drink milk. We advise her to put the milk in an attractive container and to teach the child this little nursery rhyme:

Mistress Mary, quite contrary,  
What is it makes you grow?  
Lots of milk and butter and bread,  
Eggs and oatmeal and apples red,  
And vegetables all in a row.

The class, which is maintained by the Federation of Jewish Philanthropies, and to which juvenile New York is invited, meets every Wednesday afternoon from three to six. The average attendance is a little over eighty.

Discussing the children's clinic of the future, Dr. Wile said that it would be in the nature of a general clearing house for all conditions affecting childhood, and to which juvenile New York is invited, meets every Wednesday afternoon from three to six. The average attendance is a little over eighty.

"Its relations will be centrifugal to all organizations focussing their thought upon child welfare," said Dr. Wile, "in the sphere of influence affected will be the child's world. Childhood will then come into its own so far as it is humanly possible for any child to encompass necessities and progress of child welfare."

IS IT DREAM OF OCEAN TRAVEL BY AIR ROUTE?

Berlin Talks of Huge Airships to Travel 100 Miles an Hour and Carry 150 People.

Berlin, Sept. 2.—(A. P. by mail.)—Will the air over the Atlantic soon be roaring with giant floating palaces capable of making the trans-oceanic flight in sixty hours?

Some enthusiasts, who say definite plans are under consideration for monster trans-Atlantic air liners, are described in other quarters as mere "pipe-dreamers."

The proposed ships would each have a gas capacity of 110,000 to 150,000 cubic meters. They would tear through the clouds at the rate of 140 miles an hour, unless there was no urgent demand for speed, in which case they would slow down to 100 miles. Such a vessel would be 275 meters long, thirty-five meters wide at its greatest diameter, and thirty-nine meters high from the top of the gas-bag to the bottom of the body. The power would be provided by five motors of 800 horsepower each.

Its carrying capacity would be 90,000 kilograms, of which 40,000 would be required for fuel, food, etcetera, the remainder being for mail and passengers. The estimated passenger accommodations would allow for 100 fares in addition to a crew of fifty. The mammoth airships would be equipped with all possible comforts and conveniences, resembling in comfort the great ocean steamships now in service.

German gossip on the aerial possibilities of the near future does not rest, however, with the channels over the Atlantic. A prophecy is made that many years will not pass before the United States will have inaugurated a service between her mainland and the islands she holds in the Far East.

STEERAGE BALKY, HOLDS SHIP 5 HOURS

Fifty-six in Third Cabin Protest at Being Sent to Hoffman Island for Examination — Police Quell Near Mutiny.

A "mutiny" among steerage passengers on the Shipping Board liner President Adams held the boat at Quarantine for five hours because steerage passengers refused to obey the command of the inspectors of the United States Public Health Service.

A wireless call was sent out from the liner for the harbor police, and several of the largest men in the squads, under command of Acting Inspector J. L. Falconer, went aboard to enforce the rulings of the health officers. Then the liner was permitted to go to her pier to discharge her first cabin passengers from Cherbourg, London and Queenstown.

Despite the protest of the ship's doctor, G. T. McMaster, four passengers were put aboard at Queenstown who could not pass the examination and, he said, should have been sent to a delousing station before being permitted to board the vessel. When the ship arrived in American waters, the doctor found that seven additional persons had come in touch with the other four, and were ready for a delousing station on this side.

When he informed the boarding officers of this condition at Quarantine, they ruled that the eleven should be sent to Hoffman Island for vermin examination, and a search was made for the men. Ten were found, but the eleventh could not be located anywhere on the ship, although members of the crew searched every cranny.

Unwilling to let the man escape into this country without the examination, the inspector ruled that the entire steerage passenger list of 429 persons should be sent to Hoffman Island for examination, and they said that the alternative was to find the eleventh man, so that his companions could be released. The passengers were not able to turn over No. 11, and the inspectors and ship's officers ordered the steerage passengers to leave the President Adams and board the boat for Hoffman Island.

All complied, except fifty-six persons, who declared that the ruling of the inspectors should also apply to several passengers who had taken their meals in the first-class cabin, but had been forced to sleep in the steerage because

of lack of cabin accommodations. They said they believed that those passengers ought to be picked out of the 137 first-class passengers, and also required to go to Hoffman's Island for examination.

The officers thought differently, and still the recalcitrants refused to board the Hoffman Island boat. Then Captain J. Pendlebury put out his police flags and sent a radio message for the New York police. The police tug Manhattan went out to the President Adams.

Inspector Falconer made a short speech to the fifty-six steerage passengers. He told them that they could take their choice of obeying the inspectors and walking off the boat or being put off by his squad of big men. They walked off.

Some of those who were in the first-class lists but had been compelled by lack of accommodations to sleep in the steerage were Ernest Edward Schaefer, a Harvard student, whose father is in business at 315 Fourth avenue; Frederick Brokaw, an Oxford student, of 61 Fifth avenue, and Mr. and Mrs. Joseph Geary of 151 West Sixty-second street.

U. S. SUPPORT THE RESTORATION OF PALESTINE AS JEWISH HOMELAND

RING

Wolfe is Winner.  
New York, Sept. 21.—Jack Wolfe, of Cleveland, was given the judges' decision over Joe Lynch, of New York, at the end of fifteen rounds of slow boxing tonight. The New Yorker's title as heavyweight champion was not involved.

ATHLETIC

Man vs. Horse.  
Syracuse, N. Y., Sept. 22.—Allan Woodring, Syracuse University's star sprinter, will get a new test of speed today during the track meet which is to feature the state convention of the American Legion. Woodring will race eighty yards against a running horse. The horse, after years of service in thoroughbred races, starts from the mark and has been timed over the eighty-yard route in nine seconds, the time which Woodring at his best can equal. In fact, Woodring has stepped eighty yards in 8.5 seconds.

AQUATIC

Among the passengers who will arrive at New York on the S. S. Baltic, which is due at New York either Saturday or Sunday, is Sir Thomas Lipton, famous Irish yachtsman. The owner of the Shamrock is coming on a pleasure trip.

GOLF

Ladies Foursomes.  
Ladies foursomes were played at the Riverside Golf and Country Club links yesterday. Misses Helen Smith and Sarah Hare were the winners of the first prize, and Mrs. Campbell Mackey and Miss Katharine McAvity the second.

TURF

Races at Machias.  
A. G. Fenwick driving Hal Gentry won the 2:22 mixed event at Machias, Me., yesterday taking three out of four heats, best time, 2:22.1-4. The 2:15 mixed class was won by Little Peter in straight heats, best time, 2:15.1-4.

Grand Circuit Meet.

The defeat of Henry Direct in the Southern Hotel \$3,000 stake was a feature of the grand circuit meet held in Columbus yesterday. The event was won by Abbedale in straight heats, best time, 2:04.1-4. Peter Etawah won the Horse Review Futurity for three-year-olds, purse \$2,000, in straight heats, best time, 2:07.1-2. The 2:15 trot was won by Alta Quest, two out of four heats, best time, 2:07.1-2. Peck Direct won the 2:15 pace, taking two out of three heats, best time, 2:05.1-4.

Grand Circuit Today.

Columbus, Ohio, Sept. 22.—The free-for-all pace with only four starters featured today's Grand Circuit racing card. The entries are Jimmy McKerron, Roger C., Margaret Dillon and John

New Track Record.  
John R. Braden, from Presque Isle, captured the big Aroostook free-for-all at Bangor yesterday and not only vanquished his opponents but established a new track record. He won the feature event, purse \$3,000, in straight heats, best time, 2:09.1-4. Northern Mack won the 2:15 mixed race in straight heats, best time, 2:07.1-4.

summer," said Tilden, "but I do expect to go in 1924 and I think Johnston will go with me." Tilden said he talked it over with Johnston and seemed to think that two years hence would be a good time to make the trip. The champion said if the trip is made they would play in singles and pair up in doubles.

**YANKS HOLD LEAD; GIANTS LOSE GAME**

New York, Sept. 22.—By overcoming a five run lead and defeating the Detroit Tigers yesterday, 9 to 5, while the Browns were winning from Washington, 7-6, the Yankees today maintained their lead of three and a half games over the St. Louis club. It was the Browns' first victory in their last four games.

The Giants lost ground in their pennant fight when they dropped a second game to Pittsburgh, 6 to 1, and are now only three and one half games to the good. To make the pennant a mathematical certainty the Giants must win seven of their remaining eleven games. However, the Pirates, with eight games on their schedule, to nose out the leaders, must finish the season without a defeat while the Giants win only five of their games.

The Cubs and Phillies, and Cincinnati and the Boston Nationals split double-headers and Brooklyn won from St. Louis in other National League contests. In the American League, the Athletics defeated Chicago, 6-1, and Boston took a sweetest from Cleveland, 15 to 5, in the other games.

**BEIRUT JITNEYS THRIVE.**

Street Cars Boycotted for Excessive Fares.  
Beirut, Syria, Aug. 25.—(By mail.)—The public of this Syrian city is on strike against excessive street-car fares, and the local tramway company, instead of taking in \$800 a day, now collects not more than \$25 daily. Everyone is wondering how long the Belgian company that owns the trolley service can hold out.

The few short lines of the city are not more than a third the length of the lines in a city of similar size in America, and though the service is inferior, the fares are about double the American rate.

The public demanded a fifty per cent decrease, and, not getting it, a boycott of the system was started. For once the people have stood together. The first few days a very few people attempted to ride, but strikes and stones soon made the cars so unpopular that all desisted. A number of cars were pretty well smashed up by the hoodlums to run again. But the public stuck together, and the police were the only passengers.

Then the jitneys started up. Small American motor cars are doing a thriving business, and the car horses are getting thinner and thinner from long hours and little sleep. Although this state of affairs has continued for over a month, there seems to be no end in sight. Foreigners who pretend to understand the merits of the case, aver that the public is in the right and, if the present solidarity can be maintained for a few weeks longer, it would seem as though the company must yield.

### SEES BEGINNING OF A GREAT WAR

#### Turkish Situation Forecasts It, Says Writer

#### He Criticizes Italy for Lending a Hand to the Return of Former King Constantine to Greece—Kemal's Belief in Angel of Discord.

(By Frederick Cunliffe-Owen, C. B. E., in New York Times.)

Three hundred years ago, after a disastrous war, when peace terms were under discussion at the Sublime Porte, the reigning Sultan, with the co-operation and approval of the Sheikh-ul-Islam, ordered the following prayer to be recited at every sunset in every Mosque in all parts of the then vast Ottoman Empire: "May the Angel of Discord, who has always been our ally, come again to our aid, and confound our enemies."

That Allah has once more heard the prayers of the Osmanli, and has sent His Angel of Discord to sow dissension among their foes, is the conviction today of every follower of the Prophet. Just a little over two years ago Turkey, as one of the defeated powers of the great war, was subjected to the imposition of the Treaty of Sevres, which deprived her of the greater portion of her territory in Asia as well as in Europe, where it was agreed that she should be left in a sort of honorary possession of Constantinople, subject to international protection and suzerainty, which were likewise extended to the Straits of the Dardanelles.

The Sultan's government virtually made its submission. The Turks, like most other Moslems, are fatalists. When once they find themselves face to face with what they are assured to be inevitable, they settle down to it, and resign themselves to their lot far more readily and completely than almost any other race or creed. Kemal plays with them today as important a role as it did in the early days of their conversion to Islam many hundreds of years ago. This is a fact well known to those who have an extensive acquaintance with the Orient.

#### Accepted Losses with Resignation.

The Sublime Porte had accepted with resignation its loss of Greece, of Roumania, of Serbia, of Bulgaria, of Eastern Roumelia, of a considerable portion of Armenia, of Tunis, of Crete, of Tripoli, and of the Aegan Islands; also of Macedonia. Indeed, it is only fair to the Turks to admit that they would have held aloof from the Great War, and would have abstained from making any attempt to avail themselves of the opportunity to recover some of their lost possessions, had it not been for the irresistible pressure brought to bear upon them by the former Kaiser and the Berlin government.

Unfortunately, however, there were present at the Peace Congress of Versailles some delegates who manifested an inclination to lend an ear to those who, ignorant of the character of the Turks, argued that they would never submit to the terms imposed upon them as the penalty not only of their adherence to the cause of the Central Powers in the Great War, but also of the appalling atrocities of which they had rendered themselves guilty in pursuing their Teuton-abetted policy of exterminating the entire Armenian race and in subjecting the other Christian races of Asia Minor to the most cruel prosecution, spoliation, and massacre.

These delegates were powerless to sway the dominant forces at the Peace Conference in Paris and Versailles to mitigate the drastic terms of the Treaty of Sevres. But the fact that some dissension had existed among the members of the conference, exploited by German agencies and newspapers, and by the Lenin-Trotsky Junta at Moscow, encouraged certain Mosley outlaws to repudiate the authority of the Sublime Porte and of the sultan, and to establish a so-called Nationalist government at Angora, under Mustapha Kemal

Pasha. Prime Minister Lloyd George at the time demanded of the Allied Powers that they should join Great Britain in crushing this fellow murderer and cut-throat of the scullion-bred Enver Pasha, who has been recently overtaken by a relentless fate at Bolkara, in Central Asia, succumbing, like his other associates, Talat Pasha, and Djemal Pasha, to the hands of Armenian avengers.

#### Lloyd George's Warning.

He declared in a memorable speech in the House of Commons that if a man of the type of Kemal were permitted to overcome, or even adversely affect, the policy deliberately adopted under the Treaty of Sevres by the Allies with regard to Turkey, "Europe would miserably fall in her duty." He added that "Any sign of weakness on the part of England, France and Italy, and indeed of the entire civilized world, with regard to Mustapha Kemal Pasha, Enver Pasha, Talat and Djemal, as well as the Bolshevist friends at Moscow, would destroy entirely the prestige of the Occident throughout the length and breadth of Asia, and practically invite another world war upon the forces of Christianity and civilization."

Of course the governments of Great Britain and France were handicapped in dealing with this Kemalist insurrection of their people to resume the great war, which we had all hoped against hope had been brought to a long lasting close by the armistice imposed by Marshal Foch upon Germany at Compiègne, in the second week of November, 1918.

The armies of France and Great Britain were war-worn and eager to return to their homes and to their civilian occupations after their four exhausting years of hard fighting. They were so impatient for demobilization that the authorities had no alternative but to give way. And then there were the taxpayers who made their voices heard. Staggered under an utterly undreamed-of burden of imports, needed to pay the colossal expenditures of the great war, they were clamoring for economy and peace, and indisposed to lavish any further billions in their fight for the protection of their native land from the foreign foe, but in order to engage in a struggle in the Levant, in Asia Minor and in foreign countries.

Popular sentiment of this kind had already compelled Premier Lloyd George and his colleagues, the then Premier of France, to withdraw British and French troops from Russia and the restrict their support to the remaining forces of Lev and order there, headed by General Peter Van Wrangel, to military supplies and money, dispatched with as much secrecy as possible.

#### They Forgot Venizelos.

This condition of affairs became in due course well known at Moscow, and also by Mustapha Kemal Pasha and by his so-called Nationalist insurgents in Anatolia, also by their friends and federates at Berlin. It was upon this that they banked. But they counted without Eleutherios Venizelos.

As I had occasion to point out at the time, Greece was the one power of all others capable of extricating Great Britain and France, and the United States, from their difficulties with regard to the Ottoman situation, and I predicted that in the long run the Allies would have to have recourse to her in order to enforce their conditions upon the Turks.

But there was a certain reluctance, particularly at Rome, to give her a free hand in the matter. There was a disposition on the part of Italy to regard Greece's national aspirations and ambitions with apprehension. She was all very well as a power of purely secondary rank. By making her a mandatory of the Entente in dealing with the Greeks, that is to say, the mandatory forces, the time to reach and take possession of Smyrna.

King Alexander's Death. Then, when young King Alexander of Greece met with so mysterious and pre-

venture a death from blood-poisoning, said to have been superinduced by the bite of a monkey, in the confusion which naturally took place in Greece concerning the succession to the throne, which had long been in doubt, the government at Rome permitted and even promoted the sailing from Venice of ex-King Constantine, who had been deposed from his throne and deported from Greece by France and by Great Britain.

#### Greece's Strategic Position.

He showed that Greece was particularly well qualified for the task, being so to speak, on the spot, and as the next door neighbor to Turkey, in a position to dispatch troops and warships at the shortest possible notice to any point of what then remained of the Ottoman Empire.

She had already had several months previously an army of over 100,000 seasoned veterans occupying, and most successfully administering Smyrna and its immediate hinterland, in behalf of the great powers, and had it not been for the limitations imposed until then by the Allies upon the amount of Smyrniote territory held by Greece, her able commander, Generalissimo Paraskeuopoulos, would have long ago cleared Asia Minor of Mustapha Pasha Kemal and his then untrained forces, composed mostly of peasants impressed against their will into his service and anxious to return to their farms, and to have a Government that would protect their live stock and their products from seizure without pay.

But while England and France were thus working hand and hand, one power, namely Italy, failed in loyalty to her allies. To begin with: While in negotiation in Paris over the future of Anatolia and learning of the possibility of Greece being chosen as mandatory for the Entente at Smyrna, she secretly dispatched several steamships heavily laden with Italian troops and with arms and munitions to occupy that great seaport of the Orient before the Greeks had time to get there. It was President Wilson who on his own responsibility, but acting with the knowledge and approval of Premiers Lloyd George and Clemenceau, dispatched the American naval squadron in the Mediterranean to turn back the Italian convoy, forcing it to return, thus giving the Greeks, that is to say, the mandatory forces, the time to reach and take possession of Smyrna.

Matters were still further complicated by the discovery in Paris and in London that Italy was conducting negotiations with Kemal Pasha and the Angora Junta, behind the back of France and Great Britain, with a view to territorial concessions—a distinct and glaring breach of good faith.

#### Though Prayers Were Answered.

This served to convince Kemal Pasha that the liturgical prayers for discord among the powers of the Entente had been heard, and it encouraged many of his co-religionists of the more fanatic type, bent on the seizure of Greek and other Christian property in Anatolia, to join his ranks. It likewise caused many of the Turks at Constantinople, including princes of the imperial family, to look upon him with favor and good will. Indeed, there is no doubt that today the

Sublime Porte has completely receded from its former decision to accept the terms of the Treaty of Sevres. It cannot be denied that Kemal has been greatly encouraged by the activities of Moslem agitators, paid liberally with Bolshevist gold, in India, and by the promises of a general rising there against Great Britain, if it took any steps to suppress him or his movement; promises that were of the most exaggerated character and unworthy of all the importance accorded to them in England and in foreign countries.

There the situation rests today. Thanks to the Angel of Discord, who has so often saved Turkey from obliteration, as a plague spot or civilization, and as a festering sore of Southeastern Europe, the Turks of Kemal Pasha are again within sight of Stamboul, and literally at the gates of Constantinople. Gathered there for its defence are a large body of British troops, the latter

under Field Marshal Lord Plumer, and a considerable contingent of French infantry and field artillery, while the guns of the warships of both nations, now once more working in unison, at what Napoleon described as the Key of Europe, command the metropolis of the Ottoman Empire.

Meanwhile, Christian property, including that of the American missions, is being plundered, seized and devastated by the Kemalists in Asia Minor, and men, women and children of our faith are being exterminated. The situation is arousing the Christian in the southeast of Europe, especially in Rumania, in Serbia and in Greece, to positive frenzy and with the Greeks clamoring for the return of their great patriot-statesman Venizelos, and for the abdication or deposition of King Constantine, it looks as if we were on the eve of another great war, born of discord and dissension among the Allies.

#### ITALIAN COMMITS SUICIDE FOR VERY STRANGE REASON

Calgary, Sept. 22.—Leaving a letter in which he blamed his act on the police because, he wrote, they double-crossed him in a liquor deal, Luigi Filepetti, aged 45, an Italian miner of Lethbridge, committed suicide by shooting in a local hotel here.

#### Killed By Dynamite on Golf Links.

White Plains, N. Y., Sept. 22.—A large charge of dynamite in a rocky ledge on the links of the Scarsdale Golf Club failed to go off when expected, and Edward J. Durval, fifty years old, of 640 Hedy Place, the Bronx, foreman of the dynamite squad, went to investigate. He was within a few feet of the place when the dynamite exploded, and he was blown several feet in the air. He died in White Plains Hospital.

## Where Quality Means Most-Goodyear Tires are Used

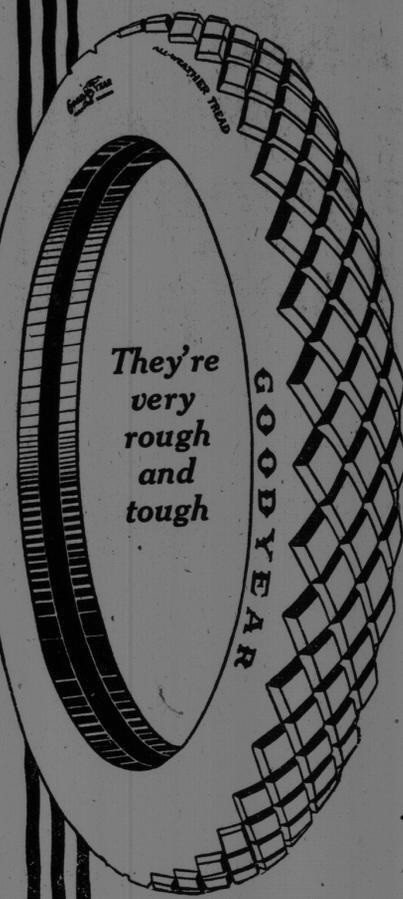

The man, who above all others needs to buy the best tires, is the automobile manufacturer.

The difference in price between Goodyear Tires and the cheapest tires would only amount to a few dollars per car.

But the difference in quality could easily ruin any car's reputation for tire mileage and trouble-free service. The reputation of his car demands that the manufacturer secure the best tires. A great majority of the automobiles built in Canada are equipped with Goodyear Tires.

Manufacturers who buy tires for thousands of cars find that Goodyears give the lowest cost-per-mile. You will find the same thing true of your car.

4000 selected dealers sell them  
A host of motorists use them

They're very rough and tough
