OPERA HOUSE HAS BIG VARIETY OF ACTS

Week-End Programme a Big Hit With Patrons—Capacity Houses Assured Today and Monday.

Town talk is largely about the snappy vaudeville bill now at the Opera House, every act is good and some of them headline quality. This fine bill will be continued today and Monday and will no doubt attract capacity business.

Edging, mystifies everybody with card tricks that seem impossible of accomplishment.

Dupree and Dupree actually waltz on bicycles, and do many other stunts that will fairly bewilder you.

Kincaid and Kincaid, a very clever pair of ventriloquist entertainers, present a novelty act entitled "Love Never Dies." Not only does Mr. Kincaid's work as a ventriloquist baffle detection, but both he and his wife have succeeded in creating an act that holds the interest and attention of the audience every moment they are on the stage.

Dell and Gliss are comely eccentric musical clowns. They are musicians, but not of the concert kind. They furnish fun and melody that any audience will appreciate.

Tommy Loneragan's Scotch songs and monologues are a lot better than the average in that line, and received hearty applause from last night's audience. Every act gets a warm welcome and deserves it. A special two-reel comedy and the British and Canadian News Weekly is included on this programme, which is easily one of the best.

Minard's Liniment Lumberman's Friend. CARAQUET PAINTER DIES FROM FALL. Caraque, Oct. 14—Honoré Godin died in the Tracadie hospital as the result of falling from a building on which he was working in this town. Godin was a painter and was unmarried.

TOOK KING FOR CHAUFFEUR. And Paris Detective Called Rouman's Ruler a "Lucky Dog."

Paris, Oct. 14—Three detectives in a fast touring car were sent to the Versailles gate by Prefect of Police Leullier to meet King Ferdinand of Roumania when he drove in from Tours the other day. It was quite dark when the royal automobile reached the walls of Paris, but the detectives spotted it, and one of them went up to the chauffeur and asked: "Is this the king's car?"

"It is," was the reply.

"Then, Sonny," said the detective, tapping the driver familiarly on the shoulder, "keep your eye on this red machine ahead and don't lose sight of it. We will take you straight to the king's hotel. You are a lucky dog to be driving a king."

Then, walking back a couple of steps to the window of the limousine and coming rigidly to attention, the detective saluted the occupant, who returned the salute.

"You are indeed a lucky man to be driving a king," said the driver of the king's car over his shoulder to the man in the limousine. "It enables you to sit on the cushion and let the king do his own driving."

The detective saw the story in the newspaper the next day, and went to the king's hotel to apologize. He returned 1,000 francs richer.

Ask for Minard's and take no other.

POLICE COURT.

George V. Parker was before the police magistrate yesterday afternoon charged with being the receiver of stolen goods, knowing them to be stolen. The thefts are alleged to have been committed from E. R. Taylor and the C. P. R. Detective Bliddiscombe gave evidence of the finding of the goods and of Parker telling him that he had received some of the goods from a man named Frew, who worked for T. H. Rastbury. Scott E. Morrell appeared for the defence. The accused was remanded until Tuesday afternoon.

James Thomas Spellman and Edward P. O'Brien were charged with robbery. W. M. Ryan appeared for O'Brien and G. Earle Logan for Spellman. Evidence was given by Bernard Boveas, with reference to the two accused having had liquor on the night of September 8. The case was postponed until Wednesday afternoon at 2.30.

The Evening Times and Star
ST. JOHN, N. B., OCTOBER 15, 1921.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

HON. MACKENZIE KING
Those who listened to the criticisms leveled against Hon. W. L. Mackenzie King at the armory on Thursday evening will not have long to wait for the answer. Mr. King is here to speak for himself and for the policy of the Liberal party.

The department of labor reports from five thousand Canadian firms show considerable improvement in the employment situation during September. And this despite Premier Meighen's woeful picture of employers shuddering at the brink through fear the tariff would be destroyed and with it all hope of keeping their plants in operation.

Mr. C. H. Caban, N. C., at one time Conservative leader in Nova Scotia, declares his conviction that the tariff is not the vital issue in the campaign, and the Montreal Star doubts that a successful campaign can be conducted on the principle of crediting the Liberals with a platform which they repudiate.

If the Irish negotiations will permit Mr. Lloyd George will come to the Washington conference. It will be most unfortunate if he is unable to come, for his influence on behalf of disarmament and continued world peace would be strong.

Vessels are leaving Montreal without grain cargoes because grain is not being sold. It is there to ship, but is not wanted for immediate shipment. This should mean larger shipments through St. John next winter. It should also mean cheaper flour in Canada.

There is no money at Ottawa to provide needed grain conveyors at St. John. All we get is a promise, and it will not load a ship.

Better Not Do It.
It is reported that the billboards all over Canada are to be covered with "the Old Flag" as part of the election appeal of the Conservative party.

Those who are opposed to prohibition are eager to find evidence that the law is not enforced, and they profess great disappointment that the law is not universally observed.

It is said that Mr. James Murdoch is likely to be the Liberal candidate in South Toronto. Mr. Murdoch is an outstanding representative of labor, and has announced that in his opinion the interests of Canada demand that a Liberal government assume the reins of power at Ottawa.

Moncton Transcript: It is not surprising that the rest of Canada is executing the Maritime Provinces to go strongly Liberal.

John Alcohol, my Joe, John, When first we were acquaint, I had money in my pocket, John, But now, you know, I have it not, I've spent it all in treating you, Because I loved you so, But mark how you have treated me, John Alcohol, my Joe!

IN LIGHTER VEIN
A husband, having offended his wife, came home on the evening of the quarrel with a package under his arm.

"Richard," said Mrs. Nagatem, "your manners are getting worse. Today at Mrs. Smith's I saw you take your handkerchief and wipe off the chair before you sat down."

A burglar was marrying an elderly couple in the country. All went well until he required and charged them both that if they would not marry him, they might not be lawfully joined together in matrimony were they to confess it.

ELECTIONS IN THE MARITIMES

Review of Figures of Other Federal Contests in N. B., N. S. and P. E. I.

Halifax, Oct. 14—(By Canadian Press) Only one occasion that of the first general election in 1867, when resentment against confederation dominated the political situation in the east, has Nova Scotia returned a majority of its members in opposition to the government of the day.

RAY FAILS IN EFFORT TO SET WORLD'S MILE RECORD

Toronto, Oct. 15.—Jolie Ray of the Illinois Athletic Club, Chicago, failed in his attempt to lower the world's one-mile record. He ran the distance, paced by four men, in 4 minutes, 32.3 seconds, against a stiff wind, which impeded him in the back stretch. The run was staged as a feature of the 100th birthday of the University of Toronto. The record is 4:12.3-4, held by Norman Taber.

Rug Announcement

You can NOW buy Rugs and Carpets with a confidence that you are getting as good values as will be offered for a long time.

The reason is this:—The Carpet Association of Great Britain at a recent meeting unanimously decided on establishing a price 22 1-2 to 25 p.c. lower than the one then existing, this price to hold firm until the fall of 1922.

This fact has warranted us buying New Rugs for immediate delivery and to place extensive orders for early spring. We have already adopted the new price schedule throughout our carpet department and there can be no further advantage, so far as price is concerned, of delaying your purchases.

We are showing new designs in all sizes of Axminster and Wilton Rugs, Hall Runners and Hearth Rugs.

The rug to fit in with your color scheme is here.
Early selection, while assortments are complete, will be to your advantage.
(Carpet Dept., Germain Street Entrance.)

Neckwear That Intrigues the Fancy

In delightful contrast with furs and heavy fabrics comes the new neckwear. Attractive laces are cleverly fashioned to achieve delightfully becoming collars. These are in tuxedo or shaped styles made from heavy laces such as "Spanish" Carrickmacross and others.

Showing in white and ecru.
Drawn work Collars, Cuffs and Vests are also especially noteworthy and are in a nice selection of very dainty pieces.

The New Long Costume Tunics

Tunics are one of the details of fine dressing to which much attention is paid nowadays. These new tunics are extremely chic, fashioned from black or navy blue crepe-de-chine, satin or Canton crepe embellished many times with colored beads or silk embroidery. They are in long lengths falling almost to the knees and are caught in at the waist with novel girdles or belts.

One especially attractive black crepe-de-chine tunic has half sleeves and band of very fine black silk net.

FOUR SAW THEIR WAY OUT OF JAIL

Belfast, Me., Oct. 15.—Four Boston boys, committed to jail last week, broke out and made a getaway on Thursday. They are known as the Boston quartet, and are William J. Scannell, Joseph Gorey, George Darragh and Arthur Digan. With the exception of Darragh, who is serving ten months, the boys were committed for eight months each, having pleaded guilty to the theft of an automobile in Belfast, June 18, since which time they have been in jail here. Darragh has made two other unsuccessful attempts to break jail.

The boys sawed the bars from their cells and from a window at the back of the jail. A hack-saw was found near the window. It is believed they had outside help as no possible trace has been found of them up to noon today. Their absence was not discovered until this morning at breakfast time. The four other occupants of the jail claim to know nothing of the break.

The quartet is also wanted in Bangor for breaking and entering and for the theft of an automobile, to which they have confessed. They came here from Bangor with stolen plunder and said that they were on their way back to

JERSEY WOMAN ATTACKED.
Screams Near Montclair Indicate Third Case—No Clue to Victim.

Montclair, N. J., Oct. 15.—The police of Montclair and Cedar Grove are co-operating in a search for a well-dressed young man who has spread fear among women who traverse a lonely path between the two towns. The man has twice threatened death to women he met on the trail. He seized one by the throat, brandishing a pocket knife with open blade, and took \$20 in bills and some small change from her handbag. The woman went to a nearby quarry and the police were summoned, but no trace of the man could be found.

SIMPLE HAIR DRESS FOR LYNN NURSES

Lynn Hospital Discharges Two of the Staff. Lynn, Oct. 15.—It was learned that the two student nurses who were discharged several days ago from the Lynn City Hospital here dropped because Supt. Vera Allen of the nurses objected to their personal appearance while on duty at the hospital, particularly as regards their coiffure. As a result of the disclosure many of the remaining nurses are uneasy as a large number of them have permanent hair waves and other "not simple" ways of arranging their hair. In explaining her action Miss Allen said: "The modern hairdress, including the Elsie Ferguson style and the elaborate car sides are not allowed in the hospital. The nurses' hair must be neat, plain and becomingly combed. The coiffure of the nurses at the Lynn Hospital has always been simple until these two nurses tried to introduce the so-called 20th century style."

MAY USE AIRPLANES TO GO TO NORTH POLE

Capt. Amundsen, South Pole Discoverer, Engages Norwegian Aviators.

Seattle, Washington, Oct. 15.—Captain Roald Amundsen, discoverer of the South Pole and conqueror of the North Pole, will use airplanes in an effort to reach the North Pole, if present plans for drifting past the top of the world prove impracticable. H. H. Hammer, his representative here announced, Captain Amundsen has already obtained the services of two Norwegian aviators who will sail with his ship, the Maud, when it leaves Seattle next May to resume its interrupted northern trip, according to the announcement. The two planes to be used in the

expedition are expected to arrive here early next year.

The explorer's original plans for the expedition, which is operating under the auspices of the Norwegian Government, called for a five-year drift with the Arctic ice pack. The Maud left Norway more than two years ago, but last year lost a propeller in the ice off the north-eastern Siberian coast and was brought to Seattle for repairs.

Mr. Hammer said the decision to use the planes would not alter Captain Amundsen's plan for drifting with the Polar ice pack.

A tramp was brought before the judge in Presque Isle, Me., and fined \$10 on the charge of vagrancy. He pleaded that he didn't have a cent and couldn't possibly pay, but when he heard the sentence of 30 days in jail he pulled a roll of \$18 from his stocking and paid.

OPTIMISM KEYNOTE OF ADVERTISING MEN

"Business is Improving" New Haven Greeting.

New Haven, Conn., Oct. 15.—"Business is improving," was the greeting given by the executive committee to the members of the New England Advertising Club convention which opened here this week.

There were welcome in behalf of the city and by John L. Demarest, chairman of the general committee. Members were told what they were to have in the way of dinners, luncheons, theatrical parties, sightseeing trips, and finally a trip to the Yale Bowl Saturday to see the Williams game.

The subject of "advertising" will be kept to the front, morning, afternoon and evening until late Saturday. The keynote: "Ethical advertising will help business study it, make it, use it," was sounded by Charles H. Mackintosh, president of the Association Advertising Clubs of the world, at the first general session.

The trophy cup for the largest number with the greatest mileage to their credit appeared to be within the grasp of Providence at noon, with Portland, Me., looming up as a contender.

AUTHORIZE SALE OF PROPERTY

Three inspectors were appointed at the first meeting of the creditors of the Dalhousie Mercantile Co., Ltd., held yesterday afternoon in the offices of the Canadian Credit Men's Association, to which the company made an assignment on October 4. The trustee was instructed to dispose of the property and fixtures by private sale or by tender and apply the proceeds in satisfaction of the various claims. E. M. Smith was elected chairman of the meeting, and Frank Whelpley was elected secretary.

The Fowler Company
At a meeting of the creditors of the Fowler Milling Co. held yesterday afternoon, power was given to the trustees to dispose of the property. When this is done, another meeting will be called and the proceeds apportioned among the creditors.

PENNSYLVANIA TEA CROP.

Several Counties Supplied With Home-Grown Leaf.

Reading, Pa., Oct. 15.—It is not generally known that Pennsylvania has a tea crop indigenous to the Blue Mountain region near here and which largely supplants the use of the Oriental tea in several counties of this section. The crop is now being gathered and tons of the tea are being picked and dried for winter use.

The soil, where this little-known product of the Keystone state grows, is rocky, but there is plenty of moisture. The plant closely resembles Chinese tea. The leaves are long and slender and of a dried green color. The beverage, prepared from the dried leaves in the same manner that ordinary tea is brewed, is said to be mildly stimulating and rich in medicinal properties.

CANADIAN WOOL TRADE

(Montreal Gazette.)
Low medium, low combing and coarse staple wools continue difficult to move and large supplies are available on all markets of the world. It is estimated that large quantities of cross-breed wools will be offered in Britain during the next three or four months. Some doubt is expressed as to whether recent advances will be maintained. On the other hand, with more machinery operating and with a relatively small supply being offered of the medium and merinos, it is expected that recent advances will be well maintained for finer wools. Business in Canadian wools continues brisk with prices running from 18c to 20c for fine medium staple and from 9c to 10c for coarse staple.

Fifty Dollars a Month

(Guaranteed to you by the Canada Life)

How Fifty Dollars a Month looks to the Average Man

Age 20—Happy on Fifty Dollars a month.

Age 21—Fifty Dollars a month is not enough.

Age 35—Thinks he can easily afford to spend Fifty Dollars a month.

Age 50—Things are not going as well as they were.

Age 55—Strange how these assets have depreciated. Fifty Dollars a month is good interest on \$10,000, and not to be despised.

Age 60—He finds Fifty Dollars a month pension, added to what income is left, brings happiness.

Why Not Pension Yourself?

Why not "take stock" of your present financial position—to size up your personal affairs and decide on a plan for the future?

Our New Pension Plan

guarantees that upon reaching a certain age in life, you will receive a monthly cheque for \$50.00, \$100, \$200, \$250—as you may now decide—and this monthly payment cannot cease as long as you live.

An Income for Life

Think what it may mean to you to be certain of an income right up to the end of life, when you consider that 97% of people in their later years are partially or wholly dependent upon others for support.

And This is Not All

Suppose some day before you reach age sixty you meet with a mishap and become totally and permanently disabled through accident, illness or any cause. (Such a thing has happened soon after men have secured this new policy of the Canada Life.) Immediately, the payment of further premiums would be cancelled. The Canada Life would become responsible for sending you \$50.00, \$100, \$200, \$250, a month, as arranged, for the rest of your life.

"DANDERINE"

Grows Thick, Heavy Hair
35-cent Bottle Ends all Dandruff,
Stops Hair Coming Out

Ten minutes after using Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. Danderine is the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping the hair to grow long, strong and luxuriant. One application of Danderine makes thin, lifeless, colorless hair look youthfully bright, lustrous, and just twice as abundant.

**"AND BING-HAM

Visitor from the Land of Liberty Insisted on Being "Pinched."

(Montreal Herald.)
A man from Brooklyn, answering to the name of Thomas Bingham, gumshoed into headquarters one night this week, and after going mysteriously around asked a cop in a hollow voice to be introduced to someone in authority, as he had important news to divulge that required the utmost secrecy.

Friend constable, sensing some Sherlock Holmesian mystery, hastily eased the stranger to the innermost sanctum

of the police, where he was taken in tow by Sergeant W. Lamont. "My name is Bingham," said the guest, "and I come from Brooklyn. The gang is laying for me because I fell down on a job that they sent me out to do. I'm off those guys for life, for it didn't help me any when I got hithead to a German Jane. Say, Chief," wound up the self-invited guest with a whimper, "Put me in the coop. I want to be pinched."

While Bingham was spilling his tale of woe, several of the detectives casually gathered around, and after giving him the once over came to the conclusion that he was either a snow bird, a needle juggler, or plain nut, and when he was searched a few minutes afterwards their suspicions were confirmed, for he was found in possession of a packet of cocaine and the usual outfit that a "dope" generally parks around in his clothes.

Inspector Lamont was puzzled, for his self-inflicted prisoner assumed an appearance of normalcy on every subject but his favorite obsession. The inspector brought Bingham up before the recorder charged with having drugs in his possession, and when the latter heard the charge read he immediately told the recorder that he was guilty and the sun would be shining on both sides of the street if he was sent to jail immediately. When the recorder remanded him until Friday for trial he was delighted, and told his friend the inspector that his period of enforced leisure was the best thing that could happen to him.

**ELEVEN ARRESTS

Boston, Oct. 15.—Eleven men, believed to be members of a gang of counterfeiters working along the Atlantic coast, have been arrested at Norfolk, Va., and Charleston, S. C., within the last twenty-four hours. Inspector Hobart of the treasury department staff yesterday informed Judge Hayden in Roxbury district court. He said most of the informed paper consisted of \$1 bills, shrewdly marked by the addition of a cipher at the corners.

**BRITISH NAVY
AGAIN ADOPTS
BADGE SYSTEM**

Symbolic Device Found of Great Benefit in Army for Many Years.

London, Oct. 15.—The Royal Navy, during the war, represented no fewer than 6,000 vessels, ranging in size and importance from the Queen Elizabeth down to drifters and trawlers. Since the war this number has been reduced to something like pre-war proportions. There are now approximately 500 vessels in His Majesty's navy, and about 250 of these are to have a special and official badge or device which is approved by the admiralty. About 240 of these badges have been designed by Major Charles Foukes, and castings and brass castings made of them.

Since the middle of the nineteenth century warships have been distinguished by badges, but none of these, were officially recognized and systematized. They were, as a general rule, the private badge or a magical image or device which the fancy of the ship's commander. A change in the command almost invariably led to a change in the ship's distinguishing mark or device, and it sometimes happened that two ships were carrying the same badge, and the different badges had been known to be used by one ship. This led to great confusion, and what was of greater importance, the tradition of the sea service was not always enhanced through the insignia adopted.

Bushy devices, and mottoes have intensified esprit de corps in the regular army to such an extent that the corporate symbol which has been known to the officer more honored than the ancestral arms, while to the private soldier it has been a regimental talisman.

It has been laid down that where actual names of ships will not admit of symbolical treatment, some portion of the heraldic bearing of the most celebrated commander of a former ship of the same name should be employed. In the case of ships bearing the names of individuals the same course is followed. The Torbay has a bugle for its badge. This represents the landing of William, Prince of Orange, at Torbay, in 1688. The Stadacona has a purely symbolical device—a lighthouse. Tactician takes a chess knight, to suggest tactics. The Sterling is supposed to take its name from an officer named Sterling, but the spelling has been altered, and the badge is a E. Sesame, again, has a key as a badge, and the ships named after cities take city arms.

**CHINESE HIT BY
UNEMPLOYMENT**

Contrary to Usual Practice, Could Not Pay Fines in Montreal Court.

Montreal, Oct. 15.—That the unemployment question and the high cost of living have struck Chinatown and its 6,000 members was forcibly brought to the attention of Court House attaches. Eleven Chinese caught in a Lagachelle street raid last Sunday night appeared before a judge, and six of them admitted they were either smoking opium or had the drug in their possession. Five others, among whom three were being held as keepers, pleaded not guilty, and a bail bond of \$25 was asked for their liberation pending the trial.

OVER THE HILL

QUEEN SQ. THEATRE

ONE WEEK

Commencing Monday

Doors in Allen theatre, Montreal, smashed by over-anxious crowds waiting to see this wonderful picture which broke every photoplay record on Broadway, where it played for an entire year.

"Its capacity for tears, rapture, and sincere applause, spontaneous laughter, is unlimited. It is so true, so vividly, yet simply told, that it impresses upon your memory as the highest spot yet reached in filmdom." What the critics say would fill pages.

Mary Carr as the Mother in "OVER THE HILL" William Fox Production

The principal character of our story is a mother—a sweet, wholesome little old personage, who, like every other mother that ever lived, is made the recipient of all the joys and sorrows—particularly the sorrows—of her little flock.

We recommend "OVER THE HILL" to you with the previous knowledge that you will be pleased and astounded at the picture.

All over America, the press and their most famous critics have recommended "OVER THE HILL" so highly, there is hardly any necessity to state that the picture is too fine, too human and too tender to miss.

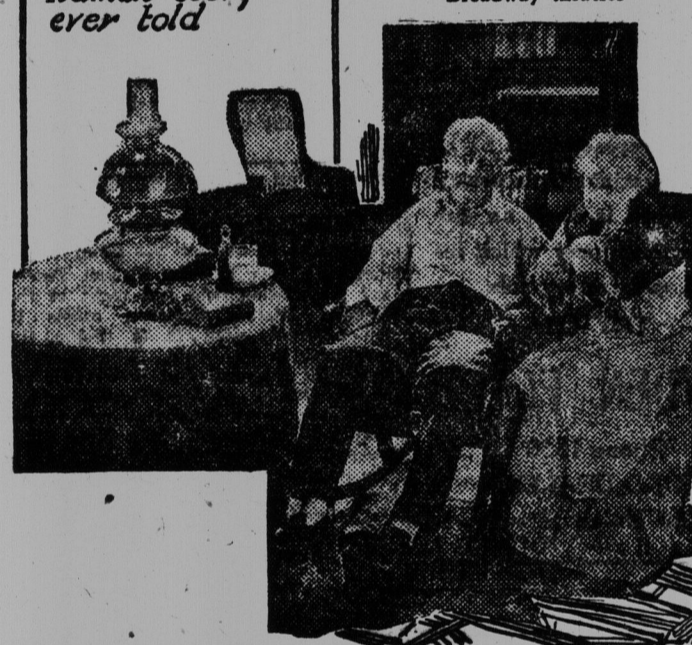

It is our pleasure to invite you to view "THE GREATEST PICTURE EVER SCREENED."

authorities with automobiles to cross the sand and climb up and down the sharp undulations. A plan has been elaborated by Engineer Kerzesse to cross the African desert from Touzourt, at the southern terminus of the Algerian railroad, to Bourour, on the Niger, two hundred and fifty kilometres east of Timbukto, via In Saleh, Tamanrosset, Timassouta and Kidal. The total distance of 3,000 kilometres.

Kerzesse intends to make the trip with six automobiles. He expects each car to make about 200 kilometres daily, so that the complete journey will take fifteen days. Each car will carry 600 litres of gas. Experiments carried out under conditions far more difficult than those pertaining to the desert have given entire satisfaction. The cars are of the caterpillar type with a rubber band invented by Engineer Hinson. If successful, it will mean the establishment of road communication throughout the whole French African empire, which is enormously important for its future development. The strategic importance is also considerable, which explains why the military authorities are so closely watching the experiment.

Pushing a wheelbarrow, painted a vivid green, laden with paint brushes, buckets and a 19-months-old child, and followed by his wife, carrying a 2-months-old child in her arms, J. S. Leddy of Argos, Ind., has set out for Florida in order to better his health. The doctor advised him to make the change, and not having money enough to travel in trains, he is going to walk the whole distance, picking up small sums by painting names on mail boxes along the way.

BIG LIBERAL RALLY HELD AT SUSSEX

The Liberal tariff policy of "tariff revision based on the needs and the interests of all the people rather than of the privileged few" was dealt with by Hon. W. L. Mackenzie King, leader of the Liberal party, at two crowded meetings held in Sussex last evening.

Government with wrong-doing in creating this board from among its own friends and giving it control, and shielding it from all questioning by parliament the people.

WEDDING OUTFIT FOR WHOLE PARTY TAKEN BY THIEVES

New York, Oct. 15.—High society of the lower eastside yesterday was ruefully contemplating the alternatives of calling off festivities incident to its first "classy" wedding of the season or going through with it minus all its provincial parade of evening gowns, claw-hammer coats and "three gallon" hats.

For thieves, ignorant or needless of the Ghetto's inflexible rules of nuptial propriety, last night stole the works—forty-three gowns, twelve bridal costumes, including veils and thirty-four full dress suits—from Bennett Michaelson, purveyor of such to the district.

And now, the thieves caught, an almost equally unfeeling magistrate has impounded the real as evidence.
