Mass Meeting Called for Friday Evening to Consider Labor Situation.

(From Thursday's Daily.) The Victoria Trades and Labor Council will not act in conjunction with the local branch of the Dominion Lord's Day Alliance in their effort to prevail upon the provincial government to enforce the Dominion Act. This came as a result of the reading of a letter from the secretary of the council to appoint the delegates to a committee, which will wait on Premier McBride to-morrow.

On Friday evening next a mass meeting will be called in Labor hall. The meeting will discuss the labor situation in the province, and a motion urging the government to appoint a commission to consider the matter will be presented. The mass meeting is held under the auspices of the Laborers' Protective Union.

A. R. Sherks as delegate from the Laborers' Protective Association, submitted a copy of the resolution to the meeting. It was prepared by a special committee consisting of John Sullivan, A. S. Sherks and William McKay. It was unanimously decided that the members of the council should attend the meeting in a body and do their best to make it a success.

NEW INDUSTRY IS FAIRLY LAUNCHED

Motor and Boat Building Establishment Sees its Formal Opening Yesterday.

(From Thursday's Daily.) Messrs. Hutchison Bros. Company, Limited, are preparing to conduct an extensive motor and boat building establishment on Work street. They intend to close the works on Broughton street at an early date and transfer the machinery to the new shop.

greatly lower the time occupied in heating the metal. D. C. Hutchison will have the entire management of the new works. Robt. Hutchison will be electrical engineer. J. T. Adams will be in charge of the foundry of the eastern department. A. B. Boyd will have charge of the machine shop.

The boat building will be in charge of H. C. Graham, who has been brought from the east for that purpose. His department will make a specialty of what will be known as motor boats. The garage containing twenty boats will be under test proved very satisfactory. One of the features of this boat is the system of double ignition, thus giving an increased reliability and power for the size of the cylinder. The new engine which was designed for a test three horse power machine in actual test developed four horse power. Local engineers who have seen it in operation are enthusiastic in its praise.

Negotiations with the Dominion government with respect to which it is hoped to secure the waterfront privileges. If these are successful a motor boat building plant will be constructed. The shop on Broughton street is to be turned into a motor garage, filled with the latest appliances for their renovation.

DEPUTATION MEETS CIVIC OFFICIALS

The Grievances and Wishes of Victoria West Brought up for Consideration.

(From Thursday's Daily.) A deputation from Victoria West, headed by Ald. Hall in his unofficial capacity, last night waited on the mayor, the city engineer, the streets, bridges and sewers committee and various other civic officials, with a view to settling the troubles of Victoria West.

It was discovered on a close comparison of the two maps of the district—that the difference between the two surveys was not so great as had been at first imagined. In one place only—near the Indian reserve—was there any great discrepancy, and here it is proposed to adhere to Ralph's map. This part is not very well settled, and the adherence to the one map will work no hardship to any one. Ralph's map will be followed in laying out the streets. To show the people what can be done on the local improvement plan, it was decided to lay out Katherine street on this system. This will necessitate a certain amount of expropriation, but the only piece of property which it will be necessary for the city to acquire will be the Grove saloon. This street will be made a uniform width throughout, graded, macadamized and provided with sidewalks and boulevards. In fact it is planned to do it up in nickel and dime.

The council was asked to instal a light in the rock cut between Victoria West and the trestle, where the recent hold-ups occurred. The deputation further requested that a waiting shed be erected at each end of the swing bridge in inclement weather, while waiting for ships to pass through.

INVESTS IN SHOAL BAY ACREAGE

FORTY THOUSAND DOLLAR TRANSACTION

Calgary Man Shows His Belief in Future of Victoria By Purchasing Land.

(From Thursday's Daily.) Paramount among the transactions in the real estate market to-day was the sale of thirty acres of land fronting on Shoal Bay, which changed hands for the sum of \$40,000. The land is picturequely situated, and is an ideal location from a residential standpoint.

The deal was put through the market by Grant Lineham, and the property passed to an investor from Calgary. The new purchaser will in the near future subdivide the acreage and place it upon the market in residential lots. This investment of \$40,000 is but one of many which the Calgary investor intends to make. He is fully persuaded of the many advantages possessed by Victoria, both from a climatic and a commercial standpoint. In the coming summer he will settle down here, and he is at present engaged in making investments in the neighborhood.

The thirty acres mentioned run from Oak Bay avenue to Shoal Bay. It is immediately adjoining the piece which was recently purchased by the Hugo Ross Realty Company for the purpose of subdivision. The land will be improved when subdivided, and the subdivision will be carried out in an up-to-date manner.

During the last few days Grant & Lineham have been responsible for the sale of a house and three lots on Oak Bay; these were purchased by an investor from Saskatoon. A lot on Moss street, two lots on Prior street and a house on Poul Bay road, passed into the hands of local men.

Fifteen years ago the average number of fatal accidents in the Swiss Alps was 24. Now it is nearly three times that number.

INTENSIFIED FRUIT JUICES

AN IMPROVEMENT ON NATURE

A Discovery that is Revolutionizing Medicine.

Remarkable Success Attends the Finding of a New Medicinal Compound by Combining the Juices of Apples, Oranges, Figs and Prunes.

Fruit helps to keep one healthy. Fruit, it helps, will not cure disease. The medicinal principle—or that part of fruit which has a curative effect—is in such infinitesimal quantities, that it is unable to overcome a diseased condition of the stomach, liver, bowels, kidneys or skin.

Just here is where science stepped in. An Ottawa physician did what nature could not do. He first found that some fruits were stronger medicinally than others—and that apples, oranges, figs and prunes contained all the healing properties of other fruits. There are two principles in fruit juices—bitter and sweet. After extracting the juices of the four fruits mentioned, this physician succeeded in replacing one atom of the sweet principle by one of the bitter. This resulted in an entirely new combination being formed. This new compound was many times more active medicinally than the fruit juices. Where eating fruit only helped to keep one well, this compound actually cured disease.

To make it more valuable still, this physician added the finest tonics and antiseptics, and then, by evaporating the entire compound to a powder, made it into tablets.

This, in short, is the method of making "Fruit-a-tives"—these wonderful tablets—the most reliable cure for Constipation, Biliousness, Stomach Troubles, Kidney and Bladder Disease and Skin Affections. Being made from fruit, "Fruit-a-tives" may be taken by women and children without fear of ill-effect.

Don't take a substitute. If your druggist does not handle them, send 50c for a box to Fruit-a-tives Limited, Ottawa.

Already the immigrant office at the Union station has received 1,600 applications for farm laborers; but the supply from the foregoing causes, becomes so depleted, from St. John to Toronto, that although help is in greater demand than ever, the number available is considerably less.

NUMBER OF PERSONS SERIOUSLY INJURED

Police Guards and Cossacks Were Employed to Disperse Crowd Near Palace.

St. Petersburg, March 5.—The opening to-day of the duma, or lower house of the Russian parliament, although in itself devoid of interest, was made the occasion of a great revolutionary demonstration by the St. Petersburg proletariat, and the students of the city, which resulted in several encounters between the police and the populace and more or less serious injuries to several of the latter.

REMAINS OF SIKH CREMATED. Nelson, March 5.—The remains of Sundar Singh, an unfortunate Sikh, who was run over by a light C. P. R. engine on Friday night at Slokan Junction, and who died at the hospital here from his injuries the following day, was buried on a funeral pyre just outside the city limits, in the presence of some of his countrymen and of a large number of spectators.

WILL VISIT JAPAN. Toronto, March 5.—Sherbourne street Methodist church Sunday night tendered Rev. Dr. Sutherland a farewell and a parting banquet in honor of his departure for Japan in the interests of missions. On Thursday he leaves for Vancouver. Rev. Dr. Carman joins him in Vancouver, sailing March 15th on one of the Empresses for Japan, returning in June.

ADMIRALTY PLANS FOR ADDITION TO NAVY

The Two-Power Standard Will Be Adequately Maintained By Proposed Programme.

London, March 5.—In introducing the navy estimates in the House of Commons to-day, the parliamentary secretary of the admiralty, Mr. Robinson, said the admiralty believed the two-power standard would be adequately maintained by the proposed programme for construction.

BURIED UNDER COAL. Montreal, March 5.—Ernest Malone, aged twenty-two, was killed, and Samuel Glover, aged thirty-five, and Nickolo Coplos, aged thirty, are in the General Hospital as the result of having been buried in a coal pile at the works of the Dominion Iron Company at Lachine, on Saturday. The three men were engaged in wheeling coal from the pile to the engine room.

DARING BURGLAR. Winnipeg, March 5.—A nervey burglar attempted to rob the jewelry store of Dingwall & Co., here last evening while the street was crowded with pedestrians about the school. A large number of expensive watches were on display in a window, and he walked up and threw a big jackknife through the plate glass, smashing a hole large enough to permit him to grab a bunch. He failed in his attempt to secure booty, but made good his escape.

Physicians were entirely baffled by
the case of Mr. Robert Squires, of
Shoal Lake, Man. He owns a thou-

said he was willing to give it all to be
restored to health. His trouble started
with an ordinary cold that was
neglected. Let Mr. Squires tell his own
story:

ASSOCIATION FOOTBALL.

BLUE RIBBON CONTEST.

Up to Saturday, the 22nd ult., there were still eleven clubs fighting for the English Association cup. Of these come from the south of England and the remaining eight from the north. Woolwich Arsenal are still going great guns in the competition and are the only team supposed to have a chance of winning the cup. Newcastle United and Aston Villa are also cup fighters, but have suffered defeat and are now devoting their efforts to winning the league.

WORLD CHAMPIONS.

The Crescent quibette of Evanston, Ill., basketball champions of the world, will play Vancouver at the Victoria Coliseum on March 8th and the second one on March 11th. Both matches will be played at the Victoria Coliseum. The Crescent is a team which has won the world championship and is expected to win the Victoria match. The Crescent is a team which has won the world championship and is expected to win the Victoria match.

INTERMEDIATE GAME.

At Oak Bay on Saturday Victoria West will meet the LadySmith intermediates. The game between these two teams resulted in the victory of LadySmith, but the Victoria Wests were then playing from home and were, moreover, handicapped by not having their best players. As the locals will be fully represented on Saturday, the game will prove very interesting, and the winners of the match will be the intermediate champions of the Island for the ensuing year.

RUGBY FOOTBALL.

A RETURN MATCH.

The game to be played in the Terminal City on Saturday between the Victoria Central and the Seattle Athletic Club will be one of the most interesting of the season. The Victoria Central has been greatly strengthened and are fully confident of turning the tables on their opponents. The Seattle Athletic Club has been represented by the following players: Paterson, Briggs, Thompson, King, Todd, Gowen, Cox, Morley, Newcombe, W. Sweeney, O'Keefe, Seider, L. Sweeney (captain), Robson, Spencer, Blackburne, Morris, Kennedy and Hendry.

A FIGHTING GAME.

Montreal Wanderers defeated the Shamrocks of Vancouver last night on the ice two weeks ago by 15 goals to 5. In the closing stages of the game a general fight among the players livened up a "slow" game.

The degeneration of Canada's great winter sport, brought about by the team which indulged in many clubs, is shown by the fact that the Wanderers, of Montreal, who are playing in the Victoria Coliseum in a return game in the Eastern Hockey League, have demanded police protection. They have requested that the Ottawa chief of police give adequate police protection during the match, and that the Vancouver team which is to play against them should be accompanied by their players or friends.

HOPEING AGAINST HOPE.

Healy & Tibbitts, of San Francisco, are anxiously awaiting some word from Captain Lazarevich or some member of the crew of the wrecked schooner Bessie K., for they are reluctant to believe that all hands perished when the little power schooner turned turtle. They believe the survivors and perhaps all hands were landed at some remote part of the coast that they have been picked up by some vessel bound for a far port.

THE RING.

Battling Nelson, the great lightweight pugilist, arrived in New York on Saturday on the steamer Lucania, looking as healthy as if he had been in training for the past two months. He was met by a number of friends, who greeted him with a royal welcome as he walked down the gangplank.

WRESTLING.

The Vancouver Athletic Club has organized a wrestling tournament to be held in the hall of the club on Friday evening.

The 29th inst. Championship medals will be presented in each class, ranging from bantam to heavyweights. Many entries have already been received and the tournament promises to prove of a highly successful nature. Entries will close on the 27th of March, and intending contestants should send their names to the gymnasium committee of the Vancouver Athletic Club.

THE GREAT SLEIGH RACE. Turf interest throughout the British Isles is now centred on the Grand National Steeplechase, which will be run on the 22nd of March over the Aintree course at Liverpool. Since the last mention of the Grand National was made in the Times, an interesting change has come over the market in connection with that event. Asstic Silver, last year's winner, is being heavily backed and is now running Timothy Titus close for the position of favorite. Asstic Silver is top weight in the handicap, and the question which is agitating backers is whether he will be able to give the 12 lbs. he is carrying to Timothy Titus. The latter animal has made several bold tries for the long distance, but has been beaten by his incapacity brought about by his last downfall. He still maintains the position of favorite, but is being heavily backed.

—Frederick M. Good, formerly secretary of the Shanghai Asbestos & Electric Company, has been sentenced to eighteen months' imprisonment with hard labor by the court at Shanghai. The prisoner, it will be remembered, came to Victoria on the steamer Shurway and was arrested by Sgt. Murray and Officer Carter, of the provincial police, upon his arrival at this port. This was done on the strength of cablesgrams sent from the authorities at Shanghai. Good finally consented to return to China and face the charge preferred against him, that of embezzling funds of the company which he represented. He was returned by one of the Empress liners and the trial resulted in his being found guilty and receiving the sentence referred to.
