

The Latest Reports from Every Constituency Leave No Doubt That the Flemming Government Will Make a Clean Sweep of the Province.

CARS NEEDED FOR CANADIAN LINES

Railways Unable to Buy Equipment Needed

BLOCKADE SURE

Last Year's Difficulties in Grain Shipment Likely to be Repeated—All the Roads Add to Rolling Stock.

Special to The Standard.
Ottawa, June 19.—Reports made to the board of railway commissioners of Canada today by the Canadian Pacific, Grand Trunk, Canadian Northern and Great Northern Railways, of new equipment ordered by them and now actually under construction, disclose a high equipment programme. The figures given do not include equipment for which appropriations have been made, but not ordered because of difficulty in finding manufacturers, Canadian or American, to undertake construction of new equipment in the near future. All of the roads reporting, state through their officials that they are in the market for much more equipment than that included in the figures here given, but that the Canadian shops are away behind hand in filling their orders, which far exceed their capacity, and that similar conditions obtain among the United States manufacturers.

"We have appropriated \$15,000,000 for new equipment, but cannot find manufacturers who will take our money," is the way General Manager Leonard, of the Canadian Pacific puts it. The Canadian Pacific reports that it has the following under construction now: 11,593 box cars, of which 7,089 are being built at its own shops in Montreal, 2009 at Hammond, Indiana, 2008 at Hegewisch, Illinois, 512 at Detroit and that all are to be delivered between now and October. It has under construction 665 stock cars, of which it is building 465 in Montreal and 200 have been ordered from Halifax; 244 refrigerator cars being built at Montreal; 411 coal cars at Montreal; 616 ballast cars at Montreal; 42 tank cars being built at Detroit, and 518 caboose cars being built at Montreal. It also has under construction 52 passenger locomotives, 130 freight locomotives and 35 switch locomotives at Montreal.

The Grand Trunk reported that it has under construction 2900 box cars by the Canada Car and Foundry Co. at Montreal; 250 refrigerator cars at Amherst, N. S.; 1000 box cars by the Western Steel Car and Foundry Co. at Hegewisch, Illinois; 1000 coal cars by the Pressed Steel Car Co. at McKees Rock, Pa.; 250 automobile cars by the Western Steel Car and Foundry Company; 500 automobile cars by the American Car and Foundry Co.

RUSSIA HAS NOT YET BEEN HEARD FROM

Other Powers Define Attitudes on Chinese Loan Question.

Delay in Acquiescence to Ratification of Arrangement Causes Alarm to International Bankers.

Paris, June 19.—Russia, which is the only power still to be heard from in connection with the ratification of the Chinese loan of \$800,000,000, which was virtually agreed to here yesterday by the delegates of the groups of bankers representing the six powers, the United States, Great Britain, France, Germany, Russia and Japan, has not yet announced her attitude on the terms. Her answer was to have arrived here at noon today, and the delay is causing considerable disquietude among the international banking group which was already congratulating itself upon the success of the negotiations.

The attitude of the United States throughout has been based on the maintenance of the policy inaugurated by the late John Hay, of the open door, and the endeavor to preserve the complete integrity of China. The negotiations have been difficult, because both Russia and Japan sought recognition of their special political interests. Russia in particular, insisted that the loan should in no way endanger her rights in Manchuria, Mongolia and West China.

at Detroit, and 250 refrigerator cars by the same company at its Chicago works, besides 10 passenger locomotives at its Montreal shops.

The Great Northern Railway Company reports that it has under construction 25 locomotives at the Baldwin Locomotive Works, and 1500 box 250 refrigerator and 1600 coal cars under construction by the Haskell and Barker Car Company.

The Canadian Northern reports that it has under construction 1911 box cars and 132 flat cars and pan locomotives, all being built in Canadian shops. This road also reports a large number of new round houses and other improvements in the west now under construction.

Reports have not been received from the numerous smaller roads, but it is estimated that as much more equipment has been ordered by them. Most of this new equipment is intended to use in coping with the great freight congestion expected to reappear again after the harvesting of this year's crops in the West. Traffic

IT WILL BE A CLEAN SWEEP TODAY

Last Minute Reports Indicate Government Will Sweep Length and Breadth of the Province.

Last minute reports from the St. Croix to the northern boundary of the province are such as to indicate that the Flemming government today will be returned to power with the greatest majority ever accorded a government in this province. There is not a single opposition seat in New Brunswick which can be regarded as safe for Mr. Copp, and any of his supporters who may survive will compose such an unimportant handful of the members of the next house as to be altogether a negligible quantity.

Starting from St. John there is not the slightest doubt that the whole government ticket will be returned and the newspapers which have been frantically engaged in attempting to delude the people into a contrary belief will again prove themselves false prophets. In the county, too, there is evidence that Col. Baxter and Mr. Carson will be elected by good majorities.

In the river counties the government will have a clean sweep, and it is certain the opposition will not get a single seat south of Victoria county. In Victoria, Madawaska, Restigouche and Gloucester the government stands stronger today than ever. The people realize the benefits of the honest administration they have enjoyed, and are not going to vote against the men supporting it. In Northumberland county the campaign being waged against the government ticket is regarded as a joke, and it was reported on good authority yesterday that a careful review of the county showed the independent candidates would not save their deposits. In Kent county Hon. Dr. Landry will lead his colleagues to a victory more complete than recorded by the splendid vote polled for them in the last election. Westmorland, which the opposition claims as its

own, will turn its back on them this time, and the indications are that Mr. Copp will be defeated in his own county. Moncton city will be the scene of one of the keenest fights in the province. Dr. O. E. Price, the gallant aggressive fighter, and it is believed will be successful. Albert county is solid for Messrs. Dickson and Prescott, while the opposition in Kings have recognized for weeks that their campaign there was also without the slightest hope of success. Taken all in all the return of the government by as large or a larger majority than at present, is absolutely certain, and the indications are much more in the direction of a clean sweep than that the opposition will make a single gain. St. John will be in line with solid six to support the best government this province has ever enjoyed.

THE GOVERNMENT'S GREAT RECORD

MEETING WAS NOT HELD

Opposition Bomb Prematurely Exploded—Usual False Charges are Made Against Government Candidates.

Special to The Standard.
Sussex, June 19.—The temperance opposition political bomb that was to be thrown at the Opera House, Sussex, practically in the interests of Messrs. Wetmore, Flewelling and Pearson tonight, was exploded prematurely by this afternoon, by the posting of notices signed by Rev. Mr. Robinson, stating that the Hon. Mr. Murray had declined to meet him, the meeting and all other meetings of the kind in Kings county were called off until after election.

When he stated that Hon. Mr. Murray had already received word by phone from Hon. Jas. Murray, that owing to prior engagements which he could not possibly forego, he would be unable to attend the meeting.

Would it not have been more manly, experts, the members of the grain commission and other government officials see little hope of avoiding another great grain blockade this year.

The National Transcontinental which is the name given to the eastern end of the Grand Trunk Pacific and which is being built by the government, will not be connected up with the Grand Trunk Pacific this year, and in consequence there will be as heretofore, only the Canadian Pacific "spout" through which to empty the great granary of the west, east of Port William after the close of the harvesting season.

A vote for the candidates of the Flemming administration is a vote for good government, the honest collection of the revenue and a continuance of the prosperous conditions which have existed in New Brunswick since 1908.

and consistent if Mr. Robinson had said, that owing to previous engagements he could not break. Hon. Mr. Murray would be unable to be at the meeting, consequently he declared the same postponed?

In the attempt to make it appear that Messrs. Murray and Dixon were evading the requests of the temperance people Mr. Robinson and the feeble opposition have made themselves ridiculous. Before the matter is settled Rev. Mr. Robinson may be asked to explain several things that are the subject of comment.

He might be able to tell why Messrs. Jones, Murray and Dixon never received the pledges that were said to have been made by them.

He might explain why it was necessary for him to be in close touch with E. S. Carter, the chief scribe of the opposition very recently.

He might explain why he has made the statement that Hon. Mr. Murray had attacked him in the Opera House on the night of the 17th inst, a statement not in accordance with the facts.

He might tell who has been acting as his informant on these points, especially as to the story of Hon. Mr. Murray attacking him on the evening of the 17th.

He might also explain why, if this meeting of the 19th was called by and for Mr. Robinson and his friends in the interest of the temperance party, it became necessary for two prominent members of the Wetmore-Flew-

welling-Pearson party to engage to pay \$30 for the hall, and have the posters therefore paid for or charged up to the opposition committee.

When he can explain some of these things it will be more to his credit than the attempt to injure the position of Messrs. Jones, Murray and Dixon, which the good common sense of the people of Kings will endorse in full and unmistakable terms in tomorrow's election.

FATHER OF NOVA SCOTIA MEMBER HAS PASSED AWAY

Special to The Standard.
Halifax, June 19.—James McCurdy, of Old Barns, Colchester, died this evening. Mr. McCurdy was the father of P. B. McCurdy, M. P., and a brother of Rev. Dr. E. A. McCurdy, eastern agent of the Presbyterian Church in Canada, now at Moose Jaw returning from the General Assembly. He was in his 79th year, and one of the best known men in central Nova Scotia.

ROOSEVELT MEN ORGANIZE BOLT

EVERYTHING POINTS TO A BIG VICTORY

Government Candidates in the City and County Assured of Success.

Will Sweep All Before Them at the Polls Today—People Are Satisfied With Government.

With everything pointing to a sweeping victory for the government candidates in the city and county, the district committees completed arrangements last evening for the battle of ballots which begins at eight o'clock this morning.

The greatest confidence prevails among the government supporters, and the men who have been canvassing the electors say that many old time opponents are now using their influence to secure the return of the government candidates.

The local government party have arranged to receive the returns of the election in the Nickel assembly rooms. A special wire has been installed and the returns from the city and county and all over the province will be posted up without delay.

In Simonds No. 1 the government supporters are well pleased with the outlook. An energetic organization has been at work and everything is in magnificent shape. At the meeting of the committee last evening the lists were gone over carefully, and the general conclusion was that both government candidates would secure a majority in that polling district. Information has been given the committee that quite a number of influential residents who worked for the other side at the last election intended to show their appreciation of the work of the Hazen-Flemming government by voting for Messrs. Baxter and Carson. There has always been hard fighting in this district, and the fact that the government workers can figure on a majority there, means that Messrs. Baxter and Carson will carry the county by good majorities.

Workingmen Favor Government.
An attempt has been made by the opposition to create the impression that the trade union workers had a grievance against the government, and were going to oppose its candidates, but this canvass has only provoked amusement among the labor men.

"I don't see that we have any kick," said a union man last night. "We did not get all we wanted from the present government, but we got a great deal more than we did from the old government, and we don't see that

Desert Committee Room in a Body

COLONEL'S ORDERS

Ex-President Himself Instructed Followers How to Act—Threatened to Repeat Action Unless Point is Conceded

Chicago, Ill., June 19.—Roosevelt members of the credentials committee, acting under the specific orders of Col. Roosevelt, broke out of the committee room at 10:30 tonight after attempting to beat open the doors and bring all newspaper men into the room.

The doors of the committee room were suddenly thrown open by J. J. Sullivan, of Ohio, who rushed out with the cry: "All Roosevelt men walk out." He was followed by Hugh T. Halbert, of Minnesota; Francis J. Henry, of California; George L. Record, of New Jersey, and other Roosevelt men. As they pushed open the swinging doors after Sullivan, they cried out to the newspaper men:

"All newspaper men come inside and see what they are trying to do to us."

Col. Thayer, assistant sergeant at arms shouted to the doorman to admit no one. The Roosevelt forces shouted again for everyone to come in. Mr. Thayer called for policemen, who pushed their way through and kept the crowd from getting in.

The Roosevelt men poured from the room and declared they were acting under orders from Col. Roosevelt.

"Everybody go to the Florentine room at the congress," shouted one man. They rushed out followed by the crowd and in the street outside of the Coliseum they were overtaken by Secretary William Hayward.

"Why did you act that way?" he demanded of Henri. "Why didn't you wait until some rules had been passed?"

"We are acting under the direct orders of Col. Roosevelt," retorted Henri.

"We are obeying a better general than you," shouted George L. Record of New Jersey. "He didn't you leave the room and we did."

Continued on page 2.

the opposition is offering us anything worth while. Owing to the amendment of the Workmen's Compensation Act in 1908 the men injured while working on the ships or docks have been able to get \$8.00 a week while laid up, and under the recent amendment they will be able to get at least \$12.00. That is something worth while. The N. B. Compensation act is away ahead of similar acts in some of the other provinces. We haven't done bad with the present government, and when it is returned we hope to do better."

Voters of New Brunswick! Go to the polls today and cast your votes for another four years of honest government under the Flemming administration.

PUBLIC SPIRITED CITIZEN DONATES FUNDS TO EQUIP MODEL PLAYGROUND HERE

Through Generosity of Joseph Allison there will be Public Model Playground South of Exhibition Grounds--Meeting of Playgrounds Committee Yesterday.

At a meeting of the promoters of the playgrounds movement held at City Hall yesterday afternoon, it was reported that a citizen had donated funds to equip a model playground just south of the exhibition grounds and a playground association was formed for the purpose of taking charge of the playgrounds of the city, and enlisting public interest in the movement to establish neighborhood playgrounds at different points. It is understood that Joseph Allison is the gentleman who has kindly contributed the money to fit up the model playground near the boulevard constructed around the exhibition grounds two years ago. It is hoped that the object lesson which will be provided through his generosity will lead to the establishment of similar playgrounds on the west side and in other districts.

Those present at the meeting yesterday were, Mayor Frink, who presided, Miss Mabel Peters, Dr. Margaret Parks, Com. Agar, City Engineer Murdoch, A. M. Belding, W. C. Allison, W. C. Cross, L. Bandlow, and George E. Day.

A committee appointed some time ago submitted the following report: Your committee appointed to consider cost of equipping a neighborhood playground just south of the exhibition grounds beg to report:

1. Having visited the place we find it admirably suited to the purpose, with both water and sewerage available. At comparatively small expense an oval ground of sufficient size may be laid out with a cinder path all round the outside and the playground apparatus grouped inside in two sections, one for girls and one for boys. We have had a rough plan of such a playground drawn to scale as an illustration and it is herewith submitted.

2. We are glad to be able to report that a citizen has offered to provide for this playground kindergarten supplies and 2 slides, 2 circle bars, 2 giant swings, 2 sets of swings, 2 box chair swings, 2 baby swing outfits and 2 seesaws of the regulation playground type manufactured by the Harlow A. Wilson Co., Ltd., of Toronto. The only further equipment needed

for the playground would be sand bins and paving blocks such as the city provides each year for this purpose.

3. We have had prepared a rough plan with estimate of a pavilion, with veranda in front and on each side, and one room within. On each end would be lavatories, one for girls and one for boys. Our estimate of the cost of this pavilion, including lumber, labor, windows and doors, and plumbing, less than \$500. We assume, of course, that the city council would lend aid in connection with the water and sewerage requirements and the grading of the playground.

4. It would seem to your committee that if the city council will heartily co-operate in this matter it should be possible to provide a model playground of the best type with pavilion for the use of children up to, say 12 years of age. It would, of course, be necessary to construct a fence to separate the playground from the railway track below.

5. Your committee is also able to report that a citizen has undertaken to pay the salary of Mrs. W. C. Matthews as the kindergarten teacher of the playground for the whole summer season.

6. We beg to report further that the directors of the Y. M. C. A. have offered to place at the disposal of the playgrounds association, or whoever has charge of the playgrounds this summer, for the summer holiday season, the services of their physical director and superintendent of boys' work.

We beg to recommend that a playground association be formed to have full and entire supervision of playground work in the city and to affiliate with other associations with a view to the organization of a national playground association for Canada.

We further recommend that such association at once interview the city council relative to the immediate equipment of the neighborhood playground, so that it may be formally opened on the first day of the Back to New Brunswick Week. While this report covers considerably more than your committee was asked to deal with, we have thought

it advisable to place the whole matter before the general committee in this form. In closing we desire to say that we added Walter C. Allison to our committee, and that he has actually been our most active member, to whom you are greatly indebted for the satisfactory report we are enabled to submit. It was through the kindly offices of Mr. Allison that we are able to report the very generous gift of the playground equipment, and of the salary of a kindergarten teacher for the current season.

Signed,
A. M. BELDING,
DR. MARGARET PARKS,
L. BANDELOW.

Miss Peters moved the adoption of the report which was agreed to.

In reply to Com. Agar, His Worship stated that the council had appropriated \$2,000 to be expended this year in draining the marsh near Rockwood Park, and providing for the establishment of a playground there, and it was suggested that an effort be made to have the work far enough advanced to dedicate the playground there during the visit of the Duke of Connaught.

Mr. Bandlow, physical director of the Y. M. C. A., said he had no doubt the school boys would do the work of putting a baseball field in shape, and help in fixing up athletic grounds. He remarked that the New Brunswick high school track meet would be held in St. John next summer, and arrangements should be made to provide a track for the races.

On motion of W. C. Allison and A. M. Belding, it was decided to form a playgrounds association to take charge of the neighborhood playgrounds, and co-operate with the city authorities in working out the arrangements for the large playground near Gilbert's Lane.

W. C. Allison moved that Miss Peters be elected first president of the association. "Nobody has done more to forward the playground movement than Miss Peters, and her election would be a fitting tribute to her work," he said.

Miss Peters said she could not do justice to the work of the office, as she would be out of town a good deal, and begged to decline the honor. The gathering insisted that she should accept, and finally she was elected vice-president. A. M. Belding secretary and Dr. Parks treasurer.

The officers were empowered to form an executive committee of thirteen members, and the membership fee was fixed at \$1 a year.

W. C. Cross, president of the Y. M. C. A., announced that the directors of that institution had agreed to place the services of their physical director, Mr. Bandlow, at the disposal of the playground association during the holidays.

Com. Agar said he would have the grounds south of the Exhibition buildings fixed up at once, and it is hoped to have the equipment in place ready for the formal opening of the grounds during the Old Home Week. It is the intention to solicit subscriptions to construct the pavilion for the smaller children at the boulevard grounds.

Copp's Defeat Almost Certain, is Last Word

Government Candidates will Receive Larger Vote in Westmorland Than in 1908 -- Dr. Price's Campaign.

Moncton, June 19.—The eve of polling finds a remarkable unanimity of opinion that Dr. O. B. Price will carry Moncton City by a substantial majority. In the past week he has made many new friends, winning votes from the opposition every day. He has a strong and loyal personal following and is regarded particularly as the candidate of the working men, whose cause he has championed consistently on every possible occasion.

Dr. Price gave evidence only yesterday of his energy and influence. The Board of Management of the Intercolonial had refused the Street Railway Company permission to cross the Intercolonial lands with

their tracks, consequently, the car line ended about three hundred yards from the workshops of the Intercolonial, which was a great inconvenience to the workmen and caused many to miss the cars. Dr. Price took up the matter direct with the Minister of Railways, and backed by Hon. J. D. Hasen, got an order from Ottawa permitting the Street Railway to be extended right to the shops. The work of laying the line is already progressing and Dr. Price won scores of votes through his active interest in this matter.

Reports from every section of Westmorland are that the four government candidates will do even better than in the previous election and the County, apart from the City of Moncton, has always been strongly Conservative, and gave the Conservative candidates good majorities in 1908, which were offset by a large adverse vote in the city.

The Fleming administration has steadily gained ground in Westmorland, and if Mr. Copp himself succeeds in squeezing in tomorrow evening his most ardent friends will be surprised. A last minute appeal is being made to elect Copp because he is leader of the party.

ANOTHER SETBACK FOR THE ROOSEVELT FORCES

Suffer Second Defeat in Session of Republican National Convention -- Governor Hadley, of Missouri, Accorded Rousing Demonstration Led by Roosevelt Delegates.

Continued from page 1.
Hugh T. Halbert declared the break came as the result of the refusal of the majority in the committee to open up all evidence in the case, Mr. Halbert presented a resolution asking that the temporary roll of the convention be considered as only prima facie evidence of the right of delegates to sit, and that all evidence, testimony and the like be gone into.

He declared the committee refused to do this, and attempted to "sue" the minority by making rules that would have left the action of the national committee as practically decisive in all contests.

The majority of the bolters later were induced to return to the committee on credentials, appointed just before the convention adjourned until tomorrow afternoon.

Chicago, Ill., June 19.—The Roosevelt forces met their second defeat in the republican national convention today in a session which had for its outstanding feature demonstration of nearly an hour's duration in honor of Governor Herbert S. Hadley, of Missouri.

All of the Roosevelt delegates joined in this demonstration, while some of the Taft states lent a voice. The exaltation to the Missouri executive was quickly interpreted by many of the delegates as the possible forerunner of a boom for Hadley for president. One enthusiastic Pennsylvanian immediately to the stage called: "Three cheers for Hadley, the next president of the United States."

Governor Hadley led the fight on the convention floor today to oust 92

WORK STARTS ON FREDERICTON TO ROTHESAY SECTION

Contractors for Strip of Valley Railway Have Plant in Readiness for Commencement of Operations.

Special to The Standard.
Fredericton, June 19.—H. A. Corbett and Company, who have the contract for the construction of the Valley Railway from Fredericton to Rothesay, have completed arrangements for starting work at once, and intend to rush operations as fast as possible. A portion of their plant consisting of one steam shovel, two locomotives and twenty cars, rails, etc., arrived here today and the rest of their plant now at Gibson will be brought here as soon as possible. The contractors intended to have their plant here before, but have been delayed as a consequence of a shortage of cars on the I. C. R.

A. B. Wilmut, Dominion Immigration agent for New Brunswick, has secured offices in the Byrnes building here and will take up his duties here about July 1st.

VICTORIA CO. ST. JOHN'S GROWING ENTHUSIASM IN GLOUCESTER Tweeddale and Burgess Came in for Rough Treatment—Records Shown Up in Able Speeches.

Andover, June 18.—Even dogs growled at the sarcastic advice of F. M. Sproule, Deputy Speaker of the House, to vote for J. F. Tweeddale and James Burgess, after the veteran legislator had given the records of Tweeddale and Burgess the worst ripping they ever suffered, perhaps, on a public platform. The last moment of the campaign showed an unprecedented wave of sentiment has swept over the county in favor of Messrs. Carter and White and they will be elected by large majorities. Undoubtedly the meeting was the most enthusiastic ever held in the court house. The atmosphere showed the convincing references of Mr. Sproule, Senator Baird and Titus J. Carter, the only government candidate able to be present.

Mr. Sproule was the first speaker and he showed that none of the arguments used by the opposition should be considered even for a moment. By referring to the journals of the House in 1907 printed by the old government, Mr. Tweeddale supported Mr. Pugsley's plan to limit the building of the St. John Valley Railroad from Centreville to the C. P. R. at or near Westfield, to Tweeddale's opposition for party purposes to the suggestion of James E. Porter made at the Emerson banquet in St. John to have the G. T. P. built down the St. John Valley and to Tweeddale's endorsement of the plan to have the G. T. P. operated by electricity.

Mr. Sproule accused the old government of locking up the development of Grand Falls water power, and read a letter from Premier Fleming that the election of Messrs. Carter and White as supporters of the government would insure the passage of the bill in the next House providing for the utilization of the Tobique Narrows water power and the construction of a huge pulp and paper mill. He read, too, a letter from the premier which stated that the election of Messrs. Carter and White would assist materially in the building of the Tobique Narrows extension to Riley Brook.

The speaker pointed out that two more persistent opponents of the building of the St. John Valley road to Grand Falls could be found than were Messrs. Tweeddale and Burgess. He made Mr. Copp a laughing stock and showed in turn the wisdom of government's policy in regard to education, agriculture, roads and bridges, horticulture, the audit act, and other matters.

T. J. Carter's acceptance was a prolonged round of applause and cheers. In a brief non-political speech, he looked up larger than the other speakers. He stated that throughout the length and breadth of the county while he has met with the most favorable reception, he has also met with the most hostile. He stated that he was elected and Burgess cannot sweep even their strongest districts. Mr. Carter denied his having advised the removal of Messrs. Tweeddale and Burgess from the directorate of the Tobique and Campbellton Railway, and that the government had gone after the heads of opposition holding local appointments, but that Mr. Curless of Grand Falls, now supporting the opposition, has been elected in regard to the government had gone over to the opposition. He argued that the privilege of the franchise was above political battle, and that it was the duty of all to refuse to vote for Messrs. Tweeddale and Burgess because of being liars. The meeting closed with the singing of the National Anthem, and ringing cheers for Messrs. Carter, White and the Fleming government. Being so increasing, many government supporters are waging even money heavily that Messrs. White and Carter, the government candidates, will both be elected, and 2 to 1 that White will lead the poll.

Upwards of 12,150 have attended the C. P. R. meeting in St. John, and according to W. W. Hubbard in a statement to your correspondent while the train was here today, it has a promise of being a record. A tribute to Fleming's progressive policies. Over 850 visited the train while at Perth and viewed the exhibits and heard the many lectures.

Mr. Hazen and Mr. Fleming have given the Province of New Brunswick the most successful year for its history as a result have been able to spend \$800,000 more on the important public services of the Province than their predecessors did during the same period of time.

Both H. C. Bunner and R. K. Munkittrick are dead, but when Bunner was editor of Puck, Munkittrick was one of the star contributors. Munkittrick was an artist at his business. He knew how to write poems and jokes—knew the mechanics of the business thoroughly—and Bunner bought what he offered. One day Munkittrick came in, sat down at a desk and wrote nine jokes. He took these in to Bunner, who accepted them at a dollar each, the regular rate, and gave a credit slip to Munkittrick, who took it to the cashier and got his nine dollars. Two hours later Munkittrick came in, wrote three jokes and took them in to Bunner. "How's that?" asked Bunner. "Why didn't you turn in all twelve jokes when you were in here?" "Well," Munkittrick replied, "it was this way: My wife sent an advertisement in the paper this morning of a person in need of a refrigerator. I had a refrigerator and she sent me over to get one. They cost \$8.95, and I came in and procured the nine dollars to pay for it. I got up to the store I found all the refrigerators at \$8.95 had been sold, so the only one I could get cost \$11.95, so I came back to get the other three dollars I need."—Saturday Evening Post.

MAGIC BAKING POWDER HOLD VICTIM'S FEET ON LIGHTED LAMPS

The motor-car bandits, of whom the late Bonnet was the chief, marked their houses of refuge by blue paint of a particular hue. They probably borrowed the idea from the abominable gang which terrorized North-western France for the three years, 1905-1907.

Strangely enough, this gang was known as the "Chaufeurs," not because they had anything to do with motor-cars, but for the reason that their favorite method of forcing their victims to confess where money was hidden was to hold the soles of their feet over a lamp or lighted candle. Claufeur is French for "to heat."

Another formidable French sacred society is the P. D. L. C., or "Preses de la Cote," which means in English, "Brothers of the Coast."

A murderer society which has been devastating Russia, Turkistan is known as the Society of the Crimson Crescent. Somewhere about him each member wears a tiny crescent of a peculiar crimson cloth. Their victims are all marked with a similar sign.

His Quick Recovery. A Cleveland lawyer and a Cleveland railroad man went to a theatre in that city. The railroad man saw a flashily dressed, red-faced, sporty-looking citizen sitting in one of the boxes.

Hotels. PARK HOTEL M. J. BARRY, Proprietor. 45-49 King Street, Saint John, N. B. This hotel is under new management and is completely renovated and newly furnished with beds, carpets, etc. American Plan. Electric Elevators. Street Cars stop at door to and from all trains and boats.

ST. JOHN, N. B., THURSDAY, JUNE 20, 1912.

THE ISSUES TODAY.

The campaign which started a little less than a month ago comes to an end today when the electors of the Province will deposit their ballots and decide the result. The issues of the campaign have been well defined. The Fleming Government are able to show a large increase record of four years administration.

Compared with the record of their predecessors, the Fleming Government are able to show a large increase in the territorial revenue. In the first year of their administration it was clearly established that a very considerable proportion of this revenue which properly belonged to the Province had remained in the pockets of political friends or had been applied to keep the old Government in power. The published reports of the Government for the past four years prove conclusively that the old Government failed to collect over \$300,000 of revenue which they should have placed in the treasury during the last four years of their administration. The failure under the old regime to obtain what was justly due the Province from the Public Domain caused an addition to the permanent debt of upwards of a million dollars for public works that should have been, and has since been, paid out of current revenue.

The second session brought to light one of the most notorious scandals in the history of the Province, a scandal which will not be forgotten as long as the Province exists. In 1901 the old Administration undertook the development of the coal areas of Queens County by the construction of a railway. Four years later, after an expenditure of over \$1,000,000, the Province was obliged to take over a partly constructed railway which has since been operated at a loss of about \$20,000 a year.

An investigation of the financial affairs of the old Government brought to light the fact that the business of the different departments was largely conducted through suspense accounts in order that the Government might deceive the people as to the true financial condition of the Province. An over-expenditure amounting to \$215,000 was discovered by the new Administration notwithstanding that in 1906-07 the old Government had funded \$220,000 of their over-expenditure. It was also demonstrated that they had anticipated the legislative grants of 1908 to an unprecedented extent.

In correcting these abuses the Hazen Government passed an Audit Act by which the financial affairs of the Province were brought directly under the control of the Auditor General, who was made responsible to the Legislature. Under this act the Auditor is compelled to have a voucher for every expenditure. It had been the practice of the Public Works Department under former Administrations to make advance payments to favorite contractors before any work was done, and thousands of dollars were annually paid out in this department with nothing but the order of the Chief Commissioner to show for the payment. Since the present Administration came into power all public works expenditures have to be sworn to before cheques can be issued.

Another provision of the Audit Act is that no payments can be made from an overdraft account. Should an appropriation become exhausted an application is made to the Treasury Board and the Government are compelled to furnish the necessary funds to carry on the work and the Auditor has to publish the correspondence showing why the extra appropriation is necessary. The treasury is thereby thoroughly safeguarded and the public are given full information regarding all expenditures in excess of the appropriations. Suspense accounts are impossible, and the Auditor General's report is necessarily an exact representation of the financial condition of the Province, something it was not in years gone by.

Mr. Copp and his candidates have endeavored to escape the responsibility for the record of the old Government but this is impossible. Mr. Copp was a member of the Legislature from 1901 to 1908, and during all those years was one of their strongest supporters and apologists. He was personally aware that the full Crown Land revenue was not being collected and he also had knowledge of the over-expenditures of the Government and of the existence of numerous suspense accounts. He further knew that money was paid out without proper vouchers being obtained, for he was the personal recipient of payments for which he gave no vouchers. How, therefore, can he expect to purge himself of responsibility for the corrupt and unbusiness-like methods of the old Administration?

The present Government have been charged by the Opposition with not being progressive. The charge is groundless. They have given the people a Highway Act which has done more to take the highways of the Province out of politics than any measure of the kind hitherto introduced. The Government no longer directly expends the highway grant except in sparsely settled districts. The grants to be expended for the roads are now placed in the hands of the highway boards composed of the Municipal Councilors of the parish they represent, and an appointee of the Chief Commissioner of Public Works. The act also provides for statute labor which is performed in the districts where the taxation is levied. The act has been productive of good results in every district of the Province and places the expenditures of the road monies more directly in the hands of the people than any previous legislation.

The present Government were the first to recognize the rights of working men for compensation for injuries and to make better provision for the safety of those employed in factories. They have passed legislation to restrict the sale of liquor and to provide for a sanatorium for the care of those suffering in the early stages of tuberculosis, and have granted aid to the various counties of the Province to assist in providing for those in the later stages of this disease. They have amended the Public Health Act in such a way as to make it of real value to the people, and have made the administration of small estates so cheap as to no longer be a burden for the widow and orphan whose legacies are less than \$1,000. Many other laws have been amended in such a way that the people have been greatly benefited.

The increased revenue received through a fearless and honest collection has been expended in improving the great public services of the country. Under the present Administration the bridges have been made safe and the wharves rendered useful to those who need them.

The grants to Education and Agriculture have also been increased; and the cost of school books reduced one-half. They have placed the Valley Railway under construction and have made a contract with the Canadian Pacific that will secure the construction of a railway from Gibson to Minto and at the same time bring about a full development of the coal areas of Queens and Sunbury counties, which the old Government failed to accomplish, notwithstanding the expenditure of over \$1,000,000.

Regarding the future, Premier Fleming in his manifesto, promises to continue along the same policy, the policy which has been so beneficent to the Province. The pulp and paper industries will be assisted in their development. Every aid will be given to encourage the development of the great natural resources of the Province. Iron is now being mined in Gloucester County. The industries of Moncton are being supplied with natural gas from the wells of Albert and the great shale deposits of that county are to be immediately turned to commercial use.

The agricultural policy which has brought New Brunswick to the notice of the whole world as an apple producing Province will be continued. In two years 100,000 apple trees have been planted and the industry firmly established on a commercial basis. Industrious farmers will be provided with farms on easy payment and every effort made to collect the long past due claims against the Dominion Government for the usurpation of Provincial fishery rights of years ago.

The Government can with confidence appeal on their record for the support of the people of the Province today. It is a record of accomplishment.

A CLEAN SWEEP.

The Standard has received most assuring information from every constituency in the Province that the results of the elections today will be in favor of the Government candidates. At the beginning of the campaign the Opposition press asserted day after day that Mr. Copp would have strong candidates in every constituency. The wish seems to have been father to the thought, for Mr. Copp has been unable to secure a single candidate in the County of Northumberland, while in other counties most of the men put up have made no fight and are mere figureheads. In York County and in Queens there has been no attempt on the part of the candidates to discuss the issues of the campaign, and the same may be said of Sunbury.

A desperate effort has been made to carry the French counties which include Kent, Restigouche and Madawaska. While the Legislature was in session Mr. P. J. Venot was appointed to organize and conduct the campaign in these counties. Mr. Venot was at one time a member of the Legislature but was appointed collector of customs at Bathurst by the Liberal Government and dismissed from office by the present Federal Administration for offensive partisanship. As the result of a campaign of slander and misrepresentation, the Opposition press have been claiming a solid North Shore, notwithstanding the fact that the Opposition have been losing ground with the better element in the population and have no candidates in Northumberland County.

The advice from Kent give positive assurance that the three Government candidates will be returned by a majority greater than in 1908. In Restigouche, notwithstanding the fight that Mr. LaBillette has made in the county he has represented for thirty years, the best information obtainable is that both he and his colleague will be defeated. In Westmorland, Kings and Carleton the Opposition have conducted a vigorous campaign, but the chances are all in favor of a large Government majority in each of these counties. In Albert and Charlotte the result has been a foregone conclusion since the beginning of the campaign.

In Victoria County, where the Opposition expected an easy victory, the defeat of both their candidates seems to be certain. In Madawaska, notwithstanding the efforts of Senator Costigan and the assistance rendered by Mr. Venot, the result will be in favor of the Government. No one expects the Opposition candidates in St. John city or county to be elected. The outlook today is that the Government will make a clean sweep from one end of the Province to the other.

THE ATTACK ON THE GLOBE.

The Telegraph makes a vicious attack on the Globe because it refuses to fall in line with the Pugsley wing of the Liberal party and endorse Mr. Copp. In 1896 Hon. J. V. Ellis, editor of the Globe, was the Liberal candidate for the city of St. John. In the same election Mr. Pugsley ran as an independent candidate and was unable to save his deposit. Mr. Ellis was elected and was considered a pretty good Liberal at that time. Today Mr. Ellis is in the Senate of Canada. Mr. Pugsley has ceased to be an independent and has assumed absolute control of the Liberal party in New Brunswick.

During his political career Mr. Pugsley has been a member of the two great political parties of Canada when each was in power. The defeat of his candidate in tomorrow's election will leave him in a very awkward position politically. The editorial columns of the Telegraph and Times are absolutely under Mr. Pugsley's control, hence the attacks made by these journals on the Globe, which has steadfastly refused to endorse the apologetes for the most corrupt and extravagant Administration that ever controlled the affairs of New Brunswick. Mr. Pugsley was Attorney General in that Administration and Mr. Copp a subservient supporter.

In refusing to aid Mr. Pugsley in his efforts to place Mr. Copp in control of the public treasury of New Brunswick the Globe has done a great public service which is heartily appreciated by the people at large. No greater catastrophe could happen to this Province today than a return to the conditions which existed for many years prior to 1908 when the Government were notorious for corruption and extravagance.

The Globe is not alone among Liberals in condemning the machine now in control of that party. Thousands of good Liberals in every county in the Province will go to the polls today and by their votes show their appreciation of the honest Government the Province has received from Mr. Hazen and Mr. Fleming during the past four years. They will still remain Liberals, but Liberals who place country before party, when their party is under the control of men who by their records have proved that they would become wreckers to attain their selfish ends, and who are soflimren before they are Liberals.

One of Mr. Copp's organs says the Fleming Government deserve no particular credit for the honest collection of the stumpage and other territorial revenues. Perhaps not in the abstract, but as the Moncton Times points out, Mr. Copp and his friends certainly deserve censure for their failure to make an honest collection previous to 1908. There is now abundant evidence that for a long period of years this Province was losing two hundred thousand dollars a year because of the failure of the old Government to do what the Fleming Government have done. As a result the roads and bridges and the other public services suffered.

The Opposition have been availing themselves of the services of Hon. H. R. Emmerson. When Commissioner of Public Works for the Province of New Brunswick, Mr. Emmerson refused to make public or even submit to the Legislature, the expenditures for public bridges until the bond issues were exhausted. The public have not yet forgotten the scandal which followed this method of doing public business.

Perkins commanding; 7th York Regiment, Lt. Col. Hon. H. F. McLeod commanding; 73rd Northumberland Regiment, Lt. Col. G. W. Mersereau commanding; 74th New Brunswick Brigade, Lt. Col. G. W. Mersereau commanding. On June 28th the 62nd St. John Fusiliers, under Lt. Col. J. L. McAvity will report and will remain under canvas until July 3rd. Col. W. M. Humphrey, A. A. G. L. C. will be in command of the camp with the 6th division; Lt. Col. G. W. Mersereau, 6th division; Lt. Col. A. A. and Q. M. G. Major J. D. Doull, R. C. B.; Camp engineer, Lieut. C. B. Russell, R. C. E.; A. D. of S. and T., Major A. E. Masie, C. A. S. C.; medical officer, Lt. Col. G. L. Foster, A. M. O. 6th division; sanitary officer, Lieut. F. V. Woodbury, A. M. C.; veterinary officer, Vet. Capt. W. H. Simon, 8th Hussars; ordnance officer, Major A. H. Anderson, C. O. C.; paymaster, Major J. B. Forbes, C. A. P. C.; musketry instructor, Capt. and B. Major T. T. Bull, 6th regiment; assistant musketry instructor, Capt. F. A. Good, 71st regiment; signalling officer, Capt. T. E. Powers.

Artillery Man Tells His Story
Mr. Daniel Fry, North Keppel, Ont., is a pensioner of the British army. He belonged to the Royal Artillery, and was stationed in Toronto in 1850. Mr. Fry is now 86 years of age, and attributes his good health to the use of Dr. Chase's Kidney-Liver Pills. For three or four years he suffered greatly from constipation, pains in the back and the bottom of the stomach, by using Dr. Chase's Kidney-Liver Pills these troubles have been overcome. He would not be without these pills in the house and finds he can keep the bowels and kidneys healthy and active. Dr. Chase's Kidney-Liver Pills are especially appreciated by people of advanced years who have difficulty in keeping the kidneys and bowels regular and active. They are delicate and certain in action and can be depended on to bring about the desired effect.

TRADING GROWS SMALLER IN VOLUME
New York, June 19.—The stock market opened today with some show of the activity and strength but these promises were not fulfilled although the undertone remained moderately strong. Dealings in the first hour were fairly large but they petered out to minor proportions in the succeeding hours with a small total of net gains.
Coal shares, which were under considerable pressure yesterday supplied the bulk of the early business at higher prices. Wall Street evidently chose to ignore the possible effects of the proposed investigations into these prospects by the interstate commerce commission and buying of Reading and Lehigh Valley soon wiped out recent recessions. Later both reacted from their best prices, the upward movement switching to New York Central, which more than recovered its dividend, and Chesapeake and Ohio, which rose as a result of the recent dividend on Hocking Valley. In the early afternoon the market became extremely dull with spasmodic movements in some of the obscure issues and amalgamated copper. The latter being assisted by rumors of another advice in its price of copper metal, the second in two days. Another helpful factor in the copper stocks was the strength of those securities abroad.
In the final hour when trading became a little more animated, Interborough Metropolitan Preferred was advanced on announcement that the Interborough Rapid Transit Company had declared an extra dividend of 5 per cent. part of which accrues to the benefit of the first named security. The tone of the market at the close ranged from steady to irregular. Among the low priced securities Wash common and preferred were prominent for its acute weakness, the one selling at the lowest price in its history and the other at a discount of the lower quotation in some years. Dever and Rio Grande preferred also reflected moderate liquidation. The reorganization plan of the Wabash Road is likely to be issued shortly, and it is a foregone conclusion that both classes of stock will be heavily affected.
In the way of general news the proceedings of the convention at Chicago overshadowed all other news. It seemed to exercise no special influence market wide. The general rush to sell wheat and other food stuffs in Chicago market was another factor of passing influence. European markets, particularly London, has many characteristics in common with our own. The movement in London was altogether aimless aside from the failure of another underwriting offering of the Canadian Northern Railway bonds. Settlement in connection with American Marconi shares precipitated another culture abroad.
The Bank of England received over \$1,000,000 gold, but shipped almost double that amount to Berlin, where financial pressure shows but slight relaxation.
Time money was a bit firmer here, some of the larger institutions placing 90 day loans at 3 1/4 per cent., compared with bids of 3 per cent., the day before. There was some lending of 90 day money at 3 per cent., with no demand for shorter periods. July interest and dividend subprimebonds are remaining at \$25, \$10, \$4 as compared with \$24, \$5, \$3.48 in the middle of last year. A considerable part of the increase is due to the larger financial undertakings of the city of New York.
The heaviness of New York City issues was today's feature. The market with an uncertain movement elsewhere.
Total sales, par value, aggregated \$17,000.
Panama 3's declined 1/8 per cent. on call.

HAVE YOU A BAD SORE?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sores?

Remember that Zam-Buk is also rather different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely sterile.

Remember that Zam-Buk is at the same time soothing, cooling, and antiseptic. Kills poison naturally and all harmful germs. It is suitable alike for recent injuries and diseases and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath, 50c. tablet.

The News in Short Meter

LOCAL.

Military College Graduates.

Among the year's graduates at the Royal Military College, Kingston, are Sergt. Edwards, Londonderry, N. S., and Sergt. Fisher, St. John.

Perjury Charge Dismissed.

In the police court yesterday morning the case of perjury which has been in progress against Frank McDermott was dismissed. William Chittick, Mrs. McDermott and the prisoner all gave evidence in favor of the defence.

Wedded in Fredericton.

In Fredericton Eber H. Turnbull, popular St. John man and traveller for Baird and Peters, was united in marriage to Miss Florence Evelyn, daughter of Mr. and Mrs. George E. Stoddard. The ceremony was performed by His Lordship Bishop Richardson, assisted by Very Rev. Dean Schofield. The young couple will make their residence in this city.

New Real Estate Company.

The International Securities Company, a large real estate concern of American and Canadian capitalists, have opened an office in the Dearborn building. Alexander Wilson is manager of the local office.

Got Three Months Jail.

In the police court yesterday morning the case against Joseph Wells for stealing hens was taken up. Wells was sentenced to three months in jail with hard labor.

Examinations.

The ordinary grade examinations in the High School were concluded yesterday. Twelve candidates are writing the examinations in Grade IX, for the alumnae gold medal, while four are writing for the governor general's silver medal in Grade X. These will conclude today. Rev. Dr. MacVicar will deliver the address to the graduating class this year.

Has Accepted New Position.

Dr. and Mrs. E. Gordon Hill, of Lafayette, Ind., arrived at noon yesterday to the guests of Mrs. Billy's parents, Mr. and Mrs. John W. Vanward. Dr. Hill was professor of Mathematics in Lafayette College, Indiana. But when he returns it will be to occupy a like position in the Dartmouth, N. H., college.

WAS ALL RUN DOWN.

Doctors and Medicine Failed To Cure Him.

Many people become run down, but don't know just exactly what their trouble is. As a rule it is improper digestion of the blood, owing to not just taking proper care of themselves. All they want is a good tonic to build up the system and put their blood in proper shape, and for this purpose there is nothing so equal as Burdock Blood Bitters. It regulates the stomach, liver and bowels, purifies the blood and tones up the entire system. Mr. Murdoch A. McKeen, Toronto, N.S., writes: "I am now writing to tell you what Burdock Blood Bitters has done for me. Last summer I was all run down, and doctors and medicine failed to cure me. At last I decided to try a bottle of Burdock Blood Bitters, and after taking one bottle I began feeling better, and after I had taken the remedy for two months I was completely cured. I can safely recommend your remedy to anyone."

Manufactured only by The T. McKeen Co., Limited, Toronto, Ont.

PULLING BOOTSTRAPS TO GETTING OFFICERS FOR CITY AND COUNTY

A. B. COPP'S RECORD

No better summary of the activities of Mr. Copp during the regime of the old Government has been placed before the people than that published in the Telegraph in its issue of June 5th, 1908. Referring to the present Leader of the Opposition, it says:

"Time was when Mr. A. B. Copp, M. P., provincial organizer of the Liberal party, expressed doubts about the Central Railway business. Yet the Central if not profitable to the Province, seems to have been profitable to Mr. Copp. On March 20th, 1908, after the elections, Mr. Copp was paid \$375 for attendance at Ottawa and expenses there in connection with a claim for a double subsidy for the Central. This \$375 included a trip in March last for which he was paid \$175 and another in December, 1907 for which he got \$200; seven days at \$20 a day and \$60 expenses. Mr. Copp's activities in connection with the Central in 1905 appear to have yielded him the moderate sum of \$1,050—for legal services. What the legal services were, does not yet appear, but doubtless particulars will be forthcoming later on. The entries in the Central's books thus far available, show that on July 7th, 1905, Mr. Copp received \$50; on July 21st, \$500, and October 21st, \$500. The payment of \$375 on March 20th indicates that Mr. Copp did not find the Central personally unprofitable, even after the elections had overwhelmed the Robinson Government. Why Mr. Copp should have been the man to go to Ottawa on March last for which he was paid \$175 and another 'to go to Ottawa on the Government does not appear, but, like many other matters connected with the Central that are now sunk in mystery, this one may be made clear when the investigation commission calls witnesses and hears their own testimony."

The investigation commission met and called witnesses, including Mr. Copp. They found that no vouchers or accounts were filed, giving the items making up the amount of \$1,425, public moneys which he received, and that the fees paid him were excessive. The commission in view of Mr. Copp's aspirations today to become the Premier of this Province, are instructive. The report states: "Mr. Copp's evidence shows clearly that he has not prepared himself to do work of any value, and we believe his achievements were according to his preparation."

The list of city and county polling booths and names of the returning officers for today's election are as follows:

- For Polling Division No. 1, King's Ward. (1)—Voters whose surnames commence with any letters from A to I inclusive, at or near Driscoll's, German street.
- For Polling Division No. 2, King's Ward. (2)—Voters whose surnames commence with any letters from J to K inclusive, at or near Driscoll's, German street.
- For Polling Division No. 3, King's Ward. (3)—Voters whose surnames commence with any letters from L to N inclusive, at or near Driscoll's, German street.
- For Polling Division No. 4, Wellington Ward. (1)—Voters whose surnames commence with any letters from A to D inclusive, at or near Barker's, 65 Peter street.
- For Polling Division No. 5, Wellington Ward. (2)—Voters whose surnames commence with any letters from E to I inclusive, at or near 10 Waterloo street.
- For Polling Division No. 6, Wellington Ward. (3)—Voters whose surnames commence with any letters from J to P inclusive, at or near 10 Waterloo street.

ST. JOSEPH'S UNIVERSITY

Commenced Exercises Concluded Yesterday Afternoon

List of Prize and Honor Winners and Graduates.

The commencement exercises at St. Joseph's University were concluded yesterday morning and most of the students left for home in the afternoon. The exercises were attended by the largest gathering in the history of the institution. Rev. B. LeCavalier, president of the university, presided. His Lordship Bishop Casey and other prominent alumni were in attendance. The English valedictory was delivered by John R. Nugent of this city.

The following is the list of graduates and prize winners:

- Master of Arts.**
Reverend Antoine LeBlanc, Sackville, N. B.
Henry J. McGill, Orono, Me., U.S.A.
Dr. A. R. Myers, Moncton, N. B.
A. J. Roi, B.S.C., Montreal, P.Q.
- Bachelor of Arts.**
A. P. Arsenault, Egmont Bay, P.E.I.
John R. Nugent, St. John, N.B.
Camille E. Gaudet, Riv. 99, St. Joseph, N. B.
F. A. LeBlanc, Priests Head, C.B.
Leon A. Ruest, Silex, N. B.
Louis Robichaud, Cocagne, N.B.
George R. Talbot, Robertsonville, N. B.

Manager's office, Montreal. During his stay in Quebec, Mr. Hamilton has made many friends by his genial and hearty disposition. He leaves tomorrow evening for Montreal to assume his new position.

COMMERCIAL DIPLOMAS.

- With Great Distinction.**
Leon A. Ruest, Silex, N. B.
Charles E. Thibault, Isle Verite, P. Q.
- With Distinction.**
Joseph J. St. Antoine, P.Q.
Leonard D. Dalgle, Baker Lake, N. B.
Arthur J. Groulx, St. Marie, Kent, N. B.

Passed.

- Joseph A. Leger, Cocagne, N. B.
Emile J. Poltier, Shediac, N. B.
Emile J. Poltier, Shediac, N. B.
E. J. A. LeBlanc, Dupuis Corner, N. B.

Honor Premium (Seniors)—A set of books presented by Rev. W. LeBlanc, St. Martin, P.Q. Awarded to Ernest Keays, Nairville, P.Q.

Honor Premium (Juniors)—\$5 in gold presented by Rev. P. X. Collart, Cape Bald, N. B. Awarded to Francis Gagnon, Sydney Mines, C. B.

Philosophy Premium—Presented by the Rt. Rev. T. Casey, D.D., Bishop of St. John, for excellence in philosophy. Awarded to Placide H. LeBlanc, Priests Head, C.B. Honorable mention, Placide H. LeBlanc.

Literary Premium—Presented by Hon. P. Poltier, M.A., Senator, Shediac, N. B., as a special premium for veracity. Awarded to Ernest Dolron, Shediac, N. B.

Landy Premium, \$10 in gold—Presented by Hon. P. A. Landry, M.A., LL.D., Dorchester, N. B. Awarded to R. J. Donovan, Fairville, N. B.

Science Premium, \$10 in gold—Presented by the Right Rev. T. Casey, D.D., Bishop of St. John, N. B., for excellence in the superior course of sciences. Awarded to Adrien P. Arsenault, Egmont, P.E.I.

Apologies Premium, \$10 in gold—Presented by Very Rev. W. Clapman, V.G., St. John, N. B., for excellence in apologies. Awarded to John R. Nugent, St. John, N. B. Honorable mention, Arthur Aiken, Charlevoix, P. Q.

Apologies Premium (French)—Presented by Very Rev. W. Clapman, V.G., St. John, N. B., for excellence in business class. Awarded to Ernest Dolron, Shediac, N. B.

Myers Premium, \$10 in gold—Presented by A. R. Myers, M.D., Moncton, N. B., for excellence in English literature. Awarded to John R. Nugent, St. John, N. B. Honorable mention, Harold Coughlan, Edward J. Henneberry.

Belliveau Premium, \$10 in gold—Presented by Rev. P. H. L. Belliveau, M.A., for excellence in French literature. Awarded to George R. Talbot, Robertsonville, P.Q. Honorable mention, Placide H. LeBlanc.

Relly Premium, \$10 in gold—Presented by E. A. Relly, B.A., Barrister, Moncton, N. B., for excellence in mathematics. Awarded to Robert Fraser, Rexton, N. B. Honorable mention, F. H. Hamilton.

Boudreau Premium, \$10 in gold—Presented by C. H. Boudreau, manager of Provincial Bank, Moncton, N. B., for excellence in business class. Awarded to Emile J. Cote, Quebec, P. Q. Honorable mention, Leon A. Ruest.

Hache Premium, \$10 in gold—Presented by A. F. Hache, for excellence in the first year of the advanced commerce course. Awarded to Barthelme Sirois, Upper Madawaska, Me., U.S.A. Honorable mention, Ernest Keays.

Elouation Premium, \$5 in gold—Presented by Rev. M. A. McGarry, C.S.C., D.D., Notre Dame, Ind. Awarded to John R. Nugent, Honorable mention, R. J. Donovan, Edward J. Henneberry.

Elouation Premium (French) \$5 in gold—Presented by Rev. P. P. Arsenault, Mount Carmel, P.E.I. Awarded to Louis Robichaud.

Bronze Medal—Presented by Ludger Gravel, Grand President of the "Ordre des Freres", Montreal, P.Q., for excellence in arithmetic. Awarded to Emile J. Cote, Quebec, P.Q. Honorable mention, Leon A. Ruest.

TRANSFERRED TO MONTREAL.

Quebec Telegraph, June 15—While regretting his departure from their midst the many friends of Frank W. Hamilton, for the past couple of years employed in the exchange ticket department of the steamship service, Canadian Pacific Railway in this city, will nevertheless be pleased to learn of his merited promotion. Mr. Hamilton has been transferred to take charge of the General Ticket Delivery department in the General Passenger

DYSPEPSIA MADE HIM MISERABLE

Suffered Agony Until "Fruit-a-tives" Cured Him.

Hundreds of people gladly testify to the wonderful curative powers of the famous fruit medicine, "Fruit-a-tives." To those now suffering with indigestion, dyspepsia or other stomach troubles, this letter of Mr. Stirling, the well known real estate operator of Western Ontario, shows the way to a speedy and certain cure.

"Fruit-a-tives" were so beneficial to me when I suffered with distressing dyspepsia, that I wish to inform you of their satisfactory results.

Although I have, in past, suffered agony with dyspepsia, I am now in perfect health. "Fruit-a-tives" accomplished the desired result."

"Fruit-a-tives" is the only remedy in the world made of fruit juices and valuable tonics.

50c a box, \$1 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa, Canada.

Manager's office, Montreal. During his stay in Quebec, Mr. Hamilton has made many friends by his genial and hearty disposition. He leaves tomorrow evening for Montreal to assume his new position.

Griggs: See here, Briggs, what's that you've been saying about me? I've a great notion to give you a piece of my mind!

Briggs: Don't do it! A little thing like that isn't worth dividing.

REALIZE THEY HAVE NO HOPE

County Will Return Two Government Candidates—Telegraph Makes Blunder But the Blame Comes Home.

That the opposition candidate in the County of St. John realize that they have no chance of election, is evidenced by the fact that both Messrs. Bentley and Anderson have practically quit canvassing for each other and are pleading with their friends to save them individually from the wreck. Instances have developed in Fairville that Mr. Anderson has asked for a vote for himself and is willing to let Bentley and Anderson save the party. Mr. Bentley is reported to have been equally indifferent as to what happens to Mr. Anderson provided that he himself can get to Fredericton. The returning officers for the city are:

Kings Ward—Division 1, Olive Thomas; 2, Roy Morrell; 3, Robert B. Humphrey.
Wellington Ward—Division 1, Frederick Sandall; 2, Edward B. Watson; 3, Chas. F. Olive; 4, Frederick Estey.
Queen's Ward—Division 1, William O. Dunlop; 2, Reginald C. Hoyt; 3, Leon A. Ruest; 4, Kenneth A. Wilson; 5, Porter; 6, Edward Johnston; 7, Ralph Fells.
Sydney Ward—Division 1, Thos. L. Coughlan; 2, Harry Pates; 3, Guya Ward—Division 1, J. Leslie Smith; 2, Morton McLaren; 3, Harry Lingley.
Brooks Ward—Division 1, James A. Kindred; 2, William H. Colwell; 3, Lorne A. Courtenay; 4, Robertson; 5, Robert A. Courtenay; 6, Frank M. Smith; 7, M. D. Austin; 8, Colly; 9, Stanley; 10, John Eagles; 4, Harry E. Sibson.
Dufferin Ward—Division 1, William F. Beatty; 2, Jas. W. Speight; 3, William A. Steiper; 4, John Willett; 5, Victoria Ward—Division 1, William Anderson; 2, George Wetmore; 3, George K. Ayles.
Stanley Ward—Francis Emery, Non-Resident—Charles Emery, and for the county: William Smith; 2, Crawford Love.

HEALTH AND BEAUTY HINTS

BY MRS. MAE MARTYN.

Maiden: I am glad you value your youthful complexion, and if you avoid powder and rouge and use this spruce lotion the skin will always remain divinely fair. Put 4 ounces pure max in ½ pint hot water (or witch hazel), then add 2 teaspoonfuls glycerine. Apply to the skin sparingly to the skin, rub lightly until it vanishes. Your mother will like the spruce lotion, because it dispels that shiny, sallow complexion and restores to the skin softness to rough skins under the influence of powder. The spruce lotion is invisible when on and perspiration will not spot nor streak it.

Belle: No glasses will not give a sparkle to dull eyes. Before you visit the oculist make up and use this harmless, inexpensive eye-tonic, and I am sure you will be saved the expense and annoyance of glasses: Dissolve an ounce crystals in a pint cold water. Putting 2 or 3 drops in the eyes daily will relieve the smart and ache, overcome the bloodshot condition, and induce a clear, expressionless eyes, a fascinating charm and brilliancy.

Mrs. Ben: You ought not to be sickly, and you won't any longer if you make up and use this good, old-fashioned tonic and regulator. Dissolve one ounce crystals in ½ pint cold water, stir in 1 ounce kaffee and add hot water to make a quart. The dose is a teaspoonful before each meal. A course of kaffee treatment rid the body of all impurities, makes rich, red blood and builds up work, waste tissue. Follow my suggestion and your health will soon return, and instead of a "muddy" oily, blotchy skin, it will be clear and radiantly beautiful.

Edith: I always make it a rule never to recommend a recipe unless I am convinced that it is quite harmless. Prunes will dissolve your fat quickly and gently, without producing future ill effects. To prepare, dissolve 4 ounces prunes in ½ pint hot water, and when it cools take a tablespoonful before each meal. This will remove every ounce of superfluous fat and leave the skin smooth.

C. Q. D.: It is distressing, I know, but if you avoid plain, cambric for cleansing the hair and scalp you will not be bothered further with excessive oiliness and profuse dandruff. A teaspoonful cambric dissolved in a cup of hot water is ample for a thorough shampoo, and when this is poured on the head and rubbed up into a thick white lather, it stops the itching instantly. After rinsing your hair and scalp will be wonderfully clean and sweet, and the hair will dry quickly, with a rich gloss and even color. Occasional shampoos with cambric will induce a luxuriant growth of beautiful hair.

Ada: Brooding will not help your complexion. In fact, worry causes wrinkles and crows feet. Make up and use this almonzo cream-jelly and before long the oiliness will disappear, sallowness will vanish and the skin will assume a velvety texture and that youthful much sought after: Into ½ pint cold water stir 2 teaspoonfuls glycerine, then add 1 ounce plain almonzo. When thoroughly dissolved, apply freely to skin and rub in well. This cream-jelly is especially fine for removing pimples and blackheads and in reducing large pores around the nose. Used during the heated term, it prevents freckles, tan and sunburn.

May B: Oily, sticky hair indicates an unhealthy scalp, and to correct this condition you should use a plain quinine hair and scalp tonic, made by mixing together ½ pint each water and alcohol and 1 ounce quinine. The use of this inexpensive tonic banishes excessive oiliness and profuse dandruff and gives to dull, faded hair a glint and rich color and silky softness truly charming.

J. M.: Those aggravating hairs can be banished for all time with one application of a delicate paste. Mix enough powdered delatone and water to cover the hairs, rub softly, then after 2 or 3 minutes rub off, wash the skin and it will be soft, smooth and hairless.

To Keep Skin White, Velvety, Wrinkle-Free

(Aunt Sally in Woman's Realm.)

C. M. W. says: "My arms are so coarse and rough I cannot wear short sleeves. What do you advise?" The treatment recommended to "Auntie" will doubtless overcome this condition.

A. F. G. asks: "What should I do for a rough face and a baggy neck?" Use daily a wash lotion made by dissolving 1 oz. powdered salicylic in 1-2 pt. of water. This is immediately effective in any wrinkles or lumpy condition. Use daily for awhile and results will surprise you.

Auntie: A simple way to keep your skin smooth, soft and white is to apply ordinary mercurized wax before retiring, washing it off in the morning. This keeps the face free from the particles of lifeless cuticle which constantly appear. The wax absorbs these worn-out particles, so the younger, fresher, healthier skin, is always in view. An ounce of mercurized wax may be had at small cost at any drug store. Use like cold cream.

GOVERNMENT VICTORY IS ASSURED; LAKE IT SWEEPING

RECORD OF A GREAT MEDICINE

Doctors Could Not Help Mrs. Templeton—Regained Health through Lydia E. Pinkham's Compound.

Hooper, Nebraska.—"I am very glad to tell you Lydia E. Pinkham's Vegetable Compound has helped me. For five years I suffered from female troubles and was scarcely able to do my work. I took doctors' medicines and used local treatments but was not helped. I had such awful bearing down pains and my back was so weak I could hardly walk and could not ride. I often had to sit up nights to sleep and my friends thought I could not live long. At my request my husband got me a bottle of Lydia E. Pinkham's Vegetable Compound and I commenced to take it. By the time I had taken the seventh bottle my health had returned and I began doing my washing and was a well woman. At one time for three weeks I did all the work for eighteen boarders with no signs of my old trouble returning. Many have taken your medicine after seeing what it did for me. I would not take \$1000 and be where I was. You have my permission to use my name if it will aid anyone."—Mrs. SUSIE TEMPLETON, Hooper, Nebraska.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair.

It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

PLAN VISIT TO STOCKHOLM

Most of Rhodes' Scholars at Oxford will take in Olympic Games -- A Southern Expedition.

London, June 19.—At least half of the Rhodes scholars at Oxford will journey to Stockholm for the Olympic games. It was expected that more would go, but reports of the heavy admission and hotel charges deterred most of the students who are dependent entirely on the Rhodes fund for their support. Lange of Oklahoma and Zeigler of Iowa have been in active training, and they may appear at Stockholm as members of the American team. Lange has been sprinting in good time lately, and he hopes to regain his old-time form in the high jump. Zeigler is easily the superior of any of the English college weight men, and he may prove a valuable second string man for the American team.

The "Mans," a motor auxiliary yacht just launched at Whitstable, is to carry an expedition to the South Sea to investigate the origin of the gigantic prehistoric remains of Easter Island. This island, the most easterly of the Polynesian group, is a lonely dot of land, 45 miles in area, 2,000 miles from the South American coast. Facing the sea on the island are numerous platforms made of un cemented stones, some of which weigh five tons. Some of the sea walls are thirty feet high and two hundred feet long. On the land side are broad terraces, also of stone, bearing pedestals on which formerly stood huge figures carved from lava. Most of these images have been thrown down, but there are 555 of them in the island. One is 68 feet high, with a nose 11 feet long. The figures all extend from head to hips, with receding foreheads, broad noses, thin lips and powerful chins. There is no metal on the island, and the only tool found was a prehistoric chisel, with which it would seem impossible to execute such colossal works. Moreover, the island with its scanty water supply could not have supported enough people to drag the figures from the quarry where they were made to the platforms. Some of the statues weigh 250 tons.

There is every evidence that some great calamity overtook the island and its inhabitants, for most of the figures are unfinished, some of them never having been removed from the quarry. A popular theory is that Easter Island is the sole remains of a continent which was overwhelmed by the sea after a great seismic disturbance. The designs of the same work bear out this theory, for they are strikingly like some of the ancient Peruvian ruins.

The "Mans" expedition, led by W. Scoresby Rautledge and accompanied by geologists and other scientists from the British Museum, will make excavations in an effort to solve the mystery.

A choice pitch on the steps in front of the Stock Exchange has been reserved for the Duchess of Marlborough for the sale of roses on June 25. The date selected by Queen Alexandra for the rose-fete day to be held for the benefit of the hospitals and other charities in which the queen mother and her late husband were interested. The roses will be sold by 500 London women representing all classes, and it is said that at least ten million blossoms will be provided. Prizes have been offered to the woman making the largest sales, and leaders of society are vying with each other in securing the best pitches for this competition. The rose selected by Queen Alexandra for the fete, which she wishes to become an annual affair, will be the wild rose, which has already been christened with the queen mother's name, and the day it will be known as Alexandra Day.

"For 15 Years I Had Eczema"

Mr. C. E. Cramer, farmer, Cramersburg, Pa., writes:—"For fifteen years I had eczema, and for about six years also suffered from itching piles. Seven different doctors were consulted in Canada and the United States, with only temporary relief. The eczema started on the legs and there was almost constant itching and smarting. Sometimes I would have to scratch half the night and get little or no rest or sleep. The very first application of Dr. Chase's Ointment brought relief and after the third application the itching stopped entirely. I now believe the cure to be complete and attribute it to Dr. Chase's Ointment and Nerve Food. The latter was used to enrich the blood, while the Ointment healed up the sores. I am ready to take my oath that this statement is true and correct."

Rich Silverware

—rich in quality and beauty—should grace every home. Choose 1847 ROGERS' BROS. This brand is known as "Silver Plate that Wears" It is the original and genuine "Rogers" as well as the heaviest grade of plate made, sold by Leading Dealers.

PIPIOLASTEL

—The most effective and pleasant remedy for all stomach and digestive troubles. It cleanses, soothes, and restores health. Sold by all druggists.

JOHN BULL—"THE OLD FASHIONED KING FOR ME." —From The Toronto News.

What Siberia is to Political Exiles -- Life Long Misery

Siberia? It is many months now since I saw the last of that terrible land, but the sound of the name still fills me with fear in spite of the fact that I am a free man, writes a correspondent in Amherst.

No one who has spent a part of his life in a Siberian prison is ever the same man again. Formerly I believe the journey took a picture to yourself a long line of prisoners dragging themselves weakly week after week towards some village in the frozen heart of Siberia. Trans-Siberian Railway carries the exiles, herded like cattle in bare vans, to Irkutsk, there to start their long march up-country, chained wrist to wrist.

The village in which the doomed prisoner is fated to spend the rest of his life is perhaps 200 miles off, and the prisoners, chained and half-starved, seldom make more than six or eight miles a day.

Those political prisoners who can pay travel in open carts, but these are few. The man whose only crime has been a hasty utterance or the reading of a Socialist newspaper often travels chained to a murderer or confederate burglar.

Each couple is a bitter farce. There are no books or newspapers. There is no privacy; the police have the right of entry everywhere. Letters arrive a year late, smudged by the police with lamp black and stained with the chemicals used to detect secret writing.

Even in summer the pathless Siberian forests doom anyone not a native. There is no food there. The escaped prisoner usually wanders in a circle till he dies. If he approaches a village the village turns out in pursuit, as there is a reward for his recovery.

Well, I escaped. How? I must not tell you. There is a body in London whose work it is to aid escapes. I cannot tell you about it. We may see that way again.

A woman friend of mine was killed three years ago by the frenzied fellow-prisoner at her side.

When the journey's end is reached at last the "political" settles down to a life from which many have sought an escape by suicide.

He may live where he likes within a given area. He may nominally earn a living as he likes. But in a bleak village on the edge of the Arctic Circle there is practically no work to be had except the drudgery in the government work-sheds.

Journalists, clerks, students are to be found toiling twelve hours a day at mat and rope-making. Women are usually set to work at mattress-making.

All this is done under conditions which make good health impossible. Consumption is the usual end of the exile in Siberia. I have known a friend laugh with joy at finding that way of escape.

If the exile does not choose to work he starves or freezes to death, unless he has money and friends wealthy enough to bribe the local police into permitting him to work elsewhere.

Siberian exiles have been known to grow rich. Monotony of Life. But the eternal monotony of the life usually takes the heart out of even the stoutest.

WEDDINGS

Doherty-Hazel.

An interesting marriage ceremony owing to the popularity of the participants, took place in the cathedral yesterday morning at 6 o'clock, when Miss Margaret L. Hazel, daughter of Mrs. William Hazel, 243 Union street, became the bride of Robert Doherty, son of Pilot Joseph Doherty. The ceremony was performed by Rev. Dr. A. W. Meahan. In the presence of a large gathering of friends and relatives, the bride, who was given away by her brother, Charles Hazel, looked charmingly dressed in a cream cloth tailored suit trimmed with white satin and baby Irish lace and wearing a large white hat with ostrich plumes. She carried a beautiful bouquet of cream roses. The groom was dressed in a champagne colored cloth suit trimmed with white satin and baby Irish lace and wearing a large white hat with ostrich plumes. He carried a bouquet of pink roses. The groom was supported by Frank Carter, a cousin. A wedding breakfast was served at the residence of the bride's parents, after which Mr. and Mrs. Doherty left on a visit to New York and Philadelphia. On return they will take up their residence at 28 Horsfield street. The groom's gift to the bride was a gold watch and fob and to the bridesmaid a silver pin. The newly married couple were well remembered by friends, their large array of presents being both beautiful and costly. The groom is a popular young pilot and this morning, in honor of his marriage, the pilot boat Howard D. Troop was handsomely decorated with flags and bunting.

Byrne-McCarthy. In St. Rose's church, Fairville, at 10 o'clock yesterday morning, Rev. Charles Collins married Nellie McCarthy, of Spruce Lake, and George Michael Byrne, of New River. The ceremony was performed in the presence of relatives and immediate friends. Following the services the happy couple drove to the home of the bride at Spruce Lake, where a bounteous repast awaited them.

Gardenton-Event. A very interesting event took place last evening at the residence of Mr. and Mrs. James Naves, 49 Clarence street, when their daughter, Miss Lillian May, was married to William Giles Gardenton. The immediate relatives of the contracting parties present to the ceremony, which was performed by Rev. M. F. McCutcheon, pastor of the Brussels street Baptist church. It took place in the parlor, under a floral arch of apple blossoms and roses. The bride, who was given away by her father, was prettily costumed in a gown of white silk and orange blossoms. She carried a bouquet of lily of the valley, white roses and maiden hair fern. The bridesmaid was Miss Lillian Gardenton, sister of the groom. She was dressed in pink silk, and carried a bouquet of pink roses. Little Gladys McGee, cousin of the bride, officiated as flower girl, dressed in blue silk tulle, and carried a basket of sweet peas. The groomsmen were Grant Morrey. The popularity of the young couple was shown by the great number of presents received. The groom's present to the bride was a handsome piano, while she received from her father a substantial cheque. There were also many pieces of valuable silverware and china. Mr. and Mrs. Gardenton will leave on Friday for a wedding trip to Boston and other American cities.

O'Keefe-McGilluddy. In St. Peter's Church at 6 o'clock yesterday morning Miss Mary Irene McGilluddy was united in marriage to Patrick O'Keefe, of Fairville. Rev. A. J. Dolke, C. S. B., officiated at the nuptial Mass. The bride, who was given away by her brother, Frederick McGilluddy, was costumed in a travelling suit of blue, with large black picture hat to match, and carried a white prayer book. She was attended by her sister, Miss Nellie, who wore a pretty suit of grey with hat to match. John O'Keefe, brother of the groom, acted as best man. Following the ceremony a dainty wedding breakfast was served at the home of the bride, Main street, after which the happy couple left on the Government or Dingley for a honeymoon trip to Boston, New York and other American cities. Returning they will reside at 299 Douglas Avenue. The popular young couple were the recipients of a large number of magnificent presents, among which were handsome dining room chairs from the Partington Pulp Mill, where the groom is employed. The groom's present to the bride was a substantial cheque, to the bridesmaid a gold locket and chain, and to the groomsmen a gold scarf pin.

Obvious. Mr. Tom Mann, whose imprisonment is still being warmly discussed, told a Coventry audience that he was an agitator. There was an obviousness about the remark that recalled Mr. Zangwill's story of the hunchback.

Money cannot buy a purer, better Baking Powder than **Real Home Baking Powder**. Made from finest French Cream of Tartar. Gives best results for all kinds of biscuits, cakes and pastry. Put up in tins, 10c. to 45c., at your Grocer's. A. W. FUGMAN, LIMITED, BAKERS, MONTREAL.

Gentlemen: Of all Scotch Whiskies sold in Canada today there are none better, or more popular than **BROWN'S FOUR CROWN SCOTCH**. It's smooth, mellow and of old age. It's just the Whisky for all occasions. Ask your dealer for **FOUR CROWN**. **FOSTER & CO.** St. John Agents for New Brunswick.

Vote for the Best Government This Province Has Had Since Confederation

The Men Who Are Honestly Collecting, and Honestly Spending, the People's Money

EVERY VOTE COUNTS

BE EARLY AT THE POLLS

FOR

IF YOU could only see the attractive enough to decidedly cover it to one of my friends she resolved to join me in my endeavor. You a design will do.

It is a large oval placed under the table, the dining table, if on tan or gray linen, the oval library table.

There are so many things that I know you will.

Soft mercerized cotton be used with success. It takes but four or five days, and if you wish why, you can easily make it.

The basket is worked. Go over the outlining overlapped threads to give the work a heavy, since that is very good. Now for the flowers, to work them solid, length of the petals with the over-and-over stitches, very quickly.

Summer Pajamas for Boys

THE mother of boys is a problem of expense. If she will make pajamas for her boys, she will find that a really well-made pair of ready-made pajamas, costing from \$1.00 to \$1.50, will last for a year or more. A year-old boy, counting the cost of a pair of pajamas at 25 cents a pair, 5 cents a pair, and 5 cents a pair, you can easily see how by making them yourself your boy can have two sets for the price of one ready-made.

If your boy already has pajamas that have been bought ready-made, you can take the pattern of them to cut the new ones by; if not, a paper pattern can be bought at any first-class shop.

For summer wear select the softest, coolest material you can find that has body enough to stand the wear and tear of frequent laundering. The very nicest material for this purpose is silk gingham, a cotton goods with a silk thread. The cotton pongee comfortable garments.

Either of these materials for 25 cents, or less, per yard, will make a pair of pajamas.

The best way to cut is to lay it flat and then lay the pattern on it, front of coat, collar and pocket on the material and the back of the coat on a separate piece. Close up the side and of the coat first with a 3/4 seam; join the sleeves even and whip the sleeves are sewed into lapped seams; the coat lined; buttonholes are right-hand side and the left side; the collar to the coat with a felt bottom of the coat and lapped with a plain hem, a patch pocket to the side of the coat if you wish.

Remember that the trousers should be in the least tight. It is best to sew to the top when you are out. Use a French or French making the trousers and top about four inches wide. Face this on one side, and then lay under stitch a piece. The top is finished with a cord, which the trousers. Each leg is finished with the bottom.

Pajamas are really very nice. You get started. They are a delight to make and if made at home, compared with the price made.

How to Transfer

HERE are suggestions for transferring the pattern to any material. Perhaps the easiest way is the "newspaper" method. This is when the material is cut out, and the material is laid flat. Then the newspaper is placed between the material and the pattern. The newspaper is then pressed through the material, and the pattern is transferred to the material. This method is best for heavy material.

The last way is also a good one. It is when the pattern is placed on the material, and the material is pressed through the pattern. This method is best for light material.

Simply the way is easy.

For the INDUSTRIOUS NEEDLEWOMAN

By ADELAIDE BYRD

FOR THE SERVING PLATTER

Designed by ANN J. LOOS

IF YOU could only see this design in its entirety, you would find it as attractive as it is. It is a decidedly convincing. I showed it to one of my friends yesterday, and she resolved to join the ranks of the embroiderers. You see what a pretty design it is.

It is a large oval centerpiece, to be placed upon the serving platter on the dining table. If worked in color on tan or gray linen, it will decorate the oval library table or the long hall table.

There are so many ways of working this that I know you are eager to begin.

Soft mercerized cotton or silk may be used with success. The lovely design can be worked in either solid or eyelets, and if you like a combination, why, you can easily use both.

The basket is worked in outline stitch. Go over the outlining and whip the overlapped threads together. This will give the work a heavy, cord-like appearance that is very good looking.

Now for the flowers. If you are going to work them solid, you will pad the length of the petals with darning cotton. The over-and-over stitch fills the oval spaces very quickly. The solid petals

and eyelet centers make an effective showing.

Outline the stems and work the leaves in either solid or eyelet stitch.

Stem stitch should fill in the handle of the basket. Another effective way is to outline each side and fill in with seed stitching, which is nothing but fine back stitches.

When you work the bow, you can use one of the following methods: Solid Kensington stitch, which runs parallel with the edge of the ribbon and fills in the place in smooth beauty, takes some time. It gives a satiny finish, though, that resembles a bow of ribbon. No padding is required.

Another way is to outline the edges, whip them and then fill in the space with seed stitching, running the length of the ribbon. This is very effective.

Some women like the bow worked crosswise after padding. This gives an entirely different effect, and it paid

work to be your liking. It is to be recommended.

The wreaths at the side of the centerpiece give excellent opportunity for eyelet work. Your own preference will determine how you will work it.

Pad the scallops with darning cotton and work with buttonhole stitches, giving a second treatment, so that no fraying will result.

There! You have the design, the main points in working, and I know you have the enthusiasm. Begin on this lovely centerpiece, for I have a store of other beautiful designs coming.

Summer Pajamas for Boys

THE mother of boys will find the problem of expense greatly simplified if she will make their pajamas and shirts at home.

A really well-made set of pajamas, ready made, costs from \$1 to \$1.50, and as it takes but four yards of single-width material to make a set for a 14-year-old boy, counting the cost of material at 25 cents a yard; buttons, 3 cents; a spool of cotton, 5 cents; and tape, 5 cents, you can easily see how by making them yourself your boy can have two sets for the price of one ready made.

If your boy already has pajamas that have been bought ready made, you can take the pattern of them to cut the new ones by; if not, a paper pattern can be bought at any first-class shop.

For summer wear select the softest, coolest material you can find that has body enough to stand the wear and tear of frequent laundering. The very finest material for this purpose is silk gingham, a cotton goods with a silk thread woven through it. The cotton possesses also much of the comfortable garments of this kind. Either of these materials can be bought for 25 cents, or less, per yard.

The best way to cut the material for sewing is to lay it doubled on a table, and then lay the pattern on with the leg, front of coat, sleeve portion, collar and pocket on the straight of the material and the back of the coat having its center on a lengthwise fold. Close up the side and shoulder seams of the coat first with a French or lapped seam; join the sleeves with a plain seam, and whip the raw edges. The sleeves are sewed into the coat with lapped seams; the coat's front is hemmed; buttonholes are worked on the right-hand side and buttons sewed on the left side; the collar is then attached to the coat with a felled seam. The bottom of the coat and sleeves are finished with a plain hem. You may add a patch pocket to the upper left-hand side of the coat if you wish.

Remember that the trousers legs must not be in the least tight, and if the boy is stout, it is best to allow extra width to the top when you are cutting them out. Use a French or lapped seam when making the trousers and leave an opening about four inches long at the front. Face this on one side, and on the other (that laps under) stitch a two-inch wide piece. The top is finished with a two-inch facing, through which runs a piece of cord, which ties around the waist. Each leg is finished with a hem around the bottom.

Pajamas are really very easy to make, once you get started. Those of silk or pongee are a delight to any boy or man, and if made at home, will cost little compared with the price of those ready made.

How to Transfer

HERE are suggestions for transferring the pattern, before you go to any material before working. Perhaps the easiest way is the "wax-paper" method. This is successful when the material is thin, like linen, batiste, etc. Pin the sheet of paper and the material together and hold them up against the glass of a window. With a sharp pencil draw on the material the design, which can be easily seen through the glass. If one-half of the design only is given, unpin the paper and turn the other side to the paper and trace the design on the material. The strong light behind will make it plain.

If you have carbon paper, you should place the sheet between your fabric and the newspaper. This latter is on top. With a sharp pencil go over the outline of the design. The lines will be left in fine lines and will last until washed. This method is successful on heavy material.

The last way is also easy. On wax paper or ordinary tissue paper trace and outline the pattern with a heavy lead pencil. Turn over the paper and press down on the fabric and redraw the outline, pressing hard with the pencil. The pattern will be transferred without difficulty.

Barely the way is easy.

A Bead Necklace

MOST girls love to wear a pretty string of beads, especially with their frocks and blouses just after they get out of school. But every girl cannot afford to buy the beautiful and curious bead necklaces that are now so fashionable.

Sometimes these cost many dollars and are considered to be very valuable possessions; and, indeed, the curiously wrought oriental-looking beads make a charming finish to the neck of any gown.

Do not despair if you cannot afford to buy; make a bead chain for yourself, and be happy.

Very lovely are those made of large round or elongated Venetian beads alternating with strings of fine gold beads.

At the antique shops you can purchase the Venetian beads (get eighteen or them for a fifteen-inch necklace), and a bunch of the small gold beads that can be purchased at any art needlework department at the large stores, and a little gold-filled clasp for the neck.

String twelve beads and then a Venetian bead, and repeat this until you have used up all of the eighteen large beads. Use strong linen thread that has been waxed for the work; thread this as fine a needle as it will take, or if the needle is too coarse, wax the end of the thread until it is stiff, then push this through the hole in the beads.

Attach the clasp by string the thread in a small tight knot at the end and covering it with a small bead.

Oriental beads of porcelain or glass are beautiful when combined with the small gold or silver beads. Beads of opalescent crystal are also very beautiful, and can be worn with any colored dress.

If you want a long chain of beads, make the thread when finished fifty-four inches long. This will do either to wind several times around the neck or to fasten to a watch to wear tucked into the belt of your blouse.

Since these bead chains are so generally favored, why not make yourself one or two to add charm to your summer frocks.

Filling for Summer Cushions

ANY woman can make herself a number of inexpensive cushions for the summer bungalow or the porch of the little house in the country by cutting a roll of cotton batting into small squares and heating it in a baking pan in the oven for half an hour. Each little square of cotton will fluff up to twice its natural size, and will be as light as a feather; but you must take care not to have the oven too hot or it will scorch.

Use half a roll of cotton for each pillow, filling a multi slip eighteen inches square. Cover this with a dainty slip of some material that will wash well—chiffon, flannel, or cotton, and cover with a gray stamped cover that can be bought for the purpose—and your summer cushions will be a joy for the entire season.

For Home Dressmakers

WHEN a seam becomes wrinkled in sewing on the machine, dampen it slightly and press it on the right side with a warm iron, laying a piece of the same material over it and pulling the seam gently, as you run the iron over it. This will shrink the material and the seam will become quite smooth.

When putting a hem in a skirt, loosen the stitch on the machine and stitch the edge of the material. This will draw in any fullness and it will be unnecessary to lay darts or pleats in the goods when the hem is sewed in.

Helpful Hints

IN ORDER to keep the correct width in drawn work it is best to always draw the threads by measurement rather than by counting them, as the threads in even the best linen are sometimes of uneven thickness.

One of the most useful things to keep in the sewing basket is a small pair of tweezers to pull out stubborn threads left in the basting, especially those that the sewing machine stitching has gone over.

A labor saver when basting straight seams is to use the little wire paper clips to hold the material together, instead of sewing the seam the full length. They will hold it perfectly even and will not fall out, as is the danger with pins.

A satisfactory way to prevent hand-burnished scallops from fraying is carefully to cut away the material from the edge of the finished scallop and overcast, bringing the needle up inside the purged edge, making very small stitches.

When Yokes Shrink

FEW of us have escaped the horror of finding, after our summer frocks or gowns have been returned from the laundry for the first time, that the yoke has shrunk and the collar is entirely too tight for comfort. It is the experience of almost every woman before the season of thin, cool frocks is over, and one that few know how to remedy.

Should the yoke of your frock require to be enlarged, add the width at the center of the back and the shape of the yoke will not be spoiled.

This can be done either by letting out the hem in the back and facing the raw edges or by inserting a narrow lace insertion on the inside of the hem, each side of the opening.

The fact that almost every lace or embroidery yoke opens in the back makes this a simple task, and as a yoke rarely requires more than an inch of additional width, simplifies the matter greatly. Don't despair if you are confronted with a too tight yoke; make it comfortably large in this manner.

USES FOR OLD KID GLOVES

THERE are many uses for the tops of your old kid gloves. Do not consign them to the scrapbasket before you have tried at least some of the useful and dainty ways to utilize them.

A very lovely little handbag is made from the tops of both gloves; if they are sixteen-button length, so much the better; but the bag can be made from twelve-button length gloves.

Cut the glove tops off as close to the wrist opening as possible, then cut the seam off very close. This will give two pieces about six inches wide at the bottom and eight inches wide at the top. Lay them together and cut them eight inches long, or, if that is not possible, as near to that length as you can.

Keeping the widest part for the top, lay the pieces with the right sides together and stitch them on the sewing machine, rounding off the corners at the bottom. One inch and a half from the top cut six one-half inch long as you would for a buttonhole, placing them one inch apart. These you may outline with the outline stitch if you wish, although they do just as well if left with a raw edge, and through them run half-inch-wide ribbon matching the color of the kid, or a silken cord of the same color, to draw the mouth of the bag together.

Have your monogram stamped on one side of the bag, or, if you are clever with a pencil, you may mark it yourself. This is to be embroidered with silk floss or outlined with small crystal beads and filled in with gold or silver beads. The decoration can be in a conventional design and carried out in any way you like best; but the beaded designs are most effective.

These little bags can be lined with silk or satin, as you wish, or can be left unlined if the kid is of a good, thick quality.

Unusual and very attractive are novelties for the hat that are made from the tops of suede gloves. The tops of a pair of white or colored gloves (not black), a spool of fine milliner's wire, a steel knitting needle and an awl or very large needle for punching holes and you are ready for work.

In a wreath enclosing a natural-colored straw hat, white kid was used for the flowers and golden brown for the leaves and calyx. A paper pattern having five flower-shaped petals and a simple leaf design having five sections, also a five-pointed star a little smaller than the flower pattern, were cut out. The flowers were 2 1/2 inches in diameter and the other portions cut accordingly; but you may suit yourself in size.

Lay the pattern on the kid and mark the outline with the knitting needle; do not use a pencil or the marks will show; then cut out very carefully and press them into a basin of cold water.

When they have become thoroughly wet through, take out and absorb the superfluous water with a towel or by laying them between blotting paper. While they dry out a little cut thin strips of the kid four inches long and wind around the wire for the stems, securing each end with a drop of glue. Make stems of a strip of kid one-half inch wide and 1 1/2 inches long, cut in quarter-inch bits on one side. Roll this around the end of the stem wire and, punching a hole through the center of the flower portion and the calyx, run the stem first through the former, then through the latter and put a drop of glue in the hole to secure them to the stem.

Veins on the flower cup are marked with the point of the knitting needle, and then the petals are rolled up at the edges over the needle and the round head of the awl is pressed into each petal to give it the cusped appearance. Lay them aside to dry and the flower is ready to use. A piece of wire is glued to the center of each leaf on the under side so that it can be bent in shape and the leaf veins are marked with the knitting needle.

If you like, after the flowers are dry, they can be tinted with watercolor paint, and if you make the leaves of white kid they also can be tinted green, and you can make a variety of flowers by using different colored kid or tinting white in any shade you like best.

The work is not difficult, but forms a delightful amusement for the woman who loves to make dainty things with her fingers.

Fastening Skirts and Yokes

SKIRTS and dresses have an unpleasant way of splitting down below the limit allowed for the placket hole, no matter how firmly they are stitched, and some thin fabrics require very careful handling, or the stitches show and look unsightly on the right side.

An excellent plan, and one by which all such troubles are avoided, is to sew a hook and eye at the extreme end of the placket, hook it together and pinch the hook tight so it cannot come undone. This will keep neat and prevent the opening from tearing down when the dress is slipped off and on.

When making a bodice with a lace yoke, a good plan instead of sewing it in is to sew snap fasteners on; then it can be removed and washed when it becomes soiled, without the trouble of ripping out stitches and sewing the yoke in again.

To keep the blouse in position around the waist line, get two parent fasteners and sew the pointed part to the waist line of the blouse and the eyelets to a piece of wide elastic, making them correspond in position to those on the blouse. Fasten the elastic with a hook and eye at the ends.

This is an excellent plan for a blouse that is not lined, as it allows it to rise and slip down again in position when the arms are raised or lowered.

One-half of design

Summer Hatpins

SMALL handmade lace medallions of Irish crochet are delightful little covers for pins worn in the summer hat.

Select smooth-topped hatpins, any size you like best, although it is best not to have them over one inch and a half in diameter, and cover their tops with pieces of dark-colored silk or satin. Have white satin for the all-white hat, and crochet dainty lace covers, placing a little lace flower in the center of each. The pin is covered with silk first and then the lace cover is sewed on underneath the pin's head. These can be easily taken off and washed if they become soiled.

THE WEATHER

Toronto, June 19.—Pressure is low... Minimum and maximum temperatures—Victoria, 58, 72; Vancouver, 58, 74; Edmonton, 50, 82; Calgary, 52, 82; Prince Albert, 52, 84; Moosejaw, 54, 84; Winnipeg, 52, 74; Port Arthur, 52, 76; Parry Sound, 44, 66; London, 42, 73; Toronto, 44, 69; Kingston, 44, 64; Ottawa, 44, 72; Montreal, 50, 70; Quebec, 48, 74; St. John, 52, 68; Halifax, 50, 74.

AROUND THE CITY

TO SUBSCRIBERS. Many persons who have recently subscribed to The Standard for the first time, or who have paid for renewals, are writing to this office complaining that they have not yet received their papers, or that the dates on the mailing labels have not been changed.

Will all who are suffering in this way kindly have patience. As a result of the contest which closed some ten days ago, so many new and renewal subscriptions were received, that it will be at least two weeks longer before all papers are started and all corrections made.

Parcel Found by Police. A parcel found on Charlotte street yesterday awaits the owner at the central police station.

Police Assistance Asked For. Policeman Whittier was called into a Brussels street house yesterday afternoon to quell a disturbance.

Dog Owner Reported. James A. McKenzie, 48 Exmouth street, has been reported by Policeman Whittier for allowing a ferocious dog to run at large whereby George McLean, 15 years of age, was severely bitten on Monday, Tuesday and Wednesday.

Sprained an Ankle. About 3:30 o'clock yesterday afternoon Miss Annie Logan, of 315 Brussels street, fell near the pavilion in Rockwood Park, and sprained an ankle. Policeman Pitt summoned the ambulance, and the injured girl was conveyed to her home.

The 62nd March Out. The 62nd Regiment under command of Lt. Col. J. L. McAvity had a march out last night. The companies turned out strong and the steady marching of the men was highly commented on by the thousands of people who lined the route of procession.

North End Police Reports. The North End police yesterday reported Edward Brown for driving a team loaded with gravel on the sidewalk of Main street, Frank Finlayson was also reported for interfering with the police in the discharge of their duties in connection with the reporting of Brown.

More New Settlers. The work of the local government in advertising the advantages of New Brunswick as a field for settlers, has had very important results so far this year, and immigrants are still coming in from the Old Country.

PERSONAL

Arthur P. Hazen, manager of the Bank of British North America, will leave on June 30th for Montreal to take up the duties of general manager of the bank in that city.

Mrs. Arthur Gardner of Yarmouth, N. S., is on a visit to her cousin Mrs. Alfred Wells, King street east.

Hugh Walker, manager of the St. John Seaman's Mission, will be a passenger on the Donaldson line steamer Saturnia, leaving Montreal for Glasgow next Saturday.

W. S. Fisher arrived in the city on the Halifax train yesterday afternoon.

Mrs. E. R. McDonald, of Shediac, arrived in the city yesterday afternoon.

Miss McLaren and Miss Crosby, of this city are guests at Halifax Ladies College, for the college commencement.

Prof. Perry, of Acadia University was in the city yesterday.

W. H. Smith returned yesterday from a business trip to Nova Scotia.

Mrs. C. E. L. Jarvis has returned to her home after a visit to Nova Scotia.

Mr. and Mrs. J. McMurray Reid came in on the Prince Rupert yesterday afternoon.

George A. Clarke, of A. R. C. Clarke and Son, left last evening on a business trip to Boston.

Outing Trouser Cleaned. Send along last season's and have them Dry Cleaned. We make them like new, in a day or two, at little cost. Try Ugar's, 38 Waterloo street.

WANTED—Kitchen girls, at Royal Hotel.

Voters, Attention!

The Local Government party for both the City and the County have opened headquarters at Room No. 11, Ritchie's Building, 50 Princess street, Phone Main 25. Information regarding the voters' lists, etc., can be obtained by calling or telephoning.

Residents of St. John City or County whose names appear on the voters' list in other counties, or any resident of St. John whose name has been accidentally dropped from the last list can have their names placed on the list by calling at the office of Inchoe and Hazen, No. 128 Prince William street, second floor, or Phone Main 390.

HOW TO VOTE

Polls will open at 8 a. m., and remain open until 4 p. m. There is no official ballot in provincial elections. Section 81 of the Election Act is as follows: The names of all or any number of candidates at an election may be written or printed upon the ballot paper. The voter shall mark through or strike out the names of all except the names of the candidates for whom he wishes to vote and the ballot so marked, if otherwise good and valid, shall be counted.

The elector on entering the polling booth after giving his name shall receive from the deputy returning officer an envelope on the back of which the deputy returning officer has written his initials in black ink in the presence of the elector. On receiving the envelope the elector will proceed into a compartment screened off so that the voter shall be wholly concealed from the rest of the room and shall there place his ballot paper in the envelope and return it unsealed to the deputy returning officer, who shall immediately, in the presence of the elector, place the envelope in the ballot box.

No deputy returning officer shall receive from any elector an envelope until the elector has proceeded to the compartment screened off.

An elector will not lose his vote because another man has voted his name, in such a case he may make oath that he is the man who is credited on the deputy returning officer's list, and this official will then allow him to vote.

Should the name of an elector be misspelled he is also entitled to a vote on making the required oath.

Ballots may be partly written and partly printed. All written or printed ballots must be printed or written in black ink or with a black lead pencil on white paper only.

No ballots shall be rejected by the returning officer by reason of the names being partly printed and partly written or by reason of a name or names having been marked through or struck out.

LEONARD WILLIAMSON TURNS UP AT McADAM

Young Man Thought to Have Been Drowned had Merely Been Seized by the Wonderlust.

Word was received in town yesterday that Leonard Williamson, who caused his friends so much anxiety by his sudden disappearance from Williams' Wharf, last Sunday, had turned up at Alcadam Junction. Young Williamson was found by his father, who went to McAdam to follow up a rumor to the effect that his son had been seen there.

It seems that the roving spirit got a grip on the lad and he decided to run away from home and try for his own fortune. He went out for a row Sunday afternoon and in some way got to shore, pushed off the boat, and walked to Westfield, where he took the train to McAdam.

The news that Williamson has been found will come as a great relief to his family and friends as it was thought that he had been drowned and that the party had been at work for the past two days searching for the body. However, he has turned up safely and will return home with his father.

A PROTEST FROM BOSTON

Boston, Mass., June 18th, 1912. To the Editor of The Standard.

Sir—In looking over a recent issue of the St. John Telegraph I notice that at an opposition meeting held in Fairville Messrs. Bentley and Lovell mentioned my name in connection with the suspension bridge repairs.

I wish to state that the charges for these repairs, which were carried out jointly by William Lewis and Son, whose name was not mentioned at the meeting, and by Ainslie Brown, were fair and just as far as James and I were concerned. The charges were not excessive for the amount of work performed, and the profit no larger than it would be on any private contract.

Very truly yours, HENRY ATKINS.

RESIGNATION OF REV. T. D. BELL HAS BEEN DEMANDED

By People of Rustigomish Circuit of Baptist Churches in Sunbury County—Active in Politics.

Fredricton, June 19.—Rev. T. D. Bell, a Baptist minister, who has been in charge of the Lincoln, Waasita, Rustigomish and Nasonworth churches in Sunbury county, has lost his pastorate as a result of participating in politics too actively.

At a meeting of the congregation at Rustigomish recently a resolution was adopted asking that Mr. Bell resign, and he has complied with the request of the meeting. Mr. Bell is in Fredericton today and when asked as to his plans for the future, said that he had nothing of a definite nature decided upon.

Mr. Bell had been pastor of the circuit for three or four years past, making his home at Rustigomish. When the meeting was held by the congregation to consider what action would be taken Mr. Bell was absent, being at Geary addressing a public meeting.

Mrs. John Carvell. The death occurred yesterday after a lingering illness of Mrs. Carvell, widow of the late John Carvell, in the 70th year of her age. The deceased lady was the last survivor of her immediate family, her husband and children having predeceased her. For several years she had made her home with her daughter-in-law, Mrs. Edward Carvell, from whose residence the funeral will be held tomorrow.

Mr. Pugsley and his machine will go down to defeat in every section of the Province on Thursday. The people have had enough of suspense accounts and corrupt practices and are in favor of honest government.

Waterbury & Rising, Ltd.

Three Stores King St. Union St. Mill St.

The Best Quality at a Reasonable Price

Do you carry a spare pair of glasses to use in case of accident? The annoyance you must put up with while waiting for the necessary repairs is often much more costly than the extra pair would be. If you find it difficult to get along without your glasses, bring yours in and let us duplicate them. We can make a pair just like those you are using, or we will test your eyes and make you new ones.

There is a Corset Here to Make Your Figure Look Its Very Best

You can see a difference between personal style and fashion. Style is the aim, the poise, the grace—the movement that is your own—if your corset is properly fitted. A pretty figure is hard to conceal. There is a corset designed to make your figure look its very best—but that corset cannot be chosen by guess work. Here you will find the most favored corset models, each designed to produce utmost perfection when properly worn. Our experts are able to tell almost at a glance the best make and best model to give the right lines on each particular figure.

- At \$1.15, white only, long front and back, four suspenders, a comfortable model for slight or short figures.
At \$1.25, medium bust, long directors skirt, for average or slight figure, four suspenders.
At \$1.75, white only, very low bust, long overlap, abdominal suspenders front and sides, well boned and durable.
At \$1.90, white only, a reinforced spon front corset, both medium and low bust, long skirt, four suspenders. A strong double boned corset suited to average or full figure.
At \$2.25, medium low bust, very long skirt, drawers and book, six suspenders, trimmed lace and ribbon. A well shaped corset for full hip.
At \$3.00, an extra long corset of fine French coutil, medium bust, six strong suspenders, and drawers. A beautiful shaped model.
At \$3.75, the celebrated Nemo corset, the only corset that will reduce the figure without injury.
At \$3.75, high and low bust, long skirt.
At \$4.75, high and low bust, extra long skirt.
At \$1.15, white and drab, long directors skirt, four suspenders.
At \$1.50, white only, medium bust, very long directors skirt, six suspenders, trimmed Val. lace, for the average figure.
At \$2.00, white only, medium height, medium length corset, for a slight figure, satin top, four suspenders.
At \$2.05, drab only, a medium bust, long hip corset, lace on side from waist line to bottom, double across hip, therefore cannot break; for medium or stout figure.
At \$5.00, a front laced corset, medium bust, medium length front and back, four suspenders, top Hamburg trimmed; sizes 19 to 24 only.
Corset Accessories, of every description to reduce the full figure or build up the slight figure. Brassieres, 75c. \$1.10—An article that no well dressed woman should do without.
Waisted Rust Resisting Corset Shield, strengthens the corset and minimizes breakage, supports the figure and improves the form. Covered with best material and adaptable to every make of corset. Price 25c. pair.
