Attorney-General of Ontario Who Charged Board With Showing Strong Favoritism.

ACCUSE RANEY OF STATEMENT

Which Board Claims as Wholly Untrue and That Stenographic Reports Will Prove Contention.

OTTAWA, April 30.—(By Canadian Press.)—The outcome of criticism which the Attorney-General of Ontario, Hon. W. B. Ranev, has leveled at the members of the board of Commerce recently in the conduct of an investigation into an alleged collusion of persons in Ontario, is that the board of Commerce has issued a statement refuting Mr. Ranev's statements and quoting evidence from the official report of the board's inquiry to show that Mr. Ranev was in error in his declaration of the treatment meted out by the board to one witness, an employee of the Canadian General Electric, at Hamilton, whose telephone and radio communications to Premier Duggan appear to have precipitated the inquiry into the alleged collusion.

The statement of the board remarks that it is proceeding steadily with its investigation into the production of sales of foodstuffs generally, and that it will shortly resume its public inquiries into specific wholesale and retail businesses, and under its direction in due course, maintain the board's records of its observations at the hearing of a member of the board, suggesting that he had such to make "who would not have dealt with other fact or inuendo behind the shield of legislative privilege."

REMILLARD'S SISTER ON WITNESS STAND

Tells of Happenings on Night Lieut. Morrisette Was Shot for Which Brother is Held.

Quebec, April 30.—The chief witness in the trial of Colonel Remillard, charged with the murder of Lieutenant Lucien Morrisette, at Bonville, was his sister, Gabrielle, who swore that the accused had told her on the night of the murder that he was expecting someone who, he said, was one of the friends of their mother. Prior to the shooting she had heard her brother tell her mother to answer the back door and some time after her mother had gone to the front door and she heard her say to someone "My friend, I do not know you." Then she heard two shots. She went downstairs and saw her brother crouching in with a body. In conversation Miss Remillard said she heard her brother say to a telephone call, "Come up, it's all right."

PARLIAMENT COMPLETES ITS SECOND MONTH

Progress Has Been Slow and by No Means Indicative of Proration at Early Date.

GRAND TRUNK BILL MAIN ISSUE

Before the House, Calling for Ratification of Agreement for Acquisition of G. T. Property.

Ottawa, April 30.—With the Budget still to come and little supply voted, Parliament has completed its second month. During the last four weeks progress has been slow and by no means indicative of proration so early as the more optimistic at first predicted. Apart from the Franchise Bill—discussion of which was carried on from the previous month—the main issue before the House has been a bill to amend the Grand Trunk Railway system by the Dominion Government. This bill was a sequel to legislation passed in the special session of last year when purchase of the Grand Trunk was authorized after a long fight both in the House and in the Senate. It sought to correct some minor defects in the agreement. But it again threw open the way to discussion, and action was not slow to take advantage.

CONNECTICUT STATE GUARD CALLED OUT

Authorities Hear of Attempt Planned to Blow Up State Building.

Hartford, Conn., May 1.—Colonel Charles W. Burpee of the First State Guard Regiment here, at 1.10 this morning, called his staff out. There was much secrecy in the warnings and the cause for the call. It was given out officially by Colonel Burpee that the call was sent to all officers and men of the State Guard as the result of a telephoned tip that the Capitol Building, the State Armory and the East Hartford bridge were to be blown up before dawn. The Capitol was heavily guarded, and at two o'clock a cordon of men was thrown around the State Armory. A detail was on its way to the East Hartford bridge, and from all points in the city State Guardsmen were rushing to the armory, the place for reporting.

FARMERS HAVE THIS COUNTRY BY THE THROAT

Declares a Farmer Member in Commons in An Address Opposing the Oleo Resolution.

ALL PARTY LINES WERE OBLITERATED

And a Free For All Discussion of the Resolution of the Minister of Agriculture Took Place.

Ottawa, April 30.—(Canadian Press.)—"That God the farmers have got into a position where they can say, and they are doing it, and will continue to do it 'we have this country by the throat. They have us by the throat long enough and now we will defend ourselves.'" This declaration came in the Commons today from John East, (Dufferin) when he was opposing a resolution by the Minister of Agriculture for one year the time for importation and sale of oleomargarine.

The resolution provided a free-for-all where support or opposition cropped up regardless of party lines. Several Unionist members, chiefly from the rural districts, opposed the bill. Donald Sutherland (South Oxford) hinted that in some way oleomargarine was partly responsible for the war. At least, he said, the countries which had been the heaviest users of oleo were those which stood aside and watched the ravaging of Belgium without helping her. The Canadian soldiers, who had been to fight for Belgium, were not reared on oleo. Mr. Sutherland predicted grim hunger striking throughout Canadian towns this winter unless there was a bumper crop.

THE BISHOP OF BIRMINGHAM ON BIRTH CONTROL

The Small But Healthy Family Ideal to be Aimed for.

MANY MARRIAGES AND LOWER DEATH RATE

Among Babies Will Solve Problem of Future Population of Country.

The Bishop of Birmingham, England, appears to be a pretty wide awake ecclesiastic and not very keen up with the times, but keeps a head of it. Consequently he is a leader of men, and women; and naturally wields a powerful influence in the community. Discussing the most vital problem of the hour, his reverence says:

"People must clear their minds once and for all of the idea that the restriction of births is a purely selfish action on the part of the parents. That births are deliberately restricted by married people has long been well known to every one who is concerned with the actual realities of life and not with what life is supposed to be and is well known not to be.

"But there are two dangers which must be faced by all those who not only acknowledge that the restriction of births is prevalent, but who also approve of it and definitely advocate it. The small family is the ideal family so long as the doctrine of the small family is not pushed to extremes. Not only with this reservation, it is the ideal family, but it is the type of family which the people of this country now accept. All the more reason why the reservation I make should be clearly understood.

"By pushing the doctrine of the small family to extremes we may have (a) the childless marriage, or (b) the one child marriage. The childless marriage especially is not nearly so uncommon as people suppose. This is especially true of the lower middle classes. It reduces marriages to a farce and then to a tragedy. Without a child or children there had better be no marriage at all. The marriage debt is not paid until the child is born. If like no had a thing as the childless marriage, but it is open to criticism.

"We have therefore got to face the fact that the small family is the fashionable family. But it must not be a childless or a one child family. It must be a family of two or three children. But even then, the survival rates of a high birth rate, we shall not be getting enough babies! Permit me to point out with emphasis that this entirely depends on the number of marriages. The root of the birth-rate problem lies in two things. First of all the proper thing to consider is not the birth rate at all, but the survival rate—that is to say, it is no good having a high birth rate if you also have a high death rate, because the one offsets the other. And the second thing is that there must be a high marriage rate. With plenty of marriages, small families are altogether good.

"Let us sum up. We want plenty of babies. Very well. It is no good having plenty of babies if they die. Therefore what we really want is a reasonable number of healthy babies. We have the best chance of getting these if we accept the small family as something deliberately attained, not as a result of the very best of reasons. Very well, the conclusion is perfectly clear. We must have plenty of these small families, and therefore, in every possible way, at the present time, marriages must be encouraged. Such is the doctrine I preach," says the Bishop, "and have preached for the past four years. The encouragement of marriage, the popularizing of marriage, the education of the people to teach them that in marriage alone can a man or woman attain a full knowledge of life, and a full realization of human responsibility—these are the means by which the desired ends can be obtained. And, in my opinion, they are the only means."

LABOR CONFERENCE ADOPTS RECOMMENDATIONS ON MINE LAWS

Would Give Greater Power to Inspectors and Regulate the Appointment of Such Inspectors and Mine Bosses — Fixes Minimum Age for Boys in Mines.

Ottawa, Ont., April 30.—The following recommendations on mines and mining laws were adopted by the Labor Conference:

1. That the age of 14 be the minimum age for boys working around mines (above ground), and that no boy be allowed to work beneath the surface unless he has attained the age of 16.

2. That no boy under 18 years of age shall be in charge of or operating any power machinery used for moving material in a mine, and no person other than a man of 21 years of age or over shall operate any power machinery used for raising or lowering persons in a mine.

3. In order to bring uniformity in mining laws, we recommend that all provinces shall enact regulations in mining laws providing for not more than nine hours as a legal day's limit of the work, as interpreted already, wholly or partly, in the existing laws of Alberta, British Columbia, Ontario, Quebec and the Yukon.

4. That payment of wages at least semi-monthly be made compulsory by law in all provinces where such legislation is not already in existence, such payment to be made by cheque or order, and that every person who performs labor for wages shall have a lien thereon.

5. That legislation be enacted in all provinces where legislation is not already in existence, providing that no amount may be retained from wages of an employee except such sums be for powder, coal oil, rent and such doctor and hospital fees as may be approved by the Workmen's Compensation Board, and supplies necessary to the execution of the work carried on by such employees, nor shall an employer apply the wages of an employee

Therefore what we really want is a reasonable number of healthy babies. We have the best chance of getting these if we accept the small family as something deliberately attained, not as a result of the very best of reasons. Very well, the conclusion is perfectly clear. We must have plenty of these small families, and therefore, in every possible way, at the present time, marriages must be encouraged. Such is the doctrine I preach," says the Bishop, "and have preached for the past four years. And, in my opinion, they are the only means."

6. That legislation having for its object the restriction of the hours of work in mines, and that every person who performs labor for wages shall have a lien thereon.

7. That where, in any province, examinations are required for certificates of competency for mine managers, pit bosses and other working officials, such examinations shall be conducted by a board composed of a Government Inspector, working miner and a mine manager.

8. We would recommend that all candidates for certificates as mine managers, pit bosses, etc., shall have at least five years' mining experience, produce evidence of ability, sobriety and good conduct, and be at least 23 years of age.

9. Mine inspectors shall be holders of mine managers' certificates with at least seven years' mining experience in the class of mines of which he is made inspector. He shall not be interested in mines in his district, either directly or indirectly.

10. We recommend that, without limiting the powers of inspectors, an inspector shall have power to enter, inspect and examine any mine or any part thereof at all reasonable times by day or night, to examine into and make inquiries respecting the state and condition of mine, the ventilation and safety of mines, to give notice in writing of any matter, thing or practice which he considers dangerous or defective, and of its immediate remedy. If disagreement follows the defect shall be referred to a board of arbitration consisting of a judge and representatives of interested parties, the decision of this tribunal to be final.

11. Resolved, That all mines shall have an adequate amount of ventilation passing therein, and all mines be examined before the workmen enter the mine, and that a report of such inspection be made in a book to be kept at the mine for the purpose, and such report shall be available to any workmen employed in the mine.

FRANCE TO FIGHT OIL TRUST GRIP

Government Announces Intention to Free Nations from Foreign Companies.

SEEKS COLONIAL WELLS

Deputies Charge That Republic is at Mercy of Private Pool.

Paris, April 29.—Developments at the San Remo conference and elsewhere showing that oil is steadily becoming an increasingly important factor in world politics provoked a debate in the French Chamber of Deputies regarding France's position in the face of this new weapon.

The change was made by several Deputies from France, without her own supply of oil, is at the mercy of a private oil pool of ten French firms affiliated with two "oil monopolies" which control the world's oil supply—the Standard Oil Company and the Royal Dutch Company, the latter being controlled by the English trust, in which it has been reported the British Government is buying an interest.

The oil question is brought up in an article of the new budget which would give the Government control of the sale and distribution of oil in France, but not its importation, which, it was charged, would be again in the hands of the oil pool.

A demand by Socialist Deputies for Government control of importation as well led to the declaration by the Government that if this were adopted the trusts would refuse to deliver their products. The Government announced, however, that its experts would start immediately studying ways to "free the nation from the grip of foreign oil companies," and added that oil is now being bought in the French colonial possessions of Algeria, Madagascar and Indo-China, and a little has been found already at some places.

The debate brought out that oil was becoming more important than coal and that the French supply was only a tenth of the nation's needs. The gravity of France's situation was emphasized in heated debate when it was disclosed that Clemenceau in December, 1917, called a virtual ultimatum to President Wilson demanding that America send France oil immediately. The appeal had to be renewed two weeks later, it was charged, after Andre Tardieu, then French High Commissioner in the United States, who had been negotiating with the Standard and Royal Dutch Companies complained of secret maneuvers to prevent him from buying oil.

M. Barthe charged that the French oil pool had inspired these maneuvers and that their profit a year ago was fifty per cent of their capitalization. M. Tardieu confirmed the fact that he had met with resistance from the refineries.

M. Barthe charged that the budget proposed by M. Marguier, Minister of Finance, inspired France to the direct question whether it was impossible for the Government to buy oil from the Standard and Royal Dutch companies and fix the price. The Finance Minister said it was not utterly impossible but that one of these two companies would probably refuse, the Government oil. It was intimated that the Government had information which it could not make public concerning the situation and its request this article in the budget was postponed.

During the war the Government did the importing and the allied economic pool arrangement and realized a profit despite the attempt to sell at cost, which is now admitted as showing how the oil trusts are able to profit through the control of oil importation.

Commenting on the debate, Hum, editor of the Socialist organ, credits the Socialists with having exposed the Standard Oil trick and prevented the adoption of the Government's proposition, which now goes over for further debate.

Dempsey Will Get Plenty of Offers

Jack Dempsey will get plenty of offers for bouts if he is acquitted of the charge of assault during a stay in San Francisco. Promoters in various parts of the country have put in bids for Dempsey's services, believing that if he is acquitted he will be allowed to start again with a clean slate.

Dempsey, unlike Carpenter, is not going to wait until the big international match before donning gloves. The champion declares that the best any of the contenders can do is to afford him a little slight exercise and that he sees no reason why he should not pick up some easy money by going through the list once more.

If Dempsey is wise he will stick to that programme and lose no time in getting into action as soon as he is at liberty to do so. If Jack had kept on fighting after beating Willard it is probable that nothing would have been heard of the present charges. Nothing was heard of them while he was meeting all comers and challenging Willard. It was not until he began posing for pictures and talking of million dollar purses that the fans stopped thinking of what a wonder he was with the gloves and began to pay attention to his war record.

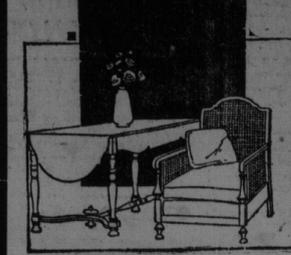

Dempsey can go a long way toward regaining popular favor by picking out the best of the contenders, and taking him on without laying too much stress on the financial end of the match. That Fred Fulton is the best of the American contenders, there is no question. At the present time lanky Fred is entirely without opponents. He has beaten all his contenders who are not afraid of him, and in most cases he did the trick as easily as Dempsey had accomplished it.

CONFESSES TO HAVING TWO WIVES, AN

James R. Huirt Held at Los Angeles Reports of His Marriage

Los Angeles, April 30.—James R. Huirt, held here while officers investigated reports of his marriage to several women, confessed late last night that he had slain two of the women, according to county officials by the officers.

Two of the numerous women Huirt is alleged to have married in various parts of the continent, and who are at present listed as missing, are: Beatrice M. Andrews of Canada and England, and Agnes Wilson, of Alberta, Canada. More than twenty-five marriages have been attributed by the officers to Huirt.

According to the alleged confession made public today by J. M. Marmontide, his attorney, and county official, Huirt murdered at least two of his wives, two others met "accidental" deaths while with him, and he "might have murdered more." Seven are listed as missing, including the two Canadian women, the other five being: Nina Lee Delaney, killed with a hammer of Long Beach, Calif.; Elizabeth Pryor, whose head was crushed with a sledge hammer, near Plum, Wash.; Bertha Goodrich, who was tipped out of a boat in Lake Washington, near Seattle; Miss Alice Ludvigson, drowned in a river in Idaho, and Mrs. Gertrude Wilson, of Seattle.

Huirt said he could not remember what happened to some of the women, because of his still weakened condition resulting from two attempts to commit suicide, his reputed confession said. He lay on a cot at the county hospital as he talked.

Huirt has been held here several days while officers investigated reports of numerous marriages.

He married twelve or fifteen women, probably more," he said. A desire to kill obsessed him four years ago Huirt was alleged to have said, and women were his special victims, there being no direct motive for their deaths, and no desire to kill men, children or animals.

The first to die, according to the alleged confession, was Miss Ludvigson. Huirt was quoted as saying he was in a boat with her, fishing in a river in Idaho. His memory was weak as to the exact time and locality. The boat, he stated, jammed against logs which were washed to the banks of the river and he and Miss Ludvigson tried with their arms to free the raft. When he broke away, he narrated, the woman lost her balance and fell into the river and was drowned.

He said Miss Goodrich died when she fell from a launch into Lake Washington while trying to go from the stern to the centre. Later on, the officers said, Huirt himself referred to this death as "a murder."

In the Pryor case, the officers said, he asserted the woman attacked him with a hatchet and he shoved her so violently that she fell and struck her head against a box. He believed she was dead, he was said to have declared, but to make certain, struck her with a hammer.

Miss Delaney, he was quoted as saying, was killed at a camp near Signal Hill, at the edge of Long Beach, Calif., January 26 last, after they had quarrelled about letters he had received from other women. The officers said Huirt told them he did not know his right name, but admitted having used

CONFESSES TO HAVING MURDERED TWO WIVES, AND MAYBE MORE

James R. Hurlt Held at Los Angeles While Police Investigate Reports of His Marriage to Several Women.

Los Angeles, April 30.—James R. Hurlt, held here while police investigate reports of his marriage to several women, confessed late last night that he had slain two of the women, according to county officials.

Two of the numerous women Hurlt is alleged to have married in various parts of the continent, and who are at present listed as missing, are: Beatrice M. Andrews of Canada and Englund, and Agnes Wilson, of Alberta, Canada. More than twenty-five marriages have been attributed by the officers to Hurlt.

According to the alleged confession made public today by J. M. ONT. LAW-MAKERS WANT MORE MONEY

Toronto, April 30.—Growing agitation in favor of increased indemnity for members of the legislature, assumed tangible form at noon today, when the whips of the three parties walked on Premier Drury and presented a round robin signed by seventy-nine members of the House, urging that the essential indemnity allowance be raised from \$1,400 to \$2,500.

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?" Now, when the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nervous system.

Mr. Stephen Crouse, East Clifford, N. S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting, as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work on the farm, and can truthfully say I feel like a different man."

A PAINFUL ACCIDENT OCCURRED AT MIDLAND

Midland, April 29.—A painful accident occurred here yesterday afternoon, while A. W. Cosman and son were sawing wood for R. G. Price. While Mr. Cosman was starting the saw his coat became entangled in the clutch pulley of the engine, whirling him around and throwing him with great force, breaking two ribs and badly bruising his hip and giving him a bad shaking up in general. He was taken to his home and Dr. T. B. Fraser attended to his injuries. Had it not been for his clothing tearing loose Mr. Cosman's injuries would doubtless have proved much more serious.

ONE BIG UNION AGENTS ACTIVE IN MONTREAL

Afraid to Carry Out Their Operations in Daylight and Work Only at Night.

Montreal, April 30.—Numerous complaints have been received at police headquarters, alleging that agents of the so-called One Big Union, have been busy distributing propaganda in different sections of the city. The activities of these agents seem to be confined to placing "stickers" printed in red and calling upon the workers to "stop, look and listen—then join the O. B. U." and to repudiate their unions, which, the poster tells them, they do not control. Chief of Police Belanger stated that he did not participate any trouble on May day; "the level-headed working men of Montreal will not allow themselves to be influenced by such cheap propaganda. The activities of the O. B. U. agents are as low as the principles they advocate. They are afraid to carry out their operations in daylight, but work in the dark."

Have You A "Twenty Pay Life Policy?"

A true story of a Canada Life Policy issued over forty years ago.

A Policy on your life may do much that you intend to do—if you live. It may pay off the mortgage, supply food and clothing for your family, keep the children at school and prevent a forced sale of your other property.

It may be all that is left of your life work—to keep you in comfort in your old age. But—your Policy must be large enough.

- ### The Twenty Payment Life
- Our new up-to-date policy provides—
1. That premiums will cease in 20 years.
 2. That dividends will be paid during the 20 years, and afterwards.
 3. That if you should be totally and permanently disabled before age 60, all premiums will be cancelled, and a monthly income paid to you.
 4. That such monthly payments will not be deducted from the policy at your death.
 5. That after 3 years you may take a Cash Value, or receive a paid-for policy or pledge the policy as security for a loan.
 6. That the policy cannot lapse while a cash value exists; that the policy is indisputable after one year; that you may reside or travel in any part of the world or engage in any occupation without affecting your insurance.
- (There are many other valuable privileges.)

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, \$10,000 or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.

Twenty years is a convenient period and premiums spread over that length of time are moderate and easy to handle.

Do not delay this important matter. Ask for particulars today.

At age 30 he secured his \$5,000 Twenty Pay Life Policy.

At age 35 he received his first Dividend, which was added to the Policy.

At age 50 he received notice that his Policy, with 20 years' Dividends, was fully paid for.

At age 60 his Policy, still earning Dividends, helped him to finance the purchase of a new home.

At age 70 he withdrew the Cash Value for his own personal use. He received a Canada Life cheque for \$6140 in return for his \$2830 paid in premiums. For many years his home had been protected by insurance of \$5,000 and Dividends.

ENGLAND'S BEST COLLEGIATE RUNNER DEFEATED YESTERDAY

E. A. Montague Lost Three-Mile Event to Nightingale of New Hampshire—Three Teams Including Oxford-Cambridge Were Not Called for Star Race—Bradley of Kansas Won the Pentathlon.

Philadelphia, April 30.—A new world's record, the defeat of England's best collegiate distance runner, three teams including Oxford-Cambridge left at the post in the star race and the winning of the Pentathlon by Bradley of the University of Kansas, were the outstanding features of the opening day of the University of Pennsylvania relay carnival here today. The presence of the English universities' track team gave an international aspect to the games, and but for a heavy rain and the unfortunate finish which ruined the middle race, the initial day of the meet would have gone down in athletic history as one of the most successful in the long career of the meet.

The fastest field at varsity distance runners that the United States could boast found the starter in the three mile International Collegiate race, arranged for the special benefit of E. A. Montague, Oxford University, winner of this event in the Oxford-Cambridge dual meet in London on March 27, which he did in 14:45.35. Today he was easily defeated by E. T. Nightingale, of New Hampshire State College by more than forty yards in 14:56.

Montague, who ran second, finished some thirty yards ahead of W. McMahon, Massachusetts, Techon, after a gruelling race.

Seven runners jumped away at the pistol shot and George immediately went into the lead, finishing the first half mile in two minutes, 22 seconds, about 20 yards ahead of the pack. At the mile he was still showing the way in 4:55 by about the same distance, with Montague going easily in fourth position.

McMahon moved into the lead at the 1.12 miles with Montague second, a stride ahead of Prof. N. F. Hilditch went to the fore at two miles which he turned in ten minutes, but at 2.14 miles, B. G. Radd, Oxford University did not compete.

220 Metres (Pentathlon) won by Bertels, Pennsylvania, relay race, won by Penna. (Davis, Landers, Maxam, Foyl) Time 3:29.

International Scholastic relay championship of America, won by Exeter Academy (Swede, Waterman, Chapman, Hiltz) Time 3:44.

International Scholastic three mile race won by G. T. Nightingale of New Hampshire State College. Time by miles—4:55; 10. mins that and 14:56. 1500 Metres (Pentathlon) won by Young. Time 6:17.15.

American College championship distance medley race (first man ran quarter mile, next half mile, next quarter fourth one mile) won by Pennsylvania State. Time 10:37.15.

Running high, step and jump, won by Landers, Pennsylvania, 46 feet 7 1/2 inches.

J. M. Watt won almost at will in the hurdles with a time of 24 1/4 seconds, displaying the former time of

14:33 made by Harry Hillman, of the N. Y. A. C. in 1916. Captain of the University of the South was second, H. G. H. Nebraska, third, finishing well in the rear of the flying hurdler from the shores of Cayuga Lake.

The keenest disappointment came to the 20,000 spectators who had braved the heavy downpour when the Oxford-Cambridge team as well as several others did not appear for the distance medley relay championship race. No explanation was given by the officials and after a grumbling neck and neck race, Pennsylvania pulled out and Yale quitted with Stevens and Georgetown finishing in last order well in the rear, as soon as the runners finished, an audience began to cheer for shelter, but were stopped by the announcement that Oxford-Cambridge, Chicago and the Pennsylvania team had not been summoned to the starting line, although ready, and would run a special race over the same distance.

As the water-soaked spectators returned to their seats there came a second statement that the race would not be held owing to the condition of the track. In the dressing rooms the three teams which had been left out of the race were still puzzling over the matter, which cost them a chance at the championship. According to the best explanation given all three combinations were ready to go to the starting point when told to remain under cover until called. They waited for some time and when finally a messenger was sent to find the cause of the delayed start the race had been started.

The Summary
Broad Jump (Pentathlon). Won by William Young, Redlands University, 22 feet 3 3/4 inches.
Throwing 35 pound weight won by Landers, Massachusetts I. T., distance 29 feet 3/4 inch.

440 Yards hurdles won by J. M. Watt, Cornell University, time 14.14 seconds. B. G. Radd, Oxford University did not compete.

ENGLAND'S CONTENDER FOR AMERICA'S CUP BUILT ON RADICAL LINES

VIEW OF THE SHAMROCK IV'S LAUNCHING

When the Shamrock IV, Sir Thomas J. Lipton's contender for the America's cup, was launched at the yards of Campbell & Nicholson, Gosport, England, last week the mystery which surrounded her until then vanished and nearly every one who saw her slide into the waters of Portsmouth Harbor was surprised. It was a well known fact that Sir Thomas Lipton, her designer, was inclined to be more or less radical, but that he departed so completely from all precedents in the Shamrock IV, surprised and staggered most of the yachtsmen.

She is the most radical racing yacht ever built in England, and it is not too much to say that she is a freak. Mr. Lipton has taken a long and desperate chance. Sir Thomas believes he has the necessary vessel with which to lift the Cup, and Mr. William P. Burton, who will sail with her in the races to be held off Sandy Hook next September, is in accord with the designer. In almost every respect she is different from the trio of possible American defenders.

Ty Cobb Still Leads Batsmen
New York, April 30.—The eight leading bat men of the American League, together with the number of games each has played during his career, are: Ty Cobb in fifteen years play 1,932 games, during which time he amassed the greatest batting average of all time, Ty flashing the remarkable percentage of .372. Running second is Joe Judge, who engaged in 1,250 contests in twelve seasons for a batting mark of .352. Manager Speaker, of the Indians is a bumpy third. Spoke in twelve years has engaged in 1,600 games and hit for .339. George Sisler is fourth; the Browns star in five years hit .326 in 612 games. Eddie Collins, of the White Sox, after fourteen seasons hit for .326 in 1,709 contests. Sam Rice, of the Senators, in five years, played 364 games, hitting .311. Babe Ruth, after six seasons of minor play engaged in 239 games, in which Babe made .309. Stuffy McInnis hit for .309 in 1,279 games. These records do not include games played this year.

Stecher And Lewis Meet In Toronto

Have Been Matched to Appear at G. A. C. Carnival on May 22.

Toronto, April 30.—Joe Stecher and "Strangler" Lewis, the two most wonderful wrestlers of modern times, have been matched to contest for the world's championship in Toronto at Exhibition Park on May 22, the opening night of the G. A. C. carnival, for a purse of \$20,000. It is a long while since the Queen City has seen any of the great grapplers in action, the last pair to wrestle here being the Hackenschmidt and "Doc" Holler, at the Riverview Hotel before the war. Stecher, it will be remembered, won the championship three weeks ago at the Madison Square Garden, New York, when over 18,000 people saw him throw Lewis after a sensational struggle of three hours and fifteen minutes. His victory came as a surprise, as in the last four Lewis had been generally stronger man. Just before the termination of the match both wrestlers fell from the platform, with Stecher unperjured, and when they regained their feet the champion dove for the "Strangler's" legs, and before he realized what happened his shoulders were pinned to the mat. Under the conditions of the match here there must be a fall, and unless a decision is reached the purse will be withheld. A Canadian referee will handle the bout.

Stecher's rise into fame borders on the sensational. He was an unknown until he defeated Cutler, of Chicago, in two straight falls, the Windy City gent being carried from the mouth and nostrils as a result of the grunting he received. This victory made him, Stecher then defeated Dr. Holler, Jess Westergard, William Demerol, Paul Martinson, John Freeberg, Steve Savage, Bob Monogoff, Ad Sertel, Ivan Isonov and many other wrestlers. He won the championship by downing Earl Cardlock at Omaha in two out of three falls. Both Stecher and Lewis are

Dempsey's Manager Makes Unwise Move

Opens Title Match Discussion Previous to Trial of the Champion.

New York, April 30.—Jack Kearns, manager of Jack Dempsey, world's champion, under indictment, is in charge of evading the draft and whose trial is to take place in the near future, in this city and has had a conference with Francois Deschamps, manager of Georges Carpentier, heavy-weight champion of Europe. It is not denied by either of the managers that the subject of a match between the champions was under discussion, but none of the details was disclosed, and the statement was made that the public was not interested in the preliminary arrangements. This statement is absolutely correct. So far as Dempsey is concerned, the public at present has no interest in anything except the outcome of the trial which will either acquit or convict him of a serious charge, and until that crisis has been passed it is exceedingly poor taste for his manager or any other manager to attempt to arrange a match for the accused boxer.

Dempsey may be entirely innocent of the charge, and all interested in boxing hope he may prove his innocence, but until a jury acquits him it is nothing less than brass assurance for his manager or any other manager to attempt to arrange a match for the indicted man.

So far as Kearns' movements are concerned he is at liberty to go and come as he pleases, but his arrival in this city at this juncture, coupled with an apparent effort to arrange the details of a match with Carpentier, is decidedly unwise, and not unlikely to exert an adverse influence on the case against the champion. Carpentier, whose military record is without a flaw, can hardly permit himself to let a party to such negotiations.

Conference of The Boy Scouts

Considerable Interest Shown at Meeting of Leaders Yesterday—Officers Elected—Programme for Today.

The Leaders' Conference of the Boy Scouts' Association opened at 4:30 yesterday afternoon in the Trinity church school room, with A. C. Skelton, the Provincial Commissioner presiding. After the invocation had been pronounced by the Rev. E. P. Wright, all the boys present recited the Scout Promise and Law in unison.

The provisional officers for the convention were then elected: Convention President, Troop Leader Geo. Jones, Woodstock; Secretary, Troop Leader Paul Walsh, 17th troop, St. John; Asst. Secretary, Gordon Adams, 15th troop, St. John. After the officers had taken their places H. O. Eaman gave a short address on Organization. He also led the discussion which followed.

At 5:15 supper was served in the school room by the ladies of the different local churches from which Boy Scouts were present. Following this two reels of an educational film were shown dealing with activities of Boy Scouts in England. At the conclusion these cheers were given for Basil Robertson of the Boys' department of the Y. M. C. A. through whose courtesy the films were shown. At seven the boys gave a demonstration of a model troop meeting under the supervision of L. W. Narraway, assistant provincial secretary. The boys carried out every movement with correct neatness and alacrity and were heartily applauded for their effort. Following this a short demonstration of a Court of Honor was given. This concluded the evening's programme.

Today's Programme.
At 9 o'clock this morning through the courtesy of Walter Golding and the Canadian Universal Film Co. the feature film "Boy Scouts to the Rescue" will be shown at the Imperial Theatre. This is open to conference delegates only. At 10:30 o'clock there will be a special session for the boy leaders at which various matters relating to their activities will be discussed.

At 1 o'clock a special dinner will be served at Bond's, when the boy leaders will be the guests of a number of business men, most of whom are members of the Rotary Club. Dr. Freeland, district commissioner, will

be present.

Chance To Make Olympic Team

Citizens of St. John by Some Financial Support Has Chosen to Assist in Placing Citizen on Olympic Trap-Shooting Team.

St. John as a sporting town at one time and another did not play second fiddle to any other town in Canada, so why not get in the ring again. St. John could produce snipers.

John (Tip) O'Neill showed he could produce baseball players. Hubert McDermick, Fred Brown, Fen Parker, Fred Loran showed that we could produce skaters.

Surely we are not done. We are going to produce trap shooters, and if it is now, we have a man with us who stands fourth chance out of seven in all of Canada for a place on the Olympic team, so why not get behind him and boost the game.

O. J. Killam has the chance and the Olympic trials all over Canada are to be held May 8th, 16th, 22nd. We will see that he has a chance to score. All he needs is practice. It is not the first time that Mr. Killam has been abroad on a Canadian team, so he will be no stranger in the game. Formerly it was rifle shooting, now it's trap shooting.

Walter Andrews, who shot high over all at last year's Grand Canadian Handicap at Toronto will help Mr. Killam in his efforts to make the Olympic team, and if we as sports men from St. John get together and encourage this same of trap shooting, we stand a good chance of being represented at the big Olympic meet. It is there any higher achievement that we can strive for in the sporting world.

To accomplish this some financial support is needed from the citizens, and as the last meeting showed the members that attended were prepared to support the issue, but were not represented strong enough to overcome all difficulties.

The St. John Street Railway have done their part in providing grounds, and if the members of the club and citizens take this matter in hand individually and support the name to the limit there is no reason why we should not be in the big game again.

BRITISH OLYMPIC COUNCIL REPORT LACK OF FUNDS.

English athletes probably will not compete in the international games at Antwerp. The British Olympic Council announced that the public is not supporting the appeal for funds to meet the expenses. Sixty-five thousand dollars are needed, and so far only \$9,000 has been subscribed.

The Fox Stable For Fredericton

Fredericton, April 30.—May 1st, 23.12, will be a starter in the Free-for-Alls on the Maritime and Maine Circuit this year.

This information has come from Frank Fox, the well-known New England trainer, and the present indications are that the Fox stable will be shipped direct to Fredericton from Boston by water, making the trip via St. John and then up the river. Their first start will be at the quarter horse meeting at the Fredericton track on June 29th and 30th and July 1st, and from here they will go to Houlton, Me., for the opening of the Maritime and Maine Circuit there.

There will probably be about eight horses in the Fox stables, that they will probably not arrive here until about the middle of June.

Aerial Derby Is Authorized

New York, April 30.—A 1,200 mile aerial race on July 4, similar to the New York-Toronto Derby last year, has authorized today at a meeting of the board of governors of the American Flying Club. The circuit will include Boston, New Haven, New York, Princeton, Philadelphia, Baltimore, Washington and points in Virginia.

The race will be held under the auspices of the American Flying Club and affiliated clubs in the cities mentioned. The landing rules used in the New York-Toronto race will prevail.

TWIN BROTHERS PLAY.
New York, April 30.—Brothers playing on the same baseball team is not a novelty, though a bit uncommon. Twin brothers on the same team, and playing side by side, is a real novelty. Holy Cross, one of the leading college teams of the East, furnishes the unusual this season in having twin brothers cover two-thirds of the outfield, and cover it exceptionally well. In left field is Leo Dugan and in centre is Leo's twin brother, Leonard, the former holding the lead-off position in the batting order and the latter hitting third. The twins are brothers of Joe Dugan, of the Philadelphia Athletics, whose work with the Holy Cross team of 1918 attracted the attention of Connie Mack's scouts.

THE MARITIME PROVINCES.

The future of the Maritime Provinces is a matter in which the rest of the Dominion is deeply interested, and any proposals which have for their object the betterment of conditions within the provinces, and the improvement in the relations not only between the different communities in the provinces themselves, but also with those of the other provinces of the Dominion, are deserving of every encouragement. What is needed most is a policy of co-operation, and once some scheme can be formulated which will produce this beneficial result can confidently be looked for. The aims and objects of the peoples of the three Maritime Provinces are practically the same, but with all there has never seemed to be any very great desire to get together to attain these ends; each has been content to play a lone hand, with the not unnatural result that nothing very helpful has been accomplished. The Maritime Provinces were the cradle of Confederation; it was from a proposal to unite these three provinces into one that the Dominion of Canada sprang.

The ideals that prompted the statesmen of the three provinces to get together for the promotion of their common interests in 1864 are just as worthy and just as pronounced at the present day. Confederation, notwithstanding the Dominion owes a considerable debt to the Maritime Provinces, a debt which is not very readily acknowledged and which it is proving very hard to get satisfaction for. The sacrifices which the provinces made for the benefit of the new Dominion have not been properly recognized; representations regarding them have been ignored and brushed aside whenever any attempt has been made to get them attended to; and they will probably continue to be so treated unless more energetic steps are taken to bring about a change in Dominion sentiment.

THE POWER COMPANY MATTER.

The people of St. John will be very interested if they allow themselves to be misled by the statement of a few who are supported by the Telegraph and The Globe, are for keeping up the fight with the Power Company. Making all due allowance for the irritation that may have originally been felt over the inflation of the Power Company's stock, there was no need to make matters worse than they were. The City's representatives, Legislative and Civic, accepted the proposal to leave the whole question to an impartial commission, and the Leader of the Opposition, and this commission, having given the matter the fullest investigation and consideration, arrived at the conclusion that a fair valuation of the Company's property would be \$2,800,000, and they reported. Having agreed to the appointment of this commission, the City should have been content to accept its findings. But our civic rulers were not content, and carried the matter to the Legislature a second time, when a further reference was procured, at the time to the judges of the Court of Appeal, who, after wading through the reports and other papers prepared by the commission, reduced the amount of the commission's findings to \$2,577,865. Still the City's rulers were not satisfied, and once again they went to the Legislature, the members of which were by this time pretty much disgusted at the attitude thus adopted. The result of the Legislature's action on the matter is that the value of the Power Company's property has been fixed at \$3,100,000, which is \$500,000 in excess of the figure named by the commission, and \$500,000 more than that fixed by the judges of the Appeal Court. In addition there has been more than a year's delay, an expense of several thousand dollars for costs and other things, and the City is worse off than before.

In the face of all these things, there are those who counsel the continuance of the fight with the Company. Have the City Fathers not had lesson enough?

COMMODITY PRICES.

The Montreal Herald says: "We are told that there is in the neighboring Republic a shortage in potatoes and in sugar, and the game is worked so that Canada is drawn on for these supplies, to the cost of the Canadian consumer. There is something wrong and the men whose duty is to protect the citizens of the country should discharge their duty."

To meet this condition of affairs, a league of housewives and others in some Ontario cities have decided to refrain from buying potatoes until the price comes down. As a remedy this course of action is about as much practical use as an attempt to stop an automobile by placing a laff across the road would be. There is such a big demand for these tubers across the line that they can be sent there just as well as offering them in the various Ontario towns and cities. Producers in this country will naturally sell their wares wherever they can realize the best prices for them; they cannot be blamed for doing so; but it comes hard on the ordinary individual in Canada who needs them. There is no real remedy, short of putting on such a stiff export tax as will make it unprofitable for United States buyers to purchase, and such a tax is of course out of the question. Potatoes are not the only articles that are high in price in this country because of the rate at which large quantities are being shipped out of it. India has put a ban on the export of foodstuffs, until the price to home consumers come down. Must we come to that here? Many people are of the opinion that our exports should be limited to the surplus remaining after the requirements of the home consumer are satisfied. As matters are at present, we are buying from other countries to meet our own requirements many lines that we are ourselves exporting.

NOT HIGHER WAGES, BUT LOWER PRICES, NEEDED.

Some remarks addressed by the President of the Trades and Labor Congress to some Union men a few days ago are worth noting. He took them that future efforts by Labor to better conditions would not be for higher wages, but would be to regulate prices on behalf of the consumer. "It is high time," he said, "that the labor classes all over the world organized and asked themselves the question: 'Are higher wages and longer working hours the remedy for our condition?' The answer would be 'No,' because every few cents the employers grant the workers are immediately eaten up by the increased cost of commodities, whose price is boosted in order to give the workers 'the wages.'"

It is idle to deny that the heavy increase in the cost of practically all things that enter into the question of living is mainly due to the great increase in wages to labor. It could not well be otherwise. Every rise in wages means so much added to the cost of production and distribution, which naturally increases the price of the article to the general consumer, which includes the labor class itself. It may be doubted if the average worker is any better off than he was before the rise in prices began, notwithstanding his big increase in wages. In his income, measured in actual purchasing power, any better than it was before the war? He may be getting more money, but he is paying more for his living, and any further increase in wages would quickly be followed by still another rise in prices all round. Not only therefore is Labor no further ahead, but the privations and difficulties of those whose incomes are fixed are immeasurably increased. Manufacture can only stand so much; already operating costs have, in many instances, become so burdensome that some manufacturers are almost ready to close up business; and if the enhanced cost of the article causes a falling off in the demand, as it must ultimately do, production would have to cease on account of the reduced sales.

Since business must be based on the making of some return on the capital employed, Labor's margin is, in the long run, restricted to what the consumer market will stand. Under normal supply conditions the members of which were by this time pretty much disgusted at the attitude thus adopted. The result of the Legislature's action on the matter is that the value of the Power Company's property has been fixed at \$3,100,000, which is \$500,000 in excess of the figure named by the commission, and \$500,000 more than that fixed by the judges of the Appeal Court. In addition there has been more than a year's delay, an expense of several thousand dollars for costs and other things, and the City is worse off than before.

The Chief Medical Health Officer for the Province is not the highest salaried official of the Health Department. Dr. Abramson, the Bacteriologist, beats him out by \$1,500. And even if Dr. Melvin was always a strong Conservative, that does not affect the truth of our criticism; he is only one of many paid officials.

Senator Underwood says the United States cannot tolerate a situation that will in a few years put United States newspapers in the hands of Canadian newspaper manufacturers. Then, why does not the United States produce its own pulpwood, and remain independent?

IN THE EDITOR'S MAIL

THE HEALTH ACT.

To the Editor of The Standard.
Dear Sir—I was very much pleased with your editorial regarding the so-called "Health Act" of your issue this morning. One would almost be inclined to think from reading the paper reports which have of late been devoted to much space to the various history of the instigators of this Act, that death itself had been struck a body blow, in its adoption. I see, notwithstanding, that the weekly mortality is still published in the Press. Has this wonderful Health Act, with all its strictures and invasions of the home, lessened epidemics? Has it decreased their severity? Has it prolonged life? The public has seen numerous epidemics, not one of which is a result of the past few years, but there is at present strong evidence that it is getting tired of the tremendous literature exhibited by those self-styled politicians in the welfare of the "other fellow."

Cases have been brought under my attention, which I think should be held up in the street by a politically appointed physician of the Board of Health, who was not the family physician, rushed to his office and vaccinated without the consent of the parents. Is this a condition, Mr. Editor, which makes for the welfare and contentment of the community?

What does this politically appointed physician know about the physical condition of a child he has never attended? Would it not be better to show some consideration for the welfare of the little tots by asking the family physician to vaccinate, if he deemed the physical condition of the child justified the operation? Why force the services of these politically appointed physicians, not one of which has any means, in this province, upon those who may not fully share the rights accorded British subjects? The Act has cost the province a lot of money and the Government a lot of anxiety, one of its supporters is a physician, I am told, who has lifted his support to the bill which he had privately condemned, as a "war measure."

Yours truly,
A DISGUSTED PARENT.

Editor St. John Standard:
Sir—I would like some of your valuable space, a complaint about distribution of road works, as I claim that the Government in Kingston under the supervision of the Hon. Peter Veniot from day to day, till dark, and then some, in addition Dr. Roberts, is to be "taken in" to the Government on the same footing as that astute Commissioner of Public Works. I venture the opinion that P. T. Laramie, even in his painted days, had nothing on the Minister of Health.

I will quote a few figures from Auditor-General's report for 1919, which show that we fared little better last year. The following expenditures were for roads in Bonaventure:
Permanence, \$69,746.64; maintenance, \$11,138.45.
Greenwich, Permanence, \$5,512.06; maintenance, \$592.91.
Westfield No. 1, Permanence, \$9,066.54; maintenance, \$132.93.
Kingston, Permanence, \$16,609.82; maintenance, \$1,631.03; and Westfield No. 2, (Wm. Baxter, supervisor), Permanence, \$1,910.05; maintenance, \$209.51.

Only one mile of permanent work was done in Westfield, and one and one-eighth miles in Kingston under the supervision of Baxter. Therefore the larger part should be charged to Kingston. The \$209.51 shown for maintenance covers two years, as no accounts were shown for Baxter in 1919 report, though he was supervisor. The result is that we have one mile of permanent work, and the remainder, few resident families, and the remainder, 44 miles of road is in a very un-

Benny's Note Book
BY LEE PAPE

Yesterday for homework we had to rise a composition on "Government," and about Miss Kitty and, some of the compositions were very good, boys, but they were all too long. Can anybody in the class tell me what is meant by the expression, "Heavily" is the sole of wit.

Which nobody said they could, and Miss Kitty said, it means that the shouter is a thing in the better. Now I want you all to rise a composition on frost feet to see who can rise the shortest one.

And she gave out paper and waited a while and then she said, "Is anybody finished yet?" With one and Pauls Stinkins and Sam Cross and Bill Brent raised our hands, and Miss Kitty said, "Very good, William Brent read yours."

Which Bill did, being, Frost is all different shapes, especially bananas. Frost is at its worst when it gets rotten, but its still frost just the same.

Is that all? said Miss Kitty, and Bill Brent said, Yes ma'am, and Miss Kitty said, My goodness, that is short—Samuel Cross, read yours.

Which Sam did, being Apples are frost, and vice versa.

Some proper potatoes and some don't, proving frost is a matter of fact.

These frost snuff too, to say the least, Benny Polka, suppose you read yours.

Which I did, being, Frost grows on frost trees, hence the name, The end.

Well for pity sake, I think I'll have the other collected and read them myself, we will now have the Joggerty bean, and Miss Kitty.

Which we did.

vented from doing it. It will become necessary to cancel the right of men to drive cars who have been shown to be deficient in the good sense that the job calls for. Until wild driving is vigorously punished, without the slightest regard for pull and influence, there will be a steady increase in the number of those tragedies as the population grows and as cars multiply in numbers.

WHAT OTHERS SAY
Half-Witted Drivers.
(Toronto Star.)
There are some who cannot drive safely—who so handle their cars that sooner or later the tragedy happens. They do not mean to kill anybody, but they drive in such a way that they are forever putting it up to the people to get out of their way and keep from under, and people have had no public way to get to market since March 25th.

Unrest is growing splendidly here. We were told at the time of its production that Dr. Roberts, the promoter, was to serve at its head with remuneration, for which magnanimous act he was applauded by a friendly press, but he has been forced now to recede from this enviable position and has hurried at him a salary of \$2,100 per annum, the same salary for which the Hon. Peter Veniot works from day to day, till dark, and then some, in addition Dr. Roberts, is to be "taken in" to the Government on the same footing as that astute Commissioner of Public Works. I venture the opinion that P. T. Laramie, even in his painted days, had nothing on the Minister of Health.

Tomorrow evening at 7:30 a mass meeting of the Hebrew population will be held in the Carleton street synagogue. The purpose of the meeting is the furtherance of the Palestine Restoration Fund, as since the recent Balfour declaration at San Remo the future of Palestine as a Jewish homeland under the protection of Great Britain is assured. Kodishewitz, a noted Jewish Zionist, of Montreal, who has devoted his life work to this cause, will address the meeting. As the work of restoration and colonization will entail a vast amount of capital, it is a foregone conclusion that local Jewry will respond as readily as have their brethren to the huge fund now being raised for this purpose.

WEDDINGS.

Keirstead-Colpitts.

Alma, April 28.—An interesting wedding took place this afternoon at the home of Mr. and Mrs. T. E. Colpitts when their daughter, Marion Lovo was united in marriage to Harold Penna Keirstead. The ceremony was performed by Rev. James Crisp, pastor of the Alma Methodist church, assisted by the Rev. T. M. Gillan. In the presence of over fifty invited guests. As the bride party entered the parlor Mrs. A. L. Marven played the Lohengrin's wedding march. The bride, who was escorted by her father, looked charming in a dress of white satin, with an overcoat of hand embroidered Georgette crepe with the conventional bridal veil, and carried a bouquet of white carnations and maiden hair fern.

The bridegroom was dressed in a suit of dark blue cloth, with a white shirt and a white bow tie. The groomsmen were dressed in suits of dark blue cloth, with white shirts and white bow ties. The bridesmaids were dressed in white dresses, with white veils and white gloves. The wedding party consisted of the bride, the groom, the bride's father, the groom's father, the bride's mother, the groom's mother, the bride's sister, the groom's sister, the bride's brother, the groom's brother, the bride's cousin, the groom's cousin, the bride's aunt, the groom's aunt, the bride's uncle, the groom's uncle, the bride's grandfather, the groom's grandfather, the bride's grandmother, the groom's grandmother, the bride's great-aunt, the groom's great-aunt, the bride's great-uncle, the groom's great-uncle, the bride's great-grandmother, the groom's great-grandmother, the bride's great-great-aunt, the groom's great-great-aunt, the bride's great-great-uncle, the groom's great-great-uncle.

OBITUARY.

Miss Annie A. Doherty, Gagetown, N. B., April 28.—On Sunday evening, after being in failing health for a long time, Miss Annie A. Doherty passed away at the home of her niece, the Misses Dickie, Gagetown. Miss Doherty was born in Ireland and was in her 78th year. She resided in St. John for some time, and during the past thirty years, had made her home in Gagetown, with her sister, the late Mrs. J. W. Dickie. She was the last of a family of six—James Doherty and H. A. Doherty, of the Royal Hotel, St. John, being brothers; and Mrs. Wallace and Mrs. Eliza, of Boston, Mass., and Mrs. J. W. Dickie, of Gagetown, her sisters.

The funeral took place on Tuesday afternoon from her late residence, the services being conducted by Rev. H. T. Buckland, Rector of the Parish. After prayers at the house, the funeral proceeded to St. John's Church, where the burial service was read. The choir sang, "Jesus, Lover of My Soul," "Blessed My God to Thee" and "Abide With Me." Interment was made in St. John's Churchyard, in the Dickie family lot. The pall-bearers were: R. H. Weston, J. L. Allingham, J. F. Reid, F. I. Dineen, T. Allingham and G. DeVeber. The large congregation testified to the respect in which the deceased lady was held.

Mrs. B. G. MacDonald.

Shippagan, April 28.—The death occurred at Shippagan on the 22nd of April of Mrs. B. G. MacDonald. She is survived by her husband, two daughters, Mrs. Geo. J. Matthews, Miss Gertrude, and one son, Wilbur.

The King of May Is

Man Who Moves Us

This is the Day When Many Families Are Moved to Almost Desperation Along With Their Household Effects.

The identity of the Queen of May is as yet undisclosed, but there is no doubt who is the King of the May, and that is the "Man who Moves Us." Be his team a single horse driven or a high power motor truck, today we sit awaiting his coming and hasten to point out to him our sleep and packed Luges and Ponies in plain English our household goods. He is not waiting to come and hasten to point out to him our sleep and packed Luges and Ponies in plain English our household goods. He is not waiting to come and hasten to point out to him our sleep and packed Luges and Ponies in plain English our household goods.

The usual procession of people crowded their way through the streets carrying the mirror which goes over the mantelpiece or the pet lamp which stands in the centre table of the parlor. Every one of the houses hold from the youngest to the grandest carried some especially cherished possession even to a hat box containing perhaps the tall hat belonging to the head of the family.

A remark was made that it was astonishing how many household ornaments could get broken in the course of a move, but unfortunately the opposite is true and it is usually the barrel containing the best china which falls off the load or is dropped on the stairs.

By some the unusual amount of changes made this year is accounted for by the high rents being charged by landlords, and also by the fact that certain classes are more prosperous, and so are enabled to take better houses than they have hitherto been accustomed to live in. In several cases people having a number of children have been warned out to make a place for persons without a family.

One tenant stated that she would not move for anything as her landlord peeped and painted the house without being asked, and without raising the rent. Surely a jewel among landlords.

The Standard was informed by a member of the legal profession that if it stated in a lease a tenant who is taking notice of the house after giving it up on February first. Objection to this is rarely made, however. As a matter of courtesy many people of children have been warned out to make a place for persons without a family.

The hotels have been taxed to furnish accommodation for persons who have been unable to get into their homes, for one reason or another, or who are taking notice of the house after giving it up on February first. Objection to this is rarely made, however. As a matter of courtesy many people of children have been warned out to make a place for persons without a family.

Winter Port Season Shows An Increase

Amount of Revenue Received and Number of Sailings Larger Than Previous Season—Increase of \$15,434.85—Sailings Numbered 194

The winter port season just closing will show an increase both in the amount of revenue received and the number of sailings over the previous year. For the month of April the sailings are two less but the revenue shows an increase of about \$3,000. The increase in revenue for the season is over \$15,000, and the increase in the number of sailings is 17.

Following are figures for five months, December to April, inclusive, for the seasons 1918-19 and 1919-20:

THE HISTORY OF THE REMINGTON-TYPEWRITERS AND TYPEWRITING.

THE LEADING MANUFACTURERS OF TYPEWRITING. A MINE PHASE. JAS. A. LITTLE, Mgr., 37 Dock St., St. John, N. B.

(Kingston Whig.)

"Well, why shouldn't bachelors be taxed? Most of them are making as much money as the man who has to support a wife and family. Legitimate need more revenue; those who have no need should give most. Never mind the spinsters, but tax the bachelors."

ter which the happy couple, amid showers of confetti, were driven to the railway station, where they took the seat-bound train for Halifax, Truro and other points along the line. The bride received many pretty and useful gifts, including one glass silverware, linen and money. The organist was present with a very pretty brooch. On their return they will reside at Seabrook. Their many friends wish them a long and happy wedded life.

Strike In Sydney

Said Likely to Lead to Number of Strikes of Steel Workers — Effect Would Seriously Prejudice Industrial Position in Provinces.

The machinists strike which has broken out in Sydney is said to be likely to lead to a number of strikes of steel workers, the effect of which would seriously prejudice the industrial position in the Maritime Provinces generally. Other employees of the Dominion Steel Corporation have voted for a strike, and so have all the employees of the Nova Scotia Steel Company at New Glasgow. As yet they have not received the sanction of their International Unions which are trying to effect a settlement, the prospects of which are said to be from bright.

Owing to the machinists' strike at St. John some of the lumber mills of New Brunswick which have relied on Dominion parts of machinery machinery repairs are said to be from a month to six weeks behind in their preparations for the season's sawing. This may be a serious matter in view of the present big demand for lumber and the high prices.

There appears to be no immediate prospect of a settlement of the machinists' strike, but rather a probability of its extension. A good many of the local machinists have left the city, some going as far as London where they are getting \$1.25 an hour. A large number of machinists are on strike in various cities in eastern Canada, and the machinists would have moved before this.

Some of the local machinists do not care how long the strike continues, for they are receiving in strike benefits as much or more money than they made while working at their trade here.

If a strike is declared at New Glasgow all the employees of the Nova Scotia Steel Company will be involved and if at the same time the Dominion Steel Company's men go out, industries depending on steel will be hard hit all over eastern Canada. Both employees and men will probably wish they had taken the Government's advice in regard to the formation of industrial councils.

Financial journals are already discussing the possibility of a fall in commodity prices. Banks are restricting loans, which is usually the precursor of a strike in Canada, and their local branches in the Maritime Provinces are sound enough, curtailment of enterprise through loan restriction, if accompanied by a strike in the basic steel industry may lead to serious consequences.

Usually the Maritime Provinces have been the best to feel the effects of money shortage or a panic. But in the old days the principal banks doing business in these provinces had their main interest here, and their local clients were their first consideration. Now most of the banks are controlled from Toronto or Montreal, and it is not so certain that the demands of big enterprises elsewhere may not take precedence over the claims of the smaller business interests of the east.

LIFT OFF CORNS WITH FINGERS

Doesn't hurt a bit and costs only few cents

You'll laugh. Apply a few drops from this corn relief. No pain. Yes, magic!

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or callus. Instantly that troublesome corn or callus stops hurting, then shortly you lift it out, root and all without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rub the feet of every hard corn, soft corn, corn between the toes and the callus on bottom of foot. So easy! So simple. Why wait? No bumping!

HOW TO BEAT OLD HIGH COST LIVING

Winipeg, Man., April 30.—"Winipeg citizens are themselves responsible for the high cost of clothing and by careful buying and pocketing some of their pride can bring the cost down to reasonable figures," declared Mayor Chas. P. Gray, in an interview, after dropping a bomb which he termed the risk of high buying which is sweeping the city. Thousands of girls in the city, he said, are not any better and advocated that citizens co-operate in bringing the cost of wearing apparel down. By way of illustrating what can be done, he said that he bought two suits of clothes for \$35 each. "And they are as good as

National Council Annual Meeting

Arrangements for Convention Here in June Fully Gone Into by Local Council of Women at Meeting Yesterday.

Arrangements for the annual meeting of the National Council to be held in St. John in June, took up much of the time at yesterday's meeting of the Local Council of Women held at the Board of Trade. The first Vice-President, Mrs. W. Edmund Raymond, presided and on the platform was Miss Leavitt, Miss Milnes and Mrs. A. W. Estey and Miss Alice Estey. Mrs. Milnes read a letter from Mrs. S. Carter, Secretary to the Premier of New Brunswick, acknowledging the receipt of a copy of the resolution passed by the Local Council of Women regarding an increased number of hospital convalescences and asking that women should be included on the Board. Mrs. Dooly sent thanks for kind sympathy and a letter was read from J. Wilfred Smith, National Convener for the St. John Branch of the National Council of Women of Woodstock, Ontario, who has passed a resolution which states that, in view of the abnormally high price of potatoes, and in consideration of the fact that the potatoes now in the country should be used for seed so that the production may be increased, the members will refrain from buying potatoes for food for a month or until such time as the prices shall come down to a purchasing level. Potatoes in Woodstock are selling in the region of \$1.00 and \$3.00 a bag, and the women are going to see whether their boycott will assist others to fall in line and pull down the price of the staple article.

Potato Boycott Proving Effectual

Women of Ontario Are Banded Together in an Effort to Bring Down the Price of This Staple Article.

The women of Ontario are making a strenuous effort to bring down the price of potatoes which they claim will be just as excessive. In Toronto it is stated that of thirty-four carloads of potatoes which were originally consigned to local dealers and which have been standing on the Grand Trunk sidings for some time to be unloaded or sent to the United States, only six will be unloaded here. Other supplies of potatoes sent to this city have been respiced to Windsor and Chatham. The boycott by the various women's organizations is thought to be having some effect. At Stratford, Ontario, some three hundred women at a meeting in the city hall, pledged themselves not to buy any potatoes for one month unless offered at \$3.00 a bag. "No Spuds for a Month" is the slogan adopted by the Local Council of Women of Woodstock, Ontario, who have passed a resolution which states that, in view of the abnormally high price of potatoes, and in consideration of the fact that the potatoes now in the country should be used for seed so that the production may be increased, the members will refrain from buying potatoes for food for a month or until such time as the prices shall come down to a purchasing level. Potatoes in Woodstock are selling in the region of \$1.00 and \$3.00 a bag, and the women are going to see whether their boycott will assist others to fall in line and pull down the price of the staple article. At St. Thomas, the Women's Civic Association is arranging for a mass meeting on Saturday to discuss ways and means of combating the high cost of potatoes and other necessities. Of this the association intimates that while the action is a little delayed, strong measures will be adopted.

French Ecclesiastic Has Warm Woolen Covering for Scantly Dressed Brides Who Seek His Services.

(Special Correspondence of The Standard.) Paris, April 15.—(By Mail.)—French priests have risen against "lightly dressed" brides. One has provided a white woolen shawl for the scantily dressed one who appears before him to seek his services. "I quite understand the difficulties attached to the high cost of living and especially the increase in the price of clothing materials," says this ecclesiastic, who is a priest of Villeneuve St. George, near Paris; "I sympathize with girls who can only afford enough material for half a dress. I have therefore bought a perfectly good white woolen shawl. It will be at the disposal of all lightly dressed brides during the marriage ceremony in my church, which is very cold."

High Cost of Loving Hits Central Africa

Cross-Atlantic News Service. (Copy-right.) London, April 28.—The high cost of living—and loving—is being felt in Central Africa, where the price of wives has doubled. Lord Dewar, the whisky millionaire, and his game hunter, brings the news on his return from a winter's sojourn among the savage tribes or the borders of Uganda and the Congo. "In pre-war days," says Lord Dewar, "a fine, upstanding wife, cost four spearheads; she is now unobtainable under eight spearheads. In cattle districts the value of a wife is restricted in cows, and the price of a wife is now eight cows instead of four."

Famous Stories Picturized and Will Be Sold for Five Years British Product by War Conditions—Fou Supplying Anglo-Canada Moving Pictures—"Bleak" and "The Newcomers" P

When many circles there has been expressed a strong desire to see more British pictures on the motion picture screen. Not only are British pictures asked for, but films that give the stories of the best authors are conscientiously sought and the question, "When are we going to have another Dickens picture?" has very often been asked by those who listen to the comments of movie theatre patrons. In these productions wherever possible British settings are given and the exteriors are taken not only in some of the most picturesque spots of British countryside, but also on the romantic coasts, with their rugged rocks of Cornwall, Devon, Scotland and Wales. Some of the most stirring scenes of England, owned by the owners of the film, have been placed at the disposal of the producing companies for the purpose of taking scenes and some wonderfully beautiful results have been obtained.

St. Stephen

St. Stephen, N. B., April 28.—Mrs. A. E. Vesey gave a very delightful dinner party at her home on Prince William street on Thursday evening of last week, for the pleasure of Mrs. E. Smith, who expects to leave for St. John in the near future. The dining room was very tastefully decorated and when Mrs. Smith arrived she was welcomed by Mrs. Vesey and Mrs. Arthur Ganong, who accompanied her on the evening. Mrs. Vesey served her guests, and young Misses Ganong, Muriel and Barbara Vesey also assisted. Mrs. Arthur Ganong presided at the tea table and poured. After the dinner the guests retired to the drawing room and a couple of hours were spent in a very enjoyable game of Bridge. At the close of the game Mrs. Vesey said that since it was an evening of surprises, she would present the prize to the holder of the lowest score. The holder of the highest, and Miss Lela McVay was the fortunate winner, the prize being a very handsome Wedgewood tray. Mrs. Smith was then presented with a gift, which was given by Mrs. J. Gordon. Mrs. Smith accepted the gift in a very happy manner and spoke feelingly of the enjoyment of the past years spent in St. Stephen by number of Returned Soldiers are being placed in isolated districts to teach foreigners how to do good Canadian.

Best Medicine He Has Ever Taken

FATHER TELLS OF SON'S HELP FROM DODD'S MEDICINES He recommends Everybody Who Has Shaking or Pain in the Heart to use Dodd's Dyspepsia Tablets and Dodd's Kidney Pills. Birmingham, Sask. April 20th.—(Special.)—"Dodd's Kidney Pills and Dodd's Dyspepsia Tablets are the best medicines my son has ever taken." This is the statement of Mr. Johannes Reinson, a well-known resident here. "When he started to take them," Mr. Reinson continues, "there was not much hope of him. Soon after starting to take the Dodd's Medicines he began to improve in health and now he is well." He advises everybody who has shaking or pain in the heart to use Dodd's Kidney Pills and Dodd's Dyspepsia Tablets. The Dodd's Medicines act on the two essentials to good health. The Tablets help to digest the food and produce good blood. The Pills act on the kidneys, healing and strengthening them, thus ensuring that the blood is kept free from impurities. For the work of healthy kidneys is to strain all impurities out of the blood. Ask your neighbors if Dodd's Kidney Pills do not heal and strengthen the kidneys.

Norton

Norton, April 28.—On the evening of April 28th, the "Jubilee" Mission Band of the Baptist Church, held an entertainment and sale in the Temperance Hall. The weather being fine in the evening, the hall was crowded to hear and see what the children had prepared. The chair was occupied by the president of the band, Mrs. I. E. VanWart. The entertainment consisted of singing, recitations, dialogues and drills, all of which were acquitted in a creditable manner by the children. The sale consisted of fancy work, ice-cream and home-made candy. The fancy work had been done by the Senior members during the winter, and reflected great credit on the members and their efficient leaders, Mrs. R. V. Alley and Miss Winnie Folkina. After expenses were paid, the proceeds of the evening amounted to \$110.50. Shaw's "Pygmalion and Galatea" to be screened. Eighth Day has gone to London to play the leading role in an English production of "Irene," and to make a picture version of George Bernard Shaw's "Pygmalion and Galatea" under the personal direction of the author.

Players and Producers of the British Motion Picture World

FAMOUS STORIES HAVE BEEN PICTURIZED FOR THE SCREEN AND WILL BE SHOWN IN CANADA

For Five Years British Producers Have Been Handicapped by War Conditions—Fourteen Companies Are Now Supplying Anglo-Canadian Company With Splendid Moving Pictures—"Bleak House," "Westward Ho!" and "The Newcomers" Promised.

In many circles there has been expressed a strong desire to see more British pictures on the motion picture screen. Not only are British pictures asked for, but films manifestly give the stories of the best authors are constantly sought and the question, "When are we going to have another Dickens picture?" may very often be heard by those who listen to the comments of movie theatre patrons. Very soon this wish will be gratified, as the Anglo-Canadian Picture Plays Ltd. are making arrangements to release one or more of the best feature creations from the British studios every week, and will also introduce a number of British scenes, cartoons and comedies. In these productions wherever possible studio settings are avoided and the exteriors are taken not only in some of the most picturesque spots of Britain's countryside, but also on the romantic coasts, with their rugged rocks of Cornwall, Devon, Scotland and Wales. Some of the most stately houses of England, owned by people of the realm, have been placed at the disposal of the producing companies for the purpose of taking scenes, and some wonderfully beautiful results have been obtained.

THE PLAYS.

"The Newcomers." Think of the delight of seeing Thackeray's "The Newcomers" with an English setting. At first it was proposed to send this film forth under the name "A Perfect Gentleman," but it was felt that all who know and loved Colonel Newcombe would want to see this picture and might not recognize the hero under a new name, however well it fitted that most lovable of characters.

"Bleak House." Charles Dickens' "Bleak House" is another of the beloved stories which is promised by this company.

"Westward Ho." From the famous book by Charles Kingsley has been well referred to as "a tale which holds children from play and old men from the chimney corner." Everybody has read "Westward Ho," and it will be a joy to see it picturized with the scenes enacted against the historic background of Old England.

"The City of Beautiful Nonsense." Just to give you an idea of the value of a British production take the well-known book by Temple Thurston, "The City of Beautiful Nonsense," one of the prettiest of modern love stories. This is one of the best proofs of the attention made recently that London is to be the Los Angeles of the future. In order to get the real local atmosphere, the Hepworth company carried its artists to the actual spots mentioned in the novel, and the picture travels from the little pond in Kensington Gardens, London, up the estuary of the Grand Canal to the steps of the Piazzetta in Venice. No imitation studio construction was necessary because a few days' work in the boat made it possible for the scenes to be enacted in Venice. In a foreword to the picture E. Temple Thurston puts on record his gratitude to Henry Edwards who he says "has captured here on the screen the atmosphere of the story." "His Dearest Possession" is another artistic triumph of a story by this author successfully shown in pictures.

"The Nature of the Beast" whose plot deals with German intrigue in Turin's also.

"The Keeper of the Door." Another picture which will no doubt be most acceptable to the general public is "The Keeper of the Door," adapted from the popular novel by the same name by Ethel M. Dell. Olga Nick, Dr. Max Wyndham and the illustrious Violet Hopper are starred in this English home. When the Eastern phase of the situation is shown it is depicted with a truly British touch and no mistake of costume or custom is allowed to creep in as has been jarred upon British audiences in many American productions. Peggy Carr, Lillian Brathwaite and Henry Edwards who he says "has captured here on the screen the atmosphere of the story." "His Dearest Possession" is another artistic triumph of a story by this author successfully shown in pictures.

"The Twelve Pound Look." Mr. James Barris's well-known play starring Constance Collier.

"Wuthering Heights." Emily Brontë's great novel.

"Beyond the Dreams of Avarice," by Sir Walter Besant and "Mr. Gill's Love Story," by George Ethel are others promised in the future.

Among the present releases are: "The Chinese Puzzle," a thriller, the popular play which ran in London for over a year.

"The Broken Melody," starring Martin Harvey.

"The Top Dog," a thrilling drama.

"The Gentleman Rider," an original story of the English turf for which the famous Epsom race course was used as a setting.

"Bonnie Mary," a five act drama by Herbert Pemberton inspired by the familiar ballad "Mary of Argyll" and featuring Scottish traditions and customs of the Highlands.

"The Impossible Woman," starring Constance Collier.

"A Little Child Shall Lead Them," a story over which the memory will linger.

COMPANY IS CAPITALIZED BY CANADIANS WHILE ITS DIRECTORATE, STAFF AND ASSOCIATIONS ARE THOROUGHLY BRITISH

Anglo-Canadian Picture Plays, Ltd. Will Have Benefits of Advantages on Both Sides of the Water—Many Prominent Canadians Interested in Project—James B. Mackay Talks to The Standard.

James B. Mackay, the manager of the Anglo-Canadian Picture Plays Ltd., in Montreal recently told The Standard representative that this company, whose capital is entirely Canadian, has directorate staff and associations which are British.

The company was formed with the primary purpose of exploiting British Motion Picture Plays in the Dominion of Canada and in the United States. It is capitalized at \$750,000 and a number of well-known Canadian business men are interested in it.

The company's plans are to place at least one and if possible two British features on the market every week.

Aside from the strong sentimental bonds which now tie Canadian people to those of the Old Country there are many reasons why British films should be a success in Canada. In the first place they present an entirely new viewpoint in the conception of art to the Canadian audience. The ideals are those for which British people have always been famous. They have been improved, as they can be improved, by a period of warfare and stress during which every mental, physical and financial unit of energy has been expended fighting for principles and the defence of Empire.

It was during these five strenuous years of war and armistice that the greatest strides were made in motion picture development, and it is not surprising that Great Britain was handicapped in her technical progress in the industry. It is a significant fact that only one of the producing houses in the Old Country was able to carry on during the actual period of the war and that even in that firm the vast

members of the staff were working in their spare time as volunteers in the Red Cross section of the motor transport. Disadvantages such as these generally require long periods of time before recovery can be made, but in one year the British Motion Picture industry has been developed to a greater extent than was ever accomplished in any five.

High Price for Pictures.

With the energy and resource manifested in wartime they have applied every ounce of thought and action to the development of their business, capital approximating one hundred million dollars being put into the project to make it a success. Not many weeks ago the United Kingdom rights of a British produced picture was sold at a higher price than any other picture has yet obtained, whether American, or other make.

Britain has many natural advantages over her foreign competitors. Always famous for stage productions she has stars whose names and reputations ring from one corner of the world to the other. Where than from the Old World have we got greater writers than those who lived, wrote and died within the confines of the little island kingdom? What greater scenic and historic grandeur as that of the United Kingdom?

There are numerous reasons why British pictures will succeed in winning the world's markets and there is no exaggeration in the claim that

SOME OF THE NOTED BRITISH STARS WHO WILL APPEAR IN ANGLO-CANADIAN PICTURES

Are Well Known on the Other Side as Players of Beauty and Ability—Henry Edwards is Producer and Actor—Poppy Wyndham Was V. A. D. in London Hospital—Martin Harvey and Gerald Du Maurier Featured.

The stars featured in these films number many well-known to the British legions on the screen, and the reader may therefore recognize a few of the following:

Martin Harvey, Owen Nares, Leon M. Lion, Gerald Du Maurier, James Carew, Henry Edwards, Basil Gill, Stewart Rome, Gerald Ames, Gregory Scott, Cameron Carr, Kenneth Poms, Matheson Lang, Charles Clatterman, Lillian Brathwaite, Constance Collier, Chrissie White, Alma Taylor, Queenie Thomas, Violet Hopper, Isabel Elson, Margaret Bannerman, Peggy Carlyle, Hennes Kelly, Sibyl Arundale, Edith Craig, Gwynne Herbert, Alice McWinter.

Chrissie White. One of London's best producers and dramatists has stated that Chrissie White's screen work is wonderful. She has climbed every rung of the ladder of film experience. Her blue eyes always accompanied by a winning smile, grow big and grave in the portraiture of her part. She becomes completely oblivious to her surroundings and lives another woman's life, feeling and suffering with the joy of living, she handles a car or a motor cycle with all the ability of an experienced mechanic and much of her time is spent in touring the England to which she is so closely attached.

Henry Edwards. A most charming personality is Henry Edwards. Kindly, careful, courteous, yet withal modest.

From the first moment he entered the ranks of the picture-players he has been enthusiastically received as a producer, as fine a producer as he is a picture player, and people who are lucky enough to work under him are very enthusiastic in their praise. His wonderful patience and equally wonderful manner of handling big situations and acts as well as small ones. So far as appearance goes, he is tall, well-built, and undeniably good-looking in a particularly interesting way. His most valuable assets are his eyes and his smile.

He is an Englishman from the West country, having been born in Weston-super-mare, where he lived until he was eight years old. Always a lover of the sea, he made friends of the boatmen and developed his imagination in the part of the "shipwrecked hero." He was on the legitimate stage for about 15 years as actor, playwright, and producer both in England and America. For two years he played in the States with E. Temple Thurston, "The Nature of the Beast," "Sunken Rocks," and "The Forest on the Hill." He works very hard at the Hepworth studios writing, playing, producing and generally supervising. He has recently completed "The Kinsman," by Mrs. Alfred Sidgwick, "Possession," by Olive Wadsway, and "The City of Beautiful Nonsense" by E. Temple Thurston. The last of these was halted in New York, England, as it was absolutely flawless. No other mention is necessary for when American producers had an English production as flawless as it is they make the greatest compliment it can possibly expect to obtain.

Alma Taylor. Alma Taylor is another of the Hepworth stars who has won her way into the hearts of the movie fans through her ability to portray her parts without any inclination to waste overacting. Versatile in her accomplishments, she is able to convey the full sense of the story into the screen adaptation of it. She has a hobby of the technical side of the industry. Printing is her favorite department and to her, the dark room is an art fascination to the power of the stage.

Three of the latest productions she appears in are "The Nature of the Beast," "Sunken Rocks," and "The Forest on the Hill."

Stewart Rome. Stewart Rome was born at Newbury and was originally intended for the engineering profession, but as he obtained his demobilization he commenced working for this well-known British firm.

The first Broadwest film in which he is featured is entitled "A Daughter of Eve," a film specially written for Violet Hopper and this popular actor.

He also appears in the first Violet Hopper production, "The Gentleman Rider," in which he plays the title role, and has just completed his part in "The Great Coup," and leading part in "Snow in the Desert."

Rome's chief hobbies are riding, walking and boxing. He also swims well, and is a good shot.

Gerald Ames. Gerald Ames has been seen in Canada in many productions other than those coming from the Hepworth studios, but the greater part of his time is now taken up in this firm's picture plays. His first stage appearances were made in the Benson Shakespearean Repertory Company with which he played in about 60 different parts. Later he spent three

years with the late Sir George Alexander and had contracts with Sir Herbert Tree, Charles Hawtrey, Robert Lorraine and the late Sir Charles Wyndham. He is thus an artist of some little experience and as a result is capable of filling the many and varied parts common to the screen. He is a fencer of no small measure and in one of the English productions he fights first with the sabre and later with the modern duelling-sword. He plays the part of the fencing-master in the famous film "Masks and Faces" which appeared in Canada during the war.

Some of his latest appearances are in "Sunken Rocks," "Possession" and "The Forest on the Hill," and it is whispered that in the near future he will see some of his own production work.

Violet Hopper. Miss Violet Hopper was born in California, U.S.A., but went to England with her parents who were both well known and in only a few months old. She completed her education in France and on her return to England determined to take up the stage as a profession. The first engagement she obtained was in the chorus of a musical comedy company. Gradually this charming artist worked her way ahead until she was engaged by Mr. Robert Courtneidge for his company playing "The Blue Moon." Next Miss Hopper made a big hit in "The Merry Widow," but owing to the fact that she was unable to stand the strain of a stage career she turned her attention to the movies.

And from that day this popular star forged her way rapidly to the foremost ranks of her art. She has appeared in practically every Broadwest picture that has been produced since her debut with this popular British firm. Among her many successes are the following: "The War Case," "The House Opposite," "Missing the Tale," "The Battered Messenger," "A Mutilated Girl's Romance," "A Gamble for Love," "A Fortune at Stakes," "A Turk Conspiracy," "The Woman Wint," "A Sailor's Crucifixion," "The Grooming," and "A Daughter of Eve."

So rapid has been Miss Hopper's journey to fame that she is now placing films on the British and foreign market produced and manufactured under her own supervision. This brand of films is known as Violet Hopper Films.

Miss Hopper is still starring for Broadwest, and has just completed Mr. Walter West's production of the film version of the story "Snow in the Desert."

Poppy Wyndham. Poppy Wyndham, who, in private life, is the Hon. Mrs. Dennis Wyndham, was born in Simla, India, and spent the greater part of her youth in England. She was educated in France.

On the outbreak of the war she became a V. A. D. nurse in her parents' hospital in London, and falling in love with one of the officer patients became engaged. Her parents refused to give their consent to the marriage, and so she fled to France, and was married at Glasgow, before the pursuing Provost Marshals could find them.

As soon as her husband was demobilized and he took up residence in London, where Dennis Wyndham returned to his pre-war occupation—the theatrical profession. It was therefore only natural that Poppy, on finding she was alone when her husband was away, should turn her attention to the screen, although she had never done any picture or theatrical work. She accordingly sent her photographs round to the various film companies applying for "crowd" work, but carefully screening her real identity. The Broadwest company engaged her for a crowd scene, and she proved so promising that she was later engaged for a small part. Her work was so professional that Mr. Walter West cast her in this dainty little piece of femininity for the leading part in the Broadwest production, "The Great Coup." She played opposite Mr. Gregory Scott, and Mr. Stewart Rome and the film proved a big success.

Cameron Carr. For twenty years, Cameron Carr played on the stage, and although he likes film work very much has not entirely given up the idea of returning to the foot-lights. Among other pieces in which he has appeared on the legitimate stage are "The King of Cadonia," at the Prince of Wales Theatre, and the original production of "Three Weeks."

He is essentially of the dramatic school and can carry the heaviest character successfully through a piece with just sufficient light touches to relieve the drama. He has also played in comedy and musical comedy but as he himself admits his temperament is far more suited to drama—the villain who lures the unfortunate female to destruction.

He commenced playing for films about eight years ago and has since that time played for nearly all the British companies. For some time he has been engaged exclusively by Broadwest.

In "A Daughter of Eve" Carr is seen as the villain, and although the character is one which is difficult to portray, Carr is at his "villainist."

CHICKY AND SHORTY STORIES

By SEWELL FORD

THE CASE OF A PINK RED

And then, when things threaten to get dull, there's always Pinckney. Trust him. If he was dropped on the wrong side of the moon during a dark quarter I'll bet he'd manage to start something. So here the other forenoon when he breezes into the Physical Culture Studio with that catap sparkle in his eyes I begin to look for quick action.

"I say, Shorty," says he, "who do you suppose I ran across on Fifth Avenue a moment ago?"

"Ah, who am I that could guess a conundrum like that?" says I. "Spill it."

"Our old friend T. Baskin Wood," says he.

"What! Wood Baskin, the pink Red?" says I.

"Only he's no longer a Red of any shade," says he; "in fact, he's rather colorless, opinions as well as complexion."

"Then it ain't Woody," says I. "That face tint of his might easy fade out, but he didn't have much to lose; he wasn't Oh, he might go through the motions, but if you watched him close you'd see him drop a finger of Scotch with half a bottle of ginger ale and make a through an evening."

"But it has been more than a year and a half since we've seen him," insists Pinckney. "I didn't realize it had been so long, but he never was me. And do you know Shorty, something mysterious must have happened to the chap. Never saw such a change."

"Maybe the prohibition drought caught him with an empty cellar," says I.

"No, Pinkey waves that aside. I ought to know Woody wasn't that kind. And come to think of it, he wasn't. Oh, he might go through the motions, but if you watched him close you'd see him drop a finger of Scotch with half a bottle of ginger ale and make a through an evening."

More or less of a highbrow, Woody was; wrote pieces for the parlor Bohemian weeklies, read queer books, could explain by the hour where him and Debs or Spargo took different tracks. Pinckney used to tow him up to the Studio and get him going just for the fun of hearing 'em debate. Course, I'd tell him straight how he had squirrels in the attic, and he'd try to show me where, as one of the common people, I wasn't runnin' true to form when I believed all I read in the capitalistic press. According to him I ought to wear a red necktie and join some group of workers.

"Like you, eh?" I'd say. "A hot worker, you are! Why, all a 7 o'clock whistle means to you is a signal to turn over for another nap?"

At which Woody would insist that while he might have been born a socialist he took no pride in being one and was out to change the system.

"I was earnest enough about whatever it was he thought he believed. He'd get real stirred up talking about the exploited masses, the wage slaves, soulless corporations, and so on. And the way he'd enthuse over the honest toiler almost made you want to grab a pick and a dimer pick and like for the nearest ditch. But I noticed that Woody didn't work up any palm callousness himself. All he worked was his jaw."

Then when the big war broke loose and we got into it he seemed to take it mighty hard. He'd sit around gloomy, chokin' his head and masticating harsh things about the government. He didn't admit being a pacifist, but he chimes we had no business makin' in this war. He was sorry for our poor boys, sorry for the Belgians, sorry for the French, even sorry for the Germans. About the only people that looked good to him was the Russians. Especially after they quit and started this covish business. He was strong for that, "Woody was."

"The ruddy dawn of a new civilization," I remember his callin' it.

"Looks ruddy, all right, if all we hear is so," says I.

It was about then that Woody began pullin' wires to get sent across with some safe and sane outfit of bombroilers. He'd ducked the drafts on account of being under weight and havin' weak eyes, but the next thing we heard he'd been sent to the Red Cross and got a job as some kind of field commissioner, and was about to start for the front.

"Look out you don't get to trottin' with Trotsky, Woody," was my partin' word to him.

"I should feel much honored if I could," says he, and off he goes.

"Then he drops out of sight. The war is wound up after a fashion, the boys come stragglin' home, the peace convention scrap drags on, but still no sign of Woody. In fact, I'd most forgot all about him until Pinckney blows in with this bulletin.

"What was he doin' over there so long?" I ask.

"I couldn't get him to say," says Pinckney. "Which is one reason why I've come for you."

"Eh?" says I, gawpin'.

"As you may remember," goes on Pinckney, "Woody sadly underrated my mental equipment. He thinks I have too frivolous a mind to grasp such great and burning questions as why the writer works. He declines to wove his wisdom on me. Curiously enough he regards your low-grade intellect as a fellow field."

"Says, how do you get that way," says I. "Whaddya mean by low grade?"

"Pardon the phrase," says Pinckney. "I might state it more subtly but with less exactness. At least you will admit that Woody used to talk quite freely to you. Perhaps he will now. Well, I've arranged to have him take lunch with me at the club. And I want you to come along, too. We may find out what has happened to him."

"Thanks," says I, "but I don't think I've got time to—"

"I've ordered grilled pigs feet and some crab salad," says he.

"Swiftly!" says I, callin' into the gym and grabbin' my hat. "I'm likely not to be back until 2.30."

Maybe I could have passed up the grilled pigs' feet at a pinch, but some crabs—M-m-m-m! They ship 'em up from Tampa about twice a month and

this swell club of Pinckney's is the only place I ever heard of their bettin' know. And say, when it comes to that kind of explorin' he's got Columbian lookin' like a cop on a fixed post. Talk about broiled lobsters, this stone crab nourishment has the chorus girl's delight best seven ways. So I takes Pinckney by the arm and starts him down the stairs before he can change his mind. Besides, I might have worked up a little curiosity about Woody myself.

We finds him waitin' for us in the big downstairs lounge, pacin' up and

down behind the row of easy chairs watchin' the traffic nervous. I can't see much change in him at first glance. Still, it was beginnin' to do the neck and face, but he never was much of a bask. And I notice that his hair has frosted up a bit above the ears. Still, it was beginnin' to do that before he left, even if he is only in the late thirties. Only his eyes seemed different. They used to be the steady, peacocks' kind, but now they are starry and restless by turns.

I will say, too, that he lets on to be in with either hand," says I.

"Fortunate person!" says he. "I wish I could. After all, there is a sense of security in being able to do that sort of thing."

"You don't mean, Woody," I goes on, "that you're gettin' ambitious to land a left hook on somebody's jaw?"

"Not precisely," says he, "but there are occasions when it would be a satisfaction to know that one could tin—in an emergency."

"Pinckney and I swaps glances."

"Oh, come, Woody," puts in Pinckney, "tell us all about it. You are not being followed by desperadoes, or I threatened, or anything of that sort, are you?"

"I suppose not," says he. "Not now. At least, I trust I'm not."

"Which implies that you have been," says Pinckney. "I say, we want to know what you got mixed up in abroad. Didn't meet a dashing countess, did you?"

Woody merely shrugs his shoulders bored.

"When did you tricked back?" I asks.

"Oh, three or four months ago," says he. "I've been staying up at Jimmy Trevor's camp in the Adirondacks—hunting a little, snow-shoeing, fishing some, resting a lot. I needed it. My—my nerves."

"Worst thing you could do," says Pinckney. "The country always gives me a case of nerves if I stay there too long. Too many wiled noises at night. The only place to really rest is in town. You can be comfortable here, and safe."

"Sally!" says Woody. "What an odd idea."

"Listen to him, Shorty!" says Pinck-

ney. "Here he is, in one of the most substantial buildings in New York, shut in by thick stone walls, the windows guarded by steel grills, the entrance watched by keen-eyed, faithful servants. Why, a stray cat couldn't get in without being seen, much less a strange human being. Our members are all men of substance and standing. Besides, we have within call thousands of policemen. Come, Woody, where could you find a safer spot?"

Woody only shakes his head. "It was in a stronger building than this," says he, "and one surrounded by an army of soldiers at that."

"Eh?" says I as he stops sudden.

"What then? Did someone throw a scuro into you by grabbin' you by the collar and askin' you the time of day in Russian?"

"One of the judges rolled off his chair, stumped by vodka. We waited while a new one was sent in. He was nearly sober, but more evil-faced than the others. A fat, putty-colored face he had; small pig eyes with bags under them; very bald as to his head, and with his left wrist tendaged. I shall never forget how he looked as he glared at us. In three minutes he had

pointed at his wrist. I suggested fiddling. 'Too common,' says he. This wound was made by the teeth of a comess. And then he roared as if he had made a grand job. The other judges roused up and growled. 'Away with the dog of a Keresnysky!' they urged. 'Where are you from?' asked the pig-eyed one. I told him, New York. 'So?' he grunted. 'No, too I've worked in New York.' Then they wrangled together. The other two wanted to send me after the ones who had gone out to be stood against the wall. But Pig-eye was undecided. 'It might cause trouble,' he said. 'We should ask Lenin to put it out.' Besides, there are plenty of others, and the soldiers of the squad complain that their guns are getting hot. Save him for another day. So I was sent back into the big room. I was forgotten. For weeks I was there. We were fed occasionally on wretched food. At any moment I expected to be called out to face other judges. I don't know now why I wasn't. But at last some of my brother officers came searching for me. I was identified, rescued. They got me into a hospital. I was there a long time, months. And when I could walk they let me go. But there was no way of getting out of Petrograd. Hardly any Americans were left. The Red Cross headquarters had been moved to Moscow. Fighting was constant. You dodged out to buy food and dodged back again. An English diplomatic agent was the shelter, such as it was. We were raided frequently by drunken Reds. For a week our block was bombarded. I never knew why. But at last I had a chance to get into Sweden with some food smugglers. Finally I caught a steamer home. And here I am."

"Huh!" says I. "No wonder you got jumpy nerves, Woody. And I take it you saw enough Bolshevik antics to last you for awhile, eh?"

"Enough for a life time," says Woody. "That's why I feel nervous here. They're in New York you know; beds of their own."

"Aburd!" says Pinckney. "Newspaper talk. At least, there are none in this club. You may count on that. So let's have luncheon."

"Sure!" says I. "It's always a soothing process, havin' lunch on Pinckney. But this he does. And with a knife in one hand and a fork in the other you ought to feel fairly safe."

Woody works up a faint smile.

"Probably I shall," says he. "I couldn't see how he could help it, for somehow in this plute joint, with the heavy hangings at the high windows, and the thick rugs on the floor, and the waiters movin' about soft and silent like they worked in oil-grooves, it seemed as if the rude common people was shut out complete. At sight of Pinckney the headwater came almost human, tows us to a corner table, and snags his finger for the bus boys to get busy."

"Yes, sir," says he. "The hors d'oeuvres are ready, the grilled pigs' feet sent, and then the crab salad. Yes sir."

"And have Louis serve," adds Pinckney. "He knows how I want things."

"Very well, Louis," says the headwater.

Meanwhile Woody is busy mesurin' out a mild shot of Scotch that somebody has found in Pinckney's locker, but the first thing I know he has dropped a glass and at the crash I looks up to find him starlin' bug-eyed and the waiter, who is handin' round the tray of caviar and pickled herring. For a second or so, too, the waiter stares back. Pinckney notices and glances from one to the other.

"Beg pardon?" says Pinckney. "Anything wrong?"

"Woody don't say, but keeps on starlin' blank."

"The hors d'oeuvres," murmurs the waiter.

"Oh! Oh, yes," says Woody.

He don't say anything more until the waiter has left. Then he reaches over, grips Pinckney's arm and whis-

pered four human beings to death. Off hand, carelessly, as you would send away a beggar.

"Then I was prodded forward. He snatched away my papers. 'Ah, a cursed Keresnysky!' he growled in Russian. 'I am an American,' I told him. 'An official of the Red Cross.' 'So?' he grunted in English. 'I need some first aid myself. What is good for the bite of a fair lady?' and he

per hour: "That's the man!"

"What?" says Pinckney. "What man?"

"The big-eyed one," says Woody. "Who was judge in the Fortress."

"Oh, I say!" says Pinckney. "Why, that's my old standby, Louis."

"I couldn't mistake that face," insists Woody. "The small pop-eyes, the bald head, the putty complexion, the waiter here in this club for ever so long. He's been here for years, in fact, that is on and off."

"But, my dear chap," protests Pinckney, "Louis has been my favorite waiter here in this club for ever so long. He's been here for years, in fact, that is on and off."

"And you don't remember having seen me before?" demanded Woody.

"No," says Louis, starlin' stupider than ever.

"That's all," says Pinckney. Then, turnin' to Woody, he chuckles. "There! You see?"

"Do you imagine," says a Woody, "that I could watch for half an hour the face of a man who was declin' whether or not he should send me out to be shot and then not know him two years later? Could you, if you had seen me before?" demanded Woody.

Spring flowers, ferns and pine were used in profusion to decorate St. Paul's Church on Wednesday, for the marriage of Miss Lucy Barclay, only daughter of Mr. and Mrs. Henry B. Robinson, Germain street, and Mr. Campbell MacKay, son of Mr. and Mrs. Malcolm MacKay, Rodway. The bride, as she entered the church on the arm of her father, and accompanied by her bridesmaids, Miss Barbara Jack and Miss Nina Carrisette, Detroit, was met by the surprised choir, who sang "The Voice That Breathed O'er Eden." The groom was supported by Mr. Cecil West. The bride wore a wedding gown of lustrous white satin embroidered with pearls, with a long court train lined with pale pink georgette. The tulle veil was arranged in cap effect and was fastened with a coronet of orange blossoms. The bridal bouquet was of sweetheart roses, Arabidopsis Crowfoot, minister of the church officiated. Miss Barbara Jack wore a pink tulle gown and leghorn hat faced with pink and a flower crown. Miss Carrisette wore blue tulle, with a leghorn hat faced with pale blue and a flower crown. Both carried old-fashioned bouquets of pink carnations. The bridesmaids wore pale blue and a flower crown. Both carried old-fashioned bouquets of pink carnations. A large audience was present at the concert given in the Methodist Church on Friday evening. The musical program opened with a selection by an orchestra composed of Mrs. G. W. Gibson, piano; Miss Grace Ewart, violin; Miss Margaret Gibson, violin; Mr. Paul Fokine, violin; Arthur Sprague, trumpet; which was greatly enjoyed. The concert was beautifully rendered, composed of Miss Faye Plummer, Miss Nellie Montgomery, Miss Mary Balfour, Miss Edith Smith, Miss Louisa Robinson, Mrs. Harry B. Thompson, Mrs. Ernest Burt, Mrs. William Thompson. Their instruments which were quite new, produced a quality of harmony which was greatly appreciated and brought forth much applause. The violinists were a surprise and a pleasure to listen to, especially Miss Margaret Gibson, a little under the age of fourteen years, daughter of Mr. and Mrs. G. W. Gibson, who plays with wonderful facility for one so young, and who gives promise of being quite an artist in the musical world. "Oh, Dry Bones," "Beaux" were sung by Mrs. William Thompson, who was accompanied by the violin obligato being played by Miss Margaret Gibson. The solo "Dresden Air" by Miss Nellie Montgomery, was very much enjoyed, the K. O. joining in the chorus. Miss Margaret Gibson sang solo, "In Climbing Mountains," in a pleasing manner. Three madrigal selections by Mrs. G. W. Gibson, Mrs. William Thompson.

Stomach Disorder

Only Six Months To Live. Read What B. B. Did For Him.

Mr. Hinas Kehli, Magnolia, Ala., writes: "Some years ago I became very sick from stomach disorder, which the doctor told me had started from drinking bad water. I tried local doctors, but finding I got worse from day to day, I went to a doctor in Edmond. He told me that I must have an operation, and that if I didn't I could not live any longer than six months. I told him I had better die after six months than be out to pieces. I did not know if I was coming. I felt so bad I couldn't walk farther than 10 yards without resting. It took me 6 hours to walk 2 miles; the distance from the station to my home. Some weeks later I read an advertisement about your Burdock Blood Bitters. After I had used one bottle I felt much better, and after I had used two bottles I was completely cured; therefore you see you B. B. has saved my life, and I cannot praise it too highly."

Burdock Blood Bitters puts the stomach at ease by promoting perfect digestion, and restoring health and strength to the system. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Inquest On Death Of Virginia Garrett

Came to Her Death as Result of Being Struck by Automobile Driven at Excessive Rate in Careless Manner

By Harold Beverly.

"We, the jury empaneled to inquire into the cause of the death of Virginia Garrett on the night of April 30, 1919, after carefully considering the evidence submitted, find that she came to her death as the result of being struck by an automobile driven at an excessive rate of speed in a careless manner by Harold Beverly, accompanied by Charles Ross, John Kennedy, Jack Wilkinson, Max Dean and Allan Curtis.

"And we do recommend that the speed of motor vehicles on the 'Barry' Road between the One Mile House and the Redford Post Office be limited to 25 miles per hour, slowing to 12 miles per hour passing through villages and along thickly populated parts of the road and that it be necessary for all cars to use lamps or colored lenses instead of dimmers.

"And we do recommend that all curves and dangerous parts of the road be fenced, and that the fences be painted white. And that a motor police patrol be provided to prevent exceeding the speed limit."

Signed:—Harold Beverly, foreman; Joseph Ferguson, Arthur Kennedy, Percy Purveshew, John McIntyre, William F. Welling, Alexander Fowler.

The above verdict was rendered by the jury after about half an hour's deliberation. The inquest was held last night before Coroner O. E. Peters of Redford in the Redford Association's Club House at Redford in regard to the death of Virginia Garrett, which occurred at Redford on Thursday evening as the result of being struck by an automobile.

The first witness to be called was Mrs. Finley. She stated that at about 9:30 Thursday evening she came down to the edge of the road opposite Thomas H. Oddy's store, accompanied by Margaret and Virginia Garrett. They saw the lights of an auto coming from the city, and the lights of another car and a team of horses from the other side. The cars were some distance away so they crossed the road to Oddy's store and stood with their backs to the well leading toward St. John. She saw the one light on a car go out, and then the others. Witness said to the children, "Well, stand here till the car goes by." Margaret was standing with her back to the store when witness heard a white then Margaret was lying at her feet. She tried to find the other child and the boys came up and asked her if there was anything wrong. He was Charles Ross. He was under the influence of liquor which witness could smell on his breath.

When witness saw the approaching car, she seemed to be seeing things. She had children on the Cobey side of the ditch at the time she saw it approaching. When the car struck the store it seemed to scrape it. Virginia was on the Redford side. The car was going very fast. It must have been more than twenty miles an hour. Witness identified Ross, who had also seen two of the other prisoners.

A photograph of the scene of the accident was produced and the witness showed the jurors the position of herself and the two children at the time of the accident. The car from Redford she said, stopped and the driver got out. She did not remember hearing a horn.

Charles Ross, the next witness, said that he was riding in W. A. Gunter's car on the night of the accident. The car had not been taken without the owner's consent. There were five others in the car. Witness was in the back seat when they left the city, John Dean was driving. After they left the city Beverly asked to take the wheel and changed place with Dean, witness also got in the front seat and there when accident occurred.

Witness identified Ross, who had also seen two of the other prisoners. A photograph of the scene of the accident was produced and the witness showed the jurors the position of herself and the two children at the time of the accident. The car from Redford she said, stopped and the driver got out. She did not remember hearing a horn.

Witness remembered seeing two lights on the other car, he did not know whether he saw a spot light or not. When the car hit the store he had the top of the car and fell back on the seat. Before the change in drivers was made the car was going about 35 miles an hour. After Beverly took the wheel from Dean to 25 miles an hour. Witness thought that some of the boys in the back seat thought the car was being driven too fast by the first driver.

Before taking the car he was in a pool room. He then walked around the Square. He never whose car it was that was taken.

After the accident Dean who was badly hurt was put in Dean's car and taken into town. Witness did not propose taking the car.

GREECE TO TAKE PLACE IN FIELD OF ATHLETICS

That Greece will make every effort to take her merited place in the realm of world athletics is evidenced from news which has just reached New York from Laird Archer, secretary in charge of the Y. M. C. A. work in that country. The Stadium is to be turned into a school for training of officers and physical directors for the educational institutions of Greece, and for work among the Boy Scouts and Athens gymnastic clubs. The army programme promises much for the future of athletics in that part of Europe.

Mr. Archer, in his letter, says: "It will mean much to have Greece revive again the movement for athletics which spread from Greece to all the Balkans fifteen years ago and which was checked only by the war. Greece is ready to do a great thing. She has appropriated 500,000 drachmas for completing a military gymnasium and school for athletics. Her Prime Minister has declared that Greece will make every effort to take her merited place in the athletics of the world. She has cut red tape in an astonishing way in placing the Y. M. C. A. in practical charge of this development."

Father's Revenge. Peter Thompson went to visit his son in Montreal. It was his first visit to the city, and the young man showed him all the sights, concluding with an ascent of Mount Royal in a burst of enthusiasm young Thompson said: "See, father, isn't it wonderful down there?" "Well," said his father, "it's so wonderful down there, what did you drag me up here for?"

From 15 to 20 miles an hour and it looked as though it was handling corduroy collar, double shoulders and sleeves and lined body part. It keeps you warm and dry and safe. Guards your health. H. W. Dalton stated that he had not seen the accident but arrived a little later at the request of the St. John Chief of Police he measured the distance from where the car ran off the side of the road to where the front wheel turned on the road again, it was 202 feet.

B. A. Denison said he was in the store at the time of the accident. When he got outside after prying the door open he found one of the little girls about fifteen feet away, down in the culvert. He helped pick her up and lay her on the platform, she was bleeding considerably.

Charged the Jury. The Coroner then charged the jury. In doing so he drew their attention to the fact that the lives of pedestrians had been endangered on the St. John to Redford road, owing to a reckless driving of some motorists. J. B. M. Baxter appeared for Beverly and K. J. MacIntyre for the parents of the deceased.

A QUARTETTE. Four arrests were made by the police last night. Peter Abram was arrested on a warrant for assault. Harold Scott was arrested on a theft charge, and two drunks were also brought in by the police.

KEEP URIC ACID OUT OF JOINTS Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure to less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this impurity. In damp and chilly cold weather the skin pores are closed which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get out of your pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.

Fred Trifits said at the time of the accident he was returning from Redford in a McLaughlin six. The car was equipped with a double set of lights and a spot light, which he used only when passing another car. About a car length from the store he saw another car coming over the hill whereupon he dimmed his own lights and the car passed just as witness passed the store.

The dinners were on when witness got out of the car which he stopped on hearing the crash. He had not taken more than his share of the road. He had not seen any children but on coming back saw a child lying in front of the store. The other car was going at

In appreciation of their Canadian readers, the publishers of Hearst's Magazine accept Canadian money at par, thereby absorbing any exchange, and they also pay all costs of delivery to local news dealers to enable their readers anywhere in Canada to buy Hearst's Magazine at the regular price everywhere of 35 cents, as printed on the outside front cover.

IF you are content with an ordinary magazine, if you are not willing to pay well for the very best, you won't want Hearst's this month or any other. But if you really want the works of the world's great writers—the words of the world's great thinkers—make sure each month—starting today with the May number—of your copy of Hearst's.

Are Ghosts Good Detectives? Has crime ever been detected through spiritualism? Sir Arthur Conan Doyle says it has. He cites as evidence a few of many cases taken from court records in America and abroad, which have been explained in the past as extraordinary coincidences or as interpositions of Providence. Read "The Mystery of the Red Barn," "The Murder of the Cornish Horseman," "The Blood Stain on the Snow," and "The Dream That Prophesied a Crime," and see if you can explain them.

Do You Believe in Revenge? What would you do if you had been ruined by business associates and friends—and then two years later you struck it rich in oil?—But let E. Phillips Oppenheim tell the story. "The Fall of the House of Bultivell" is the first of a new series of short stories by Mr. Oppenheim, whose great novels of international intrigue and adventure are well known to readers of Hearst's. If you read "The Box With Broken Seals," you surely will not want to miss these wonderful stories.

That the absence of some of these vegetables from the diet of a child may result in stunted growth or diseases of the nerves and eyes? Read about the wonderful discoveries nutrition experts have made about carrots, sweet potatoes, parsnips, beets and other vegetables and many other interesting facts in Science of the Month, by Dr. Henry Smith Williams.

Has Nature a Brain? Does thought die when life leaves our physical brain? Scientists say there can be no thought without a living brain. Yet, argues Maurice Maeterlinck, before the appearance of man, Nature was far more intelligent than we are. In the world of plants and fishes and insects, she had already achieved the most marvelous inventions. Nature to conceive ideas does not need the brain of man. In fact our own brains themselves are but the evidence of pre-existent thought.

Is Man Happier Without Woman? Would Victor Stowell have been happier had he never met Bessie Collier?—Why did Prince Michael Fedor of Monte Carlo organize among his friends "The Enemies of Women," a community from which women were strictly excluded? Are men really happier without women? The two great novels of 1920—"The Master of Man," by Hall Caine and "The Enemies of Women," by Blasco Ibanez—deal with this question. Both these great novels have just started in Hearst's.

Does Your Child Eat Carrots? Do you know that certain vegetables have remarkable effects on the growth and health of children? That the absence of some of these vegetables from the diet of a child may result in stunted growth or diseases of the nerves and eyes? Read about the wonderful discoveries nutrition experts have made about carrots, sweet potatoes, parsnips, beets and other vegetables and many other interesting facts in Science of the Month, by Dr. Henry Smith Williams.

Are Ghosts Good Detectives? Has crime ever been detected through spiritualism? Sir Arthur Conan Doyle says it has. He cites as evidence a few of many cases taken from court records in America and abroad, which have been explained in the past as extraordinary coincidences or as interpositions of Providence. Read "The Mystery of the Red Barn," "The Murder of the Cornish Horseman," "The Blood Stain on the Snow," and "The Dream That Prophesied a Crime," and see if you can explain them.

Do You Believe in Revenge? What would you do if you had been ruined by business associates and friends—and then two years later you struck it rich in oil?—But let E. Phillips Oppenheim tell the story. "The Fall of the House of Bultivell" is the first of a new series of short stories by Mr. Oppenheim, whose great novels of international intrigue and adventure are well known to readers of Hearst's. If you read "The Box With Broken Seals," you surely will not want to miss these wonderful stories.

do a thing to Israel, at which both the men of every one that hear it shall single. In that day I will put down against all that I have spoken concerning his house, from the beginning even unto the end. For I have told him that I will judge his house, because his sons did bring a curse upon themselves, and he restrained them not.

"And Samuel grew, and Jehovah was with him, and did let none of his words fail to the ground. And all Israel from Dan even to Beersheba knew that Samuel was established to be a prophet of Jehovah. And Jehovah appeared again in Shiloh; for Jehovah revealed himself to Samuel in Shiloh by the word of Jehovah."

The significance of the Lesson is threefold: 1. When the custodians of religion, however holy themselves, cease to have a solicitude for righteousness, the end of their service is in sight. 2. The Voice still speaks and summons to the young and the most important factor in history. What you hear, manhood does. The way out of all woes is by the religious ideas of childhood.

3. When the Voice speaks, the only right answer, whatever the consequences is "Here am I." The spirits who reply "Present!" when God calls are the ones who save their times. Souls grow great by saying "Here am I" to God.

REAL MANHOOD ALWAYS WINS OF his many enemies and to the alertness of a brain which is fed by the vital energy of the man it belongs to.

It seems to me that any man, unless he is bowed down by extreme old age or by some consuming malady, will increase his physical and vital strength if he really WANTS to and is willing to make the right sort of a conscientious effort in the right direction and along right lines.

We manufacture a little mechanical appliance called the Standard VITALIZER (referred to above), and all about which it will pay you to learn, because some day you may want to use one.

This little Vitalizer is not expected to do its work unaided, but is meant to act as a powerful assistant to Nature and to the man who wants more vitality or vigor and is willing to do his part in regaining it.

With special attachments, the Vitalizer is also used for rheumatism, kidney, liver, stomach, bladder disorders, etc. If, after reading the free booklet, you decide that you want like to use the Vitalizer, we shall be pleased to make special arrangements for you to have one to use. If in or near this city, we should be glad to have you call, otherwise please write for booklet. Hours 9 to 6. Satisfaction guaranteed in every case.

TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and lo! the pernicious habit quickly vanishes. Drug stores refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

TUXIS BOYS AND TRAIL RANGERS

FIRST TWIN CONFERENCE

The First Twin Conference (Boys and Girls) held in the Maritime Provinces, took place at Hillsborough, Albert County, recently. There were 51 registrants; 45 girls, 31 boys, and 5 adults.

Joint sessions were held on Friday evening at the Group Games Period Saturday afternoon, at the banquet Saturday night. The closing on Sunday evening was also together. This meeting will be one long to be remembered by all who were privileged to be present. The congregation filled the First Baptist Church; the boys and girls met in the Sunday School and marched in to the main part of the church which had been reserved for them, while the congregation sang "Onward, Christian Soldiers." The president of the conference (Mr. Harman Sherwood) presided, and four young ladies and two boys took part at the gathering. The closing ritual was most impressive, the boys and girls forming a complete circle around the entire church, while singing, "Best be the Tie that Binds, Our Hearts in Christian Love."

As a result of the conference, fifteen boys expressed a desire to unite with the church; two boys asked for special help as to the use of their leisure time; two others on the choice of life work; three on ways of securing a better education.

One boy has asked for help on the engineering profession; another as to ways of becoming a wireless operator. We feel that such work is bound to be profitable in any community.

On the North Shore

The "Tuxis" and "Trail Rangers" work on the North Shore of New Brunswick is going splendidly. Many of the towns have Community Halls, where they are carrying out their mid-week programme.

This Citizenship Training Course is gripping Northern New Brunswick in a way that will mean greater things in the future.

Spirit of Tuxis

The spirit of Tuxis fairly breathes of the thought of service to others and training so that every boy might be come efficient in order that they might be of the greatest possible service.

This idea is catching the Canadian boy in a very real way. The success of any movement can be measured to a large extent by the actual service the members of that organization, or those interested, express in terms of service to others.

Tuxis means training for service with the other boys of the country in the Jesus way of living.

Reports reach us of the way some boys are practising this idea. One Tuxis Square is carrying on wood, bringing in the water, and doing the other odd jobs around the house for a family of cripples. The boys take turns each day.

Another Square is showing its spirit by contributing \$150 to the Forward movement of its particular Church. Already one payment has been made and

\$26 collected for the second payment. The boys are earning the money by doing certain community work, for which they receive remuneration.

Such things as these speak well for the citizenship of the future, when we will have a type of man willing at all times to take his share of community responsibility.

What Shall a Boy Read?

Every Tuxis Boy or Trail Ranger has at some time asked himself this question. He has had a quiet afternoon or evening and has been looking around for something to read. Of course, there are some boys who scarcely ever read anything, but these are the exception today.

What a boy reads is a very important part of his life and every C. S. E. T. boy should ask himself what he is going to read the next chance he has.

In the Juvenile Court of Ottawa last month two boys were brought before the judge on the charge of stealing and house-breaking. These boys had been before the court a number of times before and all attempts to change their ways of life had failed. They will probably be sent to the Industrial School as a result of their latest offences. The cause of their downfall was the reading of cheap novels of a vicious kind. The wild stories in the books made such an impression on them that in time they tried to carry out some of the ideas of which they read.

NARROWLY ESCAPED "ASIA" DISASTER

Aged Ontario Resident Had Premonition of Fate That Steamer.

Silverwater, Ont., April 26.—Mrs. Barbara Grubb, one of Silverwater's oldest residents, will celebrate her 83rd birthday tomorrow. She was born in Wick, Caithness-shire, Scotland, on May Day, 1832, in the reign of William IV, thus living in the reign of four British sovereigns. Her late husband,

William Grubb, was born April 5, 1836, in the reign of George IV. After emigrating to Canada, they lived twelve years at Dundas, Ontario.

In 1883 they decided to move to Montserrat Island, disposed of their property in Dundas, and sent household goods and personal effects to Owen Sound, where they were placed on the ill-fated steamer Asia. It was their intention to leave Dundas in their one-horse wagon on Friday, Sept. 8, and drive to Owen Sound, where they were to take passage on the Asia on Wednesday, the 12th. However, Mrs. Grubb was seized with a mysterious premonition of impending disaster and refused to start till Sunday. They arrived in Owen Sound Thursday evening. The first person they met was a little boy who was crying because his father had sailed on the Asia the previous evening. Fears were entertained for the safety of the vessel on account of the violent storm which had arisen. Her arrival at French River, the first port of call, had not been reported.

Mr. and Mrs. Grubb took passage on the next steamer. When they reached Gore Bay, Montserrat Island, after an anxious voyage, their fears were confirmed. The Asia had gone down. Of crew and passengers numbering 200, there were but two survivors, who had drifted in an open boat for three stormy days without food or shelter.

The founder of the Asia left Mr. and Mrs. Grubb almost penniless. There remained only a little that they had carried with them and the horse that had been worth \$100 at Dundas. They now refused an offer of \$20 for it, and shortly after lost it by drowning. The fate they themselves had so narrowly escaped.

With well-preserved faculties, Mrs. Grubb is still strong and active, frequently during the past year taking walks of from one to three miles.

ANOTHER REVERSAL ON N. Y. MARKET

Local Money Market Almost Bare of Time Funds—Foreign Exchange Was Reactionary.

New York, April 30.—The stock market experienced its tenth consecutive reversal today, tomorrow's recess for "Moving Day" with its possible disturbances, provoking additional professional selling pressure.

There were "other" unworkable developments, however, including further signs that the Federal Reserve Board is continuing its firm policy of contracting credits by all the means at its command. It was said on the street that it is evidently the intention of the Central Bank authorities to make a comprehensive investigation of bank acceptances for the purpose of weeding out or reducing to a minimum all obligations that are not actually of a discount character.

The end of the fourth month of the year found the local money market almost absolutely bare of time funds, while call loans rose from eight to 15 per cent.—rising to 12 per cent. in the final dealings.

Foreign exchange was reactionary, the break in sterling bills being ascribed to heavy offerings of London bills by exporters to meet maturities in this market. Unconfirmed reports referred to large shipments of gold from London to this center in the near future.

Trading in stocks was smaller than on any previous day of the week. Extreme declines of 2 to 10 points in the various "pooled" shares, notably steels, equipments, motors, and oils were largely recovered at the end, short covering accelerating the rally. With the exception of United States Steel and Baldwin Locomotive, major gains were made by the more speculative issues.

General Motors finished unchanged after having lost ten points. Sales amounted to 920,000 shares.

New low records for Liberty 3 1/2's, first 4's and third 4 1/2's contributed to the heavier bond market. Interestentials also yielding. Total sales, par value, aggregated \$15,700,000.

Panama's declined three per cent. on call; other United States issues showing no alteration.

SUNDAY TRAINS BETWEEN ST. JOHN AND MONCTON

Some Time Changes on Canadian National Lines in Effect May 2nd.

Changes on Canadian National Railways in effect on May 2nd will affect the departure of No. 10, the night express to Halifax. This train on account of the 485 service going into effect between Boston and St. John will leave at 11:45 p.m. instead of 10 p.m. (daily except Sunday).

No. 13 express from Halifax will arrive at 5:20 p.m. (daily except Sunday) instead of 8:35 p.m.

There will be a Sunday service between St. John and Moncton by the new train No. 49 and 50. No. 49 will leave St. John on Sunday only at 9:30 a.m. and arrive at Moncton at 1:00 p.m. connecting with No. 199 Ocean Limited for Montreal and with No. 200 Ocean Limited for Halifax. No. 49 will leave Moncton at 4:30 p.m. after the arrival of the Ocean Limited from Montreal, and reach St. John at 7:35 p.m.

Service to Prince Edward Island will be by No. 18 train leaving at 1:10 a.m. and by No. 14 which will leave at 1:15 p.m. instead of 1:40 p.m. Connecting trains for Tormentine leave Sackville at 12:30 a.m. and 1:45 p.m. The steamer Prince Edward Island will make two round trips daily except Sunday.

The only other change in trains in and out of St. John is No. 241 on the Valley Railway which will on Monday leave St. John for Fredericton Monday, Wednesday and Friday at 6:00 a.m. (Eastern Time). No. 41 passenger train will leave at 12:50 as usual.

CONTINUED THE METAL MARKET

In its summary of the iron, steel and machinery markets for week ending April 29, Canadian Machinery and Manufacturing News, Toronto, makes the following comment: The market now has the peculiar aspects of the United States Steel Corporation selling its output at a price many dollars a ton lower than the independents. Just how long this can be continued is hard to state, but the fact remains that with the steel markets of the world empty, the premium business is likely to last for months yet. The Corporation no doubt figures that in the long run it will be in a strong position by not having engaged in any gouging of the market when the demand was at its highest and supplies at the lowest.

Makers of machine tools in several points announce increases in selling prices. The trade has ceased to figure out when this is going to end or where it is going to lead. It is known, though, that there are large schemes in mind in this country, but work on them is being up for the present, the promoters fearing to go into the machine tool market, and engage on the building operations that would be necessary. The scrap metal market is dull. Lead is lower in price, the reason apparently being that lead from the Old Country is likely to be on the U. S. market very long at a figure below the prevailing price. Tin lead is also lower. The latter, by the way, has a variety of experiences, from the grocery store over the package of tea to the house to the garbage pile, to the dump, and then rescued by the pickers. At least that is where much of it comes from.

Petition On Behalf Of St. John Pilots

Signed by Leading Shipping Men and Lumber Interests Asking That Government Supply Suitable Boat for Pilotage Service in Bay.

A petition is being circulated in behalf of the St. John Pilots who recently suffered the loss of their boat through collision with the Canadian Voyageur, asking that the Government supply a suitable boat for the pilotage service in the Bay of Fundy. The petition is signed by the leading shipping men, and representatives of the lumber and other business interests of the city. Yesterday it was presented to the Mayor and will probably be endorsed by the city authorities.

In view of the decision of the Court of Enquiry into the collision, blaming the masters of both vessels, it is not likely that any action will be taken before the Admiralty Courts for damages.

At the present time the Federal Government is considering arrangements to take over the control of the St. John Pilot Service, and it is felt that with this control should go the obligation of providing the pilots with a boat to carry on their business.

Many Complaints From Householders

The Mayor Has Received Complaints That Householders Are Being Overcharged by Carters for Moving Furniture.

Since moving operations started the Mayor has received a number of complaints from householders that they are being overcharged by carters for moving their household goods. In one case a man was charged \$5.00 for moving a few boxes, and in another a lady was charged \$10.00 for moving a few boxes and a small table.

His Worship stated yesterday that if more complaints were received the cost of cartage would be reduced. All carters are licensed but though there does not appear to be any definite rule affecting the removal of household goods, the city would not have the power to cancel the licenses of any carters whom they decided had been making excessive charges.

In Montreal similar complaints have been made and the authorities took prompt action to redress the grievances.

A good many householders in St. John are moving this year, many against their will to make room for tenants willing to pay higher rents. Quite a number have been unable to secure suitable houses within their means and are storing their furniture and seeking rooms wherever possible. But even with the overcrowding, the housing question is driving many families out of the city.

A man who knows the situation said last night that not in his life had he seen such an exodus from the city as this spring. "And it is purely a question of being unable to secure decent housing accommodation at reasonable rates," he added. "The situation is a serious one, and it is difficult to see the remedy. Houses at present cannot be built, and sold to the working class, for the cost of new construction is too great to interest private enterprise. If the city had put a stiff tax on vacant lots in the past, the landlords would have been compelled to build and the growth of the city would have been provided for. Unless the housing question is tackled by some form of public enterprise the further growth of the city will be checked, just at a time conditions appear ripe for a considerable expansion."

Good Prospects For Another Industry

Representative of Big Corporation Looking in St. John for Site to Establish Branch Factory—Financial Agency Asking for Information.

The Mayor and the Commissioner of Lands have been approached by the representative of a big corporation, which is looking for a site to establish a branch factory in the Maritime Provinces. The representative, who interviewed the Mayor and Commissioner Bullock, wanted to know what sites the city had available for manufacturing purposes, and at what prices they were obtainable. No reference was made to tax exemption or special privileges. The representative was supplied with the information he required and seemed favorably impressed with the situation in St. John. He said, however, he would not make the decision to locate here until a high official had looked over the ground.

Following the visit of the representative of the big corporation, His Worship received a letter from a financial agency asking for a lot of information about the city. This wanted to know the cost of coal, light, power, average rental of stores of certain dimensions, taxes on the same, salaries of girls and boys, etc.

Food Protection Keeps Down Cost of Living

The proper preservation of food goes a long way in reducing the cost of living, besides making for health in the household. In warm weather especially a refrigerator is a vital necessity in every home.

You'll find here an excellent line of refrigerators which are scientifically constructed, with particular attention to the frost, even circulation of dry, cold air, their roomy compartments being easy to clean. They are shown with white enamel and galvanized iron linings, handsome oak finish, and will with ordinary care, give long satisfactory service.

The Westfield Country Club

Westfield Outing Association Passed Out of Existence at Meeting Last Night—Officers Elected With D. W. Ledingham as President.

At a meeting held in the Board of Trade rooms last evening, the Westfield Outing Association passed out of existence and in its place was organized the Westfield Country Club, duly incorporated and with ambitious plans for the coming summer. It was the annual meeting, and was marked by great enthusiasm. In addition to hearing reports, electing officers, adopting the new constitution, etc., the members went on record on several questions of live interest.

The financial statement showed that the year had been commenced with a cash balance of \$62.43, that there had been received in the form of contributions toward the erection of the club the very generous sum of \$1,844.93; that membership fees produced \$285.50, and that the dances given by the ladies, the mid-winter bridge, and other functions had added \$1,414.82 to the revenues. On the other side of the statement it appeared that the club house cost \$2,504.69 and is free from debt; that \$172.50 had been spent on the golf course; \$133.79 on the tennis courts and \$338.29 on other activities. There remains in the treasury the gratifying balance of \$458.41.

The club considered at some length the new constitution and, by-laws and adopted these with slight amendments. The original draft provided that membership to the number of fifty might be extended to non-residents. This clause came in for criticism, as some were inclined to the belief that resident members might be frozen out if many city golfers swooped down on the course. After lengthy discussion, this provision was held in suspense until a canvas is made of the resident members for the purpose of ascertaining how many intend devoting themselves to the game of golf.

The club went on record as strongly in favor of daylight savings from May 22 until Sept. 11. It also took action on the question of speeding by motorists, and will approach the Provincial Government for the purpose of endeavoring to control the enthusiasm of motorists who in former years have been in the habit of tearing along the Westfield road without regard to the rights of others.

In the election of officers, D. W. Ledingham, who has so ably filled the position of president for the past two years was unanimously re-elected; William E. Golding was chosen vice-president, and the following board of directors appointed: George Z. Warwick, Harry P. Rankine, S. Norman Sanction, Frank J. Likely, Percy D. McAvity. At a subsequent meeting of the directors, Frank N. Robertson was appointed secretary-treasurer with Percy Leonard as assistant.

Prisoner Sawed Bars In His Cell

Thomas Connell, Awaiting Trial on Criminal Charge, Obtained Saws and Removed Four Iron Bars—He Pleaded Guilty.

Thomas Connell was charged in the police court yesterday afternoon with attempting to break jail and set himself at liberty while confined in jail awaiting trial on a criminal charge. Turkey Clifford the first witness called, stated that the accused was a prisoner in the cell next to his on the 28th of April having been remanded for theft. He was quartered in a cell on the fourth floor and in the west side of the wing.

The witness went on duty at 6 o'clock that night and locked all the prisoners in their cells amongst whom was the accused. Sydney Kilminster another prisoner occupied the same cell.

At eight o'clock the turnkey sensed something was amiss and called upon Turkey Bowes to accompany him on his rounds. On investigation it was found that two bars had been cut in a window of the fourth floor corridor which faced south, and two bars had been cut in the cell door of the accused. On entering the cell, two double headed bars were found together to form a rope. The two occupants of the cell were taken out and locked up in separate cells for the night.

Ernest Ross, the next witness, said he was in the cell next to the accused, and that he saw him using saws on the window and cell door on Wednesday afternoon. Turkey Bowes then corroborated the evidence of Turkey Clifford.

Sydney Kilminster, stated that he was in the same cell as the accused, and on Wednesday had seen him cutting the bars of his cell door and those of the window in the corridor. The bars had all been cut when the prisoners were locked up for the night. At six o'clock the turnkeys came into the cell and took the witness out and put him in a witness' box. He saw a good quantity of sawdust in the cell, and saw the witness' girl had brought the saws in to the jail which he indignantly contradicted. Witness said he did not keep a lookout for the accused, and did not help him pry the bars loose nor did he see any one help him do so.

No more evidence was taken, the accused pleaded guilty to the charge and asked for leniency. He was then remanded.

Board of Trade Entering Protest

Against Ruling That Railway Freight on Goods Coming from United States to Canada Must be Prepaid in American Funds.

The Board of Trade is entering a protest against the ruling that railway freight on all goods coming from the United States to Canada must be prepaid in American funds. They cannot see why the Canadian railways' share of the freight should be paid in American funds anyway, as Canadian money is good enough for other concerns in this country. The ruling at present exchanges adds about fifteen per cent. to the tariffs on Canadian railways on goods imported from the United States, and means smaller profits for the trader or higher prices for the consumer.

The Board was unable to get together a delegation to go to Ottawa along with the Board of Trade to protest, but sent a wire to Mr. Wigmore, M. P., explaining the Board's stand, and asking him to lodge a protest on their behalf.

COMMON COUNCIL MEETING YESTERDAY

Paving matters were discussed at the committee meeting of the council held yesterday morning, and it was decided to recommend to the new council that the paving of City Road be proceeded with subject to an agreement with the New Brunswick Power Company regarding the payment for foundation under the car tracks.

It was also decided to recommend that Morrison & Newlands be paid an extra thirty cents per foot for the balance of the cost of stone ordered from them, and the time for delivery extended to May 1, 1921.

Subscribers Will Receive Magazines

Owing to Paper Shortage Certain Magazines Will Not be Sold on News Stands in Canada Until Situation Rights Itself.

Owing to paper shortage the Saturday Evening Post and Country Gentleman will not be sold on the news stands in Canada until the situation rights itself, but subscribers will receive their magazines as usual. The news stand circulation of the Ladies' Home Journal is being curtailed. Most American magazines and newspapers are limited the number of copies supplied to newsdealers, and the newspapers are raising their prices.

The American newspapers are still taking back unsold copies, but the prospects are that they will have to still further curtail their circulation, as there is no immediate likelihood of the paper shortage being overcome.

Asked how the Canadian magazine situation would be affected, Mr. Munro, of the St. John News Company said:

"There isn't any Canadian magazine still further curtailed. About the only Canadian magazine that has any newsstand sale is McLean's of Toronto, and I understand they are curtailing their circulation."

INDIANTOWN NOTES; PLENTY OF FREIGHT

The steamer Hampton brought down an exceptionally large cargo to Indiantown yesterday, on her regular trip from Hatfield's Point, as well as a good list of passengers. Besides a large amount of miscellaneous freight there was also a good quantity of produce on board, including eggs, butter, potatoes and turnips, veal and mutton. The eggs were offered at 45 cents; butter at 58c, veal at 18c and potatoes at \$3.50 a barrel.

On her trip up river to the Point the Hampton carried an exceptionally large amount of freight, including a horse had to be left behind as there was no room for him on the steamer.

The steamer Majestic arrived at 4 o'clock from Fredericton yesterday afternoon. She had a large quantity of produce on board, hay, mutton, beef, pork, potatoes, turnips, butter and eggs, as well as several live cattle. The pork was offered at 26 cents and the veal from 12 to 15.
