THE SUBSCRIBERS HAVE REMOVED THE MANUFACTORY, WAREROOM, &c., Corner of Union and Carmarthen Streets,

Watchmaking in Switzerland.

[From the Swiss Times of May 30th.] From the Swiss Times of May 30th.]

We have already drawn attention to the annual meeting of the Society of Arts held on the 23rd current, under the presidentship of M. Th. de Sausure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevase manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pecket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs. J. M. Badollet & Co. This firm having carried off the sole prise by exhibiting a chronometer which fulfilled in the highest degree every condition required, crewated their first success by zaining hongrable mended their first success to the

exhibiting a chronometer which fulnied in the highest degree every condition required, rowned their first success by gaining honorable mention for two other chronometers. The alluvion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department. Gold and Silver Watches,

ST. JOHN, N. B., AUG. 24, 1872.

candidates declared themselves. Sir Mr. Young, inasmuch as when he was George E. Cartier could not be present, in Parliament he had done nothing owing to indisposition, and Mr. Jette, to carry out the principles which he his opponent, could not attend, as he now professed to have held for so many was engaged to address another meet-years. He told the workingmen that ing the same evening. Mr. John "they would not go far wrong if they Young and Mr. Drummond, however, followed the lead of the workingmen opposing candidates, came to the front all over the Dominion, and returned to and answered the questions of their Parliament men who would support the catechism very nicely. The following legislation which would prevent them are the subjects on which the working- and their fellows from being imprisoned

men desired information:—

First—Are you in favor of manhood suffrage? Second—Vote by ballot? Third—Trial of contested elections by the judges? Fourth—The holding of the elections upon one day? Fifth—More stringent bribery laws? Sixth—The shortening of the hours of labor?

and fined because they ventured to combine." Mr. Howley, an orator among the body, then spoke in behalf of the Liberal or Young party; and Mr. Alexander McDonald, a member of a Carpenters' Union, advocated the men desired information:

answer them all in the affirmative. He the Government candidate, next came to the front. His speech was briefer than Mr. Young's; he swallowed every plank of the workingmen's platform, but scarcely with the ease with which Mr. Young had disposed of it. Mr. Drummond is interested in sugar reDrummond is interested in su

Secretary of the second contraction of the s

of Toronto had allowed themselves to be made the tools of men who induced them to present that casket. But they knew better, and they had given their answer to that insult. In the Western and Eastern livisions of the City of Toronto, where A Workingmen's Demonstrations.

The workingmen of Montreal have been putting to the candidates for the Commons a series of interrogatories, and, in reference to a call, a public meeting of workingmen was held on Wednesday of this week, at which the condidates of the Commons and the candidates of the Commons a series of interrogatories, and, in reference to a call, a public meeting of workingmen was held on Wednesday of this week, at which the condidates of the City of Toronto, where the workingmen are strong, they have sustained the candidates of Sir John A. Macdonald. (Applause.) And in the Centre Division, atthough he believed that Mr. Wilkes had been elected, whilst at 12 o'clock he had a majority of 200, when the workingmen are strong, they have sustained the candidates of Sir John A. Macdonald. (Applause.) And in the Centre Division, atthough he believed that Mr. Wilkes had been elected, whilst at 12 o'clock he had a majority of 200, when the workingmen are strong, they have sustained the candidates of Sir John A. Macdonald. (Applause.) And in the Centre Division, atthough he believed that Mr. Wilkes had been elected, whilst at 12 o'clock he had a majority of 200, when the workmen of St. John's Ward, where they lived, came out and voted, they reduced that majority to 41.

Warerooms 55 and 57 KING STREET.

and fined because they ventured to

Mr. Young was the first to speak. He Drummond or Government side. Then declared that he could and would came a Mr. Moore, who thought Mr. had held to these principles for the past explicit in reference to the Nine Hour paper articles and letters in which he Young man. During the discussion had discussed them long ago. He took the several speakers were checred by the questions up separately and gave an affirmative response to each, with running comments that showed him an adent in elections with running comments that showed him an adent in elections with running comments that showed him an adent in elections with running comments that showed him an adent in elections with running comments that showed him an adent in elections with running comments that showed him an adent in elections with running comments and running comments are receiving the best beautiful to the running comments and running comments are received by their partials.

Are a toung nan suspecsed of it.

Drummond is interested in sugar refineries, and is a large simployer of labor, and appears to be tolerably and proper in the extracted printed with the workingmen, thought a good alless of a demangaged that the extracted printed years are going to use the Government in part of the stream of the extracted printed with the workingmen, thought a good alless of a demangaged that the extracted printed years are going to use the Government in part of the stream of the printed plants. The part of the stream of the extracted printed with the printed plants are stream of the printed plants. The part of the stream of the extracted printed with the printed plants. The part of the stream of the extracted printed with the printed plants. The part of the stream of the stream of the printed plants. The part of the stream of the stream of the printed plants. North Norfolk,

North Wellington. The increased fiajority of Mr. O'Connor in Essex would more than cover the majorities in these constituencies. They have been wrested from us, however, and we must acknowledge the fact. But if the Opposition have gained they have also lost. And this is how their losses in the contest count up:

ntest count up : North York, East Grey, Hamilton (two seats), North Huron, A

Prescott.

This is to say, out of the forty-nine members elected the Government have suffered a loss of two. As, according to the Globe's own classification, they had a majority of 16 in the last Parliament, they could afford to suffer many more losses and yet have a good majority in Ontario. But, instead of losses, they have certain gains to make; so that there is an absolute certainty that Sir John Macdonald will certainty that Sir John Macdonald will secure a fair majority in his own Province.

is as rampant as ever in Halifax. The latest exhibition is thus set forth in the Sir,-The facts with reference to the Halifax Chronicle, which approves the

The suggestion or advice to call for lands did not come from the Hon. Mr. Fraser. He had absolutely nothing to do with it. The demand for a survey of lands arose naturally out of the position of the Company, out of their agreement with the Government, and out of the law bearing upon the case. Under the agreement and the law so much land was due the Company for so much work. The Company knew that in December they would be entitled to about 400,000 acres, (fully half of which quantity would be due them in October.) They believed they would be entitled to a further 100,000 acres by the middle of next summer; hence they applied for a survey of 500,000 acres.

The survey of a larger quantity than 500,000 acres arose from the circumstance.

A more puerile and valuable manufactures, viz: the Woodside Sugar Refinery. As most of our readers know, a foreigh company projected the Sugar Refinery. As most of our readers know, a foreigh company projected the Sugar Refinery some years ago, spent a considerable sum in preliminary work, and then failed. The enterprise remained dead until a few weeks ago, when a number of the Halifax merchants took hold of it and commenced the organization of a company with a capital of \$600,000. Since the election of Messrs. Almon and Tobin, several leading merchants, who had determined to invest largely in the stock, have withdrawn from the enterprise altogether. They say—and not without reason—that the success of the project must depend largely on the ability of the members for Halifax to understand and represent the interests of it in commercial legislation; and as Messrs. Almon and Tobin are unterly incompetent for that duty they (the capitalists) are not willing to risk their money in the enterprise.

A more puerile apology for a miserable allowed the sum in preliminary work, and then failed. The enterprise aconsiderable sum in preliminary work, and then failed. The enterprise remained dead until a few weeks ago, when a number of the Halifax merchants took lod of it and commenced the organ

[From the Swiss Times of May 30th.]

We have already drawn attention to the annual meeting of the Society of Arts held on the 23rd current, under the presidentship of M. Th. de Saus-ure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Gene vese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs, J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department. THE Northern Pacific Railroad ompany's First Mortgage Land Grant Sinking Fund 7-30 Gold Bonds.

JAY COOKE & CO., PHILADELPHIA, Fiscal Agents for the Company

THE Road, commencing at the head of Lake Superior, is to run to the Pacific ast, where it will have two termini,-one a Portland, Oregon, the other at Puget Sound, in e Lake to the Mississippi, is a Lumber and Mineral district, with abundant Water Power.
The next 350 miles, to the Missouri River ossing the Red River Valley and Eastern Dakota, is a well-watered Prairie country; for Dakota, is a well-watered Frairie country, as nearly the entire distance the soil is very superior, equal to the best in any land. (On this section track-laying is proceeding at the rate of three miles per day.) In October, the road will be opened for traffic to the Missouri River, where it will connect with steamers running 1,000 miles further west, to Fort Benton. As

many as 33 steamers have been employed in a single season to accommodate the trade of these upper waters. Commencing about where the line crosses, Lignite coal has been traced, in beds from 2 to 7 feet thick, for 600 miles up the Missouri. The mauvais terre or "bad lands," so-called, through which some of the exploraory lines were traced, are not found on the line finally adopted. Trains have been running regularly for six months to Red River; they there connect with steamers running north to Manitoba. A branch road, now building along Red River Valley, will also connect the trank line with Manitoba. 30,000 emigrants are said to have settled on the Company's land in this

valley last season.

Exclusive of the 517 miles of trunk line nearly completed, 836 miles are being finally located and prepared for contract: this includes 226 miles extending from the Missouri along the 225 miles extending from the Missouri abundance valleys of the Heart River and Guldives Creek to the crossing of the Yellowstone, in Eastern Montana; much of this section is prairie, similar to that east of the Missouri; the remainder is adapted for grazing. Coal outerops over a large part of this district—a bed 14 feet thick, said to be of excellent quality, is exposed on the Little Missouri. The Yellowstone Valley is 400 miles long by

150 wide; the road will run nearly the whole length, and is now being located along it. ing this valley as one of unsurpassed fertility; here, as well as east and west of this section, The Rocky Mountain section, about 300 miles Idaho, is a Mineral and Agricultural region; the numerous extensive valleys of this locality are exceedingly fertile, equaling any part of the

are exceedingly fertile, equaling any part of the Continent in the quantity and quality of their agricultural productions. In the yield of Gold Montana now is second only to California. Montana last year paid for freight about \$4,000,000 the Government transportation for the Forts of the Upper Missouri amounted to nearly as much—making a total of \$8,000,000.

the Upper Missouri amounted to nearly as much
—making a total of \$8.000,000.

Along eastern and central Washington section, say 200 miles, the land is Grazing, Agricultural and Mineral; here thousands of horses,
250 WASHSTANDS and TOILETS;
250 WASHST

steamsnips and for other purposes.
Puget Sound, with its 1800 miles of coast line, and bold shores, has no equal as a harbor in the world, except in the British possession to its The newspaper items about Indians, an The newspaper items about Indians, and damage from them to the road, are attributed by the Company to frontier speculators, who wish to see Government money spent in their vicinity and to their advantage. There is no pposition from the Indians on any part of the Comparison with other Roads.—The greates

elevation in crossing the Rocky Mountains on the Union and Central is 8235 feet, on the Northern (lat. 46) 4950. On the Dominion (lat. 52) 3760. From the Pacific to Lake Michigan by the Union and Central, is 2405 miles; by the Northern (latest official report) to Lake Superior 1720 and Montreal by proposed Eastern Exor 1720 and Montreal by Propose and Superior 1990 and to Montreal 2730. The mititude of the western terminus of the Northern and Dominion Roads give them to the ports in Asia an administration of the Northern and Contral of Store 1990 and 1990 an vantage over the Union and Central of 800 I am authorized to sell North Pacific 7-30's at par and accrued interest in United States cur-rency; at which rate they will yield the Provinrency; at which rate they will yield the Provincial invester ever 8 per cent. The bonds and interest are both payable in Gold, and are free from United States tax. The Company's enor mous land grant of nearly 23,000 acres per mile of road, which with the track, &c., is bound by the loan, should render these bonds one of the safest of investments, sure to rise much above par in market, value on the completion of the

safest of investments, sure to rise much above par in market value on the completion of the road, and the closing of the loan. The process of redeeming and cancelling the bonds has already begun, as these securities are now being received in payment for the Company's Lands Official returns show that 26 leading Land Grant Railways in the United States have sold their lands at an everage of \$7.04 per acre. Should the Northern Pacific Company realize the low estimate of only \$4 per acre, the pro-Should the Northern Facine Company realize
the low estimate of only \$4 per acre, the proceds of their grant would more than twice pay
the cost of building and equipping their road.

GLUES, Gums, Graham's Pain Eradicator; or gray hair GLASS Phials and Druggist's Sundries.
to its original INK-Dicroic, Indelible and Indian.

color, with the gloss and freshness of youth. Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous.
Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted nerely for a HAIR DRESSING. nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy

lustre, and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, LOWELL, MASS. H. L. SPENCER, Medical Warehouse, 20 NELSON STREET, ST. JOHN, N. B., General Patent Medicine Agency

B. C. KENWAY, C. E., 102 Prince William Street,

AVING had over twelve years' experience in the science of Engineering, embracing practice in Europe, Asia and Africa—using none but the very best and latest instruments, and having recently imported direct from England a splendid five inch transit theodolite, I am in a position to put through field work with superior speed, accuracy, and consequent cheapness.

In consequence of numerous enquiries from friends, I have been induced to practice as an
