## GOVERNMENT AND BRIDGE SUPERINTENDANCE

More Light on Financial Matters--Accounts Held Back Till After Close of Fiscal Year.

FREDERICTON, April 12--By reference to the government's own reports and other documents it has been proven beyond a doubt that under the Hazen administration bills incurred in one fiscal year are held over for payment into the following year. In this the financial showing for each year is made to appear as somewhat better than it really is. This paper has already referred to cases indicating that the government holds over some of these bills from year to year. However, one or two striking cases which have been brought out in the Public Accounts Committee.

Take, for instance, the case of the Sheridan Mill Pond Bridge and the Renauds Bridge in the county of Kent. The work on these bridges was finished in October, 1909. The accounts were sworn to by the proper persons, one on October 26th and the other on October 28th. The Public Works Department did not apply for payment of the bills until November 3rd of the same year, or two days after the fiscal year closes, though the accounts were sworn to about two weeks before the close of the year. This fact stands. The accounts for this work done in 1909 were all in order before the close of the fiscal year. In spite of this they were not paid until 1910. It might be said in attempted justification that the Public Works Department did not forward the accounts for payment until two days after the fiscal year closed. What excuse had the department for this delay when the accounts had been in readiness for nearly two weeks? But, as a matter of fact, Hon. Mr. Fleming has stated in the house that accounts for the fiscal year are not closed until ten days after the year really ends. In other words, in the case of these bridges the accounts were presented for payment by the Public Works Department over a week before, according to Mr. Fleming's own statement, the accounts of the province were really closed.

There can be but one explanation of this state of affairs. The government deliberately carries over bills from one year to another in its attempt to show on paper a better financial position than really exists. Amounts were carried over from 1909 to 1910, and so on just as long as the present incompetent administration is in power. In this way the government tries to fool the people into the belief that there are no over-expenditures and that every care is observed in handling the financial affairs of the province. But the people will not long be fooled by such transparent methods. And it must be born in mind that it is not merely in the case of the two bridges above referred to that this carrying-over process has gone on. Bridge after bridge throughout the report is found to reveal the same state affairs.

It is interesting to notice also the method by which the government allows its superintendents to prepare their accounts. It has been shown in the Public Accounts Committee that in the case of Kent, for instance, many of the bills are made out by a man named Felix McLeod, though the superintendent is a close political friend of Dr. Landry, to wit, Mr. Peter Bernard. The accounts are made up by Mr. McLeod and the accounts are sworn to before Mr. McLeod, the same gentleman who made them up. It was also shown in the committee that in the case of at least one bridge in Gloucester County, Pont Brele Bridge, for which lumber was bought and never put in the bridge, the bills for lumber were not made out by the man who sold the lumber, but by a Mr. Stewart, a Conservative patronage dispenser in Gloucester. As the Opposition leader put it, Mr. Stewart apparently transacts the business and gets the superintendent to sign the bills.

The lumber for this Pont Brele Bridge was got out in 1909, it was paid for in 1910, it has yet to be put in the bridge, although the outlay for it over \$200 was charged against the account of the bridge.

Another sidelight on the Hazen bridge was brought out when it was shown that some men, political friends of the government, who have reaped such rich rewards as bridge superintendents have really not actually superintended the work of certain bridges at all, although they have been paid for so doing. In some cases for instance, it was shown that the superintendent had been at the bridges before the work began, had not been at them during the progress of the work, but made an inspection after the work was completed. In these cases, just as in other cases, the superintendents were paid a tidy sum for superintending the work. How farcical the Hazen pretensions of carefulness in bridge work really are is well shown by facts such as these. Imagine paying the people's money to a man for superintending work which he did not see while it was being carried out. It is somewhat strange also that in these cases the superintendents could swear to the pay lists for the work although it was clear that they had no absolute personal knowledge as to the details of the work and the men employed.

The Hazen-Morrissey method of handling the bridge work of the province is apparently one of the most scandalous pieces of mismanagement of public affairs which could be brought to light. The people's money is being grossly wasted, while the government members and the government supporters sit by, complacently and allow the abuse to go on. Their political friends benefit and the province suffers.

## NOMINATIONS FOR MAYOR AND COUNS.

Things were very quiet around the Council Chambers on Tuesday. It was expected that most of the retiring Councillors would again accept nomination, although Dr. Murray and Messrs. McLennan and Richards had stated positively they would not stand for re-election. Everything was going smoothly until we got a rude jolt when it became known that there would be a contest in Ward III. At five o'clock the town clerk declared that A. M. G. McDonald had been nominated for Mayor and there being no opposition declared him elected to that office. The following Councillors were declared elected viz--Ward I, H. Lunan, M. D. and L. G. Pinaud; M. D. Ward II, J. M. Mowat and S. M. Moores. At large, Chas. A. Alexander and W. H. Miller.

There being more than the requisite number of persons nominated for Ward III a poll will be held on Tuesday the 18th inst at the Wm. Cook building, Rosebery St., at 10 a. m. The nominations for Ward III and the nominators are--John White and J. R. McKenzie, nominated by E. J. Allingham, E. Sullivan, A. F. Ferguson, J. T. Mowat, John T. Nelson, Duncan Downes, Jas. Jardine, Edgar Shirley, Adam Pratt, M. P. Moores, John G. MacColl and M. Murray M. D. For Alex. Elsliger the nominators are--George Duncan, Robert L. Duncan, Alfred Maltais, Geo. A. Duncan, Geo. Poirier, John Lemieux, J. I. Boudreau, Isaac Boudreau, W. J. Duncan, S. Frenette, Jos. Duncan, J. A. Thiberge, W. J. Comeau, John McIntyre. It is expected there will be a heavy poll as the voters list is largely increased this year, and Messrs. White and McKenzie are confident of carrying their tickets.

## TOWN COUNCIL MET TWICE THIS WEEK

Town Fathers Clear up Old Business--R. J. Sandover, New Town Engineer--Reports of Comm'ttees.

A meeting of the Town Council was held in the Council chambers on Monday evening. His Worship the Mayor presiding. Councillors present--Alexander, McDonald, Miller, Mowat, McLennan and Moores.

Minutes of previous meeting read and confirmed.

Communication from R. M. Hope, manager of the Bank of New Brunswick asking permission to lay a granite crossing 5 feet wide on Water St. at the new Bank premises. The request was granted, the work to be performed under the superintendence of the Town Engineer.

Petition read from C. A. Belyea asking license for opening a store for builders supplies. This was referred to Police and License Committee. Councillor White at this time entered the meeting. Councillor McDonald submitted the report of the Water and Sewerage department and recommended payment of accounts to the amount of \$29.74. Report was received and adopted.

Councillor Moores submitted the report of the Public Charities committee and in it recommended the payment of accounts totalling \$57.50. The report was received and adopted. Councillor Mowat read the annual report of the Electric Light department for the year 1910, which was accepted by the council and ordered to be filed for publication in the town blue book.

Councillor Mowat in his committee report recommended the payment of accounts totalling \$906.12. This report was received and adopted. As one of the accounts in this report had been running since January 1909 it was felt advisable that all chairmen of committees should instruct suppliers that their accounts must be presented at a respectable time and not hold out accounts as was done in this case.

The feeling in the council was that it makes checking an account a very difficult matter when the bills were not rendered promptly and also leaves an easy opening for old bills to be overlapped and paid twice.

Councillor Miller reported progress from the special committee appointed to confer with the relief committee agent assistance given the council in financial matters.

In the report of a special committee appointed to investigate charges made against the Town Council in coal matters, Councillor McLennan reported that Mr. F. S. Blair refused to meet the committee and he (Blair) disclaimed the authorship of the statements questioned.

Councillor McLennan was of opinion that there was nothing in the charges made, and that there were no irregularities in the coal purchase in question. On this report being accepted the committee were thanked for their labors and discharged.

Councillor McDonald brought up the matter of the vacancy for town engineer.

Eighteen applications were received and after going carefully into these Councillor McDonald laid before the Council a short list of three. After discussion Councillor McDonald moved and Councillor McLennan seconded that R. J. Sandover Sly of Oshawa, Ont., be appointed town engineer at a salary of \$100 per month. Carried.

The request of the Presbyterian and Baptist churches to be allowed to build in wood, was again mooted, but nothing was done in the

matter. The Bye-Laws distinctly state that all buildings over 35 feet in height must be brick or fireproof construction, and in the Bye-Laws there is no power given the council to exempt any building.

Councillor Miller reported that there was no money available for water and sewerage accounts, and moved that the sum of \$502 be overdrawn and placed to the credit of Water (Capital) Account. Carried.

Councillor McLennan moved and Councillor McDonald seconded that Maxwell M. Mowat be appointed a member of the Board of School Trustees in room of A. G. Adams resigned. Carried.

It was agreed to by the Council that the street from west of Sugarloaf St. south of the I. C. R. and north of Gerrard St. and parallel thereto, and at one time known as Duncan St., shall be now named and known as Hillside St.

The thanks to and appreciation of the efforts made by the fire brigade of Dalhousie on the day of the fire, were placed on record, as also to Mr. John McDonald for his services on that occasion.

The question of the \$30,000 for school purposes threatened to come up again, but the Mayor ruled that this matter was now out of the council's hands, and was before the Legislature.

After a question re the destruction of liquor, the council adjourned.

A meeting of Council was held on Thursday evening His Worship Mayor Murray presiding. Councillors present, Alexander, McDonald, White, Miller, McLennan and Mowat.

Minutes of previous meeting read and approved.

Mr. D. F. Graham was appointed returning officer at the coming election for Ward III.

Moved by Councillor McDonald, seconded by Councillor McLennan, that the Town Treasurer be instructed to furnish the returning officer with a list of defaulters and that no person be allowed to vote unless their taxes were paid.

Communication read from the Board of Trade regarding the appointment of a Public Weigher. The council appointed Alphonse Lacombe to this position.

The Mayor submitted a communication from the Lieut. Gov. Tweedie regarding the proposed memorial from the Georges to His Majesty, and a motion was passed acknowledging receipt of the communication and authorizing the Town Clerk to open a subscription list and give public notice of same.

Councillor McDonald submitted the report of the Water and Sewerage Committee recommending payment of accounts totalling \$2.20. Report received and adopted.

Councillor Miller read the report of the Finance Committee recommending payment of accounts totalling \$11.50. Report received and adopted.

Councillor McLennan in presenting the report of the Fire Protection Committee draw attention to the charge of \$3 for horse hire. It was the feeling that this charge was too high but after discussion the report was received and adopted recommending the payment of accounts totalling \$15.05.

Councillor McLennan brought up the question of Fire Protection. The Councillor's idea was to have a paid captain and allow him to organize the department. This the GRAPHIC has spoken of already and it is now an absolute necessity. The discussion showed that the council were in complete sympathy with this and thought it should be the first thing for the new council to deal with.

### KILLED IN THE WEST

A Brother of Mrs. J. D. McAuley of Newcastle Succumbs to Injuries Received in a Washington Mill.

At the Pend Oreille Hospital in this city early Wednesday morning occurred the death of Walter A. Shackleton. Death was the result of injuries received by Mr. Shackleton on Saturday afternoon while working at the planer of the Mooser Lumber Co.

Mr. Shackleton was engaged in tightening a part of the planer with a wrench, when he slipped and his right arm was drawn into the rolls and horribly lacerated. An effort was made to save the arm, but it was found necessary to amputate it near the shoulder which was done Tuesday morning. During the day the patient had several sinking spells and he passed away early Wednesday morning. Poor health for the past three years had left Mr. Shackleton without the vitality necessary to withstand the shock of the accident and the ensuing amputation.

Walter A. Shackleton was born at New Albin, Iowa, Feb. 6, 1867, and made his home there until 18 years old, when he moved to Woodville, Wisconsin, where in 1886 he was married to Carrie Smith, who with three sons, the oldest 14 years of age, survives to mourn his loss. The family has made its home in Newport, the past nine years. He had living a sister, Mrs. Munroe, of Seattle, who came to attend the funeral, and one brother in Nebraska.

He was a quiet, unassuming citizen, a good mechanic and had the respect of the people of our town, whose sincere sympathy is extended to the mourning family. Funeral services will be held Friday at 2 p. m. at the Congregational church, Rev. F. E. Whitman officiating. — Newport (Wash.) Miner, March 30, 1911.

[The late Mr. Shackleton was a brother of Mrs. John D. McAuley of Newcastle with whom the whole community will sorrow in her great loss. The other surviving members of the family are: Mrs. Chas. Munroe, St. Paul, Min.; Mrs. Leander Ferris, New Albin, Iowa; Mrs. Geo. Rickard, Cullons, N. D. and Wm. Shackleton of Haysprings, Nebraska.—Advocate.

### 200 MORE WORKMEN KILLED

Terrible Disasters in Two American Coal Mines—Victims Were Convicts or Foreigners.

Littleton, Ala., April 8.—It is feared that 150 convicts have been killed by a mysterious explosion that occurred in the Banner Coal Mines near here at 6:30 this morning. One hundred and ninety miners were sent into the underground workings this morning, and up to 10 o'clock only twenty had been brought up alive. The bodies of the dead showed that all had made a hard struggle for life, burying their face deep in the culm and wrapping their coats about their heads in an effort to ward off the poisonous gas.

Seranton, Pa., April 8.—Up to 9,43 this morning, seventy bodies had been taken from the ill-fated Pan Coast mine at Throp, where fire yesterday entombed many men.

The disaster is the worst in the history of the hard coal fields in this section, exceeding the number of dead of the terrible Twin Shaft disaster near here some years ago, when fifty-nine men and boys lost their lives by entombment. The fire did not reach the entombed men and the conditions of their bodies shows that their death was due to suffocation from smoke or asphyxiation from the gas.

### TWO YEARS AND \$1000 AT ST. JOHN

Judge Forbes Saturday morning sentenced J. G. Sperdake, a Greek confectioner, to two years in Dorchester and a fine of \$1,000 for stealing electricity from the St. John Railway Company. If the fine is not paid an additional two years must be added to the sentence. An appeal is announced.

### "Right here you will find the Buckley guarantee."

Buy a Buckley Hat to-day—and there's a strong probability that it will be in good condition four months hence. So strongly do the makers of the Buckley believe this, that they have issued a guarantee that practically means "hat insurance for four months" to every man who wears the Buckley.

The guarantee stipulates that if a Buckley hat should by any chance—even as a result of accident—show itself in bad condition inside four months, the wearer is entitled to a new one at the shop where he made the former purchase.

But read the guarantee. Think what it means to be able to say to yourself, on buying a hat: "Now I am hatted for four months to come."

Think what it means, in honesty of manufacture, for the makers of this

hat to issue such a sweeping guarantee.

On style as well as quality, the Buckley appeals to men of discrimination—although made in England, the blocks are all from American designs—thus furnishing the ideal combination of right style and right quality.

Union made, and selling at \$2.50, the Buckley represents

just such exceptional hat value as you might expect from a manufacturer who guarantees his product with a broad, conditionless guarantee such as this.

With the facts before you, can you see any other hat but the Buckley?

## EMPEROR WILLIAM AND AGRICULTURE

Among the German emperor's multifarious activities he has not neglected to include agriculture. That, perhaps, was not generally known until the recent meeting of the German Agricultural Council in Berlin, when he appeared in person and read a paper on the subject of the cultivation of waste lands. In the course of his address the Kaiser referred to his own work as a practical farmer at his estate of Koenigs, on the shore of Frische-Haff in East Prussia. At the date when he acquired it, the land, he explained, was in an utterly neglected condition, and the first undertaking was to reclaim about 400 acres of uncultivable turf, which was often under stater Admiration was needed to overcome the objections of the keeper of the privy purse and to get the sum needed to try the experiment. The bogland was successfully drained and reclaimed and now brings in a considerable yield.

The Kaiser's appearance was highly successful and his address was enlivened by frequent humorous asides and revealed real enthusiasm. Stress was laid, not merely on the material gain which at a cost of 73,000 marks, had increased the yearly return to 12,000 marks, but on the encouragement it afforded to farming neighbors similarly to redeem waste lands. Throughout the speaker kept steadily in view the advisability of assisting the movement that has for its object Germany's independence of the outer world in the matter of agricultural produce. This is desired largely to solve the dead meat problem without sacrificing the principle of agricultural protection. The moor and waste lands in Germany have been estimated at about 400 square miles and considerable progress has already been made in their reclamation.

### CIVIL WAR AT

PRINCE RUPERT

Strikers Objecting to Other Men  
Taking Their Places, Are Defeated  
by Police and Other Citizens.

Prince Rupert, B. C., April 7.—Aroused by the importation of strike breakers, 1,200 strikers on city grading contracts defied the law yesterday for half an hour and fought the police and strike breakers with revolvers, rifles and rocks.

The battle did not end until one striker was carried away at the point of death with a bullet in his stomach, one policeman with a bullet wound above the eye, and a contractor shot through the hand. The strikers, headed by their chief leader, A. O. Morse, carrying a red banner, visited various contractors and called off men working on them, many answering the call. A visit was made to McInnes & Kelly's, where a number of men had started work in the morning. These men refused to walk out. The police had to put a barrier round the place and told the strikers that the first man who stepped inside of it would be arrested.

Heckling the strike breakers went on for a time and then some one broke down the barrier and the strikers rushed through. The police drew their revolvers, whereat an army of strikers drew their guns and fired. Rocks were showered everywhere, and the city was soon thrown into terror.

This morning law and order reigned in Prince Rupert again. With over fifty of the leaders in jail the strikers have disbanded. All night the streets were patrolled by gangs of special constables armed with rifles and revolvers. The strike headquarters have been closed by the police and the books confiscated. McInnes & Kelly, on whose work yesterday's battle was fought, are making a big gang of

strike breakers today and several other contracts, where men quit work, is again going on.

### FREE ANATITE SAMPLE

Farmers are conservative and reluctant to experiment with novelties until they have thoroughly investigated them. Some farmers are still sticking to the old fashioned smooth-coated roofings which require regular painting simply because they don't know very much about the new mineral-surfaced type. Probably they do not realize how easy it is to find out all about the new kind of roofing that needs no painting. All that is necessary to do is to write to the manufacturers of Anatite Roofing, asking for a free sample. It will be sent by return mail and involves no obligation whatever on the part of the inquirer.

## MANY SUITS AGAINST I. R. C.

Damages to be Demanded by Victims  
of Derby Jet. Wreck—Chatham  
Land Owners Not Satisfied.

A special session of the Exchequer Court is expected in New-castle soon to hear suits against the Government for damages sustained by individuals in the Derby Jet. wreck, and to settle some ten or twelve Chatham cases in which the government award of damages for land taken by the I. R. C. is not accepted.

A. A. Davidson and R. A. Lawlor, K. C., have been retained to recover damages from the government on behalf of the former in collision. Mr. Davidson, is acting for Mrs. Pleadwell, Mrs. Clouston, Mrs. Tobin, Wesley Curtis, Wm. Irving, Burpee Harris and the family of the late Harvey McDougall, the victim of the collision. Mr. Lawlor is acting for Chris O'Brien.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

## MANY ACCIDENTS ON SATURDAY

On Saturday there were very many accidents upon the ice. Alex Parks of Upper Derby, hauling a load of shingles, lost his team harness and sled through the ice off Sheriff O'Brien's mill, Nelson. His loss was about \$500. He had refused \$400 for the two horses alone. Joseph Hubbard of Redbank, going home from Newcastle the same day lost a horse off the Sinclair mill near the North West Bridge. When the animal was got out of the water it was dead.

Mr. Hubbard's loss is about \$200. The same afternoon the horse belonging to Daniel Aiton of Redbank went in near Hickson's mill and was rescued with great difficulty by the willing friends who went to the rescue, and David J. Buckley came very near losing his horse off Lynches mill. There were also several accidents off Chatham. The ice is very unsafe.

A Jewish junk dealer nearly lost his horse and load Saturday afternoon.

Monday the stage from Chatham went through the ice near Chatham Head, and the horse was rescued with difficulty.—Advocate

### A NEW FACTORY FOR NEWCASTLE

A special meeting of the Town Council was held on Friday evening. Mr. Wm. H. Russell was present and stated that he had an option on part of the Hon. P. Mitchell property, with the intention of erecting a factory, but before doing so he wished to find out what treatment would be accorded him by the Town in regard to taxation.

Ald. Butler and Morrison discussed the matter and expressed the opinion that the Town would deal very generously in the way of taxation with any industry giving employment in the town.

Mr. Russell was advised to get his plans in shape and submit them to the Town Council and Board of Trade, with the assurance that if the project was at all good it would receive every consideration.—Advocate.

## FREE ADVICE TO WOMEN

Women suffering from any form of illness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's \$0-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

### A NEW AGRICULTURAL SOCIETY

At the public meeting in Whitneyville—Public Hall, on the 10th inst. An Agricultural Society for the Parishes of North-Esk, South-Esk and Newcastle was organized, and the following Provisional officers were elected: Pres.—John McGinn, Strathadam; Sec.—T. W. Butler, Newcastle; Treas.—H. Williston, Newcastle; Wm. J. Shearer, Strathadam, president.

About 40 men were present. Among the speakers were John McGinn, T. W. Butler and others.

As soon as the charter arrives a meeting will be held in Newcastle to elect officers for the year. The annual meeting will be in Newcastle on the last Tuesday in September. The meeting was very enthusiastic.

### \$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer ONE HUNDRED DOLLARS for any case that it fails to cure. Send for list of testimonials. Address E. J. CHENEY & CO., Toledo, O.

### AN ANTI-TREATING LAW

Tacoma has initiated a new limitation upon the liquor habit. The people by population vote have ratified a by-law which prohibits treating. The by-law requires every saloon in the city to be run on the anti-treating plan, conspicuous signs being posted to warn the wayfarer that such is the law. All owners or agents of bars are forbidden to serve liquor on the premises to any other person than the one buying, and the penalty for violation is fixed at a fine in any amount not exceeding \$100. In that city men will have to show good-will towards one another by treating to cocktails or diamond pipe.

## The Campbellton Graphic

J. G. McCOLL, EDITOR H. B. ANSLOW, MANAGER

CAMPBELLTON, N. B., APRIL 14, 1911.

## THE GREAT TRADE AGREEMENT

In the course of an able editorial the Toronto Globe says, in part, that the foes of reciprocity in both countries are making the strongest possible efforts to convince the farmers that there can be nothing but injury for them from its operations. The reason for the swing of the opposition in this direction was crudely but quite truthfully presented during a recent discussion before the American Protective Association. The manufacturers of the United States, argue that if the farmers on both sides of the border find that they can be prosperous without duties on natural products, they are not unlikely to think that the manufacturers also can get along with them. It is for this reason that the campaign of the anti is now directed to the position of the farmer under free trade in natural products. There is no doubt at all that the farmers of considerable sections of the American border states have been roused to vigorous action against the agreement. The slogan of the National Grange is all-round tariff reduction. The Canadian farmer is told by high protectionist organs on this side of the line that the movement of foodstuffs will be from the south to the north in much greater volume than from the north to the south. The home-market cry is the latest and probably the last to be raised against the agreement. We doubt very much whether it will prove of any value on this side of the line. The farmers of Canada have for a long time been doing their own thinking on economic questions. They understand perfectly well the value of the home market, but they know also that for many years great quantities of Canadian produce must find markets abroad. They know that the United States is no longer essentially a farming country, and that the growth of its urban population will ere long place it among the nations that do not produce enough food for their own needs. The farmers of Canada know, too, that they are in the best position to supply that need, and therefore they are very strongly in favor of a policy that will let Canadian food products duty free into the United States while duties are maintained against those of other countries. That is a preferred position the farmers understand pretty well already. The longer the discussion lasts the clearer will it become that the farmers of Canada have much to gain and nothing to lose by free trade in natural products.

There are, as says another paper, only two features of the agreement. One is reduction of taxation, the other expansion of trade. These have been the leading features of the policy of the Liberal party ever since it succeeded to power 15 years ago. As witness the tariff reductions of 1897 and 1907, the British preference, the French treaty, and the standing offer of the intermediate tariff. Canada's present material prosperity and strength of national sentiment have been attained under and because of that policy, and her commercial and political future demands its continuance and expansion, as provided in the proposed arrangement. By reducing the burdens on the Canadian tax-payer and opening wider and more profitable markets for three out of the four creative industries of Canada; farming, lumbering and fishing, it would aid in the development of Canada's resources by her own people and to their greater profit. Canada's foreign trade is greater than ever before. Her interprovincial trade is greater than ever before. When her foreign trade was least, prosperity resulting from increase of foreign trade inevitably increases interprovincial trade. By giving Canadian producers all the advantages of the United States market without political association of any kind, even to the limited extent of a trade treaty, it would take away any possible reason for a tendency towards political union with the United States.

It was the busy hour of 4. When from a local hardware store emerged a gentleman who bore, 1 hoe, 1 spade, 1 wheelbarrow. From these out he went to a great into another establishment. And for these things he money spent: 1 peck of bulbs, 1 job lot of shovels, 1 quart of assorted seeds. He has a garden under way. And if he's fairly lucky, say, he'll have about the last of May 1 squash vine, 1 egg plant, 1 radish.

## THE SENLAC.

It has been said that the steamer Senlac, which was put up at auction at Dalhousie on the 5th, and withdrawn, will be put again on the Gaspe route. In Campbellton there is a report that the Canada, now on that route, will be taken off and the Senlac put on. Formerly, with keen competition, the route, was said to be unprofitable but with a single boat on there are more inducements. As P. W. Thomson of Wm. Thomson & Co. of the city the report could not be verified.

## CURE YOUR RHEUMATISM

50,000 Boxes Given Away To All Who Apply

John A. Smith and His Remarkable Rheumatism Remedy Cured Himself First and Now Proposes To Cure the World.

A Box of This Great Remedy Mailed Free to Any Suffering Reader Who Will Send Name and Address.

Cured Many Cases of 30 and 40 Years Standing. Deformity of the Hands in General Chronic Articular Rheumatism. On the theory "that seeing is believing," John A. Smith of Milwaukee, wants everyone to try his remedy for the cure of rheumatism at his expense. For that reason he proposes to distribute 50,000 free boxes among all persons sending him their address. Mr. Smith had suffered all the agony and torture from rheumatism, tried all the remedies known and yet utterly failed to find relief.

At times he was so helpless that he had to take morphine and after considerable doctoring he gave up in despair. He began studying into the causes of rheumatism and after much experimenting, finally found a combination of drugs which completely cured him. The result was so beneficial to his entire system that he called his new found remedy "Gloria Tonic." Those of his friends, relatives and neighbors suffering from rheumatism were next cured and Mr. Smith concluded to offer his remedy to the world. But he found the task a difficult one as nearly everybody had tried a hundred or more remedies and they couldn't be made to believe that there was such a thing as a cure for rheumatism. But an old gentleman from Seguin, Texas, U. S. A., wrote him saying if Mr. Smith would send him a sample he would try it, but as he had suffered over thirty years and wasted a fortune with doctors and advertised remedies, he wouldn't buy anything more, until he knew it was worth something.

The sample was sent, he purchased more and the result was astonishing. He was completely cured. This gave Mr. Smith a new idea and ever since that time he had been sending out free sample boxes to all who apply. At the U. C. College, Toronto, it cured Mrs. J. Whitley, who had suffered excruciatingly. Fred K. McDonald writes from Sunny Brae, N. S., that "Gloria Tonic" has cured him of a case of rheumatism of many years' standing. From Ambrose M. Melanson, Meteghan River, Digby County, N. S., comes a letter that he has been cured of a severe case. Even the first sample box cured Mrs. E. Brett at 12 Powell St., Guelph, Ont. Two boxes left Mrs. Geo. Wright, of Coaticook, Que., well and happy.

Mrs. T. Deline, West Plain, Ont., writes that she could scarcely dress herself because of rheumatism, but that "Gloria Tonic" has completely cured her. Mr. George Lees, of Dundas, Ont., says that he tried many different remedies, but found no relief until he tried "Gloria Tonic," while Clarence A. Scott writes from Toileton, N. B., that he feels that he owes his life to this great remedy.

A case of 13 years' suffering is reported by James McFarlan, of L'Amable, Ont., but "Gloria Tonic" cured it quickly. Even prominent physician have to admit that "Gloria Tonic" is a positive success, among them Doctor Quintero of the University of Venezuela, to whom it was recommended by the United States Consul. In hundreds of other instances the result had been the same. It cured many cases which defied Hospitals, Drugs and Electricity, among them persons of upwards eighty years of age.

Mr. Smith will send a trial box, also his illustrated book on rheumatism, absolutely free of charge to any reader of THE GRAPHIC who is anxious that everybody should profit by his good fortune. Mr. Smith's address in full is:

JOHN A. SMITH, 825 Laing Bldg., Windsor, Ont.

## SUCCESSFUL CONCERT

The Opera House was well crowded on Friday evening on the occasion of a vocal and instrumental recital given on behalf of St. Andrews Pres. church organ fund. The stage was nicely decorated and the concert went with a swing that delighted the hearts of the promoters. The programme was as follows:

1. Chorus—"Hail to the Chief" choir.
2. Solo—"By the Fountain," Miss Patterson.
3. Solo—"The Bell of the Lighthouse," Mr. H. W. Ferguson.
4. Quartette—"Annie Laurie," Glee Singers.
5. Violin Solo—"Mazurka," Miss Redden.
6. Solos—(A) "I know a Lovely Garden" (B) "Bonjour Suzon" Miss Haddow.
- 7—"I Dream of You," Mr. R. J. Lavoie.
8. Piano Duet—"Dance of the Demons," Misses Lingley and Mowat.
9. Reading—"The Soul of the Violin," Miss LaBillico.
10. Quartette—Negro Melodies, Glee Singers.
11. Solo—"Rory Darlin'," Mrs. H. F. Fair.
12. Violin Solo—(A) "Berceuse" (B) Percipio Mobile," Miss Redden.
13. Solo—"Mary, of Argyle," Mr. J. G. McColl.
15. Chorus—"O Canada," choir.

God Save the King.

Mrs. H. Lunan accompanist.

It would indeed be difficult to single out any one number yet the singing of Miss Haddow in her French number being a distinct hit, and Mrs. H. F. Fair's lovely contralto voice was heard in all its beauty in "Rory Darlin'." We can ill afford to lose a violinist of such ability as Miss Redden whose playing shows a great breadth of feeling and splendid technique. The negro number as usual was received uproariously. The committee's thanks is due to all who assisted especially Mr. P. H. Blyth and Mr. J. L. Inmay who painted the scenery, and also to Mr. Geo. Beckwith of Rhodes Curry who kindly sent his assistants to help in the decorations. The sum received from the sale of tickets amounted to over \$160.

## UNIVERSITY NOTES

Fredericton, April 10.—At a meeting of the Senior Class held at the College on Wednesday, it was decided to invite His Lordship Bishop Casey to preach the Baccalaureate Sermon in St. Dunstan's Church. Arrangements were made for the events of Eccelesia Week, Mock Parliament adjourned on Saturday night after a very stormy session. The House opened with the Liberals in power. Considerable legislation was enacted, including an Act to extend Suffrage to Women. During the passage of their Bill, the Suffragettes stormed the Chamber. When it became law, they signified their appreciation by voting with the Conservatives on a want of confidence motion, and the Liberals were put out of power. But both members and Suffragettes forgot their differences in a very pleasant little dance in the Acts Building after the adjournment. Lectures stop for the Easter recess on Wednesday, the 12th, and the bunch may be expected home on Thursday morning's express.

The richest tungsten mine in the world is located in Guysboro County, Nova Scotia. It has recently been sold to a syndicate of Canadian capitalists.

Some one raised a kick about the snow bank on Water Street opposite the Cantin block. The street commission's attention was drawn to the matter and he said he had fixed it. It looks worse now! I wonder what Taylor did to it.

Miss Jean Fair Cameron will be married very quietly from the home of her father, Mr. John Cameron, on Wednesday, 20th inst, to William Stuart Wilkins. The young couple will take an extended trip before going to their new home at St. John's, Nfld.

Come to Marquis & Co. The Big Department Store for your Carpets, Oil Cloths, Rugs, Squares, Mats etc.

Don't leave the clothes from the wash hanging out overnight. Two sheaves were busy at Rabbit Town on Tuesday evening and bagged a few suits of underwear. They went carefully down the line of clothes and picked out what they wanted. A bit better than a bargain sale, What?

Marquis & Co., The Big Department Store will attend to the wants of people outside of Town by mail Write and we'll forward the goods.

The Dominion Government grant of \$70,000 for the town of Campbellton passed in the estimates a short time ago without a dissenting voice. This is explained by some who are unkind enough to say that the absence of Mr. O. S. Crockett, M. P., for York was the reason no voice was raised against it.

Paint your buildings and make your places look new and fresh Spring is here and so are our lines of Sherwin Williams paints in all colors also Shellacs Paint Oils and Turp. MARQUIS & CO., The Big Department Store.

Yes we are growing. We are now going to have another swell Opera House which will make two, enough we believe to satisfy the cravings of the most rabid admirer of the Theatrical art. We have also four churches and a large number of places not including the police station where a large and varied assortment of "liquorables" are kept. Oh yes! we're doing fine.

One case each of nails and building paper expected first of the week. I will give store keepers and jobbers St. John prices and carload rates of freight. Call early and place your orders. S. M. MOORES

Mr. Max Mowat has been appointed to the vacancy on the Board of School Trustees. Max is a good man and not above taking a hint. Here's one. Hurry with that school for Ward III. It is greatly needed. We have quite a number of tips to give but one at a time is good fishing.

We have just received some very fine new Dress Goods in the latest shades for suitings also Overlapes, Embroideries, Silks, Laces, Collars, Belts Ties etc. We sell the P. C. Corset. MARQUIS & CO., The Big Department Store.

Much uneasiness is observed among those who sit in the seats of the mighty whenever the word "Laundry" is uttered. The proper site for a laundry would be at the back of the Sugarloaf or up at "Tide Head." Dirty linen should not be washed in public any way.

Invitations are out to the whole Town and vicinity to visit Marquis & Co., New Store to inspect their large stock of Dry Goods Fancy Goods Gents Furnishings Boots and Shoes, Crockeryware, Hardware, Groceries, Paints etc. Come, you don't need to buy. MARQUIS & CO., The Big Department Store.

Walter E. Flanders, President and General Manager of the E. M. F. Company, makes of the E. M. F. "30" and Flanders "20" cars, lean out and out optimist and makes the statement that it is his belief that the surface has only been scratched, so far as automobile production is concerned.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

There is much commotion in the seats of the mighty anent the proposed site for Campbellton Steam Laundry. Personally we think the proper place would be at the back of the Sugarloaf or the one thought-of site of the new station at the West End. Dirty linen should not be washed in public anyway.

What's the matter with the council anyway? Six weeks ago, instructions were given to get the mud on O'Leary Street cleared away. Things are as they were. Perhaps if some of the councillors had to tramp up and down a few times a day something would be done. Then notice was given to stop the building of a laundry until a permit had been obtained. No permit has been granted but the work goes still merrily on. Gentlemen whist wrong?

Two of our young ladies had rather a funny time of it last Saturday. They received the permission of a lady visitor to use her team for a drive during the call of the said visitor, and had a nice drive round the town. On returning to the house they were asked to see a gentleman step into the sleigh and prepare to drive off. Naturally indignant the girls strove to point out the mere man's error in taking the wrong sleigh, and he had equal hard work in persuading them they had gone off in his own sleigh to start with. Girls be careful. Horse-stealing is punished by hanging, goodness knows what it would be when a sleigh is attached to the charge.

Over 4,000,000 cords of pulpwood were used in United States during 1909.

It takes 7,000 tons of coal to bring one of the modern liners across the Atlantic Ocean.

At a meeting of 2,000 farmers held at Rigaud, Que., a unanimous resolution of approval of reciprocity was adopted.

King George has decided that the Archbishop of Canterbury shall crown the Queen as well as himself.

The first of the many railway systems of England to be electrified throughout its entire length will be the London, Brighton and South Coast line.

Lieut. Baron Vincenzo Paterno, who murdered Princess Giulina Trigona di Sant Elia, lady-in-waiting to Queen Helena, has been expelled from the Italian army.

Notice is given by the London Gazette that the King's birthday will be celebrated in London and at all home stations on May 3. At all other stations His Majesty's birthday will be celebrated June 3, the King's actual birthday.

Nearly two years may elapse before the contracts can be let, but the directors have definitely resolved on electrification, and it is understood there will be no difficulty in arranging for the running of electric trains over every section of the railway during 1916.

The length of the Brighton system is 479 miles, and the undertaking will, therefore, be a colossal one. But the experiment is justified by the remarkable success that has attended the introduction of electrical working on the company's suburban lines.

The L. B. & S. C. R. is one of the important southern roads. It runs from London to Brighton, Eastbourne, Hastings and other important points. One of its specialties is non-stop trains from London to Brighton, 52 miles in one hour.

There seems a very hard feeling going around somewhere near Ward III, regarding the delay or refusal of the School Trustees to grant school accommodation for the children of the residents. A fellow-feeling makes us wondrous kind. Gentlemen we extend our sympathy.

This is the first time that the nation's revenue has exceeded £200,000,000. Owing to the delay in the collection of taxes through the House of Lords rejection of the first Lloyd George budget, the two years will have to be reckoned together. The surplus revenue over expenditure amounts to \$28,033,830.

The Hamilton, Ont., City Council is proposing to impose a tax of \$15 on the small stores that sell cigarettes. The idea is to lessen the consumption of what is considered tobacco in its worst form by restricting the number of places where it may be obtained.

Charles D. Sheldon, who is wanted in Montreal for the embezzlement of nearly \$2,000,000, was arrested in Pittsburgh last Monday. He disappeared last October. The reward of \$10,000 offered by a Montreal newspaper, is thus won by the detective.

Customs returns at the port of Montreal show an increase of more than a quarter of a million dollars for the month which closed yesterday afternoon was \$1,825,217.81, against \$1,569,594.67, for the corresponding month of the previous year—an increase of \$255,623.14.

A fierce fire raged in this town, Fourteenth, Elvira and D. streets, Colon, last week. More than thirty houses were destroyed, and the local fire brigade and fire forces from the canal zone found great difficulty in checking the flames. As a last resort dynamite was used to blow up several buildings, as the flames were creeping close to the canal zone houses.

Hon. Frank Cochrane, Minister of Lands, Forests and Mines for Ontario, recently announced that during the coming winter experiments in burning slash would be conducted on certain timber limits in Rainy River district.

Sir George Reid, Australian High Commissioner in London, announces that his government has decided upon a scheme of assisted emigration, and urges British owners to continue shipbuilding, as Australian trade is going to stagger the world.

There are huge difficulties in getting London children to take porridge, we read. One small child to whom it was offered said—"What! Do you take us for jailbirds! This is what father has when he goes to jail!"

The French press is unanimous in expressing the opinion that after the speech delivered in the Reichstag by the German Chancellor, the dream of disarmament and arbitration in fulfled in by certain Englishmen and Frenchmen will vanish.

Two of the best of the Red Star line's immigrant steamers are to be placed on the Canadian route, the demand for passage to Canadian ports being greater than it is to New York. There is room in Canada for the new comers.

Mrs. Kate J. Crosby, a widow, of Bellevue, Ont., was refused admittance to the United States at Black Rock by the American officials. The woman said she was asked personal and offensive questions. She was going on a visit to a son and daughter.

The freight shed at Indian town Station on the Indian town branch of the Intercolonial was entered about 1 o'clock on Tuesday morning and a large quantity of liquors were stolen. A large barrel with its contents removed. The lock of the door was broken.

It is now semi-officially announced that the transcontinental will be opened from Lewis to Moncton by July, 1912. The key of the situation is in the completion of the Davis section, a very difficult piece of work, which extends for two hundred miles from the Chaudier to the New Brunswick boundary line. The N. B. section is already practically complete.

### THE ROOFING PAINT PROBLEM

When you have bought a ready roofing, how would you like to have the dealer guarantee to keep it painted for ten years without further charge? That would seem like a good proposition, wouldn't it? You can obtain practically the same bargain by buying Amatite, the new-style no-paint roofing. Amate has a mineral surface consisting of stone particles embedded in a tough plastic matrix of pitch. It is a thoroughly practical proposition. It lasts as long or longer than the painted roofings when same are carefully maintained with paint, and it does this without any care or expense. Nobody should consider the purchase of roofings nowadays without finding out all about the new type of roofing. Information is very easy to obtain, because the manufacturers are naturally more than willing to tell you all about it. Simply address a postal request for a free sample of Amate to the nearest office of the manufacturers. The Carritte-Paterson Mfg. Co., Limited, St. John, N. B., Halifax, N. S.

A great engineering work has just been completed in Arizona.

It is called the Roosevelt dam; and, with the exception of the great dam at Assouan, in Egypt, it is the largest work of the kind in the world. It dams the waters of the salt River, making an enormous storage basin for irrigation. The dam is one thousand and eighty feet wide, and forms a reservoir twenty-five miles long and more than two hundred feet deep.

#### ROBINSONVILLE

We see by the Dee Side Notes that wedding bells are ringing in the near future, but we hope it is not our young and popular teacher as the pale face trotter passes twice a week.

We regret to hear that Mr. James Borland the old pioneer of the place is very ill and not expected to recover.

Mrs. Alex Harris who has been spending the winter with her daughter Mrs. John Demeau of Birch Hill, has returned home and many friends welcome her back.

Mrs. David Parker was the guest of Mrs. George Styles of Dawsonville on Friday, making the trip with the mail.

Misses Lucy Adams and Hessie Fraser of Moores Settlement spent Sunday with Miss M. Robertson.

Mrs. Ed. Robertson and daughter Hazel are spending a few days with Mr. and Mrs. Fred Wyers of Wyre Brook.

Mr. Donald Murray who has been spending a week at Mann's Mountain has returned home.

Mr. Charlie McDonald of Dee Side spent Friday with Alex Robertson returning home with a fine dog.

Mr. Shannon McNaughton spent a few days in town.

Mr. James Parker travelling salesman passed here en route to

Upsalquitch where he expects to open a large department store.

Mr. and Mrs. John Mann entertained Tuesday evening a large number of friends, dancing being the chief entertainment.

#### BLACK CAPE

Our notes this week are not very interesting as times are very dull and the unfavorable weather interfering with the correspondent in getting to hear all that is going on.

Miss Alice McKenzie who has been ill in Montreal for some time arrived home last week. Her many friends are glad to learn that she is improving so fast.

Mr. A. Robertson who has been visiting relatives and friends here for some time left last week for New Richmond where he will spend some time before returning to his home in Stillwater, Minn.

Mr. William McCole left on Friday for New Carlisle and other points.

Mr. and Mrs. Duncan Campbell are leaving on Wednesday for Campbellton on a short trip.

Mr. John Argal and Mrs. Henry Hardy of Montreal are expected here this week and will remain for the summer.

The heavy rain of last week has made the roads in a bad condition for driving but we hope for better roads before July, the snow will likely leave us before that time but there will be lots of room for repairs and we hope that our road inspectors will see that all roads are in a passable condition before the summer is over.

We see a great deal in the Montreal paper about Reciprocity but we do not hear much talk about it down here so we can not tell if our people are in favour of it or not.

#### TOWN COUNCIL

[From page 1]

Councillor White submitted the report of the Police and License Committee, and took exceptions to two items on horse hiring account, one of these being for the use of a horse by officer Brown for which he was suspended.

Councillor Mowat thought that no officer had any right to go to any livery stable without the authority of the chief or the chairman of the Police Committee.

The Mayor explained the By-law setting forth the chief's authority in matters of discipline but the Chairman of the Police was head of the Police Dept. It was explained that although Officer Brown was on town business still his offence was a technical one in that he left town without the authority of the chief or the chairman. After discussion it was moved and seconded that the report recommending payments of Accounts totalling \$15.55, which was carried.

Regarding the application of C. H. Belyea for a store for Builders Supplies, Councillor White reported that the application was not quite definite and asked that the matter be held over as was the case of Emil Paul for an undertakers' business.

Councillor White thought the Chief of Police should be instructed to see that all license-holders are keeping to the terms of their license, as it is understood that some contractors who have only a builder's license have been doing quite an extensive store business, selling in the open market.

This brought up the wide question of licenses and the weakness of the By-Law very clearly shown up which is not the fault of the council but rather that of the Legislature.

Councillor Mowat submitted a request from the Electric Light Committee that another meeting be held on Monday first in order that tenders for the New Power Plant which will be ready by that time could be put before this old council in order to save time. Councillor Moores at this juncture

entered the meeting.

Councillor Mowat was very anxious to have this meeting as it was most important and His Worship instructed the clerk to call a special meeting for Monday evening for the going into the matter of Tenders for the Electric Light Plant.

The town clerk was instructed to write for a certified copy of each act relating to the town of Campbellton passed at the present session of the Legislature. Question was asked regarding snow banks in the streets. This brought up the question of the street commissioner and what he was doing. The feeling was that the street commissioner needed a good dressing down and if he did not do what he was asked by the council it would be better to dispense with his services and give out the street cleaning by contract.

The matter of O'Leary St. was brought up and it was left over until the new engineer took over his duties.

Councillor Alexander moved that the clerk be instructed to give the street commissioner notice to clear up Andrew street and Water street at once and clear away the snow banks complained of and also to make O'Leary St. passable for pedestrians. This gives the town clerk power to give instructions to the street commissioner regarding the cleansing of the streets.

Councillor McDonald asked if George Sanson had applied for a permit for building his laundry.

The clerk replied—No—Buildings are going up every day without permits and this is really because of the council not having a building inspector. Mr. H. A. Chandler had not time to devote to this work and it was felt better for him and the town to look around for a man to take up full duties.

Council adjourned.
