LAW RESPECTING NEWSPAPERS

Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions. If subscribers order the discontinuance of their papers, the publishers may continue to send them till all arrears are paid. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their Bill, and ordered their papers to be discontinued. If subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

European Intelligence.

ARRIVAL OF THE STEAMSHIP CANADA.

The Canada arrived at Halifax on the 11th instant. The news from Great Britain, of the prospects of an abundant harvest, is most cheering. The speculators in flour, are now satisfied that the high prices of that article must come down, and are consequently reducing the price. The last quotations give a decline in Breadstuffs, flour ruling from 1s to 2s lower. This will be good news to the people of this Province.

The previous steamer brought the Queen's Speech at the prorogation of Parliament. The Speech expresses confidence in an amicable settlement of existing difficulties between Britain and the United States. Since this satisfactory announcement there has been little or no news worth the cost of telegraphing.

BRITAIN.
Parliament being over papers are mostly filled with Railway Meetings and law reports.

THE QUEEN'S SPEECH.—The Queen's speech was delivered to both Houses of Parliament on the 25th ult. Her Majesty thanks her Lords and Gentlemen in Parliament for their usual assiduity in public duties, especially for their support during the past war.—Her Majesty says that the prosperity of her Nation was not materially checked by the war, but expresses hopes that the general prosperity of her subjects will be augmented by the peace. The Royal speech then proceeds to say that Her Majesty is engaged in negotiations on subjects of questions in connection with affairs of Central America, and hopes that the differences which have arisen on those matters between her government and that of the United States may be satisfactorily adjusted. Her Majesty takes the opportunity to thank India, and other Colonies for their aid afforded during the past war. The remainder of the speech is wholly devoted to home affairs, particularly to the country, police, Cambridge University, joint stock companies, Courts, and the coast guard. Her Majesty closes with the usual compliments to the gentlemen of the House of Commons.

FRANCE.
Moniteur promulgates various Bills passed during last Session, among them the Bill of the Orleans pensions.

City of London has presented Landed gineess sword to Gen. Williams.

Queen reviewed 20,000 troops at Aldershot camp 31st.

Gold chronometer presented by President of United States to Captain Clarke, of ship Baccino, for having rescued crew of American ship Magflower, was handed over by Marine Board of Liverpool on 30th.

Liverpool Jury has given verdict of manslaughter against pilot and mate of steamship "Excelsior" in the recent fatal collision with Steamer Mail.

Citizens of Sheffield gave Banquet to Lord Cardigan and 4th Dragoon Guards.

Indian Mail brings account of earthquake in Malacca, March 24, causing loss of 2000 lives.

SPAIN.
Accounts continue uncertain, but indications are that Royal cause has triumphed, that entire country has submitted and that Saragossa unsupported will be immediately reduced. Independence Bølge as well as other journals represents O'Donnell as in a fix, but jealous of Espartero, and in hope of remaining master of situation, he consented to do the work of reaction—fading his expectations deceived, and that the Moderados will not accept him as their Chief, he is again coquetting with Liberals; yet Madrid correspondent of Independence positively assures that the constituent Cortes will be dissolved and that the Constitution of 1837 or 1845 will be reverted to.

Private letters represent O'Donnell as entirely reserving his place to himself. Senor Olozaga, the Spanish Ambassador at Paris, resigned his post immediately on hearing of the Coup d'Etat; but it is said that the Queen refuses to accept his resignation, and that efforts are being made to induce him to remain in Paris. General Narvaez is indignant at the rejection of his proffered services.

The London Morning Post publishes the following despatch from Madrid, dated July 29th:—"All the provinces are tranquil. Saragossa excepted; it is thought that the majority in the city will be disposed to capitulate the resistance of some chiefs only is anticipated. Generals Echaguez and Dulcio are before Saragossa, and reinforcements are arriving from all sides."

The Paris Moniteur contains the following:—"San Sebastian, July 21st.—News has just been received via Perisiguan and Irun, that all Catalonia has acknowledged the Queen's government; and Navarre and the Basque Provinces enjoy the most perfect tranquility."

The Times in giving the despatches from

Spain which the Moniteur publishes, expressly says, that it does not guarantee their authenticity. Nothing additional to the foregoing was received at London on the morning of the 2d inst.

BELGIUM.
A rumor recently circulated that the King of the Belgians would abdicate, is contradicted by himself.

PRUSSIA.
It is said that the King of Saxony will be present at the contemplated interview of the King of Prussia and the Emperor of Austria at Toplitz.

SWEDEN.
A communication from Stockholm speaks of audiences which the French and Prussian Ambassadors have had with the King, and of the great stir among diplomatists consequent thereon. Report says, the subject of the excitement was a reclamation made by Norway against Russia's encroaching on Norwegian territory or planning fortifications along the Baltic coast. Swedish papers contain nothing of the matter.

AUSTRIA.
Letters say that the relations of Russia and Austria are becoming more friendly.

ITALY.
A letter from Parma in the Opinions of Turin of the 28th states that the Austrians have made preparations for crossing the Po at four different points a or near Via Diana, Solareto and Cassal Maggiore.

TURKEY.
General Codrington and Admiral Lyons and their Staffs had visited the Sultan; they are now in France on their way home. The reported refusal of the Russians to deliver up Kara is explained. It appears that English Commissioner, whom the Russians refused to receive, had no authority to ask possession and did not do so; he merely requested permission to examine the state of the fortifications, which he was not permitted to do. Respecting the Russian occupation of the Isle of Serpents, Lord Stratford has sent General Mansfield to make inquiries.

Intelligence has been received at Constantinople that an insurrection in Arabia is completely subdued. The chief of the insurgents was captured at the fortress of Taif and sent prisoner to Constantinople.

Latest dates from Constantinople, (July 25th) state that Reshid Pasha had arrived at the capital.

RUSSIA.
Russia has reduced her tariff of sugar.

Russian letters deny that Aland Islands will be re-occupied, but admit they will be garrisoned by Russian troops.

Accounts from Russian ports in the Baltic state that trade is very animated, and the prices of hemp, linseed, and other descriptions of Russian produce, suitable for exports were well maintained.

(Latest by Mail)—MARSEILLES, Friday, Aug. 1.—Marshal Pelissier has arrived on board the Poland. He was received with great pomp; the banquet to his honour will take place on Sunday next.

The Moniteur contains the following:—SAINT SEBASTIAN, July 1st.—News has just been received via Perisiguan and Irun, that all Catalonia has acknowledged the Queen's Government. Navarre and the Basque Provinces enjoy the most perfect tranquility.

Paris, Friday.—The funds closed today as follows:—three per cent., 70f. 20c., four and a half per cent., 93f. 50c.

Latest by Telegraph.—Morning News, London, Saturday, Aug. 2d.

The Times in giving the despatches from Spain, which the Moniteur published, expressly states that it does not guarantee their authenticity. There is nothing new from Spain.

Gen. Codrington arrived in London last night.

The Times contains a leading article on the position of W. Smith O'Brien. He is commended for his resolution to act the part of a country gentleman rather than a senator.

Daily News City Article, Friday evening, Aug. 2.—The stringency of the Money Market continues in the Stock Exchange.—Today money was in active demand at 5 per cent. on Government securities in the discount market.

There was also considerable pressure, and the rates for Government bills are maintained at four quarters to four half per cent.

The applications for accommodation at the bank consequently continues, despite this less favourable feature; however, the funds remain remarkable steadiness. Prices have only varied 1/4 per cent., and closed a shade better than yesterday. The fall in the corn market and the splendid weather contributed materially to stimulate confidence.

The funds also derive great support from the steady investments of the public who have absorbed the stock derived from the new loan even more readily than the former heavier issues.

Times City article, Friday evening.—The English funds have been steady throughout

the day at yesterday's prices, and the tendency to an improved tone was again observable, although the business was small. Money was in some instances obtainable in the Discount Market to-day at 4 1/4 per cent., and there was a diminished demand at the Bank as compared with yesterday.

The final quotations of the French 3 per cent. show another decline of nearly one quarter per cent. Letters from Hamburg state that the renewed demand for money continued to increase and that the rate of discount had already advanced to six per cent. At Paris there is great dullness. Meanwhile anxiety prevails as to the character of the present harvest.

There was a great increase of business in the Corn Market this morning (1st inst.), and sales could not have been pressed except at a further decline perhaps to the extent of three shillings per quarter.

MARKETS.
BREADSTUFFS declined. Wheat 4d; flour 1s. 2s.; corn 6d. lower.

TIMBER—Yellow Pine, 21d. to 22d.; red 14d. to 15d.; Birch 13d. to 20d.; Deals 2s. 6d. to 15s.

NEW RAILWAY AND LAND COMPANY IN CANADA.—The prospectus of the New Brunswick and Canada Railway and Land Company is issued. This company is formed for the purpose of purchasing the Railway and privileges of the St. Andrews and Quebec Railway Company and for completing the first portion of the line to Woodstock, a distance from St. Andrews, where the line commences, of about 90 miles. Of this distance 24 1/2 miles are already finished, at a cost not exceeding £3000 per mile. The railway will form a junction at Trois Poutiers with the Grand Trunk and Great Western Railways of Canada, and will thus form a main trunk line to the Canadas, through British territory. It is mentioned, as indicative of the importance of the undertaking, that the port of Quebec is entirely closed by ice during six months of the year.

Amongst the privileges accorded by the colonial government to the original undertaking, and now transferred to this company, are—the free grant of upwards of 200,000 acres of valuable land along the entire line, timber and materials for the construction of the Railway, a guarantee of a minimum dividend of 6 per cent. on £80,000 for 25 years, commencing on the completion of the line to Woodstock, and the right of making branch lines through any part of the Province of New Brunswick. The total capital is fixed at £500,000 in 40,000 shares of £20 each, of which only 17,500 shares, representing £350,000 stock, are to be issued at present, being the amount required to complete the first section to Woodstock. Of these 17,000 shares, 4,000 are to be appropriated to the English proprietors of the St. Andrews and Quebec Railroad Company (forming class C shares) and 2500 to the local government, so that 11,000 shares, or £220,000 will now be offered to the public. Four thousand of these are to be class A shares, and to be entitled to Government guarantee of 6 per cent. for 25 years, commencing on the completion to Woodstock, with a bonus of 16,000 acres of land, or four acres per share. The other 7000 shares will form class B, and will be entitled to 15 acres per share, with 5 per cent. interest during construction, but no Government guarantee. Separate certificates are in each case to be issued, one representing the right to the dividends of the railway, and the other representing the land. A deposit of £2 per share is to be paid on allotment.—The undertaking is provisionally registered under the Limited Liability Act, and is to be incorporated by Parliament. The Earl of Fitzwilliam is chairman, and amongst the directors are Mr. H. W. Wickham, M. P., chairman of the Lancashire and Yorkshire Railway Company, Mr. Henry Maudslay, and Alderman Sir H. Muggridge.

THE DUTIES OF THE PULPIT.—The Rev. E. H. Chapin recently discovered a "sensational discourse" in his pulpit in New York, in which he alluded, in caustic terms, to the charges frequently expressed of late, that it was not the duty of the pulpit to touch on the current topics of the day, but that it should confine itself to strictly religious subjects.—This the reverend gentleman said he should never do. His duty was, whether in the sacred desk or elsewhere, to raise a voice against every sin and evil that threatened the public good. He should not go out of his way to speak of these matters, but when they rose before him—were fairly pushed upon his heart—he would give utterance to them. There was not a member of his congregation but whom he could grasp warmly by the hand, but there was not, at the same time one who would dictate to him what he was to preach. So far as his influence went, the pulpit should be free, and if the people were for locking it up, he must beg to be locked outside.

LUNACY IN ENGLAND.—The tenth Report of the Commissioners of Lunacy, states, that the number of lunatics confined in asylums, hospitals, and licensed houses in England, is somewhat startling in amount. There are in asylums, including private patients as well as paupers, 6,295 males and 7,525 females; in hospitals, 781 males and 537 females; in metropolitan licensed houses, 1,436 and 1,215 making a total of male and female lunatics so confined of 20,640. In addition to this large number there are 550 lunatic criminals, of whom 435 are males and 121 females.—[Boston Journal.

INDIA RUBBER MANUFACTURES. In no department of industry has the application of mechanical skill to the products of nature been attended with more beneficial results, than in the conversion of the elastic gum of the India Rubber tree, into so many articles, essential to the advancement of science and the comfort and convenience of man.

In a process that originated with Mr. Chaffee, coal tar is mixed with the rubber, and the compound makes one of the most solid, elastic, and elegant articles that can be found in the market. It is a jet black, and is susceptible of a high polish. It is manufactured into elegant cabinet furniture—inlaid and Mosaic, canes, spectacle bows, opera glass tubes, castors, sand stands, hair brushes and combs, tape lines, pen holders, pencil and cigar cases, army and navy buttons, syringes, engine oilers, &c. &c.

A scientific writer in Boston, recently made an examination of the different articles in the extensive India Rubber goods' Ware-rooms of Messrs. Geo. N. Davis & Brothers, of that city. His remarks on the uses to which this article is applied, illustrate forcibly the advancement of the useful arts in our own day. He says:

"The purposes to which India Rubber, (caoutchouc, pronounced kaoo chook), is applied, are so numerous and varied, as to impress us at once with the wonderful economy of Nature, and the rapid development of Art.—The elastic resin obtained from the India Rubber tree (Hevea Guianensis) is impermeable to water. Who has not drawn solid comfort from the use of the long-preserving waterproof rubber sandal or overshoe, while at the same time contrasting its neatness with the shapeless clog or leather over-shoe of former days? In the modern article the outward symmetry of the foot is preserved, while lightness prevents fatigue from its use. But the bodily comfort derived from the use of this gum, is not confined to the feet: the gaiters or leggings, the coat, cape and cap, the gloves, mittens and shield, afford an impermeable coat of mail, which bids defiance to the pelting storm, while in a pair of long boots of the same material, fishermen and lumbermen are secure from wet feet, though laboring knee deep in water. Nor is the bodily comfort derived from the use of a rubber fabric confined to man: the rubber covering prepared for the horse, is at once convenient and admirably adapted to the purpose, while at the same time the rubber whip may be cited in this connection as equally useful in its place. For a covering for pianos, melodeons, &c., its soft and pliable texture renders it peculiarly suitable, while a tastefully enamelled or gilded surface makes it an elegant parlor ornament.

In the arts, the purposes to which caoutchouc is applied, are almost without number. The most ponderous machinery is moved by rubber belting—its adhesive properties rendering it altogether the best article for that purpose—while its qualities for the purposes of steam packing are held in high estimation by engineers. For hose and for water pipe generally, it is universally adopted; while rubber webbing, rubber cord, rubber braid, &c., are brought into use for a thousand economical purposes,—and the ebony like rubber cane, comb, pencil case, and pen holder, are articles alike of beauty and convenience. To the gum from the rubber tree the surgeon is indebted for a great variety of useful and almost indispensable articles in his practice, manufactured from the Vulcanized Rubber. In the nursery, it is indispensable; while the bustling family are each familiar with the numerous family of balls, dolls and toys, formed of the elastic resin obtained from this remarkable tree."

The writer quoted above, falls far short of a full enumeration of all the useful articles manufactured from the product of the Rubber Tree, and on sale at the extensive ware-house of Messrs. DAVIS AND BROTHER, Boston, whose stock embraces manufactures from nine or ten Rubber Factories in the States and Canada. These, together with importations from the factories in England and France, render their display of rubber fabrics the most extensive in America. In fact it is the only place in the world, we believe, where every article manufactured from rubber can be seen and obtained.

EVERY MAN'S HOUSE HIS CASTLE.
The following is Lord Chatham's brilliant

illustration of the celebrated maxim in English law, that every man's house is his castle:—"The poorest man may in his cottage bid defiance to all the forces of the crown. It may be frail; its roof may shake; the wind may blow through it; the storm may enter, the rain may enter—but the king of England cannot enter! all his forces dare not cross the threshold of the ruined tenement!"

DISPUTING WITH SATAN.—An old and excellent writer gives the following valuable advice:—"If you would not be foiled by temptation do not enter into a dispute with Satan. When Eve began to argue the case with the serpent, the serpent was too hard for her; the devil by his logic, disputed her out of Paradise. Satan can since sin, make it small, and tarnish it over and make it look like virtue. Satan is too subtle a sophister to hold an argument with principle; and wherever we allow ourselves to debate the question whether we will do wrong, it is almost certain that we shall yield. Principle being abandoned, there is little else to guide, but evil passions, which strongly prompt to sin.

DIGGING THEIR OWN GRAVES. Those men belonging to the command of Col. Schlessinger who were taken by the Cost Ricans and executed by them, were made to perform an unwholesome service just before their exit. Having been condemned to death and their fate announced, the victims were compelled to dig their own graves, and when done, made to kneel upon the margin of the trench dug, when they were shot dead—falling readily into the pit their own hands had dug.

PERRY DAVIS' PAIN KILLER.—The Buffalo Christian Advocate says:—"We like Mr. Davis for the moral and benevolent tendencies of his character and life. He manufactures an article known almost universally to be a good and safe remedy for burns and other pains of the body. He is entitled to confidence and popularity, and so far as we can aid him in securing the last, for he has the first, we shall do so cheerfully, though we are not asked to notice him outside our advertising columns. His Pain Killer should be in every family. The casualty which demands it, may come unawares.

The consent of Her Majesty's Government is stated to have been obtained for the erection of two new Bishops in Canada, by a subdivision of the present diocese of Toronto.—It was intended that they should bear the names of Kingston and London; but it has been suggested that Westminister and Portsmouth would be more appropriate, there being already a See of London in England and of Kingston in Jamaica. The endowment will proceed from the Colonial Bishops' Fund.—[Quebec Chronicle.

Lieut. Colonel Anselmi has been appointed Town Major in the place of Capt. James Clarke, who proceeds at once to join his regiment, the 76th, in New Brunswick.—[Halifax Colonist.

NEVER DECEIVE YOUR CHILDREN.—The most essential point in our intercourse with children is to be perfectly true ourselves.—Every other interest ought to be sacrificed to that of truth. When we in any way deceive a child, we not only show him a pernicious example, but lose our own influence over him for ever. Parents cannot be too guarded in this respect.

Heavy Robbery in Providence.—The store of Samuel H. Wales of Providence, R. I., was robbed on Tuesday night of \$5,000 or \$6,000 worth of watches and jewelry. The store of Daniel Grimwoods was also robbed of watches and jewelry to the value of \$2,000 or \$3,000. The store of Henry Lu z was robbed of similar articles to a smaller amount. The robbers escaped with their booty.

THE SEASON AND THE THUNDER STORMS. A correspondent of the New York Sun, characterizes it as an extraordinary result, that, among the recent storms of thunder and lightning, few if any human lives have been destroyed, while the destruction of property has been immense. It is observed that the lightning has struck more frequently in the City of Boston than for many years past; and this is also the case with some other towns. The same writer remarks, that the present year has been marked by its intensely long and cold winter; by its hot summer, and its abundance of icebergs. These facts, taken in connection, will exonerate the icebergs hereafter from the charge of producing cold summers.

LATE CALIFORNIA NEWS.

New York, Aug. 13. The steamer Ariel, from Aspinwall, arrived at this port about 11 o'clock this evening...

The Vigilance Committee continues its work, but nothing of moment had transpired during the fortnight.

A controversy was pending between certain parties and the Governor, relative to an arrangement with the Committee, that they may deliver up Judge Terry, and cease exercising authority.

The exportation of offensive parties continues.

Ned McGowan, one of the accomplices to the murder of James King, had been seen at Santa Barbara, en route for Lower California.

Numerous signed petitions and great mass meetings had called on the city and county officers to resign.

The newly appointed Board of Supervisors had declared vacant the offices of sheriff, coroner, and assessor, and appointed others in their places.

Mining accounts are favorable. Crops are everywhere abundant.

The town of Placerville has had 186 buildings burned. Loss \$600,000.

The village of Georgetown, Placer Co., has also been burned. Loss \$100,000.

A large number of dwellings has been burned at Marysville. Loss \$160,000.

The town of Fair Play, El Dorado Co., likewise has been burned. Loss \$70,000.

Numerous shooting affrays in the interior are recorded.

The U. S. frigate Independence, for which fears were entertained, had arrived at Valparaiso.

Nicaragua. Intelligence from Nicaragua states that Rivas, with 3000 followers, was fortifying himself at Camaguana.

Walker's force is stated at 1200 only. Honduras and Guatemala, are organizing to drive Walker out, when the dry season arrives.

SUMMARY OF NEWS.

SERIOUS DISASTER.—NINE LIVES LOST. We mentioned about a fortnight ago that six boats, belonging to Tyree, had been over-taken at sea by a severe gale, and that great anxiety was felt regarding their crews.

RECOVERY.—An extraordinary rise of water took place in the river on Sunday and Monday last, which could only have resulted from very heavy rains in the valley of the upper St. John.

ATTEMPTED ESCAPE FROM THE STATE PRISON.—At an early hour yesterday a convict attempted to escape from the state prison at Charleston.

MURDER IN AUSTRALIA.—One of our townsmen, Mr. Harris Dill Hart, who emigrated to Australia a few years ago, met with an untimely end early in the current year.

the last of which grazed Mr. Hart's shoulder blade, and severed five ribs from the back bone. Mr. H., after some delay, was removed to Geelong, and bore his fate with exemplary patience for nearly three months, and expired on the 30th of March.

THE OPEN POLAR SEA.—Dr. Samuel Holsinger, of Philadelphia, has published a pamphlet, in which he attributes the open Polar Sea to the flow of a current of warm water from the equatorial to the polar regions under the earth, or colder current from the North to the tropical seas.

BURNING OF A BRIG.—From a despatch published in a Boston paper, we learn, that the brig Red Warrior, Capt. Ford, was burned and abandoned at sea July 31st, one hundred miles from Cape Sable.

DRESSING ACCIDENT.—A letter from Windsor says—A sad accident has happened to a poor young man on the Railroad—a loaded car passed over his leg crushing it dreadfully.

MELANCHOLY ACCIDENT.—On Monday morning about ten minutes after 6 o'clock a young man going to work saw a body floating between a brig and wood-boat about half way down the Market Slip.

RECOVERY.—An extraordinary rise of water took place in the river on Sunday and Monday last, which could only have resulted from very heavy rains in the valley of the upper St. John.

ATTEMPTED ESCAPE FROM THE STATE PRISON.—At an early hour yesterday a convict attempted to escape from the state prison at Charleston.

MURDER IN AUSTRALIA.—One of our townsmen, Mr. Harris Dill Hart, who emigrated to Australia a few years ago, met with an untimely end early in the current year.

RECOVERY.—An extraordinary rise of water took place in the river on Sunday and Monday last, which could only have resulted from very heavy rains in the valley of the upper St. John.

ATTEMPTED ESCAPE FROM THE STATE PRISON.—At an early hour yesterday a convict attempted to escape from the state prison at Charleston.

ATTEMPTED ESCAPE FROM THE STATE PRISON.—At an early hour yesterday a convict attempted to escape from the state prison at Charleston.

NEW MODE OF COPPERING VESSELS.—English papers state that M. Oudry, of Passy, has made preliminary experiments for applying electro-tying on an enormous scale to other than the coppering of wood and iron ships of whatever tonnage.

The Standard.

WEDNESDAY, AUG. 20, 1856.

Never was the truth of the old adage, when applied to the political atmosphere, that "after a storm comes a calm" more fully proved than by the present state of the country.

The Halifax Chronicle of Tuesday contains a letter from the Hon. Joseph Howe to Mr. Gladstone, Mem. of Parliament, extending over nine columns, in which a speech of the latter, in the British Parliament, referring to Mr. Howe's conduct in the American contest, is handled in such a manner as that no man knows so well how to do it.

STEAM BOILER EXPLOSION.—Five Persons Killed, and Fifteen Wounded.—New York, Aug. 10.—The boiler attached to the iron safe factory of Wilder & Co., corner of Thirteenth street and Third avenue, Brooklyn, exploded yesterday afternoon, demolishing about one half of the building, and killing five persons and wounding some others.

A bull fighter was gored to death before the eyes of the public at Beaune on the 24th. Two men armed with their triple spears entered the circus and began to provoke the bull in the usual manner.

GIVING LIER AN EMPEROR.—Galignani, describing a passage in the Emperor's tour, says: "On his return from the Chaperennes, where nearly three fourths of the district had been nearly destroyed by the floods, the Emperor, pale with emotion, and with tears in his eyes, approached the group of victims, distributed to each of them, from a bag which hung at the saddle bow, money to provide for their first and more urgent wants, and accompanied with a promise of further means of alleviation.

A Village of Women.—The following account appears in the Augsburg Gazette: The village of Madona, which is about sixty English miles from Ruchard, in Wallachia, offers at the present moment a curious ethnographical singularity, having been inhabited by women only for the last thirty years.

An astonishing cure of Dropsy.—A poor woman residing in the very heart of Picton, N. S., was visited by the Rev. Charles Hall, of the London Mission, being almost in a dying state from this terrible malady.

THE SCIENTIFIC AMERICAN.—In another column we have inserted the Prospectus of 12th volume of this cheap and excellent paper. The low price of subscription, the large amount of useful reading matter, and the vast amount of interesting information contained in its columns, entitle the paper to a large circulation.

FIRE AT ST. JOHN.—20 Buildings Destroyed.—About half-past 2 o'clock on Tuesday morning 12th inst., a most destructive fire broke out in the Tannery of Mr. Ritchie, Golden Ball, Waterloo Street, St. John, destroying the buildings in which it originated with all the machinery; Mr. Myers carriage factory, with all the workmen's tools, and several dwellings in Brussels st., Union st., and Waterloo st. The engines and firemen were early at the scene of conflagration, and worked as usual, with untiring perseverance from half-past 2 o'clock a. m., until after 5 o'clock, when they succeeded in subduing the flames.—There was but little insurance on the properties, and the loss is consequently very great. Mr. Myers loss alone exceeds £2,000.

THE SCIENTIFIC AMERICAN.—In another column we have inserted the Prospectus of 12th volume of this cheap and excellent paper. The low price of subscription, the large amount of useful reading matter, and the vast amount of interesting information contained in its columns, entitle the paper to a large circulation.

The Halifax Chronicle of Tuesday contains a letter from the Hon. Joseph Howe to Mr. Gladstone, Mem. of Parliament, extending over nine columns, in which a speech of the latter, in the British Parliament, referring to Mr. Howe's conduct in the American contest, is handled in such a manner as that no man knows so well how to do it.

STEAM BOILER EXPLOSION.—Five Persons Killed, and Fifteen Wounded.—New York, Aug. 10.—The boiler attached to the iron safe factory of Wilder & Co., corner of Thirteenth street and Third avenue, Brooklyn, exploded yesterday afternoon, demolishing about one half of the building, and killing five persons and wounding some others.

A bull fighter was gored to death before the eyes of the public at Beaune on the 24th. Two men armed with their triple spears entered the circus and began to provoke the bull in the usual manner.

GIVING LIER AN EMPEROR.—Galignani, describing a passage in the Emperor's tour, says: "On his return from the Chaperennes, where nearly three fourths of the district had been nearly destroyed by the floods, the Emperor, pale with emotion, and with tears in his eyes, approached the group of victims, distributed to each of them, from a bag which hung at the saddle bow, money to provide for their first and more urgent wants, and accompanied with a promise of further means of alleviation.

A Village of Women.—The following account appears in the Augsburg Gazette: The village of Madona, which is about sixty English miles from Ruchard, in Wallachia, offers at the present moment a curious ethnographical singularity, having been inhabited by women only for the last thirty years.

An astonishing cure of Dropsy.—A poor woman residing in the very heart of Picton, N. S., was visited by the Rev. Charles Hall, of the London Mission, being almost in a dying state from this terrible malady.

THE SCIENTIFIC AMERICAN.—In another column we have inserted the Prospectus of 12th volume of this cheap and excellent paper. PERRY DAVIS' PAIN KILLER.—The Buffalo Christian Advocate says:—"We like Mr. Davis for the moral and benevolent tendencies of his character and life. He manufactures an article known almost universally to be a good and safe remedy for burns and other parts of the body. He is entitled to confidence and popularity, and so far as we can aid him in securing the last, for he has the first, we should do so cheerfully, though we are not asked to notice him outside our advertising columns. His Pain Killer should be in every family. The casualty which demands it, may come unawares."

Scientific American.

TWELFTH YEAR. One Thousand Dollar Cash Prizes.

The Twelfth Annual Volume of this useful publication commences on the 13th day of September next. The "SCIENTIFIC AMERICAN" is an ILLUSTRATED PERIODICAL, devoted chiefly to the promulgation of information relating to the various Mechanic and Chemical Arts, Industrial Manufactures, Agriculture, Domestic Inventions, Engineering, Millwork, and all interests which the light of PRACTICAL SCIENCE is calculated to advance.

Reports of U. S. PATENTS granted, are also published every week, including Official Copies of all the PATENT CLAIMS, together with news and information upon thousands of other subjects. \$1,000, in CASH PRIZES, will be paid on the 1st of January next, for the largest list of subscribers as follows:—\$200 for the 1st, \$175 for the 2d, \$150 for the 3d, \$125 for the 4th, \$100 for the 5th, \$75 for the 6th, \$50 for the 7th, \$30 for the 8th, \$30 for the 9th, \$25 for the 10th, \$20 for the 11th, and \$10 for the 12th. For all Clubs of 20 and upwards, the subscription price is only \$149. Names can be sent from any Post Office until January 1st, 1857. Prizes are fine chances to secure cash prizes.

The "Scientific American" is published once a week; every number contains eight large quarto pages, forming annually a complete and splendid volume, illustrated with several hundred original Engravings.

TERMS.—Single Subscriptions, 2 Dollars a year, or 1 Dollar for six months. Five copies for six months, 4 Dollars; for a year, 8 Dollars. Specimen copies sent gratis.

Southern, Western and Canada money, or Post Office Stamps, taken at par for subscriptions. Letters should be directed (post paid) to MUNN & CO. 128, Fulton St., New York.

Messrs MUNN & CO. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, or regard to the novelty of their improvements.

NOTICE.

THE Subscriber begs leave, most respectfully, to call the attention of the Inhabitants of St. Andrews and vicinity, to the fact, that he has opened SCHOOL in that conveniently situated School-house of Mr. T. Bewley's, lately occupied by Mr. GEMMELL, which is accessible to all, without respect to Sex or Denomination; and flatters himself (from former success and acknowledged aptitude in the art) that he will never fail to discharge the duties incumbent on him, with impartiality and discretion, and thereby give general satisfaction to all who may favour him with their patronage. Terms moderate, viz:—L. s. d. For Spelling, Reading or Writing, 0 5 0 per quarter, per scholar, " Arithmetic, English Grammar, or Geography, 7 6 " Book Keeping, Mensuration, Geometry, or Algebra, 10 0 " English Composition, French, Latin or Greek, 15 0 " Extra for Fuel, 7 6 JAMES PETERSON, Teacher. St. Andrews, Aug. 13, 1856.

NOTICE.

THE Subscriber being about to leave the Province, requests all persons indebted to him to call and settle their accounts immediately; and all persons having any demands against him, to present them for adjustment. He also forbids all persons trusting any one on his account, without an order from him. JOHN HANSON. St. Andrews, Aug. 13, 1856.

AYER'S
CHEERY
PECTORAL,
FOR THE RAPID CURE OF
Colds, Coughs, and
Hoarseness.
Beverly, Mass., 20th Dec. 1856.
Dr. J. C. AYER: I do not hesitate to say that
the best remedy I have ever found for Coughs,
Hoarseness, Influenza, and the concomitant
symptoms of a Cold, is your CHEERY PECTORAL.
It is constant use in my practice and my family
for the last ten years has shown it to possess
superior virtues for the treatment of these
complaints. HENRY KILBY, M. D.

A. R. MORTLEY, Esq. of Utica, N. Y., writes: "I have used
your PECTORAL myself and in my family ever since you invented
it, and believe it the best medicine for the purpose ever put out.
With a bad cold I should sooner pay twenty-five dollars for a
bottle than do without it, or take any other remedy."
Croup, Whooping Cough, Influenza.
Beverly, Mass., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the
best remedy I have known for the cure of Whooping Cough, Croup,
and the chest disease of children. We of your fraternity in the
South appreciate your skill, and commend your medicine to our
friends. HIRSH CONKLIN, M. D.

AMOS LEE, Esq. Monterey, Cal., writes, 21 Jan. 1856: "I
had a tedious Influenza, which continued in its course six weeks,
the most medicine without relief. Finally your PECTORAL,
by the advice of our physician, was tried, and the first dose relieved the
soreness in my throat, and the next day the cough was
made up completely well. Your medicine is the cheapest as
well as the best of our day, and we esteem you, Doctor, and
your medicine, as the poor man's friend."
Asthma or Phthisis, and Bronchitis.
West Manchester, Pa., Feb. 4, 1856.
SIR: Your CHEERY PECTORAL is performing marvellous cures
in this section. It has relieved several from alarming symptoms
of consumption, and is now curing a man who has labored under
an affection of this kind for the last forty years. I have
not a word to say in praise of your medicine, but I will
write you a few lines to let you know that it is doing
good. A. A. RAMSEY, M. D. ALBION, Monroe Co. Iowa, writes,
Sept. 6, 1856: "During the practice of many years I have found
nothing equal to your CHEERY PECTORAL for giving ease and re-
lief to consumptive patients, or curing such as are curable."
We might add volumes of evidence, but the most convincing
proof of the virtues of this remedy is found in its effects upon
trial.
Consumption.
Probably no one remedy has ever been known which cured so
many and such dangerous cases as this. Some no human aid
can reach; but even to those the CHEERY PECTORAL affords re-
lief and comfort.
ALBION, Monroe Co. New York City, March 5, 1856.
DOCTOR AYER: Lowell: I feel it a duty and a pleasure to in-
form you what your CHEERY PECTORAL has done for my wife.
She had been five months labored under the dangerous sym-
ptoms of Consumption, from which no aid we could procure gave
her much relief. She was steadily failing until Dr. Strong, of
this city, where we have come for advice, recommended a trial
of your medicine. We have had her for some time, and she has
recovered from that day. She is now as well as strong as
she used to be, but is free from her cough, and calls herself well.
Yours, with grateful respect,
ORLANDO SHELBY, of SHELLYVILLE.

Ayer's Cathartic Pills.
THE sciences of Chemistry and Medicine have been taxed
to their utmost to produce this best, most perfect, purgative,
which is known to man. Innumerable proofs are shown that
these PILLS have virtue which surpasses in richness the cathar-
tic of all men. They are safe and pleasant to take, but powerful to
cure. Their purgative properties stimulate the bowels, and
of the body, remove the obstructions of its organs, purify the
blood, and give rise to a new system, and we do your skill,
for she has recovered from that day. She is now as well as strong as
she used to be, but is free from her cough, and calls herself well.
Yours, with grateful respect,
ORLANDO SHELBY, of SHELLYVILLE.

35 Cornhill, Boston.

Valuable Farm for Sale.
THE Subscriber offers for sale, his Farm sit-
uated 5 miles from St. Andrews, fronting
on the River St. Croix, and bounded in the rear
by Chamcook Lake, containing 120 Acres, or
more or less, of excellent land, divided equally
for Tillage, Pasturage, and Wood Land.
There are on the premises a substantial
STONE HOUSE
10 ft. by 28 ft., well adapted for a large fam-
ily, with a never failing Spring of Water in
the Cellar, also a good BARN, 40 ft. by
30 ft., with a cellar. The land yields about 20
tons of hay, with other crops.
There is a Cove in front, where any quantity of
Sea Manure may be obtained at all seasons of
the year, likewise a SHIP YARD, and a Fish
Weir, in which were caught during the past
season, 30 barrels of Mackerel, Salmon, Her-
ring, and other fish.
The above farm is pleasantly situated in a re-
markably healthy and good neighborhood.
If applied for early, will be sold for less than first
cost. Please address,
CAPT. JOHN MOWAT,
Hay side, St. Andrews,

SHERIFF'S SALES
to take place at the Court House.

Real Estate of Julius L. Inches Aug. 23
Do James Magwood Sep. 6
Do R. Brockway Jr. & Co. Nov 1
Do Samuel Joy Dec. 6

To be sold at Public Auction, on Saturday the 21 day of August next, at 12 o'clock at the Court House, in St. Andrews:

The following Properties situated in the Parish of St. Patrick, viz.

ALL the right, title, interest, claim and demand of **JULIUS L. INCHES**, of St. Stephens, Merchant, to that tract or parcel of **LAND**, containing 160 acres more or less, beginning at a Spruce stump on the Western shore of the Bocabee river, thence running North till it comes to a lake or pond &c.

That tract or parcel of **Land**, being part of lot No. 8, containing 40 acres more or less, being on the South side of the High way, adjoining the lot now, or lately owned by Charles Carrick.

That tract or parcel of **Land**, containing 100 acres, bounded Northerly by a lot granted to one William Smith.

That lot of **Land**, commencing 19 chains and 20 links, North 79 degrees West of a marked tree standing on the South end of the Western side line of Robert Hanson's grant, containing 400 acres more or less, being the Western part of the tract of land granted to Lieut. J. Clarke.

And also, that **Lot No. 15**, being the middle division of Isaac Young's parcels of lot No. 12, as per grant to James Turner and others, containing 100 acres more or less.

Together with all the improvements, erections and buildings thereon.

The same having been seized and taken to satisfy an execution at the suit of George Greenwood Teley, endorsed to levy £133. 5s. 3d., besides Sheriff's fees &c.

THOS. JONES, Sheriff of Charlotte.
19th Jan. 1856.

The above sale is postponed till Saturday the 23d instant, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte.
St. Andrews, Aug. 1, 1856.

TO BE SOLD at Public Auction, on Saturday the 6th September, 1856, at 12 o'clock, at the Court House in St. Andrews:

ALL the right, title, interest, property, claim, and demand, of **JAMES MAGWOOD**, to all that certain lot, piece, or parcel of **LAND**, containing One Hundred Acres, more or less, situated in the Parish of St. James, deeded by Mary Ann Magwood to James Magwood—beginning at a stake placed where the North Western line of lot No. 2, granted to Levi Weston, strikes the North Eastern side of the road from Saint Stephens to Clarke's Point, &c.

The same having been seized and taken to satisfy an execution in favor of John Magwood, jun., endorsed to levy £42 14 2, &c. &c.

THOS. JONES, Sheriff of Charlotte.
19th April, 1856.

To Let,
THE HOUSE at present occupied by Mr. Joseph Walton, on the corner of Water & Elizabeth streets; to which is attached a large Garden. Possession given 1st May next. Apply to

G. F. CAMPBELL,
St. Andrews, 26th March, 1855.

Ufford's Smoke Consuming Patent Lamp.

Is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.

Price \$1 25, 82c. 67c.

We have one of the Lamps in use, and are able to conform to the favorable testimony of the Traveller, having found it answering well to what it claimed for. (Forrits Recorder.)

No person who has ever tried one of the Lamps would be willing to give it up for ten times its cost, if it could not be replaced. [New England Farmer.]

PARKS & FOLSOM, 236, Washington St., Boston
P & F. would respectfully give notice, that they still continue to manufacture the Melodeon and Seraphine, in a variety of styles, which, in point of finish and tone, are not surpassed by any other manufacturers. Also, the Melodeon Organ, with a sub bass, suitable for Churches, Vestries and Halls. The public are invited to call and examine before purchasing.

Dealers supplied on favorable terms.
However Caused!!

TESTIMONY—Mr. Editor: Seeing an advertisement that the Draft might be relieved by applying to **DR. BOARDMAN**, 204 Washington street, corner of Suffolk Place, BOSTON, I was induced to leave home and test the Doctor's skill. I was so deaf that I was unable to hear ordinary conversation. To my astonishment, in twenty minutes my hearing was perfectly restored. I recommend all persons to try the Doctor's new method of cure.

FRANCIS RICHARDSON, of Stoughton, Letters, post paid, attended to.

LET US REASON TOGETHER.
HOLLOWAY'S PILLS.
WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. **HOLLOWAY'S PILLS** are specially adapted to the relief of the **WEAK, the NERVOUS, the DELICATE, and the INFIRM**, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.
These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.
Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY, ILL HEALTH.
Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses.—Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.
No Female, young or old, should be without this celebrated medicine. It governs and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases—

- Ague
- Asthma
- Bilious complaints
- Bleaches on the skin
- Bowel complaints
- Colic
- Constipation of the bowels
- Consumption
- Debility
- Dropsy
- Dysentery
- Erysipelas
- Female Irregularities
- Fevers of all kinds
- Fits
- Gout
- Head-ache
- Indigestion
- Inflammation
- Jaundice
- Liver complaints
- Lumbago
- Piles
- Rheumatism
- Retention of Urine
- Scrofula, or King's Evil
- Sore Throats
- Stone and Gravel
- Secondary symptoms
- Tic Douloureux
- Tumours
- Ulcers
- Veneral Affections
- Worms of all kinds
- Weakness, from whatever cause
- &c. &c.

Sold at the Establishments of Professor Holloway, 244, Strand, near Temple Bar, London, and 50 Maiden Lane, New York, also by all respectable Druggists and Dealers in Medicines throughout the Civilized World, at the following prices:—

Is 4d; 3s 6d; 5s 6d each box.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Sold by all Venders of Medicines throughout New Brunswick, and by A. H. Thompson, St. Stephen; Billings & Dyer, Eastport, and

AYER'S PILLS,
A new and singularly successful remedy for the cure of all Bilious Diseases—Constiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammation, Headache, Pains in the Breast, Side, Back, and Limbs, Female Constiveness, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails. Laxatives of various kinds, and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is the case of Cholera, Fevers, dysentery, and Bilious derangements. They all bear to become the deep seated and formidable distempers which lead the human life over the land. Hence a reliable family physician, the first importance to the public health, and this Pill has been selected with consummate skill to meet that demand. An extensive trial of its virtues by the Students, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond and beyond what they could be expected to perform. The first importance to the public health, and this Pill has been selected with consummate skill to meet that demand.
