Executive Officials Say the Provincial Government Missed an Excellent Opportunity To Make Life Happy For the Families of Flanders Heroes.

[Special to The Advertiser.]

Toronto, July 24.—The secretaries of the local branches of the G. W. V. A. throughout the city are absolutely in accord with the criticism made yesterday by Acting Provincial Secretary F. G. Pratt concerning the announced housing

program of the Ontario Government.
"I feel," said Secretary J. V. Conroy, of the York County General Executive "that since the G. W. V. A. secretaries are constantly dealing with housing problems in their respective localities, the Provincial Government should have made a more earnest effort to get their views before issuing the recent housing

"In my opinion the Government have sadly and badly missed an excellent opportunity to do something worth while for the soldier and his dependents. The housing problem is undoubtedly the most vital problem to all Great War Veterans.

"Almost every day I have reports of wives of soldiers overseas who have that their rents raised out of all proportion, and who have been taken advantage of by landlords and realty agents."

vantage of by landlords and realty agents.

"It would have certainly been far better if the Government had really proposed a plan by which soldiers' wives and returned veterans could have purchased a little home. In the case of the women it would be an inviting method for a wife to invest her savings. In the returned veterans case it would give him a renewed zest for his future civilian life."

Overlooked Its Duty.

"The Government seems to have overlooked its prime duty to the widows and orphans of the many men from Ontario now lying overseas in the fields of France," said Secretary Stocks of the Riverdale G. W. V. A.

"Apparently their main consideration has been a purely industrial one for the helping out of munition workers, both employers and employees, with no special consideration for the veterans or their dependents.

"After all is said and done," continued Mr. Stocks, "is it absolutely necessary for a widow with three or four kiddies to have to go out and work on munitions when her prime duty is to bring up her family as good, self-supporting British citizens. Must she be considered a day laborer before she can share in the clauses of a Government housing program? The proposition of the Provincial Government might be all right some time in the future when everybody, including the allens, is absolutely under com-

taken up some plan by means of which a widow with a family would have been able to have given her children cheery little home of their own bought on a special payment plan."

SPLIT WIDENS BETWEEN THE BRITISH LABORITES

London, July 24.—The split in the Labor party shows signs of widening. Following the repudiation by Hodge of the two main planks of the party's program, comes a statement from General Secretary Appleton of the Federation of Trades Unions that there is a strong teeling among the trade unionists against the whole labor movement being handed over to the men to whom it really does not belong and whose chief aim seems to be to build up a post-war position for themselves in enemy countries.

missiles, he added, wers exploded by gunfire from the ship.

Ten of Crew Kitled.

No passengers were lost end only ten of the crew were killed.

The first torpedo struck the engineroom, and the ship then stopped. Several other torpedoes were fired, but only two of the missiles were effective.

The story of the fight between the German submarine and the Justicia, if it could be told, would make one of the finest stories in the annals of antisubmarine warfare.

Nothing which has occurred in connection with the sinking of the former White Star liner gives navy men any cause for misgivings over the submarine war. The defensive measures and methods showed up to excellent advantage, and indicate that the Entente naval forces can always be counted on to make the enemy pay dearly for every attempt he makes.

### HUN PEACE PLAN ALLIES PUSH FORWARD Germans Have 400,000 Men in Region of Aisne-Marne

Asks Freedom of Seas in the Latest List of Suggestions For Conference.

Paris, July 24.—Each day's operations bring forth further proof of the completeness with which the genius of Gen. Foch has turned the tables on the Germans. Instead of slowing down to a condition of what has been called stabilization, as the general public from experience expected, the Allies continue to push forward in the face of determined and skillful resistance by the Germans who had had time to recover from the first shock of surprise. Amsterdam, July 24.-Germany has made suggestions for a peace conference to the Spanish Government, says Germans who had had time to recover from the first shock of surprise.

Thirty-five Enemy Divisions.

The enemy, according to reports, now has 35 divisions in the battle zone, 400,000 men of which are in the region of the Aisne-Marne. In the opinion of military observers, the violent German resistance is due more to political considerations, for it is to the immediate interests of Gen. Ludendorf from a military standpoint to straighten out his line without delay.

Gen. Foch holds the initiative on all the battle fronts, and it is believed will take the Germans at least two or three months to get up another full dress offensive. Meanwhile, American troops continue to land. the Socialist Vorwaerts of Berlin.

The suggestions are:
First—Germany wants no annexations or indemnities in the west.
Second—The peace treaties with Russia and Rumania may not be questioned.
Third—The principle of self-determination of peoples has not been discussed, but may be settled at the peace conference, where the fate of Belgium also

is to be settled.

Fourth—The Balkan question is to be settled around the conference table.

Fifth—The freedom of the seas, the dismantling of Gibraltar and the Suez Canal and the right for Germany to use settled on the basis of the status quo. Vorwaerts considers this a very rea-

### REMAINING AT WORK: WAIT ON CONFERENCE

What Trouble Is Over!

The demands of the letter carriers, which are causing a tie-up in the mails throughout the Dominion call for:

Minimum wage of \$1,000 yearly. Maximum wage of \$1,400 yearly. The Government at the last session of the house decided to pay married men and single men with dependents an additional bonus of \$150. They were last year given \$100 as a bonus. The new bonus would not affect single or temporary men.

The carrier's minimum wage at present is \$2 a day or \$624 yearly.

Yearly increase 25 cents.
The carrier's maximum wage is \$3 a day or \$936.
From the above 5 per cent is deducted for the retirement fund and 1 per cent for patriotic fund.

Temporary employees receive \$2.50 a day, but when permanent-

y appointed, no matter how ong they have served as tempor-

aday. There is a big grievance here. There are men now employed on the local staff who have been on as temporary men for several years. Others who have joined since have been appointed permanently.

Negotiations between the Gov-ernment and the carriers have been going on for months. The men have had little satisfaction from the Government. They re-lected the proposal of the Gov-ernment for a bonus. They asked

for the regular increase that was promised when they were given the bonus in 1917. The Govern-ment has not even shown its good

ment has not even shown its good faith in regard to its own proposal for a bonus. Though the bonus of \$150 for the year 1918 was passed when the house was in session, not a cent of it has as yet been added to the carrier's checks, and over half the year has passed.

News of Failure of Cabinet Would Precipitate Local Strike at Once.

The full staff of the London postoffice, clerks and letter carriers is still at work. The local situation will remain as it is until word is received from Ottawa as o the result of the conference which was scheduled for this morning beween representatives of the carriers, Coronto City and board of trade and the ablinet

cabinet.
At last night's meeting the local carriers decide, that they did not have sufficient information to warrant a strike. They wired Toronto for more. In the meantime the Ottawa conference was arranged, and the London carriers have hopes that the cabinet will, as a result, come to a realization of the seriousness of the situation. This, they declare, is being brought home more stronger than ever, as late yesterday the carriers in several cities in the West joined the strikers.

several cities in the West Joined the strikers.

There is no question as to where the London carriers' stand. To a man, they are in sympathy with the Toronto carriers. However, they believe that he way matters now look, that they will be able to save the citizens of this city the inconvenience a strike would cause. However, if the conference at Ottawa falls to bring about the desired result, the local carriers will strike immediately.

The situation with the clerks is the same. They are satisfied with the promise which was conveyed to them by Acting Postmaster Duncan, and which he received in a telegram from Ottawa. However, that is only a promise, and the Government made practically the same thing to the carriers. The clerks, however, are biding their time until the authorities at Ottawa act.

### ALBANIAN OFFENSIVE ARE COMPLETELY UPSET

[Special to The Advertiser.]
St. Thomas, July 24.—The entire staff of letter-carriers laid down their mail bags this morning after the early morning delivery and will not return to work until they receive word from Winnipeg regarding the strike in other parts of the dominion. This does not come as a very great surprise, for although the mail-carriers here have remained at their duties up till today they have merely been waiting in order to find out what other cities were doing. Unless the demands of the posties

"MOTHER!"

Paris, July 23.—A New York woman attached to the American Red Cross, who happened to be in Paris today, volunteered to help in taking care of the wounded coming in from the battlefield. She was working busily when startled by a loud cry of "Mother!" Turning, she saw her own son, a young lieutenant in the American army, who had been wounded in the leg in the fighting Monday. The first news she had that her son was engaged in the battle was when she heard the cry. She obtained permission to accompany him to a mission to accompany him to a hospital, and, after seeing that he was attended to, went back to the station to cheer, as she said, the boys who had no hope of finding a mother to welcome

[Special to The Advertiser.] Ottawa, July 24.—The deputation representing the postmen of Canada reached Ottawa this morning quite confident that they would be able to secur some satisfaction from the Govern-ment. The postmen's representatives claim that even if the Government has its hands tied to the extent that it cannot hands tied to the extent that it cannot appoint a board of conciliation there is no reason why it should not agree to the appointment of a commission. ### FOCH IS PRESSING FLANKS OF ENEMY; KEEPS UP PURSUIT NORTH OF MARNE

German Crown Prince's Troops Are In Tight Corner—Prisoners Taken By British In Raids On Lines In Region South of Bucquoy---Enemy Loss Since July 15th Over 180,000.

With the American Army on the Aisne-Marne Front, July 24, 7:30 a.m-(By the Associated Press).-The French, the British and the Americans are still hammering the flanks of the crown prince's army. The Germans are known to have brought up fresh support forces at some points, but the Allies report the situation as favorable.

STILL PURSUING, PERSHING REPORTS.

Washington, July 24.—Continued pursuit of the retreating Want a Minimum Wage of enemy south of the River Ourcq is reported in Gen. Pershing's communique for yesterday, received today at the war department. The capture of positions north of the Marne also is reported.

BRITISH RAID ENEMY LINES,

London, July 24.—Raids were carried out by the British troops last night in the region south of Bucquoy and northwest of Albert, says today's war office report. A few prisoners were taken. A German raid on the British lines northeast of Bethune, on the Flanders front, was repulsed.

ENEMY AIRCRAFT BUSY.

With the American Army on the Aisne-Marne Front, July 24. -More favorable weather conditions brought out droves of aircraft this morning. The day was an excellent one for observation, and this is expected to change the character of the fighting somewhat, especially with regard to the artillery.

### GERMAN COUNTER-ATTACK NEAR VREIGNY IS QUICKLY REPULSED

Paris, July 24.—The Germans last night delivered a counterattack upon the Allied lines in the vicinity of Vreigny, five miles southwest of Rheims. The war office announced today that the attack had been repulsed.

There was great activity by the artillery during the night along the front between the Aisne and the Marne and northeast toward Rheims.

Important gains were realized Tuesday by the Allies, particularly by the French troops, who are bearing 70 per cent of the effort in which they vie in bravery with the British, Americans and Italians.

The Havas correspondent at the front says the French are steadily fighting toward Outchy-la-Chateau. North of the Marne in an advance of two kilometres (about 11-4 miles), the Allies took fortified farm's and Barbillon wood. GERMANS WEARING OUT.

The fighting, he adds, surpasses in violence that of the March and May offensives, and the Germans rapidly are being worn out. The wild talk of the German official statements, he says, proves more than anything else the confusion in Germany resulting from the Allied blow. The Germans may delay their retreat by paying a price, but the necessity of reconstructing their general reserves will soon oblige them to straighten their front between Soissons and

GAVE WAY BEFORE ALLIED RUSH

With the American Army on the Aisne-Marne Front, Tuesday, July 23.—By the Associated Press.—The armies of Petain and Pershing have forced their way through rain-speaked woods and fields further into the German lines. The strike decision was arrived at, and for this reason it was decided to postpone action until noon.

The day closed with the Germans having been pushed well back at many points by the Franco-American attacks which followed a night of heavy artillery

### ENEMY LOSS 180,000

With the French Army in France, July 24-By the Associated Press-Tuesy was another successful day for the Allies along the entire active battlefront. The bag of prisoners captured by the French northwest of Montdidier numared more than 1,500. The victory was gained with very slight losses. Farther southward on the northern side of the Marne, American and French roops met several strong German attacks, to which they responded with vigorous counter-attacks, as a result of which the Allied line was again advanced. The Americans made their gains in heavy fighting in the vicinity of the Barbillon wood. On the eastern side of the salient the French and British advanced ar. average of one kilometre. The British increased the number of prisoners taken in three days to 1,100, by capturing \$00.

Approximately 180,000 dead, wounded and prisoners have been lost by the

Germans since July 15. The enemy continues to burn stores and munitions within the salient, evidently being fearful that the future will see him driven

The writer then goes on to make further specific charges against the noncom. He declares that he was only attached to the Canadians, in the first contingent, as a kitchen helper, and that the closest he ever got to the front line was when he went over with a Forestry-Construction Company."

When in England, writes the accuser, this N. C. O. swore that he could not walk over a half-mile without resting, and furthermore that if an attempt were made to send him up the line, he would dodge the call by rendering himsolf units.

Another charge is that he wore medals which were never his, but had only been given to him for safekeeping, by another soldier. This, so says the letter from the front line, was followed up by cheating the man who gave him the medals to keep.

medals to keep.
In order to get a pass, it was necessary to tip the N. C. O. from 5 to 10 shillings, says another paragraph.
In conclusion, the soldier says:

said.

The men stated that the schooner had been destroyed by a bomb. The submarine, they said, came up a few hundred yards distant and sent a shell screaming over their brow. The crew promptly swung the schooner up into the wind and took to their boats. Then the raider sent a boat whose crew boarded the schooner, apparently took only her papers, placed a bomb and left her.

### The Watchword for This Pre-Inventory Clearance

The command has been given, and now is the time for action. This semi-annual event is held for the purpose of quick distribution of overlots, surplus stocks, samples, remnants and "few of a kind" that have accumulated in regular stocks. All are good seasonable merchandise, but all must be cleared away to carry out our rigid policy of not carrying over from season to season. From now until the end of the month, July 31, we present savings that could not be attempted except with a reason like this in mind. It is a supreme under-pricing event which will appeal to those who have learned the value of a dollar. When you come to the store you will find many important clearings not listed in the newspapers owing to limited quantities. Watch for the green tickets.

### Does Your Furniture Need New Covers?

Now is the opportune time to have your worn furniture re-upholstered while you are on your summer vacation at the lake or your country home. If you have a few pieces which need repairing or re-covering, slip covers or bedroom boxes to cover, we will, upon your request, send an expert upholsterer to your home, who will give you an estimate of the cost. We will send for same, have your work executed while you are away and your furniture is not needed, and deliver same when notified on your return. No charge for cartage. SUGAR SHORTAGE.
By Bertha Currie Porter.

"I don't see what you said we'd give them tea for, when you know we haven't any sugar!"

"What difference does that make? Some of our best families don't have sugar nowadays."

"Well, I'll bet the Clarkson girls are rolling in sugar!"

"If they are, all we need to do is to shake them over the cups, and there you needn't joke about it, Anne.

### "DOING MY BIT"

Practical Suggestions on Individual Ways to Help Win

the War. BY ALBERT BARRETT SAYRES.

My mother-in-law's eyes were full of consternation as she heard Cousin Aga-th has excited tidings of the sentries on the pipe line from Marvin to Stoneville Centre. I saw that she considered my plan for getting away from the house unobserved was hopelessly lost. But I gave her a reassuring look, for I remembered, what she had evidently forgotten, that the tiny badge of the service which I wore concealed in my blouse was an open sesame wherever the army uniform held guard.

I had not counted, however, upon the obstinate stupidity of the railroad special officers, who, in reality, were patroling the pipe line, and whose uniform Cousin Agatha had mistaken for that of the army. And my mistake made me the victim of one mbarrassing and unpleasant episode.

Getting away from the house was absurdly easy. I stole out of the laundry

If you are still getting the former, smaller Comfort Soap, keep on saving the wrappers, they are still good for premiums. Pugsley, Dingman & Co., Limited Torento

DICKY GOES LUMBERING WITH
BILLY BEAVER.
Dicky was certainly pleased to see
Squeedee hop out of the grasses at his
feet one sunny afternoon, for he felt
sure it meant another adventure.
"Want to go and call on Billy
Beaver?" cried Squeedee in a merry
voice.

Beaver? cried Squeedee in a merry voice.

Of course, Dicky wanted to go! So away they flew down to the little brook. Squeedee rapped loudly on Billy Beaver's door, and when no one answered he ran over to the edge of the poplar grove, Dicky close at his heels.

They found Billy Beaver and his band of workers all sitting before the trees on their haunches using their broad, flat tails for props. grawing into the trunks talls for props, gnawing into the trunks of the trees.

"Yes, we're lumbering today," said Billy Beaver, after greeting his friends.

"Filling our storeroom with winter supplies. You know, we eat the poplar trees."

of compressed air or gas, such as carbon dioxide, or from a tank which is charged by means of a hand pump.

Supplies trees."

Dicky didn't know, but he didn't say so—he was too busy watching the little

worker nearest him, grasping the tree with his hand-like front paws.

First he'd bite above a mark, then bite below it, then with his teeth he'd pull out the chip between the bites. When the tree began to topple the little beaver warned his friends by rapping on the ground with his tail—away they all scampered to a safe distance and down the tree came with a terrible crash.

Dicky and Squeedee helped push the logs into the water, and when they floated out beside the little house other workers would sink them to the bottom of the pond.

"What Splendld Workers."

of the pond.
"What splendid workers!" Dicky ad-

miringly exclaimed. "I wish every one felt about us as you do," sighed Billy Beaver, "then we wouldn't have to dodge traps. I can't see why folks should want our fur."
"To make scarfs and muffs for the ladles," replied Squeedee.

"Well, I hope they won't catch any of my friends," sighed Billy Beaver.
Without a word, Dicky ran down to the edge of the pond and pulled out a trap and threw it into the water.

"You needn't ever worry about traps again," he laughed, "I'll see no one else ever puts one near this place."

But when Dicky turned around, Squeedee, Billy Beaver and his band of workers had disappeared, and Dicky was workers had disappeared, and Dicky was

alone by the little stream. He couldn't make up his mind whether it had been a dream or whether he really had seen the little beavers work-ing, but anyway, as Dicky ran home he made up his mind to one thing—Billy "What spiendid workers."

it had been a dream or wn really had seen the little beave creatures could cut down such a big ling, but anyway, as Dicky ran tree!" exclaimed Dicky. "Isn't it dreadly had seen the little beave range way, as Dicky ran made up his mind to one this Beaver and his friends would not work over his traps again.

Allied Attack Above Montdidi er to Deprive Crown Prince of Expected Reinforcements - Successes in Marne and the Amjens Districts Due to the Strategy of Great Allied Commander-in-Chief.

Cross Chateau Road.

"South of the Ourcq Franco-American troops crossed the Chateau Thierry road, carrying their line more than a kilometer to the east. The village of Rocourt is in our hands, as well as the greater part of Chatelet Wood.

"On the right bank of the Marne we made new progress north of Mont St. Pere and Charleves, which is in our hands. Likewise we enlarged our bridgehead at Jaulgonne.

"On the front between the Marne and Rheims there were violent engagements. Between the Ardre and Vrigny Franco-British troops attacked strong enemy positions and advanced more than a kilometer, including heavy losses. The British took, 300 prisoners and five cannon. and five cannon.

HIGHLY IMPORTANT GAINS.
WITH THE FRENCH ARMY IN
FRANCE, July 23.—(By the Associated
Press.)—A drenching downpour over
the greater part of the southern battlefield hindered the operations of both the
Allies and the enemy last night and
today.

Allies and the enemy last night and today.

Further north, however, French troops executed a remarkably brilliant minor operation between Moreuil and Montdidier, attacking and capturing three villages, around which some very heavy fighting occurred in March and April. They are Mailly Raineval, Sauvillers and Aubvillers, all situated on heights overlooking the Avre River. Their possession is of great importance.

LONDON, July 23.—The French attack near Montdidier has progressed to the wood north of Sauvillers-Mongival, which means a total advance of two miles.

This point is about 2,000 yards east of Mailly-Raineval and gives the French control of the heights dominating the valley of the Avre.

Twelve hundred Germans were made prisoner.

The French attack near Montdidler today was a very well executed and successful minor operation, and, according to dispatches received this afternoon from the battlefront, was presumably designed as a diversion, aiming at keeping the enemy's mind occupied and preventing him from sending large reinforcements to the southward. At the same time it also effected an important local improvement in the line at a sector where every advance means better protection for Amiens and Paris.

Sharp, Quick Advance.

The French attacked on a four-mile front after an hour's bombardment of the German lines, and captured all three villages of Sauvillers, Aubvillers and Mailly-Raineval within fifteen minutes.

ANFILES & CON May Make a Stand.

PARIS, July 23.—French, American and British troops made considerable advances during the day on the Aisne-Marne front, and above Montdidier, in the American section, according to the war office announcement tonight. In addition to occupying several villages, they captured 1,800 prisoners or more. The text reads:

"On both sides of the Ourcq attacks by our troops during the day obtained results notwithstanding the tenacious resistance offered by the enemy, who brought up fresh reserves. North of the river we captured and went beyond Le-Plessier-Huleu and reached the western outskirts of Oulcy-la-Ville. We occupied the village of Montgrub.

Cross Chateau Road.

"South of the Aisne the enemy, as a result of his heavy losses, did not renew his attacks yesterday. The artillery duels also decreased in violence.

"On both sides of the Ourcq and been may launched violent partial attacks on nearly all sectors; they were repulsed. South of the Ourcq they were frustrated by our counter-attack.

### REMARKABLE RACE BY BONDAGE NETS HIM WHITE PLAINS STAKE

New York, July 24.—Bondage had to run one of the most remarkable races seen on the local track this season to capture the White Plains handicap at the Empire City course yesterday. The start, which has had much to do with the results of many races decided recently, was one of the usual straggling ones, and Bondage, on the outside, got away so poorly that he was 15 lengths behind the leader when he settled down for the Journey of a mile. St. Isidore was one of the first to leave the barrier, and Jockey Walls quickly sent the freerunning son of Isodore to the front, where he had a lead of two lengths on the back stretch. Bondage was still last in the field of eight, but Ensor did not lose his head and try to make up the ground all at once, but raced his mount along so that he gradually gained on the compact bunch following St. Isidore. The backers of St. Isidore felt little uneasiness until well into the home stretch, when it was seen that Ensor had called on Bondage for an effort, and that he was running over the trailers. Through the last sixteenth Bondage was traveling at great speed, and caught St. Isidore 50 yards from the finish, to win by two lengths. The time for the mile was 1:39 3-5.

There was the usual record performance, this time in the last race, an event for maiden 2-year-olds at 5 furnons. The Calumet Stables' Be Frank, a son of Sir John Johnson, had the distinction of winning of his first start, and equaling the time of 1 minute made a son of Sir John Johnson, had the distinction of winning on his first start, and equaling the time of 1 minute made by James Butler's Gnat and J. Livingston's America. Be Frank was one of the outsiders, at 15 to 1, while The Trump, a strong favorite, again disappointed his admirers by finishing fourth.

## AT MONTREAL SUNDAY

MONTREAL, July 23.—The Chicago Cubs, leaders of the National League, will play the Boston Braves, leaders of the second division, in a regular scheduled game at Delorimier Park here next Sunday. This is the regular game scheduled to be played in Boston on Monday, but the schedule has been advanced and permission granted to play in Montreal Sunday. The net proceeds are being turned over for patriotic purposes, and if the attendance warrants practically every team in the National and American Leagues will, it is stated, play in this city on Sundays. It is claimed that this is the first time in the history of baseball that a regular scheduled game by major league clubs has been played outside the United States.

Most of us let the furnace out, purchase a straw lid, and change to summer wear. But we offset our summer preparations by continuing to consume "heating" foods. In other words, we throw extra fuel in our digestive furnace.

Beef, Mutton and Pork contain 1,000 to 2,300 heat units. This delicious fresh-caught Fish has only 150 heat units, but the protein of body-building units of fish (which we need summer or winter) are only slightly less than the meats, although the price is about one-fifth that of the meat,

Instead of heating up with meat and cooling off with ice cream, save both ways. Literally you will be astonished. Try it for two of your next twenty one meals.

In short, buy some of this fish at 10c a pound, with little Heat and lots of Nourishment, instead of meat at 50e with lots of useless heat.

Every good dealer will have on sale this week by arrangement of the Canada Food Board this delicious Haddock, fresh from the sea. If delivered, 2c extra will be charged. If carried away, it will be sold at

### NO CREDENTIALS FOR DELEGATES SENT BY **ACTIVE SERVICE MEN**

It Is Beyond His Power.

The two delegates elected to attend the Great War Veterans' Association convention at a meeting of the "active service" men held Saturday night in the Richmond Hotel will not be given credentials by Lieut.-Col. W. G. Coles. president of the Great War Veterans' Association of No. 1 Military District.

Col. Coles stated to The Advertiser that only the four delegates who were regularly elected by the members of the local branch of the Great War Veterans' Association would be given credentials by him.

"I have not the power to issue credentials to these two men," said Col. Coles.

Dorothy Dalton at the Majestic Again

Advancing with rapid strides towards enduring fame as one of the leading motion picture actresses in the country. Dorothy Dalton, the charming Thomas H. Ince star in Paramount pictures, certainly has won an enviable popularity in her chosen field. Unusually gifted and possessing a most magly miserable, and after meals she would often complain of a heavy feeling in her chest. Her food did not seem to do her a bit of good, for she fell off in weight, and I don't believe she has had a real well day till recently in twenty years. Her nerves were shattered, she said she felt tired and wornout all the time, and she had so little strength and energy that her housework would almost break her down.

### Serious Situation As Result of Gas Order at Ingersoll

Fear That May Have To Use Trees for Fuel Coming

INGERSOLL, July 23.-Meeting in special session tonight the council appointed a committee to investigate the fuel conditions for the coming winter, and report at the next meeting. It is believed that a serious situation

It is believed that a serious situation locally has developed as a result of the order of the Ontario Government, cutting off the supply of gas as a fuel from schools, public buildings, churches, offices, etc. Attention was called to the great number of trees on Ingersoll streets, many of which it was mentioned, could be cut and used for firewood, without interfering to any great extent with the beauty of the streets.

The necessity of greater housing accommodation was also brought before the council by E. A. Wilson of the Ingersoll Machine Company, which firm will shortly bring in fifty additional employees. A motion carried that the mayor call a meeting of manufacturers to discuss with the council the desirability of taking advantage of the Ontario Government's propostion to loan money for building houses.
