Great Thrust by Nivelles Troops on Verdun Sector; Battle Developing on Eleven Mile Front, and German Prisoners are Already Being Passed to Rear--Canadians Establish Strong Posts

By Courier Leased Wire.

Paris, Aug. 20.--French troops made an attack this morning on both banks of the Meuse on the Verdun front. Early information shows that the battle has developed to the advantage of the French on a sector of 18 kilometres (11 miles). Prisoners already have begun passing to the rear.

The attack was delivered between Avocourt wood and Bezonvaux. Heavy artillery fighting is in progress in Belgium. The following official statement was issued here today:

"In Belgium there was violent artillery fighting in the region of North of Bixchoote.

"In the Champagne our batteries effectively bombarded German defenses. We made several raids and brought back prisoners from the enemy lines.

"On both banks of the Meuse this morning our troops attacked the German positions with magnificent spirit. According to early information the new battle of Verdun is developing to our advantage on a front of eighteen kilometres from Avocourt wood to the region north of Bezonvaux. Numerous prisoners are being taken to the rear. The bravery of our troops is beyond all praise.

"In the region of Badonviller we easily repulsed an enemy attack. There was rather spirited artillery fighting in upper Alsace."

BRITISH OFFICIAL

London, Aug. 20.--A German counter-attack on the positions captured by the British yesterday morning southeast of Epey was completely repulsed after sharp fighting, according to an official statement issued today by the war office. A successful raid was carried out last night south of Lens. On the Ypres battlefield, the British line has been advanced slightly southeast of Stjenshoek.

ENEMY STATEMENT

Berlin, Aug. 20.--via London--The war office announces that the French, without fighting, have occupied the Talou ridge on the Verdun front east of the Meuse.

Forces of the Central Powers on the Roumanian front have driven back the Roumanians on both sides of the Oituz Valley and in the direction of the Trotus Valley, it was officially announced today by the German war office.

In the fighting in the Oituz valley, the Austro-German troops took 1,500 prisoners and captured 30 machine guns. Stubborn battles developed at the Maraschet station on the Sereth River, the Germans capturing more than 2,200 prisoners. The text of the statement follows: "Eastern theatre: "Group of Prince Leopold of Bavaria: There was nothing new. "Army group of Archduke Joseph: German and Austro-Hungarian troops made a vigorous assault on both sides of the Oituz valley, and drove the stubbornly resisting Roumanians back in the direction of the Trotus valley. A Wurtembergian mountain battalion especially distinguished itself. More than 1,500 prisoners and 30 machine guns have been brought in. "Army group of Field Marshal von Mackensen: On the western bank of the Sereth, stubborn struggles developed at the Maraschet railway station, in the course of which more than 2,200 prisoners remained in our hands. South of the confluence of the Rintio, strong Russian attacks failed before our positions. "Macedonian front: The situation is unchanged. Aug. 20.--Northwest of Lens, amid a nest of trenches and railway cuttings which forms the last line of German defense in that quarter, our men have succeeded in establishing strong posts in a support which is the scene of desperate and indecisive fighting two days ago. These new posts give command of the last bit of German ground from which the defenders of the city could overlook our advance from the west. They are now in a hollow all round the front which swings about Lens in semi-circular form. The eastern exits from the city are now subjected to a constant and harassing fire of the artillery and machine guns. This makes the bringing up of provisions and supplies of ammunition very difficult. At 2 o'clock this morning a trench raid on the enemy's front northwest of Avion, resulted in heavy fighting in the course of which a considerable number of the enemy were killed in hand-to-hand fighting. The Avion front was strongly held by the Germans as protection to Salumines, a large mining village to the southeast of Lens, where many guns withdrawn from the German front were still in position. GERMANY DIVIDED BY PEACE NOTE

Pope's Proposals Viewed from Many Angles; Made Political Issue

By Courier Leased Wire.

Copenhagen, Aug. 20.--The Pope's peace proposal is now being dragged into the field of party politics in Germany, and made the subject of contention between the pan-German annexationists and advocates of a moderate peace. George Bernhard, in The Berlin Vossische Zeitung, says the Pope's action has cleared one of the mysteries connected with Mathias Erzberger's recent peace campaign in the reichstag up, and that the adoption of the reichstag of his resolution was to pave the way for the Pope's note. The terms of the Pope's note and the reichstag resolution against compulsory annexation continue to trouble the relations of Bulgaria to her allies, and it has been found necessary to explain to Bulgaria again and again that Germany would interpret the acquisition of Macedonia regions as annexation. Vienna dispatches say the government newspapers declare emphatically that it is impossible to cede a foot of ground totally, but otherwise little vehement objection to the Pope's note is heard from Austria.

Count von Reventlow in The Tages-Zeitung, continues his cynical discussions of German policy. He avows in reference to the Pope's phrase on the substitution of the moral justice for might of arms, that the moral law exists for the Germans only, so far as it applies to the German empire and nation. The writer says the Germans cannot consent to a reduction in armaments, which alone have made possible the existence of the empire and the possibility of its moral activities. Count von Reventlow adds that Germany cannot bear her own burdens and that therefore she cannot renounce indemnities and that guarantees for Belgium's independence cannot be found. He says also that the carrying out of the papal program would mean an end to all the middle European alliance and Germany's ruin. Annexationist mass meetings continue to bombard Field Marshal von Hindenburg, Chancellor Michael and Admiral Scheer, commander of the battle fleet with protests against the reichstag peace resolution.

Peace Conference London, Aug. 20.--Friedrich Ebert, member of the reichstag, in discussing the prospects for the Stockholm peace conference in connection with the refusal of the Entente Governments to issue passports to delegates declared, according to a dispatch to Reuters' Limited, from Amsterdam, that the Dutch Scandinavian committee had not yet stated its attitude towards the changed conditions, and even if for the present the conference is impossible, this is no reason for us to change our attitude towards it.

Continuing Herr Ebert said: "If the Dutch Scandinavian committee believes that the conference intended for September 9th can still promote its peace work without Entente representatives, then the German Socialists will come."

Bernstorff to Turkey Amsterdam, Aug. 20.--Count von Bernstorff, the former ambassador to the United States, has been appointed, according to The Berlin Vossische Zeitung, to the post at Constantinople. He will leave Berlin immediately.

Forced to Fight Geneva, Switzerland, Aug. 20.--News received here from Munich, Bavaria, is to the effect that a number of German-Americans are fighting with the Bavarians, some as volunteers and others under compulsion, Germany considering her nationals, wherever they may be naturalized, as real Germans.

The advices say that the practice of forcing German-Americans into the fighting line has been general since the departure of the American representatives from Berlin.

To Seize Property London, Aug. 20.--An Amsterdam dispatch to Reuters' Limited states that Berlin newspapers announce the seizure of all property in Germany belonging to the government of Spain or to its citizens.

FRANCE FORMS POLISH ARMY TO FIGHT UNDER ENTENTE FLAG

Franco-Polish Military Mission Appointed to Further Organization of Corps--France Fighting High Cost of Living Problem

By Courier Leased Wire

Paris, Aug. 20.--With a view to aiding the formation of the proposed Polish army, in accordance with President Poincare's order of June 4, the ministry of war has created a Franco-Polish military mission under the leadership of General Louis Archinard, to form by voluntary engagements, units of the Polish army in France.

The government has authorized all Poles, even those who are French citizens serving in the French army, to enlist in this new force, and proposes to seek agreements with other powers of the Entente Allies under which all Poles serving in their armies, will be enabled to join the proposed Polish army.

Fighting H. G. of L. Paris, Aug. 20.--The French government continuing its efforts to solve the problem of the cost of living, to-day issued a decree authorizing the formation of local committees, which are to be presided over by the mayor in each canton of France to supervise selling prices of the necessities of life. Retail merchants and consumers are to be represented on the committees, each by four members, two of whom must be from labor organizations and one from co-operative societies.

The mission of the committee is to study market conditions, arrive at costs and indicate to the authorities any persons who are realizing exaggerated profits. The committees are to watch especially the trade in bread, butter, chocolate, malt, beer, and wine. The committees eventually may take charge of the provisioning of cantons and assist the authorities in the management of civic retail shops.

Spain Normal Paris, Aug. 20.--Semi-official news from Spain, which is practically only news received continues to represent conditions as normal. The government has suspended "Heraldo" of Madrid for publishing a censored article.

Madrid, Aug. 20.--Official news has been received from throughout Spain that tranquillity reigns everywhere and the general strike is expected to end to-day. A meeting of the cabinet has been called and it is thought martial law will be annulled.

Offensive Gives Reply Of Entente To All Proposals For Peace

By Courier Leased Wire.

Rome, Aug. 20.--The Italians in their offensive on the Isonzo front began yesterday have crossed the Isonzo River and already have taken 7,500 prisoners, it was officially announced by the war department to-day.

Rome, Sunday, Aug. 19.--Commenting on the new Italian advance, the press says that it like the British attack in Flanders will be of service if it demonstrates how the people and armies of the allied countries feel toward the premature peace proposals of Pope Benedict. It is said Austria apparently realizes the gravity of the situation as announcement is made that Emperor Charles is soon to visit the Austro-Italian front, presumably to encourage his troops.

The official Austrian statement of yesterday said the Italians had begun an offensive on a 37 mile front from the region of Tolmino to a point near the Adriatic. The struggle was said to be raging with the greatest bitterness. Yesterday's Italian official statement did not mention the offensive.

CASUALTIES. Ottawa, Aug. 20.--To-day's casualty list of 143 names includes fourteen died of wounds. Private William Jenkins of Brampton, previously reported killed is now stated to be a prisoner of war at Dulmen.

HAS RESIGNED

Ottawa, Aug. 20.--The Hon. Robert Rogers, minister of public works, this morning tendered his resignation as minister of public works. The reason which he gave for his action was that there had been too much delay in the carrying out of the conscription bill. All the minister's papers and documents were packed up and removed from his office this morning.

MYSTERY SURROUNDS DEATH

Of a Well-Known Hamilton Doctor Was Found in His Room With Blood Stained Iron Bars Near By

By Courier Leased Wire

Hamilton, Ont., Aug. 20.--Dr. D. G. MacRobbie, 209 York street, a young but well known Hamilton physician, was found dead in a room over the offices of the Crescent Oil Company on Cannon street, west, at 10.30 last night under circumstances which Coroner McNichol decided justified an inquest.

The gruesome discovery was made by the caretaker, who, finding the side-door open, something unusual, investigated and found MacRobbie, his head crushed in, resting in a pool of blood. The head was lying across a pile of iron bars.

No report of the affair was made to the police until early this morning. When Coroner McNichol arrived, three other men in another part of the building, could offer no explanation of MacRobbie's death. Later the police took the trio into custody as material witnesses.

"It may have been accident, or the man have been murdered. That remains for the inquest to disclose," said Coroner McNichol. "Dr. MacRobbie received a terrible gash on his skull."

"It seems incredible that a man could sustain such an injury as MacRobbie received by merely falling from a chair. There were blood stains too, on the wall at a height which I think, disproves the theory that MacRobbie was fatally injured by falling."

Two small iron bars, saturated with blood, rest in a pool that surrounded the doctor's body. Dr. MacRobbie was 38 years old.

GERMAN WOUNDED

By Courier Leased Wire

Soo, Mich., Aug. 20.--Alfred Benninghaus, a German merchant, was wounded by machine gun bullets early to-day when his launch was fired on by Michigan infantrymen in a patrol boat after, after a command to stop had not been obeyed. Two other persons in the launch escaped injury. Benninghaus and his companions reached the Canadian side where they promptly were arrested and are being held pending investigation. It is alleged that the trio were attempting to evade inspection by American officials on a trip from the American to the Canadian side of St. Mary's River.

Accident From Reckless Driving Narrowly Averted on Saturday

Write Simcoe Agency Box 311 or phone 356-8 all matters regarding delivery or subscriptions; News items or advertisements.

(From our own Correspondent) Simcoe, Aug. 20.—"He pulled me out," was the concise remark of Otto, the eight-year-old son of Anthoner Sam King, as he pointed to Theodore ("Ted") Richards, the eleven-year-old son of Arthur Richards, superintendent of the process wing at the Simcoe canning factory.

The boys were seated side by side on the camp paraphernalia in the rear of Mr. Richards' car, when it drew up at the residence of Alderman Cropp Saturday morning to allow Mrs. Cropp, Sr., to alight. Mrs. Richards was also in the car with her husband; and the remark was in answer to a reference by the reporter to a near tragedy on Thursday afternoon.

Boat Upset with Four Lads The two boys had walked from Normanvale up the sands to Turkey Point, and had on invitation gone into a boat with two Ferris boys of their own age. Otto, while standing, reached for a paddle, tipped the boat, and with the Ferris boys, went headlong into the water.

Worthy of Life Saving Medal I learned to swim at "the dingle" last year. Harry Witherspoon taught me. We are scouts at the Presbyterian church, but they are all broken up now. I sat on the boat till it went down under me with the water that came in, and then I started for the shore; it was not far away; the Ferris boys could swim, and were ahead of me. I heard Otto call for help, and looking around saw him go under. I was not sure I could save him, but I decided to try, and turned back. He came up and went down again before I got to him. When I got there he was under, but he caught me by the arm and neck and pulled me under. While we were down, he said to me, "Get up, get up, get up," and I told him to hang on to that way and to catch the overturned boat when we got to it. We had only a couple of feet to go, so we got there and hung on. Otto was about 16 years old on the bank. He went to the house near by and got a bathing suit instead of his clothes. He waded out as far as he could, and then swam to the boat. He told me to hang on, and he swam with one arm and pulled the boat along till we felt the bottom, and we got out. We could have hung on some longer. There were no bigger people around. At one time I was afraid I was going to be drowned.

Little Otto corroborates this story adding: I can't swim, but can paddle a little to keep from sinking. I did this some, but when I stopped I went down. I touched the bottom twice, and when I grabbed "Ted" he went down with me the third time. I let go his arm and grabbed his hand, under water. I am going to learn to swim.

Your correspondent learned of the accident and narrow escape a few hours afterwards, but deferred his report till after interviewing the boys. On May 23rd, 1916, Pte. Wilfred Wingate very narrowly escaped death and himself had to be rescued when he went in to assist a sinking soldier from the mill dam here. Wingate deserved the medal for life-saving, as a score who witnessed the rescue would testify. No one went about the matter, and Wingate passed on with his battalion without recognition. Here we have a boy of 11 who from the mouths of four witnesses, among them the little lad saved, testify to the fact. There is considerable pressure of opinion that some one should lead off in the matter of having "Ted" Richards presented with a life-saving medal. Mr. King cannot take the initiative, for his gratitude cannot adequately be expressed in any such action. It looks as if it were up to the head of the scout organization at St. Pauls. We shall be pleased to report progress.

The Shaver youth, is, of course, given great praise for his deliberate

Mr. Innes reports renewed commercial and manufacturing activity at the lake head, and was impressed with the immense volume of lake freight traffic, and the magnitude of the bottoms in service.

He was a warm personal friend of the late Wm. Wallace, M.P., and a frequent contributor to the columns of the British Canadian.

D. Walker, of Winnipeg, a retired judge of the Manitoba bench, is at present renewing acquaintances in Norfolk, accompanied by Mrs. Walker, and spent Sunday with the latter's brother, J. E. Anderson, of Port Dover. Mr. Walker was formerly a Simcoe lawyer and lived in the section of Robinson and Head streets which with a recent annex forms the dwelling and grocery store of Miss Thompson, located here in 1870, the year of the first Reil rebellion. The late Dr. Walker of Port Dover, was a brother. The Andersons have one son, a lawyer in Winnipeg, connected with the camera records.

Mrs. Cropp has returned to town after spending a fortnight at Normandale. Mr. and Mrs. Ira Whitehead, will break camp at Turkey Point to-day, and return to town. Mrs. A. Richards and family, have returned from cottage life at Normandale.

Rev. S. D. Jamieson, of Thornbury, is visiting the Jamiesons on Elmhurst St. What the Camera Missed. While in the operation of re-sealing a gas-well on the Radical Road in Woodhouse the other day, the workmen had a pipe drawn twenty-two feet above the ground the pressure below sent the water quite as much higher. The big stream struck the block of the tacking in such a manner as to form a complete umbrella, of water, white and glistening and spread to one hundred feet in diameter. The workmen who saw it longed for a camera to take a snap of the huge canopy whose tip was quite as high as the H. S. Falls store.

Odd Ends of News. Two religious sects held forth last night one on a street corner and the other in the park—both doubtless waiting for church union to provide them with a building. Silent policemen took their stand at the four corners of the business centre Saturday noon and remained on duty since. Saturday night's shopping throng was no indication that the absence of reckless driving and mix-ups was driving any business out of town. The silent policemen were obeyed except by the occasional driver who could not see a barn door painted red and who never knows "why" it is the cause of an accident. The pedestals were made locally

DIGGING IN GARDEN

Mr. Thos. Poulton Uncarths Interesting Token

The Courier, Herewith Presents the History of the Same

Mr. Thos. Poulton, of the post-office, who resides at 180 Park Ave., when digging in his garden recently, unearthed an object a little larger than a fifty cent piece.

On the front is the half bust of a man in uniform encircled at the top with the words, "Maj.-Gen. W. H. Harrison," and below the inscription, "Born Feb. 9, 1773." The reverse side depicts a small wooden building with the stars and stripes flying and the words, "The People's Choice" and "The hero of Tippecanoe."

Mr. Poulton handed his find to The Courier for identification, which is herewith given. The piece is not a coin, but an election token, and it is in the neighborhood of eighty years of age. William Henry Harrison was the 9th President of the United States. He was born in Virginia in the year above related, and was a son of Benjamin H. Harrison, who was one of the signers of the Declaration of Independence.

W. H. in 1792 joined as an ensign, the army which Wayne was leading against the Indians of the North West. He left the army in 1797, and in 1801, when only 28 years of age, became Governor of Indiana and its representative in Congress where he succeeded in passing a law relating to the sale of the Federal land in small parcels, to which the Western States ascribe all their prosperity. In the war against the Indians in 1811, and which soon became also a war against the English in Canada, Harrison as commander-in-chief of the American Army, showed great military talent. He defeated the Indians in an important battle at Tippecanoe, and by the victory of Perry on Lake Erie, was able to pursue British invaders into Canada. In 1814 he resigned his commission; in 1815 he was elected to Congress and in 1824 to the Senate. In 1828 he was sent as Ambassador to Colombia, but was recalled in 1829. The following few years he spent in retirement as clerk in a County Court of Ohio. He ran for President in 1830, but was defeated, succeeding, however, in 1840.

The interesting token which Mr. Poulton unearthed, must have been issued at either one of the dates named. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

The husband complained hotly about the terrific driving and vowed that he would report the offender with a view to having his license cancelled as it is alleged he has paid two fines this year already. Now Watch. We have heard it suggested frequently that the troughs of the public drinking fountains be hadly in need of a thorough cleansing. The farmer who was made the subject of a roorback to the effect that he was transferring his horse account from town because of the enforcement of the traffic by-law, has anything but thanks to express for those who gave him such a public misrepresentation. ITALIANS LAUNCHED FRESH OFFENSIVE

Desperate Fighting In Progress, Austrian Official Statement Reports ON EASTERN FRONT

Teutons Beaten In All-Day Fight; Claims of the Enemy

Vienna, Aug. 19.—The Italians have begun another big offensive against the Austrians in the Isonzo region of the Austro-Italian theatre, where fighting is in progress over a thirty-seven mile front, running from the region of Tolmino to near the head of the Adriatic Sea on the Carso plateau.

"Eastern theatre: There is nothing of importance to report. "Italian theatre: The Italians have attacked the coastal territory on the Isonzo, which has belonged to Austria for centuries past. After the strongest of artillery preparation, lasting a day and a half, which was followed yesterday afternoon by reconnoitering raids, the enemy infantry early Sunday morning attacked between Mrzivilj and the Sea.

London, Aug. 19.—There has been a considerable stiffening in the front in Rumania and also in Russia in the region of Vilna. South of Grozochi, Southern Moldavia, the Russians have made a stand against attacks of the Teutonic allies and repulsed them, and in the Slavic sector also have beaten off attempts by the invaders to take further ground in the Lake Naroc district of the Vilna front the Germans endeavored to win Russian trenches, but their attack broke down under the Russian barrage fire.

ONLY ONE LIFE LOST IN RIGUAD

Fifty-Two Explosions In Powder Plant; Village Wiped Out

LOSS TWO MILLION Tons of Metal Were Distributed Over a Mile Radius

Montreal, Aug. 19.—One man dead and six more or less seriously injured in a terrific explosion or series of fifty-two explosions Saturday morning at the powder plant of Curtis and Harvey Company, Limited, at Dragon in the village and about six miles from the city of Montreal.

The monetary loss is placed at \$2,000,000 by Vice-President Curtis, who was almost wiped out by fire, and according to Mr. Curtis, due to a chemical reaction in the faking section of the plant, and was not due to neglect or any defect. "The thing which happened," he said, "might happen in any plant at any time."

The Dufferins are having a busy week. To-night they visit Paris with 5 rinks; Tuesday, home night, when prizes will be distributed to the winners of last week's contest; Wednesday afternoon, 4 rinks from Hamilton Fernleighs will be entertained. Thursday night a city league game will be played at the Heather greens. Saturday afternoon an open contest in doubles will be put on.

Bowling

Three rinks of the Victorias of Hamilton paid a friendly visit to the Dufferin Bowlers Saturday afternoon. The greens were in beautiful condition and the game was very keenly contested, ending in a tie all round.

THE SITUATION

Reports from Petrograd have a better tone. In the direction of Oca, after all day fighting, it is announced that enemy attacks were repulsed by evening the foe having succeeded only in occupying a few trenches.

On the Western front the British have made a slight further advance in the Ypres region inflicting severe losses on the foe. On Saturday the Huns made two more counter-attacks in the Lens region but without success in either instance.

Many strikes are reported in Germany including one at Krupp's Magdeburg plant. Revolts have also occurred in the leading towns of Finland and stores of foodstuffs have been plundered.

The Italians have commenced another big offensive against the Austrians in the Isonzo region and fighting is in progress over a 37 mile front.

A great deal of interest has been taken in the Old Land with regard to the proceedings of the international Conference of Seafarers. Revolving stories have been told by survivors with regard to the butchery of men escaping from torpedoed vessels.

Graham once more. Hon. Mr. Graham is the right-hand man of Sir Wilfrid Laurier and he is in particular supposed to look after the Ontario end of affairs.

HEAVY DAMAGE CAUSED When a Lake Erie & Northern Car Caught Fire

Contained Raw Hemp For The Cordage Company

Between \$7,000 and \$8,000 worth of raw hemp, consigned to the Brantford Cordage Company, was destroyed by fire and water to-day at noon when a freight car in which the raw product was being transported, caught fire on the Lake Erie and Northern Railway tracks at the Brantford depot.

What a spectacle this presents. Here we have Sir Wilfrid's chief lieutenant affirming that he voted for something which he did not deem to be necessary—probably to square himself with English speaking Liberals.

And then forthwith he adds that if Laurier wins he and his supporters will take off their coats in Quebec and bring that laggard province up to the mark in recruiting.

There can only be one answer and it is, as Graham depicts the matter, that Sir Wilfrid wishes to be paid with office before he will attempt a paramount duty.

The members of the House of Commons have adopted the conscription bill as slightly amended by the Senate and the only thing now necessary is the signature of the Governor-General. Enforcement will be the next thing.

WON'T STAND FOR IT.

The Liberals on West do not propose to submit to the manipulation of the Winnipeg convention, whereby nothing definite in the matter of conscription was adopted and Laurier was endorsed for continued leadership.

On Friday night in Winnipeg twenty-five members of the Manitoba Provincial Legislature held a caucus and messages were received from several of the absent ones. Premier Norris presided, and all the members of the Cabinet were present except Hon. Messrs. Thos. Johnson and J. W. Armstrong.

It developed that two-thirds of Manitoba is against Laurier and in favor of conscription. All members present held that view and held it strongly. All were unanimous in stating that the recent convention did not express the true views of the Liberals of Manitoba and a large part of Saskatchewan—fully a half—and of portions of Alberta.

Complaints of non-delivery of The Courier in Paris, should be telephoned to Norman Flahiff, phone 15, who has been appointed The Courier Agent.

NOTES AND COMMENTS. The "win the war" Liberals are not going to stand for any monkeying with conventions.

Those people able to take vacations are now coming back to the comforts of their own homes.

The Huns have once more undertaken to respect hospital ships. That ought to be enough to make said ships more on the look out than ever.

Air Activities.
London, Aug. 20.—German military establishments in Belgium, which have been attacked repeatedly of late by British airplanes, were again raided on Saturday night, the admiralty announced. The statement follows:
"Many tons of bombs were dropped on the night of August 18-19 by the naval air service on the following military objectives:
"St. Pierre station and sidings at Ghent; Thourout station and dump, Bruges docks.
"A raid was also carried out yesterday morning on the Snelleghean airbase, where a direct hit was made on a large shed.
"On their return our machines were attacked by hostile aircraft which were beaten off with the aid of a royal flying corps patrol. One enemy machine was shot down out of control. All ours returned safely."
New Planes?
London, Aug. 20.—A despatch to The Daily Mail from Vevey, Switzerland, says the barns of the Zeppelin works at Friedrichshafen are being used for the building of a new type of airplane from which much is expected. The body of the machine is serpentine in form and from it smoke can be thrown out which will entirely conceal the machine.
Cathedral Looted.
Saint Etienne, France, Aug. 20.—Vandals broke into the cathedral Saturday night, stripped the altars of valuables and then set fire to the chairs, furnishings, lace, altar cloths and the altar in the Sacristy, where the two great organs stood. The organs were destroyed as well as several valuable statues. In addition to the damage done by the fire, considerable destruction was wrought by water thrown inside the edifice by the firemen.

CONTRACTOR SAYS IT HAS NO EQUAL

Lived on Milk and Bread but Eats Pork Chops After Taking Tanlac

"I have never been much of a hand to recommend any kind of medicine but I can certainly say something good for 'Tanalac,'" said James Ellis of 559 Perth avenue, Toronto recently. Mr. Ellis has been a resident of Toronto for more than forty years and is one of the best known contracting stone masons in the city.

"Yes, sir," he continued. "Tanalac got me off of my little diet of milk and bread on to good wholesome food, ham, pork chops, and the like in just a few weeks and that strikes me as being mighty fine. I had a stubborn case of stomach trouble and a sluggish liver bothering me for over a year and I couldn't get rid of it. I first lost my appetite and soon got to where it was hardly worth while for me to go to the table. I ate so little and suffered so much afterward. I always took a lunch with me to my work but I felt so bad many a day I wouldn't touch it. If I did eat anything inside of an hour it would sour on my stomach and nauseate me so I couldn't retain it. I was always bothered by gas on my stomach and sometimes the pressure was so great it made my heart go like a threshing machine and I could hardly draw a good breath. For a long time all I could eat was bread and milk and not much of that, and of course I felt bad and unfit for anything all the time.

"After reading the high testimonials in the papers I decided to try Tanlac and while I have just about finished my second bottle I am already convinced it is without an equal for troubles like I had. I really didn't expect to get such quick and satisfactory results. My appetite is good now and my stomach is so much better that I can eat most any kind of food without any trouble afterward. Just my first few days ago I ate hearty of pork chops, another day some ham and I certainly did enjoy it. Nothing I eat sours now and I'm free from the gas and pains that used to make me so miserable. My liver seems in better shape and I feel stronger and better in every way. I was about to forget to say just before I started on Tanlac was forced to lay off from my work for two weeks on account of my stomach. I was simply in such a weakened condition that I couldn't stand any work, but I'm feeling fine now, thanks to Tanlac, and I'm glad to tell others what it is that gave me relief.

Tanalac is sold in Brantford by Milton H. Robertson & Co. Ltd., in Orilla by W. H. Cook & Co., in Elmville by W. J. McGuire, in LeRoy by G. F. Armitage, in N.B. West in Coldwater by C. G. Millard, in Midland by George Gerrie.

Since the brilliant capture of Hill 70 and St. Laurent on Wednesday morning the men defending these newly-won positions have been compelled to stand by almost without cessation to meet the counter-attacks. The leaders of the German troops are utterly regardless of the lives of their men, and as soon as one of the attacking groups, and they broke up and ran for cover.

Better luck initially, but no greater eventual success, attended their effort to break through south of St. Laurent. The enemy penetrated our first-line trench, but were driven out again as the result of a counter-attack at once organized. In these desperate struggles there has been much use of the rifle, bayonet, close combat, and the losses suffered by the British were heavy.

ENEMY EXHAUSTS HIMSELF IN SECTION ABOUT LENS

Canadians Left in Full Possession of all Ground Gained; Furious Hand-to-Hand Bayonet Fighting

(By Stewart Lyon) Canadian Press Correspondent with the Canadian Forces. Canadian Headquarters in France, Aug. 19.—The enemy has accepted defeat, temporarily at least. Since the virtual destruction of the storming columns which sought to penetrate our new positions at dawn yesterday there has been no organized counter-attack. The German artillery is still active, and our gun positions have been subjected to bombardment with gas shells. The regulation gas mask affords complete protection, however, and although it is not easy to serve the guns when manes are worn, our gunners are still able to find their targets.

So far no casualties as a result of the big push appear to have reached the London hospitals. Rifle bullet struck the elbow of the use of one arm in holding his rifle with its other hand, he ordered the Germans to come up. They came, an officer and five men who were duly turned in, with their machine guns.

RUNNER CARRIED MESSAGE THOUGH BADLY WOUNDED

With Arm Blown Off Albertan Staggered on to Destination TALES OF HEROISM

Over Forty Germans Captured by Six British Soldiers (By Stewart Lyon) Canadian Press Correspondent with the Canadian Forces. Canadian Headquarters in France, August 19.—One of the most heroic deeds put on record in the Canadian corps since the war began is that of a runner of Colonel Ormond's Alberta battalion. The company to which he was attached was hotly engaged near the chalk-pits, and he was given a message to take back to the battalion headquarters, over ground on which the shells were falling continuously. He had not gone far when he was seen to fall and another runner was at once sent out with a duplicate of the message. The second messenger was killed midway on his journey, but two hours afterwards the first one arrived at the battalion headquarters with his left arm blown off near the shoulder. His terrible wound had been roughly dressed in the field, and the messenger, far spent from loss of blood, staggered on to do his duty. He was removed in a dying condition, but he carried his message to its destination.

A fine example of bravery and resourcefulness in the same battalion. As the platoon to which he belonged approached the chalk pits they came under machine gun fire. The Russian going forward found the muzzles of two machine guns sticking out of the entrance to a dugout. One of them was in action, sweeping the line of advance. To get in front of it, the way of tackling it meant instant death. A piece of plank lay nearby. To the Russian it was a heaven-sent weapon. With it he struck the protruding gun barrels so hard a blow that they and their crews went clattering down to the bottom of the dugout, whence came cries of "Kamerad, kamerad." At that moment a

LIBERALS WILL DECIDE TODAY

Settle Basis For Coming Fight; The Conscription Alignment to be Settled

MEETING HELD TODAY Question of a National Government and Who May Join It

Ottawa, Aug. 19.—A number of Liberals not in accord with Sir Wilfrid Laurier on the question of compulsory military service, will meet in the capital to-morrow, and it is said their attitude may determine whether or not Canada shall have a National War Government in which both great parties in the country will be represented. Should they decide to cast in their lot with the Conservatives in the formation of such a Government, Sir Robert Borden is stated, will reorganize his Government, and, with the support of many Liberals throughout the country, seek a renewal of power to carry out a vigorous war policy.

From the West the Liberals in the conference will be T. A. Crerar, president of the Grain Growers' Grain Company; W. S. Woods, president of the United Farmers of Alberta, and J. G. Turfitt, M.P. of Assiniboia. Among those whom rumor suggests as Cabinet possibilities are Hugh Guthrie, M.P., and Senator Robertson, from Ontario, and from the Maritime Provinces P. B. Carvell, M.P. of Carleton, N.B., and A. B. McLean, of Halifax, N. W. Rowell, M.P. of the West, no longer a possibility. His position was described by one Ontario Liberal as "willing to go into the trenches, but not over the parapet." Delay in consummating a National War Government cannot be attributed to Sir Robert Borden. He has been active, sincere and patient in his endeavor to secure an Administration that could guarantee continued support to the divisions in the field.

By Wednesday it is predicted, however, the political situation at Ottawa may be clarified that the alignment of parties at the next election can be definitely fixed. If union Government is not consummated Sir Robert Borden has the assurance of the support of a strong Liberal faction in the West, and also of some of the most influential of the Western Liberal newspapers. He has the still further assurance of the support of prominent Liberals in the four Western provinces in the coming election. It is evident from these positive assurances that the union of the Liberal parties in the country has not awaited the union of the leaders of these parties either in Parliament or the provinces.

Currie Praises Troops London, Aug. 19.—In a message to Sir George Perley, General Currie says his forces have fully equalled in some respects have surpassed previous performances. So far no casualties as a result of the big push appear to have reached the London hospitals.

DOMINION STEEL AND CORDAGE WON SATURDAY GAMES

Sensational Ninth Inning Rallies Staged In Both Games

The Cordage Company and the Dominion Steel Products were the winning teams in the City League on Saturday afternoon. Both games were hardly contested battles and provided sensational ninth inning rallies that brought the crowd to its feet with cheers. In the second game between the two munition teams there was an abundance of excitement as each team held the lead alternately. The Motor Trucks got off to a fine start in the initial inning and on two hits and two errors, scored three runs before the frame was over. The D.S.P. scored one in the first and came back strong in the second, notching three tallies on four hits and an error. The Motors tied up the score in the fourth when one run crossed the plate. They followed this up with two more in the next inning, making a total of six runs, and having an apparently secure lead of 6 to 4.

In the last spasm, the D.S.P. commenced with a rush. F. Sears walked, Smith was safe on E. Sears' fumble, and Kauffman singled, scoring F. Sears. Crutchfield was safe on Jeffrey's error. Harwood singled, and Smith and Crutchfield crossed the plate. Venning singled, Johnson grounded out and Orcutt came through with a double, putting the game on ice. Tillman fled out to Summerhayes, and F. Sears went out shortstop to first, ending the inning. The Motors came back strong in their half of the ninth and scored two runs on two errors and a hit. Smith then relieved Harwood and allowed only one more run, cutting off the rally within one run of tying the score.

Sporting Comment

Tex Jones who used to play with the White Sox and now is out in the Western League somewhere, says this play actually happened in a game he took part in. It's a real "tank town" story at any rate. The playing field was along a railroad track and there was a water tank without a roof on it just back of the center fielder. The batter hit a high fly and it landed plunk into this open water tank. The batter thought he had a home run, so he jogged around at his leisure, but the center fielder chased up the ladder at the side of the water tank, reached in and got the ball that had come to the surface of the water, and from his perch threw home, getting the runner by a step.

The umpire studied the rules, held play was fair because the ball hadn't touched "ground" after being hit, and allowed the putout. Tex Jones to cinch this story, says the batter who hit the ball was named "Sergeant" W. S. Smiley they would have proved the tale. Well, anyway most of the real good stories about freak plays are lies.

The Browns may be flirting with the cellar but Lefty Hamilton is still leading the league in batting.

One of the features of the trips taken by the White Sox this year has been their singing of "The Star-Spangled Banner." After marching around the field under the direction of Sergeant W. S. Smiley they would line up before the stand and sing two verses of the anthem. It made a patriotic spectacle that appeals strongly.

One of the Sox players told of their first rehearsal. "Rowland got us together in the club house and asked if any of us knew the words of 'The Star-Spangled Banner,'" he said. "There were only three—Benz, Scott and Weaver. The rest knew only short snatches.

"Rowland then told us to sing the two verses as well as we could and that those who didn't know the words could make a bluff until they learned them by singing 'Hum-hum-hum.' "After our first appearance Gandil came in the club house after the game and approached Rowland. 'I can't help it, boss, he said. 'I'm a hum hum-hummer.' "

Anent the recent statement that a ball player when it came to registering for the draft, had to write home to learn his age, some one had suggested that players in doubt on such a question should count the rings on the bone in their heads, after the way the age of a tree is determined. But isn't it enough for a ball player, worrying about whether he is to get an upper or a lower berth in a Pullman or whether some one in the party has a deck of cards without bothering about what his age may be. And what's a club trainer or perhaps a secretary for? Why shouldn't one of them keep track of ages of the athletes? (Continued on Page Ten.)

Pay Your Debt To Your Defenders Turn Your Luxuries Into Comforts For Those Who Have Sacrificed Most. 'Self-sacrifice, self-denial and service lie at the basis of the highest personal and national development.' Sir Thomas White, Minister of Finance. Is it nothing to you that men from all round you have sacrificed home and salary, safety and life, to defend your home as well as their own? Is it nothing to you that their wives and families tremblingly scan each casualty list, and pale at the step of the postman or telegraph messenger? Can you see others giving their dearest, without feeling that you must do something yourself? Do you wonder what to do? You can at least save—and lend your savings to the nation. Canada needs every dollar her loyal sons and daughters can spare, to meet the growing expenses of the struggle. Every dollar you invest in Canadian War Savings Certificates helps the nation to deal generously with those who are defending you. Certificates in denominations of \$25, \$50 and \$100, repayable in three years, may be purchased at any Bank or Money Order Post Office at \$21.50, \$43 and \$86 respectively. This means over 5% interest—making them a profitable, as well as a patriotic investment. The National Service Board of Canada, OTTAWA.

### Confidence Aplenty is Displayed in Beantown

#### Boston Fans Already Talking of World's Series, Comparing Chances of Giants and Red Sox in Big Event

The city series idea for Boston is gradually fading into the invisible class. Those Red Sox are going to be fast, the White Sox fall to gain ground when advantageously placed. Buck Weaver, Commy's stellar third sacker, goes and gets a finger smacked. Babe Ruth persists in picking the ball most wickedly while he is throwing it with class—the answer to it all is that Johnny Barry men will depart in the world's series this October instead of meeting the Stallings Braves for the sacred cod title.

"Gee, that club will have to break sometimes," is the way the average baseball man regards the continued spurge of the Red Sox.

"But they've come through so often in the past when something big depended on coming through, that you just find yourself forced to trail along with them and make them the favorites," is the universal follow-up of the preceding statement.

The Boston Americans will continue to hold a high place in the prophets' league until such time as the team busts wide open under the strain. You can't very well bet against a champion when said champ is going along like a house afire, play high grade ball, fighting every instant and getting high grade pitching.

**And Talking About Gameness.**

With all the regard in the world for the heart shown by Windy City writers in their conclusions that the Rowlands are a gamer club than the Barrys, one need only cite a little baseball history to disprove the Chicago allegations that the Reds are not thoroughly gamer.

Merely saying that Risberg is a gamer player than Scott does not carry any weight. Scottie played the most wonderful game of shortstop in the last world's series, and it was his great short fielding in last August, September and early October that won the American league flag for Carrigan's team. In other words, when good play was imperative, Scottie would come across with that brand of ball. If he were any gamer, it would hurt.

It is not an attempt to prove the Reds are gamer than the Whites. Rather it's up to any and every Hub writer to show that the Reds are the last word in gameness, that no club could be any gamer. You may assault the Red Sox in their catching. Maybe they don't run bases so well. Possibly their outfield strength is far below the brand shown in 1915. But for the love of fairness and the eternal verities, don't slander the club to the extent of questioning its gameness.

If the Whites are to be shown superior to the Reds, let that superiority be demonstrated otherwise than through a comparison of the gameness of the two clubs.

The Reds don't play their best game at home; the Whites do. The Reds let go of a Speck and win. The Whites get an Eddie Collins, a Joe Jackson and some more, and lose. The Reds play the one-run game, based on the scientific sacrifice hit, and the Whites play everything, though one would believe their paper-hitting power would

make them partial to the hit and run on many an occasion.

The experts following each team made, but the Red Sox mistakes may be rather due to a lack of speed than to bad judgment, as is unquestionably the case with the White Sox in the very basis of the judgment of close observers like George Robbins.

**What Chance Have Giants in Series?**

The National league is very sure that its Giants will beat either Sox in the world's series. The senior circuit looks for a return of prestige, via the wonderful McGraws. Maybe so. But what of the pitching?

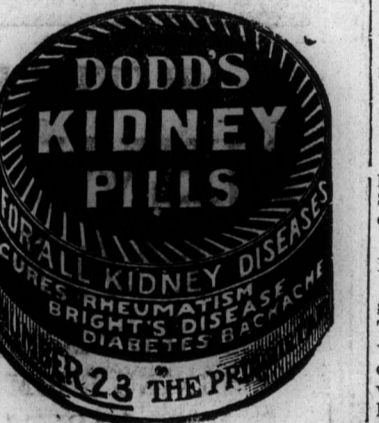

Present day champions always overshadow the old-timers. That's why prevailing opinion is that the Giants of to-day are superior to the McGraws of 1912 the year Jake Stahl's Red Sox beat the Giants in eight games.

The all important department of pitching, however, finds the Giants inferior to the Giants of 1912. That's so obvious it needs no support in the way of figures, etc. Walter Johnson stood the Comiskey on their heads the other day to the extent of a one-hit shutout. That's just an example of the way stellar pitching can nullify "class" in all other departments. For instance, Noyes of the Athletics goes out every once in a while, not backed by the best support in the world, but actually makes a laughing stock of the Red Sox, White Sox, Tigers and everyone else.

The Giants may be batting for a team average of .265 or thereabouts. The A's were batting for .300 or thereabouts in 1914, but fell down below the staff of three pitching Braves, Schupp, Saltee and Benton. Giants' southpaws, are sure to be more effective than the right-handers against which every team wins in the American league, yet will Schupp, et al be able to hold their own with Ruth, Leonard, Shore, Mays, Foster and Penneck? There comes the rub and it's quite some rub.

**FILM LETS.**

Helen Holmes, star of "The Railroad Raiders," a thrilling new fifteen chapter serial serial, is one of the most expert telegraphers and stenographers in the United States.

Henry B. Walthall, Essanay's great emotional actor, receives from two to three hundred letters a day from his admirers. Mr. Walthall answers each one, employing a regiment of stenographers and office boys to help him.

Grace Cunard has been occupying her resting time in selecting new frocks and many articles of dainty apparel. She is a mean steamroller herself, and is proud of some of the things she designs and helps make.

E. K. Lincoln is a dog fancier as well as an actor and has large kennels of pedigree puppies. At a recent dog show in Baltimore Mr. Lincoln benched thirteen dogs and carried off eleven first, one second and one third prize.

Maria Serrano, the Kalem star, is assuredly a versatile actress. In "The American Girl" series she is called on to be a dramatic actress, a comedienne, and a stunt artist capable of wild riding, and driving, daring swimming, jumping, fighting and what not. She has to wear ranch clothes, boys' suits, short skirts, jumpers and handsome evening gowns.

Gall Kane receives on an average of twenty letters a day from girls asking what she does with her old clothes and requesting that they be allowed to have them. Miss Kane says if she tried to make them go around each girl would receive a piece about large enough to put a patch on her elbow.

The only consolation Willard Louis, the genial, jovial fat man of William Fox films, gets these days is in the belief that his value as a player doesn't depend entirely on his size. Working in four Fox pictures at once without a day's rest is beginning to tell on Mr. Louis. He weighs himself daily to see when it is time to call a halt. At latest reports he tipped the scales to 280.

Mary Miles Minter, the little Mutual-American beauty, says that if she has ever been consoled over her good looks, all that self-esteem has been taken out of her in the producing of "Annie-for-Spice" where she poses as a homely girl. "I found that it really was not hard to make myself look just ugly," said the star, "and every time I looked in the glass it was a blow to my self-conceit."

Harry Lee, who accompanied Marie Doré, Albert Roscoe, Jean Gauthier and other members of the "Heart's Desire" company to Florida reports untold hardships on the part of Miss Doré and the rest of the Famous Players Company. When it comes to going at 5:30 in the morning and motoring 45 miles to location, Lee declares that all the laws of labor unions are being transgressed, and he threatens to strike if Congress does not act at once.

Robert Vignola, who is directing Pauline Frederick's next Famous Players-Paramount picture is such a stickler for details that, upon learning that one of the principal scenes in Miss Frederick's pictures would show a trial in court, he devoted all his spare time between the completion of "The Sinner of Sin" in which he directed Marguerite Clark, and the beginning of actual work upon the Frederick picture to studying court proceedings at the Supreme Court in New York city.

**Complete Capture of Jansbeek**

London, Aug. 20.—The Friday night added to the gallant armies have achieved last on the Belgian front, making their progress on the road by Dixschode and Langemark, a strong point of support east of Steenbeke River was captured.

The French have completed conquest of the enemy territory south of the St. Jansbeek River, the Breenbeek River, which branches off from the St. Jansbeek to the two strong German redoubts Lilas and Mondovi Farm, which held out against all attacks since beginning of the allied offensive Thursday, have capitulated, as French have pushed their forward to a natural line forming these waterways.

Les Lilas redoubt lies about third of a mile west of the junction of the St. Jansbeek and the Breenbeek. It was a large fortified concrete and steel armor with machine guns. Although garrison was small, their position was well high impregnable, as infantry attacks were repulsed and it was only when heavy armor was brought up and concentrated them late Friday that the Germans surrendered.

# FRENCH TAKE TWO STRONG REDOUBTS

### Complete Capture of German Territory South of St. Jansbeek and Breenbeek Rivers

London, Aug. 20.—The French Friday night added to the gains the allied armies have achieved last week on the Belgian front, making further progress on the road between Buschoote and Lanemarck. A strong point of support east of the Steenbeke River was captured.

The French have completed their conquest of the enemy territory south of the St. Jansbeek River, and the Breenbeek River, which branches off from the St. Jansbeek to the east. Two strong German redoubts, Les Lilas and Mondovi Farm, which had held out against all attacks since the beginning of the allied offensive on Thursday, have capitulated, and the French have pushed their front forward to a natural line formed by these waterways.

Les Lilas redoubt lies about a third of a mile west of the juncture of the St. Jansbeek and the Breenbeek. It was a large fortification of concrete and steel, armed heavily with machine guns. Although the garrison was small, their position was well nigh impregnable, so far as infantry attacks were concerned, and it was only when heavy artillery was brought up and concentrated on them late Friday that the Germans surrendered.

When the French advanced Thursday they passed on either side of Les Lilas, leaving the redoubt in a pocket. Since then there has been continual fighting about this position, which was rendered doubly strong through the presence of a considerable flooded tract and artificial ditches. The intense artillery fire yesterday played havoc with the redoubt, and the garrison finally surrendered, an officer and twenty-three men being taken prisoner. The officer said that they had intended to fight to a finish, but changed their minds when the big guns began their work.

Mondovi Farm was a similar position, lying in an angle formed by the St. Jansbeek and the Breenbeek. As in the case of Les Lilas, the French artillery bombarded the garrison into submission, and they surrendered during last night. The Germans later tried to shell the French out of Mondovi, but were unsuccessful.

The total number of prisoners and guns captured by the French is not yet available, but the prisoners will aggregate over 400, and about fifteen

were taken. The small number of prisoners is due largely to the fact that the Germans were holding most of this section in small garrisons in numerous redoubts like Les Lilas.

**Troops Are Optimistic**  
The correspondent of the Associated Press yesterday found the greatest spirit of optimism prevailing among the French troops. They are feeling exceedingly good over their successes and their morale is at the highest pitch.

The work of the French engineers in this difficult terrain, which as it approaches the river is a veritable morass, had been thrust forward swiftly, and when it came to bridging the flooded Steenbeke for crossing at dawn Thursday there was not the slightest delay in getting the numerous bridges over.

The French air service played an important part in the advance going ahead of the infantry all along the line and keeping up the contact of the patrols at the height of 200 and 300 metres. The German airmen who ventured in the direction of the French were driven back, and the air was cleared of enemy machines. In addition to patrol work, the French airmen did good execution with machine guns and bombs on enemy redoubts.

**On the Verdun Front**  
On the Verdun front the French in a brilliant attack recaptured positions taken by the Germans on Aug. 16 and 17, completely re-establishing their line. Heavy artillery fighting continues in that sector.

North of the Aisne several German attacks, especially east of the Froimont Farm, were repulsed. In Champagne artillery fire prevented an attack which the enemy was preparing in the sector of Massiges. At the eastern end of the line in Alsace a German attack near Steinbach was beaten back.

After violently bombarding the French positions, German troops last night made consecutive attacks on the French trenches in the Priest Wood. West of Muerthe and Moselle river and in the Vosges mountains to the east of Badonviller and north of Celles sur Plaine. The French official report issued to-day says all the German assaults were repulsed and that the Teutons suffered heavy casualties. German surprise attacks on the Aisne front, it is announced, also failed.

### OTHER PEOPLE'S BUSINESS

What a lot we all know about other people's businesses.

The other day I heard two men discussing a third man's profits on a trucking job.

Said the first, "I'm afraid he'll not make much money on it."

Said the second, "Why he's going to get forty dollars and it will only take him three days. Over twelve dollars a day. I call that pretty good money."

**What About Gasoline and Oil?**

Said the first, "What about gasoline and oil? And how about interest on the money invested in the truck? And depreciation?"

"Oh, yes, I suppose those things do mount up," conceded the second man.

And yet, left to himself he would have reckoned "twelve dollars a day" good pay.

And the queerest thing about that is that he is a business man, in business for himself.

**Those Terrible Dentists' Bills**

The dentist is another person whose profits are very commonly reckoned that way. His patrons know he gets so much an hour for his time and they multiply that by the number of hours in the day (forgetting that there must be waits) and that by the number of days in the year (forgetting dull seasons) and allot him an income which they feel

is exorbitant. They completely forget his office rent, the salary of his helper, the large cost of up-to-date equipment.

A music teacher told me that she once heard two young girls behind her in the trolley and unconscious of her presence, reckoning up what she must make. They allowed for no dull seasons or studio rent. "I only wish I earned half what they allotted me," she said. "I didn't wonder that both girls decided to be music teachers."

**Don't Put on Blue Glasses to Hunt With**

In hunting about for the nigger in the woodpile, responsible for the high cost of living, many large businesses are now being attacked, some justly and some unjustly. It is a common mistake to reckon their profits in this cross-eyed way. Take for instance the bread business, agitators will show how many loaves of bread can be made out of one barrel of flour and will actually forget to reckon the yeast, the milk, the sugar, to say nothing of the bakery's overhead expense in plant, labor, delivery, etc.

There is a nigger in the woodpile and there is no doubt of this, and we all want to catch him. But to go about it in this unreasonable way is to put on blue glasses to hunt with. We need the clearest kind of vision for this task. We can't afford to obscure it by such unreasonableness.

One cup butter, 1 1/2 cups sugar, mix to a cream, 1/2 cup sour cream, 2 eggs, 1 teaspoon soda, vanilla to flavor. Mix quite stiff, sprinkle with sugar when going in oven.  
Honey Cakes

Three and one-half pounds of flour, 1 1/2 pounds of honey, 1/2 pound of butter, 1/2 pound sugar, 1/2 nutmeg, 1 tablespoon soda. Roll thin and cut in small cakes; bake in a quick oven, cover tight and let stand till moist. They will keep a long time.

**Cocoanut Pie**  
Mix two tablespoonfuls sugar, 2 teaspoonfuls flour, 1 saltspoonful salt; and the beaten yolks of 2 eggs and beat thoroughly; then add the whites, beaten slightly, 1 cup grated cocoanut and 2 cups hot milk; bake in a deep pie plate and border with a rich paste; as soon as it puffs up and a knife blade comes out clean it is done.

### Women's Institute

The August meeting of the Afford and Park Road Women's Institute was held at the Park Road School on Thursday the 16th, with about forty-five in attendance. This being the girls' meeting, Miss G. Agnew acted as President.

The meeting was opened by singing the opening ode and repeating the motto. The minutes of the last meeting were read and adopted and the roll call was answered by helpful hints. Letters were read, which had been received from boys at the front also one from the fire sufferers in New Ontario.

On the 14th August several of the women met at the home of Mrs. E. Williams and packed fourteen boxes for soldiers on active service.

The following program was very much enjoyed by all:  
Vocal duet by the Misses Armstrong; song by the King's Workers Class. Reading by Miss Van Vankenburg; solo by Miss Grace Turnbull; reading by Miss Gidney; Mrs. Jones gave a very interesting address on New Ontario.

A collection was then taken up which amounted to \$3.95.  
The meeting was brought to a close by singing God Save the King.

**AFTER THE WAR**  
Won't the old world seem just splendid when this weary war is ended, when we hang our swords and shotguns up behind the kitchen door? And I hope, when done with slaying, we'll devote our time to haying, that the thunder of the captains may be heard on earth no more. All the world should be disarming, and the kings should turn to farming, when the dove with snowy pinions in our view again appears; for we've had enough of slaughter and of blood that flows like water—what we've had should satisfy us for at least a million years. But the war must drag on further, with its dreary wholesale murder, with its endless useless horrors till the Kaiser has been canned, till the kronprinz, smashed and gory, says he's had enough of glory, and the sword of wrath has fallen from the royal madman's hand. Then, when there's no longer tidings of the captain and his ridings, and the pawing, neighing warhorse has to haul the farmer's plow, this old world will be alluring, with a peace that is enduring; this old world that is so weary and so horror ridden now.

### LADIES' APRON

By Anabel Worthington.  
To be truly efficient the housewife needs a good supply of aprons for various uses, and the one shown in No. 8378 is ideal for it. It has a pocket for a handkerchief. It is just the thing to slip on over a good dress to go into the kitchen. The style is particularly recommended because it is easy to make and requires only a small amount of material. It closes at the back and has a seam on each side. The deep pockets are formed by stitching the outside of the apron to the underseam, which extends up to the belt. A narrow belt with each end held in the apron in its front. Materials such as gingham, percale, denim, canton flannel or canvas are suitable for this style of apron.  
The apron pattern, No. 8378, is cut in three sizes—small to 36 inches, medium size requires 2 1/2 yards of material, with 3/4 yard for belt.  
To obtain this pattern, send 10 cents to the office of the Courier.

### Good Night Stories

**TOM FAILURE—THOMAS SUCCESS**  
Robert and Thomas lived alone with their old father on a little farm outside the village. When the father became feeble, the boys were taken out of school and were put to work on the place.  
The work was hard and money scarce, and Thomas, who loved pleasure more than anything else, soon grew tired of farm life.

"I'm sure I could make more on the road," he told his father and Robert, and with his bag over his shoulder he bade them good-bye.  
"I'm sorry, son, for I've often heard 'A rolling stone gathers no moss.' But take this purse and God bless you," said Father.

"I'll take care of things until you return," said Robert, and Thomas went his way.  
He hadn't travelled far when he met a beggar.  
"If I give to every beggar I meet, I'll soon not have enough for myself," cried Thomas, and trudged on.

When evening fell and he paused to eat the lunch Robert had prepared for him, a hungry dog begged a bite. Thomas gave the dog a kick. "Why, I've hardly enough for myself!" he cried.  
Days passed into weeks, weeks lengthened into months, until at the end of five years Thomas found himself on farther on the road to wealth than when he left his father's home. Some days he made enough to eat and sleep, then when days were bad he lay down at the side of the road hungry. Through his dreams would flit the beggar and the hungry dog.

One morning, after spending the night in terrible dreams, Thomas awakened to the fact of how selfish he really was.  
"Never again will I refuse to share if I have no more than a crumb, for I know now what it is to be hungry. Perhaps I could have been more helped by remaining at home than by trying to make things come my way. It's a slower way, but it's sure," said Thomas to himself, and he turned his face toward home, determined to make good.  
When he reached his old home he found things changed. The old farmhouse was replaced by a beautiful new house, and it was ringing with merriment as Thomas reached the gate. He turned up the back walk, for he was too dirty to enter by the front door.  
He inquired if his brother still lived there, and the woman who answered his knock nodded her head. Robert entered the room, and when he saw Thomas he gave a glad cry. "Welcome home, brother. You're just in time, for this is my wedding night," he cried, kissing Thomas' cheek.  
"Perhaps I'd better not come in to-night. I'm a failure, Rob," answered Thomas.  
"There is no such thing in this world as a failure," laughed Robert. "You just chose the wrong path. I've stuck to the old farm and have made it pay. Now I've enough for all, and you're welcome to share it with us," exclaimed Robert, and he took Thomas up the back stairs to his own room.  
The Thomas who walked down the front stairs an hour later was a different man. The old father was so happy to see his son once more that he never asked whether he had acquired wealth or not. After the guests had departed Thomas told of his struggles.  
"There's nothing that'll keep a boy down so much as a selfish nature. You were right, Dad, when you said, 'Rolling stones gather no moss.' From now on I'm settled and I mean to make good," said Thomas.  
He had learned his lesson and had learned it well, for today if you visit that village you will find that the failure of yesterday is the success of to-day. A man respected and loved by all, Thomas never forgets to be kind to those who ask him for help. He remembers.
