

"To stop advertising is like taking the engine off of a speeding train. It will soon slow down and STOP—Advertising is the locomotive of business."—Wm. Wrigley, Jr.

The Acadian

DEVOTED TO THE INTERESTS OF WOLFVILLE AND EASTERN KINGS

Vol. XLII. No. 21.

WOLFVILLE, NOVA SCOTIA, FRIDAY, MARCH 9, 1923

\$2.00, payable in advance

WOLFVILLE TIES NEW GLASGOW

In Keenly Contested Game of Hockey—Score 2 to 2

On account of the bad storm on Wednesday there was a small attendance at the hockey game that evening between the Wolfville and New Glasgow teams. The game was one of the best seen here this season and at times some fast hockey was produced. The visitors were a splendid aggregation of good, clean players, and not a penalty was handed out during the whole game. Referee Harry Fraser handled the game in splendid fashion.

The local team did not have the services of the Kennedy brothers, but nevertheless they put up one of the best games of the season. Eagles in goal made many sensational stops, and he was ably assisted on the defence by Harvey and Clarke, with Murray as substitute. Hirtle, at centre, played his usual fine game, and Scriven and Morrison were on the wings. The substitutes on the forward line were Rand and Thompson. The visitors had a snappy team, every man of them playing well.

Wolfville scored the only goal in the first period, Clarke doing the trick after a pretty rush. This period was real exciting, there being some very fast hockey. Soon after the second period opened Morrison scored for Wolfville, but almost immediately the visitors scored their first goal. Play lagged the remainder of the period. The best hockey was witnessed in the final period. Both teams played hard but could not get past the strong defences of both teams. Finally the visitors pierced the local defence and tied the score. Although both teams tried hard neither was able to score the winning goal and the game ended a tie.

WOLFVILLE GIRLS WIN AT HOCKEY

Defeated Middleton Girls Tuesday by Score of 3 to 1

The Wolfville girls have been practising hockey for some weeks preparatory to meeting some of the other girls' teams in the valley. Their first game was played on Tuesday when they went to Middleton, accompanied by Mrs. C. A. Patriquin as chaperone, and Mr. Higgins of Acadia, as business manager. Although the Middleton girls had a long string of victories to their credit they were no match for the fast Wolfville team which put up a splendid game and won by the score of 3 to 1. The Wolfville players were as follows: Goal, Lillian Taylor; defence, Dorothy Holmes, Margaret Johnson; wings, Leta Gertrude, Frances Patriquin; centre, Marjorie Wickwire; subs., Ethel Hemmison, Gertrude Rogers. Leta Gertrude scored all three of Wolfville's goals in the first period. The Middleton team was composed of Mrs. Buckler, goal; Miss Coleman and Miss Cox, defence; Miss M. Coleman and Miss Sullivan, wings; Miss Parker, centre.

The girls were splendidly received and entertained by the people of Middleton and are loud in their praise of the citizens of that town. At the close of the game they were entertained at the home of Mrs. Reagh. They returned home by the early train Wednesday morning tired but jubilant, and are now looking forward to trying their skill against some of the other teams of the Valley. Good luck to you girls.

MT. A. GIRLS DEFEAT ACADIA

Mt. Allison Ladies' College basketball team defeated Acadia ladies' team in the Memorial Gymnasium last Friday evening. The combination was not very good on either side although the Mt. A. girls were somewhat at the advantage in it. Having suffered two defeats this leaves the Acadia girls out of the running for the ladies Maritime championship. The first period was characterized by many personal fouls on the Mt. A. guards but nevertheless due to the excellent and accurate shooting of their forwards the visitors made 14 to their opponents 6.

In the second period play was more in favor of the local girls and amid the cheering of the large crowd the Acadia forwards somewhat outclassed their rivals in scoring. However despite the efforts of the local guards the visitors added six points to their score. The play during the last part of the period was unbroken by scoring and the final result was 20-15 in favor of the visitors. The teams were:

Mt. A.—Misses Figgott, Desbarre, Chown, Westhaver, Thomas, Smith, Acadia.—Misses McLaughlin, Archibald, Lawson, Colbath, McLean, Doherty.

Paper Towels in rolls for sale at THE ACADIAN STORE.

DIRECT C. N. R. TRAFFIC

J. E. Dalrymple has been appointed vice-president in charge of traffic of the Canadian National Railway system. He will also have charge of sleeping, dining and parlor cars and hotels.

APPEAL COURT MAKES STATEMENT

(Coun. Balcom, for the Appeal Court, has handed THE ACADIAN the following statement for publication.—Editor.)

The recent session of the Appeal Court was so unusual with regard alike to the number of cases involved and to the action of the Court that a word of explanation may be of interest to the citizens of Wolfville.

After careful deliberation, the Court decided that the assessment of incomes and of dyke properties by the assessors was inequitable and that some redress should be given. The only way in which this could be done in conformity with the law, was to raise the assessment on other property to the level at which dyke lands and incomes were assessed. In carrying out this revision the Court found that in most cases the valuations of the assessors had been very carefully worked out, and that a uniform rate of increase would give satisfactory results. While minor changes were made in several properties, only in an insignificant number of cases was any material departure from this plan of uniform increase deemed necessary. The assessors are to be highly commended on their very valuable contribution to the difficult task of placing the real estate of this town on a uniform basis for assessment.

The advantages and disadvantages of the changes made by the Court of Appeal will doubtless be much discussed. In addition to rendering justice to the appellants in the cases mentioned, it is certainly advantageous to have our assessment conform to the requirements of the law of the land. Moreover, a much lower rate of taxation will be possible, a consideration which has its advantages for advertising purposes. On the other hand, many fear that it will double our contribution to the county, and to the Highways tax. So far as the latter is concerned, an increased payment is inevitable under the Act as it is at present. There is reason for believing, however, that the Provincial Government realizes the imperative need for such a revision of this Act as shall remove the danger of this obvious injustice. With reference to the joint service charge, there would seem to be no reason for anticipating any increase. Both the Nova Scotia Assessment Act and the Towns Incorporation Act make it clear that any increase in the assessment made solely to conform with the requirements of the law, and representing no increase in actual values, furnishes no ground whatever for a greater contribution to the joint expense. Indeed a decrease is not impossible. The idea prevails in Wolfville that our contribution to this fund has for years been unduly large, and well informed men in the county have expressed similar ideas. Just what a careful study of the whole situation would reveal it is useless to predict. The citizens of Wolfville desire to pay just proportion, but no more. So do the residents of the County. A conference to clear up this whole situation is much to be desired.

'SISTER' IS BIG HUMAN STORY OF MARRIED LIFE WITH A REAL LESSON

"Sisters", Kathleen Norris' novel, which appeared as a serial in "Good Housekeeping", which has been made into a real, human motion picture, comes to the Opera House Friday and Saturday, March 16-17. It is story of a courageous girl who fought to hold her husband from her own selfish sister—and won her fight. As a novel everybody talked about "Sisters"; as a tremendous motion picture it will now command the attention of millions in all lands. The story features Seena Owen, Matt Moore and Gladys Leslie.

TOWN COUNCIL

Holds Regular Monthly Meeting—\$120 Paid for Advertising for Town Manager—No Money for Town Book

The regular monthly meeting of the Council was held on Wednesday evening with Mayor Phinney and all the Councillors present.

After the reading and confirming of the minutes of the last regular and special meetings, the reports of the standing committees were taken up.

Coun. Young, for the Streets Committee, reported during the month of February an expenditure of \$242.04, \$160 of which had been for labor. The work done had consisted of clearing streets and sidewalks of snow and keeping the roads passable.

For the Committee on Fire and Water Coun. Peck reported the expenses of the former during the month \$16.06, and \$14.90 on the latter.

Coun. Reid, chairman of the Sewer Committee, reported the modest expenditure during the month of 35 cents.

Coun. Whidden, for the Committee on Police and Licenses, reported \$109.30 paid out during February, with receipts \$6.20.

For the Poor Committee Coun. Eaton reported an outlay of \$311.85.

The Finance Committee, through its chairman Coun. Balcom, reported the total receipts during the past month \$670.05, with expenditures \$3046.75. The overdraft at the bank at the end of February was \$15,991.72.

Dr. C. A. E. deWitt appeared before the Council asking that Westwood Hospital be exempt from taxation during the coming year. He gave a detailed statement of the receipts and expenditures during the first ten years of the existence of that institution, showing a narrow margin of profit, and urged that the good service rendered the community by the hospital should be taken into consideration. Dr. Elliott was also present and spoke of the good work being done at the hospital and its value as an instrument for promoting health. No action was taken but the Mayor promised that the case should receive consideration.

The estimated requirements for schools for the coming year were presented by Dr. Eaton, chairman of the School Board. The sum of \$15,439 will be required and it is estimated that \$1900 will be received from grants, fees, etc. The estimate is about a thousand dollars greater than last year.

A letter was read from the V. O. N. asking if possible the vote for that work be increased this year from \$300 to \$500. On motion it was decided to vote \$300 as last year, with the understanding that this amount might be increased if found necessary.

The following bills were read and ordered paid:

L. W. Seep	\$57.42
J. E. Hales & Co. Ltd.	6.00
Vital Statistics	7.20
A. & W. MacKinlay Ltd.	15.88
A. Dalkin	2.50
Geo. A. Chase	0.85
H. E. Blakeney	1.55
F. W. Barteaux	23.18
Burton Croft	14.00
I. B. Oakes	5.00
John Wier	40.00
J. D. Harris	17.50
F. C. Dennison	75.14
R. E. Harris & Sons	117.90
Davidson Bros.	14.99
Woodman & Co.	11.10
Chas. Porter	0.90
Halifax Chronicle	67.20
Halifax Herald	52.00

These last two items were for advertising for applications for the proposed position of Town Manager. Councillors expressed surprise that the charge should have been so great but as there was no agreement the bills were ordered paid. The incident is of value as demonstrating the need of town management.

Coun. Balcom reported with regard to the conference with the Board of Trade concerning the proposal to invite the N. S. F. G. A. to hold its annual meeting at Wolfville next winter. He stated that the college authorities had offered the use of the Memorial Gymnasium for the purpose of these meetings and that an invitation had been extended with no response as yet.

The various committees were asked to present estimates for the coming year in order to assist the Finance Committee in preparing the budget.

Coun. Young, for the Streets Committee, stated that \$4000, not including sinking fund and debenture interest, would be required for that department. Coun. Whidden urged that the amount should be at least one thousand dollars greater and the Mayor requested that the Committee should prepare an itemized statement, which the chairman declared it would be impossible to do.

The Water and Fire and Sewer Committees had no statement prepared but agreed to report to the Finance Committee later.

Coun. Eaton, for the Poor Committee, presented a full statement of last year's expenditures and asked that the allo-

ment for the coming year should be \$1800. A letter was read from A. M. Jackson with regard to the request for a reduction in the insurance rate on the electric station, which is now used as a store-house. The reduction was proposed on the receipt of a guarantee that the building would not be used as a residence during the year.

The applications for the position of Town Manager were asked for and it was decided that these be taken up by the Council in committee and reported at the next Council meeting.

The matter of the publication of a town book containing town reports, was discussed and it was decided that this be again omitted on the ground of economy.

The mayor brought up the matter of the salary of the Superintendent of Streets, etc., which had not been paid for the month of February because of the fact that no appointment was made when the other town officers were appointed. He called upon the town solicitor who stated that as the resolution was passed on Feb. 8, 1922 appointing the superintendent for one year, the term had now elapsed and no further salary should be paid. The chairman of the Streets Committee stated that Mr. Johnson had continued work during the month and was entitled to be paid.

Supt. Johnson, who was present, stated that reference to the by-laws would disclose that his appointment held until his successor was appointed. A copy of the by-laws was finally located and on investigation the solicitor found that the superintendent was correct in his interpretation.

Council adjourned until Wednesday evening of next week at 7.30 o'clock.

LOCAL M. P. TAKES PART IN DEBATE AT OTTAWA

OTTAWA, March 5.—Adoption of measures to encourage the publication of Canadian magazines and periodicals, advocated in the House this afternoon by H. C. Focken, Conservative (Toronto West), who moved a resolution to that effect.

Mr. Focken declared that there was no country in the world in which there was so much material for good writers as in Canada. Yet American publications had a very strong hold on the Canadian market, nor was it the best of them which had the largest circulations. The American publisher was at an advantage in having all his overhead covered by his domestic market, leaving his surplus for disposal in Canada. He suggested the government should place a duty on the advertising sections of American publications coming into Canada. If a duty of 15 cents a pound were applied, the Saturday Evening Post would pay over \$7,000 on a single issue and the Ladies' Home Journal over \$16,000.

E. W. Robinson, (Liberal, Kings) doubted whether Canada could produce a national literature, either by means of shutting out other literature or by means of cheap paper.

Mr. Meighen asked Mr. Robinson if he was aware that many Canadian writers had gone to the United States because they could not get a market in Canada and their writings were now coming to Canada through American channels.

Mr. Robinson said the point was to create a demand for something better than the cheap American magazines. He wished to protest against any policy that would shut out reading material that would benefit the country.

T. W. Caldwell, (Progressive, Victoria-Carleton) agreed that it was desirable to exclude certain American magazines, but he did not favor Mr. Focken's remedy. He would rather see the duty on paper removed, and also that the export of pulpwood logs be prohibited or placed under a heavy tax.

FINAL PLAY-OFF GAME FOR CHAMPIONSHIP OF NOVA SCOTIA LEAGUE

Between Windsor and the Winners of Semi-Final Play-off, Dartmouth or Antigonish, at the Arena Rink, Halifax, N. S. Monday, March 12th.

A special train will be operated in connection with the above event, leaving Kentville at 4 p. m. on Monday, March 12th, for Halifax, stopping at intermediate stations to pick up Hockey Fans, arriving at Halifax at 7.10 p. m. Returning special train will leave Halifax at 10.45 p. m. the same evening for Kentville stopping at all stations where there are Passengers to set down.

Special Fares have been named for this event. For Further particulars apply Ticket Agents.

TO FIX DATE FOR EASTER

Lord Desborough, representing British business organizations, will attempt to have the date for Easter permanently fixed as the second Sunday in April at the meeting of the International Congress of Chambers of Commerce in Rome, next month.

WOLFVILLE HIGH SCHOOL TEAM WON

Defeated Kings County Academy By Score of 4 to 1

The Wolfville High School achieved its second victory in hockey over Kings County Academy in the Evangeline rink here last Friday when they defeated the visiting team by a score of 4 to 1.

The playing was fast and the ice good so that the game afforded an excellent example of hockey. This makes the High School's fourth successive triumph of the season. In the first period play was very even, a few brilliant rushes by Johnson being the only breaks in the steady playing. The only goal of this period was made by Andrews.

In the second period play continued even until the locals scored. With K. C. A.'s only score made by Lightle, and another by Beates for the locals the period ended. In the third period only one goal was made leaving the score 4 to 1 in favor of Wolfville High School.

Line up:
Kings County Academy—Goal, Hiltz; defence, Spinney, Walker; forwards, Cohen, Lightle, Redden; subs., Thompson, Callan.

Wolfville High—Goal, McKenna; defence, Brady, Johnson; forwards, Beates, Andrews, Williams; subs., Wallace, Prescott.

Summary of Games played by Wolfville High School this winter:
Grade IX vs. Hantsport, 7 to 1.
High School Team vs. Kentville, 5 to 3.
High School Team vs. Avonport, 6 to 0.
High School Team vs. Intermediate Collegiate Academy, 10 to 1.
High School Team vs. Kentville, 4 to 1.
Two games remain to be played, one with Avonport and another with Canning.

ODD FELLOWS DEFEAT BANKERS

In Deciding Game of Series—Score 10-9

The Odd Fellows and Bankers played their rubber game of hockey on Tuesday evening of this week, resulting in a victory for the former of 10-9. Fair hockey and good feeling prevailed throughout. Harry Fraser handled the whistle and was unable to collect any penalties. In the first period the Odd Fellows took the lead and piled up a score of 5-1. The second attempt was also easy money ending at 9-3. Towards the end of this period Pothier, who was guarding the net for the Bankers, stopped one of Harvey's hot ones with his eye, which apart from temporarily ruining his beauty, put him out of the game. At this point the Odd Fellows were feeling a bit cocky with their long lead and agreed to "Rusty" guarding the Bankers' safety-vault for the remainder of the game. It was not long, however, before they were regretting their generosity for the Bankers with vengeance in their eyes (thinking no doubt of the extra work for the morrow, due to Pothier being on the disabled list) slapped in six hot ones in twice as many minutes and tied the score with still 7 minutes to go. For a time it looked like a draw but Baird managed to get by with the winning tally for the Odd Fellows in time to beat the final whistle.

The teams lined up as follows:
Bankers.—Goal, Pothier and Eagles; defence, A. G. Guest, Alan Parker; forwards, Scriven, Thompson, Dick; subs., Rand.

Odd Fellows.—Goal, Kenney; defence, Harvey, Baird; forwards, Porter, B. Martin, McRae; subs., J. Martin, Stevens, Herbin.

Dorman and LeValle handled the funds. The profits were small.

ACADIA BASKETERS

Win and Lose at Halifax by Narrow Margins

The Acadia basketball team paid a visit to Halifax last week and played two games, winning one and losing the other. They defeated the Y. M. C. A. on Thursday by the close score of 17-16 and lost to Dal'ous on Friday by the equally close score of 15 to 11. The Halifax Herald reports the games as follows:

The Acadia-Y. M. C. A. game was one of the fastest and most hotly contested seen in the city this season. Several long shots found the baskets in both periods. "Y" began the scoring and netted the first four scores but Acadia came back strong in the latter minutes of the first period and led their rivals at the conclusion of the initial session by a 9 to 6 score. Fine guarding by both teams was the main factor in keeping the score down.

The locals outplayed their opponents in the final session, scoring ten points while they held their rivals to eight. With less than two minutes of play to go and the locals leading by one point, Chipman scored a long shot from nearly centre floor which put the game on ice for the college team. Greig, Frew and Whitlock were the pick of the locals while Brown, Robinson and Chipman worked the hardest for the winners. Fred Barrowman refereed. The players and points:

Acadia—Brown, forward, 2; Robinson, forward, 9; Chipman, centre, 2; McCready, guard; Rhodenizer, guard, 2; Wigmore sub, 2.

Y. M. C. A.—Frew, forward, 6; Piers, forward, 6; Whitlock, centre, 2; Greig, guard; Lawrence, guard, 2; Winscombe, Brunt and Moore, subs.

Acadia vs. Dalhousie

Dalhousie scored a 15 to 14 victory over the Acadia University basketball team at the Dalhousie gymnasium last night. The game was very slow. Only a few people were present.

Dalhousie secured the first two points on penalty throws but the visitors came back strong and half way through the period had a six point lead on the locals. Wigmore made several fine baskets from nearly centre floor while the shooting of the Dalhousie team was way off the basket.

Towards the end of the session the locals made a comeback, making the scores even, but the visitors managed to shoot two more baskets and lead at the conclusion of the first period by a 10 to 6 score. Very little combination was played by either team, long shots and fine guarding by both equating being the feature of the session.

The locals made a strong comeback in the second period, netting the ball for nine points while they held their rivals to four. The Dalhousie forward line showed flashes of combination work and Wilson managed to sen in three baskets while Muir scored from right under the net. With only a minute left to be played, the Acadia team tried hard to even the count and they nearly succeeded, but the fine work of MacOdrum and Coster prevented them from getting the decision over the locals.

Wigmore was the leading point scorer, netting the ball for ten points. Wilson trailed with nine, Muir and Brown had four each. Mr. Stirling refereed in a satisfactory manner. The players:

Dalhousie—Muir and Wilson, forwards; Grant, centre; MacOdrum and Coster, guards; Mader; MacDonald and Miller, subs.

Acadia—Wigmore and Brown, forwards; Chipman, centre; McCready and Rhodenizer, guards; Robinson and Clark, subs.

WOLFVILLE BOYS LOSE AT WINDSOR

WINDSOR, March 6.—The Wolfville Shamrocks were defeated by the Cubs of this town, 9-3 in an interesting game of hockey in Windsor Monday last. The visitors were heavier than the locals, but what the Cubs lacked in weight they made up in speed and aggressiveness. Windsor scored four goals to their opponents one in the first period, added three more in the second while they held their opponents scoreless, and each team scored twice in the final frame. Y. Keenle starred for the Shamrocks while all the local's played well.

Wolfville—A. Weatherbee, goal; S. West, V. Keenle, defence; H. Veat-erbes, centre; C. Keenle, B. Rogers, wings.

Windsor—Curry, goal; MacDonald, Kuhn, defence; Taylor, centre; Hughes, Chambers, wings; Shaw, Hoyt, Bacon, subs.

W. E. Smith, referee.

The championship of the Grammar School Grades was won Saturday, March 3, by Grade VI in contest with Grade VII, score 3-0.

THE ACADIAN

(Established 1883)
Published at Wolfville, N. S., every Friday by
DAVIDSON BROS., Printers and Publishers
Members of the Canadian Weekly Newspaper Association.
Subscription Rates—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.
Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.
Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

THE APPEAL COURT

Actuated very apparently by the conviction that whatever is wrong—a sentiment, by the way, that has been altogether too much in evidence during the past year on the part of a certain element of town government—the appeal court has now created a condition of affairs in Wolfville which is causing not a little excitement. The task of the town assessors in providing an equitable valuation of property is at the best a difficult one, and the function of the appeal court is to correct as far as is possible any errors that may be brought to their attention. In so far as this has been done—if at all—the board should have the approval of the Council, but we can hardly think that they will be supported in what is regarded by most citizens as an unwarranted interference with the work of the assessors. Pending the decision of the Council when the matter of the assessment comes fairly before them, THE ACADIAN will refrain from further comment at the present time.

OUR COUNTY JAIL

Another instance of a prisoner confined to the county jail taking his departure therefrom without permission of the authorities is reported. The man was charged with a serious offence which makes the incident especially regrettable. While generally referred to as the Kentville jail it should be remembered that this is a county institution in which the whole county, including Wolfville, is interested and for which the people pay a very considerable amount of money each year, to support. If even a small percentage of the stories concerning its conduct are true it is unquestionably full time that the investigation ordered at the January meeting of the Municipal Council should be in progress and all the parties interested should have an opportunity of being represented. At the best the conditions under which our local prison is conducted are most unbusiness like, and the ease with which its occupants are able to escape—when they so desire—indicates a laxity that is in no way excusable.

APPLES—THREE FOR A DOLLAR

"Apples selling at twenty-five cents each decorate many New York store windows and in the fashionable shops, they are being offered at three for a dollar."

This from the editorial column of an American contemporary. Commenting on present marketing conditions, the writer says: "The army of hands through which an apple must pass from tree to table is enough to make the angels weep."

CO-OPERATIVE MARKETING

An editorial published south of the international line on the above subject will be read here with interest.

"In every part of the country people are learning the lesson of co-operative marketing."

"Georgia is learning the lesson of this sane and progressive kind of marketing wisely and well. Every day people of this state are drawing nearer and nearer to a perfect realization of the things that will come to pass by the enforcement of the right methods of progress."

"This fine co-operative marketing idea, as applied to cotton, has produced very fine results in Georgia. Watermelons have been put on a better business basis because of co-operative marketing, and the peanut growers are obtaining excellent results."

"The Georgia farmers are accomplishing much in the raising of peanuts. In Cochran, Georgia, last week, peanuts sold as high as \$107 per ton."

"California is leading the country in co-operative marketing. There are twenty-five distinct state-wide marketing associations in this state; others are being organized."

"This great question deserves to be carefully studied by all who are interested in real progress along agricultural lines."

"Proper organization of various agricultural products into co-operative marketing associations in this state will mean a very rich degree of prosperity. It is something worth thinking about."

CANADIAN BACON INCREASING IN FAVOR

We have the assurance of the Deputy Minister of Agriculture of the Dominion, Dr. J. H. Grisdale, that during his recent visit to Great Britain he found commission men, dealers, prominent citizens and consumers generally, actuated by a wonderfully warm feeling towards Canada, her people, and her products. On top of this comes a message direct from London that leading importers of Danish bacon have notified the consignees that the Danish bacon reaching Britain at the present time is much too fat, while the Canadian bacon that reaches London is of good quality. The message adds that Canadian press representatives overseas have been informed that Denmark is in danger of losing her favorable position in the trade unless change for the better is effected. Formerly there was a wide margin between prices paid

for Danish and Canadian bacon, but recent advices received by the Live Stock Branch at Ottawa indicate that there has been quite a levelling up, that in fact the price paid for Canadian lean bacon per long hundredweight is but a few shillings less than that paid for the best Danish.

We'll wire your home without any fuss or clutter says our Mr. Electro-serve.

Ask us to tell you what it will cost you it doesn't amount to very much per room and it is quickly done. You'll know the joy of really living when you know the benefits of electricity in your own home.

PERSONAL RIGHTS

(By Dr. J. G. Shearer, Social Service Council of Canada.)

A young man, intelligent and prosperous-looking, sitting opposite at dining car table, said to the writer, "I like a glass of beer at luncheon or dinner and if I want it I'm going to have it wouldn't you?"

"Would you feel justified in joining a bootlegger in a violation of the law in order to get it?"

"Yes I would."

A gentleman of high standing in a certain church said recently that he sympathized with the poor bootlegger and considered it outrageous to put any man in gaol for violation of a prohibition law.

Of course it is legitimate for any citizen to advocate and work for the repeal of any law of which he personally disapproves. Is it lawful for him to wink at or encourage the violation of such a law? If he does, does he not become an abettor of lawbreaking? Is he any better than the law breaker himself.

That breezy Western daily, the Saskatoon Star, recently numbered such violators and abettors of the violation of the liquor laws among "Pariahs, prostitutes etc., as outlaws and outcasts!" Was not the Star justified? Is not the deliberate law-breaker a rebel and in practice, if not in theory an anarchist?

But what is the psychology standing back of such law-breaking on the part of otherwise respectable people, as some of them are? It is a mistaken idea about personal rights. They think a man has a divine right to do as he pleases and that the majority have no right to limit this his supposed liberty.

What about these personal rights? Have we as individuals many if any rights that are 'divine' or 'inalienable'? Are not the great majority of personal rights simply social privileges—O. K. ed. by Society? And if bestowed by society then are they not liable rightly at any time to be limited or removed by society? Take the so-called constitutional rights guaranteed to Americans in terms of the Declaration of Independence, viz., "to life and liberty and the pursuit of happiness." Are these rights inalienable? They were suddenly removed for millions during the war, and may be so again for a similar reason. Society gave. Society can take away. But even in peace and in normal times the individual cannot use either life or liberty as he pleases nor pursue happiness any old way he chooses. He must respect his neighbour's rights. He must respect, moreover, the will of Society expressed in law. Law is essential to personal liberty, and liberty is necessarily limited by every law. That is the price the individual pays for the privilege of living

in a state of civilization. The more advanced the civilization, the more limited is personal liberty.

Health laws, laws of sanitation, Sunday laws, laws for the protection of life and property and all civil rights involve invasions of the sphere, the sacred sphere, of personal liberty and individual rights. And all these limitations of liberty are imposed in order to effect the conservation of liberty. The Sunday law is built on the principle that liberty of rest for each demands the law of rest for all. One's own property or life is only safe because all men's lives and property are protected by law. Law is always justified if it is for the general good, no matter what limitations of personal liberty or trampling on personal opinions or desires may be involved.

Can any man who does not recognize this fact and will not respect laws whether they are pleasing to him or not be rightly regarded as a good citizen? Can democracy be safe on any other basis?

NOVA SCOTIA RATE SHOWN AS HIGHEST

The Dominion Bureau of Statistics report on deaths from all forms of tuberculosis, covering the first six months of the years 1921 and 1922 shows that the death rate from tuberculosis in Nova Scotia, as estimated on the per 100,000 population basis, is higher than in any other province of the Dominion.

In the first six months of 1921, the report shows that 415 deaths, due to tuberculosis in all forms, occurred in this province, making the death rate per hundred thousand population, 79. On the population basis, Prince Edward Island is next, with 62 deaths, and a rate of 70 for the same period. New Brunswick is in third place with 229 deaths and a rate of 59, and all the other provinces with the exception of British Columbia, the rate for which is 44, are under the rate of 40. The total number of deaths in the Dominion during this period, is given as 2,644.

In the period from January to June, 1922, the Nova Scotia statistics as reported show improvement. In this period, the report shows 369 deaths to have occurred, and places the rate per hundred thousand, at 70. Prince Edward Island is again in second position with 59 deaths and a rate of 67, and New Brunswick occupies third place with 241 deaths and a rate of 61. All other provinces are rated below forty. The total number of deaths in all provinces for this period is given as 2,528, and the rate, thirty-nine.

HOW TO KNOW

"Good advice is the kind that you remember too late that you forget to take."

THE BIRTHRIGHT OF EVERY CHILD

Is proper care and attention so that its future may be guarded against all emergencies. There is no better way to safeguard the future of your children than by saving money for their future needs.

Open a Savings Account for each child—the deposits need not be large—small amounts, even \$1 at a time, will do and the Bank Account will grow up with the child.

EFFECTO

AUTO FINISHES

Sure, you can paint the old bus yourself

A few hours interesting work, a few dollars worth of Effecto will transform an old weather beaten car into a real automobile.

Effecto Auto Finishes are both color and finish combined in one material and are self leveling, consequently they go on easily and evenly without streaks.

Effecto Enamel is not a paint, wax or polish. It is the original enamel made of the finest of mineral pigments and ground in specially treated varnish until the final product is a superfine enamel and will stand the most trying weather conditions.

Effecto is made by Pratt and Lambert, the makers of Vitalite, the Long Life Enamel, and "61" Floor Varnish, the "Hammer Test" Varnish.

"Telephone More, Travel Less!"

Business men are finding out more and more every day that that's a slogan worth adopting.

Its value is apparent when acted upon in relation to the comparatively short distances in our own Province.

But, when put in practice in connection with out-of-Province points, its worth is conclusively proved.

As an experiment, tot up the costs in time and out-of-pocket expenses of a trip from Halifax to one of the undermentioned Big Commercial Centres: put the result alongside the cost of a Telephone Talk between the same places, and—you can have but one opinion.

Here are specimen rates for 3 minute Long Distance Telephone Talks between Halifax and the places undermentioned.

Portland (Maine)	\$3.55	Chicago	\$10.40
Boston	4.25	Montreal	4.50
New York	5.65	Ottawa	5.40
Philadelphia	6.40	Toronto	6.85

Calls from other Provincial Points are at proportionately low rates.

THE WINE GLASS

Who hath woe? Who hath sorrow? Who hath contentions? Who hath wounds without cause? Who hath redness of eyes? They that tarry long at wine! They that go to seek mixed wine when it is red, when it gives color in the CUP; when it moveth itself aright. At the last it biteth like a serpent and stingeth like an adder.

REPORTING THE SERMON

A kilted regiment, while on the march in a part of Scotland, halted for a Sunday of rest at a remote village in the Highlands, and some of the braw laddies were billeted on the inhabitants. One old lady had to find a lodging for two of the soldiers, Sandy and Tam, and she was delighted to know they were going to the kirk in the evening. She herself was unable to go, and her pleasure increased when one of her guests, who happened to be an accomplished writer of shorthand, promised to tell her everything the minister said in his sermon—although she had her doubts as to how he would be able to remember it all. The two "kilties" came back from church, and Sandy read the sermon from his notebook to the admiration and astonishment of his landlady, who had never heard of shorthand and could not understand how anyone could write as fast as the minister spoke. When Sandy had finished and the good lady had expressed her thanks for the privilege of hearing the sermon, she asked to let her look at the book he had been reading from. She seemed much disappointed, however, because she could make nothing of it. At last, after a close inspection of the mystic signs, she said to the blushing warrior: "You're a grand laddie and a verra gude reader, but I must tell ye, and if I was your ain mither I wad hae to admit it, ye're the verra wurst writer I ever came across."

NEW BRUNSWICK HAD MANY TOURISTS IN 1922

During the summer of 1922 the Province of New Brunswick welcomed a greater host of tourist travellers than it had experienced since the days before the war. By the 1st of October it was estimated that more than thirty thousand tourists passed through the city of St. John alone by boat, train and motor and up to that time more than five thousand automobiles from foreign points had registered at this first New Brunswick city. The year 1922 marked the resumption of holiday traffic on a scale more akin to the annual pilgrimage before the breakout of the war, and 1923 is expected to exceed this substantially and set up a new record for the Maritime Province.—Financial Post

The advertisements in a newspaper are more full of knowledge in respect to what is going on in a state or community than the editorial columns are.—Henry Ward Beecher.

MURINE for your EYES

HOME INFLUENCES

A certain minister in the U. S. A. probably to create a little diversion on the usual run of things, arose and denounced the home as a greater source of inspiration for ill-doing than the movies, theatres, dancing and many other institutions of entertainment that so often come under the denouncement of reformers. And who can say, he is wholly wrong. Each of us, or rather most of us, can recall homes we know of that are no fit place in which to rear children. It is natural and one of the laws of nature and evolution that the young of any species will learn the rudiments of life from their parents and imitate them in all they do. It is indeed a precocious youngster who will call his parents to account for breaking either the laws of society, the land, or of God. Children of immature age look upon their parents as most worthy examples to follow. They hold that what is good for their elders is good for them, and that what is allowed their parents is permissible for them. People who will acknowledge that the only sin in thievery is being caught, who look upon bootlegging, smuggling and such crimes as a game of wits and deserving of special credit when successfully carried out: who believe it is cheaper to move than to pay rent, and easier to go dirty than to keep clean—these kind of people are teaching, by example, their mischievous creed to all the younger generation who come in proximity to their presence. While a portion of the children raised in good homes, and having for example parents who live exemplary lives occasionally drift into bad company, those who see naught but the sordid, base things of life and know no other, are almost sure to grow into unstable citizens with the false idea that the world owes them a living, that honesty, integrity and decency are only the inspiration of spineless weaklings, and whose motto is: "What the world doesn't know won't hurt it." Children whose parents divorce and re-marry as the mood takes them will grow up to look upon marriage as a bond easily broken, and as legalized relationship instead of a divine union. Children whose parents break what laws they can without running foul of the law will become calloused to the evils of life and be void of those qualities necessary to make good citizens and progenitors of the human race. Etiquette and politeness, forbearance, kindness and love, honesty and integrity are built on the foundation of a good home. A bad home life will surely leave its indelible mark on the new generations. The home is the greatest institution of the present age and most powerful in its sway for good or evil.

CHAUNCEY DEPEW FINDS LIFE IS WORTH LIVING

Chauncey M. Depew, in an American Telephone radio address in New York recently, gave these secrets of longevity and happiness: "As a guide I have made the following rules which have carried me in mental and physical health to within three months of 89 years of age: "We pass this way but once. We cannot retrace our steps to any preceding milestone. Every time the clock strikes it is both the announcement of the hour which we are entering and the knell of the one which is gone. Each night memory balances the books and we know before we sleep whether the result is on the right or wrong side of our account. "The older we grow the more we realize that life is worth living. We think too little of the fun there is in it. We are too parsimonious of laughter. We do not appreciate as we ought the man or the woman who can make us forget while we are amused. We cannot help the past and that man is a fool who lives in it. To-day is a better day than yesterday. "The secrets of happiness and longevity, in my judgement, are to cherish and cultivate cheerful, hopeful and buoyant spirits. If you haven't them, create them. Enjoy things as they are. The raggedest person I ever saw was a Turkish peasant standing in the field, clothed in bits of old carpet. He was laughing hilariously at our well clothed party. The combination of color and humor made him a thing of beauty, if not a joy forever. "Let us never lose our faith in human nature, no matter how often we are deceived. Do not let deceptions destroy confidence in the real, honest goodness, generosity, humanity and friendship that exists in the world. They are overwhelmingly in the majority."

SELECTING BREEDERS FOR EGG PRODUCTION

As the time approaches when the breeding pens will have to be mated it becomes necessary to give careful attention to this, the most important work of the season.

The male selected should be one who is the son not only of a high laying hen, but of a hen having the power to transmit the quality to her daughters. When after careful study of records, it has been decided to use a male from a certain pen, the next point is selection of a promising specimen. Try to maintain size in the flock by choosing a bird of near standard weight as possible. More important still however is it to select a bird with constitutional vigour—one with a broad back and with the width carried well back to the tail, and having also a good depth of body. The head—and this is most important, because the vigour of the bird is expressed in his head and eye—should be clean-cut, free from coarseness, and with the face clear of wrinkles. The eye should be prominent and piercing.

To such a male mate the requisite number of females. This will depend on the breed and the conditions under which the birds are being kept. For American breeds such as the Plymouth Rock or Wyandotte from ten to twelve will make a satisfactory pen. For Mediterranean breeds, such as the Leghorn, about fifteen females may be used; but in all cases where the breeders have free range a larger number of females may be used.

Yearling hens make ideal breeders, but older hens or well developed pullets will also give excellent results. In selecting these birds also keep constitutional vigour in mind. Select those birds having capacity, as evinced in long, broad and deep bodies. Frequently a bird may be deficient in one of these dimensions, i. e., it may be a little short in the back; but if it is broad and carries the

width well back to the tail, and shows a good depth, it may make up in extra breadth and depth, what it lacks in length.

Here, again, as in the male, the head is most important. The clean-cut face and prominent piercing eye are the marks of vigour and productivity.

GEO. ROBERTSON, Central Experimental Farm, Ottawa.

NOT WHAT TEACHER MEANT

A teacher asked her class the meaning of the word "furlough." Jack was called up, and said, "It means a mule; it says so in a book." The teacher a ked for the book and at last Jack came with the book which had a picture of a soldier sitting on a mule. At the bottom of the picture was written, "Going home on his furlough."

In our own home towns and villages, hosts of satisfied friends buy RED ROSE TEA today, as they did 28 years ago—because it is still the same good Tea.

Buy a can of RED ROSE COFFEE—its flavour will surely please you.

UNITED FRUIT COMPANIES DUST PRICES 1923

It has always been the policy of the United Fruit Companies to supply the highest quality of dust at the lowest price possible. When we first went into the dust business, dust was selling at \$11.50 per 100 lbs in the Annapolis Valley. We steadily lowered this price until last year we sold Bordeaux dust at \$6.00, and 90-10 sulphur arsenate dust at \$7.00, delivered to the farmer. Consistent with this policy we are again pleased to announce a further price reduction, a reduction which is only made possible because of the large scale upon which we are now operating.

Prices (retail to the farmer from every local company). Bordeaux Dust, per 100 lbs. \$4.75 90-10 sulphur-lead arsenate dust, per 100 lbs. 6.00 Straight superfine dusting sulphur, per 100 lbs. 3.70

Prices on other mixed dusts may be had on application, and are proportionately low.

The Bordeaux dust is of the same strength as last year, being composed of 12 lbs dehydrated copper sulphate, 8 lbs. arsenate of lime, and 80 lbs hydrated lime, or in other words a little over 4% metallic copper and a little over 2% metallic arsenic. This dust is little more than half the retail price of the same dust of the same strength sold by any other concern in America according to all the price lists now available.

The sulphur-lead arsenate dust is about two-thirds the price at which the same material may be bought in any other district.

The above dust mixtures are all standard dusts thoroughly tried and tested and well known in all American fruit growing areas, and it is consequently with much pride that we announce ourselves as pioneers in setting new low price standards on high quality materials.

We were early approached with regard to handling the new dusts known as "green dust" and "brown dust", which are dusts containing copper and arsenic in different forms from the regular Bordeaux, and in consequence we obtained from the Dominion Entomological Laboratory at Annapolis all the information and experimental figures relating to these new dusts. From an examination of this data we found:

- 1. That the "green dust" gave a very poor control of apple scab.
2. That the "brown dust" gave a control of apple scab on an average a little poorer than our regular Bordeaux dust.
3. That both these dusts were heavy materials and that it took nearly half as much again of these dusts, as compared with our regular Bordeaux dust, to cover the same area of orchard.

From the above we could only come to the conclusion that these dusts were not only of lower quality than we desired, but also that they would be very expensive for an orchardist to use, and consequently that the handling of these dusts would not be consistent with the United Fruit Companies policy of low cost and high quality.

We were further warned by the Provincial Entomologist in his speech before the Fruit Growers Association against the danger of changing from proven materials, to materials about which little was known. On the same occasion the officer in charge of the Dominion, Entomological Laboratory stated that these new dusts were in some respects defective, were only in an experimental stage, and had not stood the test of time. These statements served to confirm us in our opinion, and in view of the low prices at which it was possible for us to supply standard dusts, the handling of these new dusts appeared to us the height of business folly.

We are informed from our Entomological advisers that it is possible that future experiments may find methods for improving and overcoming the defects of these new green and brown dusts. We are keeping ourselves informed on any developments of this nature, and are ourselves participating in factory experiments with this end in view. In the event of such new methods being found we will be in a position to manufacture and supply green or brown dust at a retail price of about \$4.00 per 100 lbs.

The above is written to explain the policy of the United Fruit Companies, which is to only supply the best quality dusts at the lowest price possible, to handle no materials which have not proven their value in the hands of impartial experimenters, but at the same time to keep in touch with all new developments so that when sufficient is known about them they may be utilized for the benefit of all the farmers and not for the benefit of any private exploiters.

HANTSPORT NEWS

The illustrated lecture, "From Halifax to Vancouver", given by the Rev. Mr. Mellick in the Odd Fellows Hall on Friday evening, was both interesting and instructive.

Mr. Asaph Newcombe received on Friday, a letter from his son Benjamin, well known in Hantsport, having formerly resided here, who is on a "round the world trip", leaving Michigan with a party of 800 on the "Empress of France" about the first of February.

On Tuesday of next week a special matinee of the magnificent picture "Over the Hill" will be given free for all bona fide members of the Wolfville Sunday Schools.

The Women's Institute met on Friday last at the home of Mrs. F. C. Dennison.

On Thursday evening the students of the Advanced Department of our School enjoyed a sleigh drive to Kentville.

Miss Mary Bennett, of Avondale, is the guest of Mrs. G. W. Whitman.

The senior hockey team of Avonport was defeated by the Hantsport Seniors, on the local rink on Thursday evening.

The many friends of Mr. James Barker are pleased to see him around again after a serious illness of several weeks.

Mrs. (Rev.) Mrs. Outerbridge entertained the Ladies Aid of the Methodist Church at her home on Thursday afternoon.

The Rev. Mr. Johnson, of Hampton, N. B., will have charge of both services in the Baptist Church on Sunday, March 11th.

Mrs. J. L. Loomer (nee Nita Dodge) and two children, of Detroit, Mich., arrived in town last week to be present at the obsequies of her father, the late Capt. Dodge.

Mrs. (Capt.) A. McDonald who spent the winter months in Boston at the home of her son, Ray McDonald, returned home on Saturday.

Miss E. Smith arrived home on Friday after a pleasant visit with her friend Mrs. S. Cahill, Amherst.

On Thursday, March 1st, while riding on a load of logs, Walter Pulsifer, six year old son of Mr. and Mrs. Walter Pulsifer, met with a serious accident, falling in some unaccountable manner under the runners of the sled, the heavy load passing over the little body.

Personal and Social

Mayor Phinney was in Halifax on Monday.

Mr. William Sawler spent the weekend at Dartmouth.

Mrs. W. H. Chase has been spending a few days in Halifax.

Miss Saxton returned on Monday from a visit to the wholesale millinery openings.

Mr. Murray Thompson left on Tuesday for Boston with the hopes of securing a position there.

Rev. G. W. Miller was at Halifax this week attending the meetings of the Halifax Presbytery.

President Patterson spent Sunday in Truro, where he was the chief speaker at the 33rd anniversary of the Immanuel Baptist Church.

Dr. Clarence Hemmeon, of the Faculty of McGill University, who has been visiting his mother, Mrs. J. B. Hemmeon, left on Monday for Montreal where he will resume his work which was interrupted by illness.

FREE ENTERTAINMENT

On Tuesday of next week a special matinee of the magnificent picture "Over the Hill" will be given free for all bona fide members of the Wolfville Sunday Schools.

Tickets will be given out after the School session next Sunday. At the Matinee, children are requested to sit with their teachers as much as possible in their class groups.

"Sisters"

The first transmission of photographs by radio in the world was made last Saturday. Photographs were sent from the naval radio station in Washington and received by the radio receiving station of the Philadelphia Evening Bulletin.

The interesting tug-of-war which occurred between the town solicitor and the town clerk at the close of the Council meeting on Wednesday evening, for the possession of the only existing copy of the town by-laws, indicates that funds permitting—it would be advisable to have a new edition of this valuable work before the copy is lost.

Two

Although an unusually cold month February unlike the preceding month was practically free from storms. March, which "came in like a lamb", soon revealed a very different character. During the past week we have had severe storms and railway traffic has been seriously interfered with. There was no train from Yarmouth on Wednesday and no train from Halifax yesterday until night. Wednesday afternoon's train from Yarmouth got through about noon yesterday, and yesterday's train was canceled.

Big

Announcement has been recently made of the awarding of four Acadia Scholarships. The first one of \$200, competitors for which must have made an average of at least eighty in six subjects in Grade XI was given to Arthur Dunlap, Sydney Mines, C. B. The second scholarship of \$150 was awarded to Gerald Eaton, Wolfville. Two scholarships of \$150 each were given to H. W. Mullins, Shediac, N. B., and Catherine Black, of Amherst, who were selected by the student body as having attained a high standard of scholarship as well as showing evidences of a capacity for leadership.

Pictures

On Thursday of last week the ladies of the Social and Benevolent Society of the Baptist Church entertained the Sunday School teachers and officers with invited guests at a repast which was served in the dining hall of the Church at six-thirty o'clock. About fifty-five guests sat down to beautifully decorated tables bountifully spread. Owing to illness, the superintendent, L. E. Shaw, was unable to be present, much to the regret of all. His place as toastmaster was taken by Dr. W. L. Archibald. Speeches of appreciation for the work of the teachers and kindred subjects of interest were given by Dr. Patterson, Dr. Wheelock, Mayor Phinney, Dr. Eaton, Rev. H. Y. Corey, Dr. DeWolfe and Mr. C. A. Patriquin.

Coming Events

Notices under this heading are inserted at 10 cents a line. Each repeat, 5 cent a line; minimum charge, 30 cents. Contract rates on application.

St. Patrick's Tea, March 19th. Watch for further announcement.

Don't forget the Sale, Tea and Supper at the Vestry of the Methodist Church on Thursday, March 15th, from 4 to 7.

The ladies of the Presbyterian Church are giving a Pantry Sale this (Friday) afternoon at the Town Hall, from 3 to 6.

The "At Home" at St. George's, Lodge A. F. & A. M., this evening, will be from 8:30 to 11:30 instead of from 8 to 11 as announced. The change has been made on account of the coming of Dr. Gray who will speak at the Baptist Church tonight.

Mrs. Loviah Beardsley Foster, of Montreal, announces the engagement of her youngest daughter, Ruth Ann Beardsley, to Mr. Waldo B. Davidson, son of Mr. and Mrs. B. O. Davidson of Wolfville. Marriage to take place in April at Montreal.

Rev. D. B. Hemmeon will lecture on the subject "Our New World", on Thursday evening, March 15th, at 8 o'clock, in the Baptist Church, under the auspices of the Social and Benevolent Society. This lecture promises to be one of the most interesting and instructive of the course and no one can afford to miss it. Admission 35 cents.

Dr. A. Herbert Gray, of Scotland, representing the World's Student Christian Movement, will deliver a series of addresses at Wolfville beginning this (Friday) evening at the Baptist Church at 7:30 o'clock. He will speak at the Baptist Church on Saturday evening at 7:30, and on Sunday he will speak at both morning and evening services. Dr. Gray is a distinguished speaker and all who can do so should hear him. On Friday and Saturday mornings at 11:30 he will address the Acadia students at the Memorial Gymnasium.

BELIEVE IT OR NOT

It is quite evident that there is no necessity for any of our young men to go through this world for long in a state of single blessedness. We understand that one of our citizens, when picking apples last season, placed his name and address upon a pulp head, with a statement that he would accept applications for a wife. The apple dealer overseas who handled the fruit thought to assist in the good work and had the plea for a feminine supporter advertised in the English papers. With the result that our citizen to date has had the opportunity of taking unto himself some seven hundred wives, providing of course that the law allowed of such extravagance. He received some 350 applications in one mail alone during the past week. The unfortunate phase of this would-be romance is that this brave man is already married and merely applied for a wife as a joke. Nevertheless it is quite possible that he will sell chances on any of the applications providing that the market is forthcoming.

HEAVY MAJORITY FOR CHURCH UNION

TORONTO, March 5.—The Presbyterian offices here today received a message from Victoria, B. C., that the Victoria Presbytery voted 12-1 yesterday in favor of Church Union. Westminister voted 32-14 and Kamloops was unanimously in favor.

FOR THE UNDER DOG

The richest trait of any soul, in dividends at trifling cost, is when the man that wins control is tender toward the man that lost...

MAKE MONEY AT HOME. We send you to business. Furnish everything. You make \$1 to \$5 dollars an hour at some of our spare time. No carrying or collecting. We guarantee to teach you how to sell letters by our New Single Method and pay cash each week no matter when you like.

we may surpass, but should not break the heart that faint would stay alive... We've passed the age of tooth and claw, when Cave-man tactics slew the meek...

The Egot's transient badge of power may only last him for a day, and Justice holds the coming hour, when he, like chaff, shall blow away. The man who conquers in the game may honors reap, and love enjoy...

DON'T BUY AT BAGDAD

Education is a matter of experience not of observation. Thirty years ago a professor of economics in one of our leading universities made the statement that 90% of all the money invested in advertising was lost, and attempted to prove his observation by the statistics of commercial failures.

The streets of Bagdad are lined with beggars, men who tried to live by trick and failed. Back of these beggars who crowd the curb are long lines of little stalls where tricksters ply all the arts of trade.

Here in this country, our manufacturers, men of character, put integrity into their product. They advertise the product for just what it is—that, no less and no more.

Every merchant who does not advertise or who cannot advertise honestly will always conduct a business of Bagdad-booth proportions. He will always be a little shop keeper, doing a dinky little business.

can grow great without advertising and it will grow great only in proportion to the amount and character of the advertising which it does.

The intelligent purchaser buys through his merchant the commodities that are NATIONALLY ADVERTISED because he knows that experience has taught the business builders that a false statement about their goods means death to their business.

Your Bagdad merchant will size you up and charge you what he thinks he can get. You can dicker and barter with him. He's a many priced man.

good" article. Go to the reputable merchant, ask for the nationally advertised commodity, the manufacturer has stamped the price where you can see it, and there you get PROTECTION.

If you are an intelligent buyer you will buy of the local merchant that advertises because he is the fellow who is willing to stand or fall by the public printed statement he makes.

Be WISE and buy the nationally advertised commodity from the local advertising merchant and leave it to the foolish to buy at Bagdad.

YOU JUST KNOW IT. Said a flapper to a fellow named Lee, As she sat herself down on his knee. "If you kiss me, of course, You will have to use force— But I'll bet you are stronger than me."

WOLFVILLE, CANADA

HOUSEHOLD HINTS

To prevent the smell of onions while cooking put a little vinegar in an earthenware dish on stove.

In making fruit cake pour half of the batter in the pan before adding the fruit, then the fruit will not settle at the bottom of the cake.

In cooking vegetables, cover those that grow under the ground, as onions, etc., leave uncovered all vegetables that grow above the ground.

When making egg custard pies always heat milk to the boiling point before mixing with the eggs. If this rule is followed the under crust will be crisp.

When cream will not whip, add the white of an egg to it, and let both cream and egg be thoroughly chilled. Then it will whip easily.

To remove chocolate stains, apply paste of borax and cold water. Let remain for short time. Then rinse off and apply boiling water.

To warm over biscuits, muffins or rolls, sprinkle lightly with water, place pan containing them in a pan of hot water and put in the oven a few minutes.

Cutting bread lengthwise instead of across saves about two thirds of the waste, especially when sandwiches are to be cut in fancy shapes.

After cooking cabbage or any vegetable that has a disagreeable odor, sprinkle a little cinnamon on top of stove and odor will disappear. Salt is very good, too.

To dry lettuce, pat it with crumpled paper toweling. This absorbs the water quickly and does not bruise the leaves. Lettuce for salad should be well dried and cold.

To keep lettuce fresh—After washing it thoroughly, place in a cheese-cloth bag and hang in the refrigerator. Use all the outside leaves by shredding them with scissors (kept for kitchen use) and making into pretty nests for salad.

To clean embossed brass, make mixture of an ounce of oxalic acid and one pint of water. Apply with soft brush and polish with chamois.

White enameled kitchen utensils often become to all appearances hopelessly ruined when food has burned them. Place mixture of soap powder and boiling water in them, let stand two or three days without changing water and then pour off. Rub inside with soft cloth. All blackness and stain will disappear. Be careful not to scrape before soaking in this way, as the enamel will crack.

One hundred and sixty thousand carloads of last season's record-breaking potato crop still are in possession of growers, a surplus without precedent in the last nine years, the United States bureau of agricultural economics said recently. The condition was said to be due to difficulty in moving the unusually large crop.

MARITIME PROVINCES AND CANADA

The Toronto Globe recently referred to the policy of Premier Armstrong of Nova Scotia, as outlined before the Commercial Club of Halifax, and quoted this paragraph from his speech:—

"What is good for Canada as a whole will influence us for good. The East and West must co-operate to this end. In unity there is strength. But Canada is to be great, and that should be the patriotic desire of all, the Maritime Provinces, with their numerous resources, possibilities and opportunities, must also be made great, for a chain is no stronger than its weakest link."

Commenting on this, with special reference to lack of growth of population in these provinces, the Globe said:—

"There is no ground for discouragement in the fact that the rate of increase since Confederation has not been very rapid, especially when it is considered that there has been comparatively little immigration. But as compared with European standards the population is still sparse, and there is plenty of room for more people. As an inducement to immigration Nova Scotia can offer a variety of employment, having resources in its fertile soil, its mines and its fisheries, so that to a large extent it may be described as self-contained. It deserves an increased immigration, and we hope that the effort will be successful."

The Halifax Recorder quotes the Globe and makes this apt reply:—

"The Globe's words sound very nice, but what Nova Scotia wants is a market for its products, and when it obtains that, we have no doubt it will go ahead by leaps and bounds."

The Recorder might have gone further and declared that what the Maritime Provinces also want is the development of their ports and a fair share of the overseas trade of Canada, as promised at the time of Confederation. Nice words are not enough. These provinces have definite grievances.—St. John Times.

"WHAT'S A CANADIAN?"

Much has been said and written about the wide-spread fame Canada has gained in the Old Country, in recent years, as a result of the war and other activities, but there is one chap in "dear ole Lunnon" who evidently has not heard much about it.

When Hugh Reid the Toronto cricketer, was in England, in the past summer, as a member of Norman Seagram's Canadian eleven, he tried to enter the famous London Zoo on Sunday afternoon, but was told by the custodian of the gate that no one was allowed in at that time with out some sort of a special pass.

"But I leave London to-night", remonstrated Mr. Reid, adding that he did not wish to depart without seeing the far-famed Zoo. "You see, I'm a Canadian", he explained.

"What's a Canadian," innocently enquired the gateman.

Mr. Reid concluded that the Zoo was a very appropriate setting for that official.

The days have very perceptibly lengthened during the past four weeks.

Every day, in every way, the pile of coal in our bin gets smaller and smaller.

BIBLE THOUGHT FOR TODAY

MARCH 9
GOD'S PEOPLE.—My people shall dwell in a peaceable habitation, and in sure dwellings, and in quiet resting places.—Isaiah 32:18.

MARCH 10
WITHHOLD NOT GOOD.—Withhold not good from them to whom it is due, when it is in the power of thine hand to do it.—Proverbs 3:27.

MARCH 11
THE UNTAMED TONGUE.—He that keepeth his mouth keepeth his life; but he that openeth wide his lips shall have destruction.—Proverbs 13:3.

MARCH 12
SELF-PRaise.—Let another man praise thee, and not thine own mouth; a stranger, and not thine own lips.—Proverbs 27:2.

MARCH 13
THE BURDEN BEARER.—Cast thy burden upon the Lord, and he shall sustain thee: he shall never suffer the righteous to be moved.—Psalms 55:22.

MARCH 14
RESTORE THE ERRING.—Brethren, if a man be overtaken in a fault, ye which are spiritual, restore such a one in the spirit of meekness; considering thyself, lest thou also be tempted.—Galatians 6:1.

MARCH 15
PROCLAMATION OF PEACE.—Glory be to God in the highest, and on earth peace, good will toward men.—Luke 2:14.

RAIN AND SNOW AS FERTILIZER

Snow and rainwater are commonly regarded as among the things essentially pure, but along comes Frank T. Shutt, Dominion chemist, with a report of the things he has been able to squeeze out of them and measure and weigh and reduce to percentages.

Nitrogen is beyond dispute the dominant element of plant food, which determines in a large measure crop growth. Rain and snow have a fertilizing value by reason of the soluble nitrogen compounds they contain. At Ottawa where the average precipitation is 33.49 inches, the average amount of nitrogen per acre received from this source is 6.78 pounds. Rain brings down more than snow, and the figures even show how much free ammonia and other kinds of ammonia, and nitrates and nitrites, etc., snow and water contain.

FRIGHT AND WHITE HAIR

The popular belief that the hair of persons laboring under great mental grief or terror changes color seems to be unfounded. Under certain conditions of bodily health the coloring matter of the hair ceases to be supplied, and the hair may consequently become gray or white in a very short time. In these cases, however, it is only the growing hair that has no color, the hair as it

gradually rises from the root is gray, while that which is outside the cuticle remains its original color. No well authenticated case of sudden change in the color of the hair is mentioned in the "Transactions of the Royal Society", extending over 200 years, whereas if any such circumstance had occurred it is almost certain it would have been recorded. The case of Marie Antoinette, which is most frequently cited, does not rest upon evidence sufficiently strong to warrant belief.—Philadelphia Press.

THE PEST

My sweetie has a kid brother, The darnest darn pest you can find. And if it wasn't for his mother, An early grave he would find.

One night the lights went out in the parlor, A quarter I slipped to the kid. And downstairs he went To the gas meter bent, And slipped in the quarter, he did.

COAL!

HARD COAL SOFT COAL COKE KINDLING

A. M. WHEATON

Does It Pay To Grow From Certified Seed

It has been fully proved from carefully tabulated records that growers can increase their yield of potatoes from 50% to 100%, by planting carefully selected stock grown from certified seed that has been inspected and certified **WHILST IN GROWTH**, instead of planting seed grown haphazard, with no record taken of any disease the seed may have had when growing. We would advise all potato growers, to stop planting seed they have no record of, and plant government certified seed only.

From all reports at hand, owing to low prices experienced the past years, a large quantity of growers in all districts both in Canada and United States are discouraged, and the tendency is they will plant a smaller acreage than usual. This probably means that potato prices next Fall will be on a much more remunerative basis.

We have a quantity of Government certified Green Mountain seed on hand, every bushel of which should be used by Annapolis Valley growers, price on application.

Souvenir folders, containing sixteen pictures of Wolfville and vicinity, on sale at THE ACADIAN Store. Price only 25 cents.

The Port Williams Acadian

PORT WILLIAMS HAPPENINGS

Seven consecutive days of sunshine after the storms of January and February made folks congratulate themselves that at last spring was really near. But such dreams were dissipated by the blustering March storm of Wednesday. One certainly would have to possess the spirit of a poet to appreciate this winter, the words of Ruskin, "Sunshine is delicious, rain is refreshing, wind braces us, snow is exhilarating. There is no such thing as bad weather, only different kinds of good weather."

Mr. and Mrs. Oscar Chase, of Church Street, have both been on the sick list. Miss Margaret Chase, of Halifax spent the week end with her parents in Church Street.

Miss Mildred Faulkner, who has been attending the Business College at Halifax, is visiting her father here. Miss Althea Faulkner is spending the week with friends in Kentville.

Mr. Roy Beanson arrived home on Monday after spending two years in the west.

Mr. Chas. Chase, of Chester, is visiting his sister, Mrs. Lila Chase.

An interesting debate formed part of the program at Division on Monday evening, subject, Resolved that "Life in the city is more beneficial than life in the country." Leaders: affirmative, H. R. Holding; negative, R. F. Newcombe, the negative side winning by small majority.

The Social of last Friday evening in the Baptist Vestry was a splendid success and reflected much credit on the members of "Loyal Workers" class who put on so excellent a program. All the numbers were good but the pageant representing the months of the year evoked much applause from the audience. In costumes and acting it was exceedingly well done. Light refreshments were served. The silver collection at door netted \$20.00 which goes towards the pledge of \$50.00 the class gave to the piano fund. Another gift of \$5.00 has been made to this fund by Rev. R. H. Bishop, of Greenwich.

The storm of Wednesday prevented the W. M. A. S. meeting, postponement being made till Saturday afternoon.

Tuesday evening the "Kings Daughters" held their class meeting at Mrs. C. A. Campbell's. New officers were appointed and a social hour enjoyed. An evening with program "our Canadian poets", is being prepared to be given shortly.

Mr. Lew Lockwood attended the funeral of his aunt, Mrs. Anderson Lockwood, a former resident of Port Williams, at Middleton on Friday last. Mervil Steele, who has been very ill with pneumonia at Cherry Brook Farm, is now rapidly improving.

Mrs. Levert Meister spent the week end with relatives in Kentville.

The Women's Institute will give their concert in Temperance Hall on Friday evening. A program of instrumental music, readings by Miss Carning, of Acadia, a Health Playlet by the school children and the "Seasons" pageant repeated by request, insures an enjoyable evening.

DEATH OF SCOTTS BAY CITIZEN

In the passing of David Jess on March first Scotts Bay loses not only a most valued citizen, but the last of the male members of the third generation of Jess. The original settler there was George, whose wife was a Payzant, and from his son George, whose wife was Charlotte Huntley, sprang the family of nine, all of whom (excepting Daniel) had families, members of which are found through this county. The family was as follows:

William H., Daniel, George L., Joseph, David, Leander, Elizabeth (Mrs. Edward Lovelace), Sarah (Mrs. D. L. Corkum), Annie (Mrs. Duncan McCuish), the last named being the sole survivor of the family.

David Jess has figured in the industrial and commercial life of Scotts Bay as a mill proprietor and a merchant and with his wife, who was Miss Mary Brown, of Hants County, and who predeceased him some two years, contributed much to the wholesome religious sentiment of the community. He died in the harness at the ripe age of eighty-three. The family of Mr. Jess consists of Benj. C. Jess, of Aurora, Ill. U. S. A.; Mammie (Mrs. Morton Ellis) and Leila, wife of Oxley H. Steele, Scotts Bay.

On account of sickness in the village preventing any gathering a memorial service will be held later.

LESSONS FROM THE SEA

The ocean is in a constant state of evaporation. It gives back what it receives, and sends up its waters in mists to gather into clouds; and so there is rain on the fields, storm on the mountains, and greenness and beauty everywhere. But there are many who do not believe in evaporation. They get all they can, and keep all they get, and so are not fertilisers, but only stagnant, miasmatic, pools.

GREENWICH NOTES

Work in Mr. Dexter Forsythe's Apple Evaporator was resumed again two weeks ago, after being closed a few weeks. A number of men and boys have been busily employed there.

Miss Christine Harvey, who is taking a Business Course in Wolfville as a day pupil, fell on a slippery sidewalk in Wolfville while on her way to take the train to return home one day almost two weeks ago and badly sprained her ankle. We are glad to learn she is now much improved.

Mrs. George Bishop recently entertained at "afternoon tea" a number of the ladies of the place.

Mr. A. Lockwood received the sad news one day last week of the death of his mother at her home in Middleton. Sympathy is expressed for Mr. Lockwood, who has only been a resident of our community a few months.

Mrs. A. K. Forsythe entertained a few ladies last Wednesday afternoon and evening.

Miss Lillian Bishop entertained a good number of young ladies at tea last Thursday afternoon.

Mrs. John Fenwick and Miss Betty Fenwick, of Habitant, came over Friday afternoon to Betty's home here. They attended Community League that evening and we understand returned to Habitant next day.

Miss Mattie Regan, of Port Williams, visited Miss Evangeline Cox on Friday and Saturday.

The Community League last Friday evening was thoroughly enjoyed by a hall full of people. After the usual business, reading of current events, etc., the Dramatic Committee, Miss Bessie Fraser, Convenor, took charge, or provided the programme and it was a great one from beginning to end. The song, "Just one note", by one of the young ladies in costume and motion, was "a scream" as termed by some of our girls. The question and answer song also in motion, by a young man and young lady, also the tableau of the song, "The Gypsy's Warning" and "The Answer", were both beyond comparison, or "could not be beat", parts of the song in tableau being effective and touching. Then came "the show" of the evening, "Mrs. Jarley's Wax Works or Figures." It was given in three scenes, or so called chambers. Altogether Mrs. Jarley and her assistant John exhibited eighteen different figures, each one being well described by Mrs. Jarley and at the proper time being wound up and set in motion by John. Each figure was in perfect costume for its representation and too much credit cannot be given to those who did so much toward getting ready for this entertaining evening. The writer cannot do justice to it. Figures representing Christopher Columbus, Nero, Queen Cleopatra, The Politician, The Editor, Babes in the Wood, Two-headed Girl, John Alden and Priscilla, Little Bo-Peep, etc., etc., all these and each

one of the others were well done. "The Flapper", the only modern or "up-to-date" figure was originally planned and proved a big success. No special mention could be made. The young people in this community have energy and talent that deserve high praise. The Victrola selections "in between" were enjoyed. Whole evening, free of charge. Many have made the remark, it was worth fifty cents. The President lectures this week on his instructive and interesting series. A crowded hall please.

Miss Elsie Piper spent the week-end in Kentville. Mr. Frederick Baker spent the week-end with Mrs. Baker at the home of Mr. and Mrs. G. L. Bishop.

The large sleighing party and drive, planned by Community League to take place Monday evening, was postponed owing to weather conditions.

"OVER THE HILL" TO BE PRESENTED HERE

The William Fox special photo-production, "Over the Hill", which is heralded as one of the most fascinating film dramas ever released, will be shown at the Opera House, Monday and Tuesday. The success of "Over the Hill" during a year's run in New York prior to its release to the country at large, reveals a significant psychological angle of the showmanship of its producer, William Fox. For Mr. Fox, with the unerring instinct of a good showman, in the case of this picture reached back into the dim and misty past and brought forth a story that is exceedingly timely in its message, and appeals to every known type and grade of theatregoer.

There is so much laughter, wholesome sentiment and genuine amusement value in "Over the Hill" that it stands out as embodying all that is finest and most attractive in theatrical entertainment. The film story was made from Will Carleton's "Farm Ballads" by Paul H. Sloane, and was directed with superb skill by Harry Miard. The part of Ma Benton, the principal character, is played by Mary Carr, who has made of it a masterpiece of dramatic art.

PRESERVING JERUSALEM

The preservation of Jerusalem as a city of a great soul is the purpose of General Ronald Storrs, Governor of the Province of Judea, who spoke recently in New York. He told how, as a Military Governor under General Allenby, and later in his civil capacity under the British Government, he had fought to keep the billboards and chimneys and tramways of modernity from marring the historic and religious beauty of Jerusalem.

"There is an atmosphere in that city that it takes years to appreciate," said General Storrs, "and our struggle is for the intangible and the imperishable. That is what should be revered. Jerusalem is a city of a great soul; it has

been so in the past, and it is our hope that Jerusalem, battered down forty times in its history, surrounded by the grand and austere hills, will be able to create its own future from the wrecks it contemplates."

(Ed. Note—General Townshend is a nephew of Mr. Robert Storrs, of this town.)

GAS STORAGE FOR APPLES

In storing apples there is a very interesting alternative to cold storage, known as "gas storage". The apples are placed in an air-tight chamber filled with gas produced by the respiration of the apples themselves. An electric instrument is used to determine whether at any time the proportion of carbon dioxide in this gas becomes excessive, and when that condition occurs air is admitted to dilute the gas. The air is kept in slow circulation by its own temperature variations and means are taken to remove excess moisture.

It is stated that this system doubles the time during which apples can be kept in good condition and that the cost of working is very much below that of any kind of cold storage. The merits of the system have been closely studied by the British Investigating Board.

BUSINESS AND ROMANCE BLEND ON KARAKUL SHEEP RANCH

A business enterprise being successfully carried on at a ranch fifteen miles from Calgary by Dr. O. H. Patrick has a history full of romance and adventure. In spite of Russian export and Canadian import prohibitions, Dr. Patrick succeeded in bringing to Canada in 1913 a flock of 26 Karakul sheep from Bokhara, Russia, the sheep which produce the famous "Persian Lamb." The animals cost \$65,000. In ten years this flock has increased to 800 and the Doctor is marketing the finest quality Persian lamb skins, and lamb and mutton of the highest quality. The Karakul sheep were cross-bred with other varieties and the quality of the fur thereby improved. In the picture above is shown, in the lower left hand corner, Dr. Partrick with one of his famous rams. Next to it a lamb, under two weeks old, at which age they are killed for their fur. Above, a Welsh shepherd is demonstrating the use of the shepherd's crook. In the centre a "Persian Lamb" pelt, and to the right a group of the rare and valuable little animals.

DRY GOODS

New Spring Fabrics, All 1923 Patterns

GINGHAMS. Exceptionally large range in plaids, checks and plain colors at 19c, 25c, 30c, and 35c a yard.
