## Meeting of Board of Trade

W. S. Loggie M. P., Attends and Gives an Account of His Stewardship.

The Newcastle Board of Trade met in adjourned session Thursday night, President P. Hennessy in the chair, E. A. McCurdy secretary.

There were about forty men present, among them Rev. Father Murdoch and R. A. Murdoch of Renous.

S. W. Miller was the first speaker. He complained very bitterly that Mr. Loggie had neglected the interests of Newcastle, in the matter of dredging the river, etc.

Mr. Loggie replied that a heavy dredge had been at work on the Horseshoe and The Bar and another at Grand Downs since opening of season, and that dredging went on last summer also. The dredging of Grand Downs was costing 11 cents a yd, and on the Horseshoe 50 cents. The prizes of the minister were being carried out.

T. W. Crocker said that from what Mr. Miller said one would infer no dredging was being done, but he had himself seen three dredges working last year at once, and work was going on now.

Mr. Miller—Oh! A. & R. Loggie's dredges.

Mr. Loggie—Only one of A. & R. Loggie's—two belong to the Government.

Mr. Crocker—Three dredges are now in the river. There were no idle promises. A man should acquaint himself with the facts before he gets up and makes such wild statements. He understood there was 23 ft. at low water on the Horseshoe.

Mr. Miller was surprised at Mr. Crocker. Mr. Loggie was largely responsible for Dominion Public Works department at Chatham, which did not know until this year that there were two channels—between here and Chatham—the South Channel being 24 feet at low tide.

Mr. Loggie said that South Channel had been discovered as a result of survey ordered at his (Loggie's) request, when the Drummond Company were seeking information as to depth of water.

Capt. Pedersen was here introduced by Mr. Miller and said that on the day before the depth of water on the Bar was 21 ft. 3 inches.

Mr. Loggie said that the Captain's statement only emphasized the importance of the dredging going on, which work was as necessary to Newcastle as to any other place. The dredging had not been begun till three years ago because of lack of suitable dredges.

Mayor Pedolin blamed Government for being lax in letting work to poor dredges.

Mr. Loggie said the dredges were good dredges, but the work was exceptionally heavy.

W. A. Hickson said that for years no vessel was allowed to load more than 21½ feet, to be over The Bar, and then she could go over in only 3 tides a week.

Hon. D. Morrison—Mr. Loggie had been memorialized four or five years ago re depth of water there.

Mr. Loggie—Don't be surprised gentlemen, if all dredging stops when five-twelfths of the appropriation is exhausted.

Mr. Miller said the dredges being used were not fit for mouth of river, but only for the Northwest. Whereas 20 feet of water was enough 10 years ago 25 feet was now necessary for the bigger vessels coming. There would have been more credit to Mr. Loggie and the Government if they had spent the \$100,000 now being used in Chatham in dredging at the river mouth.

Mr. McCurdy announced that on June 5th he had been notified that there would be a daily mail service

between Douglastown and Ferry Road, thus giving Newcastle direct communication with all down river points on the left bank.

Mr. McCurdy read letters to show that this service had been inaugurated on Mr. Loggie's recommendation. Mr. Loggie had always paid the promptest attention to all requests of the Board of Trade.

On Mr. Loggie's recommendation iron letter boxes for Newcastle had also been arranged for.

Mayor Pedolin said the box at the Post Office had been too small. Post Master Troy said that with the new boxes scattered over town there would be no need of enlarging that at the Post Office. Collections of mail would be made twice daily—at about 10 and 23 o'clock.

Mr. McCurdy noted grant of \$2000 for Town Clock, got on Mr. Loggie's recommendation.

Mr. Loggie said that its installation might be delayed because of lack of funds, due to adjournment of parliament till July, but that it was sure.

Mr. McCurdy emphasized the urgency of the matter.

Mr. McCurdy also noted grant of \$2000 for wharf at Millerton, also got through Mr. Loggie. A petition had gone to Ottawa asking the Government to buy the wharf belonging to the Renous Lumber Co. instead of building a new one.

Mr. Loggie said that money was not immediately available. An independent survey had been ordered, and the matter would be dealt with on its merits.

J. D. Creaghan referred to the waterfront between public wharf and Hickson's mill owned by the Dominion Government. It was in disgraceful condition, while Chatham wharves were well looked after. He felt there was discrimination in favor of Chatham. He himself had had to extend his business to Chatham and Moncton in order to make a living. Mr. Turgeon could get big wharves at Petit Rocher, Caraquet and other small places, and why couldn't Mr. Loggie get some \$15000 for the government waterfront here?

All Newcastle had got in 10 years was the \$2000 granted for clock. The whole waterfront of Newcastle should be put into commission.

President Hennessy thought that the Millerton wharf would come in good time. The government had no wharf here, only a boom for sleepers.

Hon. Mr. Morrison said there was hardly a wharf on the North West. The local government claimed it had no right to build on tidal waters. If Mr. Loggie had procured wharves at Oak Point and other places down river, why not up the northwest? Three new wharves were needed, and others repaired.

Mr. Loggie was agreeably surprised when the government consented to build a wharf on the Southwest, for on St. John river the local government had to share expense. He advised Board of Trade to apply to the latter for wharves. If they were not successful then he would do all he could to get the Dominion Government to do the work alone. (Great applause.)

Mr. McCurdy said local government was building wharf at Redbank. They had not replied re Whitneyville wharf.

Mr. McCurdy brought up the Doaktown railway question. Newcastle wanted a shunter put on for Millerton, Derby Jet. and

## LAUNCH OF NEW STEAMER SAGUENAY ON THE GLYDE

Thirty years ago a little bit of a steamer built up at Chicoutima was considered good enough for the traffic that then offered on the famous scenic Saguenay route, as it has come to be known. To-day, the best that the noted shipyards of the Glyde can turn out is none too good for the class of travel that has been attracted by the beauties of the scenery and historic interest that attaches to a trip in that direction.

Travellers from all parts of the world now flock during the summer season to view the beauties of the scenery down the Lower St. Lawrence and up the Saguenay, and it has been found necessary by the Richelieu and Ontario Navigation Company to put on that route the finest steamers obtainable. The new steamer Saguenay which was recently launched on the Glyde, and will cross the Atlantic in June under her own

steam, attracted considerable attention at Glasgow.

It has been arranged that the new steamer will ply between Montreal and the Saguenay. Heretofore all the Saguenay boats ended their trips at Quebec, and passengers from up the river were required to transfer from the Montreal boat in order to continue the journey. This will be obviated by running the new boat through from Montreal, making two round trips a week.

### UNWRITTEN LAW RE-ORGANIZED

On the 9th a London (Ont.) jury acquitted W. S. Heslop, who attacked and stabbed Jas. B. Fowler whom he found alone with his wife. Fowler was seriously hurt. The judge severely reprimanded the jurors for neglect of duty.

Newcastle yards and the Blackville-Newcastle service made up to date and extended to Doaktown, which although only 49 or 50 miles from Newcastle has to do its business with Fredericton 64 miles away. In fact all the villages beyond Blackville have to do the same.

Mr. Loggie said that years ago he had tried to persuade Hon. A. G. Blair to make arrangements whereby people from Boiestown, Doaktown, etc., could come to Chatham or Newcastle, do business and return same night. Recently he had seen Mr. Tiffin and urgently presented the matter. He had asked for shunter on Blackville branch. Supt. Price thought the road could not bear extra expense. Mr. Loggie thought, however, that if Newcastle would co-operate with Chatham in asking for an extra express train from Boiestown to run alternately to Newcastle and Chatham they would probably succeed. Newcastle would retain also the daily service she now has from Blackville. On days express ran to Chatham passengers for Newcastle could change at Blackville to the branch for Newcastle.

Mr. Morrison was inclined to favor this arrangement.

Mr. McCurdy insisted that Newcastle merely wanted Blackville service extended to Doaktown.

Mr. Creaghan did not see why Chatham wanted any part of

### SHIP BUILDING FOR SYDNEY

300 Acres Purchased by Company Capitalized at \$10,000,000.

London, June 9—New York and Toronto capitalists have organized a company with capital of \$10,000,000 to build ships at Sydney, N. S. The biggest class of vessels will be built; President Sir Henry Pellett plans to have a fast line of ships between Sydney and first guard (England) 2,000 miles apart. The company expert government subsidies of \$170,000 a year for 25 years and a \$15,000,000 mail contract.

The shipyard will have eleven building slips, eight of which will be able to take in the biggest dreadnoughts. The dry dock will be 1040 feet long by 110 feet wide, the plant as planned will be one of the largest in the world. It is estimated that the plant will cost \$6,000,000.

### FOR TEETHING BABIES

There is only one medicine for teething babies—that is one that will make teething easy and at the same time can be given with absolute safety. That medicine is Baby's Own Tablets—every box of which is sold under the guarantee of a government analyst to be free from all those injurious opiates and narcotics which make "soothing" stuffs so harmful. Concerning the Tablets, Mrs. George LeBlanc, St. Pamphile, Que., says: "I used Baby's Own Tablets for my baby when he was teething, and constipated and found them an excellent remedy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont."

### WANT I. C. TO RUN NEW ROAD

Andover, June 7—Tonight's meeting at Selfridge's hall, called by Senator Baird, was an enthusiastic endorsement of the principle of I. C. R. operation of the St. John Valley Railway with connection with the Grand Trunk Pacific at Grand Falls.

Senator Baird, who has always been a Conservative, was himself one of the speakers at the meeting and moved a resolution approving of the acceptance of the offer of the dominion government for operation of the new line as a part of the government road. This was carried. A delegation was appointed to urge upon the governor-in-council the desirability of accepting the offer of the dominion government to operate a road built from Andover to St. John and intercepting the G. T. P. at Grand Falls. Those chosen were Senator Baird, T. J. Carter, J. L. White, William Perry and the local representatives, Messrs. Tweeddale and Burgess.

The General Assembly of the Presbyterian church opened at Ottawa on the 7th instant.

Reports on Church Union showed that the result by presbyteries had been 793 for 476 against.

The clerk reported that sixty-seven out of seventy Presbyterians had sent in answers to the remit on church union. Of these forty-nine were for approval of the basis suggested, twelve disapproved, two a tie vote and four approved of the principle but qualified their report as to the basis.

Strong ground was taken on matters of Social and Moral Reform.

Scarcity of ministers was reported, 35 vacancies in the Maritime provinces.

## UNITED BAPTIST CHURCH

Annual District Meeting Will Commence on Friday Next.

On Friday next 16th the 10th District Annual Meetings will be held in the above church, under the presidency of Rev. J. G. A. Belyea, B. A. of Doaktown. The business session will commence at 2:30 p. m. in the Lecture Hall and at the same hour the N. B. W. M. U., will meet in the church when addresses will be delivered by Mrs. W. E. McIntyre of St. John and others. All interested in missionary work will be cordially welcomed to this meeting. Tea will be provided in the Lecture Hall and vestry adjoining the church for the delegates and others attending the meetings. In the evening at 7:30 there will be a public meeting. President in the chair. Representatives of the Foreign missions and home mission boards will address the meeting also the Laymen Missionary movement. The Revs. Dr. McIntyre, Dr. Cousins, F. N. Atkinson, J. G. A. Belyea, H. D. Worden and others are expected to take part. The choir will sing appropriate pieces during the addresses, a most enjoyable, interesting and profitable meeting is expected, and as the meeting is thrown open to the general public there ought to be a large attendance. A cordial welcome given to all.

## STARVED NERVES

The Cause of Neuralgia—It Must be Treated Through the Blood.

Neuralgia is a cry of the nerves for more and better blood. It literally means that the nerves are being starved. Like every other part of the body the nerves receive their nourishment through the blood. There is therefore no doubt that Dr. Williams' Pink Pills will cure the worst cases of neuralgia. They actually make new, rich blood, carrying to the starved nerves the elements they need, thus driving away the sharp, torturing pains which render the sufferer wild. So many cases of neuralgia have yielded to treatment through Dr. Williams' Pink Pills that every sufferer from this dreaded trouble should lose no time in giving the Pills a fair trial. Mrs. Sophia H. Johnson, Mozan, Sask., says:—"For upwards of ten years I was a periodical sufferer from neuralgia. It located in the side of my face and in the jaw, which would actually click every time I opened or closed my mouth. At times the pains would be almost unendurable, and as time went on, my whole nervous system seemed to be affected. I was constantly doctoring, but the doctor did not seem to be able to give me permanent relief, and at last I decided to try Dr. Williams' Pink Pills: I got a half dozen boxes, and before they were half gone I felt much better, and by the time I had used them all every symptom of the trouble had gone, and I was enjoying a comfort I had not known for years. I have since remained in the best of health, and can only say I owe the joy of living without pain to Dr. Williams' Medicine Co., Brockville, Ont."

### NOT IN NEWCASTLE

Why, I never saw a town of this size that could boast of so many pretty girls, was the remark made by a stranger who attended the band concert Thursday.—mail. (We don't have such things as Band Concerts in Newcastle, or perhaps Newcastle could boast too. Ed.)

**Amatite ROOFING**  
Needs No Painting.

AMATITE roofing is weaned. It doesn't need to be watched over and fussed with and cared for. It takes care of itself from the start. As soon as it is laid on your roof, you can go away and forget about it. You don't have to paint Amatite every two years as you do the "rubber" kinds. Amatite has a mineral surface which needs no painting. The mineral surface is better and more durable than many coats of paint. Back of the mineral surface is a layer of pitch, the greatest waterproofing compound known. Back of the pitch is a layer of felt (a whole ready roofing in itself), and behind this is another layer of pitch and another layer of felt. The result is a strong, durable roof which can take care of itself in any climate without painting. We will be glad to send you free a sample of Amatite Roofing so that you can see for yourself just what it looks like. Address our nearest office.

**Everjet Elastic Paint**  
Low in price. Great in durability. Invaluable for prolonging the life of ready roofings, fences, iron work, etc.

**Creonoid** Lice Destroyer and Cow Spray. It will keep flies away from the cows. It will keep lice and mites away from the poultry, make everything sanitary and increase their output.

**KEEP ON COURTING AFTER MARRIAGE**

"Continue courting after marriage" Rev. A. W. Main said in Point St. Charles Congregational Church last evening in a sermon on Jund Bride-grooms.

"Have you never noticed the change in a woman's face after she is engaged. It is because she has received that for which she hungered, but after marriage, have you never noticed that she loses that happy expression? Have you never seen the joy go out of her face. It is because she received affection from her lover which she does not receive from her husband.

"A bride-groom must be a Christian man, and he must show reverence for everything that is written in the word of God. The husbands who love their wives must honor God, his law, his day and his church. Then a man will also honor his wife.

"I congratulate bride-grooms: I congratulate every marriageable young man. The love of woman is the greatest benediction and blessing out side of the grace of our Lord Jesus Christ that can be bestowed. Don't be afraid to marry. And lovers, continue your courting. The cause of so many unhappy homes is that the men neglect to do this, they neglect their wives."

The summer service of the I. C. R. is now in operation and the arrival and departure of the Limited is once more an absorbing passion among some of our young people. Some people couldn't even come to the ball game until they had viewed with envious eyes the weary travellers on our palatial railway.

**MAINE GIRL SHOT BY CHINAMEN**

Miss Shaw, Teacher in Orono, Wounded by Student She Spurned. —Likely to Recover.

Orono, Me., June 9—While returning from a dance in Orono town hall last night Miss Christian Shaw, aged 25 years, a teacher in the Orono high school was shot in the head by a revolver and a mob, attracted by the shooting ran down T. S. Linn, a Chinese government student at the University of Maine, who was taken to Bangor charged with the shooting.

It is said that Linn has been infatuated with Miss Shaw for over a year and had been despondent over the failure of his suit. He is 30 years old and in his junior year at the university.

At the Eastern Main General Hospital, where Miss Shaw was removed, the surgeons say that her chance of recovery is good. Four shots were fired, only one of which took effect. That struck behind the left ear and lodged just over the right eye.

Miss Shaw, accompanied by her brother and younger sister, after an evening of dancing, were returning home and were crossing a bridge, not far from their residence, when it is alleged, Linn ran up from behind and opened fire. The first three shots went wild, but the fourth took effect, sending Miss Shaw unconscious to the floor of the bridge.

Dr. Sanger, a Bangor physician, who was passing, ran at once to her aid, while a crowd that had been at the dance ran after the fleeing young Chinaman. Within a few minutes he was overtaken and brought to the Orono fire station.

There he collapsed and, it is believed, pretended to have taken poison, but physicians could discover no traces of any drug. A revolver was found upon him with four chambers empty. Shortly after midnight he was removed to Bangor by Sheriff White and locked up.

At the hospital in this city to which she was taken it was stated today that she would probably recover. Linn is alleged to have told the sheriff that he shot Miss Shaw because she had caused him "mental torture."

**WHEDDEN—KINGSTON**

(Crowded out of last issue.) In St. Mary's church at 8 o'clock Thursday morning, Miss Annie Katherine Kingston was united in marriage to Mr. Murdoch Whedden. The marriage was very quiet only the immediate friends of the couple being in attendance. Rev. P. W. Dixon, pastor of St. Mary's church officiated. Miss Mary Bayle was bridesmaid and Mr. Wm. Hollohen was best man. The charming bride was dressed in a cream serge suit trimmed with black satin and wore a black picture hat. Immediately after the ceremony the bridal party repaired to the home of the bride's parents, Mr. and Mrs. John Kingston, Chapin Island Road where a wedding breakfast was served. Mr. and Mrs. Whedden took the accommodation on Thursday afternoon for Campbellton en route to Montreal and other cities on a honeymoon trip.

With the coronation approaching and other Court festivities, ladies will do well to avoid obtruding hideousities like the harem skirt upon the Royal presence.—says M. A. P. Any lady who is so foolish as to appear in such a costume is bound to attract the attention of the lowest class of the community. The social circle of the Court is not likely to be so easily deceived.

BELL-RINGER TO MILLIONAIRE

Quebec Man Left an Estate Valued at Two Million Dollars.

Cranby, Que., June 10.—From bell-ringer to millionaire might be a suitable title for a romance written around the career of S. H. C. Miner, who died here yesterday, for it is estimated that the estate of the man who started life as a church caretaker at a few pennies a week, is valued at \$2,000,000.

He was founder of the Consolidated Rubber Company, interested in western mines, founder of the Granby Smelter Company, vice-president of the Eastern Townships Bank, director of the Brophy Parsons and Rodden Company, a pioneer in many fields of industry and a unique figure in the eastern townships.

MAKING SAWDUST VALUABLE

The processes for making use of sawdust that have been worked out in France and Norway in the past few years have proved of immense value to these countries. The making of money out of sawdust not only produces wealth from the material, but keeps it out of the streams and thus adds nearly one hundred per cent to the chances for fish doing well in the fresh waters and furnishing more economical food for the people.

The French have perfected a process that extracts 27 gallons of high grade alcohol from a ton of sawdust, 42 pounds of acetic acid and leaves enough wood to make briquets that are sold for about \$10 a ton because they are extra fine for making fires.

CAMPBELLTON NEWS

"He who takes no interest in the general weal, and gives no thought for those who are trodden underfoot, save now and then to bestow alms, is not a good citizen."—Henry George.

Rev. Mr. Drummond had a slight attack of measles last week, but we are glad to know he has now fully recovered and will be able to conduct the services in the Presbyterian church this Sunday.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. Sold by all dealers.

The Minto swimming pond is giving some trouble, a detachment of the fire brigade being out at it with the steamer on Tuesday evening. It was good training for the boys.

The Campbellton Band had their first march out on Wednesday evening, playing at the ball grounds and also at the Opera House. The boys are doing well. Let us give them a hand and show them we are not at too busy building houses but what we can do something for them.

The wharf as a church parade is looming large in the public eye. Could not the Council put some nice cosy benches down there for the benefit of the many couples who stroll by the water's side listening to the sweet music from a steamer's gramophone. It would be so much better to sit and listen to the music while someone is wilting sweet and sour.

NEW CARLISLE NOTES

Death has visited our village again and taken away an old and very active citizen, Mr. Tremblay, District Magistrate. The funeral took place May 30th, in his residence to the R. C. Cemetery and was attended by a large circle of friends.

We also have to record the sad news of the death of Miss Emma Caldwell, who passed away Wednesday, May 30th, after a brief illness of one month. Interment took place June 2nd in the Episcopal cemetery. Rev. Mr. Pratt of Shigawake conducted the services, in the absence of the previous pastor, Rev. Mr. Dunn. Much sympathy is felt for the family as a brother of the deceased has been suffering for three months from lung trouble, and his condition is rather serious.

Everyone is quite busy this time of the year. Farmers are well advanced and many are through with their seeding.

The great feature of the day is the big time expected to take place at New Carlisle, June 22nd, in honor of the King's Coronation. As this is not simply a local affair but a county one, great preparations are being made by the different communities for a grand celebration. The committee has secured the Chatham Band for that day and everything points to a grand success.

We are sorry to say our bank manager, Mr. McDonald, is about to leave us. He has been with us only a short time, but has made many friends. We understand Mr. Wood will take his place. Mr. McDonald took a lively interest in singing, and the Presbyterian here will miss him. We wish him every success.

Miss Mary Firth spent the week-end at her home here.

Miss Laura Winton, teacher at Dawsonville, spent the week-end at Mrs. Wm. Firth's.

Miss Edna Boudreau spent last Wednesday in town.

Several young people from Tide Head spent an enjoyable evening at the home of Mrs. Wm. Firth on Friday evening.

Mr. B. D. Earle, a Pine Hill student, conducted a prayer meeting at Mrs. Firth's last evening.

Mr. and Mrs. Ferguson, Chamberlain and Master Roy paid a flying visit to Glencoe last week.

There is one medicine that every family should be provided with and especially during the summer months; viz, Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

By a majority of over 200, the citizens of Glencoe have voted in favor of the \$115,000 municipal property tax for municipal improvements.

NEWCASTLE, N. B., JUNE 14, 1911

NEWCASTLE NOT NEGLECTED

The statement of a member of the Board of Trade, who, by the way, is an ardent Conservative, that Newcastle had in ten years received from the Dominion Government only \$2,000 for a clock, was rather wide of the mark. The speaker evidently forgot the new I. R. C. roundhouse built here within that time, to say nothing of the re-opening of the Indian town-Blackville "missing link" which has tended to considerable increase Newcastle's trade. There is no evidence that either Newcastle or Northumberland County at large has received less than its share of Dominion government expenditure. There is every sign that the Dominion Government means business in the matter of dredging the Miramichi river and the grant for a wharf on the Northwest branch should be appreciated by the people served.

In the matter of railway accommodation, an extra shunter between here and Blackville, and an alternate daily suburban service between Boiestown and Newcastle and Chatham as proposed by W. S. Loggie, M. P., is not unreason-able, and if obtained would greatly improve the present state of affairs on the Fredericton branch.

DISTRESSING HEADACHES

Headaches are largely the result of disordered kidneys. Mrs. Hall, 81 Flora Street, St. Flora St., St. Thomas, Ont., says "I suffered for years with headaches of a most distressing nature. They would come on me suddenly, and would last for days at a time. These were usually accompanied by spells of dizziness that would leave me unable to attend to any house duties. My back was weak and caused me much suffering through the night. I had doctored for years, but all to no avail. Nothing benefited me and my condition was gradually becoming worse. I learned of Booth's Kidney Pills. One box gave me a complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."

Booth's Kidney Pills will relieve you of all kidney troubles. They will relieve you of all kidney troubles. They will relieve you of all kidney troubles.

WEDDINGS

MULLIN-MORRISON John F. Mullin of Exmore and Miss Rosie Ella, daughter of Mr. and Mrs. Hector Morrison of Boom Road, were married at the manse, Newcastle, on the 7th instant, by Rev. Willard MacDonald. The couple were unattended. They will reside in Exmore.

PARKER-TWEEDIE A very pretty but quiet wedding took place at the Methodist Parsonage on Saturday evening, June 10th, when Rev. W. J. Dean united in marriage Miss Mary Tweedie, daughter of Robert Tweedie, and Mr. Clifford Parker one of Strathadam's most popular young men. Miss Tweedie is a sister to Miss Eliza Tweedie, at present engaged in missionary work in Japan.

OBITUARY

JOHN NOWLAN The remains of John Nowlan were brought to Miramichi on the Ocean Limited on Wednesday afternoon. Deceased died suddenly at Superior Wis.

MRS. ISABEL WARMAN. Richibucto, June 8.—Her many friends will regret to hear of the death of Mrs. Isabel Warman of Bass River, on Friday evening, June 2nd, at the age of 31 years. She is the daughter of Robert Murray, an elder of the Presbyterian church, and is survived by one daughter, Lillian. Mrs. Warman was widely known for her fine christian character. She was a devoted member of the Presbyterian church. The large number who attended her funeral bore witness to the high esteem in which she was held in the community. The pall bearers were Fred Fearon, James Thompson, David Clarke, Perley Keswick, George Warman, Charles Lawson. The funeral service was conducted by Rev. F. R. Millar.

DAVID M CREIGHTON The death of David M Creighton of Chatham Head occurred Sunday evening after a lingering illness. Deceased, who was Engineer of Sargeant's mill for 30 years, was 79 years of age. He was a native of Moorfield, Douglastown. He was well and favorably known and much sympathy is felt for the relatives left behind Mrs. Samuel Brown and Miss Annie C. Creighton are sisters of the deceased, and he is also survived by the following children: John, assistant Engineer of the Newcastle Light and Water plant; Malcolm Gillis, of Quebec; Jane, Mary, Georgina and Fanny H. The funeral services were, in the absence of Rev. S. J. McArthur conducted yesterday afternoon at the house and at the grave in St. James, cemetery here by Rev. F. C. Simpson. A large number of friends were present to pay their last tribute of respect to the dead.

NERVOUSNESS, DYSPEPSIA, INDIGESTION, and kindred ailments, take wings before healing qualities of North American Nerveine. Thomas Hoskins, of Durham, Ont., took his preacher's advice, followed directions, and was cured permanently of the worst form of Nervous Prostration and dyspepsia. He has recommended it to others with gratifying results. It's a great nerve builder. Sold by A. E. SHAW'S Pharmacy.—12

Miss Dalley, pianist in the Star Theatre, St. John, and her friend Miss Chesnut Sunday in town the guest of Mr. Ralph Fischer.

Mr. Douglas of the Royal Bank spent Sunday in Chatham.

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him.

His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

If the housekeepers of Canada will use

WILSON'S FLY PADS

persistently, this peril would be tremendously reduced.

TWO GOVERNMENTS TO CONFER

In Regard to Building of St. John Valley Ra road.

Ottawa June 9.—Dr. Pugsley writes today to acting Premier Fleming of N. E. that as Mr. Fleming expresses the willingness of his government to conform to the plan, which has been approved by parliament, of building the line from St. John to Grand Falls, L. be operated as part of the Intercolonial system, he should be glad to arrange for a conference between a committee of the provincial government, the minister of railways and himself at as early a date as possible.

MIRAMICHI LABOR PO

Mr. James Falconer, correspondent for Newcastle, N. B., and is reported in the Labor Gazette May as follows:—

The labour market at the present time is very dull, and the supply is much greater than the demand. There is little or no work at the present time. The only industries here are the lumber mills, and they will not start for at least two weeks. Of course, many are going to the lumber drives, but the weather is so cold that the water has not risen sufficiently to do much. April was a remarkably cold month. The ice is all broken up, but has not run out, as the wind is east all the time. There will probably be no change in the rates of wages this summer.

CONDITION OF LOCAL INDUSTRIES

Agriculture.—It is going to be a very late spring. Farmers in general are beginning to take a much greater interest in the cultivation of the land, in having good seed, and in raising stock. Horses and cattle are becoming more valuable and it is impossible to buy a good team of horses today for less than \$450. The price of cows now is double what it was a few years ago. Fishing.—There is nothing being done at present, further than getting ready for the season's work. Lumbering.—The prospects are fairly good if the drives all come out. Some of the mill owners are making ready to run their mills day and night, that is, twenty hours out of the twenty-four.

CONDITION OF PARTICULAR TRADES

Bricklayers and masons were practically idle. Carpenters and joiners were a little more active. Printers, decorators and paperhangers were busy. Steam engineers were busy getting the mills ready for sawing and getting the steamboats ready for the opening of navigation. Carriage builders were very active and the prospect better than for the last two years.

Mr. Anderson A. Aitken, has returned to Newcastle after a visit to the south. Rev. William Aitken and Mrs. Aitken and daughter Mrs. H. Walker and grand daughters, Jean and Katherine also spent the winter in the south, being absent over six months. Mr. and Mrs. Aitken and grand children have now gone to Calgary on a visit, while Mrs. Walker is visiting in Sawyerville, P. Q. Rev. Mr. Aitken's many friends will be pleased to learn that he is enjoying the best of health.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and discouragement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG. SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

ENJOYABLE DANCE

AT MILLERTON

The Assembly dance at Millerton on the 6th instant was a very pleasant affair. It was under the auspices of the R. C. Church and the number attending was very large. McEachren's orchestra furnished the music. Dancing was continued until early the following morning. Mr. Perley Vanderbeck made an efficient floor manager. A delicious supper was served by the ladies. Altogether the affair was one of the most successful held for many months.

NEW I. R. C. STATION AT FREDERICTON

Fredericton is to have a new Intercolonial railway station. On the 6th instant Evan Price, Superintendent of the I. C. R., was in the city with the plans, which is to be a modern structure, along the same lines of architecture as other stations recently erected along the Intercolonial. Tenders are being called and will close on June 17th. The contract provisions call for the new station to be completed not later than December next. The site is to be between Brunswick Brunswick and George streets, practically the present site.

COMMERCIAL DEPARTMENT ST. MARY'S ACADEMY

Full graduating certificates of proficiency in the Isaac Pitman System of Stenography have recently been awarded, by the Phonetic Institute of Bath, England, to Miss Kathleen McCabe and Miss Irene Sheasgreen of St. Mary's Academy, these young ladies having obtained their Theory Certificate before Christmas and their Speed Certificate about Easter. Second Class Certificates from the same Institute have been awarded to Miss Marguerite Lawlor and Miss Margaret Sullivan. Next term these young ladies will try the full certificate of Proficiency.

G. T. P. WILL SOON BE READY

The National Trans-continental Commission are about to hand over to the Grand Trunk Pacific for operation a 220 mile stretch from the Quebec bridge to Mount Au Chene. This stretch will have a lumber pulpwood and pulp traffic to handle from the St. Maurice. Negotiations are going on for the transfer of the section between Moncton and Plaster Rock to the Grand Trunk Pacific for operations, but it looks as if it would not be done until next autumn. Good progress has been made with construction all the way between Levis and Moncton, but there are a couple of big bridges to be put in which will hold back the transfer of the Maritime section for some little time. However, the commission are arranging for the transfer and the spanning of the St. Lawrence by car ferries until the Quebec bridge has been completed.

WEDDING TONIGHT

The nuptials of Miss N. Beckwith and Mr. Burt Curzau will be celebrated at the bride's home this evening at eight o'clock.

MOOSE WAS TAME

Passengers on the S. S. Miramichi on Saturday were treated to a novel sight, in the shape of a young bull moose, who evidently had taken to the water near the wharf at Bushville, for the purpose of cooling himself off. Only the head of the animal was visible. He was exceptionally tame. As the boat passed the captain informed us that the moose had been there over two hours.

CONDUCTOR J. A. DAVIDSON INJURED

Conductor J. A. Davidson, while on his run to Campbellton a few days ago had the misfortune to fall from the "look out" tower, while shunting at Jacquet River. He fell heavily to the floor of the car and was very badly hurt, but he managed to continue his run to Campbellton and return to Moncton. On arrival in Moncton, however, he was rendered almost helpless by the severe pain, so that a hack was phoned for and Mr. Davidson was taken from the train at the North crossing and driven to his home on Lutz street, where the doctor attended to his injuries. It will be some time before Conductor Davidson can return to his work.

TAX EXEMPTION TO BE WITHDRAWN

At a special meeting of the Chatham Town Council last week the recommendation of the finance committee that, as the principal condition under which the Miramichi Pulp and Paper Company secured exemption from taxation was that it should manufacture pulp in the town, the company having, gone into liquidation and closed its mill, therefore the council should order the property of the company exempted to be valued and assessed by the town assessors was unanimously adopted. The council also decided to enforce payment of outstanding taxes at once in the interest of the town's overdrawing account. An application from the Miramichi Exhibition Association for general exemption from taxation was refused, but the taxes for 1910 were remitted and free light promised for the forthcoming exhibition.

THE COLONIAL STOCK COMPANY

A good show was put on the stage Monday night, when the Colonial Stock Co., presented "Emerald" to an especially large audience. The Company is a strong one and a decided hit. It is hard to say who were the stars as everyone held up his or her end well. As the dominating wife who bosses husband and daughter without any regard to their feelings, Mollie Revel was a great success, as was Myra Crowe as Esmeralda, the oppressed daughter whom her mother harshly separates from her lover in order to get a false-hearted marquis for a son-in-law. Frank Oliver, as a man of leisure, kept the audience in rollicking good humor, while the part of his sweetheart, Nora Desmond a part second to none in the cast—was excellently played by Miss Elizabeth Little. Cortland Hopkins was at home as the old hen-pecker farmer, and Frank Oliver doubled the part of the French Marquis to perfection. Alan Beverley performed his part of the English artist well also doubling the part of the sharp American speculator splendidly. Last night the play was the Marriage of Kitty, and tonight the same Company produce the Fool's Paradise.

# MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Toronto.—I gladly give you my testimonial in favor of your wonderful medicines. Last October I wrote to you for advice as I was completely run down, had bearing down sensation in the lower part of bowels, backache, and pain in the side. I also suffered terribly from gas.

After receiving your directions, I followed them closely and I am now entirely free from pain in back and bowels, and am stronger in every way.

I also took Lydia E. Pinkham's Vegetable Compound before my baby was born, and I recommend it highly to all pregnant women. I am at WANDY, 92 Logan Ave., Toronto, Ont.

Another Woman Cured  
Maple Creek, Sask.—I have used Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I am now in perfect health. I was troubled with pains every month. I know other women who suffer as I did and I will gladly recommend your medicine to them. You may publish this if you think it will help others.—Mrs. F. E. Cook, Maple Creek, Sask.

If you belong to the countless army of women who suffer from some form of female ill, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

## History of the Coronation Ceremonies of English Monarchs—King George Related to all Ruling Families in the Civilized World.

By history and tradition the coronation of the monarchs of Great Britain can be traced back to a remote period and the ceremonies that are used today are virtually the same ceremonies that were used when William the First was crowned, and, indeed, centuries before the Conquest. Our sovereign is descended from Egbert, who was the first King of all England. Egbert was a contemporary of Charlemagne and was for years his guest. As the crowning of the great Karl as Emperor of the West on Christmas Day, A. D. 800, preceded Egbert's return to England, some historians have thought it possible that he witnessed the revival of the Western Empire. Egbert's coronation was not by any means the first function of the kind in the British

KING GEORGE Signing the oath of office.

Islands. There were probably far more royalties crowned and anointed before Egbert's time in the much divided realms of the earlier ages—especially during the four centuries that followed the departure of the Romans—than during the long interval from Egbert's time to our own. Even if we accept the judgment of the more critical historians as to the mythical character of some of the lists of early kings that have come down to us, rulers there must have been and at their election or succession there were observances that imparted solemnity to such occasions—even in heathen communities. Indeed, the essential feature of the symbolic service by which the champion lawyer and ruler of a people is invested with authority from on high—that which sets him apart as the Lord's Anointed—is not found exclusively identified with Christianity or with Jewish communities, but is also recognized among the "gentiles." Of such examples the Bible itself contains several, such as Cyrus and Hazael. The crown, the sceptre, the mantle or robe, the ring, the sword of justice and mercy, these and other significant objects which form part of the regalia are extremely ancient. We read of the sceptred or sceptre-bearing King in both the Iliad and the Odyssey. Priests, heralds, and judges had also their sceptres, and the baton alike of the field marshal and of the constable has doubtless been developed from the same badge of office; that primitive symbol of dignity and command. The ring is another item of the regalia that has from the remotest times been associated with the exercise of authority—that of royalty especially. We are told that Pharaoh gave his ring to Joseph, as evidence of his confidence in the stranger and long afterwards Ahasuerus gave

gave his ring to Haman. Not long since a ring of which we have an illustration—a ring which, though royal and representing royal authority, has for more than three centuries been sadly identified with tragedy and the self-torturing despair of an aged queen—was sold (with other property of Lord John Thynne) in a London auction room. There is something weird in the prayer for the blessing of the ring in the Liber Regalis—a liberal English version of which was used at the coronation of James the First—and a recension of which will be used at the approaching coronation—in which God the Creator is besought to send down His Holy spirit upon "this ring glorious with the art of the workman, and to so cleanse it that the wickedness of the venomous serpent may be cast out and the metal made by the good Creator may remain free from the from the craft of the enemy."

A these symbols and the belief in them as having a certain efficacy for the purpose with which they are associated, are of an antiquity which we cannot compute. So far as we know by documentary evidence, the first monarch in the British Isles whose coronation had the sanction of the Christian church was King Uidun, who was ordained by Columba, abbot of Iona. It is from the life of that sainted missionary that we obtain this information by his successor, Adamnab. As Saint Columba's life was entirely spent before the close of the sixth century (A. D. 521-597), this sacking of a king with the rites of the Christian church is earlier than any such record that we have as to any Saxon coronation in the southern part of Great Britain. The form is exact, indeed, which is believed to have been used for the coronation of English princes in the century whose beginning is associated with the death of the great Alfred or even with that which began with Egbert's accession. There is another form or order of the coronation office which some authorities have been disposed to identify with the reigns before the Norman conquest, Ethelred, father of the confessor, having been chosen to designate it. This pretension is now given up by most students of the subject. It is, however, considered possible that this was the coronation order which was used both by Harold and by William. How significant that is! It is known as the second of six recensions or revisions—the latest being that of William and Mary, whose recension was practically equivalent to that of Queen Victoria. In the Queen's case, however, there was no procession to Westminster Hall and no banquet from a ritualist's point of view has its peculiar interest the ritual is best taken up as a phase of the larger subject—the history of people through that of its regal heads. The English King and the King of every kindred people is the head of the race; and in no part of the world has this definition proved so true as in the long annals of our royal family. While for more than a thousand years it has been allying itself, generation after generation, with alien houses, until today it is related to all the ruling families of the civilized world, it has throughout all never ceased to remember that it is of the blood of the British people—Anglian, Norse, Welsh, Irish, Scottish, Norman, Plantagenet, Tudor, Stuart—these, with the basal Celtic and Saxon strains, modified from age to age by the influence of outside alliances, have made our sovereigns, like ourselves, a composite race, but none the less, British to the core.—Montreal Gazette.

### THE FUN OF FISHING

Fishing Instinct Born in a Man; Cannot be Acquired.

"What fun do you find in fishing?" The question is one which is frequently asked of the fisherman, says an exchange. No fisherman can answer it to the satisfaction of any person who asks it. The man who asks it places himself without the pale of those who fish. He cannot understand the promptings of the fisherman's heart, and he probably never will learn.

There is a question whether or not the fishing habit may be acquired—it seems more likely that every man who fishes with keen enjoyment has the fishing instinct born within him.

Those who do not belong to the great Brotherhood of Gentle Anglers cannot understand why a man should sit patiently along the shore with his line dangling in the water, cannot understand why he will tire himself out following the windings of a trout brook through the woods.

To the man who loves to fish there is nothing remarkable about this. To the man who loves to fish, every minute spent on lake or stream is golden. Possibly he may catch no fish—possibly he may not even get a nibble, yet the true fisherman will tell you that all the time his line is in the water joy sings in his heart.

The true fishermen will tell you that not all the fun in fishing is to catch fish. Your fisherman is an apostle of patience and perseverance. The breeze which rippled the water gives him pleasure, the swallows skimming over the surface please him, the blue sky, the white clouds, the evergreen and butterflies, and the eddies made by the canoe paddle, all contribute to his day of pleasure.

To the fisherman the question, "What fun do you find in fishing?" is as just as ridiculous as the fisherman seems to be to the man who asks the question. Neither one understands the other, nor can either one explain. The man who loves to fish and the man who cares nothing about it belong to different breeds of cats—that's all.

### Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physician as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally acting directly upon the blood and mucous surface of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

### WILLIAMS RESIGN

Brussels, June 8.—The cabinet of M. Schollaert resigned today. Schollaert became premier and minister of the interior in January, 1908, succeeding M. Detroois, who had died in the preceding month. The clerical party, which has been in power for twenty-six years, and now has a majority in the Chamber of Deputies of six, lost two seats in the last election through the concerted disposition of the Liberals and Socialists.

YES' AND NOSE RAN WATER.—C. G. Archer, of Brewer, Maine, says: "I have had Catarrh for several years. Water would run from my eyes and nose for days at a time. About four months ago I was induced to try Dr. Agnew's Catarrhal Powder, and since using the wonderful remedy I have not had an attack. It relieves in ten minutes." 50 cents. Sold by A. E. SHAW'S Pharmacy.—17

# BEAVER

"BEAVER FLOUR" is the unfailing friend of the housewife. It saves her the trouble of keeping two kinds of flour—one for bread and another for pastry. Being a perfect blend of Manitoba Spring wheat and Ontario Fall wheat, it gives to bread the rich, nutritious properties of the former and the lighter qualities of the latter, making a large white loaf of delicate texture and exquisite flavor. Pastry, biscuits and cakes, made with BEAVER FLOUR cannot be excelled. Ask your Grocer for it today. 107 DEALERS—Write for prices on Feed, Course Grains and Cereals. The T. H. TAYLOR CO. ### ALDEN RAMSAY

Many friends on the North Shore will regret to learn of the rather sudden death of Mr. Alden Ramsay of Bathurst. Although Mr. Ramsay had not been in good health for the past two years, his end came as a great shock to his friends. On Monday of last week he was stricken with a hemorrhage of the brain and he expired at an early hour Saturday morning. Deceased was for years in the employ of The Stacy Co. and later has been manager for the Nepisiguit Lumber Co. He was unmarried. Mrs. Arthur Burry of Sussex, and Mrs. R. D. Southwood of Bathurst are sisters and two brothers in Portland and his mother at Bathurst survive.

### ROBINSONVILLE.

The roads which have of late been dusty have been now turned very muddy by the many rain storms.

Mr. Tommy Firth who has spent the Spring in Crog Brook has just returned home.

Miss Grace Murray has spent the last week at her sister's, Mrs. Geo. R. Thomas.

Miss Iva MacDonald who has been with us the last nine months as teacher has decided to resign her position here. Because of youth and inexperience Miss MacDonald has found the work very hard at times we fear. But we honor her for her determination to see the thing through. And it is not in our power to keep her with us, yet we all join in wishing her great success in the future. Miss MacDonald has shown herself unusually kind and generous towards children.

The fishermen are coming to their different camps along the main river.

Mr. James McNaughton is having his house painted and repaired.

Mr. Murdoch Firth was the guest of Mr. Wm. Mann on Friday.

Mr. Donald Murray passed through here en route for Upper Linton last week.

Among the American guests at the Hotel Bristol, Berlin, are James J. Jeffries, the ex-champion pugilist, and his wife, who arrived from Munich, in the course of a leisurely jaunt, through Germany. Mrs. Jeffries, who is a native of the Fatherland, is piloting her big husband through the mysteries of the language. Jeffries looks very fit, but asserts that there is nothing more strenuous ahead for him than a three months bear hunt in Alaska, on which he will start with his brother and a party of California friends on Aug 15th.

MEXICO CITY SHAKEN

Mexico City, June 7—51 men, mostly soldiers and including one Chinese, and 12 women were killed, 75 persons wounded and property worth \$100,000 destroyed today by an earthquake here.

Two of the capital's old churches and the national palace show effects of the shock. Long cracks appeared in all of them. In the palace a keystone in one of the arches was thrown almost out. The two churches are Santo Domingo and La Profesa, the latter in San Francisco street. This church had been cracked by other earthquakes. This morning the cracks were widened and the building was ordered closed.

The disturbance was vacillating and almost free from trepidatory motion. More than half the dead accounted for were soldiers. They were caught beneath the falling walls of the artillery barracks in San Cosma, near the Mexican central station.

Mexico City, June 9—Greatly alarmed over the reports filtering into the city from various sources that more than a thousand persons were killed, twice that number injured and scores of villages destroyed by Wednesday's earthquake, the government officials today took steps to investigate and aid the sufferers.

The centre of the disturbance is said to be the volcano Colima, near the Pacific coast. Extinct for years it is now reported in violent eruption. In Zapotitan, a large portion of the city was destroyed and many reported killed and injured. Tonila, Platanar, San Andres and the surrounding country are reported practically wiped out, with many deaths.

The area of destruction, according to the best advice available is rectangular, with the northern boundary less than fifty miles from this city and the southern part taking in the lower part of Guerrero.

A strange feature of the activity of the earthquake was that its greatest severity seemed to be felt in rings around the Colima volcano between which were belts that were almost immune from damage. The immediate vicinity of the volcano suffered heavily after which there was a zone fifty miles wide which was unharmed. Then came another damaged section.
