## PARK VS. FITZGERALD IN POLICE COURT

The case of Dr. J. H. Park vs. Alex. Fitzgerald was held in the Police Court, Friday morning August 27th, 1926, before His Honor J. J. Keenan. Mr. A. A. Davidson, K. C., represented Dr. J. H. Park and Mr. H. Whiter acted for Mr. Fitzgerald.

Miss Annie Price, the first witness and she resided in Derby, and her sister was living with Dr. and Mrs. J. H. Park on Phoenix Street, Newcastle. She remembered a conversation between Dr. Park and Alex. Fitzgerald on June 19th, 1926. When Fitzgerald came on Dr. Park's premises and asked him if he sent for the police, the Dr. said Yes and his reason for so doing was on account of the language and actions that was going on in the house. Mr. Fitzgerald told the Dr. that it was a dirty lie. Dr. Park asked him to go off the steps and he said he would not go. He said if he were not an old man he would clean the street with him, that he was a dirty pup, and was not worthy of the name of Doctor. Witness heard swearing in the Fitzgerald house. Mr. Forrest and Mrs. MacDonald were in the home at the time. She heard Mr. Fitzgerald calling Mr. Forrest a dirty pup. Fitzgerald's car was in front of the house. She saw Forrest get into the Fitzgerald house. The noise ceased after Forrest arrived at the house, and the swearing and noise continued until Fitzgerald came over to Dr. Park's house. She drew the Doctor's attention to it who listened for awhile and then he phoned the police.

Alex. Casse, sworn, said he lived at Douglastown and knew Alex. Fitzgerald. Was at the Doctor's house on June 19th consulting him professionally. He saw Fitzgerald on the Doctor's doorstep, and the Dr. was in his doorway. Fitzgerald asked him if he sent for the police and he said he did, because of the noise in the house. Fitzgerald said he was a dirty hound, was not worthy of the name Doctor, and if he was not an old man he would sweep the road with him. The Dr. called the police to take him and they said they could not without a warrant. The Dr. then went away. He thought for a warrant. This closed the case for the prosecution.

John E. Ashford, sworn, said he remembered the evening of June 19th, and was one of the policemen who went to Fitzgerald's house on that evening. Was accompanied by Policeman Galley. When he arrived at house he heard no noise. Went into yard and found everything quiet, then walked out to front of the house. Fitzgerald asked him if he was called for and he said he was. He wanted to know who sent for me and I did not tell him. He asked me to go into his house, but I did not go in. I did not know who was in the house. We went down street and returned afterwards, and told Dr. he would have to get a warrant if he wanted Fitzgerald arrested. I think Fitzgerald was under the influence of liquor and was talking in a loud voice and appeared to be excited. The reason I did not arrest him was because I did not see anything to arrest him for.

James Forrest, sworn, said he knew plaintiff and defendant from evening of June 19th. Witness was coming down the road and Fitzgerald came out and asked him if he sent for the police. Witness went in the house about 6 o'clock and between 5 and 10 minutes afterwards the policeman came into the yard. Mr. Fitzgerald and I were talking about some pads and he did not seem to call me any names. When the policeman came they came here the policeman when they came. He did not hear the conversation between Dr. Park and Mr. Fitzgerald.

Mr. Fitzgerald was called in Dr. Park's house and he said that he did not call the policeman. He did not know what the Doctor's dog was, and Miss Fitzgerald called the Dr. when he heard Fitzgerald's side the policeman to come and hear what was said to Dr. Park.

John Davidson, sworn by Mr. Davidson, said he acted as counsel for the defendant. That he did not attempt to call Mr. Fitzgerald, nor think that he should do so. The doctor must have come and

## LADY DIES AS RESULT OF LEAP FROM AUTO

As a result of a leap from an auto mobile last Friday evening, Mrs. John Alward, wife of the manager of the Lunenburg Co. Ltd. at Blackville, died Saturday afternoon in the Miramichi Hospital. Mr. Alward accompanied by his wife and two children were having a car ride, when unknown to Mr. Alward, the unfortunate woman, who has been subject to nervous trouble, opened the door of the car and jumped out. When picked up Mrs. Alward was bruised about the head, and blood flowed freely from her wounds. She was brought to the Miramichi Hospital for treatment where it was found her skull had been fractured and she died Saturday. The death cast a gloom over the community and the bereaved family have the heartfelt sympathy of all. The sad accident occurred a short distance from Mr. Alward's home in Blackville. Deceased was formerly Miss McDonald of Barnaby River.

## Detroit Offering Sugar to Canada

Detroit firms are offering sugar in Montreal at \$17 a hundred pounds freight, duty and exchange paid, a local wholesale dealer announced this morning. The dealer said he did not buy because he was waiting for the price of sugar to drop to 15 cents.

A. S. Richardson, sugar broker, claimed to have 50,000 bags of St. Lawrence sugar, which he could sell below refinery price. He held that the government knew the excess profits of the refineries and should be familiar with their enormous profits of the last few years. "Why should all the refineries be allowed to sell at the same price?" he asked.

"They buy their raws independent, and their sugar must be approximately the same; why should the board of commerce not compel competition amongst them? In the United States they have the Lever Law to prevent just cutting of competition."

A good life is nothing more than a lot of days lived well.

Instead of taxing the wedding fees of clergymen why do not the civil authorities adopt the sales tax idea.

policemen to come into his house and see if anything was wrong.

This closed the case for the defence. His Honor, in his remarks stated that the time had been fixed by Miss Price. Mr. Forrest's evidence differs entirely from Miss Price's as to time. He considered that Mr. Fitzgerald had committed an offence in going over to Dr. Park's property and for doing so would fine him \$10.00 and the costs of the court.

## BIG CELEBRATION AT ROGERSVILLE

There was a large gathering of Assidians at Rogersville on Sunday Aug. 22nd at the celebration of the national feast of the Assumption. The parish was early decked with flags and bunting.

The fête commenced and terminated at the Church by the singing of the Ave Marie Stella. The solos were sung by Mr. Alfonso Johnson with accompaniment by the organist Mr. Rufin Arsenault.

Mass was celebrated by Rev. Dom Asselin, Missed Abbot of the Trappist order, of Bonaventure, France assisted by Rev. Father McCarthy of St. J. Q. de Demers; Rev. Father McCarthy of Rogersville as Sub-Deacon; Rev. Father Antoine, Prior of the Trappist Monastery, Rogersville, assistant Priest; Rev. Father A. LeBlanc of Buctouche acted as Master of Ceremonies. In the Sanctuary were Mons. Chatsworth, Father Regnaud former curate at Rogersville; Rev. G. de la Courdiere, Superior of the Madat Seminary Halifax and priests from adjoining parishes.

In the afternoon at 3 o'clock there took place the Blessing of a newly erected statue of the Sacred Heart on the grounds near the Church. This ceremony was performed by Mons. Chatsworth. An appropriate sermon was delivered by Rev. de la Courdiere. Then followed the Address by Rev. Father Sévigny P. P. of Rogersville; Rev. Father Salmon of New Brunswick; and Hon. P. J. Vanot Minister of Public Works.

## C.N.R. Collision Near Sackville

The boat train which connected with the Prince Edward Island ferry at Cape Bretonville, had a head-on collision with a gravel special Saturday evening at Yarm Ridge on the C.N.R. a few miles west of Sackville. The wreck was fortunately attended by the loss of life, and no very serious injuries to passengers or train hands. C. G. Skerrow, brakeman, who suffered the most severe injuries was badly bruised in one leg. Some of the passengers on the express sustained slight bruises and a shaking up, as a result of the contact of the trains.

The trainmen on both trains jumped and escaped injuries. Both engines were more or less damaged and derailed and the truck torn up. The collision is alleged to have been due to the gravel special crew forgetting about the boat special and being on the main line on her time. The gravel special was standing still and the express was slowing down as engines came together, which accounts for the collision not having more serious results.

Traffic was blocked at the point of the wreck some eight or ten hours.

Many an optimist is simply a fatalist with a sound direction, and a fine line in writing his mind and his eye.

## FAIR and DANCE

Newcastle Skating Rink

### Wednes. September 8th.

Under the auspices of the Ladies Catholic Club

### Brunswick Hotel Badly Damaged

Moncton, Aug. 30.—Fire started this morning in the Brunswick Hotel here completely destroyed the upper two stories of the structure and resulted in considerable damage to the remainder of the building. At 10.35 the fire was reported under control.

The patrons of the house succeeded in escaping from the building. Among them being Harry Atkinson, of the law office department of railways, Ottawa, a former mayor of Moncton, who was on a visit here and who reached a place of safety by fire escape.

The fire, it is reported, started in the kitchen and shot up through a duct flue to the upper part of the building.

The loss is covered by insurance. The property was insured for about \$179,000.

There were 112 patrons in the hotel when the fire started.

### Duck Shooting Season Opens Sept. 15th

Duck shooting in New Brunswick does not begin until Sept. 15. There has been a mistaken impression in some quarters that the duck season opened on Sept. 1, but such is not the case.

In former years the duck season began earlier, but now that Canada is a party to the migratory bird law duck shooting in this province and Nova Scotia is illegal until Sept. 15 and extends from that date until Dec. 31.

The season for woodcock, Wilson snipe or jacksnipe also opens on Sept. 15, but closes on Nov. 30. There is no partridge shooting in New Brunswick this year.

A St. John man who wrote to Ottawa concerning these matters had an official letter yesterday in reply definitely fixing the opening for duck shooting as Sept. 15 and on Sept. 1 as in the former years.

### Young Man Shot Near Chatham

A widespread practice of garden and orchard pilfering is arousing

many farmers and orchardists in Chatham and vicinity, and the owners have had to take drastic measures to save the result of their labors. In one case shots were fired at orchard raiders by a man living on the road between Chatham and Richibucto. A youth named Henry Murray received a charge of partridge shot in both of his legs and was so badly injured that the orchard owner had no difficulty in effecting his capture. Young Murray was escorted to the town hospital in Chatham and appeared before Magistrate Campbell, who was of the opinion that the young man had received a salutary lesson. The man who fired the shots took the precaution not to aim towards any vital part of the youth's body.

Several farmers near the town are known to be keeping guard all night in an effort to catch thieves.

### Lord Beaverbrook Made Speech at Ship's Concert

Lord and Lady Beaverbrook arrived in New York on the Cunarder Aquitana on Saturday and planned to leave on Sunday by automobile for Canada. The New York Times says that Lord Beaverbrook delivered a speech at a ship's concert on the subject of Anglo-American relations, and said that the greatest thing in the world today was the maintaining of the amity and co-operation of the United States and Great Britain. Any person he said whether he is an American or a Briton, who tries to create discord between them is a traitor to his own country.

Myron T. Herrick, former United States Ambassador to France, also made a speech at the concert confirming the remarks of Lord Beaverbrook.

### Vast Wheat Crop in West Canada

Saskatchewan's wheat crop this year will total 122,494,400 bushels on the basis of thirteen bushels to the acre from 9,422,800 acres sown in wheat. Manitoba will have 41,922,000 bushels from 2,682,500 acres or sixteen bushels per acre. Alberta will have the highest average crop

**ROYAL YEAST CAKES**

### Plan Flight From Halifax to Coast

A trans Canada flight, half way by seaplane and the other half by airplane, is contemplated by the Canadian Air Board, the effort to be made toward the end of next month.

It is proposed to make a start from Halifax and to reach Vancouver with stops en route at Saint Ste. Marie, Winnipeg and Calgary and other places. Should the wind and weather conditions prove favorable this trip may be made in between forty or fifty hours including the time of stoppages, but of course a good deal will depend on weather conditions.

### Sleeping Sickness

There are two diseases to which the term sleeping sickness has been popularly applied. The first is a disease found in certain parts of Africa, the germs of which is transmitted by a species of fly called the tsetse fly. The victim of that malady falls into stupor, which gradually becomes more and more profound, until it terminates in coma and death. It is the second disease, however, that interests us especially for it prevails to an increasing extent in many parts of our own country.

### "BUY AT HOME"

The scientific name of this form of sleeping sickness is Encephalitis lethargica, meaning inflammation of the brain producing lethargy. The disease begins gradually with head aches, dizziness, loss of strength and a general feeling of illness; soon fever appears, and the patient complains of sore throat and double vision. Not infrequently there is insomnia during the stage, and there may be slight delirium. There is nothing distinctive in the symptoms except the seeming double, which is quite characteristic and should warn the physician to be on the watch.

After a week or so the patient begins to be drowsy; he wakens to do or sleep most of the time, and usually he is irritated by attempts to arouse him. There may be more or less delirium alternating with the drowsiness, but the mind as a rule remains fairly clear during the waking moments. The patient in this stage is apparently contented and in answer to the usual question at each visit of the doctor says that he feels pretty well. In the mildest cases the patient is merely apathetic rather than lethargic; he is not really asleep, but simply takes no interest in himself or in his surroundings and wants to be left alone. He resents any efforts to arouse his attention. In some cases the delirium is quite violent and the patient suffers from disturbing hallucinations, and the fever is high, although the inclination to sleep is not overbearing. In other cases there is slight paralysis of the facial muscles, with a consequent drooping of the jaw, or some stiffness or weakened control of the arms or legs.

The cause of the disease is undetermined. It is significant, however, that epidemics of it, such as that which has been prevailing in Europe and is now prevailing in this country have been observed in connection with influenza epidemics. The two diseases occur at the same time or the encephalitis follows the influenza. That was observed in the epidemic of 1889-90 as well as in that of 1918-20, and in the eighteenth century so many cases of Encephalitis lethargica occurred after an influenza epidemic that it was popularly called an epidemic of sleeping sickness. There is no curative treatment, and all that the doctor can do is to relieve the distressing symptoms and maintain the patient's strength. Fortunately the disease is not necessarily fatal. From sixty to seventy-five per cent of those who are attacked recover.

Teachers' Agreements and School, Road, Poor and County Tax Books For Sale at the Advocate

### Death of Pulp Wood Will Follow Waste

That there must soon be not a mere shortage but an absolute dearth of pulp wood, besides which the present paper lack will be regarded as almost abundance, unless the prevailing extravagantly wasteful destruction of forests is promptly checked, was stressed in an address before the weekly meeting of the Associated Motion Picture Advertisers by Charles Barrell.

Mr. Barrell, Jack from a three months' journey through the Canadian Northwest, gave a vivid word-picture of the methods, and shortsighted, improvident practices in that great regional source of the bulk of the present supply of paper pulp wood.

"So rapidly are the vast forests being denuded," said the speaker, "that the growth product of say, 100 years and in a particular case instances, even of 1,000 years, is consumed in a single day's felling, a rate of consumption which it was self-evident could not long continue without resulting in practically a total extinction of supply."

In extending an invitation to his hearers to witness at an early date the screening of the remarkable scenic and industrial footage "The Specter," to say nothing of a magnificence of settings and a wealth of detail which thus far the motion picture has merely sketched.

### Canadian National Railways Eastern Lines

Sealed tenders addressed to the undersigned and endorsed "Tender for Ties" will be received at this office until twelve o'clock noon, Tuesday, 31st day of August, 1920, for the supply of ties to be made and delivered between December 1st, 1920 and November 1st, 1921, in accordance with Tie Specification No. 3856, dated March 28th, 1919.

400,000 to be delivered at Transcontinental (District 5) south of the St. Lawrence River.

1,000,000 to be delivered on Intercolonial, Halifax Division.

100,000 to be delivered on Halifax and South Western Branch.

Tender forms and Specifications may be obtained at the office of the General Tie Agent, No. 9 Toronto Street, Toronto.

Tenders will not be considered unless made on forms supplied by the Railway.

No tender for quantities less than 10,000 ties will be considered.

The lowest or any tender not necessarily accepted.

E. LANGHAM, General Purchasing Agent, Canadian National Railways, Toronto, Ont.

Toronto, Aug. 6, 1920.

### NOTICE

Having disposed of the Drug Business of the late John H. Troy, W.F. Trueman and George H. Morris, both qualified clerical young men being the purchasers, for whom I speak the same liberal patronage as that accorded the business in the past.

As an early winding up of the estate is now necessary, it is desirable that all accounts owing and overdue, that have been rendered more than once, and those lately contracted up to the 31st July, be paid before Sept. 1st as after that date all accounts then unpaid, will without exception be placed for collection.

Payment of these accounts can be made to Mr. J.E.T. Lindon, at his office next the Drug Store, who has authority to receive payment and receipt for the same.

J. M. TROY, Administrator, Est. late John H. Troy

### EXCURSION

To Redbank Every Saturday Afternoon

The S. S. MAX AITKEN during the month of August will leave Chatham every Saturday for Redbank at 1.30 p.m. and Newcastle at 2 p.m., calling at all intermediate points. Returning to Newcastle at 7 p.m. and Chatham at 7.45 p.m.

Excursion fare for round trip 50c. Children under 12—25c. During these Excursion days the Steamer will make two trips between Newcastle and Chatham on Saturdays.

Children Cry for Fletcher's

# CASTORIA

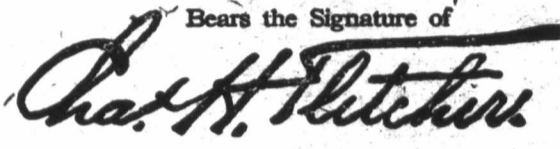

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

### Reason for Lord Beaverbrook's Visit

MONTREAL, Aug. 28.—Lord Beaverbrook, owner of the London Daily Express, is expected here from New York to-day. It is said that he is visiting Canada in connection with a big pulp and paper merger.

The entry of English capital into the pulp and paper industry of this province has not only stimulated the buying of stocks in the many operating companies, but there is not the least doubt that negotiations are now in the course of process for the purchase of the controlling interest of one or two other large paper and pulp companies in Quebec by other than the Northcliffe interests in Great Britain, and this fact may give rise to the rumors of further amalgamations.

### TEN CENT SUGAR?

A government expert on the sugar situation says that while sugar prices are tumbling in the United States, Canadian wholesalers, jobbers and others maintain their united front to the effect that it is not going down in Canada. He proposes that sugar will be around ten cents a pound in the not distant future.

The present situation in Canada is that sugar is selling on an average of twenty-six cents a pound retail.

### Apple and Pear Blight

Blight of apple and pear is a specific and contagious disease. Some varieties of pears are more susceptible to this disease than are others. There are three places on the tree where blight commonly occurs, the blossoms, twigs and larger limbs or trunk. The names blossom-blight, twig-blight and trunk-blight or canker are commonly used but it should be remembered that these are different manifestations of the same disease. The bacteria which cause blight grow as parasites in the inner bark tissue and kill it. The individual bacteria are so small that they are scarcely visible to the naked eye. Nevertheless they are present by millions. They live over the winter at the edge of the cankers on the limbs and trunk. When warm weather comes in the spring they multiply to the extent that they ooze out in small drops near the edge of the canker. It is at this point that the new season's destruction begins.

Bees and other insects are attracted by the ooze and as they are attracted they become smeared with it. They carry the bacteria from place to place. In this way bees deposit bacteria in the blossoms that they visit and a few days later the blossoms wilt and turn black. In a similar manner other insects in their roaming, inoculate a few bacteria into the bark here and there and twig blight results. All this could be avoided by the grower of apples and pears if the cankers from which the ooze comes were eradicated during the winter. The cankers are irregular and slightly sunken areas of bark usually separated from healthy bark by a definite crack. By cutting into the canker it will be found that the bark is dry and brown. To remove the canker make a straight, tapered cut with a sharp pointed knife, always keeping the outline of the cut at least a half inch outside the edge of the canker. The ends of the cut are brought to a sharp point to facilitate healing. After this outline cut has been made just deep enough to cut through to the wood, the bark is peeled off. Adhering shreds of bark should be removed and the wood scraped. It is advisable to wash the wound with complete substitute solution (one tablet to a pint of water) which though a powerful antiseptic is very important there are other sources of infection in the spring which need attention. Badly infected trees should be cut down and burned. Wild crab apple trees and hawthorns are often blighted and they should be removed from the vicinity of the orchard. Care should be taken also that any twigs which were blighted the past season are removed. They are evident during the winter by the fact that the dead leaves cling to them. All suckers or water sprouts should be removed several times during the season. The operations outlined above must be carried out thoroughly if blight is to be eliminated from them. They all serve to reduce the chances of infection the next spring if they are finished before any warm weather comes. During the winter and early summer the grower should make a careful inspection two or three times a week walking down on a tree. All blighted branches should be removed, cut off several inches below the blight, and burned.

### Carries Tanlac Across Atlantic

#### Dreaded to Put to Sea Without Medicine That Relieved His Stomach Trouble

Before starting on his last trip across the Atlantic with a load of 840 quintals of fish, Captain Fred Hollett of Burin, called in at Connor's Drug Store in St. John's, to get six bottles of Tanlac, as he expected to be away for some months.

"So long as I've got Tanlac with me I don't fear the trip," said Capt. Hollett, "but I've been such a sufferer from stomach trouble that I just dread putting to sea without it for Tanlac is the only thing that ever did me any good. Mine was a pretty bad case. I don't believe a year ever suffered more than I did with out getting out of his mind. For eight years I never touched a meal without severe distress and stomach pain afterwards that fairly doubled me up. never seemed to get any good out of my food and always seemed played out and weak. I had such headaches that they made me dizzy-headed and I often had bid light spells. I never slept well of a night and would get up in the morning with a bad taste in my mouth and feeling so sick that I couldn't touch a bite of breakfast. I got advice both in European ports and here in Newfoundland and was told that I had catarrh of the stomach. I took lots of medicine, but it was all money thrown away for all the good it ever did me.

"When I came in from my last voyage, everybody seemed to be talking about Tanlac, and after reading of several people I know who had got help from it, I decided it was just about what I needed. And sure enough Tanlac fixed me up all right. Why I can now eat anything the cook puts before me and it never has any bad after effects whatsoever. I enjoy breakfast, which is a thing I haven't done for years and I sleep just fine every night. I'm on deck for duty every day without fail and to tell you the truth I feel a different man entirely."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Daoktown by O. Hildebrand.

### Carpentier May Fight Dempsey

Jack Dempsey has made an arrangement with Tex Rickard, who promoted the Dempsey-Wills fight, to meet Georges Carpentier, the French champion, it was announced by Jack Kearns, the champion's manager.

Kearns refused to divulge the details of the agreement, other than to say that Rickard had been given a definite length of time to arrange the fight. Kearns said it was his understanding that Rickard had negotiated with C. B. Cochran, the British promoter, said to have a similar contract with Carpentier, and that the fight would be held in Madison Square Garden, New York, shortly after Carpentier returns to this country in September.

### ARABS REPULSED

Bagdad, Aug. 28.—The British forces operating near Hillah engaged the Arabs and repulsed them with heavy losses. (The Arabs) concentrated at Bahak, thirty miles from Bagdad, have been effectively dealt with.

All is quiet on the Tigris and at Karad and in the direction of Mosul.

### Bilious? Take NR Tonight

Nature's Remedy is better than other laxatives. Cleans the system. Relieves griping. Stops flatulence.

Bilious attacks, constipation, indigestion, etc., are in the great majority of cases due to a weak, irritable, and unbalanced condition of the digestive system. It is not a disease, but a condition which can be cured by restoring the system to its normal state.

Nature's Remedy (NR Tablets) is a vegetable compound that acts on the stomach, liver, bowels and kidneys, the purpose being to bring about healthy and harmonious action of all the organs of digestion and absorption. It acts promptly and thoroughly, yet so mildly and gently that there is no danger of over-stimulation or depletion of the system.

The fact that out of Nature's Remedy (NR Tablets) have a beneficial effect upon the entire body, by removing the excess of acid and stimulating the normal action of the whole system.

Once you get your body into this normal state you will find that you are able to eat and digest your food as usual, and that you are free from all the troubles which attend a bilious condition.

Get your bottle of Nature's Remedy (NR Tablets) at any drug store, or by mail from the manufacturer, The Nature's Remedy Co., Ltd., 100, St. Paul Street, Montreal, P. Q., Canada.

### Bishop O'Leary May be Transferred

Some time ago it was stated in an Edmonton, Alberta paper that the Right Rev. Henry J. O'Leary, Bishop of Charlottetown, was likely to be transferred to Edmonton, to succeed the late Archbishop Legal. The report did not receive much circulation in Eastern Canada, but it is now revived in a Canadian Press despatch from Charlottetown which declares that it is rumored there that the promotion of Bishop O'Leary is to take place. The Charlottetown despatch further says that Right Rev. Louis J. O'Leary, who was Auxiliary Bishop of Chatham, it has been generally believed was recommended to succeed the late Bishop Barry, and his appointment had been anticipated for some time past. Possibly the delay at Rome was due to the consideration of other plans. Whatever may happen in connection however, it seems likely that the report of the probable transfer of Bishop O'Leary has a basis of fact. The Bishop of Charlottetown is an exceedingly able and zealous prelate, and Prince Edward Island will be the loser by his departure.

### The Cash Value of a Pedigree

All animals have a pedigree of some sort whether pure-bred or scrub. Only the pure-bred animals have their pedigree registered and have pedigree certificates issued. A pedigree is valuable only when it proves some fact that is worth while about an animal, either favorably or otherwise. We frequently hear comments of some such nature as "I do not care about the papers it is the cow I want." Speaking broadly that may be good business for a butcher but the real stock breeder is paying more attention to pedigree than ever before and we often hear him say "that is a beautiful individual but I do not like her breeding."

The man who attaches the most value to a pedigree is the one who knows the most about its true value. The pedigree student may learn of a cow that has had a brilliant showing career. She may be particularly pleasing to the eye in type, form and conformation. He studies her pedigree and finds that she has sprung from ancestors that were of little value and immediately decides to let her alone, regarding her as a freak. On the other hand he may find a cow that is not a particularly fine individual in type but he studies her pedigree and finds that she has for ancestors some of the very best animals of the breed. He decides to buy the cow going on what he knows about her ancestors. He has made use of the pedigree to select a cow that he has not, as so many are inclined to state, paid a big figure for papers.

Pedigree does not make value, it decides value by establishing the lineage of ancestry. The cow backed by several generations of good producers is much more liable to be the dam of producers than the course always hold true. Just as we frequently find a good individual with a poor line of ancestors so do we find poor individuals with strong ancestors. Like, as a general rule, produces like, but the law of variation is also felt. The pedigree student studies these laws and draws his conclusion.

When a cow is purchased for a breeding herd two things are kept in mind, first the value of the cow for what milk she will produce and secondly, the effect she will have upon the future of the herd. A good judge of dairy cattle can estimate closely her value as a milk producer but her worth as a herd improver must be determined chiefly by pedigree.

Individual merit is very important and should not be overlooked yet it must not be the main deciding point. History shows us some excellent individuals who have apparently sprung from inferior stock and later have become wonderful foundation cows. Such animals are valuable if properly developed, but the owner must have skill and patience to handle a problem of this kind as often, after a few generations, there may be a reversion back to the old ancestral type.

Some herds have been built almost to perfection with the entire herd, the owner is a true stock breeder and wishes to have as perfect a herd as possible. He decides to secure a new sire and correct this fault. He selects an animal not only strong itself where the defect is shown in the herd, but the breeder knows that the animal is from a family perfect in this respect. This sire is sure certain to correct the fault than an animal who is "true" individually but past, or all, of his pedigree.

It is not a question of how much that an animal is worth, it is to know that the stock in the herd is of the

### Billous? Take NR Tonight

Nature's Remedy is better than other laxatives. Cleans the system. Relieves griping. Stops flatulence.

Bilious attacks, constipation, indigestion, etc., are in the great majority of cases due to a weak, irritable, and unbalanced condition of the digestive system. It is not a disease, but a condition which can be cured by restoring the system to its normal state.

Nature's Remedy (NR Tablets) is a vegetable compound that acts on the stomach, liver, bowels and kidneys, the purpose being to bring about healthy and harmonious action of all the organs of digestion and absorption. It acts promptly and thoroughly, yet so mildly and gently that there is no danger of over-stimulation or depletion of the system.

The fact that out of Nature's Remedy (NR Tablets) have a beneficial effect upon the entire body, by removing the excess of acid and stimulating the normal action of the whole system.

Once you get your body into this normal state you will find that you are able to eat and digest your food as usual, and that you are free from all the troubles which attend a bilious condition.

Get your bottle of Nature's Remedy (NR Tablets) at any drug store, or by mail from the manufacturer, The Nature's Remedy Co., Ltd., 100, St. Paul Street, Montreal, P. Q., Canada.

### Carries Tanlac Across Atlantic

#### Dreaded to Put to Sea Without Medicine That Relieved His Stomach Trouble

Before starting on his last trip across the Atlantic with a load of 840 quintals of fish, Captain Fred Hollett of Burin, called in at Connor's Drug Store in St. John's, to get six bottles of Tanlac, as he expected to be away for some months.

"So long as I've got Tanlac with me I don't fear the trip," said Capt. Hollett, "but I've been such a sufferer from stomach trouble that I just dread putting to sea without it for Tanlac is the only thing that ever did me any good. Mine was a pretty bad case. I don't believe a year ever suffered more than I did with out getting out of his mind. For eight years I never touched a meal without severe distress and stomach pain afterwards that fairly doubled me up. never seemed to get any good out of my food and always seemed played out and weak. I had such headaches that they made me dizzy-headed and I often had bid light spells. I never slept well of a night and would get up in the morning with a bad taste in my mouth and feeling so sick that I couldn't touch a bite of breakfast. I got advice both in European ports and here in Newfoundland and was told that I had catarrh of the stomach. I took lots of medicine, but it was all money thrown away for all the good it ever did me.

"When I came in from my last voyage, everybody seemed to be talking about Tanlac, and after reading of several people I know who had got help from it, I decided it was just about what I needed. And sure enough Tanlac fixed me up all right. Why I can now eat anything the cook puts before me and it never has any bad after effects whatsoever. I enjoy breakfast, which is a thing I haven't done for years and I sleep just fine every night. I'm on deck for duty every day without fail and to tell you the truth I feel a different man entirely."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Daoktown by O. Hildebrand.

### A Mothers' Trials

Care of Home and Children Often Causes a Breakdown

The women at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these invitations as part of the lot of motherhood. But many and varied as her health troubles are, this cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this food blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself, and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Walter Matchett Not Guilty

In the St. John County Court Wednesday morning, before Judge Armstrong and a jury, Walter Matchett was tried on the charge of stealing gold, false teeth, etc., from the Army Dental Clinic, the whole valued at about \$350. William Lyons, in giving testimony, stated that he met Matchett the day following the disappearance of the goods, who told him: "I am in great trouble. I got the stuff from the Armoury." Matchett admitted meeting Lyons, absolutely denied making any such statement. The jury, after a comparatively short absence, returned a verdict of not guilty. C. H. Ferguson for the prosecution. —W. R. Ross for prisoner.

### Timber Lands Brought Good Prices

The Auction Sale of timber lands and farm of Mr. T. A. Hurley, Blissett, was held Wednesday afternoon 100 acres each, were bid in by R. V. McCabe, and the remaining 500 acres of timber lands, as well as farm and stock, were bid by John T. Sutherland.

There were some 400 people present at the sale; Mr. J. E. Lawlor was auctioneer. A good price was realized on the farm and different lots of land.

### Moncton Greet Premier Meighen

Moncton, N. B., Aug. 25—Quite a number of citizens assembled at the G. N. R. depot here this afternoon upon the arrival of the Ocean Limited from Halifax to greet Premier Meighen on his return from T. r. r. The Premier, after being introduced to many of those on the depot platform, mounted a truck and, after being introduced by Dr. O. B. Price, briefly addressed the gathering. He expressed his pleasure at meeting so many of the citizens of Moncton and promised to return at an distant date to look over this progressive city and meet the people.

### BATHURST EPIDEMIC NOW OVER

The epidemic of typhoid fever in Bathurst which has been occupying the attention of the health authorities since May last, and which has taken a heavy toll of lives in this ordinarily healthy community, is now said to be about over. Practically no new cases of the disease have developed during the past three weeks and all of those suffering from the malady are now well on the way to recovery.

The Board of Health makes it clear, however, in a notice published last night that danger still exists, and

### MRS. W. J. O'LEARY

The death took place Sunday night of Mrs. W. J. O'Leary, 534 Grosvenor avenue, Westmount, Quebec. The sad news came to Newcastle Monday morning in a telegram to Rev. P. W. Dixon.

Mrs. O'Leary was formerly Miss Marguerite McIntyre, daughter of the late Mr. and Mrs. Allan McIntyre, of Newcastle, N. B. and is survived by her husband, five children and two sisters, Misses Annie R. and Lou McIntyre, of Montreal. Deceased was beloved by all who knew her, and her death will be keenly felt, not only by her immediate family but by many friends throughout the province.

### WEDDINGS

**KINGSTON—LOGGIE**  
The marriage took place on Monday, August 16th, at St. Andrew's church, Loggieville, of Miss Lillian Loggie, youngest daughter of Mr. and Mrs. George Loggie, Lower Napan, and Samuel Kingston, son of Mr. and Mrs. Paul Kingston, of Wayerton, the ceremony being performed by Rev. Father Wharton, who also celebrated the nuptial mass.

The bride who is a graduate of St. Mary's Hospital, Lewiston, Me., and has for the last three years been Night Superintendent of the Miramichi Hospital, Newcastle, was becomingly dressed in taupe colored suit and Copenhagen blue hat, and carried a white prayer book and was attended by her cousin Miss Gussie Kelly of Loggieville, who wore a same colored suit with navy hat. The groom was supported by his brother, Louis Kingston.

After the ceremony the bridal party motored to the home of the bride's parents where dinner was served to relatives after which Mr. and Mrs. Kingston left on a motor trip to Quebec and Vermont and on their return will reside at the Pines, Newcastle.

The public is advised to continue taking every precaution to avoid contracting the disease. Although the officials have not been successful in definitely locating the cause of the unprecedented outbreak in this locality their advice is to suspect every possible source of infection until every trace of the disease has disappeared.

Whitney, Aug. 27—Following the start of the fall movement of the 1920 crop and the resumption of some positive seeding by millers, it is stated on good authority, that there will be a drop in the price of flour and also in the price of bran and shorts.

One prominent miller said that the drop in the price of flour would be \$1.50 per barrel at least. It was likely to take effect soon, probably next week, or the week following, he estimated. The price of flour per barrel now is \$14.50.

The price of bran and shorts, it was said, would drop from \$5.00 to \$7.00 per ton.

### Drop in Flour Is Predicted

A meeting of the shareholders of the Miramichi River Steamer Co. Ltd. was held Thursday afternoon to elect the directors of the company and to hear a report from their provincial directors.

The following were elected directors for the year: Hon. J. P. Macmillan, W. A. Macmillan, Chas. Brown, Dr. J. E. Logan, G. H. Brown, Dr. W. A. Macmillan, and J. P. Macmillan.

The following were elected provincial directors: Hon. J. P. Macmillan, W. A. Macmillan, Chas. Brown, Dr. J. E. Logan, G. H. Brown, Dr. W. A. Macmillan, and J. P. Macmillan.

### Steamer Co. Barely Making Pay

A meeting of the shareholders of the Miramichi River Steamer Co. Ltd. was held Thursday afternoon to elect the directors of the company and to hear a report from their provincial directors.

**An Open Secret**  
 The secret of buoyant, vigorous health, is a well-nourished body. It is an open secret that **Scott's Emulsion** is of wonderful help to those who are run-down in vitality from any cause. *Try it!*

Scott & Bowne, Toronto, Ont.

**What Science Cannot Find**

By Emmott Campbell Hall

Modern science can measure the distance to the most distant star, and then weigh that heavenly body, and tell you just how much more or less you would weigh if you were there instead of on earth. It can take a mass containing a hundred unknown ingredients and in a very short time hand you a list of those ingredients and the amount of each in the mass. But it cannot tell you what the combination of metals was from which the Egyptians, Aztecs and ancient inhabitants of Peru manufactured their tools and arms. This knowledge of how to mix concrete for instance, has been utterly lost and science has not discovered the secret.

The nations mentioned, though attaining a high degree of civilization, never learned to use iron, but substituted for it a combination of metals that had the hardness and temper of steel. So far as analysis shows, these ancient weapons and tools, with which the miners quarried the hardest stone, and even cut emeralds, were made of copper and a small portion of tin. No method

**New Provincial Appointments**

On the recommendation of Chief Inspector W. D. Wilson, the resignation of George E. Mercer, vendor, of Dalhousie, has been accepted and Percy S. Shuman of Port Elgin has been granted a retail license from December 1 next. On the same recommendation the following appointments have been made:—Aldric La Fonde of St. Leonard's, Denis Dalgic of Edmonton, Willie Picard of St. Hillare to be temporary inspectors; Ernest Thompson of S. Okville and Clarence J. Burbine of Essexville, town marshals, to be inspectors.

The zone system of law enforcement is to be established as set forth in the annual report of the chief inspector 1919, and the appointment of senior officers is made as follows: A. S. Ealliveau of Colby Bridge, for Westmorland, Albert and Kent; Fraser Saunders of York, Sunbury, Queens and Charlotte; James Dickson of Chatham for Northumberland, Gloucester and Restigouche.

Allan McLellan of Grand Falls for Madawaska, Victoria and Carleton.

The following provincial appointments are gazetted:—

Robert Harcourt of St. John to be a member of the York and district board of health, in place of Clarence Goodspeed, resigned.

H. Galloway, now in charge of the New Brunswick district C. P. R. to be provincial constable.

**Tip Burn of Potatoes**

A trouble which is widely distributed and very prevalent in some seasons, and to which the name "Tip Burn" has been given, is to be found among our potato crops. This trouble takes the form of a gradual burning and drying up of the leaves of the plants, often commencing at a comparatively early stage in their growth and, in many cases, if allowed to go on unchecked, slowly but surely involving the whole of the plants so that they die down a considerable time before the tubers are fully developed.

The appearance of this trouble in the fields is often mistaken by growers for Late Blight. There is however a marked distinction between the two, for Late Blight may commence by attacking any part of the plants, leaves and stems alike, has a dark, water-soaked appearance, and, in its early stages is damp to the touch, while Tip Burn invariably commences at the margin or tips of the leaves and has a decidedly dry appearance and touch with the exception of after rain. It also appears much earlier in the season than Late Blight has ever been recorded and does not cause the death of the plants so rapidly. Nor has it ever proven so destructive as Late Blight, although evidence has been obtained that in seasons when it is severe and where no effort is made to check it, a considerable reduction in the yield of marketable tubers, due to the premature death of the plants from this cause, may result.

Investigators of this trouble are not yet in agreement as to the cause. The observations of some have led to the belief that a period of hot, dry weather during the growing season causes the leaves to throw off moisture more rapidly than it can be furnished by the plant, the result being the appearance of Tip Burn. This belief seems however to be disputed by the fact that the trouble is not found in the hot regions of the Western States where the temperatures often become excessive and the air is especially dry.

More recent investigations lead to the belief that this burning of the leaves probably follows the depressions of the insect known as the Potato Leaf Hopper. These investigations are not yet complete, but enough evidence has been produced to serve as a warning to potato growers to keep these insect pests thoroughly under control in an endeavor to avoid Tip Burn.

We have found in our experimental work with potatoes that Bordeaux mixture will to a large extent control this trouble. In 1918, when it was extremely prevalent, we had several plots to which, for the purpose of experiment, Bordeaux mixture was not applied. These plots suffered from a severe attack of Tip Burn and the plants were all killed down by the second week in August, while other plots on the same land, and in which the Bordeaux mixture was liberally and regularly applied, suffered to a very slight extent only the plants remaining green until late in the season. Bordeaux mixture can be applied to the Potato Leaf Hopper, as well as a protection to the plants, every other case of Tip Burn that is referred to hereafter, we have been able to control, and in many cases to cure, by the application of Bordeaux mixture with this mixture will reduce to a minimum the ravages of

**CHILDLESS WOMEN**

Please Read This Letter And See What Normal Health Will Do For You.

Berwick, Ont.—"I had organic trouble, and after taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier all my troubles passed away. I was made strong and well and have been ever since. Now we have a fine baby boy six months old, and I know that I would not have this baby and would still be suffering if it had not been for your medicine. My husband and myself say that your remedies are worth their weight in gold, and I recommend them to my friends. One of my sons is taking them now."

Mrs. MARION LAYTON, Berwick, Ontario, Canada.

Among the reasons of Lydia E. Pinkham's Vegetable Compound is its ability to correct acidity in many cases. This fact is well substantiated in evidence by the following letter and hundreds of others we have published in these columns.

In many other cases, once children, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound is the best remedy for women's ailments, and it is the best.

For complete information, call on the agent or write to the agent.

Lydia E. Pinkham's Vegetable Compound, Lowell, Mass. For advice, your letter will be answered, and accompanied by a free copy of our book on women's ailments.

## Premier Given Enthusiastic Reception at Turo

Trump, N. S., Aug. 24—Crowds that overflowed the Princess Theatre and spread out into a nearby hall heard Premier Arthur Meighen, Hon. Hugh Guthrie, Minister of Militia, and Hon. F. B. McCurdy, Minister of Public Works, expound the policies of the new national Liberal and Conservative Government here tonight and show why, in their judgement, the last named should be returned over Hugh Dickson, United Farmers' candidate, in the Colchester by-election of September 20.

Premier Meighen occupied the greater portion of the time at the Princess Theatre meeting, held simultaneously with the overflow meeting, with a review of the achievements of Premier Borden's wartime administration and a discussion of the party's plans for the future. He was tendered an ovation upon arising, spoke in fine form, but was most effective perhaps in criticism of the Farmers' attitude towards the present government. Quoting from a resolution, passed at the meeting of Colchester Farmers, which nominated Mr. McCurdy's opponent, in which it was stated that the corruption of the Unionist Government was a stench in the nostrils of the common people of Canada, he declared that the person who had phrased the resolution was either totally ignorant of the actual record of the Unionist Government, or else had wistfully called the English language during the past three years, but one change had been brought before the Public Accounts Committee, made up of Farmers and Liberals as well as Unionists, and this was found to be wholly groundless. Mr. F. A. Crane, the leader of the Farmers' Party, was a member of its audience, and he ventured to say that Mr. Crane would state, if invited to do so, that he knew of no cases of "corruption."

The fifteen members of the Farmers' Party at present in the House knew nothing of any so-called corruption since they had never brought this matter to the attention of the House. They knew of no corruption or else they did not possess the capacity to expose it in the House. In either case he did not think it would help matters very much to add another Farmer to the present House. Hon. Hugh Guthrie devoted considerable portion of his time to a discussion of the reasons which had induced him to join with the Government upon the abdication of Premier Meighen and extended an invitation to all Liberals to rally to the support of the administration, which he said was big enough and enterprising enough to honor all irrespective of race or creed.

Hon. F. B. McCurdy explained the law which required him to seek re-election on his appointment as Minister of Public Works and dealt briefly with the candidature of his opponent.

### Expeditionary Force No More

Ottawa, Aug. 25—The Canadian Expeditionary Force is no more. The fourteen N. C. O's who were employed to conclude the statistical work of the army yesterday, wrote "30" on the concluding page of a mass of records covering every unit and every man who ever donned the Canadian uniform.

Just the number of records kept of every individual man would come as a surprise to even the soldier whose records they are. The military department has original and duplicates of about twenty-one army forms relating to everyone who served.

Asked what was going to be done with the thousands of apparently useless books and army forms, a military department official stated that they would be carefully preserved and locked away.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions, and therefore requiring constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

### The Value of Advertising of and for Live Stock

To the well known, established breeders of live stock any advice on the value of advertising is superfluous or in the large majority of cases it has been by proper advertising of high class goods that they have built up their business. The purpose of this article is to call the attention of the amateur breeders, the beginners in the business, to the possibilities in advertising any live stock which they may have for sale. For example every year at the Central Experimental Farm, Ottawa, there is a deluge of enquiries as to the possibility of purchasing young animals of the various classes of live stock. Needless to say the Farm is unable to fill all wants for obvious reasons such as being sold out of the particular class of stock wanted; not having animals of age or sex wanted; and not keeping representatives of the breed wanted. In an endeavour to assist correspondents to locate the animals they wished to purchase the Farm has been forced to sometimes go late that breeders right in their own vicinity had animals of the class of stock wanted for sale, but as they had not been advertised for sale nor had the intending purchaser advertised his wants, both parties missed a chance to do business which would have benefited both.

From the above it would seem that a more extended scheme of advertising on the part of breeders who are either in need of or wish to dispose of stock would be profitable for all parties concerned. A small notice in the proper column of the local paper or in one of the farm papers which is popular in the district would serve the desired purpose quite adequately. If the number and quality of the animals warrant it, a larger advertisement with an illustration would be in order.

Advertising is of course of particular value in disposing of breeding stock or animals not in condition for sale on the regular market. The writer has in mind one particular class of stock, namely, good pure bred dairy bulls of good quality and known to be breeding good stock. Many of these find their way to the butcher's every year when it would be much to the advantage of the breeder as well as to the farmer's disposing of them and lucky enough to get them, if they were kept for further years of service. A little timely advertising would in many cases accomplish this end.

Timely advertising must be more or less seasonal. The greatest demand for dairy cattle and swine breeding stock is usually in the late winter and early spring, while sheep are more in demand in late summer and fall. Plan the advertising to meet the seasonal requirements and it can then be done most economically.

### PILES

Do not suffer today with itching, burning, or protruding Piles. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. See a box at Adams, or Edman, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

### Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they thoroughly cure indigestion and overcome the many annoying symptoms.

**Dr. Chase's Kidney-Liver Pills**

### England Faces an Industrial Crisis

Lord Beaverbrook Arrives in Canada Pessimistic

Montreal, Aug. 25—In an interview here today Lord Beaverbrook, proprietor of the London Daily Express, who has just arrived here from New York, stated that the threatened coal strike was incomparably the most important question in England today. "We are faced with the most serious industrial crisis in the world's history," he added that no one seriously doubted that the strike would take place and that the situation in England was being with political and social danger.

He stated that Premier Millerand's prestige had been increased immensely by the Polish victories and that he now viewed the European policy of the Allies.

### Methodist Church Annual Conference

ACTING UNDER instructions from the last Annual Conference, the Standing Missionary Conference met and arranged a schedule of District Conventional Conferences to be held in connection with the forthcoming Financial District Meetings.

The Rev. S. W. Dean, General Secretary of the Department of Finance of the Methodist Church and the President of Conference, Rev. D. R. Chown, B.A., will attend each of these Conferences and the Superintendent of Missions, Rev. E. Steel, will be present at as many as possible. The following subjects will have special emphasis at each of these Conferences: (a) "Renewal of specific effort in each local church in further pursuit of the spiritual aims set forth in the Methodist National Campaign." (b) "Presentation and consideration of work and needs of the Connexional enterprises of the Church, with definite plans for securing adequate financial support."

The conference for the Chatham District will be held at Newcastle on Wednesday, Sept. 30th at 2.30 p. m.

**SCHOOL OPENINGS POSTPONED**  
The Public school opening has been postponed until Tuesday Sept. 7th.

**BASKET SOCIAL**  
Don't forget the Basket Social in L. O. F. Hall, Thursday evening Sept. 2nd. See 22 in another column.

**BAND CONCERT**  
The usual Band Concert was given last Thursday evening by the Newcastle Band. Many enjoyed the music.

**HEAVY STORM**  
A heavy electrical and rain storm was experienced last Saturday about 8 p. m. in sections up river. Residents state it was the heaviest in many years.

**TRAGEDIA MAN HEADS THE LIST**  
The results of the Normal School Entrance examinations have been announced and Gloucester County has the distinction of having one of its students head the list for the whole province. This honor fell to William Arthur Lester of Tracadie, a member of a talented family which has previously won distinction in similar ways.

**BEAVERBROOK SCHOLARSHIP**  
Students who passed the University matriculation examinations, and who desire to be applicants for the Lord Beaverbrook scholarship, are asked to send in their applications to the committee before the first of September. The committee is composed of Lieut. Governor Pugsley, Judge Crockett, F. B. Ellis, with S. D. Simmons, of Fredericton, secretary.

**NEW SYSTEM TO BE INSTALLED**  
Messrs. E. D. Barrah & Co are putting on a new sale commencing Friday Sept. 2nd, which will last for ten days. The purpose of this sale is for the clearing out of the present retail stock, and the new system which they intend installing may be installed at once. Messrs. E. D. Barrah & Co intend making their retail business independent of their wholesale business, and in future their retail store will be departmentalized.

**IN CONVENTION**  
The Metropolitan Life Insurance Company, managers and agents, held a convention at St. John on Wednesday. In the morning there was a meeting in the Women's Institute, interesting talks were given by F. O. Ayres, second vice-president of the company, and Harry H. Kay, superintendent of agencies for Canada, both from New York. The business of the meeting was continued in the afternoon and the programme concluded with a banquet at seven o'clock in the Royal Hotel, which was presided over by the president, Haley Fleck, New York.

**Constipated Children**  
Children who suffer from constipation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild laxative which can always be depended upon to regulate the bowels and soothe the stomach. They are absolutely safe, and are sold under a guarantee to be entirely free from opiates or other injurious drugs. Concerning them, Mrs. Thomas A. Bisset, Lake Baker, N. B. writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**MONSTER PICNIC IN RINK**  
A monster picnic was held in the rink last Wednesday afternoon and evening by the Ladies Catholic Club. The location of the rink was temporarily converted for the occasion and booths, dancing pavilion and other tables were erected. The Newcastle Band performed in the afternoon and evening and some excellent music was played during the afternoon and evening. Large crowds of people were in attendance and the occasion was most attractive and enjoyable. Games and amusements were held and old mids. At 7 o'clock in the afternoon dancing began and the music provided by local talent was well received. From 9 to 11 the tables served a delicious dinner and many pleasing remarks were made concerning the high quality of the food and service. At 1 o'clock a coffee was served and enjoyed by a large number of people. Dancing continued until 3 o'clock. In the afternoon several games were played and the occasion was most enjoyable.

**W. C. T. U.**  
A meeting of the W. C. T. U. will be held in the Mission Hall, tonight (Tuesday) at 8 o'clock p. m.

**PULP MILL IS CLOSED**  
The Bathurst Lumber Company's pulp mill has been closed for several days because of a coal shortage, but it is probable that the plant will be reopened this week, as a supply of coal has been received and another is on the way. The mill was obliged to close early in the summer because of the coal situation.

**FIRE EXTINGUISHED**  
The fire which burned for three days in the coal bunkers of the steamer Soroka, has been extinguished and the work of loading was resumed Saturday.
