The Prayer Seeker. Along the aisles where prayer was made
A woman, all in black arrayed,
Close-veiled, between the kneeling host,
With gliding motion of a ghost,
Passed to the desk, and laid thereon
A scroll which bore these words alone,
Pray for me!

Poetry.

Back from the place of worshipping She glided like a guilty thing,
The rustle of her draperies stirred
By hurrying feet, alone was heard;
While, full of awe, the preacher read,
As out into the dark she sped:
"Pray for me!"

Back to the night from whence she came,
To unimagined grief or shame!
Across the threshold of that door
None knew the burden that she bore;
Alone she left the written scroll,
The legend of a troubled soul, —
Pray for me!

Glide on, poor ghost of woe or sin! Thou leav'st a common need within; Each bears, like thee, some nameless weigh Some misery inarticulate, Some secret sin, some shrouded dread, Some household sorrow all unsaid. Pray for us!

Pass on! The type of all thou art, Sad witness to the common heart! With face in veil and seal on fip, In mute and strange companionship Like thee we wander to and fro, Dumbly imploring as we go: Pray for us?

Ah, who shall pray, since he who pleads
Our want perchance hath greater needs?
Yet they who make their loss the gain
Of others shall not ask in vain,
And Heaven bends low to hear the prayer
Of love from lips of self-despair:
Pray for us!

A depraved condition of the blood or a shattered nervous system is the secret of most ills that afflict mankind, and by restor ing the blood and rebuilding the nerves Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, spinal troubles, loc motor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., these pills are superior to all other treatment. They are also a specific for the troubles which make the lives of so many women a burden and speedily restore the rich glow of health to allow cheeks. the leading London firms, which we have just received, points decidedly in the direcjust received, points decidedly in the direction of good prices in that market for this season's fruit. The crop in England is estimated to be the worst for twenty years, the entire yield being sufficient to supply the market for but one month. Last year it was just the opposite, the crop being the largest for years, and it was thought that but few if any apples from this side would be needed to supply the requirements. Nevertheless, a large part of our surplus yield was shipped to the English market at fairly remunerative prices. The fact that this can be done even when there is an abundant crop over there goes to show the enormous capacity of that market and the unprobability of its being glutted under ordinary circumstant. city of that market and the unprobability of more satisfactory. The one weak point in the fruit trade of this province is the extravagant cost now required to bridge the distance between producer and consumer. With the present rate of freight, and the various charges on the other side, it takes about one dollar and a half per barrel to do this. It is safe to say that this is nearly double what it should be, and it is really much more than it costs to ship them from ports in the United States, where, on account of the competition, the freight rates are much more reasonable. To what extent the establishment of a fast line of steamers,

remains to be seen. If the new enterprise does not do something in this direction, i will certainly be of little benefit to the great bulk of our people, as it was hardly worth while voting so large a subsidy to assist in y. With this object gained the fast line rove a great boon to our fruit growers ners generally, and the subsidy given

This virtually ends all tariff legislation at Washington for several years at least. Should the November elections change the complexion of the House and give the convergence of the House and House and Industry and House and Washington for several years at least. Should the November elections change the complexion of the House and give the control of it to the republicans, the president would certainly veto any tariff legislation that party would be likely to pass. Many things may occur before the next president is ready to aummons the next Congress to assemble for the despatch of business. But even should he be a republican, with a majority of both branches of congress in sympathy with him, it is doubtful if another such pathy with him, it is doubtful if another such tariff as the McKinley bill would be again passed. The experience of our neighbors since that famous measure was enacted has been such that not even the most zealous protectionist would care to see it repeated. Once ought to be enough of that kind of

-THE Patrons of Industry of Ontario are already beginning to mature plans for conducting the next dominion election to best advantage. The Grand President of the Mr. and Mrs. Marshall are both successful teachers, the former being a grade "A" teacher, at present in charge of the Richmond school, Halifax, and the latter having taken a course at Rev. D. L. Moody's seminary for ladies, at Northfield, Mass, besides holding a grade "B" license, and being a graduate of the Provincial Normal school, Truro. order has just issued an address to the members instructing them to call conventions in the situation. He assures them that a great v ctory was achieved in the late provin cial contest in that province, but that a greater contest is now coming. He also parties or factions but to stand together for the principles of the party. These things clearly indicate that the Patrons have come to stay. And as they now very largely hold the fate of Sir Oliver Mowat's government in their hands, it is evident that they intend to make an effort to gain the same position in the larger sphere at Ottawa. A government there with a body of independent members holding the balance of power would certainly be a new experience in Canadian history. But worse things than that might happen. With such a condition of things, provided of course these independent memers were sufficiently patriotic and incorruptible, the country would probably be well governed and we should hear of no scandals such as have filled the political atmosphere of late years.

—A public meeting to make arrangements for the reception of the Governor-Jeneral and the Countess of Aberdeen was held at the court house Annapolis, last Tuesday evening, when committees were appointed to prepare an address for presentation to his excellency on arrival on Monday next, and for general purposes in connection with the visit of the distinguished visitors. A resolution requesting the town council to make an appropriation to cover the necessary expenses was carried unanimously.

The home of Fletcher Bent, Esq., Paradise, presented a very busy and picturesque appearance on Saturday afternoon, Aug. 18th, in answer to a large number of invitations which had been issued to the relatives and friends of the late Warren and Fanny Bent, to meet at the residence of that gentleman on that day between the hours of two and seven clock now as over one hundred quests.

Boole, with others, on the success of the present meeting.

Dr. Hall being asked to make a few remarks, responded by expressing the pleasure it afforded him in being present at this large and grand family re-union. He felt that such meetings would tend to enlarge men's sympathies and make them more cosmopolitan. The company then sang "Auld Lang Syne," after which the Rev. Mr. Kinley made some very appropriate remarks and closed by offering prayer.

The company then sang "God be with you till we Meet Again," and the "National Anthem."

MRS. HARRISON'S CONCERT.—A rare treat was enjoyed on Saturday evening by the musically interested people of Bridgetown in the privilege of hearing the talented Canadian vocalist, Mrs. Harrison, supported by Miss Edith Troy, pianist and contralto, and Mr. Raymond Clare Archibald, violinist. The marvellous power and flexibility of Mrs. Harrison's voice was admirably displayed in the various selections rendered by her, each and every selection calling forth rapturous applause. Numerous encores were demanded, which were graciously responded to. The young artists who accompanded her also acquitted themselves admirably and were well received. It is a matter of regret that, this season's one of almost perfect pleasure. The thanks of all present are due to the latter for their untiring efforts for the comfort and pleasure of their guests.

Stricken With Paralysis.

We are sorry to report the very serious illness of Councillor Beals, of South William ston, who lies in a dangerous condition from the effects of a stroke of paralysis which happened on Wednesday afternoon last. Mr. Beals and his hired man were in the field looking after some work, when he suddenly complained that his leg was becoming numb, and shortly afterwards he was seized with what appeared to his companion to be a fit. As soon as possible the sufferer was conveyed to his home and medical aid hastily summoned, when it was found that his entire right side was completely paralyzed and that he had also lost the use of speech. At latest accounts there had been no change for the better, and the hopes for his recovery are but slight. make an appropriation to cover the necessary expenses was carried unanimously.

Our schools opened on Monday morning last with a good attendance in both departments, and a bright outlook for an excellent year's work. Mr. A. E. Dunlop, B. A., is the new principal, and Miss Nina Phinney has charge of the primary department. Mr. Dunlop is an honor graduate of Acadia College of the present year's class, and holds a diploma of the first rank from the provincial Normal School. He took an Acadamic or Grade A license at the recent examination, recommended by Dr. Hall and other educationists, as possessing especial aptitude for the work of a teacher, in addition to his literary qualifications. Miss Phinney also is recommended by Inspector Morse as among the best teachers of her grade in his district.

During vacation the school-house has been given a new coat of paint of a very pretty dark brown color, which greatly improves its appearance. The school grounds have been neatly and tastefully levelled and graded and a nice new fence built around the entire school lot. This latter is a light board fence built of planed lumber on three sides of the lot and of pickets on the fourth, which faces the street. It greatly adds to the appearance of the school property, making it a credit to the town. Reprinted from the St. Andrews Beacon by re-Moses Shaw, my great grandfather, was orn Jan. 18, 1735. Ann, his wife, was born Feb. 16, 1738. The dates of the birth of their children are as follows: Isaiah Shaw, Oct. 11, 1763; Elizabeth, Dec. 26, 1764;

Moses, Sept. 23, 1766. On April 1, 1770, Elizabeth and Moses, Taking advantage of the fine weather, stripped their tiny feet of shoes and stockings, and were following their father, who was ploughing with a yoke of oxen, around and about the fiel

mother, who was a smoker of tobacco, and ent to a neighbor's house to borrow a fig of that weed for her benefit. Having obtained the tobacco they started homeward, on a path through the woods. Becoming absorbed with childish fancies they wandered off the path and were soon-lost in the woods.

As soon as it was generally known that the children were lost the neighbors turned out en masse, and for three days the surrounding country was searched, over and up the face of the North Mountain, between the Annapolis Basin and the Bay of Fundy on the north. Thinking it impossible for them to go up the mountain they gave up the search and decided that either the bears had devoured them, the Indians had stolen

Experience.

While the following statement of A. D. Thompson, of Montreal, is of local interest as coming from him, it is also of universal interest because it emphasizes a great truth. Mr. Thompson says:—"Being troubled with masal catarrh I was advised to try Hawker's catarrh cure, which I did, and since using it the catarrh has disappeared entirely; in fact I can walk all day and breathe through my nose without the least trouble." What Mr. Thompson says has been the experience, has been the experience of thousands. Even the most aggravated forms of catarrh yield to the wonderful curative power of Hawker's catarrh cure. It restores the breath to its pristine sweetness and removes all disagree able and unhealthy symptoms of the disease. It is a marvellously quick and sure cure for cold in the head, and will relieve the deafness caused by catarrh. For sale by all druggists at 25 cents per box. The remedy has no equal in its field of operation.

you, madam." The woman started towards the vacant seat, when her obese companior with a sigh of satisfaction, settled down in the seat before she could reach it. The young man was surprised, but his surprise soon gave way to anger. At first he thought that the puffing old German had made a mistake, but he was soon convinced that the action was intentional. Tapping him on the shoulder, he said quietly: "I beg your pardon, but I gave my seat

A gentleman living out on College street drove down to the city the other evening after his wife, and not finding her, started home again. After leaving the city he saw which he took for his better-half. Riding up to her, he said: "Get in," when she turned a strange face up to him and answered: "Thank you, sir; you look all right, but I don't know you.'

He apologized and drove on, when he saw another lady walking on ahead. This for you. Will you ride home with me? "I guess that you have made a mistake," It does not sound like fact, but he did see-
