NOTICE!

W. B. McKEOWN, Administrator.

The Children of Earth. Down by the sea on a summer day I doz: and dream while the children play, Gleefully heaping their hills of sand, Calling them palaces high and grand; A clam shell serves for the great front door And the walk is a bit of a broken oar, While plate and platter and bowl and cup Are polished pebbles the sea brings up.

Poetry.

And king and queen in their royal state
Pass in and out through a seaweed gate;
And lord and lady ride to and fro
Till a far voice calls, "It is time to go!"
To gems and jewels and palace tall
They bid farewell, and they leave them all,
While the tide comes laughingly up the bay,
And the sand made palace is washed away.

Deep in the city I see the men
Playing the childish games again—
Building a palace of brick and stone
And playfully calling it all their own;
The walls are laid with the cares of wealth,
And the roof is patched with their broken
health. health, And plate and platter and bowl and cup Are polished trinkets their toil brings up.

And king and queen in their royal state Pass in and out through a golden gate, And lord and lady ride to and fro Till a far voice calls, "It is time to go!" Till a far voice calls, "It is time to go:
From gems and jswels and palace tall
They turn away, and they leave them all,
And time looks on through a thousand year
And the man made palace—it disappears.

"You'd never guess some of the jobs we modestly refrained from doing so. The bicycle has had an important influ get," said the bright boy sergeant in the largest messenger office in the country. "I remember that when I first began work in sound and much of the work is now done remember that when I first began work in our uptown office a woman came in one day and had the superintendent line up a dozen of us. Then she looked us all over and picking me out, said:—'Come up to my house that officers and the superintendent of the work, and he is especially proud of it.

this afternoon, please. When I went she took me into one of her rooms where there was a chubby little baby kicking up his heels on the floor. 'Here, baby,' she said, 'here's the boy that's going to play with you this afternoon and you must be very good and afternoon and you must be very good and play nicely with him. You know how well hold a candle to our bieycle squad." Buffalo Bill's rough riders of the world can t

There was material for three new dresses, a both of muslin, shoer, gloves, bonnet, and a box of dainty handkerchiefs. While they mere examining the last of these, Rose came to her mother with her camera in her hand. "Mother," she said, "I have been regreting all the time we were planning this trip that I had invested my money in a camera, please, that when I grow sentimental, it's over my mother!"

Carsis colored very slightly, and then

There was material for three new dresses, a bonnet, and a box of dainty handkerchiefs. While they are old boy likes to take care of a baby, perhaps. I didn't know which end of a fifteen year old boy likes to take care of a baby, perhaps. I didn't know which end of him to take hold of at first, and I tell you I was mad to think that she had got me up there to tend baby. But the little fellow was so jolly that I soon grew to like him, and after that I used to go up one afternoon every week when the nurse girl was out, to take care of the baby. I had to wheel him places and people that you are interesting member of the great boy world, and promises to grow into a worthy and desirable citizen.

NEWS OF THE WORLD.

The imperial authorities are building a new fort at Dover Island, commanding the entrance to St. Margarets Bay. "That isn't half so bad as something I had

she sent me back to the office."

"That isn't half so bad as something I had when I was new on the force," said a rosy-cheeked boy, who sat on the bench waiting for a call. "There was a young lady up on the avenue who had a fine young buildog. The dog had been given to her by somebody and she thought more of it than some folks do of their children. Every moraing I had to take the dog out for a walk of a couple of hours. He was the worst dog I ever saw. He wanted to run after every cat and every bird we saw in the street or the park and when we met another dog it was all I could do to prevent a fight. One day we were walking through the park when another buildog came up to Riddy (that was the name of my dog) and sniffed at him. Somehow or other Riddly slipped the chain by which I was leading him and in half a minute the liveliest kind of a dog fight was going on right there. I tried to separate them, but a man who was standing by told me to keep back and let them have it out. It was a man who was standing by told me to keep back and let them have it out. It was a back and let them have it out. It was a which left a large number of Sniders to be disposed of. These were purchased by contract at a very low price, and are now being placed on the market.

As a means of paying off the war debt, which is claimed to be \$400,000,000, the

man who was standing by told me to keep back and let them have it out. It was a great fight, but when it was over my dog had a limp in one leg, his right eye was closed, and he didn't look half so pretty as he had in the morning. My, but wann't that young woman mad? She made a complaint at the office and I nearly lost my place as the result. There was one good thing about it, though; I've never had to lead dogs since then."

"One of the funniest things I ever had was last summer," resumed the sergeant.
"A man rushed in here and said that his horse had run away, and he wanted a boy to

be ready for occupancy early next month. should become thoroughly established. Such an exemption would constitute but a slight the house on Washington St., at present occupied by Elias Messenger, Eq. 11 O. F. Ruffee. tributed over the whole assessment of the corporation and no doubt such a provision would be sanctioned by a large majority of the ratepayers. Evidence that the corpor- Rogers. ation will extend liberal treatment to the ation will extend liberal treatment to the enterprise would have a wholesome effect in furthering its promotion.

—Albert Bezauson while digging in his cellar at Williamston, recently, found a rest of snakes from four inches to a foot long and numbering fully 100.

is the petition that is now being circulated ten years as an inducement for them to remain here instead of accepting the bonus offered them by an ambitious town further up the valley. In this case it is a question of halding what we have and there are fav. of holding what we have, and the indeed, of our tax-payers, who, recognizing dryer at Annapolis, quantities of fish from the payers. ond any reasonable effort to keep it here. The business distributes many thousands of dollars of ready money in the town each year; evidently the town has made more out of the business than the business than the business. from this business establishment, will not sec- | and other places on Digby Neck. evidently the town has made more out of the business than the business has made out of the town. Any concessions that are to be made should be made heartily and in appreciation of the value of an industry that has grown, without any particular encouragement from local sources, until its business field extends practically all over the province.

a good many points along the tiver.

— Eben L Cowling, formerly of Annapolis, died at Moncton on the 10th iner. aged 75 years. He was a brother of the late Edward Cowling, judge of probate at Annapolis.

— Mr. C. E. Beckwith, of Steam Mill Village, Kings county, one of the owners of the stallion R. T. M., 2 254, effers to match that horse ageinst Lydiard's Warren Guy, 2 123.

-Osean apple freights are the subject of much animated discussion nowadays in cursister county of Kings and a new light is thrown on the recent heavy shipments of market. apples from that county to London, via Bosems. Is is stated that a Wolfville shipper, who sent 20,000 barrels by this new and indirect route, did so at a saving of 25 cents are barrel, as compared with the charges of the Furness line from Halifax. If this statement represents the true situation, the sooner a remedy is found the better it will be for our fruit growing industry. Subsidized steamers sailing from Halfer. be for our truit growing industry. Substdized hundred miles nearer their destination than Boston, ought certainly to have a freight schedule as low as steamers saling from the last mentioned and more distant part. The streets of the town are inches deep with mud and the roads outside are in such a condition as to seriously effect the trade of our merchants, who are anxiously waiting for a general fretze up. schedule as low as steamers sating from the last mentioned and more distant port. The discrepancy is sufficiently large to be noticeable, and a correction of the injustice is urgently required.

To a general freeze up.

- G. O. Gates, of Truro, practical piano and organ tuner is in the valley. Anyone wanting his services will address Bridgetown, Middleton, or Lawrencetown, to the nearest place of residence of applicant.

conducted with the same vigor that is displayed in the race for provincial or federal honors. The reason for this newly awakened interest lies in the fact that, since the nonors. The reason for this newly awakened interest lies in the fact that, since the voters' lists are prepared by revisors appointed by the municipal councils, it stands both parties in hand to make the most of opportunities that exist for manipulating these lists for party advantage. It is not improbable that the new franchise act will tend to do away with such political anomalies as provinces that are provincially liberal and federally conservative. The measure will force political issues more strongly than ever into the municipal areas and in this respect it will hardly subserve the interests of good government.

On Hanksgiving Day by a reception to the general public from 3.30 to 5.30 to

week resulted in a slight general gain for the | subsides. predicted, Roosevelt was elected governor over Van Wyck, who, slibough elected Myor of New York city by a sceening ma. Mayor of New York city by a sweeping majority, at the last civic election, could not get a sufficient majority within the city limits to overcome his opponents plurality in the country. Governor Wolcott, of Massachusetts, was elected for a fourth term, deachusetts, was elected for a fourth term, defeating Bruce by a substantial majority.

Nova Scotla Oll and Coal.

Montreal Herald: Montrealers are shout to place the controlling portion of \$1,000,000 in di and coal fields of Nova Scotla. The Canadian Oil and Coal company of Montrealers are sked for incorporation: William Syrachan, manufacturer; James William Pyke, merchant; Beaumont Shepperd, marager; Garrett H Bleidrum, broker, of Montreal and Hon Ashley W. Cole, of Albany, N. Y. The object of the company is to buy out the East Bay Coal company, of Nova Scotla. The company owns extensive coal and oil fields, and the new organization will operate both. It will, however, give special attention to oil, which is said to exis in large quantities on the property. The East Bay Coal company is controlled chiefly by New York capital, but all arrangements for the transfer to the Montrealers have been completed. pleted.

Shipping Increase at Digby.

Interesting Ruling. Interesting Ruling.

Sutton, Que., Nov. 10.—Messra, James Lafleur and N. P. Emerson have been condemned to pay the costs in two of the liquor cases which were recently tried before them. They fined certain hotel keepers for infi ingements of the Scott Act. An appeal was taken on the ground that Emerson and Lafleur were members of the Brome County Temperance Alliance and as such had no jurisdiction inasmuch as the Alliance's agen was the prosecutor. Judge Lynch upfield the appeal and the costs went against the magistrates. They amount to about a hundred and fifty dollare. An appeal of a somewhat similar nature has also hern taken by Frank Fyles, of Abercorn, in three cas swhere he was condemned by the same magis trates. His Honor still has these appeals

Coulter White, pastor ROUND HILL—G. J. Coulter White, pastor Preaching service on the 1st Sunday of the month at 11 s.m., and on other Sundays at 1 p.m. Prayer-meeting Tuesday evening at 7.39 o'clock. Sunday-school after morning service, other Sundays at 2.30 p.m.

Births,

Proop.—At Bridgetown, Nov. 15th, to Mr. and Mrs. Eugene Troop, a son,

Economy

The Royal Baking Powder is more economical than cream of tartar and soda for raising biscuit, bread and cake. First, because of its great leavening strength, which makes it go farther; second, because its work is evenly perfect, so that no good materials are wasted; third, because it makes food that is more nutritious and wholesome,

economizing health. Government Analyst Valade of Ontario says that Royal Baking Powder should be used in every household.

Faith Held Fast.

"I suppose," said the genial and sprightly redit one of the most unique of war experiences. The man who is now my husband service, and the gallant General Lyon, under whom they first fought, paid them the compliment of saying that he regarded them as ments of Frederick the Great when he re-

revolver and sword against overwhelming odds. There is consolation in the thought that a man you love has given his life for his country, fighting to the death for a vindication of his principles, but even that balm no reason to alter it in any way. The creacannot assuage the sorrow of a heart that ture has so many talents and so many ways not through the summer. The best eggshell has lost what was dearer than all else.

"And I had to endure far more than the loss of a promised husband who was dearer higher, swifter and oftener than a mule, ens can get it easily the year around. If there was a woman from Iowa at the home kicking match. Then it can bite worse than dried in chunks, then broken into small bits of the colonel's parents claiming to have been a vicious horse, and buck in a way to make and placed where the flock can reach it and his promised bride and showing a will in a bronco blush with absolute shame. No not scratch it all over the henhouse floor, which she was n ade heir to everything he rider ever lived who can stay on that perch will do-as well as imported clam shell. possessed. For the property I cared nothing, but there was the bitterness of death in the rness of death in the thought that suspicion should be cast upon

his loyalty and honor.
"Not for a moment did I entertain the would have been to surrender the one joy left me. When I felt equal to it. I went to see her. She was brilliantly beautiful, and, in my prejudiced judgement, had a fascinacould have carried through the interview with patience and decorum had she not dared to condole with me and attack the character of the colonel as a man unworthy in a way that at least attested the sincerity of my love. In my anger I denounced he as an imposter, designing, unprincipalled and

"Her answer was a heartless laugh and production of the will. As far as I could judge it was in his handwriting and had been duly probated, and yet I was as certain as of my own existence that he had loved only me and that this creature was utterly unworthy

"You remember Morgan's raid into Ohio. never gain except by actual contact. I stood by when the bold raider went through that for any animal gratification for which he laughable farce of surrendering to a town- could find opportunity. ship constable and making terms that would

leader, who told me pleasantly how delighted he was that my lint and medicines were mischief, the stoker stumbled against her, ing one of his officers rode up, and I recognized in him the brother of an old school the war. He had been a friend of the colonel's and asked me when I had last heard She bent here and stooped there, and when ears, and then I told him the sad story.

"He was not killed," he hurriedly assured me. "I myself helped to carry him from the field. He recovered in the hospital an is yet a prisoner of war. He was an invalid for some 18 months, and I know that he was sent to Andersonville some six months ago "I believe that I should have died had this hope proved a false one, but I myself went to Washington, and I had no soone told my story to President Lincoln than he

moved in the matter, and when I returned home the colonel a mere shadow of his form er self, was with me. I never intimated to him that there was a woman claiming t have supplanted me in his affections, but the night of our return she went away.

"She surrendered all the colonel's property to the control of the court and disappeare so completely that all effort to trace her was ineffectual. This diamond ring was sent to me 20 years ago from New Orleans, and I am happy in the belief that she sent it as a peace offering and a token of repentance. As for the colonel, he had never seen her and does not know to this day whether she will We had a boy before Santiago, and he, the record tells, was worthy of his sol dier father .- Detroit Press.

A few years ago it was a rare thing t hear of a person being sillicted with "appendicitis." It was a generally understood thing that somewhere in our make up lay s mysterious little pocket into which, if a fruit seed should become lodged the dread disease known as appendicitis must follow, The nervous and timid; consequent upon this belief, abstained from eating grapes and salutary part of their diet, and causing themselves no little anxiety. Of late appendicitis and a medical man has endeavored to correct the popular misconception as to its cause. He says that while it is possible that a seed lodging in this little pocket-known in medical parlance as the veriform appendix, such a thing is rare. The experience of one well-known physician proves this, in that though he has performed many operations he has never found a seed to be the cause of the veriform appendix if the neck is open wide half years old. enough to receive it. It may remain there for years and cause no trouble, and then, again, it may bring on appendicitis almost immediately. Out of a large number of half years old. cases treated for appendicitis, only 4 per ent. were caused by foreign matter b ing lodged in the veriform appendix, while cretions, and 60 to 80 per cent, recovered without operations being performed. Docors have learned a great deal about appendicitis of late years, and if properly recognized

artists and literary men waxed enthusiastic in praise of favorite painters. "His glorious coloring is a fact about Titian," said one.
"And his glorious drawing is another fact about Titian," cried a second. Carlyle, who had been listening in silence, interrupted the remarks by saying, with slow deliberation:

"And his glorrous trawing is and the riset about 1 the decay from corner to corner to corner to corner. By placing the cross of St. George on that of St. Andrew we have "the Jack" as ordered in 1606 by James I, whose signature of God, who knows nothing about Titian, and cares nothing about Titian—and that's another fact about Titian!" Thackeray, sipping claret at the moment, paused and bowed courteously to Carlyle, as he remark. have "the Union Jack," as borne since the ed: "Pardon me, that is not a fact about

An officer who has been residing some time in Egypt sends the following graphic description of his experience with that amia-ble and useful animal the camel. "You can well imagine that there's a circus around here while the usual riding instruction is going on. When the untamed camels first arrived at our camp I heard a tremendous the winter and strip millet of leaves and growling in front of the door, and on going heads if put where they will not trample the then a comparatively small state. It is a matter record that he commanded one of the every expression of disgust both in his Gazette. In very cold weather my hens will countenance and voice. The man stopped | go a week without touching water that has wice, and the gallant General Lyon, under the common they first fought, paid them the comment of saying that he regarded them as fincible against twice their numbers. The and, striking out with his forefeet, landed dishes, cooking utensils and the like. Corn colonel himself was more than six feet, on the keeper's stomach and head, sending is often so flinty that in cracking some meal and every man under him met the require- him flying through space as if shot out of a is made. A shallow box with the bottom off cannon. The man picked himself out of the ditch with a hand on each bruised part, and sieve at feeding time. When the hens show cruited his famous grenadiers.

"I was betrothed to the colonel, and, though back in Ohio, I followed every movement of the regiment as closely as if I were robust natives and led to the tents, or rathwith it. One evening we received the news of that terrible battle at Pleasant Hill, and very sharp iron rod applied in a most vigortwo days later came a letter from the lieutenaut colonel telling me that the colonel had hibitions are being conducted here daily, been killed while making a last stand with and we are now ready to lead the recently the dry bread that accumulates around the

me than life itself. Within a month and can use all four feet at one time in a sand is not obtainable, the lime slacked and with considerable interest. seven feet from the ground during a camel's with a desire to slope. Upon an occasion struggling against the throes of an earth-quake until all his joints are dislocated, and he drops, a limp, inert mass, to the ground. Then this sweet creature has a way of evincing his displeasure that is, at least, effectual and convincing. He twists his snake like neck into a circle, and poking his ugly nose such a fetid breath that the elevated human victim is fairly blown into the middle of the coming month (a week being too short a distance). And yet, with all these high recommendations, which some people might consider objectionable, these are the dear animals I am constantly brought into contact with, and for which I am even begin-

ning to form an effection.

A English tramp steamer had just been tied to a wharf in Boston. From her dingy hold there leaped upon the deck a man who oringing war to our very doors and gives us | was evidently a stoker. He was black with eption of its horrors such as we could grime, reckless of face, eager for release from

As he emerged upon the main street, lookhave sent him back unharmed to the south. | ing probably for the nearest saloon, he saw a colored woman walking sedately toward upset the basket upon the pavement, and coat, for young men were just as anxious for then stood aside to laugh at invectives which souvenirs then as now. While we were talk- he supposed his trick would bring forth. But the old colored woman did not even look at her tormentor. She bent and quietly mate whom I had visited in Kentucky before | picked up her apples. There was not even the war. He had been a friend of the colonel's and asked me when I had last heard from him. My response was a burst of she had recovered her last apple she turned from him. The had been a friend of the colonel's and asked me when I had last heard from him. My response was a burst of she had recovered her last apple she turned from him. They should be taken direct to the charm and glow long after the originals have pon the astonished man with a pathetic dignity that forced respect, and said, in tones of simple kindness:

"God forgive you, my son, as I do." The rudeness that had counted on a bitter perating was softened in an instant. The man's coarse lips parted, his hard eyes fell, he tried to speak; then he thrust his hands into his pockets and pulled out all the silver he had. This he forced upon the silent

"Take it," he said, and then added, as she looked at him in astonishment, "God bless you, mother ! I'll never do it again !" That which is probably one of the hardest sayings of Christ to accept, one that has received the ridicule of centuries, is illustrated in this incident. The principle involved in the command to turn the other cheek to the smiter is utterly antagonistic to natural human impulse. "A soft answer turneth away wrath" is a form of presentation of the same principle, that in theory, at least, is somewhat readily acknowledged; and its truth was never more emphatically verified t'an in the incident we have described.

Mr. Nelson, the most distinguished ca English actuaries, after long and careful in vestigation and comparisons, accertained by actual experience the following astounding

Between the ages of fifteen and twenty where ten total abstainers die, eighteen oderate drinkers die. Between the ages of twenty and thirty, where ten total abstainers die, thirty-one

moderate drinkers die. Between the ages of thirty and forty, where en total abstainers die, forty moderate drinkers die.

Or, expressing the fact in another form,

A total abstainer twenty years old has the chance of living forty-four years, longer, or until sixty-four years old. A moderate drinker has the chance of living fifteen and one-half years longer, or until thirty-five and one-half years old.

A total abstainer thirt years old has the longer, or until sixty-six and one half years A moderate drinker thirty years old has

A total abstainer forty years old has the pletely subdued her that she walked hom chance of living twenty-eight and one half some four miles tied behind a wagon a years longer, or until sixty-eight and one-A moderate drinker forty years old has the

Harvesting and Storing Roots. When these crops are intended for stock eed leave in the ground until there is reason to expect heavy frosts. Those varieties which grow with a large part of the root above ground can be easily pulled by hand. ther kinds can be lifted with machines made especially for this purpose, if the crops are grown on a large scale. These implements are provided with two shoes which run several inches beneath the surface of the ground and loosen the roots so that they can be pulled out with but little effort. If it is not advisable to get a lifter, plough a likely to pass away. It is a permanent deep furrow along one side of the row close to the roots. They can then be removed easily and placed in piles. Topping may be done before digging, using a sharp hoe for the purpose, but there is some danger of injuring the upper part of the root and has:ening decay. Consequently where the roots are to be kept any considerable length of time, the top should be twisted off or care. The fleeting glory of the tunset, the transifully cut off with a corn knife or some other

dried thoroughly. If pitted in the open field, select a high, dry spot, excavate to a depth of 10 or 12 inches, put in the roots, piliog up neatly. Cover with a thick layer of straw or leaves and put on a little earth to keep the wind from blowing off the covering. As the cold increases keep adding earth until the pit is covered sufficiently deep to prevent freezing. In central latitudes three feet is usually sufficient. Some seasons considerably less will answer. It is well to leave a small tuft of straw sticking from the top to act as a ventilator. In a regular root cellar the only precautions to be observed are projer ventilation and immunity from frost

Orange Judd Farmer. A Good Word for the Crow.

Investigations of the food habits of the crow, based on an examination of 909 stcmachs, show that 29 per cent. of the food for the year consists of grain, of which corn constitutes something more than 21 per cent. the greatest quantity being eaten in the three winter months.

On the other hand, the loss of grain is offset by the destruction of insects. These constitute more than 25 per cent. of the crow's yearly diet, and the larger part of them are noxious. If we add the mice, rab bits and other harmful mammals destroyed, we have a total of about 25 per cent. of the food consisting of animals whose destruct tion is a benefit to the farmer.

With the well known propensity of th crow for searching highways and byways, stockyards and pastures, it must be admitted that at least one-half the grain eaten is waste which entails no loss. The remainder of the crow's diet consists of wild fruit, seeds and various animal substances which may on the whole be considered neutral. -P. E. I. Beal, in Fruit.

How to Lead a Wild Cow. "A few years ago," writes a reader of The Farmers' Advocate, "I purchased a highly mettled Jersey heifer. She was sent from her former owner by train, and when she chance of living thirty six and one-half years arrived at our station she was so wild and excited we could not untie her in the car loose, she would go over everything jumpable the chance of living thirteen and one half So we threw a blanket over her head and digested food may find its way into the years longer, or until forty-three and one untied her, then tied an old sack over her quietly as anyone could wish. In a few years the cow was again sold, and her pur chaser, although confident he could lead any chance of living eleven and one half years cow, could not get her home until he had longer, or until fifty-one and one half years taken my advice in blindfolding her with an

For keeping up the vigor and health of an orchard a manure consisting of three parts wood ashes and one of bonemeal will be useful, says Prof. Kedzie. If wood ashes cannot be had, then a mixture of two parts of muriate of potash and three of bonemeal may be substituted, as recommended by

At St. Luke's Homeopathic Hospital, says the Cincinnatti Enquirer, a girl is undergo ing skin repair for an ulcer resulting from severe burn of the arm received three years ago. Every possible effort has been made from time to time to get the raw surface to heal, but the flesh was gone nearly to the bone, and the arm was so contracted healing would not take place.

The surgeons at the hospital about three weeks ago put the patient under ether and straightened the arm, and then took small strips of skin from the thigh and transplan ed them to the ulcer. Some of these skin grafts have attached themselves to the ulcer and are growing. The ulcer has thus been Finally frogs were called into service.

About one and a half dozen were secured by a boy from the ponds round about, and, after getting the arm exposed and prepared for the purpose, the frogs were pinned on their backs to a board, and the skin from the breast removed with scissors. As each piece solution and then carefully transferred to the new surface of the patient. In this way the ulcer was covered in. Over the grafts protectine was placed, and the arm wrapped up The patient appreciates the superiority

-The demand for professionally trained teachers is steadily increasing, and the best graduates of the schools are engaged promptly, and some of them are secured before of the teachers in the public schools. The school systems are feeling the effects of new | tween Kingsport and Parrsboro. developments in science, especially such as have been made in the study of the minds of children by President G. Stanley Hall of Clark University, in Worcester, and men of that type. The new psychology has changed ideas of education materially. The old psymanner of handling them. It is remarkable chology assumed that certain faculties o grown people were possessed by children, though in an undeveloped stage. Education then tried to bring them out. The new psychology affirms that education canno not been developed, but that the development of nature must be waited for. The new ideas pay much more attention to the motor nervous system of the children. That activity which all children show, that restessness is utilized and turned to account as a part of nature which is to be trained and encouraged. Hence much more attention i paid to the training of the hand and of the eye in connection with work which requires mental effort. This is the idea which underlies manual training and all other instruction in this line. Drawing, paper cutting moulding and sewing are incl of occupations which train the muscular, nervous and mental faculties at the same time. This advance of modern education. says the secretary, is not a fad, nor is it

Drying the Children's Shoes, Damp shoes are always walking toward disease and death," says an eminent physi-cian, and a more impressive truth it would be difficult to put into words. Children nust play out of doors, and they will run about in all weathers. It is almost always the case that when the little shoes come off at night, they are damp, if not actually wet. The careless mother passes them by, thinking that they will dry by morning, forget-

ting that, even though they do dry, they will be harsh, uncomfortable and irritating to tender little feet, and may lay the foundation for discomfort and suffering untold.
When the little ones have finished their play they should be taught to remove their hoes and stockings and put on dry ones House shoes of soft leather or felt are in expensive and comfortable, and they last a long time, beside being a great saving in oise and the nerve irritation that is often harder to bear than the laborious work

with which the house mother has to struggle. As soon as the shoes are taken off they should be filled to the very top with dry oats. It is a custom of one the most provi Furniture! dent women that ever raised a family to prepare stocking feet of the sizes of the various ter git at is how many Julys I ken recolleck, shoes worn by the children. These are num-bered and hung up on a nail in the entryway, where the little ones keep their wrap pings. These stocking feet have short tops in fact, are shaped more like a baby's soci than anything else. They are fillled with oats and sewed up at the top. A couple of inches of extra rosm is allowed at the top and when the shoes are to be filled, the oats

are shaken loosely through the stocking, then it is put into the shoe and adjusted as nearly in the form of a human foot as possisible. A few gentle raps will settle the oat into the shoe; then a strong cord is tied around the stocking top as close to the grain as possible. The oats being perfectly dry, occupy a given amount of space. As they absorb the moisture, which they begin to do immediately, they swell a little and keep the

leather from shrinking.

If one has the time and strength to do so it is quite worth while the last thing before retiring to take a cloth saturated with oil and rub the shoes all over. If everything is kept ready at hand this occupies but a minute, and unquestionably increases the wear of the shoes twenty-five per cent. At least once a week the shoes should be turned upon the sides, with the soles to a warm fire. When the leather is as warm as the hand, or possibly at a temperature of 100 degrees, coat the soles of the shoes with a preparation made by melting one ounce of good yellow bees wax, a piece of resin the size of a thim ble, and a pint of good linseed oil together. this should originally be put in a hot water bath, and when the ingredients are all mel ted should be removed from the water and stirred until cold. This may be kept in a can or pot with a small brush ready for use It is claimed that this coating of wax and oil will double the wearing quality of slice soles, and it certainly renders them water

proof. The leather should be warm enough with him ?" to absorb the preparation very readily, the oil itself being warmed to about blood heat Care must be taken that neither the leather If the shoes are of heavy leather and have xings all around, as is the case with some hildren's shoes, this foxing portion may be poated with the oil mixture. It is not, how ever, very good for thin leather. Boys and

girls alike should wear calf shoes in bad weather, and when it is very sloppy rubbers are indispensable. Damp and cold feet are Good day, sah."-Arkansas Traveller. responsible for more colds than physicians will ever be able to cure. Seven tenths of the children in suburban districts have catraceable directly to the practice of going about with the damp or wet. The best preventive of throat or head troubles is to keep | that there are times when it is dangerous to the feet dry and warm. While catarrhel troubles may exist with children who never have wet feet, they are the exception and not the rule, and are likely to come from | in his chair. constitutional or hereditary causes. -N. Y.

-Control your temper for the sake of your health and good looks if for no higher reason. It is not enough, either, merely pression. A smouldering fire is far more dangerous to the health than that which mes to the surface and is quickly extinguished. A disposition which continually boils" within often finds outward expre sions in hoils and ulcers. Wrath has a nat ural tendency to curdle the blood, and anger interferes with digestion. To have healthy and agreeable looks live above worry care, fear and corroding thoughts. Cultivate a serious frame of mind under all circumstances; not in the depth of gloom and at church, having, like King Alfred, neglectdepression one day, and on the heights of | ed his duty and allowed the fig pudding to

hilarity the next. To Keep Gilt Frames Clean.

To clean gilt picture frames, beat the white of an egg; add to it one pint of cold at length, becoming impatient, cried aloud water; moisten your frames with this mixture, using a sponge. Then with a soft flan-nel, carefully wipe. Take a second cloth, perfectly dry, and give the frames a light ubbing. If the frames are not clean and right after this treatment you had better take them to a gilder and have them re-

-When shaking heavy rugs, hold from the sides, never the ends. If possible, spread clean grass or boards with the wrong side up. Beat first to dislodge the dirt, then brush thoroughly and hang on the line to air, using judgment about leaving too long in the hot sun. This is the method employed hood was content. by the Turke, who should be connoisse the care of rugs.

-An infallible yeast regardless of temperature: A handful of hops, (or half an visiting one of his flock, who was a don unce of compressed) four ordinary potatoes and one pint of flour. Boil and mash potaboiling hop water on it. When cool, mix in cup of yeast or cake. -For cleaning toilet brushes, use a little truth, I couldna say I ever heard him ony-

wise oot o' theet wi' the spade, but I widna soda in the water and no soap. The resson I say avoid soap it is apt to soften the bris- like to mention fat he whyles ca's the lawn tles, and soda does not. To dry brushes | mower."-Ex. shake them well, and after wiping the backs set them to stand on the point of the handle in a shady and airy place. -When tired or warm, bathing the face

tepid water will be refreshing. A cupl of sea salt diluted in the warm bath beore retiring will give a healthful sleep. asy to Take

FATHER'S TROUBLE WAS NOT TABLE.

Old Bob conceived the idea of having hi

life insured.
"How much do you weigh?" asked the examining physician.
"I weighs 'bout fifteen pour's more dam
my wife does."

"Well, but how much does she weigh?" "I'se dun forgot; but she's a whop mme tell yer.'

"How tall are you?" Who-me. "Yes, you."

"Lemme see. Does yer known Abe Sevier what worked fur ole man Plumme " No."

"Wall, I'se sorry, fur I ain't quite ez tall The doctor, after weighing old Bob and neasuring his height, asked : "How old are you?"

"Who-me?" "Yes, of course you. You are being ex-"Dat's a fack. Wall, lemme see. My birfday comes in July, an' now what I wants

Ain't dat de p'int? "Wall, lemme see. Blame of I knows Suppose we make it August, 'stead of July?

"What difference would that make?" "Doan' know, but it's j-z ez easy. "I'll put you down at fifty." "Put who down at fifty?" "You, of course."

"No, bose, doan' put me down at fifty. Jes' say seventy five. "Why do you wish to appear so old?" "Wall, yer see, I'se gwinter git er 'vorce from my present wife an' marry er young gal. Ef a man dat's got er house an' lot is mighty ole, er young gal will marry him, 'cause she

thinks dat he will soon drap off an' den de house an' lot will show her up mighty fine i de market." "How old is your father?" "'Bout er hunnered an' ten."

" You don't tell me so?" "Yes, I does." "Is he in good health?" "Oh, no, sah, dat ain't whar he is. He's in de grabe."

"Thought you said he is 110?" "He is. You didn't ax me how old he wuz when he died." "Well, how old was he when he died?" "Bout forty."

"Had he enjoyed good health?" "Ob, yes, sah; de healthiest man yer eber "Did he have a lingering disease?" "Whut sorte 'zeaze?"

"Oh, no, sah. He drapped cff mighty " Heart disease ?" "No, sah." "Did the doctors attend him?"

"Was he sick very long?"

"Da didn't say much o' nothin'. One o' 'em climbed up an' put his year agin de ole nor the preparation is too hot, otherwise the soles will be hopelessly spoiled.

man an' said dat he wuz dead enough ter be cut down. Den de sheriff cut him down an'. put him in er box. Doan' think dat he had heart 'zeaz-' boss. Think dat he had some sorter trouble wid his naik."

"Well, what did they say was the matte

"Look here, I don't believe that vo want your life insured. "I doan' b'lebe I does, sah, since ver's gunter pry inter a man's family history. Tragedy in the Church.

enter an Episcopal church?" "What is that, madam?" said the bishop,

The Baltimore News says that not long ago

with great dignity, straightening himself up "I say there are times when it is positively langerous to enter the church," she replied,

"That cannot be," said the bishop. 'Pray explain, madam? "Why," said she, "it is when there is a canon in the reading desk, a big gun in the pulpit, when the bishop is charging his clergy, the choir is murdering the anthem and the organist is trying to drown the choir. A hearty laugh went the round of the table at the bishop's expense, and he acknowledged that at such a time he could well imagine it

disagreeable at least if not dangerous to be -A Cornish anecdote relates that a small dinner while the rest of the household were scorch, in his dismay ran to the church and from the doorway made signs to the house wife to come forth. She indignantly signed to him to wait, which for a time he did, but in reply to her further winks and grimaces, to the scandal of the startled congregation: "Yiew may winky and shrinky as long as

yiew du plase, but the figgy dowdy is burnt gin the crock !"- Youth's Companion. Childhood was rampant. "Why?" it asked insistently as often as

t perceived anything.

As for Fatherhood, it heard and beat its reast, answering not. But Motherhood was calm in the con ciousness of power. "Because," replied Motherhood, and Child-

This fable teaches that woman rises super for to man in the face of the greates trials -The other day an Aberdeen minister was servant in a well to do merchant's family in the west end. Minister-"I'm sure you will oes, mix with flour, and pour a quart of like your situation, Mary. Your master is such a nice, straightforward Christian man -in short, a man that always calls a spade a spade." Servant-" Weel, sir, to tell the

> -In the trial of a doctor's suit a witness was called for the purpose of approving the was asked by the lawyer whether the doctor did not make several visits after the patien was out of danger. "No," replied the witness, "I considered the patient in danger so long as the doctor continued his visits."

> -A well-known archbishop was noted for his absent-mindedness. Dining at home one evening, he found fault with the flavor of the oup. Next evening he dined out at a large dinner party. Forgetting for the moment that he was not in his own house, but a guest, he observed across the table to his wife "This soup is, my dear, again a failure."

—The facetious boarder had the train all laid for a killing joke. "It's a wonder," he said, "that you didn't serve up this hen, feathers and all." "The next time," soid the landlady, with marked emphasis, "I'll serve her a bill and all." And the joke was rained.

Minard's Liniment is the best
