## LAPRAIRIE.

pal village and parish  
the River St. Lawrence  
hine rapids and Victoria  
Montreal, seigniorial  
ame name. Incorporated  
The parish was erected  
r, 1668. A market is o

every day. An aqueduct is constructed. The first railway in British North America was constructed from here to St. Johns in 1836. It was first worked with horses, afterwards by steam, but was discontinued, and the rails taken up a number of years ago. A steambot maintains regular communication between Montreal and Laprairie. A branch of the Grand Trunk Railway, starting at Fort Covington, in the State of New York, to reach the Victoria bridge, now runs twice a day in close proximity to the village, with a good station and depot, and contributes materially to the future development of the locality, which is considered a very healthy and pleasant summer place. There is also a fire station, thoroughly supplied with new fire apparatus, such as a fire engine and hook and ladders. Fishing and hunting is also largely practised. A new billiard room has been organized. A permanent wharf has been erected, and will be much improved during the present summer. A new channel is also partly made up. The aqueduct is now giving a very good service to the village, and the work of putting up pipes is being done very rapidly in the different streets. The pressure of water in case of fire is also very powerful, as the water is drawn by steam and air pressure, which brings it at a distance of 1,350 feet, from the St. Lawrence river. The premiums upon insurances have also been greatly reduced on account of the recent ameliorations to the fire system apparatus. Great North-Western Telegraph Company has an office here. Telephone connection with Montreal. Distant from Montreal, 9 miles, fare 15 cts.; from St. Johns, 18 miles. Mail daily. Population of village about 1,800; of parish 2,200.

## ST. CUNEGONDE.

A city adjoining the city limits of Montreal, district of Montreal. This municipality is governed by a mayor and corporation. A permanent, fire and police force is maintained; it is lighted with arc electric light, and possesses first-class water works. The corporation purchased the old St Jude's Church, which they have converted into a handsome town hall with commodious offices and court room, fire station and a large hall for public meetings, as well as a private residence for the Chief of Police. The Jacques Cartier bank has also opened a branch in the building, with Mr. G. N. Ducharme as manager. The Post Office has been transported into the Hall. The city contains two churches: one Roman Catholic and one Protestant; two convents, one under the St Ann's sisters and one under the control of the School Commissioners; an asylum under the supervision of the Grey Nuns; one college and two schools—one Protestant and one Catholic. It possesses some extensive industries, the most important of which are the Montreal Rolling mills, the Mona Saw mills, Davidson's Stamping works, Luttrell's cracker factory, Clendinning's foundry, Henault's Ice house, Robert Mitchell's Brass foundry, T. Prefontaine, lumber merchant; Aquin & Itzweire, door and sash factory; Wm. Rutherford & Son, sash and door factory; Dominion Wadding Co.; McCaskill Varnish factory; Slinger Manufacturing Co. There is telegraph and telephone communication between the municipal office and the Water Works. Population about 10,000

For names of residents see Montreal.

## ST. HENRY

A city near Montreal, and formed by the amalgamation of the former villages of Tannery West and Coteau St Augustin. The town of St Henry is situated in the seigniorie of Montreal, county of Hochelaga and district of

Montreal. The Lachine canal passes on the south side, and signal stations of the Grand Trunk Railway are situated here at the junctions where the roads branch off east and west, and to Montreal and Lachine. The Grand Trunk Railway System, with the aid of the Council of the Town, has just erected a splendid station, at the curve, near the Notre Dame street bridge. The municipality of St. Henry is governed by a Mayor and Corporation, and a separate permanent Fire and Police force is maintained. The town contains a new Roman Catholic college and convent, 4 churches, and several important industries, amongst others, a tannery, boots and shoe factories, brick yards, Ingersoll Rock Drill Co. of Canada, and J. & O. Hodgson, rolling mill, the C. W. Williams Manufacturing Co., employing 600 hands, a cotton manufacturing company, one of the finest in the Dominion, and a public Abattoir and Stock Yard Co. The Council has built a very fine Town Hall, Fire and Police station, at the corner of Notre Dame and St James streets, at the cost of \$25,000. Building is being prosecuted briskly, and the town bids fair to rise into some importance, having Fire and Police systems of alarm telegraph. The town is now lighted by arc electric light. Distant from Bonaventure depot  $2\frac{1}{2}$  miles, from Lachine 6 miles. Population 18,000.

For names of residents see Montreal.

## ST. LAMBERT.

A suburban village on the south shore of the St. Lawrence, directly opposite Montreal, in the county of Chambly, district of Montreal, with a population about 1,500, and growing rapidly. It is an important railway centre, and is supplied with an excellent train service by the Grand Trunk Railway, having over twenty trains each way daily. Return 25c, single 15c, on suburban trains, return good for day of issue only, 25c; return good for 1 month 45c; single fare on regular train 25c; by commutation tickets, 52 trips for \$2.00, or 5c a trip.

The Victoria Bridge spans the St. Lawrence here, and all trains to and from the City stop at the railway station. Several lines of railway run here, viz.: Grand Trunk for points South, East and West; Central Vermont for Farnham, New York and Boston; Delaware & Hudson for New York; Montreal & Sorel for Sorel. The distance to Longueuil, the county seat, is three miles. There are four churches: Methodist, Episcopal, Roman Catholic and Presbyterian, with resident ministers and curé. There is a large Model school, conducted by the Protestant School Commissioners, with a staff of five teachers; and a French school, conducted by the R. C. Commissioners, with two teachers. There is excellent boating on the river, and the St. Lambert Boat Club is recognized as one of the best clubs in the vicinity of Montreal. The residents are mostly employed in the City, and select it for a suburban home from its favorable situation and excellent means of communication at all seasons with the

City. During the winter months direct communication is had with Montreal by an ice road across the St. Lawrence, on which considerable driving is done. St. Lambert is being rapidly built up, and is destined to become a very important point; and it is expected that a system of water and drainage will soon be inaugurated. The distance by rail is six miles. Mail twice daily. G.N.W. Tel. Co. has an office, also telephone communication at post office.
