RESERVES RIGHT TO SIT FURTHER

Judge Denton Makes Statement at Close of Noble Inquiry.

THOMPSON STATEMENT Used Every Means to Stop Betting and Reprimanded Man.

Altho Judge Denton closed the Noble investigation yesterday afternoon at the city hall, he reserved the right to sit again if he found it necessary to take further evidence before he submitted his report to the city council.

Two policemen were the only witnesses called, and testified to the reputation of Mrs. Desinger and Mrs. Peterson (Sine), two women who had been frequent visitors at Portland fire-bureau.

Chief Thompson asked that he might give a statement before the council on the investigation, saying: "I wish to state emphatically that I did not know that there were any bets on the race track, or that the insignia of the city were covered up on the auto at times, until the charges were made, I did know that Fleming was working at the house of Noble, but he needed the money and Noble wanted the work done."

"Labor was hard to get and I did not know anything wrong in this, but of course if any man were asked today to do any such work when there are so many men out of work, why I would not permit it if the deputy, the two captains and the two lieutenants did not know that there were women and liquor in the Portland hall, it would not be expected that I would, a member of the board of control."

Judge Denton then asked him, "Have you a record of the complaints made for the past four or five years, and did you investigate every one immediately, and advised him not to do any more betting himself. The investigation and will probably have the report complete to place before the city council next Monday."

EMPLOYE ENTITLED TO THREE MONTHS

Decision Favors E. R. Evans Who Brought Action Against Fisher Motor Company.

ACTION IS DISMISSED Refusal to Pay More Rent Than Fixed by Arbitrators and Court.

Mr. Justice Clute gave judgment at Osgoode Hall yesterday in the action of E. R. Evans against the Fisher Motor Co. for arrears in wages and damages for wrongful dismissal.

The plaintiff is a mechanic and was employed in the employment of the Fisher Company, when it was taken over by the defendant.

The plaintiff's salary was to be at the rate of \$2000. The plaintiff continued at the reduced rate until October, 1914, when he left voluntarily and asked for dismissal. He was offered \$1275 in full settlement, but he refused to accept it. Defendant brought \$118 into court, which he submitted should meet the wage claim.

His lordship stated that the plaintiff had failed to satisfy him that he was to receive a bonus of \$600. He found that the plaintiff had continued in the employ of the defendant at the rate of \$800 per year, and having regard to what took place, he thought a reasonable notice of three months should have been given the plaintiff. This would amount to \$225, to which amount he was entitled.

Damages Action. Mr. Justice Lennox dismissed the action brought by James G. Macdonald, owner of the site of the Turtle Hall Hotel, at the southwest corner of Church and Colborne streets, against Robert Davies, former owner of the building.

The plaintiff claimed \$3887.50, balance due for ground rent from Sept. 20, 1910, to July 29, 1914. He claimed that he was entitled to rent at the rate of \$1600 per year. The defendant refused to pay more than \$225 a year, which was the amount fixed by arbitrators under a supreme court decision.

His lordship commented severely on the judgment given out concerning the will of Emily Robins. He said: "There is a growing tendency to come to court for decisions and advice upon points which present no difficulty for any solicitor who will read and think."

Mr. Brown told the committee that the present military boot pattern had been adopted in 1908, but there had been no specification until 1910, when the Charles E. Slater firm of Montreal had supplied a new sample with a specification. The specification had required the waterproofing of the boots, but this requirement had never been insisted on or followed in the sample.

Mr. Pringle read from a file a letter to the militia department from Ames-Stonham, asking the department to reply to alleged complaints about the boots they had supplied to Valcartier, as their reputation was at stake. They said they had not widely supplied a single pair of unsatisfactory boots.

Local artists were guests at the Women's Press Club yesterday afternoon when Wily Grier gave a short address on the subject of "Art." The theme was so large in scope the speaker managed to leave a few points very clearly with his audience. The school of modern art met with no sympathy. Those who deny and would collaborate from the galleries the great masters representing the inspiration and hard work of those heretofore looked upon as the masters of the ages, met with scant courtesy from the speaker. Mrs. Fairbairn was the hostess, and Miss Edith Macdonald, the president, expressed the thanks of the Women's Press Club to the speaker.

ONE INVENTION FOLLOWS ANOTHER

Great Progress Made Discussed by Lt.-Col. Belcher Yesterday.

TO YORK PIONEERS

Development of Canada in Past Century Taken as Basis.

Col. A. E. Belcher read a paper before a largely attended meeting of the York Pioneers on "The Divine or Creative Man." The development of Canada in the past hundred years was taken as a basis for illustrating the possible achievements of man. The wonderful progress in all scientific channels was discussed. The rapidly increasing creative power in man is becoming more apparent when every effort is being made to make use of nature to attain the best results. In 1819 the first steamer crossed the ocean, and soon airships will carry passengers over the seas. Only a few years ago, comparatively speaking, railway trains were a marvel to the human mind; now over 800,000 miles of rail hold the vast continents in union. Thirty years ago telephones were not known in 1900 there were registered over two million telephone lines. Speaking of the moral progress of the world, the lecturer told of the prophecy of a great French writer that by the 19th century the Bible would be forgotten, but it is now the most widely read book in the world. Its circulation is the largest since the birth of Christ. Dr. James L. Hughes and H. W. Leitch gave short addresses and moved a vote of thanks for Lieut.-Col. Belcher, after which refreshments were served. William Crocker presided at the meeting.

MEREDITH PREPARED ENGLAND FOR WAR

John Cowper Powys, M.A., Continues His Lectures on Famous Writers.

John Cowper Powys, M.A., seemed much more at home when giving his second lecture at the Guild Hall, Y.W.C.A. last night. The speaker compared Meredith with Henry James, keeping the different styles of the two writers before his listeners. He stated that James acted like an antiseptic which eased a pain, whereas Meredith always seemed to slap one in the face, calling him lazy and telling him to become a man. More than any other English writer, Meredith prepared us for this great war and never let us forget that we had to fight great nations. Prize fighting was one of his greatest pastimes. Because, he said, prize fighting was a great military asset. One of his books was devoted to the comparison of Austria and Italy.

Local artists were guests at the Women's Press Club yesterday afternoon when Wily Grier gave a short address on the subject of "Art." The theme was so large in scope the speaker managed to leave a few points very clearly with his audience. The school of modern art met with no sympathy. Those who deny and would collaborate from the galleries the great masters representing the inspiration and hard work of those heretofore looked upon as the masters of the ages, met with scant courtesy from the speaker. Mrs. Fairbairn was the hostess, and Miss Edith Macdonald, the president, expressed the thanks of the Women's Press Club to the speaker.

NEGLIGENCE CAUSE OF BABY'S DEATH

Negligence on the part of parties unknown was the verdict of the coroner's jury which met in the morgue last night under Dr. Curry to enquire into the death of the infant found on the steps of St. Michael's Cathedral on Feb. 20.

WIVES SIGNED STATEMENT.

Mrs. Marshall Cook has given a signed statement to the effect that the evidence given in police court that her husband did not support her property was untrue, and was given under coercion of certain relatives.

JURY EMPANELLED.

Coroner Dr. G. Graham empanelled a jury and opened an inquest on the body of G. Rowlings of St. Thomas, the young man who was killed at the foot of Strachan avenue last night. After viewing the body an adjournment was made until March 9.

JUSTICE RIDDELL SPOKE.

Justice Ridell spoke at the Toronto Advertising Club luncheon yesterday, on "How We Kept the Peace," referring to the several treaties made by Canada since 1783, and showing that the attitude had been conciliatory rather than belligerent.

The Roll of Honor

In his despatch of Nov. 20 Sir John French, the British commander-in-chief, intimated that he would later forward to the war office the names of officers and men recommended for medals and distinguished service during the operations there reviewed.

No less than 445 generals and members of the general staff found places on the list, which also contained 256 names of officers, non-commissioned officers and men of the Royal Artillery and 234 members of the Royal Army Medical Corps and Medical Service.

A noticeable feature of the list, in which all ranks are classed together as being equally distinguished, the Duke of Wellington never mentioned any other officers in his despatches, while Lord Wolsey and Lord Roberts only mentioned non-commissioned officers very sparingly.

Two Distinguished Men

In the last few days two academic honors have come to Toronto, of which the city may well be proud, as it is of those who are to wear them. Prof. McLennan is to be numbered among the Fellows of the Royal Society and Prof. W. G. Miller, has been awarded the gold medal of the Institution of Mining and Metallurgy, London.

Dr. Miller, who is the provincial geologist, is recognized by the bestowment of the mining and metallurgy medal, as one of the foremost living authorities on his subject. The medal is only given occasionally, the present award being the first since 1911, and it is conferred for the first time on a Canadian resident.

LONDON, March 2, 9:30 p.m.—The Manchester Guardian, commenting on the British statement, expresses the wish that Premier Asquith had been more explicit with regard to neutrals who, the Guardian points out, "have the right to trade with the enemy in other articles than contraband except where there is a blockade."

LARGE AREAS ARE RUINED IN FRANCE

"Secours National" Has for Its Object Sending of Relief.

SECURED QUARTERS

Ready Now to Receive Gifts of Clothing and Other Articles.

On Thursday afternoon, Feb. 11, at the residence of Sir William Mackenzie, there was organized the Ontario branch of the "Secours National." The committee is desirous to place before the people of Ontario a few facts as to conditions in France, and to explain just what the words "Secours National" mean and what this organization hopes to do.

Primarily, as to conditions in France. On Feb. 15 in the house of commons, Lloyd George, speaking of France, said: "I am not sure we realize the strain upon this gallant country. She has borne the greatest strain in proportion to her resources. She has the largest proportion of men under arms and the enemy in occupation of the richest part of her territory."

Largely in Ruins. It must be borne in mind that the northern part of France is a densely populated region, and that this section is largely in ruins. When we pause to consider the appalling condition of affairs, and remember that added to this heavy burden is the strain of having huge armies on her territory, and the consequent derangement of the conditions, we should be moved to immediate action.

PRICE WAS THE SAME AS FIVE YEARS AGO

H. H. Williams Informs The Toronto World that there was an error in the news item of yesterday morning's World in regard to the price paid to two Chinamen for the property, 28 Carlton street. Mr. Williams states that the price was not the \$100,000 or more mentioned, but exactly the same price paid to other property owners in the vicinity five years ago.

Mrs. Wiseneighbour Says:--

"I should have told you the other day, when I was speaking of Eddy's Washboards, that it is just as necessary to have an Indurated Fibreware Tub to hold your clothes if you want to make a success of washday."

Mrs. Newlywed Says:--

"I've heard of Eddy's Indurated Fibreware. What's the difference between fibre and woodenware?" "Fibreware is made from compressed fibre, baked at extreme heat. All in one solid piece, it cannot warp or fall apart. No chance of splinters. Wears much longer, looks better, and is light to carry. The latter point you should always take into consideration," concludes Mrs. Wiseneighbour.

MORE SWIMMING CHAMPIONSHIPS.

Entries were received today from John Kerry of the Montreal Swimming Club for the 500-yard and 100-yard breast stroke, and from George Mueller and Alexander Grief, of the two crack Montreal swimmers, for the Canadian swimming championship at Central Y. on Saturday evening next.
 The tickets went on sale on Monday morning, and already a good number have been sold, so that those who intend to be at the first indoor Canadian championship meet, held in Toronto, had better get busy, as the supply of pasteborders is limited.
 The prizes, which were made specially by Ellis Bros., are now on view at 108 Yonge street, where tickets are also on sale for any who are not able to get up to the Y. for them.
 Mayor Church has promised to be on hand to present the prizes to the winning competitor.
CITY TOURNAMENT.
 The city wrestling tournament, which will be held on the West End floor Saturday night of this week, will be a good one. Entries are coming in and the outlook is bright for a full list of the best wrestlers in the city. All of the welter-weights will be contested for the start being made at 8:15. Every effort is being made to fill the list. B. Chapman will handle the bouts. This will assure the public good clean wrestling.

MURRAY-KAY, LIMITED

Here's a Sale of Men's Shirts That Undoubtedly Offers the Most Remarkable Values Ever Shown

The manufacturing firm whose imprint appears on these shirts is known throughout the length and breadth of Canada as one that strictly holds its output to goods of the better class. We have matched the shirts with those of the best English and American makers, and we are glad to be able to say that the "Made-in-Canada" article measures up to the best standards established by our English and American brethren.
 That we find ourselves in the position of being able to offer such clever shirts at slightly more than half the real values is a circumstance easily explainable from the fact that during the past several months there has been a big shrinkage in the demand for fine goods and manufacturers' stocks have accumulated accordingly.
 As our outlet is chiefly confined to the better class of goods; makers of such merchandise naturally seek our co-operation in assisting them to dispose of their surpluses, and of course at greatly lowered prices. Briefly, this tells the story of how this great sale of shirts was developed.

CITY PLAYGROUNDS HOCKEY CHAMPIONSHIPS.

While the thousands of O.H.A. supporters were cheering for the Victorias and St. Michaels at the Arena, there were three other championship games being played at Moss Park for the Playground Hockey Championship, which brought out a crowd of supporters which, although not so numerous from the standpoint of enthusiasm, lacked nothing on the crowd at the Mutual street ice.
 The first game was for the juvenile Playground championship, between East Riverdale and Oiler. After a strenuous 45 minutes the former won by a score of 3-0.
 The final game for the junior honors brought together two teams from the same centers, but this time the Oiler gave a better account of themselves. They showed some splendid combination work, that would not be denied, but when the final whistle was blown the score was:
 Oiler 3, East Riverdale 0.

CANADIAN BASEBALL LEAGUE MEETING FRIDAY.

The schedule meeting of the Canadian Baseball League will be held at Toronto on Friday of this week. President Fitzgerald had originally called the meeting for yesterday, but the Ottawa, Toronto and Peterboro magnates found that they would not be able to attend. Friday's meeting will likely result in something definite on the composition of the league circuit for the season of 1915.

FARMERS HELPLESS

Labor Problem Calling for Solution and Organization Can Accomplish Much.

War intensifies all problems of the city. Industrial not less than agricultural. It is a time when every man is called upon to work not only for his own benefit, but for the common weal.

The Agricultural War Book. The Agricultural War Book in dealing with the labor problem points out that in nearly every town and city in Canada there are vacant lots and unoccupied areas.

The Divine Character Woefully Slandered

False Theology Drives Many Away From God and the Bible—Predicted Hour of Trial Upon the Whole World Has Come—Balm for the Wounded Soul—"Come Unto Me All Ye Weary and Heavy Laden."

An interesting sermon by Pastor Russell was based upon the words: "That ye, being rooted and grounded in the love of God, shall be able to comprehend with all saints what is the breadth and length, and depth, and height, and to know the love of Christ, which passeth knowledge, the love which is shed abroad in our hearts by the Holy Spirit."

To those who all their lives have been immersed in a world of selfish frigidities, the real quality of the word Love is disallowed, disputed, claimed not to exist.

It is our thought that particularly at this time such discouragement is being borne upon large numbers of the human family.

But it requires faith to believe in a Savior whom we have never seen and with whom we have not been acquainted, and especially in a God who has been misrepresented to us as having prepared from before the foundation of the world for our eternal torment.

We see the difficulty of such and to those of us who have learned of the word of the Lord more perfectly, it cries aloud that we let our light shine, that we let all who are not completely blinded by the Adversary see the true character of our God and of His Son.

Why Does God Permit Evil? This question and many others which have been asked in the past are answered in the DIVINE PLAN.

Thank God for the assurances of His Word that the hour of trial is not yet over. "A short work will the Lord make on the earth."

The predicted hour of trial to come upon the whole world is now upon us, and the Apostle Paul's declaration is that it must begin with the Church.

The Measurements of Love Divine. We are not able to tell the wonderful measurements of the love of God, or others tell them.

So in our text, which applies to the life of the Apostle, we see the Love of Christ; for it passes knowledge, how this gives a further intimation of the glorious character of His Son.

Thus it is that we become "copies of God's dear Son," and "meet for the inheritance of the saints in light."

Why Does God Permit Evil? This question and many others which have been asked in the past are answered in the DIVINE PLAN.

Why Poets Actually Need More Rest Than Laborers
