Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur
- Covers damaged/
Couverture endommagée
- Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- Cover title missing/
Le titre de couverture manque
- Coloured maps/
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- Bound with other material/
Relié avec d'autres documents
- Tight binding may cause shadows or distortion along interior margin/
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure
- Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.

- Coloured pages/
Pages de couleur
- Pages damaged/
Pages endommagées
- Pages restored and/or laminated/
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- Pages detached/
Pages détachées
- Showthrough/
Transparence
- Quality of print varies/
Qualité inégale de l'impression
- Includes supplementary material/
Comprend du matériel supplémentaire
- Only edition available/
Seule édition disponible
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/
Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

- Additional comments: [Printed ephemera] 1 sheet (verso blank)
Commentaires supplémentaires:

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	12X	14X	16X	18X	20X	22X	24X	26X	28X	30X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Medical Library
McGill University
Montreal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right end top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Medical Library
McGill University
Montreal

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TO THE MEMBERS OF

The Rideau and Bathurst Medical Association.

GENTLEMEN.

Again I ask your indulgence, consequent upon the issue of a circular by my opponent in the pending election, in which he gives you a copy of one issued by me, in my contest with the late Dr. Mostyn, for the representation of this Division in 1880, and in which he states that I "emphatically declared" that no one should hold the position (as representative) for more than one term, and that any one asking for it a second time, showed a "selfish and avaricious disposition"—and this he characterizes as an "exposure." Now, gentlemen, I ask you to examine the circular and you will find that, although I stated "the position should be held successively by members of the Division," I also stated such to be "except in cases where potent reasons to the contrary can be urged."

As to the pending election, I may say there are several intricate and important matters to come before the Council, during the next term, which have engaged its attention during the last two sessions, but have not been settled; and one of them, I may mention, is the status in this Province of Imperial Graduates in medicine, and I submit that this is one, among many other "potent reasons"—some of which I mentioned in my first circular to you, dated December, 1889—why I should be re-elected for the next term.

Again—the part, however, of my 1880 circular, which appears to strike Dr. Rogers as most important against me—and to give it unmistakable prominence he has had it printed in italics and large type—is that I stated, "that any asking for the position a second time, showed a selfish and avaricious disposition." Now, as to that, I may say that at that time, I had not been in the position, and, therefore, could not form as correct an opinion on the point as I feel I am able to do to-day. After having been elected your representative and attended the Council, experience soon showed me that the principle of one term, without exceptions, would not be practicable, nor in the interests of the profession at large, and that a man having served one term is all the better qualified to serve longer. You can readily understand how difficult and almost impossible it would be for a man newly elected to take up unfinished questions, not having heard the previous discussions and facts, and to do justice to his constituents with reference to them.

Again, on this point, I might remind you that the principle mentioned in my 1880 circular, was not approved of by you, as I was defeated in that election; nor has it since been adopted, as you will remember I was elected by acclamation for my second term. Nor has it been adopted in any other Division—a fact which I am in a position to state.

And again, if it were the correct principle, what qualifications should be looked to, for a choice? If age, prominence and ability were, would Dr. Rogers be the choice of the profession? or, is no one else better entitled to the position on these grounds?

And as to the "exposure" by the re-issue of my 1880 circular, surely Dr. Rogers has forgotten the fact that, if I caused the circular to be issued, I must have distributed it widely in the Division. There was no secrecy about it; but, on the contrary, as much publicity as I could give it—in fact it was mailed to every member of the profession in the Division, and doubtless many of you remember it, and may still have it in your possession as well as the zealous friend of my opponent, whom he alleges "forwarded" it to him.

And then he appeals to my "honor and self-esteem" to retire from this contest, in view of this exposure(?) made by his issuing my 1880 circular. Now, gentlemen, as he has apparently adopted the views expressed in the circular of 1880, he having caused the same to be re-printed, and embodied in one of his own, I think I am justified in saying that if he has a "particle of honor" he will immediately retire from the contest, as the adoption of these views, necessarily includes the fact that the qualification for the position, just already mentioned by me, should be looked to in carrying out the one term principle. As to my opponent's "self-esteem," I need say nothing—facts speak louder than words.

In conclusion, I may say I have not the slightest intention to retire from the contest, even to please my opponent, and though he seems to think you are quite unable to form a correct opinion as to how or for whom you should vote, without being coached and instructed from time to time by circulars from Ottawa. I have every faith you will elect the one most likely to serve the interests of this Division and the profession generally to the best advantage.

I am yours very truly,
J. G. CRANSTON, M.D.

Amprior, 13th February, 1892.
