Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

						✓					

The copy filmed here has been reproduced thanks to the generosity of:

Seminary of Quebec
Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, pictures, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Séminaire de Québec
Bibliothèque

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

REPORT

OF THE

FINANCE MINISTER OF CANADA

ON THE

TRADE OF THE PROVINCE.

To His Excellency the Right Honorable CHARLES STANLEY VIS-
COUNT MONCK, Governor General of British North America
&c., &c., &c.

MAY IT PLEASE YOUR EXCELLENCY:

I have the honor to lay before your Excellency the Trade and Navigation Tables of the Province for the year 1861. These tables show a satisfactory state of Trade, notwithstanding the civil war which unhappily prevails in the United States, and which, does not fail gravely to affect the commerce of Canada, so large an amount of which is carried on with the neighbouring country.

Table No. 2. This Summary Statement of Imports exhibits a total value of Importations into Canada of \$48,064,836, being an increase of \$8,606,900 over those of 1860.

Of this excess, however, \$3,304,675 consists of Coin and Bullion, leaving \$5,302,225, as the increase of the Importations of goods in 1861 over 1860.

The duties collected in 1861 amounted to \$4,768,192; in 1860 to \$4,758,465; thus showing an increase of \$9,727 in the former over the latter year. But it is worthy of remark, as affording some evidence of the injurious influence on Canadian Commerce of the state of things in the United States, already alluded to, that during the first five months the excess of revenue from Customs in 1861 over 1860 had reached nearly \$400,000; the falling off in the receipts being wholly within the remaining seven months.

By a reference to the comparative table No. 3, it will be seen that the chief articles upon which revenue has been derived from increased importations are Brandy, Tea, Green Coffee, Linens, Woollens, Hosiery, Fancy Goods, Earthenware and Glassware. The duties collected on Books in 1860 was \$7,768; this was almost wholly lost by the repeal of the duty on Books in 1861. On Raw Sugar the falling off in the collections of 1861 was more than \$129,000 compared with 1860, owing to the reduction of duty under the sliding scale of 1859, although the quantity imported in 1861 was 40,425,483 lbs., against 31,712,252 lbs. in 1860. The importation of Railroad Iron is an item which in 1860 yielded a revenue of \$31,852—this amount was reduced in 1861 to the insignificant sum of \$5,893, due no doubt in a great measure to the absence of any new railroad enterprise and in part also to the establishment of one or two extensive Mills in Canada for the rolling and manufacture of railroad, bar and other iron.

The erection of the Free Ports of Gaspé and Sault Ste. Marie, which took effect on the 1st January, 1861, should also be taken into account in comparing the revenues of 1860 and 1861. The value of importations into these ports respectively (including the outports attached to Gaspé) was in 1860, \$286,558 for Gaspé, and \$54,421 for Sault Ste. Marie—forming an aggregate of \$340,979 as the value of importations at those Ports in 1860, upon which duties amounting to \$35,378 were collected. The value of the importations into those Free Ports, in 1861, increased to upwards of \$480,000, the duties upon which would have amounted to about \$45,000, under the existing tariff.

In order, therefore, to establish a fair comparison between 1860 and 1861, the deductions from Revenue caused by the modifications of the Tariff and the policy by which Free Ports were created, should be taken into consideration, and that to the actual collections from customs in 1861,

Amounting to.....	\$4,768,192
Should be added:	
1st. Loss on Books now free	\$ 8,000
2nd. " on Raw Sugars.....	129,000
3rd. " on goods imported into Free Ports.....	45,000
	182,000
	\$4,950,192

The Official Returns (Table No. 15,) show the actual amount of Exports reported to be \$34,717,248. To this it has been usual to add 12½ per cent. to the officially returned Exports from Inland Ports, which has been estimated to cover such goods as on a frontier of 1200 miles, find their way across the border unreported.

With this addition, the Exports of 1861 stand at	\$36,614,195
1860.....	34,631,890
<hr/>	
Increase in 1861.....	\$1,982,305

The whole of this increase is more than made up by the Exports of the following two articles of Agricultural products, viz:

Indian Corn Exported in 1861.....	\$1,087,277
do do do 1860.....	528,630
Wheat, do do 1861.....	4,260,380
do do do 1860.....	2,308,627

With reference to the channels of trade, it will be found (Table 17), that of the whole imports of 1860, goods to the value of \$13,548,665 were imported *via* the St. Lawrence, whilst in 1861 that amount rose to \$17,249,055. The exports show a still greater improvement in the commerce *via* the St. Lawrence, the exports having been

in 1860.....	\$14,037,403
and in 1861.....	22,524,735

Thus the whole trade by the channel of the St. Lawrence amounted

in 1861 to	\$39,773,790
in 1860 to.....	27,586,068

increased trade <i>via</i> the St. Lawrence.....	\$12,187,722
--	--------------

One feature in the exports of 1861 is deserving of special note, as indicative of the favor the St. Lawrence route is obtaining in the West as a channel for the exportation of the produce of that section of the United States. It is the item of \$3,505,511, value of goods in transitu from the Western States seaward *via* the St. Lawrence.

The new era inaugurated in the Gulf districts and the Western part of the Province, by the creation of the free ports of Gaspé and Sault Ste. Marie, is of so recent a date that

the effect of the policy which led to the establishment of such ports can scarcely now be fully ascertained; but the increased trade of those ports during the first year of their new commercial existence, justifies the belief that the objects for which they were mainly created, i. e., the encouragement of the fisheries and the settlement of the country, bid fair to be realized.

The imports at Gaspé and outports have increased from \$286,558 in 1860, to \$392,068 in 1861, including in this amount \$11,867, value of goods imported at Amherst, upon which duties were under special circumstances collected, and \$5,472 entered at New Carlisle, within the Free Port, but for consumption out of its immediate limits.

The imports at Sault Ste. Marie experienced a somewhat corresponding improvement, the figures standing for 1861.....\$92,704

do 1860..... 54,421

Increase..... \$38,283

(See Tables Nos. 11 and 12.)

A marked improvement has taken place in the ship building branch of the industry of the Province, as shown by Table No. 34, by which we find that the number of vessels of all classes built, in 1860 and 1861, respectively, was as follows:—

1860.....Number, 74.....Tonnage, 23,993

1861..... do 96..... do 33,187

Increase in 1861 do 22..... do 9,194

The increase in the shipping of our sea ports is also deserving of note. The number and tonnage of vessels which arrived and departed in 1861, as compared with the previous year, stands as follows:—

	Vessels Arrived.		Vessels Departed.	
	No.	Tonnage.	No.	Tonnage.
1860.....	1,992	831,434	1,923	821,791
1861.....	2,468	1,089,035	2,395	1,060,325
Increase in 1861.....	475	247,601	472	238,534

The trade of the Provincial Canals has largely increased, and notwithstanding the deductions under the order of Council of the 28th May, 1860, authorizing a remission or refunding of 90 per cent. of the Tolls on the Welland Canal in certain cases, the actual collections on that Canal during the past year have exceeded the Tolls of the two previous years 1859 and 1860, in the former of which the refunding Regulation did not exist.

The amount of Tolls on the Welland Canal, actually paid into the Treasury in 1861, after refunding 90 per cent. in the cases authorized, is \$175,201. In 1860 the collections were \$168,157, and in 1859, \$124,700; shewing an increase of \$50,501, in 1861 over 1859.

A reference to the comparative table (No. 11) of the movement of property, passengers and vessels on the Provincial Canals, it will be seen that for the last four years the Tonnage of property carried on the Welland Canal increased 8.09 per cent. in 1861 over 1860, and 19.33 per cent. over 1858.

The St. Lawrence Canal, upon which the Tolls have been totally abolished since 29th May, 1860, the increase has been much larger, the percentage of 1861 over 1860 being 20.89, and of 1861 over 1858, 46.46.

The decrease of the Traffic on the Chambly Canal was large last year, being 46.47 per cent, less than the Tonnage movement of 1860, and 8.22 per cent. less than that of 1858. This falling off may be ascribed to the interruption of the Lumber Trade with the United States.

The Traffic of the Burlington Bay Canal is, to a certain degree, an index to the trade of Hamilton. The Tonnage of goods which passed through it in 1861 exceeded by 27.38 per cent. that of 1860, and 201.54 per cent. that of 1858.

The Ottawa and Rideau Canals, and St. Ann's Lock, show a decrease of Traffic in 1861 compared with 1860 and previous years, if we except a comparison of the Traffic by the St. Ann's Lock in 1861 and 1858, which shows an increase of nearly 29 per cent. of the former over that latter year.

The boon conferred on the internal transport Traffic of the Province, by the order in Council of May, 1860, will be estimated by the following statement of the Tolls refunded, and the amount of Tolls not collected, but to which the goods passing through the Provincial Canals would have been subject under the Tariff of 1860:—

The excise duties on stills and proof spirits, breweries and malt liquors, also show an increase during the last year, the amounts collected from these branches of the excise Revenue being, for the last three years, respectively as follows:—(See Table No. 25).

1859.....	\$240,164.41
1860.....	244,428.57
1861.....	285,947.59

Table No. 27 shows the various descriptions and the quantities of grain and other substances used in distillation and brewing, and also the quantity of spirits and malt liquors produced during each of the years above mentioned. The following extracts of that table shows a large increase in 1861, over the two preceding years:—

FOR DISTILLATION.						FOR BREWING.					
Total quantity of Grain.			Proof Spirits Distilled.			Total quantity of Malt.			Malt Liquor.		
1859.	1860.	1861.	1859.	1860.	1861.	1859.	1860.	1861.	1859.	1860.	1861.

Looking at the reductions made in the duties on Brandy, Wines, Fruits, Teas, Sugars and Coffee, the repeal of the duty on Books, and the exemption from duty of all goods imported into the two Free Ports of the Province, there is good grounds for satisfaction at the general results of the Trade of the past year, especially when it is considered that the neighboring country, with which Canada has such extensive commercial relations, is involved in a war which has to no small degree disturbed the commerce of the world.

All which is respectfully submitted,

A. T. GALT,
Finance Minister.

Quebec, 8rd April, 1862.
