ROYAL PROCESSION THRU LONDON STREETS

King George Greeted With En- thusiastic Cheering on Every Hand — Northwest Mounted Police Popular With the Crowds — Lord Mayor Does a Hot Sprint and Comes in Well Up at the Finish.

LONDON, June 23.—A heavy rain which began at sunset and poured down constantly throughout the night brought bitter disappointment to hordes of people, who were bent upon festively celebrating at dark as a climax to the royal progress of King George and Queen Mary, thru the streets of London to-day.

Hundreds of thousands of persons had planned to view the illuminations and all wheeled traffic was barred from the principal streets in order that the crowds might use the roadways as well as the sidewalks.

The illuminations everywhere were turned on at dusk and sparkled their brightest in the rain, but the people who turned out to witness the effective display were only a fraction of those who would have come had the weather been propitious. Those who braved the elements splashed about in the muddy streets beneath umbrellas and keenly enjoyed the show of electric illuminations in clubland and along Piccadilly, where the members of John Hays Hammond, American special ambassador to the coronation, Lord Rothschild, the Duke of Wellington and the Duke of Devonshire were a mass of glowing colors, and on the business houses down the Strand to the heart of the city, where the stock exchange and the Bank of England were covered with patriotic designs.

The feature of the day was the royal progress thru seven miles of London streets, which include a long route thru the poorer sections of the city, south of the Thames.

The Lion's Whelps.
Indian troops, colonials and detachments of Great Britain's finest soldiers in line, the procession made a fine pageant.

A great and constantly changing throng remained in front of Buckingham Palace all the afternoon, the King and Queen and the Prince of Wales several times appeared on the balcony and waved their hands to the people below. The enthusiasm of the people at each show of recognition by the monarchs and the young heir apparent was given vent to in a great roar of cheering, which could be heard for miles.

Most of the places of amusement in London were closed to-night because it was anticipated that the crowds in the streets would make it impossible for those who wished to attend, and the managers of these places afterwards deeply regretted the mistake they had made for large numbers of people would have sought shelter from the rain. A majority of the theatres will remain closed to-morrow.

There was a great dinner at the foreign office to-night where Sir Edward Grey, the foreign minister, entertained in state, King George and the members of the royal family, and also the visiting royal guests and a number of special representatives to the coronation.

Today's procession was an even greater affair than that of the coronation. The route was more extended, including a great deal of some of the most populous districts of the capital, and the crowds that looked on were correspondingly greater. The cheering was continuous.

The present included four full squadrons of cavalry, representing all branches of that arm of the service. The Guards, Dragoons, Hussars and Maces, each accompanied by its own band and a section of horse artillery.

State Banquet at the Foreign Office

Sixty Royal Personages Attended Function, Which Was a Magnifi- cent One—King and Queen Were Present.

LONDON, June 23.—The state banquet at the foreign office to-night was one of the most important social events of coronation week. Sir Edward Grey, the British foreign minister and host of the occasion, received King George and Queen Mary, the Duke and Duchess of Connaught, Prince Arthur of Connaught, Princess Patricia, the Duke and Duchess of York, the Duke and Duchess of Argyll and all the foreign royal personages and the special representatives to the coronation. Altogether sixty royal personages attended the function. The entire company numbered 150, among those present being various members of the royal household, attaches of the foreign office, the papal delegate, Mgr. Di Belmonte, Premier and Mrs. Asquith, the Duchess of Devonshire and the Countess Minto.

The dinner was served in the banquet hall at two oblong tables and six large tables. All were splendidly decorated with white and silver candelabra, and pictures loaned by the Indian office and from other sources hung on the walls, enhancing the effect of the handsome mural decorations. The general effect of the decorations was extremely rich.

The Queen and Sir Edward Grey and a score of guests sat at the principal table with King George and the Crown Princess of Germany with an equal number of persons were opposite them at the head of the other oblong table. The Duke of Connaught and Premier Asquith also presided at tables. The Grenadier Guards band furnished the music for the occasion. All wore black court dress, of knickerbockers and wore swords. The toilettes of the ladies were magnificent, and the display of jewels a gorgeous one.

There was a great dinner at the foreign office to-night where Sir Edward Grey, the foreign minister, entertained in state, King George and the members of the royal family, and also the visiting royal guests and a number of special representatives to the coronation.

WOULD EXPAND ANNEXATION PROJECT

Motion Introduced in City Council to Take in Territory East and West of North Toronto — Victoria Street Extension Formally Author- ized.

For seven long weary hours the city council yesterday hammered away at a fairly formidable array of business. One result that can be safely counted on is the confirmation of the majority of the aldermen in their decision to have a couple of months' holidays. They feel that a few such sessions would earn them a whole year's holidays.

Annexation came up before council from the board of control as a matter of information; the controllers announcing their support of the project and stating that they had asked the officials for reports on the subject for presentation to council. The police and fire chiefs are also to report on the effect of annexation in their own particular spheres.

The question will come up for definite action at next meeting. In connection with the annexation of North Toronto, described as follows: Firstly lying between a parallel with and 200 feet north of Eglinton-avenue, and the present northern city limits and bounded on the west by the right of way of the Canadian Pacific Railway and on the east by North Toronto and Yonge-street; secondly, bounded on the north by the northern boundary of Mount Pleasant Cemetery and its production custody to the second concession line east of Yonge-street, on the south by the present northern city limits, and on the west by Yonge-street, should be annexed to the City of Toronto, and that there should be no special terms as to taxation, assessment or improvement.

This motion was referred to the board of control.

What They Did.
The question of authorizing a vacation occupied the council half an hour. A sanitary fountain, according to an expenditure of \$270.00 Dr. Hastings, was sanctioned for the city hall in half a minute. The Ashbridge's docks contract was awarded to Mr. and Mrs. Gibson for \$19,500, after some hot passages of arms as to the relative virtues of various kinds of building material. Victoria-street extension was approved in short order. It will entail an expenditure of \$270,000 on the city. The C.P.R. gets a lease of the Don industrial siding; His Excellency Earl Grey gets a farewell address of appreciation from the city council; the island bridge gets a hard knock.

Further looking to the widening of King and Yonge-streets was not revived, and much indifferent oratory was carried away unheeded.

In this regard a letter from H. H. Williams, representing the C.P.R., was read. He stated that the company was not prepared to consider expropriation on the basis proposed by the aldermen. The plans, he said, had been prepared for the old site, and they could not conveniently handle any large office space.

City Auditor Stirling once again proved himself a diligent and able economist by coming out with a strong recommendation that a competent office be placed in charge of the collection of income taxes to prevent interest serious loss; also that a purchasing agent be added to the works department to take charge of all stores and be responsible for the accounting, which present appears to be rather muddled.

Open Door to Radicals.
Controller Hooker moved that in view of the entrance of radical railways to the centre of the city, it be declared to be the policy of the council to admit an open radical railway applying for an entrance by any practicable method that will protect the city's interest in the street railway franchise and the arrangement of satisfactory terms.

My idea in moving this is simply to remove the idea, apparently prevalent in some quarters, that Toronto is not favorably disposed towards these corporations," said the controller. "It will pay us to go on record to the effect that we welcome and give them all reasonable aid in locating here."

OUT TO-DAY

MORMON CHURCH—A GREAT BUSINESS ORGANIZATION

Goes Into Anything That Affects the Material Interests of Its People.

WASHINGTON, June 23.—That the Mormon Church, in enlisting the aid of Henry O. Havemeyer to extend its best sugar industries, was seeking solely the welfare of its people, was declared to be a fact to-day by Thomas R. Cutler, vice-president of the Utah-Idaho Sugar Refining Co. before the house "sugar trust" investigating committee.

Before Mr. Cutler concluded his testimony, he was examined at length as to the business purposes of the Mormon Church.

"Why does the Mormon Church go into the sugar business and other business enterprises?" asked Rep. Hinds of Maine.

"Anything that affects the material as well as the spiritual interests of its people, the Mormon Church encourages," said Mr. Cutler. "It provides occupation for the people in many other lines of business, as well as in the best sugar industry."

"Then the Mormon Church," queried Rep. Madison of Kansas, "is not only a spiritual organization, but also a business organization."

To a great extent that is true," Mr. Cutler replied.

Mr. Cutler explained that the business enterprises of the church are managed by the presiding bishop, who acts as business manager. Questioned regarding the tariff, Mr. Cutler said that "the howl for free trade" in sugar was being made by the cane refiners and that it would ruin the beet sugar business.

Prince of Wales' Birthday

LONDON, June 23.—The Prince of Wales had a celebration all his own to-day. It was quite apart from the coronation festivities. For the occasion was the celebration of his 17th birthday.

The future King of England held a reception largely attended, led by the younger element of royalty and nobility. This was followed by a birthday dinner, the youthful prince receiving many gifts of much value, the most notable being from his father, King George.

LAKE WATER IS COMING AND THIS TIME TO STAY

Temporary Length of Intake to Be Attached if Weather is Favorable.

Lake water soon and possibly before noon to-day, was the report of Superintendent Randall last evening. During yesterday the section nearest the shore was raised and the short temporary intake was towed to the island in readiness. When the lake is calm enough for the diver to descend, the connections will be made and within a few hours Toronto's citizens will be drinking water direct from the lake.

"I've got a gang of men waiting for the lake to abate enough to allow them to work and then we'll rush things a bit and water will be flowing thru the temporary intake within a very few hours," said Mr. Randall at midnight. "It will not take very long now that the broken section nearest the shore has been removed."

The temporary length is only about ten feet in length with an iron net work rising about twelve feet at one end. For several months it has lain at the foot of John-street and was yesterday towed over to the island in order that no time would be lost after the long section had been raised.

The work of laying the temporary pipe is comparatively easy. The new section will be lowered by means of chains running from a scow placed against the shore length, and fastened with bolts. The shore gate will then be re-opened and the lake water will rush thru as prior to the break in February last.

The remaining 1500 feet of pipe will be raised later and after being repaired will be relaid and attached to the section from which it broke loose.

ANOTHER BIT OF INTAKE IS RESCUED FROM LAKE

Scow and Tug Raised Section 168 Feet Long—Task Far From Finished.

A section of the intake pipe, 168 feet long, was raised and towed to John-street wharf yesterday in course of eight hours. At 6:30 a.m. Miller & Cunningham's scow and tug "Maxie" left Scarborough and stopped immediately over the broken section. The diver was sent below to listen the ropes to the chains surrounding the pipe. The ropes were then wound up and the section of pipe brought to the surface.

It was found that one of the joints had become quite loose and the diver had to go under water and tighten up a number of the bolts. Work this has not been necessary. Had this not been finished at noon, however, at 4:30 the Maxie drew up alongside the waterworks dock and detaching itself from the scow, sailed eastward carrying with it a dozen workmen.

There is still 1500 feet of pipe lying at the bottom of the lake, but this may be abandoned for the present in order that the whole of the city officials' attention may be devoted to extending the intake from the shore out, thus allowing lake water to flow thru possibly within two or three weeks' time.

NEW DOLLAR BILL

Contains Portraits of Lord and Lady Grey.

OTTAWA, June 23.—A new one dollar note of the Dominion has just been issued. In place of engravings of Lord and Lady Aberdeen it contains those of Lord and Lady Grey. In the old corners, but in the new ones they are in the centre side by side. The lumbering scene has been omitted. The bills are executed in green and black ink instead of brown and black as formerly, and the denomination is executed in letters as well as in figures. The notes are fine examples of the engraver's art, and the printing is artistic. An application has been made to the department of authority to reproduce the bills in a certain newspaper, but it has been pointed out that such would be a criminal offence under the code.

CITY URGED TO ANNEX NORTH TORONTO

Ontario Railway Board De- clares Course Prime Neces- sary in View of Radial Pro- blems — Plans of Civic Car Lines Are Approved, and Work Can Now Be Started.

"From our knowledge of the surroundings and of the growing necessities of the great city, we are of the opinion that not to take advantage of the opportunity of annexation now presented would be a misfortune. The board will therefore do 'everything in reason' to facilitate annexation and also the double tracking of the railway which seems bound together, and such an improved service will be worth waiting for until September 11, to see if it can be carried out."

With this strong endorsement of the proposed annexation of North Toronto to the city, the Ontario railway board yesterday afternoon authorized till September 11 the Toronto and York Radial Railway Company's application for approval of the lengthening of their switches in North Toronto.

The board, which, at a previous sitting had insisted upon plans and particulars of the proposed civic car lines, buses and general equipment being submitted, yesterday declared itself satisfied with the information supplied by the city. Toronto is thus empowered to go ahead with the construction of the lines.

The board intimated that in adjourning the hearing of the application for the switches it was largely influenced by a desire to see North Toronto annexed.

Annexation Comes First.
"It was strongly pressed upon us," continued the decision, "that the large question of annexation was of supreme importance while it was almost certain that double-tracking of the road would follow close upon its heels."

"For the last two or three years questions of annexation and traction difficulties have rendered it necessary for the board to make a careful and careful personal investigation, to familiarize ourselves with local conditions, not only in the city and the adjacent territory, but also in the suburbs, and along the whole line of the Toronto and York radial system north to Lake Simcoe."

"The city and North Toronto unfortunately fell to agree on an annexation, or if they do agree and double-tracking is not provided for without delay, the board will approve of the requisite switches."

The adjournment of the Toronto and York Radial's application till September 11 is done, the board says, expected "to meet the strongly expressed wish of counsel for the city and North Toronto, that an opportunity should be afforded these representatives to consummate annexation, if at all possible."

Position on Civic Lines.
Dealing with the car lines, the report says:
"In our opinion in this matter of the 8th of May, 1911, we declined to approve of the city's plan and profile for the construction of the lines on Gerard-street and Coxwell-avenue from Greenwood-avenue to Main-street, and a works yard on the Yonge-street to the Grand Trunk way crossing, until the city furnished us with particulars of the whole scheme for building, equipping, maintaining and operating the lines. We stated that we required to know all the streets the city intended to use for the lines, the mileage, the kind of rails, the character of the construction, the kind of car barns and repair shops, the number and kind of cars to be operated, and an estimate of the cost per foot, including the plan and a careful estimate of the cost of the new lines, so as to be sure, among other things, that sufficient money had been set aside to pay for the construction and operation of the civic street car system."

Protecting Taxpayers.
"In our opinion the estimates upon which the city had embarked were so serious a matter to the ratepayers in general, and to those in the annexed territory in particular, that the board could not be too vigilant, or too careful of the rights of the people. If we have been exacting we have no apology to offer."
"The city has complied with our demands for particulars and details of the scheme. From the estimates submitted to us it looks as if the new lines might be too expensive, but it is not necessary for the board, at this stage, to determine this question. We do know that there are a large number of people in the territory recently annexed to the city that require street cars, and should have them. The city is receiving a large sum of money each year from the Toronto Railway Company as the city's share of the gross receipts from the street railway traf-

RADIATION AT 3-1 LANDS WISE MONEY AT HAMILTON

Gentlemen Riders Attend to the Favorite—R. Davie's Good Two Year Old Scores Again.

HAMILTON, June 23.—A fair crowd was in attendance to-day. Eight races were again on the card with the Grant Brewery stakes for two-year-olds, at 5 furlongs, and was won by Robert Davie's good filly, Rose Lawrence. This was her third win out of three starts. To-day's race was a real test, and she justified her support by going to the front at the break and set her field a merry clip with the Belmont entry right behind. Vestibule, the added starter, moved up fast a few yards from the wire and looked to have the Davie filly beaten, but Jockey Archibald called on her for another effort and she responded with rare courage and outgamed the Belmont colt at the end. It was a rousing finish and the crowd cheered the Canadian filly for her sterling performance, which gives her as one of the best two-year-olds in training. Caper Sause won an easy race, the first on the card for horses foaled in Canada. He was entered to be sold for \$500 and was run up to \$800 by George Hendrie and Charles Clegg, who had raced him for the last four years, let him go at the advance.

There was a gentleman's race for members of the Hamilton Riding Club, which brought out four starters. Wonderworker was the hot favorite and heavily played by the big fellows with the wise Hamilton coterie on Radiation. At the break the favorite went in front and looked an easy winner to the middle of the stretch, where Mr. Kilgour went to sleep until Mr. Bailey, on Radiation moved up and passed him. The race had such a bad look that Judge Murphy recommended that if the club gives any more such races in future that they will not allow any betting on the event.

Waterbridge, starting in the steppe-charge, fell at the first jump, breaking his neck. He died instantly. Jockey Simpson, who had the mount, was not hurt.

EATON'S DAILY STORE NEWS

The EATON Watch---The Acme of Accuracy

In the production of the EATON Watch the first consideration was the securing of a timepiece that could be relied upon to be accurate.

In Switzerland, where for centuries watch making has been an art, and where are the most skilled watch mechanics in the world, the EATON Watch is made, highest grade, most up-to-date, American watches being used as patterns.

In Switzerland, cost of production is remarkably low, and that's the big reason why EATON Watches are so low priced. The EATON has all the modern improvements known to the art of watch-making. Look into an EATON Watch; compare it with a very high priced American watch, and if you know anything about mechanics it will be plain to you that the principles of construction are identically the same.

EATON Watches are made expressly for us, and should one fail to give absolute satisfaction in every particular, we will gladly replace it. EATON Watches are made for men, women, boys and girls.

Here are EATON Watches for women and girls, O size, the popular size. 7-jewelled Movement, EATON or Fortune gold-filled hunting case 10.00 cases 17-jewelled Movement, same choice of cases 15.50 15-jewelled Movement, same choice of cases 12.25 21-jewelled Movement, same choice of cases 23.50

Cases plain, polished, engine turned, or engraved in fancy designs as desired. In open face, gold-filled cases, silver or gummetal cases, prices are lower.

TUESDAY 250 HORSES

THE BEST SELECTIONS OF ALL CLASSES: Heavy Drafts, General Purpose, Express, Delivery, Farm Chunks, Workers, Wagon Horses, Drivers and Carriage Horses. All horses sold under any warranty are returnable any time before noon of the day following sale, when the purchase price will be promptly refunded. Horses sold "at the halter" are not covered by guarantee. We have special traps for the hitching and trying of horses. Arrangements can be made right on the spot for shipping horses, and the out-of-town purchaser has no difficulty whatever.

"GEORGE S." a bay gelding, 4 years, will be sold on Tuesday, the 27th. This gelding is a standard-bred, and was sired by Sam Medium, 2:15 1/4; is an excellent driver, and has been miles in 2:40, but was never trained to race. A FINE DELIVERY PAIR will be sold Tuesday. They are a pair of Strawberry Roans, full brother and sister, four and five years old, and stand 16 hands. Would be an excellent advertisement as a delivery pair. None could be better. ALSO A FINE MATCHED PAIR OF BLACK GELDINGS will be sold. They are four years each and half-brothers. Would be a fine express or wagon pair.

FRIDAY 175 HORSES

One of our shippers advises us that he will have in his load ten first-class Delivery and Wagon Horses, and we will have lots of others for those who want this kind. We have plenty of Heavy Horses, Expressers and the other classes on hand, and coming in for Tuesday.

Carriage and Harness Department

We carry everything in the horse line from a mane comb to a brougham. Sole Canadian Agents for Reducine, the great absorbent and remedy. Price \$4 per tin, cash with order. Send for illustrated booklet. Feruloc, a body and leg wash for road and racehorses, sold at wholesale and retail. There's nothing to equal Feruloc. We are the Toronto Agents for the famous McLAUGHLIN BUGGIES, carrying a full line of Runabouts, Buggies, Stanhopes, Surreys, Brewsters, Basket Phaetons. Also a full line of Delivery Wagons, and the most up-to-date Pony Vehicles that you would find any place in Canada (suitable for Horse Show purposes). An inspection of our stock is invited. Catalogues of all traps may be had for the asking. McLaughlin Traps are right in construction, reasonable in price and reliable in quality. CHARLES A. BURNS, Gen. Mgr. & Auctioneer. SATURDAY MORNING, JUNE 24, 1911.

RAILWAY BOARD'S GOOD AVIS.

If the city council can rise to the lead given by the Ontario Railway Board in the orders given yesterday afternoon, a great impetus may be given to the development of the city's plans.

"We do know," says the board's judgment on the city car lines, "that there are a large number of people in the territory recently annexed to the city that require street cars and should have them."

The board recognizes the fact that a large revenue is received from street car traffic and thinks "it is only fair that the ratepayers who have street cars and who profit by the revenue should spend some share of that revenue in providing street car service for their less happily circumstanced citizens."

"We think we should facilitate the city in doing justice to the people in the annexed districts by providing them with street car transit."

It is now incumbent upon the city authorities to make speed with the new lines.

The board also spoke with sense and consideration in regard to the annexation of North Toronto. We call attention to the remarks of the members, which apply not only to North Toronto, but to all the territory immediately susceptible to civic incorporation.

"From our knowledge of the surroundings and of the growing necessity of the great city, we are of the opinion that not to take advantage of the opportunity of annexation now presented would be a misfortune."

This statement from the board is well meant and should be accepted in the spirit in which it is made. It represents very considerable investigation and experience, and is supported by the opinion of leading citizens who have studied the matter. Nothing but innate perversity in the aldermen can prevent them accepting such good advice.

In the two months left, all the annexation problems now in view in connection with Swansea, North Toronto, and any adjoining shreds and patches should be dealt with. The council might congratulate itself on having really achieved something in the coronation year, should these plans be brought to consummation.

WIDENING KING AND YONGE STREETS.

In the statement by Mr. David McNicoll of the C.P.R., concerning the property at the corner of Yonge and King streets, there is nothing to show that the company would not accept the larger portion of land if it could be had. Mr. McNicoll is only careful to point out what would be necessary to be done to acquire it and the cost. He objects to take five feet from the present King and Yonge street lots, on either street or on both. Mr. McNicoll does not appear to have declined to entertain the idea of a larger building in making the statement of the obviously increased cost.

NEW ONTARIO AND HUDSON BAY.

The views of G. T. Somers, vice-president of the board of trade, in regard to New Ontario seem to be on the line of good policy and worthy of realization. He believes that New Ontario is the greatest asset this province or the whole Dominion has at this moment; that it will be the seat of many industries; that the sooner it is opened up, the better.

Mr. Somers would extend the Timiskaming & Northern Ontario Railway immediately to Hudson Bay and in that way put it in living touch with Southern Ontario. There are immense fishing resources in Hudson Bay, of one kind or another and there are all kinds of possibilities of trade up rivers that flow into the Hudson Bay, once they can make direct railroad connection with Toronto. Mr. Somers would vote—and The World would support such a proposal—\$5,000,000 for roads opening up the clay belt country to settlers, giving the settlers first of all roads into the townships laid out for settlement, and if necessary build the first settlers a small house and barn at public expense, but the cost of which would be repaid at a reasonable rate of interest later on by the settler. All that is wanted now is to start settlement going in New Ontario and once it starts and the wealth of the country is made accessible and available wonderful results ought to follow.

And speaking of Hudson Bay, the completion of the railway to its shores will open up the greatest inland tourist country in America and yet, while inland, being at the same time on salt water. The great tourist country of all North America will be about Hudson Bay the moment the railway gets there. All other tourist grounds will be insignificant when compared with the new and greater one that will, with 150 miles additional railway, be within easy reach not only of the people of Ontario, but of the residents of the United States, in what is known as the Valley of the Mississippi. The people of Chicago will go to Hudson Bay as their seaside resort when they can get there by rail.

To make a sigh a song of gladness

The sigh of the weary wife as she turns from the hot stove and trudges back to the ironing board to attack once more her wearisome task, will cease, and in its place will come a snatch of song when an electric flat iron takes the place of the present antiquity. The entire scene may change to the back porch, or to any cool spot where there is an electric lamp socket, for there will be no more need of a hot stove or of endless walking back and forth. Ask her, and then phone the summer comfort number—Main

INDICTED FOR FORMING NEW VARIETY OF TRUST

Had No Capital Stock and Did Not Try to Control Prices Among Themselves.

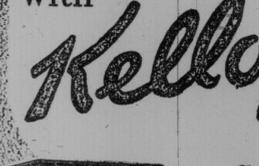

CHICAGO, June 23.—Fourteen secretaries of as many retail lumber dealers' associations indicted by a special grand jury here to-day for alleged violation of the Sherman law, constituting a new kind of "trust" according to the United States attorneys, who conducted the investigation. The retail lumber dealers it was admitted at the close of the investigation had no incorporation, no capital stock and did not try to control prices and prevent competition among themselves. Instead they had what the attorneys say was a "trust of power" and sought to provide that all lumber should be sold to consumers only through wholesalers or manufacturers.

The secretaries of the retail associations constitute the lumber secretaries' bureau of information, incorporated in Illinois in 1905, and represent thousands of retailers.

The power of the retailers' organizations was wielded through the bureau of information according to the indictment.

PICKERING CENTENNIAL WAS A GREAT SUCCESS

Nearly 10,000 People Attended in the Two Days—Minister of Justice Spoke Yesterday.

BROUGHTON, June 23.—(Special.)—The crowning success of the Pickering Centennial came to-day, when in the presence of nearly 5000 people gathered from all parts of South Ontario, and favored with delightful weather, the musical and sporting features of the occasion were carried to a successful conclusion.

Sir Alan Aylesworth, minister of justice, was on the grounds during the afternoon, having motored up from Ottawa with F. L. Fowke, M.P. The minister's speech, which was a feature of the day, and his address, devoted to a review of the evolution of the municipal system of Ontario, was replete with interest and information.

In a movement so large and entailing so much labor as the organization of a township centennial, something must of necessity have been overlooked, but the committee, one and all, may fairly congratulate themselves on the splendid success of the occasion.

You Don't Have To Start A Fire in the Coal Range

When some one wants a bath. It's no longer necessary to hustle around gathering up paper, carrying up wood and coal every time somebody wants to take a bath. You no longer need to heat up your kitchen, in fact, the entire house, every time hot water is desired.

There's An Easier Way--Use a Vulcan Gas Water Heater

This heater occupies but very little space. It is connected to your kitchen boiler and is operated as easily as your gas range. The Vulcan Heater heats water very quickly—enough for a bath in 30 minutes. This heater will not overheat your kitchen. Water Heaters sold on easy payments. Free inspection of the burners every 3 months.

PLAINTIFF'S COUNSEL TURNS ON SPECTATOR

M. K. Cowan Accuses Bystander of Overhearing Confidential Conversation.

A somewhat unusual scene was enacted in the assize court yesterday afternoon at the close of the retrial of the case in which Miss Agnes Sheehan is suing the Toronto Railway Company for \$50,000 damages, when, after Chief Justice Falconbridge had retired, M. K. Cowan, K.C., counsel for the plaintiff, having hastily dressed himself of his legal habits, and appearing in his shirt sleeves, approached a certain gentleman who had been sitting near the witness stand during the trial, and in stentorian tones ordered the aforesaid gentleman to inform him whether he was a constable, or connected with the court, as he (Cowan) counsel, objected to him listening to what he was saying confidentially to his client.

Cowan's office witnesses, reporters and others formed a ring, and looked on as Mr. Cowan was going to put his pugilistic powers to the test, but at the crucial point the mysterious gentleman, who other than a Pinkerton detective, smilingly told Mr. Cowan that he was a stranger in the city, and had no interest in the case.

When the case was resumed yesterday morning M. P. Warren, of the Watson Manufacturing Company, the firm which employed Miss Sheehan prior to her accident, said that his business turnover in 1909 amounted to about \$25,000, and the capital was \$40,000. Miss Sheehan took 10 per cent. on sale, amounting to \$2,500, and five per cent. on other sales, amounting to \$1,200, total sales commission \$3,700.

Mr. Warren further stated that he had intended taking Miss Sheehan into partnership with him if she did not get married. Witness thought plaintiff was getting \$1000 a year.

By mutual arrangement counsel will send in their arguments to Chief Justice Falconbridge within a week, when his lordship will give his decision.

DISFIGURED FOR LIFE!

Mothers Should Realize What Neglect of Skin-Troubles May Mean to Children.

A lifetime of disfigurement and suffering often results from the neglect, in infancy or childhood, of minor affections of the skin and scalp. A mother overlooks a little rash or attempts some simple treatment and in a day, perhaps, the little one is covered with severe eczema or a similar distressing eruption. Then the struggle for a cure begins.

A multitude of remedies are tried, doctor after doctor consulted and hospitals visited, but soon the suffering extends, without substantial relief, from days to weeks, weeks to months and months to years. Added to this is the ever-present fear that the itching, burning and disfigurement will become chronic, marred future welfare and making life miserable.

In the prevention of the simple skin troubles from which all this suffering so often arises and in establishing a condition of skin health that makes eruptions impossible, it is assured that nothing is purer, sweeter or more effective than Cuticura Soap and Cuticura Ointment. If anything, it is justified by more than thirty years of pronounced success.

To quote but a single instance, Robert Mann of Fort St. Vrain, Minn., says: "Our boy was born in Toronto on Oct. 13, 1908, and when three months old a slight rash appeared on his chest. What appeared to be a water blister would form. When it broke matter would run out, starting new blisters until his entire face, head and shoulders were a mass of sores and you could not see a particle of clear skin. We tried every advertised remedy without avail, including the mother resin and for the first time a family doctor prescribed for him and told us to bathe the baby in buttermilk. This did not do any good, so we turned to Cuticura. He was treated as an out-patient twice a week and he got well. We decided that it could not be cured and must run his course and so we just kept his arms bandaged to his side to prevent his scratching. We left Toronto and shortly after our arrival in Fort St. Vrain, Minn., we were recommended. We started using them in May, 1909, and soon the cure was complete. He would not think he was the same child for Cuticura made his skin perfectly clear and a healthy baby. He has no more skin disease. There has been no return. We still use only Cuticura Soap for baby's bath. Cuticura Ointment, Cuticura Resolvent and Cuticura Pills are sold by drug-chem. corp., Boston, Mass., for a free copy of their latest 32-page Cuticura Book on treatment of skin diseases.

BOOK REVIEWS

THE OLD DANCE MASTER.

By William Romaine Paterson.

Readers who are in the character of the old professor of music as acted by David Watfield in "The Music Master" will find a great deal of the same in this quite new and charming love-story in the Herr Habicht's of Mr. Paterson's tale, but presented, however, with more humor and less pathos. These are like a long and rather leisurely story, but find "The Old Dance Master" very delightful in many widely varying ways. The book contains a mass of folks of philanthropy and the world with genial but pungent satire. There are pictures of life in the lower middle class that are done with a vividness and a grotesquerie, and at the same time with such truth and shrewdness as make one hark back to thoughts of Dickens and Dick Swiveller and Mrs. Gamp. The book contains a mass of characters in all stations of London life, each one portrayed with just that touch of humorous exaggeration that makes it seem as though one comes across good things that one reads over again with a chuckle of appreciation. (Little, Brown & Co., Boston.)

ST. JOSEPH'S ALUMNAE

Series of Meetings Held in Past Week—New Officers.

A series of enthusiastic meetings of the St. Joseph's Academy Alumnae Association was held recently. The association has a large membership and alumnae were present from all parts of the world, to confer with the city members.

On Monday and Tuesday the alumnae entertained the pupils of the academy, but the festivities were private and informal, as a mark of respect to the late beloved Archbishop McEvedy.

The following are the officers for 1911-12: Honorary president, Rev. Mother M. Irene; president, Miss G. Lawler, M.A.; vice-president, Miss Dwyer; treasurer, Mrs. J. E. D. Dwyer; secretary, Mrs. A. J. Small; corresponding secretaries, Mrs. E. May, Mrs. J. Cassidy, Mrs. L. V. McBrady; historians, Mrs. W. Pelel, Miss J. Smith.

Fortune smiles on some men—it can't help it when it finds itself in such ludicrous surroundings.

A MAN'S BOOK

A PRIVATE TREATISE, WITH ILLUSTRATIONS, RELATING TO DEBILITY, ITS CAUSE, EFFECT AND HOME CURE.

Let Me Send It to You FREE

Here is a little volume of cheer and helpfulness which all men, young or old, can read with great profit; it contains much valuable information of a private nature, is fully illustrated, and represents the practical knowledge I have gained from forty years of actual experience in giving help to upwards of 100,000 enfeebled, nervous, discouraged men. Just a postal card with your name and address, and the book will be forwarded free, sealed, by return mail, and with it, as well, I will enclose a full description of my new 1910 model Electric

Health Belt

If you need new strength, this wonderful appliance must appeal to you. It generates a pleasant, exhilarating current instantly felt, though it can be made any degree of strength from mild to strong by simply turning the needle of the current regulator; worn nights while you are sleeping, it pours quantities of health-giving, soothing electricity into your sick, weak nerves; you get up mornings feeling bright, strong, full of courage and ambition; it takes all the weakness and pain out of your back; it is a great remedy for your kidneys, bladder, stomach, liver and other vital organs; it cures rheumatism in all parts of the body; it is a courage-giver of the highest order; it brings new strength where weakness exists; it will restore you to vim, vigor and true manhood as sure as night follows day; it makes you feel young and look young; you will live longer for its use; you can throw away all drugs and commence to live as Nature intended you should—a man among men, healthy, happy and vigorous. I can send you thousands of testimonials if you care to see them. Here is a sample Cure:

"Your Health Belt cured me of Nervous Debility, and general prostration of the whole system after all else failed."
EDMUND C. APPER, Box 313, Brantford, Ont.

In all instances I concentrate the full positive current at small of back; it thus enters the system at the nerve and vital

THE MILLER OF THE OLD CHURCH.

By Ellen Glasgow.

This book contains graphic pictures of southern life and southern people. Its scene is laid in Virginia, in the period following the civil war, when the bonds that held together the older social organization were breaking under the stress of change and readjustment, and in the unaccustomed equality of opportunities those who formerly would have had but little chance were acquiring wealth and political power. Abel Revercomb is "the miller" of the story and he is one of the most outstanding and interesting of all the many southern plain-folk characters who have been pictured so vividly. The book tells his love story, the romance of a man who comes into a finer and nobler soul inheritance by the running of the mill; the love he thinks he has abandoned. (Mueson Book Co., Toronto.)

THE TENNESSEE SHAD.

By Owen Johnson.

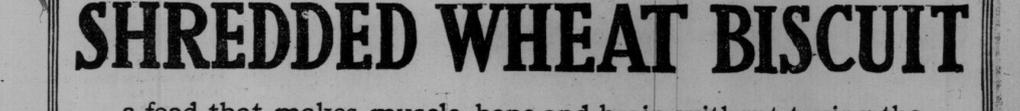

Owen Johnson has published another Lawrenceville story which presents things so that the juvenile mind can readily comprehend what is going on in the great world of higher politics and finance. "The Tennessee Shad" is the narrative of the rise and fall of the firm of Macnooder and the Tennessee Shad, a schoolboy exponent of "high finance." Their schemes are as varied as those of the most criminal rascals and their devices are so Machiavelian that the reader is reminded of the great manipulators of predatory wealth like puppets. In the person of Macnooder was a mine of undeveloped experience and mentality which needed only the philosophy of the Tennessee Shad to be molded into a great power that almost brought success. "He represented twenty firms, and piled so thriving a trade in incalculably useless goods that he was able to refuse a cash offer from the village tradesmen to abandon the trade." "The Tennessee Shad frankly confessed his ambition to be a philosopher, his idea of the same being that a 'sensibly' 'sensible' person who resided in a town and thought out courses of action for other people to follow." (Mueson Book Co., Toronto.)

Be Good to Your Stomach

Be good to your stomach—it will return your kindness a thousand-fold in health, happiness and strength for the day's work. Nothing so delicious, wholesome and nourishing in Summer as strawberries with

SHREDDED WHEAT BISCUIT

a food that makes muscle, bone and brain without taxing the digestion. Shredded Wheat Biscuit with cream and a little fresh fruit for breakfast will keep the stomach sweet and clean and the bowels healthy and active—better than medicine or any "Spring tonic."

Heat the Biscuit in an oven to restore crispness; then cover with strawberries, raspberries or other berries and serve with milk or cream, adding sugar to suit the taste. If you haven't tried it you don't know all the joys of Summer—more healthful, wholesome and nourishing than soggy white-flour short-cake—always clean, always pure, always the same price. Try it today. Your grocer sells it.

UNCANNY STORIES.
 By F. M. Crawford.
 Ghost stories continue to fascinate despite the increase of the scientific spirit. Marlon Crawford's posthumous volume contains seven stories of weirdness and horror. The first is entitled "The Dead Smile." In it an unbelievably wicked old scoundrel is represented as taking to his grave wilfully the secret of the actual relationship of two young persons who happen to be his own children. His object is to revenge his mother by having them marry each other. There is an air of mystery in the plot, and a banishment in the likeness of one of the mothers, and a family tomb and an ancestor (beheaded on the Hill) who will not stay in his coffin. Hardly less grisly is the tale of "The Screaming Skull." This tells how a certain doctor slew his wife and kept her polished skull in a box, till one day it leaped at his throat and bit him to death. The thing sounds very bald, thus stated, but in this case Mr. Crawford has done the telling with singular effectiveness. "Man Overboard" is another variation on the old theme of the two brothers who, in the same ship, worked out so as to involve the lives of one of them over the side, a haunted skip, and a thing in gleaming oilskins coming up out of the sea to spoil the wedding. Yet another, "For the Blood is the Life," is laid in Mr. Crawford's favorite Italy, near an old tower, built to guard against Barbary pirates. It is a tale of stolen treasure and a wrath-woman with vampirish tastes, whose body, lying buried with the treasure, seems always—when the moon shines—like the figure and the mould which marks the spot. One can see it so from the platform on top of the old tower.
 A less successful experiment than either of these two is the tale entitled "The Upper Berth." It concerns the tribulations of a passenger who found that a slimy dead thing from out of the sea persisted in climbing aboard every night thru his cabin porthole and occupying the upper berth. The same ghostly visitor had already frightened three other passengers into suicide by leaping over the rail, and the traveler in question "escaped" that damp fate, he did get his arm broken in a tussle with the thing which, incidentally, knocked the breath out of the captain. That happened while the officer was sharing the passenger's watch with a view to solving the mystery.
 Altogether, for those who like ghost stories and like them strong, this volume of Mr. Crawford's may be recommended as likely to provide the desired effects and sensations in a quite satisfactory fashion. (Macmillan Co., Toronto.)

Porcupine Bulletin

By R. H. Benson.

Readers of this paper will be interested to know that the Porcupine Bulletin, a weekly publication of the Porcupine Club, is now being published. It contains a great deal of interesting information regarding the club and its members. It is a most valuable addition to the club's literature and is well worth a read.

None Other Gods

By R. H. Benson.

"None Other Gods" is a powerful novel, but it is highly original in conception and treatment, and, as was said, thoroughly readable. In short, it is a book greatly worth while reading.

APPLICATION LISTS will be opened at the office of Amilius Jarvis & Co., 103 Bay Street, Toronto, on Monday, June 26th, and will close on or before Friday, June 30th, at 3 o'clock p.m.

We have examined the books and accounts of The Canadian Locomotive Company, Limited, for a period of four years ending December 31st, 1910, and certify that the Current Assets and Liabilities included in the above statement are correct.

During the period covered by our examination, the profits of the Company, including interest on investments (which has aggregated about \$27,500.00 per annum), after providing for depreciation, have in no year amounted to less than \$300,000.00, excepting in the year 1910, when the profits amounted to only \$107,000.00. The profits for the three years, 1907, 1908 and 1909, on the basis mentioned, have averaged \$523,282.08 per annum, and the falling off in the business of the year 1910 is explained by the management as being largely due to the curtailment of operations resulting from the delivery of defective steel castings purchased by the Company under contract.

FIELD OF OPERATION.	PLANT AND EQUIPMENT.	EARNINGS.
Canada to-day has over 25,000 miles of railroad in operation and over 6,000 under construction or being surveyed. According to statistics furnished by the Department of Railways, one locomotive is required for every six miles of track. Last year there were 4,079 locomotives in use in Canada. The completion of the present 6,000 miles under construction will call for 1,000 new locomotives. In addition, 400 locomotives will be required each year to replace existing equipment. The railroad development which is taking place in Canada is really only at its beginning, and it is expected that within the next ten years the present railway mileage in Canada will be more than doubled.	The Canadian Locomotive Company, Limited, have been building locomotives since 1855 and have therefore a thorough knowledge of the business. At the present time they are turning out 75 locomotives per year, but have had to refuse many satisfactory orders owing to their limited capacity. The Company have the most up-to-date and modern plant in Canada, covering 333,000 sq. ft. In addition the Company have 180,000 sq. ft. of available land on which they can erect additional buildings and, as required, still further enlarge their plant at the minimum of cost. The Company are fortunate in having cheap power, unexcelled shipping facilities, and in being exempt from taxation, except School taxes, up to the year 1916. They have probably the best trained and most loyal staff of skilled workmen on the continent.	It will be observed from the above that the average earnings for the last four years show, in addition to the sum required for Bond Interest and Sinking Fund, an amount equivalent to practically twice the dividend on the Preferred Stock issued. It is estimated that as a result of the contemplated increase to the plant, the earnings within the next few years should be at least \$600,000 per annum; or in the neighborhood of 18% on the Common Stock after providing for Bond Interest, Sinking Fund, and Preferred Stock Dividend. In making provision for an increase in the capacity of their plant, the Company are not entering into a new and untried field. They have a thorough knowledge of the business, and the increased output can be managed with the same office and selling staffs. The reputation of the Company is so good that the demand for their locomotives far exceeds the supply.

Applications will be made in due course to list the Preference and Common Shares on the Toronto and Montreal and London Stock Exchanges.

The Pig Got Well.

"When I was a boy," says Nicholas Murray Butler, president of Columbia University, "it was the custom for the country people to work out their taxes by boarding the teacher. This meant that as part pay he was from time to time supplied from various quarters with fresh meat."

"One day a boy named Tim Moorhead breathlessly sought out my instructor, exclaiming, 'Say, teacher, my pa wants to know if you like pork?'"

"Indeed I do, Tim," answered the pedagogue. "Say to your father that there is nothing in the way of meat I like better than pork."

"Some time later," said Tim, "but there was no pork from Tim's father."

"How about the pork your father was to send me?" the teacher asked the boy one day.

"Oh," answered Tim, "the pig got well."

The Pieces.

Mary had an aeroplane
With wings as white as snow—
They're picking up the pieces now,
Because it wouldn't go.

—Judge.

His Flag Was Up.

When the crowd assembled for their
Fare of Johnnie, the pitcher, was
Missing. Jimmie was sent to investigate.

"Is Johnnie at home?" asked Jimmie
of the slater who answered his knock.

"Course," answered the slater. "Don't
you see his shirt on the line?"—Success

Queer Morality.

Upon a certain, in a lecture in New
York, condemned industrial or business
morality.

"It is all wrong," he said, "but every
one thinks it is all right. It reminds
me of that case."

"Once in a Tin Can poker game a
tenderfoot saw a player give himself
four aces from the bottom of the pack.
The tenderfoot flushed with indignation.
He turned to a Tin Can native and
whispered:

"Did you see that?"

"Saw what?"

"That that bound dealt himself
four aces!"

A Proverbial Tragedy.

The Rolling Stone and the Turning
Worm
And the Cat that Looked at a King,
Set forth on the Road that Leads to
Home—
For Youth will have its Fling,
The Goose will fly the Golden Eggs,
The Dog must have his Lay,
And nobody locks the Stable Door
Till the Horses are all away.

But the Rolling Stone, that was never
known
To look before the Leap,
Plunged down the Hill to the Waters
Still

This man to dark, so deep,
To look before the Leap,
Early Bird
Who sought his breakfast where
He saw the equine of the Turning
Worm—
And the Cat that was Killed by Care!
Arthur Guiterman in "Life."

He Knew.

"And the streets were paved with
real gold, and there will be music and
flowers, and everything will be beautiful!"
finished the Sunday school
teacher, who was telling her small
charges of heaven.

"Why do you see that?"

"Saw what?"

"That that bound dealt himself
four aces!"

"Well," said the native, in a surprised tone, "wasn't it his deal?"

Suitable Clothes for Summer Outings

No matter what you do over the week-end, or on your holidays, you won't get the full benefit of your outing, unless you're suitably clad—that is, clad so that you're unaware of discomfort or confinement of any kind. Here are clothes that will permit the right mental state without noticeably affecting your pocket.

Men's Hot Weather or Outing Coats, made from a fine English Satara cord, in a light fawn shade; cut three-button single-breasted sack style, with three patch pockets; extra well tailored; sizes 36 to 50. Monday 2.00
