ROOSEVELT IS IN OPEN AT LAST
SAYS HE'LL ACCEPT NOMINATION
IN RACE FOR PRESIDENCY OF U.S.

Replying to the Request of Seven
Republican Governors That
He Enter Arena, the Colonel
Burns His Bridges Behind Him
—Stands Always by Principle
That People Must Rule.

NEW YORK, Feb. 25.—(Can. Press.)
—I will accept the nomination
for president if it is tendered me
and I will adhere to this decision
until the convention has expressed
its preference," is Col. Theodor
Roosevelt's reply to the letter of
seven Republican governors asking
him to stand for nomination.

The much awaited reply was given
out to-night at Col. Roosevelt's offices
here during his absence on a trip to
Boston. It was unexpectedly brief, but
definite. It follows:
"Gentlemen: I deeply appreciate
your letter, and I realize to the full the
heavy responsibility it puts on me, ex-
pressing as it does the carefully con-
sidered convictions of the men elected
by popular vote to stand as the heads
of government in their several states.

Must Represent Whole People.
"I absolutely agree with you that
this matter is not one to be decided
with any reference to the personal
preferences or interests of any man,
but purely from the standpoint of the
interests of the people as a whole. I
will accept the nomination for presi-
dent if it is tendered to me and I will
adhere to this decision until the con-
vention has expressed its preference.
One of the chief principles for which
I have stood and for which I now
stand and which I have always en-
deavored and always shall endeavor
to reduce to action, is the genuine rule
of the people; and, therefore, I hope that
so far as possible, the people may be
given the chance, thru direct primaries,
to express their preference as to who
shall be the nominee of the Republican
presidential convention.

Very Truly Yours,
Theodore Roosevelt.
The seven governors assembled at
Chicago two weeks ago and drafted a
letter to Col. Roosevelt asserting that
there was a popular demand for him
to be president again and urging him
to declare himself as to whether he
would accept the Republican nomi-
nation "if it came unsolicited and un-
sought." For two weeks Col. Roosevelt
considered the letter, indicating plainly
that he had no intention of making a
hasty reply.

The governors who signed the letter
were: William Glasscock of West
Virginia, Chester H. Aldrich of Ne-

HAMILTON CITY COUNCIL
WILL HAVE WARM SESSION

Aldermen Will Oppose the Proposal to Raise
Salaries of Controllers From \$1200 to
\$1500 a Year, Because the Recommendation
Came From the Controllers Themselves—
Firemen Are Dissatisfied and City Laborers
Need More.

(By Staff Correspondents.)
HAMILTON, Monday, Feb. 25.—Judging
from present indications to-night's city
council meeting will be about the
warmest session the city fathers have
held for a long time. Several of the
aldermen are strongly opposed to two
items in the board of control report,
and declare that they will make things
interesting for the controllers when the
report comes up for consideration.

The biggest fight of the evening will
probably develop over the question of
minimum wage for city laborers. Ald.
Littlerwood and Bird have been agitat-
ing for an increase from 20 to 25 cents
an hour for this class of city employees,
and a bylaw sponsored by them was
introduced at the last council meeting.
The matter was referred to the board of
control, and that body has recommended
an increase to 22 cents an hour. The
aldermen say they are determined to
fight for the figure proposed by them,
and argue, in support of their action,
that a man cannot live decently on less
than 25 cents an hour. It is said that
there are enough aldermen opposed to
the board of control's recommendation,
and in favor of the 25 cents an hour
figure, to defeat the controllers on the
stand they have taken.

Another recommendation of the board
of control which has created consider-
able discussion on the street and which
it is said will be strenuously opposed
by the aldermen, is the proposal to
boost the controllers' salaries from \$1200
to \$1500 a year. The objection to this

Young Men Try to Walk the
Way of Folly and History
Has Repeated Itself in All
Such Cases.

(By Staff Correspondents.)
Hundreds of people were unable to
gain admittance to the Gospel Taber-
nacle last night, to hear Rev. P. W.
Philpot preach on "Unheeded Danger
Signals." The pastor took as his text
Psalm xlix, 12: "This their way, is their
folly; yet their posterity approve their
sayings." "This is surely a very seri-
ous charge the psalmist makes against
society," said Rev. Mr. Philpot. "The
complaint is that while we learn from
those who have gone before in things
that are secular, we close our eyes to
their moral failures and spiritual weak-
nesses. Bible and profane history are
replete with examples of failure. Those
examples are spiritual red-flags, warn-
ing us of rocks and shoals where men
become wrecks. Why do men permit
themselves to be deceived and walk a
path so fatal? I think it is because we
lack consciousness of sin, and are too
easy with sin. We take it too lightly.
We need a quickening of conscience as
to wrong doing. It has ever been the
salm of Satan to gloss over, and in
the theatre and the popular novel are
his principal agents in this work. They
would lead us to believe that the sin
is real life instead of death." The
preacher cautioned young men not to
presume on their cleverness to save
them from falling. "Don't trust your-
self, you are no better than your fa-
thers," admonished Mr. Philpot. "In
my 16 years in this city I have seen a
good many young men try to walk the
way of folly, and history has repeated
itself. They have fallen where others
fell."

cess that places her without a rival
among the stars of light opera.

A FORTY MILE CITY THE CENTRE OF CANADA

The greatest city by far in Canada will be when Hamilton and Toronto grow together—thirty-
nine miles from city hall to city hall! And they are coming together soon.
Hamilton is one of the few cities that grow rather slowly to the west; Toronto slowly to the east.
But a change is coming fast. Hamilton's best side is to the east, the soon the Ambitious City
will be at Burlington—even if it has to come round by the Beach!
Toronto is fast lapping up Mimico/Port Credit, 13 miles on the way to Hamilton. Oakville in
a year or so will be the home of more Torontonians than Oakvillians. There is less than fifteen miles
between the outposts. Did you ever see Los Angeles?

The farms between the two cities are growing into an average value of \$500 an acre. They'll
soon be \$1000. The finest residential sites of a high-class are between Bronte and the Beach.
What is wanted is a cent a mile commutation rate on the steam roads. But the electric radial
and the motor car alone will do the trick of making it one hive of settlement, of homes, of great
houses, of industries in bricks, in potteries, in gardens, orchards, manufactures.

It is to be the scene of the most marvelous development in Canada in the next ten years. And
now that the Canadian Northern is building from Hamilton to the Niagara, the three great railways of
Canada will be all in this favored district competing for its traffic.
And we are to have ocean steamships in Lake Ontario!
If the Mountain will not come to Toronto, Toronto will go to the Mountain! And be glad!
The greatest manufacturing industries on the large scale, on the stupendous scale, will be in this
favored district. Their market will be all Canada, all Ontario, all the great West! And the trade in
this district, within the district, will be of a most surprising character! There will be no cause of
jealousy—for the gain will be beneficial equally to all the parts!

The gardens, orchards, farms and factories of Hamilton and neighborhood will have an enormous
run of customers at this end of the line. Toronto business men will benefit therefrom not more
than the business men of Hamilton. There will be no Toronto, no Hamilton. There will be One.
Ontario is to be the greatest province or state in all North America and the greatest hive of
business, of happy homes, of a smiling garden country, two millions of happy people, will be around
this end of Lake Ontario in less than a dozen years.
Cheap transportation, as we said, is the only essential and it is coming—even if we have to start
a public ownership line and a department of railways under the Ontario Government!

We have all the energy of the Niagara River and the finest "drops" from the upper to the lower
level for developing power. But let us keep this power for the public in order to work out so great
a destiny!
There can be no diversity of interest, no clash; good fellowship and pride in a common lot will
work it out.

The World believes in this great and immediate future and will help it along. We are glad to
do a little in the leadership of this great twentieth century civic uplift.
Get Big Eyes and you'll all be able to see it and to do your part in it. It is a great national
drama and we are all to be the actors. The World will try to play the part of the morning paper
of this enchanting settlement!
Hurrah for the Great Half-moon of the Greater Canada that is now unfolding in the Townships
of Scarborough, York, Etobicoke, Toronto, Trafalgar, Nelson, the Flamboros, Ancaster, Barton, Saltfleet,
and their cities, towns, villages, all linked up in one. The capital of Canada with great buildings,
monuments, palaces, driveways, the centre of the Dominion in art, law and manners, may soon be at
that most delectable location on that mountain slope that looks down on Waterdown, the Beach and
the curved shore of the lake that is as beautiful as anything in America!
No man dare dream what all this means and how near it is at hand.
All that The World claims for itself is that it sees it! You see it, too!

The marriage of Major W. L. Ross, K.C.,
to Mrs. Florence Griffith will take place
this morning at Centenary Church. Rev.
Dr. J. V. Smith, pastor of the church,
will officiate. The wedding will be a
quiet affair, and only a few of the per-

tracting parties will be present. Im-
mediately after the ceremony the bride
and bridegroom will leave on their honeymoon
tour and will be absent from the city
about a month.

Mrs. Cullen of Halifax Want \$20,000
Balm for Outraged Dignity.
MONTREAL, Feb. 25.—(Special.)—
Mrs. Elizabeth Cullen, the Halifax lady
who was a very prominent figure in
the McNeill law suit two years since,
wants \$20,000 from David Russell, who
the plaintiff claims, hurt her feelings
by calling the Blue Nose lady names
over the telephone, and who would not
say he was sorry to Madame Cullen's
lawyers.
Mrs. Cullen, who is a friend of the
Carringtons, called on Mr. Russell and
tendered her services in that great
cause celebre with the Pinkerton De-
tective Agency, but Dave, supposing
that she was in league with his en-
emies, told her so to language which
Mrs. Cullen considers to have been un-
parliamentary. Hence the present ac-
tion.
GAMBLING CHARGED
Hamilton Police Raided Place on King
St. and Arrested Several Men.
(BY Staff Correspondents.)
HAMILTON, Monday, Feb. 25.—Another
bunch of alleged gamblers were taken
into custody last night in a raid made
by the police, headed by Sergeant Cuck-
shanks, on the premises at 22 West King-
street. Those arrested were: Richard
Balls, 62 West Main-street; Wm. Quin-
lan, 115 Broadbalt-street; Wm. Conroy,
23 Charles-street, and Thomas Hammond,
who is alleged to be the keeper of the
place. The others are charged with gam-
bling with cards on the Lord's Day. All
were released on bail last night.
MILLION FOR MCGIBBON
MONTREAL, Feb. 25.—(Spe-
cial.)—Money is made quite easily
in Montreal these days, a deal having
just been completed by which the Mon-
treal Light, Heat and Power and the
Shawinigan Companies take a control-
ling interest in D. Lorne McGibbon's
Cedar Rapids proposition.
The latter, although retaining a good in-
terest, has cleaned up a round mil-
lion.
Mr. McGibbon left for Toronto this
evening on a big financial mission.

Good Morning, Hamilton!

Fifty-five per cent, measures the
increase of population in one decade
according to the Dominion census
returns for the ambitious City of
Hamilton. This young giant, which
promises to be one of the leading
industrial centres of Canada, now
possesses a population of 81,568, and
if they keep up the same ratio of
increase for the next ten years
Hamilton will be well along to-
wards the 200,000 population mark.
The foregoing is merely inci-
dental to what we are going to say.
This enormous increase in popula-
tion and prestige demands that
Hamilton should have what is es-
sential to a city's success, viz., a
MORNING PAPER of its own. To
that end, and with this issue, The
World enters the field, and presents
to the citizens of Hamilton "their
own Morning paper."

The World is grateful for the
patronage and support given this
newspaper in the past, and that
support gives us confidence that the
new venture will be accorded a
greater measure of success, and one
that will justify this departure.
Hamilton news and happenings will
all be recorded in full, and every
event of public interest will be
faithfully chronicled. Impartial and
unbiased comment on civic affairs
will be given, and everything done
towards giving Hamilton what it
is entitled to, A METROPOLITAN
MORNING NEWSPAPER.

Aggressiveness Is Bitterly

BEIRUT, Feb. 25.—(Can. Press.)—
Martial law was proclaimed here to-
day, although all is quiet within the town.
Not less than sixty persons were killed
and one hundred wounded during the
bombardment by the Italian warships
on Saturday. The arrival of the Ital-
ians early on Saturday was followed
by an immediate demand for the sur-
render or the destruction of the two
Turkish torpedo boats lying in the
harbor.
The demand was promptly refused,
and after a short delay the Italians
opened fire, the shells causing great
damage. Three torpedoes finally de-
stroyed the Turkish vessels. The Turks
fought bravely but were at a great
disadvantage, as they were unable to
manoeuvre their vessels and their
guns were of small calibre.
During the fighting in the harbor a
mob looted the government arsenal and
seized rifles and ammunition. One
shell burst close to an American
building, but injured no one. All the
Americans in the city are safe.

WELCOME LIGHT UPON RELIGION

Prof. J. Balcom Shaw of Chicago Has No Fear of Higher Criticism—Graphic Variety Sermon

"What is the answer of the present age to the question 'What think ye of Christ?'" asked Rev. Balcom Shaw, D.D., of Chicago, in the university sermon yesterday morning. Wycliffe convocation hall was well filled at the service. Falconer and a number of the members of the faculty were on the platform.
"It is the supreme question of the age in which we live," he said. "The great question asked in St. Matthew's gospel xlii, 42. I remember putting it to a socialist. Not the type of socialist we are largely in sympathy with, but the other and more extreme type. On coming down to the breakfast table at the hotel, I greeted him. He immediately began to berate everything. After I had listened to him for a long time, I asked if he would permit me to put one question to him. He respectfully assented. Then I asked him what he thought of Jesus Christ. He fixed his eyes on the tablecloth and sat silent. Then he answered: 'I think of Him so highly that if the principles He taught were put into practice they would change this earth into a heaven.'
"When preaching in the old Echo Mission, New York, before a most motley crowd, including Jews and people of every persuasion, I quite unwittingly mentioned the church, and some of them began to hiss. Later on I men-

tioned the name of Jesus Christ and instead of hissing they immediately began to vociferously applaud. I thought it most significant."
Lord Tennyson, who may be quoted as a poet of this generation, was once asked by a friend, while strolling out on his lawn: "Alfred, what is your personal opinion and thought of Jesus Christ?" The poet plucked a flower and held it up in the sun and said: "What yonder sun has been to this flower, Jesus Christ has been to my soul."
"Prof. Peabody, of Harvard, declares that we are now rewriting the whole science of politics under the light of the teachings of Jesus Christ."
"It is my habit to preach frequently out of doors in Chicago. I had been preaching one night at the entrance to the great red light district. Standing on a stool, I asked how many of the men—there was exclusively a crowd of men—would give the tribute of their reverence for Jesus Christ by raising their hats, and would you believe it, of the five hundred men, all but one had taken off his hat. That symbolized the spirit of the age. You can scarcely find a man, coarse or refined, who will liberally take the name of Jesus Christ in vain."
"In the City of Berlin, a feeling of pessimism prevailed, and as a test, a call was placed on the bill boards inviting all who believed in Jesus as the living Christ, to assemble at the great circus, which will hold 20,000. Long before the hour set for the assemblage, the auditorium was packed, and in addition, an enormous throng made their way to the great cathedral and sang 'A Mighty Fortress is Our God.' That is the opinion of this age respecting Jesus Christ."
"In view of such a general opinion, it might be thought that the church would have an easy time of it, but such is not the case in the United States, whatever it may be in Canada. In the United States the church is rowing against the stream. Now, when is the matter? Where He Thinks."
"There are three places in which a man thinks. In his head intellectually, in his heart, emotionally, and in the

centre of his being, in his will, and it is in the will that he gets his character. The age thinks well of Jesus, intellectually. Edmund Burke described the sermon on the mount as the greatest document ever written. Dickens declared the prodigal son was the finest story ever told. Almost everyone is willing to join in the procession and sing 'Onward Christian Soldiers.'"
"The trouble is that this is a selfish age, and is wrong in its will. It does not want this man to reign over it."
"People speak admiringly, almost in a tone of patronage of Jesus Christ. Begone with it. He was as tender as a woman, but He taught stern principles. His invitation was, 'Let him take up his cross and follow Me.' Patronising talk of Jesus is by no means a favorable sign. It is the sentimental in religion that is playing the mischief."
"Christians should be able to start firm and not be swept away by all the silly stuff that comes from Germany. I welcome higher criticism and welcome every light that can be shed upon the Christian religion."
"After their majesties, King George and Queen Mary had been crowned, they went forward to the communion rail and took off their crowns as an act of homage to Jesus as the King before receiving the sacrament."
"Dean Farrar once related that after preaching in the chapel Royal at Windsor, he was summoned by Queen Victoria. Her majesty was in tears, and said: 'I was wondering while you were preaching if Christ would return to this world while we are living. I wish He would. I should like to present to Him the crown of the greatest empire on earth.'"
In conclusion, Dr. Shaw said: "You young men, you are all kings. Under each of your crowns is a great dominion, consecrated to Jesus Christ."

YONGE STREET LIKE THE ALPS

Trying to Cross Crowded Thoroughfare as Bad as Climbing Mountains, Says Prof. Jackson.

Prof. W. S. Jackson of Upper Canada College gave the concluding lecture of the course on Saturday afternoon, at the physics building, Toronto University. President Falconer was chairman.
Illustrated by a large number of lantern views, Mr. Jackson gave a realistic account of the manner in which the summits of famous mountains in the Alps are scaled. Speaking from personal experience, Mr. Jackson said that mountaineering in the Alps was no more dangerous than crossing Yonge-street. While a hundred Alpine fatalities are reported annually, the sport of mountaineering was no more dangerous than football. Accidents were attributable usually to carelessness or ignorance.
"One danger which could not be entirely guarded against was sudden changes of weather. The sport was so fascinating that among its followers were a prince of the blood royal of England, British ambassadors and an Anglican bishop in addition to people of all ranks of life.
Excellent physical condition was essential, as some of the roped mountaineers' summits were like climbing a vertical gymnasium a quarter of a mile high, and entailed clinging to ropes

The Toronto City Mission

It will be interesting to know that on Nov. 6, 1879, the Toronto and Yorkville Christian Temperance Mission was organized to promote the cause of total abstinence. The following were the officers: President, Warring Kennedy; vice-presidents, A. T. McCord, W. H. Howland, Daniel McLean; secretary, James Thompson; treasurer, E. M. Murphy; directors, Hon. Vice-Chancellor Blake, Revs. John Potts, D.D., W. J. Hunter, D.D., W. S. Rainford, R. Wallace, J. M. Cameron, J. C. Antcliffe, H. D. Powis and Messrs. James Dobson, David Miller, Edward Beckett and T. L. Wilkie.
A general missionary work of a non-denominational character was so urgently needed that the above organization developed in the Toronto City Mission, with a directorate of thirty members. As an evangelist and benevolent mission to the poor it has been the means of bringing good cheer to many sufferers, and innumerable poor families would have experienced tremendous hardships, especially during the cold, inclement weather, but for

FREDERICK FORD DEAD

Well-Known Resident of East End Was 83 Three Years.
Frederick Ford, aged 83 years, died at his residence, 116 Carlaw-ave., yesterday morning following an illness of about three years. He was formerly manager of the William Davies Co's brick yards, which position he had held for a number of years subsequent to disposing of his own plant in the old Town of Yorkville. He is survived by a wife, Sarah Catharine Bland, and four sisters, Mrs. Wm. Sheppard, Mrs. James Robinson, Mrs. A. R. McDonald and Mrs. Daniel Jepson, all of Toronto. The funeral takes place on Tuesday afternoon from St. Clement's Church, Rev. Mr. Bushell officiating.

WARM WEATHER SPOILS SLIDES

High Park Was Deserted Except for a Few Stragglers Who Walked There in Slush.
Whether the weather man is siding in with the civic authorities and aiding them in the enforcement of the new bylaw prohibiting Sunday sliding, or whether he is trying not to let the anti-sliders have the satisfaction of seeing the law carried out or put to a practical test this year, will probably be known within the next few Sundays. At any rate there was no sliding done yesterday, the day being an ideal fore-runner of spring. The slides were slush with several inches of water at the bottom, and with the exception of a few stragglers perambulating the wet and slush covered walks in a probable expectation to see an attempt at sliding, High Park was practically deserted.
Basketball Notes
Interassociation basketball on Monday night, Parkdale Presbyterian Church team will play St. Stephens on the latter floor, their final game of the season section. Parkdale's team will be picked from the following: Ramsbury, Douglas, Ferguson, Swinerton, McKenna, Shell, Hoffman, Flood, Grant.
Another Win for Harvard
BOSTON, Feb. 24.—Harvard won the hockey series of three games with Yale by taking the first game at the Boston arena to-night 4 to 2. In the first half Harvard led 4 to 0. Yale came back in the second period and played fast, but was able to make only two points.

The surest guide to the popularity of a product is the statistics which relate to its output.

Since 1901 the sale of

TUCKETT'S Orinoco TOBACCO

as shown by the Government records, has increased four times.

Of the total number of thousands of packages sold, it is fair to assume that the major portion were smoked by regular customers.

First sales might mean curiosity, but when "first sales" develop into consistent "repeats" it can only mean exceptional quality.

Ski Jumping at Montreal.

MONTREAL, Feb. 24.—The Canadian ski jumping championships were held this afternoon at the Montreal Ski Club grounds. Montreal, Ottawa and Berlin Mills, N.H., were the only clubs represented and, while Alex. Olsen of Montreal won both events, the style and the distance, the visitors from the south proved more consistent performers, and took practically all the other places. The mid-

weather was responsible for a sticky take-off, and under the circumstances Alex. Olsen's winning jump of 89 feet was considered good. There were no accidents. Summary: Style—Alex. Olsen, 187 points; E. Dahl, Berlin Mills, 121; Hanson, Berlin Mills, 111. Distance—Alex. Olsen, Montreal, 89 feet; Adolph Olsen, Berlin Mills, 88 feet; Hanson, Berlin Mills, 87 feet.

SPIRELLA, LONG SHOT WINS JUVENILE STAKES

Mudlarks Have An Innings Saturday at Charleston—Results at Juarez.

CHARLESTON, Feb. 24.—Because rain fell around noon the track was very heavy for the races to-day and the mudlarks had things their own way. The Juvenile Stakes, for 2-year-olds, at 3/4 furlongs, was the feature. Spirella, a 12 to 1 chance, led all the way and won in a hard drive by half a length. Ottawa Racing Plant Ready for Opening Sept. 21

OTTAWA, Feb. 24.—One of the most ambitious horse racing projects ever attempted in Canada got under way to-day when the Connaught Park Jockey Club of Ottawa, recently incorporated, announced that all the necessary preliminary business arrangements have been made for an elaborate racing establishment. The club has bought a large tract of land situated on the Quebec side of the Ottawa River, opposite Ottawa, thus avoiding the complications that would occur in the Province of Ontario over betting. As soon as the snow is gone a track and stable complex, suitable for six hundred horses; immense grandstands, clubhouses, etc. will be rushed to complete ready to be ready for the first race meeting, which will open on Sept. 21. The presence of the Duke of Connaught, whose colors will be seen at the meeting, the wealth and high position of the club's officers and the assurance that bookmaking will be allowed at the track have attracted considerable responses from Canadian and American horse owners, who welcome the addition of a new racing meet to the Canadian program, now confined to Montreal and Toronto.

"Tried It Yet?" That's what Toronto Smokers are asking each other this week—and the question is asked with the "NEW TEN" Cigar in hand or mouth. As they whiff the "NEW TEN'S" superb Delicacy of Aroma—as they enjoy to the full its distinctive, "different" flavor—their only regret seems to be that the "NEW TEN" only reached Toronto Cigar Stores this week. But it's here now—why miss it any longer? For the better you know tobacco, the more fully you'll appreciate and enjoy The New Ten Cigar.

Canadian Polo Team Win Cup at San Mateo

SAN MATEO, Cal., Feb. 24.—Aided by so handily of his goals, the Canadian polo team defeated the San Mateo Slashers to-day 9 goals to 8, and won permanent possession of the William H. Crocker Cup, this being the final match of the tournament. At the opening of the eighth period with a commanding lead by virtue of their handiaps, the Canadians embarked upon a brilliant defensive game, making no attempt to score, but breaking up every rally of the slashers. Just as the final bell had sounded Breeze of San Mateo sent the ball between the posts for what would have been the tying score, an instant earlier, but the referee decided that it came too late by the fraction of a second. Lady Herbert's team will compete tomorrow against Mrs. Charles W. Clarke's team for the Clarke cup.

Harvard at Cambridge; 30, Cornell v. Haverford, at Haverford; Yale v. Columbia, at New Haven.

DUNLOP Traction Tread

Another Opinion: "With my Dunlop Traction Treads I have gone, to date, 4000 miles without a puncture or blowout, have never used a chain on them, and to-day they present almost as good an appearance as a new set, and apparently are good for unlimited mileage yet. What more could be expected of rubber?" See Your Garage Man.

Eastern Ontario Curling

BROCKVILLE, Feb. 24.—Napoleon won the senior western group and Brockville the eastern group. These two teams will play off at the local rink on Monday evening for the senior trophy.

LAND VALUES AND CITY IMPROVEMENTS.
We are rather glad to see that Commissioner Forman has had a jolt on land values. He has been telling everyone that values are too high, that they are bound to come down, and he has been keeping the assessment down with that view, and estimating values when required in accordance with it. He now finds that he has estimated the values on the proposed extension of Victoria street too low and he reports that it would about double his estimate to purchase at the prices asked.

Then he adopts the plan which has done duty for so long in Toronto in the way of retaining all necessary improvements, and declares it is better to drop the Victoria street extension. Victoria street will never be extended more cheaply than at the present time. It is very probable that the real estate owners are making extortionate demands from the city, but it is equally certain that they think the city is making extortionate demands from them. Mr. Forman's prices for their land, it is possible, too, that Mr. Forman's figures are pitched as much below the true value as the owners' are pitched above it, and that half-way between them is the line of reasonable buying and selling. At all events, there ought to be some better way of arriving at the fair value of a piece of land than by paying all it is worth and more to lawyers and experts.

The court of revision is an independent board of men with experience and without desire to injure either the city or the property owners. Why can they not be trusted to fix a fair value on land to be expropriated by the city, with a right of appeal, provided that the costs of appeal be borne by the appellant if the value be not changed. This idea could be worked out in a practical way, and the court of revision affords an established basis for action.

And when the city expropriates land, as in the case of the Victoria street extension, it should expropriate enough to afford a marketable frontage, in which case the increased value would cover the cost of the improvement, as it has done in other cities.

Victoria street extension should not be abandoned.

ANOTHER DO-TOE-BOYS HALL?
Somebody should send a copy of "Nicholas Nickleby" to Mimico. After the celebration of the Dickens centenary and all the talk we have had about the greater humanity with which children are treated after sixty years of Dickens' message, it is almost a shock to the social conscience to read as we did on Saturday that a boy could be manacled and kept in bed for four weeks on bread and water, that his poor body should be thronged with a heavy trace strap till it was welled and weald, and that other punishments were heaped upon him without stint. Ontario is far more injured from all this than the boy, and if it prove on investigation that the story he tells is true, as witnesses have substantially declared, then the head of the present Do-toe-boys Hall should be relieved of responsibilities for meeting which he has evidently no gift.

There is a capital opportunity here for Commissioner Starr to exercise his authority, if he has not sufficient for the purpose, he should be endowed with sufficient to go out to Mimico and overhaul the school there. When a story like this gets out there must be more than a jolt.

The boy ran away. That is what he was punished for. If the place had been right he would not have wanted to run away. Even the prisoners on the Guelph farm do not want to run away. Mimico ought to be held responsible for anything that has occurred at Mimico, and we absolve him of any direct onus. But the system cannot continue without his consent, and we shall be surprised if Mr. Hanna can read this Mimico story without resolving to wipe out the system that made it possible.

THE HEBERT CASE.
As the Hebert case, decided by Justice Charbonneau, raises in an absolute line form the legality of a marriage between two members of the Roman Catholic faith, when solemnized by a Protestant minister, it is eminently desirable that the point at issue should be finally determined by the court of ultimate appeal. As the justice very properly remarked, the issue is not concerned exclusively with the rights

of husband and wife—the status of their infant child interposes another and equally important consideration. Unable at this stage of its existence to protect itself, Justice Charbonneau rightly took the view that it devolved upon the court to safeguard its future, and this he did in a judgment in all respects worthy of his high reputation.

Without directly dealing with the question discussed by Mr. Holmsted in his recent treatise on the marriage laws of Canada—that of the power of a provincial legislature to impose other restrictions on marriage than those contained in the ruling imperial act in force through the King's dominions, Justice Charbonneau held that a crown license granted the requisite authority to all persons empowered to solemnize marriage, irrespective of their faith, or that of the contracting parties. This ruling practically nullifies the action of the Quebec Legislature when it attempted to incorporate particular church regulations into the civil law. But it would be distinctly advantageous to have the issue of constitutional-ity in that regard passed upon by a court whose interpretation must be followed by all inferior tribunals. The Hebert case provides that opportunity.

EAST AND WEST.
Judging from present appearances it is not at all improbable that for examples of self-sacrificing patriotism future generations will turn not alone to the United States, with its George Washington, but equally to China, with its Dr. Sun Yat Sen and its Yuan Shi Kai. The former of these modestly waived the honor of the first presidency, while the latter, according to the last reports, required drastic action to bring him up to the scratch. This great refusal of the place just vacated by the Manchurian emperor may have more than personal significance. There is good reason to believe that the ultimate object of the leaders of the revolutionary movement against the late dynasty was not improved by personal ambitions, but by loyalty to the old Ming—the true Chinese—line of rulers, which still holds its place in national tradition.

All indications point to early and great changes in the relationship between the east and the west. The policy of exclusion pursued by the Christian countries bordering on the Pacific towards Asiatic immigrants is going to be countered, not by attempts to force an open door, but by the erection of a corresponding barrier against the intrusion of alien races into eastern countries. China and Japan, especially in coast cities, have a large administration of western citizenship. This may not be disturbed, but the erection of barriers against the further invasion of that class is quite within the right of the governments of these powers. Nor can there be any answer either in logic or equity to the imposition of restrictions similar to those established by the west against the east?

THE BUILDING OF ST. ALBAN'S.
A start is to be made on the building of St. Alban's Cathedral in the spring if the \$100,000 set as the necessary minimum to assure the completion of the section of the work first to be undertaken can be secured. Only \$10,000 remains to be collected of this sum, and there ought to be no difficulty in getting it. There are many little religious bodies whose members think nothing of contributing from one to five dollars a week to schemes in aid of their various churches and bodies. The Anglican

intelligences of the public is but one of the principal elements which have made the distribution of the entire edition of the Webster's New Illustrated Dictionary seemingly a most simple task.

The other element is the sterling worth and beautiful appearance of the book itself. A restaurant cashier, one of the best patronized business men's lunch rooms in the city testified to this the other day when he was contacted that she had a World Dictionary lying beside her cash register. "I was one of the first to get one," she said, "and I want to tell you that that book has started many persons clipping coupons. They are surprised as soon as they see it."

Some of them, you know, think it is just a book, and one glance through it is enough to convince them that it has just got to be busy and get one, if not for themselves, for the children at home.

"I am coming around to get another one for my sister and I think I'll just let that one stay here for the present, because I surely wish The World all the luck in the world."

body would need but a very slight effort of self-denial on the part of its members to secure five times the \$100,000 now asked for, and there never was a cause which should appeal more strongly to the instincts of Episcopalians than the building of St. Alban's.

It is not desired to have one or two or a few wealthy men build the church. The people should build it. A dollar a week or ten cents a week or five dollars a month is but a small thing to many of them, but in the aggregate it would raise this monument of thanksgiving.

People have almost forgotten the joy of giving, and leave that gratification to men who are too wealthy except to make restoration. If it be only in building a cathedral people can learn to deny themselves and in doing so hallow the stones and consecrate the altars.

READY FOR RENEWED DEMAND
Popularity increases.
"Battle-scarred heroes."
That phrase once brought unpleasant notoriety to a well-meaning man who failed to write what he meant and found through bitter experience what the omission of one letter may mean in a new supply of books has arrived, and they are now ready for distribution.

A FAST GROWING TOWN.
Welland, Ontario, is without doubt the fastest growing town in Canada.

In 1905 the population as shown by the census was 1750 and in 1911 this total has grown to nearly 8000. The cause of this tremendous growth is attributed to the splendid facilities which the town provides for the establishment of factories.

There are now located in Welland about twenty factories, employing nearly 3000 men. To supply the growing demand for homes for these workmen, "Industrial Park" has been placed on the market. Every street in the district is beautifully graded and every lot is well drained.

Welland is the centre of a district having a population of over 50,000 people within a radius of forty miles. It is the fruit of the Niagara district. It is something to the workmen from the health point of view—to live in the fresh air, to be within five or ten minutes' walk from the largest of Welland's industries and are in close proximity to the railways which pass through the town.

"Industrial Park" offers an opportunity to every workman to possess a home of his own. The joy of possession is the greatest of all pleasures. A home in Welland is an investment and increases in value as the years go on. By having a home in Welland you have the advantage of living in a prosperous town where good wages are paid and where it is a pleasure to live.

SETTLERS' EXCURSIONS TO CANADIAN NORTH WEST.
Commencing with the first Tuesday in March, and continuing on every Tuesday thereafter during March and April, the Canadian Pacific will run settlers' excursion trains to Winnipeg and west.

For the accommodation of settlers travelling with their live stock, a colonist car will be attached to the settlers' excursions. This car will leave Toronto on regular train at 10:20 p.m. arriving at Winnipeg on the 10:20 p.m. train. The colonist car will be attached to regular train leaving Toronto at 10:20 p.m. and run to Winnipeg on the 10:20 p.m. train. No charge is made for accommodation in colonist cars.

Four car sets are also run on regular train leaving Toronto at 10:20 p.m. and run to Winnipeg on the 10:20 p.m. train. A small extra charge is made for accommodation in these cars. Apply to nearest C.P.R. agent for a "Settlers' Guide" and "Tourist Car" pamphlet. 12.

Hungry Men Fed.
Hungry they stood, 300 of them, at the door of the Yonge-st. Mission yesterday morning, ready for the Sunday morning free breakfast, the bridge 47 inside. When the doors were opened, the sweet aroma of coffee greeted them, and they hastened to partake of the coffee. There was plenty for everyone, and when thoroughly satisfied, they turned their attention to the sheets provided. An earnest address was given by Rev. A. B. Winchester of King's Church, before breakfast was given next Sunday.

Pastor Russell's Sermon
BOMBAY, Feb. 25.—The committee of the International Bible Students' Association for the investigation of foreign missions have spent three weeks in India and travelled over three thousand miles. The seven members divided the work amongst them, the various stopping points and well-co-located in the report. We report to-day's discourse of Pastor Russell, the chairman of the committee, as follows:

I had a great interest in your land and its people before coming to your shores, but my interest has been greatly increased by what I have witnessed during the past three weeks in India—its people, its cities, its villages and agricultural districts. As there are no other extremes in the world so great as between the caps and shaves of the Himalayas and the wash of your coral straits, 25,000 feet below them, so likewise there can be no other contrast so marked as between the material in abundance here. Indeed, one of the things which have impressed me is the religious fervor of the thousands who bathe in the Ganges, and the numerous religious shrines in every city, reminding me of Saint Paul's words respecting some of his day—"feeling after God, they might might find Him." Altho I have not seen your Holy City of Jerusalem, I have not seen the millions of hopelessly poor, I have not overlooked the fact that some of your people are not without generous instincts. Many of your merchant princes have evidently given largely to the charitable institutions, hospitals, and large animal hospitals having been provided for decrepit chickens, donkeys, etc.

However, when I consider such benefactions, in view of human need and suffering, we cannot overlook the fact that sympathy is there, only waiting for the proper direction, which Messiah's kingdom will shortly give. In your own grand Bombay, I noted with astonishment the thousands of Silahs where the Parjee element of your population gives the flesh of its dead to the poor. Alas! my soul cries out, is not this a more worthy of a better cause? How I rejoice in the divine promise that the true light of the world shall yet lighten every man that cometh into the world! (John 1, 9).

Our forefathers saw the height of God's love for the holy angels and its consecration to the saintly men, they did not see its depths. They did not see that the redemption accomplished by Jesus is ultimately to reach down to and embrace the very humblest and most degraded of humanity. How the precious scriptures which reveal Jesus as the Savior of the world, as well as of the church, escaped notice, and that the church, in its process of election for the past eighteen hours, has been made to share with her Lord in that kingdom.

Nor will the heights and depths and the breadths of divine love toward the lowly and the despised of Christ be fully exhibited to angels and to men, even during the glorious period of Messiah's reign. Paul, so explicitly declares, "that in the scope to come He might show the exceeding glory of His grace in His kindness toward us thru Christ Jesus." (Eph. 2, 7). It is asked what opportunity there will be for further favors to be bestowed upon the church at the conclusion of the Messianic reign? We answer, that since the scriptures declare that "God forbid the earth nor in vain, but he made it firm as His foot-stool—in due time—so we may reason forth the respect to the other planets of a solar system. Gradually their ages divine power will be exercised in blessing the millions of intelligent creatures on every planet of our system.

Toronto Starts Year With Lead in Building Permits

East Beats West by Long Margin, Tho Montreal Falls Behind.

The building permits taken out in 23 cities during the month of January amount to \$3,971,041, an increase of 47.8 per cent over the same month of 1911. The largest individual increase is recorded by Fort William; Toronto is second, followed by Victoria, Winnipeg and Hamilton. The figures for Edmonton embrace Strathcona, the amalgamation of these two places having taken place during the last month. In the case of Montreal the figures do not include the municipalities of Verdun, Maisonneuve, Outremont or Westmount, although all of these are in reality integral parts of greater Montreal.

It will also be noted that Vancouver has begun the year under a 50 per cent handicap, but the most hot January is never of such importance in the matter of building as to warrant an opinion, favorable or unfavorable, regarding any of the cities.

The outlook so far is excellent for a remarkably busy year, in which the east will probably take a larger part than it has in recent years.

Five Farms Optioned For House Plan

Choice Will Be Made When Company is Incorporated—\$50,000.Raised.

The housing committee formed under the auspices of the board of trade, the C. M. A. and other civic bodies, and with the assistance of Mayor Geary, to relieve the small house stringency, met Saturday afternoon and was considerably encouraged by the reports of money raised. So far, \$49,000 for the scheme has been subscribed, and the promises made run this figure well above \$100,000. The finances being in such satisfactory state, the committee will have the project incorporated under a company name within two weeks. Four or five properties around the city have been optioned. In the east, west and north, and when the company is incorporated, a meeting will be held of the shareholders and a site picked for their house making operations. The meeting will also elect directors, of which there are not even provisional ones at present.

Most of the subscriptions have come from members of the C. M. A., and it is intended to get these connected with the board of trade and the financial bodies more interested in it. This will make the movement more representative. So far, the plans as to the actual building of houses are rather hazy.

NEW ELECTRIC RADIAL WESTWARD TO MEADOWVALE AND EVENTUALLY GALT

This is a continuation of the Lambton radial. From the present terminus of the Humber to a point 200 feet east of Galloway-avenue in Bilington the new location has not been arranged. The line from Galloway-avenue to Kipling runs 200 feet north of Dundas-street. At Kipling-road the line drops south and parallels Dundas-street, running immediately to the north for a mile and a half to the Etobicoke River, where it sweeps in a wide curve northward about a quarter mile. The line then crosses south over Dundas-street at the west boundary of J. O'Hara's farm; then proceeds on the south side of Dundas-street to just west of the R. C. Church, where it strikes off on a tangent to C. P. R. tracks, which it parallels until it goes straight north at the Cooksville station.

The line so far filed goes no farther than Meadowvale, but surveys have been made to Georgetown, and the line will eventually run thru to Guelph, Berlin and Galt.

While the part of the route pictures is in operation, the cars will probably run into Toronto only as far as Dundas and Keel, but later the intention is to run them along thru the north of the city to North Yonge-street. From there the tubes would bring the radial traffic to downtown.

The property owners affected and the amount of land taken by the radial are as follows: M. Harvey .012 acre, Joseph Pickett 1.02, Mrs. Hayes 2.83, W. Rundle .007, J. Keir .20, R. Summerson 1.54, W. SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 90 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$20 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

Rea Leads Decline in Porcupine Stocks in Week-end Session

World's Wheat Surplus Lower And Market Undergoes Flurry

But Prices Eased Under Indifferent Buying Demand, and Closed at a Loss for Day.

CHICAGO, Feb. 24.—An estimate that the wheat surplus of the four leading export countries showed a loss of 435,000,000 bushels, lifted the market to-day for a brief period, but the rest of the time prices were largely on an account of the indifferent buyers. Final trades ranged from 1-3/8 to 1-1/2 down, oats 1-3/8 off to a shade up, and provisions at 3/8 to 2-1/2 decline.

Although the alleged remarkable cutting down of export possibilities was stated to have revolutionized the wheat situation, transferring the outlook from one of probable plenty to one of probable scarcity, the bulls, who gave out the figures, did not succeed in arousing much enthusiasm. General commission house selling and profit-taking seemed to form an insurmountable barrier.

Beard's Advice. The temper of the trade had been given a bearish turn by disappointing foreign despatches right at the start, notwithstanding a previous exhibit of strength on this side of the Atlantic. Liverpool paying mode head to the pressing Argentine offerings and the lack of consumptive demand. Besides, weather conditions were favorable in the United States winter crop belt, and there was no improvement here in respect to cash demand. The net result was an easy tone in the end, with prices almost at the bottom point of the session.

Corn and Oats Lower. Heavy profit-taking wiped out an advance in corn. The setback was in part owing to talk of a record-breaking crop in Argentina. Cash grades were in only fair demand. Oats eased off from other grain. There was a firm undertone, however, attributed more to the paucity of offerings than to any buying.

A large run of hogs pulled down provisions. Offers were rather free on the part of long and packers. When the last long struck north was 23c to 27 1/2c off, hard down to 15c and ribs decreased in cost to 7 1/2c.

Winnipeg Inspection. Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 10 car; No. 2 northern, 43 car; No. 3 northern, 4 car; No. 4 northern, 7 car; No. 5 northern, 10 car; No. 6 northern, 12 car; No. 7 northern, 15 car; Stock Markets Quiet at Week-end--Rio Crosses 114 in Toronto

Promises of Improvement Not Fulfilled In Wall Street

Some Pressure Exerted on New York Market--Prices Generally Succumb--Amal. Copper in the Foreground.

NEW YORK, Feb. 24.—Promises held out late yesterday of improvement in the stock market were hardly fulfilled today. Prices of the more active issues opened off, and more or less pressure was directed against the list as a whole. This was particularly true of Amalgamated Copper, which has been the strongest of the issues recently, while such market leaders as United States Steel, Union Pacific and Reading also felt the force of selling.

Again the weakest feature was the common and preferred shares of the Republic Iron and Steel Company. Formerly lost two points and the latter almost three, making the loss of seven points in the preferred stock during the past fortnight. (On the stock exchange it is now a settled belief that the Republic Iron preferred dividend, which will probably be acted upon next week, will be cut from seven to four per cent, and may be more.)

Trading during the brief two hours was as pitiless as could well be imagined. The attendance of members was the smallest of any week-end thus far this year. Those who sought to analyze to-day's setback called attention to the latest turn of events at Washington, which indicate a radical investigation of the so-called money power, despite recent assurances to the contrary. Another disquieting feature was the recurrence of serious labor riots in one of the Massachusetts mill towns. Some thought was given also to the approaching conference of the anthracite coal workers and the mine owners.

On the other side of the account were the reports of the mercantile agencies, stating that trade conditions as a whole are better than appear on the surface, a further large surplusage in the idle car surplus, and the report of the New York State Banking Department, showing that the savings banks have larger aggregate resources than at any previous time in their history, the increase being no less than \$55,000,000.

The bank statement showed an actual loan increase of \$2,680,000 against an average increase of \$6,123,000. Actual cash loss was \$1,277,000, a figure well in excess of all estimates. Actual reserves decreased about \$5,000,000, which together with the previous week's smaller loss reduces the actual excess reserve to a little more than \$28,000,000.

FINANCIAL CLOUDS.

Already the political outlook is beginning to clear, and is being reflected in a more confident undertone in financial circles. With easy money, sounder trade conditions, good crop prospects, better political conditions, better international relations and good foreign trade, there is little room for further pessimism regarding the stock market. Conditions are ripening for a fresh forward movement when the market leaders find that such is opportune. Perhaps this may be delayed until spring asserts its stimulating influence or until the return of absentees from their winter vacations, but in any event there are substantial reasons for greater confidence regarding the more distant future.—Henry Clegg.

Twin City Earnings

For the second week of February the earnings of the Twin City Rapid Transit Co. were \$146,800, an increase over the corresponding period in the previous year of 69.2, or 4.7 per cent.

RIO SCORES AN ADVANCE IN THE TORONTO MARKET

South American Traction Stocks Come to the Front--General List Shows No Vivacity.

World Office, Saturday Evening, Feb. 24.

Outside of advance in Rio de Janeiro, the Toronto stock market showed little to interest in this morning's session. Trading was generally of a decidedly restricted nature, and in only the instance cited were transactions of sufficient volume to attract any particular attention.

Rio was in excellent demand from the very opening of the exchange, and the shares moved up in an easy manner to 114, a net gain for the day of half a point. There was really no explanation of the advance, but the general idea was that it was founded on the prediction of increased dividends for later on in the year. The shares have been decidedly quiet of late, and as the floating supply had been pretty well picked up, and there was no liquidation of any consequence overhanging the market, it was only to be expected that the incoming of even a small demand would prove sufficient to lift the price.

Some improvement shown.

The movement in Rio sufficed to give a slightly more buoyant tinge to Sao Paulo, and the shares of that company also recorded a small gain at 182. The demand in this instance, however, was no means so pronounced, or else the supply of stock in the market was much smaller, for the trading did not run into any material volume, only three small blocks of the stock coming out.

The more confident feeling shown in the South American traction issues was reflected in the whole speculative list, but the movement was too restricted to incite any activity, and consequently little of interest was evolved.

Twin City scored a small advance at 107, and Pacific Burt rose to above its previous level; but elsewhere the market did nothing but stand still.

There was no vivacity in sight at the close, and traders were disposed to view the improvement in the tone as only a tentative one. It will take a decided increase in the outside speculative demand to inspire any sustained buoyancy, and up to this time there are no indications that such is to be expected.

DOMINION STEEL HIGHER IN MONTREAL

Eastern Exchange Was Fairly Strong at Week-End--Trading Moderately Large.

MONTREAL, Feb. 24.—There is a distinctly better tone to the trading on the Montreal Stock Exchange to-day. Such prices as there were in the last sale, and the volume of trading, while only moderately large, was larger for the half day than for several of the full days of the week.

Dominion Steel had a good effect on the rest of the market. Opening at 68 1/2, higher than at Friday's close, it sold up quickly to 69 1/2. For steel stock was supplied on the rise, and also there was a reaction to 69 in the last sale, the close was strong. Next to steel, Rio de Janeiro, Montreal Power and Laurentide were most prominent in the trading. Rio opened higher at 182 and worked up to 184, a net gain of 2 points. Laurentide also opened higher and was 3 1/2 in the last sale, a gain of 1/2 point. Laurentide sold for the most part at its record level of 175, but eased off in the last transaction.

Montreal was a strong feature in the market, the shares opening at 123 1/2, a net loss of 1/2 point over seven points lower than its high mark of the week. Dominion Textile common was strong, selling as high as 65 1/2 and closed at 65 1/2. Dominion Textile preferred was also strong at 8 1/2. Total sales 4444 shares, of which 3300 were mining and 1144 consols.
