WILL ANNOUNCE NAVAL PROGRAM TO PARLIAMENT IN NOVEMBER. IS DECLARATION OF PREMIER

Additional Information Will Be Received From British Admiralty by End of Week and Cabinet Will Plan Action at Once, Borden's Assurance at Montreal Banquet—Hon. Robert Rogers Says Pro-Reciprocity Vote in Saskatchewan Was Obtained by Misuse of Foreign Vote.

MONTREAL, Sept. 21.—(Can. Press).—That definite and detailed information of the naval situation, which has been asked for from the Imperial Government, is to be in his hands by the end of next week and that this information will at once be submitted to the cabinet and a plan of action in connection with the navy question drawn up, which plan would be submitted immediately to the Canadian Parliament, which will be called together in November, was the announcement made by Premier Borden tonight at the banquet tendered him at the Windsor Hotel to celebrate his return from Great Britain and the victory of his party a year ago.

Hundreds of prominent Conservatives with a number of Liberals attended the banquet at which, in addition to the premier, many members of the cabinet and leaders from other provinces were present.

The premier spoke at length on his visit to England, on the administration of his party since coming into power, and in defence of the attitude of the Conservative party in connection with many public questions.

National Policy Forever.
L. T. Marchal proposed the toast to the premier in a speech paying tribute to his work and defending the national policy, which, he declared, "the Conservatives would always adhere to and which had enabled Canada to open up the western country and connect it with the east."

Other speakers in addition to the premier were Hon. Robert Rogers, who declared that there was any increasing sentiment in favor of reciprocity in the west and delivered a virulent attack upon the Liberal press and the Liberal

leaders of the west who, he declared, were continually stirring up race hatred and religious and sectional prejudices for their own ends. George Drummond, who urged that Canadian manufacturers establish themselves in the western provinces so that the needs and views of the east and west might become more similar. Hon. Mr. Monk, dealing with the prosperity of the country and prophesying a triumphant and speedy settlement of the questions which his party has to handle, and Hon. Wm. White, who dealt concisely with the commercial and financial issues of the day.

Ovation of Ten Minutes.
When Mr. Borden arose to speak he was greeted with deafening applause which compelled him to remain bowing and smiling for upwards of ten minutes before he even attempted to speak.

After thanking those present for the reception tendered him he said: "When we came to power the friends of the Liberal party made the prophecy that we could not carry on the government of the country for more than six months. However, we have taken the liberty of extending that time."

"We inherited from the previous government a considerable number of very difficult and delicate questions and I am not going to enter fully upon these tonight. When I do it will be in more detail than is possible at such a gathering as this. But having to take these matters up, we deal with them as seemed right according to our consciences and according to the constitution of the country."

Pride in One Year's Record.
"And further I do not believe any government in Canada at its first session ever put forward so much practicable and reasonable legislation in one year as we have done."

More Rain in West

WINNIPEG, Sept. 22.—(Can. Press).—The cold, rainy spell hangs over the western provinces tonight, and it looks like retarded threshing operation again tomorrow. In Saskatchewan, the temperatures under threatening skies, are just about 50 and going lower. In Alberta it is a little warmer, but is likely to reach freezing point. In Manitoba it is not so low. In parts of all three provinces there have been showers today.

BORDEN BANQUET SHARP ON TIME

Final Details as to Guests and Spectators, and Arrangements for Carriages for Tonight.

In order that every thing should be carried out according to program and that no delays will occur, the committee in charge of the Borden banquet advise the ticket holders to arrive at 7.20 o'clock, so that the banquet may be started promptly at 7.30.

The entrance for banquet ticket holders will be the south door on Mutual street.

The doors for spectators holding tickets open at 7.45 sharp and will be closed as soon as the house is filled.

Ladies and escorts are to be admitted by the south door on Mutual street. The north entrance and the south Dalhousie street one will be used exclusively for men. Invited guests for the head table will enter by the centre door on Mutual street.

So that there will be no jam, the police request that all vehicles go south on Mutual from Wilton to the arena and then continue south off the street. When the banquet is over all traffic must go north on Mutual to the arena and then move out on Wilton avenue. By this method the police department thinks that the 48 constables will be able to handle the situation.

STREET CAR BURNED

Blow Out of Fuse Set Fire to the Vestibule.
The fuse blew out on a northbound Bathurst car at London and Bathurst streets last night and the vestibule of the car caught fire. A home-going crowd from church filled the car and all were scared a little, but there was little or no panic and no one was injured. College street and Howard avenue fire apparatus put out the blaze.

Young Doctor's Sudden Death

HARRISTON, Sept. 22.—Dr. Eady, a promising young doctor whose parents reside in Harriston, died suddenly of hemorrhage of the brain at Povaan, Ont., where he started to practice about two weeks ago.

AWARDS MADE TO ARTILLERY

Second Field Battery of Ottawa Captures Governor-General's Cup—Hamilton Battery Fourth.

OTTAWA, Sept. 22.—(Can. Press).—The militia orders announce the results of the artillery competitions held during the summer in all parts of Canada and including the shooting of each battery at Petawawa.

There were 26 batteries competing in the field battery competitions. The first prize for general efficiency, the Governor-General's Cup and the Earl of Strathbrooke Cup, was won by the 2nd Field Battery of Ottawa with 550 points. The batteries next in order were 17th Sydney, 533 points; 22nd Sherbrooke, 494 points; 4th Hamilton, 472 points; 13th Winnipeg, 468 points, and 13th Moncton, 463 points.

FALL RACE HATS.
The fall races always mark the very particular date when a man should invest in a new hat for fall wear. The Hines Company, 340 Yonge street, have prepared for the big week with some exclusive lines, including those by Henry Heath of London, England, and Dunlap of New York. For whom the company are sole Canadian agents. Also there are a hundred other makes, including Christy, Borsalino, Stetson and Melville.

LIQUOR SEIZED AT OWEN SOUND

Large Quantity of Whiskey Was Found Hidden Under Floor by License Inspector.

OWEN SOUND, Sept. 22.—(Special).—License Inspector M. C. Beckett, assisted by the police, made a clean-up at the Central Hotel yesterday afternoon when they made a raid and a thoro search. Hidden in a cunningly contrived hiding place in the flooring they found one hundred and twenty-seven quart bottles of imperial and draft whiskey, and also about eight gallons of bulk draught whiskey. The liquor was removed to the police station, and a charge will be preferred against Lalonde, lessee of the house. This is one of the biggest hauls yet made in a hotel here.

Downtown Churches Prosper While Others Cry For Help And Cannot Obtain Any Aid

Rev. J. W. Magwood Says Scores of Men Sit in Churches Where They Are Almost Useless—Deaconesses Resigned Because They Cannot Afford to Risk Their Health and Work for a Pittance.

Rev. J. W. Magwood has recently been giving expression to a feeling which is growing among downtown Christians to the effect that many church people make their money in the city centres, then move away and give their support entirely to the churches which need it least. He stated that over fifty superannuated Methodist ministers in Toronto hold their membership in uptown, and hardly one in downtown churches. About thirty general conference officers distribute their membership almost exclusively to the wealthier congregations, only three being classed as downtown members. Scores of ex-

ROBT. MARTIN BADLY HURT

Bedel of University of Toronto Run Down by Motor Car on Bloor Street on Saturday.

Robert Martin, bedel of the University of Toronto, who lives at 788 Crawford street, was seriously injured on Saturday afternoon when struck by a telegram motor delivery car. Mr. Martin was riding a bicycle along West Bloor street from the university to his home. While cutting across the road to turn south on Crawford street he was run down by the motor car which was traveling at a fast rate. He was thrown against the curb and rendered unconscious. It is feared that he will not recover. He is now at his home in a precarious condition.

Attractive Scenery and Costumes.

The scenery and costumes of "The Siren," the musical comedy which begins a week's engagement tonight at the Princess, are said to be the best that the noted producer Charles Frohman has ever sent out on the road. Donald Brian of "Merry Widow" fame is the star.

PERSIA IS MELON TO BE CUT BY POWERS

Britain and Russia Believed to Be Preparing to Take Territory, and Public Mind is Being Prepared for Announcement by Mouthpiece of Sir Edward Grey.

LONDON, Sept. 21.—(Can. Press).—The practical division of Persia between Great Britain and Russia appears almost assured as a result of the conference which Sir Edward Grey, the foreign minister, had with British statesmen. All the newspapers which are in the closest touch with the foreign office, particularly The Times, looked upon recently as Sir Edward Grey's mouthpiece, are forecasting this arrangement and are apparently preparing the public mind for it. The necessity of preserving order in the interests of trade is the principal reason advanced.

The Manchester Guardian and other Liberal papers oppose the project bitterly. The Guardian says: "The foreign office, although not ordinarily over-solicitous about the trade interests, knows well how to quote them for its own ends."

Since the signing of the Anglo-Russian convention of 1907 for the maintenance of Persia's independence and integrity, and incidentally for the division of the country into British and Russian spheres of influence there has been a steady growth of this influence and a corresponding shrinkage of independence in Persia. The exact division of territory will not be easy. The Russian papers claim Teheran. The emperor gets the capital, Great Britain's share will be decidedly the smaller value.

Vital Interest in Balkans.
Some of the Liberal papers recall the disappearance of Persia as a buffer state and foresee a great increase in the British military establishment when the British-Russian boundary is drawn across the middle of what is now Persia.

Nowhere is the outcome of the conference between Sir Edward Grey and M. Sazonoff awaited with greater interest than in the capitals of the Balkan states, as it is believed that they have a vital bearing on the crisis in the near east, the gravity of which unless the powers induce Turkey immediately to introduce reforms in Macedonia, all are agreed upon.

The representatives in London of Bulgaria, Servia, Greece and Montenegro are watching closely the progress of the conversations which began in London today and will be continued at Balmoral Castle on Monday.

There is no confirmation here of the reported alliance of the four Balkan states to make common cause against Turkey, but it is acknowledged that a rapprochement exists for their protection.

NOT DAUNTED BY CHARGES OF TREASON

Ulster Loyalists Don't Care Whether Covenant is Treasonable or Not, Asserts Sir Edward Carson at Coleraine—Clergymen Strongly Denounce Home Rule Measure.

COLERAINE, Ireland, Sept. 21.—(Can. Press).—"Ulster has never yet been conquered and never will be." This was the keynote of the speech of Sir Edward Carson, who addressed a big meeting here today in opposition to home rule. Ulster Loyalists, he said, had been accused of plotting treason, but they would sign the covenant, and not caring tuppence whether it was treason or not, they would keep it, and he was sure Ulster would win the fight against home rule.

Denounced From Pulpits.
BELFAST, Sept. 22.—(Can. Press).—Ulster intercession services were held in the churches throughout the province today. In addition to the special collect which was ordered read by the Most Rev. John Baptist Crotzer, primate of all Ireland, of the Church of England, who had designated Sunday and the week following, including "Ulster Day," as "days for special intercession and prayer on behalf of our beloved native land," sermons were preached, making particular reference to the solemn covenant. In many cases the national anthem was sung.

Exceptionally large congregations attended the Protestant churches in Belfast and Londonderry. Great fervor was displayed and strong denunciations of the government from the pulpit were heard. The Bishop of Derry, preaching in Derry Cathedral, exhorted his hearers not to submit tamely "to be sold like brutes in the cattle market by men who received in return seventy venal and dishonest votes."

Saturday the Climax

LONDON, Sept. 22.—(Can. Press).—On Saturday, September 22, the Unionists of the northern counties of Ireland propose to register their formal denunciation of home rule. Gathering in halls and market places, even in churches, the men of Ulster will sign a covenant pledging themselves never to submit to any government from Dublin which may be imposed upon the country by the Asquith-Redmond home rule bill passed in the house of commons.

"Ulster Day" is the designation chosen for this remarkable political sacrament. According to its promoters, it will prove a show of determination so solemn and impressive that the British cabinet will hesitate long before attempting to enforce its scheme for partial separation of Ireland from the United Kingdom.

Carson's Narrow Escape

LONDON, Sept. 21.—(Can. Press).—Sir Edward Carson had a narrow escape from injury during the rioting at Londonderry, according to a despatch received in London by The Evening News.

A large stone was dropped into Sir Edward's open carriage from the city wall, missing him only by a few inches. The windows of Lord Hamilton's automobile were broken by stones.

MRS. LEIGH'S DIRE THREAT

Unless Gladys Evans is Released She Will Lead March on Prison

DUBLIN, Sept. 22.—(Can. Press).—Phoenix Park was the scene today of a disorderly suffragette meeting. A letter was read from Mrs. Mary Leigh, who recently was released from Mount Joy Prison, on account of ill-health, declaring that unless Gladys Evans, now serving a sentence of five years for an attempt to burn a theatre, was liberated within a few days, she would lead a march on the prison to effect her release. The issue, she added, would only be decided by victory or death.

Ex-Aid. Jeffreys Dead.
LONDON, Ont., Sept. 21.—The death took place today of James Jeffreys, a well-known London business man, aged 56. He was a former alderman and prominent in Masonic circles.

NINE ITALIANS WOUNDED IN DESPERATE STRUGGLE AFTER SUNDAY CAROUSAL

Six Are Arrested, Two in Hospital and Woman Dangerously Ill as Result of Terrible Fight on University Avenue, When Razors, Stiletos, Clubs and Beer Bottles Were Used.

Six Italians are locked up in Agnes street station and two more are in a serious condition at St. Michael's Hospital as the result of a terrible fight with razors, stiletos, knives, clubs and beer bottles in a little boarding-house at 103 University avenue last night. Two of those in the police station are charged with wounding, while the others are held as material witnesses of the most gruesome and bloody combat that ever occurred among the foreign element in Toronto.

Five policemen broke into the house, where about twenty Italians live, and there found a vendetta with all its ghastly features. Four Italians were fighting with stiletos and razors, their faces and heads badly gashed, and huddled in a heap on the floor four others lay helpless and bleeding as the result of wounds inflicted in the fracas. A woman, a wife of one of the combatants, who is now in the hospital, was picked up in the hallway, her face having been smashed by a beer bottle. Six of the nine Italians were taken to the hospital and treated by a small army of surgeons, and the others were locked up in the police station.

ALL ARE RELATED

Rocco Leamardo and Giuseppe Paggiera, both cut up themselves, are charged with wounding. The material witnesses, all of whom came out of the affray with numerous scars, are Giuseppe Bagrinello, keeper of the boarding-house, and Mickle Puggnola, Donato Puggnola, Joe Canele and Fedele Rosino. All of them are street laborers, and, as far as the police can ascertain, are related to one another—brothers, brothers-in-law and cousins.

The affair started about 9 o'clock last night. According to an Italian priest, Donato and Mickle Puggnola, two brothers, argued about something, and, not satisfied with the result, indulged in wild stiletos. Others in the house joined in the affray, and the entire eight men fought in one small room, hardly large enough to accommodate them. All of the men had been drinking beer during the day. When the police arrived no liquor could be found, but there were a number of empty bottles, which seemingly had been used as weapons. According to the interpreter, the men arrested were responsible for the wounding. Both are giants in build.

After five of the foreigners had been shipped to the hospital to have their wounds attended to, the police found Joe Canele under a bed with his head and neck gashed. He was bleeding profusely, and was taken to the hospital. The most seriously wounded were Giuseppe Paggiera and Mickle Puggnola.

STEEL TAKEN FROM SCALP

It was at first feared that these two would not recover. Both had deep wounds in the scalp and face. It was thought at first that Puggnola's skull had been fractured by a beer bottle. There were four of the aliens on operating tables at one time, with six surgeons and several nurses dressing the wounds.

THE CAUSE OF IT ALL

The cause of the fight was a celebration out of the ordinary among the foreigners. There is considerable clannish feeling among those from different towns in Italy. All of those engaged in the affray hail from Monteleone. Yesterday was known as St. Roch Day among the Italians. St. Roch is the patron saint of a few inhabitants of Toronto's "Little Italy." Those who worship St. Roch were afraid to celebrate the day on account of the enmity of the natives of Monteleone. So the great day passed off unnoticed, and these foreigners from Monteleone were so overjoyed that their hated brothers were afraid to commemorate the day that they simply had to give vent to their enthusiasm by consuming beer and otherwise making merry. The fight resulted.

CANADA NATION OR DEPENDENCY?

United States Customs Court to Decide Issue Raised by the Importation of Pulpwood.

WASHINGTON, Sept. 21.—Whether Canada is a nation or merely a dependency not entitled to classification as a separate entity in international parlance, is the question to be decided by the United States Customs Court of Appeals when it meets here October 1 to pass on the dispute between the treasury and importers who maintain that pulpwood and paper should be admitted into the United States free of duty from certain European nations who are entitled to preferential treatment in trade relations under the favored-nation clause.

The controversy is the outgrowth of the Canadian reciprocity law. Importers charged that in admitting pulpwood free of duty, the United States was discriminating against Norway, Sweden, Germany, Austro-Hungary, and Belgium. The board of appraisers held that there was no discrimination. It was contended that Canada was not to be regarded as a distinct nation.

KING HONORS COL. HUGHES

Minister Entertained Following Army Manoeuvres—May Arrange for Interchange of Officers.

LONDON, Sept. 22.—(C. A. P.).—At the close of the military manoeuvres which terminated on Friday Hon. Sam Hughes and the Canadian officers were presented to the King by Minister of War Colonel Seely. His Majesty received each officer in a separate audience and enquired with interest regarding their impressions and opinions of the manoeuvres and their commands and service.

The minister of militia had also the signal honor of dining with His Majesty.

Colonel Hughes and the officers were thoroughly pleased with the experiences of last week and specially desire to record their indebtedness to General Sir John French for courteous treatment given.

This week will be taken up with visits to various naval and shipbuilding depots in England and Scotland. Col. Hughes and some of his officers propose to sail on Wednesday week and in the meantime the Canadian minister hopes to bring about a scheme for interchange of officers during camp and of visits between home and Dominion regular and territorial forces.

STAR CHARTER BY A NOSE WINS TORONTO AUTUMN CUP

O. J. C. Races Opened Auspiciously at Woodbine Park—Four Favorites, Two Outsider Prove the Winners.

defeated Calgary after one of the greatest races of the year. The two...

The Ontario Jockey Club's autumn meeting, which closes the legitimate racing of the year in these parts, opened auspiciously on Saturday at Woodbine Park before about 10,000 people. The weather was ideal, except for the chilly air and cold wind that blew across the course. Four favorites won, and Jockey Teahan had the mount on each, including Star Charter, the winner of the Autumn Cup, the feature of the day. It was a nice race, the only three started, Inspector Lestrade took the pace for almost a mile, with the top-weight first choice living behind him until he gave the word. The Schorr came on resolute, and won going away by a nose, the pacemaker dropping back behind Mrs. Livingston's candidate, J. W. Schorr's leading in the meeting. Action, showing a keen desire to win, while the winner of the fourth race, McAndrew, rewarded a few momentary speculators thru the disqualification of the Busby.

They're Off at Woodbine.

The opening dash of the day, the Tercentenary Handicap, was a hard sprint from the rise of the barrier. Light of speed throughout, the route and letting long enough to win by a nose from Simcoe. Hamilton, outran in the early stages, closed with a rush and edged the Knights Differ for the show money.

J. W. Schorr's Leochares, son of Bromstick, for the third straight time

Star Charter's Autumn Cup.

The rich Toronto Cup, the feature of the day, resulted in a stirring finish when the heavily-weighted Star Charter got up in the closing strides to win from Simcoe by a nose. But three starters faced the starter, with Inspector Lestrade setting all the pace till the turn for home was reached. Simcoe caught the leader and drew away into a two-length lead. Star Charter, a trailer all the way, closed fast in the last sixteenth and was running the race until he was overtaken by Simcoe. This makes the third nose finish of the day and incidentally makes J. W. Schorr's second win.

Jockey Goes Over the Fence.

Harry Snider, a jockey, mounted on Monkey in the fourth race, was thrown over the fence when his horse stumbled while rounding into the stretch. He was taken by Ranker ambulance to the hospital on the grounds. His face was badly cut and his body bruised. Altogether seriously hurt, he will recover. Snider comes from Rochester and is young in the game, this being his second week of riding.

The race thru the field was a keen contest till the final spurt was reached, where the heavily-weighted High Bridge

The Toronto World

FOUNDED 1890. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO, 40 WEST RICHMOND STREET. TELEPHONE CALLS: MAIN 5595-Private Exchange connecting all departments.

Subscribers are requested to advise us promptly of any irregularity or delay in delivery of The World. MONDAY MORNING, SEPT. 23, 1912. QUALITY COSTS.

People are asking why the city council do not appoint a first-rate corporation counsel. The answer is simple. The city adviser, led by the board of control, object to pay for a first-class man. No lawyer such as the city requires to handle its big cases, who could shoulder the responsibility of laying down a legal policy on the big questions facing the city, and who would be capable of meeting and dealing with the legal giants retained by the various corporations whose interests are involved with those of the city, can be had for less than \$25,000 a year.

Toronto is a wealthy city, and moreover an expensive city. Professional men have to keep up a certain standard of living, and everybody knows that even the most modest standard costs like the dickens. The payment of an adequate salary to an adequate man is as nothing compared with what he saves to his employer. An incompetent legal adviser may cost, as in the past, he has cost the city millions. In the light of some of these costly blunders, \$25,000 a year is a small affair.

The suggestion that a cheap man will do, with a big man to be called in when an emergency occurs, is a costly and unwise policy. The emergencies will cost more than the regular salary of a first-class man who will avoid emergencies. He will foresee most of them and advise policies which will keep the city out of litigation.

FIFTY YEARS AFTER. On September 22, 1862, Abraham Lincoln, President of the United States, issued a proclamation declaring that if certain states and parts of states then in rebellion continued their insurrection on and after January 1 following, that then and from that date all persons held as slaves in said territory should become and remain free.

TAXATION ACCORDING TO ABILITY. Almost everybody in Toronto, except a section of the city council, begins to appreciate the growth of the city. Even the conservative assessment department, which allows all discounts and a little over, admits a population of 150,000. This means at least 450,000, and half a million next year. The assessment, too, has taken such a stride, partly on account of a more equitable levy, that economical people are beginning to figure on a reduction of the tax rate.

but if the abolition had been a gradual one and accompanied by compensation, the south might have adjusted herself to changed conditions, and northern capital and northern people might have helped to build up the stricken country. There had been no friction between the blacks and the whites during the war, and indeed many of the slaves would have gladly fought with their masters at the front even as they faithfully protected their families and property at home.

Conditions today are certainly less desirable than the abolitionists anticipated, when Lincoln's proclamation sounded the death knell of human slavery, fifty years ago; they are certainly better than might have been anticipated forty or even thirty years ago. If the white people of the south have insisted upon being ruled by their own communities, they have not proved themselves to be hard masters. The negro is happier in the south than anywhere else and the southern white man alone understands him.

PERMANENT PROVINCIAL EXHIBIT. In connection with the movement whose objective is the opening up, settlement and development of New Ontario, now much enlarged by the inclusion of the district of Patricia, a project, submitted in February last to the United States House of Representatives, is not without value.

GOOD TRAIN SERVICE APPRECIATED. The citizens of Toronto have evidently appreciated the North Toronto-Ottawa-Montreal service, as the business is constantly on the increase, necessitating extra equipment nearly every night.

Master's Chambers. Before J. S. Cartwright, K.C., Master. Union Bank v. McKillop—D. C. Ross for plaintiff. F. Appleworth for defendant. Motion by plaintiff for summary judgment in an action on a guarantee. Judgment—An order may be made in the case of Sovereign Bank v. McPherson if the defendant really wishes to have the exact amount due on the guarantee ascertained and formally proved as at a reference or at a trial. If the latter course is adopted the defendant should plead in four days after delivery of statement of claim and the case should be set down on the peremptory list after being on the general list a week. Costs in the cause.

McVeity v. Ottawa Citizen—H. M. Mowat, K.C., for defendant. J. T. White for plaintiff. Motion by defendant for an order for security for costs in a libel action. Judgment—The motion is refused on the ground that the alleged libel involves a criminal charge. Whatever may be finally decided on this point, I think that in view of the late case of Dural v. O'Brien it is questionable whether this involves a criminal charge must be left to the jury. Motion dismissed with costs in the cause as at present. Order made.

Blaisdell v. Raycroft—Raycroft v. Cook—H. S. White for plaintiff in first action and for defendant Cook in second action. J. G. Smith for Raycroft contra. Motion by Blaisdell and by Cook for an order changing venue from Brockville to Ottawa and have case set down for trial to be tried together. Order made. Costs in cause.

Black v. Canadian Copper Co.—H. E. Ross, K.C., for defendants. C. M. Garver for plaintiff. Motion by defendant for particulars of paragraphs four and five of statement of claim or to strike same out as embarrassing. At plaintiff's request motion enlarged until 23rd inst.

Beaver v. Whitham—D. McDonald for plaintiff. Anker (Elliott and H.) for defendant. Motion by plaintiff for an order striking out paragraph three of statement of defence and counter claim, or for particulars. Order made for particulars. Costs in cause.

Re Idenden and Mulligan—J. I. Grover for executor. Motion by executor for an order allowing them to pay \$1750 into court, being the share of Albert Edward Mulligan, an infant. Order made for payment in less costs fixed at \$25.

Bank of Toronto v. Thompson—A. G. Ross for plaintiff. Motion by plaintiff for an order dismissing action and vacating certificate of its pendency, the defendant's motion for summary judgment being refused. Order made. Costs in cause.

Divisional Court. Before Falconbridge, J., Britton, J., Riddell, J. St. David's Mountain Spring Water v. Leiby—O. H. King for tenant; W. M. Douglas, K.C., for tenant; W. M. Douglas, K.C., for tenant. Motion from the judgment of the county court of W. and of May 21, 1912, whereby he found that the alleged tenancy had been determined by a notice and that everything had transpired which entitled the landlord to take possession of the premises in question.

ENGLAND'S PREMIER TO VISIT CANADA. It is stated in official circles that Rt. Hon. H. Asquith has accepted Mr. Borden's invitation to be the guest of the Dominion. Mr. Asquith will see the most prosperous, most progressive and contented nation on the globe, and will have many opportunities to enjoy the famous Canadian Table d'enter. SPAIN FEARS STRIKERS. Paralysis of Entire Railway System is Threatened. CERESENE, France, Sept. 21.—(Can. Press).—The Spanish Government is preparing to mobilize the employees of the railways, bringing them within the reach of martial law. This is the outcome of the decision of the railway workers in Catalonia to go out on strike next week because of the refusal of the railway companies to grant their demands for an improvement of conditions. It is feared by the government that the present situation might quickly develop a general strike throughout the whole country.

Canada's Need for Reciprocity, Says Bishop of Winchester

Circumstances Challenge Consideration and Afford a Splendid Opportunity of Doing Things Right Away—Prominent Speakers at Concluding Rally of Brotherhood of St. Andrew Convention.

The political, religious and social life of Toronto and district were well represented at a crowded meeting of the Brotherhood of St. Andrew held yesterday in Massey Hall. The Right Rev. J. F. Sweezy, M.A., D.D., Lord Bishop of Toronto, presided, and was supported by Right Rev. Wm. D. Reeve, D.D., Coadjutor-Bishop of Toronto; Canon H. P. Plummer, M.A., rector of St. James' and King Edward, the principal speaker was A. C. Boyce, K.C., M.P., chancellor of the diocese of Ontario, and Right Rev. E. S. Talbot, D.D., Bishop of Winchester, England.

Some people hold that the foundation of the prosperity of the nation rests upon the success of the forces of nature. You have an example in the Niagara Falls. It is the spiritual energy which you need to spiritualize. There is only one force which will give the spiritual, moral and human foundation; it is the force of our Lord and Saviour, Jesus Christ, by the power of His Holy Spirit.

BIG REVENUE SURE 1913

Total Assessment for 1913 is \$177,892,679, or an Increase of \$43,148,219 Over That of 1912.

According to the Ward Three assessor's rolls, which were returned to the city clerk's office on Saturday morning, the total assessment for 1913 is \$177,892,679, or an increase of \$43,148,219 over the figures of 1912. The increase is larger than that of the past two years combined, while the now assessed value of this ward is greater than that of the whole city in 1906.

With the completion of the rolls from Ward Three the return for the entire city are now complete, and show a total assessed value of \$428,000,000, or an increase of \$85,000,000. The 1913 assessment is thus 40 per cent. larger than that of the present year. According to these figures an 18-1/2 mill tax rate in 1913 will yield the city an additional revenue of about one and one-half million dollars.

The completed assessment rolls show a population of 410,088, as compared with 374,697 of last year. The increase is thus 9.5 per cent. Even Ward Three, which in past years has shown a decrease in population, now indicates a general increase in population.

The tremendous increase in the Ward Three assessment is of course largely due to the rise in value of the property in the down town district. In many cases the assessment on the land has been doubled by the increase in the value of the buildings there is considerable consternation among the property holders.

It is certain that the court of review which heard on the Ward Three appeals on Oct. 22, will be confronted with a lengthy list of protests. Notices of appeal must be made before Oct. 15. The assessment department are anticipating considerable hard work in the future in preparing the values to prove the rise in the values.

Values Justified. Assistant Assessment Commissioner Lyon stated on Saturday that the increased assessment in Ward Three was in his opinion quite justified by the general rise in the values of the down town district.

The figures for Ward Three are as follows: Land—1913, \$1,694,951; 1912, \$67,174,315; Increase, \$29,520,638. Buildings—1913, \$37,267,971; 1912, \$23,076,798; Increase, \$14,191,173. Total—1913, \$177,892,679; 1912, \$134,744,460; Increase, \$43,148,219. Exemptions—1913, \$18,686,001; 1912, \$15,151,668; Increase, \$3,534,333. Population—1913, 410,088; 1912, 374,697. Increase, 35,391.

INSURANCE ACT WRECKIN LIBERALS. CORK, Ireland, Sept. 21.—(Can. Press).—Addressing the delegates at the annual gathering of the Independent Nationalists here today, Wm. O'Brien, member of parliament for the City of Cork, expressed the fear that the insurance act was wrecking the Liberal party and would wreck home rule with it. The policy and tactics of John Redmond both had failed, the speaker said, and all that the Nationalists had done was to double the excessive taxation of Ireland in five years.

POLICE ACCUSED OF TOLERATING VICE TRAFFIC

W. E. Raney, K.C., Defending Rev. R. B. St. Clair, Says System of Winking at Prostitution Has Been Adopted by Police and Commissioners of Toronto.

"There is just one policy, a system adopted by the police deliberately, a system of the police commissioners, and that policy is a system of modified toleration of prostitution."

Thus argued W. E. Raney, K.C., with Judge Denton Saturday morning in the county judge's criminal court, defending Rev. R. B. St. Clair, charged with the circulation of indecent literature.

With Inspector Kennedy in the witness box, Mr. Raney went after the witness pretty strongly with regard to police methods, and his honor interjected a question as to what bearing it had on the case. Mr. Raney pointed out that, under the law, if Mr. St. Clair was serving the public good he was not guilty of the offence, which brought the issue down to one between the police methods and himself. "I am going to show that the relations existing between the police department and the Star Theatre rendered it necessary to appeal direct to the people."

"I take the responsibility of assisting the police in leaving the streets of Toronto clean and safe," said Mr. Raney pointed out the antismear displayed by the police in leaving the accused photographed, his thumb prints taken and forcing him into a cell.

Inspector Kennedy vehemently denied any "toleration" by the police. Mr. Raney took the inspector right thru the circular which Mr. St. Clair had issued, taking up bit by bit suggestive sections, forcing him to admit the evil inferences in the case.

Who Is Responsible? Mr. Raney questioned Inspector Kennedy as to who was responsible for St. Clair's photo and filings being taken, as to who swore out a warrant, not a summons, but his honor refused to allow them.

A letter from the inspector to Mr. St. Clair was taken from his office to be read by the police officers. "A special writ has been served on you to produce the letter, and I want to know where it is," pursued Mr. Raney. The inspector said it had become mislaid among other papers.

In concluding his examination, Mr. Raney put the following questions: "Understanding young boys are excluded from the Star Theatre, I want to know why?" "Well, we think it better to keep them out and it is injurious to their health to remain in," was the answer.

The case was adjourned till Monday. CHARGED WITH FORGERY Charles Macdonald Brought From Rochester After Serving Time There.

HOME RULE FOR SURE IN EIGHTEEN MONTHS SAYS WM. REDMOND

Lords May Delay Bill's Passage, Declares Irish Leader's Brother, But Their Power to Kill it is Gone—More Liberty in England Than Any Time in History—Ireland's Prosperity Will Be That of Canada and Australia.

NEW YORK, Sept. 22.—(Special)—"Before Christmas, the Irish home rule bill will pass the house of commons by a probable majority of 100, and within eighteen months the bill will be law and in force."

This was the prophecy made at the Hoffman House yesterday by William R. K. Redmond, M.P., brother of John R. Redmond, leader of the Irish party. Mr. Redmond has come to this country to attend the convention of the United Irish League in Philadelphia next week and to make speeches in other cities.

"Home rule now looks as tho it were a certainty," said Mr. Redmond, in the course between shaking hands with scores of Irishmen who crowded the lobby of the Hoffman House.

"The passage of the Parliament Act last year, which shears the house of commons of its power to thwart the will of the masses of voters, has cleared the way for home rule. By Christmas the bill will pass the lower house. The chances are that the government will keep its majority of 100 intact at that point."

"Lords' Opposition No Avail," when the bill will go to the upper house. It is probable that the lords will refuse to adopt the measure. But, mark you, they cannot now defeat it as they could prior to the Parliament act, which, by the way, was the work of the Irish party.

"Under that act the bill will return to the house of commons. The house will again pass the measure and it will again probably fall of adoption by the lords. Then the house will once more pass the bill, and at last home rule will be a fact."

"The Parliament Act makes this result possible by declaring that a bill shall become law which is passed three times by the house of commons at three sessions within two years."

"All indications are that the government will retain power for at least an other eighteen months. By that time the bill will have been passed the necessary three times, despite the hostility of the house of lords."

"Home rule will mean wonderful things for Ireland both as to the commercial life of the country and the spirit of the people. Under it Ireland will jump ahead as all other lands have done to which freedom has been granted. The prosperity of Canada and Australia will be the lot of Ireland."

"The Situation in Ulster."

"Dr. Speer and Home Rule": A Reply to Mr. O'Connor

By the Rev. J. C. Speer

Editor World: Mr. Garrett O'Connor of Bridgeburg, Ont., has done me the honor of making reply to the report in the World of a sermon preached by me on Sept. 15.

"Dr. Speer tells us that 'home rule' is not the solution of the Irish problem." Now Mr. O'Connor, I must repeat what I said in the sermon, for to those who are unprejudiced, nothing can be more certain than the above statement. Mr. O'Connor says that 28 out of 32 counties of Ireland send home rule representatives, and some from Ulster, too. Is not sound reason for inferring to the church as she is in Ireland, he can find out by reading what has been written, not by trusting to the word of a man. In the sermon complained of by Mr. O'Connor I did not make one statement against the Jesuit schemers of Ireland but what I had taken from the writings of Roman Catholics, and not one of them but was written of the present condition of that forlorn island. Let me quote one paragraph from "Priests and People in Ireland," from the pen of Mr. J. J. McCarthy (7th thousand). In his introduction he has these words to say: "I am a Catholic; I am an Irishman; I have a right to speak up in the heart of Ireland, and I speak with equal probability and equality and toleration in the fullest sense of those terms. I condemn the policy to which our priests have now committed us, and I deplore the plenitude of their power in Ireland."

"It is not a policy of forbearance, but of religious intolerance and bigotry which is ultimately bound to develop into religious persecution, and is destined to eventuate either in revolution or in the annihilation of the people at the moment, in the undermining of the individual and corporate morality, in the emancipation of our people's character, and in the anarchy of national decline."

Now, when I can read volumes of evidence which show the pens of educated Roman Catholics, men upon whom there has never been a charge of bias, men who raised and suffered much, and who were not what am I (a benighted Protestant) to say but that these men, who were so true to the cause of Ireland, and those still alive prepared to die, if necessary, for the Roman Catholic cause, are so ready to develop as I have quoted and hundreds of other charges against the hierarchy and the Molly Maguires, what can we, who are not Catholics, do but go together with what is patent to the most casual observer?

The Jesuit party has been the bane of the church here from the very first. No wonder the popes, one after another, have issued their edicts against them, but just now in the days of trial, when one country after another is throwing off the iron hand of Rome, they are so ready to yield to the appeal to try the ancient methods once more.

In conclusion, let me correct Mr. O'Connor's error, which is that I would excuse the Orangemen of Ulster for any outrage they may perpetrate against the Roman Catholics. I distinctly deplore any such thing as the part of either party to the quarrel.

I am well aware that it is impossible to have sympathy and prayers for such a controversy, but it must be clear to any unprejudiced mind that the Unionists are mighty and have truth on their side, and that they never submit to an Irish planter in Dublin.

Capt. Munn May Return To North Next Spring

Commander of Gold-Seeking Expedition Which Was Wrecked With Steamer Algerine, May Try Again With Hundred Ton Schooner—Story of Wreck on the Last Trip.

Capt. H. T. Munn, in charge of the gold seeking expedition which went to Baffin's Land aboard the steamer Algerine and lost their ship in the ice, arrived in Toronto Saturday from St. John's, Newfoundland, where he and his men were brought by "Lucky" Scott and his party aboard the steamer Neptune, which was bound on a similar mission to that of the Algerine. Captain Munn states that he reached the Esquimaux and taking some of them aboard to assist in prospecting, the Algerine started south down a lead in the ice. When he reached a position about fifteen miles from the objective point, he ran up against the ice and the lead and as there was nothing to do but wait for the ice to move he sent a party over the ice to make a camp and followed later himself.

Terrific Snowstorm
Four hours after he left the vessel a terrific snowstorm came up and drove the ice land. The vessel was pinched and the ice closed, however, and she failed to rise and was crushed and sank like an egg-shell, sinking in thirty-five minutes. The men aboard got the boats away from the vessel and landed on the shore side, although there was a blizzard blowing that they did not know until night whether they were on the shore side or drifting out to sea as the lead in the ice widened immediately after the sinking of the vessel.

Found Food Supply
Those who had been left with the ship sent a messenger to advise Capt. Munn of the accident and then made their way back to Pond's Inlet, where he joined them. They then made the discovery that they were only supplied

IRISH LIBERTY DEPARTS HOME RULE

Rev. J. M. McIlrath Declared That a Dublin Parliament Would Rob Protestants of Their Civil and Religious Liberty and General Chaos Would Result.

ness of a government. A Dublin parliament would be largely influenced by the Ancient Order of Hibernians, which organization, he declared, had a close connection with lawlessness and outrages. He said that the ancient order, as a cattle driving had not been denounced by the leaders of the home rule party. He said that the tremendous influence of the ancient order would practically control the politics.

According to Mr. McIlrath the home rule would be largely influenced by the Ancient Order of Hibernians, which organization, he declared, had a close connection with lawlessness and outrages. He said that the ancient order, as a cattle driving had not been denounced by the leaders of the home rule party. He said that the tremendous influence of the ancient order would practically control the politics.

Will Resist It.
People in the north of Ireland, he declared, were resolved not to accept home rule. He said that the consequences might be. They were convinced, he said, that their liberties and faith would be imperilled, that financial injury would result, and that the system of education which had worked well for two centuries would be changed to the detriment of the Protestant. "We propose to resist," he said, "but our hope is not in our own right hand; it is in the Lord of Hosts."

In conclusion, the preacher asked the congregation for their sympathy and prayers for Ireland. He had no doubt, he said, that the members of his church and their methods were not such as would foster that liberty which they regarded as their birthright. What they desired, he said, was that both people should live together as brethren with equal rights and that there should be such harmony there as might exemptify to the world that it was not a monarchy but righteousness which exalted a nation.

Mrs. McCormick represented her daughter in formally presenting the McCormick recreation centre at 417 Brook Avenue to the Toronto Playgrounds Association Saturday afternoon. At the conclusion of her address, she presented the McCormick cash registers, safety razors and other American products sold here.

One of the leaders in the British automobile movement said: "The light on automobiles is simply the entering wedge. We hope to obtain the passage of a tariff law which will insure the English market for English manufactures and provide remunerative work for English labor. Our movement is not anti-American, but pro-English."

KEEPING THE STORE PROPPED UP WITH GOODS

Lots of merchants do, lots do not. Some overlook one or more of the little points or big ones on which their business swings. Illumination, or the lighting of the store, is one of the problems that demand serious consideration. Every business man who has illuminating bills to pay, and a load in the store, will give you an effective, reliable, and safe lighting system at an astonishingly reasonable price. The fixtures themselves are handsome, and can be made to harmonize with any type of store. Call up and have one of our representatives show you the way to keep the appearance of your store up to that of your goods.

Mining Market Strong at Week End--Pearl Lake Advances

WHEAT PRICES DECLINE DESPITE CROP DAMAGE

The Heavy World's Shipments Anticipated and Increase in Visible Supply More Than Off-set News of Field Injuries.

CHICAGO, Sept. 22.—The wheat market today is characterized by a shade of gloom, but the heavy world's shipments anticipated and increase in visible supply more than offset the news of field injuries. The market for wheat is strong, but the price of wheat is declining. The price of wheat is declining because of the heavy world's shipments and the increase in visible supply. The price of wheat is declining because of the heavy world's shipments and the increase in visible supply.

FALL ACTIVITY AT ST. LAWRENCE

Good Attendance Saturday—Prices Steady and Supplies Good—Potatoes Plentiful and Lower.

With the fall markets business on the St. Lawrence market is becoming more active. On Saturday there was a good attendance and produce of all kinds was readily disposed of at steady prices. There were a few turkeys on the market and a good demand held the price of the finest birds at 50c per pound. Chickens and ducks were in free supply, but the prices of a week ago were maintained, and the same may be said of butter and eggs. A few odd lots of geese were on offer at the reasonable price of 15c per pound.

PEARL LAKE IS UP ON NEWS OF BIG STRIKE

Cobalts Getting Stronger Daily—Week End Close Finds Them in Firm Position—Beaver Subject of Unfavorable Criticism.

Public interest in the Cobalt shares during the latter part of the week just closed became quite marked. There are signs now of a return of a busy investment market for the best of the silver shares, and this cannot help but benefit the Cobalt. A small rally in the opening of the week came from the opening of more mines and this has been a good factor. Cobalt has reached the stage when the real worth of the camp has been fully established by growing value of output, and new properties are not faced with the same uncertainty as in the past.

Pearl Lake, which Saturday advanced to 18, closing off at 20, was the only active stock among the Porcupine. The gold stocks have rather dull the last few days, but prices have held fairly steady considering the little demand. Pearl Lake advanced on street stories that the directors will announce in a few days a live share market at 400 foot level. Pearl Lake directors are developing their property to a great extent and as economically as possible at the top.

Beaver has been the one soft spot on a stock market that has been firm. Saturday it sold down to 40-44. The more the public look into the statement of the Beaver, the more they like it. It was not right for the Beaver directors to go into the purchase of a live share market. The Beaver directors are developing their property to a great extent and as economically as possible at the top.

McENANEY TAKES HOME THE BACON. Barney McEnaney, according to a despatch from his little home town of Houghton, in the peninsula of Michigan, has returned home to his wife and children after an absence of ten years.

FOLEY O'BRIEN TO BE UNWATERED. The Foley-O'Brien Mine in South Porcupine is to be unwatered, and B. Watson of Cobalt has been engaged to report to the directors as to the advisability of continuing the development work. The company has \$120,000 in the treasury.

PROGRESS OF THE PANAMA CANAL. Over 91 per cent of the concrete for the locks in the Panama Canal is in place, the amount at the close of work, on Aug. 31 being 3,961,716 cubic yards, out of a total of approximately 4,300,000 cubic yards of concrete to be used for the system of three twin locks at Gatun has been laid, the amount in place at the close of work on Aug. 31 being 1,888,686 cubic yards, out of a total of 2,000,000.

MAIL CONTRACT

Sealed tenders, addressed to the Postmaster General, will be received at Ottawa until noon on Friday, the 1st of November, 1912, for the conveyance of His Majesty's Mails on a proposed contract for four years, six times per week, over Rural Mail Routes from St. Catharines, Ontario, to commence at the Postoffice of St. Catharines, Ontario, and at the office of the Postoffice Inspector at Toronto.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATION

Any person who is the sole head of a family or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan, Alberta, or the Northwest Territories, provided that the homesteader must appear in person at the District Office, or the office of the District Land Agency or Sub-agency for the District, and on certain conditions by the father, mother, son, daughter, brother or sister of the homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 30 acres, so long as the land is occupied by him or by his father, mother, son, daughter, brother or sister in certain districts. Prices \$30 per acre. Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time spent on a pre-emption) and place residence on a farm of at least 30 acres, so long as the land is occupied by him or by his father, mother, son, daughter, brother or sister in certain districts. Prices \$30 per acre. Steel Makes New High Record for Year--N. Y. Very Active

MATERIAL GAINS IN SPECULATIVE ISSUES

New York Market Closes Strong—Volume of Business in Excess of Recent Week Ends—Short Covering Assisted Movement—Bank Statement.

NEW YORK, Sept. 21.—On a volume of business only large for a week-end today's two-hour session of the stock exchange added very materially to the advance of the preceding day. The movement was perhaps less broad than yesterday's, speculation centering largely around the old-time favorites, such as United States Steel, which established another high record for the year, reaching and passing the 100 mark.

Steel was assisted by the higher price for pig iron and certain finished products. Other industrialists that manifested marked strength included General Electric, American Smelting and some of the metal shapers.

POLITICS A SMALL FACTOR

The general financial situation seems to be gradually resuming its purely business character after the summer vacation, says Henry Clay Co. This change generally occurs about the middle of September, but the week that is just closing seems to have witnessed a more than usually sudden transition from the holiday spirit, the speculative markets have thus evinced a tendency to fall in line with the other branches of our national activities.

The political campaign is attracting remarkably slight attention, considering its national character. This is true, not only in Wall street, but also in the country generally, and the signs that people are too greatly engrossed with the activity of their own affairs to permit their energies to be directed by political arguments or movements.

The outlook from a broad-gauged view is unquestionably favorable. There is the mechanical certainty of a few weeks—the practical certainty in fact—of political developments that always accompany a national political campaign so closely associated with the present one. This means that we shall have a market of considerable volume and activity with a goodly number of active and wide within reasonably fair safe limits to afford ample opportunities for traders who have the persistence necessary to take prompt advantage of developments of a temporary character.

CANADIAN TRADE CONTINUES GOOD

General conditions throughout the Dominion of Canada, according to despatches from the Dominion Review from branch offices of R. G. Dun & Co. in various trade centres, continue almost uniformly favorable. The mechanical certainty of a good and there is a liberal distribution of merchandise. Private rates of discount are active fall and winter trade. The wholesale movement of fall goods at Toronto is quite satisfactory, with a good call for drygoods, clothing, footwear and other staples. Large orders are coming in for winter merchandise and the leading establishments are all busy. In the far west and northwest further progress is reported and all lines are benefited by the generally favorable crop situation.

Foreign Stock Markets.

PARIS, Sept. 21.—Prices were firm on the bourse today. The 3 per cent. rentes 30 centimes for the account. Exchange on London, 25 francs 28 centimes for the account. Private rate of discount 4 per cent.

RAILWAY EARNINGS SHOW 14 PER CENT. INCREASE.

Gross earnings of all Canadian railroads reporting to date for the first week in September show a gain of 14.1 per cent. compared with the earnings of the same week for the corresponding period a year ago.

ATLANTIC EARNINGS

NEW YORK, Sept. 21.—Some of the railroads reported for the first week in September show earnings equal to 18 per cent. or more on common.

Ohio Earnings Greater.

In fiscal year ended June 30, Chesapeake & Ohio earned 6.8 per cent. on common, against 5.1 per cent. last year.

Omaha Railway Earnings.

Omaha in 1912 earned 8.28 per cent. on common stock, against 5.93 per cent. in 1911.

Elections Not Worrying Business Men

Representative business men throughout the States say business does not fear election of a Democratic President.

WALL STREET RESTS AFTER BUSY WEEK

LOMBARD ST. ON FINANCIAL CONDITIONS

NEW YORK, Sept. 21.—The London correspondent of The New York Evening Post cables the following summary of financial conditions:

If the coming autumn and winter seasons are to be surmounted with absence of financial strain, it will be necessary for London and New York to understand each other's position, and so far as possible, to co-operate with one another. Already, the revival of activity on your stock exchange is exciting apprehension here—not because we fail to recognize the prolonged restraint of your speculative community, or the naturalness and desirability of your trade revival, but because we fear that you sufficiently recognize Europe's position.

In spite of the early imposition of a 4 per cent. Bank of England rate, our reserve is a million sterling less than necessary for London and New York to understand each other's position, and so far as possible, to co-operate with one another. Already, the revival of activity on your stock exchange is exciting apprehension here—not because we fail to recognize the prolonged restraint of your speculative community, or the naturalness and desirability of your trade revival, but because we fear that you sufficiently recognize Europe's position.

Other Demands Than Ours.

The French market's open discount rate is up to the bank's official minimum, and the Bank of France is disinclined to part with gold. All European financial centres are in fact overburdened with new capital issues, while political unrest in the near east increases the cautious attitude of all states banks. Added to this is world-wide activity in trade and high prices for commodities.

These are the conditions amidst which commerce is genuine revival in your trade. If Wall Street judiciously contrives either to postpone large gold engagements here until January, or if it severely restricts its requisitions to bullion arriving from South Africa this autumn, Europe may experience only moderate stringency, with a Bank of England rate not above 5 per cent. It is considered, therefore, that unless such action would unduly stimulate Wall Street speculation, the necessary will be well advised to provide relief to the money market promptly rather than later.

Wall Street Speculation.

We consider the technical position of Wall Street to be probably ripe for a risk. Nevertheless, such risk might, for reasons already stated, be a decidedly strange your facilities for credit accommodation here, especially in view of the European wheat crop's prospects. Our coming stock exchange settlement is awaited with keen interest, for it is believed that the past season's requirements: United Kingdom, 224,000,000 bushels, against 206,400,000; France, 24,000,000; Germany, 30,000,000; Holland, 76,000,000; Belgium, 60,000,000; other European countries, 56,000,000, against 49,000,000; and other European countries, 30,000,000 against 34,800,000. Beerboom estimates total shipments from all exporting countries at 640,000,000 bushels, and your own at 220,000,000.

RY. EARNINGS REFLECT THE HUGE CROPS

Railroad gross earnings for the first week of September make a fairly satisfactory comparison with a year ago. The total of all United States roads' so far reporting amounting to \$4,972,397, an increase of 2.8 per cent. as compared with the earnings of the same roads for the corresponding period last year. This compares somewhat indifferently, says Dun's Review, with the gain of 6.7 per cent. reported for the first week in August, but is much better than in July, when the increase was nominal, and in June when the increase was only 2.8 per cent. Many of the leading systems that make weekly reports continue to show large gains, among them Deaver & Rio Grande, International Great Northern, Missouri, Kansas & Texas, St. Louis Southwestern, Minneapolis & St. Louis, "Sooner" and Texas & Pacific, which is probably a reflection of the large crop movement from the west and southwest. In the south, Louisville & Nashville, Southern, Mobile & Ohio and some other systems also make gains, but their good showing is in part offset by losses which appear in the past few weeks of roads that for some time have been reporting gains. The Central of Georgia and Chesapeake & Ohio are among the latter.

Failures Last Week.

NEW YORK, Sept. 21.—Commercial failures this week in the United States, as reported by R. G. Dun & Co., are 291, against 226 last week, the preceding week and 212 the corresponding week last year. Failures in Canada number 24, against 31 last week, 21 the preceding week and 27 last year.

Southern Issues in London

Bullion, Wood & Co.'s cables suggest these London prices in local equivalents of the Southern Issues:

Chicago & N. W. Decreases.

Chicago & N. W. earned 7.51 per cent. on common and preferred during fiscal year, against 8.23 per cent. in 1911.

Lehigh Valley in August.

Lehigh Valley, August net increase, \$20,412.

Eastern Market Takes Breathing Spell—Profit-Taking in Prominent Issues Causes Fractional Declines—Dominion Textile Irregular—Laurentide Holds Firm.

MONTREAL, Sept. 21.—The exceptionally active market of last week closed on Saturday with a two-hour session, in which dealings were of a comparatively light scale and the tone for the most part easier. The tendency in the last hour was apparently to a moderate amount of profit-taking in the issues, which was more prominent in the upward swing of prices during the week. The heaviest trading was in Dominion Textile common, which opened 1/4 lower, at 76, declined sharply to 75, and then rallied to 76 1/2, selling 1/2 lower, and its best price in the last transaction. The close was 76 1/2 bid, 76 asked, as compared with 76 1/2 asked on Friday.
