GEN. SIR ARTHUR CURRIE IS GREETED BY HALIFAX

Commander of Canada's Overseas Troops Receives Address of Welcome and Piece of Silver Plate-Entrains for Ottawa.

Halifax, N.S., Aug. 17.—General Sir Arthur Currie, who commanded the Canadian troops in France, arrived here today on the Cunard liner Caronia. He was met by military, naval and city officials. At the railway station General Currie was presented with an address of welcome on behalf of the citizens of Halifax. This was accompanied by a piece of silver plate bearing the Nova Scotia coat of arms and a suitable inscription. After the presentation he took a special train for Ottawa.

sentation he took a special train for Ottawa.

The address presented to General Currie by the citizens of Halifax was as follows:

To Lieutenant General Sir Arthur Currie, G.C.M.G., K.C.B., Commanding Canadian Army Corps.

Sir: On behalf of the corporation and the citizens of the city of Halifax and as expressing the sentiment of the province of Nova Scotia and the whole Canadian Public, we extend to you the warmest welcome on your

We extend our felicitations to Lady Currie, and we ask you to accept the accompanying gift as a memento of the community which first had the honor of welcoming you to Canada on your return from overseas.

Halifax, N.S., August, 1919.

In his reply to the address Gen, Currie said it was hard to find words to adequately thank the citizens of Halifax for their kindness. He felt so keenly on returning, that somehow the words to tell of it did not seem to come. Of one thing he was sure, that home in Canada, he would be able to renew the associations and comradeships of four years of war. These could never be forgotten.

This was learned from members of the Canadian wheat board today, who arrived at what they believe will be a satisfactory price, both to the producer and the government, at their session on Saturday morning, which was forwarded also to the government. As to the price, nothing definite could be learned, one member of the board stating that this information is the property of the government and must come from them. However, it was learned that the price decided on will be much higher than \$1.75, as at first forecasted, and will, in all probability, be from \$2.20 to \$2.25, the latter perhaps being the nearest figure. The board has been meeting daily since last Monday and now has the details well in hand for the handling of this year's wheat the Canadian wheat board today, who the handling of this year's wheat

The meeting was enthusiastic and cheered roundly when Major Tolmie, M. L. A., H. H. Dewart's oipponent for the leadership at the Liberal provincial convention, declared with spirit and emphasis that Mr. Dewart has no more devoted follower than he.

Mr. Dewart brought new matter into the campaign by connecting the Ontario government and their Ottawa friends with the suspension of combine prosecutions instituted by J. Walter Curry, K.C., when crown attorney in Toronto. He intimated that Mr. Curry will take the platform before the present campaign ends.

Tilbury. The resolution approved a radical manifesto distributed ansurity and the riding by Mr. Bracken and went on to say that the presence of a prospective U. F. O. Mr. Bracken, in acknowledging the nomination, said he would run till the Liberals of the riding told him to stop. He spoke in complimentary terms of Mr. Foy, the U. F. O. candidate, but believed it would be unfortunate if Liberals and farmers should divide their forces. He did not believe in setting one class of people against another, which was a thing Sir Wilfrid Laurier had devoted his entire life to avoid. (Applause.) NOW

Is the time to look round for your Fall Clothes. In spite of all the say so's, pro and con, about the high costs of clothing, you can rest assured that they will be no cheaper and in all likelihood they will be higher. There is one thing we can assure you of and that is at no time before the war, or during the war, or now, have

we ever varied our percentage of legitimate margin of profit. The same applies to our prices—one to all and no discounts. We can't afford them, the way we mark our goods and we will never allow any lines to be marked up with the idea of taking something off in order to make a customer believe he is getting special value. Our large volume of business permits us to mark our goods at a fair market value and the fact that our business grows steadily proves the confidence that our customers have in us. The New Fall Suits and Overcoats that we will have for your approval, are full of vim and snap. Many new features have been added that will appeal to your fancy. Special care has been given the linings and trimmings and you'll see some very novel effects. Prices as heretofore will be governed by quality and that's what counts in the long run.

Our Boys' Department will soon be a busy centre. Our Men's Furnishing Department is growing in popularity daily.

It's Extraordinary, the Effect of a Single Vase, Upon the Atmosphere of One's Room! Does the Colorful Symmetry of Faience in Mysterious Blue or Blurred Mulberry Appeal to You?

F you love unique china you'll be amazed at the beauty of these bowls and vases of modern manufacture. They have all the qualities of harmonious design, fineness of glaze and rich coloring that one instinctively expects in old pottery.

If you look, as every connoisseur does, at the bottom of each piece, you will find the initials of artist and potter, and no replicas are made. Thus there is the subtle pleasure of possessing a thing that is unique as well as intrinsically lovely.

Colors in the Rookwood pottery, which, by the way, is purely American, are most marvellous—soft yellow, lapis lazuli blue, rich mulberry, or the Japanese ox-blood splashed with jade and turquoise. Exquisite is a vase of warm biscuit color, whose sweeping curves betray the master designer. A misty mingling of mulberry and sage green has a quaint pattern of swans swimming on its surface, and the Egyptian lotus design in vivid blue and green decorates a tall, bottle-necked vase of beautiful lines and turquoise blue coloring. The price of this decorative piece is \$25.00.

Candlesticks are rather a delightful hobby, and here are two very individual variations. One mimics a classical pillar of weathered bronze, and the other—its Pompeian red splashed with cream—would make the way to bed a most interesting one. Both are priced \$5.00.

Strangely opalescent are the metal glazes of the Sicardo pottery, and patterned mysteriously with shadowy flowers. Their coloring reminds one of sea things—anemones in rock pools or the rare tints of the seaweed under the sun—for they change with changing light, one moment dark purple shot with mauve, another green and rose. A vase in this pottery would be a fascinating possession for this chameleon quality of color alone, but then they are beautifully modelled as well, and moderate in price, ranging from \$3.50 to \$15.00.

porters on the tables. Fortunate that no one said the hand of renovation on your abode in that decadent period of thirty years ago. Many a householder weeps now over the marble mantehrices, fender stools and old mahogany sewing-tables which, were baushed beyond recall. You may well rejoice, All the room seems to need is new chintz—quantities of it. I should have curtains of it at the French windows, tiglittle short pinafores of it on the two sofas and the spindle-legged chairs, and loose, all-over covers of it on the two sofas and the wing chair. There is a Cumberland print which would be delightful against the biscuit-color walls and ivory woodwork—one patterned in mulberry, blue and green on a linen shade ground. STRONG ARM POLICY **TOWARDS MEXICO**

United States Has Force Massed on Rio Grande.

Washington, Aug. 16.-The state department's announcement that President Carranza had been informed by this government that unless the Mexican government took immediate steps to put an end to the murder of American citizens in Mexico this govern-ment would be compelled to "adopt a radical change in its policy" in regard to that country, occasioned no end of speculation in military circles and naval circles today. As was the case yesterday there was no official statement forthcoming to indicate the nature of the "radical change" foreshad-

owed.

The United States government is in a position to act immediately when the president gives the word. Massed along the border or within twenty-four hours rail journey of the border bases at San Antonio, El Paso and Columbus, are eleven regiments of cavalry, seven of infantry, six of field artillery, two of engineers, one machine gun battalion, fifteen airplane squadrons, nine balloon companies, one battalion of signallers, seventeen pack trains and sixteen motor transpack trains and sixteen motor trans-port companies, in addition to the needed quota of special and technical

troops.

The Carranza government will not be permitted to import further arms and munitions from the United States.

Rain made but slight difference in the large garden party for the returned woldiers of York township which was given by the York township branch of the Red Cross Society at Willowdale on Saturday.

The occasion was to commemmorate the noble part played by the boys of York in the great war. The Red Cross tried to convey some measure of the appreciation due them for their heroic work. Many of the lads present showed signs of physical sacrifice for freedom's sake, but their infirmities seemed but little in the husky roar which went up when the presiding chairman, W. F. Maclean, M.P. Called for cheers for the various toasts.

Nearly all the athletic events were cancelled by the rain except a few of the boxing matches, but the boys seemed all the happier when they assembled in the tent where they had a smoke and renewed old acquaintances.

"Mickey" Still in Front.

There has never been presented in this city or any place in the Dominion an attraction that has the same interest that "Mickey" has. This remarkable film drama has completed eleven weeks of capacity business at the Grand Opera House and the public demand continues so heavy that a further extension of the engagement has been found necessary. Commencing with a matinee today "Mickey" will enter upon its twelfth week and will have been shown to nearly 200,000 people in Toronto at the same theatre. It is doubtful if any city on the continuent can equal this wonderful record and the length of the engagement and the continued big patronage indicates the growth of Toronto. The engagement of "Mickey" has brought the city before the amusement interests of the United States more prominently than any other method of publicity and has placed Toronto high in the list of the big cities of the continent. During the stay of "Mickey" at the Grand a matinee will be given every day

Walter Curry and the Combines. "The story is an interesting one. I was crown attorney of the city of To-ronto in 1904 when I went into general practice. I had as my colleague one of the ablest and most upright lawyers in Canada, Mr. Walter Curry. In 1905 he found there were combines in leading articles of household consumption. He realized his duty as crown attorney and he did not wait for the attorney-general of Ontario to act. He decided to fulfil his own duty as an honest deputy and official of the crown. He found who the sec-retary of the combine was and he went directly to work seizing the books and papers of the combinethe machinations of thirty-three different combines operating in Ontario and Canada. A prosecution against the plumbers was launched in respect to their combination and in respect to plumbers' supplies. That prosecution was successful in the police court and have a platform to stand upon. Has in the higher ccurt. There was a Premier Hearst a platform that has been approved by his followers? He and his friends appear to be afraid to lay down a policy that the people can examine. The Toronto World has been was committed for trial. Indictments were preferred and true bills found. At this stage the confidential counse of the Ontario government, Mr. Du-Vernet, was called in and further prosecution was committed by the gov ernment to him. But after that happened you might search in vain for any record of that prosecution down to this day. Mr. Curry was clean of heart and staunch of hope. He went after the tinware and enamelware combine in which A. E. Kemp, now Sir Edward Kemp, a rich and prominent supporter of the Conservative government, its minister in London at later date, was concerned. What happened? No sooner had Mr. Curry at tempted to lay his hands on the Lord's anointed-(laughter)-than the ceedings had a setback because of the intervention of the same learned coun-The idea of putting the O.M. on the tion of a \$4,000 bakery on Facer than level as any title whatever is street.

"DOUBLE 'EM UP" OFFER ENDS AT 11 P.M. NEXT WEDNESDAY

Three More Days of Big Extra Offer in Salesmanship Club Campaign---Race Ends One Week From Next Friday Night.

Today, tomorrow and Wednesday and "Double 'Em Up" offer in The World's Salesmanship Club campaign will be a thing of the past. It's the last chance to get double the regular credits on new subscriptions and it's the results of these three days that will decide the winners of the six extra cash awards, which are offered for the best work from August 4 to August 20, inclusive.

All subscriptions mailed so as show postmark prior to 11 p.m. Wedextra cash offer just the same as those brought in to the Salesmanship Club headquarters before that hour, even the they may not arrive until a DISTRICT NO. 3. Club headquarters before that hour, even the they may not arrive until a day or two later. This gives out-of-the-city members the same opportunity as those in the city to work right up to the closing hour of the offer.

Austin Harry Austin Harry West of the city members the same opportunity as those in the city to work right up to the closing hour of the offer.

Campaign Ends Aug. 29. One week from next Friday night the campaign ends. \$16,000 in big siluring awards will be given as soon after that date as the judges and ac-countants can determine the winners. The extra credits that will be allowed the last few days of the campaign will be much less than those now in effect, and with the end of the race so near it is but natural that some ex-citing and unlooked for results will be seen when the list of standings appears before the close of "Double 'Em Up" offer.

No new entries will be taken after this week. For that matter it will be practically use ess for anyone to enter after Wednesday. Several new mem-bers have appeared in the list during the past week and if there are any cthers that want to compete for the lig awards they had better send in their names at once and not delay making a running start. Positively no entries will be accepted after next Saturday night.

Credits Soaring. The credits of the leaders are soaring upward these days. In this morning's list they nearly reach the 350,000 mark. Tomorrow's list will probably go much higher.

The critical time in the race is at hend and those who expect to be among the high ones at the close of the campaign must make up their n.inds to get into record-breaking speed between now and Wednesday night. Sunday Game at Reading Postponed-Baseball Results and Records.

At Reading (International.)—The Toronto-Reading game was postponed on account of rain, and the teams left in the afternoon for Toronto.

At Baltimore—Baltimore made a clean sweep of the series from Rochester by taking both games, 12 to 2 and 6 to 1. Hill pitched good ball in the pinches in the first game, while his teammates hammered Ogden hard at opportune times. The second game was cut of seven innings, by agreement. Seibold easily outpitched Heitman in the encounter. Scores:

ALWAYS. IN DEBT

ALTHOUGH it is my policy to pay pretty much as I go, nevertheless I find it almost impossible to keep out of debt. I SAY TO MYSELF, "Now I'll just send out cheques for everything I have bills for, and for all cars belonging to other people that have been sold." When I find out that so and so's car has been sold, of course it's up to me to send cheque.

CANNOT RECALL A

CANNOT RECALL the exact amount, but I know that I send cheques out for cars sold, the amount of which for one month would surprise you. MY PLAN is to keep an up-to-date record of cars sold for other people and send cheques at once, but somehow just when I think I am through for a day or so out goes another bunch. SUPPOSE it will ever be thus as long as people keep bringing their cars in and others keep on buying them.

Glasgow, Aug. 16.—The Scottish soccer season opened up today on the lines of the pre-war days, great enthusiasm being shown on all the grounds in Scotland. The champions of last season, the Celtic, got off the mark in fine style by defeating Clydebank, 3 to 1, while the runners-up, the Rangers, did pretty well in defeating the Airdrieonians by the only goal scored away from home.

Old Country and Albions played at Trinity College on Saturday. The game resulted in a win for Old Country by 35 runs, the score being 97 to 62. Old Country won the toss and elected to bat first on a very bumpy wicket. Bowbanks and Dorkin opened the inning. Bowbanks was bowled without scoring. Dorkin was playing a good game, and was out for 16. Carpenter played a merry innings for 19; also Downer. Barford made 10 runs and was going strong when he was caught over the boundary by Yaxley, and was given out—a very unfair decision. Bob wookey bowled splendidly on a bad wick-et. Harold Wookey made a great catch off Wakefield, when he looked as tho he would have given the fieldsman a lot of trouble. For the Albions, Harry Roberts played a very patient inning for 15 runs, he and Buckingham being the only doubles for the losers.

Bowling for Old Country: Bob Wookey, 6 wickets for 23 runs; Jack McKinnon, 2 for 30.

Dovercourt Looked Winners When the Rain Saved Broadview

BEGG AND CASSELS Dovercourt and Broadview played a draw at Riverdale Park on Saturday in a C. & M. League game. The storm stopped the game when Dovercourt seemed to be sure winners and each team scored one point. Dovercourt batted first and after losing 3 wickets for 11. scored well, the slowly, Simmons 25. Rothwell 14, Butterfield 31 and Roulinson 13, all in succession, got the measure of the bowling. Simmons and Butterfield especially played first-class cricket, the latter being still at the wickets when the innings was closed at 101 for 7 wickets. Gilbert bowled remarkably well, being unchanged, and sent down 21 over, 3 maidens for 39 runs and 3 wickets. Broadview could make little headway against Simmons and Butterfield, and had lost 6 wickets for 30 before the darkness preceding the storm put an end to the game. Jamieson with 10 was top scores, his dotal including one huge hit, a run out 5 turned into a 6 by the "lost ball" rule. Simmons was in great form with the ball, sending down 9 overs 5 maidens for 10 runs and 3 wickets.

English Capital Negotiating for Davidson Consolidated Stock

In the past we have consistently and with good judg-ment advised the purchase of shares in Davidson Gold Mines, Limited. The soundness of our advice has been confirmed by the recent consolidation increasing the area to more than 400 acres. thereby providing and furthering plans for the rapid and adequate development of the property.

We view this consolidation as a great stride toward bringing the mine to the status of such sterling gold producers as the Hollinger and McIntyre, the future of which had been pro-vided for in a similar manner English interests are negotiating for the purchase of a substantial block of the consolidated company's stock at something better than 75c a share, a fact which speaks for

GREAT ACTIVITY AT SHINING TREE

While Cobalt and Kirkland Lake camps are tied up by labor strikes, activity in the West Shining Tree is on the increase and reports emanating from the camp indicate that excellent progress is being made at the working properties, At the present time there are about eight properties on which actual development work is proceeding, while on several others preliminary work is under way.

Geo. R. Rogers, M.E., who is in charge of several properties in this camp, has just returned, and asserts that things never looked better than at the present time. The improvement made in transfertation facilities thru the repairing of the wagon road into the camp by the government has made it possible to take in a large amount of machinery that was essential to the development of the camp.

Speaking of the Wasapika property. Mr.

was essential to the development of the camp.

Speaking of the Wasapika property, Mr. Rogers states that the crosscut from the 100-ft. level to cut the Ribble vein is progressing rapidly, this lateral work now having been pushed ahead for a distance of between fifteen and twenty feet from the shaft. For this distance the crosscut has been in quartz and schist showing free gold, and it is believed that the grade of this matter is sufficiently high to make it pay ore. Samples are being assayed and the results will be forthcoming in a few days. The significance of this showing is that the Ribble vein has not yet been encountered, and that as the gold has penetrated, to such a distance in the wall rock, it is more than likely when the vein itself is encountered values will be found to he very high. Present indications point to the location of a very wide body of ore at this depth, and it is probable from the showings at the 100-ft. level that values will increase as greater depth is attained. The property is thoroly equipped with a modern power plant which will allow for development being carried down for considerable distance.

West Tree's Riches.

took place in the corn market today were largely owing to the fact that sterling exchange had dropped to \$4.25, a new v. low record. Corn closed heavy. at %c to %c net decline. Oats lost 1½ to 1½ and provisions 10c to 70c. Weakness in the corn market was evident from the outset. Most of the earlier selling, however, appeared to be based on anticipation that railroad traffic which had been restricted by the shopmen's strike, would be back to normal by Monday. Bears assumed that, therefore, the volume of corn feceipts here and at other important ferminals would probably increase.

Week-end covering by shorts rallied the market, but at this juncture the attention of the traders began to centre upon extreme weakness of foreign exchange. Thruout the rest of the day corn prices kept on the downgrade, and finished at about the lowest point reached. Oats weakened with corn.

Provisions gave way with the depression of hogs and grain. Upturns associated with the bullish showing of the semi-monthly figure on warehouse stocks failed to last. a short vein in some people's opinion. but to any one who knows anything about mining and has seen the remarkable gold values that this vein contains, it looks to be one of the richest in the north country.

Financial Review

New York funds underwent a sharp decline in the local market on Saturday. The premium which on Friday was between 43-16 premium and 47-32 premium, fell on Saturday to from 3 31-32 premium to 41-16 premium. Around Aug, 1 the rate rose to slightly above 5 per cent., so that the decline in a little more than two weeks has been about one per cent.

Local exchange brokers said on Saturday, will be warmly welcomed by all who are interested in Canadian securities. The book contains well on to 800 pages, and the matter is the result of the usual careful compilation of the sudden easing of the rate. Buyers of remittances on New York had suddenly sheered off, but it was quite probable that the rate of premium would advance again next week.

The nineteenth volume of The Annual Financial Review, which made its appearance on Saturday, will be warmly welcomed by all who are interested in Canadian securities. The book contains well on to 800 pages, and the matter is the result of the usual careful compilation's Standard Publications, Toronto Stock Exchange Building, 84 Bay street. RETARDS BOSTON CREEK

Boston Creek, Aug. 16 .- After a careful investigation into the transportation problem in the Boston Creek gold area it is found that something like a thousand tons of material will have to be hauled

tons of material will have to be hauled to the various properties in that district in the immediate future.

Despite the increasing activity, and the likelihood of improved transportation facilities adding still further to the incentive to do work on some of the newer properties, the Ontario government is continuing its policy of watchful waiting, even after having given assurance last spring that a road would be built.

Road building in the Boston Creek district is perhaps less difficult than in any of the other important mineral areas of the north. In spite of this, and in spite of the fact that marked success has attended all genuine efforts at mine making, the government has not spent a dollar on the road which serves the various working properties. Instead, individual companies have been obliged to bear the full brunt of opening the entire district.

LOW RECORD REACHED BY GERMAN EXCHANGE

Berne, Aug. 16.—German exchange fell to a new low record yesterday, selling for from 27½ to 29 francs for 100 marks. There was a slight improvement today, the price being from 29½ to 30 francs, It is generally expected that the allies, in their own interests, will grant some assistance and support to the economic life of Germany. There are still hopes for Germany, but complete financial collapse and bankruptcy is feared for Austria, unless help or intervention arrives at the last moment.
