

**HAMILTON HAPPENINGS**  
**COST OF STREET CAR STRIKE**  
**AS SHOWN IN THE RECEIPTS**

Earnings for 1906 \$21,000 Less Than They Would Otherwise Have Been.

Hamilton, Jan. 22.—(Special).—W. C. Vansickle, reeve of Ancaster Township, was last afternoon elected warden of Wentworth County on the first ballot. Although there are eight Liberals to six Conservatives in the council, the Liberals were after the honor. They got together, however, and Reeve Vansickle was elected.

The following officers were elected this evening by the Liberal Club: President, Cal Davis; vice-president, J. H. Fowler; secretary-treasurer, Frank Woolcott.

The Conservative Club held its annual old folks at home this evening. Mayor Stewart presided. Those who took part were Miss Flossie Kinrade, Fred Mitchell, Miss Jessie Morgan, H. N. Thomas, Miss Alice Hunter, Thos. L. Sweeney, Mrs. McArthur and the Massurgis Male Quartet.

The married men of Centenary Church gave a social this evening. J. O. Callaghan presided.

**Cost of the Strike.**  
The receipts of the Hamilton Street Railway last year amounted to \$248,776, not including the Deering division. That is just about \$2,000 less than the earnings would have been had there been no strike. In spite of the strike, the receipts show an increase over 1905 of \$14,415. The city's share amounted to \$7,207, or only \$273 more than in 1905. The city's loss in percentage by reason of the strike is estimated at \$1705. The services of the soldiers who put down the riot cost the city \$32045.

Three solid brick houses, central location, 8 rooms each, every convenience, \$8000 for the three. A. J. Douglas & Co., 10 North John-street, Tel. 2172.

The Amalgamated Tack and Screw companies will locate in the annex instead of on the site adjoining the city hospital.

See Billy Carroll's Pipes to-day at the Grand Opera House Cigar Store.

Open, ready for business, barber shop, Federal Life, Fred H. Sharp, eight years at the Royal.

Three men who were loading copper wire and sheet lead into a rig at the Hamilton Refining Co. being caught at night were frightened off by the night-watchman. They left the horse and rig. They had about \$200 worth of stuff loaded up.

There was a rear-end collision this morning between freight trains on the C. T. & L. Lynden, in which a lot of rolling stock and freight was damaged.

Wanted—Two stone and marble set-tingers, large job; to have full charge of job. Apply Canadian White Company, Hamilton.

Route boys, good and reliable, early risers, permanent work. Apply 4 to 5, World Office, 75 North James-street, Hamilton.

**Catarrh of the Stomach**

A Pleasant, Simple, But Safe and Effective Cure for It.

**COSTS NOTHING TO TRY.**

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with watery, watery discharges, a formation of gases, causing pressure on the heart and causing an itching, head-ache, sickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a silmy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily and thoroughly digested, and passing to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison, the safest and best treatment is to use after each meal a tablet, composed of Distas, Ascorbic Potash, a little Nux Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine, can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but to-day I am the happiest of men, after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found fresh appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, Catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals. Send your name and address to-day for a free trial package and see for yourself. Address P. A. Stuart Co., 58 Stuart Bldg., Marshall, Mich.

**MASONS REPORT INCREASE.**

40th Conventions of Royal Arch Chapter Will Open To-day.

The annual meeting of the executive committee of the Royal Arch Masons of Canada was opened in the Temple Building last night. The attendance was especially gratifying, among those present being Bros. Donald Ross and John Robertson, Toronto; J. E. Harding, Lindsay; W. Reid, Hamilton; Archibald Shaw, Kingston; Hugh Murray and George Moore, Hamilton. The grand superintendent present were John Graham, London, and R. W. Clewio, Toronto, the ex-officio members are George J. Bennett, Toronto, and those elected by grand chapter are Aubrey White and W. T. Toner of Collingwood.

At 11 o'clock this morning the 49th annual convention of the Grand Chapter of Canada will be formally opened, when the reports of the grand first principal will be presented. These reports will show an increase of about 1000, or a total membership of 11,507. The election of officers will be held with and a forecast gives the names Bro. James Leslie of Winnipeg as the probable first grand principal, George Monroe, Hamilton, second principal, and J. E. Heelervele of Sterling, third principal.

The grand superintendent will in all probability be R. W. Brennan of Toronto district.

**LEATHER WORKERS MAY STRIKE**

Want 10 Per Cent. Increase at Least, May Ask More.

A general demand for an increase in wages will soon be made upon the leather and horse goods manufacturers by the leather workers.

The Leather Workers' Union intimated their intention last night of asking for an increase of at least ten per cent. upon the leather and horse goods poorest paid trade in the city, and the increased cost of living demands a higher scale of wages.

Definite action will be decided upon later.

**SENAATORS SWORN IN.**

**POLICE STOPPED THE CARS**  
**SERVICE WAS ABANDONED**

What Happened at Noon Yesterday When City's Orders Were Carried Into Effect.

That upon the application of the city engineer for the use of the police to enable him to obey the order of the city council to compel the Toronto Railway Company to restore the routes, which they have, without authority, changed on the Winchester, Bathurst and Arthur-street lines, the board of police commissioners, in view of the fact that the police force are maintained and paid at the cost of the citizens, feel the corporation are entitled to use the force in defence of their rights, and direct the chief to carry out the orders which he may receive from the corporation thru the city engineer, on the understanding that the corporation of the City of Toronto shall be responsible for any action taken under their orders.

The foregoing was the resolution passed by the board of police commissioners yesterday morning, Judge Winchester dissenting, as had been expected. He explained that his attitude was based purely legal ground, and that he believed, with Mr. Pullerton, that the city should await the decision of the privy council, expected next month. While not admitting that the railway had done wrong, he stated that the city was not entitled to use force, while entitled to redress in a legal way.

The mayor kept his promise not to block the application by giving the casting vote in favor of the city.

The police commissioners met promptly at 8 a. m., in City Engineer's office, and after a private conference of half an hour, City Engineer Rust was called in. Letting the Mayor, Corporation Counsel Pullerton and City Solicitor Chisholm were also summoned, and after about fifteen minutes of further discussion, the proceedings ended.

Entering the Law.

It was then decided to call on the police to enforce the city's requests at noon.

At Front and Yonge-streets, Engineer Rust took charge of operations, arriving about 10 minutes before noon. He had a yard foreman with him, armed with a heavy crowbar. Inspector Davis had about a dozen police at the corner and round about.

Winchester car 1018 was the first victim. When it reached the corner, the engineer ordered the switch turned so that the car would have to go west toward the station. The motorman declined to comply, and in 10 minutes there was a varied assortment of cars stretching north on Yonge to Arthur-street.

Crowds from the warehouses assembled, anxious to go home to dinner, and their comments were not complimentary to the engineer. Finally, Homebody Nix and several assistants arrived, and he ordered the stalled Winchester car to be towed to the station. The motorman was taken to the station, and the blockage was lifted.

As a Winchester car would reach the corner it was turned to the barns, a new man taking the motorman's place. The trouble was over by 12:30.

**Sympathy Between**  
**Liver and Kidneys**

In the treatment of Bright's disease or inflammation of the kidneys, the first consideration is rest for these filtering organs, and this can only be obtained by quickening the action of the liver and bowels.

Dr. Chase's Kidney-Liver Pills succeed where mere kidney medicine fails because they act promptly and directly on the liver, take the work off the kidneys and then by their purgative action on the kidneys restore them to health and vigor.

Because of the intimate and sympathetic relation of the liver and kidneys it is useless to treat them independently of one another. This fact was in the mind of Dr. Chase when he prepared the formula of his celebrated Kidney-Liver Pills, and the phenomenal success of this great medicine has proven his wisdom.

Dr. Chase's Kidney-Liver Pills positively cure liver complaint, biliousness, constipation, backache and kidney disease. One pill a dose, 25c a box, at all dealers or Edmondson, Bates & Co., Toronto.

Write for Dr. Chase's Calendar Almanac.

Indies were heard to say: "It is simply ridiculous to tie up cars in weather like this." They waited for almost 10 minutes for a Carleton car and finally went home walking. As each Carleton car came along it was attacked by a crowd of housewives who desired the warmer atmosphere of their cosy home, and each car was packed in the twinkling of an eye.

"Bob Fleming is doing his baby act as usual," was the remark of one man waiting for a car.

C. C. Robinson, solicitor, while waiting for a car to come along, said to each father had done a nice trick, and questioned the sanity of the city council in permitting such a state of affairs. He thought the council were playing into the hands of the railway company.

"How can the city successfully prosecute the railway company for overcrowding the cars if the city itself ties up some of their lines?" The argument will simply be "The city is forcing us to overcrowd the cars." But Mr. Fleming should have had sense enough to put extra cars in commission on the Carleton-street route.

The worst of the jam was at 6.30, but those who had patience enough to wait for the next car had but very little to complain of.

SOCIALISTS STRUGGLE TO CONTROL LABORITES.

Belfast, Jan. 22.—The Labor party, which has been seriously considered politically since the unexpected success of its candidates at the last general election, begins its seventh annual conference here on Thursday.

Chief interest centres on the amendment proposed to the constitution of the party making the organization socialistic.

Some of the unions affiliated with the party will propose that a vote on all union workingmen be taken on the proposition, it being their belief that the workingmen as a whole are not socialists.

Other legislation which it is proposed to instruct the Labor members to support includes old age pensions; an eight-day pay for all workers; law to stop "sweating" in the tailoring trade; adult suffrage and the equality of the sexes; establishment of national sanatoria; the substitution of arbitration for war as a preliminary to universal disarmament; and the establishment of labor courts.

A resolution will be introduced in support of a national education policy which includes state maintenance of public, scientific, physical education, complete dissociation of these reforms from poor law administration; education to be under popular control, free and secular, from the primary school to the university and intellectual and technical education for teachers, the whole cost of the system to be met from the imperial treasury.

RE-ARRANGEMENT HAS BEEN FOUND NECESSARY FOR MEMBERS. Rearrangement of the seats in the legislative chamber brings all the members into a smaller area and closer to the speaker, the Hon. Mr. Broadbent (Hamilton) and the seats left vacant by Hon. G. W. Ross and H. W. Kennedy (Port Arthur) make some changes.

# THE TRADERS BANK OF CANADA

Proceedings of the twenty-second General Meeting of shareholders, held at its banking house in Toronto, on Tuesday, the 22nd Jan. 1907.

The chair was taken by the president, Mr. C. D. Warren, and Mr. H. S. Strathy was requested to act as secretary.

On motion, Messrs. E. Galley and J. K. Niven were elected to act as scrutineers. The general manager then read the following statement:

## STATEMENT OF THE RESULT OF THE BUSINESS OF THE BANK FOR THE SEVEN MONTHS ENDING 31st DECEMBER, 1906.

The following comparative statement will show the progress of the Bank from May 31, 1907:

## APPROPRIATED AS FOLLOWS, VIZ:

Dividend No. 42, (for 4 months ending September 30th, 1906), at the rate of 7 per cent. per annum, paid 1st October, 1906	\$267,188 46
Premium on new stock on 31st December, 1906	539,730 00
Balance at credit of profit and loss last year	51,298 66
<b>Total</b>	<b>\$868,217 12</b>

The shareholders having decided to change the time of year when the annual meeting shall be held, it is considered desirable to make the bank's financial year end with the calendar year. In order to effect that the statement now presented covers a broken period of seven months only. During these seven months the progress made, as is shown by the statement, has exceeded that of any former similar period. Four branches having been opened, the necessary expense in connection therewith having been met out of current profits. A substantial addition has been made to the right account, arrived at after a most careful re-valuation of the bank's securities, and after making full provision for all bad and doubtful debts.

Your directors, realizing the responsibility naturally attaching to their office, and in view of the increasing business of the Bank, have made such changes in the important positions on the staff as to insure the most thorough supervision and inspection of all departments. The securities of the bank since its inception have always been under the joint custody of two or more of the senior officers, in addition to which your directors have spent much time in personally examining the various securities of the bank and seeing to their proper custody. A system of inspection has been adopted of which in their opinion must prove much more thorough and effective than could any outside inspection possibly be.

The average paid-up capital of the bank for the seven months was \$4,066,236. The different offices of the bank continue to receive the usual careful inspections.

C. D. WARREN, President.

H. S. STRATHY, General Manager.

The Secretary having read the foregoing report, its adoption was moved by Mr. C. D. Warren, seconded by Hon. J. R. Stratton.

The President then addressed the meeting as follows:

"The report of the addition of the report I do so with much pleasure. It affords very satisfactory evidence of the progress of the Bank, and the healthy condition of its several interests, which, I think, call for congratulation on all concerned.

The statement submitted covers a period of seven months, it having been decided at the annual meeting in June last to make Jan. 1 the beginning of the financial year of the Bank. This circumstance does not detract from the favorable nature of the showing made. In accordance with the decision arrived at at the annual meeting, the quarterly, instead of half yearly payment of dividends, is appreciated by shareholders.

You will also be interested, as well as gratified, by the fact that the Bank at the beginning of the calendar year, entered upon the occupation of its new and substantial and ample bank office premises, which are in every way excellently adapted to the efficient control of the large and increasing interests of the Bank, with the added feature of the largest possible degree of safety of its securities, by the provision of vaults absolutely fire and burglar proof. The occupancy of the new buildings of the bank is a reasonable matter of congratulation. It is a pleasure to be able to state that practically every office in the building is satisfactorily leased.

Reference to the statement will show gratifying results of the business operations of the bank for the period under review. After the payment of two dividends at the rate of seven per cent. per annum, amounting together to \$163,972.53; after strengthening the reserve account by the addition of it of \$650,000; after transferring \$500,000 respectively to Officers' Guarantee Fund and Officers' Pension Fund, and making the usual provisions, there remains to be carried forward to the credit of Profit and Loss Account, the sum of \$44,349 87. The Reserve Account, which at the last annual meeting stood at \$1,250,000, by the addition made, as shown by the statement, now amounts to \$1,900,000.

The assets of the Bank are in a most satisfactory condition. During the year your Directors made careful and minute investigation into the details affecting all the assets of the Bank, and fully verified their standing and value as set forth in the statement.

During the year Mr. Stuart Strathy has been appointed Assistant General Manager, and Mr. N. T. Hillary, has been appointed Directors Auditor.

Judging by the past success of the Bank and by the prospects of a continuance of the great general prosperity that has prevailed for many years and is still with us it is easy to forecast a prosperous future for the Bank.

It was then moved by Mr. Ira Vanduzer, seconded by F. J. Harris, "that the Report of the Directors just read be adopted and printed for distribution among the Shareholders."—Carried.

The following Resolutions were also moved and carried:

"That the thanks of the Shareholders are due and are hereby tendered to the President, Vice-President, Directors and Officers of the Bank for their attention to the interests of the Bank during the past year."

"That the ballot be now open for the election of Directors, and be kept open until 3 o'clock unless five minutes elapse without a vote being cast, when it shall be closed, and until that time, and for that purpose only this meeting be continued."

That the sum of one thousand dollars be given to each Director as an honorarium for special services rendered by them during the erection of the new buildings, much individual supervision being required on their part in personally supervising all the contracts in connection with the building.

The scrutineers reported the following gentlemen duly elected to act as

Directors for the ensuing year, viz: C. D. Warren, Hon. J. R. Stratton, C. Kloepper (Quebec), W. J. Sheppard (Waukegan), C. S. Wilcox (Hamilton), E. F. B. Johnston, K.C.

The meeting then adjourned.

At a subsequent meeting of the newly elected Directors, Mr. C. D. Warren was re-elected President, and Hon. J. R. Stratton, Vice-President, by a unanimous vote.

H. S. STRATHY, General Manager.

## POLICE STOP STREET CARS

Continued from Page 1.

work and Denison had given their consent to the use of the police to enforce the council's orders, the board of control held a meeting yesterday morning, and Controller Hocken's immediate application be made to the railway and municipal board to compel the Toronto Railway Co. to operate the routes discontinued to-day, and to take over and operate the street railway service and operate it pending the enforcement of the agreement.

This proved entirely satisfactory to the board, a decision to proceed along the lines having been previously arrived at.

The mayor then announced that it had been decided to call a special meeting on Wednesday evening when the council would meet in conference with representative bodies.

Controller Ward declared that Mr. Fullerton should have the strongest counsel as support before the railway board, and suggest E. E. A. DuVernet. The mayor thought Mr. Fullerton should make a recommendation. The names of Mr. Johnston, Mr. Ritchie, Mr. Helms, and Mr. Shepley were suggested by the mayor.

Controller Hocken then moved that the city engineer be instructed to have provided for the convenience of patrons of the suspended car lines, which was adopted without discussion.

Controller Ward asked if the city engineer hadn't power to order more cars, and the mayor replied that such an application to the board was already pending. The controller then moved that the attorney-general be called upon Wednesday morning, and it was agreed that the board should do so. Adjournment was then made.

When the street railway took off the service from three routes the controllers called a second meeting this afternoon. Controller Hocken just made the following report:

"In compliance with report No. 2 of the board of control, on the 21st inst., with the assistance of the police, I stopped the street cars on Arthur-street, and Winchester-street, cars running on routes that were not determined by the city engineer, and the company refused to bring their cars from these routes, and I have to notify you that the Toronto Railway Co. are not providing a service upon these routes as called for. I would, therefore, request your board to instruct the city solicitor to take immediate action to compel the company to restore the service upon Winchester-street, Arthur-street and Bathurst-street lines as determined by the city engineer and approved by the city council on April 11, 1904."

It was then decided to call a special meeting of the council for the evening to deal with the unexpected situation.

The City Council in Session.

It was 8:15 p.m. when the council meeting was called to order, and the mayor faced the council, which, despite the storm, was well represented, save by Controller Hubbard, who is still absent from the city, and Aid. McBride, who was away for the day at Peterborough. The mayor opened the proceedings with an appeal for calm and sober action.

"There can be no doubt," he said, "that the public feeling is behind the council in its action so far against the Toronto Railway Co. but I need not tell you that the public passion is easily roused, and, therefore, you must be careful not to do or say anything which may lead to the slightest degree, tend to anger the people."

Then followed the reading of the letter

of the city engineer to the board of control, and the communication from the Mayor. The mayor, both were received in silence and with becoming gravity. Controller Hocken's case was stated in the brief before him. He looked resolved rather than thoughtful. A physiognomist might have decided that the controller enjoyed rather than dreaded the situation that was of his own making, and when he rose to speak, that impression would probably have been confirmed.

On the board of control's motion being presented, Controller Hocken intimated that he disagreed with the mayor, as to the ease with which public opinion could be inflamed. For 15 years the city council had tried to get popular support, and it had now reached a point where it would not be an extreme step.

The city council was not being asked to take any extreme step. It was merely in the process of finding out whether the city had those rights by its agreement which were not being observed by the company. For 15 years the city council had tried to get popular support, and it had now reached a point where it would not be an extreme step.

"We have not only a trial judgment and a judgment of the court of appeal against the company, but the law is against the law department. They were given nearly two weeks' notice, and now they have the impudence to come before the council and say 'the mayor is wrong.'"

The mayor then moved that the city engineer be instructed to have provided for the convenience of patrons of the suspended car lines, which was adopted without discussion.

**Brockville's Big Success With Municipal Lighting**

In Six Years Profits Have Been \$37,000—Price of Gas Reduced.

Average Torontonians only read of the growth and activity of New Liskeard, situated 10 miles north of Cobalt, at the head of Lake Temiskaming. They must visit the place to be astonished. Its advancement, its broad-gauge, anti-Urban Henp policy of building, its up-to-date ideas, are worthy of a Tom L. Johnston. The whole apparatus has passed its trial and is giving evidence of light big things for the future.

The electric light system, comprising a dozen shafts set down with the irregularity of a crane, the corporation of Armstrong, has made a splendid showing on the business for 1906. The total receipts show \$45,327.07, of which \$28,655.40 was received from gas, \$16,846.85 from electricity, and \$22.82 discount. The operating expenses, including \$11,735.55 interest and debenture liquidation, amounted to \$41,520.49, leaving a profit of \$4022.58 for the year.

The consumption of gas has doubled in six years, the revenue jumping from \$18,145.32 to \$28,655.40, at nearly a 50 per cent. reduction per 1000 cubic feet. The electric light revenue in 1906 was \$12,448.05, against \$15,255.55 in 1905. Since the works have been taken over by the town six years ago, the consumers of gas and electricity have paid into the department \$87,000.50 more than it has taken to operate the plant. This amount is not an available profit, as the department has handled over to the town treasurer \$29,815.33 to be applied to the debenture debt, reducing it to \$136,680.

Every account owing to the department for 1906 has been collected with the exception of \$4. Since the inception of municipal control the bad debts have been under a total of \$75. Commencing with Jan. 1 of this year, the commissioners have reduced gas rates from \$1.25 per 1000 cubic feet for all purposes.

**WIDOW ALLEGES POISONING.**  
 N. Y. Authorities to Investigate a Suspicious Death.  
 New York, Jan. 22.—Virgil Delgenovez, a contractor, died in the Bronx today under circumstances which led coroner Schwaback to announce that a searching investigation will be made. Delgenovez has been ill for several weeks, and although he was steadily sinking, the physicians who have attended him have been unable to reach a decision as to the cause of his condition.

**CRASHED INTO CABOOSE.**  
 4 Laborers Killed and 12 Injured in Week Near Albany.  
 Albany, N. Y., Jan. 22.—Four men were killed and at least 12 injured late this afternoon on the New York Central, Mohawk division, about half a mile west of this city by the collision of a light engine with a caboose. The train was carrying a load of lumber and was being pushed by an engine and the colliding locomotive going west crashed into the car.

**BEAUTIFYING OTTAWA.**  
 Improvement Commission Given the Use of Three Islands in River.  
 Ottawa, Jan. 22.—(Special.)—The Ontario government has handed over to the Ottawa improvement commission three islands in the Ottawa river, in connection with an elaborate scheme of improvement now being planned by the commission. The islands will be laid out as parks and picnic grounds, and will be easy of access, not only by a new driveway, but also by the street railway. Plans are also under way for a park in the glen.

**Inspection of Companies.**  
 Editor World: Receiving inspection of financial and other corporations operating under provincial charters. It seems to the writer that the department should be so organized that certain companies should not be permitted to continue business under permit and pay dividends while their financial standing is in such shape that license cannot be regularly granted and their capital seriously impaired or wiped out altogether.

**Teacher Dies Suddenly.**  
 Brantford, Jan. 22.—Miss Aggie Purvis, a public school teacher, died suddenly this morning. She attended her duties at the school yesterday, and was found dead in her room this morning. Her mother went to her bedroom and found her unconscious. She died shortly thereafter.

**Damage Occurred.**  
 Buffalo, Jan. 22.—Officials of the Great Gorge Road stated today that they have found that the teachers' diesel engine, which was used to haul the cars, was damaged at first reported. The gorge road will be in operation in a few days. The loss will not exceed \$5000.
