THE MAIN BATTLE MUST STOP SAYS PRESIDENT MCKINLEY.

In the Interests of Humanity and Civilization This Message is Sent Out.

CONGRESS WILL NOW HAVE TO DECIDE.

In Both the Senate and House of Representatives There is a Strong Feeling That the Deliverance of the President Does Not Go Far Enough—Senator Foraker Is Among Them, and He Expresses His Strong Disapproval—Mr. McKinley Says He Will Carry Out the Wishes of Congress, According to the Constitution and the Law.

"In the name of humanity, in the name of civilization, in behalf of endangered American interests, which give us the right and duty to speak and to act, the war in Cuba must stop."

"The issue is now with the Congress. It is a solemn responsibility. I have exhausted every effort to relieve the intolerable condition of affairs which is at our doors. Prepared to execute every obligation imposed upon me by the constitution and the law, I await your action."

The above paragraphs give the pith of President McKinley's deliverance to Congress. The message will be subject to the regular routine, and most likely several days will elapse before any decisive action is taken.

UNDUNTED BY THE DISAPPOINTMENT OF LAST WEDNESDAY, the multitude again besieged the Capitol this morning. The people were disappointed. Many had camped out on the marble terraces all night, but the thousands did not begin to arrive until about 9 o'clock.

The experience of last Wednesday, when thousands who held tickets to reserve galleries could not even get to the corridors, had resulted in better arrangements so far as the reserve galleries were concerned, and all holding tickets were accommodated. The multitude suffered, however. As on Wednesday last, many women fainted in the crush and were carried out, and others dropped out of lines at last from fatigue and exhaustion. There was less evidence of excitement than on Wednesday last.

WASHINGTON, April 11.—The President's message asks Congress to authorize the President to take measures to secure a termination of hostilities in Cuba, and to secure the establishment of a stable Government there, and to use the military and naval forces of the United States as may be necessary for those purposes. The President says the only hope of relief from a condition which can no longer be endured is the enforced pacification of the island. The issue is now with Congress and he awaits its action, standing prepared to carry out every obligation imposed on him by the constitution.

Spain's decree for a suspension of hostilities is submitted to Congress for just and careful attention, with the observation that if the message attains a successful result, "then our aspirations as a peace-loving people will be realized. If it fails it will be only another justification for our contemplated action." The Maine incident figures prominently in the message. The President argues that the wreck of the Maine in Havana harbor shows that Spain is not able to guarantee security to foreign vessels. Spain has disavowed any connection with that disaster, and has offered to submit to arbitration all the differences which may arise from that affair.

THE MESSAGE IN FULL

Circumstances leading up to the present situation reviewed in detail by Mr. McKinley.

The following is the message in full: To the Congress of the United States: Obedient to the precept of the constitution which commands the President to give from time to time to Congress information of the state of the Union, and to recommend to their consideration such measures as he shall judge necessary and expedient, it becomes my duty now to address your body with regard to the grave crisis that has arisen in the relations of the United States to the island of Cuba. I do so because of the intimate state of our own Union, and the grave nature of the Cuban question with which the course which it is now inclined upon the nation to adopt must needs be in accordance with the policy of our Government. It is in accordance with the precepts laid down by the founders of the Republic, and religiously observed by succeeding Administrations to the present day.

A Secessor to former revolutions. The present revolution is but the successor of other similar insurrections which have occurred in Cuba against the dominion of Spain, extending over a period of nearly half a century, each of which during its progress has subjected the island to States to great effort and expense in enforcing its neutrality laws, caused enormous damage to our commerce, and disturbance among our citizens, and by the exercise of cruel, barbarous and unfeeling practices of warfare shocked the sensibilities and offended the humane sympathies of our people.

RAVAGED BY FIRE AND SWORD. Since the present revolution began in February, 1895, this country has seen the fierce domain at our threshold ravaged by fire and sword, in the course of a struggle unequalled in the history of the island, and rarely paralleled as to the number of the combatants and the bitterness of the contest by any revolution of modern times, where a dependent people, striving to be free, have been opposed by the power of the sovereign State. Our people have beheld a once prosperous community reduced to comparative want, its lucrative commerce virtually paralyzed, its fields laid waste, its mills in ruins, and its people perishing by tens of thousands from hunger and destitution. We have found ourselves constrained, in the observance of that strict neutrality which our laws command, to police our own waters and watch our own shores in the prevention of any unlawful act in aid of the Cuban. Our trade has suffered, the capital invested by our citizens in Cuba has been largely lost, and the temper and forbearance of our people have been so severely tried as to begot a perilous unrest among our citizens, which has inevitably found expression from time to time in the National Legislature, so that issues wholly external to our own body politic engaged

A GREAT SHOCK TO THE OLD MAN.

ATLAS (preparing to drop the Earth): By ginger, I've been going 'round all the time with a blooming bomb-shell on my shoulders!

TROLLEY PATENTS PUBLIC.

New York Court of Appeals Decides That the Walker Manufacturing Company Can Work Aways.

CLEVELAND, Ohio, April 11.—The Walker Manufacturing Company of this city has received notice of a decision from the New York Court of Appeals, which it is claimed, makes the Electric Street Railway trolley patents public property. Under patents granted to Vandopool, the General Electric Company has for years held the exclusive right of manufacturing trolleys. Some time ago, the Walker Company began the manufacture and sale of an electric trolley on an extensive scale, resulting in a series of suits against that company by the General Electric Company, a his last statement of the assets of the General Electric Company, President Coffin included an item of one million dollars in the value of the Vandopool trolley patents.

THE EMPIRE TYPEWRITER IS THE BEST MANUFACTURED AND MOST DURABLE MACHINE ON THE MARKET.

Its low price, 855, arises from the fact that it is constructed by the best workmen with the best plant for considerably less than any other. All the wearing parts are hardened.

Go to the Dogs.

Flowering Plants Greatly Reduced. Dunlop's Easter stock of flowering plants is being sold off this week at greatly reduced prices.

Diapers all successful at the stomach, and makes you feel first-class Adams Tuffi Fructi. Beware of fraudulent imitations.

The Hat Question at Dincons. The hat question which will suggest itself in one way or another to every man about this time of the year, is settled more easily, satisfactorily and agreeably, at Dincons than anywhere else in Toronto.

Pepper's Turkish Baths 127-9 Yonge St. Ladies, Gents, day 75c and evening 50c.

Mac Trees in Full Bloom. Such a sight is refreshing. You can see them at Dunlop's salerooms surrounded by roses, lilies of the valley, Easter lilies, tulips and mignonette.

Telephone 3821, E. Barber & Co., 31 Front Street W., for up-to-date printing, quick and neat. Popular prices.

Leakeview Hotel. Parties looking for winter accommodations should not overlook the Leakeview, corner Winchester and Parliament streets, under terms to weekly boarders. -lined for the support of the city. The reconstruction, adopted as a war

RECIPROCIITY MATTERS TO BE TALKED OVER.

The Deliberations are to Take Place at the Canadian Capital.

OTTAWA, April 11.—(Special.)—The Prime Minister was at his office to-day and attended a meeting of the Cabinet this afternoon. The question of reciprocity negotiations with the United States Government has been under discussion at several meetings recently, and in a few days Parliament will be informed as to the progress which has been made.

OTTAWA, April 11.—(Special.)—The Prime Minister was at his office to-day and attended a meeting of the Cabinet this afternoon. Armistice Proclamation is Sent Out by Captain-General Blanco of Cuba.

SPAIN YIELDED TO THE WISH OF THE POPE

The Decree Has Been Sent Out to All the Commanders of the Army Corps and Will Be Given Effect on the Day Following Its Receipt—Gen. Blanco Has Cabled to Madrid to Find Out With Whom He Shall Carry on Negotiations—A Good Deal of Excitement in Madrid—Troops Leaving Cadiz for an Un-announced Destination.

Washington, April 11.—The State Department to-day received General Blanco's proclamation ordering a cessation of hostilities in Cuba. It was called to the Spanish Minister here, and by him delivered to the department. The proclamation is as follows: "His Majesty's Government, yielding to the reiterated wish expressed by his Holiness the Pope, has been pleased to decree a suspension of hostilities with the object of preparing and facilitating the restoration of peace on the Island, in virtue whereof I believe it convenient to order:

"From the day following the receipt in each locality of the present proclamation hostilities are ordered to be suspended in all the territory of the Island of Cuba."

"The details for the execution of the above article will be the object of special instructions that will be communicated to the several commanders-in-chief of the army corps for easy and prompt execution, according to the situation and circumstances of the case. (Signed) Blanco."

New York, April 11.—The World publishes the following from Havana: General Blanco has received from Madrid instructions to give out the edict, granting an armistice. He has asked with whom he shall carry on negotiations. When a reply is received from Sagasta he will publish the edict. Public opinion is undecided while waiting for explanations. Nevertheless, patriotism is on the increase. Volunteers while drilling this morning shouted through the streets, "Viva Espana!" "Viva Cuba Espanola!"

Heavy carts are loaded with cannon and ammunition. War preparations go on in spite of the nervousness of peace. Nevertheless, Havana promises to keep quiet to the end. Diario Marina and El Pais, in prominent editorials, attack General Lee and Captain Sigbee for their behavior in Cuba.

London, April 11.—The Madrid correspondent of the Daily Mail says: According to the Ambassador, the powers will be ready to give Spain a certain amount of support, should America maintain its attitude of hostility. The Spanish Ministers declare themselves very hopeful of a speedy pacification of Cuba.

Philadelphia, April 11.—The British steamship Hampshire has been chartered to carry 250 tons of coal to the Cape Verde Islands, the present rendezvous of the Spanish torpedo boats. This circumstance is unusual, as heretofore all coal shipments to those islands have been supplied from Cadiz. Other shipments are to rapidly follow. The Hampshire's cargo in order that the naval station at the Cape Verde Islands may be supplied with coal, necessitates the commencement of possible hostilities, when such shipments would be stopped.

Portland, Eng., April 11.—The new United States steamer Toledo, formerly Disgenesi and the torpedo boat Somers, which are en route for the United States, were in here last night. Such a heavy sea was encountered that the Somers was nearly buried, and it was deemed safer to return. About thirty of the Toledo's crew refused to sail in her, necessitating the shipping of others to fill their places.

London, April 11.—A despatch to the Daily Telegraph from Gibraltar says that the Spanish cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (9.45 a.m.)—The most important arrest politically made in connection with the demonstration today, regarding the reports in circulation as to his resignation, was that of Baron Sangarren, a deputy and former Minister. It is reported that the Honorable, Republicans and Carlists were at the bottom of the manifestation, the Carlists taking the principal part.

Madrid, April 11 (12.45 p.m.)—General Woodford, who questioned today, regarding the reports in circulation as to his resignation, was that of Baron Sangarren, a deputy and former Minister. It is reported that the Honorable, Republicans and Carlists were at the bottom of the manifestation, the Carlists taking the principal part.

Madrid, April 11 (1.30 p.m.)—The result of the Senatorial elections is that 140 Ministerials have been elected out of 189 Senators voted for.

Madrid, April 11 (2.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (3.15 p.m.)—The naval commander of Port Mahon, capital of Minorca, one of the Balearic Islands, has issued notice that torpedoes have been laid to defend the port. No vessels will be allowed to enter before 6 o'clock in the morning. They must remain outside, awaiting instructions.

Madrid, April 11 (4.15 p.m.)—The result of the Senatorial elections is that 140 Ministerials have been elected out of 189 Senators voted for.

Madrid, April 11 (5.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (6.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (7.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (8.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (9.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (10.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

Madrid, April 11 (11.15 p.m.)—The Spanish armored cruisers Cristobal Colon and Infanta Maria Theresa have left Cadiz for a destination in the Atlantic, with six battalions, each a thousand strong. Additional troops, the despatch asserts, will leave Cadiz by the mail steamer during the next few days for Cuba.

NEW RESTS WITH CONGRESS

Responsibility Has Passed From the Shoulders of the President.

The Effect of the Message Was on the Whole Quietening—No Presidential Deliverance Was Ever Expected to With Close Attention—Spanish Minister Says Nothing at the Foreign Embassies—War Not in Sight.

Washington, April 11.—The future relations of the United States to Spain and to Cuba now rests with Congress, the representative body of the American people. What course the elected men composing it will pursue cannot be foretold to-night. The Foreign Committees of both houses have the subject in their control. After due deliberation will report to their respective branches what they consider should be the attitude of the United States on the grave question presented.

Where is Lee? was the cry from Tampa to this place and until he made his appearance the country was in a state of impatience. Whenever the General stepped upon him, the country was in a state of impatience. Before reaching Tampa, Fla., three telegrams were received on the train, telling him to get up so that the people could see him. Arriving there, he was met by a throng of admirers with a score of Confederate veterans with a wild cry of "Lee, Lee, Lee" referring to his name. He was met by a throng of admirers with a score of Confederate veterans with a wild cry of "Lee, Lee, Lee" referring to his name.

Spain's Course. Madrid, April 12.—The Liberal, in a spirited article this morning on the political situation, declares that the Spanish Government will decide Spain's course. If the Washington Government changes its conduct, without its threat follows the dictates of justice, peace-loving Spain will follow the lead of the United States. But if the Republic continues its course, Spain, without a second thought, will follow the lead of the United States.

Effect Was Quietening. The effect of the message was on the whole quietening. The members of the Cabinet were outspoken in their approval. Other Administration officials seemed to coincide with the views expressed by their chiefs. No message in recent years, not even that of President Cleveland on Venezuela or President Harrison on Chile, caused such widespread and intense interest. No message was ever listened to with more attention by both galleries and members at both ends of the Capitol. That it did not create profound enthusiasm may have been due to the fact that its main features had been accurately forecast in the Associated Press dispatches, or to a disappointment among those who expected a more definite and immediate reprisal upon Spain for the destruction of the Lusitania.

For a long time a majority in both houses favored a course of non-interference. The House, however, has been more outspoken in its approval. Other Administration officials seemed to coincide with the views expressed by their chiefs. No message in recent years, not even that of President Cleveland on Venezuela or President Harrison on Chile, caused such widespread and intense interest. No message was ever listened to with more attention by both galleries and members at both ends of the Capitol. That it did not create profound enthusiasm may have been due to the fact that its main features had been accurately forecast in the Associated Press dispatches, or to a disappointment among those who expected a more definite and immediate reprisal upon Spain for the destruction of the Lusitania.

Comments on the Message. A Good Many Democrats and Republicans Endorse the Message. The message, in the opinion of many, is a landmark in the history of the Republic. It is a declaration of the independence of the United States. It is a declaration of the independence of the United States. It is a declaration of the independence of the United States.

Senate Reached No Conclusion. The Senate Committee on Foreign Relations immediately after the message had reached a definite conclusion. From the fact that the committee has not yet reported, it is evident that the committee is still in conference. It is evident that the committee is still in conference. It is evident that the committee is still in conference.

Temper of the House. The temper of the House could not be accurately determined, but there is in the Senate, the proposition that the House will be met. Any report from the Committee on Foreign Affairs that does not carry with it a declaration of war, and that the House will be met. Any report from the Committee on Foreign Affairs that does not carry with it a declaration of war, and that the House will be met.

English Press Opinions. London Papers Take Divergent Views, but the Most Commend the President's Message. London, April 12.—The Daily News, commenting editorially upon the President's message, says that the message is a landmark in the history of the Republic. It is a declaration of the independence of the United States. It is a declaration of the independence of the United States.

At the other embassies and legations, the message aroused the greatest interest. It cannot be said that it was received with satisfaction. At one of the most important and most interesting foreign embassies, the general feeling was expressed by the statement that the President had, through his message, washed his hands of the subject, and imposed the responsibility upon the shoulders of Congress. In other diplomatic quarters, some question was expressed as to the wisdom of the message, but this was not a general expression of opinion.

Spanish Minister Silent. The Spanish Minister, Senor Polo, remained silent at the legation during the day, and did not receive any of the messages. The Spanish Minister, Senor Polo, remained silent at the legation during the day, and did not receive any of the messages. The Spanish Minister, Senor Polo, remained silent at the legation during the day, and did not receive any of the messages.

BANQUET TO LT.-GOV. JETTE

The French Board of Trade of Montreal Honored His Secretary, Mr. Adolphe Chateau.

Montreal, April 11.—A banquet was tendered to-night to Lieutenant-Governor Jette by the French Board of Trade of Montreal. The banquet was held at the Hotel de Ville. The banquet was held at the Hotel de Ville. The banquet was held at the Hotel de Ville.

CHEERED GEN. LEE. The Late General at Havana Was Met at Every Station on His Way to Washington by Admirable Crowds.

Washington, Ga., April 11.—Every station along the route of General Lee's special train lavished appreciative tributes upon him. The country is in a state of impatience. Before reaching Tampa, Fla., three telegrams were received on the train, telling him to get up so that the people could see him. Arriving there, he was met by a throng of admirers with a score of Confederate veterans with a wild cry of "Lee, Lee, Lee" referring to his name.

Spain's Course. Madrid, April 12.—The Liberal, in a spirited article this morning on the political situation, declares that the Spanish Government will decide Spain's course. If the Washington Government changes its conduct, without its threat follows the dictates of justice, peace-loving Spain will follow the lead of the United States. But if the Republic continues its course, Spain, without a second thought, will follow the lead of the United States.

Effect Was Quietening. The effect of the message was on the whole quietening. The members of the Cabinet were outspoken in their approval. Other Administration officials seemed to coincide with the views expressed by their chiefs. No message in recent years, not even that of President Cleveland on Venezuela or President Harrison on Chile, caused such widespread and intense interest. No message was ever listened to with more attention by both galleries and members at both ends of the Capitol. That it did not create profound enthusiasm may have been due to the fact that its main features had been accurately forecast in the Associated Press dispatches, or to a disappointment among those who expected a more definite and immediate reprisal upon Spain for the destruction of the Lusitania.

Comments on the Message. A Good Many Democrats and Republicans Endorse the Message. The message, in the opinion of many, is a landmark in the history of the Republic. It is a declaration of the independence of the United States. It is a declaration of the independence of the United States. It is a declaration of the independence of the United States.

Senate Reached No Conclusion. The Senate Committee on Foreign Relations immediately after the message had reached a definite conclusion. From the fact that the committee has not yet reported, it is evident that the committee is still in conference. It is evident that the committee is still in conference. It is evident that the committee is still in conference.

Temper of the House. The temper of the House could not be accurately determined, but there is in the Senate, the proposition that the House will be met. Any report from the Committee on Foreign Affairs that does not carry with it a declaration of war, and that the House will be met. Any report from the Committee on Foreign Affairs that does not carry with it a declaration of war, and that the House will be met.

English Press Opinions. London Papers Take Divergent Views, but the Most Commend the President's Message. London, April 12.—The Daily News, commenting editorially upon the President's message, says that the message is a landmark in the history of the Republic. It is a declaration of the independence of the United States. It is a declaration of the independence of the United States.

At the other embassies and legations, the message aroused the greatest interest. It cannot be said that it was received with satisfaction. MAKING MARVELOUS THAN THE DOZENTEN DAY.

A Greater Revolutionary Power Than Steam or Electricity.

Liquid Air the Greatest Discovery of a Remarkable Age—A Fitting Climax to the Extraordinary Discoveries of the Nineteenth Century—in the Progress of Peace or the Progress of War the Nations will be Free to Choose.

From The New York Journal. Liquid air has come forth as the greatest wonder of the century. Scientists say it is more marvelous than the discovery of electricity.

Mechanical engineers believe that it is a more revolutionary power than steam and electricity. It has opened up new scientific worlds unimagined at the achievement of a New York inventor, Charles T. Dripler. He is the first man to produce liquid air in quantities sufficient for practical use.

Scientists have long known that liquid air could be made. But up to twenty years ago it cost \$1000 to make one drop of it. Now it costs only 10 cents a gallon. It is now being used in a number of ways.

But what is liquid air, and to what uses can it be put? It is ordinary air liquefied by the application of pressure and reduced to a temperature of 320 degrees below zero.

It has an expansive power of 2000 pounds to the square inch. It has a latent force 100 times greater than steam. It is a more powerful power than steam, electricity, compressed air, or any known force.

As a motive power it is believed to be superior to steam, electricity, compressed air, or any known force. It is a more powerful power than steam, electricity, compressed air, or any known force.

CONSPIRACY IN CHINA.

The Lives of Some of the Highest People in the Empire Were in Danger.

London, April 12.—A despatch to the Daily News from Shanghai says: "The existence of a formidable conspiracy in the interior of China, with every man and every officer feeling like a fighting cock, has been discovered. The conspiracy is believed to be a plot to overthrow the present government and to establish a new one."

It could be manufactured by any war ship's engines with an air compressor and a pump. It is a more powerful power than steam, electricity, compressed air, or any known force.

As a motive power it is believed to be superior to steam, electricity, compressed air, or any known force. It is a more powerful power than steam, electricity, compressed air, or any known force.

SHOT WHILE DUCK HUNTING.
 A Sad Affair at Penbrooke Residing From
 Leaving a Feared Piece of
 in a Boat.

Prescott, Ont., April 11.—A shooting
 accident occurred here to-day. Four young
 boys named Horwood, White, West and
 Murphy, all from Toronto, went down to
 Penbrooke Island shooting ducks this morn-
 ing. One of the boys saw some ducks, but
 the range was too far to shoot, and he laid
 the gun down in the boat with the tide
 raised. Young West started to bail out
 the boat and gave a lurch and the gun
 went off, completely shattering young
 Harry Murphy's leg near the thigh. His
 leg was brought to shore by a general favor-
 ite of blood before medical aid could reach
 him. Young Murphy is a son of Mr. John
 Murphy, one of Her Majesty's customs
 officers. The affair has cast a gloom over
 the town, as the boy was a general favor-
 ite, and Mr. and Mrs. Murphy have the sym-
 pathy of a large circle of friends in
 their bereavement.

CAPTAIN BICKFORD MARRIED.
 A Popular Resident of Toronto Weds the
 Daughter of Colonel McGill
 of Kingston.

Kingston, Ont., April 11.—Society's ses-
 sion after Lent was opened this morning
 by a wedding in St. Mark's Church, Bar-
 riedfield, when Edward Hastings Bickford,
 Toronto, was united in marriage to Miss
 Florence Ethel, second daughter of Col.
 McGill of the Royal Military College. The
 ceremony was performed at 11 o'clock by
 Rev. C. L. Worrell, M. A.

The bride was arrayed in a handsome
 dress of silver grey tulle, with trimmings
 of white chiffon; wore a pretty grey hat
 and carried a shower bouquet of white
 roses. She was assisted by her sister, Miss
 Medora, who wore a strikingly pretty
 dress of grey, trimmed with pink, and
 carried a bouquet of pink roses. The
 groom was attended by his brother, Oscar.

After the ceremony the bride couple
 with the guests, went to the residence of
 Lieut.-Col. McGill, where the wedding
 breakfast was served. The bride's pres-
 ent were numerous beyond count, including
 a silver tray from the Gentlemen Club,
 a gold watch from the groom and several
 presents from friends and relatives. The
 popular young couple left on the 1.10 p.m.
 train for New York, and after travelling
 one week through the United States, will
 return for Gibraltar and Toronto, making
 an extensive trip on the Continent. The
 groom is captain of the Toronto Field Bat-
 tery and is very popular in Toronto circles,
 both military and social.

Englishman Drowned at Wallaceburg.
 Wallaceburg, April 11.—Wm. Childs
 about 21 years of age, was drowned by
 falling off the bridge at Wallaceburg. He
 was working on the Effort, and on their
 trip from Detroit to this place, before
 leaving the Effort coming into the creek.
 Childs was in the act of dipping a pail
 of water, when he fell into the water.
 Drowned was at Wallaceburg, Ontario.
 Only been out in this country a short
 time. He hailed from the vicinity of
 Dresden.

Cardinal Tacheeran Slowly Dying.
 Quebec, April 11.—Cardinal Tacheeran
 was confined this afternoon to his
 this morning, and is slowly dying, his
 passing away being soon expected.

AD DRY GOODS ONLY
 Tuesday, 12th April, 1898.

 Recently characterized prompt attention.
 Opposite the Postoffice, Toronto.

John Catto & Son
 KING-STREET
 Opposite the Postoffice, Toronto.

PUBLIC AMUSEMENTS.

At the Grand To-Night.
 Come and take tea with the charming
 little girls at the Grand this evening.
 They will sing, dance and generally make
 merry for all their guests who happen to
 come to the "Tea House of Ten Thousand
 Joys." The production is the same as the
 original one given here in October last,
 and the cast is almost identically the
 same, with a few exceptions. Miss Laura
 Hilliard, who scored a most triumphant
 success, recently with Boston's famous
 Opera Company, and who afterwards was
 the prima donna of the Casino
 Square Opera Company, places Dorothy
 Morton as O Mimosa, the chief Gelsia.
 Her rendition of this character has been
 highly commended, and it is said com-
 pletely hit in the part of Mollie Seaman,
 is Miss Linda Da Costa, a very beautiful
 singer, who, by her sweet soprano voice,
 and in her dancing she is the personifi-
 cation of the beautiful. Among
 other members may be mentioned the
 favorites, Mark Smith, and Charles
 Swain, also John Park, and Hanson,
 Kate Gilbert, Corneila Barbour, Louella
 and a host of charming young girls.

At the Toronto.
 The story of the "Two Little Vagrants"
 was told to large audiences at the Toronto
 Opera House yesterday afternoon and
 evening. The play is adapted from the
 French, and is in every sense a story of
 true life. The first act opens in a
 parlor of an inn near Paris and it has a touch
 of military life about it that commends it
 to the audience from the rise of the cur-
 tain. The scenes are all well staged, and
 are more or less of a seasonal order.
 Miss Mildred Holland as Fun Fan and Miss
 Edith Forrest as Claudine give good con-
 ceptions of character representations. Mr.
 Edw. B. Pitman as Le Leonard, the actor
 and his developed a strong and
 well defined character.

At the Princess Theatre.
 The approaching season of comic opera
 at the Princess Theatre is being looked
 forward to with much pleasure by the
 lovers of music and theatergoers generally.
 Next Monday night will usher in the Cum-
 merbund Opera Company, which is the
 strongest opera organization that have
 ever been put together for stock work
 will make its appearance before a Toronto
 audience.

**DeKoven and Smith's charming
 opera, "The Mandarin," which has been
 selected for the opening week, will un-
 doubtedly afford a most enjoyable treat.
 It is an exceedingly clever thing in the
 way of genuine amusement, and affords
 ample scope for Mr. Cumming's brilliant
 organization. The story, which abounds in
 the comic incident, contains a number
 of romance that makes it most entertain-
 ing. The scene being laid in China, the
 production of the Oriental charm that is
 ever popular, and in the hands of such a
 powerful cast together with Miss
 scenery, costumes, and DeKoven's melo-
 dious music, "The Mandarin" is bound to
 win its way into the good graces of To-
 ronto audiences once more. The sale of
 seats opened yesterday, and there was a
 steady demand throughout the day, giving
 some indication of a large business. The
 box office will be open every day this week
 from 10 a.m. until 5 p.m. Seats can be
 secured for any of the evening per-
 formances by telephoning to the box office
 Wednesday and Saturday.**

Children's Easter Concert.
 The "Festival of the Lilies," which was
 the title of a unique sort of Easter
 concert given by the children of the com-
 bined Methodist Sunday schools of the city,
 was a great attraction last night at
 Massey Hall. With the exception of the
 first three rows on the ground floor the
 hall was packed to overflowing. The pro-
 gram, and altogether the audience seemed
 well pleased with the entertainment.

**The platform was a beautiful sight,
 with its two little girls and boys, hand
 of the Royal Grenadiers, and its decora-
 tions of palms and tall Easter lilies.
 The singing of the children, under Mr. Cline's
 leadership, was really very fine; the attack
 was prompt and the effect of the combined
 children's voices was extremely pleasing.
 Their most successful numbers were the
 "Easter Hymn," "Crossing the Bar," and
 the descriptive chorus "The Lilies." The
 last two being particularly successful. An-
 other number which roused the enthusias-
 m of the audience was a patriotic song,
 "Men of the North," by Godfrey, which
 was sung with great spirit and accom-
 paniment of small violin Jacks.**

**A little South Mackay's school child
 was heard to advantage in a solo, "Foot-
 steps on the Stars," which she rendered
 with much expression, winning an encore.
 Assisting the children were quartets from
 the various schools, and a quartet of the
 Methodist Church choir, the Sherlock Male
 Quartet, and the band of the Royal
 Grenadiers, which under the leadership of
 Mr. John Waldron, played in its usual fine
 style. Miss Mabel Fastoso accompanied the solo-
 ists very ably.**

**The plan for subscribers opens
 at Massey Hall on Friday, and for general
 public on Saturday.**

The Grand Ballad Concert.
 For the first time, after a considerable
 absence, Mrs. Clara Barnes Hill, the cele-
 brated contralto, of Buffalo, will be
 heard before Toronto audience at
 Massey Hall. Her performance will be re-
 ceived to Mrs. H. M. Blight in Massey Hall on
 Friday evening, next. Another famous
 soloist from a distance is Mr. Harold Jar-
 vis of Detroit, while the most distinguish-
 ed local artists will take part, including
 Miss Beverley Robinson, Mrs. Le Grand
 Reed, Mrs. Ames Forbes, Miss Mercier,
 Signor Delasco, M. Paul Hahn, Mr. Owen
 Smyly, Mr. Greenville P. Kieker, the Ma-
 tridial Club, composed of eight well-known
 soloists, the select choir of fifty voices
 of the Jarvis-street Baptist Church, under
 Mr. A. S. Vogt's direction, and the
 splendid band of the 48th Highlanders,
 under Mr. John Slattery's leadership, will
 add to the list of the performers. The
 total number of artists and musicians
 will amount to 120. The plan for subscribers
 opens at Massey Hall on Friday, and for
 general public on Saturday.

At the Bijou.
 The continuous vaudeville attractions at
 the Bijou this week are about the strongest
 of the season, and standing now was the
 order at all performances yesterday. The
 program includes the Lambert family, three
 of the cleverest acrobats seen in Toronto
 for some time. They introduce some new
 and novel features. Miss Fannie Granger,
 a pleasing little character comedienne, who
 sang in good style, was deservedly en-
 cored. Her performance, and Byrne do a clever
 black-faced musical scene. Other popular
 features of the bill are the Altona
 Hill and Edmunds, in their sketch, entitled
 "A Warm Reception," Miss Clara Cameron,
 who commenced her farewell week's en-
 gagement, and Miss Will run west, and
 well worth seeing by lovers of high-class
 vaudeville.

Seats for the Orchestra.
 The sale of seats for the fourth concert in
 the course of Massey Hall concerts opens
 this morning at the box office at 10 o'clock.
 The grand orchestra, and Mme. Bire-
 King, the solo pianist, will render a mag-
 nificent program.

**Mr. Alexander Smith, Liberal organizer,
 is in the General Hospital, suffering from
 pneumonia.**

SIMPSON'S
A SHOE STORE
 Canada's Modern
 Departmental Store

It is very evident we're winning the attention of shoe buyers. Stock has to be renewed so often and salespeople have so much to do, we can't help being enthusiastic. When did you ever know good shoes to sell for so little money—and where? The department is so accessible, the styles very acceptable and prices easily paid. Trade traditions are being smashed right and left by the business we're doing in:

—SHOES FOR MEN!
 —SHOES FOR WOMEN!
 —SHOES FOR CHILDREN!

What is it you don't understand about our Shoes? We repeat that the best makers are represented, that prices are where we want them to be—lower than anybody else's—and that styles are the very latest. It's an ideal collection of fine Footwear, and no one is disappointed who spends money here.

We ask shoppers to compare our shoes and prices with any along the street. We can't compel you to come in. We may tempt you with everyday inducements that represent a saving of at least a dollar on every pair of shoes you buy. Here are prices to prove it:

Women's Dongola Kid Oxford Tie Shoes, patent leather tip, latest fashion, 1.25
 Women's Vici Kid Oxford Tie Shoes, patent tip, coin or opera toes, 1.50
 Women's Chrome Kid Oxford Tie Shoes, patent tip, American, latest style, savy and coin toes, 2.50
 Women's Dark Tan Oxford Tie Shoes, with tan patent leather tip and facting, special, 2.00
 Women's Chocolate Color Kid Oxford Tie Shoes, self tip, savy and coin toes, 2.50
 Women's Vici Kid Bicolors Boots, self tip, rise-quarter cut, 2.75
 Women's Vici Kid Lace Boots, turn soles, with fawn cloth top, 2.00
 Women's Fine American Chrome Kid Button Boots, patent tip, coin, opera and London toes, special \$3 and \$3.50
 Misses' Black or Chocolate Color Kid Oxford Tie Shoes, turn soles, 1.50
 Girls' Fine Dongola Kid 2 Button Oxford Shoes, self tip, savy and coin toes, special, 1.25

BARGAINS IN FLANNELS
 30 in. Heavy Twill Shaker Flannel, in light and dark grey shades, reg. 10c, special 8 1/2c.

 and 50c

Mid-Week Sale of Men's and Boys' Clothing
 It is not enough that the goods we sell shall please you at the time of purchase. They must continue to please you so long as they last, else we shall not be satisfied. This rule applies to every article of clothing we sell, the following mid-week bargains being no exception:

Hats, fit and finish equal to tailor made, sizes 33 to 44, special, 11.00
 Men's Spring overcoats, short box-back style, in English covert cloth, fawn color, made with strap seams and silk trimmed, the very newest, 10.00
 Boys' 2-piece Suits, in plain grey and brown, mixed checks, all-wool tweed, with knickerbocker pants, a 4.00
 Boys' 2-piece Suits, in pure, all-wool Scotch tweed, new spring designs and shades, made in Norfolk jacket style, with knickerbocker pants, a 4.00
 Boys' Dark Blue and Brown House Suits, four rows of braid around the collar, braid and anchor in front, fitted with lanyard and waist, reg. \$2. 1.75
 Children's House Suits, with pleated skirt in dark blue and green, neatly trimmed with braid, spe- 1.50
 Ladies' Black Capes, with contrasting trimmings, with jets, roll collar, special, 6.00
 Ladies' Brown or Black Serge Costumes, full sweep skirt, blazer style jacket, special, 4.50

Cloak Department
 Ladies' or Misses' Cloth Capes, in black, fawn, tan, green, trimmed, special 6c, \$1.25 and 1.50
 Ladies' Fawn Jackets, tailor-made, strap-trimmed, velvet collar, silk lined, fly-front, special, 1.50
 Ladies' Black Capes, with contrasting trimmings, with jets, roll collar, special, 6.00
 Ladies' Brown or Black Serge Costumes, full sweep skirt, blazer style jacket, special, 4.50

Out-of-town shoppers who have not yet received our new spring and summer catalogue are invited to send a postal card addressed exactly as below:

The Robert Simpson Co., Limited
 DEPARTMENT D, TORONTO.

THEY HAVE BOUGHT THE FALLS.
 A Company to be Organized to Transmit Power From Fenelon Falls to Lindsay.

There is in active process of formation in this city a company to be known as the Fenelon Falls-Lindsay Electric Power Transmission Company, formed for the purpose of converting the magnificent water power of the falls into electrical power and transmitting it to Lindsay. The active promoters of the enterprise, which is already assuming the form of a solidly, are Messrs. J. Alex. Culverwell, electrical broker, and George Whyte Fraser, electrical engineer, both well known in Toronto, and through this project has been mooted several times it has remained for these gentlemen to reduce it to a practical, feasible scheme. These two, representing a syndicate composed of some of Toronto's best known financiers, have acquired an absolute right to this great water power and also of the further bank and it is their intention to form a company with a capital of \$200,000 to carry out the scheme. The venture is assured as the Council of Lindsay called a special meeting and endorsed the scheme and seem very favorably disposed towards a project to have the streets of the town lighted with power from this source. An outbreak also has been received from Toronto manufacturers to establish large works at Fenelon. These falls are 16 miles from Lindsay; their minimum power in time of low water is 2000 horse-power and the maximum 6000 horse-power, and it is proposed to transmit the power at the highest possible voltage and render it available for use in Lindsay by means of the highest class of electrical apparatus.

Clinton-Street Pavement.
 Editor World: A sample of City Hall business methods, and an example of the danger of the double vote on the Board of Control, in the hands of an all-things-to-all-people, opportunist like Mayor Shaw, is afforded in the manner of delaying the pavement on Clinton-street. The usual recommendation for paving this street with vitrified bricks was passed, and residents of the street notified that if they objected they must petition against it on or before March 12. No objection was raised until long after the time had expired, and special were advertised for a couple of residents went before the Board of Control on April 1 and introduced that vitriolizing body to order a thirty day extension of time to petition against the pavement. It must be said, to the credit of Ald. Leslie and Hubbard, that they strongly objected to this illegal act. The Mayor, however, by use of the double vote, and knowing it to be a direct violation of the city by-laws, and in this case has already paid very dearly for tampering with his own by-laws, and in this case has already probably, landed himself in a similar predicament, for himself and dozens of other residents of the street will refuse to pay a cent of taxes for a pavement not put through in a legal way. In addition to the risk the city runs in thus violating its own by-laws, the Mayor may possess the workman's friend, has deliberately and illegally gone out of his way to delay an important work, which would give employment to a large number of men in im-

W.A. MURRAY & CO.
 NOW FOR
Dress Goods
 A SPECIAL SALE
 For 3 DAYS ONLY
 IN THE BASEMENT.

WEDNESDAY, THURSDAY and FRIDAY
 we will have a Special Sale of Black and Colored Dress Goods in the Basement at one price—FIFTY CENTS PER YARD. This store is the outlet for manufacturers of Dress Goods who get overstocked. Mr. G. GANUCK AND YANKEE RIVALS
 Both Niagara Companies Are After the Toronto Power Supply.

THEY STOLE EGGS.
 But Were Considered Enough to Leave the Hotel Suspected for Easter Breakfast.

Lucan, April 11.—Between 2 and 3 o'clock Sunday morning burglars gained admittance to the Central Hotel here by cutting their way through the two front panels and slipping the bolts. Going through the bar, they secured ten dollars in small change, a half dozen bottles of whiskey and several boxes of cigars. In the dining room and kitchen they got a supply of bread, several rolls of butter and three dozen eggs, being sufficiently generous to leave two dozen for breakfast of the guests Easter morning. They also took an overcoat belonging to James Donnelly of Glencoe, a guest at the hotel. Suspicion points to local looting.

CHILCOOT PASS HORROR.
 Number of Dead Now Said to be 75. With a Prospect of Reaching a Hundred or More.

Seattle, Wash., April 11.—At least 75 lives were lost in the snowslide on the Chilcoot Pass. The number may possibly be as high as 100. Sixty-nine bodies have been recovered. The great majority of those killed were from Tacoma, Seattle and California.

Power Supplied to Buffalo.
 The company is now sending \$500 horse power to Buffalo with a low transmission of 12 1/2 per cent, and in distribution of the power, which will be done by the dynamo the plant will be capable of developing 50,000 horse-power.

Banking Wants an Agreement.
 The American manager desires that some agreement should be arrived at between his own and the Canadian company, whereby one would supply for the other in cases of accidental shut-downs. But this is not likely to find favor with the Canadians, who did not disguise their antipathy to the monopolistic charter given the Americans by the Ontario Government.

Major Hill as Pilot.
 After Mr. Rankine had entertained the party at luncheon in the Prospect House in the American town, the Toronto party were taken in hand by Major F. W. Hill of this town, Messrs. James A. Lowell, ex-M. P., R. F. Stephens, President of the Board of Trade; J. B. Stephens, and a number of the town councillors. The Welland River, under proposed power centre, was visited. The Canadians impressed upon the

The Passion Play Pictures.
 Association Hall was well filled with an appreciative audience last evening, which was delighted with the illustrated lecture on the "Passion Play," delivered by Dr. W. W. Freeman. Among those present were the following prominent citizens: Justice Falconbridge, Rev. G. W. Wallace, St. Moore, J. Gibson, L. W. Hill, R. S. Locke, H. P. Wilson, J. E. Warnick and Rev. Fathers McCrea, McCann, Dollard, Hicker and Robinson. Among the best of the many excellent pictures presented were: Moses in the Burnings; the Magi; the Last Supper; the Resurrection; the Crucifixion; and the Burial.

ATHABASCA MINE IS SOLD... English Company Bought it on a Seventy Cent Basis.

"Lockie" Burwash Writes of His Experiences in the Klondike Region—Despatch From Vancouver Saying That the Yukon Outfitting Trade is Falling Off—Theoretical Mining in Rossland.

It was stated on the street yesterday that the Athabasca gold mine had been sold at a good figure. The buyers are an English syndicate, and they are understood to have taken over the property from the former owners on a basis of 70 cents per dollar share in cash and stock in the new corporation.

It was stated on the street yesterday that the Athabasca gold mine had been sold at a good figure. The buyers are an English syndicate, and they are understood to have taken over the property from the former owners on a basis of 70 cents per dollar share in cash and stock in the new corporation.

"LOCKIE" BURWASH Writes Home of His Experiences Going to and at the Klondike.

Some months ago "Lockie" Burwash, son of Principal Burwash at Victoria University, joined the rush to the Klondike, and his friends in this city will be glad to hear of his doings in that country. In a letter to Prof. Williams, trainer at the Yacht gymnasium, Mr. Burwash gives an account of his trip into Dawson City. He says: "We landed Indians to take our things from Dyea, Saturday, April 16. If you have any fellows around the gym that you want to reduce in weight, send them across the mountains to Dyea. There is a few miles of gravel and sand to start with, next some swamp, then rocks, over which you have to go on your hands and knees, and a great deal of slope, covered with snow, into which you sink up to your waist, so that the summit, which consists of a rise of about 2000 feet in about three miles, is a very hard climb. After crossing the summit you have to go over many miles of barren rocks and sand, till you reach Lake Lindeman, the headwaters of the Yukon. Mr. Burwash gave a graphic account of his trip of 800 miles in a boat down the Yukon river, noting especially the dangers of the passage through the rapids, between precipitous cliffs, miles at a time, between precipitous cliffs. After describing Dawson, he continues: "The diggers are packed from the river, and it is about as bad a trail as you could find out to them. It was out there a month, and have one claim there, but I do not think very much of it, as it won't pay more than \$5 or \$10 a day, and the wages here are \$15."

Quitting Trade Falling Off... Vancouver, B.C., April 9.—There is a decided lull in the outfitting trade, and it is expected that there will not be much change until navigation opens. The flow of mail from the Yukon is slow, but it is feeling it more than others. The same news comes from Seattle, but from Vancouver it is said that the temporary let-up in the rush is universal.

Rossland Set-up of Mines... A School of Mines was the other day

Bad Blood Will Out.

Can't help but come to the surface in the form of Ulcers, Sores, Boils, Pimples, Eczema and Rash of one kind and another. Especially is this so in the SPRING. At this time of the year the Blood needs purifying and enriching, the System needs cleansing. Nothing will do it with such perfect success as

Burdock Blood Bitters

Jessie Johnston, Rockwood, Ont., writes: "I had boils very bad and a friend advised me to try Burdock Blood Bitters, so I got a bottle. The effect was wonderful—the boils began to disappear, and before the bottle was done I was totally cured. As an effectual and rapid cure for Impure Blood B.B.B. cannot be equalled."

SOUVENIR OF DIAMOND JUBILEE.

Colonel Mason Receives a Unique Remembrance—Latest Photograph of Her Majesty—Complimentary Letters.

The picture represents the Queen in the dress she wore on the 22nd of June, the day of the great Jubilee procession, and at the bottom is Her Majesty's official autograph, with the dates, "1837-1897." Indistinctly visible in the background, from Windsor Castle, accompanying the picture, "The letter is as follows: "Windsor Castle, Feb. 21, 1898. "Dear Sir—I am desired by the Queen to send you a portrait of Her Majesty, as a souvenir of the Diamond Jubilee. It is from a photograph of the Queen taken on the 22nd of June last. Yours very truly, F. G. Ponsbury."

"Colonel James Mason." The other letter, from Lord Aberdeen, reads as follows: "Government House, Ottawa, Feb. 21, 1898. "Dear Colonel Mason—I desire to inform you that I have received from the Queen a packet containing a portrait of Her Majesty, with instructions that it be forwarded to you. I have handed the packet, with one or two others, to the Adjutant-General, with the request that it may be transmitted."

"The Colonel's story, but this time in reference to the fact that the picture is probably the most modern reproduction of the Queen's portrait."

Lady Aberdeen and the Mission Committee—Co-Operation With the Victorian Order Recommended

A conference took place yesterday morning in St. Andrew's Church, Her Excellency Lady Aberdeen and the Presbyterian ministers and members of the Home Mission Committee, in reference to the project of sending out missionary nurses to the Yukon.

Lady Aberdeen pointed out the desirability of this project, and the fact that her ladyship asked that the nurses sent to the Yukon should be trained in friendly and sympathetic cooperation with the Victorian Order.

Rev. J. McLeod moved the following resolution, which was passed: "That the meeting recommends to the Home Mission Committee that the missionaries be trained to act in friendly and sympathetic cooperation with the Victorian Order."

FATAL RECKLESSNESS. How John Frame Met His Death at Westford Crossing on the C.P.R.

The inquest on the body of John Frame was held at the residence of William Lester, Agincourt. The principal witness was Mrs. Annetta Holden, who deposed that she saw Frame crossing the road at the crossing of the C.P.R. bridge, and pulling over the crossing. Frame whipped his horse and passed close to the last car.

Rev. Dr. Sutherland, General Missionary Secretary of the Methodist Church, will be in Toronto on Monday or Tuesday on a trip that will occupy him until the month of June. He will go first to Nashville, Tenn., where he is billed to deliver a course of six lectures before the students of Vanderbilt University, the general subject being "The Evangelical Revival of the Nineteenth Century."

Exhibition of the Copy Prints under the auspices of the Toronto Guild of Copy Printers, will be held at the Ontario Society of Artists. The admission will be free, and the exhibition will remain open until Tuesday, the 19th inst. The Copy Prints are for the most part, reproductions of the work of the late artist, J. A. M. Macdonald, who died in 1897.

City Missions, Their Uses and Abuse. This was the topic discussed by the Baptist ministers yesterday, Rev. J. W. Walker, who delivered the address. The abuses, he considered, were that they tended to kill the denominational spirit; they were too busy to become an independent church; they did not develop the virtue of Christian service. Some of the remedies proposed were greater care in plant missions and organization at the right time.

Only those who have had experience can tell the tortures of a cold. Pain with your nose on, pain with the eye-pain night and day; but relief is sure to those who use Holloway's Cure.

RENEWED STRIKE AT BERTRAM'S

Laborers Who Did Not Receive an Advance Quit Work, but Some Soon Returned. Mr. George Bertram, M.P., thinks \$1.25 a day, or 12 1/2c an hour, is good wages for his iron laborers. The laborers think differently. Therefore, about 100 of them went out on strike yesterday morning.

At the time of the recent strike, Mr. Bertram told the men that providing they returned peacefully to work he would pay them the arrears, and the men would get the result of his investigations next pay day.

Some of the men returned to work, but eight men had been advanced, two blacksmith's helpers, one remainder, two blacksmiths, and the iron men returned to work. Mr. Bertram to the World last evening, "When the men returned to work yesterday afternoon, leaving about 60 out at 6 p.m. yesterday."

There have been half a dozen special policemen patrolling the neighborhood, but no trouble has arisen. The foreman stated that the men performed their work as usual, so that the iron men seem to be a difference of opinion in the amount of wages to be paid.

CANADIAN SECURE VALUABLE MINING INTERESTS IN CRIPPLE CREEK, COLORADO.

The firm of Higgins & Hampton of this city, acting for the purchasers, closed a deal whereby one of the Big Cripple Creek properties will be secured by Canadian control of the stock having been secured by purchase and the iron men returned to work.

Cripple Creek

Produced in 1897 over Twelve Million Dollars in Gold.

We have secured an option on a very large block of stock in a company owning seventeen acres of patented ground in the heart of the gold producing district of the celebrated Cripple Creek Mining Camp.

Over \$25,000.00 has already been expended in development work and five good veins have been opened up and are being worked. A very large amount of this stock is held in Paris, France, and negotiations are now pending for a bond of \$250,000.00 on one of these claims (there are three in number). Over \$200,000.00 per month is being produced by mines adjoining these properties.

The Company has money in the Treasury and no debts. The first instalment of this stock will be offered in a few days at 10c. per share.

Write or call at once for particulars. One of the largest operators in Cripple Creek stocks and mines is now visiting our office and will be pleased to give personal interview and all information pertaining to the above stock and all other mining investments.
