Taken to Task for Talking About Government Policy

Cabinet Ministers Present Poor Figure When Called to Account by Vigorous Opposition.

Ottawa, April 1.—(World Special Correspondent.)—Two things were made prominent to-night in the House by a discussion concerning the loyalty of Hon. Mr. Prefontaine, Minister of Marine and Fisheries. First, when Sir Wilfrid Laurier is absent, the members of the government seem to go to pieces and grope in the dark. Second, the English constitutional usage of having the policy of the government announced to parliament is being departed from in a manner that threatens to weaken the glorious traditions of the constitution. Incidentally Mr. Prefontaine was tangled up, and the Postmaster-General made up to blush.

Mr. Monk asked if the report of the speech given in Montreal Monday night as it appeared in the Montreal Herald, a government organ, was an announcement of the policy of the government. In that speech Mr. Prefontaine had given the names of the Railway Commissioners, had stated that the terminal station at T. P. would be on Canadian soil, that that project would receive aid from the government and that the tariff would likely be reduced. If not this session, at least after the session, when a commission would be appointed to look into it.

Mr. Fielding is Pittman.

Mr. Fielding replied in a flippant manner that the fact that the name of the man who appeared in any other paper. He believed that when statements of public policy are made they should be made in the House.

Mr. Borden pressed the question if the remarks reported had been made by Mr. Prefontaine. Mr. Bennett interjected the pertinent remark that the statements accredited to Mr. Tarte, that he had denied had not appeared in the Montreal Herald.

Mr. Fielding tried to smile, but failed.

Flying Signals of Distress.

Then up rose the gallant Prefontaine, who, since the discussion had begun, had been in close connection with Hon. Jim Sutherland. Mr. Prefontaine's explanation, in short, was that he had announced the policy of the government, but had dealt merely in generalities. As to the names of the railway commissioners, he never said the government would give assistance to them.

Mr. Borden then took the Minister in hand, and a bright play of repartee resulted. Mr. Borden was asked to squirm out of the situation by replying in French and quoting from La Patrie.

TO EXCLUDE CIGARETTES COMMONS CAST A VOTE

Influence Women and Children Have in Framing Legislation Indicated by This Action.

Ottawa, April 1.—(Special.)—The power exerted by women and boys on the legislators of Canada was made evident to-day when the following resolution aiming at summary legislation was carried by a vote of 113 to 43.

That the object of good government is to promote the general welfare of the people by a careful encouragement and protection of whatever makes for the public good, and by an equally careful discouragement and suppression of whatever tends to public disadvantage.

That the smoking of cigars has been proved by overwhelming testimony to be productive of serious physical and mental injury to young people, impairing health, arresting development, weakening intellectual powers, thus constituting a serious and national evil.

The legislation licensing and restricting the sale of cigars is not proven sufficient to prevent these evils, which will continue until the public sale of cigars of the mischief is permitted to go on.

That this House is of the opinion, for the reasons herein set forth, that the most effective legislation governing the sale of cigars should be to be found in the enactment and enforcement of a law prohibiting the importation, manufacture and sale of cigars.

The carrying of the resolution cuts no ice, as it does not bind any party to see that it is crystallized into law.

The vote shows that the wishes of Canadian women have been pressed on the members of parliament in such a way that they are prepared to sink their reasonable beliefs in order to keep peace at the domestic hearth.

One member said he voted for the resolution not because he believed in prohibiting the sale of cigars, but because he had a sister who was an ardent anti-cigar advocate. Similar reasons could be given by nearly 100 others who supported the measure.

The sense of the House was focused on the resolution by Mr. Tarte, who placed for the stamping out of the cigar evil was in the home, and he deployed the duties and responsibilities of the home to the government.

Mr. Wilfrid paid a tribute to Mr. Brook's opinion by declaring it was what should govern in the case of all efforts aiming toward summary legislation.

Alarming Growth of Evil.

Mr. Bickelick (Montreal) in introducing the resolution commented on the alarming growth of the evil of cigar smoking among boys.

He wished to protect the youth of Canada. He read letters from physicians testifying to the injurious effects of smoking cigars. He cited the example of the United States in prohibiting the sale of cigars.

It had the effect of diminishing their consumption. A tendency of the day was the action of large firms in refusing to engage boys who used cigars. He blamed the editors.

ROUGH MEANS OF TRAVEL

Ottawa, Ont., April 1.—(Special.)—Mr. Puttee (Winnipeg) to-night in the House brought to the notice of the government the fact that the accommodation afforded the English immigrants now en route to the West was scandalous and inhuman. He had made a personal inspection of the cars that passed through Ottawa, had talked to passengers and had noted that common decency had not been meted out to those who were to be our countrymen and build up the country.

He considered the herding of immigrants in day cars without the absolute conveniences for travel was a serious reflection on Canada and the methods of the Department of the Interior. The aisles of the cars had been used to sleep on. In only one car of a whole train could water be got. There were no portable toilets, no beds, no separate lavatories, and altogether the condition of the cars was scandalous.

He called on the government to seek an immediate remedy for other immigrants were coming and the present state of affairs should not be allowed to continue.

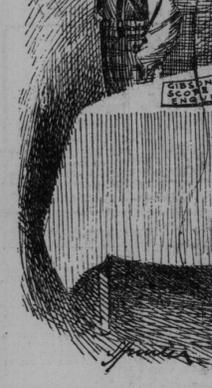

Sir William Mulock replied and tendered the thanks of the government for the information he had given. He would see that something was done at once to alleviate the situation.

Mr. Puttee said that he knew something of the cabinet wherein it was.

LINE-UP OF THE LOBBYISTS.

Ottawa, April 1.—(Special.)—Coincident with the introduction of the G.T.P. bill, the railway lobbyists of Canada have been lined up. Before the bill reaches the Railway Committee, every member of that body will have seen and his vote will have been sized up. At the present moment the men behind the G.T.P. scheme know what to expect from the report of the lobbyists. Of course, the details of the bill will be discussed in committee, but what of that since the issue is sure?

"VICIOUS SUBSIDY POLICY" AS GOLDWIN SMITH SEES IT

Goldwin Smith, in The Weekly Sun, under the title of "An Unparalleled Situation," arraigns the subsidy-giving government thus:

The situation at Ottawa to-day is one that could not be paralleled at any other point in the world. It is a situation of unparalleled magnitude and importance. It is a situation that is a disgrace to the name of Canada.

Fund Started to Assist Manitoulin Member in Meeting Expense of the Trial.

As "investigation fund" has been announced with which to make more certain a vigorous presentation of the evidence of bribery as charged by the member for Manitoulin. Those in charge of the prosecution point out that Mr. Gamey's expenses will be large in connection with the preparation of the case, even to the actual witness fees are paid by the government. At Mr. Gamey's request Mr. Emerson Coatsworth, Jr., 312 Temple Building, has consented to act as treasurer, and the fund will be disbursed on order by Mr. W. D. McPherson. The notice to the public of their intention to handle the case in this manner reads that:

From the expense already incurred in necessary preliminary work, it is evident that the probing of the charges to the very bottom will entail a large outlay. It is certain that no expense will be spared on the part of these employers of a good man all the witness fees and counsel fees be paid by the province, other large expenses must meet their own share of the cost of a complete investigation. This is a case where all ordinary means will not do. It is a privilege to come to the assistance of a man who has been wronged, and it is a duty to do so. HOW BRUNET WAS RELEASED

Papers in the Case of the Man Convicted in St. James Division Election Given Out.

Who Urged Clemency for Him?

Government Officials Explain Details Touching the Convict's Pardon.

Ottawa, April 1.—(Special.)—The papers connected with the release of Arthur Brunet, convicted of corrupt practices in connection with the St. James' Division election, were laid on the table of the House of Commons to-day. They show that no petition for clemency was presented to the government. There is a petition included in the return, but it is sent to the Court of King's Bench, asking that a lenient view be taken of Brunet's offence. This Chief Justice Lacombe took into consideration in pronouncing clemency for Brunet.

ALL TO BE READ IN THE PHYSIOGNOMY.
Interpretation of the Eyes, Ears, Mouth—Girls With Danger Signals in Their Faces.
The latest amusement which promises to eclipse palmistry and thought-reading is character reading by the features. The color of the eyes, for example, may be the key to the character. Here are some of the theories on which this kind of character reading is based:
A hazel-eyed woman never talks too much or too little. She is intellectual and agreeable; she prefers her husband's comfort to her own, and will cling to him thru weal or woe.
The grey eye is the sign of shrewdness. It indicates a better head than heart. Particularly so, the eye with the large pupil that contracts and dilates at a word, a thought, or a flash of feeling—an eye that laughs, that has its sunshine, its twilight, its moonbeams and its storms. A wonderful eye, this grey eye that wins you, whether you will or not, and that holds you after it has cast you off.
Black eyes are typical of fire, heroism and firmness. Don't arouse them. They are capable of taking vengeance, they seldom forget an injury and will bide their time.
Blue eyes are amiable, truthful and affectionate. They win by kindness. When the lower lid curves downward and shows the white below the pupil, then pause before you trust your workmate to the owner of that eye.
Eyebrows may be thick or thin, fine or coarse, arched or straight, regular or irregular. Each form and quality has its special significance in reference to temperament and character.
When eyebrows are black and irregular, harshness of character is denoted. Thin, fine and delicate eyebrows are indicative of a refined nature. If eyebrows meet, deceit is indicated.
"The face of the soul," the forehead has been called. Features alter, eyes, nose, mouth may change their aspect from a thousand causes. Accidents may mar them, pain distort them, old habits frequently give them some peculiarity of form or expression.
If the hands are like the clock dial, they move and change with wear or external influences. But the forehead is like the dial itself. It remains substantially the same through life.
The perfect forehead should be smooth, clear, white and spacious, and one-fourth the length of the head in height. The higher, broader and fuller it is, all other things equal, the greater the capacity and strength of mind. High foreheads, however, are not always indicative of brain power.
"Never marry a woman with a square, prominent chin," says a wise man, "for she will rule you."
And don't go off and get a wife with one of those little sharp pointed chins, for she will depend too much on you.
"If she has a stretching chin, it shows a yielding and easily discouraged nature. Unless his owner has other well developed faculties to counteract the influence of this chin, she is mentally and physically weak."
A pleasure-loving person has a small, well-rounded chin, with a red cushion of flesh upon it. If dimpled, it belongs to a coquette, or to one who loves to be petted and admired.
The ideal domestic chin is neither square, nor pointed, nor prominent, nor retreating, but broad and round. The round, broad chin is a type of self-reliance, and denotes a faithful love. Great arterial development of the chin is a sign of warm disposition; great depth an indication of wariness.
Upon the mouth are recorded the various conditions of the mind—sorrow, doubt, sorrow, jealousy and anger. All the human emotions perch upon the lips in passing and leave there the record of their brief tenancy.
Plain that and all who may read, Good traits and bad are registered alike on the mouth, and, as the years go by, this mobile feature unconsciously assumes an expression reflecting the emotions most common to it.
Lips that curve downward at the corners are usually the result of ill-natured thoughts. They are not to be trusted.
Thin lips show coldness of disposition. It is the girl with the full red lips who smiles pleasantly, to whom the lovable disposition belongs. She has a mind free from petty selfishness, and is not afraid to speak her mind. Her lips are rather square and sparkling like pearls, it is another indication that she is the most loving and lovable of girls.
Evenly growing teeth show a better disposition and better temper than those that crowd and overlap one another. Vertical teeth represent an even temper.
If the tongue is long, it is an indication of frankness; if short, of deceit; if narrow, of concentration. When the tongue is both long and broad, it denotes thoughtlessness. If long and narrow, its owner is only half frank, thinking as much as he is uttered, but not always uttering all that is thought. If short and narrow, great prudence is denoted.
The ear, too, is full of expression, and no less indicative of character than the lips, nose, chin and tongue.
When rounded at the top, like the small end of an egg, its fair possessor has a lovable and romantic disposition; the edge is flat, as if pressed down, she is more or less fickle and inclined to flirt.
An ear quite round shows defective reasoning qualities, a limited sense of justice, and jealousy.
An oval ear, with the lobe distinctly marked, is indicative of great idealism and sensitiveness. If the lobe is together unmarked and the ear widens at the top, it indicates a selfish and revengeful disposition.
An indication of the inner rim of the ear denotes irritability and quick temper, but a generous and impulsive nature.
Vanity, arrogance and conceit are to be looked for in large ears, drooping at the top and with an edge. Well-shaped, large ears with well-formed edges show strength of will and tenacity of purpose.
CAUSE AND CURE.
Indication Responsible for Many of the Present Day Ills—Dodd's Dyspepsia Tablets the Preventive and Cure. Postmaster Gives Evidence.
Do you know the meaning of the word "Dyspepsia"? If you don't you are not feeling in these days of "usa and worry" people have little time to live and less to eat. They eat but their food does not digest, and to do double the work nature intended for it.
The result? You can see it on all sides. Look at the nervous, the irritable, the listless, the vain for a man or woman whose teeth are not in the hands of the dentist. Look how the thin, nervous, over the counter spreading "Dyspepsia" and "Bile Beans" are sold. All these are directly or indirectly the result of indigestion. The fact that a man or woman who would enjoy even a mouthful of good food, but who experiences the "Dyspepsia" Tablets are the surest and best means of curing these ailments.
I have given Dodd's Dyspepsia Tablets a fair trial and can with confidence recommend them. I can say they have a fair trial and can with confidence recommend them. I can say they have a fair trial and can with confidence recommend them.

NEST HUNTING.
This is another novelty that will furnish much fun for an Easter Monday frolic. The nests can be made of paper, moss, excelsior, or any material to be very gay, of colored tinsel, such as trees are draped with at Christmas time. In these nests the candy eggs, different varieties, some of the genuine sort, naturally very hard boiled; others of china and many other materials. The nests are then hidden in every out of the way nook and corner of the house. The guests who are invited to the nest-hunting are requested to dress as they would on a farm, sun bonnets and calico gowns being particularly appropriate. The candy eggs, which are the feminine contingent, and overalls and big straw hats for the masculine. A half an hour is allowed for the hunt, after which time all assemble and show the contents of the baskets which were presented when they started out on the hunt. The one having the greatest number of real eggs is given a prize, China eggs and the wooden ones which can be made, revealing a small toy chicken inside, count each as two real eggs for the hunt. The candy eggs count for their possessors only as sweets. As the method of scoring is not announced until the hunt is over, wooden eggs will be passed over, the hunt against real eggs. The baskets are retained as souvenirs.
Gamey Investigation Fund.
The members of the government have decided upon having the investigation of the charges made in the legislature by Mr. R. R. Gamey, M.L.A., for a toulou, disposed of by the commission. The over-hauling feeling in the public mind is that nothing short of a full and searching investigation will be satisfactory. For the work of preparation to give evidence funds must be provided. Admittedly it would be a pity that Mr. Gamey should be discharged on his public duty, but the different from the expenses already incurred in necessary preliminary work, it is evident that the probing of the charges to the very bottom will entail large bills that no expert in the legislature will be spared on the part of those implicated.
Even should all the witness fees and counsel fees be provided for by the province, other large expenses must necessarily be incurred to ensure anything like a complete investigation.
This is a case where all lovers of freedom will feel it a privilege to come to the rescue. Mr. Gamey is a man of high character and high ability, and is encouraged by the entire province. The work of proper preparation should not be hampered for want of money.
Already numbers of earnest and independent thinkers are being organized, and Mr. Gamey has assented to this and has requested Mr. Emerson, M.P., to act as his secretary, which he has kindly consented to do. The names of subscribers and amount subscribed will be considered confidential.
In the case of each subscriber an acknowledgment of the amount subscribed will be made by the treasurer by official receipt.
The fund will be disbursed on the order of Mr. W. M. Ferguson, acting as collector, and one of the counsel for Mr. Gamey.
The following is a copy of the letter from Mr. Gamey to Mr. Coatsworth: "Emerson Coatsworth, Jr., Esq., barrister at law, 312 Temple Street, Toronto. Dear Mr. Coatsworth, I am very greatly obliged to you for so kindly consenting to act as my secretary in the investigation fund, and sincerely trust that the kindness of yourself and of those who may have contributed to it will be applied for the standpoint of public spirited citizens by the result of the inquiry. Yours sincerely, R. R. Gamey."
Address all contributions to "The Gamey Investigation Fund," c/o Mr. W. M. Ferguson, 312 Temple Building, Toronto.

ALONG THE WATER FRONT

Both the Macassa and Lakeside are loading at Toronto. Both these boats are carrying phenomenal cargoes of general freight. Passengers are patronizing the Hamilton line fairly numerous and the Lakeside people report a constantly increasing passenger list.

These Freight Trains Arrive.

Nineteen vehicles every description gathered at the foot of Yonge-street from ten to twenty minutes past three yesterday afternoon while C. P. R. engine No. 421 shunted a long train backwards and forwards. A number of pedestrians were there also, and some of them tried to dodge the train, but when they attempted to walk round the engine it pulled ahead and when they tried to negotiate the rear end the train backed up. In the whole ten minutes that the approach to the wharf was blocked the train was not still a minute. When at last the road was clear the general movement of the delayed trains had all the appearance of a Boer transport on the march.

Everyone Busy.

The work of refitting goes on apace. Every boat has a dozen men busy with the brush, the hose and the hammer. It will not be long before the vessels get out of their old skin of dirt and flatter away in their brilliant new garb across the glancing waters of the lakes. Everything is moving with steady strides towards a record year in lake traffic.

Government Lightships.

To the inexperienced eye, the ship-building yards are a perfect maze. There is a large amount of work on hand. Two lightships for the Dominion government are now under construction at the Point St. Charles. The ribs of one are now in place while the keel of the other has been laid. Both are of very heavy construction, as is necessary for the character of work they have to do. One will be anchored in the St. Lawrence, near Anticosti, while the other is to be stationed in the Bay of Fundy. The first will be finished by Aug. 15. The other will not be completed till the middle of September.

The company is also building a couple of seventy-foot steel frame yachts for William Mackenzie and E. R. Wood. They are to be equipped with triple expansion high-speed engines and water tube boilers, capable of carrying a steam pressure of 250 lbs.

The character of work undertaken has necessitated the installation of the newest types of machinery. The largest planing mill in the Dominion is now being erected in the Dominion traveling gantry with an electric crane has been erected over the ways on which are the lightships.

At the company's wharf the steamer Seguin of the Parry Sound Lumber Co. and the steamer Myias, owned by Mr. Williamson of Niagara Falls, are undergoing extensive repairs, and will soon be put into commission by their owners.

New Freight Boat.

The Ontario Steamship Company have ordered a third freight boat at Glasgow, to be delivered at Montreal on September 1st. It will be 252 feet in length, with 40 feet beam, a depth of 24 feet, and a capacity of 2200 tons. It will run between Montreal and Port William.

The insurance rates on vessels went into force at noon yesterday, and a number of boats laden with coal left Buffalo and other ports for the upper lakes.

"Danny Lamb" Re-Painted.

The Daniel Lamb will not recognize itself when it once again breathes the waters of Ashbridge's Bay. It is repainted in a brilliant coat of red paint, and will run a risk of being mistaken for an excursion vessel of the first water when it goes into commission next week.

May Be a Tie-Up.

A general tie-up of the lake fleets may be the result of the strike order issued by the officials of the Firemen, Oilers and Watermen, in session at Cleveland. They failed to come to an agreement with the Lake Carriers' Association over their demand for a 215 increase. Copies of the order have been sent to all ports on the great lakes where boats are being fitted out for the season.

The outlook for labor troubles is having a paralyzing influence on the vessel interests in general. Vessel owners are fearful after their boats get in serious shape.

Tillson's Oats, Pan-Dried, is therein scientifically proven a food, not a fad.

Tillson's Oats

Pan-Dried
A Food—not a Fad.

Packages only.
No hulls.
No black specks.

Analyzed

Government analysts do not deal in generalities—they must report things as they find them.

According to Bulletin No. 84, issued by the Department of Inland Revenue, at Ottawa, it has been proven that oatmeal contains more energy, more fat, more heat, more nourishment, less waste, greater digestibility than any other food.

The report proves a large difference between, for instance, Tillson's Pan-Dried Oats, ready-to-cook—served hot, and cold—served fads, supposed to be "predigested" and called by name in the report.

FOR A NEW ONTARIO FAIR.

Deputation Asks for a Grant of \$2000 a Year.

Premier Ross, Hon. J. M. Gibson, Hon. Frank Latchford and Hon. J. R. Stratton yesterday received a deputation of New Ontario farmers, who have been making their headquarters in Toronto for some time. There were in the deputation Dr. F. B. Jones, M.L.A., Mr. Wm. McKellar, Mr. Wm. Piper, Mr. Wm. Ross, Mr. Mayor Claver, Richard Vickers, president of the Ontario Farmers' Association, and H. A. Wiley, Port Arthur.

The following telegram was received yesterday afternoon by Senator Cox from Mr. Phillips, manager of the Dominion Coal Company, at Sydney, N. S.: "There is no change in the situation at any of our pits. The pits are being mined in the usual manner and will be covered with water in a few days."

THE ESQUIMO

The Esquimo eats blubber. The lumbermen eat pork. These people are constantly exposed to cold and physical strain. Experience has taught them that fatty foods give warmth and nourishment.

For those who have cold and thin bodies, or are threatened with consumption or any wasting disease, there is no fat in so digestible and palatable a form as Scott's Emulsion. Physicians prescribe it.

YORK COUNTY AND SUBURBS

Toronto Junction Treasury is About Empty and No Taxes Will Be Collected Until Fall.

PHONES FOR HUMBER POWER CO.

P.C. Travis Back From Service in South Africa—Successful Concert.

Toronto Junction, April 1.—A private telephone system is being installed by the Humber Power and Light Company, which will connect the power houses on the Humber with the office on Dundas-street and the superintendent's house on Quebec-avenue. Already two miles of wire have been put up, and when completed the line will be 6 1/2 miles in length. Whilst private companies are stringing miles of wire, the Town Council is doing nothing to help the citizens out. The town treasury is about empty. This is not because the town is in financial difficulties, but because the Council has been using available funds for purposes for which the sums were not levied. Last year not only was the money needed for school purposes, but it was expended for other purposes. The proposed taxes are not sufficient to meet the needs of the town. The general business of the town will be hampered, except a small proportion of the uncollected taxes, but the tax rate on the higher assessments will be higher. This stringency is liable to create a feeling that the town's finances are in bad shape. The circumstances do not warrant such a thought, but much depends upon the executive ability of the Mayor and Council to do financial matters that the best interests of the citizens may be served.

Chancellor Hall was crowded to the doors to-night by an interested audience, who listened attentively to an excellent program, furnished by local artists, under the auspices of Rose of Kent Lodge, Daughters of the Empire, who contributed a direct, noble and beautiful play, "The Tendency of Modern Education." The speaker dealt with the growth of public education during the past forty years; tendency toward combined school boards; development of the capacity for original thought and investigation; recognition of the value of play; value of culture and good citizenship. Rev. Dr. Shaw, a prominent educationist of Montreal, was present.

A Love Lesson.
(After James Whitcomb Riley.)
There, little girl, don't cry,
He has broken the dance, I know,
And the words he said,
When your cheeks flushed red,
Are the things of an hour ago,
But a better waltz may soon come by,
There, little girl, don't cry, don't cry,
There, little girl, don't cry,
He has broken a date, I know,
And the violet blue,
That he sent to you,
Have faded, long ago;
But merciful heavens, child, don't cry!
A man with an auto may come by,
There, little girl, don't cry,
He has broken his tooth, I know,
And the horrid thing,
Accepted his vine,
When you told him to "take it and go";
But the sea holds all for which you sigh,
And it's utterly useless to sit and cry,
With any good fish swimming by.

THIRTEEN CLUB DINNER.
The Thirteen Club held an informal supper at Harry Webb's last night to hear Mr. James L. Hughes speak of "The Tendency of Modern Education." The speaker dealt with the growth of public education during the past forty years; tendency toward combined school boards; development of the capacity for original thought and investigation; recognition of the value of play; value of culture and good citizenship. Rev. Dr. Shaw, a prominent educationist of Montreal, was present.
