AVIATOR CURTISS FLIES VERY FAST

Breaks Speed Record for the
 Rheims Course—French-
 man Ascends the
 Highest.

RHEIMS, Aug. 23.—Glenn H. Curtiss,
 the American aviator, and M. Paul-
 ham, representing France, divided
 honors of the second day of aviation
 week, the former with a thrilling flight
 just before dusk, in which he lowered
 the speed record for the course, which
 measures 61.5 miles, to 18 minutes 37.5
 seconds, the latter making two impres-
 sive high altitude flights of 491.2 and
 56 kilometers respectively, in the en-
 durance test for the Prix de la Cham-
 pagne.

Curtiss' performance began just be-
 fore the time limit for the start of the
 Prix de la Champagne was expiring.
 Amid unbounded jubilation of the
 French spectators, Curtiss made a
 few minutes before had clipped 16 seconds
 off Lefebvre's record made yesterday
 with his powerful 80 horse power mono-
 plane.

With a preliminary run along the
 ground of 100 yards, the Curtiss ma-
 chine rose lightly and shot by the tri-
 bunes at a height of 60 feet. It was
 going at a terrific pace. Curtiss made
 the last turn under the mistaken im-
 pression that the finish line was closer.
 He descended so close to earth that
 many thought he touched, but, per-
 ceiving his error, he mounted quickly
 and easily, crossing the line majesti-
 cally. An instant later the signal was
 hoisted that he had made a record.

Curtiss said that he had not pushed
 his machine to the limit of its speed.
 It is the intention of the American
 aviator now to await patiently the in-
 ternational event for the Gordon Ben-
 nett cup on Saturday, for which he is
 again the favorite, after which he will
 try for the Prix de la Vitesse, the final
 of which will be contested on Sunday.

Paulham alone made a record in the
 endurance test to-day, but Lefebvre,
 Sommer, Sanchez-Pera, Bleriot, Dela-
 grange, Lambert, Cockburn, Bunau-
 Varilla, Gligron, Latham, Paulhan,
 and Farnan qualified with flights vary-
 ing from 200 metres to 25 kilometres,
 the majority contenting themselves
 with covering sufficient distance to get
 within the limit. During Paulham's
 long flight chance races took place be-
 tween him and Bleriot and Lefebvre,
 the two latter outspeeding the high
 flying Paulham. Bleriot appeared in
 flight on Saturday, but Paulham's
 machine was completing his fourth
 round and with his 80 horse power
 monoplane swiftly overhauled and pas-
 sed under the biplane, leaving it far
 behind.

Two monoplane having been put
 out of commission by a slight accident
 in landing, Latham succeeded in mak-
 ing his best flight with an untried ma-
 chine with an aluminum propeller.

Until Saturday when the interna-
 tional event will be decided, the flying is
 likely to be less interesting than dur-
 ing the first two days, but popular as
 well as scientific and expert enthusi-
 asts over aviation week shows no sign
 of abatement.

The polling of the course by French
 soldiers and mounted dragoons is the
 subject of general satisfaction. Squad-
 rons of dragoons inside the field are
 often compelled to escape on the gal-
 lop from some low flying machines.

Among the hundreds of Americans
 here are Mr. and Mrs. George Gould,
 Mr. W. K. Vanderbilt, Jr., and Mrs.
 Nat. Goodwin, William Crane.

A prize of \$10,000.
 The Grand Prix de la Champagne
 carries prizes amounting to \$20,000, the
 first prize being \$10,000. The money
 will be given to the six aeroplanes tri-
 umphing the greatest distance without
 touching the ground or replenishing
 their supplies of fuel and oil. Strict
 watch is to be kept that no aviator
 touches the ground or comes within a
 certain specified distance thereof. This
 event consequently is a test of endurance.

STATUE OF J. S. MACDONALD
 Will Be Erected in Queen's Park by
 Ontario Government.

Ontario is shortly to erect a monu-
 ment to the memory of the late Hon.
 John Sandfield Macdonald, who was
 premier of the province from July 16,
 1867, to Dec. 19, 1871. Walter S. All-
 ward, who was commissioned to design
 the monument, spent some time with
 Sir James Whitney yesterday looking
 over possible sites in front of the par-
 liament buildings.

The statue is now being cast by the
 Gorham Bronze Co., New York. It will
 be nine feet high and will stand on a
 pedestal of Stony Creek granite, 23
 feet long and 8 feet high. It is ex-
 pected that the monument will be ready
 by Oct. 15.

 importance of western Canada, the
 governor-general should spend a por-
 tion of each year in the western metro-
 polis.

The vice-regal party will occupy the
 houses of Hon. Colin Campbell and
 Hon. Robert Rogers, loaned for the oc-
 casion, and situated near each other.

FIGHT HUGE POISON EEL IN DARKENED AQUARIUM

Thrilling Combat Between 3 Atten-
 dants on Belle Isle and a New
 Wonder From Bermuda.

DETROIT, Mich., Aug. 23.—(Special.)—
 In the unlighted interior of a
 big tank, three of the attendants at the
 Belle Isle aquarium were obliged
 to battle for their lives with a huge
 Moray eel last night.

The great fish had just been brought
 from the coral reefs of Bermuda, and
 was furious when the men attempted
 to handle it. He was instantly killed and
 five other occupants of a touring car were
 seriously injured to-day when the ma-
 chine was run over by a big four
 locomotive and caboose in Kankakee.

The party was on the way to Mound
 Grove Cemetery at the time of the
 accident. A string of cars on a side
 track obstructed the view of the cham-
 ber and of the engineer. The injured
 are George Granger, husband of the
 woman killed; Miss Amelia Fortin,
 sister of Mrs. Granger; Miss Jeanette
 Granger, daughter; Paul Granger, son,
 and Ira Dole, chauffeur. All were se-
 verely hurt except the chauffeur.

Miss Jeanette Granger was found be-
 tween the bodies of her mother and
 Miss Rabig. She was rescued 30 min-
 utes after the accident by jacking up
 the caboose.

WILLARD TO TRY A LAKE FLIGHT

Daring Aeronaut Will Be Here
 Next Week With Bi-plane
 To Excel Bleriot's
 Great Feat.

Starting from Toronto, C. Foster
 Willard of New York will attempt
 next week to fly across Lake Ontario
 to Niagara Falls on a bi-plane airship.
 The machine is owned by Edward T.
 Tandy of New York, a member of the
 Aeronautic Society of America, and has
 a record of 25 successful flights, which
 includes the longest cross-country
 flights. The cross-country record was
 made at Mineola, L.I., on Friday the
 13th, when Willard flew 12 miles, sail-
 ing over the outskirts of four towns in
 his passage.

"We are bringing our machine to
 Toronto with the intention of exceed-
 ing Bleriot's feat by flying across Lake
 Ontario," said Mr. Tandy at the
 Walker House last night. "I have en-
 tered into an agreement with the man-
 agement of Scarborough Beach Park to
 bring my machine to Toronto and at-
 tempt the lake flight from here. The
 machine with Willard, who operates it,
 will arrive on Thursday, and some pre-
 liminary flights will be made a few
 days later or as soon as the machine
 can be set up."

Mr. Tandy considers that if Willard
 is successful in his attempt, his feat
 will greatly exceed that of Bleriot, who
 flew across the English Channel three
 weeks ago. The distance from Toron-
 to to Niagara is 15 miles further
 than across the English Channel and
 there are more strong air currents to
 be encountered. Willard will make a
 number of excursions out over the lake
 to familiarize himself with the cur-
 rents and decide how high he should
 sail in order to avoid the worst of them
 before attempting the main flight. A
 special raft will be constructed and a
 speedy tug engaged to follow up the
 bi-plane as a protective measure in
 case of accident.

Mr. Tandy's machine is the smallest
 bi-plane in the world, being but 29
 feet 11 inches across. It was designed
 and constructed by Glenn H. Curtiss of
 Hammondsport, N.Y., who is making
 flights in Rheims, France, this week
 with a bi-plane of similar design. Will-
 ard recently flew 33 miles in 42 minutes
 and has flown at the rate of 46.1 miles
 an hour. In his 25 flights Willard has
 never had an accident.

The machine weighs 400 pounds out-
 side of gasoline and driver and is
 equipped with a 25 horsepower, 1000
 revolutions per minute, engine. It cost
 \$7500 to construct.

ADDITION TO THE FLEET

Dominion Govt. Has Ordered Fine Hy-
 drographic Survey Vessel.

MONTREAL, Aug. 23.—(Special.)—
 The department of marine and fisher-
 ies has awarded a contract to Clarence
 De Sola for a hydrographic survey ves-
 sel. She will be built by the Ship
 Hunter firm of the Tyne, the celebrat-
 ed builders of the Mauretania and
 other sea leviathans.

The vessel will be twin-screw, of a
 length of 273 feet, and it is to be spe-
 cially devoted, it is understood, to coast
 survey work. Both vessel and equip-
 ment will represent the best work of
 their class and will prove an important
 addition to the Dominion government
 survey department.

The vessel will be of steel throat,
 and will be equipped with engines cap-
 able of developing great speed.

TRAIN RUNS DOWN AUTO

Two Women Are Killed—Were on
 Way to Cemetery.

KANKAKEE, Ill., Aug. 23.—Mrs.
 George Granger, wife of a retired
 Kankakee merchant, and Miss Genev-
 eve Rabig, an education teacher, of
 Chicago, were instantly killed and five
 other occupants of a touring car were
 seriously injured to-day when the ma-
 chine was run over by a big four
 locomotive and caboose in Kankakee.

The party was on the way to Mound
 Grove Cemetery at the time of the
 accident. A string of cars on a side
 track obstructed the view of the cham-
 ber and of the engineer. The injured
 are George Granger, husband of the
 woman killed; Miss Amelia Fortin,
 sister of Mrs. Granger; Miss Jeanette
 Granger, daughter; Paul Granger, son,
 and Ira Dole, chauffeur. All were se-
 verely hurt except the chauffeur.

Miss Jeanette Granger was found be-
 tween the bodies of her mother and
 Miss Rabig. She was rescued 30 min-
 utes after the accident by jacking up
 the caboose.

HARRIMAN HAS FRENZY FOR WORK

And It Has Broken Him Down
 In Health at Time When
 He Should Be
 Strongest.

NEW YORK, Aug. 23.—As the Kais-
 er Wilhelm II. draws hourly nearer to
 her pier, public interest in Harriman's
 return grows acute, and the general
 anxiety as to his health has found ex-
 pressions in published appreciations of
 his personality and achievements.

There is manifest disappointment in
 Wall Street that Mr. Harriman's so-
 journ abroad apparently has not set
 him up sufficiently to resume active di-
 rector of the great interests with
 which his name is associated. To-mor-
 row, the day he lands, both the South-
 ern and the Union Pacific directors are
 expected to meet. But he has not even been
 suggested authoritatively that Mr. Har-
 riman will make any attempt to attend
 these meetings, which are expected to
 be the most important of his life, and
 matters of importance. On the con-
 trary, after a brief reception at the
 Erie railroad station after leaving the
 New York, he will drive to his new
 country place at Arden, for further
 rest.

Alexander Miller, secretary of the
 Harriman lines, one of Mr. Harriman's
 most trusted lieutenants, spoke of his
 chief to-day with a seriousness and
 warmth that brought tears to his eyes.
 "Mr. Harriman," he said, "has been
 pictured as an ogre, a huge spider, an
 octopus. You don't know what a big-
 hearted, big souled man he really is.
 I call him to-day the biggest, the best,
 the most patriotic American we
 have. Educated in Wall Street, he yet
 has none of that provinciality some-
 times attributed to the born and bred
 New Yorker. He was always in sym-
 pathy with the west and intuitively
 divined its needs. Other men have
 helped, but Harriman has blessed the
 trail. If I should be asked to name
 the chief characteristics that have con-
 tributed to his success, I should say,
 his wizardry with figures, his faculty
 for getting instantly to the kernel of
 facts, his judgment of men and his
 insight into and faith in the future."

"Does he play as hard as he works?"
 "To tell you the truth, I never saw
 him play except with his children. He
 has a passion for work, a gluttonous
 appetite for facts, and a marvelous
 faculty for getting to the heart of the
 matter and his facts—these are his life."

ISLANDS SWALLOWED BY SEA?

Earthquake May Have Destroyed the
 Clipperton Group.

MEXICO CITY, Aug. 23.—Despatches
 from Acapulco say that the people
 of that port believe that the Clipperton
 Islands were swallowed up by the
 sea during the late earthquake.

No word of any kind has come from
 the islands, and as the neighboring bed
 of the ocean is known to have been
 greatly disturbed, and a small tidal
 wave to have occurred, the port of-
 ficials at Acapulco are urging the war
 department to send out the gunboat
 General Guerrero in search of the
 islands.

The claims of the Acapulcoans have
 not as yet seriously impressed the war
 department. It is understood that
 Fred Gumbro, former sub-secretary
 for foreign affairs, is now in Europe
 to present Mexico's claims to the own-
 ership of the islands before the Italian
 arbitration court.

ALBERTA AS BUTTER COUNTRY

Minnesota Prize Winner Pays Irri-
 gation Lands High Tribute.

CALGARY, Alb., Aug. 23.—Samuel
 Haugdahl of Minnesota, who secured
 the grand prize and world's champion-
 ship at World's Fair for butter, has
 purchased irrigable land in Bow River
 Valley. He states the land here is
 capable of sustaining 100 head of cows
 to the acre, and that ultimately the
 district will rival Denmark, both in
 the quality and quantity of the but-
 ter made. This he claims must follow
 the affluence of crops that are now being
 harvested.

EXTENSIVE FOREST FIRES.

SPOKANE, Wash., Aug. 23.—Forest
 fires near Lower Pend d'Oreille River
 are spreading on the Idaho side toward
 Priest Lake, covering a large territory
 and doing immense damage. Hun-
 dreds of men fought the flames to-
 night, but the fighters made little
 headway against the fire.

Supervisor Weigle of the Coeur
 d'Alene forest service estimated that
 1,500,000 feet of lumber will be de-
 stroyed.

The Grand Trunk and the Timiskaming Service

TEMISKAMING BOARD OF TRADE

PRESIDENT
 GEORGE WEAVER
 VICE-PRESIDENT
 WESLEY MCKNIGHT
 SECRETARY-TREASURER
 T. E. ARMSTRONG

NEW LISKEARD, ONT., Aug. 21st, 1909

EDITOR WORLD:

I was much interested in your article
 on The People's Railway appearing in The World of the
 17th inst. You will remember that when I was in
 Toronto early this summer, I saw you on this subject
 and our Board of Trade here was at that time taking
 up the matter of more expeditious service between
 Toronto and the towns of the Temiskaming district,
 We found that the T. & N. O. Ry. was quite as anxious
 to give quicker service as we were to obtain it, but
 said it was impossible to do anything towards it
 while the Grand Trunk schedule remained as it was.
 We accordingly took the matter up direct with the
 Grand Trunk, and were informed that their connec-
 tions with other lines running into North Bay did not
 allow of the required alterations. Your recent
 articles, however, would seem to show room for further
 agitation in the matter, and I may safely say on
 behalf of this Board of Trade that we are prepared to
 support any measures likely to bring about the
 desired improvement.

Yours very truly,

George Weaver

SWINDLED PRETTY WIDOW ESCAPES FROM POLICE

A Man Said To Be From Boston
 Leaps From Moving Train
 in Nova Scotia.

SYDNEY, N.S., Aug. 23.—(Special.)—
 D. J. Smith, giving Boston as his
 home town, who had been stopping at
 the Grand Hotel for some time past,
 disappeared from the city Wednesday
 last leaving a board bill behind him
 which totals up \$100. During the lat-
 ter part of his stay in the city he paid
 daily visits to the postoffice in quest
 of a \$1000 cheque which he said he
 expected from friends in his home
 town. Finally the money arrived, and
 almost immediately the recipient dis-
 appeared.

While awaiting the arrival of the
 funds, the visitor improved the time
 by paying ardent attention to a pretty
 young widow, proposed marriage, was
 accepted and the wedding was to come
 off as soon as the cheque reached here.
 Having implicit faith in him, the wo-
 man gave him her watch and a con-
 siderable sum of money to keep for
 her. It is held that the fugitive pawned
 the timepiece and squandered the
 money.

Chief of Police McEachern was not-
 ified and the man was captured at
 Truro. Provincial Constable John J.
 McDonald went up the line and the
 prisoner was handed over to him.
 Nearing Truro and while the train
 was moving along at a fast rate Smith
 asked permission to go to the lavat-
 oir. Once inside he locked the door
 and forcing open the window made
 good his escape.

METAL POLISHERS HOPE TO ABOLISH ALL STRIKES

Will Insist on All Differences With
 Employers Being Placed Be-
 fore Arbitrating Board.

CINCINNATI, Ohio, Aug. 23.—(Special.)—
 Charles Webby, vice-president of the
 Metal Polishers' and Buffers' In-
 ternational Union, living at Hamilton,
 Ontario, says that the time is coming
 in the United States when strikes will
 be so scarce that they will be big
 events.

The national executive board of the
 union is meeting in Cincinnati, and is
 taking steps against further distur-
 bances by the members in the form of
 strikes.

President T. M. Daly says that in
 the future all differences are to be put
 up to a board of enquiry, which shall
 be chosen from the union and the em-
 ployers, and that this board will then
 go over the details, and each side per-
 haps waive a bit from its former posi-
 tion, thus reaching an amicable agree-
 ment. If any local union fails to do
 this, it will be thrown out of the na-
 tional body. Every means to secure an
 adjustment of any difficulties will be
 made, he says, before the members of
 a union will attempt to strike.

There will be no session of the union
 as a national convention for two
 years and these meetings of the na-
 tional executive board are being held
 in lieu of conventions. The present
 sessions of the board will last until
 Friday.

COLLISION AT LONDON.

LONDON, Aug. 23.—(Special.)—Two
 men were badly injured in a collision
 in the G.T.R. yards here to-night.
 W. Burnett had both legs taken off
 and will probably die. Baggage-man
 Peely of the Pere Marquette was also
 injured and is in the hospital.

FIVE IN PERIL ON LAUNCH AFIRE

Gasoline Tank Explodes, En-
 veloping Joseph Whelan's
 "Topeka" in Flames—
 Occupants Jump
 Into Lake.

All the perils of a fire at sea in mini-
 ature were encountered by Joseph
 Whelan, 170 Markham-street, with his
 two sisters, Anna and May, Miss E.
 Baker, their aunt, and Miss Margaret
 Devine, 386 West Queen-street, when
 Mr. Whelan's \$1000 launch, the Topeka,
 was destroyed by fire following an ex-
 plosion of the gasoline tank which
 caught from a leak in one of the tubes
 as the party were cruising a mile out
 in Humber Bay at ten minutes to eight
 o'clock last night. The fire resulted in
 the loss of the launch and the severe
 burning of Mr. Whelan and Miss De-
 vine. The former lies in the Western
 Hospital in a serious condition, while
 Miss Devine, suffering from lesser
 burns, was taken to the Home for In-
 curables.

When the explosion occurred, Miss
 Devine was steering in the bows of the
 launch. The other girls were in the
 cockpit about midships and Whelan was
 at the engine towards the stern. All were
 startled by a loud report immediately
 followed by a sheet of flame. This
 brought the light canvas top which
 covered the boat. Whelan strove to
 smother the blaze, but falling in im-
 mediate success, he directed the others
 to slip over the side and hang on so
 as to avoid the fire. This they did, all
 save Miss Anna Whelan, who rushed
 to the extreme stern and stood there on
 the deck, just out of reach of the
 flames which soon enveloped the entire
 centre and forward section of the boat.

Miss Devine pluckily went to the
 assistance of Whelan, who was still
 striving desperately to extinguish the
 fire. Their efforts were fruitless and
 just then a part of the burning top
 fell upon them and stood there, be-
 came more imminent. Whelan was
 burned about the head, face, and arms
 and Miss Devine's arms were severely
 scorched. They gave up the hopeless
 struggle and Whelan assisted the girl
 over the side and followed extinguish-
 ing their burning clothing in the water.

Help was not long in coming. As
 the launch burst into flames a large
 crowd gathered all along the Sunny-
 side beach. George Jones, who was
 running about in the bay in the launch,
 Velda II, immediately put out to the
 rescue and Montreal Police-man Chal-
 mers with a crew jumped upon a skiff
 and rowed desperately for the burning
 launch. Those clinging to the doomed
 boat were taken off and hurried on
 shore, where Miss Devine was rushed
 to the Home for Incurables by Dr. El-
 ingson Lucas, who was on the scene
 with her automobile. Whelan was
 placed in Craig & Son's private am-
 bulance and hurried to the Western
 Hospital where he remained.

The others were taken home by auto-
 mobile which had gathered to watch the
 spectacle.

After the party had been taken from
 the burning launch, it continued to
 drift out into the lake and was watched
 by a thousand people lined along the
 shore. A sheet of flame, it gradually
 burned itself out and finally, at 8:30
 it sank.

Just how the explosion occurred is
 not known. Whelan knew that there
 was a leak as he had filled the tank on
 Sunday, but found it empty and had to
 refill it yesterday. He heard an un-
 usual clicking in the engine which was
 a covered one, she opened a door and
 the explosion followed.

CANADIAN MEDICAL ASSOCIATION

Large Number in Attendance at the Winnipeg Convention.

WINNIPEG, Aug. 23.—(Special).—The assembly hall of the University of Manitoba resembled a scene of a great family reunion this morning, when members of the Canadian Medical Association gathered for their 42nd annual meeting. An atmosphere of congeniality pervaded the assembly, and physicians from every section of Canada, from the Atlantic to the Pacific, expressed in their faces the pleasure they felt at meeting old colleagues of academic days, and members of their profession whom they had not hitherto known.

Early in the morning registration began, and by noon 240 physicians had handed in their names, many of them being local members of the profession. The attendance, however, includes men from the largest centres of Canada and Great Britain and the United States, as well as from smaller towns of the eastern provinces and the western prairies.

Four lady doctors are registered. A great many physicians are accompanied by their wives and it is expected that when all reach the city the total number of visitors will reach 500. One hundred and sixty local physicians are members of the association, and all were formally welcomed this afternoon by Mayor Evans.

NEW YORK, Aug. 23.—District Attorney W. T. Jerome announced tonight that he would be a candidate for re-election this fall, running independently. In a brief statement issued to-night, he says: "I have been considering whether I should seek re-election. I felt that I should be guided, not by any personal interest, but by the consideration of whether a majority of the electors desire this position. But as I know of no way in which I can ascertain this except by offering myself as a candidate, I have decided to seek again a nomination by petition."

Friends of Mr. Jerome will at once start the petition for placing his name on the official ballot. Two thousand signatures are required by law.

WESTERN FIRES NOT SERIOUS

WINNIPEG, Aug. 23.—(Special).—The Western Associated Press-Nelson correspondent wires that there is absolutely nothing serious in the forest fires in British Columbia. Several small bush fires have excited some alarm on account of the dryness of vegetation in the Kootenay country, but there is little danger, and showers are reported at some places, which have relieved all anxiety.

A Fast Torpedo Boat Destroyer

WASHINGTON, Aug. 23.—Remarkable high speed was made by the torpedo boat destroyer Flusser in her contract's preliminary trial off Rockland course. The vessel scored 31.03 knots per hour, her contract requirements contemplating but 28 knots. Without examining the records, the officials say they believe this to be the fastest speed ever made by a United States naval torpedo boat destroyer. Previous records being around 30 knots per hour.

GOOD TIMES, ECONOMY REDUCE THE U.S. ARMY

President Taft's Demand for Reduction in Strength is Being Realized Naturally.

WASHINGTON, Aug. 23.—Returning prosperity is having its effect on recruiting men for the United States army, making it more difficult to keep up the standard established during and following the panic of 1907, when splendid material was available from the ranks of the unemployed.

The authorized strength of the army today is 85,000 men exclusive of hospital corps, which numbers 3500 men.

As the terms of enlistment of men expire it is no easy matter to induce desirable re-enlistment.

It will not be a hard matter, therefore, to reduce the size of the standing army, in accordance with President Taft's wishes. Ostensibly the cause of this reduction is the difficulty of obtaining good men, but the real reason is one of economy. Every man reduced means a saving of \$1000 a year, and if this reduction proposed reaches 8000 men by July 1 next, the total annual saving will amount to \$8,000,000 per year.

President Taft has been insistent on big reductions in army estimates for 1911, and the army officials have been casting about in every conceivable way to effect a saving. Necessary construction work of all kinds has been postponed and the acquisition of other useful equipments has been deferred. Finally a decision has been reached that considerable of the saving could be effected by reducing the enlisted force.

BOOZE CONFISCATED

Eight Consignments for Elk Lake Held up by Magistrate.

Officers of the license branch of the provincial secretary's department continue to make it uncomfortable for those engaged in illicit liquor traffic in Northern Ontario. Eudo Saunders, chief license officer, stated to the World yesterday that on Aug. 20 Police Magistrate Bradley of Latchford confiscated eight consignments of liquor, which were destined for the Elk Lake district.

"My advice up to the present are made," said Mr. Saunders, "but it is evident that the seizures were made under the amendments of last session, whereby any liquor found in transit to unlicensed or local option districts can be confiscated."

TRIED TO SAVE BROTHERS THEN SWAM TO ISLAND

Frank Hamilton Overcome as He Reaches Shore—The Wawa Tragedy.

Additional particulars of the drowning of John and Jas. Hamilton, sons of Rev. R. M. Hamilton of Weston, in the Lake of Bays, Muskoka, which The World exclusively announced yesterday, reached Toronto on Monday. John, aged 11, James, 13, and Frank, 15, left the Hamilton cottage, at Norway Point, about 1:30 in the afternoon, to visit their Sunday school teacher across the lake. A stiff wind was blowing, and when part of the way to their destination the boys' canoe capsized. The three found themselves in the water, away, possibly, from the canoe. Jack and Jim, it is said, were not good swimmers, and they may have clasped each other, either from self-preservation or in the hope of saving each other.

The upset occurred near Blarvin Island. Frank tried hard to rescue his brothers and did not think of himself until they had gone down for the last time. Then Frank struck out for the nearest land, and was at his last gasp when he reached Pancake Island. All was blank to him from that time until 4:30 when a sailboat party saw him, and brought him in. Frank told his rescuers what had happened, and they went to the spot. The canoe was found, but there was not a sign of the two boys. Word was taken to the Hamilton cottage. The sorrow there may be imagined. Meanwhile, the guests and employees of the Wawa Hotel, with cottagers and campers, dived and dragged for the bodies. Even darkness did not interrupt the work, as a Wawa Hotel flashlight was operated at night. Men worked in relays all night long and others took their places yesterday. Mrs. Hamilton is a sister of James Kent of Madison and John G. Kent of Glen View apartments, both late of the firm of Gowans, Kent & Co., and her uncle was the late John Gowans of the same firm. Mr. Hamilton has for over eight years been pastor of the Presbyterian Church in Weston, so the six boys have grown up there and are well known as a lively, manly lot, foremost in all sorts of sports and universally liked. Henry Hamilton, aged 19, a brother of the drowned boys, is a cashier in the dining-room of the Niagara Navigation Co.'s steamer Corona. He learned of the tragedy yesterday morning on his way to Toronto.

Has Humber Hotel. T. J. Boland has taken possession of the Humber Hotel, the license of which he purchased from Frank Armstrong.

WANT INSTRUMENTS BACK

Man Who Has Served His Time Says He Owns Them.

Judge Denton presided at a case in the county court yesterday in which Theodore Winkelhofer was suing Whaley, Royce & Co. in connection with the ownership of certain musical instruments. Nearly every desk in the courtroom was covered with flutes, clarinets, etc.

The action arises out of a previous case in which the musical firm charged the plaintiff with the theft of a certain number of instruments. At the time Winkelhofer pleaded guilty to stealing some of them and was sentenced to six months in the Central. He has since served his time and he now asks that the instruments found in his room and since held by the crown be returned to him.

The case was not concluded and will be continued next Wednesday week.

COLONIAL VOLUNTEERS CAN BE ADDED TO THE NAVAL RESERVE

LONDON, Aug. 23.—(C.A.P.)—The bill to amend the Colonial Naval Defence Act gives power to the proper legislative authority of each colony to provide that volunteers raised in the colony shall form part of the Royal Naval Volunteer Reserve, and that seamen and others raised and maintained by the colony shall be bound to general service in emergency. The schedule gives power to authorize the admiralty to accept any offer from a colony to place at the disposal for general service of the navy the whole or any part of the volunteers or seamen with all or any of their officers.

Will Pay Old Debts.

Application was made to the surrogate court by Robert Gallagher of Caradoc, Middlesex, Ont., yesterday for permission to advertise for creditors having claims against the estate of his late father, who died in 1893. At the time of his death it was thought the estate was not worth anything, but it is now known to be worth sufficient to pay \$625 to each of the three children, two daughters and the applicant. The court suggested that Mr. Gallagher locate the sisters, who were last heard of in Toronto in 1894, rather than advertise.

Sixty Days For Forgery.

George Rutledge pleaded guilty to forging a cheque for \$2 when jailed in police court yesterday morning. He was sentenced to jail for 60 days. William Paradine was sent to the Central Prison for six months for theft of a chatelain. Michel Corcoran was sent to jail for 15 days for stealing William Maher's horse.

Druggist Fined.

WITH BULLET IN HER HEAD GIVES BIRTH TO A CHILD. WESTBRIDGEWATER, Mass., Aug. 23.—After sending a bullet thru the head of his wife Mary, who was afterwards taken to the Brockton Hospital, where she gave birth to a child, Mariame Janeiro, committed suicide. Janeiro, who was 29 years old, was out of work and deranged mentally by account of sickness. After dragging his wife from the kitchen to the top of the house, he kissed her good-bye while she struggled to get away, and then fired. The man placed the revolver to his own head just as his three children rushed up at the sound of the first shot. Laying down his weapon he kissed them, put them out of the room, locked the door and then blew out his brains. The infant and mother are expected to live.

SPECIAL OCEAN RATES FOR FRUIT SHIPMENTS

Inducements for the Export of Early Apples and Tender Fruit to the Old Country.

OTTAWA, Aug. 23.—(Special).—Last year the dairy and cold storage branch of the department of agriculture arranged to have one cold storage chamber reserved on four steamers sailing weekly from Montreal to London, for shipments of early apples and tender fruits, the department guaranteeing the earnings of the whole space.

At the solicitation of W. W. Moore, who is acting for the dairy and cold storage commission in connection with these shipments, the Robert, Ford Co. Limited, agents for the Thomson and Donaldson S.S. Lines, and H. and A. Allan, representing the Allan Line, have announced a reduction in the ocean freight rate on boxed fruit shipped in cold storage, from 30 shillings and 9 pence per ton measurement, to 25 shillings.

FAKE DETECTIVE FOR TRIAL

Tried to Extort Money From Widow by Menaces. Those whose business takes them regularly to the police court have become used to hearing stories of mean crimes. It takes a good deal to arouse even their interest, but it was aroused yesterday morning when Mrs. E. MacAvoy told the story of a man in which Albert Davis tried to extort \$50 and then \$20 from her by impersonating a detective and demanding the money as the price of allowing her liberty.

RAILWAY EMPLOYE FINED

Man Put Off Car Has His Sweet Revenge. One dollar and costs was the fine imposed by Magistrate Ellis on C. W. Steele, divisional superintendent of the Toronto Street Railway Co., in the police court yesterday afternoon. The complainant was J. H. K. McCallum, who laid a charge of assault on Steele.

Engulfed in Quicksand.

NEW YORK, Aug. 23.—In the clutch of treacherous quicksands, Otto Wernsey, a broker's clerk of this city, was engulfed from sight of his two companions before they understood his plight. The three were in bathing suits at Far Rockaway, Warmersay, in about three feet of water and his friends on the beach. He was seen to stumble, but not until he failed to rise was any fear felt for his safety. Then both young men rushed to the spot where he had disappeared only to find themselves likewise entangled. They had a hard fight to free themselves.

HOUSEHOLD HINTS

Ordinary household ammonia is an excellent thing for putting out a gasoline flame. Some receptacle holding half a gallon, such as a fragile bottle that could be hurled from a safe distance, should be kept within easy reach in every household where gasoline is used.

Also it would be a good thing to add to the list of necessities when fitting out the automobile.

Green mayonnaise, to be used on a salad of vegetables, may be made by adding chopped parsley.

Good black ink, mixed with the white of an egg is excellent to restore the color of black kid gloves or shoes.

Fresh chocolate stains should be soaked in lukewarm water, after which they are easily washed out.

Take a water bottle, partly filled with cold water, and place it in such a position as enables you to rest both wrists on it. If you possess two water bottles place the other at the nape of the neck; otherwise change off.

Press two glass top thumb tacks into the back of the frame of each picture near the bottom and you will have no more scratched wall or marred paper where your pictures hang.

To remove stains and discolorations from tinware, try rubbing with a damp cloth, dipped in soda.

Never stand a broom in a corner; tie a piece of string around the handle and hang it up.

A porcelain tub or sink may be thoroughly cleaned with a flannel dipped in spirits of turpentine.

PRIMROSE MINSTRELS OPEN GRAND SEASON

Bright Blackface Entertainment Pleases Everybody—Living Statuary at Shea's—At the Theatre.

Looking like a picture after being redecorated—cool and comfortable—the Grand opened last evening to a capacity house, greeting George Primrose and his splendid minstrel company.

It was, indeed, a gala night for dear old George Primrose, one of the veterans, as well as one of the kings of old-time minstrelsy, who has been every inch, "How am I feeling?" repeated Mr. Primrose, in response to the query of the interlocutor, when he made his bow on the Grand stage last night.

"Well, I'm feeling right at home," and his welcome was extended a few rounds. It would be superfluous to state that Mr. Primrose's newly organized organization, "The Grand and better than any he has heretofore presented. It is thoroughly good, a well-balanced, highly entertaining and unexcelled organization. That it met all expectations and was fully satisfying was easily ascertained at the Grand last evening, for the encores were continuous and enthusiastic.

Several Pittsburgers who have just returned from abroad, where they met Mr. Carnegie took some of his matters other than health, have brought back the news that Mr. Carnegie has become exceedingly careful in money matters.

One of the party desired to get \$25,000 for an object the like of which Mr. Carnegie had always considered worthy, but he has considered himself fortunate to come away with \$15,000.

Mr. Carnegie took some of his American visitors motoring, and when the ride had finished he said: "There's an auto that I paid only \$1500 for, and it's good enough for any one. I wish some of those people back in Pittsburg who are paying \$5000 and more for their machines would come to me and get some lessons in economy."

What worries the people of Pittsburg most is that Carnegie has stopped short in the midst of the erection of his \$10,000,000 technical school here. The work on the buildings has been erected, and Mr. Carnegie has made no provision for pursuing the work this year.

The third and last part composed an elaborate series of plantation scenes, entitled "Down Home," with pictures of a levee, a party, a dance, a plantation jubilee, moonlight views, river views, etc. As a minstrel spectacle it has seldom been equaled on the local stage. George Primrose led in the black face diversions, and the Ward Brothers, the champion clog dancers of America, gave a marvelous exhibition of their pedalling skill.

The management is for the entire week, with matinees on Wednesday and Saturday, and the customary scale of prices.

Good Show at Shea's. "All I want is three square meals a day," sings Bertie Herron, who, with Miss Nellie, has been singing a couple of clever ones, is one of the two really big things on the bill at Shea's this week. The little lady with the aforementioned title, is a very pretty girl, a square meal of music and mirth, so here's a hopin' she gets the three squares. She certainly looks as if she did, and there is something wholesome and well-liked about the whole act.

Paul Seldom's Venus, Evo Claren, provides one of the most artistic features that have come this way in vaudeville, being a study in the coloring, and the parts, which are reproductions of the work of well-known sculptors, are marvels of accurate representation. It's a pleasing act of considerable artistic value.

Charles and Fanny Van are back with their laugh-provokers. They are just as funny as ever they were, and their comedy acrobatic turn which is moving all of the time. Every move is a laugh. They introduce a line of tumbling that makes you think they all did it on that way you would not be half so down on slap-stick methods.

Ed. Morton has a number of good songs and gets well ready with patter in his act. His "onette sure can play the violin. Her offering pleased at both performances if applause is the way to tell.

The Joyce Serenades open and the kinetograph closes the show.

Morning, Noon and Night. Coney Island is this week transplanted to the Star by the presentation of Mortimer M. Theatrical musical farce, "Morning, Noon and Night." Three acts depicting New York life at Ellis Island, on the Broadway and down at Coney Island, with six scenes afford scope for a varied vaudeville program.

Virginia Wall, Teddy Burns as Ed. Snyker, a hold-up man, and Sid Brown, as Pincus Bug, a "less than two" millionaire lead the fun.

The "Broadway Poodles" and "Gotham Belles" add to the merriment by bright choruses and picturesque ballet dances. The big company of well-known comedians and artists has attracted a large and appreciative house.

Advance Sale for Foy. Contrary to the rule to open the box office at the Royal Alexandra Theatre on Thursday, an exception was made yesterday, and the advance sale for Foy's seats to see Eddie Foy in the Shubert's favorite production "Mr. Hamlet of Broadway." Let it be clearly understood while the advance sale is on when Eddie Foy shows how serious a comedian can be at times, he really delivers some of the lines of Hamlet as great as any actor has ever delivered. YOUTH WITH A DAGGER HELD FIFTY MEN AT BAY. NEW YORK, Aug. 23.—The captain, the mate and a ship's crew of 50 men, who were the victors in Harry Luckhuck, were helpless for half an hour to-day against Salvatore Farina, a Portuguese youth of 18, who ran amok with a scimitar. John Dalton, the mate, was so badly cut across the abdomen that he will probably die, and his brother Joseph, the captain, was severely wounded.

The fight began when the mate-cuffed Farina for an impudent reply, and ended with two wounded men on the deck. Farina, who is a native of the island, has an 18-inch blade in his hand, and the crew ringed around at a respectful distance. He surrendered to the police.

NEW YORK MARKET Irregular But Closes on the Firm Side

Local Exchange is Dull But the Undertone is Good—Mackay Common Makes an Advance. World Office, Monday Evening, Aug. 23. Sentiment in regard to speculative issues at the Toronto market is still largely framed from the appearance of Wall-street. Buoyancy at the larger exchange this morning lent a little enthusiasm to local dealings during the first hour, when a decline on Wall-street immediately changed traders' opinions and chilled-bullish feelings.

BETTER SIGNS OF STEADINESS.

The Toronto market showed more signs of steadiness to-day than it did on Friday last, when there was a disposition to take fright because of the break-up at New York. Business showed no enlargement in domestic securities, but fractional advances occurred in some of the speculative issues, and a sharp movement in Mackay common. Mackay was inactive, but the bid price rose one and one-half points on the belief that government opposition to the present Atlantic cables has been side-tracked. A solid undertone was present in all the investment stocks, and the light dealings in these was due to the paucity of offerings.

OTTAWA, Aug. 23.—(Special.)—Excellent weather favored the opening of the Dominion Rifle Association's meeting at Rockcliffe ranges to-day, and with a record attendance of 630 marksmen, prospects are good for sensational shooting. The feature of the day was the success of the Western Ontario representation.

MONEY WAS WELL SPENT.

So far as known, the Village of Markham has the distinction of striking the highest mill rate in York County, if not in Ontario. It is only fair, tho, to say that the outstanding cause of this high rate is found in the building of the splendid new steel bridge over the Rouge River at the southerly end of the village, and which, now that it is built, will be a great benefit in many ways to the town.
