Heavy Bombardment Prevail-
ed on Mort Homme-
Cumieres Front.

Special Cable to The Toronto World.

LONDON, April 11.—Heavy fighting was transferred today from the western side of the Meuse, where there was only a heavy bombardment of the Mort Homme-Cumieres line, to the eastern side of the river, where the Germans were beaten off in a heavy attack on the French trenches between Douamont and Vaux this afternoon. This attempt at assault was preceded by a violent artillery preparation, which ended up with an intensive discharge of lacrymose shells. Then the Germans came on and they at first gained a footing in some of the advanced sections of the French lines, but a little later the French counter-attacked and drove the enemy out with the loss of about 100 un- wounded Germans, who were taken prisoner, one being an officer.

Artillery actions in the West were fought in the sectors of Montiville, Bonvaux, and Chailion. Northeast of St. Mihiel, French long-range guns shelled a train that was standing north of Hautcourt station. French batteries in the Argonne continue attack against the whole German front. North of the Alsace French artillery took under its fire a strong German column that was moving along the Chemin des Dames and severely used it up.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

BITTER fighting between British and German grenadiers is being kept up in the craters east of St. Eloi, with the British holding three and the Germans now holding two of these craters. The contest here seems to ebb and flow with each reinforcement of men and grenades thrown in by either side. The Germans also attempted to blow up a new crater by exploding some mines, northeast of Vermelles, but these did not change the general situation, for they merely damaged a portion of an old crater. Important artillery engagements were fought near Souchez and east of Ypres. Considerable shelling was exchanged opposite Wytchaete. British aeroplanes made eight flights and drove down a German machine without themselves sustaining any loss in the air fighting. One British machine, however, came under the fire of anti-aircraft guns and was felled to the ground.

Setting their badly knocked about war machine in motion on the front east of the Meuse yesterday, the German directors of that machine again saw it break down on the slopes of the ridges which run from Douamont to Vaux, where the French gave it such a mauling that a few surviving parts that had got into some forward trenches were easily thrown out or captured. The result of this operation was the suffering of losses by the Germans out of all proportion to the French, who were hidden for the most part behind parapets and ridges in the ground. In the preliminary bombardment the Germans wound up with the concentrated fire of "tear-producing" shells. Probably owing to the exhaustion and decimation of their ranks and the consequent need for reconstruction, the enemy did not renew his attempts yesterday to expel the French from the Mort Homme position. This eminence was violently bombarded by his artillery. Liquid fire enabled the Germans to make a little progress on the east of this hill the previous night.

So severe have been the German losses and so hopeless appears their position in the sector about Verdun, that French military men are looking for the cessation of the battle almost any day. The slight and slow withdrawal of the French on their left flank have probably encouraged the Germans to persist in their fighting, but each successive change in the French positions has distinctly increased the formidability of the French

NO CANADIAN DELEGATE AT PARIS CONFERENCE

Australia Will be Only Dominion
to be Directly Repre-
sented.

Ottawa, April 11.—Canada will not be directly represented at the economic conference of the allied powers which meets in Paris at the end of the present month. Bonar Law, imperial secretary for the colonies, will be there, and will represent all the colonies, except Australia, whose premier, Mr. Hughes, who happens to be in England, has been invited to attend. There has been telegraphic correspondence on the subject, but the authorities here do not say whether or not Canada received an invitation to be represented at the conference. At any rate no one will go from the Dominion. Premier Hughes received an invitation only after insisting upon the right of Australia to be represented.

There are only two possibilities which are accepted here as true in the present situation. Either Villa is dead, or he is far to the south in central Durango. If the latter is true, army officers say that the entire plan of campaign of Gen. Pershing must be reorganized or abandoned altogether. One officer, who has had an active part in the direction of the plan of the expeditionary force, summed up the situation in this way:

Eighty-One Thousand Tons of
Merchantmen Destroyed
Since April First.

BERLIN, via London, April 11, 8:45 p.m.—The growth in Germany's submarine warfare is shown, according to estimates published here, by the fact that 81,000 tons of merchantmen of countries at war with Germany have been destroyed since April 1, as compared with 20,000 for the month of January, 40,000 for February, and 100,000 tons for March.

BERLIN AND BUCHAREST IN TRADE CONVENTION?

Pact Is Said to Re-establish Com-
mercial Relations on For-
mer Basis.

BERLIN, April 11.—(Via wireless to Sayville)—The German secretary for foreign affairs and the Roumanian minister in Berlin on April 7 signed a convention between Germany and Roumanian by which both governments declare their readiness to allow free exportation of home products so far as their own needs permit, and with the exception of war material.

The system of special export permissions and of return services is abolished. Both governments agree further to allow the free transit of wares from other countries.

The aim of the convention is to re-establish commercial relations on their former basis.

NO PRESENT BOUNTIES ON ZINC AND SPELTER

Government Will Make Grant for
Short Period After the
War.

TIME LIMIT IS SET

Expectation Shown That War
Will End Before Fifteen
Months.

By a Staff Reporter.
OTTAWA, Ont., April 11.—In order to encourage the zinc industry, which has been started in Canada since the outbreak of the war, the government has decided to give a bounty on the production of zinc or a short period after the war. No such assistance is required during the war owing to the fact that the zinc industry is in a state of expansion.

Sir Thomas White has given notice of the following resolutions:
To authorize the payment out of the consolidated revenue fund a bounty of two cents per pound on zinc or spelter, containing not more than two per cent of impurities, produced in Canada from zinc ores mined in Canada, provided the standard assay value of the zinc is not less than 98.5 per cent, when the difference between such standard price per ton and \$28 1/2 per ton shall not exceed the sum of \$400,000.

Further provided that in no event shall bounty be payable when the price received for zinc or spelter by the producer is eight cents or more per pound, and that no bounty shall be payable on zinc or spelter to the producer during the continuation of the war or until the zinc industry has been established in Canada for a period of not less than two years after the date of the production of the zinc or spelter.

Further provided that the total amount payable under the provisions of any act founded on these resolutions shall not exceed the sum of \$400,000.

TURKS DOUBLE FORCE IN ARMENIAN THEATRE

Strong Force of Moslem Soldiers
Concentrated at
Erzinjan.

PETROGRAD, April 11.—The operations of the Russian army, which are fighting their way to Trebizond, Erzinjan and Mesopotamia, have entered upon a new phase, in which Turkish resistance is no longer a negligible factor. By a careful regrouping of their forces the Turks are now opposing the three main lines of the Russian advance with solid organized resistance, which gives way only after most stubborn fighting.

According to estimates by Russian officers, the Turkish force has at least been doubled by reinforcements from European Turkey, the greater part of which are concentrated near Erzinjan, which, despite the importance of Trebizond and the Persian operations, is a region of the greatest value to the Turks, since it stands in the way of the main Caucasian armies, whose ultimate aim is to sweep westward toward Constantinople.

TAX EXEMPTIONS FOR HOTELMEN

MARTYN ADVOCATES IT

Wants Provision Made for
Traveling Public After the
Bars Go.

To assist hotel-keepers to stay in business after prohibition, Dr. Martyn (East Lambton), introduced a bill yesterday, providing among other things for tax-exemption, for the exclusive right to sell soft drinks, cigars and tobacco, for direct grants of \$200 a year, for tax exemptions for a year and for fixed assessments for twenty years, providing there is a three-fourths majority of three fourths of the voters in favor.

The bill, which aims to help hotels particularly in smaller municipalities to provide accommodation for the traveling public after the bars has been abolished, provides for the placing of hotels under licenses which may be cancelled for infraction of the license laws, and for giving the exclusive rights of license to one hotel only where the business of the community does not warrant more than one.

EARLY PROROGATION HOPE IS ABANDONED

House of Commons Will Resume
Sittings After Short Easter
Recess.

CAUCUS IS POSTPONED

Impending Debate on Bilingual
Question Has Become Live
Topic.

By a Staff Reporter.
OTTAWA, April 11.—It was announced tonight that the house will adjourn next Wednesday until the following Tuesday for Easter. It will probably be the end of May before the business of the session has been completed.

Government members did not caucus this morning, as had been anticipated, and the conference may go over until after the Easter recess. Just now parliamentarians on both sides are marking time, but with the return of Mr. Gen. Hughes the opposition no doubt will resume their shelling of the government benches.

No announcement as to railway legislation is likely to be made in the immediate future. Tonight the general topic of discussion is the debate upon the bilingual question, which, it is said, may be brought up in the house before the close of the session.

The English-speaking Liberals are not keen for the debate, but it is declared to be necessary from a party standpoint because of the impending provincial elections in Quebec.

The debate may come up upon a motion to go into supply, when a resolution will be offered, probably by Mr. Lapointe, the Liberal member for Kamouraska, calling upon the government to disallow the Ontario legislation by which the separate school board of Ottawa was ousted and the schools put in the charge of a commission.

RAILWAY BOARD MAY BE GIVEN BROADER SCOPE

Waste in Duplication of Lines
to be Prevented in
Future.

GENERALLY APPROVED

W. F. Maclean, M.P., Would
Extend Joint-User Prin-
ciple Further.

By a Staff Reporter.
OTTAWA, April 11.—Wasteful duplication in railway construction is to be checked in Canada. Today the house passed thru committee stage without division the government's measure for that purpose entitled "A Bill to Amend the Railway Act."

The bill not only provides that the route map for a railway authorized by parliament must be approved hereafter by the Dominion Board of Railway Commissioners, but goes further and prevents construction work upon the road or any part thereof unless the construction is declared by the board to be in the public interest.

Evil and Remedy.
W. F. Maclean (South York), in supporting the bill, said that duplication of service was an evil flowing from duplication of construction. The remedy was to be found in the principle of joint user. The bill before the house was a step in the right direction because it not only prevented unnecessary construction but provided for running rights being granted at the discretion of the board. He urged the minister to go further and amend the Railway Act so as to prevent duplication in the construction of bridges and to require railway companies to give suburban services to large cities like Toronto.

Hon. G. P. Graham, Mr. Turbill of Assinibois, Mr. Morphy of South Perth, and others, who had previously introduced a bill to amend the Railway Act, were also present. The measure was also made by some opposition members that the government was shirking its responsibility in connection with the Niagara, St. Catharines and Toronto Railway, and the Niagara and Western Railway charters, by delegating the powers of parliament to railway construction to the board of railway commissioners.

The necessity of defending their Dvinsk positions is said to have upset the calculations of the German general staff, who had counted on a period of quiet along the Russian front to enable them to transfer troops to engage in the campaign against the French. A Sensational Selling of Suits and Coats From The Great French Couturiers

Has Been Arranged for Thursday at 10.30 a.m.

When There Will be Offered at Amounts Which Are Only a Shadow of the Regular Figures—in Many Cases Less Than Half The High-priced New York and Paris Models Used for Our Tableaux of Fashion

Silk and Cloth Suits From Worth, Drecol, Bulloz, Bernard, Jeanne Lanvin, Douillet, Beer and Martial et Armand, Havet and Jenny, and Original Creations and Reproductions of French Models by Foremost New York Tailors—To be Offered at \$75.00, \$85.00 and \$95.00

Silk and Cloth Coats From Havet, Bernard and Maurice Mayer of Paris and Bradley's of London, at \$37.50 to \$95.00

LOOKING ROUND NEW YORK AND PARIS for the most interesting examples they could find of the new Spring mode, these are the suits and coats our buyers selected—masterpieces from the great Worth, from Douillet, Jenny, Bernard, Beer, Drecol and other far-famed couturiers.

Having served their purpose of display at the Tableaux of Fashion, they will be offered on Thursday morning at prices which are in many cases less than half the original cost. Not a suit or wrap in the collection which is not hugely reduced.

Suits That Are the Very Acme of Exclusive Charm

The silk suits are exquisite specimens of costume-making, the skirts bouffant with draperies or fulness, the narrow-shouldered coats flaring wide with ripples below the waist, many of them with a soft cloud-like bodice of chiffon or lace. Taffeta, faille, gros de Londres and poplin are the weaves represented—in such fashionable tints as navy, plum purple, gray, nigger brown and black.

The cloth suits—"tailleurs" as the French call them, are developed in gabardine, wool poplin, serge and the new checked velours, offering a splendid selection of blues, grays, browns and blacks. Both plain tailored and elaborate models are included, every costume a marvel of modish line and charming finish—redolent with the distinctiveness of the master maker.

They will be divided into three groups priced at \$75.00, \$85.00 and \$95.00.

Silk Afternoon Wraps and Cloth Motor Coats—Fascinatingly French

They present a very allurements of make and material. There are afternoon coats in taffeta, faille and poplin, billowing out full around the lower edges, the sleeves exploiting the new leg o' mutton and bishop effects—motoring and traveling ulsters in serge, gabardine and tweed—and sport coats in silk poplin and velours. The genius of such designers as Havet, Bernard, Beer and Maurice Mayer of Paris, and of Bradley's of London, has gone into their tailoring. They will be divided into groups marked at \$95.00, \$85.00, \$65.00, \$57.50, \$47.50, and \$37.50—every coat many dollars less than the regular amount, some of them less than half.

This is Interesting

THAT a motor coat or a suit for country wear can be very considerably smartened by leather collar and cuffs. These are procurable in white and bronze kid, and in brown, blue and grey suede, at \$1.50 the set.

That Suzanne Talbot's pet color for her hats this season is very light pearl grey. Most of her models are evolved from silk materials, picot-edged ribbons or crin straw.

That three of Mischa Elmman's most entrancing numbers at his recital on Monday night are available in Victor Records, his playing of them reproduced with absolute perfection. They were given as encores—the "Meditation," from Massenet's "Thais," price \$2.00; the Beethoven "Minuet," \$1.25; and Dvorak's "Humoresque," \$2.00.

That among the "best sellers" in new fiction are "A Cathedral Singer," by James Lane Allen, price 90c; "Just David," by Eleanor H. Porter, \$1.25; and "Torches, Private Sec.," by Sewell Ford, \$1.10.

The Scribe New Axminster Rugs To Match Any Decoration—riced From \$18.75 to \$29.50

A COMPLETE VARIETY for any need—a wide size variety as well as a variety of patterns and colors—is offered in this new lot of Axminster Rugs from England. They are superb in quality, rich in tone, artistic in design—most of them Oriental effects—and are altogether interesting for the housewife who needs new floor coverings for her rooms. Congoleum Rugs for Kitchens, \$3.50 and \$7.00.—These are made of a composition that equals good linoleum in its wearing qualities. They lie flat without need of nails or paste. Each is a complete rug in itself and the patterns are appropriate for kitchens, bathrooms, etc., not only being neat and bright, but washable and fade-proof, also. Size 6 x 9 feet, each, \$3.50; 9 x 12 feet, each \$7.00.

Heavy linoleum, 2 yards wide, in bright colors and good styles, including bathroom tiles, hardwood and parquetry effects and neat patterns for kitchens. Square yard, 45c. —Fourth Floor

Just Come From Paris Cluny-edged Linens

Dolies, Centrepieces, Tea Cloths and Scarfs for Sideboards and Dressers

THAT PRIME FAVORITE of the housewife, handmade Cluny lace, presents itself in most attractive form in these dolies, centrepieces and tea cloths which have just arrived in the Linens Department. Despite the hull in the lace industry of France and Belgium, our Paris office succeeded in procuring them, and here they are at prices amazingly inexpensive.

The lace is in a large, open pattern in a soft, creamy shade, with plain centres. Sizes and prices are as follows:—

Dolies—6 x 6 inches, 8c; 8 x 8 inches, 10c; 12 x 12 inches, 20c.

Centrepieces—18 x 18 inches, at 75c; 20 x 20 inches, at \$1.00; 24 x 24 inches, at \$1.30.

Table Cloths—26 x 36 inches, at \$2.25; 46 x 46 inches, at \$4.00; 54 x 54 inches, at \$6.75; 72 x 72 inches, at \$11.50.

Scarfs—20 x 36 inches, at \$1.55; 20 x 45 inches, at \$2.35; 20 x 54 inches, at \$2.95; 20 x 72 inches, at \$2.25. —Second Floor, James St.

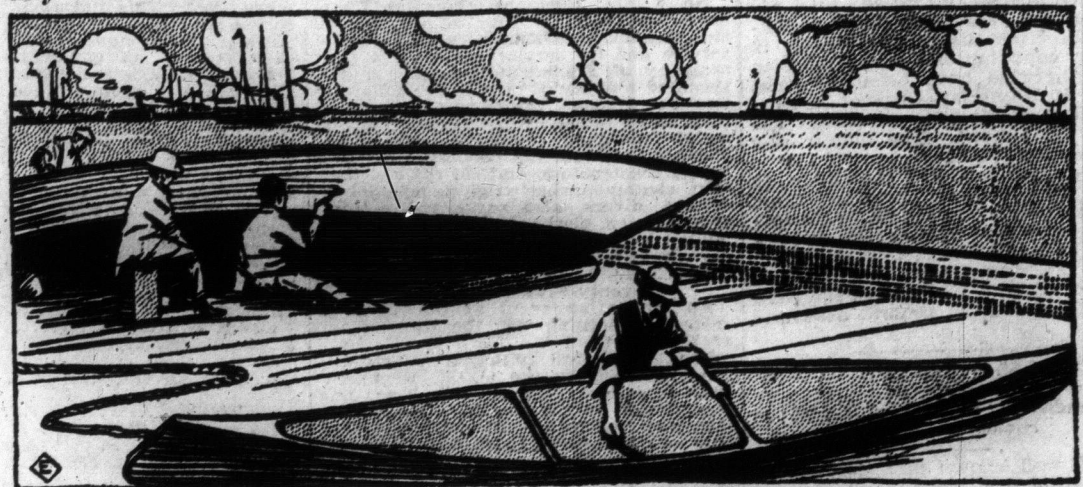

Curtain Scrim at 17c a Yard

In the ordinary way this superb quality scrim would be marked at a much higher price for this is a special purchase of the balance of a manufacturer's stock. It will not be possible to get any more of it, and there should be such a demand that we suggest an early visit on Thursday. It is all 36 inches wide, in a variety that includes white, ivory, or cerise grounds with borders in the dining-room, including white, ivory, or cerise grounds with borders in the dining-room, including white, ivory, or cerise grounds with borders in the dining-room. POWERFUL ADDRESS AT GYM BANQUET

Great Ovation Given to Fred B. Smith, the New York Speaker.

APPEALS TO MANHOOD Predicts Change of System and an Age for the Common Man.

"I believe the allies will win this war because I believe they are for God and for liberty. I am not a neutral, I was never born to be a neutral on any subject. Anything less than a complete victory will do me."

For the past 14 years he has been the first man to give an address at the annual banquet of the evening at the gymnasium.

Mr. Smith's address was a powerful appeal to manhood, and he predicted a change of system and an age for the common man.

He stated that there never was a time when he was so anxious to make good as he was last night.

The problem of the world today was not the divinity of Christ, the authenticity of the Bible or the eternity of the church.

A united Christianity, he thought, was the only possible way of preventing the repetition of the war.

He concluded his address by saying that the concluding appeal was to the moral agencies which are now creating so much attention to the Christian characteristics received from our parents.

TELLS OF FINDING PEREGRINE FALCON

Dr. C. R. Clark Addresses Society for Protection of Birds in General Hospital.

"The Peregrine Falcon" was the subject of an address given by Dr. C. R. Clark at a meeting of the Canadian Society for the Protection of Birds.

This falcon is known as the duck hawk, and is the largest of the birds of prey in this country.

Dr. Clark's address was an interesting account of the finding of the nest, and the habits of the bird.

He stated that the nest was found in a hole in a tree, and that the parents were very attentive to their young.

Dr. Clark's address was well received, and he was given a hearty ovation.

He stated that the protection of birds was a very important matter, and that it was the duty of every citizen to do his part.

YONGE STREET GAP SHOULD BE MENDED

Government Should Enact Legislation to Vest Authority in Matter.

N. W. ROWELL SPEAKS

Interest of Public Could Be Safeguarded by Interim Provision.

The government should enact legislation at this season of the year to vest authority somewhere to deal with the condition of Yonge street in mended, said N. W. Rowell, leader of the opposition, in the legislature yesterday.

Deputy City Treasurer Black reported the arrears of taxes for the month of March. Outstanding taxes for 1914 total \$676,060, and for 1915, \$2,862,111.

The amendment to the Public Health Act was submitted by City Solicitor Johnson providing that medical health officers be allowed to visit abattoirs, bakeries, theatres and other places as inspectors.

Mr. Rowell raised the question of the gap on Yonge street during discussion of the Statutory Law Amendment Act. An amendment was introduced modifying the act with regard to the Ontario Railway Commission and the matter heard.

Mr. Rowell asked the board to deal with the matter pending the settlement of the points in dispute in the court between the railway and the citizens.

The attorney-general stated that under the act as it existed he did not think they had power to deal with it. Mr. Rowell then stated that if that were the case the government should introduce an amendment to give the board or some other body power to deal with the matter.

NO ADDITIONAL CARS FOR RAILWAY SERVICE

Clause in Toronto Measure Thrown Out by Private Bills Committee.

NOTHING BUT PROMISES
Mayor Declares Citizens Do Not Want to Appeal to Ontario Railway Board.

The clause in the City of Toronto bill providing that the Toronto Railway Company shall build, equip and place in operation 200 additional cars within three months of the passage of the bill was thrown out by a vote of 10 to 8 in the private bills committee of the legislature yesterday.

Mayor Church said that the stipulation in the company's agreement that they must manufacture and repair cars was a dead letter.

As for "the thing being settled in law," he said that the company and the railway board, as Hon. L. B. Lucas, in the chair, suggested "we get nothing but promises," said the mayor. "Is it any wonder that the city does not want to appeal to the Ontario Railway Board?"

CAN'T SHOOT GAME FOR COMMERCIAL PURPOSES

Law Prohibiting Sale of Wild Duck, Geese and Water Fowl Passed Legislature.

THE USE OF FIREARMS
Non-Residents of the Province Will Not Be Allowed to Carry Guns.

A law prohibiting the sale of wild duck, wild geese and water fowl was passed by the fish and game committee of the legislature, which finished its work for the session yesterday. The object of the law is to eliminate the shooting of game birds for commercial purposes. By an amendment passed, non-residents of the province are prohibited from carrying or using guns.

By other laws passed, fur-bearing animals can be trapped only by licensees, and the carrying of shotguns by non-residents is prohibited.

BUTCHERS' CATTLE SOLD AT AVERAGE PRICES

Nine Hundred and Five Cattle Were on Sale at Union Stock Market.

HIGH PRICE FOR HOGS
Number Reported Was Far From Being Enough to Supply the Demand.

Receipts of live stock at the Union Stock Yards on Tuesday were 65 cars, 905 cattle, 915 hogs, 98 sheep, 169 calves and 4 horses.

There were probably 750 cattle out of the 905 reported on sale that would be sold for butchers. While there were a few good to choice lots, the quality generally was not so good as last Monday. One lot of 200, 2 1/2 year old steers was the highest for straight loads of quality that reached \$9. The bulk of the best butchers' cattle sold from \$8 to \$9.

Stocks and feeders—These classes are in demand. Firm prices. H. T. Kennedy bought on Monday and Tuesday, 125 stockers and feeders, Steers, 50 to 60 lbs., good to choice, 700 to 800 lbs., at \$7 to \$7.50; common rough stockers, 40 to 60 lbs., at \$6.50.

Springers—The demand for good and choice milkers and forward springers remained strong at firm prices. Veal calves—Receipts were not equal in numbers or quality to the demand. A few very best heifers were sold at \$11.50 to \$12.00. The bulk of the best butchers' cattle sold from \$8 to \$9.

Choice heavy steers of better quality, \$8.75 to \$9; choice butchers' cattle at \$8.75 to \$9.75; good stockers, \$7.50 to \$8.50; common rough stockers, \$6.50 to \$7.50; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$6.50; common cows, \$4.50 to \$5.50; sheep, \$5.50 to \$6.50; common hogs, \$5.50 to \$6.50; common pigs, \$5.50 to \$6.50.

Choice heavy steers of better quality, \$8.75 to \$9; choice butchers' cattle at \$8.75 to \$9.75; good stockers, \$7.50 to \$8.50; common rough stockers, \$6.50 to \$7.50; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$6.50; common cows, \$4.50 to \$5.50; sheep, \$5.50 to \$6.50; common hogs, \$5.50 to \$6.50; common pigs, \$5.50 to \$6.50.

Extend Partridge Season

The close season for partridges will extend to October 15, 1916. Woodcock, quail, black and gray squirrels and wild turkeys may only be shot from November 1 to 15. Only six quail may be shot in one day, and only 25 in one season. Ducks may be shot from Sept. 1 to Dec. 31. The license fee for Americans is reduced from \$50 to \$25.

Cottontail rabbits may be shot on a person's own property at any time or taken by other means at any time. They need not be turned over to charitable institutions as formerly. The muskrat season was fixed in the south of Ontario from Dec. 1 to April 30, and in the north from April 1 to May 30. No meat good to eat, and no fur-bearing animals' disease may be left in the woods to spoil.

The committee decided to allow 50 decoys for ducks to be set in a flock, and to allow hunters to shoot within 100 yards of another.

Free Rides for Soldiers

The committee decided that the question of giving soldiers in uniform free rides on the cars should be left to the decision of the house.

The city was given permission to borrow \$50,000 for the reclamation of Catfish Pond without going to the people on the matter. By another clause passed the city was given power to raise \$300,000 in debentures for the construction of storm sewers.

Commissioner of Works Harris said these sewers were necessary, and that their necessity was demonstrated by the damage being done this spring by floods.

ULTIMATUM RUMORED

Berlin Again Source of Anxiety to Wall Street Traders.

NEW YORK, April 11.—Extreme dullness settled over today's market, the volume of operations falling far below recent averages.

Superficially, at least, dealings were again restricted by the uncertainties surrounding the international situation.

The Cobalt issues are just beginning to show signs of the effect of the rise in silver. But it has been long in coming.

Some Extension was the most active stock on the board. It opened at 37 1/2, 3/4 point down from the previous close.

There was some enquiry for Hollinger, but little stock came on the market, 27 3/8 being offered for the stock.

Disappointment was expressed at the unresponsiveness of copper and U. S. Steel to the remarkable advance in silver.

Exchange on Paris made the new low rate of 60 1/2, for cheques, but lines were quoted with no material change in sterling and marks.

There was another big market at the Toronto Exchange yesterday. Dominion Steel, Cement, Nova Scotia Steel and Steamships.

BIG BROAD MARKET AT TORONTO EXCHANGE

There was another big market at the Toronto Exchange yesterday. Dominion Steel, Cement, Nova Scotia Steel and Steamships.

In the smaller issues Gifford was firm at 7 1/2, and Great Northern was active at 4 1/2.

Two drills are now cross-cutting at the first and second levels of the Lucky Cross Mine at Swastika.

At Kirkland Lake, too, things are moving. At the property here on which Beaver has an option the shaft is down 200 feet and a station is cut at 175 feet.

Cobalt Issues Begin to Discourt Advance in Silver, Which Went Higher.

Record of Yesterday's Markets

The improved tone of trading and the greater volume of business on Monday at the Standard Stock Exchange was the forerunner of greater activity and a still stronger feeling yesterday.

The increase in the amount of stock which changed hands during the day and the broadening out of the market is interpreted by the local brokers as a sign of returning public interest in the mining stocks which has for some time past been centered on the industrial issues.

NEWS OF SPECIAL INTEREST TO WOMEN

EXHIBIT OF PARTICULAR INTEREST TO WOMEN

Labor Saving Devices Demonstrated in Ideal Home Show at Arena.

LESSONS IN HYGIENE

Portable Summer Cottage and Model Nursery Features of Exhibition.

Anything connected with home naturally holds first place in the eyes of women and when the things considered are pronounced "ideal" the interest is considerably enhanced.

The twentieth century is certainly the time of woman's opportunity, and along the line of labor-saving devices the opportunity is most pronounced.

Electricity means so much in the kitchen, and in the laundry it is not the less efficient and important. This is demonstrated in the fullest at the Ideal Home Show, where electrical appliances of every description are in full view. Coffee percolators, washers, irons, heating pads, electric gas ranges—all are displayed, and the only regret is the up-to-date and all-wise woman who appreciates her lot in being of the population of the most progressive age of the world's history is if she cannot possess herself of one of everything in the collection in case her purse runs out before she gets to the end of her tether in the matter of purchasing.

Thoughts of summer outings suggest summer quarters, and the portable cottage on view something to tempt to envy the woman would-be-buyer whose monetary allowance fails to keep pace with the ideal show for the public generally, it is perhaps women who are its most appreciative visitors and patrons.

LAST MEETING OF TRAVEL CLUB

The Toronto Travel Club held its last meeting for the season in the form of a memorial to its late president, Mrs. Denison, on Tuesday evening at the "Holy City," and Mrs. Fahey contributed "Beautiful Isle of Somewhere" and "Jerusalem." Others who took part were Miss Myrtle Wright, and Mrs. McCaul.

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1913 I was attacked by muscular and inflammatory rheumatism. I suffered for over three years. I tried every remedy that a doctor could give me, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and I have never returned. I have given it to a number who have been cured, and I can even bedridden with rheumatism, and it effected a cure. I want every sufferer from any form of rheumatism to try this marvelous healing power. Don't send a cent; simply fill out the coupon below and I will send you the remedy. If you have used it and it has proven itself to be that long-looked-for cure, please let me know and I will send you the price of it. I do not want your money unless you are perfectly satisfied to send it. Don't that fail? Why suffer any longer when positive relief is thus offered you free? Write today.

I accept your offer.

ECONOMY COUNTS IN RAISING POULTRY

Practical Breeder Can Find Many Ways in Which to Save Money.

BY BERT CONNELLY.

The poultry business has only recently risen from the obscurity of merely "keeping hens," and has taken its rightful place as a properly qualified industry. We are a few paces behind in economics, but we are "coming."

Somewhat to think of the money is needed to keep enthusiasm up to the proper level. The man who is looking to poultry for his living and the one who is interested in it merely as a fad are both asking the same question: "What is it pay?"

The answer is simple; make the expenses less than the income and it will surely pay.

The largest bill of expense on a poultry farm is the feed bill. Therefore, since grains of all kinds are cheapest in the fall and early winter months, the poultry farmer should plan to have some ready money available, so that he may buy much of his grain at that time of the year. By fall he should have sold off his surplus chickens, cull stock, and old fowls, and the money should be invested in grain for the coming season.

There will be less waste in ground feeds if they are used in grain boxes or barrels, for there is considerable waste in constantly dipping feed out of bags. If one has sufficient storage room, ground feed can be bought in quantities of one ton or even half ton quantities. In this feed fed dry the hoppers will not waste the grain. If wall hoppers are used, drive long nails thru the mesh of the hopper about five inches apart, which will prevent the fowls from throwing the grain out.

Another great waste of feed is in indiscriminate feeding. Chemists have analyzed grains and have ascertained the proper amount of each grain to be fed to a hen to lay the most eggs. If this feed is fed dry the hoppers will not waste the grain. If wall hoppers are used, drive long nails thru the mesh of the hopper about five inches apart, which will prevent the fowls from throwing the grain out.

Indiscriminate care is another source of waste. It is of little avail that the birds are fed right if other conditions are not right. Hens may be fed a balanced ration approved by the latest poultry experts, and yet not lay eggs if they have not clean quarters, warmth and light, access to fresh air, sunshine, and if they are not provided with means of exercise and plenty of clean water. These products of the feed, valuable time, and feed of good quality may be wasted thru neglect of these essentials.

WOMEN'S MUSICAL CLUB

Plan of seats now open at R. S. Williams Sons, 115 Yonge Street, for concert in aid of Secours National, Wednesday, April 12, Columbus Hall. Souvenir program and French flowers will be sold at a small fee.

SEE THE "CANADA FIRST" BOOTH

The "Canada First" demonstration at the Ideal Home Show gives much interesting information to the visitors. The old idea that condensed and evaporated milk are only good for isolated communities where fresh milk is not available is shown to be entirely wrong. These products offer the city housewife many advantages and enable her to effect very considerable economies. First there is the elimination of waste. If any perishable dairy milk is left over, it is lost. If sufficient is not taken at the daily delivery there is inconvenience. It is not always possible to know in advance just what the requirements will be, but with "Canada First" Evaporated Milk the Evaporated Milk is superior. It may be whipped, like cream, and used on fruit salads or jellies. In coffee or cocoa it enhances the flavor and there is an entire absence of the greasy scum that results from using fresh cream, because the milk is homogenized, the fat globules being broken up and incorporated into the whole milk. The "Canada First" demonstration is more than an advertisement—it is distinctly educational.

C. A. B. Brown and Mrs. J. L. Hughes also spoke.

SOLDIERS' COMFORTS SHIPPED.

Mrs. Arthur Van Koughnet reported that the weekly shipment made from the soldiers' comfort department at 84 Bay Street was 430 pairs of socks, 242 towels, 235 face cloths, 277 packages of paper, 200 boxes of ozo, 38 gauze underliners, 20 service shirts, four sets underwear.

Other contributions were quantities of tobacco, cigars, jam, sweets, pencils, novels, and 1225. The demand for comforts is as great now as it was, the mud and water in the trenches making the need of comforts very urgent. Weekly receipts for Belgian relief, \$194.35; total receipts, \$25,100.00.

Strange Whiteness of the Moon

The moon has no light of its own, and shines thru being illuminated by the sun. What sort of a surface must the moon have to reflect the light so whitely as it does? This question is put forcibly in a letter to Nature from J. Everhard of Srinagar, Kashmir, who describes the moon as far whiter and more brilliant than the white-clad summits of the Himalayas when these are still lighted by the sun. He writes:

"Why does the moon appear so white, if it is composed of rocks similar in reflecting power to those on the earth? The rock surface of the moon should reflect far less light than the cloudy surfaces of Venus and Jupiter, and it would be of interest if those who know would explain the apparent whiteness of the moon as seen in daylight."

A direct comparison of the moon with terrestrial rock surfaces illuminated by sunlight is possibly to some extent vitiated by the superimposed blue light scattered by the intervening air, which may affect the color of the moon. Let it be very difficult to believe that the moon's surface is an almost pure white.

LETTER FROM I. O. D. E. WAS MISUNDERSTOOD

Order is Not Opposed to its Members Assisting on Kitchener Day.

Mrs. Albert Gooderham, president of the Daughters of the Empire, has issued the following statement:

A letter sent out by the regent of the Municipal Chapter of the Daughters of the Empire of Toronto seems to have led to some misunderstanding. The order is not opposed to its members assisting on Kitchener Day. While we are anxious that Queen Alexandra Rose Day, to be held under our auspices, on Thursday, June 15, should be successful, we are not opposed to other patriotic activities, and certainly not opposed to the effort to be made on Kitchener Day to raise money for recruiting. Even in the letter to which reference is taken, it is said "members of the order wishing to assist in other campaigns may act according to their own personal desire in the matter." If this gives any impression that the Daughters of the Empire are to be discouraged from activity on Kitchener Day, we have only to say that no such meaning was intended, and no such possible suggestion could come from this order. During the last 12 months the Daughters of the Empire have raised \$38,000 for patriotic objects. Its members have given their time and energy with no thought of weariness or sacrifice to Red Cross, hospital, relief and all necessary and desirable patriotic objects. So, wherever opportunity has offered, they have been anxious to stimulate recruiting. To suggest that such an order could be hostile to recruiting is to forget its whole character and all its objects, and to do it is most denigratory for the very work it is most anxious to do.

HURRY UP, EARLE.

Motion Picture Editor: Enclosed you will find twelve votes for "Earle Williams." We think him the best actor on the screen and are surprised that he has not headed the poll before now. Hamilton appreciates good actors, and Earle Williams is the great favorite here. Trusting that he will soon be on the top of the list.

HAROLD'S DECISION.

Dear Editor: I have seen both Grace Cunard and Mary Pickford in the movies, and my decision is that Grace Cunard is by far the better actress. I criticize the many Toronto people who say they must vote for Mary Pickford because she was born in Toronto. I wish all the actors and actresses every success, no matter where they were born, but hoping Grace Cunard will win the contest. Harold Mason.

THEY ADMIRE ANITA.

115 Silver Birch Avenue, Toronto.

Motion Picture Editor: Enclosed please find three votes for Mary Pickford. Her pleasing personality holds one even if she plays a little. We residents of the Beach at least would like to see her in the movies, admire Anita Stewart, but we fully realize that she is not well known to take first place in this contest. But any person seeing her in "The U.S.A." would never care so much for any other actress. However, I am quite sure Mary Pickford will win, as she is so well known and liked wherever she plays. A. M.

MARY IS HUMAN.

Toronto.

Motion Picture Editor: An enclosing six coupons in favor of my favorite, Miss Pickford, with our best wishes for her success. Surely no other movie actress could take "Little Mary's" place in Toronto hearts. Little Mary does not need time clothes to make her attractive, her natural beauty, charming personality, winsome manner and wonderful changes of expression are but a few of her assets.

WOMEN'S AUXILIARY OF CENTRAL Y. M. C. A. MEET

Plan to Increase Quantity of Comforts Sent to Secretaries at Front.

Mrs. Peacock presided at the regular monthly meeting of the Women's Auxiliary of the Central Y.M.C.A. yesterday afternoon, when plans were discussed in full for increasing the number of boxes being sent each week to the Y.M.C.A. secretaries at the front. Besides looking after the members of the Central Y.M.C.A. Toronto battalions, the auxiliary is taking great interest in the comfort of the secretaries at the front. The reports of the month were read. The balance on hand is \$46.15.

In the evening the Ladies' Auxiliary tendered a banquet to the men of the Central Y.M.C.A., the speaker and guest of honor being Fred B. Smith, an active worker in the States.

NOT SURPRISED.

Motion Picture Editor: I am not at all surprised to see Miss Cunard leading in the contest for the certainly beautiful actress. I saw Mary Pickford in "Home Fokks" last week and I don't see why people rave about her so much. Grace Cunard has her "skinned a mule" every way. Wishing Grace every success. Mrs. J.

MEENY MEENY MINY MO By Will Nies

HOW did it ever come into being—this phrase of little-boyhood and little-girlhood? Who invented it? Who first used it to "count out" and let Chance settle who should be "it"? Some very wise professor possibly can tell—but every rosy-cheeked boy and every dimple-cheeked girl knows it, and that's what is REALLY important, isn't it?

Of course, the three men in the picture may not actually kneel before the little lady, but their HEARTS do every time they see her. And when they are absent they're pleading all the time for her to decide. Oh, it's often that she "counts out" in her perplexed little heart, for sometimes 'tis the only way she CAN decide. But she knows that it never will be really and truly settled which is THE one, until HE sweeps indeliciously aside and settles it by TAKING her for himself.

New Ways of Preparing Fish

FISH are at their best, are lower in price than they have been for some time, and should be freely used on the home table. Here are a few new ways of preparing familiar fish.

WINIFRED BLACK WRITES ABOUT Love, Love Poses and Sentiment

"WELL," said the woman of sentiment, "I don't believe a word of it. I don't care what any body whispers or hints or tries to make me imagine. I knew them both for years and I never saw him anything but absolutely devoted to her. And I loved him for it. He was better looking than she was and I think a year or so younger."

Hints for Poultry Keepers

WATCH the little chicks which are hatched during this month. They need careful attention. A little chilling now may result in bowel trouble. Keep the brooders clean. A little extra effort in this direction will do much to keep the little chicks in good condition.

HOUSEHOLD HELPS Milk Bottle Insurance

NOW is the time for all good housewives to consider ways and means of insuring milk against the impurities of the air and contamination from the insect pests that warmer weather encourages. It may seem that when we buy bottled milk instead of milk dipped from a dirty can that we have progressed a long way. But even with this excellent advance there is still a possibility of contamination, if proper precautions are not observed.

Tax Hint

When a man has built a barn—Tax him! When he has cleared a farm—Tax him! When he lays another roof—Tax him! When he grows another hoof—Tax him! When he gets the proof—Then tax him!

HOW TIME FLIES!

"Mary, aren't you up yet?" called the mistress. "Here it is seven o'clock Monday morning; tomorrow is Tuesday and the next day Wednesday—half the week gone and no washing done."

The Amateur Gardener

If you purpose to plant roses it is time that you make a selection of varieties and send in your order to the florist. You should have seen that they can be planted as soon as the ground is cleared of snow.

SOME FACTS ABOUT OUR MARKET AND ITS SERVICE

—Good housewives demand three things of the food they prepare for their tables. Is it clean—is it fresh—is it nourishing?
—Good housewives shop in the market where they know these essentials are insisted upon in every article offered for sale.
—The Simpson market is clean. A visit here will convince any woman at a glance—and inspection "behind the scenes" will reveal the same care and attention that makes the selling counters so attractive.
—The Simpson market offers for sale only meat and bacon that bears the government stamp. Not nearly all the meat offered for sale in Toronto is government inspected. If you are not getting meat from here, are you getting meat that is inspected and stamped—or are you taking chances with meat that comes from you know not where, and may easily be not what it should be to be set before your family?
—The Simpson service does all that can be done to get the merchandise from the market to the customer in the quickest, cleanest way. All parcels not taken are kept in a special refrigerator until the time for their delivery. The care given to telephone orders has resulted in a host of pleased customers. The men filling these orders know meat—and if you telephone for "the best" you get it.
—The Simpson night telephone service, from 5.30 to 10 o'clock, on Thursday and Friday nights, was started to help you to help us to serve you. Telephone Thursday night for Friday's fish—telephone Friday night for your week-end supplies—in each case they catch the first morning delivery.
