VICTORY LOAN OFF TO A GOOD START

(Continued from Page 1.) shadows resting upon us." He referred to the military situation in Russia and Italy, but "we know" he said, "that the British navy and the brave lads in Flanders are holding the line." He pictured the Canadian soldiers holding guard even while the meeting in Massey Hall was in progress.

Sir Thomas White Speaks. Mr. Mitchell introduced Sir Thomas White, who rose to speak amid prolonged applause. Sir Thomas explained the purposes, objects and significance of the Victory Loan. He amplified the points brought out by the motion picture story. The purpose of the loan was, he said, to enable the men on the battle line to fight victoriously. Three hundred and fifty thousand men had been sent overseas, the flower of the youth of Canada, who were fighting nearly 8000 miles from home.

Another purpose of the loan was the establishment in Canada of credits by the imperial government by which it could purchase supplies here. Sir Thomas enlarged on this point by giving details as to how such financing was done and the manner in which exchange operated. Great Britain's commitments were four thousand million dollars when Sir Thomas White was in England, and in this connection he said Canada had handled through its finance department one thousand million dollars. He told how England had mobilized its resources to assist her allies.

United States Part. The significant event of the year, continued Sir Thomas, was the entry of the United States into the war. This meant the assuming of the program of expenditures for the year of eighteen thousand million dollars. "The United States became the banker of the allies," he said. The money secured from the United States was to be spent largely in that country.

making prosperity from coast to coast. Sir Thomas mentioned how England has a market for Canadian products. He mentioned munitions, cheese and other things, but when he mentioned "bacon," everybody laughed.

Continuing Sir Thomas said the question was, "How will the British Government establish credits whereby sale and purchase may be affected?" "It is a great business opportunity," he answered. "There never was so much money in Canada. The aggregate national wealth is far greater than it was at the outset of the war," he said.

that will be an inspiration to the entire outside world if the people will only save and buy Victory bonds. We want 400,000 subscribers to this loan. You've got the best security that can be offered and more interest than should be given."

In conclusion he touched briefly upon the Victory Loan organization and said: "When we start on this on Monday I'll be surprised if we don't make a side show of the Dominion election." (Laughter)

Becoming serious again, Sir Thomas spoke optimistically of the military situation, urging his audience not to be too easily discouraged, and placing great faith in the Anglo-Saxons at the front and the resources of Great Britain and the United States. "I have no doubt as to the ultimate outcome of this war," he said.

Mayor Church said Toronto led all the cities in the overseas dominions in its giving of men and money. It was a small gift, he said, but it had asked and he compared the sacrifices of men that so many homes had made to the sacrifice of money which all could make, and in instalments.

Premier Was Absent. Hon. Mr. McGarry, provincial treasurer of Ontario, conveyed the regrets of Sir William Hearst, premier, that he was unable to be present. "We are all disappointed," he said, "but there are no better securities than those of their own country," he said.

Hon. Mr. McGarry said \$400,000,000 would not have been too much to ask, as that amount would only average \$50 for each person in Canada. He said he would be disappointed if Ontario alone did not give the entire \$50,000,000.

Lyon's Great Reception. Stewart Lyon was given a tremendous welcome, the entire audience rising to its feet. "I thank you for this tribute to the men at the front," he said, in modestly acknowledging the welcome. Mr. Lyon compared the conditions at home to those at the front, and said that while many homes represented in the audience had been touched by the war there were many other homes that had not.

He told of seeing women pulling barges on the canals of France because the horses had been requisitioned for the war. He said that the pleasure riding in Toronto. He urged the saving of gasoline and all other things needed to carry on the war.

Speaking of the Canadian soldiers they were among the best troops on the western front and were regarded by the enemy as well as their own leaders as among the best for offensive or defensive warfare.

"I believe they saved civilization on April 22, 1915," he said. "They remained stationary at Ypres." A description of the Canadian work at Courcellette and elsewhere on the Somme was given, and he said that Vimy 130,000 men were under one command and the battle was called only an "operation." By their gallantry they had earned the feat of the best German troops. It was an army made up of amateur soldiers and had shown that civilization was greater than might. "They have taken the measure of the German," said Mr. Lyon, "and never again will the Germans be able to beat their western allies."

Mr. Lyon told some touching stories of how the Victoria Cross had been won by Canadians at the front. "I do not think of the great number to have you see the necessity for giving money and reinforcements. They need reinforcements—they need money."

Mr. Lyon paid a tribute to the Canadian officers and said he had been criticized for urging a thorough fight for the men of the first and second contingents, but he intended to keep it up, for he believed they needed a rest.

"Don't think you're doing a big thing when you buy a Victory bond," he said. "It is the men at the front who are making the sacrifice."

The musical portion of the program was provided by the band of the 109th Regiment, under the leadership of Sgt. Samuel G. Hall and Frank Oldfield, who rendered vocal solos. The meeting adjourned with the singing of the national anthem.

HUGHES AND KELLY ARE NOT GUILTY

Ralph and Criss Will Be Sentenced Today for Manslaughter.

The jury returned a verdict of not guilty in the case of Sydney Hughes and William Kelly, and a verdict of guilty of manslaughter with a strong recommendation for mercy in the case of Robert Ralph and John Criss, at the assizes last night. The four prisoners were in the dock on a charge of murdering Tarky Naomoff early on Sunday morning, June 30 last.

Naomoff and his companion, Pete Ivanoff, were walking along Booth avenue when they met Gladys Stocks, and it was alleged that one of the foreigners insulted her. According to the prosecution, the girl ran into the house and shouted for help. The four men ran out and, according to Ivanoff's statement, Kelly and Hughes caught Naomoff by the shoulders while Ralph hit him and knocked him down and afterwards Criss kicked him and swore at him.

Story of Prisoners. According to the prisoners, they had all had a drink and nobody kicked Naomoff. Criss said that Ralph hit Naomoff, and as he fell his head struck on a wall, inflicting the wound that caused his death. Ralph said: "I slapped him with my open hand and didn't intend to hurt him, but he fell."

While speaking of the case of Ralph Justice Riddell said: "According to the law, if you have fixed employment and a fixed place of abode I can allow you to go on suspended sentence, so I will consider your case until 10 o'clock tomorrow morning." Criss will also be sentenced this morning.

T. O'Connor appeared for Kelly, T. C. Robinette, K.C., for Ralph and Hughes, and W. A. Menton for Criss, who appeared without counsel.

Skull Was Thin. Dr. Silverthorne, who performed the autopsy, said that Naomoff's skull had been fractured. The skull, he said, was thin, but he refused to say in answer to T. C. Robinette's question that it was very thin.

The fracture of the jaw had been caused by a blow, but the fracture of the skull had probably been caused by the fall on the pavement.

Another purpose of the loan was the establishment in Canada of credits by the imperial government by which it could purchase supplies here. Sir Thomas enlarged on this point by giving details as to how such financing was done and the manner in which exchange operated. Great Britain's commitments were four thousand million dollars when Sir Thomas White was in England, and in this connection he said Canada had handled through its finance department one thousand million dollars. He told how England had mobilized its resources to assist her allies.

"She always does," came a voice from the audience, and here the gathering was treated to an impromptu speech by a man who said, "I'm the man who gave Lord Kitchener the information." That was as much as could be heard.

United States Part. The significant event of the year, continued Sir Thomas, was the entry of the United States into the war. This meant the assuming of the program of expenditures for the year of eighteen thousand million dollars. "The United States became the banker of the allies," he said. The money secured from the United States was to be spent largely in that country.

"Great Britain is not nearly at the end of her financial resources," said Sir Thomas. "It is only a matter of dollar credits in this country." The position so far as Canada was concerned was outlined. The amount being set aside each month as a credit was \$25,000,000, while Great Britain was spending \$50,000,000 a month.

The Supreme Court

Ottawa, Nov. 9.—In the supreme court today, the argument proceeded on the appeal of Gauthier v. the King. The appellant, under license from the Province of Ontario, was engaged in the fishery business on the Detroit River, at Windsor, Ont. The Dominion, wishing to purchase these rights, entered into an agreement with appellant by which the purchase price was to be settled by arbitration, and arbitrators were appointed by each party, and the two appointees selected a third. Pending the further proceedings, the minister of the department at Ottawa gave a notice to appellant, and the arbitrators, that the appointment of its arbitrator was revoked and purchase was abandoned. The other two arbitrators continued the proceedings and made an award, on which appellant brought action which the arbitrator court dismissed. The appellant contended that the crown had no power to revoke the arbitrator's award, and that the arbitrator's award was binding on the crown.

WILL PLAN SOLUTION OF LABOR PROBLEMS

Reconstruction Committee Begins on Number of Important Matters.

Ottawa, Nov. 9.—The reconstruction and development committee held its first meeting yesterday. After taking certain decisions concerning the organization and procedure of the committee, a number of important matters were dealt with. It was decided that a sub-committee on labor problems should be appointed under the chairmanship of Senator Robertson, to which might be referred for study and recommendation problems which would be brought to the attention of the committee. The appointment of a number of sub-committees corresponding to appropriate geographical divisions of the Dominion, and including members outside the government representative of organized labor and of employers, is also under consideration.

He Lives in Constant Fear Who is a Neurasthenia. Fear of Self--Fear of Others--Fear of the Future. New vigor and energy and vitality must be instilled into the depleted nerve cells if cure is to be effected, and this is most certainly accomplished by such treatment as Dr. Chase's Nerve Food. Since the digestive system is incapacitated it is most essential to get into the blood stream the very elements which are found in this great food cure. The blood is made rich and red, the starved nerve cells are restored and revitalized, and with returning vigor and strength and confidence the harmful notions of a diseased brain soon disappear. Nervous diseases take different forms with different people, but to effect cure in any case the depleted nerve cells must be nourished back to health and vigor by such reconstructive treatment as Dr. Chase's Nerve Food.

GRANT MANY EXEMPTIONS ON GROUND OF DISABILITY

Local Tribunals Have Quiet Day, With Most of Claims Based on Medical Examination Sheet, But Decisions in Some Cases Show Wide Differences of Treatment.

Total applications 338
 Exemptions granted 35
 Decisions reserved 69
 Conditional exemptions 4
 Cases appealed 4

With the second day of the hearing of claims for exemption from military service before the majority of tribunals, members of the different boards began to feel that if there are many slackers in Toronto few have appeared before them as yet, to claim exemption.

The number of men who are not fit for service is a surprise, not only to the tribunals, but to all who have followed the work of the medical boards. The vast majority of claims for exemption are based on the medical examination sheet of the applicant, and the work of the members has been largely a matter of examining, till called the men of B, C, D, and E classes.

Employers who have appeared on behalf of their employes have received little consideration from the military representatives. Almost any man they claim to be employed, and the toolmakers, shell inspectors and theoretical experts have been informed that they are more needed at work front than in their specialized work at home.

The representative of one company, applying for exemption of a cost accountant, stated that another man could not be trained for his work inside of six months.

"But you could train a woman in two months," said the chairman.

Urging the public service nature of the business, the man was checked by the military representatives with: "Your company cares as much about the public as a pig cares about astrology."

There is a variance between the consideration given men who are the sole support of their wives and mothers. Some of the tribunals hold that if a woman is under 50 and normally healthy she can be her own support, while others readily grant exemptions, while Harold S. Littlejohn provided the only real excitement at the tribunals, only real excitement at the tribunals, when he professed his claims for exemption by a few terse remarks.

"I consider any man of greater importance to my family than to my country," said he. "That is for the tribunal to decide, replied Mr. Smyth. "Is his presence necessary?" continued the applicant.

"No, but it is most advisable and their presence here is a matter for the tribunal to decide."

As Mr. Littlejohn only had his personal feelings and his views on the subject as a reason for his objection to the facts of his case discussed. According to his own statements, Littlejohn did not believe in war, and least of all in the part he should play in effecting its successful termination.

HEALTHIEST ONE IN THE FAMILY

No Sign of Dropsy and Kidney Trouble Since Taking "Fruit-a-tives."

HATTIE WARREN.

Port Robinson, Ont., July 3, 1915.

"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with kidney disease. The doctor said she was threatened with dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives.' She began to show improvement after we had given her a few tablets. In a short time the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We cannot say too much for 'Fruit-a-tives,' and would never be without them."

Make Your Money Fight!

—THE— A.R. WILLIAMS MACHINERY CO., LIMITED 64 FRONT ST. W. TORONTO

Unto the least of these

RIVET your eyes on this picture of a Belgian mother and child until you realize the true situation. What has become of your resolve to help, even though in a small way, these starving children? Is it too much to ask that you leave your contribution with the Belgian Relief Committee, or buy a money order and mail it? Are not thousands of these orphans in daily danger of starvation because their fathers died in the defence of your comfort and liberty? In the name of justice, do something for these waifs, whose only sustenance at present is a bowl of soup and a slice of bread each day!

Don't Wait for Someone to Come and Ask You

Thousands and tens of thousands of Belgian children, under 12 years old, are in the grip of tuberculosis, rickets or other ills resulting from insufficient nourishment.

Belgian Children's Health Fund—By means of your contributions to this fund, children giving way under the slow starvation, housed, fed, clothed, and given medical attention for six weeks at a cost of about \$20. Thousands are on the waiting list, WAITING for your contribution.

Belgian Orphans' Fund—Think why they are orphans! The sum of \$2.70 a month will keep one orphan in hands where he will have a chance to live and get an education.

Put your sympathy into practical form. Don't shudder—and then do nothing! While you wait, children are dying. Remember—"Inasmuch as ye did it unto the least of these—"

Be generous! Be quick!

Fred. Alfonso Mitchell, class D3, instructed to go up for another medical examination November 16. David Weber, who asked exemption under A, B and C classes and for business reasons, domestic and financial reasons, had his father, S. Weber, appearing for him. He is general manager and treasurer of the Monarch Clothing Co. D. Weber is 21 years old and has several thought he was needed in the business. Osgoode Hall, Master-in-Cham. J. A. C. G. Leavitt, C. W. Randall, Mil. Rep.

H. Mannheim, 89 Baldwin street, owns a printing business which employs 25 men. He asked exemption from military service. He admitted that he had made practically no sacrifice on account of the war, and that he had made no attempt to join the army. J. Levinsky, of the tribunal, said: "I do not like to interfere in this case, but this man has creators who would not doubt suffer should the business be closed. The outstanding liabilities are about \$17,000, of which amount he owes me \$12,000. He bought the business from me about two years ago, and prior to that he conducted it for me on a thirty-three per cent. bonus basis. Probably the enterprise represents an investment of about \$23,000 to \$24,000."

C. W. Randall, the military representative, asked why Mannheim undertook such a responsibility in war time. Mannheim replied that he "did not expect they would ever have compulsory military service here."

J. Levinsky pointed out that making a change in the business and the lowered value of printing machinery, owing to the war, would entail a sacrifice of 75 per cent.

Mannheim was given exemption until February to arrange his business affairs, and he will then have to come again before a tribunal.

**Mass of Hot Water
Before Breakfast
a Splendid Habit**

Ten ounces of the system each
morning and wash away the
poisonous, stagnant matter.

Those of us who are accustomed to
feel dull and heavy when we arise;
suffering headache, stuffy from a cold,
tongue, nasty breath, acid stomach,
aching back, indigestion, both look
and feel as fresh as a daisy always
by washing the poisons and toxins
from the body with phosphated hot
water each morning.

We should drink, before breakfast,
a glass of real hot water with a tea-
spoonful of limestone phosphate in
it to flush from the stomach, liver,
kidneys and ten yards of bowels the
poisonous day's indigestible waste, sur-
plus and poisonous toxins; thus cleans-
ing and purifying the entire
alimentary tract before putting
more food into the stomach.

The action of limestone phosphate
is wonderfully invigorating. It cleans
up all the sour fermentations, gases,
waste and acidity, and gives one a
brilliant appetite for breakfast, and
it is said to be but a little while until
the roses begin to appear in the
cheek. A quarter pound of limestone
phosphate will cost very little at the
drug store, but is sufficient to make
anyone who is bothered with bilious-
ness, constipation, stomach trouble or
indigestion a real enthusiast on the
subject of internal sanitation. Try
it, and you are assured that you will
look better and feel better in every
way shortly.

"Twenty of them have been killed,"
said the major, who stated it was
the saddest case he had investigated
and he would not oppose the granting
of full exemption.

The tribunal placed him in class 3.
W. E. Paisley, 285 Delaware avenue,
claimed exemption on the grounds of
ill-health and submitted a certificate
from his physician to substantiate his
claim. He was ordered before another
medical board and will appear again
today.

Fred Westmanotte, 23 Follis avenue,
aged 32, applied for exemption on do-
mestic grounds and the importance of
his present work as a dairy cost ac-
countant with the City Dairy. Major
Switzer opposed the claim, while J.
Pindley of the dairy gave evidence of
his indispensability to the company.
He was given exemption until January
15.

When told his only sister would receive separation allowance if he went to the front, W. A. Olsen, 479 Dupont street, withdrew his application and said he would be glad to go.

The tribunal disagreed in the application of Wm. McLeod, 495 Ossington avenue, who stated he was the sole support of his mother and 14-year-old sister. He is a drug clerk, 20 years of age. The claim, on account of the disarrangement, at once goes to appeal.

Harold S. Littlejohn, 355 Ossington avenue, took exception to the presence of the press, but was not given a private hearing. SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound, now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears so natural and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

K. G. Sutherland, a tool maker, 123 Cowan avenue, claimed the national importance of his work, but the tribunal thought he would be of greater service at the front.

On Monday

CANADA'S Victory Loan campaign will open on Monday, November 12, in every city, town and village of this broad Dominion.

In every province there is a provincial headquarters. In every county and township there is a county or township headquarters. The whole country has been organized so that everybody will have an opportunity to help make Canada's Victory Loan a triumphant success.

Commencing on Monday, thousands of workers will begin a canvass that is designed to reach practically every man and woman in Canada.

When one of these canvassers calls upon you, remember that he is doing work of national importance. He is entitled to, and should receive, a cordial hearing. He is an accredited agent of the Victory Loan Committee to sell Victory Bonds.

And remember also, the two-fold purpose for which Victory Bonds are being offered—the maintenance of Canada's fighting forces and the establishment of the credit Great Britain requires so that she may continue to buy supplies in Canada.

And then, think of the value of Victory Bonds as an investment paying good interest and secured by the signed pledge of Canada, backed by all her boundless resources.

TRIBUTAL NO. 364. Domestic Science Bldg., Bloor St. W. R. Smyth, R. D. Ross, Lieut. E. F. Gustin, Mil. Rep.

John E. Mills, 563 Delaware avenue, was ordered to bring proof that he is under 20 years of age.

George Henry Allen, 512 Clinton street, will be permitted to present his case later.

Michael James King applied for exemption, but as a wife and family and other reasons made it unnecessary for him to have one.

When told his only sister would receive separation allowance if he went to the front, W. A. Olsen, 479 Dupont street, withdrew his application and said he would be glad to go.

The tribunal disagreed in the application of Wm. McLeod, 495 Ossington avenue, who stated he was the sole support of his mother and 14-year-old sister. He is a drug clerk, 20 years of age. The claim, on account of the disarrangement, at once goes to appeal.

Harold S. Littlejohn, 355 Ossington avenue, took exception to the presence of the press, but was not given a private hearing. His claim was on the ground of his importance at home against that of a fighting man. His father is in Jamaica, but contributes to the support of the family. The tribunal refused to grant him exemption.

John C. Morrison, 14 North Shaw street, was exempted till class 3 and called as he is the sole support of his mother and has three brothers overseas. Duncan Macdonald was placed in the same class.

F. Siddolph, 105 Marchmont road, class E, was exempted till called. E. L. Pratt, 751 Dupont street, was asked to produce his medical sheet, which he claims places him in C.

Edward Fyles, class E, 89 Pears avenue, was granted exemption. E. G. Morley of the board of trade furnished grounds for the exemption of F. D. Tolchard, of 786 Ossington avenue. He is in Washington doing work of national importance with the British war mission. His work is under the supervision of F. W. Woods and the young man is exempted so long as he is in this work.

Luke Mills, 4 Marchmont road, applied for exemption, but failed to put in his medical sheet, which he states is marked class E.

John Jackson, 12 Belmont street, was exempted till his class, B, is called out.

TRIBUNAL NO. 365. Templars' Hall, Queen & Devere's. D. Urquhart, J. F. Ellis, Major E. L. Harrington, Mil. Rep.

William W. Conroy, assistant foreman of the Russell Motor Company, 18 Springhurst avenue, claimed exemption on the ground of being the sole support of his widowed mother and one sister of school age. One brother is in the army and every eligible relative has enlisted. Decision was reserved.

T. W. Peer, 13 Close avenue, called to withdraw his exemption claim. He had previously applied for admission to the royal naval air service and was notified of his acceptance.

A. H. L. Clark, of 13 West King street, was refused exemption, though he urged the necessity of his contributing toward purchasing a house on the installment plan for his family. He has a father and two brothers living.

George Cook, 60 Wright avenue, claimed exemption on the ground that as his parents are both dead and two brothers are at the front he is the only remaining one to carry on.

Rupert M. Spets, 149 Dowling ave., claimed exemption on the ground that his work as inspector of aeronautics is of national importance.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound, now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears so natural and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

K. G. Sutherland, a tool maker, 123 Cowan avenue, claimed the national importance of his work, but the tribunal thought he would be of greater service at the front.

C. H. J. Webber, Salvation Army officer, claimed he was a preacher, and decision was deferred pending further investigation.

A. T. Kyle, 29 Starr avenue, asks for exemption on account of ill-health, and was referred to a medical board.

J. P. Foley, 14 Wright avenue, made the same claim and was likewise sent up for examination.

For Victory --

What it means to "Finance Our Export Trade"

Till the present we have had our export trade in war materials "financed by the mother country"—in other words, the British Government has bought goods from us and paid us for them in gold.

Henceforth Canada will have to "finance" her own export trade—that is, she will have to accept for her goods promises to pay, and raise among her people the cash to keep her industries going.

This is the underlying reason why the Victory Loan must be a success. The military situation demands it. Our own industrial conditions demand it. It is business with patriotism.

Send in your application to-day.

OVER THE TOP WITH THE VICTORY LOAN

This is Canada's Great Drive---Are You in It?

THIS Victory Loan is Canada's great drive. If you are not taking part in it you are cheating yourself ingloriously of the greatest privilege that ever came your way---your share in the great victory that shall be.

THIS is your chance to be a partner with those friends of yours that are over in France!

YOU are called upon to serve---not "over there," ---but here, in safety.

THINK of your pals over there, and what they have given, voluntarily! You've been going about for more than three years, comfortable, safe, well-fed, making money---now what are you going to *lend*---not give, mind you, but only lend at a good rate of interest?

YOUR pal in France does not offer one-tenth of his life to his country---he offers it all! Remembering this, what percentage of your worldly goods are you going to *lend* your country?

YOUR usual money surplus, your usual comforts, your usual amusements are not the requisites of *MEN* when heroes are dying!

Canada's present business is war! Don't let us be talking in terms of investment when it really means human life. How much can you lend to save the life of a friend?

How Many Bonds Are You Going to Buy?

MAYBE you haven't been figuring this on the right basis. For example how much would you pay to prevent the Hun from attacking your home and family? Whatever that amount is, lend it to the Government! Canada and the Allies are protecting *YOU* and it costs money.

HOW much does *your country* mean to you? Think it out for a while and your answer will be the amount of your Victory Loan Subscription.

THE man power of Canada is enlisted---*now* the Government asks you to lend them your money to make your men effective.

BUYING Victory Bonds will teach you the good habit of thrift and while your money is in the hands of the Government it will be working to help Canadian soldiers protect *you!*

AFTER all, all you do is merely exchange one kind of Government money for another kind---and the kind you get pays a handsome rate of interest!
