COURT MARTIAL BEGUN TODAY ON THE NIOBE

Case of Lord Allister Graham, Officer On Watch, First Taken Up

Commander of War Vessel, First Witness, Details Circumstances of Stranding of The Niobe—Thinks he Should Have Been Called From His Cabin Earlier—The Court

(Special to Times.) Halifax, N. S., Nov. 15.—With all the ceremonial of naval affairs of its kind the court martial into the stranding of H. M. S. Niobe, the flagship of the Canadian fleet, off Cape Sable on the night of July 29, was begun in the dining-room of the commandant of the Niobe this morning when Lord Allister Graham, the officer of the watch on the night in question was formally accused of causing the stranding. At the conclusion of Lord Graham's case, those of Navigation, Lieutenant White and Commander W. B. MacDonald, the officer of the Niobe will be taken up in turn.

The court is in writing to frequently steady the ship on her course by standard compass. He expected the officer of the watch to fix the position of the ship on the chart when the navigating officer was below. The ship's position had been fixed by the accused after passing Blonde Rock buoy. Twenty minutes after passing Blonde Rock buoy the witness told the officer of the watch the tide expected. It was almost parallel of the coast, but highly on the starboard bow. The direction of the wind was southwest. It was the duty of the accused to place lookouts above and below, but he did not think he had had a chance as fog came on very quickly. The fog came on in a few seconds, and he placed lookouts himself.

BRIDGE PARTY OPPOSE MR. BAXTER

Talk of a Candidate From Lancaster District Because of Dis-satisfaction Over Suspension Bridge matter

It is said today that there are prospects that J. B. Baxter, who was chosen as Conservative candidate for the John county at their convention last night, will not go to the legislature without a fight. James Lowell intimates last night that the Liberal party would not take the trouble to contest the seat, as the general election is so close at hand, and it is rumored that there will be strong backing for an independent candidate.

It also confirms a report that Manchuria has declared its autonomy and the administration of the government has actually passed into the hands of a committee, who have adopted a strong course to maintain public order.

Constantinople, Nov. 15.—It is said that fighting last Friday at Tripoli proved the most serious check to the Italians, whose left wing was almost annihilated, there being 200 Italians killed. The Turks are reported to have lost only eighty men, and twenty-two wounded.

According to the newspapers, Great Britain, France and Russia have assured Turkey that they will not allow the Italians to bombard Smyrna, Salonika, or Beyruth, or to blockade the Dardanelles.

BOY SAT DEAD

Likely Run Over and Killed and Propped up There by Frightened Driver

New York, Nov. 15.—Boiling enthusiasts hurrying through the first snowstorm of the season to the Fairmont Athletic Club last night, saw a small boy seated on a pile of building material across the street. Some one shouted to him, thinking that he would freeze to death there, and when he did not answer another man climbed up on the pile and found the lad dead.

His back was broken, his body crushed and his skull fractured. The police believe he was run down by an automobile on a heavy track, and that the guilty driver had propped the mangled body up against the lumber, and driven off, without so much as calling aid. The lad was identified as Howard Mangold, the six-year-old son of Charles Mangold.

NEW YORK WINKS STRIKE

Garbage Collection Today Almost Normal—Night Work Enforced

New York, Nov. 15.—No doubt remains that the city has won its fight with the garbage men. The collection of refuse, which was abandoned, when the drivers of the street cleaning department struck a week ago, progressed almost as fast today as under normal conditions. The city administration has engaged victorious labor in its first serious strike and established its right to strike hours of labor to its many thousand employees.

Night work, to avoid which the drivers struck, will be resumed as soon as the department can get its forces of green men going smoothly.

Action of German Crown Prince Not Without Precedent—Some of the New Men of the Asquith Cabinet

Heirs apparent to crowns are seldom in accord with the constitutional advisers of the actual occupants of the throne, and the German crown prince's antagonism to the imperial chancellor, Bethmann-Hollweg, so publicly displayed in the Reichstag last Thursday, on the subject of the settlement of the Morocco trouble, is a plenty of precedent.

The present King of Italy was, while crown prince, subjected by his father, King Humbert, to doleful treatment for his denunciation of the policy of Crispi, when the latter was premier.

English Princes Exceptions. King George and King Edward, while billing the position of Prince of Wales were notable exceptions in this respect, and their tact and discretion were so great, that when they succeeded to the crown, no one was aware of their political leanings.

The population was so delighted with this castigation of the premier, that they gave a great ovation to the prince, appreciating which, the elector did not even remonstrate with his son-in-law for thus putting his premier out of office.

The Evening Chit-Chat

HOW long, I wonder, will we go on preparing our daughters, whom we devoutly hope will be happy wives, for everything else but widowhood? Here is a genuine human document on that branch of folly which children—once a baby of seven weeks, and older like-wise. Read the reflect:

My dear Miss Cameron: I believe at one time you said you wished suggestions. May I offer one? My suggestion is to urge mothers to prepare their daughters for widowhood, by teaching them carefully the details of housework and of managing a home.

BRIGHTER IN PEKING

Peking, Nov. 14.—Optimism is the prevailing note in government circles. This feeling was caused by the report that Prince Ching, the acting premier, had received a telegram from General Li Yuan Heng, commander of the rebel forces, saying that he was prepared to treat for peace on certain terms, and by the statement that the army divisions one to six, inclusive, would agree to uphold the monarchial constitution and support Yuan Shi Kai, provided the rebel leaders' terms agreed with those of the army.

EXPECT CONFESSION OF MURDER AND ROBBERY

Springfield, Mass., Nov. 15.—With the expectation of hearing the alleged confession of Bertram G. Spencer that he murdered Miss Martha B. Blackstone, a school teacher, on the night of March 31, an immense crowd surged about the court here today, where Spencer is being tried.

This confession, which the police declare has never been made public. It has been authoritatively said, however, that Spencer, in the confession, laid bare his career for three years previous to his arrest, admitting that he was the man who caused a reign of terror throughout western Massachusetts by daring robberies, and telling in detail of the killing of Miss Blackstone, in the home of Mrs. Sarah J. Dow.

PARLIAMENT. Ottawa, Ont., Nov. 15.—(Special)—The new parliament was formally constituted this morning, when the members took the oath of allegiance and signed the roll under direction of Dr. T. B. Flint, clerk of the commons, and Col. H. R. Smith, sergeant-at-arms as commissioners.

"I do swear that I will be faithful and bear true allegiance to His Majesty King George V. So help me God."

Premier Borden was first to sign the roll, with Hon. F. D. Monk second and Sir Wilfrid Laurier third. The clerk stood at a long table with the roll open before him, a handsomely bound and engraved book, in each member took the oath he wrote his name in the book.

The scene was interesting and animated. The house met at three o'clock without a speaker. The new chair, built in Montreal, is a massive structure of carved oak and mahogany, and as the speaker took the oath he wrote his name in the book.

There were few residents in the town at the time of the slide, and all escaped with their possessions, owing to the slowness of the avalanche. Roosevelt, Idaho, Covered by Lake Twenty-five Feet Deep

Spokane, Wash., Nov. 15.—Roosevelt, the principal town in the Thunder Mountain district in central Idaho in 1902, today is covered by a lake 600 yards in length and 300 yards in width, and of an average depth of twenty-five feet. It was the scene of a gold strike nine years ago and thousands of men have labored in vain to locate the mine. It proved a disappointment; though much pay ore was developed nearby.

The circumstance which wiped the town of Roosevelt from the map was peculiar. It resulted from a landslide two years ago, starting near the source of Mule creek, a mile and a half from the town. The great avalanche of earth and stone plunged its way through a virgin forest with a roar that was heard for miles. Twenty-six hours after the break occurred the mass stopped abruptly across the lower part of the town, forming a dam or barrier across the river.

FACE OF CHOIR BOY MASK OF BURGLAR

New York, Nov. 15.—The choir boy face of Raymond Beke, a fourteen year old Brooklyn boy, blue eyes and golden hair, made burglary so easy that he told the police today he had robbed so many places he could not remember them all.

When the police first burst a can full of jewelry to which the lad had directed them, they expect to learn more about his exploits. Raymond was arrested last night in a theatre. His love of the footlights caused him to use a stolen ticket and this led to his detection.

### COMPARATIVE PRICES

The last volume issued by the Department of Labor under the very able Minister, who gave distinction to that office during the Liberal government, is a study of the comparative prices of food products in Canadian and American cities during the past five years. It is a sort of a by-product from the work in connection with the extended study of wholesale prices in Canada during twenty years. That report roused immediate and widespread attention as a result of the light which it threw on many aspects of the economic situation, such as the effects of price changes, the cost of living and the causes of changes in the general price level. This present study of comparative prices is hardly less important.

In discussing the cost of living and the influences making for the marked and rapid increase, the distinction is not often made between what is fundamental, pervasive and controlling and what is accidental, sporadic, and subordinate. In the question of increased prices today, there are a few central matters of fact, which must be assigned to their right place if we are to have any chance of thinking straight through the problem. The first of these matters of fact relates to the degree in which the increase has taken place. This is of itself, a difficult matter to determine. What is a fair measure of the present advance of general prices? How determine a normal level? This is difficult to do when the price of a few definite articles is considered, it is an extremely complicated problem when we consider the whole question. Before the general rise in prices there was an equally remarkable fall. A little over a decade ago the air was full of wailings over low prices as it now is of complaints of high prices. This should not be overlooked in considering the subject.

Price is the relation between other things and gold. During seven years before 1900 the average United States production of gold per capita was 74 cents, and since 1900 it has been 120 cents, an increase of 62 per cent. The money in circulation in the former period was \$23.82 per capita, in the latter period, \$29.57—a gain of more than 24 per cent. Economists of all schools realize that the more gold there is in circulation, the higher must be the price of commodities measured by those standards. It is very evident that the prices, that is, the amount of gold it is necessary to pay for things cannot, be independent of the amount of gold available in the world. There is no more reason that an ounce of gold should always have the same purchasing power, no matter how much gold there may be in the market, than that a bale of cotton should always have the same purchasing power, no matter how much cotton there is in the market. The amount of gold has increased everywhere (but in the pockets of the people) at an unprecedented rate during the past twelve years. This is the central fact in the situation today. Owing to the freedom with which gold flows from one country to another, this circumstance affects prices throughout the civilized world. The world wide rise in prices is due primarily to the great increase of the world's stock of gold.

### LEAGUE OF ENGLISH SPEAKING NATIONS

Dr. J. A. Macdonald Develops a New Line of Thought—Canada's Part in It

Toronto, Nov. 13—A vision of a league of all the English speaking nations and the development and growth of a world empire of free nations into which nations shall enter, was described on Saturday evening by the student members of the Literary and Scientific society at Victoria college by Dr. J. A. Macdonald, who spoke on the Place of Canada in the English-Speaking Race. It was this conception, Dr. Macdonald said, which more than anything was now holding the parts of the British Empire together, and which was to make the generations to come more loyal to the flag than any who had gone before.

"And Canada," the speaker said, "of all the nations of the world has the chance of making this league of the English speaking people potential in the world. It is for Canada to illustrate to the world more clearly than has ever been done what democracy really means."

### "NO NEW THING UNDER THE SUN"

Recently there was quoted a saying of Charles A. Dana to the effect: "When a dog bites a man, that's not news; when a man bites a dog, that's news." One is reminded that no good thing can be original today. This is a variant of an apothem which appears in the classical literatures in more than one form. Plutarch says that the son of Ariston, when certain diviners announced as a portent the fact that a snake had coiled itself around the bolt of a door, replied: "It doesn't seem so to me, but if the bolt had coiled itself around the snake, that would be a portent." Clement of Alexandria attributes the same remark to Dio-genes, and Cicero recounts it without naming the author. Clement says that Bion the Borysthenite remarked: "What wonder if the mouse, not finding anything to eat has eaten the meal sack? For this would be the thing worthy of note, if the meal sack had eaten the mouse." Augustine quotes Cato, when consulted by a man whose boots had been eaten by mice, as replying that there might have been real reason for wonder if the reverse had been the case.

Nothing is more foolish than the reproach of plagiarism. The writer cannot find all the material for his art within himself. He is entitled to lay his hands upon whatever material he finds newsworthy for his work. Shakespeare well knew his and all great writers before and since. Even Dante took his material for the Divina Commedia from St. Peter

### SQUARING THINGS

(Pittsburg Sun.)  
It is true I've forgotten the day sweet heart;  
We were married just ten years ago,  
Perhaps you are right—and yet for my part  
I can scarcely believe it is so!  
Day glides into day in the endless bliss  
That you have brought me, my dear,  
So I heed not the light of time, and this  
Seems to me but our very first year!

And I have forgotten your flowers today!  
I am sorry, dear heart; it is true,  
But my wife have wandered so sweetly astray!  
I've been dreaming, my darling, of you  
And so, without gets of heavy or puff,  
I stand, a culprit, dear wife;  
I can offer only my heart and myself  
To give you, my own, is love!

There! I am forgiven, and all is well;  
Our joy in the day looks taught;  
For joy is a thing that the shops don't  
sell.  
And with love alone it is bought!  
I am glad 'tis thus in this costly age,  
With its prices so high above,  
All I can afford, on my present wage,  
To give you, my own, is love!

TACT SHOWN BY WIFE OF AMBASSADOR

Lady Lowther Brilliant Figure in British Embassy in Constantinople

REMARKABLE FAMILY

Lord Curzon's Solemn House Party—Governors of Royal Children While King and Queen are in India—The Marchioness of Donegal

(Times' Special Correspondence)

London, Nov. 14.—People who have just come back from Constantinople—and there is always plenty of going and froing, as we say, between London and the Bosphorus on the part of diplomats, attaches and foreign office folk—are saying that the brightest house (or should it be palace?) at the Golden Horn is that of the British ambassador, Sir Gerard Lowther.

Lady Lowther is entirely charming and indeed may be termed brilliant for not only is she tall, swift and graceful, but she has the knack of languages. Of course she talks French and German fluently, but, moreover, she has picked up more than a smattering of Turkish and talks now and again to the public and officials in their own tongue, which flatters them very much.

The Marchioness of Donegal Lord Curzon of Kedleston, the ex-Viceroy of India, does not entertain his mother-in-law, Mrs. Joseph Leiter at Hackwood Park, which some years ago he bought from Lord Belmont. In honor of his guest he has had several parties—sold and did as usual. Somehow, good man though he is, he does not get along with his wife. The note of the house is seriousness. The late Lady Curzon was friend of Queen Mary, and an exceptionally clever and lively girl. She was one of those sunny-tempered people, whom one might call "the Queen's friends."

MORNING NEWS OVER THE WIRES

Horace Brisley, aged eighteen, of Can-noe, about fifteen miles from St. Stephen, lost his life in the woods on Sunday. He was out with a couple of boys named Harty, and when separated from them they heard him cry out that he was shot. One of the boys found him wounded, and went for help but his companion was dead before he returned.

Residents of Sackville believe the population of the town to be nearer 2,700 than 1,380, as given in the census returns, and the Board of Trade is planning inquiries. Edgar W. Mix, an American business man, and a noted aeronaut who had resided in Paris for some years, is believed to have committed suicide by jumping from a steamer in the English Channel.

London, Nov. 14.—The Thames Iron Works Shipbuilding and Engineering Company, Ltd., appeared in the bankruptcy court today and a receiver was appointed. The company is just completing the British battleship Thunderer and its failure to obtain a contract for a battleship in this year's naval programme was the cause of its embarrassment.

Sackville, N. B., Nov. 14.—The opinion is freely expressed here tonight that the population of Sackville town as given in today's Telegraph is much too small. The feeling is that the population is at least 2,500, whereas 1,380 are the figures given. It is understood that the local board of trade will take the matter up with a view of ascertaining where the error has occurred.

Yarmouth, N. S., Nov. 14.—(Special)—Captains R. M. Ferguson, J. W. Boyd and George Wetmore held a survey on the wrecked schooner Reliance, Capt. Loemer, which went ashore near the Hen and Chicken buoy yesterday morning and decided that the vessel is of total loss, and ordered the captain to get all the rigging removed as quick as possible.

London, Nov. 14.—(Special)—A transfer involving the sale of 30,000 acres of lumber lands was closed yesterday when an American syndicate, composed of Perry Black, Edgar Fillmore and I. J. Roy, secured the lumber limits owned by Chase and Davidson Hill, near Toronto. The Hill lumber areas have been looked upon as among the finest timber producing properties in the province. The syndicate expects to cut not less than 6,000,000 feet this winter.

Toronto, Nov. 14.—N. W. Rowell, the new leader of the Liberal party in Ontario, opened his campaign tonight at a mass meeting in Massey Hall. The meeting was well attended, and Mr. Rowell received a good hearing.

ABSOLUTELY VICIOUS

An enthusiastic angler was telling some friends about a proposed fishing trip. "Are there any trout out there?" asked one of the listeners. "Thousands of 'em!" replied the angler. "Will they bite easily?" asked another, anxious to draw out the fisherman. "Will they? Why, they're absolutely vicious!" was the reply. "A man has to hide behind a tree to bait a hook."

### GOES ACROSS BORDER

Rev. Dr. E. F. Brainshaw, who resigns the pastorate of the Northern Congregational Church, Toronto, to accept a professorship in a university in the United States.

Speaking last evening of the lumber industry in New Brunswick, Governor Tweedie said that fully sixty million feet of lumber was still lying up on the Miramichi from last year's cut. The reason was that the price for deals had not been such as the operators in that section of the province would accept.

The village of Rembarr, in the mountainous region of Pisanois, in Germany, possesses a linden tree which is said to have reached the age of 1200 years. In summer the tree is said to be magnificent, and its foliage offers shade to 200 persons.

The Simians allowed me to lay down on a rough bed of grass, but never removed the guard that surrounded me. I was fed with wild bananas and nuts, and that was the only food I saw in the balloon village while I was there. I could probably have made my escape, but I did not dare to run any risks.

The balloons seemed to have a small vocabulary of their own, and it was uncanny to watch them talking about, and the females washing their children with far more tenderness than many human beings. I remained with the balloons for two nights and two days, and on the third night I was rescued by a party of my shipmates headed by the boatman.

The shout of "Alo!" there, Gregg, where away, shipmate!" sounded like sweet music to my ears. When the balloons burst the noise they fled to the tall trees and I saw them no more.

CARNEGIE HAS GIVEN AWAY MORE THAN \$200,000,000

New York, Nov. 14.—The Carnegie Corporation, to which Mr. Andrew Carnegie gave \$25,000,000 last week, has nothing to do with the previously organized institutions bearing the name of the ironmaster except as its trustee feel that the purposes of the corporation will be advanced by aiding one or another of these institutions.

According to the figures given in the biographical books, Mr. Carnegie will be seventy-six years old on the 25th of the present month. As those associated with him in the present benefaction understand Mr. Carnegie's motives, the man who has given so many millions to educational projects and other causes which he believed served his assistance, is desirous of relieving himself of the responsibility of giving of all the thousands and one details incident upon an investigation of the various needs and opportunities attracting the attention of the philanthropist; and most of all is desirous that the work which he has been doing in these directions shall go on independent of his age and health.

In amount the present gift ranks among the largest donations made at one time even in the present age of large giving. Mr. Rockefeller gave \$2,000,000 at one time to his general education board, on February 7, 1907. The total of his gifts to that board is said to be about \$23,000,000. Mr. Carnegie is credited with giving something like \$22,000,000 in round figures to libraries, but the donations came from one time to the next presented themselves to the donor. The Carnegie Institution at Washington has received \$2,000,000 from its founder, but the sum in the total of several gifts, including two of \$1,000,000 each. Mr. Carnegie has scattered \$20,000,000 or more among the small colleges of the country, but at various times. Altogether rough estimates of his gifts for the cause of education, peace, research and for hero funds and other philanthropic purposes made before the present \$25,000,000 gift, totalled between \$19,000,000 and \$20,000,000. Mr. Rockefeller's general education fund has at its back a fund of \$33,000,000. But this again is the total of a number of separate gifts, as is the \$25,000,000 and over which the same

ANDREW CARNEGIE donor has bestowed upon the University of Chicago. Some of the principal Carnegie gifts are: Libraries, \$81,000,000 Carnegie Institute, Pittsburgh, 16,000,000 Carnegie Technical School, Pittsburgh, 7,500,000 Pensions for college professors, 21,500,000 Carnegie Institution, Washington, 22,000,000 Scotch universities, 10,000,000 United States Hero Fund, 4,000,000 Dunfermline Hero Fund, 1,250,000 French Hero Fund, 1,000,000 German Hero Fund, 250,000 Danish Hero Fund, 100,000 Steel Company employees, 5,000,000 Dunfermline endowments, 6,250,000 Hague Peace Temple, 1,750,000 Peace Fund, 10,000,000 Allied engineers' societies, 1,500,000 Bureau of American Republics, 850,000 Gifts to United States small colleges, 20,000,000 Miscellaneous gifts in Europe, 20,000,000 Miscellaneous gifts in Europe, 2,500,000 Approximate total, \$205,450,000

PERSIA MATTER UP IN BRITISH COMMONS

London, Nov. 14.—In the house of commons today John Dillon called the attention of the foreign secretary, Sir Edward Grey, to published statements by Mr. Morgan Shuster, the American treasurer-general of Persia, charging that Great Britain and Russia were obstructing his work and interfering with the independence of Persia.

The secretary promised that he would deal with the matter in a statement to be made as soon as opportunity offered. It is understood that Shuster had been informed that his appointed employment of "riders" in North Persia was bound to be of interest to Persia that neither British nor Russian are appointed to administrative posts on the Persian frontiers of India and Persia.

DON'T DO IT

We know it makes you feel irritable, it wonders if you have not driven you to distraction, but don't scratch your hair, you could have put a stop to that crazy itching long ago if you had taken heed of our Parisian Sage talks, but it is not so late now.

This irritation is caused by the Dandruff mite who digs his way into your scalp and settles until every pore of your hair is blocked up. You may see some itching remedies, but they do not get to the mite. You must get the mite out. You must get the mite out. You must get the mite out.

TWO THOUSAND LOSE PLACES BY STRIKE

New York, Nov. 14.—It will be a full week, according to an official statement, before New York wholly rids itself of the garbage which has been an eyesore and health menace in its streets for six days. Street Cleaning Commissioner Edwards said today that he had over 2,500 men at work today, or more than the number of salaried employees, but notwithstanding this it will take until next Wednesday to get the streets cleared of the garbage. The strike so far has cost the city \$136,700 and some 2,000 men their positions.

WALL STREET NOTES OF TODAY

New York, Nov. 15.—Americans in London steady, up 1.8 to 7.8. President not to name successor to Justice Horan before January 1. New York Central raises wages of 6,000 telegraphers and power men.

The International Harvester unit further negotiations for voluntary dissolution. Washington assured that Japan will not seize opportunity to obtain undue advantage in China. President's message to deal with trusts, tariff and Alaska.

Lehigh Valley directors meet today, may make extra dividend. Federal grand jury in Savannah charged to investigate whether or not bear cotton pool exists in Southern Georgia. United Fruit Company declares extra ten per cent dividend.

Reported house committee on rules will push money trust investigation. Senate committee begins trial legislation. C. & O. first week November decrease \$61,931 from July decrease \$13,388. Twelve industries declined 35 per cent. Twenty rails declined 21. DOW JONES.

Wall Street Letter. (J. M. Robinson & Sons' private wire telegram) New York, Nov. 15.—Receiving a little after support in weakness, the active market may soon exhibit rallying tendencies. We do not believe the market will be let out of hand yet by the bill control. Professionals continue to be bullish and are working generally for a further reaction. We find evidence of scale down support, however, and this may check hammering with stop order protection. They will be wise if, for the present, they accept fair profits on the recoveries toward the recent high prices that may be witnessed. Irregularity is again probable.

The legal move of the Chicago packers to escape toll is sensational and may bear important fruit. They declare the criminal revision of the Sherman law to be in violation of the constitution and also assert that the supreme court decision nullified the law. The forces of capital are waking up. The harvest outlook is much considered, but McCormick says the fact that Missouri rises one way and Kansas another, complicates the situation and intimates that the company hardly knows where it stands. This is a time for national incorporation and the supremacy of the national regulation over state matters. It is said by the Tribune, in an administration paper, that Telf is in the way of amending the Sherman law. The Tribune says he is not in a special frame of mind.

—New York Financial Bureau. BIG LIQUOR CARGO Two hundred thousand cases containing 2,400,000 bottles, or sufficient to allow twenty drinks to a bottle, to manufacture approximately 50,000,000 cocktails, was the burden of the S. S. Manchester Spenser, which reached Montreal on Monday from Rotterdam.

The fire department was given a run last night to the government wharf near the U. C. E. tracks for a slight fire on the wharf. The damage was slight.

REV. J. J. MCCASKILL ON ROBERT BURNS Fine Lecture Enjoyed by Large Audience in St. Mathew's Church

Following is a synopsis of the lecture given in St. Mathew's Presbyterian church last night on Robert Burns, by Rev. J. J. McCaskill. There was a large audience and the lecture was greatly appreciated. "There is a certain alchemy in the lead of poetry," said the lecturer, "and it is this alchemy that transmutes the lead of the common man into the gold of the poet. Burns is the poet of the common man. He is the poet of the Scotch people. His memory is celebrated more universally than that of any other human being, and he regards with a greater devotion than any other the soil of his native land."

J. B. M. BAXTER FOR THE COUNTY Some Disappointment But No Other Nomination—Mr. Lovell Will Not Run in By-Election

(Daily Telegraph). J. B. M. Baxter, K. C., recorder of St. John, was the choice of the Conservative convention in Keith's assembly rooms last night, as the provincial government candidate in St. John county, to fill the vacancy created by the retirement of James Lovell to run as the Liberal candidate in the recent Dominion election. Mr. Baxter's name was the only one mentioned, and the nomination was made unanimous. It had been generally understood that J. P. Mosher and R. G. Murray were in the running also, and the name of Councillor Deane of Musquash, had also been mentioned. It was said last night by a prominent Conservative that Mr. Murray had agreed with Mr. Mosher to retire in his favor, feeling that it was due Mr. Mosher on account of his action on two former occasions in bearing the brunt of the fight as the party's standard bearer. It is also said that until the recorder had been chosen had Mr. Murray and his friends the slightest inkling that Mr. Mosher was to retire.

At closing time he was greeted by a gathering of the entire staff and on their behalf George H. Thompson, the chef, expressed the deep regret they felt at the severing of their relations and assured him that, in leaving, he carried with him their best wishes. Their sentiments were also expressed in a more lasting way by the presentation of a very handsome gold mounted silk umbrella, bearing his initials in monogram on the handle. Mr. Menzies acknowledged the gift with deep feeling. He had been completely surprised by this evidence of the good will of those with whom he had been associated.

STORE BROKEN INTO

Moncton Police Seek Leger's Corner Burglars—Hockey Plans. Moncton, N. B., Nov. 13 (Special)—The store of Simon Leblanc, of Leger's Corner, was broken into last night and a large quantity of merchandise stolen. The window through which the thieves effected entrance was taken out and found on the ground near by. There are indications that a team was used in hauling away the goods. The Moncton police are working on the case. Plans for a good hockey league for the maritime provinces this season have finally taken definite shape. A meeting is called for Friday night in Lunenburg. So far as present plans go, Halifax will enter two teams, New Glasgow one, Stellarton one, and Moncton one. It is hoped to include Amherst.

TODAY'S POLICE COURT

William Hanley, charged with being drunk and also with attempting to enter J. Royden Thomson's house in Germain street, yesterday, appeared before Judge Ritchie in the police court this morning and after the evidence of Policeman Marshall, who made the arrest, was taken, was remanded to jail. Hanley pleaded guilty to being drunk, but not guilty to the attempt to enter charge. It appears that he had been hanging around the house the first part of the week and was bothering people. Yesterday afternoon, it is charged, that he tried to force his way into the house. The police were telephoned for and he was later arrested. The case will be brought up again either tomorrow or Friday. William Oram and John Armstrong were each fined \$8 or thirty days in jail, on the charge of drunkenness, while Kenneth Forbes and William Rankine got off with \$4 fines for like offences. Mary Watts, was remanded to jail on a like charge. The case against Robert Tucker, charged with being the proprietor of a house of ill repute in St. John's street, and Kate Barrington and Mary Hanson, charged with being inmates, was resumed today. Policeman Marshall and Acting Sergeant Rose, told of the reputation of the house and of the people. The charge of stealing a watch from Olaf Lund, which was also made against the Hanson woman, will probably not be pressed. All three were further remanded to jail. John Glynn and Alexander Watson pleaded guilty to going beyond the stand allotted for coaches at the Union Depot on Sunday last. William Givan and Murray Northrup were also reported, but they did not appear. Phillip Troskey, a young Jewish lad, was also reported, but he said that he was not a huckster. Glynn and Watson were each fined \$2 but the fines were allowed to stand.

WEDDING BELLS RINGING TODAY

Three Marriages Solemnized in City This Morning—Two in S. Peter's Church

A wedding of much popular interest was solemnized this morning in St. Peter's church, North End, when two favorite young people, Clement T. Murphy, son of Michael Murphy, and Miss Mary C. McNamara, daughter of Mrs. A. McNamara, were united in marriage with solemn nuptial mass by Rev. E. Holland, C.S.S.R., assisted by Rev. J. H. Borgmann, C.S.S.R., as deacon and Rev. F. O'Regan, C.S.S.R., as sub-deacon. John McNamara, brother of the bride, gave her in marriage. She wore a lovely costume of cream with satin and pearl trimmings, and wore a very becoming white beaver hat with ostrich plumes, and carried a white prayer-book. Her sister, Miss Gertrude, as bridesmaid, was gowned in a neat suit of blue with a pretty hat of the same shade, and also carried a white prayer-book. Joseph Dryden supported the groom. Following the ceremony, a tempting wedding breakfast was served at the home of the bride, 469 Chesley street, at which these present were the immediate relatives and close friends of the bride and groom. They are very popular with a wide circle of friends and they were the recipients of many handsome and valuable wedding remembrances of silverware, cut-glass, and other costly gifts, among which were a magnificent vase and parlor cabinet from the fellow employees of the groom in the N. B. Telephone Co., where Mr. Murphy is a valued member of the office staff. A beautiful diamond brooch was the groom's present to the bride, while the bridesmaid received from him a valuable gold bracelet and the groomsmen a pretty scarf-pin. Mr. and Mrs. Murphy will make their home at 282 Main street. Their friends in North End and the city as well will wish them all prosperity and happiness.

Another interesting wedding ceremony was performed this morning in St. Peter's church, when Joseph E. Danaber and Miss Margaret E. Prince were united in marriage by Rev. A. J. Daley, C.S.S.R. They were attended by Mr. and Mrs. John Gibbons. They have the best wishes of many friends in their married life. Miss Prince was charmingly gowned in white cologne over white with Irish point lace and pearl trimmings. She wore a black picture hat with willow plumes. The bridesmaid, Mrs. Gibbons, was also attired in white and wore a large black hat. A nuptial breakfast at the home of the bride, 174 Adelaide street, followed the ceremony, at which Mr. and Mrs. Danaber, left on a honeymoon trip to Boston and New York and other places in the United States. They were well remembered by their friends with presents of cut glass, silverware and other useful souvenirs, among which were a handsome clock from the groom's fellow employees with A. Gilmore, and a beautifully embroidered linen spread from the bride's friends in the telephone department of Macaulay Bros. & Co., where the bride was employed. Her associates there on Monday evening called on her and gave her a pleasant surprise by presenting to her a shower of novelties. Mr. and Mrs. Danaber will board until spring, when they will start house-keeping.

In Lunenburg a Baptist church this morning a pretty wedding was solemnized by the pastor, Rev. W. Camp, when he officiated at the marriage of Robert John McAfee, a well known farmer of Red Head, and Miss Dorothy L. Price, of Belle Lake Creek. The bride, who was prettily attired in a traveling suit of blue broadcloth, with a hat to correspond, and wore a Persian lace collar, was given in marriage by Dr. H. B. Fritz. Immediately after the wedding, which was performed at six o'clock, Mr. and Mrs. McAfee boarded the Boston train for a honeymoon trip to Boston, New York, and other cities in the states, returning via an upper Canadian route. They will make their home at Red Head.

THE CLARK CASE THIS AFTERNOON

Consultation With His Counsel, G. W. Fowler in Court This Morning. The preliminary hearing in the case of the Bank of New Brunswick vs. Harry B. Clark, was begun in the police court this afternoon at half past two o'clock. It was expected that the court room would be crowded, as many calls were made this morning to find out what time the hearing would start.

Clark was brought into court this morning at eleven o'clock in order to consult with his counsel, G. W. Fowler, K. C., of Sussex, who arrived in the city this morning. The prisoner's father and mother also arrived in town today and had a consultation with their son in the jail. The father was also present when lawyer and client were together in the police court. Clark looked pale, the meeting with his parents evidently having affected him.

SUNDAY SCHOOL TEACHERS

The Church of England Sunday School Teachers' Association met in the school room of St. James' church last night. Rev. G. A. Kulbring presided, and there was a good attendance. A very interesting paper on the Light and Shadow of a Teacher's Life, was read by Miss Barlow and was well received. A general discussion followed.
