**PEACE CONFERENCE IS TO OPEN FORMALLY SATURDAY**

**Shall Sessions Be Open To The Press?**

**CANADA IS TO HAVE TWO DELEGATES**

PARIS, Jan. 16. (By Wm. Phillip Simms).—The associated delegates were working at full speed to-day to get everything in readiness for the formal opening of the full peace congress on Saturday afternoon.

Several of the most important problems upon which the initial session pings remained unsolved. Among these are: acceptance of the French outline for a method of operation; fixation of precise number of delegates for all nations; determination of whether the Russian soviet government shall be represented; decision as to the manner of acquainting the world with what transpires in the conferences.

The French prefer that the conferences be of the star chamber order and that all information be confined to a daily official communication. This created consternation among the newspaper correspondents, who lost no time in going on record with their objections. It was explained that only such information would be omitted as would be considered injurious to the interests under treatment. The correspondents fear this would prevent acquisition of the views of peace delegates and would tie up all the side-light, which might be of interest to the public. They organized a special committee of British and American correspondents, who made formal protest to President Wilson and Premier Lloyd George against the alleged violation of the first of the fourteen points: "An open convention of peace, openly arrived at."

Although the five principal powers adopted a resolution to limit the news of the sessions to an official communiqué, it was believed to-day that, in view of the concert of protests, the matter would be reopened and possibly modified. Certain delegates are understood to favor the publication of the entire conversation on all questions, but Premier Clemenceau, foreseeing the danger of the conference stringing out over a period longer than the war itself, interposed and won his point, that only interested nations should be present for the discussions. This proposition undoubtedly will be formally adopted when the program is definitely decided upon.

**WILL RUSSIAN SOVIETS BE ADMITTED**

The question of the representation for Russian soviets is not considered to be entirely disposed of, as Lloyd George appears to continue favoring the plan. The newspapers report that Premier Lenin has directed the Moscow soviet to send a request to Paris to be allowed to send a delegation. The press supports Foreign Minister Pichon's view, that the soviets should receive no degree of recognition but in many quarters it is believed that a compromise may be reached.

The league of nation proposal naturally will be held in abeyance until the conference proper begins. France is thoroughly behind the league in some form. Lord Cecil the British authority, declares that the French scheme, as outlined by Senator Bourgeois, is the "hardest of the lot" and that most thoroughly worked out.

The French are eagerly awaiting publication of the American plan, which it is believed, the President himself will present at the opening of the session, after Clemenceau starts the ball rolling.

The preliminary sessions have been under way just long enough for everybody to realize the stupendous task ahead and the infinite details to be worked-out. All necessitating both plain speech and tact.

The official communication issued last night announced that in course of yesterday's two meetings, examination of the rules of the conference was continued and almost completed.

Regarding representation the communiqué said that under the status Great Britain, United States, France, Italy and Japan will have five delegates each. The British Dominions, including India, will have two delegates each, except New Zealand which will have one. Brazil will have three delegates.

Belgium, China, Greece, Poland, Portugal, Rumania, Serbia and the Czech-Slovak republic will have two delegates each.

Siam, Cuba, Guatemala, Hayti, Honduras, Liberia, Nicaragua and Panama one each. Montenegro also will have a delegate, but his status will remain unfixd until the political situation in his country is cleared up.

**THE TERRITORY SOUGHT BY GREEK PREMIER.**—On the accompanying map the shaded areas suggest the territory that may be added to Greece. In the early stages of the war the allies offered Greece Southern Albania in return for her aid and there is little question that Greece's aspirations in this particular will be realized.

**Ebert Gov't Sends An Appeal To Its People**

**Says Bolshevism Means Death of Peace, Freedom and Socialism**

**LAMENTATIONS OF RUSSIAN ANARCHY**

LONDON, Jan. 16.—Order has been restored in Berlin, it is announced by an official wireless appeal to the German nation, sent out by the German government and picked up here.

The appeal, which was signed by Premier Ebert and Philip Scheidemann, Herr Landsberg, Gustave Noske and Herr Wissel, members of the cabinet, says that government is determined to prevent, by every means at its disposal, a repetition of "similar abominations."

The appeal refers to the coming election, under the "freest suffrage in the world, to determine the constitution of the German state" and adds that the present government is preparing a draft of a constitution, "which protects the free right of self-determining of the nation" against all counter revolutions or efforts at terrorism.

Efforts are being made it is said, to "arrive at a peace, safeguarding the freedom of the German nation and which will render possible the foundation of a union of nations, which will give protection against the danger of fresh war."

After declaring that there is a necessity of defending the nation against Polish annexationists, the appeal concludes: "No less is it our task to protect our frontier against fresh Russian military despotism which wants to force upon us, by means of war-like power, its anarchistic conditions and unchain a new world-war, of which our country would be the theater. Bolshevism means the death of peace of freedom and of socialism."

**Big Wholesale House to Locate in the City**

**LEWIS-MCLAIN CO. OF WINNIPEG OPENS EASTERN CANADA OFFICES.**

Mr. C.A. Kern The Manager.

The City will secure another wholesale house. The Lewis-McLain Company of Winnipeg have definitely decided to locate its Eastern Canada branch here.

Quarters have been secured at the rear of the Bank of Toronto in the Potter Block and a complete line of new stock will be installed. Mr. C.A. Kern of this city, the sales manager for Ontario, will be the manager. The company expects to begin business here on about February 15th.

The Lewis-McLain Company carry aluminum wares and hardware and household specialties. They handling the largest assortment of aluminum wares in Canada. Heretofore all the Canadian business was transacted at Winnipeg but the business grew to such proportions that it was deemed necessary to open an Eastern branch. The local branch will take care of all Ontario business as far west as Port Arthur; Quebec and the Maritime provinces. All shipments to retailers in this territory will be made from here. Several commercial men will go on the road out from here in the near future.

The fact that the company is opening a second office is a sign of progressiveness and also indicates that by the company's location here the city has secured another valuable asset. While the Company suffered a severe fire in Winnipeg sometime ago, it is proceeding not only to restock its Winnipeg branch with a complete new line, but also to enlarge facilities for carrying on its business.

The decision to locate in this city goes to the credit of Mr. Kern. His work as sales manager for Ontario has brought good results and also has been able to induce the company to come here.

**IF GREECE CANNOT GET CONSTANTINOPLE ITSELF**

**Would Make It Capital of League of Nations**

**VENIZELOS IS A SHREWD STATESMAN**

PARIS, Jan. 16. (By Henry Wood).—If Greece cannot get Constantinople for its own seat of government it wants that ancient city to be set aside as the permanent capital of the league of nations.

This developed to-day, during the discussion of Premier Venizelos' presentation of Greece's policy and territorial aspirations. Greek delegates pointed out that the establishment of Constantinople as the capital of the league of nations would automatically result in its internationalization, together with the Dardanelles.

It was further suggested that the immediate hinterland, on both sides of the straits, should be placed under control of the league. This the freedom of the Dardanelles and elimination of the Turk from Europe, two important problems of the peace settlement, would be simultaneously settled.

Venizelos, who is the most remarkable statesman that the Near East ever produced, seeks not only to complete the unification of the Greek people but the permanent settlement of all Balkan and Near Eastern problems in the memorandum he has submitted to the peace conference.

His claim to Greece's right to Constantinople is based on both historic and economic grounds. The city was the Greek capital for centuries. Its request and to be able to serve the boys at Freeport.

Yours truly,  
 W.O. Carson,  
 Inspector of Public Libraries.

**More School Accommodation Will Have To Be Provided**

Mr. E. D. Lang, the New Chairman of the Public School Board Said in His Outline of the Board's Work.

**SEVERAL OTHER PROBLEMS**

The New Chairman of the Public School Board is Mr. E.D. Lang, who was unanimously chosen for the honorable office at the inaugural meeting of the Board held last evening. Mr. Lang, who for some years has been the vice chairman, in acknowledging the recognition shown him by his confere on the Board and in outlining the work for 1919 remarked:

"I appreciate the honor, but I accept the position reluctantly for I am conscious that there are those around this board who are more worthy and certainly more capable. I am pleased that the proposed arrangement for a one year term of Chairman is to be carried out and with your help I will do my best to carry on the business during this present year."

I want to congratulate all who have been re-elected, most of you by acclamation which shows that the citizens appreciate your services of the past years. Mr. DeBus had what might be called a close shave by one who was many miles away. We are pleased to see him returned for he is a most interested trustee. Mr. Detweiler, the new member, we welcome and he will be a good addition to this board. He replaces Mr. A. Pequegnat who retired after a quarter century of splendid service to this city in the interests of Education. Time forbids my saying what I would like about his splendid spirit and determination that the best in building and equipment is none too good for the children. We all regret the loss of Mr. Pequegnat to the Board, but pleased that in Mr. Detweiler we have a good successor.

The Year's Work.

"In giving a little fore cast of what is our task for the present year and future I would remind you that as Trustees we are the custodians of the School properties and it is our business to see that sufficient Class room is provided and that a competent staff of teachers is maintained. We are responsible to a certain extent for the program of what is being taught, for there is now provision made by the provincial Government for supplementary subjects which may be introduced by the trustees in any community where the need is felt for special work."

"The most urgent need which the trustees will look to face and that very soon is that of more school room accommodation. During the past six years which is the length of my experience on the board we have added ten Class rooms, practically two rooms each year. We were fortunate in being able to add these to this (Victoria School) building at a cost of only \$32,000. A new building in another part of the city would have cost \$50,000 to \$60,000, thus there was effected a saving of \$20,000 to \$25,000."

"What the requirements will be for Kitchener in the future is somewhat of a speculation, but I know we are all optimistic enough to believe and hope that the growth of this city will continue and that there will be the same need for more room in the future as was in the past."

"There are other questions which are bound to come before the trustees of this progressive city, such as the providing of greater opportunities in Manual Training, Industrial Training for the boys and Domestic Science for the girls. Personally I am not in favor of fads and frills but there are practical things knocking at the doors of trustee boards which must receive attention especially in such an industrial centre as Kitchener. We should all acquaint ourselves with these things and tackle the new problems with the same intelligence and interest that we would new problems in our own business."

"In conclusion I am sure we are pleased to meet in the comfortable room in this school and I trust we will endeavor to transact all our business this year in this business like manner which has been our custom in former years."

**Italian Imperialistic Dreams Are Fading**

**Its Entire Cabinet Retires From Office**

**CORRESPONDENTS OBJECT TO BEING EXCLUDED FROM CONFERENCE**

PARIS, Jan. 16. (By Henry Wood).—Italy has abandoned her imperialistic program and definitely accepted the British and American ideas of a democratic peace settlement.

This was the interpretation at some of the diplomatic quarters to-day based on the resignation of the entire Italian cabinet late yesterday.

Italy's territorial ambitions, resulting from the concessions understood to have been granted by Great Britain, France and Russia in the London pact, have constituted one of the stumbling blocks in the peace conference. The old school of Italian diplomats stolidly clung to their determination that the entire program of political and territorial expansion should be carried out. The more democratic members of the government counselled various degrees of modification. This led to a ministerial crisis, which reached its climax yesterday.

In the meantime, the storm of protest against confining news of the conferences to the official communiques was increasing. In addition, the announcement was made that correspondents would not be permitted inside the foreign office building, as they were on Sunday. A French flunkey went himself out to-day exclaiming, "Defendu" (forbidden). The correspondent (for given the liberty of standing in the courtyard and watching the delegates arrive and depart in their automobiles.

Mr. C.H. Mills, M.P.P., Took up the Matter With Department of Education

The boy at the Freeport Hospital will soon have a library and will have a good selection of books to read. After the efforts of Mr. C.H. Mills, M.P.P., the Department of Education has decided to include the hospital at Freeport among those which will secure libraries.

The following letters to Mr. Mills show what promptness the matter is being attended to and that it is a matter of only days as to when the library will be installed.

Toronto, January 14th, 1919.  
 My dear Mr. Mills:

In regard to your letter about a library for the Military Hospital at Freeport, I am asking our Superintendent of Public Libraries to take up and deal with the matter at once. I am sure we can meet the needs of the boys in that hospital.

Believe me,  
 Yours sincerely,  
 H.J. Cody.

Toronto, January 14th, 1918.  
 Dear Mr. Mills,  
 The Honorable Dr. Cody has handed me your letter of January 9th. If you will be good enough to tell me the number of men there are at Freeport, and the average number you expect to have there, I will see that a library is sent for them. If I receive your answer by return mail, I think we will be able to send the books by the end of this week.

We are pleased to receive this

**Nebraska Adopts the Federal Amendment**

**U. S. GOES DRY NEXT YEAR**

LINCOLN, Neb., Jan. 16.—The United States has decided to go bone dry. Nebraska, home state of William Jennings Bryan, to-day ratified the federal prohibition amendment. It was the thirty-sixth and final state necessary to make prohibitive part of the constitution of the United States. One year from to-day, under the law, liquor in the country will be dissolved.

The United States today completed the legislative process of voting itself dry. When the word was flashed over the wires that the 36th state, Nebraska, had ratified the prohibition amendment prohibition leaders declared that the accomplishment was the greatest piece of moral legislation in history of world.

The amendment to the federal constitution, prohibiting the manufacturing and sale of intoxicating beverages, becomes effective one year after the date of its final ratification. Meanwhile the nation goes dry on July 1 next by a prohibition proclamation as a war measure, unless the president rescinds it before that date.

## Relief Committee Held a Meeting

The Relief Committee of the town council held its first meeting of the year last night when considerable business was transacted.

Rev. E. Bookelmann was agreeably surprised on Tuesday evening when the Sunday school teachers of St. Johns, after the business meeting, presented him with a beautiful gift and wished him many happy returns of the day. The Pastor was completely taken by surprise and in a few well chosen words thanked them for their kind remembrance and words of congratulation after which a most enjoyable social hour was spent.

Mr. J. Higgins of Hamilton was in town this morning on business.

## REXALLS WON BY A SCORE OF 6-2

At the Preston Arena last night a fast game was staged between the Rexalls of this town and a team from Preston, which for want of a better name are called the Eye Openers.

Last season the same teams clashed together and the result was a tie, 2-2. This season, however, the Rexalls proved a distinct "Eye Opener" to the Preston aggregation to the extent of a 6-2 victory over them.

The game was very fast throughout, with Hinsberger starring for the winners and netting four of their goals.

The new O.H.A. substitute rule was tried out and proved quite satisfactory, the subs. being used almost as much as the regulars.

The winners' superiority was shown in the consistent back-checking of the forwards and the strong checking of the defence.

The teams lined up as follows: Preston—Goal, Rodgers; R. Def., Clark; L. Def., Heribert; Centre, Ware; L. Wing, Sachs; R. Wing, Roth; Subs., Brown and Roth.

Rexalls—Goal, C. Stroh; R. Def., H. Ziegler; L. Def., A. Jacobi; Centre, H. Hause; R. Wing, L. Hinsberger; L. Wing, O. Rookel; Subs., F. Clark and J. Hemphill.

## Plan Approved Of By The Commission

**FURTHER REFERENCE TO THE LOCATION OF A NEW CEMETERY.**

**Plans For Eliminating Sharp Street Corners.**

At the regular meeting of the City Planning Commission last evening the plan presented by the Canadian Consolidated Rubber Company, Ltd., of the section of land bordered by Agnes, Grubb and Duerk Streets, was approved. Of this section was laid out in streets several years ago and the present plan is only to change the dividing line of the lots.

The company is building double houses on the name and the division between each part of the double house will be on the boundary line between the lots.

The Chairman, Mr. W.H. Breithaupt; Mr. M. Huenergard and Mr. W. Hartung were instructed to draw a plan of the proposed elimination of sharp street corners to consult with the City Council and to present the plan to the Commission at the next meeting.

## Opinions On New Cemetery.

There was a reference to the proposed new cemetery. The opinion regarding the value or desirability of possible locations is divided.

Mr. W.H. Breithaupt, as pointed out yesterday, is of the opinion that the proper place would be on the north side of the Waterloo Bridgeport road, opposite St. Leger street extended to that road. He impressed the fact that the extension of St. Leger Street would be feasible and would come soon.

Both these proposed improvements are shown on a plan recently presented to the Commission by the Chairman. Mr. Breithaupt said that a cemetery located at this point on the Waterloo Bridgeport road opposite St. Leger street would serve both Waterloo and the City. The land was ideal for cemetery purposes.

"The Schaefer property West of Wilnot street appeals to me. It would be the proper place for a cemetery I think," Mr. Sam Brubacher said. "What do you think of that property, Mr. Schmalz?"

"It's a fine place. It would be a good location for a cemetery," Mr. Schmalz said.

## Joint Installation Held Last Night

By The Woodmen of the World, Ample Circle No. 8 and Camp No. 72 both of this City held a joint installation of Officers, last evening at Weesloh's Hall.

Sovereign Hooper, the Head Clerk of London, was present and acted as installing officer. Sov. I. Miller of Brantford as escort.

At the close of the installation ceremony a short program consisting of songs, recitations and other features was very much enjoyed by those present. Sov. I.P. Miller of Brantford, head organizer, acted as Chairman. Those assisting were as follows: Fred Eager, Alex. Eagar, Walter Eagar with songs and recitations; Chas. Knightley H. Eailth A Sketch; J. Davis with Violin solos. There were all kinds of dances ranging from the old time square to the latest. The Hainsworth Orchestra (Late of Allen Theatre) provided the music to the satisfaction of all present.

The meeting was closed about 2 a.m. by the Singing of the National Anthem.

## A. C. Hallman Sale Spring Brook Farm

**MR. C.H. JANZEN WAS A HEAVY BUYER.**

One of the best sales that ever took place in the County was that on the farm formerly owned by the late ex-Reeve A.C. Hallman, near Breslau. Mrs. Hallman disposed of the stock grain and implements.

The big feature was the sale of the Holstein stock. Mr. Hallman was a well-known breeder of thoroughbred stock and therefore the sale attracted many buyers from a distance. Good prices were secured.

There was keen competition for all the articles offered but especially so for the Holstein cattle, the keenest competition taking place when the fine bull, (Hillcrest Ormsby De Kol) which has made a great record on the Hallman farm was offered and which after a long and determined siege was finally declared sold to Mr. C.H. Janzen. Five out of the herd of high bred cows and most of the splendid Tomworth hogs, and all of the hay, grain and roots were sold to the above named gentleman.

Some of the stock was sold to parties from the districts of New Dundee, Brantford, Georgetown, Wellesley and Toronto. Three cows and several young heifers went to Quebec.

As to the prices 29 head sold for about \$7000, an average of a-

about \$250. One bull brought \$775. The total receipts from all sources in the sale of the live stock, grain and implements were over \$10,000.

## Young Lady Thrown From Sleigh

Galt Jan 15.—Miss Mabel Mills, aged 27, daughter of Mr. and Mrs. John Mills, of Milton had her neck broken in an unfortunate accident at Main street bridge at noon today and died shortly after being admitted to the hospital.

With her sister, Miss Clara Mills and Miss Alice Atkinson and several students from the Collegiate, she was riding home on a sleigh driven by Clarence Clerk of King street.

As the sharp corner at Water and Main streets was reached the driver slackened on the reins and the horse jumped into a gallop with the result that the sleigh skidded and striking the superstructure of the bridge upset.

Four of the passengers, the deceased lady, her sister, Eddie Dowler and Louis Friedman were picked up unconscious and carried into a nearby store. Doctors were called and Miss Mabel Mills was rushed to the hospital but died before her coat was removed. The other three victims suffered only from shock and bruises.

## Pensions

CANADA'S yearly pension bill is estimated by the Minister of Finance at \$30,000,000. This is a minimum figure. How is this vast fund to be administered? To whom will pensions be paid? Everyone is asking these questions. Here is the official answer.

**The Organization**

A huge organization has been built up to handle pensions promptly, smoothly, fairly.

At its head is the Board of Pensions Commissioners. This Board is to be developed as a civil rather than as a military body. It consists of three men, each appointed for ten years, each devoting his whole time to his duties as a Commissioner.

The Head Office of the Pensions Board is at Ottawa; and there are seventeen branch offices in the principal centres throughout Canada. An important branch is in operation in London, England.

These local branches receive applications from soldiers' dependents for pensions; send "Visitors" to call on pensioners in their homes; hold medical re-examinations; handle complaints.

The Board keeps a representative travelling from coast to coast interviewing pensioners and addressing organizations interested in their welfare. He has already conferred with more than 30,000 pensioners.

At present 60,000 pensions are being administered by the Board.

**A Pension—What it is**

A pension is not a gift, gratuity or reward for service done. It is compensation—money paid as a right by Canadians, through their Government, to offset in a measure the handicaps suffered in war by their fellow-citizens—a debt that the country owes to our returned men, and to the dependents of those who have fallen.

It is in this spirit that Orders-in-Council governing pensions are framed. It is in this spirit that the Board of Pensions Commissioners administers these Orders-in-Council.

**To Whom Payable**

Pensions are not awarded for service. Broadly speaking, any soldier or sailor who was disabled during his service is entitled to a pension—provided medical treatment fails to restore his full normal capacity.

The amount of the pension is based on the extent of the physical handicap he has suffered.

The physical condition of the disabled man is described on his discharge from the service by a Medical Board. Pension is awarded according to the amount of disablement from which he is then found to be suffering.

The percentage of handicap has been carefully and thoroughly worked out for every disability. It is both accurate and fair.

The relationship between the Medical Board and the pension applicant is that of doctor and patient. Every opportunity is given to have the man's condition judged from his point of view.

**Widows of Soldiers or Sailors who have died during or as a result of service, are entitled to pension so long as they do not remarry.**

Children of soldiers or sailors are entitled to pensions up to the age of sixteen, if boys, or seventeen, if girls.

Pension is awarded to the parents of a soldier or sailor according to the degree of their dependency on the deceased soldier and, according to their needs.

A complete schedule of the pensions granted to disabled soldiers and sailors, and to their dependents, will be sent to anyone interested. Apply to Board of Pensions Commissioners, Ottawa.

Music in the Home

THE MUSICAL END JUSTIFIES THE MEANS

Our American cousins are always up to something original. These relatives of ours are usually equipped with the long chin-whiskers, a vest of Stars and Stripes, and a stove-pipe hat, never get in a rut for the want of devising a way to do things differently. The latest is that there is no harm in putting through a deal on the Sabbath if it is for the church.

A church committee down in a southern town were recently authorized to purchase a piano for the Sunday-school. Being very busy men and women it was difficult to choose a time for them all to meet at the music store to select the instrument. To make the purchase was a religious act, so why they asked, should not they arrange with the piano man to go to his store after one of the church services, make their choice and have done with it.

This they did. Of course if it were a religious act to buy a piano, it was an equally religious act to pay for it. So the spokesman for the committee left with the dealer a cheque—but it was dated Monday.

MUSIC RESTORED THIS SOLDIER'S MEMORY

Music for shattered minds is one of the imperative needs in army hospitals. In the general war hospitals to-day shell shock is one of the most common ailments and is described by army surgeons as hysteria carried to the tenth power. Utter loss of memory is one of the most frequent forms in which shell shock manifests itself and in helping the injured man to regain his faculties, music has been found the most powerful of all agencies employed. An army surgeon in the London General War Hospital, tells the following story which illustrates the part music plays in reconstruction work. "One patient who was brought in suffering from shell shock failed entirely to respond to any suggestions regarding his name, home or former occupation. Then we tried him on familiar army questions. As we now described him the 'No' failed to come. Can you sing, some one asked. 'You start me', he said. There were no singers present but we put 'The Long, Long Trail' on the phonograph and the man picked it up and sang it through after he had listened to the opening bars. We continued the test and found that his musical memory was restored six months before his memory of occupation in civilian days or incidents of his former life.

STUDY OF MUSIC MAKES CHILDREN THINK BETTER

Educators, legislators must be told, and shown if necessary, that in schools where the music is good, there is good discipline and order, the children are more hopeful, more happy. Call it cause or effect it always comes. They must see the social, moral and moral values of music. Superintendents and school boards must be made to see that the study of music employs the finest kind of thinking—concentrates and right thinking at the right time—concentration, pose—enabling the child to think better in all subjects. There are a large number of teachers instructing classes in music who have no right to teach it, having no inspiration or even interest to bring to it. They are forced to teach it by short sighted officials, to the incalculable loss to the community—unjust to teacher and pupil.

This movement will give music a standing as an educative factor that it has never had. We shall work out a program and put the study in its rightful place, overcoming conservatism.

VARIETY IN MUSIC

Very few persons care exclusively for one style of music, even the ragtime enthusiast. At one time or another in the course of a day's or a week's experience the average man appreciates a certain amount of variety in the style of music to which he listens. This is a fact of significance to those who have the responsibility of making up programs for great masses of people. Not all ragtime; try a little of the

better grade of music not only enlarging some of the very best.

Let us have more music and more singing at home and wherever a few people get together. Let us revive old tunes and the best of the later ones. "A merry heart and a singing voice doeth good like a medicine". A people that can sing together can fight together and live together in joy and happiness.

SOME WOMEN COMPOSERS

With the development of contrapuntal music, women composers of higher position began to appear in the sixteenth century, they were to be found in many countries. Italy offered Maddalena Casulana, Vittoria Aleotti Francesca Caccini (daughters of the operatic pioneer) Cornelia Calogari Caterina Assandra and several others who composed motets, madrigals, and finally operas. France boasted of Clementine de Bourges, a really gifted composer. The unfortunate Mary, Queen of Scots, showed the influence of French models in some of her songs which were successful in their day. Madelga Barioni was a German composer of the same period. Another remarkably gifted woman was Bernadette Lacerda, of Portugal, to whom Philip II wished to entrust the education of his children.

From that time to the present, the list of women composers is fairly continuous. The change from counterpoint to the harmonic style found the women ready to meet the new conditions. Francesca Caccini and others in Italy composing operas as well as madrigals. France, too, soon became a home of opera; and Elizabeth Claudi de la Guerre won some success in this field, earning the respect of Louis XIV.

MUSIC, NOT WHISKY, FOR LAUNCHING NEW SHIPS

The recent launching of a big boat was attended with due ceremony. All the traditions of the occasion were observed. But in speaking of the event to a friend, one who was present remarked, "it was committed to the water with music, not whiskey." At intervals the proceedings a band rendered music and then as the great vessel slipped gracefully into the water

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty its bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

VISITING PAYS

A teacher of piano who has been remarkably successful was asked by a friend how he managed to break through the crust of the usual routine and put some personality into his work. One of the means employed was what he termed "visiting." All his pupils came to the studio but every week he gave one lesson in some pupil's home. This enabled him to meet the parents to observe the conditions under which each pupil practiced and in many ways to gain a first-hand impression of the lines along which each individual pupil can most effectively be appealed to.

These visits revealed many things. In one case the pupil was practicing day in and day out with the piano bench too high. In another the child sat at the proper height but had no rest for her feet. It is a bad custom to allow a child's feet to dangle unsupported as through practice each day. In several instances the piano was poorly placed for the light to shine over the pupil's shoulder. In others the piano was loaded down with photos in frames, vases, curios and other odds and ends like the ordinary mantel. Again in other homes the music was allowed to lie around in a slovenly fashion instead of being put away neatly in the music cabinet. In one or two instances the visiting teacher learned that a brother or sister or mother was capable of playing duets with the pupil. In another home the father played the violin very well for an amateur. These points were all noted. Where there were mistakes to be corrected a suggestion tactfully made solved the difficulty. And where it was found that other members of the family were musical that fact was kept in mind in the pupil's further studies. The experience of this teacher

shows clearly that for one who has the pupils come to his studio, an occasional lesson at the home pays.

### OUTLOOK AND RETROSPECT

The annual address of the President of the Canadian Bank of Commerce, Sir Edmond Walker, is a deliverance upon the commercial outlook in this country, that is eagerly looked for by the manufacturers and business men throughout the entire Dominion. In daily touch with the commercial as well as the agricultural situation, with his long experience with the business interests in Canada, as well as the financial centers in London and New York, there are few who are better qualified to forecast the commercial future, to raise the storm signals before impending disaster, or to encourage timid capital by an optimistic outlook, than he. In his address upon the occasion of the annual meeting in Toronto recently, in referring to the National War debt, and the problem of carrying it, he says:

"In the early years of the war we sold securities in the United States, and it, in winding up our war accounts we find that Great Britain owes us about as much as we have borrowed abroad since August 1914. We shall have the proud satisfaction of having paid our share of the cost of the war out of our own pockets. On the one hand, we shall know that in the greatest emergency in the history of the world we did our part; on the other that we have a sort of great national ledger in which vast sums stand at the credit of some of our people to be paid by our people as a whole over a series of years."

We have always contended that here in Canada and still insist that if we are to pay our way in the world and maintain the prosperity of all classes of our people, we must foster and protect our own native industries. Speaking of the importance of leading to produce in this country much of what is now imported from abroad, he says:

"For iron and steel in forms used as raw material for manufacturing, we spend abroad over seventy-five millions annually; for carriages of all sorts including motor cars, wagons, railroad cars, horse carriages, and for rubber tires, etc., we spend twenty-five millions; for gasoline, kerosene, and other engines and for electrical apparatus, we spend twenty-five millions; for petroleum, twenty millions, and for paper in various forms, seven millions. I mention these particular items because we already produce part, and we expect eventually to produce the whole of our requirements in all of them. If we could do so now, we could face the future with complete assurance as to our financial position as a nation, and with the best possible market for our farm products, viz., that at home."

Does this not appeal to you as good sound common sense? Even though it may be in a measure opposed to the doctrine of free trade and to those who would have us believe that the total destruction of our tariff wall is necessary to our commercial salvation, we still maintain that our present and future prosperity as a nation is and will be largely dependent upon the protection from foreign competition that our protective tariff insures to us.

Summing up the views expressed by this able financier in the course of his masterly address, one must conclude that Canada has, after the four and one half years of war, through which we have passed, merged from the conflict in a much stranger position than we had thought possible.

Particularly, in regard to our own Dominion, we enjoy awakening to our resourcefulness.

### A SUGGESTION

The Horticultural Society of the city of St. Thomas has placed an order for one hundred and twenty-five oak trees, which they purpose planting in Pioneer Park to commemorate their soldiers from that city who made the supreme sacrifice. Each tree will bear the name of a hero and the particulars of his death.

From our own city many of our young men who have gone forth to the battle fields of France and Flanders, have laid down their lives in the cause of liberty and justice, and the least we, who have been spared to enjoy the fruits of the victory they so dearly purchased for us, can do, is to commemorate their heroism in some fitting manner.

Could we not well adopt the same plan as the city of St. Thomas, and place in our own beautiful Victoria Park live trees in memory of each of our fallen heroes?

### ONTARIO'S LIBERALITY

In a recent address, the Honorable T. W. McGarry, Provincial Treasurer of Ontario, in referring to the part this province has taken in the war, made the statement that Ontario had contributed 45 per cent. of the men and 60 per cent. of the money raised by the whole Dominion of Canada, for the allied cause. He also stated that Ontario contributed to the various war funds more money than the whole of the British Isles, outside of the city of London. A pretty good record!

### CHANGE IN HISTORIC DRURY LANE

Drury Lane, London's most historic theater, famous for generations as the home of pantomime and melodrama, is likely to come into new hands as the result of action to be taken at a meeting on the stockholders to-morrow. For some time past Arthur Collins has been managing director of the playhouse. Now, according to general report, the house will be taken over by Sir Alfred Butt on a long lease. There have been several theaters on the site of the present Drury Lane Theater. The first of the name was built in 1663 under a patent granted by Charles II. The present building dates from 1812. The names of world-famed actors have in the long history of the famous theater been among the many losses. These include: Sir Richard Steele, Colly Cibber, David Garrick, Richard Brinsley Sheridan, John P. Kemble, W. C. Macready, Edmund Falconer, F. B. Chatterton, and the late Sir Augustus Harris.

### POLICE PRACTICE PROTESTED

A campaign to end the alleged "third degree" practice indulged in by the police of New Orleans is likely to be vigorously pushed as a result of resolutions adopted to-day at a meeting of the Prison Reform League of Louisiana. The movement is sponsored by Charles H. Patterson, assistant secretary of the league and secretary of the Charity Organization Society of New Orleans. The protesters allege that the police have gone to undue extremes in their efforts to extort confessions from those accused of crime.

### COTTON INDUSTRY CONFERENCE

Arrangements for the proposed world cotton conference are to be developed at a meeting on a committee of the United States cotton men to be held in this city to-morrow. ### IF STRENGTH DECLINES AS AGE ADVANCES FOLLOW SUGGESTION

So many women grow old before their time, perhaps your wife or sister. A little while ago, buoyant, full of vigor and activity—she enjoyed life and imparted pleasure to the whole family; but now in a few short years she has faded and lost color and strength. She is just ready to develop some disease that will further weaken and debilitate. You remember how it began, failure of appetite, tired in the morning, found housework burdensome, always nervous and a little irritable. It's a shame to let her go down hill further when you can build her up so quickly with Ferrozone. The change this nourishing tonic makes in a weak woman is surprising. It gives great zest for food, increases appetite and digestion enormously. The blood gets richer and stronger, and adds new life to every organ in the body. A rebuilding process works through the entire system. The first week will show an improvement, and a month or two will fatten up the thinnest most run-down woman you can think of. Take Ferrozone for lost color, for nervousness, for weakness—use it when run-down and feeling poorly—it will do you more lasting good, keep you in better health than anything else. Just as good for men and children, too, because Ferrozone is harmless and safe, 50c per box or six for \$2.50 at all dealers, or direct by mail from the Catarhazone Co., Kingston, Ont.

### THE EASIEST WAY TO END DANDRUFF

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the fingers. By morning, most if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

### FORTY PLANS FOR A LEAGUE OF NATIONS

Paris, Jan. 14.—Nearly 40 different plans for a league of nations are now before the American delegates. Each has points of merit, but many contain sections directly at variance with the ideas forming the basis of the other schemes.

### ARKANSAS FARMING CAMPAIGN

Elaborate preparations are nearing completion for the fifth annual Arkansas profitable farming campaign, conducted by the bankers and business men of Arkansas, which will be opened next Monday and continued through the entire week. The campaign this year will be directed especially toward the securing of an increase in the acreage of foodstuffs and the amount of live stock in the State. The services of many well known agricultural experts and stock breeders have been enlisted for the campaign.

### A MURDER IN DETROIT

Detroit, Jan. 14.—With 30 stab wounds in the face, and neck and her skull crushed, the body of pretty Mrs. Raymond Van Moore, aged 21, was discovered lying in a pool of blood at six this afternoon, by a grocery boy, who called at the home, 858 Chalmers avenue.

### LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?  
 Peps is the discovery!  
 Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

**FREE TRIAL** Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps. 50c. box.

### A NEVER FAILING WAY TO BANISH UGLY HAIRS (Aids to Beauty)

No woman is immune to superfluous growth, and because these are likely to appear at any time, it is advisable to always have some depilatory powder hand to use when the occasion arises. A paste is made with some of the powder and water and spread upon the hairy surface; in about 2 minutes this is carefully removed and the skin washed. You will then find that your skin is entirely free from hair or fuzz. Be sure, however, to get real depilatory.

### Darken Gray Hair, Look Young, Pretty

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Use just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

Detectives from central station found that the body was dressed in street clothes, a hat lying on the floor near by, and other evidence that seemed to show that Mrs. Van Moore had just returned. This leads to the belief that she was followed into the house by the man gained entry and lay in wait for his victim.

Blood on the walls and floor is evidence of the brave struggle put up by the unfortunate woman. The husband of the dead woman, a tunneler, works in Walkerville. The detectives hoped he might be able to throw some light on the tragedy, or disclose some motive for the murder. Upon being told of his wife's murder, he became hysterical and had to be put under the care of a physician.

Since none of the jewelry on the woman's body was removed, the police are convinced that robbery had nothing to do with the crime. It was said that a large sum of money was in the house.

## A Broken Wedding Ring

By Bertha M. Clay

Again the painful silence fell over them, unbroken this time by any sound. The girls stood with white faces, looking from one man to the other.

"My children," said Martin Ray, "I leave it to you."

He turned away his head, too proud at that moment to let the expression of his face be seen.

"And I," said General Hutton, looking at each of his nieces, "leave it to you also. My dead sister's child, do as you will, but do not obey your mother's words."

With a cry, the girls clasped their arms around each other. In that moment they felt quite alone in the world. How were they to make such a choice? To Leah's mind recurred the memory of her fervent prayers for some one who would deliver her from her "furnace of fire." She looked into the blue eyes of her sister.

"It is what I prayed for," she whispered.

Then slowly, as the waters of a great divide, the two girls separated, sadly, mournfully, looking back with lingering regret, yet never faltering; and Leah, the child whom Martin Ray had loved, of whom he had been so unutterably proud, whom he had hoped to see his political successor, beautiful dark-eyed Leah, went to her uncle and laid her hand upon his.

"I prayed to Heaven for deliverance," she said, "and you have brought it. I accept your offer."

With a bitter cry, Martin Ray turned to her. There was dignity in the sorrow of his voice and face.

"You make your choice—deliberately and—willfully Leah?"

"I make it of my own free will, father. I would have chosen death rather than the life you mapped out for me."

Loving arms were placed around his neck; a loving, beautiful face was laid against his.

"I will never leave you, father," said Hettie. "I will give my life to you."

So for some minutes they stood—the general with his arm thrown round Leah, as though from that moment he would shield her from all harm, and from every one; Hettie clasping her father's neck, her face wet with tears.

"I accept your offer, uncle," said Leah, in a calm, clear voice; "and I shall always believe that Heaven sent you to me."

"I will never leave you, father!" cried Hettie. "My love shall make up to you for the loss of Leah's!"

"I do not say that I shall cease to love my father—you have no right to imply such a thing, Hettie—but I cannot refuse to take advantage of my uncle's kindness."

"I will never leave you, father darling!" cried the younger girl. "The more they say against you, the more I will love you. I do not believe any of the accusations against you, and I love you with all my heart." It was beautiful to see the light in her face, the love in her eyes, the childish passion of wounded pride with which she clung to him, the tenderness with which the little white hand stroked and caressed him. "I would not leave you, dear," she repeated, "if he would, make me queen of the whole world! I believe all that you believe, and I will never be false to you. Nothing shall ever take me from you."

He was a politician—he had never considered himself a religious man—indeed his ideas on religion were

worse and lower than his ideas on politics; yet he bowed his face on the golden head for some minutes, and words not often on his lips came from the. Then he turned to the other two.

"You hear," he said; "there is one faithful to me. You may take the other. I—I give her to you!"

"I could never lead the life you want me to lead, father—never," remarked Leah; "and how would you have borne with me had I refused? Do not think that my heart is not rent."

"You need say no more!" cried Martin Ray. "Have we not heard how sharper than a serpent's tooth it is to have a thankless child? I have no son, and I rested my pride, my hopes, my ambition on you; and you have heartlessly deserted and tried me for a stranger who despises me."

"I cannot believe as you believe, father, or think as you think. We must have parted sooner or later; I could not have borne my lot, now that I am beginning to understand you."

Hettie's arms clasped him even more tightly.

"Never mind, father. I will make it all up to you. I will die to save you from pain. She will tire soon, and come back to you."

"Never!" he cried, his face aflame with anger. "Stand away from me, Hettie! Let me see the child so ready to leave me and give up the love of years at the bidding of a stranger!"

Hettie drew back, and at that moment she knew in her heart that his best and dearest love had been given to the daughter who had deserted him.

"Let me look at her!" he cried to his enemies.

"She has deserted me—d gone over to my enemies!"

"I have simply given up a life which has never been tolerable to me, and which grows more unbearable every day. I shall love you always, father; but shall never share your principles."

His face paled with anger.

"You speak bravely enough now that you know your words give shape your principles."

Three-year-old daughter of Mrs. Henry Oliver, in Sandwich west, who died of influenza, was the fifth victim in the family within two weeks.

The Imperial Life Assurance Company's annual report shows that 31 per cent, or \$365,393, of the total 1918 death claims were due to the influenza epidemic.

**Sad Discoveries**  
By Some "Missing" Men Who Arrived Home.

Wives are Now Re-Married  
Ottawa Jan. 15.—Fifteen hundred Canadian soldiers who were reported as missing and presumably dead have been located in Germany since the armistice was signed, according to the Ottawa Journal. Many of these soldiers have been missing since the battle of Ypres and have long since been given up as dead. The German authorities have never reported them and their mail was never received.

Report Being Prepared.  
A report on the whole question is being prepared, but it is presumed that

these prisoners must have been confined to certain camps where the German officers were particularly brutal and cruel, or else the men were recalcitrant and the Germans, in retaliation refused to report them contrary to all war regulations.

While the discovery of these 1,500 missing soldiers, long since given up as dead has brought joy to many homes, it has resulted in tragic complications in a number of cases. Reports have been received at Ottawa already of a number of cases, where wives of these soldiers, who were reported missing and later dead, have remarried.

One Western hero of Ypres has discovered that his wife, after waiting for two years has remarried. It is possible that legislation may have to be introduced to straighten out these tangles.

**Bloomington**

I.H.C. Takes Over Oliver Plant. The International Harvester Company of Canada, Limited, Hamilton has purchased the Oliver interests in the Oliver Plow Works of Canada Limited located in Hamilton.

The name of the company will be changed. The harvester company assumes immediate control and operation of the property. Beyond making this statement A.C. Dann superintendent of the Oliver company refused to talk.

The Oliver Plow Works company established in Canada in 1910. It is one of Hamilton's most important industries. The buildings occupied several acres of land in the industrial annex close to the great plant of the international company.

The Oliver company is employing over 1,000 hands. Recently it was announced that the company was branching out in new lines to meet of war conditions.

Card of Thanks. The undersigned respectfully requests the friends of the late J.W. Woodall to accept his sincere appreciation of their kindness and assistance they showed and tendered during his father's illness and during his bereavement especially the Welfare Department of the Consolidated Rubber System.

Death of a Worthy Resident
MR. L. KLEIN, WATER STREET PASSED AWAY YESTERDAY.

The death occurred yesterday of Louis N. Klein at his home 94 Water Street.

Decided in his 54th year, was born in Leitzen, Mecklenburg, Schwerin and came to Canada in 1883. He married Miss Augusta Prouss in 1889, who survives him, along with three daughters, Mrs. Pat. McNulty, Mrs. J. Albert Smith and Miss Olga residing in this city, three brothers Will and Herman of Buffalo and Fred of Kitchener; two sisters Mrs. Sam. Alexander of Toronto and Mrs. Henry Kaiser of Doon.

Mr. Klein was employed with the Chas. A. Ahron Company for twenty-four years, his death was due to pneumonia.

The funeral will take place on Saturday afternoon at 2 o'clock from the family residence, interment at the Mount Hope Cemetery.

Mr. Klein was a well known and worthy citizen, and his death has caused sincere regret among his many associates and friends.

Year by year the microbes of different diseases yield up their secrets to the medical scientists. The first disease germ to be discovered was that which produces anthrax or spleen fever in cattle. This was more than sixty years ago, but it was not until 1876 that it was shown definitely that the disease was actually caused by these microbes.

MAC'S MEGAPHONE
Candy bars are back to us again. Thank goodness the price has dropped on one line we sell.

We carry a splendid assortment of them. I remember when we used to buy them five and ten boxes at a time. Now an order for 100 boxes is sent from one firm is nothing. Shows how the trade grows when you carry the lines the public want. And some of our best sellers are made right here in Kitchener.

We give the same care and attention to a little side line like this as we do to lines that bring the big business. Do a thing right or don't do it at all.

The proof of the pudding is in the eating. Spend 5c on a good fresh chocolate bar. James J. MacCallum.

I WAS IN DOUBT

about the value of Zam-Buk until I had proved it! So says Mrs. A. Lariviere of Fall River, Mass., and when one considers her case there is little room for wonder. She says: "I had suffered for three years with a skin trouble, which doctors, and even a skin specialist, had tried in vain to cure. In fact they told me that the chance of a permanent cure was very remote. One day a friend, pointing to a box of Zam-Buk, said, 'You just try that for that skin trouble of yours and you'll be amazed at the result.' I was sceptical, but agreed to give Zam-Buk a trial. I did so, and at the same time I used only Zam-Buk Soap for bathing. To my delight I soon noticed an improvement. Naturally I persevered, and I am now absolutely cured; notwithstanding all the doctors said about the serious nature of my case. I don't wonder that those who have used Zam-Buk are so enthusiastic about it. It is a wonderful remedy." Zam-Buk is also best for cuts, burns and chapped hands. 50c. box.

SAYS HOT WATER WASHES POISONS FROM THE LIVER
Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ in the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

**ST. PATRICK'S LINE UP.**  
Toronto, Jan. 13th., 1919  
Sporting Editor  
New Record.

The following information regarding the St. Patrick's line up might prove interesting to Kitchener fans. I am a close student of hockey, and the dope I am sending you is right. Here it is:

St. Patrick's of Toronto who hold the Kitchener Champions to 7 to 5 score in Toronto two weeks ago will take the Hiller-Parkes squad into Camp on Friday night. This will be the initial appearance of Geo. O'Donoghue's Greenhirts in your city this winter. They have a mighty strong Club and the only thing that beat them in their game in Toronto was condition. They were in front for 58 minutes and let Hiller through for two counters which put the game in the bag. St. Pat's have had a team in the Senior series of the O.H.A. for several seasons but have failed to get a winner. Manager O'Donoghue has a team that is going to cut considerable figure in the flag chase. This is the strongest team the Greenhirts have trotted out in many seasons. Geo. Hainsworth has nothing on Crooks the Irish Net Guardian. He is a youngster with very little experience, but on his showing to date he is one of the best in the business. This is his second season in Senior Company.

The Pats have a real stonewall defence in "Moose" Hefferman and "Jack" Cain. The former is one of the best known puck chasers in Canada, having played with several of the best teams in the O.H.A. He has been playing with the Crescents in New York for the last several seasons but has decided to stay in the Queen City this winter. He was one of the shining stars in the Kitchener-St. Patrick game here. The latter is a youngster who hails from Newmarket. Last season he played with De La Salle Jr. O.H.A. He is classed as one of the best defence players in the Queen City. This is his first season in Senior Company.

On the forward line we have "Zab" Dye, "Toad" Farr, "Dennis" Breen, Munton, Etherington and Patterson. Farr who had been under the weather is rounding into shape, and is also getting rid of a lot of excess weight. He played one of the best games of his career against the Kitcheners in Toronto and is also expected to turn in a good game on Friday. In "Babe" Dye the Irish have a youngster who holds

a record in the O.H.A. for goal-getting. He is rated as the best goalgetter in Jr. or Senior ranks. In two seasons in the Junior O.H.A. he scored 82 goals. In 1917 he played with Aura Lee who copped the Jr. O.H.A. honors and last winter was the shining star of the De La Salle sextette who carried off the flag in the O.H.A. junior race. Geo. Hainsworth will have to be at his best to keep this youngster bullet-like shots out. He notched three counters against the Champions in their game at Toronto. This season in three games he has scored six goals. He is also one of the best baseball and Rugby players in Toronto. He was a member of the Champion Hillcrest Baseball team who won the Ontario Championship last summer. "Dennis" Breen is a Hailbury product, and is equally as good on the forward line or the defence. He is improving every time out and will accompany the Greenhirts on Friday.

They have three good substitutes in Etherington, Munton and Patterson. Etherington turned in a good game against your squad in Toronto, and is showing real mid-season form in practice. Munton has been laid up with an injured eye for the last few weeks but will be in shape for the game. Patterson, who played in Winnipeg for several seasons is another that shapes up like a comer. He signed with Geo. O'Donoghue's team last week, and has attended several workouts. He is a very classy stickhandler, and has a host of speed, he will be used on Friday.

Yours truly,  
Toronto Fan.

**Juniors Win In Desperate Game**

**GILDNER AND SCHNARR AGAIN STAR**

Before a good crowd of fans both from here and Galt the local kids took a four goal lead from their heavy opponents, the score being 6-2.

Most of the first period showed as even hockey as could be wished, although for a few minutes prior to the ringing of the bell the local lads were busy in the nets.

The first period ended with no score for either team both playing a desperate game.

Six minutes after play opened in the second period Keyes the Galt centre man, with a surprising exhibition of skating netted the first goal, however Gildner retained within six minutes, he gathered the puck near his own goal, took it right down and netted, an exceedingly fine display which won the applause and admiration of all fans.

W. Schnarr netted one and Gildner another before the end of the period.

The third period saw most of the game on the Galt ice, with an occasional

runaway by Skelly and Keyes in one of which Keyes netted another goal for Galt. W. Schnarr and his brother Gerald were the goal getters for the locals in this period, Gerald netting two and Werner one, making a final score of 6-2.

The line up was as follows:  
Union Jacks—Goal, Schmalz; defense Trushinski and Gildner; center, W. Schnarr; wings, Fritz and Schnarr. Subs—Schnarr and White.  
Galt—Goal, Poore; defense, Watts and Skelly; centre, Keyes; wings, Graham and George. Subs—Hines and Todd.

Referee—Schelegel.  
Gildner certainly used his weight last evening, his play in the first two periods was all that could be desired results of all that could be desired.

Trushinski skated thro the Galt skette more times last evening than any of the locals he was deserving of at least three goals—he is a splendid defence man.

Werner Schnarr did not show real form until the second period was well advanced, but the kid sure is a fighter when he once gets going.

His brother, tho not so spectacular is a sure man, he played an even game throughout.

Schmalz is showing good style, the first goal however seemed to make him nervous, but he played a sure game on the whole.

Fritz was not up to his last two displays, and in the third period he seemed to lag considerably.

Keyes and Poore were the best men Galt had to show, skelly worked hard at times, but the collision with Gildner seemed to put him off for the rest of the game.

**A Review of the Realm of Sports**

Toronto—On Friday four rinks from the Guelph Royals will visit the Lakeview Curling Club to play the first of the home-and-home games for the Mansell-Mahoney trophy. The Lakeview skips for Friday will be W. Mansell, F.J. Hayes, A. Keith and W. Singer. In the return game at Guelph, which will likely be in February, the Lakeview skips selected are W. Mansell, Chas. Snow, J. Witchall and Ed. Allan.

**ENGLISH BOXING FANS FAVOR THE REFEREE BEING IN A RING**

The international service bouts in London which resulted in a victory for the British army boxers have had the effect of opening the eyes of English patrons of the sport to the weakness of their system of judging contests and also to the inability of a referee seated in a chair outside the ropes to see all that goes on within the ropes. Advice just received from London indicate that there is

a general demand among boxing enthusiasts for the adoption of the American plan of the referee getting into the ring and following every move of the contestants.

**FAIR CLEVELAND TRUNDLER MADE 732 COUNT ON BOWLING ALLEYS**

Cleveland O.—What is claimed to be a world's record for a woman bowler was made by Mrs. Goldie Greenwald. In three games as captain and anchor bowler of the Eagles' women's bowling team Mrs. Greenwald made 257, 210 and 265 for a grand total of 732.

In the final game she made eleven out of a possible twelve strikes and was only beaten out of a perfect score by a 6-7-10 split in the third name. Her score of 732 is a record for the alleys, the previous high total 682 being made by the proprietor with a loaded ball.

Mrs. Greenwald's team ran up a score of 2,818 to 2,745 scored by a men's team opposing it. They took two out of the three games.

New York—With every hope of restoring the ancient rivalry between Newark and Jersey City, baseball rivals of many years, International Leaguers expect the northern wing of the circuit to be stronger next season than in the last few years. Not since the invasion of the Federal League has baseball been the object of such widespread interest as is manifested in Newark now. By the same token baseball in Jersey City is expected to boom. Dave Driscoll, manager and part owner of the Skeeters has begun to assemble his club for next season, and promises to have a more formidable aggregation than ever has represented the town.

Toronto—Secretary W.A. Hewitt of the Ontario Hockey Association, announced this morning that no charge has been brought against Matte, Roach and McCarthy of the Hamilton Hockey Club and that as far as he knew none would be filed.

New York—Probably no baseball man ever received so many congratulations in a lifetime as were showered upon John McGraw yesterday and today.

The doughty leader of the Giants carried his new honors well and tried to answer every handclasp with one of greater strength.

McGraw is essentially a progressive baseball man. From the time he started to play third base for the Baltimore Orioles until yesterday, when he became part owner and probably the biggest man in the local club he has had his mind set on accomplishing results. The many winning teams he has provided for New York brought him commendation from the fans.

Charles Dickens happened to be in Doncaster one Leger day. The story of his "sporting three winners" on that occasion is told in Forster's life of the great novelist.

"He brought the card, facetiously wrote down three names as the winners of the last three races (never in his life having heard or thought of any of the horses, except that the winner of the Derby, which proved to be none here had been mentioned to him). In a letter to his biographer he says: 'If you can believe it, without your hair standing on end when the races were won one after another by those three horses.'"

Dickens truly described this as a "wonderful, paralyzing coincidence".

**SKATE JUICE**  
By Dan

To handle the big crowd that will attend the game against the St. Patricks here on Friday night the rink management has arranged to admit all those holding standing room tickets on the ground floor, by the door leading in from, the lane on the north side of the rink.

Furthermore, to eliminate the crowd that assembles to buy tickets after the doors have opened, arrangements have been made to sell tickets at the rink office this evening. It is to be hoped the fans will avail themselves of this opportunity.

The prospects are that the capacity of the rink will be taxed to the limit, for there is not the shadow of a doubt the game will be the hottest and most strenuous ever seen in the moon. The fans are in for a rare treat, and will see a game that will be referred to in the dim and distant future as one of the greatest that ever was played in the city.

The Galt team can thank the sloppy condition of the ice for the small score of 6 goals that the Jacks ran in on them last night. Had the ice been anyway decent there is no doubt another six or seven tallies would have been made.

No doubt the Management of the Galt team learned the lesson last evening that "Go and get him" is the poorest kind of advice to hand a Junio aggregation. Acting under instructions the visitors went out after Gildner, and that youth had a lively time, but was glad to meet them half way. As a result of the visitors efforts to "get him" two of the Galt boys were knocked out.

Once two of the Scotchmen went after "Red" but Ginger outgessed them both and grassed the pair of them.

Gildner has speed to burn and can carry the puck like a genius. He went through his own for two tallies last night.

Gerald Schnarr on the left wing was the most effective man on the team last night. He digs in all the time and never seems to tire. He's husky too, and can take or hand out a bump with the best of them.

Wernie Schnarr at centre is as tricky as a barrel of monkeys and on a dozen occasions last night had the Galt team looking foolish. Wernie plays the same style of hockey that has made George Hiller the best centre man in Amateur hockey today. As soon as the kid learns to hold centre ice, and stick around in front of the nets when his colleagues are battling in the corners, he will increase his value to the team by 50 per cent.

Fritz on the Right wing is a hard worker and rendered valuable service at all times. He's a bird at back checking, and also is a fine stick handler. When he learns to bore in on the defence and not shoot from outside his scoring average will materially advance.

"Snoozer" Trushinski, brother of the mighty "Snoozer" is a tower of strength on the defence. He is coming fine, and already is a finished player in some respects. Like Snoozer he blocks well or skates his man into the corners. He's fast, and can carry the puck in his serving rushes. Local fans will yet hear of this kid on the "Big time" in hockey.

White was subbing last night, but stayed many for 3 minutes to relieve Fritz. He didn't get a chance while on the ice to show his calibre.

Schmalz in Goal was good and made many spectacular saves. However, the sooner he learns to stand up in front of the hat attacks, and not drop to his knees, the sooner he will be a finished net tender. The boy has lots of grit, but must not cultivate a Sunday morning attitude when the enemy is inside the defence.

A local hockey fan, by name George Mallock, who has been too busy to attend any of the practices that the kids have had this year, and consequently did not know the players, cheered for the Galt boys for ten minutes of play before he realized he was not boosting for the Jacks. After he became of the identity of the teams he made up for the mistake.

Ontario civil servants are to get a war bonus. Yesterday a deputa-tion headed by Albert Grigg Deputy Minister of Lands, Forests and Mines and president of the Civil Service Association; Deputy Minister of Mines Gibson, Dr. Merchant and S. Squires of the Ontario Fisheries, interviewed the Premier and got the promise of a war bonus.  
Some time ago civil servants decided to ask the Government for a war bonus and this morning they went to the Premier and he promised them what they desired.  
"It will be \$200 for married men and \$100 for single," but this will not

be for those who have perquisites; that is those in outside institutions who have free houses etc, will not get the war bonus the Premier said.  
"It is understood that this is strictly a war bonus for this year. The civil service commissioner has not yet made his recommendations as to increases in salaries, but there will be some adjustments made as soon as his report is in."
