His Speech This Afternoon — Will Embody Principles Laid Down in Liberal Convention Platform—Opposition Members Maintain That New Budget Is Frankly Protectionist in Principle and That It Will Increase Cost of

[Special to The Advertiser.] Ottawa, May 10 .-- Points of criticism to the new budget of Sir

Henry Drayton will develop as the debate, which commences this afternoon, continues. Nevertheless, the Liberal Opposition has already prepared an amendment, and Hon. W. S. Fielding, former minister of finance in the Laurier government, will move it at the conclusion of his speech this afternoon. This amendment will embody the principles laid down in the Liberal convention platform of 1919 and will express regret that the Government, after embarking upon an expensive tariff inquiry last summer, has failed to bring about any measure of tariff revision, and will declare opposition to the protectionist features of the new budget. It will further set forth that in order to reduce the cost or living and decrease the expense of production the principle of a tariff for revenue only should be adopted. Opposition members hold that the new budget is frankly protectionist in principle, that it will increase the cost of living, and that certain of its features are retaliatory in character against the country with which Canada at present is doing the bulk of her trade. The amendment is almost sure to have the support of the Progressives, who are frankly Welfare Work Is Hampered disgusted with the new budget.

PAULINE FREDERICK DELIGHTS PATRONS AT LOEW'S THEATRE

Famous Film Star Supported by Strong Cast in "The Mistress of Shinstone."

For the first three days of this week Loew's has provided for the patrons of the house a very acceptable bill of vaudeville and picture drama.

The trained seal turn is one of the Campaign Opened With Banquet To Canvassers by

George M. Reid.

"I am convinced that there has been to undertaking since the days of the war nearly as important as your ampaign, and every loyal citizen should realize that it is his duty to should realize that it is his duty to the story of human patience and control of the best of its kind, and the work done by these ungainly aquatic animals is an outstanding example of what the power of human patience and control of the best of its kind, and the work done by these ungainly aquatic animals is an outstanding example of what the power of human patience and control of the best of its kind, and the work done by these ungainly aquatic animals is an outstanding example of what the power of human patience and control of the best of its kind, and the work done by these ungainly aquatic animals is an outstanding example of what the power of human patience and control of the brute can do, even with the most unpromising subject. A quintet of really clever dancers give a delightful exhibition of dancing, ranging from the dainty minute to the veriest jazz, and including some especially clever toe dancing. A third act presented by a two male musicians and a lady dancer is a distinctly pleasing turn.

is a distinctly pleasing turn.

Of the pictures especially "The Mistress of Shenstone," with Pauline Frederick in the stellar role and supported by Roy Stewart and a strong cast, the verdict must be that they are outstanding in excellence in every sense of the word as applied to the acting, staging and dress, while the scene of the rescue from the tide by a climb up the cliffs shows that nerve and daring had a large share in its production. The same bill will be presented again today and on Wednesday.

WHOLE WORLD IN **EXPECTANT STATE**

But Knows Not What To Expect, Says Canon Fotheringham.

A public service in connection with this respect has certainly to be congratulated upon its past successes."

Laying emphasis upon the passion for service, the speaker pointed out the great opportunity of the present. "There was a day," he said, "when colossal strength was regarded by the populace as a sign of greatness, when the 'Jack Johnsons' and 'Jack Dempseys' were the accepted types of virtue, and God himself was a sort of Hercules. Then followed a later period when stress was placed upon intellect and men were judged by the products of their brains.

A public service in connection with the Anglican synod convention here was held in St. Paul's Cathedral last evening. Rev. Canon Fotheringham of Brantford was the speaker, and chose his text from verses 12 and 13 of the 10th chapter of Hebrews. "But this man, after he had offered one sacrifice for sins for ever, sat down on the right hand of God; from henceforth expecting till his enemies be made his foostool." In his opening remarks he said that the Sunday after Ascension Day was considered expectation day. Day was considered expectation day, the reason for which was obvious, he

from the time of God down to the present, wherein 'service' and 'self-sacrifice' have been rightly conceded as supreme examples of greatness."

In conclusion, Mr. Cameron asserted that should the terrible day come when the passion for service fails to stir the pulse of British people, from that day dividuals are wondering what to ex-

is expecting this, so let us fulfill his expectations."

The choir, under the direction of Captain Harry Dickinson, was composed of voices from the different Anglican churches of this city. Captain Dickin-son's playing was of high calibre.

NORMA TALMADGE AT THE ALLEN

Noted Screen Star in Latest Success, "The Passion Flower"-Harry Carson, Baritone, a Special Attraction.

A seething story of love and hatred. passion and intrigue, with romantic old pain as a background, is the "Passion lower." the feature picture at the Allen a play built around a story from the pen of Jacinto Benavente, who has been acclaimed as the greatest living dramatist among the Spaniards of today. Benavente knew his people as no for-eign writer could know them, and so, as it might be expected, his story gives never before has been equalled. The never before has been equalica. The passionate spirit of the play, so carefully built up by the Spanish writer, was given an idealistic interpretation by Miss Norma Talmadge, the star. Miss Talmadge already has been acclaimed Talmadge already has been acclaimed one of the greatest of emotional actresses, and reached an entirely new plane in her art in the role of the beautiful and temperamental Castilian peasant girl Acacia. She was well supported by two leading men, Courtenay Foote, playing the part of Esteban, the step-father, and Harrison Ford as Norbert, the poet.

The story is an entrancing tale of Spanish peasant life, a story of tragedy, jealousy and hatred. Great care was taken in the production of the scenes, and so a remarkable atmosphere of realism runs throughout. One in watch-ing the picture could imagine himself transported to the picturesque moun-tain country of Spain. The plot is as tain country of Spain. The plot is as clever as it is unusual. It gives many opportunities for tense dramatic work which were used to the utmost advantage throughout. The picturesque garments worn gave an added air if quaintness to the production.

A musical treat was provided for the

patrons of the theatre in the form of patrons of the theatre in the form of several selections by Harry Carson, a baritone of this city. Mr. Carson sang both popular and classical numbers, including selections from "Il Trovatore."
He was given a splendid reception and was forced to respond to several en-

FIREMEN CONTRIBUTE BOARD TO CONSIDER SPLENDIDLY TO THE WELFARE ASSOCIATION

At Dinner Wednesday Night.

"What shall I give, and on what erms?" is probably the most vexing problem confronting the citizens of Lonon deeply interested in the Welfare Fund campaign. Profiting by experi-ence gained in last year's drive, the Welfare Fund Association has sought o answer the question for everyone by a table of estimates posted in the in-side of the cover of a booklet disributed by them throughout the city.

The table was prepared by a special committee, which considered carefully every angle of the problem as it faces each class of wage earners. For wage earners, including factory hands, clerks and laborers, the committee would suggest that a day's pay should be given. The payment of this amount could be spread, if it were so desired, over a period of several weeks. An interesting outline of the procedure and business of the Lambeth Con-ference, attended by the bishop last year, was given. The importance of church unity overshadowed everything else at the conference, the bishop said "Thoughtful men have recognized that the great nations of the east cannot be onverted by a divided Christendon Thus recognizing the urgency of the times, and that God was calling us now as never before to go forward, we en-tered on our labors with fear and trem-bling, and in humble dependence on God that he would guide us in the right way, and we believe that he an-swered our prayers, and with the result that we issued the appeal for Christian unity. This unity is not visible in the world today. We are organized into different groups, more or less antagonistic to one another. The causes of our division lie in the part, and were largely political, and in most cases due to causes which have long since passed away." said the bishop.

Birdseye View of Budget

OTTAWA, May 9.—(Canadian Press.)—The following gives a birdseye view of the taxation and tariff proposals of the budget: TARIFF. No general revision of the tariff

les is to be made now. Certain changes necessary to Im-ement the trade agreement with the West Indies are made. These affect such products as cocoa, co-coa products, arrowroot, onions, apefruit, limes, coacoanuts, rum and sugar.

Notice is given of two changes to be made in the customs act. The purpose of the first is to secure a more efficient carrying out of the principle of the existing dumping provisions, and has to do with the valuation on which duties are assessed. The act at present provides that the value shall be "the fair market value, when sold for home consumption, in the principal markets of the country whence and at the time when the goods were exported directly to Canada." The amendment will add to this "such value in no case to be lower than the wholesale price thereof at such time and place,' and, in addition, provides that the value for duty shall not be less than the actual cost of production ment direct to Canada, plus a reasonable profit thereon.

The other amendment relates to the valuation for customs purposes The present customs practice is

SALES TAX.

No change will be made in the principle of the sales tax or to extend it to a general turnover tax.
Its operation will be confined as
at present to sales of manufacturers, wholesalers, jobbers and Importers. The 1 per cent and 2 per cent rates on domestic transactions will, however, be increased to 1½ per cent and 3 per cent, respectively, and the import rates will be 21/2 per cent and 4 per cent, these latter being 1 per cent higher than the like domestic rate. The necessity for this lies in the fact that more than one sales tax is in-cluded in the finished article made in Canada, whereas on the imported article no sales tax is imposed on the materials entering into it.

A list of special exemptions will be continued, which will cover foodstuffs in their natural state, initial sales of farm produce by the farmer of his own production, as well as the first products of fisheries, mines and forests.

THE IMPORTANCE OF HEALTHY KIDNEYS

In the removal of waste material from the body, the kidneys are called upon to perform a very important duty. The failure of these marvelous and delicately constructed organs to properly do their work means retention in the system of poisonous matter. This poisons the system and, if permitted to remain results in severe backache, headache torpid liver, constipation and eventually Bright's disease. Warner's Safe Kidney and Liver Remedy, a combination of herbs and other healthful ingredients, was discovered about 50 years ago, and its value in strengthening the kidneys and liver was at once appreciated. Today it stands as one of the standard remedies in the treatment of diseases of the kidneys and liver. Many persons suffer from diseases of the kidneys unknowingly. The use of Warner's Safe Kidney and Liver Remedy will invariably improve your health, and make you feel that life is really worth the living. of herbs and other healthful ingredients.

THERE are many homes once childless that now are blessed with healthy, happy childen, because Lydia E. Pinkham's Vegetable Compound restored the mother to a healthy, normal physical condition.

The following letters give the experience of two young women and prove the value of Lydia E. Pinkham's Vegetable Compound in such cases.

Berwick, Ont. — I had organic trouble, and after taking Lydia E. Pinkham's Vegetable Compound and Blood Medicine all my troubles passed away. I was made strong and well and have been ever since. Now we have a fine baby boy six months old, and I know that I would not have this baby and would still be suffering if it had not been for your remedies. My husband and myself say that your remedies are worth their weight in gold, and I recommend them to my friends. One of my aunts is taking them now."-Mrs. NAPOLEON LAVIGNE, Berwick, Ontario, Canada.

Toronto, Ontario.—"I suffered for a long time from a female weakness, inflammation, and a terrible backache caused by that condition. One day one of your booklets was left at my door, and I read how other women with troubles like mine had been made well, so I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash, and it helped me wonderfully, and I now have the finest little baby boy that any mother could want. I want to recommend Lydia E. Pinkham's Vegetable Compound to any woman who has female troubles."-Mrs. JOSEPH LA BELLA, 773 Shaw Street, Toronto, Ontario, Canada.

JUSTICE COMING.

The German-American hyphenate has nowhere to lay his head. He has had a rough life since his friends began bombing factories and poisoning Red Cross supplies in war time.

First he pinned his faith to Wilson in the fall of 1916. THE WAY TO PROSPERITY.

[Dearborn Independent.] Society will pass from the present old order to the coming new order on a human bridge. That bridge will be the men who labor in the Three Principal arts-the men who grow food, who make utensils, who carry goods; Agriculture, Manufacture and Transportation. are the present elements of the future society; they will enable society to dro the old and assume the new without dis listen in a manner that has nothing aster. If these fundamentals are tampered with, if farmers prohibit nature's ncrease, and shopmen complete work, and transport men grow lax, any calamity may be precipitated. The bes reform is to keep sound processes sound-ly functioning, and not add to the general confusion. The pioneers of the new order are the men who stick to the job.

The London Package.

The fans had a good chance to see what Buzz had when he opened his package yesterday for the exhibition tilt with the Pirates. Calbert, Shay, Crichlow and Kuhn were hitting them harder than ever yesterday against major league hurling, so what they'll do against the home product is a joy-ous prospect for those who like to hear the smack of leather against wood. Delotelle looked good yesterday and is good, and can be depended upon in any circumstances. Carmen will probably work against the Aces this afternoon and he'll be as good as ever, and probably better after a trip with the big leaguers. Quinn worked extremely well in his session against the Pirates, and

is just as good as ever.

CAUSE OF SPIRITED **DEBATE IN HOUSE**

W. D. Euler, M.P., North Wa-Aliens Naturalized by Marriage.

Reduced by Two Hours-Polls To Open At 8 Instead of 6 a.m.

OTTAWA, May 9.—There was some sharp sparring in the House this afternoon, when the bill to amend the Dominion elections act was considered Waterloo raised the question of the alien naturalized by marriage, the question which caused so much debate last session. Mr. Euler argued that such an alien could now get the franchise only by securing a judge's certificate declaring she was entitled to the vote; and such a provision practically dis-franchised 100,000 persons. He moved that the provision be struck from the act. Mr. Euler's motion was still under consideration when "progress" was reported on the bill at 6 o'clock.

One of the numerous clauses passed provides that urban polls shall open at 8 o'clock in the morning (the same as

o'clock in the morning (the same as rural polls) instead of 6, as at present Reduce Urban Polling Hours.

In committee a clause was carried, changing the hours of voting in urban constituencies. The present hours in urban polls are 6 in the morning until 6 at night. Under the amendment urban polls open at 6 o'clock in the morning. the same as in rural constituencies. The minister explained that it had been found that there was practically no voting during the earlier hours. He said there had been complaints from some rural constituencies that the present hours were not long enough when it was necessary to challenge a number of voters. It would be better to leave the hours from 8 to 6.

On a clause providing for the lapse of fourteen days between nomination and election in all constituencies, Mr. Guthrie explained that provision has been made in the act for the lapse of only one week in certain by-elections where voters' lists were already in existence. The amendment would make a uniform period of fourteen days between nomination and election in all

onstituencies. Hon, W. L. Mackenzie King, leader f the Opposition, read a letter, complaining that registration under the Dominion elections act was not by polling sub-divisions, that persons registering did not know what sub-division they would be in, and that often they eventually discovered their names were

B. C. Registration System Best. The act did not provide for a check on dishonest registrars. British Col-umbia had the only fair registration ystem. Under this system all per-ons applying for registration signed an application, which was afterwards handed to the deputy returning officer, so that a check could be made on the signatures of voters.

Mr. King suggested to Mr. Guthrie that the act be amended to meet these Mr. Guthrie replied that investigaion had shown the act to be working n a most satisfactory manner. An-

her clause carried provides against voter losing his franchise as a result a clerical error.

An amendment, making it an indict-able offence for a person to vote who is unqualified or disqualified by any reason, drew some comment from Levi Thomson (Qu'Apelle). Mr. Thomson asked whether a person whose name was on the voters' list, but who was really disqualified, would be guilty of an indictable offence if he voted. In the lists from their knowledge of section without consulting the people whose names they were listing. It was quite possible that the name of a disqualified person might in this way be placed on the list. The person, seeing his name on the list, would naturally think he was entitled to vote, and would do so. Would he be guilty of an offence such as indicated in the sec

Mr. Guthrie said he did not think so. The amendment carried.

21 Clauses Adopted.
After the 21 clauses of the bill and the attached schedules had been adopted Mr. Guthrie reopened the question of paying judges for work done in connection with the revision of the lists Provision for fees for this purpose was made in section three of the bill. The clause aroused strong opposition from Hon. W. S. Fielding, Dr. McGibon (Muskoka), and Levi Thomson (Qu'Appelle), but it was supported by D. D. McKenzie.

The clause was passed with a pro-rision for extra pay for the judges. W. D. Euler (North Waterloo) brought up the question of the grant-ing of the franchise to aliens who became naturalized by marriage or by other change in status, which caused such a long debate last session. Under the laws that exist, such aliens must secure a judge's certificate declaring that they are entitled to the franchise; that they are entitled to the franchise; and Mr. Euler asserted that this provision resulted in practically disfranchising 100,000 persons. It affected women of French, Belgian or Russian as well as of German birth who became naturalized by marriage to a British subject in Canada. It applied also to the minor children of aliens who became British subjects by naturalization. Mr. Euler proposed to remove the injustice by a repeal of the provision in question. provision in question

Act Constitutes Discrimination. G. B. Nicholson, East Algoma, opposed the amendment, and said that men and women who did not have a good knowledge of Canadian citizenship should not be given the right to vote Hon, T. A. Crerar said that women hould not have to apply to a judge if their husbands were recognized as British subjects. The act constituted British subjects. The act constituted a discrimination that should not exist. If it was made applicable to all aliens there might be some support for it. Hon. W. L. Mackenzie King asked when in many constituencies there were no judges. As the act stood women wanting to vote were compelled to travel from 10 to 100 miles in order to secure their certificate. > Meighen's Memorandum. On January 19, Mr. Meighen wrot to Mr. Drury inclosing a memorandum prepared in the absence of minister of agriculture by officials of the agriculture department. In his letter Hon. Mr Meighen said: "It seems to me scarcely a proper function on our part to in itiate or engage in propaganda work among the British people in opposition to the course pursued by the Britsh Government. Such a course in Canada on the part of the British authorities would be universally resented here. The prime minister added that no proper step had been omitted by the Canadian Government, whose purpose was to continue its present course and bring the strongest pressure to bear for the removal of the embargo.

The memorandum forwarded to Mr

Drury outlined the efforts made by the Government for the removal of the embargo, and then dealt with the visit of Hon. Manning Doherty to Britain. "From all that can be learned," said the memorandum, "the actual effect of Mr. Doherty's visit on those bodies which really count was negligible. It has not been found that he has done anything to allay or counteract the determined opposition on the part of the landed interests. We are told that he had secured the co-operation of Lord Beaverbrook, but from all that can be ascertained the actual information which journals has been obtained from another source entirely, and one which is ac-tually in communication with the federal department.

"It would seem that the opportunity

should be taken to provide against the interjection into this delicate situation of representations which should make it difficult for the Government to carry through its negotiations," says the memorandum, adding that such inter-jections are serious embarrassment, and do more harm than good. Demands from "irresponsible quarters in Can-ada" instead of undivided and sympa-thetic support of the Government's attempt to secure removal of the embargo are deplored in the memorandum. which points out that the question is one above personal or political consideration, and of vital concern to the people of the entire Dominion

The New Hercules Brake

Stopped!-by 'Giant Grip" of the Hercules

CUDDENLY the rider sees the deep, dangerous ditch across his path only a few feet away!

Looks like a nasty fall!

But-he merely back-pedals. Instantly, automatically, his a powerful Hercules Brake acts.

His bicycle is stopped and he is saved by the sure strength of "The Little Fellow with the Giant Grip" - the little brake that weighs only 291/2 ounces.

If the brake had not gripped! But, thanks to its positive action and absolute accuracy, the new Hercules does not, indeed cannot, fail.

Why so powerful? The Hercules has more actual braking surface than others.

The hub shell-the part that bears the strain-is made of selected steel screw stock, not of the cheaper, malleable casting. This means greater strength with less weight.

It weighs five ounces less than the average coaster brake.

It has fewer parts, only a little over half as many as the average coaster hub.

It has no clumsy side arm to become rusted and hard to remove. No time is, therefore, wasted when removing the rear wheel to fix a puncture. This can be done in a jiffy. The Hercules is the only coaster brake that is sold in Canada without the old-fashioned side arm. It can be adjusted more closely than the average brake and still coast freely. Tests have proven that the Hercules actually does coast freer, smoother, farther

It is always sure, safe, quick, yet soft and velvety in action.

The new Hercules Brake is obtainable at moderate cost from any first-class bicycle dealer and can be attached to any bicycle.

All C. C. M. bicycles are equipped with the New Hercules Brake and the C. C. M. Triplex Hanger without extra cost.

Cocoanut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it

Don't use prepared shampoos or anything else, that contains too much alkall. This dries the scalp, makes the hair brittle, and is very harmful. Just piain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly

njure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy

and easy to manage.
You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

REFUSAL TO HANDLE COAL MEANS GRAVE Force of 348 Horsemen To Be SITUATION

Threat of Transport Workers and Railwaymen Complicate Miners' Trouble.

GOVERNMENT PREPARING

Plans Made To Distribute Coal by Volunteer Service.

LONDON. May 9 .- A new and grave situation as regards the coal strike has arisen from the ban of the Transport Workers' Federation on the handling of foreign coal brought to England, and the decision of the railwaymen's union to refuse to haul coal. While the executive committee of the National Union of Railwaymen are not supporting the threat of the Transport Federation and the railwaymen, it is said the Government is determined to secure coal required for public utilities and will employ volunteer labor for this purpose if necessary, a course which it is considered would be likely to cause a strike on the part of the railwavmen.

The cabinet sat twice today to consider the situation, and Sir Eric Geddes, minister of transporation, had a conference with Secretary Cramp of the National Union of Railwaymen, and Secretary Williams of the Transport

It is reported that the Government contemplates closing Hyde Park and preparing for transport facilities along the lines it had in view when a strike the Triple Alliance was threatened

Chester Conklin, the leading comedian, takes many long chances with his life in all these episodes, and in addition, is the hero of a passenger coach which is part of a speeding train heading for destruction. Then he and the girl drop 2,000 feet in a parachute into the sea and are rescued by a submarine crew. Masterpiece of Photoplay Production, Thrilling and Magnificent. Pleases Crowds.

Never on any beach has such an array of bathing beauties been seen as ray of bathing beauties been seen as appears in one scene of "Skirts," Del Ruth's newest and greatest Fox screen special, which is showing at the Grand the first three days of this week.

"Skirts" breaks new ice in the motion picture game, for since the screen world began a six-reel comedy, which includes dare-devil stunts, but all serving the same end—the amusement of the public—has not been attempted.

No effort has been spared to make this picture one that will be talked about from coast to coast.

Unlike most comedies, it has a plot that is not hard to follow.

Money was a secondary considerase "Tiz," and "Tiz" cures their feet ight up. It keeps feet in perfect con-ition. "Tiz" is the only remedy in the dition. "Tiz" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and but ions. It's simply giorious. Ah! how comfortable your feet feel after using "Tiz." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet. Get a box of "Tiz" new from any druggist. Just think! a whole year's foot comfort for only a few cents.

Money was a secondary consideration when the film was arranged. A real honest-to-goodness circus with the famous Singer midgets and hundreds of other ring artists are among the extra ordinary large cast. An express train is wrecked, circus tents torn to rib

"The New Lady of Bantock" Delights a Capacity Audience.

Brilliant Performance of Lon don Artists Is Drmatic Treat of Season.

AT THE PATRICIA THEATRE

From time immemorial servant prob lems have disturbed the equanimity of the human race, but yet there never was which the happiness of Lady Bantock of Bantock Hall, Rutlandshire, was nearly wrecked. The problem and its final unravelling gave to us a clever and highlymusing story, upon which a delightful AND DO IT TODAY three-act comedy, "The New Lady of Bantock," has been built. This play was the vehicle through which the London brama League gave a brimming measure of delight to its many members, and hundreds of friends old and new in the

atricia Theatre on Monday night. It is quite safe to say that few greater framatic treats have been given to Londoners during the past season, and it s absolutely certain that the play sursed anything in the way of amateur theatricals produced in this city before

Many, many things could be The annual meeting of the Huron Clericus was held Monday afternoon in Bishop Cronyn Hall. The president, Rev. S. S. Hardy, was in the chair. The meeting was opened with prayer by Rev. T. B. Howard.

The first address of the choice of the choice of the control of the president, the beauty and vivaciousness of the chorus group, the picturesque gowns. rev. T. B. Howard.

The first address of the afternoon was strangely intermingling the dash of the ultra-modern with the demureness of dra-modern with the demureness of mid-Victorian age, the fitness of the settings and the cleverness of the plot. In fact, the general impression was so pleasing that one forgot to find fault,

even were that possible.

Mrs. Arthur Brickenden has appeared ndia. The last speaker was Rev. Dr. even were that possible.

The following of-ficers were elected: President, Rev. Prof. Anderson of Huron College, London; vice-president, Rev. F. Vair of Wallaceburg; secretary-treasurer, Rev. P. H. Streeter, Florence; committee, P. H. Streeter, Florence; committee, and yet it was handled so well that one and yet it was handled so well that one would be led to imagine that it was built especially for Mrs. Brickenden. She was well supported by Col. Lyne Evans, in the role of Vernon, Lord Ban-teck. Col. Lyne-Evans supplied the very ype required for the part. He inter preted the role with much sympathy.
Probably next to the role taken by
Mrs. Brickenden, the heaviest work of
the evening fell on the shoulders of
Sidney F. Sims as Martin Bennet, butler
to Lady Bantock and, what was even
more disconcerting, her uncle. Mr. more disconcerting, her uncle. Mr. Sims could hardly be improved upon as the righteous, conscientious, fussy but-ler, who along with 32 other members

of the Bennet' family, undertook to train the new Lady Bantock for her position. He was well supported by Mrs. E. H. Johnston in the role of Susannah Bennet, the housekeeper, who could hardly adjust herself to the idea that her scapegoat niece had become Not too much could be said about the performance of John McCallum as Ernest Bennet, the second footman. He reached almost perfection on his portrayal of a gaping young man servant, none too bright. Along with his per-formance might be mentioned those of Miss Helen McMillan and Miss Allene Neville, as Honoria Bennet and Jane

Neville, as Honoria Bennet and Jane Bennet respectively, maids to her ladyship. The two roles were rather difficult, but they were handled well.

Mr. Ernest Reynolds was splendid as Dr. Freemantle, the old family physician and adviser. Mr. Kenneth Greene appeared to good advantage as George Newte, the former business manager of Lady Bantock. Mr. Greene was forced to affect a dialect, which he

With its beauty and vivaciousness, it broke in on the play like a bit of bubbling

froth. Their stay was brief, but it left a wish that more could have been seen of them. The members of the chorus were Misses Winnifred Dance, Lorna Rumball, Ruth McIntosh, Shirley Johnston, Catherine Beltz, Ruth Mc-Lean and Regina Kennedy. The play was directed and managed

by Stanley Meredith. Others of the staff were Mrs. D. H. Arnott, librarian, and Mrs. A. D. Jordan as mistress
