Department Delays Actions on the Sarnia Highway Plan.

The department of highways at Toronto has not yet decided whether the 5th concession of London township will be paved up with the Proof Line road or not, S. L. Squires, deputy minister of the department, informed The Advertiser this after-

It is known that the department favors paving the 5th concession as the first link in a paved road from London to Sarnia, but, on the other hand, the suburban area commission of London and Middlesex has already paved two miles of what is known as the Hyde Park highway, and has made provision for two more miles of pavement this year as far as Hyde Park village.

No Crossings.

It is pointed out by those interest ed in the Hyde Park highway that through West London and that motorists are not forced to cross any level crossings on the C. P. R. as would be necessary via the 5th concession and the Proof Line road. (The latter road is paved as far as the 5th at the present time.)

Motorists from Sarnia desirous of land would find the Hyde Park road the more direct route. They would pass under the C. P. R. subway in West London and under the C. N. R. subway at the Wharncliffe road or oceed from Hyde Park to the camp

Majority in Favor.

The Sarnia gravel road is a provincial county road at the present time, but will likely be taken over by the department of highways and become a provincial highway. In this event, the department will have full control and will have the final say as to whether the 5th concession will be paved or not. In the meantime the department has asked the subur ban road commission to take no action regarding the further paving of the Hyde Park highway.

this beautiful rug cost only \$18.00"

And in addition to its beauty and low price, a Congoleum Art-Rug is the most practical rug you can buy.

It requires neither dusty sweeping, beating, nor back-breaking scrubbing to keep it looking like new. Dust, grease, tracked-in mud and spilled things cannot harm the smooth, waterproof surface. Nor can sunlight fade the rich, lustrous colorings. An easy going over with a damp mop is all the cleaning needed to keep it bright and new-looking.

Sanitary - Durable

Gold-Seal Congoleum Art-Rugsare an improved form of sanitary floor-covering with a smooth, seamless surface - famous for their beauty of design and extraordinary resistance to wear. They lie flat without fastening of any kind; never curl up at the corners or edges.

Patterns for Every Room

There are rich Oriental designs, such as the one in the picture, well-suited for the living-room; gay floral patterns for the bedrooms; and neat, conventional designs for the kitchen and bath.

To appreciate Congoleum Art-Rugs you must see them; for only then can you realize how decorative and practical they really are. Your dealer will be glad to show you his stock of patterns.

Color has as much to do with success in this attempt as cut, and the lining of coats with the same ma-terial as that used for the frock underneath has been an immense boon. This tends to blur the line of the frock and conceal both difficiencies and excesses of flesh.

The one-sided vogue has spread to other details of the costume. Shoes have toes of one type and color of leather and counters and heels in contrast. Hats are cocked over one ear, entirely concealing it, while the other is left bare, and emphasized by one long dangling earring.

Scarfs Do the Trick. Hats offer a much more difficult roblem. One short rather roundfaced matron, tried on nearly every hat in a smart 57th street shop, in an effort to find a creation which would give a touch of piquancy to a double chin. She threw the last from her in disgust and declared: "Anybody with a face like mine ought to wear a shawl over her head.'

MALNUTRITION—the failure of the body to secure sufficient nour-ishment from its daily foods—is the real source of most of our present-day ills. Not only the poor suffer from it. It takes its toll from those whose tables are loaded with food as well as from starving people.

Food in plenty, yet undernourished — what, then, is wrong? It is the inability of the body to extract from the food the nourishment it needs.

Carbohydrates are the nourishing food-elements your body must have. They are your greatest source of strength and vitality. Most foods contain carbohydrates to a greater or less degree. But very few contain them in a form in which your body can readily use them.

Grape-Nuts does. In Grape-Nuts carbohydrates are available for your body in a form which it can easily assimilate. The vast store of them contained in the whole wheat and malted barley from which Grape-Nuts is made, comes to you in the form of dextrine—the most acceptable of all to your body.

Try this delicious food for breakfast or lunch tomorrow. Serve Grape-Nuts just as it comes from the package, with milk or cream. It is delightfully appetizing and very inexpensive—four teaspoonfuls, which is sufficient for each serving, costs less than one cent. All grocers have it in the wax-wrapped package.

Associated Press Despatch. London, March 8 .- Despatches from Paris, reaching London tonight, seem to indicate that Austen Chamberlain n his interview with M. Herriot, the French premier, made considerable neadway, as much in fact as might have been expected. When Mr. Chamberlain left London on his mission, as he himself phrased it, it was not to make proposals, but to gather information.

The danger, however, which always eemed to threaten the success of his nission has shown itself—that is, France's disinclination to recognize any modification of Germany's eastern frontiers to future arbitration, thereby implying abandonment of the dea of fighting for such rectification had gone a long way in an effort to assure France security.

Few people in England suppose that Germany's eastern frontiers can be considered permanent, and it is feared that, should France, having secured a German undertaking to regard the western frontiers as stabilzed, still base herself solidly on the Versailles treaty, in holding the Ger-

One new and interesting point disclosed since the conversations between Premier Herriot and Austen Cham-berlain is that when M. Herriot insistberlain is that when M. Herriot insisted that the proposed five or seven power pact, if formed, should not diminish the period of allied occupation of the Rhineland. Mr. Chamberlain was able to reassure M. Herriot, explaining that Herr Stresemann, German foreign secretary, in response to the British inquiry, had declared in making his security pact proposal that he did not expect a reduction in the periods of occupation. reduction in the periods of occupation. Undoubtedly the question of Germany's eastern frontiers is the main many's eastern frontiers is the misstumbling block. M. "Home Manager— Purchasing Agent— Art Director-Wife"

Just a slim girl, maybe, or a motherly woman with sweet eyes and white hair-but what a responsibility is hers!

She is the active partner in the business of running a home. She buys most of the things which go to make home life happy, healthful and beautiful. Through her slim, safe fingers goes most of the family money.

And wisely and well it is usually spent too—far better than the average man could spend it himself. For women are better purchasing agents than men. They compare prices, weigh values and shop carefully.

They read advertisements regularly. Every day you'll find the wise little home manager searching the advertising columns for news that will add to the comfort. convenience and improvement of her home. You will find the same clever purchasing agent studying the advertisements to find where and when to buy, and what and how to buy most economically. The advertisements. too, tell this responsive art director how she can make her home more beautiful, more individual—the kind of home that a man appreciates but never knows how it is done!

Advertisements are the wise counsellors in the spenda ing of money that the clever housewife heeds daily.

The business of running a home is made easier by reading the advertisements.

Posting of the 3½ per cent rate for call money, despite a large deficit in reserves shown in the weekly clearing house statement, had a sobering effect and was the signal for a rally, while many points moved up from 1 to 3 points above their early low levels.

Pool operations, which had been largely suspended during the early reaction, were resumed with vigor, the Maxwell Motor issues being elevated to new peak prices, while brisk recoveries were staged in a number of the specialties.

A secondary reaction developed around mid-day with selling pressure condentrated against American Can, Baldwin and other pivotal industrials.

FEBRUARY FAILURESS.
Because of the shorter month, a decrease in the number of failures in the United States during February was to be expected, and the total fell to 1.793, according to reports to Dun's Review, his is about 22½ per cent below the number for January, while last month's Rabilities of \$40,100,000 show a reduction of 26 per cent. Yet the business mortality is larger than that of a year ago, when the February defaults numbered 1,730 and involved \$35,900,000. For two months this year, increases of about 7 per cent in number and 8 per cent in the indebtedness are shown over statistics for the corresponding period of 1924. Returns for the last week disclose a total of 390 failures, which is 11 less than the number reported a year ago.

WINNIPEG

Canadian Press Despatch.

Winnipeg March 7.—After suffering a break of 6c, wheat prices on the Winnipeg exchange recovered half the loss before the close of the erratic and highly nervous market today, May skidding another 3c to \$1.88\frac{2}{3}\$, July declined \$1\frac{1}{2}c\$, closing at \$1.84\frac{1}{3}\$, while October was fractionally lower at \$1.50\frac{1}{4}\$.

Bearish sentiment had complete control of the market, and the orgy of hquidations which characterized yesterday's session was practically duplicated, the May future at one time shooting down to \$1.83\frac{3}{4}\$.

The coarse grains underwent even more drastic declines, rye closing 5\frac{1}{2}c\$ lower, barley 3\frac{1}{4}c\$ down and oats 3c below yesterday's figures. Flax prices were stationary. These markets all were weak.

Throughout the session the pits were crowded with excited traders, all intent upon unloading at the opening of the market. Prices held fairly firm, with good buying support coming from export houses. This demand was quickly satisfied, and prices dropped rapidly. The decline represents a recession of 22c since last Tuesday.

goal that won the game. Both sides set a dizzy pace for the final minute. Grimsby striving for the goal that would tie the round and Niagara Falls for the counter that would save them from a defeat in the game, but both were unsuccessful.

Grimsby presented a great checking team, one of the best that has ever played in the local arena, but they failed to show the scoring punch when they had the charges to draw ahead. For the winners Fraser staged many rushes and only good work by Fisher robbed him of several goals. Kitchen teamed well with Fraser on the defence and attacked constantly, but he drew down too many penalties. Harrington was the one to produce the punch that got the goals, although Seibert and Kelterborne were prominent, the latter showing well in the last period.

Fisher in goal with Reid, Horne and Clark were the best for the losers. The forwards back-checked themselves into the ice, but would not quit. The defence was weakened, but made few lapses, although they were costly. The teams:

Canadian Press Desratch. Hamilton, March 8 .- Outplaying the Hamiltons from the goal out the Boston Bruins furnished the unexpected here saturday, defeating the league leaders to 0. The Bruins played like champions, and were entitled to a large marin, but bad shooting by Shay, and smart met-tending by Forbes held them to two counters. Every member of the Bruin team turned in a smart performance. Stewart's work in goal for Boston was sensational and the best witnessed around this neck of the woods

Hamilton underestimated the Bruins They went about their work in a careless manner to start, and it was no intil late in the fracas that they lit heir regular stride. Then they realized hey had Stewart to deal with, and his they had Stewart to deal with, and his work proved too big a handicap for them to overcome. The Bruins' front line, composed of Shay, Jackson and Herberts, never looked better on Hamilton ice. They showed an attack that compared favorably with any seen here this season, and they checked back well enough to break up Hamilton plays before they got properly under way. The defence offered by the Bruins was another surprise. Mitchell and Hitchman resembled the proverbial stone wall and turned back many a Tiger attack. Both men made good use of their bodies and by constantly stepping in, took much speed out of the local front line.

Billy Burch, voted the most valuable player in the league, was Hamilton's best. His checking was a feature and only smart work by Stewart held him icoreless.

CANADIENS WIN 3-1.

Canadian Press Despatch.

Montreal, March 3.—Canadiens and Montreal staged their final interborough clash of the N. H. L. season here Saturday, Canadiens winning 3 to 1, and thus holding their narrow one-point margin over the strong-finishing Ottawa club for third place and the right to enter the league eliminations. The result leaves the outcome up to Monday's final league battles with Canadiens receiving Hamilton Tigers here and Ottawa playing at Boston.

Any doubts as to the fight that the Montreal team would put up against the local rivals in the important tussle Saturday were settled early in the game when it was made apparent that the Maroon-clad players were going to battle every inch of the way in an effort to score at least one victory this season on Canadien ice.

Denominational College Needed in University, Says Cen-

The need of education both for the social and ethical improvement of the world and for all those who are ministers in a church was declared imperative by Rev. A. E. M. Thompson in a sermon in the Centennial Methodist church yesterday morning. "There are some people" he said, who think that no education is necessary for a minister, and refer to Moody, the evangelist, as an example.

ministry. Mr. Thompson spoke on the Methodist educational work, and said, "There can be no successful university work without the denominational college in it. That was amply proven by the case of Germany. It was in Germany that education probably reached its highest standards, but there was no spiritual life in the universities there. Truth al the gifts that a denominational college in a university makes to it."

Cf the work of Victoria College in Toronto, Mr. Thompson said: "In the eye. This is no asset to a left-handed first baseman, and Mr. Pipp has received first baseman. the gifts that a denominational col-

Plunger the Fish Hawk, That Famous Fisherman, Is Caught At Last

By THORNTON W. BURGESS.

Seldom has Plunger the Fish Hawk known fear. Only when King Eagle has threatened to strike him to make Ym drop a fish has Plunger known fear. And then he has known that all that was necessary for safety was to let go of the fish. But now Plunger did know fear. He had seized a fish so big and heavy that he could not lift it from the water. and he had discovered that he could not let go of it. You see he had sunk

his claws into it so deeply that he could not withdraw them. Now that fish was strong. While Plunger was struggling to lift him from the water he was trying his from the water he was trying to best to drag Plunger under water. Provincial Authorities More Determined Than Ever To Bring Man Back.

JARVIS PAYS \$140,000

Special to The Advertiser by a Staff Correspondent,

Toronto, March 7.-Determination on the part of provincial authorities to bring back for trial, Andrew Pepall, now fighting extradition at Los Ankeles, has stiffened considerably since A. Jarvis, bond broker, stated on Saturday that Pepall had received the greater part of the \$600,000, which he, Jarvis, had been accused of taking as profits in provincial bond deals.

On Saturday, \$140,000 of the \$600,-000 fine imposed had been paid by Mr. Jarvis, who is now serving a sixmonths' sentence at the jail farm, York county.

Mr. Jarvis claims that the \$140,000 represents what he states was his actual profit, namely \$116,000, plus five per cent interest since it was made. Mr. Jarvis, in paying this amount of the fine states that the remainder of the profits in the bond transactions went to Andrew Pepall. who is now in Los Angeles. years and is now in Portsmouth peni-tentiary. Chief Justice R. M. Merelith, who sentenced them, added a line of \$600,000, which he figured was the total amount which had been taken by the men concerned and which rightly belonged to the prov-ince. He stated that the men would stay in jail until the fine was paid. Counsel for Jarvis appealed the decision and that appeal is still before the high court. The attorney-general would make no comment on the probable effect of the payment of \$140,000 of the fine on the appeal. It is a matter for the high court ludges. Testimony of Former London Clergyman Goes For Naught.

Associated Press Despatch. Los Angeles, Cal., March 8 .- Jack Elerick, Joe Bertsch and Frank Wilson, tried for complicity in mail truck robberies with Herbert Wilson, San Quentin "Lifer" here in 1921, were

found not guilty by a jury in federal court yesterday.

The high light of the proceedings came with the first witness, Herbert Wilson, ex-clergyman, confessed mail robber and "lifer" at San Quentin, for murder, who testified that the men—one his brother—planned and assisted in the execution of the mail raids which netted \$500,000.

Arkansas Fires Cost \$600,000

Associated Press Despatch.
Fort Smith, Ark., March 8.—
After a fire last night which destroyed the Fort Smith Cotton Oil Company, with an estimated loss of close to \$300,000, the Senor Glass Company was burned this after noon with a \$300,000 loss.

At 2:30 p.m. another fire broke out in the residence district, and two hours later eight residences were aflame. A high wind and poor water supply caused the fire to

Very Rev. Dean Tucker Preaches On Forty Days of Temptation.

Preaching on the forty days of emptation in the wilderness, Very Rev. Dean Tucker at St. Paul's Cathedral drew two outstanding conclusioss from it. First, there was the tremendous power that evil could exert on humanity, and second, the mnipotent power of God to save the ndividual from sin.

"Our lives are full of mystery," he our lives are thin of hystery, he said; "all around is a world of mystery, which the greatest intellects of the world have studied without avail. What life itself is we know not. How it came we kno nwot. How to restore

is beyond us.
"But with all the wonderful mystery of our life, we must remember that it is but the gateway to the much more wonderful spiritual life. The mysteries of body and spiritual life we shall probably never know, but we do know that in life there is good and evil ever present and ever

good and evil ever present and ever needing our attention.

"In the temptation of Jesus when He was subjected to three supreme temptations at the conclusion of His 40-day fast, we find the power of our Lord most supremely illustrated. First, there was the temptation of food, which was subtly designed to have its appeal in the weakened condition of the body after this long fast. Then we have the appeals to worldly success and power in the temptation of the pinnacle of the temple and of the mountain top."

the mountain top."

"You know how our Lord met these temptations and how He mastered them. Then at the end of the three trials we learn that angels came and ministered unto Him. This is alministered unto Him. The body or the spirit. We have evils of lust, wealth, drink, pleasure, all of which call for our denial. But we have the promise of Christ, 'Lo I will be with you always, even unto the end,' and the knowledge of the power of Him to save us."

"PRINTS ARE EVERYTHING" — THE FASHION VERDICT FOR SPRING

AND SUMMER In the name "prints" we allude to the beautiful and colorful patterns created on silk cantons, Marocains and flat crepes. And these are just the silks when you long for something different. And most women do. There's the rare charm of individuality of designs, the unusual color blendings and the guaranteed quality of S. & I. Silks that have earned their enviable reputation for leadership. Some of ·the outstanding styles are in borders, large and small spots, Bayodere stripes, etc.

WASH FABRICS

RAYON-The feature fabrics in summer dress materials almost all show mixtures of Rayon (artificial slik) in truly wonderful effects, giving an entirely new field of selection for smart summer dresses. Charming are the fabrics shown in this class Broches, Brocades, Stripes and Checks in Crepes, Marocains,

PRINTS-Of course the immense popularity of all printed fabries finds us prepared with a most deligntful assortment for your summer frocks. Pretty Cotton Taffetas, Voiles, Broad-

Or Rayon mixtures showing the art of the weaver and printe in producing beautiful goods.

LINENS for many purposes, but especially for ladies' and children's dresses, are assured of success for the coming season, already selling freely. You have a wide range of colors to select from.

DURO-Broadcloths (plain and stripes), Ginghams, Chambrays, Shirtings, too. Hundreds of patterns in these popular cotton materials for this season's wear. We ask you to see our displays of "Duro" fabrics in these goods. The designs are new productions. The colors just what are being featured for this season. But most important, every yard of "Duro" fabric is guaranteed fast to light and washing. Cost of goods and making refunded if Duro fabric fades from these causes.

NEW WOOL FABRICS AWAIT YOUR APPROVAL

Wool Balbriggan

A feature at the French Riviera and Palm Beach for the smart dress, is here. The name signifies the weave. It's much like men's balbriggan shirts in the natural color and also in a variety of spring's new colors. SPRING SEWING

MOST EFFECTIVE OF ALL, WHEN YOU USE DESIGNER PATTERNS AND THE BELROBE.

Designer patterns are cleverly in accordance with the modes. The Spring Fabric Exposition is making them of more than usual interest.

In this week's fabric display are new costumes which had their inspiration in Designer patterns. An ensemble of bengaline and printed silk. A summer sport frock of pink and white striped tub silk. Styles which show the Designer manner of coupling smartness with simplicity.

With the Designer pattern comes The Belrobe-an explicit chart which provides a short course in dressmaking with each frock you make. It affords a surprising economy in material, too, for it teaches you to cut in the manner of an expert. Follow your choice of fabric with the choice of a Designer

pattern. The smartest lines and trimming details are incorporated in the Designer Spring Fashton Book. At the Pattern Counter, Main Floor, East Side.

Young Boy Dives Into Icy Water KATHERINE M'DOWELL, To Rescue Chum Caught In Mud

Special to The Advertiser. Woodstock, March 8.—Harold Smith, aged eight years, narrowly escaped drowning yesterday afternoon, when only the quick action of one of his playmates, Roland Goodeve, aged 12, saved his life.

The Smith boy had fallen into a deep pond in the city's gravel pit in the west end of the city, and becoming stuck in the mud at the bottom of the pit, failed to rise until Goodeve, diving into the icy water, brought him to the surface. Both lads were badly chilled and were rushed to their homes where their condition is today reported as favorable.

A number of the boys had been playing in the gravel pit, and the Smith lad overbalanced and fell into the pond, which, at this time of year, is several feet deep.
