Sir James Dunn Endows Chair in Geology

Sir James Dunn, Bart., a leading New Brunswick-born Canadian industrialist, has presented the University of New Brunswick with a gift of \$25,000 to endow a chair in Geology.

This announcement was made recently by UNB president This announcement was made recently by UNB president Dr. Colin B. Mackay, following a meeting of the University Senate here. The chair will be known as the Sir James Dunn Chair in Geology. Funds for the endowment are from Algoma Ore Properties, Limited, of which Sir James is president.

Dr. Mackay's announcement said that the new chair in Geology "will be a tremendous advantage for this university. It will enable us to do better and more comprehensive work and it will greatly add to the prestige of the department."

"The growth of the department of geology," he pointed out, "could Christian Federation will visit the

that of New Branswick."
In this connection, Dr. Mackay
Churches at the Evanston Assemrecalled, research work carried out bly. recalled, research work carried out by Sir James Dunn scholars at the provincial university had had an immediate practical bearing. He cited the work of A. B. Baldwin, whose thesis on the Bathurst iron ores was instrumental in the great discveries in that region.

Thirty-seven students have been assisted by the Sir James Dunn Scholarships since their inception and today they are all playing important roles in the mineral indus tries, government services and universities, Dr. Mackay said.

Investing Topic of Joint Meeting

A combined meeting of the Business Administration Club and the University Investment Syndicate was held last week on the campus and two movies, dealing with investing, were shown.

One movie, entitled "Money in your pocket" dealt with the manufacture of currency and Bank of Canada notes. The second movie, Commodity Exchange" explained hedging on the market and buying and selling futures. Following the movies, the two clubs separated for their respective business meet

The UIS meeting decided to sell "Bosha" at 80 cents and heard a report from Earl Underwood on Bosha" and an "Fundy Bay". A motion to purchase the 1955 issue

of "Survey of Mines" was carried At the UIS meeting held on Feb. 22, plans for this year's banquet were discussed and it was decided that the banquet be held at Col-well's Inn on March 16. A report by Walter Jones, treasurer of the by Walter Jones, treasurer of the syndicate, brought the members up to date on the advertising for the 1954-55 issue of "Up the Hill", and was followed by a talk on one of the phases of inevstment by pus and now plan to approach the Earl Underwood.

Geology Club

A large turnout of geology stu-dents heard Dave Mann speaking on "Microphotography and Photo-micrography" at a meeting of the

Bailey Geological Society on Monday evening, February 28.

Dave spoke on the theory and some of the applications of microphotography as related to the Geological Sciences. He also showed logical Sciences. He also showed some interesting slides that he had made.

The meeting was followed by a lunch in the Blow-pipe Restaurant.

The NFCUS Committee wishes to thank Mr. Al Tunis, Faculty Adviser to the "Brunswickan" for his more than generous assistance in producing this paper.

The scholarship was established by the Associated Alumni in 1950 to perpetuate the name of Dr. Jones, who was President and Chancellor of U.N.B. from 1906 to

BRIGHT FUTURE SEEN FOR GRADS

Fredericton, Feb. 23 __ In the next 20 years, Canada's rapidly

Speaking to the annual University of New Brunswick Graduate School Dinner in the Lord Beaver-brook Hotel, Prof. Woodhouse said that the need of an expanding economy was reflected in the ex-pansion of the departments in the universities. There would not only be greater need for engineers, business administrators and social workers, he pointed out, but the cultural needs were also coming into view.

The distinguished Canadian Eng The distinguished Canadian English Professor said that the student specializing in the humanities and the social sciences would be called upon in the next two decades to assist this country and the United States in meeting the tremendous increases in correlments on the uniincreases in enrolments on the university level.

Prof. Woodhouse outlined some of the difficulties facing graduate schools today. Canadian instituschools today. Canadian institu-tions, he said, were primarily com-mitted to undergraduate studies; in total equipment and libraries, Canadian universities fell far be-low those in the United States; and the great distances in this and the great distances in this country made pooling of resources difficult.

The main difficulty up to now, he continued, was that of finding a place for the humanities gradu-ate on the "tricky and spasmodic Canadian market."

On the positive side, Prof. Woodhouse pointed out that Canadian universities had managed to promote good-will between the various

"The cleavage between the sciences, the humanities and the social sciences is not as marked in Canada as in other parts of the continent," he said. "Canada's noteworthy contribu

tion to North American education,"
Prof. Woodhouse said, "has been
the development of the honours nonours course in the universities. The curriculum in Canadian universities, he explained, provided sounder education and firmer base for graduate students than elsewhere on this continent.

Retiring SRC president Don Fowler called on students "to sup-port the activities of the Council Janet E. Hornibrook, science return of the best possible SRC to carry on next year.

Others contesting seats on the SRC executive are: Jim McKenzie and Sherman Hans for treasurer. Valued at \$250 annually, it is awarded to a second year student with high standing in Mathematics.

Elected by acclamation are: D. M. Hayter, first vice-president; Iris Bliss, 2nd vice-president; and Sheile County and Sheile County are the second Sheila Caughey, secretary.

Following is a list of candidates for other campus posts:

Senior representatives, three male, one co-ed: Warwick Gilbert, Walter Jones, Peter Knowlton, Doug Lacate, Irving Mitton, Dana Wasson, Peggy Wetmore.

Intermediate Bill McEwan, acclamation.

Junior representatives, male, one co-ed: Mike Caughey, Fred Clarke, Neale Hargrove, Mary Linn Rose, Hazen Marr, Carel van

Returning officer for tomorrow's election will be Bill McNamara. At the same time as electing SRC representatives, students will also choose their class executives.

Monte Carlo Nite **Draws Big Crowds**

The Forestry Association held its 4th Annual Monte Carlo Nite in the Boxing Room of the Lady Beaverbrook Gymnasium on Friday, Feb. 18. It was a huge success, in spite of the heavy snowfall which kept away many other people who wished to attend.

After the basketball game was over, 250 people trooped in the door and immediately the room was filled with the mutters of those who had lost and the shouts of joy of those who were winning at the games.

0

For those who did not feel in the mood for games, there was dancing at the far end of the room. Chocolate bars, drinks and cigarettes were sold at the bar.

The room was darkened to a great extent by the coloured filters on the lights. Pogo wall murals decorated the walls. The eighteen table tops were decorated in typi-cal black and pink Monte Carlo

colours . Over forty members of the Association dressed in white visors acted as croupiers.

During the evening a mambo contest was won by Leon Taylor and Margie MacNaughton, and a jive contest was won by Fred Clarke

and Pam McCready. When the Monte Carlo was about to end for another year, people were asked to turn in their money. Two prizes for those two who turned in the most money were won by Dave Prime and Bob Harris.

Recalling an earlier visit to the Maritimes in 1946, Prof. Woodhouse expressed appreciation at the change in the University of New Bruaswick. "I judge that very great advances have been made at this university in graduate studies since 1946," he said.

Prof. Woodhouse was introduced by Prof. F. J. Toole, Dean of graduate studies at UNB, who pointed

BLOOMERS WIN; ROMP OVER MT. A.

OPEN TWIN BILL.

Playing the first encounter of the evening the ..Red .Bloomers started the triple win week-end off with a 39-29 win over the Marsh with a 39-29 win over the Marsh-land girls in a slow but steady game. .U.N.B. did most of their scoring in the first half as Bliss, Lange and Oglivie showed their well-timed form. Dot McDade was again the stalwart guard as Sally Scovil and Diane Edwards worked on either side of the key. The first half tended to be rough as U.N.B. picked up the majority of the fouls with Mt.A. unable to capitalize on

Opening the game U.N.B. forged ahead as Bliss and Ogilvie found the mark with Lange picking up points off the backboard, Guarding came under the pressure as the Red and Black squad passed well. Jane Ogilvie picked up four points as she wove in from the corners on passes from Iris Bliss. Frequent

Caught in this photo is the Bioomer's forward line pressing in for two points with Lois Lange shooting while Iris Bliss and Jane Oglivie back her up.

changes kept the whole team on their toes. Though not too fast, the brand of ball assured U.N.B.'s lead with steady court work.

Realizing the rules of the girls game which disallows shooting guards and forces them to stay be-tween the 10 second line and their was above par which pointed to own backboard, the court work the Bloomers 23 to 10 lead at half time. Throughout the first two quarters Mt. A.'s Dot Terry, Pat Henderson and Kay Wever played well for their points backed by looser court work than U.N.B. by guards Anna Williamson and Anne Tupper.

Coming out for the second half U.N.B. girls got off on the wrong foot and stayed there for most of the third quarter, working hard but to io avail, the forward lines but to ic avail, the forward lines wouldn't click as passing went wide and rebounds were missed. Shooting dropped off as the Mt.A. guards closed in and fed the ball up to Terry and her companions on the line. But for the guarding of Marg McNaughton, McDade, and on the line. But for the guarding of Marg McNaughton, McDade, and Sheila Coughey, Mt.A.'s scoring punch would have gone further to Mt.A.—Terry 19, Henderson 6, McAllister, Toole 2, Webb 2, Loomproof, Williamson, Tupper, Taylor, Ryder.

UNB SKIERS 2ND.

Ski God Ullr heard the Ski Club's prayers for snow for their Mari-time Intercollegiate and Open Ski Meet, on February 19 and 20, and the obliged with a vengeance. In the midst of the worst snow storm of the winter the members of the Ski Club had to work their utmost to prepare the Royal Road Ski Hill for racing. Unfortunately, the Cross Country had to be cancelled because of too much srow but on because of too much snow, but on Saturday the Downhill was run, on a relatively slow and soft course. Twenty-three racers competed, with teams from Edmonston, Saint John, Fredericton, Mt. A. and U.-N.B. First place was taken by Norval Balch (U.N.B.) 59.1 sec., second Bob Crooks (Edm.) 60.65, third Ernie Chaisson (Edm.) 62.75 sec. In the girls division Heather MacDougall (Mt.A.) took first with 77.05 sec, Diana Drew (U.N.B.) took second, 77.45.

On Sunday morning twenty racers skied through a Giant Slalom course, and the deep ruts in the soft snow accounted for a large number of prangs. Bob Crooks (Edm.) made beautiful runs to take first with 83.6 sec. Second was Norman Albert (Edm.) 91,2 sec., third Bob Lawrence (St. J.) 93.45. In the girl's division, first was taken by Heathar Mofirst was taken by Heather Mc-Dougall (Mt. A.) with 104.6 sec., second by Sue Minnes (Mt. A.) 126.7 sec. .The spectators event, jumping, was carried on in the late afternoon, the top jumper being Bob Lawrence (St. J.) with the longest jump of 56 ft. Second was Jack Adderley (U.N.B.) 52.3 ft., third was Ernie Chiasson (Edm.)

close the gap. Play became more eratic as numerous fouls were called and many jumps were mitt-

With advent of the final frame the Bloomers shook off most of their poor taste as they again started to click. Lange began to hook in from rebounds as Bliss and Hornibrook grove in for lay-ups. with renewed action by the for-wards the guards settled down to better ball. Play continued to be rough as each team drove in relent-lessly and U.N.B. held onto its narlessly and U.N.B. held onto its narrow five point lead. ...Midway
through this quarter Dot Terry,
standout forward for Mt.A. twisted
an ankle as she drove in from the
side and slammed into the end
wall. The blow seemed to render
her senseless for a few moments
but she was soon on her feet and
was assisted from the floor, with a
round of applause from the spectaround of applause from the specta-tors on her behalf.

This unfortunate incident did not slow Mt. A. completely but as the Bloomers had now found their range, they continued to expand their lead. As play ended the U.N.guards were bunching und their own basket but shooting had improved to put the 39-29 triumph

on ice. Next week-end sees the Bloomers off to Mt.A. to complete their series. If, and we can be fairly sure, they win they will become co-champions with the Dalhousie champions with the Dalhousie girls. This situation arises from the fact that both teams have an equal won and lost record and it is most difficult to arrange a final game for the round-robin league at this time.

Lineups: U.N.B. — Briss 12, Lange 19, Hornibrook 4, Ogilvie 4, Scovil, McNaughton, Edwards, Miller, McDade, Trecarten, Caugh-

Playing their last game of the season the U.N.B. Red Devils came up with a win to lift them out of the celiar in the N.B.-P.E.I. intercollegiate loop. ..The game played on natural ice against St. Dunstans University in Charlottetown proved fast and at times furious as the

ved fast and at times furious as the Devlis finished off the season on a high note...The final score came out 9-8 for U.N.B. as a 5t. D.U. build-up fell short of the mark. St. Dunstans opened the scoring at 8:39 of the first period after a fast exchange of shots and checks. The goal by Callaghan came on a screen shot which Griffiths in the U.N.B. nets hardly saw. A minute later Ketch of the Devils was out in the clear when tripped going in to score. Dohaney even the count to score. Dohaney even the count at the 13:10 mark with a driving 10 foot shot as the Mockler brothers, Hub and Pete assisted as they swept past the St. D.U.'s defence. Scoring again to put the Red and Black ahead Dohaney slapped one in from near the blue slapped one in from near the blue line, assisted by Ketch and Kennedy at 14:00 minutes. The score remained 2-1 for U.N.B. for the rest of the period as play was controlled by the Devils. As period closed Coombes went racing in on the St. D.U. nets only to be called offside. As the whistle blew he lifted a high shot goalward which hit the Island netminder on the hit the Island netminder on the head. Two penalties were called, both for tripping, by the St. D.U.

The second stanza opened on the The second stanza opened on the same note as the first, as U.N.B. controlled the play. Fast hockey was displayed while both teams dug for the openings. Only one penalty was called, on Mullins for slashing while the goalies were hard pressed. When scoring did come it was in a rush as U.N.B. poured in three goals in the last two minutes. Bon Ketch picking two minutes. Ron Ketch picking up a pair. The first at 17:50 was the net result of a fine passing play which left Ketch uncovered at the goal mouth as he made no mistake. At 19:02 Ron again scored as he took a pass from Kennedy to slip the disk under the St. D.U. netminder. With 6

At half time during last Satur-day's U.N.B.-Mt.A. men's basketball

game, record-breaking medallions

game, record-breaking medallions for swimming and a trophy were presented. Mr. Aldon Clark, representing the New Brunswick division of the Amateur Athletic Union of Canada, presented the Gleanersponsored trophy to Bill Russell of St. Stephen. This trophy goes annually to the N.B. high school athlete most deserving of such an honour. Bill received the handsome piece of silverware for his

some piece of silverware for his efforts in track and field both in

ed a full length play to set up a fine goal. After stopping a short in font of the U.N.B. net, Benson broke out, catching one defenceman back, flipped a pass to Coombes who lifted the puck over the sprawling goalie. The natural ice which was turning soft began to take its toll as play became more degreed as the Devils left. more dogged as the Devils left the ice for a well-earned between periods breather.

The St. D.U. team came back with vengence in the final frame as the quick opener came at the 52 second spot, Callaghan com-bined with Jay and Goodey from a goal mouth pile-up. .Griffiths had made his step but the puck was pushed from under him into the goal for the score. ..At the 4:17 mark Dohaney drove in his hat trick goal of the night. .Breaking out quickly, he drove in fast to pick up a pass from P. Mockler just over the St. D.U.'s blue line to go in and fake the goalle out and send the shot through his legs to P. Mckler picked up his second score. .. A minute and a half later A bounding shot, it flipped in goal on a pass from Johnny Sears. the goalie's glove for point.

St. Dunstans came flying back with two unanswered goals at 6:10 and 12:30 to leave the island squad one goal down: Lemieux and Rossitier and MacDonald at 6:10 and Lemay and Gionnet and Mc-Innes at 12:30. No more scoring could be done by either team. At the 18:00 minute mark St. Dun-stans rulled their goalie in an effort to apply pressure for the tie. The opposite was the reaction as U.N.B. stormed up the ice with Hersey's shot missing the open net by inches. The St. D.U. goalie was quickly reinstated and the situation remained so until the final whistle a minute later

The only scrap of the game came at the 4:30 mark of the second when Dohaney and Roy traded punches after a roughing high sticking duel . The fight was Kennedy to slip the disk under broken up only to start again. Rethe St. D.U. netminder. With 6 seconds left to play Benson start-decision.

Pam McReady was awarded her

DEVILS DUMP RAIDERS TAKE STANS 9-8 NB-PEI CR

Drop Mt. A.

Playing before a nearly filled house last Saturday evening, U.N.-B.'s Red Raiders squeezed past Mt A. to take the N.B.-P.E.I. basketball championship in a very close and hard fought game. Play rough-ened up only in the last quarter as U.N.B. came back from two relap-ses to earn twelve points in the last two and one half minutes and take the game by a 63-58 score. Stress was evident all over the house as Raiders tempted the fates with their last minute drive; if further games are as close, heart specialists could do a land office business in the stands. Two weeks ago the Red and Black squad took the Mounties at home 98-60 and as a result many descrip-tions of this games butcome could

Here we see John Gorman, star

U.N.B. forward, going up from the corner with a jump shot as brother Tom drives in under the basket. medallion as a result of her win-ning time in the women's back stroke which she will defend Friday night at Cornwallis. .. Shirley Hitchen received her award denot-

team played well but Jim Milligan was outstanding on rebounds at both keys as well as sinking 15 points. When U.N.B. fell apart in the first and third quarters it was ing record time going the same distance in the free style. Miss Hitchen will also make the N.S. trip today for the Maritime Open and Intercollegiate meets. Brandy Brannen and Jack Patter-son the eternal twins ,who calmed the storm for the hillmen. . McLellan and McEwen played very well for the visitors as they pumped in

the province and at the C.N.E. on Toronto last year. ..At present he is enrolled as a Freshman scientist here and is a most welcome members of the blossoming U.N.B. track

Don Fowler, senior rorester, to ceived a similar distinction emblematic of record time for the men's 440 yard free style. ..Don, though unable to swim in the MIAU meet on Thursday, will cambridge from end to end. U.N.B. ran up an angle of the blossoming U.N.B. track early lead of 6 or 8 points only to have their team work drop. Mt. A. started to take control after about five minutes as the U.N.B. court work and shooting fell off. Mc Ewen and Bain began to apply pressure as they sank several fine shots and worked the ball well in the back court, U.N.B. snapped the back court, U.N.B. snapped out of ts lethargy only spasmodically to rack up the occasional point. Foul shots for the Raiders kept the scoreboard clicking and the Mt. A. point margin within limits. The first quarter ended with Red and Black stock holders exhabits the dealers of the stock checking the odds. Coming back for the second stanza the Raiders reversed positions and the game took on a new, faster tone. T. Gorman began to get his jump shot away backed by Milligan and J. Gorman from the corners. The Red and Black were soon within halling distance. As the gap closed U.N.B. floored a new team. "Tex" Doiron and J. Forbes handled play well as Bob Whiteman unlimbered his shooting arm. The back court play took up a faster pace as the teams moved within two or three points of each other. Mouse Mc-Lellen had come into the game midway through the first quarter and his influence began to tell as he put together several fine plays in, under and around the basket. Langley and Bain also of Mt. A. picked up the theme and soon had worked into the driver's seat. As U.N.B. threatened another let down Milligan and T. Gorman stepped into the current as half time approached. The earlier relapse had seen the Raiders refuse to shoot, throw the ball away, and generally to go limp. Coach Rogers could little use another.

it had left off in the 2nd, fast and sure. Mt. A. however seemed after the prize more eagerty and were soon leaving the Raiders astern. As the gap widened the Raiders starting linup could do nothing right evcept for foul shots. The shots from the line again kept the scoreboard from tilting as Mt. A. went up 11 points at one time.

The fourth quarter brought out what all had waited to see. Fast hard basketball as a night cap for the previously good game. ..U.N.B. trailed by a constant 5 to 7 points, the efforts of the garnet and gold as the score mounted. .Play went from end to end as each team drove in with little to choose from in styles. .McLellan continued to rack up points as the Raiders fed J. Gorman in the corner. ..As the clock continued to swing around Mt. A. reached 58 and play was broken up by a series of fouls. With 21/2 minutes to go U.N.B. looked up from a seven point deficit and began to work. Half a minute previously McLellan had been fouled out as he took Bran-nen over the shoulder, ...With two baskets and 3 foul shots the Raiders tied proceedings in a knot as spectators went wild. T. Gorman wtih a jump shot foul from the key put U.N.B. ahead with 50 seconds left. ..Mt. A. drove back but with tremendous guarding and a ball steal by Patterson, the Raiders pulled a freeze from an out ball.

Lineups: U.N.B.—J. Gorman 10, B. Whiteman, J. Milligan 13, T. Gorman 15, Brannen 23, G. Doiron, J. Patterson, G. O'Blenis, J. Forbes, J. McLeod 2.

8

Mt. A. — Essing, Langley 2, Bain 2, McEwan 11, Roberts 4, MacDonald 4, Naylor, McDougal, Daniels, McLellen 35. Fouls: U.N.-B. 10, Mt.A. 19.

SPIRIT LIFT

Closely connected with and bolstering up, Saturday's double head-er at the gym. were the U.N.B. cheer-leading corps and rhythm band which kept up a steady tem-po throughout the evening.

The cheerleaders perched pertly on the leading edge of the East balcony led that section of the U. N.B. fans in many familiar chants and songs which brought spirit to a high point . This is the first in-door outing for the Red and Black cheering line this season and an attractive one at that. Since there should be another home game as the Raiders play the Nova Scotia winners we may well witness an-

other rousing round of selections. The band or rhythm section did itself proud as the residence staff-ed outfit cut loose at will and with vengence. During the girls fracas they experimented with numerous arrangements and as the second half of the double header came up, the band was in good form. dy tatoo during time outs and smashing cresendos whenever the Raiders scored helped keep all on the edge of their seats. With the rise of a full fledged brass band, sponsored by Lord Beaverbrook for next year, many of these artisans should fit in well

The regular meeting of the Forestry Association was held in the Memorial Reading Room on Monday, Februory 21. After a short business meeting, five movies were shown, two concerning tractors and the others concerning fire-fighting. In between films, coffee and donuts were served. Per usual, a very interesting and educational evening was spent by the thirty-five members present.

The lumberjacks near Watersmeet, becoming tired of the salt pork and hardtack which comprised their camps fare, took up a collection and sent one of their number to town for something fresh. He returned with ten quart bottles of whiskey and a loaf of bread. The man called indignantly, "What in hell are we going to do with all the

The Monte Carlo on February 18 turned out to be another success. Each of the 250 persons attending seemed to have a wonderful time. The chairman of the committee of Monte Carlo would like to thank all those who took part in the very many hours of preparation for this

It was stated in last "Bulldozer" that the Wassail was a huge suc the was stated in last builded that the wassan was a mag success. We are little in doubt of this statement due to the facts overheard concerning the "do". Perhaps it would be a good idea if next year, before the Wassail, the engineering society held a pre-Wassail to train the few members who thought it would be smart to put on a big act which ruined the fun for the rest of the society. It is no wonder that the society has no money. The engineers know of what we speak. The difference between a freshman and an upper classman; Freshman says: "Was I ever drunk last night". Upper classman says: "Were you ever drunk last night.'

The mens' chorus line for the Red and Black, we are pleased to report, is composed mainly of Foresters, and the setting is a bush camp. It has been a recognized fact that "Stud's" name should be changed to

PIN-UPS ON THE WALL by FRED DRUMMIE

Pin-up pictures today have become an Integral part of our society. There is almost no place in modern civilization where, if men are present, yu cannot find a picture of the opposite sex. .The number of these articles and their type vary with the situation, whether you are in an air force base in the far North, a college dormitory, or an office in metropolitan Montreal. The whys and wherefores of the presence of pin-ups I leave to psychologists to explain, but I think that the assumption that they fill a void in the life of the men who hang them is true. Possibly a brief history of the pin-up could explain this further and clarify the present world wide acceptance of this form of

Pin-ups originated in ancient Egypt ,in the age of the pyramids. According to the religious beliefs of the time, when dead, the soul went on a long journey. The pyramids were filled with all the utensils and tools necessary for the trip to the other world. Since Pharoh would be gone for some time, various pictures were drawn upon the wall to remind him of his days on earth. These were the first pin-ups.

mind him of his days on earth. These were the first pfn-ups. The empires of Greece and Rome arose in later centuries and new refinements to the pin-up art were invented. As chiselled drawings were messy and expensive, the government subsidized the industry by erecting many statutes in the public squares. In these times they were known as set-ups. Among the most famous models of the age was one Venus de Milo. Unfortunately irate members of the female sex descrated her statute, and what remains is but a shadow of its former

Statutes were not enough for the Romans: they desired more life-Statutes were not enough for the Romans: they desired more life-like pin-ups. As a result, a gallery named the Coliseum was built, and in its center was a large arena. The arena was filled with stakes and crosses upon which live pin-ups were nailed. Unfortunately, most of the models had poor health and the death rate was almost one hun-ded percent, which necessitated a new show each day. Naturally enough, huge heavy statutes could not be carried around when the Roman legions flung themselves across the then-known world. As a substitute, the soldiers took with them slabs of inscribed stone. A gallery containing many samples of these stones can be seen in England today. It was set up by the Romans in the year 252 A.D.

stone. A gallery containing many samples of these stones can be seen in England today. It was set up by the Romans in the year 252 A.D. when they returned to Rome. It remains as a memorial to the Roman conquest and is now known as Stone Henge. The aesthetic value has long since been lost due to weather damage.

With the fall of Rome and the descent of the Dark Ages, no advances were made; indeed, pin-ups were almost forgotten. It was not until the invasion of Ghengis Kai taht they were again popular. The

mongols, before leaving for their tour of Europe, had pictures drawn on animal skins to provide them with feminine companionship by proxy while in the field. When Khan's hordes crossed the steppes of Russia, each night their tents would be erected, made of these painted skins. (These tents were a unique form of primitive architecture known as

Many of the skins were left in Europe and inspired the local artists. Many of these, such as Titian, became famous for their work and the era became known as the Renaissance. This was a turning and the era became known as the Renaissance. This was a turning point in history. Since the paintings of the Renaissance artists were exclusive they called their pin-ups 'Art', a word which has come to very expensive only the rich could afford them. In an attempt to be mean anything done by hand which is expensive or odd. (The 'odd' school of Art arose in the 17th century when the wives of the rich, having nothing else to do, attempted painting, and later basket-weaving, singing, etc. Their products were expensive because of their station, and the results were, well . . . odd).

With the invention of the printing press and the discovery of photography shortly thereafter, the common man, for the first time in history, was to have a chance to acquire any number of pictures. The discovery of photography is so involved with the pin-up industry that I must mention it. In 1813, in a small Chinese laundry in Paris, a wash-boy was scrubbing sheets and unknowingly spilled a bottle of silver nitrate into the wash-water. (Silver nitrate crystals were employed solely for the distilling of lab alcohol prior to this incident.) The sheets were then returned to their owner, and that would have been that if it hadn't been for something else. These sheets, in due course, were returned to be washed again; and this time a developing solution was accidently spilled into the washtub. (developing solution was used as an antidote to the blindness effects of lab alcohol prior to this in-

allowed to play bridge in the Art Centre? .Chess, checkers, even "fish" are tolerated, but not bridge. Why the ban on this particular Last Monday afternoon Mary Jane, Charlotte Peggy and Sheila held a party in the lounge at Kelly's Pool Hall. Needless to say, a good time was had by all.

nesday, many of the residents made the supreme sacrifice and nesday, many of the residents made the supreme sacrifice and left their beds at an early hour to attend church. ..!t's very nice to see the sunrise, provided one doesn't have to see it too often!

Last weekend some of the boys arrived armed with buckets of

This is the result of numerous factors: cheaper processes, better re-production facilities, mass distribution and the industry of modern advertising. Modern advertising has taken as it motto "promotez la femme" (this the French for the Latin "sex sells so sell sex". This was the motto of the ancient slave markets of the East). As a result of this Overheard in the vestibule: "Baby, I'm tired of this vertical love — Let's keep house!" advertising technique, many industries have come to rely upon pin-ups. Not only the photographic, publishing and bathing suit industries, but almost every American firm which sells anything from industries, but trailer-trucks and advertises in magazines. It has even been guaged by research economists that if the pin-ups were taken down in some factories, production would drop .05%. We're glad to see that the Engineers finally woke up and realized that the co-eds are beautiful. If they just opened their eyes a hit more, they'd see that there

LUCKY WINNER

If they just opened their eyes a hit more, they'd see that there are sixty queens.

By the way ,it's rumoured that the Ladies' Society will elect a KING OF THE CAMPUS at the Con. Naturally since the Forestry.

To write the words "Engineering" and "Forestry" on the same piece of paper is to fuse the Magnetic Poles. The two are on the opposite sides of the social balance. The engineers work day and night, saving humanity from itself, erecting new and better saloons, inventing, constructing, seeking to serve. The forester lives off the fat of the forest. BUT... we wish to settle in our "minds" which type has the better approach to the solutions of problems in life. For this purpose a Forester and an Engineer were asked to solve a mathematical problem as accurately as possible. The question was this, "Find by accurate computation, the length of a three foot line, the length of which is etched on a standard yard stick."

The Foresters report: I read the question, it looked tough. It was I was smart enough to realize that the numbers 0, 1, 2, 3 on the stick one of those trick questions that needed a special solution. Of course,

I was smart enough to realize that the numbers 0, 1, 2, 3 on the stick one of those trick questions that needed a special solution. Of course, didn't mean anything—probably the "pen-name" of the guy who made it. On to my solution. In the first place it is my belief that the universe does not exist. It is all a dream in the minds of men. Therefore a straight line does not exist. Therefore, no direct measurement can be taken. However, the orbits of certain types of circles at N.T.P. are known to be circular. Thus it follows that if a circle of radius 12tQ where Q is a "large charge" is flattened to the shape of an ellipse, the crossbar of the largest letter A which may be inscribed in the ellipse is I times the length N (A) of the imaginary given line if N(A) is Avagadro's number.

Avagadro's number. After much calculation the length was determined by the expression ((CROSSBAR) \times N(A) = 12.4). Therefore the length of the

stick is 12.4' Engineers Report: "Dear Prof. That was a good question ya tried to filor us with. I 'mejitly realized that the question had to be solved the short way or it would get too long so I tried using me most practical methods. I constructed a twelve sided figure around the given line, each of these sides being approximately 1.1499327 feet long. Then I found the azimuth of the line from me right eye-ball to me naval as I looked at the U.C. weather vane and divided by my age—20. The answer I estimated was too large and since I act like a kid anyway I divided by 8. This was still a little off I figured soI multiplied by a correction factor (I seemed to see TWO weather vanes). Cook's Varistick is 12.4'

divided by 8. This was still a little off I figured sol multiplied by a correction factor (I seemed to see TWO weather vanes), Cook's Variable Constant, currently valued between 0.000000197554 and 9.9122,763-179806 and got me final answer of 7.13'."

It is to be observed then that the poor Forester's method was sensible but not accurate enough. The Engineer's method was dead on. (The Professor got the same answer by counting his fingers in a fast moving Morris Minor.)

In conclusion it may be boldly exclaimed, "The Engineer's way is the ONLY way." P.S.: I have NEVER!

Compliments of Toike Oike

DIOGENES

As the Red 'n Black gets closer, the sound of final preparations are issuing from all quarters. Bill Barwick's room has become the hub of tremendous acitivities and at all hours people scurry in and out with with problems about timing, lighting, editing, rewriting, tape recordings, finance and all the thousand and one details that go into the Red 'n Black each year. Heavy footprints clomped through the halls recently when, led by the house detective, several hired thugs invaded our private sanctums and removed our drafting tables. The loss has resulted in considerable additional clutter as cups, milk bottles, coffee cans, spoons, jiffy jugs, hotplates, bags and old socks had to be relocated. Home-made drafting tables are to be seen in various stages of construction. Most of them incude built-in pockets.

The battle of the bolts continues in the dining room. The first

The battle of the bolts continues in the dining room. The first bolting of the doors reported in the last issue was met with a removal of the bolts. This was countered with the installation of sturdy Yale locks. The answer to that was the pantry window via fire escape. Ingenious methods were invented to lasso the counterbalanced the steps and all was well for a time. A screen has since been installed on the pantry window which has thwarted the efforts of the ingenious to date. However, in nocturnal endeavours as in politics, an empty stomach is a powerful incentive and further developments are awaited
